The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

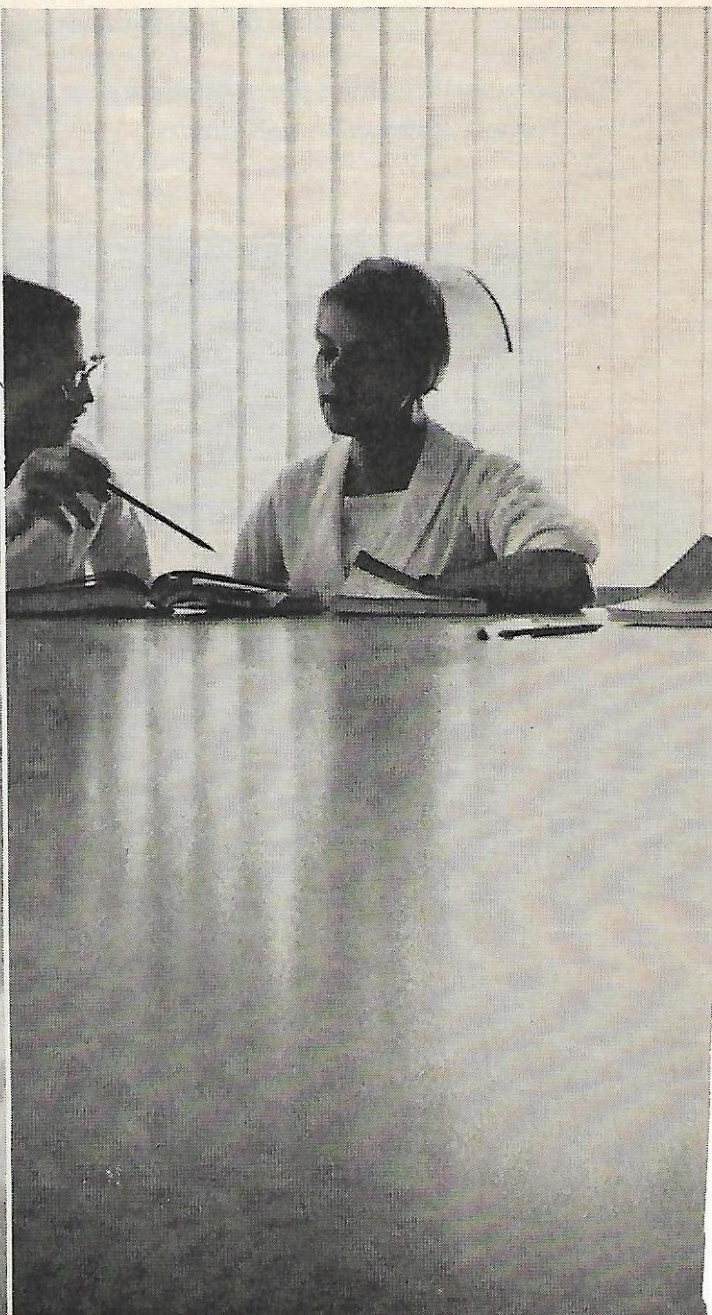

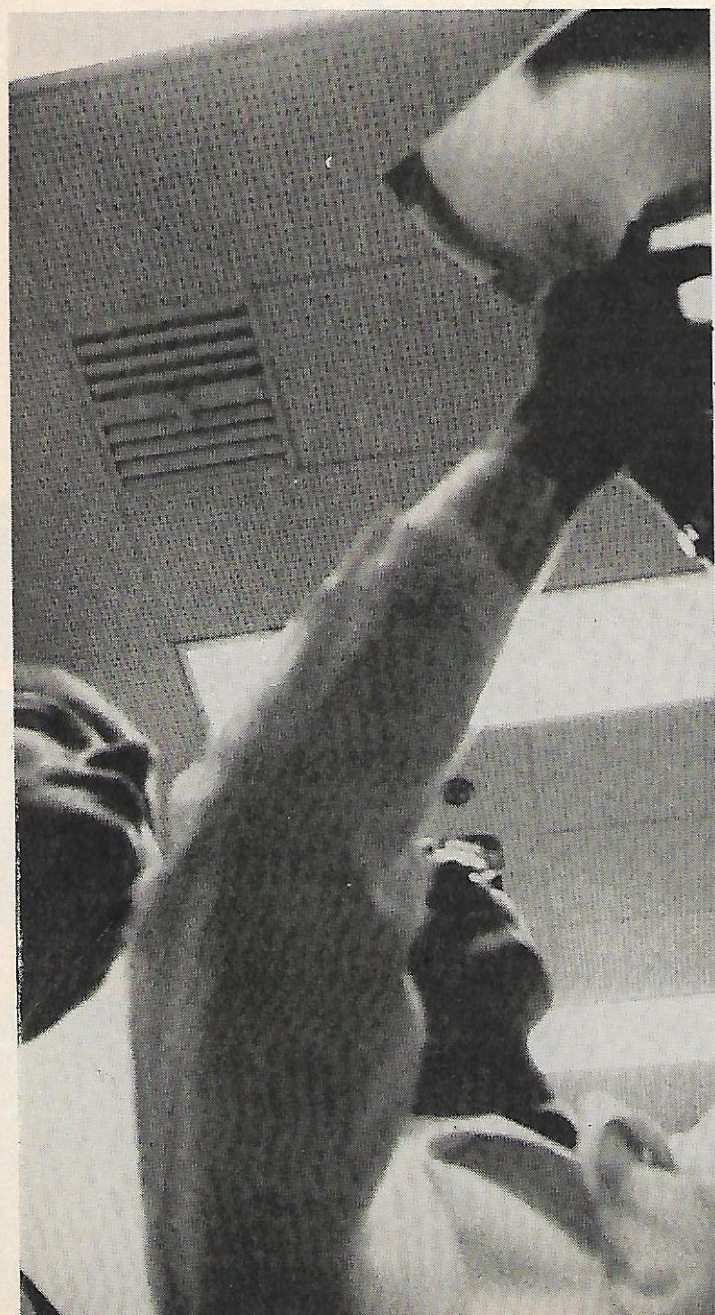

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Do you ever wish for a few extra minutes a day?
Just time enough perhaps to run through a new
procedure once more....
Dulcolax offers a sure, simple way to save much
of the valuable morning time you have to spend
with constipated patients or others who require
bowel cleansing.

One small Dulcolax suppository—clean, unob-
trusive, inserted in seconds against the rectal wall.
No time-consuming setup as with enemas. No
cumbersome equipment to put away. Works in 15
minutes to an hour, so you can "time" evacuations
and reduce "accidents." You can finish the whole
ward in less time, with less effort, less soiled linen.

Dulcolax[®] brand of
bisacodyl

the unique
contact evacuant

Your patients will appreciate the ease and freedom from discomfort with which Dulcolax works. You'll be gratified by the extra minutes it gives you every day.

More Dulcolax is used in U.S. hospitals than any other ethical laxative. Suppositories or tablets.
