MERRY CHRISTMAS!

easons Greeti

It all started in '71 when Pat won the "Mother of the Trip" award, having taken four children to Switzerland skiing and not seeing them for a full week. They loved it, we loved it - it was pure fun with the University Hoofers trip to Davos in January. It may have been the last with timing right, for all of us, so we jumped at the chance to join some good friends and 150 college kids on a winter semester break.

Once recovered, it seemed that Easter Vacation offered the same opportunity. With five drivers, why not motor to the New Orleans airport and San Pedro Island off British Honduras for some fishing? The sleepy Spanish-British Island was just right to sun the winter-weary bones - and, again, Pat and Bennett caught the only bone-fish. However, they can't brag of jumping five tarpon in a small pool as Brian and I did. Skiing may be fun, but the look in Brian's eyes as he landed a huge barracuda was a fractional second. Bonus for Diane and Alison: one unusual day flying over the jumple of Guatemala to visit the ruins of Tikal. jungle of Guatemala to visit the ruins of Tikal.

Summer split up the group. Alison spent seven weeks in Europe traveling, seeing, wondering, wandering, turning home wiser, broke and memory-filled. She enjoyed most Holland and their clean country, kind people. Diane attended summer school to pick up a few credits, while Bennett and Brian worked at the farm. We fenced, cleaned, gardened, painted, fenced some more and, finally, this fall even put a new roof on a barn the assessor said wasn't worth the rolled roofing. (He has no artistic sense) no artistic sense).

Bennett did return to the Jackson Hole Ski Racing camp this year and brought home a fine trophy. Brian spent some time at a horsey camp trying to learn which end of a horse the pommel faces. But his real bag is hockey with the West Side Flyers.

A short family get-together at the cabin this summer when George, D'Ann and Roger swung through, was just taste enough to want to see more of them. The Senior Healys' home makes a beautiful reunion spot, so full of memories.

Fall and school - Diane and Alison attend the University of Wisconsin, Bennett is a senior at Memorial High, Brian is a freshman. How fast those years r by! The first winter break is Thanksgiving - a favorite holiday. Mother and Dad Healy, Bud and Ann, Aunt Druse, all the kids and their friends - it was good fun. How fast those years roll

Now Christmas approaches and we will spend the day with Pat's sister, Muff, and family in Mequon. With luck, we may usher in the New Year, as oft before, on skis.

So, good friends, another year is past. We hope it has been good to you as it has to us, no complaints. The canoe may be heavier to get over portages these days, so I just take it part at a time.

Merry Christmas, one and all, and a Happy New Year. May your fortune cookie hold all the best for you in '72!

Jan. 1973 Ridgeway Beauty Shop Closes After 26 Years of Operation

After 30 years of creating hairdo's as a beautician, Alice Fitzsimmons, Ridgeway, is closing shop.

She said laughing, "I have had it. I intend to spend the rest of my life growing flowers, taking a few trips and pestering the neighbors.

Reflecting on the years she rethat she had worked marked as an operator for a year in Mineral Point, afterwhich, didn't have a penny. So I went to the bank, borrowed \$800.00 and started my own shop."

She had this shop for seven years, then upon her marriage she came to Ridgeway. That was 26 years ago, and for 21 years she has had a shop in her home.

In those days she received \$.75 for a shampoo and a fingerwave. Permanents ranged in price from \$1.95-\$5.00. From machine to machineless giving of permanent waves was one of the greatest changes she has seen. She said, "It was very nerve-racking giving a permanent with electric heat. We had to put all those clamps on, and you didn't dare leave a customer for a minute. Today's permanents are all given with a cold-wave method."

Hairstyles created from using finger-waves and bobbi pins were in the mode for several years. Sometimes she said a permanent was given, and the woman didn't return for a set and to be combed out. Mrs. Fitzsimmons said, "This would make me very angry, as she went around looking like a fuzz-ball.

In her first days at Ridgeway many of her customers were getting their first cut and permanent. She said, "They came in with long hair, and went out with a new short hair-do." (Many of these customers, she still had when she announced her retirement.)

One of her long-time customers called shortly after she had told them they should find another beautician. The customer said, 'I am coming in for a permanent." Mrs. Fitzsimmons said, 'She hung up, before I could say a word and arrived a half-hour later. I did do that one, but that has to be it. I didn't renew my shopowners licenses. I only kept my manager one in case I should ever want to go into a hospital or another's shop."

A beauty shop operator hears the toils and troubles of the customers. They share their joys,

and sometimes a good joke is passed along.

Mrs. Fitzsimmons remarked, "The troubles you let go in one ear and out the other. People just need someone to listen to them. It makes everything seem a whole lot better, I guess.⁴

Her customers came from Arena, Mineral Point, Mt. Horeb, Mazomanie and other near-by towns. One of her customers from Barneveld once made an appointment. When she arrived she found that no one was home. Mrs. Fitzsimmons said, "She told me she waited an hour and was

she ever angry. I had gone fishing, having forgotten all about the appointment. She did come back, though."

Was there ever a man?

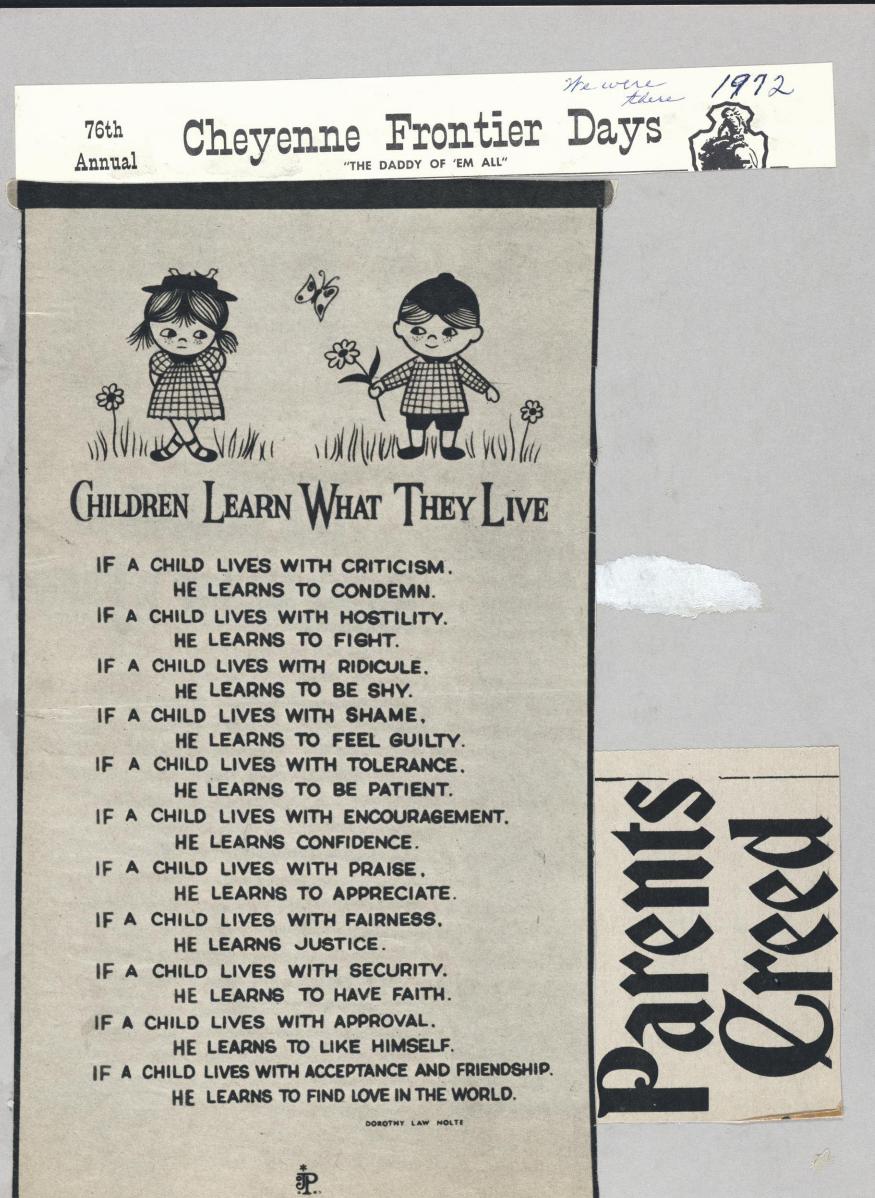

"Yes," said Mrs. Fitzsimmons. "He was Judge David Jones. He came in every week for a hotoil treatment. This was when I had my shop in Mineral Point, and his office was in the same build-

"I don't know if it did him any "I don't know if it did him any good, but he was a great friend. In fact, one of our boys is named you?" after him." she commented.

has a furniture store in Mineral Point. They have two other's, Bobby and Dean and one grandchild, Mark. Her husband, Bob, is the Postmaster at Ridgeway.

Rollers, and the teasing of hair has been the rage in recent years. She said, 'I think the most beautiful hair-do's are todays. Don't

Two Car Collision Claims 1973 Life of a Dodgeville Man

Pictured in the top photo is the car in which Harold Hill, 58, Route 3, Dodgeville was killed and in the bottom photo, the car driven by Mark Flogel, 20, also of Dodgeville. Flogel sustained cuts on the head and right leg and was reported in good condition at St. Joseph's Hospital Tues-day. .00 The two cars collided near Barneveld Friday morning. Flogel's car was cut in half by the

impact.

Harold Hill, 58, Rt. 3, Dodgeville, became Iowa County's first traffic victim in a two car acci-dent Friday, Jan. 12.

The driver of the other car involved, Mark J. Flogel, 20,

Rt. 1, Dodgeville, sustained cuts on the right leg and head and was taken to St. Joseph's Hospital by ambulance. He was reported in good condition Tuesday.

The collision occurred about 7:40 a.m. on Hwy. 18 and 151 at Short Cut Road in Brigham township.

According to the accident re-

port, Flogel stated that an un-1'l known vehicle came off the side 5 road in front of his car. Flogel 5 stepped on his brakes but ran off the roadway onto an icy should- 0 er, lost control and ran across the road into the path of Hill's car. Flogel's car was cut in half with the impact.

Flogel was charged with operating left of the center line.

Four St. Joseph's Hospital residents celebrated their birthdays in January: Gertrude Eiling, 84; Magdaline Jaggi, 79; and Mayta Ardnt, 76. Not pictured is Clarence Peterson, who is 84 this month. They were recognized at a party at the hospital, Thursday, January 18. 1973

Mrs. Gaige **Mitchell Dies**

BARNEVELD - Mrs. Gaige Mitchell, 75, died Tuesday (Jan. 18, 1972) in a Dodgeville hospital after a brief illness.

She was a Dodgeville-Ridgeway resident all her life until moving to Barneveld in May.

Mrs. Mitchell was a member of the United Methodist Church, Ridgeway, a past president of its WSCS, and a member of the Royal Neighbors.

Surviving in Madison is a sis-ter, Mrs. Caryl Seery, 512 W. Shore Dr.

Also surviving are her husband, two sons, Wendell, Green Bay; and Leon, Strum; five other sisters, Mrs. Lenys Polkinghorn and Mrs. Earl Mitchell, both of Dodgeville; Mrs. Thelma Swenson and Mrs. Uintah Dientelman, both of Mt. Horeb; and Mrs. Naomi Komplin, Blue Mounds; three brothers, Stacey Collins, Mt. Horeb; and Edward Collins and Dean Collins, both of Blue Mounds; and seven grandchildren.

The funeral will be at 1:30 p.m. Thursday in the church. Burial will be in Dodgeville's East Side Cemetery

Friends may call after 3 p.m. today at the Ayers Funeral Home, R i d g e w a y, and after noon Thursday at the church.

Barneveld woman, 69 dies at Viroqua

Mrs. Nels Olson, 69, Barneveld, passed away Friday (May 12, 1972) in a Viroqua Nursing Home after a long illness.

The former Mayme Anderson was married to Nels Olson Oct. 3, 1931. They farmed in the Blue Mounds area for many years before retiring to Barneveld. Mr. Nelson passed away Dec. 16, 1971. She was a member of West Blue Mounds Lutheran Church.

Surviving is a son, Dean, Olympia, Wash.

Funeral services were held at 1:30 p.m. Tuesday in the West Blue Mounds Lutheran Church with the Rev. Robert Twiton officiating. Interment was in the Spring Green Cemetery.

RAYMOND HAROLD BERG

Married 1972

Meier-Watson

Mrs. Herman Meier, 1017 Mohican Pass, and Stewart Watson, 4914 Whitcomb Dr., were married in a private family ceremony Tuesday at 4:30 p.m. in the Memorial United Church of Christ.

The Rev. John Schultz, new pastor of the church, officiated. Mr. and Mrs. Watson will

spend the winter in Rancho Bernardo, Calif., and will return to Madison in the spring. Mr. Watson, a widower, and

Mrs. Meier, a widow, each has four grown children and 15 grandchildren.

The bride's first husband, the late Herman Meier, was president of Badger Coaches, Inc. Mr. Watson, now retired, headed the Wingra Stone Co. and the Stewart Watson Construction Co. for many years.

Brigham native dies in hospital

Warren Thomas, 68, Mt. Horeb. passed away at a Madison hospital Thursday (August 10, 1972) after a long illness. He was born in Brigham Township November 1, 1903. His parents were the late Mr. and Mrs. Daniel Thomas.

On March 17, 1925, he was married to the former Wynona Theobald. They farmed in Perry Township until 1942, when they moved to Mt. Horeb. He was then employed at Badger Ordinance for a number of years, and then was in the painting profession.

Surviving besides his wife are a daughter, Mrs. Donald Arnold, Mt. Horeb; a sister, Mrs. Fred Klusendorf, Sr., Middleton; and six grandchildren.

Mr. Thomas was preceded in death by a son, Charles, who passed away April 30, 1954.

Funeral rites were held at 1:30 p.m. Monday in the Ellestad Funeral Home, Mt. Horeb, with the Rev. Don Iliff, Madison, formerly of Mt. Horeb, officiating. In-terment was in the Mt. Horeb cemetery.

Pallbearers were LaVerne Larson, LeRoy Underwood, Arnold, Russell Frederic Klusendorf, Mt. Horeb; Thomas Klusendorf, Dodgeville; and Robert Thomas, Waunakee.

É

Overlooking the Vermont Valley, passersby of the peace this site has the new memorial altar reminds brought residents of Vermont Township for over a century

Following the Dedication Mass, members of the congregation helped themselves at tables laden with a traditional potluck vittles

The congregation They came from St. Barnabas in families making up the

Mazomanie; St. Mary's of Pine congregation scattered Bluff and from St. Ignatius of Mazomanie, Pine Bluff and Mount Mount Horeb Sunday to a clearing Horeb Churches with the hope that along County Trunk F near Blue Mounds for a grand family reunion of the congregation of St. James of Vermont.

The occasion was the dedication of a memorial altar on the site where St. James Catholic Church was destroyed by fire in June of 1969. St. James had stood at the center of Vermont religious and social life since its construction in 1883 when it replaced "old brown" church across the road on the present site of the church cemetery. The congregation was founded with "old brown" in 1860 under the name St. Simon. The church has been known as St. James since 1891 when, legend has it, the congregation rejected the name of Simon in reaction to the brutal slave driver Simon Legree in the nineteenth century play "Uncle Tom's Cabin."

In its early days the church was a missionary church of St. Barnabas, Mazomanie. "Old Brown", built by Irish and German immigrant Catholics, Norwegian Lutherans and members of the clan of Vermont pioneer Ebenezer Brigham was dismantled and part was moved to Mazomanie to be used as a school.

The second church was raised across the road from "old brown" in 1883 and in 1895 it became affiliated with St. Ignatius, Mount Horeb. The Vermont church was transferred to St. Mary, Pine Bluff parish in 1934.

When the white frame structure burned to the ground during an

making to the people of the valley of Vermont would one day again have their own church. That dream was dashed recently when word came down that due to a shortage of priests St. James would not be allowed to rebuild.

It was in with these things in mind that the inheritors of the Vermont valley met Sunday in joyous communion on that hallowed spot. As Vermont native, Father Lawrence Trainor of St. Peter's Church, Madison, led a procession from the cemetery, it seemed a symbolic progression of history from "old brown" and the resting place of its builders, to the new Memorial Altar that is the tangible present of St. James.

From St. James Centennial Booklet, 1960 -

Poor years have gone by. Dry years and war years. Depression years.

Years of sickness and years of primitive toil.

Good years, too, have come, and were naturally more welcome than the bad years. There have been feasts and celebrations, as well as mournings and misfortunes. The life of grace has been bred and sustained by baptisms, by confirmations, by shirving and by eating the "Bread of Angels". All this in the church built and maintained by a stout-hearted and happy parish family. There have been weddings and funerals, increases and decreases. This, too, in a church called "ours" with a pride and love found only among the folks of smaller rural colonies.

What of tomorrow? No one on earth knows. The Church does not know

But let this be said. If time in its march toward God should indicate that nations, societies, even civilizations need and depend upon the Vermonts of the world, the church will continue to maintain the Vermonts of the world.

march 1973 **Ellsworth Pollock**

The funeral for Ellsworth Pollock, 67, Barneveld, who died Tuesday, were held Friday at 1:30 p.m. in the Barneveld Lutheran Church.

Dimpfl; a d a u g h t e r, Miss Myrtle Dimpfl, and a brother, Albert Olson, all also of Barn e v e l d; five grandchildren, and two great-grandchildren.

Friends may call at the Ellestad Funeral Home, Mt. Horeb, after 3 p.m. Sunday.

Funeral rites will be held Monday at 2 p.m. in the Barneveld Lutheran Church, with the Rev. Robert Twiton officiating. Burial will be in White Cemetery, Barneveld.

Valstad-Ludlum Nuptials To Be Held in August

Dr. Lawrence Prouty, 54, Specialist, Is Found Dead

Dr. Lawrence R. Prouty, 54, of 1105 Catalpa Circle, a Madison internist and heart specialist, was found dead by Madison police around 7:30 a.m. Tuesday in the University of Wisconsin Arboretum from a gunshot wound.

The shooting occurred sometime after 5 p.m. Monday, ac-

cording to Dane County Deputy Coroner Richard Peterson. Police found Dr. Prouty's car around 6 p.m. Monday parked at Capitol Ave. and Balden St., about two blocks from where the body was later found.

Former Barneveld Man to Help Build New Western City

by Jeannie Lewis

JAN. 4, 1973

Many a small boy dreams of building a city but few ever get the chance to do it.

But, Don Theobald who was born and raised in the Barneveld-Dodgeville area will. The story starts in 1944 when he left this area, attended the University of Wisconsin, was married (to the former Jenny Schroeder, Dodgeville) and settled in Madison. Since that time he's worked at "almost every position" in the Dept. of Public Works, Madison. After 17 years he became the Assistant Engineer, a position he held until 1968 when he was selected City Engineer.

On a recent "Mayor's Report" on T.V., Mayor Dyke credited Theobald for his service to the city of Madison. His work dwelt with the huge network of streets and sewers, that make up a large city. Mayor Dyke said, "Your leaving as City Engineer is a great loss to the city of Madison."

The story now has a new chapter to be written.

Theobald is leaving Wisconsin to go to Colorado to help in the developing of a "brand new city." He said, "I think it will be a great adventure."

His father, Webb, who lives in Barneveld, said that his son, as a small boy, always liked riding on the road-grader with his grandfather.

Theobald said that this was the reason he went into engineering, and that it sounded like outdoor work, which he liked.

aunt, Libby Theobald, His

Don Theobald, formerly of Barneveld, will be helping build a new community out west. He was formerly involved in city plan-ing positions in Madison. —Jean Lewis photo ning positions in Madison.

Barneveld, said, "Don always liked adventure as a boy. He was forever sending in ads to see what he would get."

a silo. Neighbors of the Theobald's often told how a big truck loaded with the silo stoped at their yet, because of it being all new.) place looking for the Don Theobald farm. They assured the driver that the only one by that name in the area was a small boy, and what could he be wanting with a silo.

"No one ever knew where the silo went." said his aunt. "But, that was the last time he ever sent in any ads."

His new job, which started January 2, will not only be something new, but he will get the chance to help in the development of a city, that will consist of 31,000 acres.

The Theobalds had vacationed in Colorado for the past 17 years. When they saw an ad for lots in the new city, they went to take a look, and purchased one for themselves.

A year ago he was offered the position of Assistant Manager of Pueblo West, Metropolitan District. He said, "It took me a whole year to make up my mind." "There is 80% sunshine during

the year in Colorado," said Theobald. "And, I liked that."

In the new city he will be working closely with the developments One such ad almost brought him in construction, public utilities and in government. (They haven't structured their own government

Theobald said, "I think it will be a lot of fun working where everything will be new. Old cities, teach you things. In a new city one can learn from the mistakes or problems that have developed in old cities and find a better way. In Pueblo West there will be everything from horse riding trails to the largest lake in Colorado."

