VOL.VII

NO. 45

NOV 16. 1939

IT WAS EVER THUS .

"TEACHER:" John, What shape is the World?"

Johnny:" Dad says that it's in the worst shape it ever was."

That is a joke that was common back when our grandfathers were kids in school. Even then it had probably been handed down from generations to them.

Each generation is prone to think that it's particular time on the pages of history is the best or that it's conditions are the worst. The answer lies in one's outlook on life, whether he is a pessimist or an optimist.

The generations which are alive today have entirely different points of view. Grandfather was reared in the days of "chores", with an always empty woodbox, water to bring from the well, the cows to milk; father had less of these to do but even he lacked many of the conveniences which the youth enjoy; youth takes the electric stove, the water from the faucet, the daily supply of milk at the door, the sanitary systems, as a matter of course.

Yes our method of living has greatly changed since grandfather was a boy. We like to say that it has been the greatest in history. The greatest advance in comforts has taken place.

We have greatly advanced in "being educated". When grandfather was a boy few even finished the rural school. In father's day more had an opportunity to go on farther to school, and now youth must go to school. College education is common.

We have also made advances in the treatment of our brothers. Our prisons for the care of those which have been removed temporarily from society are "models". Factories make the working hours as pleasant as possible with modern facilities. Business in general stresses "service" to the customers.

We in America have learned to get along together as nationalities and in the "melting pot" make Americans out of all nations of Europe. What is needed now is to have the countries from which Americans came originally learn the lessons that our immigrants have learned, namely, that after all our neighbors are "good scouts" and forget old hatreds; start at scratch and learn each others good points.

We believe this can be done by a world economic conference.

## TELLS OF TRIP TO MAMMOTH CAVE

Mr. C. W. Anderson told his comrades of the V. F. W. about the interesting trip that he and Mrs. Anderson and their two daughters took during the weekend that the school was out when the State Teachers Convention was held.

They visited Lincoln's Tomb at Springfield, the log cabin in which Lincoln was born in Hodgenville, Ky.; the place where Swanee River was written and Mammoth Cave.

The Veterans met last Thursday eve at the Williams Bay Fire Station.

## REGULAR MEETING OF WILLIAMS BAY VOLUNTEER FIRE DEPARTMENT

At the meeting of the Firemen on Monday night it was announced that funds were on hand to pay off one thousand dollars on the mortgage. After this payment there remains but \$1500 debt. If all goes well it is expected that all the debt will be cleared up.

The building would cost \$10,000 to duplicate, including the heating and plumbing.

Some doubt was expressed as to the possible life of the fire engines. The Bay engine was purchased in 1923, sixteen years ago. Though it is kept in excellent condition you may have noticed that it does not have much speed. So many new improvements can be had on new engines that one begins to wonder if it isn't pretty near time for the Bay to have one.

## WALWORTH COUNTY BOARD IN SESSION.

The Board is trying to keep the new budget down in spite of the additional expenses of the new hospital. The amount asked of Williams Bay will be about the same as last year, possibly a few hundred more. Our member of the Board is Victor Hansen.

## COMMUNITY CHRISTMAS PAGEANT

Representatives of the churches, Men's Community Club; P.T.A.; Woman's Club; Study Club; A.A.U.W. Garden Club and the School Faculty met in Supt. Viste's office last Monday afternoon to consider a plan for a Community Christmas.

It was agreed that it would be a good plan to have such a plan. A committee was selected to choose a Pageant.

The tentative dates of December 20th and 21st were selected. The place will be the High School.

Kenneth Viste is the general chairman. Others on the committee are Rev. Keiser, Mrs. Eric J. Werner and Miss Radebaugh.

The committee has selected the pageant "Light of the World".

There will be work for nearly every one in the Bay, so be ready to sing, help make costumes or something worth while.

## WORK AT LAKE SHORE PROGRESSING

The work along the lake shore is taking shape and looks very fine. The white posts with chain will be placed in front of a hedge which will extend along the beach from the Wisconsin Transportation Pier east.

This job is being done by local men and paid for from Village Funds.

## CARYL RIPLEY IMPROVING NICELY

Mrs. Ripley says that Caryl is gaining his strength rapidly and will be coming home soon.

The operation which was serious was a success.

All Caryl's friends will be glad to hear this good news.

Send him a card care Wisconsin General Hospital, Madison, Wis.

## A L E R T.

"On the look out" is the definition for Alert, hence the word applies to David Zabler, who has been a carrier for "Bay Leaves" for several years.

Upon reporting for work a couple of weeks ago David told the editor that he noticed a stream of water gushing out of the road at the far end of Orchard Street and thought that it might be a broken water-main.

The editor reported to Mr. Wesley who found it to be a really bad break in the main. As it was up at the end where no one passes it would have wasted a lot of water if not discovered at the time.

Mrs. Louis Soplana who lives nearest, says that at about eleven in the morning there was a loud noise in the pipes, which was probably made by the break.

Such interest in the Village is to be commended. It saved the tax payers money.

Boys are urged to be on the alert. If any one of their companions should destroy property, shoot the electric light bulbs, break windows in the shelter or other similar damage, first deal with them as a friend and if he can get no action report same to a village official.

The Boys did such a fine piece of work on Halloween that it shows what can be done.

