## WILLIAMS BAY

Where the Century of Progress Begins

Williams

On next Tuesday we again stop for the day to honor the memory of our heroes of the Nation's Wars. The day was originally set aside for the honoring of the men who fought in our great Civil War and was promoted and kept alive mainly by the Grand Army of the Republic, but the ranks of that great army have become so thin and the graves of the Army dead have become so numerous that their task has been passed on to others.

Now we have added the dead of the Spanish American Veterans and the American Legion and Veterans of Foreign Wars, and have the assistance of the living of those ranks.

We must not neglect the memory of those whose graves we decorate nor forget the living who were willing if need be to give their lives for their country.

---

#### Williams Bay and the Century of Progress

On Saturday night, weather permitting, Williams Bay has a very definite link in the starting of the great exhibition on Lake Michigan's shores, celebrating one hundred years of history of a city and the development of arts and sciences during that period. Our own Dr. Frost thought out the plan of hitching the opening of the Century of Progress to a star and chose Arcturus as the star as it has taken forty years for its light, traveling at 186,000 miles a second, to reach our earth, and the last exposition in Chicago was held forty years ago. Any other star could have been used, some of which we see as they were hundreds of years ago, their distance being so great.

We little appreciate just what is going on under the dome of the Yerkes Observatory which is famed the World over for discoveries in Astronomy, but we do appreciate the personnel of the institution who are all active in our every day affairs.

Every day we hear of some new member of our Summer population who has come back again to enjoy the Village and beautiful lake. We wish to extend a cordial welcome to you. We are a friendly people and want to be friends. We call each other by our given names and are Mike, Henry, Bill, Bob and Frank to each other and want you to feel the same way about us. Do not wait to be spoken to, but say "Good Morning" and feel a part of the Village.

Our business men are here to help you in any way possible. Their prices are in keeping with the times and the service is given with a smile.

This paper is published each week to help get you acquainted with our citizens, our clubs, our attractions and advantages. We hope you will use Williams Bay to the utmost.

---

#### Lilac Time

Williams Bay has been a beautiful place in which to live this last week in spite of the rains. Our hills and slopes have been well drained and garden planting has gone on day by day.

What we have been enjoying this week is the result of labors of other years. The apple trees planted by early settlers, lilac bushes planted several years ago, tulips and other perennials that others have planted. If we have enjoyed the flowers of others' labors, let us do our part to help make other summers as pretty for the next generation.

We have in our midst many flower specialists who will be glad to advise you what to plant and help you put the shrubs or trees in properly at small cost, considering the benefits you and others will receive. Their plants and shrubs are grown here and are acclimated and the roots are not allowed to get dry from the nursery to your garden.

The Williams Bay Lutheran Mission observed its first anniversary on Sunday, May 14th with a Rally Day Service. It was on Sunday, May 15th of last year, that the Mission held its first Services and Sunday School in Williams Bay.

The Lutheran Mission is, as its name suggests, no organized congregation. It is supported and governed by The Mission Board of the South Wisconsin District of the Evangelical Lutheran Synod of Missouri, Ohio, and other states.

All the activities of the Mission are conducted in the Community Room which is part of the Williams Bay Library Building.

The aim of the Mission is to serve the Lutherans in Williams Bay and the surrounding territory as well as all those who have no definite church affiliation.

Sunday Services 9:30 A.M.

Sunday School 10:30 A.M.

Bible Class meets on Wednesday evenings at 7:15 in the pastor's home.

Last Sunday evening at the Congregational Church Rev. Keiser gave a report on the Third Continental Congress for Economic Reconstruction which was held a few weeks ago in the Nation's Capitol.

The Congress was called by such notable leaders of Socialistic principles as Norman Thomas. It was an honest attempt on the part of true socialists to solve some of the serious problems facing our nation. Naturally some radicals were in the group and many revolutionary programs were advanced, but the level headed leaders were able to put off such plans of action until all other means were tried out.