It might sound like a dream, a new city, but Don Theobald knows it's reality. This is one ad that not only proved promising. It opened up a whole new adventure for him.

Country Store Still Lively 6 After Century of Service

By JEANIE LEWIS

More than, a century old, the Hyde Store in this tiny Iowa county crossroads community, provides for young and old alike. Hyde is about five miles north of Ridgeway.

The store got its name from an early day settler, William Hyde. In those early days, Hyde thrived with a mill, a blacksmith shop, a cheese factory and a shoe shop.

A tragedy, remembered by many, came to Lena Olson and Anne Johnson, who died in a fire that consumed their home in 1956. They operated the store for about a half century.

Many a conversation begins, "Years ago I stopped here in Hyde. . .." And the stories are passed on.

History tells us that at one time the store housed a postoffice. It was a mail and supply stop for a stage coach between Sauk City and Mineral Point. A near-by farm was used for changing horses for the stage.

The new owner of the store, Eve Gust, was asked what she would name her new business. She replied, "I could never change the name. My gosh! Hyde Store is a landmark."

Mrs. Gust was born and raised in the rural area. After her marriage she and her husband farmed for several years. In 1959 they moved to town where she worked as a "lady bartender," and once owned a restaurant in Ridgeway.

"I've always been a country girl," she said. "Here is where I can be happy."

She commented that when she gets up in the morning all she need do is look out her window and often times sees deer standing on a hill near-by.

Along with the store, Mrs. Gust, purchased a mobile home and a parcel of land.

"I'm always right here if someone needs something," she said, pointing out her new home directly behind the store.

Gas pumps between towns? "I'd like to give them back to the company," said Mrs. Gust as she came running into the store after waiting on a customer in 12 degrees below weather. "But, the people stop for gas. So I guess the pumps are needed."

Plans for next summer include a paint job for the store and a shelter on the lawn near-by. The shelter will have picnic tables "so that anyone can have a place to stop to rest, or to have a picnic in the country." In keeping with the country store air, a rustic-brown paint job, trimmed in white, will give the old store a new lift.

The Hyde community is a haven for many. The "kids" come biking in from near-by towns to go fishing. The sportsmen come to go hunting. And, with the snow, the snowmobilers. The area people, the old-timers who come back, people from the cities who have built cabins in surrounding woods, all have a nook in Hyde store.

Mrs. Gust stated that what she likes best is the visiting. She has provided five chairs in the store for just that. Her sparkling personality adds to the charm of an old country store atmosphere.

"I guess Hyde Store will always be needed by some, and something of a rarity for those just passing by," she said.

"And," said a customer Tom Collins, "If a person and a building could be termed compatible, it would be Eve Gust and the Hyde Store."

Hyde Store has served this Iowa County community for over a 100 years. The new owner, Eve Gust, erected new lights overhead, and near the gas pumps. Neighbors say, "she came in and lit up the whole valley."

Eve Gust, the new owner of Hyde Store, sits in one of the five chairs she has provided for customers.

Mr. and Mrs. Delbert Dochnahl, Ridgeway, will observe their 40th wedding anniversary, Sunday, April 7th, with an anniversary Mass at 10:30 a.m. at St. Bridget Catholic Church, Ridgeway, and open house at The Wheel at Ridgeway, from 2:00 to 4:00 p.m. Mr. Dochnahl and the former Mary Ebenhoe, were married April 2, 1934 at St. James Church, Vermont. The attendants were Dorothy Sersch, the former Dorothy Ebenhoe, and Sylvester Dochnafil. No formal invitations will be sent. Relatives, neighbors and friends are invited.

In Barneveld Shop May 3, 1973 Everything in a Brown Bag

Everything goes out in a brown paper bag, thus the name "the Brown Bag Shop. According to Mrs. Kathryn Buskee, owner of the thrift shop, located about 8 miles east of highways 18-151 on county trunk Z, the name seemed appropriate.

Mrs. Buskee got started when Mrs. Lee Myers closed her shop in Barneveld. "Mrs. Myers furnished her with clothes, customers and know-how," she remarked.

Mrs. Buskee is a handicapped person. But, as her granddaugh-ter Linda related, "My grandmother is a whizz, especially when working with her needles.

Linda claims that her grandmother can do or make anything when it comes to needlework. This includes any toy ever heard of, and a few that are Mrs. Buskees originals. She does do embroider and knitting, but prefers making toys as they are "faster and more fun to do up."

Many of her home-made crafts are sent to the Easter Seal Homecraft Shop, St. Street and the V.C.P. Homecrafters Shop, Monroe St., Madison, which provides an out-let for her.

Her specialties include a threein-one doll. Looking at it, one sees the familar Little Red Ridinghood. Mrs. Buskee turns the doll about . . . it becomes the Grandmother. She then takes Grandmothers bonnet and pulls it to the opposite side and presto, the big bad wolf. Not only a doll for fun, but for grandmothers to use as a visual aid when related the familar fairy tale.

Koala bears, scotty dogs, beavers, Mrs. Beasly and many, many others are made from "not too simple patterns." as Linda re-lates how her grandmother makes the toys.

The patterns are found by looking at "children picture books, children T.V. programs and catalogs." And, sometimes it is a mixture of all three.

Occassionally a problem is created, as when a customer once asked for a Linus doll. Mrs. Buskee said, "I didn't have any idea what it was. I thought maybe it was a lion. But, after a search of the children books I found out what he was." Making it was a problem, too. Unitl she found a way to snap his blanket so that "he can be sucking his thumb".

Mrs. Kathryn Buskee, and grand-daughter Linda, are shown with just a few of the many toys Mrs. Buskee makes. Beau-jack, in Linda's arms, is for real.

An apron that serves as a sun- condition, which made Mrs. bonnet is another of Mrs. Bus- Myers unable to keep the shop. kees originals. "One might say Mrs. Buskee took over because that if an item can be made to "it was something I wanted to serve in more than one place, do." She in turn told Mrs. Myers it is just that much better." about the program for handi-

in clothes, in household items and sometimes for antiques . . . all offered here.

Surprisingly, most of the items brought for resale are not from the immediate locale. She said, "Sometimes a teenage will worry that someone might recognize an item. I can always tell them the town it comes from. . . but actually it isn't too likely that an item is a one-of-a-kind."

Mrs. Buskee recently underwent "the total hip replacement operation." This is the second operation as a partial hip operation was not totally successful. She said, "When it goes so I could hardly walk, I knew it was time for the second one." She said that when she has the "turnover period" in the shop of winter clothes to summer ones then friends and neighbors help her with the "bending jobs."

When the shop closed at Barneveld, it was because of a heart

Customers to the Brown Bag capped people and she found an come from all over Wisconsin. out-let for her poncho's, sweaters Some are looking for bargains and other needlework. Mrs. Bus-

kee said, "It is just people helping one another."

Mrs. Buskee remarked that " a wonderful person by the name of Lynette Teppo of Spring Green, a rehibilitation instructor who serves this area, got many started in a venture." The Brown Bag Shop included.

March 21, 1973

Era Ends As Hospital Closes

The Iowa County Hospital, a massive three story brick building which housed mentally ill patients for 86 years closed its doors Wednesday.

The county board had voted in December to close the facility, after the state had recommended the installation of a sprinkling system, and other changes. Cost of the renovation range from three to four houndred thousand dollars. The hospital, located between Dodgeville and Edmund, housed 97 patients, most of whom had known the hospital as "home" for at least 10 years; some as long as 40 years.

Employing 65 people, the hos-pital had an operating budget of over a half million dollars annually. Of that budget, federal and state subsidies paid about 85% of the total cost. The rest came from Iowa County taxpayers. But most important, what happended to those patients.

After the patients were pro-fessionally classified to the type of help they needed, the residents were re-elected accordingly, beginning in January and ending this week. Thirty-three were returned to nursinghomes in their counites of legal settlement, while seven were sent back to family and friends. Of the 29 Iowa County nursing home patients, 7 were placed at the Iowa County Nursing Home while 22 were placed with the Mineral Point Care Center. Eighteen were returned to other hospitals for continued treatment. Two patients were sent to central state; and the remaining eight to Mendota, two awaiting transfer to Milwaukee.

"We have heard from staff members that have visited patients and from patients as well, and they have adjusted very well up to this time," Brennan stated. "Hopefully, this pattern of behavior will continue."

"The transfer of patients went very smoothly, and I would like to commend the local Department of Social Services as well as our own staff for their fine cooperation. There was an unbelieveable amount of paper work that had to be processed," Brennan explained.

As for breaking emotional ties with the facility, Brennan com-mented that he had expected some emotional upsets from the pa-tients, "But it wasn't to the degree which we were prepared for. After all, this was home to many of these people for many years," he said.

Will closing of the facility save money? Time will tell. The hospital kept patients for about \$87 per week; with 110% reimbursement for out-of-county patients; and 60% for Iowa County patients.

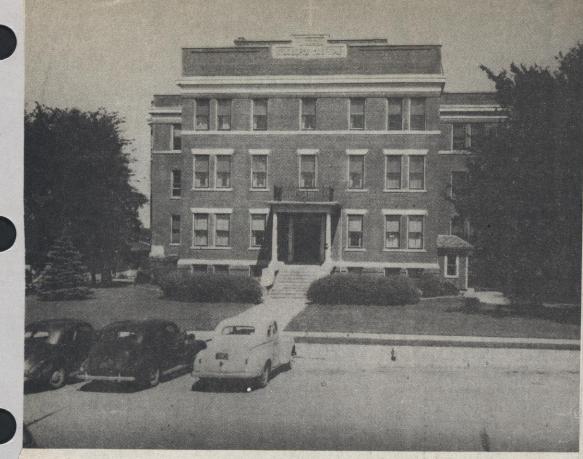

After 86 years of service to Iowa County's mentally ill, the Iowa County Hospital closed its doors Tuesday after the county board had voted to close the facility. Hospital administrator John Brennan bids farewell to the last two residents of the hospital Tuesday afternoon.

The bulk of the patients went to its doors in favor of a more flexnursing homes, and a large share of that is picked up under Title 19, with the balance being shared equally by state and county gov-ernments. The county will have to support patients in other facilities. This cost, plus the federal funding formulas can change. Only time will determine the economy of the move.

As for the building, it will stand idle. Brennan doubted its use ever again for a health care service. "It won't meet the state requirements.

ible approach with regional treatment centers. As for the patients, it would seem that the patients have been placed in facilities more ideally suited to their problems and needs, in their communities. Time will have to tell that too.

The residents have all gone now. Piles of linen, pots and pans, empty chairs, an furniture fill the halls and rooms. It's all over for the hospital, 86 years old. Hopefully a victim of improved treatment for the mentally ill. Iowa County's hospital was one As one patient of 40 years said of the first in the state to close on stepping out, "I'm going home."

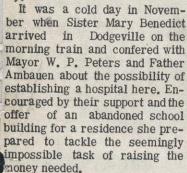

by Harry Johnson

Lest we forget. . .

As discussion continues about the establishment of a single hospital operation in the area and the possible purchase of St. Joseph's Hospital to that end

It's hoped that we'll always remember the sixty-one years of devoted service the the Fransiscan Sisters of Little Falls, Minn. have given to our community.

It helped when her younger natural sister, Sister Scholastica, and older Sister Mary Francis arrived two days later.

But it's a miracle that the three Sisters were able to endure the poverty and cold of that first winter in this building that had stood empty for six years.

'It was so cold that in order to keep the bread raising the pan of dough had to be wrapped in blankets and in order to keep the east from freezing overnight ike the milk it had to be taken along to bed in a covered fruit jar," they said.

But as they became better acquainted they were encouraged by the friendliness of the local people and on December 10, 1912 appeared before the City Council and presented their building plans for approval. The new hospital was to be a three-story structure and the Councilmen voted unanimously to recommend the levying a \$2000 tax in order to purase a site for the building. Sister Benedict and Sister cholastica kept up the hard work

of going door-to-door and farmto-farm to solicit funds. People were so short of cash that they asked for pledges instead. But the pledges were always met.

They went by buggy and would return each night to take care of patients they were already nursing in their homes. No one drove them more often than Jim Pengelly who had a livery stable.

They stayed at the home of Mr. and Mrs. J. Kritz while canvasing in Wyoming Valley and across the river in to Sauk County.

"A Sister's Hospital will never succeed in Dodgeville," Mr. Kritz warned. But two years later when the hospital was a reality he brought elm trees and helped with the landscaping.

Sister Benedict went to Hollandale on the Illinois Central (35 cents) and Patrick Burns drove her around until late at night.

"One reason Sister Benedict funds was because she was alherself," explained one old-timer. "No matter what you did for Sister Benedict you could never get ahead of her. She always did you a greater kindness in return." The Sisters were greatly en-

couraged when banker J. M. Rees€ lent them money without security to purchase nine acres of land that had formerly been the vineyards and nurseries of Isaac Ellwood. Mr. Reese, Patrick Smith and Orville Strong pledged \$25(each at this time and many others made smaller contributions. The plans for the hospital were already complete and the archion April 4, 1913.

Bids were opened on April 8, Charlie Brennan, Richard Jones monies on March 12, 1914.

It was a bright and clear day ther improve the facilities. and 3500 came by horse and buggy House and led by the high school ize bees to provide wood. On many speakers congratulated the the men. Sisters and predicted success.

DODGEVILLE CHRONICLE THURSDAY, MAR. 29, 1973

according to the Dodgeville sion and it is said that Sister Chronicle "Showed the good feel- Benedict never turned anyone ing and unity that existed in the community."

Dr. William Reese, assisted by his neice, Margaret Jenkin, had five beds above the Corner Drug Store and surgeons came by train from Chicago to perform the necessary operations. But he closed his facility as soon as the new hospital was opened. Drs. W. M. Gratiot and H. D. Ludden of Mineral Point also had their own little hospitals in the home of the Registered Nurse which was also discontinued as soon as St. Joseph's was ready for business.

A medical staff gradually formed around the new hospital until officially organized in 1920 with Dr. D. B. Hamilton as their president. The active staff has numbered from 10 to twelve doctors ever since.

At the time of its completion St. Joseph's Hospital was considered one of the best in the state of Wisconsin. It had running hot tect's drawing made the front and cold water, toilet facilities page of the Dodgeville Chronicle on each floor, electric lights and call bells and a central heating plant with a stove in each of and the contract let to Edward the corner rooms and in the oper-Donahue of Janesville. The exca- ating room. It was built as a 40vating was done by Frank Meudt, bed hospital at a cost of \$40,000.

Then there were the years when the Sisters had to farm for food.

Their farm was a great haven They were loudly applauded which for the hungry during the depres-Benedict never turned anyone away. Except one man who refused to skin three poles for his dinner. When you were around Sister Benedict you worked and she worked harder than anyone else. But by 1942 when Sister Bendict retired and left Dodgeville it had become economically more feasable to buy their food and the farming operations were gradually discontinued. Sister Bendict died at Little Falls, Minn. on Oct. 15, 1958.

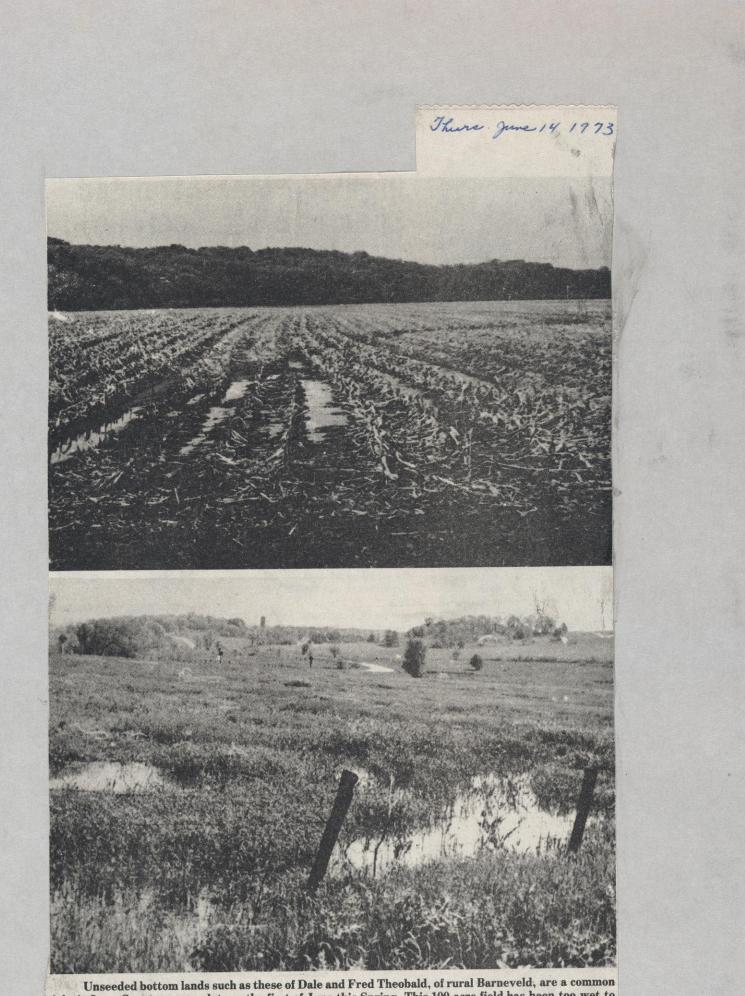

But despite all difficulties St. Joseph's continued to grow. In 1915 it had 149 patients, by 1925 there were 743 and in 1929 they took care of 1017. The 40bed hospital was being used as a 60-bed hospital and at times the number of patients reached 90 and once went over 100. You can imagine how crowded it must have been. That's when the Sisters started planning the 33-bed addition and all the other improvements to be seen today.

At the present time there are seven Sisters at St. Joseph's Hospital and between 110 and 120 other full-time and part-time employees. There are 78 beds, 45 for acute cases and 33 for the nursing home.

St. Joseph's Hospital was accredited and placed in Class A in 1922 and in 1933 was classed as one of the top six hospitals in the state of Wisconsin.

In 1953 the hospital was again given complete accreditation and has maintained its top rating ever since. A proud record for the Franciscan Sisters and our community as a result of hard work and cooperation during 61 years.

Fransiscan Sisters Have was so successful at collecting funds was because she was al-ways ready to give so much of Given 61 Yrs. to Community

Unseeded bottom lands such as these of Dale and Fred Theobald, of rural Barneveld, are a common sight in Iowa County even as late as the first of June this Spring. This 100-acre field has been too wet to plant so far, and will probably not be planted at all, according to the Theobald's.

1

Mr. and Mrs. Arnold Thuli Sr., Spring Green, will observe their golden wedding anniversary on April 29, with a Mass of Thanksgiving at 10:00 a.m. at St. John's Catholic Church, Spring Green, and a luncheon and open house from 12:30 to 3:00 p.m. in St. John's church basement. All friends, neighbors and relatives are invited to attend. No local formal invitations have been sent Mr. Thuli and the former Josephine Nigg were married April 19, 1923 in Einsiedeln, Switzerland. They are the parents of seven children: Arnold, Dodgeville; Mrs. Larry (Mary) Schoenmann, Darlington; Joseph, Darlington; Mrs. William (Josephine) Bittle, Etterville, Mo.; Mrs. Gary (Emma) Novinska, Boscobel; Mrs. Paul (Katherine) Stauffacher, Cross Plains; and Paul, Lancaster; and 32 grandchildren. 1973

Mary Ellen advances to national contest

Mary Ellen Larson, daughter of Mr. and Mrs. Owen J. Larson, 108 N. Washington St., won third place in Accounting II Proficiency contest at the Wisconsin Office Education Conference and will compete again at the National Office Education Association's Leadership Conference in Minneapolis, Minnesota, April 27 through May 1.

Seventy-eight members of the Wisconsin Office Education Association at Madison Area Technical College attended the WOEA State Conference at Waukesha, March 28 to 30.

They took part in business skills competitive events, elected state officers, and heard speakers in their chosen career fields.

Mary Ellen is a second year accounting student at Madison Area Technical College. She is a 1972 graduate of Mount Horeb High School.

Barneveld Legionaires to host district conference this weekend

The Eveland-Trainor Post 433 of Barneveld will host the American Legion Third District Fall Conference on September 8-9.

The Third District includes Dane, Iowa, Green, Lafayette, Grant, Crawford, and Richland counties. Registration will begin on Saturday, Sept. 8, 2:00 p.m. at the Post's new clubhouse. At 7:30 p.m. the Fall Conference Banquet will begin at the clubhouse with National Alternate Executive Committeeman Ed Ormsby as the main speaker.

Registration on Sunday, Sept. 9 will start at 8 a.m. with the conference session to be called to order at 9 a.m. by District Commander Bud Mautz. Newly-elected Department of Wisconsin Commander Keith Kreul will be on hand at the session.

