<http://rightsstatements.org/vocab/InC/1.0/>

The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

DEPENDABLY
PROMPT
ACTION WITH
SAL HEPATICA[®]

We could quote references by the score on the value of a saline laxative, but your own experience is the best guide to its use.

Since 1895 SAL HEPATICA has been recommended by physicians and liked by their patients because laxation is dependably prompt, usually within an hour. Its continued acceptance is its best recommendation. Flexible dosage allows the drug to be adjusted to the individual, whether child or adult.