The seriousness of the problem can in part be realized when reports by such an authority as the Alexander Hamilton Institute admit that there are seventeen million unemployed; and if you figure three dependents upon each, you have over fifty million people suffering and

## Church Notes (Cont.)

slowly starving. Others place the average as four dependents, which makes upwards of half of the nation's population in that class.

The hard part to consider is that we are in a land of plenty and yet half of the population is starving. It does not take a prophet to see what will happen when the elevators are bulging with grain and under their shadows are starving children crying for bread.

The plans of the President are a long way ahead of anything yet put into action along that line, yet the work is only begun.

Rev. Keiser was not sent as a delegate but went as a guest of friends who attended. He was however given delegate's privileges. Two hundred organizations close to human problems were represented by 4800 delegates.

Last Sunday morning Rev. Keiser resumed his sermons on the Prophets, taking "Hosea" for the subject. Next Sunday will be given to a Memorial Day observance.

Sunday School 9:30  
Church Service 10:30

The Baccalaureate Service for the High School will be held in the Congregational Church next Sunday evening at eight o'clock. Student pastor of the Gospel Tabernacle, I. L. Clark, will be the speaker.

THE SENIOR CLASS PLAY --May 26th  
8:00 o'clock

### "The Irresistible Marmaduke"

There have been many plays and stories about mistaken identity, but the novel feature about this one is that the man who has for a time to be "Marmaduke", and taken "home", had lost his memory, and really believed that he was Marmaduke. He proved so irresistible that his newly acquired family hadn't the heart for the time being to disillusion him. Once established in the house, the inevitable complications arise, and when the real Marmaduke comes home, the usurper of his place proves himself not only to be irresistible but indispensable to the family, in saving the n'er-do-well and giving him a chance to redeem himself. A happy, healthy comedy, full of intriguing situations.

The play is presented with the following cast:--

"Marmaduke" ----- Arnold Van Epps  
Mortimer Gregory--Herbert Johnson  
Doctor O'Keefe ----Cleatis Grimm  
Christopher Deacon--Hugh Stenstrom  
Walter -----John Ladd  
Lady Althea Gregory-----Margareta  
Bertelson  
Patricia O'Brien ---- Micheline  
Van Eiesbroeck  
Beatrice Wyley ----Margaret Krebs  
Dawson -----Marion Krause

---

The Junior Class is entertaining the Senior Class and High School Faculty at the annual Junior-Senior Banquet, May 25th at Ferndale. The Pirate scheme for decoration and program is being carried out. The annual Senior Class Day program is also being held in connection with the banquet.

The following program will be presented:

Alan Ross --- Toastmaster

### The Church Birthday Party

Tuesday evening the choir of  
the Gospel Tabernacle sponsored a  
birthday party in the church base-  
ment. Tables were beautifully decor-  
ated to represent the seasons of  
the year, Winter, Spring, Summer and  
Fall. Each table had its own re-  
freshments and program. M. T. Peter-  
son acted as toastmaster. There  
were about a hundred in attendance.  
A birthday offering was taken and  
given to the church. A very enjoy-  
able time was had by all.

---

### POPPY DAY -----SATURDAY

On Saturday the Veterans of  
Foreign Wars will have poppies for  
sale. These poppies are made by dis-  
abled veterans in the hospitals  
through out the country. The pro-  
ceeds go to help the Disabled Vet-  
erans and Orphans of Veterans.  
These poppies are made of silk and  
everyone will wish to buy one.

Leslie Sawyer has planted the  
flower bed in the Village Park to  
show red, white and blue. The red is  
from geraniums in the center, alys-  
sum for white and ageratum for blue.  
The bed is a project of the Garden  
Club.

## Memorial Day Program --Sunday

As in other years the Village will join with their neighbors in East Delavan and vicinity in doing honor to the dead. The service will be held Sunday at 2:30 p.m. at the East Delavan Cemetary.