The highlight of the two-day conference will be the District Parade starting at 2 p.m., which will include nationally-famous "Uncle Sam", the Zor Nomads, the Shrine Clowns, a Madison drum and bugle corps, and many other entries from Southwestern Wisconsin. Groups, individuals, and business places are invited to

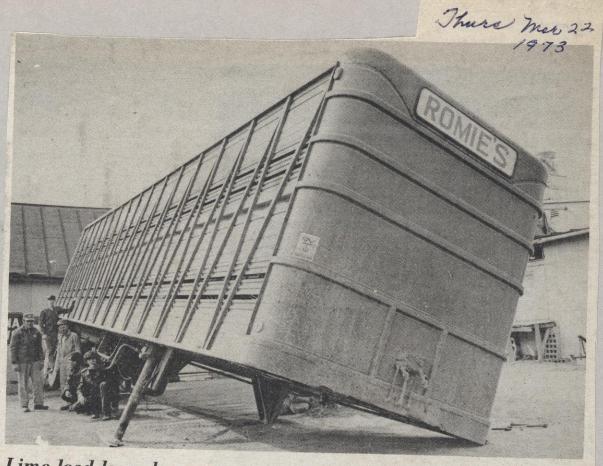

participate in the big parade. For more information, contact Post Commander Gale Manteufel, Conference General Chairman Jerry Williams, or Conference Parade Chairman Lee Pollock.

^V The Reverend Paul Fotsch and sons Dave [left], Sam [center], and Lee [foreground] of Barneveld visited the University of Wisconsin-Madison on Friday, April 12. While there they took the opportunity to tour the Department of Military Science and talked to Captain Bob Schoville about the Army's ROTC Four-Year Scholarship Program. Dave, a junior in high school, learned about a new feature of the program which will award 300 of the scholarships [worth up to \$16,000 over four years] next October. The Professor of Military Science, Major Charles Smith, also talked to the group during the visit and extended an invitation to all interested in learning more about Army ROTC or in touring the facilities to contact the Department of Military Science at UW-Madison.

Blue Mound home comes to rest

Ninety-one year-old Dan Frame took advantage of the spring-like weather Monday to visit the site on which the house he built a halfcentury ago has been placed. Mr. Frame built the house and all the buildings that sat until this month at the foot of the Blue Mounds State Park. The State purchased the farm last year for park expansion and sold the house to Mat Solschenberger who had the building removed to the edge of the Village of Blue Mounds within sight of Dan Frame's present home. Both Frame and home. Both Frame and Solschenberger seem pleased with the move, Dan agreeing with Solschenberger that "it is still a good strong house, too good to be burned." It should be; all the solid oak that went into the house was cut on the Dave Frame farm by Dan Frame who put up all the buildings on the land. It is now being renovated to provide two apartments.

Thursday, November 22, 1973 MARKEN STREET Rural Wisconsin Was Thrilled **They All Remember JFK**

By JOHN STALLARD (Of The Capital Times Staff)

DODGEVILLE, Wis. - A film called "Magic Boy" was appearing at the Dodge Theater here this week and 13 years ago a real person whom many others regarded with some kind of magic also appeared at the theater

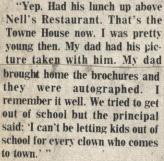

He flashed warm smiles and inspired the young and even entertained the old the same way the film character did. But there were indications here this week that they'll remember the real man a lot longer than the film. Some say he was the greatest thing that ever happened in Dodgeville.

The man was Senator John F. Kennedy of Massachusetts who spent three months in Wisconsin during the Winter and Spring of 1960 campaigning for president of the United States. He blanketed the state from Madison to Milwaukee and from Ashland to Dodgeville.

There is something momentarily melodramatic about realizing that a man such as Mr. Kennedy spent time in little towns like this one, Darlington and Mineral Point and such small. communities as Ridgeway, Shullsburg and Gratiot.

Do they remember him? Yes, they do, from the young to the old. And that is significant when, although Mr. Kennedy won the Wisconsin primary, he did not win in Iowa or LaFayette Counties

But in Darlington in LaFayette County, you pull into a Sunoco station and ask Jim McGettigan, 19, if he remembers when John Kennedy first came to town. Mr Kennedy was in Darlington twice: the first time during the fall of 1959 when he was just beginning to acquaint himself with Wisconsin. McGettigan was only six years old then, a first grader, but he answers the question immediately:

The principal is not to be blamed. Fourteen years ago John Kennedy was relatively unknown outside of the New England states and who in Darlington or Dodgeville or Ridgeway could have guessed that he would become a national martyr

Downtown Darlington where President John F. Kennedy made two appearances in 1959 and 1960 while campaigning as the senator from Massachusetts. Kennedy won the Democratic contest in the

Quite a few think the same as " Ternes said, "that he was one of the greatest men in my lifetime.

About 400 heard Kennedy talk in the Dodge Theater.

William Cerutti, a monument dealer, and his wife were in the audience.

"He had a hell of a cold and he was hoarse," Cerutti said. "His helpers were running around with foggers."

Aside from politics, did they really like Kennedy as an individual? Both answered in

umson, "Yes." "He was a very colorful fellow," Cerutti said. "His accent was different. He rolled everything. He always gave you an idea that things would get better. You believed him.'

Said Mrs. Cerutti: "He talked to people; he didn't talk them

"At that time, who thought this would be anything big," Cerutti said. "He had all of the young people cranked up about him. That's what this country is all about. Nobody knows just how well he would have done if he could have finished."

At the theater, Ternes recalled that the audience was very responsive

Particularly the people," Ternes said "He had a lot of interest in them and they had a lot of interest in him. Some of them came down from high school They were 15 and 16 years old. He would spend just as much time with them as with the adults.

Darlington also had a good impression of Kennedy

"We just thought he was something out of this world.' said Mrs Paul McGettigan "He was so nice and friendly."

The first time Kennedy visited Darlington was in October, 1959 He traveled in a bus with his wife Jackie, with some cars following Gov Patrick Lucey, then state Democratic chairman, and Ivan Nestingen, then mayor of Madison, were with him.

Kennedy addressed a luncheon meeting upstairs in Nell's Restaurant Mrs. Jeanne Zumbrunnen, a petite waitress born in the French area of Switzerland, surprised Mrs Kennedy by talking to her in French.

"I said in French 'How are you Mrs. Kennedy'''. Mrs Zumbrunnen recalled "She was so surprised to hear all at once someone speaking French. She replied 'Very good. Thank you', also in French.

Wisconsin primary on a statewide basis, but did not win in Lafayette County. However, Darlington residents still have many vivid impressions of him. (Staff photos by Carmie Thompson)

Afterward, we all went downstairs," Mrs Zumbrunnen said "I told Mrs. Kennedy again in French: 'I hope everything goes well and have a good trip.' She , " again replied 'Merci beaucoup.

election. Mrs. Zumbrunnen received a signed Christmas card Nell's upstairs room where an from Kennedy; a picture of him, elaborate luncheon including Mrs. Kennedy and John Jr.

Mrs Anthony (Nellie) Foyt to star in memorable events who then owned the restaurant recalled that Kennedy concluded his talk by coming into the and kind of whispered to me.' kitchen to shake hands with she recalled. "I guess he didn't everyone, including the dish- want anyone to hear. He said 'Can washer.

"He said he enjoyed the luncheon" Mrs. Foyt said.

"I said 'We'll see you in the 'Sure.' " White House'. He said that if he got there to come visit him."

Iowa County 4-H Leaders Honored at Annual Dinner

Members of the Barneveld Advancement Association have donated money for materials to erect a "permanent barbeque pit." According to Langdon Jones, president, the labor is being volunteered by members of the Association and the Barneveld Legion Post. The pit is being constructed with blocks, lined with fire bricks-and will have a roof, when completed.

No Motel in Barneveld, but Plenty of Room for Stranded

by Jeanie Lewis

It isn't likely that anyone in Barneveld, Wisconsin, who found themselves with "motorist stopping for the night" on April 8, 1973 are contemplating building a motel, for this was the beginning of "Stranded travelers" and what will undoubtedly go down in history as the "big blizzard in the spring of 1973."

On Sunday evening, as the storm gained force and road condition became slippery, the first signs distressed motorists were of seen. A semi-truck jack-knifed on highway 18-151 backing-up traffic for miles causing many to seek ¹² shelter at Randy's Deep Rock at a Barneveld. At times 50 or more st were crowded into the gas stae tion.

human being helping another." He phoned Rev. Paul Fotsch, pastor of the United Church of Christ, and asked if the church could house the stranded motorist. Rev. Fotsch relaved the message to Joan Manteufel, who bucked the storm and opened the doors.

Randy, also phoned the management of Ma's Cafe who opened especially for the travelers, many of who were on their way home from a swimming contest in Waukesa, when road conditions warranted stopping.

According to Mrs. Jerry Ihm, who lives directly across from the church, "It was the teenagers who deserve much of the credit for helping." She added, "They were out in the blinding snowstorm giving directions to the church, getting blankets and other necessities to make everyone as comfortable as possible."

Thrown together in their "Snow-haven" two cousins found "each other again after an absence of 18 years." Mrs. Axel J. Peterson, Cedar Rapids, Ia. was re-united with her cousin Mrs. W.D. Leschensky, Wheaton, 111.

Mrs. Leschensky, when visitsaid there were sufficient ing with the Maurice Larson, mals on hand for the pa Elkder, Iowa, found that she firm, although it could be had gone to college with their

Mrs. Larson, a heart attack victim five years ago had undergone surgery three years ago. She was without medicine that she had to take each day. Mrs. Ihm related; "Someone called the Cor-One More Weel ner Drug Store at Dodgeville, who phoned her doctor in Elkder for the prescription and between the Iowa County Sheriff's Dept. and a Iowa County snow plow crew the medicine got to Barneveld."

Mrs. Gale Manteufel invited the Larsons into their home, where they spent Monday night. On Monday, several Barneveld girls got acquainted with the girls The code normally proh staying in the church. That evening they held a slumber party at the home of Milton Hughes ... ds and some local

5

can anyone think of a more appropriate time for a slumber party?

If anyone were to tell the motorist who became stranded, that also included the Chris Hansons, Madison; Thomas Bartz, Platteville; John Galle, Madison; Molly Ryan, Cedar Rapids, Kenneth Meyer, McGreger, Iowa; Anne Roble, Cedar Rapids; Stacey Whiteaker, Cedar Rapids; Debbie De Carlo, Cedar Rapids and a man who did not wish to have his name in the paper., that brotherhood is dead ... they would say "get caught in a blizzard and you will find that people will open their homes and their hearts to strangers."

Axel Peterson left this message, "We all feel the people of Barneveld, Wisconsin should be commended for their friendliness and outstanding hospitality shown to us. (In a recent news article he had read that these two qualities were no longer found in the United States) "Words cannot express our thoughts as we experienced being stranded many miles from home and were taken care of by the Barneveld people. We leave Barneveld with memories that we will never forget and thanks again."

Ironic that "feelings" showed the plainest on a dark stormswept day when "vision" was limited...or was it? The travelers said, "We slept in Gods house."

Violent Storm Left Iowa County Area Heavily Damaged

This is one of the many scenes in Dodgeville which resulted from Saturday's severe storm. The roof of the Lew Meyers home, at the corner of Virginia Court and West Division Streets, blew from the structure into the Glenn Kinderman home (above) and the Ed Lindner, DVM. home a few houses east on Division, causing extensive damage.

> The Storm Covered A Major Portion of S.W. Wis.

Iowa County is still "picking up the pieces" after Saturday's "cyclonic" winds took their toll.

The stillness of the air with the high humidity indicated that severe storms were coming. In fact, that was the forecast. But most people just didn't expect the fast, turbulent blast that occurred.

The National Weather Service said the shift of a cool jet stream over the Southern part of Wisconsin's hot, humid air triggered the violent weather.

In the larger weather summary, rain and hail was dumped on the upper Midwest in severe storms, often resulting in heavy property damage. Showers and thunderstorms spread from the Gulf Coast up the Mississippi River Valley. A tornado watch was posted for portions of Oklahoma, Kansas, Missouri, Iowa, Illinois, and Wisconsin.

Throughout Iowa County, century-old trees were uprooted, especially in the Dodgeville area, which seemed to be the hardest hit of the areas in the county, mobile homes were overturned, roofs torn off, barns blown down, utility wires strewn all over and crops and gardens flattened.

Power and Light personnel said that Dodgeville was hardest hit with power still reported out on Monday morning. Crews, regular and emergency, worked to restore power in the cities of Dodgeville and Mineral Point; rural areas, Montfort, Linden, Cobb, Edmund, Rewey, Barneveld, and Hollandale.

Though lines were downed by falling trees and actually hanging all over, the company reported no injuries, during cleanup or repair. Most of Main Street in Dodge-

Most of Main Street in Dodgeville was without power for several hours after the storm hit. Over 200 reports of telephone

service out were received at the General Telephone Office Monday morning. Reports were re-

Severe Damage in Area During Saturday's Storm June 16

ceived earlier, but most came in on Monday morning.

The damage for the most part was caused by broken wires from fallen trees.

General Telephone said that the Dodgeville City area was the hardest hit, but there was also heavy damage in Montfort, Livingston, Cobb, and Ridgeway.

Insurance companies were receiving calls soon after the storm subsided telling of damages cause by wind, hail and rain. One company received 75 reports as of Monday afternoon, another, 65. Calls were from both rural and city people.

Many homes and businesses had holes in roofs, but a Dodgeville family, the Lewis Meyers' had the entire roof blown off their home and had to stay with friends and at the hotel as a result.

The family was in Iowa at the time of the storm. After the storm neighbors worked to "patch up" some of the damage and protect the home from the rains.

Two other families on that street, also away Saturday, learned that the roofs on their homes had been extensively damaged when the Meyers' roof blew off. The Glenn Kindermans, in Portage camping Saturday, were notified at their campsite that they had a hole in the side of their house as a result of the storm. They came home as quickly as possible and worked through the remainder of the weekend on a couple of holes in the roof and patching the outside wall.

The Lindners, located a few houses up had extensive damages to their roof. They were vacationing in Florida at the time.

Five mobile homes at Saunders' Trailer Court were damaged. One was tipped over and four others, moved off their foundations.

Personnel at Dick's Supermarket, Dodgeville, had all they could do to keep water from damaging stored goods in the back room, after an incinerator chimney came down through the roof. That area of the roof where the hole was located is the drainage area. The store, which was without lights anyway, had to close from about 12:40 to 4:15. Said store manager, Jim Franzen, "It's an experience going through all that in the dark."

15 to 20 campers had been overturned at Yellowstone Park in northwest LaFayette County, but at Governor Dodge State Park things were left pretty well in tact and no injuries were reported.

St. Josephs Hospital received heavy damage to the roof and water damage to three floors. High winds tore an air conditioner off its mounting on the roof, and left an eight by twelve foot gap in the roof covering.

Water seeped down the walls of the building all the way to the basement.

On some streets, trees blocked access to the hospitals.

The Harvest of trees will continue in the area for some time. Elmer Dott, Dodgeville, who has helped to break up trees and haul them away to the dump site said Tuesday, that there are still many limbs, branches, and whole trees to be taken care of. He added remorsefully that five of the pines at the cemetery had been broken off. The Dodgeville Jaycees, who purchased a chain saw after the storm, have been assisting in the removal of trees. A comment Monday from a

rural Dodgeville man seemed cynical but true. After learning that there were tornado warnings out for the afternoon, he said, "Well, it'll have a second chance to finish the job. . . Saturday it took the trees, today it'll take the houses."

A little on the lighter side, a candlelight cermony at 2:00 in the afternoon Saturday, united Laura Louise Wiest and James Alan Goldthorpe in matrimony

at St. Josephs Catholic Church. The wedding had been rehearsed with lights and organ music in mind but the storm necessitated the use of candles and no music.

Gar The wedding was scheduled for 1:00 but the groom was delayed when a tree fell against the front door to his house.

All was well about 2:45 when the wedding party leisurely drove through town, horns blasting... a signal that all was well in more ways than one.

Oimoen-Dyreson vows pronounced

Lavender gladiolas and white mums accented the altar as Lana Rae Oimoen became the bride of Roland M. Dyreson in a 2:30 p.m. service, Sat., August 12, in Perry Lutheran Church, Daleyville.

Their parents are Mr. and Mrs. Lester Oimoen, Blue Mounds and Mr. and Mrs. Floyd Hottman, Ridgeway. The Rev. Richard Halom performed the double ring ceremony.

Given in marriage by her father the bride wore an empire A-line gown of organza over taffeta with imported Venise lace encircling the scoop neckline and the cuffs of the long bishop sleeves. Delicate Venise lace accented the waistline and the edge of her chapel length mantilla veil. She carried a bouquet of lavender orchids on a family New Testament Bible, with baby's breath to complete her arrangement.

Mrs. Janean Wyse, Platteville, friend of the bride, served as maid of honor in a floor length gown of orchid dotted Swiss with Victorian styling of V necklines back and front with short Juliet sleeves trimmed in Venise lace. She and bridesmaids Karen Moen, Julie Schaller, Joan Schaller and Melva Smith, all of Madison, carried white baskets of deep purple and lavender assorted flowers complimented with pink sweetheart roses and baby's breath.

Flower girls were Kerri Oimoen and Penny Doescher, both of Madison. They wore orchid floor length gowns similar to those of the bridesmaids. Ring bearer was Jeff Dyreson, nephew of the groom.

John Kaul, friend of the groom, Ridgeway, served as best man. Groomsmen were Bernie Dyreson, Memphis, Tenn.; Tim Butteris, Ridgeway; Dennis Doesher, Barneveld and Larry Oimoen, Blue Mounds. Wayne Dyreson, Ridgeway, brother of the groom, Gary Oimoen and David Oimoen, Blue Mounds, brothers of the bride, ushered.

Soloists Bob Rodriguez, Delevan, and Kay Van Epps, Dodgeville, sang various selections during the service as they were accompanied by Karen Jeglum, Blanchardville, on the organ.

The bride's mother chose a mint green floor length gown with matching jacket. The groom's mother wore a dress of powdered blue.

Following the service a reception was held in the church parlor for 450 guests.

The newlyweds will be at home at 505 West Division St., Dodgeville. The bride is a senior at Wisconsin State University, Platteville. The groom is employed by Wick's Builders.

Approximately 140 honor students and their parents enjoyed the 3rd Annual Honors Banquet held on Tuesday, 15 May in the school cafeteria. The following students were honored: Sharen Anderson, Karen ARneson, Kathy Arneson, Peggy Arneson, Charles Aschliman, Laura DeSmet, Dave Fotsch, Gary Gagner, Neal Gagner, Pam Henderson, Paula Henderson, Randy Hendrickson, Jerry Hodgson, Lois Jabs, Diane Kelly, Theresa Lease, Dave Lee, Mark McSherry, Lynn Messinger, Patti Mieden, Janice Moen, Cheryl Nechkash, Mike Newman, Elaine Nihles, Jackie Oimoen, Pearl Raisbeck, Nancy Roberts, Sharon Rue, Paul Swedlund, Dave Swedlund, Kathy Swenson, Karleen Thoni, Rosemary Trainor Barb Twiton, Beth Twiton, Delores Valstad, John Wegmueller, Lori Wegmueller, Jean Zander, June Zander, and Jim Zander.

Nelson granddaughter engaged

Mr. and Mrs. Knute E. Nelson, Black Earth, announce the engagement of their daughter, Susan, 4817 Sheboygan Avenue, Madison, to Dennis Brusveen, son of Mr. and Mrs. Raymond Brusveen, Cross Plains.

Miss Nelson is employed as a stenographer by the University of Wisconsin's College of Agricultural and Life Sciences, Madison.

Her fiance works as a machine operator for Oscar Mayer & Company of Madison.

The wedding will be August 5 at 1:00 p.m. in Vermont Lutheran Church, Black Earth.

Mrs. Ingvall Nelson returned home Sunday from Black Earth, where she had spent the weekend with her son and daughter-in-law, Mr. and Mrs. Knute Nelson, Sr. On Saturday they all attended the wedding of Knute Nelson, Jr., Black Earth and Judy Haldeman, Sparta, at the Trinity Lutheran Church, in Sparta.

Nelson-Kniebuehler

BLACK EARTH - Mr. and Mrs. Knute Nelson, Black Earth, announce the engagement of their daughter, Elizabeth Kay, to Thomas Knie-buehler, son of Mrs. Arlene Kniebuehler, Madison.

She will be a senior in elementary education at UW-LaCrosse in the fall. He is employed by the Graber Co., Middleton.

Miss Nelson is a granddaughter of Mrs. Ingvall Nelson, Daleyville.

