MINUTES OF THE REGULAR MEETING  
of the  
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall  
Friday, February 8, 1980  
9:00 A.M.

President Grover Presiding

PRESENT: Regents Barkla, Beckwith, DeBardleben, Elliott, Erdman, Fitzgerald, Fox, Gerrard, Grover, Lawton, Majerus, O'Harrow, Thompson, Walter

ABSENT: Regents McNamara, Veneman

Upon motion of Regent DeBardleben, seconded by Regent Fox, it was voted that the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on December 14, 1979, be approved as mailed to the members of the Board.

---

REPORT OF THE PRESIDENT OF THE BOARD

Since there were no comments or corrections, the Report of the Vocational, Board Technical, and Adult Education Board meeting, held on January 15, 1980, was ordered filed with the papers of this meeting (EXHIBIT A).  
*noted: minutes of 1/15/80 meeting*

Regent DeBardleben, chairman of the special committee of the Board appointed at the December 14, 1979 meeting upon recommendation of President Grover, reported that a hearing had been held in 1820 Van Hise Hall on December 28, 1979 for the purpose of giving the contending parties an opportunity to be heard. Each member of the committee (Regents Erdman, Fox, O'Harrow, and DeBardleben) was present and participated. The appearances on behalf of Gregory Olson were Mr. Olson, Edward Muzik of TAUWF; and respondent, Chancellor George Field, with Dean Richard Swenson and Donald Murphy, their counsel. During the argument of their respective positions, the parties stipulated that Gregory Olson's first year as a fixed-term academic staff member had been credited toward time in a probationary faculty position and, therefore, at the time of the giving of the notice of the non-renewal in December of 1978, he was serving in the third year of a probationary faculty appointment. It was further stipulated by the contending parties that the sole issue for determination was the question of whether the termination of the 12-month notice prescribed by UWS 3.09(1)(c) would correspond with the termination of the academic year. After considering the record and hearing the contentions and arguments of the parties, the committee unanimously recommended to the Board the approval of the declaration reflected in Resolution 2067, which was moved by Regent DeBardleben, seconded by Regent Fox, and voted, with Regent Barkla abstaining:

- ✓ - Regent Committee
- ✓ - UW-RF, faculty
- ✓ - Appeals to BOR

*noted: Termination of employment of Gregory Olson effective with the 1979-80 academic year, R 2067, PPI-2*

Resolution 2067: That, UWS 3.09(1)(c) and UWS 3.10, Wisconsin Administrative Code, are applicable to the appeal of Gregory Olson. A notice of non-reappointment and termination of appointment given to Gregory Olson in December, 1978 could have become effective not earlier than the close of the 1979-80 academic year, and the notice which was given should be construed as though it had been given accordingly.

Appointment of a UW-Milwaukee representative as a Director of the Milwaukee Regional Medical Center was deferred to the March, 1980 Board of Regents meeting since Regent McNamara, who is presently serving in that capacity, was out of the country, and President Grover had not had an opportunity to discuss with him whether he wished to continue to serve.

- ✓ - Broadcasting
- ✓ - Radio
- ✓ - Regent Committee

As suggested in discussion which took place at the Board meeting on December 14, 1979, a Regent subcommittee had been appointed by the President to review existing practices related to political broadcasts. The chairman of this subcommittee is Regent DeBardeleben, with Regents Barkla and Walter serving as members. A report will be brought back to the Board no later than the September 5, 1980 meeting.

*notator: Regent Committee to review existing political broadcasts established w/ Regent De Bardeleben (chair), Barkla + Walter, p. 2*

Following action of the Board at its November meeting, proposed UWS 20, Wisconsin Administrative Code, relating to rules concerning procedures for determinations and appeals of classifications of students for tuition purposes, under sec. 36.27(2), Wisconsin Statutes, was referred to the Education Committee of each house of the Legislature on December 5, 1979. Since 30 days had passed without comment from the Committee, Resolution 2068 was moved by Regent Beckwith, seconded by Regent Fitzgerald, and passed, with Regents DeBardeleben and Walter voting "No." Regent DeBardeleben stated he was voting against the resolution because he felt the matter should be handled on a Systemwide basis rather than on an individual campus basis.

Resolution 2068: Pursuant to authority vested in the Board of Regents of the University of Wisconsin System by sec. 36.27(2), Wis. Stats., the Board of Regents hereby adopts the attached rules (EXHIBIT B) concerning procedures for determinations and appeals of classifications of students for tuition purposes, as Chapter UWS 20, Wisconsin Administrative Code.

- ✓ - Administrative Code
- ✓ - Tuition
- ✓ - Fees
- ✓ - Non-Resident Fees

The following resolution was unanimously adopted upon motion of Regent Erdman, seconded by Regent DeBardeleben:

*notator: Procedures for appeals of classifications of students for tuition purposes under UWS 20, R. 2068, p. 2*

Resolution 2069: WHEREAS Edwin Young served with conspicuous distinction as president of the University of Wisconsin System; and

*President  
Young, Edwin*

WHEREAS he successfully guided the university at Madison through the extremely difficult years of the late 1960s and early 1970s when unrest and dissention threatened the very existence of that institution; and

*notation:*

WHEREAS he dedicated his professional life to higher education, including services as a professor of economics, director of the University of Wisconsin School for Workers, president of the University of Maine, and president of the National Association of State Universities and Land Grant Colleges; and

*Resolution of  
commendation  
for President  
Young, R 2069,  
pp 243*

WHEREAS he served the national interest as director of the University of Wisconsin--Ford Foundation Indonesian Project, as a member of the advisory committee to the government of Pakistan, and as a member of the board of governors of the East-West Center;

BE IT THEREFORE RESOLVED that the board of regents through this action officially commends Edwin Young for his exemplary service to the University of Wisconsin System and to the entire State of Wisconsin; and wishes him well as he returns to his position as Professor of Economics at the University of Wisconsin-Madison.

BE IT FURTHER RESOLVED that this commendation attests to the gratitude and affection for Edwin Young that is shared by the members of this board of regents.

Reporting on the status of recruitment for the Secretary of the Board, President Grover stated that, of the 260 inquiries received to date, 156 were from females and 104 from males, with 68 individuals having submitted completed applications. It was anticipated that in excess of 100 completed applications will have been received by the filing deadline of February 15--the majority of which will be from women. President Grover recommended that the Executive Committee be given the responsibility for the final screening and selection of the Secretary, with all Regents invited to attend and participate in each Executive Committee meeting. However, because of the large number of applications, he recommended that a System administrative committee should do an initial screening to reduce the candidates to a pool number not to exceed 25 for consideration by the Executive Committee. Also, because of the number of applications received, it is not likely that the selection process can be completed prior to the April meeting.

Prior to the vote, President Grover stressed the importance of the Executive Committee having the full faith and confidence of the entire Board as this selection is made, and any objections to the procedures spelled out in the material should be clarified at this point. There were no comments and the following resolution, which was moved by Regent Beckwith, seconded by Regent Majerus, was adopted unanimously:

*✓ Regent Officers*  
*notation:*  
*Establishment of*  
*committee to*  
*screen applicants*  
*for Secretary of*  
*The Board of Regents,*  
*R 2070, pp 344*

Resolution 2070: That, upon the recommendation of the President of the Board of Regents, the President of the Board be authorized to constitute a small system administrative committee to screen applications for the position of Secretary of the Board of Regents, and to establish a panel of not fewer than 20 nor more than 25 individuals as the most qualified applicants for the position to be considered further by the Board;

That, further, the Executive Committee of the Board be authorized to (a) examine the panel of names recommended by the administrative committee, as well as the names of those applicants eliminated in the review by this committee; (b) reconsider at its discretion the name of any eliminated applicant to determine whether or not this person's name should be added to the panel; (c) examine the qualifications of each applicant on the panel and select a group of not fewer than three nor more than seven persons judged best qualified; and (d) interview finalists still seeking the position for purposes of selecting the new Secretary to the Board. All members of the Board shall be invited to each meeting of the Executive Committee in this search and selection process, and all members attending such meetings shall be considered as voting members of the Committee.

Regent O'Harrow extended thanks on behalf of himself and his wife to all who had written and phoned to extend their support in "our past few weeks of trouble and sorrow. They have been very helpful to us in this new experience. However, in view of the fact that today we're starting in a new era, please put this out of your mind (as I am going to try to) and we'll think about the new era starting today." Regent Grover extended his thanks to Regent O'Harrow and stated: "The empathy and sympathy of the Board and of all people associated with this University System are extended to you and your family with great sincerity and with great feeling."

---  
 REPORT OF THE PRESIDENT OF THE SYSTEM

Regent Erdman expressed concern over the fact that the informational report on the student loan system which is offered throughout the University of Wisconsin System should warrant a place of much greater importance in the Business and Finance Committee or the Education Committee or, if not there, it should receive greater attention from the Board. It was established that the report to which Regent Erdman was referring was the Report of Informational Items prepared by Vice President Lorenz and not the Report of Non-Personnel Items. Vice President Lorenz stated that the report in question is a status report of existing procedures, and the report which was submitted to state officers reflected no changes from current practices. Since there were no policy decisions involved and no changes, it is treated as an informational item rather than an action item.

*Student Loan Funds  
return; Regent discussion on student loans, pp 4-5*

Regent DeBardeleben asked when, if ever, the determination was made by the Board that the respective institutions should have the responsibility for collection of accounts rather than having accounts collected through the supervision of the System on a Systemwide basis. Vice President Lorenz stated that the preliminary responsibility rests with the institutions, who can then come to the System legal office for assistance and then go to HEAB. If HEAB does not collect the loans, the campus can make contact with the Office of Education. However, it has always been the preliminary responsibility for the granting institution to take the first step for billing.

In response to Regent DeBardeleben's comment that the report states that the System has the "ultimate" responsibility, Vice President Lorenz said that, according to the federal report, the "ultimate" responsibility reverts to the institution which has the contractual relationship with the federal government because they provide most of the support. However, the process goes through the System for determination of collectability. Asked by Regent DeBardeleben if there is no way that this collection can become centralized, Vice President Lorenz said that this is essentially what exists now through HEAB; however, it still is referred back to the respective institution for reporting to the federal government. Each element has its respective relationship.