Rev. Keiser of the Congregational Church will make the address. "Recessional" and "Tenting" will be sung by a double Mixed Quartet composed of Mrs. Henry Granzow, Mrs. F. M. Van Epps, Mrs. Arthur Pedersen, Miss Hussa, Henry Granzow, D. J. Oetjen, E. Zabler and Albert Weyhrauch. There will also be exercised by the Scouts, music by the Band, a duet by Miss Hussa and Elwin Weyhrauch and a Trumpet solo by Elwin Weyhrauch.

The Boy Scouts and the Girl Scouts, the High School Band and the Veterans of Foreign Wars will meet at the Dalton Farm and march to the cemetary.

### Life Guards Selected

Some time ago the Ordinance and Police Committee who has charge of the Safety of the Lake Shore selected Robert Cook to be Life Guard and Arnold Van Epps to be his Assistant for the 1933 season. No fault was found with Robert Anderson who had the position last year, but Robert Cook, one of the local young men, is as well qualified for the work. He is a graduate of the University of Wisconsin in the School of Physical Education and was on the University Swimming Team. Arnold has been swimming in Lake Geneva since he was five years old and passed his Junior Red Cross Test when he was eleven years old.

Jim Stamelos has opened the restaurant next to the park. His brother, big George, has a restaurant on Cottage Grove Avenue near Sixty Third Street in Chicago.

## CEDAR POINT PARK

The editor took a walk around Cedar Point Park Saturday afternoon and found many of the owners out, either for the Summer or for the week end, and all were busy getting their places in order.

W. F. Bazner and H. Bruce Spencer, President and Secretary of the Cedar Point Park Association, were out with their families just for the week end. Soon they will be here for the whole Summer.

Others whom he interviewed were: Mrs. Salach, who with her sons Roderich and Jimmie are here to stay. Mr. Salach will be out week ends. - Mr. and Mrs. G. S. Reid and children Allan and Elaine were at their cottage on the Point. Mr. and Mrs. Emil A. Baumbach and children Claire, Ruth and Emil Jr. were at their shore home. - Mr. & Mrs. Kap have been here for a couple weeks making improvements. Mr. and Mrs. Edward F. Moore and children are out for the Summer in their home, which was originally the Beidler home.

Others out for the week end only were Mr. and Mrs. F. J. Koch and son Franklin, Mr. and Mrs. Grahn, Mr. and Mrs. C. A. Erlandson and August Johnson, M. Veggeberg and family, Andrew Anderson and family, Mrs. C. Nelson and daughter Ruth and Mr. Billetad, Mr. and Mrs. Chas. Anderson and sons, Mrs. Louise Gilbertson and friends, Arthur Johnson and family, the Carl Gustafson family, Mr. & Mrs. A. Hadland and sons, A. Quarnstrom and son Roger and nephew. F. J. Materna and Tom Kubits and wife, and Thos. J. Knight.

Ivor Johnson was putting a chimney on his cottage and getting it ready for E. Dempsey and family of Chicago who have rented it for the summer.

Time did not permit the seeing of many others who were at their places.

Many asked about the water extension to Cedar Point Park.

Williams Bay Cub Pack

Many of our residents have heard of an organization in our community for boys nine to twelve years old, known as Cubs. The work has been carried on for several months under the leadership of Mr. Sorensen with the help of the mothers of the boys and several of the older boy scouts. The success of the movement has been so satisfactory that at a meeting of the local sponsoring committee recently it was decided to register our group, known as the Williams Bay Cub Pack, with the national organization. This way the boys will be entitled to wear the official Cub badges and be awarded the official Cub honors. It was further decided to hold an out-door Cub "Pow-wow" at the Boy Scout Camp on Friday evening, June 9th.

---

There is a lot of activity along the Lake Shore. The Swimming pier was put in shape by the Village and the Wisconsin Transportation Co. had a group of men repairing the Boat pier.