Pronounce vows at Barneveld

Ethel Mae Cushman, daughter of Mr. and Mrs. Harold Cushman, Mt. Horeb, became the bride of James Jenson, son of Mr. and Mrs. Harold Jenson, also of Mt. Horeb, Saturday, May 5, in the Barneveld Lutheran Church. The Rev. Robert Twiton read the service.

Gale Cushman, Mt. Horeb, was her sister's maid of honor, and Mary Sutter, also of Mt. Horeb,

served as bridesmaid. Roy Alderman, Belleville, was best man with Al Bertelrud, stationed in Texas, as groomsman. –

Ushering duties were in charge of Gary Mellum, Sauk City; and Dennis Knudson, Mt. Horeb. Mrs. Carl Danhouser, Mt. Horeb, was organist, and the soloist was

Bill Jabs, Barneveld. After the ceremony, a reception was held in the church parlors, followed by a wedding dinner at 7:30 p.m. at Hi Point, near Ridgeway, and a wedding dance was held at Wilhelm Tell Hall, New Glarus.

The couple is residing on his father's farm and is engaged in the farming business.

A Pear in a Partridge Tree*

Floyd Severson, Black Earth, Dies at Age 55

BLACK EARTH - Floyd L Severson, 55, died unexpectedly Tuesday (June 19, 1973) at his home.

He farmed in the Township of Vermont all his life. He married the former Marion Roberts in 1950.

He was a member of the Vermont Lutheran Church.

Surviving in Madison vicinity are a daughter, Joyce, Middleton; two sisters, Mrs. Lloyd Young, 503 E. Lakeview Ave.; and Mrs. Orlan Wigdal, 216 Nygard St.; and a brother, Bennett, 200 Koster St.

The funeral will be at 2 p.m. Thursday in the Ellestad-Gruber Funeral Home here, where friends may call after 3 p.m. today.

Other survivors include his wife; a son, Terry, Barneveld; a sister, Miss Gertrude Severson, Argyle; four brothers, Elmer, Mt. Horeb; and Melvin, Gilbert, and Arthur, all of Black Earth; and one grandchild. Burial will be in Vermont Lutheran Cemetery.

23

Friends and relatives joined with residents of St. Joseph's Nursing Home to honor Mollie Delaney, 82, and Reuben Rickey, 80, at the April birthday party.

party. Julia Marquis, a sister, was a guest of Mollie Delaney. Mr. Rickey's guests included: a son, Mr. and Mrs. Robert Rickey and Sue, Janet, Julie and Sally, from Barneveld; Mrs. Maynard Jensen, a daughter from Barneveld.

Maynard Jensen, a daughter from Barneveld. Birthday cake and refreshments were provided by Mrs. Jensen and Mrs. Rickey and served by hospital auxiliary hostesses.

Wakefield Dancers, under the direction of Jane Farwell, gave a delightful program of dances of different nations.

Farm Market Manager, Elmer Dott, displayed a large amount of his homemade jewelry at the first market held Saturday in the City Hall parking lot. Dott spends a lot of time making the jewelry and sells it each week of the market. His wife makes knitted, crocheted, handsewn, and machine-sewn items for sale.

Mrs. Dodge, 59, Of Barneveld, Dies Sunday

Mrs. Dodge

BARNEVELD — Mrs. Leland Dodge, 59, of Barneveld, was dead on arrival Sunday (Sept. 17, 1972) at a Madison hospital. The former Marie Gronli was born in Madison and was married to Mr. Dodge in 1936

ried to Mr. Dodge in 1936. She worked for the Barneveld school system, and for the past 13 years for the Barneveld State Bank.

She was a recorder for the Park Hill Camp 1315, Royal Neighbors of Barneveld, and a member of the Barneveld Lutheran Church and its Ladies Aid Society.

Surviving in Madison are a daughter, Mrs. William Massey, 2310 Willard Ave., and a brother, Orvin Gronli, 3625 Odana Rd.

Also surviving are her husband; one son, Richard, Fennimore; two d a u g h t e r s, Mrs. Richard Dauck, Antioch, Ill., and Mrs. Kenneth Brattlie, Barneveld; one sister, Mrs. Dorothy Williams, Mt. Horeb; and 15 grandchildren.

The funeral will be at 1:30 p.m. Tuesday at the church. Friends may call after 6 p.m. tonight at the Ellestad Funeral Home, in Mt. Horeb.

BARNEVELD — The funeral for Alfred P. Ast, 83, who died Wednesday, will be at 10:30 a.m. Saturday in the Lulloff-Peterson Funeral Home, Dodgeville, where friends may call after 4 tonight.

Mr. Ast was born in Switzerland and came to the Barneveld area in 1906. He was a cheesemaker until retiring in 1967. In 1915, Clara Larson of Hollandale and Mr. Ast were married. She died in 1966.

Surviving in Madison is a daughter, Mrs. Verlyn Sweeney, 4733 Osmundsen Rd.

Also surviving are three other daughters, Mrs. Merle Hatch, El Paso, Tex.; Mrs. Vernon Pitt Arena; and Mrs. Charles Blasdell, New Albany, Ind.; a sister, Mrs Emma Lehnherr, in Switzerland; 18 grandchildren; and 13 great-grandchildren.

Mrs. Alice Donahue

MT. HOREB — The funeral for Mrs. Alice Donahue, 74, who died Thursday, will be at 1:30 p.m. Tuesday in the Barneveld United Church of Christ.

Friends may call from 3 to 5 p.m. and 7 to 9 p.m. Monday at the Ellestad Funeral Home.

The former Alice Williams was born in Barneveld and was married to William Donahue in 1929.

She operated a general store in Barneveld for 25 years.

Surviving are two daughters, Mrs. James Swenson, Ft. Riley, Kan.; and Mrs. Donald Hickcox, Gold Beach, Ore.; and 11 grandchildren. 1973

Silver bells ring for Rickeys

Twenty-five years of marriage will be celebrated by Mr. and Mrs. Marvin Rickey, Mazomanie, Sunday, Sept. 24 at their home on Hudson Rd. from 3 to 6 p.m. Marvin Rickey and the former

Marvin Rickey and the former Peggy Stapleton were married Sept. 25, 1947.

The Rickeys have five children, all of Mazomanie. They are David, Linda, Susan, Virginia and Doug. They have two grandchildren, Tricia and Craig. No formal invitations are being sent, but all friends and relatives are invited.

1972

Local Man Turns Rough **Rock Into Unusual Jewelry**

Dott chooses a rock which he will slab with the saw, the first step in the jewelry making process.

Elmer Dott is a man with rocks in his head, and his basement. Rocks are an inspiration to him, providing him with many hours of relaxation, and at times hard work.

His work, or hobby, is called Lapidary, converting rough rocks into a variety of finished pro-ducts ranging from jewelry to wall plaques.

His basement shop located at 421 East Division, illustrates the entire Lapidary process and his enthusiasm, near reverance, for rocks. He has everything for processing the stones, saws that slab the rock, a smaller saw for cutting the stones into jewelry size, grinding and polishing equipment, many large clear light bulbs for plenty of working light, and a tumbler for high polish. Of all this equipment, the light bulb is probably the most important. After slabbing the rocks, he holds them to the light to determine what surprises they hold. Many of them, when cut, have unusual patterns and designs inside. A great lover of scenery, many of his finished stones depict different landscapes.

He works on stones ranging in price from a few dollars to hundreds. His most expensive is the Australian Fire Opal, which he makes into rings and pendants. Altogether, he acquires stones from 35 states and nine foreign countries. Although most are obtained from Mexico.

His hobby is nine years old and has its origin in several browse trips through Canadian rock shops, while on fishing ex-peditions. Although they were not eager to tell Dott their secrets. Dott found that a magazine called the Lapidary Journal could give him sufficient education to begin.

One of the most unusual pieces Dott has made, is a 12 lb. necklace ... a gift for his wife, pictured in left of photo.

Now, with almost ten years in, Dott has a wealth of ideas of what can be done with stone, evidenced in the many cases of finished jewelry and jars and jars of stones lining the basement shelves.

The most outstanding piece of jewelry he ever made, was a 12 lb. stone on a heavy duty chain. "It's my wife's necklace," he said glibly, "but I can't un-

many groups anxious for a tour. "One night," he said, "I had 18 from behind by a light bulb. women down here and the lights went out." He assured them that

he accidentally blew a fuse when he turned on the saw.

Anyone who tours his basement facility is sure to enjoy seeing various pieces of petrified wood, including a round rock with wood inside, found near Mineral Point, which he calls "the eight ball" because of a small eight in the very center. A little fry pan holds eggs and bacon made of derstand why she won't wear it." small stones and a group of A sign saying, "Welcome to Dott's rock shop" has greeted agate glued to a glass plaque provides interest when lighted

Gwendolyn Rickey's

Fyler Brenaman

MUSCODA - Fyler D. Brenaman, 79, died Monday (Apr. 9, 1973) in a Boscobel hospital after a long illness.

Born in Excelsior, Mr. Brenaman moved to Waupun and later attended Whitewater State Teachers College. He moved to Muscoda from California in 1967

Surviving are his wife, Gwendolyn; two brothers, Ellis, Michigan City, Ind.; and Ron-ald, Detroit, Mich.; and nieces and nephews.

The funeral will be at 1 p.m. Thursday in the Godager Funeral Home, where friends may call after 6 tonight.

Dott provided himself an outlet for his craft when he originated the Dodgeville Farm Market. Both he and his wife, Gladys sell their craft items each Saturday. Gladys makes throw pillows and various crocheted and knitted items. In just a few years, she has made a total of 40 afghans. Their hobbies have prompted many other craft-minded people to sell at the farm market, so that there's more than produce and baked goods for buyers.

The Dotts also sell every Wednesday on the UW - Platteville

campus, and they usually set up a booth at area Maxwell Street events. "But," says Dott, "there's not much profit in what we do, we just enjoy it." There are evidences of Dott's love for stone work throughout his house from a stack of Lapidary magazines in the living room to the fireplace made of tombstone granite, which Dott constructed.

Though Mrs. Dott doesn't like to work with stone because they too slick to handle, there

Hallada Motors

German-born Rudi and Frank tured event will be the give-away Hallada will be combining a grand opening of one of the area's newest businesses with the showing of the new, 1974 Fords and Mercurys and the gala event is set

for Friday, Sept. 21. Rudi and Frank, brothers and partners in Hallada Motors, Inc., are proudly showing the new facil-ity at 306 East Leffler Street which was built for them by Tri-County Structures, Inc. to house the area's newest sales and service facility for Ford and Mercury cars and Ford and International Harvestore trucks. The facility is on a four-acre development of 20 acres selected by the Hal-ladas because the land allows for further expansion. One and one-half acres has already been sold to UPS for the company's new location which will combine the Barneveld and Fennimore offices.

Rudi Hallada

Frank and Rudi came to this area from Germany. Frank, 41, came to the Richland Center area in 1951 and worked for an uncle at the Bohmann Meat Products plant. He then took employment at Jones Chevrolet in Richland Center as a mechanic until 1954 when he moved to Ridgeway to rent and reopen a garage and service station. In 1955 he took in the IHC truck dealership and has sold the equipment ever since.

Rudi came to the area in 1960 and entered the business as a mechanic. In 1968 he purchased half the business and in 1971 they started the Ford and Mercury agency in Dodgeville at the junction of highway 18-151.

In the early going the business employed four. Since the new 70x 170 building has been built the list of employees numbers 15, including five at the Ridgeway location.

The business promises to ex-pand even more. The Ridgeway location, which is used for a body shop, is offered for sale and when the sale is accomplished a body shop will be built at the Dodgeville location. The location is connected to the Dodgeville city sewer and water and plans also call for a street to be added off John's Street.

Friday's grand opening will feature a give-away of door prizes to several lucky people. The fea-

of the grand prize, a 7 horse-power Ford riding lawnmower. Refreshments will be served and everyone attending will receive a free gift. Also, there will be an extensive display of new cars.

Frank Hallada

Besides the new and used car and truck business the facility also offers complete service and is set up to handle all types of repair on all types of cars and trucks. Also featured is the only front end alignment machine of its size in the area and it can do cars through heavy duty over-the highway tractors. It can also balance the wheels in any size car

or truck. Rudi, who is the sales man-ager for the business, is single, while Frank, who is the service manager is married to the former Anna Marie Reed and they have four children. The children

are Annette, 12, Frankie, 9, Alan, 7, and Tony, 4. Rudi, Frank, and the staff in-

vite you to attend the grand open-ing and new car showing this weekend.

Plans June wedding

Mr. and Mrs. Roman J. Schlimgen, Barneveld, announce the engagement of their daughter Patricia Ann to David J. Powers, son of Mr. and Mrs. Richard Powers, Barneveld.

A graduate of Madison Business

College, she is a secretary for Horning Realty, Inc. Mr. Powers owns and operates his own business in Barneveld.

The wedding will be June 16, at Saint Bridget's Church, Ridgeway.

Posing for her five generation picture is Bobby Jo, infant daughter of Mr. and Mrs. Edward Norland, Barneveld. From left are Mr. and Mrs. William J. Smith, Great Great Grandparents, Mt.

Horeb; Mrs. Edward Norland, mother, Barneveld; Mrs. Edward Lindroth, Great Grandmother, holding Bobby Jo, Mt. Horeb; and Wayne K. Foye, grandfather, Mt. Horeb. Sept 1973

BHS Students Find You Can Eat Better for Less

Diane Kelly and Theresa Lease tied for first place with menus costing \$4.90 per person per week on March second. They are shown packing up some soymeal to send with their menus to Terry Arnall and Jerry Dizmang of Oklahoma State University. They included a note saying, "If you think dogfood was bad, have some cowfeed! We did! We think it can be pretty tasty. Try it - you might like it!"

Yes, you can eat better for less! (Would you believe \$5.00 per week?)

Just to prove it, weekly menus ere made up by beginners. You an probably do even better!

Senior girls studying low budget meals in a home economics class in Barneveld prepared the menus especially for young married couples, students, and worktheir apartments. In other words, for themselves--next year. But anyone might glean at least hope and inspiration from their work.

Besides planning menus, the girls created some tasty new recipes of their own. They experimented with soymeal which costs only four and a third cents for day's supply of protein. They learned to prepare souffles, eggdrop soup, homemade sherbet, whole wheat bread, crepes, vegetable - soy soups, omelets, ing girls and guys who cook in noodles from scratch, steamed brown bread, baked beans, spoon bread, kidney pie, fried kidney, homemade cold cereal, a cheap cheese fondue, French bread, and candy made of dry milk and peanut butter.

Armed with pencils, grocery lists, and high spirits, on March 2 the girls piled onto a school bus and headed for Madison to attack the supermarkets. They wanted to see which store of three they'd chosen would be the cheapest for each weekly grocery list. When they were done, that store's prices would be used in computing costs, the hardest part of their project. And they were anxious to know which of them / had planned the most economical menus. But above all, they wanted to find out how cheaply they could really eat.

The results? Would you believe that on March 2, it was possible for one person to eat fairly well for \$5 a week? Three of the girls' menus cost right around \$5! Another was \$5.66. All but one were under \$7.05. And these were beginners.

The girls realized money could be saved by buying only the cheapest items in each store. But this would be impractical for roommates or couples buying a week's groceries for two. However, if a budget-wise couple were on a Sunday drive, they might have picked up high quality Delicious apples at an orchard outlet this winter for 15¢ a pound instead of paying 25¢ to 39¢ in the stores. McIntosh were still available recently for \$2.99 a bushel, which comes to 6¢ a pound. Milk and cheese could be purchased for less in small, outlying markets.

Further savings can be made by alternating stores each week, buying a two-week supply of the lower priced items. For example, one discount grocery offers dry milk, margarine, extra-large eggs, and canned goods at lower prices, while another may run better specials on produce and meat. And the store that is cheapest i your entire list today may not be next week. Plus the fact that some don't carry soybeans, soymeal, or plain unhydrogenated peanut butter.

The students' menus assume that you're an accomplished cook. On \$5 a week, it's absolutely essential to be able to make oread if you carry lunches and want whole wheat. The flour costs about 15¢ a pound against 38¢ for a purchased pound loaf which includes water. The cost of yeast can be held to 1/2¢ per loaf by using one-fourth of a twelvecent cake for a six-loaf batch. (Freeze the rest.)

You might be pleasantly surprised at the enjoyment that comes from bread-making. The therapy of kneading and shaping the soft, warm dough. The sweet aroma, the pride in a handsome loaf. The Taste. When everything is from scratch, cooking becomes an experience, a soul-pleaser. In the words of senior Lynn) Thompson, "It's not so bad staying on a budget -- it's kind of a challenge!"

The home economics class sent its menus to the two Cklahoma State University students who achieved national fame eating dogfood. The girls wrote a note suggesting that cowfeed (soymeal) might be tastier, and they sent along a sample!

may , 1973

"It's not so bad staying on a budget. It's kind of a challenge," asserts Lynn Thompson as she expertly kneads a batch of whole wheat bread. Her menu cost \$5.66 per person per week and put her in third place.

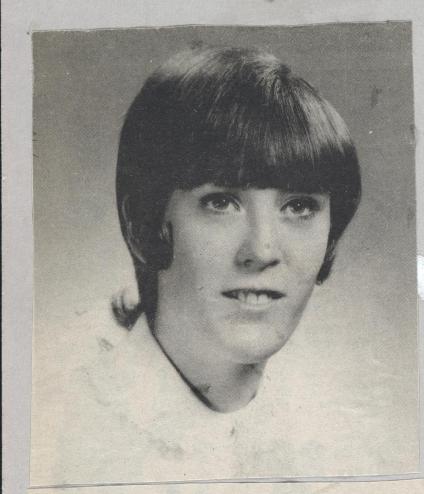

Lois Jabs whips up a hearty vegetable-soymeal soup costing only pennies. With a pressure cooker, it took her about 5 minutes from start to finish. She doesn't use a recipe. Lois placed second in her class with a weekly menu that cost \$5.09.

Class of '13 assembles

The Class of 1913 reconvened recently for its 60th anniversary at the home of Mr. and Mrs. Otto Oimoen, Barneveld. Standing are class members Meda Gramm Brown, Madison; Stanley Holum, Mount Horeb; and Olga Olson, Chicago. Seated are B. E. Dahlen, Mount Horeb; Esther Skindrud Oimoen, Barneveld; and Ella Thorson Field, Mount Horeb. Another class member, Ralph Dahle, Mount Horeb, was unable to attend.

July 20 wedding date set

Mr. and Mrs. Marvin L. Rickey of Hudson Road, rural Mazomanie, announce the engagement of their daughter Susan to David van Riper, Mazomanie.

The wedding is planned for July 20 at St. Barnabas Catholic Church in Mazomanie, at 2:30 p.m. Miss Rickey is a secretary for Crawford and Co., Madison insurance adjusters, and Mr. Van Riper works for Quality Drywall, Inc., Mazomanie.

Married in San Diego

Martin C. Haglund, son of Mr. and Mrs. Norman Haglund, Mt. Horeb, claimed Miss Sarah Dellis as his wife at a 7 p.m. ceremony on April 12, 1974, in the First Southern Baptist Church, San Diego, Calif. Her parents are Mr. and Mrs.

Her parents are Mr. and Mr. Kenneth Dellis of San Diego.

Mr. Haglund is stationed in San Diego with the Navy.

They are making their home at 4669 32nd St., Apt 2, San Diego, Calif. 92116.

Those attending the wedding from the Mt. Horeb area were his grandmother, Mrs. Mabel Haglund, his aunt, Mrs. Paul Jones, Barneveld, his father, Norm Haglund, his brother, Mark Haglund, and his sister, Mrs. Robert Mrs. Robert Kellesvig.

1972 Cycling Party Spends time at Barneveld Church of Christ

These young people, numbering 20 strong, stopped at Barneveld's United Church of Christ during a bike trip. The young people started out in Illinois and toured this part of the state.

During the summer months cycling parties are often seen along the highways. Last week a cycling party of 20 young people and four adults spent the night at the Barneveld Church of Christ.

They came from various parts of Illinois, and had spent the night before at New Glarus, and would travel to Mazomanie the following day. The group planned to reach Portage, before heading home.

"We stay overnight at churches all along the way," said one of the group. They are sponsored by the Northern Association of the IIIinois Conference United Church of Christ.

One of the men said that each day finds them with an average of one flat tire and a few minor adjustments to be made.

"A bike trip is the only way to travel." said Pastor Richard L. Behringer, Aurora, Illinois. "Even when you wipe out going down a hill." said Kathy Wilham, Lincoln, Illinois, nursing a "goose egg" on her forehead from taking a "flip" earlier in the day.

Kathy's only worry, "I don't event. Near New Glarus a dog have a bike anymore. I'll pro-bably have to go home tonight." event. Near New Glarus a dog came running down the road to meet them. The 20 bikes going

Fletcher Cooper, Chicago, said, "This is the reason we bring along a car. Accidents can happen.