Because of the shifts in state laws which govern this relationship to HEAB in the billing process, it was suggested by Senior Vice President Smith that this issue be considered separately for discussion in the Business and Finance Committee for information because no changes in policy are included. Regent Erdman agreed with this approach, feeling that a report of such major significance deserves a more serious glance. "You read a continual flow of the criticism of the loan program, and my point was that we shouldn't pass over it as an informational item which is simply accepted." Upon motion by Regent DeBardeleben, seconded by Regent Beckwith, the following resolution was adopted:

Resolution 2071: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified and confirmed (EXHIBIT C).

President O'Neil stated his desire to begin, as soon as possible, to fill three senior administrative positions which would bring the roster of the President's office back to (but not beyond) the full complement which existed several years ago. Specifically, he wished to begin to seek the Senior or Executive Vice President to succeed Donald K. Smith when he returns to full-time teaching beginning July 1, 1980, and to seek a Vice President for Academic Affairs--a position which has been authorized for some time but not filled. It was his feeling that both of these posts would provide the essential academic leadership for this large, complex, and diverse University System. The third position for which President O'Neil wished to begin recruitment was for a Vice President for University Relations. System external responsibilities are likely to become increasingly important and difficult, and it was his feeling that the System could make good use of a senior officer in that area to coordinate

relations with city government (both executive and legislative), enhancing the System's presently close and effective liaison. "Much has been accomplished by the System in this area, calling upon the dedication of staff members who have multiple responsibilities, but it seems wise at this time to give full recognition to the scope and level of staffing needed for this area. I will find extreme need for an experienced senior officer to represent the University at times and on issues of an external character to which the President can't always give personal attention."

President O'Neil stated he preferred leaving the position of Provost for University Outreach unfilled, feeling that other needs outlined were more urgent. While the activities of Extension and the Center System require the highest level of coordination, he felt this coordination should come directly through the Vice President for Academic Affairs. Under his proposed staffing plan, the existing number of senior administrative positions would remain essentially as in the past, although the functions may now be more clearly defined. Assuming receipt of authorization to proceed, it would be President O'Neil's hope to have all three positions filled not later than the start of the next academic year, and even earlier if at all possible.

Asked by Regent Beckwith for a clarification on the process envisioned as the search is undertaken for the Vice President for University Relations and whether a traditional faculty-type committee would be used, President O'Neil said he felt the traditional search and screen committees would be used for the Executive Vice President and the Vice President for Academic Affairs but, in the case of the Vice President for University Relations, the position would be announced and candidates sought and screened in much the same way. However, he preferred to use an advisory committee, chosen in a slightly less formal manner, for the purpose of screening and reviewing candidates for that position. He had not determined what the composition of the advisory group should be. In a similar situation with which he had been involved, a formal search and screen committee was not used; a committee of faculty, students and other interested persons was established that operated in essentially an advisory capacity. Regent Beckwith agreed generally with the approach outlined but did feel that this is a position of particular interest to the System and to the Board of Regents, so there should be significant involvement on the part of System Administration and Regents and less involvement on the part of students and faculty in this particular case. President O'Neil did feel there would be a Regent committee for this position as well as the other two.

Regent DeBardleben expressed concern about the suggestion that there is less need for faculty involvement, although Regent Beckwith said he only felt that this committee ought not to be--as is traditionally the case under System policy--dominated by faculty. When a search and screen committee is established, they are normally predominantly faculty and this seemed proper. However, this appeared to be more of an administrative job, of particular interest to the Regents and to System Administration. While there should be faculty representation on it, he did not think it should necessarily be dominated by faculty. Since one of the functions of this position would be to speak for the System on occasions when there was need, or to speak for the President, it was unclear to Regent DeBardleben why the faculty should not have as strong a voice as ever in the selection process. President O'Neil felt some difference could be the fact that it is not an academic administrative position. He stated that, in the

*Administration*  
*Vice President*

*same status as ea; search & selection authority given to System President for appointing System Executive Vice Pres., Vice Pres. Academic Affairs & Vice Pres. for University Relations, with request Regular Board 2-8-80*  
*R 2072, pp 5-7*

earlier-referenced previous experience, several faculty members were involved who had either a special interest in or professional expertise in university relations, making it essential that they be involved in the work of the advisory committee. Several faculty from parts of the System would be involved in a similar way. "I can't imagine conducting a search at this time for any senior position without significant faculty involvement. The distinction turns on the formality of the selection of the faculty membership for the committee and the necessity would certainly exist in the case of the other two positions for having a dominant faculty voice on the search and screen committee."

Upon motion of Regent Beckwith, seconded by Regent Erdman, the following resolution was adopted:

Resolution 2072: That the Board of Regents approves the request of the President of the University of Wisconsin System that he be authorized to proceed immediately, in accordance with Regent policy, with the search and selection process for appointing a new Executive (or Senior) Vice President for the System and a Vice President for Academic Affairs, and  
*notator; search & selection authority for appointing System Vice Pres. for*  
That the Board of Regents further approves the President's proceeding with the search and selection of a Vice President for University Relations. The Board directs involvement of a Committee of the Regents in the final interviewing and selection process. An appointment to this position is contingent upon appropriate modification in the UW System positions enumerated in Sec. 20.923, Wis. Stats.

*Academic Affairs*  
*Academic Affairs given to System President, R 2072, pp 5-7*

President O'Neil reported that a detailed schedule had been worked out for his visitation to each of the University campuses by the middle of May. A day had already been spent at UW-Milwaukee, and he would be at UW-Superior on February 26. Visits at UW-Madison would be of a slightly different nature. The University Committee would be meeting later in February, and he planned to spend parts of several other days visiting with University and community groups in Madison. By spring, he anticipated having spent at least one day at each of the Universities and also to have visited several of the Centers in his travels about the state. With so much to learn first-hand, he felt there was no better way of doing so than through personal contacts with faculty, students, administrators, and community members.

He also noted that, since being asked to assume to position of President, he had been fortunate in meeting with the Governor, with some members of the Legislature, with the faculty representatives, the Chancellors, and the President of the United Council of Student Governments. During these visits, he had learned much about the issues that are pending and others that will come to the fore in the months ahead. "It is not likely that I will be able at once to respond fully to all the complex issues that face the UW System in the next decade. Yet, this System is truly a microcosm of public higher education and should assume leadership in solving many critical problems that will face all state universities in the '80s. In this decade ahead, I hope that other states

may look to Wisconsin for guidance, wisdom, and courage in meeting the often formidable challenges which face all of us in college and university life. To the extent I can, I hope to help this great University System, and the state which supports it, provide that kind of example."

✓ *United Council on UW Student Governments*

*notation: Report on campus participation in UC, p. 8*

President O'Neil introduced Tim Fleming, President of the United Council of Student Governments, and commented that the two of them had met for one hour earlier in the week to discuss a number of issues on which they will be working together in the months ahead. Mr. Fleming presented a report of the activities of the United Council of Student Governments for the past year as follows:

1. A very productive meeting had been held with President O'Neil. He felt the President's openness will be good for the students, the faculty, and the System.
2. The United Council has every school participating and supporting the organization for the first time, except UW-Madison. It was his hope that, after the Council sets some kind of example for them, the UW-Madison students will know that the Council believes education is important and is putting a lot of money into it. Problems which existed when Mr. Fleming first came into office, relating to some campuses not understanding what United Council represents, have been resolved, and people are developing a fuller understanding. "We all come from state universities that Chancellors are elected to and are willing to lend any assistance we can provide to help make things run more smoothly and not try to "rock the boat."
3. A hearing had just been held relating to collective bargaining, and it was possible to assure that the students' rights areas are protected and that participatory roles and access would be retained so that their views are put into the process.
4. There are no current problems relating to fees—with the exception of one campus, and it appeared that most of those problems since merger have been worked out. In five years, student control has come a long way and the students have begun to understand the long-term effects of segregated fees and are looking at budgeting in five and ten-year periods instead of just the short-term run about who is elected and what is important for one year.
5. The segregated fee audit has been released and United Council was looking forward to working with System Administration to clarify some of the roles in the non-allocatable portion and in other areas of segregated fees of concern to students, such as reserves.
6. Mr. Fleming said students regretted seeing President Carter's suggested \$2 million cut in financial aids. Wisconsin student organizations, in conjunction with other similar groups throughout the nation, and working with the United States Student Association in Washington, D.C., were able to secure passage of MISA--the Middle Income Students Act. However, support is needed from a variety of sources to retain adequate student aid programs.

7. United Council has taken a responsible stand on the issue of registration for the draft that will deal with the proposed legislation on its merits. Students do feel the voluntary army can work and that the registration proposed by the President is unnecessary. However, a course of action which avoids violence and vandalism on the campus will be endorsed because such actions eventually cost the students money.
8. In considering residence halls, early in the year students expressed concern over the fact that the concept of in loco parentis had been ended in the early '70s; however, not all Chancellors consider the students as adults and able to control their own lives. It was hoped that consideration would be given to the option of open policies in residence halls in the future where this does not exist at present.
9. The Student Regent Bill has now been introduced which, if passed, would allow greater access to the Board. While there is input at this point, students would like to have involvement which would extend beyond sitting in on discussions. In the studies by United Council of other states which utilize student regents, they appear to have performed admirably in all aspects of their assignment.
10. There appeared to be limited prospect for the 19-year-old drinking age bill to pass. It was considered likely that the attitude of the Legislature would change in this regard now that 19 year olds were being looked to for draft registration.
11. Students have been successful in achieving some landlord-tenant reform laws in the state, after working for five years on legislation which deals with tenant rights and related responsibility for assuring the landlords uphold them. It was hoped that the students living off campus would have access to information that assures they are being treated in a reputable manner and that their rights as tenants are being fulfilled.