All the boats of the Wisconsin Transportation Company are in the water and most of them are ready for business.

The Village is having the planks which hold the bank placed in a more even row. This greatly improves the appearance of the beach.

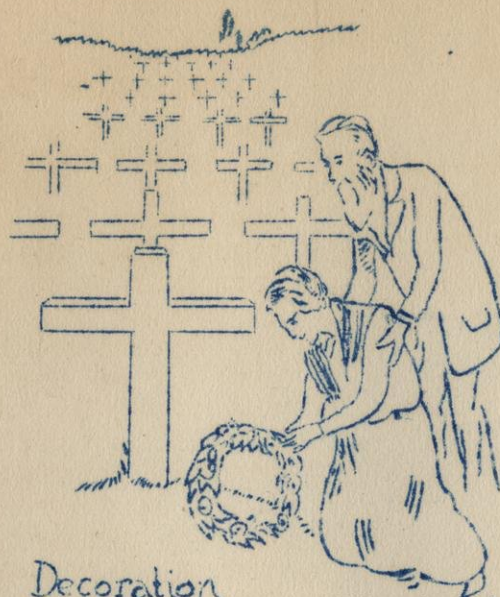

---

The same group of Bay men have row boats and motor boats along the shore. Everything is in readiness for the fishing season for pickerel and wall-eyed pike which opens on the 25th.

---

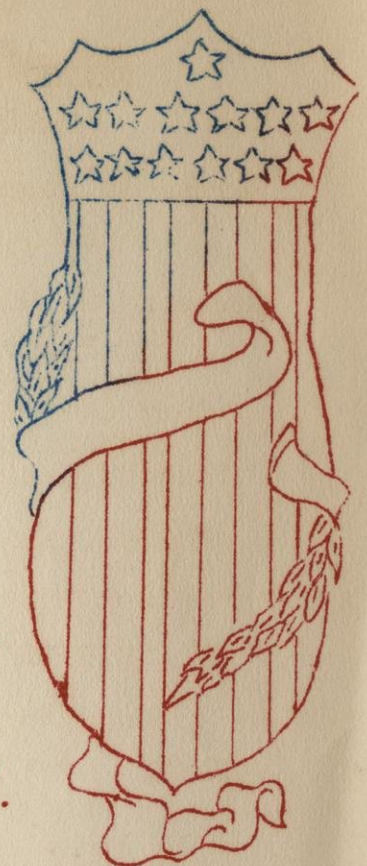

The Village had a group of men put the dumping ground across the road from the lake in better shape. It is planned to cover refuse as fast as it is dumped there in the future.

NATIONAL AFFAIRS

The affairs of the Nation are in such shape that the President and Vice President cannot be at the opening of the Century of Progress as planned, even after the date was set ahead for him.

Post-master Farley will represent the President at the opening.

Last week the President broke precedent and sent a letter to every nation of importance urging that all nations call a halt to every plan that might lead to war. It is rumored that the world was about on the eve of a war. It took courage in our president to take the initiative in the move, but it seems to have met with almost unanimous approval. He explained that no country had the money for war and it would mean ruination.

Hitler was one of the first to respond, and that helped a lot in the general feeling of Europe as it appeared to the world that Hitler was rushing toward war. Apparently his bark was worse than his bite.

The growing ratio of Farm Mortgage debt to values is set forth in an illustrated table in "The World Tomorrow":

1910--	35,974,000,000--	9.5%
1920--	61,315,000,000--	12.8%
1928--	47,927,000,000--	21%
1930--	44,248,000,000--	20%
1932--	31,473,000,000--	27%

The cash income of farmers in the United States declined about \$3,400,000,000 or 72% from 1929 through 1932; while their gross income declined nearly seven billion or 57% during the same period.

Besides a cabinet which seems to be real strong (it includes one woman), the President has assembled an unusual array of experts like Moley, Tugwell, Berk, Dickinson and Ezekial from whom he is not ashamed to take counsel.