Along the way the group was christened, calling themselves the "Chain Gang," the "Geargoy-les" and the "Peddle-Pushers." Each group being responsible for their share of tasks. One or two boys found out that you can't shoot bacon in the pan, as one would put a ball in the basket.

"After a grease-splatter burn," said Cooper, "They became real careful when putting bacon on to fry."

Cycling parties are real friendly, the group said. They meet many fellow bike riders. Sometimes they get one for the night. Such was the case in New Glarus, when the police senta stranded bike rider over to them, on a rainy night.

The biggest threat to the cyclers are dogs, but, most of the time meeting a dog is a funny

downhill were traveling at good speed. Evidently, the dog thought, so, too. He turned-tail and ran ahead of them, instead of after them as was the rule.

Cows react funny, also. One of the girls said, "They always run along the fence row, trying to follow us."

Everyone agreed that the only easy way to get up hills is to sing and tell jokes. Sometimes they cheated a little and walk along.

Surprisingly, the first bikes were known as "Walkalong." This dates back to the 16th century when the first two-wheeled vehicles were propelled by the rider's feet. They had no padals. and the rider straddled the frame, pushing the machine forward by running his feet along the ground.

Rev. Paul Foetch, Barneveld church of Christ, said, "Bicycling is still an inexpensive way to travel, is healthful and almost anyone can ride one."

God Bless You

Sept. 1973

CARD OF THANKS

We wish to thank all our friends and relatives for the beautiful cards, gifts, flowers and best wishes. All this made our Silver Anniversary one to be remembered always

Mr. and Mrs. Lester Oimoen

Mrs. Sharon Prazak, Dodgeville, is a farm wife with a story to tell. She likes to round her cows up on motorcycle.

Area Farm Wives Keep Busy In Work and Many Activities

Mrs. Albert Prazak, rural Dodgeville is a prime example of what "one does" to get a farm paid for more readily, and to "shape-up a farm".

Sharon works two nights a week as a Nurse's Assistant at a local hospital. She works the 11-7 shift, getting home in time to awake her children and get them ready for school. She then becomes the "step-saver" in the barn to help finish with milking and other chores. She milks their huge dairy herd alone each evening.

She "rounds up their cows with a motorcycle. She said, "It's much faster than a horse." The Prazaks do their own

butchering. (from slaughtering to wrapping for the freezer) She freezes from her big garden. And has a lot of cooking and baking for their family of five children.

She said, "Sometimes people might wonder what the husband is doing if his wife works as the hired man. They don't know much about a farm. . . there are a great many things to do. His wife is only doing what she can to save the expense of a hired man, which they would need. ... because on a big farm there is just too much work for one person to do alone."

their home. She said, "Sometimes

A Boy Scout Reports on Jamboree

One of The Wisconsin State Journal carrier boys in Barneveld, David Fotsch, son of Dr. and Mrs. Paul Fotsch, has just returned from the National Boy Scout Jamboree at Farragut State Park in Idaho and has some interesting comments.

"It was so dry in the camp that police and park officials were terribly worried about accidental fire because it's hard to stop once it's started. They kept watering the dry soil wherever possible, and nobody was allowed to smoke.

Dave had high praise for Bob Hope who visited the camp and entertained.

"Bob was really good, and all the Scouts loved him. He got a standing ovation when he came on stage. He sang three or four songs, told about his days as a Boy Scout, and then he was awarded an official Scout jacket and beret. In the afternoon he walked all around the camp, signing autographs and chatting with the Scouts he saw," says Dave.

The Prazaks have remodeled

Cookie stayed up all night to work on a room, because there wasn't time during the day."

The Prazaks enjoy riding cycles on Sundays. Sharon is also a deer hunter. She said, "I love that." She also enjoys arts and crafts.

Her plans for the future--outside her family and home: "To be an R.N." she said. "But, I will wait until the two youngest children are in school for that."

Sharon is a "farm wife on the go", proud of it and happy with what she is doing.

Traditions are kept at the Barneveld Church of Christ according to Rev. Paul Fotsch. Pictured are children getting ready to search for "Easter eggs." The hunt was held a week late because of rain. On Mother's Day, Rev. Fotsch will be giving a carnation to all the mothers of his church. He said, "This has become a tradition, also. I do this each year in memory of my own mother." 1973

THE DODGEVILLE CHRONICLE - THURSDAY, JANUARY 25, 1973

County Sheriff, FBI Cooperate Bank Robber Apprehended

Things were peaceful when this photo was snapped Saturday but about 45 minutes before a hold-up man robbed the bank of over \$2,000. The bank has a long history of hold-up attempts.

DODGEVILLE -- The Iowa ered by orange paper. The County Sheriff's Department and the FBI Tuesday apprehended Donald C. Hach, 31, at his place of work in rural Middleton and charged him with the armed robbery of the Farmers Savings Bank in Edmund.

The arrest was made by the FBI who had been watching Hach since shortly after the robbery Saturday morning. Tuesday, Hach acknowledged he was the person who entered the bank, displayed the firearm, and took a reported \$2448 in cash.

The charge carries a maximum penalty of \$5000 fine or 20 years in prison, or both, if convicted. A preliminary hearing has been scheduled for Feb. 1. After his arrest, Hach appeared before Magistrate Barbara Federal Crabb Tuesday morning on the charges. The arrest took place about 7:30 a.m.

Hach was being held on \$4000 cash bail in the Dane County Jail. A warrent for his arrest and return to Iowa County for trial is forthcoming.

Hach is charged with entering the bank at 10:55 a.m. Saturday, pulling a gun on Mrs. Elden Rule who was operating the bank, and Mrs. Gladys Thorison who was a customer at the time. He told Mrs. Rule to lock the door and told Mrs. Thorison to watch the door and not let anyone in. Mrs. Rule told him the door could only be locked by a key.

When the hold-up began Mrs. Rule pushed the bank-alarm which rings in another business in the community. When people at the other business reacted to the alarm the robber was making escape in a bright yellow his Gremlin with black stripes on the side. The license plates were covwas last seen turning on Sinbad Road.

The robber was wearing a snowmobile outfit and a black stocking cap. He was described as having a red moustache and sideburns. He was thought to be 5-10, medium build, and in his late 20's or early 30's. His face was not covered.

Sheriff Bill Whitford arrived on the scene about 10 minutes after the hold-up man fled and took off on Sinbad Road. The closest he cold get was the testimony of a fisherman at Blackhawk Lake who said he saw a yellow car speed by about two minutes before.

While Whitford tried to pick up the trail, Carl and Doug Rule, Bob Callin, and Alvie Smith checked vacant farms for the suspect.

The case began to work its way to Hach later that afternoon. Three Grant County officers had a yellow Gremlin under surveillance near Highland at a trailer court when another yellow Gremlin went by, apparently with a family in it. The Gremlin was followed, the license number checked, and it was found out that it had been leased from the GOMA Corp., ironically located near the FBI headquarters in Madison.

The FBI then checked to see who leased it and found out it was Hach. Whitfort later found out that Hach's wife and children had visited her father near Highland that day and had arrived in a yellow Gremlin with the comment that the family car was being repaired.

According to Whitford, it is now alleged that Hach switched cars with his wife somewhere on Sinbad Road and headed to Wausau where he was later traced. His

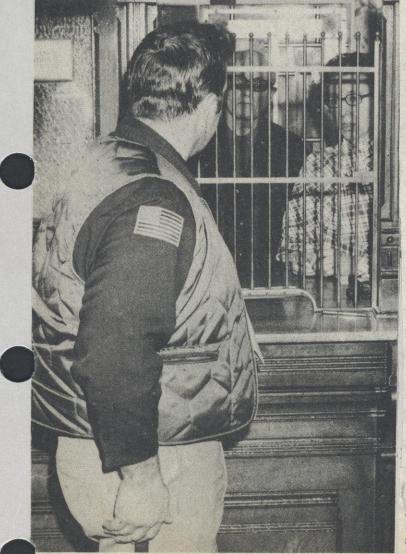

wife later allegedly drove the Gremlin back to Madison.

In further investigation it was found out that Hach returned the car to GOMA Monday and paid for its use. It was also found out through investigation that he had purchased a gun with the same decription of one identified in the hold-up.

Hach has a several-count criminal record and has served time for felonies twice. For this reason he is not allowed to own a gun and this is what led to his capture.

FBI authorities went to his home to search for the gun and also found \$650, some with the serial numbers from the holdup. He was then arrested and told the FBI he spent \$600 of the money Monday.

Iowa County sheriff Bill Whitford gathers facts from local ople who were in the area during the hold-up of the Edmund ank Saturday.

Sheriff Bill Whitford discussed the hold-up with bank personnel at Edmund. The hold-up took place Saturday about 11:00 a.m.

Triple D Takes Crown in aug. 1973 Barneveld Softball Tourney

The Triple D Bar, winners of this year's Barneveld Softball Tournament, are shown left to right: kneeling - Jim Massey, Ted Tilley, Bill Dimpfl and Dave Johnson; standing - Denny Oimoen, Steve Thoni, Ken Rue, Bruce Budd, Tom Olson and Ted Thompson.

three runs in the bottom of the 7th inning to overcome a determined Checkerboard "Oldtimers" squad and win the 1973 Barne-

veld Softball Tournament, 3-2. Trailing 2-0 going into the bot-tom of the inning, Triple D had just one chance left to take the crown they have not held since 1968 as Bud's Bar.

Their first run scored as Ted Tilley sent a towering sacrifice fly to left field to bring in Denny Oimoen. This was followed by out No. 2 but Triple D quickly loaded the bases on a walk, a hit, and an error. Then Jim Massey lined a single to left field to bring across the tieing and winning runs.

Most of the contest saw a pitching duel between two of the leagues premier hurlers, Checkerboard's Bob Meilli and Tilley, as the score read only 1-0 heading into the final frame.

Earlier in the tournament Meilli had pitched Checkerboard to one run victories over oncebeaten league champion Farmer's International (a game in which he struck out 11 and gave up only two hits) and last years champs Wausau Homes.

But it wasn't only Tilley that had quieted the oppositions bats in earlier Triple D tourney action. Denny Oimoen pitched alter-nate innings in a 4-0 no-hit win over Village Bar in quarter-final action, and came on to put out

Triple D Bar pushed across the fire with four innings of relief work in Triple D's 12-11 win over Barneveld State Bank in the semi-final win.

The final win put manager Ted Thompson's team's record at 7-3 for the season, while Checkerboard finished at 6-4.

By GENE COFFMAN

The Capital Times will pay \$2 for each question used in "Ques-tion of the Day." Today's winner is Mrs. Eugene Hankel, 125 S. Marquette St.

TODAY'S QUESTION Are you in favor of granting amnesty to the men who refused military service?

Bill Clerkin, 5225 Academy Dr., Teacher-

No. I feel that if they were not willing to serve their countrywhen called, even though many of them would never have been required to enter a war zone, I don't believe they should be granted outright amnesty. If some of these individuals were to be allowed to re-enter American society, I think this should be upon the condition that they serve an equal amount of time in a government program such as hospital work, pollution control or the like.

Above are the winners of Barneveld Schools Halloween costume. Winners in the 10th, 11th and 12th grade were [from left to right] front row: Randy "Sugar Bear" Hauck, Jackie Eveland, Jean Ann Czerwonka, Jim "Chuckie" Myers. In the second row are Jane Zander, Linda Jabs, Diana Kirschbaum, Lois Moen, Lory Wegmueller, and Rayleine Jacobson. 1974

Five Drug Commissioners Quit, Hit Inaction by By ROSEMARY KENDRICK Watson

Of The Capital Times Staff Five members of the Madison Metropolitan Drug Commission today submitted their resignations in protest against Commission Chairman Roth Watson.

Watson, a police detective supervisor, has not convened the commission since last November and recently refused the request of a majority of commission members that he resign as chairman, according to a letter sent by the five to Mayor Paul Soglin.

Signing the letter were attorney Marc Dorfman, the commission vice chairman; Sheila Chaffee, Marcia Griffiths, Dr. Robert Argand, and Dr. Philip Gibeau, head of community services at the Dane County Mental Health Center, which administers the drug programi.

Watson is a leader of the group of policemen who have filed formal charges against Police Chief David Couper. One of the charges accuses Couper of having "demolished" the drug problem through "arbitrary and capricious actions.

In their letter to Soglin, the five members state, "We feel he (Watson) has at times used the Drug Commission to advance his points of view in the Police Department controversy.

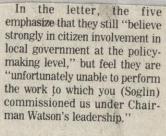

The commission's policymaking work "is at a standstill," the letter says, because of Watson's inaction. "For the past six months, his professional life has been heavily committed to the complicated problems of the Police and Fire Commission (which is investigating the anti-Couper charges), at the expense of the goals of the Drug Commission.

"Because of the chairman's unwillingness to convene us, and his lack of leadership since last November, we polled the commission members by telephone to seek support for a request for his resignation," the letter continues

"A majority of the commission members concurred that Mr. Watson's resignation as chairman would enable the commission to progress in its responsibilities to convene, define its role, and provide the necessary input to Dane County's professionals in alcohol and drug abuse.

"He has refused our request for his resignation."

The five also stated that their resignations "do not imply any position on our part regarding the Police and Fire Commission situation.

The Drug Commission, appointed last year by Soglin, developed a comprehensive plan for drug and alcohol abuse treatment in Dane County that became the county's contribution to the Wisconsin state plan, which in turn became the basis for federal funding. The commission has 14 members

Couper and Watson clashed openly last summer over Couper's withdrawal of two police officers from the drug counseling teams which are part of the program. Couper substituted a liaison officer between the drug program and the Police Department.

Shortly after that confrontation, a petition against Couper surfaced in the department, signed by 103 police officers.

Watson could not be reached this morning for comment on the resignations

Miss Diane Erb, Thomas Blaser to marry Dec. 11

MR. AND MRS. JOHN F. Erb Sr., Mount Horeb, announce the engagement and Dec. 11 wedding plans of their daughter, Diane, and Thomas Blaser, son of Mr. and Mrs. Fred Blaser, Blanchardville. Karakahl Inn at Mount Horeb Swenson, Barneveld. and Mr. Blaser is a self-employed livestock dealer.

in Mount Horeb.

Miss Diane Erb

Barneveld couple married here recently

Miss Judy Lynn Richard became married to John Swenson, Saturday, April 7, at the Mt. Horeb Immanuel Lutheran Church.

The 2:30 service was performed by the Rev. Robert E. Twiton and Father Robert Buholzer

laser, son of Mr. and Mrs. red Blaser, Blanchardville. Miss Erb is employed at neveld; and Mrs. John Richard, Bar-neveld; and Mr. and Mrs. Winton

Miss Debbie Stebnitz, Madison, was matron of honor; bridesmaids The couple will be married were Mrs. Ken Hefty, Mt. Horeb, in Immanuel Lutheran Church Miss Marcia Crary, Madison; Miss Kathy Swenson, Barneveld; junior

bridesmaids were Joni Richard and Karla Swenson; miniature bride and groom were Tami Hefty, Mt. Horeb, and Jimmy Ranney, Barneveld, niece and nephew of the bride.

The groom was attended by Doug Swenson, Barneveld, best man; groomsmen were Ron Thousand, Jerry Thousand, Larry

Schaller; Dennis Oimoen and Dean Oimoen seated the guests

The music was provided by Karen Arneson, Barneveld, organist, and Susan and Richard Ripp, Waunakee, soloists. A reception was held at Club 18

following the service. The couple will reside on a farm south of Barneveld.

MRS. GERALD HAGLUND

CROSS PLAINS - Miss Ruth Dorene Howery and Gerald J. D. Haglund exchanged marriage vows Saturday at 1:30 p.m. in St. Martin's Lutheran Church, Cross Plains.

Their parents are Mr. and Mrs. Ervin Howery, Cross Plains, and Mr. and Mrs. Martin Haglund, Mt. Horeb.

The bride's white peau de soie gown had a portrait neckline detailed with lace and a chapel train. Her fingertip veil of illusion fell from a matching lace crown. She carried American Beauty oses.

Miss Shirley Howery was her sister's maid of honor, and Miss Lynette Schultz, Black Earth, bridesmaid. They wore streetlength frocks of aqua brocaded taffeta with matching headdresses and carried pink carnations.

Norman Haglund, Mt. Horeb, was his brother's best man. Another brother, Marlen, was groomsman. Jerry Howery, Cross Plains, and Robert Frame, Blue Mounds, ushered.

The newlyweds will live in Mt. Horeb. The bride is employed at Ohio Chemical and Surgical Equipment Co., Madison, and the bridegroom is employed at Forsberg Paper Box Co., Madison.

, Friday, April 13, 1973-

Hewitt-Bryson vows exchanged

FIRST United Presbyterian James Hansbrough, William Church was the scene Thursday at 7:30 p.m. of the marriage of Miss Jacqueline W. Hewitt, daughter of Mrs. John W. Hewitt, Winneconne, and the late John W. Hewitt, and Robert U. Bryson, 2677 Milwaukee St., son of Prof. and Mrs. Reid A. Bryson, 11 Rosewood Circle.

Maid of honor was Cindy A. Hewitt, sister of the bride, and Thomas Bryson served as best man. Stacie Lea Rudy acted as

West and J. Brandelle Ekeberg. A reception was held at Anchor Inn. Oshkosh.

The bride is a senior at the University of Wisconsin-Madison and the bridegroom, a graduate of the UW and member of Sigma Chi, is director of program development and assistant secretary for Wisco Hardware Co.

After a wedding trip to Mexico, flower girl and ushers were. the couple will live in Madison.

Healy-Trastek

Dr. and Mrs. John R. Healy, 5510 Dorsett Dr., announce the engagement of their daughter, Diane, 626 Landgon St., to Victor F. Trastek III, 3825 Monona Dr., son of Mr. and Mrs. Victor F. Trastek Jr., Manitowoc.

Miss Healy is a 1972 graduate of the University of Wisconsin-Madison in child development. She is employed at the Jackson Clinic.

Delta Theta and Phi Beta Kappa, graduated from Northwestern University, Evanston, Ill., in 1972. He is a second-year medical

MISS HEALY

Mr. Trastek, a member of Phi student at the University of Wisconsin.

> The wedding will be Jan. 5 in the Midvale Community Lutheran Church.

The 50-year-old Denver and Rio Grande steam engine chugs out of Durango, Col., for the scenic, wilderness trip to Silverton, Colo. nines - the Jennie Hayes, the Little Jim Mar-The railroad started serving mines in Colorado in 1882.

Miss Komplin Becomes Bride of Gary Moyer

Gary Moyer, Barneveld, claim-ed Miss Cheri Komplin, Mt. Horeb, as his bride in a ceremony at 2 p.m. Saturday, Oct. 3, in the Barneveld Lutheran Church. The Rev. Robert Twiton officiated.

Parents of the couple are Mrs. Lyle Jones, Mt. Horeb, and the late Olvin Komplin, and Mr. and Mrs. George Moyer, Barneveld.

Given in marriage by her uncle, Robert Hendrickson, the bride wore a floor-length gown of organza styled with an Empire waistline, high collar and Bishop sleeves with wide cuffs. Scattered Venice lace appliques trimmed the skirt front and lace edged the collar, cuffs and hemline. An attached catherdal train was appliqued and edged with lace.

A jeweled crown held her bouffant veil and she carried yellow roses and white feathered 'mums.

Mrs. Norman Hefty, Mt. Horeb, was her sister's matron of honor. She wore a gold floor-length gown of chiffon. Mrs. Richard Moyer, bridesmaid, wore a simigown in avocado. They wore lar yellow and bronze 'mums in their hair and each carried a long stemmed yellow rose.

Richard Moyer, South Beloit,

MRS. GARY MOYER

was his brother's best man. Norman Hefty, Mt. Horeb, served as groomsmen.

Guests were seated by Donald Moyer, Mt. Horeb; and Raymond Berg, Blue Mounds.

A reception was held at Club 18 following the service.

The new Mr. and Mrs. Moyer are residing in Barneveld where he is employed by Tom Arneson Equipment.

By CHARLES HILLINGER (Los Angeles Times - Capital Times

DURANGO, Colo. - The nation's oldest regularly scheduled narrow gauge passenger steam line is up for sale.

Price? A mere \$1.8 million for the 92-yearold Denver and Rio Grande's Durango-to-Silverton Railway.

"Old Cinders and Smoke," as the line is known, runs through some of the most scenic country in the West.

Its trains have been featured in scores of motion pictures over the years. Including "around the world in 80 days" and "Butch Cassidy and The Sundance Kid."

It traverses 45.2 miles of spectacular mountain wilderness, much of it along the wild, rushing Animas River and up the steep shoulders of 13,261-foot Mt. Sutan and 13,087foot Grand Turk Mountain.

The tracks wind past scores of abandoned cella, the Mighty Monarch - past forgotten miner's hangouts like Purgatory - "Hard to get in and hard to get out" - and Crazy Woman Creek.