## REPORT OF THE EXECUTIVE COMMITTEE

The Executive Committee of the Board met on Thursday, December 27, 1979 and adopted a resolution relating to the purchase of the Bay Apartments for UW-Green Bay and enumerated this project for the 1980 Capital Budget Review Session at a cost not to exceed \$2 million to cover the cost to purchase and renovate the Bay Apartments, presently owned by the Inland Steel Development Corporation. The minutes of this closed session of the Executive Committee had previously been distributed to the Board. It was moved by Regent Fitzgerald, seconded by Regent Fox, and carried (Regent Beckwith abstaining), that the following resolution be adopted:

Resolution 2066: That the actions of the Executive Committee on December 27, 1979 (EXHIBIT D) be ratified and confirmed.

*see last page for indexing this item*

Vice President Erdman Presiding

REPORT OF THE EDUCATION COMMITTEE

*--- Nursing, School of  
notation: Discussion of  
nursing study Committee  
report,  
pp. 10-11*

The report of the Education Committee was presented by Regent Lawton. He stated that the committee heard the final report of the Statewide Study of Nursing and Nursing Education as a first reading with the expectation that in March System Administration will submit to the Regents its position on the study and associated recommendations. Professor William Blockstein of UW-Extension, chairman of the System Health Science Advisory Council (HSAC), reported on HSAC's reaction to the study report and their recommendation concerning this report. Professor Blockstein presented a statement noting, among other things, that HSAC, acting as an advisory body to System Administration and the Regents, had considered the report of the Nursing Study Committee and its 14 specific recommendations. Actions recommended by HSAC include:

1. A pledge of support to the effect that the UW System planning and program development process will address the problem of maldistribution in nursing education.
2. To point out the reaffirmation of the study of the relationship that has been developed among the UW System, the VTAE System, and the private colleges.

Professor Blockstein also pointed out, on behalf of HSAC, fiscal implications of the report's recommendations and advised the Regents to carefully consider the proposal to establish a Wisconsin Commission on Nursing (SSNNE Recommendation #XIV). Finally, he stated that the next step should be careful consideration of the recommendations and early implementation.

The chairman of the Nursing Study Committee, John Morris, Vice Chancellor at UW-Eau Claire, gave a brief review of the process the committee followed to arrive at its recommendations and to assure follow-up and response. He stated the committee's position that the key recommendation is the one calling for the Wisconsin Commission on Nursing. He said that this position was taken because of the complexity of nursing and nursing education consisting of two levels of licensed practice (RN and PN) and four types of preparation programs (1 year, PN; 2 years, ADN; 3 years, diploma; and 4 years, BSN), two public education systems and private institutions, and multiple settings for practice. Among the implications of the report for the UW System, Dr. Morris noted the following:

1. the need to respond with measures designed to increase the number of graduates of BSN programs;
2. the need to increase the opportunity for present ADN and diploma graduates to advance to the BSN level;
3. the need to increase the opportunity for continuing education of nurses in practice voluntarily, especially those in rural and semi-rural areas; and
4. the need to increase graduate education opportunities in order to provide needed administrators and nursing school faculty.

Regent Lawton stressed that, on Dr. Morris' point number 4, there is a severe shortage of such faculty at this time.

Vice Chancellor Morris concluded his remarks by observing that Kay Horswill and Mary Ann Pfau, staff to the Nursing Study Committee, and UW-Madison School of Nursing Dean Valencia Prock, were present to participate in responding to questions.

Regent DeBardeleben asked about the transfer of credit problem of ADN and diploma nurses seeking to enter degree programs and about the opportunities for such students in view of what some perceive to be an elitist attitude on the part of existing schools of nursing. In response, Dr. Morris discussed the System credit transfer policy and methods used for assessing and awarding credit. Dean Prock related her understanding of diploma and ADN nurses' concerns and observed that some of the early course work in BSN programs has not typically been part of the training background of ADN and diploma nurses. She stated that all BSN programs offer means for assessing the competencies of registered nurse applicants.

Regent Erdman expressed disappointment that the report did not recommend continuation of one-year LPN and nurses' aide training programs, since LPNs and aides provide much of the manpower in hospitals and nursing homes. In acknowledging the manpower situation, Ms. Pfau noted the report's intent to respond to the demand of the population for specific demonstrable competencies. She also noted that the recommendations in no way penalize or downgrade any currently-licensed nurse.

Regent Lawton indicated concern that, as a result of the report and other influences, opportunities for diploma nursing education may disappear more rapidly than the universities can implement additional degree program opportunities. "My concern here is that the very existence of the report has a very chilling effect on diploma nurses," Regent Lawton added. "And I think it behooves us to fill in the gap at an early date."

Discussion of the Nursing Study Committee report concluded with comments by Senior Vice President Smith about the manner in which the recommendations may be brought for Regents' action in the March meeting.

Following Regent Lawton's preceding report on the Nursing Study, Regent Erdman stated that she wished to correct a point made the preceding day, implying that she was against promoting LPNs to the two-year status. She had stated disappointment that the report did not deal with half of the entire nursing personnel in Wisconsin--the aides--who play such a vital part in the nursing picture, whether in the hospital, home aid, or the nursing homes' skilled care facilities. She felt this was a significant omission and that a need exists to increase their competencies, especially since they represent such an important part of our societal needs.

The proposed changes in the mission statements of UW-Eau Claire and UW-Oshkosh relate to their previously having been designated as sites for Regional Cooperative Graduate Centers and the substitution of new sections which indicate

that they should develop appropriate interinstitutional program relationships. In the instance of UW-Green Bay, the proposal was that a section should be added, reading: "The University should provide undergraduate professional education in the area of nursing."

Regent DeBardeleben questioned the wording in that part of the resolution under section (h) in UW-Green Bay Special Mission which stated ". . . in the area of nursing." Since the words "the area of" are confusing, he moved to delete them. Senior Vice President Smith stated that no problem would be created by deleting these words, feeling they were included because the drafters were aware of the variety of ways in which people go into nursing education and completion degrees and continuing education. The intent was to establish that it implied only a generic program.

It was moved by Regent Lawton, seconded by Regent Majerus, and carried, that the following resolution be adopted:

Resolution 2073: That, upon the recommendation of the President of the UW System and the Chancellors of the Universities at UW-Eau Claire, UW-Green Bay, and UW-Oshkosh, the Board of Regents approves the following changes to the academic missions of these institutions as follows:

Chancellor Shain introduced Dr. Robert H. Burris, UW-Madison Professor of Biochemistry, who recently received the National Medal of Science from President Carter for his pioneering research in nitrogen fixation. "Besides the recognition he has received for his contributions as a scientist and a teacher, he is the kind of a faculty member that makes everyone proud to be associated with an institution like the University of Wisconsin-Madison. He is a man who came to Wisconsin as one of those non-resident graduate students and stayed on for a lifetime of contributions to our state, to the nation, and to the University."

✓ Burris, Robert H. notation: Regent commendation given for receipt of President Carter's National Medal of Science, pp. 12+13  
Regular Board 2-8-80 -13

After receiving an ovation, Dr. Burris thanked Chancellor Shain and expressed his appreciation for the continuing support of the people of the state, of the Regents, the Legislature, and the Administration, noting that research is a long-term proposition, and it is important to have constant support over a long period of time. He gave a brief background on the basis of his work in nitrogen fixation.

It was moved by Regent Lawton, seconded by Regent Fitzgerald, and voted, that the following resolution be adopted:

Resolution 2074: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Howard M. Temin be changed from WARF Professor of Cancer Research, Department of Oncology, Medical School, University of Wisconsin-Madison, to Harold P. Rusch Professor of Cancer Research, Department of Oncology, Medical School, University of Wisconsin-Madison, effective February 8, 1980, with no change in salary.

✓ notation: status

R 2074, p. 13

Upon motion of Regent Lawton, seconded by Regent DeBardleben, the following resolution was adopted unanimously: *notation: Authorization to recruit for Dean school of Allied Health Professions, with Regent involvement requested,*

✓ UW-Milw. - staff

Resolution 2075: That, upon the recommendation of the President of the University of Wisconsin System and the Acting Chancellor of the University of Wisconsin-Milwaukee, the Acting Chancellor be authorized to recruit for a Dean of the School of Allied Health Professions, University of Wisconsin-Milwaukee. R 2075, p. 13

Because of the "rather interesting history" of this position, Regent Beckwith requested that there be Regent involvement in this recruitment process. Senior Vice President Smith said such requests are always honored, upon their being made, and he assured Regent Beckwith that these arrangements would be accomplished.

The following resolution was moved by Regent Lawton, seconded by Regent DeBardleben, and carried:

Resolution 2076: That, upon the recommendation of the Chancellor of the University of Wisconsin-Madison and the Executive Committee of the School of Law, Robert M. O'Neil, President of the University of Wisconsin System, be appointed Professor of Law, University of Wisconsin-Madison, effective February 1, 1980.

✓ O'Neil, Robert M. - notation: Appointment as UW-Madison Professor of Law, effective 2/1/80, R 2076, p. 13

It was moved by Regent Lawton, seconded by Regent DeBardleben, and voted, that the following resolution be adopted:

*UW-Stevens Point - staff*

Resolution 2077: That, upon the recommendation of the President of the UW System and the Chancellor of the University of Wisconsin-Stevens Point, the Chancellor be authorized to recruit for a Vice Chancellor of Academic Affairs, UW-Stevens Point.

*notator: Authorization to recruit Vice Chan. of Academic Affairs, R 2077, p. 14*

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The report of the Business and Finance Committee was presented by Chairman Fox, who stated that the committee considered special studies of the University of Wisconsin-Extension in response to Chapter 34, Laws of 1979 (secs. 2054(2) & (3).) Spirited discussion centered on the set of documents which had been distributed to the committee in advance of the meeting. Chancellor Evans, Provost Thiede, and Senior Vice President Smith summarized the document and responded to numerous questions. There was considerable emphasis on the necessity to review current programs in view of changing conditions. The committee is planning at least two more special sessions devoted to this topic. The next meeting will be devoted to review of program evaluation criteria and processes, including those processes that analyze the performance, efficiencies, and effectiveness in the various program areas. Two program areas were selected for detailed evaluation with appropriate report to the Board relating to the effectiveness of the evaluation process. The next meeting was tentatively scheduled for late February. The committee will also meet to address the continuing education fee policies, and a fourth meeting may be called to coordinate the various studies and/or to review the draft report as required by the legislative mandate.