During the last ten weeks, with a Congress that was strong for him, the President has greatly cleaned up the Bank situation by the Bank Holiday; created and started the Conservation Corp. to care for 275,000 men at the expenditure of \$250,000,000; temporarily abandoned the gold standard; and put through legalized 3.2 beer.

"Soldier, Rest !"

Soldier, rest! thy warfare o'er,  
Sleep the sleep that knows not  
                                breaking;  
Dream of battled fields no more,  
Days of danger, nights of  
                                waking.  
In our isle's enchanted hall,  
Hands unseen thy couch are  
                                strewn,  
Fairy strains of music fall,  
Every sense in slumber dawning.  
Soldier, rest! thy warfare o'er,  
Dream of fighting fields no more;  
Sleep the sleep that knows not  
                                breaking,  
Morn of toil, nor night of  
                                waking.

## COVER DESIGN

The cover design for this issue, so appropriate at this time, was designed by Mrs. Georges Van Biesbroeck, to whom we extend our thanks.

We greatly appreciate the efforts put forth by our people to make this paper a success.

Drawings in the advertisements  
are made by Wm. Mereness.

## CENTURY OF PROGRESS EXHIBITION

The Chicago Tribune gave a full page last Sunday to the story of the opening of the Fair by a ray of light from the Star Arcturus. The article entitled "How a Star Ray Will Open the Fair" is written by John A. Menaugh and is illustrated with pictures of the Yerkes Observatory and the telescope and a picture of Dr. Frost, Dr. Struve & Dr. Elvey.

The ray of light which will be used in starting the Fair will have been forty years in transit and will have travelled 240 trillion miles.

To make sure that the experiment need not fail because of cloudiness the Observatories at the University of Illinois, University of Pittsburg; and Harvard will simultaneously conduct the same experiment. In case it may be cloudy in one section of the country, it is not likely to be cloudy in all sections.

The complete details of the work involved was given in last week's Bay Leaves in an article by Dr. Struve.

At the Observatory next Saturday evening there will be quite a number of invited guests to witness the part played by Yerkes Observatory staff. Dr. Elvey and Dr. Struve will look after this end while Dr. Frost will be in Chicago at the Century of Progress.

At 8:15 Daylight Savings Time, or 7:15 Williams Bay time on Saturday evening, from the Court of the Hall of Science, the formal opening of the Fair Buildings will be broadcast. The program will include music by the Chicago Symphony Orchestra, Lawrence Tibbett, baritone, and a chorus of 2,500 voices, and a talk by our own Dr. Frost.

Dr. Fox of the Adler Planetarium who has charge of the electrical end of the formal opening on the Grounds was formerly on the staff of Yerkes Observatory.

## PERSONALS

Oscar Stenstrom attended a Scout Leaders' Conference at Woodstock last week. One of the items discussed was the World's Fair Camp. Boy Scouts can attend for \$7.50 for three days. Reservations should be made with the Scout Leader at once.

Stanley Orum and mother are out to their cottage. This is Stanley's thirty-first Summer at the Bay.

Edward Zabler went over to attend a Deloit College track Meet last Saturday. Russell Zabler, who has been undefeated in the Javelin Throwing event in track meets this year, won a medal.

C. T. Larson and some friends were at the Larson cottage next to the Williams Homestead. Mr. Larson is the son of the owner, C. Larson, who usually comes out much earlier. Mrs. Larson was badly injured in a fall this Winter, so Mr. Larson was needed at home in the City until this week when he came out.

Mr. and Mrs. C. E. Caul of Chicago were at their cottage in Lock Vista on Sunday. They do not expect to be here much before June 20th.

Harry Dunbar, Clerk of the Circuit Court, and his wife and friends were visitors at the Oetjen home Sunday, and they attended the Congregational Service in the morning.

Mr. T. J. Crowe and family drove out to their Summer Home this week.