From 1882 through 1959, daily trains carried passengers, freight and supplies from Durango to lead, zinc and gold mines surrounding Silverton.

The train hauled out more than \$300 million worth of ore from the mines down the hill to the Denver and Rio Grande track that, until it was torn out in 1971, connected with the narrow gauge at Durango.

Since 1959, the narrow gauge line has been operating only during four summer months.

But passenger service today is highest in history - 105,000 rode the steam train last year.

They come from all over the world to take the nostalgic journey.

"This is no toy," said Jim Rumsey, financial vice president of the Denver and Rio Grande.

"It's a regular passenger service railroad operated by working railroad crews just like any other genuine passenger train.

"The train is vital to the economy of the Durango-Silverton area. We will not sell it to just anybody that happens to come along.'

The Interstate Commerce Commission has final say in approving the sale, and it has gone on record that it will approve sale of the steam line only to an individual or group having the capability to insure the trains' successful operation for years to come.

"The narrow gauge is making money," said Rumsey, "But our company wants to be totally out of the passenger service business."

He spoke of the inconvenience of taking 50 regular employes - train crews, section and roundhouse personnel, ticket agents, etc. - and sending them each summer to Durango and Silverton to run the narrow gauge.

"We'd just as soon keep those people busy on the main line," he said.

Passengers ride the train today strictly for fun.

Two 10 to 12-car trains make daily sevenhour roundtrip runs in the summer months.

An average of 1,000 people a day have been riding the old wooden yellow coaches (nearly all vintage 1880) seven days a week this summer.

People curl up in sleeping bags in all-night vigils outside Durango's 1882 depot, hoping to be able to buy no-show space when ticket windows open early in the morning.

The two trains were booked months in advance.

Smoke pours from the 50-year-old steam engines as they chug through pristine country at an average speed of 15 M.P.H. The trains climb from 6,250 feet at Durango to 9,302 feet at Silverton.

Elk, deer and bear are often seen in the as pen and pine forests along the track. Silver sage, butter and eggs, thistles, Indian paintbrush and other wildflowers blanket the woods.

The train creeps along on a single track perched on narrow shelves as much as 400 feet above the Animas River.

Up front, Fireman Ron Shawcroft shovels six tons of coal from the tender into the firebox on the roundtrip.

In the coaches, coveralled Conductors Mel Schaaf, 58, and H.W. "Punk" Blackstone, 59, veterans of the line, collect tickets (\$8 round trip for adults, \$5 for children.)

Schaff, Blackstone and other crewmen saved the line in the late '40s when financial troubles made it appear the line was finished.

"We wrote letters and traveled everywhere on our vacations urging people to come and ride 'Old Cinders and Smoke'," said Schaaf.

"The train crews stirred up enough interest to keep it going, to make it a profitable enterprise after years of operating in the red,' said Amos Cordova, the train's agent in Duran-20.

"We're worried about her again," said Schaaf. "We hate to see the railroad sell the narrow gauge. We don't think anyone but the Denver and Rio Grande has the knowhow, the equipment and the money to keep the trains operating.

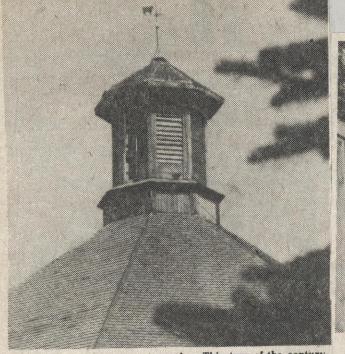

But even Schaaf is convinced there is no turning back now.

"The way I look at it," he said, "if I have a horse in a corral and I don't want it any longer, I'm going to get rid of it whether you want me to or not.

October 26, 1973

Barn Bonnets Part of a Vanishing Era

-Even round barns sport cupolas. This turn-of-the century cupola stands on a barn no longer used for farming. It's in Mequon (Ozaukee County.)

By JUDY HANSON

Bonnets on barns — remember when most every farmer wanted one? Perched high atop the barn, they added an artistic touch to the farmyard.

The cupola served as a quiet symbol of the farmer's craftsmanship and individuality — pleasing to the eye and more than just an ornament.

Cupolas acted as ventilators, providing a natural release of barn odors and the haymow's heat and humidity.

The bonnets also are first cousins to the decorative weathervanes that Wisconsin farmers once relied on so heavily. Before the days of radar and up-to-the-minute weathercasts, vanes were as crucial to the farmer as a clock.

Since the weather would either help or hinder his every move, the farmer checked the weathervane often, looking for the shifts in the wind that were a tipoff of bad weather.

For many decades, barns looked almost naked without weathervanes, which came in 1001 designs.

In placing the vane on the most visible spot he could find, the farmer inevitably settled on the lofty cupola. It provided a perfect base for the wooden or metal arrow that would instantly inform the dairyman or beef farmer of the wind's direction.

Many a farmer spotted a fast-moving thunderstorm by the flip-flop of an arrow on top of the cupola, recalls agricultural expert Milo Swanton of Madison, for years executive secretary of the Wisconsin Council of Agricultural Co-operatives.

Southern Wisconsin tobacco farmers found the cupola essential to ventilate and dry the big leaves of tobacco hanging in their slattedside barns. To insure proper air flow, some tobacco barns sport as many as 3 cupolas stationed 15 to 20 feet apart.

This photo shows the weathered character of a cupola-topped barn used as a storage shed at Golden Lake in western Waukesha County.

Obviously, the cupolas are not — as the Pennsylvania Dutch might say — "chust for pretty."

The early farmer had a reverence for excellence and permanence that would awe today's Throwaway Society. Resourceful men, they took great pride in each thing they did. They made their own clothes and tools, built their own houses and barns, and farmed the land to feed their families and livestock.

Know-how in building was handed down from father to son — most boys knew how to use the auger, the ax, the mallet, the mortise and chisel, the framing hatchet, the maul and pike well before their first shave.

When a barn was raised, it was much more than four walls and a roof. Strength and convenience, of course, were vital, but the builder had to leave a reminder of his architectural imagination, too. What better memento than the bonnet on the barn — a fancily trimmed, windowed box that stood sentinel over the farmstead?

So, the cupola took all sorts of shapes and styles — no two ever exactly alike. Their blueprint called for Kentucky windage, innovation and playing the problems by ear. Assembly line uniformity was no problem here!

In traveling Wisconsin, one will find cupolas many times in clusters — like those around New Glarus, most of which reflect the area's Swiss heritage. And in Ozaukee County, cupolas decorate the tops of the colony of round barns that master carpenter Ernst Clausing put up in the late 1800s.

To savor the charms of the cupola in this, the Space Age, one must only consider the present. Seldom will you see a cupola on a new barn. Generally it's the turn-of-the-century barn whose roofline is graced by a bonnet instead of a metal ventilator (more efficient, perhaps, but sorely lacking in esthetics).

Sway-backed, weathered and stubbornly fighting decay, these ancient barns offer an old

A red cupola with white trim serves as a base for a lightning rod, and stands sentinel over the Russell Farr farm, Route 2, Columbus.

An ornamental bonnet graces a horse barn at Ruby Realty Farms in Brookfield. It is reminiscent of the rural Wisconsin of the past.

shoe comfort and a link with slower, surer yesterdays. Old barns, possessors of an earthy aroma of much oiled leather and sundry animals, somehow assume the characteristics of their soil-tilling masters, the age lines etched in their boards and shingles and rafters.

Few cupola-barns are much younger than the 1930s.

Occasionally, though, a barn fancier will sight a red cupola restored and repainted by a farmer or rural resident smitten by its oldfashioned charms.

But runaway inflation nowadays makes construction of a bonneted barn prohibitive to all but the wealthy. The metal ventilator is readily available, and at a fraction of the cost of a cupola.

So the bonnet on the barn has begun to vanish from the Wisconsin farm scene. No longer an avenue of rural self-expression, this piece of Americana goes relatively unnoticed today, except for pigeons and boys carrying BB guns.

Death Stalked on Day of the Big Storm

Esser says the word got back to Potosi in the morning that the ducks were flying. A gunning buddy, Connie Koehler, locked up his tavern and joined Esser and Arnold Schumacher for the hunt. The trio no more than got to their blind and the decoys out when the storm hit. Wind-whipped spray turned everything to instant ice. The grass, the bushes, the hunters themselves soon were ice covered

7-Mile Drift

The decoy spread was left on At Trempealeau, they tell of a the water, never to be retrieved, and the men battled the oars to get themselves across Schneider Slough and back to safety.

The outboard motor of another party of Potosi hunters soon froze up, and they drifted down river for nearly 7 miles before they were able to row ashore at the mouth of the Platte River.

lucky. For up and down the river, at Glen Haven, at Lynxville, at LaCrosse, at Winona, hunters died in that killer storm.

Tales of Terror

The cold was so intense that by the morning of Nov. 12 the Mississippi was frozen over. Some ducks that sought sanctuary in protected backwaters died as

they werf frozen into the ice Hunters who spent the night on the river had tales of terror to tell

Two Sheboygan dentists were hunting the big river near LaCrosse. They tied their boat to a tree and spent the night there. slowly chopping up their wooden craft, burning it as kindling, using a metal dinner bucket for a stove. A tough night, but they lived to tell of it.

Nothing Compares

hunter who curled up under his overturned boat with his retriever and credited the body heat of the dog as being a life saver.

The storm was not limited to e Mississippi River. It was a age blizzard that covered the fidwest. But it was along this river, with its big water, where But the hunters at Potosi were duck hunters fought for their lives, and some lost.

And it is here along the Mississippi, when the November winds come moaning down the river and the big northern flight of ducks is on, that the old duck hunters look across the broad waters and comment that nothing before or since compares to the Armistice Day storm of 1940.

By WENDELL SMITH Written for The State Journal

POTOSI - Hoist yourself up on a stool at the soda fountain in Pete Esser's drug store in Potosi, a Mississippi River community in Wisconsin's southwest corner There you can buy yourself an ice cream cone, a Wisconsin State Journal, and sit and savor the sweet dessert, the news of the day, and the tales being told by the old duck hunters of the village

A Way of Life

Duck hunting is a way of life in Potosi, where the main street starts at the top of the hill and winds all the way to the river Over the years, hundreds of hunters have spent thousands of days on the big river, seeking mallards and bluebills, cans and butterballs. But there is one day that stands out in the memory of the old hunters - Nov 11, 1940, Armistice Day.

That was the day of the big storm. Pete stands behind the soda fountain and remembers, "I never saw ducks fly like that, the air was full of all kinds."

And across the counter, Art Cardey recalls, "The wind was

west that a duck we shot here didn't hit the water til it got to East Dubuque.

Guns Froze

Norbert Leeser says his group brought home only two ducks that day Everything else they shot blew far out into the river and couldn't be retrieved. And, besides, once the storm hit, their guns froze solid. The actions on the automatics and pumps were so tight with ice, that the weapons couldn't be unloaded until they thawed out at home.

That day dawned warm and sultry Art Cardey and his brother, Teddy, went hunting in shirt sleeves, their boat powered by a little 5-horse motor They heard the storm coming, roaring like a freight train. Blinding snow was accompanied by winds that whipped the river to a froth, and temperatures plunged.

Tavern Locked

The brothers soon forgot about ducks and directed all their efforts toward getting to shore. The wind kept banging the little boat into stumps, and they had tense moments before they were safely back at the landing. By then, the radiator on the truck they had blowing so hard out of the north- driven to the river was frozen up.

Pete Esser, left, and Art Cardey discuss the Armistice Day storm of 1940.

Sheriff Charged in Accident

DODGEVILLE - - William R. Iowa County, was found guilty of operating his motor vehicle left of center in an August 12, 1973 accident that claimed the life of Rick Foley, 20, Dodgeville. Whitford entered a plea of guilty

to the charge in Iowa County Court Wednesday before Judge James Fiedler. The accident for which he was charged involved Whitford's car and Foley's motorcycle. The accident took place about two miles from Dodgeville past the Thym's and Don Q Inn supper clubs at 1:25 a.m.

Attorney Edward Morse from Grant County introduced the charge while serving as acting District Attorney for Iowa County after the regular D.A. Wayne Rusch asked for assistance because of close personal ties with Whitford. Morse conducted the investigation of the accident himself and told the court he had talked to about 20 witnesses concerning the accident. Also, a closed John Doe hearing was held last week to determine the charge.

DODGEVILLE - - William R. At the close of the trail Judge Whitford, Dodgeville, Sheriff of Fiedler commended Morse for his highly competent handling of the investigation. He asked that it be introduced into the record of the trial that Morse, who was called in late in the case, served the county well and "removed the ghost that has surrounded the tragic accident since its occurance."

Morse told the court that his investigation had to take into account three possible alternatives. The sheriff was at a party before the accident bringing in the possibility of operating a motor vehicle while intoxicated. The accident took place in the left or oncoming lane of traffic which brought in the possibility of operating with a high degree of negligence. Or, the third alterna-tive which was a charge of op-erating left of center.

Operating a motor vehicle while intoxicated was ruled out when none of the witnesses could testify that in their opinion Whitford was in a state of intoxication. Because he and his wife were injured in the accident they were taken to a hospital by the Iowa County ambulance and no breathalyzer

Iowa County experienced on of the worst weeks for traffi accidents in a long time as tw motorcyclists were killed Sunda and one seriously inime and one seriously injured Tuesday. The deaths brough traffic fatalities to five this yea

tranic latanties to live this yea in the county. Killed as a result of motor cycle-car collisions Sunday wer 20 year old Richard Foley, Rout 2, Fennimore and twelve yea old Kenneth M. Carlson, Rou 1. Highland, David Coleman, 15 1, Highland. David Coleman, 11 Lone Rock, suffered a broken let and broken left arm as a result of

and broken left arm as a result of a collision with a car Tuesday morning and was taken to Madison General Hospital by Lone Rock rescue squad. Richard Foley's motorcycle collided with the Iowa County squad car driven by Sheriff William Whitford at 1:22 a.m. Sunday, on highway 23 in the Town of Dodgeville, about 1.4 miles north of highway 18. Foley died at the scene of the accident of compound fractures. of compound fractures.

Sheriff Whitford and his wife Helen were treated for minor injuries at Dodgeville General Hospital. Mrs. Whitford was held for overnight observation, then released.

According to the investigation, completed by Iowa County Deputy Ken Weidener, Whitford was southbound on 23 and was attempting to pass, and left about 70 feet of skid marks in the northbound lane, to the point of impact with the motorcycle. The I motorcycle was northbound and made no physical attempts to stop or avoid the accident. Whitford has been charged

The second alternative, that of operating a motor vehicle with a high degree of negligence, was ruled out because the deviation into the lane was a momentary thing. Witnesses said the deviation had not been constant. The charge, which is a criminal charge, could not be supported because the high degree of evidence needed for the conviction was not present.

The third alternative was accepted when it was definitely proven the accident took place entirely on the left side of the CLE_THURSDAY, AUG. 16, 1973

The punishment for the offense included a possible fine of \$20 to \$200, a loss of six points, and revocation of 30 days to one year. The court fined the sheriff \$40 plus \$7 costs, assessed the six points, and revoked his license for 30 days.

20 year old Foley died at the scene of the accident with compound fractures.

Iowa County Sheriff, William Whitford, was driving a county squad when it collided with the cycle, a 1969 Harley Davidson, driven by Richard Foley, rural Fennimore, early Sunday morning.

1973

Shot Making at Tower Hill Back in Operation Last Week

Shot Tunnel was in use this past weekend at Tower Hill State Park in northern Iowa County. Volunteers gave shot-making demonstrations and hope to continue throughout the summer.

Tower Hill State Park, located in northern Iowa County near Spring Green, had its shot-making past revived last weekend by volunteers and through the efforts of the Spring Green Chamber of Commerce.

Guides manned several areas of the park on a volunteer basis to help tie in the event with the first annual Spring Green Founders Days and the Tercentennial canoe trip that brought voyagers to the area in Marquette-Joliette expedition atmosphere. The shotmaking was explained to many visitors on the various levels of the shot tower area and the possibility of making it a repreated event looms before the volunteers, chamber of commerce, and the DNR.

The ultimate goal is to restore the old buildings that originally made up the shot tower industry. Where funds will come from for the project is still under investigation and consideration.

The story of the shot tower goes back at least a quarter of a century before the village of Spring Green was founded. A vertical shaft was bored by hand down through the solid rock in the heart of Tower Hill and a horizontal shaft was cut to meet it. This has to be a remarkable feat of engineering in the early years of the 19th century. It was said that T. B. Shaunce, the excavator, used a line of candles to sight along, achieving an accurate meeting of the two shafts.

Shot manufacture began in about 1832 and ended before the Civil War. Lead, smelted on the summit of the hill, was poured through a sieve into the shaft. The droplets fell into a water-hole pit at the bottom. Here they were retrieved as shot, rounded by the fall and cooled by the water. Then, they were removed from the tunnel in carts.

In another building the shot was sorted, graded, sacked, and prepared for shipment by a river boat. The shot tower used the lead production of southwest Wisconsin mining region and was a flourishing frontier industry.

The town that grew up at the base of the hill, now known as Old Helena, was once considered for location of the territorial capital.

All that remains of Helena today is a cemetery.

This view is of shot tunnel where shotmaking was accomplished last weekend. At the top is a shotmaker's ladel about to drop some shot.

Senior Citizens No Longer "The Unheard Minority"

Three Ridgeway people and a Barneveld couple are working with Mrs. Ruth Bausch, senior citizens program director of SWCAP, to organize a combined Ridgeway, Barneveld Senior Citizens group. From left to right are Sarah Ryan, Ruth Bausch, Jim and Helen Ryan. The Ryans are the "key people" in Ridgeway working in this community effort. Not pictured are Mr. and Mrs. Warren Holmes, the "key people" of the Barneveld area.

A woman approaching her elderly years, a widow, living only on a veteran's widow pension, took delight one day from a group of peers who had made her a birthday cake.

It was the first she had since six years old and there to help her celebrate was the local senior citizens organization. It moved her to tears to be part of the monthly birthday celebration which the group has for its members.

Companionship is one of many benefits derived from belonging to an organization of older adults. In the past few years, these groups of senior citizens have been forming throughout a four county area including, Grant, Lafayette, Richland and Iowa through the efforts of concerned people for senior citizens . . . especially Ruth Bausch, senior citizens program director for Southwest Wisconsin Community Action.

"They used to be called ."the unheard of minority", said Mrs. Bausch, about the senior citizens. "But, she continued, they are fast becoming outspoken and knowledgeable on matters concerning the small city to Watergate; and it's through organization that this is possible."

With 24 centers now organized in the four county area, Ruth says she is now working toward total involvement of Iowa County. Just last Thursday, she met with Ridgeway "Key People" in or-ganizing a program for combining Ridgeway and Barneveld senior citizens.

They have an ideal facility for their meetings . . . with plenty of parking space, several rooms, nce and a pleasant atmosphere . . .

Sr. Citizens of Ridgeway **Barnev'd Meet**

Senior Citizens in the Ridgeway - Barneveld area will have their regular meeting and birthday party for all the birthdays that fall in the month of November, at the Barneveld Legion Hall on Monday, November 12 at 1:30 p.m.

DODGEVILLE CHRONICLE THURSDAY, MAY 17, 1973

26

main

the catechal building of St. Bridgette's Church, Ridgeway.

Usually the ones attending the senior citizens meetings held twice a month at most of the centers, are 55 and older. Quite a few are in the 70's, but younger ones are always welcome. Average attendance at the meetings is 45 persons.

Meetings usually last about two hours with plenty of socialability, lunch and fun. "The groups are of course as diversified as any group, said Ruth Bausch, some want to play bingo, others cards, some want speakers while others want just time to visit." At any rate, the centers try to accommodate many wishes.

There is no membership fee to belong to a senior citizen's group. In fact, Mrs. Bausch says the less money accumulated, the better. A friendship type of group like this should be on a volunteer basis.

All the groups are organized on a community basis, Ruth said, I go in and meet with a few key people who can be influential in setting up a center and keep it going and the community assumes responsibility for the group.

This is part of the reason that of the Community Action Programs threatened out of existence, the senior citizens pro-grams can go on despite the disappearance of CAP . . . Community involvement is the key.

The enjoyable afternoon for these older adults is often educational as well. They have the opportunity to learn through guest speakers about social security, homestead tax relief, telecare, meals on wheels and so forth.

For the older person who doesn't drive, he can get to one of the meetings through volunteer drivers. Every group has some.

The youthful volunteers, who also help set up programs for entertainment are very helpful, Ruth said, "they bring ideas and assistance. Older volunteers are helpful also she said, but it's those in the middle who sometimes don't get involved in helping with senior citizens because of their fear

of getting older." **Ridgeway Sr.** Citizens Meet

The Barneveld and Ridgeway Senior Citizens will meet Tuesday, June 26, at 1:30 p.m. at the Barneveld Legion Hall.