*UW-Extension Budget - Legislature*

*notator: Discussion of Bus. & Finance Committee's review of UW-Extension, p. 14*

Vice President Lorenz briefly reviewed the listing of gifts, grants, and U.S. government contracts, noting that two months' activities reflected a decrease of \$1.6 million compared to the same period a year earlier. However, the cumulative total for the fiscal year to date is \$16.5 million greater than a year ago. Major increases were \$11 million in Student Aid and \$9.5 million in Research, with a \$5.9 million reduction in Institution Grants for this period. It was moved by Regent Fox, seconded by Regent Walter, and passed, that the following resolution be adopted:

Resolution 2078: That, upon the recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Chairman Fox said the committee had considered five bequests, the first being acceptance of the residue of the Michael F. Guyer Trust. The resolution was moved by Regent Fox, seconded by Regent Beckwith:

Resolution 2079: That the residue of the Michael F. Guyer Trust be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the trust; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

*notations:*  
*Acceptance of residue of trust for UW-Madison, R 2079, p. 15*

Regent DeBardleben stated that numerous benefits conferred upon the University by the late Michael F. Guyer--not only during his lifetime as a scholar and as a professor, but also by this very substantial monetary disposition--were significant and requested that this be reflected in the minutes.

The question was put on Resolution 2079 and it was voted.

The next bequest was from the late Alfred Louis Hertel who bequeathed one half of the remainder of his estate (System share estimated at \$75,000) to UW-Madison. Resolution 2080 was moved by Regent Fox, seconded by Regent Beckwith, and was voted unanimously: *notations: Acceptance of request, R 2080, p. 15*

*appropriate \$75,000*

Resolution 2080: That the bequest of the late Alfred Louis Hertel, Belleville, Illinois, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

The next bequest was from the late Leo Joseph Schweiger who bequeathed 1/10 share of the residue of his estate (share estimated at \$100,000) to the UW-Madison Medical School. Resolution 2081 was moved by Regent Fox, seconded by Regent Beckwith, and carried:

Resolution 2081: That the bequest of the late Dr. Leo Joseph Schweiger, West Bend, Wisconsin, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison Medical School.

*notations: Acceptance of or approximate \$100,000 request, R 2081, p. 15*

Scholarships - Daniel & Amy Starch

notator: addl. \$50,000 from  
Dr. Daniel Starch, R 2082, p. 16

Regular Board 2-8-80

-16

The late Dr. Daniel Starch bequeathed \$50,000 to the UW-Madison as an addition to the \$50,000 bequest of his late wife who established the "Daniel and Amy Starch Scholarship Fund" for worthy students. The accepting resolution was moved by Regent Fox, seconded by Regent Beckwith, and carried:

Resolution 2082: That the bequest of the late Dr. Daniel Starch, Scarsdale, New York, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Will of Dr. Starch; and that the Trust Officer or Assistant Trust Officer be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin -

✓ Starch, Dr. Daniel (existing card pls.)

notator: Request of addl. \$50,000 to the "Daniel & Amy Starch Scholarship Fund," R 2082, p. 16

The final bequest was from the late Saidee E. Stark who bequeathed 5 percent of the residue of her estate for scholarships in Home Economics. Resolution 2083 was moved by Regent Fox, seconded by Regent Beckwith, and carried unanimously:

✓ Scholarships - Saidee E. Stark

notator: Request for Home Economics scholarships, R 2083, p. 16

Resolution 2083: That the bequest of the late Saidee E. Stark, Oakland, California, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

✓ Stark, Saidee E.

notator: Request for Home Economics scholarships, R 2083, p. 16

Regent Fox reported that the committee heard a discussion on the part-time students and the implications for the enrollment-funded formula. Budget Planner Lou Zellner reviewed the document which was included in the agenda materials. The part-time study represents the first step in the evaluation of the current enrollment-funding formula. In March the committee will look at the analyses of fixed and variable costs and later in the spring will be addressing the current formula and any proposed changes based on these studies.

The part-time study clearly indicates that the University has made substantial commitments to meeting the needs of part-time students. Three hundred fifty programs are now available or in planning, and 2,793 different courses with 3,400 course sections are being offered in the extended timetable (between 4:00 p.m. on weekdays and 9:30 p.m. in the evening and on weekends). This also supports the often-discussed conclusion that there are added costs concerning part-time students, with most of these costs associated with the need to operate evening programs in addition to the regular day programs.

The current enrollment funding formula does not recognize the added cost concerning part-time students; however, the Composite Support Index--one of the factors which strongly influences institutional allocations--has given some measure of recognition to these additional costs. Specific alternatives for modifying the enrollment funding formula in a manner fully consistent with the findings of the study are yet to be developed and will be defined in subsequent deliberations by the committee in the next few months.

✓ Enrollment Funding

Ms. Zellner also noted that the study supports the position that the financial needs to cover expansion of extended timetable programming and support services will not be met through the working of the existing funding formula. Resources available for reallocation are virtually non-existent; therefore, other non-formula methods must be developed for adequately funding any such increases in accessibility. Since the study indicates that costs are higher for extended-day, part-time students, the committee has considered the feasibility of putting forth a funding request during the current annual review session. However, the consensus was to defer the request until the 1981-83 biennial budget.

Regent Beckwith agreed that there was a consensus of opinion on the part of the committee not to ask the Legislature for interim relief on this matter, but that it was not unanimous. He had urged that consideration be given to going to the Legislature, feeling there are two factors involved: (1) modification of the enrollment funding formula or some other budgetary device that would permit the universities to have more GPR funds to cover the additional costs that are now demonstrated by this report as attributable to the extended part-time programs. Many legislators have clearly indicated that they favor the efforts toward increasing access for part-time students and, therefore, the System is following the legislative desire and mandate, but there are costs associated with doing so; (2) if the formula is changed, there will be the problem of changing the base against which the formula will operate, and it did not seem inappropriate to consider going to the Legislature during the Annual Budget Review session to seek additional funds which would later be incorporated into the new base.

It had been explained by various members of the System Administration staff that discussions with the Governor's office and DOA indicated that, politically, there is little likelihood of getting this type of relief at this Session of the Legislature. However, he stated he was reminded of Regent DeBardeleben's frequent admonition to the Board that its job was to consider what is best for the System, not what is politically feasible. His preference would have been to see further efforts made to secure some additional financial assistance so that campuses which are severely impacted by this problem--one of them being UW-Milwaukee--will have some interim assistance.

Regent Fox said the advice of the System Administration staff had been accepted since it seemed that making a concerted effort to secure legislative action on such a proposal would decrease the chances of successful consideration of a similar proposal in the biennial budget. Therefore, those committee members on the other side of the question also believe they are doing what is best for the University.

Regent Erdman felt there was another point to consider. The Regents would be seeking increased funding for part-time students and, in a sense, would be placing a priority on this. However, since the total budget has not been examined, she was not certain she would put a priority on funding part-time students vis-a-vis all the other demands upon the System budget. "We have many aspects that we haven't considered at all, so I simply don't think that this would be the proper thing at this time."

Regent Walter concurred with Regent Beckwith that the Board should state its views on the issue and not try to find out what is politically feasible, a position shared by Regent DeBardleben. He did not see any rational basis for suggesting that interim funding should not be sought because it might hurt the System in a subsequent presentation. "The legislators always prefer not to be confronted with hard decisions, but I think we'd be giving them something they'd have to deal with."

Regent Beckwith concluded by stating that another part of the problem relates to the fact that there is another necessary step to be taken before it would be possible to go to the Legislature, and that is translating the report into dollars. He felt that, if that can be done in a timely manner, the Board might have another opportunity to consider this.

At this point, State Representative Ronald Lindgren was introduced by Vice President Erdman and asked if he had any comments. He had no specific observations but did state that he serves on the legislative study committee dealing with the enrollment funding formula and would be happy to discuss it whenever there was an opportunity to do so.

UW-Stevens Point requested authorization to increase the second semester contract board rate by not more than \$10 per student. The campus had been emphasizing physical development with one of the programs being introduction of nutritional choices (fresh fruits and vegetables) to supplement the contract offerings. The students have developed healthier diets but the anticipated cost trade-off from consumption of smaller amounts of the other foods had not occurred. The cost increase is recommended by the students as well as the administration and is consistent with the provisions of the students' food service contract. Resolution 2084 was moved by Regent Fox, seconded by Regent Fitzgerald, and carried:

✓ Resolution 2084: That, upon the recommendation of the Chancellor of UW-Stevens Point and the President of the University of Wisconsin System, the board rate at UW-Stevens Point for second semester 1979-80 be increased in an amount not to exceed \$10.

REPORT OF THE VICE PRESIDENT AND CONTROLLER

Vice President Lorenz reported that:

- (a) the projected 1979-80 general operational balances available for future revenue short-fall and other contingencies is now estimated at over \$1 million; and
- (b) the Legislative Audit Bureau report on segregated fees was completed and contained several recommendations for policy clarification related to sec. 36.09(5), Wis. Stats.

These will be brought to the Board at a future meeting.

*Segregated fees

p. 18*

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The report of the Physical Planning and Development Committee was presented by Regent Gerrard.

The first item was a request to purchase three parcels of land, one each at UW-LaCrosse, UW-Oshkosh, and UW-Stevens Point. These parcels were previously approved for acquisition by the Regents and the State Building Commission. Upon motion of Regent Gerrard, seconded by Regent O'Harrow, it was voted that Resolution 2085 be adopted, with Regent DeBardeleben voting "No."

