The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Effective first line antihypertensive therapy with...

NO SALT RETENTION

...and no potassium depletion

Centrally Acting

Well tolerated by most patients.
Dry mouth and drowsiness usually
diminish or disappear over time.

WyTensin[®]

(guanabenz acetate)