## WILLIAMS BAY, WISCONSIN

It is very probable that some of the most eminent scientific men in the country will be journeying to the little village of Williams Bay, Wisconsin within the next month as a result of invitations extended by Dr. Otto Struve, the Yerkes Observatory director, to the membership of leading scientific groups scheduled to hold annual meetings in Chicago during the latter part of June.

Members of the American Astronomical Society and American Physical Society will visit the observatory on the afternoon and evening of June 24th. They will have the privilege of observing the heavens through the great 40 inch refracting telescope, largest of its kind in the world, of which the Yerkes Observatory group is the proud possessor.

The American Association for the Advancement of Science, an organization of some ten thousand members, will also meet in Chicago during the last two weeks of June, and it is expected that visits to Williams Bay will be made by several groups of scientists from this organization.

On May 27th about fifty students of the science classes of Chicago University will be Yerkes Observatory guests, and on August 30th, the Society of Illuminating Engineers will be entertained.

The part to be played by the observatory in the opening of "A Century of Progress" in Chicago has created such an interest on the part of the public, that arrangements have been made to have the observatory open to visitors for one hour daily in order to accommodate world's fair guests who wish to view the telescope. These daily sessions are to be held in addition to the regular Saturday afternoon guest lectures which will be continued as usual.

## Are You Acquainted With The Industries of the Village?

Each week it is the purpose of the editor of the Bay Leaves to better inform you of the various business enterprises of the Village.

This week, meet Mr. Edwin Holm, our genial laundryman. As his advertisement has been telling you, he has been doing laundry work here for a quarter of a century. Mr. Holm was an advocate of water and sewer for Wms. Bay as his business had been steadily growing and he had to have better facilities for handling the work. He has enlarged his plant so that he now takes care of the laundry of the Y.M.C.A. Camp, Eleanor Camp, Conference Point and other camps. He also does the work for the Northwestern Military School. He has a very complete plant and will be glad to have a call from you at any time to show you how he turns out the fine work.

He gives employment to several of our citizens.

It will pay you to let him figure on your work, no matter how large or small the job.

---

It is interesting to watch the boats being launched at the Boat Companies. Tuesday afternoon I. Schwinn's motor boat and "Garwood 40" were launched at Jewell Boat Company. The latter will be a part of Wm. Moeller's fleet.

---

Hopkins and Walker prepared the Maytag Cruiser for shipment to Kenosha, from whence it will be used by the new owner, L. J. Benson of Chicago, on Lake Michigan.

---

Everybody is going to the Village picnic next week June 5th. Full details in next issue of the "Bay Leaves".

## Club Has Election

The new officers for the Woman's Club are, Mrs. L. A. Hollister, president; Mrs. P. H. Chamberlain, vice president; Mrs. E. J. Jehn, secretary-treasurer. It was voted that the vice president should be chairman of the program committee. Other members of the program committee are Mrs. Jehn and Mrs. Herbert A. Bradt.

The club had a bridge luncheon Wednesday afternoon at 12:30 at the home of Mrs. Freytag.

## At Congress Club

Mr. and Mrs. W. L. River have rented a cottage for the summer at Congress Club.

Mr. River has been connected with M-G-M Pictures at Hollywood as a writer of scenarios. Previously, he has been a reporter and author. One of his books is entitled "Death of a Young Man."

He will spend this summer completing some manuscript for two novels.

Mr. River attended classes at the University of Chicago with Ben Frost.

Mrs. R. E. Burton entertained the Monday Afternoon Sewing Club this week.

The last regular meeting of the year of the E.O.T. Club was held Tuesday evening at the O.M. Waterbury home. A delicious luncheon was served by the hostess. Mrs. Theodore Johnson was a guest.

The Judge Gentzel home is practically ready for occupancy. It has been decorated inside and out and is now being carpeted throughout. His brother, R.F. Gentzel and wife will be here today.

The Cub Pack will sell poppies for the V.F.W.-Friday P.M. and Saturday.