Resolution 2085: That, upon the recommendation of the UW-La Crosse, Oshkosh and Stevens Point Chancellors and the President of the University of Wisconsin System, authorization be granted to purchase the following parcels of land, at the costs and from the funding sources indicated;

✓ UW-La Crosse - *bdg + land*

A 0.09 acre parcel located at 626 North 17 Street, La Crosse at a cost of \$29,150 from Land Acquisition Funds (GPR)

*notation: Authorization to purchase .09 acre parcel at 626 N. 17th St., R 2085, p. 19*

✓ UW-Oshkosh - *bdg + land*

A 0.18 acre parcel located at 790 High Avenue, Oshkosh, at a cost of \$73,000 from Land Acquisition Funds (GPR)

*notation: Authorization to purchase .18 acre parcel at 790 High Ave., R 2085, p. 19*

✓ UW-Stevens Point - *bdg + land*

A 0.07 acre parcel located at 2124 Fourth Avenue, Stevens Point, at a cost of \$2,400 from Program Revenues (Non-GPR)

*notation: Authorization to purchase .07 acre parcel at 2124 Fourth Ave., R 2085, p. 19*

Regent Gerrard stated that the next item requested the approval of two minor projects, the first, an insulation project for \$125,000 to insulate the walls of the former University Hospitals located at 1300 University Avenue. The second is a project to correct structural failures in window curtain-wall elements on the Albertson Learning Resources Center at UW-Stevens Point. The following resolution was moved by Regent Gerrard, seconded by Regent O'Harrow, and passed unanimously:

Resolution 2086: That, upon the recommendation of the UW-Madison and UW-Stevens Point Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the following minor projects, at the cost and from the funding sources indicated:

Medical School - Buildings  
UW-Madison

*notation: Authorization to insulate walls, 300 University Ave., R 2086*

University Hospitals Insulation Project, \$125,000, State Building Trust Funds, GPR

UW-Stevens Point - Bldgs

*notation:*

*Authorization for*

Learning Resources Center Window Safety Repairs Project, \$18,000, State Building Trust Funds, GPR

*R 2086*

Prior to the vote, Regent Erdman did question the need for spending \$125,000 for insulation when the Board had already approved a \$24 million remodeling project for the former University Hospital. While it was a need that was not known until recently, it was also pointed out that this is a cash-funded minor project while the major remodeling project is being covered by General Obligation Bonding.

The next item requested approval of campus completion projects and equipment purchase requests for UW Center-Washington County and UW Center-Rock County.

Chancellor Fort, who had provided the committee with a detailed explanation of the proposed projects at the previous day's meeting, was introduced and stated he would ask Dean Thomas Waltermann, UW Center-Rock County, and Dean Robert O. Thompson, UW Center-Washington County to: (1) define the in-place programs as they specifically relate to facilities completion, (2) detail the city and county officials' efforts, and (3) provide the Board with information relating to demography as it relates to anticipated growth in the area. Chancellor Fort noted that these are two separately-defined projects, one of which involves 44,000 gross square feet at a cost of \$2.6 million for the completion of the UW Center-Rock County--a project which has the overwhelming support of the local county government representatives. The second involves an investment of \$1.5 million and 32,000 gross square feet for UW Center-Washington County (also endorsed by city and county officials), plus an extensive energy conservation proposal.

Chancellor Fort said that, during the last several years, Center System staff has very deliberately proceeded in a manner to assure following each of the policy guidelines adopted by this Board in its action on November 19, 1976 (Resolution 1348), adopting Analysis Paper 15 as a guide for the Center System in dealing with requests for construction.

In September, 1979, the Board approved Resolution 1986, adopting "A Statement on UW Center System Physical Facilities Planning," which included the statement that "it is clear that the Centers of Waukesha, Menasha, West Bend, and Janesville currently do not have facilities appropriate and necessary,

within generally accepted standards for higher education, for the most effective and efficient conduct of current program offerings." Step-by-step procedures were defined which the Center System would have to follow to comply with these principles. He called the Board's attention to point (3) which stipulated that "given these facts, System facilities planning staff, Center System staff and relevant local governing bodies could appropriately proceed with examination of the facilities requirements for the four Centers identified and to bring plans forward to the Board of Regents at such time as agreement and approval are achieved at the local government level."

Chancellor Fort said that he, the Deans, and the Center System staff "have attempted to emphasize, in no uncertain terms, the long-range planning procedures the staff would have to follow through System Administration, as it relates to these specified reports and beyond, and inclusive of the reality that a presidentially-designated task force was appointed for purposes of re-examining campuses within this institution. We are convinced that, given the reality of on-going programs of quality on these two campuses since the 1960s, these projects are vitally needed. Their need has been documented in accordance with the policies of the Board, and on the basis of the demography of both areas as they pertain to (a) the age pool, (b) projection of enrollments for both campuses through the late 1980s, and (c) a clear-cut indication of rapid growth in this part of southern Wisconsin. Therefore, we are urging that the Board accept the recommendation of the Chairman of the Physical Planning and Development Committee." He also noted that city and county officials and architects for both projects were present if the Board needed further clarification.

Making the first presentation, Dean Waltermann said the UW Center-Rock County campus completion project was one of his favorite subjects. The campus has been in existence since 1966, has 160,000 people in its service area, and has been told by certain surveys that Rock County is now the second fastest growing county in the State of Wisconsin. Since its opening, it has been necessary to manage with essentially half a campus. "The half we have is awfully nice; the other half has been very much missed." There is a need for some facilities that are non-existent and some areas are extremely overcrowded, including the library which now has holdings three times the number it was designed to accommodate. The recent action of the County Board in voting 30 to 4 a \$2.6 million bonding referendum as part of the bonding issue contained in the 1980 county budget was viewed as an indication of the county's belief in the Center, both in its past and in its future.

Dean Robert Thompson felt the needs of the UW Center-Washington County, located in West Bend, had been thoroughly discussed and did not require elaboration, although he noted that they had been defined very carefully in relationship to the current program and currently enrolled students. The plans assume a stable future enrollment for the campus and that comparable programs will be offered in the foreseeable future. They do not assume expanded growth and are not designed to accommodate growth. He felt that position is realistic and important to understand. The proposed projects are designed to complete the campus and provide facilities for offering the programs which have been available during the past ten years on the campus. "The modest proposal which you have before you, I think, will meet those most urgent needs which have been defined on campus, will greatly enhance our ability to provide the kind of education that people in Washington County and West Bend deserve, and will enable us to fulfill our mission." He did point out that in all local discussions, all individuals were made aware of the projected enrollment declines in the '80s. They were also aware of the kinds of studies that were anticipated and are now underway. At the

same time, it seemed to him that those studies were proceeding based on certain principles and criteria that were established in the November 30 report. "Neither our campus nor the Rock County campus has been identified for studies of their mission. This was also true in the previous scope-reduction study. Our campus has always been a healthy one, with a very promising future. It was on that basis (although we were very much aware of the context in which this decision was being made) that, locally, the decision was made to go ahead. The UW Center-Washington County is one of the three Center System campuses owned by both the county and the city. Both of those bodies, after much discussion and study, gave this project their unanimous support--a fairly unusual thing for local school or educational construction." Dean Thompson felt this demonstrated the solid local support which does exist for the project. "Someone long ago said that one cannot serve two masters, but I have discovered there are certain circumstances under which you can." Representatives from the City of West Bend, including Mayor John Pick, were present, as was Mrs. Janet Hubbell who chaired the local task force and was a citizen-at-large appointed by the county to that group. Dean Thompson indicated these individuals would provide comments if the Board desired. "We very much need this program, and we hope you give it your support."

West Bend Mayor Pick stated that his exposures to the discussions of the committee and the Board had been very educational experiences, and he could only reiterate what the Dean had stated about the needs of the UW Center-Washington County. He had been involved with the city government of West Bend for approximately 14 years and was involved with the original building of the campus which was generally sponsored by local businesses. He was also involved with developing the joint financing method whereby the city contributed 40 percent and the county 60 percent. "There has never been any question about the needs, only some hang-up about the word 'completion.' When it was finally realized that what was proposed was simply a completion of the operation rather than a large expansion, there was no problem from that point on."

Regent DeBardeleben expressed some ambivalence about the proposal, noting that part of the money will be used for energy conservation and part for new construction, and he wondered whether there was any division on the committee concerning this proposal. Regent O'Harrow said there had been a considerable amount of discussion by the committee since it was not authorizing expenditure of state funds but, rather, money belonging to other political subdivisions. This made it extremely important to assure that no one was being misled in this regard. "We do not know what this Board of Regents or a future Board of Regents will do down the road in the '80s and '90s regarding some of these Center Systems, and this point was made very clear in committee discussion. However, it appears to me--and they told me yesterday--that there is a tremendous need here; it will be used for numerous community activities as well. I think that if you deny them this, it is a big mistake. Each member of the committee queried them at length, and I think that we were all sold that we should go ahead with construction."

Regent DeBardeleben sought assurance (which was given) that the movable equipment, which would be funded from state monies, was being requested because System Administration also felt there is a need for the projects and also that System Administration had considered the projects from the standpoint of enrollment projection.

Senior Vice President Smith confirmed Chancellor Fort's contention that the Centers have scrupulously followed all System policies. It was identified some years ago that absolute educational deficiencies in terms of facilities exist for several Centers. If similar situations had existed at one of the four-year Universities, he felt both of these construction projects would have been undertaken without question three or four years ago. The Centers do have a somewhat complicated problem because of county support (and in the case of West Bend, the county and the city) and it is the kind of development that takes a great deal of local work and cooperation to secure the needed support. "I think that we're four years overdue from an educational perspective and now that the approvals have been reached to assure that local funding is available for the buildings, we really should move ahead, in good conscience and adherence to our own policies."

Senior Vice President Smith said the Deans and Chancellor Fort could attest to the fact that System staff had delayed presentation of these proposals for almost four months to give the greatest possible time for consideration and reconsideration, study and restudy of all the variables involved.

