VOL. VIII

NO. 16

APR. 18, 1940

## LAKE GENEVA - ONE OF AMERICA'S BEST KNOWN PLAYGROUNDS.

Just now efforts are being made in many parts of these United States to attract those who "like to go places" in the Summer. The City of Lake Geneva is making an unusual bid this year for conventions and summer resort business. To help in this promotion the city has appropriated a percentage of tax money which amounts to \$2479.93 for advertising.

The Chamber of Commerce and the Lions Club have had booths at The Boat Show and also at the Wisconsin Exhibition in Chicago. All of these help in telling about the beauties and attractions at Lake Geneva.

We, here in Williams Bay, have a different attitude toward the Summer Resort business. The emphasis since the laying out of the lake shore subdivisions is for home builders, more permanent residents. In the ten years from 1920 to 1930 the population increased from 430 to 635 according to census. It will probably show a similar increase in the last ten years.

Yes, Williams Bay, is growing. There are more new homes in the process of erection in Williams Bay, than all around the lake.

Most of us believe that the emphasis in Williams Bay should be kept on home building. We like to have our hotels filled with folks who come for a day, week or month for recreation. Our job is to make their stay so pleasant that they will wish to buy a lot and build a cottage or mansion.

The members of the Men's Community Club, 116 strong, wishes to specialize on making the local resident and the summer guest have such a good, wholesome time while here, that he will go away "telling the world" what a wonderful place Williams Bay is for "living".

It is interesting that a minister who recently decided to accept a pulpit in Williams Bay, making the choice from several calls, chose Williams Bay after careful study, because "it had such a fine reputation for being an aggressive community, and a growing village". Let's not let him down in his choice.

We haven't much money to spend, but we can spend time in being goodhosts to those "who come among us." Take the initiative and speak to the strangers.

Hitler has started his spring cleanup a little early, but some- of what was left we could have set what in earnest. He gets an idea aside a sum at 5 per cent that would as to about when and where he wants provide a \$5,000 yearly salary for to "clean up" then moves an army an army of 25,000 clergymen, and a in and starts pillaging and murder- like salary for 25,000 teachers. ing. If he isn't crazy they ought The wants war! The people would be end wars cost, and the present war just as safe. He invaded Norway will cost even greater before it is thru the work of traitors but it ended. It will cost all the democ- won't be so easy for a Nazi army racies in the world as well. to invade Sweden. It has more pop- ulation (6,250,000) Norway a little over 3,000,000 people. Sweden has a military manpower of between 600, 000 and 900,000. Has the best anti- air craft guns in the world. Sells them to 22 different countries. Sweden has the fourth largest mer- chant marine in the world (4000 ships.) Germany wants Trondheim and Bergen in Norway as air bases from which to bomb England. So the fight is on. Let us hope it will be a victory for the Allies.

#### FALSE FIRE ALARMS

There were 12,344 false fire alarms in New York city alone in 1939, which cost the tax payers thousand of dollars. Every citizen pays for false alarms finally. Do not call a fire department unless you see that the fire is uncontrollable, then do not hesitate.

In rural places it is just as important as in the city, as volunteer firemen who make up the fire department are often called out of their beds or from their meals on an errand of waste to answer a call that turns out to be a false alarm, and what for. Of course firemen want to be called to prevent the spread of fire, and are ready and alert in response to their duty, but a false alarm means waste and many times can be prevented.

#### HOW MUCH DO WARS COST?

Here are a few figures. The war cost Finland when she lost to Russia in the new world war. An official estimate places the cost at \$600,000,000. The government spent \$200,000,000 on armed forces; Russian air-raids destroyed \$40,000, 000 worth of non-military property; and the territory ceded to Russia by the peace terms was valued at more than \$360,000,000.

#### THOUGHT MONEY WAS NEEDED IN CHINA

Harold S. Vanderbilt, New York and Palm Beach, Fla. has sold his Lockheed airplane recently to Chiang Kai-Shek for a reported price of more than \$100,000. The Chinese ruler will receive a very fancy job, as this plane is equipped as luxuriously as a club ship, with radio, telephones, lounges, desks and the such. It is capable of high speed and long range.

The World War fought in 1914-1918, all told, cost, apart from 30 million lives, 400 billion dollars. With that money we could have built a \$2,500 house, furnished it with \$1,000 worth of furnishings, placed it on five acres of land worth \$100 an acre, and given it to each family in the United States, Canada, Australia, England, Wales, Ireland, Scotland, France, Belgium, Germany and Russia.

#### FROZEN FOOD WAS HAD LONG AGO

We could have given to each city of 20,000 inhabitants and over, a five million dollar library and a a hundred pies were baked at a time by American colonists, who froze and stored them in large jars. When wanted, a pie was thawed out in a pie cupboard in the chimney.

### GOOD TIME HAD BY ALL

The Men's Brotherhood Box Social held at the Congregational Church was a very fine affair. The men furnished the lunch boxes and the ladies bought them. Ed. Zabler was the auctioneer. A 50 ¢ limit was placed on the bidding.

All baskets went for the limit. There was some mighty good eats.

Mr. Fensholt was not able to be there as he and Mrs. Fensholt were called away on account of the death of an aunt.