## FROM LAWRENCE COLLEGE NEWS

Selden Spencer, son of Mrs. Julia Spencer, Wms Bay, and a senior at Lawrence College, is a member of President Barrow's Honor Roll, and president of Delta Tau Delta, a member of Executive Comm. of "Sunset", Lawrence College Dramatic Association, member of Epsilon Sigma Phi, the a capella choir, and is on the varsity swimming team.

## A.A.U.W. MEETING

Members of the Walworth Co. branch of the A.A.U.W. met at the Hotel Normandie for a six o'clock dinner and program, on Wednesday evening, November 15.

Mr. Glen Birkett of Rochester, Wis. spoke on the Problems of Relief. He is in favor of township relief instead of whole county relief, which would cost some communities and taxpayers much less than others. Many reliefers depend too much on this assistance and it really becomes a habit with them to sit by and wait for assistance. Not many people who are willing to work want dole and a system should be worked out by the proper authorities to give them something other than this.

Miss Alberta Stenslund, Elkhorn, county social worker, spoke on "Relief Problems from the Point of View of the Walworth County Childrens Board".

One hundred three children in Walworth county were placed in foster homes this year as compared to 88 last year.

Esther Hotton gave a reading. Sixty-three members were present.

## THE STUDY CLUB

members will hold their regular meeting on next Tuesday evening November 21, at the home of Mrs. Harold Pierce, Geneva street. Miss

Margaret Anderson will give a paper on the "Music of Stephen Foster", Miss Genevieve Davis will talk on the Music of Victor Herbert.

## THE CONGREGATIONAL CHURCH CHOIR

members are busy these days making plans for their "Salmagundi" party, which is to be held in the basement of the church next Monday evening, November 20. Mrs. Wm Phipps, music chairman of the choir, has tickets for sale at 25¢.

## THE MEN'S BROTHERHOOD

members of the church will have their next meeting, next Wednesday evening, Nov. 22. An unusual program is being planned by the committee.

IN WASHINGTON DURING NEUTRALITY  
DEBATE

Mr. and Mrs. M.T. Peterson returned last Friday from a trip by motor covering 13 states and District of Columbia with the speedometer registering 3225 miles.

Congressman Bolles was a good host and secured passes for them to be in the visitor's gallery during the time that the debate was on over "Neutrality". They also saw the Bureau of Engraving and saw them printing money; got their fingers imprinted at the Bureau of Identification; and found Washington a beautiful city.

Enroute they stopped at Greenfield Village, Dearborn, Mich. where Henry Ford has assembled a great number of historical buildings, etc.

## WILLIAMS BAY WOMAN'S CLUB MEETS

VISIT YOUR LOCAL LIBRARY THIS WEEK,  
NATIONAL BOOK WEEK

Mrs. Jesse Greenstein, Mrs. Rob't Burton, Mrs. Arvid Thompson and Mrs. Louis Henyey, the group presenting the program "Education In The Home" at the meeting of the Williams Bay Woman's Club last Friday, November 10, stressed the idea that parents and teachers should develop the child's personality, that it was more important than developing the intelligence, or development of the mind.

If a child in the home is small in stature or has a handicap he is apt to develop an inferiority complex if he is not carefully guided so as to relieve his mind of the fact. Each child is an individual when it comes to character and great care should be given to develop this to the best of his advantage. When you help to develop ones personality you naturally develop character.

Children, as well as adults, should not use all their leisure time for pleasure, so having a hobby, or doing something which is entirely away from the routine of what one must really must do, is an education.

The home has educational advantages in selective radio programs, good books and magazines, which when well chosen make for cultural development in the individual, along with religious training. Children as well as adults should learn to like things which help them mentally to grow. Hobbies, something you like to do or be associated with, are recommended for educational development. One should plan their leisure time to bring them this development as well as pleasure.

Have an avocation you like and you will get much richness out of life.

At the Congregational Ladies Aid meeting on Thursday, Mrs. Elliot R. Downing lead the discussion on "What Does Democracy Mean in America". Mrs. Selden Spencer and Mrs. Victor Keiser assisted in the program, which was in keeping with the Thanksgiving season.

and become acquainted with the good reading matter there for your enjoyment. Statistics on the reading of books, magazines and newspapers, interviewers made a survey and discovered these facts-

### What makes books readable?

Content, theme, plot, most important to average reader. Style is next most important. Format least important.

Most people read more magazines and newspapers than books. Average adult reads 90 min. per day. Middle grade magazines (women's magazines, etc) are most widely read. Sensational story magazines next. Books read by less than 50% of the people interviewed, and those who read books preferred lightest type of fiction.

Regional differences- California- high class magazines (Harper's) Atlantic Monthly, etc). read by about 1 out of every 40 people. Mississippi- 1 out of every 412 people. Type of schools and public libraries are responsible for these differences.

### Occupational differences

Amount of education - of college graduates, 4% read no book in past six months. Of grade school graduates, 73% read no book in six months.

Women versus men- Women read slightly more than men. Unmarried read much more than married.

Newspapers- Opposite tendency. Of college graduates, 12% read papers about one hour daily. Of grade school graduates, 44% read this much. Men read more papers than women. Married read more papers than unmarried.

GENERAL REMARKS- Book readers are more active in social affairs than those who read chiefly magazines and newspapers, are more interested in theatres and other amusements, are more often club members, listen less to radio, and go to bed later.

There is a great improvement in the quality and variety of all reading.

as education increases.
