The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

when your patient
"coughs up a storm"*...

*During cough, particles are propelled at 150 to 160 feet per second — hurricane wind speed. (Hobby, A. W.: *Am. J. Surg.* **89**:285, 1955.)

Benylin[®] Expectorant

Each fluidounce contains: 80 mg. Benadryl[®] (diphenhydramine hydrochloride); 12 grains ammonium chloride; 5 grains sodium citrate; 2 grains chloroform; 1/10 grain menthol; and 5 per cent alcohol.

effectively calms the cough

For relief of coughs due to colds or allergy Benadryl (diphenhydramine hydrochloride) calms cough reflex, relieves bronchial spasm, and reduces nasal stuffiness...expectorants break down mucus and relieve respiratory congestion...raspberry-flavored syrup provides soothing demulcent action.

Precautions: Persons who have become drowsy on this or other antihistamine-containing drugs, or whose tolerance is not known, should not drive vehicles or engage in other activities requiring keen response while using this preparation. Hypnotics, sedatives, or tranquilizers, if used with BENYLIN EXPECTORANT, should be prescribed with caution because of possible additive effect.

Diphenhydramine hydrochloride has an atropine-like action which should be considered when prescribing BENYLIN EXPECTORANT.

Packaging: Bottles of 4 oz., 16 oz., and 1 gallon.