Mr. Paul Alongia, Rock County Board Supervisor, said that more than half of the bond issue would be allocated for this project, with over \$20,000 already expended. "I feel I can speak for the Board that it is prepared to proceed with the project through completion."

While he could appreciate the dedication of the residents of Rock and Washington Counties and the City of West Bend, Regent DeBardleben stated that the Board does have a statewide responsibility. This would place the Board in the position of recommending the expenditure of public revenues for movable equipment and approving the construction of new facilities at the same time it is also talking about cutting back. He could appreciate earlier arguments in favor of providing access but did not feel adequate demographic data was provided to justify the projects in terms of their statewide significance at a time when the possibility exists of closing one or more Centers and cutting back four-year institutions. He questioned whether it was urgent to approve the project at that meeting.

Regent Barkla said, as a committee member she had shared the same concern, but was convinced of the merits of the proposal because, in addition to meeting the educational needs of the two Centers, both facilities will be used by the local communities. "If I thought we were expanding the campus, I don't think I would have supported it. If those communities have enough faith to put in those kind of installations, I feel we ought to support it."

Senior Vice President Smith said that controls exist within the System's annual and biennial budget appropriations relating to equipment, movable equipment, and physical plant maintenance, and so on. These are all controlled by the formulas which exist. He did not feel that a significant risk was being taken from a statewide perspective as it relates to movable equipment. He did endorse very strongly the care with which the Centers are developed and the realization that buildings in many of the Centers serve as significant community centers. He foresaw two hazards in delaying the project: (1) To assure that a most careful review of the projects was undertaken, the projects had already been delayed four months upon the recommendation of System Administration staff. In any facility construction, every month's delay costs money, and prolonged delay means that a \$2 million building program can no longer be financed by \$2 million of funds. Therefore, delay is serious if, eventually, it is going to be approved. (2) In the case of both of these Centers, it has taken a decade for the communities to

come together and assume what had been their original purpose with regard to the physical plant for these Centers. "I think, where there are multiple lines of approval, we always hazard dismay, concern, and absolute derailing of things when we're only delaying them. I think that's part of the picture, too. I think the Mayor would say it has not been easy to get this kind of unanimity."

Mayor Pick told the Board: "We've strung them along all this time with inadequate facilities. It seems to me, as a businessman, that you just don't operate that way. You either do it, or you don't."

Regent Lawton said he would make the same point as Senior Vice President Smith had regarding delay. "But the most compelling argument I've heard from what Vice President Smith said before is that these places are educationally suffering. Both are very viable and we are assured that they have at least a favorable enrollment. But, if we're giving them second-class educational facilities, we've got to think about it."

Regent Gerrard moved Resolution 2087, which was seconded by Regent Majerus, and voted unanimously:

Resolution 2087: That, upon the recommendation of the UW Center System Chancellor and the President of the University of Wisconsin System, the campus completion projects for UW Center-Washington County and UW Center-Rock County be approved;

That a request for funding for movable equipment of approximately \$148,300 for UW Center-Rock County and \$125,000 for UW Center-Washington County be approved for submission to the State Building Commission;

That a request for energy conservation matching funds for improvements at UW Center-Washington County be approved for submission to the State Building Commission; and

That all of the projects cited above be constructed and equipped in accordance with the preliminary plans and specifications without further approval of the Board of Regents.

*matching funds for improvements, R 2087*

Regent Gerrard reported that the next item requested approval of five major project concept and budget reports for construction projects at UW-La Crosse, UW-Whitewater, UW-Madison, and UW-River Falls. The projects at La Crosse and Whitewater involved handicapped access. The next was the concept and budgeting reports for the School of Veterinary Medicine at UW-Madison and UW-River Falls campuses, which includes the construction of a 230,000 square foot building on the Madison campus. The fourth project provided for turf replacement on the Camp Randall field, to be funded from Program Revenues and approved by the Regents in the 1979-81 Capital Budget. The last request involved the mechanical/electrical monitoring project for UW-Madison, with a pay-back of less than three years. Resolution 2088 was moved by Regent Gerrard and seconded by Regent O'Harrow:

Resolution 2088: That, upon the recommendation of the UW-La Crosse, UW-Madison, UW-River Falls, and UW-Whitewater Chancellors and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved and authority be granted to plan, bid and construct at the cost and from the source of funds indicated:

✓ UW-La Crosse - buildings  
notations: Approval of Handicapped Accessibility ~~Project~~ <sup>concept & budget report & authority to plan, bid & construct, R 2088</sup> \$421,000 GOB-GPR

✓ UW-Whitewater - buildings  
notations: Approval of Handicapped Accessibility ~~Project~~ <sup>concept & budget report and authority to plan, bid & construct, R 2088</sup> \$215,000 GOB-GPR

✓ UW-Madison and UW-River Falls

School of Veterinary Medicine School  
Project \$28,000,000 GOB-GPR  
notations: Approval of concept & budget report & authority to plan, bid & construct, R 2088

✓ UW-Madison Stadium  
notations: Approval of concept & budget report & authority to plan, bid & construct  
Camp Randall Turf Replacement, R 2088  
Project \$550,000 Program Revenues-- Non-GPR

✓ UW-Madison Emergent Conservation  
notations: Approval of concept & budget report & authority to plan, bid & construct  
Mechanical/Electrical Monitoring System Project \$1,051,200 SBTF-GPR

Asked by Regent Beckwith the current status of questions relating to the siting of the School of Veterinary Medicine at Madison, Chancellor Shain said that the size of the facility did not allow the building to be located on an open field directly across from the Natatorium (the "band practice field"). It has now been determined that the structure will be built on a site directly south of that location, on a major portion of Parking Lot 62. The proposal before the Board included a recommendation that those parking spaces be replaced on the band practice field, and that the band practice field be moved across the street next to the Natatorium. The student housing issue has now been separated from the Vet School construction issue. R 2088

✓ UW-River Falls - buildings  
Asked by Regent Walter what the committee had decided with regard to the Camp Randall turf replacement, Regent O'Harrow reported on complaints reportedly made by some of the professional football players that artificial turf is more dangerous than natural turf. Having expressed this concern at the committee meeting, Athletic Director Hirsch had brought samples of the present, improved artificial turf which Regent O'Harrow said had convinced him that artificial turf is, in fact, superior to the natural grass.

Regent Erdman indicated that she would be voting against this resolution since she continued to think the Board was making a serious mistake on the Veterinary Medicine project. "This is a period of such tight financial stringencies from the state government, we did poorly in the last biennial budget, and we're told by DOA and the legislative leaders that there will be little additional funding for the annual budget review. This is only the beginning and, while I know I can't change any minds now, I think the operating expenses--\$5 to \$6 million a year--will continue to come out of our present operating budget."

notations: approval of concept & budget report and authority to plan, bid & construct School of Veterinary Medicine, R 2088

The question was put on Resolution 2088, which carried, with Regent Erdman voting "No."

The next item requested approval of an increase of \$58,000 in the budget for a mechanical/electrical monitoring system for ~~UW-Stevens Point based on~~ buildings bids received on December 21, 1979. Even with the increased costs, the pay-back would remain under a three-year period. It was moved by Regent Gerrard, seconded by Regent Barkla, and voted unanimously, that Resolution 2089 be adopted:

*notator: Authority for budget increase for the*

Resolution 2089: That, upon the recommendation of the ~~UW-Stevens Point~~ Chancellor and the President of the University of Wisconsin System, authority be granted to increase the budget for the ~~1977-79 Mechanical/Electrical Monitoring System project~~ by \$58,000 for a revised project cost of \$361,000.

R 2089

The next item requested authorization for UW-Extension to acquire, or obtain an agreement to acquire, the use of a parcel of land for possible relocation of the WHA-AM radio station transmitter to provide for night-time operation. Resolution 2090 was moved by Regent Gerrard and seconded by Regent DeBardeleben.

Resolution 2090: That, upon the recommendation of the UW-Extension Chancellor and the President of the University of Wisconsin System, authorization be granted for UW-Extension, on behalf of WHA Radio, to obtain an option or other agreement to acquire use of a parcel of land for the possible relocation of the station transmitter.

✓ Radio - Miscellaneous  
(see notator as below)  
✓ UW-Extension

*notator: Authorization granted UW-EXT. for WHA Radio to obtain agreement to acquire use of land for relocation of its station transmitter*

Regent Beckwith indicated he would have preferred to have more detailed information available which would have dealt with the service which would result from the proposed relocation. "I don't know if we're going to pick up 100,000 radios or two dozen, so I do not know whether it's worth the expense." Even though the Board was only acquiring an option, he felt that, because of the inter-relationships of the various elements of the total project, more background should have been provided on the need for service, extension of service, how the evening time will be programmed, etc. This would have allowed consideration of the full project before expending significant amounts of time and energy and making it difficult for the Board to turn down a proposal at some later time.

R 2090

Kenneth Warren, System Coordinator for TV Production and Media Activities, stated that the intent of the relocation is to provide additional hours of service in the community of license, which is Madison, but essentially covers Dane County. While the coverage area will be reduced, service to the community (which is the primary responsibility of the station) will be increased because of the additional hours. There would not be any loss in the immediate coverage area which is what the licenses are responsible for. There presently is night-time FM coverage and ultimate approval of this proposal would mean there would be two coverages in Madison: AM and FM at night-time, presumably with different programming for the two coverages.

Regent Beckwith was concerned that this was being looked upon as a construction project and it seemed more important to him than that, with a broader issue involved.

Dr. Warren felt that it was, essentially, a concern relating to adequacy of service which led to the request. Present licensing regulations require WHA-AM to cease broadcasting as of sunset local time. In December this occurs at 4:30 p.m. Although there would be a reduction in power, with the pattern change that can be accomplished with the proposed relocation, the hours can be extended.

Additionally, WHA cannot even investigate the possibility unless the Board has authorized seeking an option or acquiring a new site. At the time of making application to the FCC, it will be necessary to justify the need for further programming and public service.