23-75 38.50 + 41.25 - 42.00

Barneveld-Ridgeway Sr Ga Citizens will meet at the Barneveld Legion Hall Monday, Sept. 17 at 1:30 p.m. European pictures will be shown by Mrs. Harland Arneson from recent trips. Lunch.

972 Donna Myers, Fort Atkinson, was her sister's maid of honor. The bridesmaids were Diane Bautsch, Wausau; Cheryl Smith, sister of the groom, and Beverly Mc-Cullock, both of Madison.

Dick Ihenfeldt, Madison, served as best man, and the groomsmen were Dave Ihenfeldt, Madison; with Dave Bautsch, Wausau; Marc Graf, Oshkosh; and Dave Pagel, Middleton, as groomsmen.

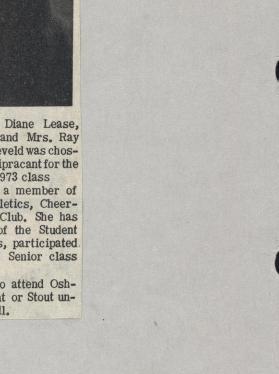

Theresa Lease Is Barneveld **DAR Winner**

Miss Theresa Diane Lease, daughter of Mr. and Mrs. Ray Lease, rural Barneveld was chosen as the DAR recipracant for the Barneveld Senior 1973 class

Miss Lease is a member of Chorus, Girls Athletics, Cheer-leading and "B" Club. She has been a member of the Student Council, Forensics, participated in the Junior and Senior class Plays.

Theresa plans to attend Oshkosh, Stevens Point or Stout universities in the fall.

Jim Meyers, Barneveld; Lee Ihenfeldt, Lake Mills; and Blaine

Smith, Madison, seated the guests.

During the ceremony, Bill Freidli, Barneveld, sang "Speak Softly, Love" and "The Lord's Prayer" accompanied by Matt Graf, Oshkosh, at the organ.

The bride and groom are em-ployed at the Madison Bank and

Trust, Madison. They are making their home at 226 Randolph Court,

Madison.

Mr. and Mrs. Lester Oimoen, Blue Mounds, will observe their 25th wedding anniversary on Sunday, August 12. Friends and relatives are invited to an open house from 9:00 - 12:00 p.m. at Club

18. Music by Milt Thorpe. They are the parents of 4 children, Larry, Boulder, Colorado; Mrs. Lana Dyreson, Dodgeville; Gary and David at home.

At 84, Ernest Lisser Still Weaves Willow Baskets

ARGYLE — When Ernest Lisser was 12 his grandfather taught him basket weaving. Lisser's still at it at 84.

Lisser's baskets are made for use — the big, \$8 ones for the laundry — but some people buy them as folk art.

As a boy in Switzerland, Lisser contributed an essential part to the family income. His father had died, and the grandfather, Johannes Lisser, set young Ernest to gathering willows and soon had him weaving baskets for sale.

But "as the twig is bent the tree's inclined" did not seem to apply to Ernest. He emigrated to the United States at the age of 17 and for the next 55 years was a farmer in Lafayette County.

"I didn't think about it for 40 years," he said, "till one day I saw a bunch of willows and said 'Look there.'"

He resumed the craft of his childhood about 1945 and has been at it since his retirement from farming 12 years ago.

The willow sprouts that he needs are becoming scarce as farmers and highway crews clear more and more land, and the hunt for supplies has become as time consuming as weaving.

Since it takes him a day and a half to make a large basket, at \$8 "I don't make money on it," he observed. Still, Lisser is content to be not only talking about old times but living them as he patiently guides the slippery willows around the stakes just as he did as a 12 year old at Grandfather's.

Each of his 25 grandchildren is promised a basket as a wedding present, and there a r e 42 great-grandchildren, though none yet of marrying age.

Of his eight children, one, Rose Kahl, learned the craft from her father and is continuing the art.

Fred M. Meyer Fred M. Meyer, 58, of 4269 Doncaster dr., died today at a Madison hospital. Funeral arrangements are

pending at the Ayers funeral home, Ridgeway.

Ernest Lisser became a basket weaver in 1901 at the age of 12, and at 84 he could make a living at it except that he has promised baskets as wedding gifts to 67 grandchildren, and he sells the rest for \$8 and under. (Barth photo) He took to the project with enthusiasm that sent the Ingleside staff scattering to find something large enough to soak the sevenfoot-long willow branches in and also to find a storage place while the basket building was in progress. Haag recalls weaving the

Haag recalls weaving the baskets as a boy. They were used for hauling silage and as clothes baskets. Extra baskets were taken to Madison in those days and sold at the market. The bushel sized ones would sell for about a dollar while a smaller one like that in the photograph would go for a quarter. Weaving of the willow baskets

weaving of the winow baskets was done in the early spring after the willow branches had been packed in the snow through the winter. This treatment kept them supple and prevented freezing.

According to Mrs. Despins, the project has served to get Ben out of his room and has activated his interest.

Judging by the strength and quality of his product he will probably end up teaching a forgotten craft to others.

Ben's busy building baskets

Former Town of Perry farmer Ben Haag has revived an old craft to occupy his time and interests at Ingleside. The new owner of his farm found some old handmade willow baskets around the farm and suggested to Gerri Despins, the arts and crafts

instructor at Ingleside, that maybe Ben would be interested in weaving some more.

Plans for Arena Vet Monument Progressing april

Plans for the Veteran's Monument to be erected in the Arena Cemetery are progressing

The members of Arena Legion #441, Arena Legion Auxiliary #441 and V.F.W. #9336 who are sponsoring the erection of this monument in honor of all the veterans in Arena area are truly grateful for all the generous donations that were given in the special boxes that were placed in the business places in and near Arena sometime ago, and to the memorial account that has been set up at the Peoples State Bank in Arena.

More donations are needed, if this has slipped your mind, will you please mail or bring your check or cash to the Peoples State Bank of Arena and deposit it in Veteran's Memorial Fund on or before May 1, 1973 if possible.

Our aim is to have the monument up by Memorial Day, May 30, 1973.

Arena VFW Dedication Plans Crumble as Stone Breaks

ARENA--A monument to honor the men who serve their country almost became a reality to the Arena VFW Post 9336 this past Memorial Day. The masonary work involving the erection of the stately memorial had been completed. All that was needed was the stone.

On the eve of its completion, when the stone was being loaded onto a truck . . . it was accidently dropped. The VFW Post plans crumbled, as the stone was broken in half.

Quartermaster of the Post, Jack Schultze said, "This has been a tremendous set-back. We don't know how long it will take to get another, with the appropriate inscription put on."

The plans for a monument to honor the men "who have served their country in the past, the present and the future, started almost two years ago by the Arena VFW Post. They enlisted the help of the Arena Legion Post 441, the Auxiliary, the Village and Town boards and the cemetery association.

Monetary needs were met with a campaign for funds. Schultze related, "The donations have been tremendous. So many have been very gracous with contributions."

Douglas Cowley, an officer in the Arena VFW remarked that the out-put has been tremendous. He

said, "It is very gratifying to see the spontaneous help that has been received in donations and in all the work that has gone into this project.

This was apparent last Saturday as the 500 lb. flag pole was set up. Jack Schultze, Douglas Cowley, Vernon Pitt and Bob Jones were starting the job. Before long Francis Pailing and Andy Johnson were recruited for the tedious undertaking. George Hudson happened by and offered his help. After some "maneuvering and a lot of effort" the pole went up.

Jack Schultze, Jr., Roger Amble and Charlie Pitt offered their services as water boys... as almost a half ton of cement was mixed by hand and poured to anchor the pole. LaVern Sneath and Jack Tremelling arrived, and by the time the job was finished there was more man-power than what was needed present.

The monument was designed by Jack Schultze who has been elected the 3rd District Commander of the VFW — Department of Wisconsin.

The original VFW group was started in 1899 in Columbus, Ohio, by a group of young men who were moved by the desperate plight of some of the men who had fought with them during the Spanish American War. They held their first meeting in the back room of a tailor's shop. There they pledged "to help one another and to work together for the benefit of their country and for the men who fight for this nation."

The works of many VFW Posts have been notable since that first meeting. The Arena VFW Post completion of the monument has suffered a set-back, but the plans go on. In the near future . . . depending on when the stone can be replaced and an appropriate date set . . . a dedication ceremony will take place. Cowley stated, "Everyone can be sure of that."

Trophy-winning tuggers from Fink's Bar and Grill are, standing, Ron Smits, Kevin Jelle, Phil Harms, Jim Leuzinger, Steve

Leuzinger and Ray Abbot. Below are Don Magnuson, Rick Skindrud, John Scheidegger, Lee Sherven and Mike Mackey.

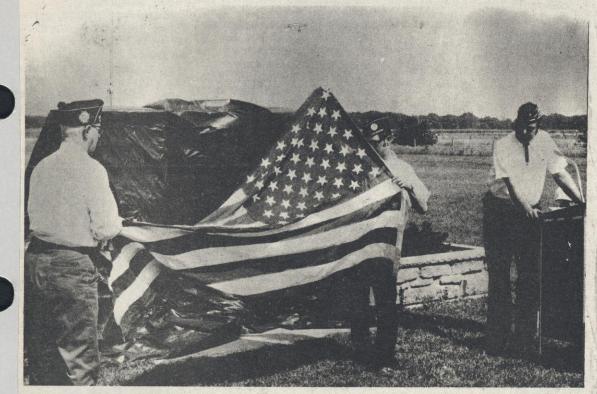

Local tuggers place at Rockford Speedway

Finks Bar and Grill of the Blackhawk Tug-O-War League traveled south of the border last Wednesday night and held a competition on the Rockford Speedway asphalt race track.

Among the teams competing against Mt. Horeb's 10-man tug-owar squad were Ashton, Monroe, Waunakee and Orfordville. When the gruntin' and groanin' were over, Mt. Horeb finished second. Monroe was first and Ashton third. As the evening finale, the Orfordville squad challenged a race car and won. At Arena Monument Dedicated

Jack Schultze, right, and other members of the VFW stand beside the monument dedicated at Arena August 26.

VFW members prepare to unveil the monument which will remain in the Arena area to commemorate those who gave their lives for this country.

ment with the American Flag located here in the Arena Ceme- make the idea a reality. tery reflects this communities feelings as a means of paying tribute toward the "men and women who have fought in defense of this country. . . for the pres-ervation of our way of life."

The idea to erect a monument initiated with the Arena VFW Post 9336 at a monthly meeting. It was soon a "community project as almost everyone became involved." Organizations (the Arena Legion Post 441, the ladies of the Auxiliary, the village and town

ARENA--In passing, travelers along Highway 14 near Arena, will notice a resplendent monu-ment with the American Flag flying overhead. The monument land and other details needed to

This past Sunday, August 26 the Arena community held its dedication. Taking part in the ceremony were Rev. Bernard Norland, invocation. Introductions by Legion Commander Post 441. Music was provided by the River Valley Band Chaplian Francis Pailing and Rev. Jerry Bau-man gave the Benediction, Jack Schultze who designed the monument as a Quartermaster of the Arena Post - is also 3rd District Commander of the VFW-

Department of Wisconsin officially dedicated the flag and the monument. He began the midday ceremony by thanking those who had donated the pole, the flag, the land and the plaque bearing the appropriate inscrip-tion. He stated, "This is a sol-emn important occasion, one we shall long remember with pride as c for the small part we are contributing."

For the large crowd gathered here for the dedication it was a time of reflecting. Especially those who had loved ones "who made the supreme sacrifice that others may enjoy liberty, justice and peace." For those who re-membered their "fallen comrades" who died for their country on foreign lands and waters.

The flag was held open-faced before the crowd as Commander Schultze told of its meaning. He said, "The white stripes symbolize purity of purpose in our freedom of thought - expression and worship. .

The red stripes meaning courage - our willingness to die if necessary, for the preservation of American ideals. .

The blue of tranquility upon which the stars of our states are united to hold intact all that is truly ours - the desire for peace, prosperity and happiness throughout our nation.

The flag unfurled as it was slowly raised to the top of the pole - its meaning clear as the River Valley Band played the National Anthem.

The highlight of the dedication - the unveiling of the beautiful monument. . . "for everyone to see". Erected in memory of the men and women from this community who have served in the United States armed forces. A constant reminder for generations to come that ths com-munity "will always honor those who go forth in defense of our nation. The true guardians of freedom, justice and equality among men."

Commander Schultze then placed a memorial wreath beside the monument in the name of those who had taken part in this mo-mentous occasion - "The people of the Arena community."

"It is here for everyone to see - it will last forever." commented John Roberts.

When passing by on highway 14-

take time to stop at this small village cemetery where this com-munity has provided a visual means of paying tribute to their fellowman - reflect for a moment of its significance.

Question: What do you think of the Agnew resignation?

JACK LEARY

"I feel much more relieved now because of Mr. Agnew's resignation. Our government is in need of a tremendous overhaul and this is only the first step. If Mr. Nixon would now follow suit and resign (with honor of course), the American public would remember these two men as making two intelligent, honest decisions for the betterment of the United States. Ionly hope that in the "76" election people will use very careful consideration before voting in another Nixonism type administration."

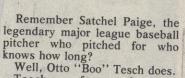

RALPH THONI "I think the American people have been had. I think it is unbelievable that this could happen. I first thought, when Agnew came into office preaching law and order, that he was a great guy. But he sure turned out to be a crook!" What do you think of the legislature adjourning before all of the bills were taken care of? (fuel crisis, certificate of need, and an impeach Nixon measure).

Otto "Boo" Tesch had Hand In Satchel Paige's Career

James White - Barneveld I think it is rotten. They must be lazy - or just want more work

be lazy - or just want more work to make more money. It's getting that way all over - not just here.

Well, Otto "Boo" Tesch does. Tesch, a former baseball umpire in the Iowa County area and a local barber for some 59 years, remembers Satchel's first pitching appearance, and he was behind the plate.

It was during the depressions years, approximately in 1930. Boo said a travelling team from Pringwood School in Mississippi had stopped in Ridgeway to play a local team. At the beginning of the game, Paige was in centerfield. But as the game progressed, the pitcher from Pringwood complained of a sore arm, and others on the squad also were too tired to pitch because of pitching previous days in other towns.

So the manager turned to Paige, and asked him if he'd like to pitch. Boo remembers Paige saying that he didn't know much about it because he had never done it before, but he'd give it a try.

How did Satchel look that first game? "Well, he sure had a terrific smoke ball, but his control left something to be desired," Boo remembers.

"I'll never forget when Hank Beecher came to the plate for Ridgeway," Boo said. "I was actually a little afraid to watch the ball all the way in myself because it would break so much. But one particular pitch to Hank appeared to be coming right at his head and as I looked away, I heard a loud crack. I saw Hank laying on the ground, and asked the catcher

Otto "Boo" Tesch.

what had happened. He said the ball had broke in and cracked in his glove. It hadn't hit Hank, but it sure did scare him. He wouldn't get any closer than four or five feet from the plate after that."

Boo began his umpiring career at the age of 16 after he threw his arm out. "My arm was so bad after that I couldn't even throw the ball across the infield," Boo said.

He then turned to umpiring because he loved the game so much, and he wanted to stay affiliated with it.

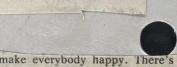

He was born in Barneveld in 1899, and lived "among the fighting Irish out on the old blue ridge" for three years. "It was a poor place for a Dutchman to live," Boo laughs.

He then moved to Middleton for a few years, and then back to the Barneveld and Ridgeway area, where he has been ever since.

In 1921, he married the former Nellie Hand. The couple has two sons, Mickey 49 and Gerald 47.

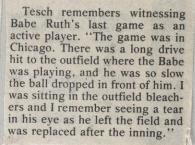

Tesch began barbering in Rewey in 1915 and spent a year and a half there before returning to the Ridgeway area. He barbered steady there until a heart attack slowed him down 11 years ago, but he has still been working on and off around the area since.

Boo, whose nickname iron cally didn't come from umpiring, said he tried not to let bickering get to him when he was behind the plate. "The umpire has to be deaf to the crowd," Boo said. "Because no matter which way you make a call, you're not going to

make everybody happy. There's always people there rooting for both sides, and if everybody's happy with the way the game's going, then something's wrong."

Tesch, who says he believes he has seen every team in major league baseball at one time or another, said the Yankee teams of the Babe Ruth - Lou Gehrig - Bill Dickey era were the best ever. "They were a baseball machine," Tesch said.

Tesch finally quit umpiring two years ago and his stint included 37 years of umpiring in the Home Talent League.

How many baseball games did Boo umpire in bis many years behind the plate? "Well, in over 50 years of umpiring, I'd have to say I umpired about 1500 games."

That's a lot of balls and strikes.

Lester Kelly, a rural Sun Prairie farmer, is already "mopping up" on his oats harvest. Here he windrows a field in preparation for baling straw. The oat crop was sown on March 28 and was combined Saturday. Most other

farmers aren't quite as far long in harvesting grain as Kelly. (Staff photo by Bruce Fritz)

tet consisting of <u>Kevin Farnsworth</u>, Frank Anderson, Mike Matheson, and <u>Dan Kelly</u>, wait their turns to try out for the Ted Mack Amateur Hour at the Dane County Fairgrounds Youth Building Tuesday afternoon. Mack has been off the air for two years, but his shows continue at local fairs across

the country. More than 100 acts from throughout Dane County auditioned, and 15 were selected as winners. Those 15 will perform at the Dane County Junior Fair July 19. Ted Mack will be on hand to personally select about three who will be awarded savings bonds and other prizes. (Staff Photos by Dave Sandell)

June 1973

At Barneveld Feed Mill Changes Owners

Retiring owner-manager, Ralph Thoni, and incoming operator-manager, John Carr, discuss the future of Thoni's Feed and Fuel in Barneveld recently.

become a manager and a manager will become a farmer in Barneveld.

Ralph Thoni, who has been owner and manager of Thoni's be run together. Feed and Fuel in Barneveld for 22 years, has decided to retire from his business and devote more time to farming and the Standard Oil business.

Although Thoni will be leaving, the new operator-manager, John Carr, plans to keep the name of the business the same.

"People know this place as Thoni's Feed and Fuel, so I can't see any reason to change the name at the present time," said Carr.

Carr is from Sauk City, where he was forced to abandon his farm when the state of Wisconsin decided to make a state park out of it. "When I had to leave, I had to find another place to live and to make a living," added Carr.

Carr recently purchased Hollandale Feed and Grain Incor-

As of July 1, a farmer will porated in Hollandale. It is that corporation that bought Thoni's Mill, with Carr the President and owner of all of the stock. In the future, the two mills will

> Carr feels that the two mills working together can operate more efficiently than one mill could run by itself.

"Together the two mills can give area farmers more choice. Already a second major feed line is being planned for the Barneveld mill. We will soon offer Master Mix plus the established Purina line."

Carr also foresees some capital improvements and building additions to the mill, which should also be of benefit to the farmers.

Carr believes that by being owner and manager in one, he can better serve the public, as Thoni has done for the past 22 years. "A guy who is just manager of such an organization may complain about being called by a farmer to help him with something or get him a product at 6:00 Saturday evening. But an owner takes a different perspective toward the matter. He has to be a 24-hour-a-day-fella."

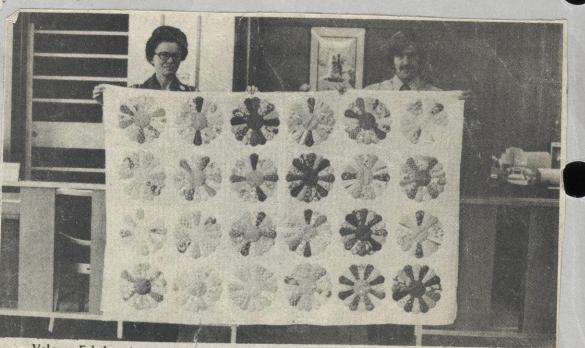

Thoni's main complaint in leaving the mill is "I will miss talking to the people." But Barneveld's greatest sports fan since tha late Anton S. Arneson will surely not be in hibernation.

Although the manager to customer relationship will no longer be present, the friendships that have devloped will remain intact forever.

Karlene Thoni helps out with operations at Thoni Feed and Fuel's 20th annual Chick Day, May 31, in Barneveld.

Valonne Eckel, assistant vice-president at the Barneveld State Bank, and Trygve Arneson, assistant cashier, hold up a hand-stitched quilt which will be given away at the Barneveld Woman's Club Auction Oct. 2 at 11:00 a.m. The quilt was made by Opal Smith, Viola, grandmother to Peggy Smith, Hollandale. All proceeds of the Oct. 2 auction iat the Barneveld Legion Hall will go toward emergency medical equipment for the community. The quilt is presently being displayed at the Barneveld State Bank.