While it was agreed that more facts could have been developed on a hypothetical situation of relocation, deferral of the project for one month seemed a less desirable approach than approving the resolution and requesting WHA staff to provide more detailed information to present to the Board in March as to why it was desirable to move in this direction.

The question was put on Resolution 2090, and it was voted.

Regent Gerrard reported that the discussion of Board policy relating to the naming of buildings was deferred to the March meeting in order to allow President O'Neil an opportunity to familiarize himself with the present policy.

The report of the Vice President included the following:

The State Building Commission had approved all of the annual capital budget requests at the funding level requested, although the funding to purchase the Bay Apartments at UW-Green Bay had been changed to all Program Revenue-supported funds. All of the other System requests on the regular agenda of the Commission were also approved. The committee members commended System staff for their effectiveness in dealing with the State Building Commission.

✓ The semi-annual report on the UW System's energy conservation program indicated that substantial progress continues to be made. The report indicated that universities with savings over 20 percent through December, 1979 were UW-Eau Claire, UW-Green Bay, UW-Parkside, and UW-River Falls. The committee was very pleased with the progress the System is making in reducing energy consumption.

*noted; Semi-annual report on system's program,*  
*P. 27*

*2*

The committee considered two additional items, the first of which was a request from UW-Madison to name the University Bay Center in honor of the now deceased, distinguished Wisconsin labor leader and former University Regent, Jacob Frank Friedrich. Resolution 2091 was moved by Regent Gerrard and seconded by Regent O'Harrow:

Resolution 2091: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to name the University Bay Center the J. F. Friedrich Center.

*Friedrick, J.F., Center*

*notation: name changed to the J. F.*

Regent Beckwith said he felt it entirely appropriate that there would be a building name resolution before the Board at President O'Neil's first meeting "since building name resolutions, resolutions to accept gifts that have some religious affiliation, and resolutions regarding investment of funds in governments that do business with South Africa have consumed more time of this Board than any other important matter." However, he restated his feeling of opposition to the practice of naming buildings after persons. "There is no more wonderful citizen than Jake Friedrich after whom to name a building. He was an outstanding citizen in this state, an outstanding labor leader, and an outstanding Regent--President of this Board. But, I think the building is adequately named at present."

*Friedrick Center, R 2091*

*notation: Authorization to change name of the University Bay Center, R 2091*

Regent DeBardleben observed that he had "served with Jake Friedrich on the Board of Regents of the University of Wisconsin for eight of the nine years of my previous term. I nominated Jake Friedrich as President of this Board on two occasions--the two one-year terms that he served. I know of no person who has ever served as a member of the Board of Regents for whom I have more affection or more respect than I have for Jake Friedrich. He was everything that Dave Beckwith said he was. He was an outstanding labor leader, he was an outstanding citizen in the State of Wisconsin and of the nation. If there was ever going to be a building named after a former Regent, I would say it ought to be named after Jake Friedrich. But I don't think we ought to name buildings after former Regents. I would not go as far as Dave Beckwith in saying we shouldn't name them after an individual. I think it's entirely appropriate to name buildings after academic leaders of the University of Wisconsin, administrators and faculty members. I think if we're going to name buildings after individuals, it ought to be limited to that--after they have passed on--not during their lifetime. I'm going to vote against this, as much as it pains me to do so. I don't think that it's proper because I do not think we should get into the practice of naming buildings after ex-Regents."

Regent Majerus made the following statement: "Putting aside all of the arguments that have been made and not trying to respond to them, it seems to me what is important here is that we do serve a constituency and the building was put up and does serve the working people of the State of Wisconsin, and I think it's great. My people in this state will be very pleased to have that building named after Jake Friedrich. He served well beyond the boundary of the Board of Regents and well beyond the boundary of the area in which we know him. I think, aside from the academics and all other things, it is appropriate and it would be very important to have a building so named. It would do this Board well, it would do the University well and a very useful purpose would be served, and I'm going to vote for the resolution."

*University Buildings - names*

*notation: Authorization to change name of University Bay Center to J. F. Friedrich Center, R 2091*

*Friedrick, J.F.*

The question was put on Resolution 2091, and it was voted on a roll call vote, with Regents Barkla, Elliott, Erdman, Fitzgerald, Fox, Gerrard, Grover, Lawton, Majerus, O'Harrow, and Thompson voting "Aye" (11), Regents DeBardeleben and Walter voting "No" (2), and Regent Beckwith abstaining.

UW-La Crosse - Buildings & Lands

Regent Gerrard reported that the final item considered was a request submitted by UW-La Crosse at the request of the City of La Crosse for a limited highway easement adjacent to Lange Drive which would be on the central corridor to the middle of the city which connects the north and south sides. The area affected by this request was not presently programmed for any use by the System and the city is merely requesting a slope easement, to allow them to fill adjacent to Lange Drive and widen it to accommodate north-south traffic. Resolution 2092 was moved by Regent Gerrard, seconded by Regent Barkla, and carried unanimously:

Resolution 2092: That, upon the recommendation of the UW-La Crosse Chancellor and the President of the University of Wisconsin System, a limited highway easement be granted to the City of La Crosse, La Crosse County, Wisconsin for the right to construct and maintain, cut or fill slopes, including for such purpose the right to operate necessary equipment thereon, the right of ingress and egress as long as required for such public purpose including the right to preserve, protect, remove or plant thereon any vegetation that the highway authorities may deem desirable to prevent erosion of the soil.

notation:  
limited highway easement adjacent to Lange Drive granted to the City of La Crosse  
R 2092

But, without prejudice to the owner's right to take or construct improvements on said lands, or to flatten the slopes, providing said activities will not impair or otherwise adversely affect the highway facilities within the right of way.

In and to the following tract of land in La Crosse County, Wisconsin, described as:

A parcel of land in T16N, R7W, Section 32 in the SW $\frac{1}{4}$ -NE $\frac{1}{4}$  thereof, including all land of the owner contained within the following described traverse: commencing at the northeast corner of Lot 6, Block 29 of the Burns Durand Smith and Rublee's Addition to the City of La Crosse; thence N 40°-02'-12" E 50.02 feet to a point; thence N 06°-55'-53" W 70.62 feet to a point; thence N 06°-55'-53" W 164.69 feet to a point; thence N 75°-02'-41" E 37.37 feet to the point of beginning; thence N 06°-55'-53" W 439.06 feet to a point; thence N 01°-02'-48" W 850.17 feet to a point; thence S 04°-43'-05" E 625.74 feet to a point; thence S 12°-17'-13" E 644.93 feet to a point; thence S 75°-02'-41" W 124.42 feet to the point of beginning.

At 11:30 a.m., Resolution 2093 was moved by Regent Gerrard, properly seconded, and adopted on a unanimous roll call vote, with Regents Barkla, Beckwith, DeBardeleben, Elliott, Erdman, Fitzgerald, Fox, Gerrard, Grover, Lawton, Majerus, O'Harrow, Thompson, and Walter voting "Aye" (14), and Regents McNamara and Veneman not present (2).

Resolution 2093: That the meeting recess into closed session to consider personnel matters as permitted by sec. 19.85(1)(c), Wis. Stats., and to consider personal histories, as permitted by sec. 19.85(1)(f), Wis. Stats.

---

The Board arose from closed session at 12:15 p.m.

CLOSED SESSION ACTIONS

Vice President Erdman announced the following actions which had been taken in the closed session:

Board of Visitors - Personnel

notated: UW-Green Bay visitor named, R 2094

Resolution 2094: That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, the appointment of Ms. Eunice M. Garsow to the University of Wisconsin-Green Bay Board of Visitors be approved for a term ending June, 1982, replacing Mr. Russell O'Harrow who withdrew upon being named to the Board of Regents.

notated: Appointment of Eunice M. Garsow to Bd. of Visitors interim ending 6/1982, R 2094

UW-Green Bay

Resolution 2095: That the Board of Regents authorizes and approves the change in status for Edwin Young from System President and Professor to President Emeritus and President of the University. Further, upon the recommendation of the UW-Madison Chancellor, approves his appointment as Kennebohm Professor of Applied Economics, College of Letters and Sciences, UW-Madison, at an academic year salary of \$49,500, effective February 1, 1980.

notated: Edwin Young named President Emeritus

Young, Edwin named (as above)

effective 2/1/80, R 2095

Resolution 2096: That, upon the recommendation of the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Madison and the Executive Committee of the Department of Preventive Medicine, Dr. David A. Kindig be appointed Vice Chancellor for Health Sciences and Professor, Department of Preventive Medicine, Medical School, beginning February 8, 1980 on a part-time basis and converting to a full-time basis as soon thereafter as can be arranged.

The meeting was adjourned at 12:15 p.m.

The Wisconsin Board of Vocational, Technical and Adult Education met at the Waukesha County Technical Institute in Pewaukee, Wisconsin on January 15, 1980. This report summarizes agenda items which may be of interest to the Regents of the University of Wisconsin System.

### Agenda of the WBVTAE

I have attached the agenda of the Board meeting for your information. If there are any items of particular interest to you, additional information may be obtained from the Office of Academic Affairs of the UW System.

### Legislation Report

This report summarized the impact of federal legislation on vocational education with particular attention to the vocational training and youth employment opportunities provided. A particular point of the report of the Senate Committee on Labor and Human Relations and one of the guiding principles of that committee was, "to make colleges become America's best friend again." The reauthorization of the Higher Education Act should put the colleges into the heart of national development efforts.

### Program Fee Increase

Program fee proposals for the 1980-81 year were presented to the WBVTAE and approved. There was considerable concern about the fact that most of the fees will increase substantially. A good summary of this concern is reflected in the report given in the Wisconsin State Journal. A copy is attached for your information. The UW System, of course, has similar concerns about the cost of education for its students.

### Department of Public Instruction Evaluation of Vocational Education

A report commending the success of recent evaluations of Vocational Education in the high schools made by the Department of Public Instruction was presented. Of interest to the UW Regents were the favorable comments regarding the help that the UW-Stout gave to the evaluation program by developing and testing, at the request of the Department of Public Instruction, the model used for the evaluation.

Next meeting: March 25, 1980 - La Crosse

# State vocational school tuitions get hefty hike

By Roger A. Gribble  
Of The State Journal

PEWAUKEE — A 22 percent increase this fall in post-secondary and vocational adult tuition for Wisconsin's vocational school students was approved here Tuesday by the State Vocational School Board.

Under the new tuition rates set by the board, students in college-parallel programs will face a 7.2 percent increase. Vocational school tuition is tied to a legislative formula under which post-secondary and vocational adult tuition must cover 9.5 percent of instruction costs and college parallel programs must cover 25 percent of costs.

Fred Hiestand, a state vocational school assistant director, said the large increase in post-secondary and vocational adult tuition is the result of inflation, high fuel prices and the cost of operating \$500 million worth of buildings statewide.

Hiestand noted that Patrick Lucey, when he was governor, was successful in instituting vocational school tuition and program fees for vocational schools.

"That really changed the thrust and concept of vocational education in Wisconsin," said Joseph Noll, a state board member. "Lucey did many great things, but

on this he was wrong. Maybe we should confer with (Gov. Lee) Dreyfus and see if there is an opportunity to try to reverse this."

Hiestand said the decision to charge tuition "had a very substantial negative impact the first year on evening enrollments and skill upgrading (courses)."

State board Chairman James Elliott, Milwaukee, said high tuition has led some construction firm officials to believe they can train their employees more cheaply than through vocational schools.

Under the new tuition rates, resident post-secondary and vocational adult students will pay \$12.20 per credit this fall; full-time students will pay \$366 for the academic year. The per credit charge for college-parallel students will be \$19.30, with full-time students paying \$579 for the academic year.

College-parallel tuition has increased 49 percent since 1975-76, Hiestand said, while post-secondary and vocational adult charges have gone up 144 percent.

Non-resident students will pay a program fee and an out-of-state tuition fee of \$55.80 per credit for college-parallel programs this fall and \$79.20 per credit for post-secondary and adult courses.

The equivalent of 52,000 full-time students will be affected by the tuition increases, which require no additional approval.

ORDER OF THE BOARD OF REGENTS  
OF THE UNIVERSITY OF WISCONSIN SYSTEM  
ADOPTING RULES

Relating to rules concerning procedures for determinations and appeals of classifications of students for tuition purposes under s. 36.27(2), Wis. Stats.

Analysis prepared by University of Wisconsin System:

These rules are in response to suggestions received from the State Legislative Joint Committee for Review of Administrative Rules. The purpose of these rules is to provide a level of consistency while allowing autonomy in the development of institutional procedures for administration of the nonresident tuition law.

Pursuant to authority vested in the board of regents of the university of Wisconsin system by section 36.09(1)(a), Wis. Stats., the board of regents adopts rules interpreting section 36.27(2), Wis. Stats., as follows:

Sections UWS 20.01, 20.02 and 20.03 of the Wisconsin Administrative Code are adopted to read:

CHAPTER UWS 20

NONRESIDENT TUITION DETERMINATION PROCEDURES AND APPEALS

UWS 20.01 Minimum Requirements. (1) The Chancellor of each institution in the university of Wisconsin system which classifies students for tuition purposes under s. 36.27(2), Wis. Stats., shall develop and file with the secretary of the board of regents procedures for determination of classifications and provide for appeals from classifications of nonresidency which shall, at minimum, provide for the following:

- (a) Designation of authorized personnel to make initial determinations of residency for tuition purposes;
- (b) A mechanism for reconsideration of an initial determination of nonresidency when a petitioner has new or different information to present concerning resident status which was not available at the time of the initial determination or which was available but, for good reason shown, the petitioner did not know about at the time of the initial determination;
- (c) A mechanism for appeal from an initial determination of nonresidency to a designated person or body at the institution;

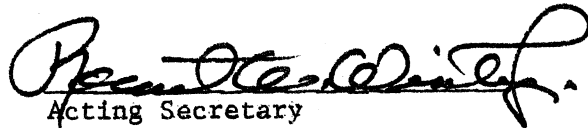

- (d) Appeal procedures, which shall include:
1. A time limit of fourteen (14) calendar days for filing an appeal from date of notification of classification from the initial determination, or, if a reconsideration is requested, from the date of notification of that classification;
  2. Notice to the petitioner of the appeal hearing which shall:
    - a. be served at least 10 (ten) days before the hearing date either by personal service or by mailing;
    - b. specify the time and place of the hearing and the body or person hearing the appeal; and
    - c. state that the hearing is a class 3 proceeding under ch. 227, Wis. Stats., is for the purpose of determining petitioner's residency status for tuition purposes under the authority conferred on the board of regents of the university of Wisconsin system by sec. 36.27, Wis. Stats., and is conducted under authority conferred on the institution by ch. UWS 20, Wis. Adm. Code.
  3. A right of personal appearance at an appeal;
  4. A right of a petitioner to have assistance, including private legal counsel, in making a personal appearance at an appeal hearing;
  5. A time limit for issuing a written decision of thirty (30) calendar days following the appeal hearing;
  6. Observing applicable statutory requirements concerning open and closed hearings;
  7. A stenographic, electronic or other record of the hearing. This record shall be transcribed and a copy of the written transcription provided to the petitioner at no cost in the event judicial review of the appeal decision is sought under ch. 227, Wis. Stats.; a copy of the written transcription shall otherwise be provided to the petitioner upon payment of a reasonable compensatory fee.

UWS 20.02 Finality of Decisions. Decisions by the appeal person or body of an institution in the university of Wisconsin system concerning residence classification for tuition purposes shall be final in the university of Wisconsin system. The decision shall note that it is subject to judicial review within thirty (30) days after service of the decision, pursuant to s. 227.16, Wis. Stats.

UWS 20.03 Students Transferring Between Institutions. A decision that a student is a resident for tuition purposes at one institution in the university of Wisconsin system shall require that the student be treated as a resident for tuition purposes in other institutions in the university of Wisconsin system, if the student transfers to another institution in the university of Wisconsin system and has maintained substantially the same determining factors.

The rules contained in this order shall take effect as provided in s. 227.026(1), Wis. Stats.

Board of Regents of the  
University of Wisconsin System

  
Acting Secretary

Dated: February 8, 1980  
(Seal)

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

*continued with UW Credit Union for 90 square feet of space at 1301 University Ave. EX.C*

A. An agreement between UW-Madison and the University of Wisconsin Credit Union for continued use of 90 square feet of space at 1301 University Avenues for purposes of operating a branch service facility has been signed by the Vice Chancellor for Administration December 20, 1979. The rate is \$40 per month and covers the period beginning December 1, 1979 on a month-to-month basis.

B. An agreement between the UW Foundation and UW-Madison for university lease of two vacant parcels of land (1347 and 1351 University Avenue) for the period of January 1, 1980 through December 31, 1982 has been signed by the Vice President for General Services December 3, 1979. Annual lease costs are \$2,500.

C. An amendment to the current lease of space at 905 University Avenue, for the Department of Clinical Oncology, UW-Madison, has been signed by the Vice President for General Services December 26, 1979. This amendment provides for an additional 250 square feet of space which is required by the federal grant program.

D. The one-year renewal option in the lease covering space occupied by the UW System Administration staff at 1920-30 Monroe Street has been exercised, extending the lease to June 30, 1981. The rental rate is \$8,120.35/month plus adjustments in accordance with Schedule II of the lease.

IV. REPORT OF ACTIONS TAKEN BY THE STATE BUILDING COMMISSION IN DECEMBER 1979 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

There was no meeting in December 1979.

Minutes

Executive Committee

Board of Regents of the University of Wisconsin System

The meeting was called to order at 10:00 a.m. on Thursday, December 27, 1979 in the Clarke Smith Room, 1820 Van Hise Hall. Present were Regents Erdman, Fitzgerald, Fox, Gerrard, and Grover. The purpose of the meeting was to consider terms and conditions for possible acquisition of the Bay Apartments, Green Bay, for the University of Wisconsin-Green Bay.

At 10:02 a.m., the following motion, made by Regent Fox, seconded by Regent Gerrard, was approved on a unanimous roll call vote, with Regents Erdman, Fitzgerald, Fox, Gerrard and Grover voting "Aye" (5) and Regents Lawton and McNamara absent.

That the committee convene in closed session to consider purchase of land, as permitted under section 19.85 (1)(e), Wis. Stats.

At the conclusion of discussion, the following resolution was moved by Regent Gerrard, seconded by Regent Fitzgerald and was adopted on a unanimous roll call vote:

*✓ - UW-Green Bay, buildings notation: Authorization to purchase Bay Apartments from Inland Steel Development Corp.*

That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, authorization be granted to purchase the Bay Apartments from the Inland Steel Development Corporation and to request the enumeration in the 1980 Annual Capital Budget Review Session of a project not to exceed \$2 million to cover the cost to purchase and to renovate the Bay Apartments, in accordance with the following terms and conditions:

*R 2066, p. 9, 4  
EX. D*

- (1) That the cost to purchase the Bay Apartments and the 10.4 acres on which they are sited not exceed \$1.6 million;
- (2) That the project include an additional \$400,000 to cover the cost of deferred maintenance and site work;
- (3) That a Housing and Urban Development (HUD) 3% Interest Subsidy Loan, supported by Program Revenues and not exceeding \$2 million, be utilized to fund the \$1.6 million purchase price of the Bay Apartments and \$400,000 for deferred maintenance and site work;
- (4) That the gift of the 51.8 acres of adjacent land be accepted from the Inland Steel Development Corporation;
- (5) That, because the purchase of the Bay Apartments and land on which they are sited, plus the gift of the 51.8 acres of adjacent land, are viewed as a single transaction, the State Building Commission be requested to allocate \$405,000 from the GPR-supported Advance Land Acquisition appropriation toward the cost of funding the \$1.6 million purchase price of the Bay Apartments.

The meeting was adjourned at 11:40 a.m.