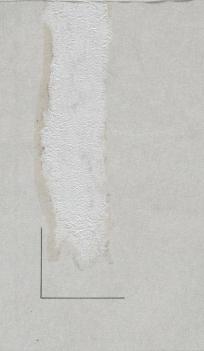

Truttmans open **Rocky Top Drive-in**

Gard Bunner LD-200

Awreath

Imprinted P They're engaged

Mr. and Mrs. Raymond Lease, Barneveld, announce the engagement of their daughter,

Thursday, July 12, 1973

Anne Marie to James Michael Massey, son of Mr. and Mrs. Allen Massey, also of Barneveld. Both are juniors at the University of Wisconsin, Madison, where Miss Lease is a home economic major; and her fiance is working toward a degree in journalism journalism. A 1974 wedding is planned.

Editors Note: The following account of how two former area men, Gail Smith and Leo Meicher, have found health and happiness in a Janesville shoe repair shop, was forwarded to the Mail by Mrs. Cornelius Fink. Both men grew up on farms in the Town of Cross Plains near Pine Bluff and Meicher recently joined Smith in the Janesville shoe business where

Gail had been operating for some years.

Gail says this is how it all began: A few months back a fellow by the name of Leo Meicher came to pay me a little visit at my shop. This visit began to go on and on and we got to talking about the good old neighborhood days gone by. I got to thinking what with all this visiting, customers will be coming and my work won't be done. So I says "what are you doing these days Leo?'

He says "I'm retired." That's when I said "pull off your jacket, roll up your sleeves and give me a hand. I used to help you get your silo and corn crib filled, etc

Leo said "I don't know how to fix shoes.

That's when Gail answered "I never have seen a farmer yet that couldn't fix anything if you give him a little binder twine or some

bailing wire. It isn't quite that simple but that's how we both got our start."

Gail recalls when he was a boy he used to like to go into the William Britt harness shop (where the post office is now) and just look over the many fine harnesses, bridles and saddles, etc.

"One thing that took my eye was a big western saddle, I have never seen any better since. I asked Wm. Britt at that time how much for the saddle. He said 'not for sale, I'm repairing it for a customer'

"He said it was one of the best. I guess that's when I first decided to like leather and a man can do wonders with it."

We will sign off by saying throw another stick of wood in the old wood stove and keep the home fires burning

As this is our way to send a warm hello to our relatives and neighbors and home town folks. Gail and Leo

Famed Mount Horeb Chiropractor C. S. Gonstead will celebrate a century of dedication at a public reception July 22 at the Gonstead Clinic of Chiropractic.

The reception, sponsored by the clinic staff, is open to all friends, patients and relatives who wish to help Mr. Gonstead mark 50 years in the practice of chiropractic and 50 years of marriage.

Gonstead's remarkable career took him from the cramped quarters of the old bank building where patients waited in the stairwell for treatment to the sumptuous Gonstead Clinic and

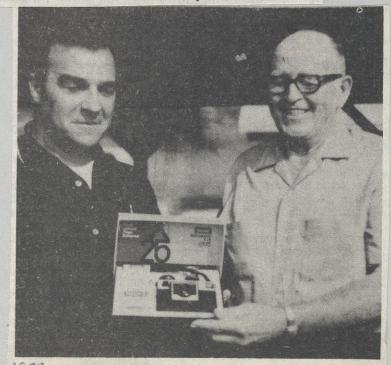

Karakahl Inn in 1964.

At the age of 75, Gonstead still puts in a busy 6-1/2 day week and since 1948 has held chiropractic seminars to teach his methods to young practitioners.

Gonstead

After a half-century of successful practice the internationally known chiropractor shows no signs of slowing down. "I have planned for 100 more rooms at the Karakahl, and 12 more at the Clinic including a second X-ray lab," he said.

The reception in his and Mrs. Gonstead's honor will be from 2-5:00 p.m. Sunday, July 22 in the Gonstead Clinic Main Reception Room. The public is invited.

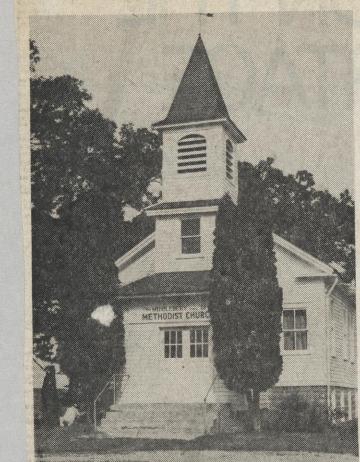

1973 Iowa County Sheriff, Bill Whitford, [left in photo], presented retired Dodgeville City Police Chief, Garfield Thomas, with a camera in behalf of the Iowa County Law Enforcement Association, last Sunday. The camera and a gift of money were presented at the Associations' annual family picnic at Birch Lake, which honored Garfield's retirement after many years on the Dodgeville force.

Tructure. On June 6, 1948, the church A cake large enough to serve at least 250 has been donated by ner. At 2 p.m. a recognition prony. The trees for the church were "hard-pressed for a preacher" and Dick Severson.

Middlebury Methodist Church Celebrates **125th Anniversary**

The Middlebury Methodist Church charmingly located on a wooded hill, rural Barneveld will celebrate its 125th Anniversary on Sunday, July 1, with a celebration fitting for the occasion. The small white framed structure was built in 1848. the same year that Wisconsin entered the Union.

History tells the story of early day settlers who came from Prince Edward Isle to locate in this vicinity. Most of the people who came were related "one way or another" according to an older member of the present day congregation. Noted names were Masseys, Theobalds, Powers, McKinseys, Williams, Strangs, Hayes and Campbells. In "God's Acre," the small cemetery adjoining the church yard, the

names on the tombstones authenticate its earliest members.

The name Middlebury came from a man by the name of Boardman, who moved here from a village of "Middlebury in Vermont." In years gone by "one of the Presidents of the United States visited here." A doctor Fredrick Byron Robinson practiced medicine and lived here. A large tombstone, with a bust of his likeness, attest to his fame as a doctor and as an author of several books.

When the cabins were built the early day settlers soon realized their needs for a school. A log structure was built for this purpose. Boardman was both a teacher and a minister. "He taught school during the week and preached to the settlers on Sunday.'

An Evangalist by the name of Jarvis came to help in a series of revivals. Many of the settlers were converted. Soon thereafter the church was built.

Sawing and hewning the walnut logs from nearby Walnut Hallow must have been a hardship to them, but with "pride and the love of god in their hearts" the church was built. The logs were hewed "almost square" according to a member of the church. One coat of plaster and blanks for seats in the interior marked its humble beginnings.

In 1867 carpenters were hired to rebuild the inside of the church. A new pulpit, new seats and shelves to hold the Bible and song books were built. About 60 youngsters attended Sunday school during these early days.

Other improvements were made as the years went by. In 1920 a new porch was added and the church roof was reshingled. In 1928 a need for a larger chruch was met by three ladies who

formed an aid society and solicited funds for the enlargement of the church.

This was in the form of a new addition to the front of the church, a vestibule and a full basement under the entire structure which "accomodated the congregation and the community needs."

On June 6, 1948 the church celebrated its 100th birthday. Since that time the interior of the church has been updated with paneling, the ceiling lowered and tiled. The basement was recently painted, new curtains made and the exterior is being painted this week.

Middlebury was served by the Primitive Methodist Conference until 1924 when it became part of the Methodist Episcopal Conference. According to older members the church has been "hard-pressed for a preacher" many times. "But we have many times. "But we have survived", said Thomas Strutt. This is perhaps due to an "unbroken line of pride" seen by this congregation throughout the years.

About seven years ago the church was almost "lost for want of a minister." Thomas L. Strutt was asked to fill the pulpit full time, as he had been doing lay-ministry part-time here, until such time that a minister could be obtained. Strutt said, "That was seven years ago . . . I guess they are still trying." An nteresting note of history

The Barneveld State Bank small this recently gave congregation a cash gift to defray the cost of the day. The check for \$125...one dollar for each year.

The church is located six miles south of Barneveld on county trunk K and then left at county trunk H for one half mile. Everyone is invited to attend.

Strutt's great-great grandfather Thomas Strutt was one of the early day ministers.

A cake large enough to serve at least 250 people has been donated by the Quality Bakery of Dodgeville. The cutting of the birthday cake will be one of the highlights on July 1st.

The birthday celebration will begin with 10 a.m. worship services followed by a potluck dinner. At 2 p.m. a recognition program will be held with Rev. Bernard Kassilke, District Superintendant as guest speaker. Rev. Strutt will also have a sermon. The history of the church will be read. Music will be provided by Jean and Elizabeth Massey and Dick Severson. The Middlebury church is located 6 miles south of Barne-

veld on County Trunk K, left on County H about a half mile.

INSIDE Ingleside

The residents at Ingleside enjoyed special music by Paul Hacker and ten students from the university in Madison Saturday, August 18. They sang folk songs with guitar accompaniment and stayed a while afterwards to visit.

We have two new residents at Ingleside. On Friday, August 17 Louis Kelly was transferred here from Iowa County Home. Mrs. Henrietta Laufenberg came to Ingleside on Saturday, August 25. She formerly resided with her husband near Mt. Horeb.

We wish to thank Ethel Skalet and Sandy Skamarak, for volunteering their time and talents in

leading the sing-a-long. The residents really enjoy and look forward to it. Residents having birthdays in September are: September 25, John Campbell; September 26,

Jessie Luder and Louis Kelly; and September 28, Emma Lee. On August 22 Mrs. Albert Steiner played gospel records for the residents. Thank you, they enjoyed

Two exercise groups have been started at Ingleside. They meet Monday, Wednesday and Friday, one group at 10 a.m. and the other at 3:30 p.m. The purpose of these groups are to promote good circulation, maintain and increase muscle strength and joint ranges, decrease stiffness, promote socialization and encourage independence. Those who attend regularly both enjoy and benefit, in

some way, from this time together. A beautiful blue spruce tree was received by Ingleside this past week through the Garden Club in memory of Henry H. Tinkham. The tree was given to Mrs. W. J. Schwenn as a table favor in a paper cup in 1958. It was presented at the Wisconsin State Convention of Wisconsin Federation of Garden Clubs held in Wisconsin Rapids.

A seed from near Silver Cliff, Colo., was planted by Jens Nursery Co., Wisconsin Rapids in 1955. It germinated in June of 1957, was an inch tall by fall of 1957 and four inches by fall of 1958. In 1963, when it was sixteen inches tall it was transplanted near the Schwenn garage at 212 S. 2nd St., Mt. Horeb. There it grew to its present height of near eight feet as it stands at the entrance of Ingleside. Thank you Mr. and Mrs. W. J. Schwenn

655 Years as a Mechanic,

Ingvald Boley with some of his antiques that he has collected over the years. Pictured is an old gasolene engine he found in a ditch. He worked on it until it was "purring". Other machines include another smaller gasolene engine and a digger and plow.

ARENA - - Planting trees, watching the seedlings mature is much like building a business. Both of which have been very ewarding to Ingvald Boley of ural Arena.

Boley began his career in mechanics at the age of 14 working

for the "best mechanic in New Glarus" at that time. After leaving New Glarus he spent the following 14 years in Dodgeville. First working as a mechanic in a garage that was located on the site of what became the Dodgeville Chronicle Office. Leaving this town in 1939 he

Leaving this town in 1939 he ibuilt his shop on the corner of Highway 14 and county trunk H, near Arena. He first made his home in Arena, but as he found himself spending more time in the shop - he built a small slab building near the shop and later additions of bedrooms, a bathroom and porches, made it the Boley home.

In the early years he had borrowed the money for building. He had 10 years to repay the loan. He said, "We had lots of sickness. I didn't know what to do. So, I just worked night and day. Never went to bed some nights. The loan was gaid back in seven years," he related proudly.

During the years he has sold machinery, had all kinds of parts for almost any machine, and could repair them as well. He did welding, and could build almost anything.

His inventory of parts and tools runs to several thousand dollars. And even today he has V-belts literally hanging from the ceiling. All the buildings he has built may look small--but inside all available room is put to use. He said, "I have plenty of space. And, everything is handy."

He has received awards for salesmanship during the years. A recent one was given to him by the Gates Rubber Company for detecting and replacing worn V-belts. He also received the mystery man award at that time. Buying acres of land and sell-

ing some during the years . . . and planting pine trees has kept him busy. Today he owns 3 acres of land with homes dotting the area which he rents. He said, "The best part is that it is all paid for. But, with all the work here. . . it is too much for me. I am ready to retire." Boley will be 73 in November.

His children Jeannette and Harland both live in Evansville. His wife died several years ago. In recent years he has "batched it". But he doesn't care for cooking. He remarked that he often goes out to eat. And since having operations, and not being able to lift like he once did he does have time for traveling. He said, "I like to go see what other places have to offer. I just like to look, though. I like Wisconsin best."

Surrounding his home and service station are the pines that were planted many years ago. They have grown tall and sturdy with the years. His business and home did equally as well. He said, "It takes a lot of work.

I have never been lazy." "Ingvald is a Norwegian name. 2 I am a full-blooded Norwegian at that," he said laughing.

WITHC

The Iowa County Fair moved into its final day today with the demolition derby the last event before the grandstand. Harness races highlighted the afternoon schedule. The fair, at Mineral Point, has two faces, the fun and entertainment portions, the work and judging portions. Carefully grooming her entry in the Shropshire lamb class, upper left, is Ann Komorek, 15, a member of the Bloomfield 4-H Club of Dodgeville. She gets an assist from her sister, Becky, 12. Lynn Thompson, 17, Barneve, obviously is very happy, above, after tak first place with her entry in the two-year-old milking class. She's a member of Mound View 4-H Club. bur Doescher. She is employed at Madison Optical Service. He is employed at General Beverage of Madison. There has been no wedding date set.

Ester Bawden - Proud to Be An Iowa County Farm Wife

Mrs. Esther Bawden, Arena, is a farm wife and proud of it. She and other farm wives will be honored during "Farm Wife Month." —Lewis photo

Take an idea to a busy farm wife. . . and the action starts. "Just because you live out on a farm. . . does not mean that you live out of the world," said Mrs. George Bawden, rural Arena homemaker and farm wife, at the annual fall council meeting of the Iowa County Homermakers. "Todays farm wife, is in the flow of everyday living."

The idea stems from Farm Wife News, a national publication that features articles "for farm women. . . from farm women", tht has designated Noember as National Farm Wife Month. Elaborate plans are being made for this "special month" being sponsored by the magazine. This includes an attempt to get Secretary of Agriculture Earl Butz to officially proclaim November as "National Farm Wife Month."

Mrs. Bawden is sold on farm a life... beng born and raised on a farm in Hyde and being a farm wife for more than 30 years in the community of Mill Creek. She has held "every office" in the many organizations she has been a part of. At the present she is the Educational Chairman of the Iowa County Homemaker's council, Vice President of the Iowa County FArm Bureau Woman's 'Organization and serves on the Library planning board for the new southwestern library district. She has been a project leader for many years in their local 4-H club and was the sponsor and promoter in getting the Bookmobile stopping in Arena. She has long been active in the Arna Bible Church and the Mill Creek Homemakers Club. Her hobby-business - last year sewing over 70 garments for others as well as doing her own

family sewing. She commented, "How do you live without a sewing machine?" Thus, anyone wanting to learn or to sew a particular item has found her a willing teacher. Besides these activities she is

Besides these activities she is "housewife, mother, bookkeeper, lawn mower, milk maid and gardner plus a few others in being a farm wife." She said, "I really couldn't put in order which is most important. Anything important to you is a job worth doing."

Mrs. Bawden's front yard garden (she has two gardens) is known for "being surrounded by Zinnias in a show of a wide range

of colors." She keeps the seeds each fall, replanting each spring. She commented, "One advantage of having a garden in the front yard. . . you alway keep it looking nice."

yard. . . you alway keep it looking nice." They have 351 acres on their farm of "three generations of Bawden's being born here." Before her marriage Mrs. Bawden was a rural school teacher for a period of five years. She said, "I graduated from high school at age 16 - took one year of county normal and became a school teacher."

She related that over the years she had sometimes entertained the idea of higher education -"but I was a partner in agriculture here. . . and too important to leave." she said smiling. Explaining that she knew "almost all there was to know about their business."

Mrs. Bawden admitted to not being able to do their DHIA testing alone - "I don't know the names of all the cows." she said.

Farming she related is a complicated business. "You are your own business manager - do the best you can and you make the best of it." The one ingredient important to her in "making farm life easier" is a husband who does not get flustered by the ups and downs of farm living.

Reflecting on the years she said, "Settling down to being a farm wife has given me deep roots in this community. I would never want to leave."

Farm life here included "a community where people are interested in you and you in them."

Their three children, Margaret Ann, married and is a teacher, David, a 3rd year medical student and Sarah, a freshman at the UW, have made their way.

Services held for Cornelius Fink, 70

Cornelius Fink, 70, Mt. Horeb, passed away Monday (Feb. 25, 1974) at St. Clare Hospital, Monroe, after a long illness. Mr. Fink was born January 19, 1904, in Germany, and came to the United States in April, 1928. His parents were the late Mr. and Mrs. Henry Fink.

On March 29, 1932, he was married to the former Gladys Smith. He was a cheesemaker in various cheese factories, including, Pine Ridge, River Bend, Argyle, Mineral Point, Monticello, South Blue Mounds, and Ryser Bros. of Mt. Horeb. He also farmed on the Brigham farm for several years. Mr. Fink was a member of Perry Lutheran Church. Surviving besides his wife are six sons, Dr. Walter, Rockford, Ill; Merlyn, Blue Mounds; Cornelius, Jr., Lyle, Emery and Hugo, Mt. Horeb; two daughters, Mrs. Darlene Diehm, Barneveld; Mrs. Ruth Pemble, Milwaukee; a brother, Henry, Niedersonthofen, Germany; 25 grandchildren; and two greatgrandchildren.

Funeral services were held at 1 p.m. Wednesday, Feb. 27 in Perry Lutheran Church with the Rev. Richard Halom officiating. Interment was in Sunset Memory Garden, Madison.

Mrs. Bawden said, "I am sure they wouldn't have done better.. if their parent's had been anything other than farmers."

Being proud of being a farm wife it was a natural response to help Farm Wife News spread the word that "We salute Farm Wives. . . proud partners in Agriculture" said Mrs. Bawden. (The theme chosen for Natonal Farm Wife Month).

(The theme chosen for Natonal Farm Wife Month). P'lans for Iowa County include "features about farm women, urging radio station WDMP to interview selected farm wives during the month of November regarding their roles in their farm communities. Program chairmen of county Homemakers clubs should plan to include something special for their November meeting to raise public awareness of the role she has in our society and as a partner to her husband in the industry that feeds the world."

Also, a resolution by the Iowa County Homemakers and other supportive groups to petition the Iowa County Board to officially announce the month of November as "Iowa County Farm Wife Month."

Month." Mrs. Bawden urged Iowa County farm wives to get on the "farm wagon" and play a tune that is long over due..."time that farm women were given recognition for their contributions to agriculture." (More details will be reported as the action happens).

As Mrs. Bawden was being interviewed the phone rang -

"could she make the drapes for the church dining room? by the October Missionary meeting." She commented "Right at this moment I don't know where I'll find the time... but I will. Doing work for the Lord is just part of my life."

She commented, "I decided a long time ago to make use of mv life in these ways. And, I have never been sorry." **Announce Engagement**

Mr. and Mrs. Thane Myers of Barneveld and Mr. and Mrs. Paul Hanson, Jefferson, Wisc., announce the engagement and approaching marriage of their chidren Donna and Michael.

The marriage will be solemnized Oct. 27 at St. Bridgets Church, Ridgeway.

Karen Bogenschneider

Barneveld Youth Rated Top Catcher

Barneveld's Tony Kirch, 12, was honored recently by being named the No. 1 catcher in the 12 and under division of the "Stars of Tomorrow Baseball Tournament" held in LaCrosse.

Kirch, son of Mr. and Mrs. Art Kirch, was cited for his play on Barneveld's midget team in the 86 team tournament. He is one of twenty players named to the all-star squad.

Kirch was spotted by tournament officials in Barneveld's second game of the tourney. With a 13-0 win over Buffalo City under their belts, Barneveld was to face a LaCrosse squad in their second game.

In that game, which saw Barneveld fall 4-2 and face elimination, Kirch gunned down three runners attempting to steal second base, picked two runners off of third base, and made numerous catches on difficult chances behind the plate.

Kirch is the first Barneveld player to be so honored in the ten appearances Barneveld squad have made at the tourney.

have made at the tourney. Both Barneveld's Little League and Midget teams suffered their only losses of the season at the tournament. The Bob Seyffer coached teams are both undefeated in league play.

reeway opponents fight for rural dream home near Barneveld

by Doleta Chapru

An unwelcome surveyor's stake signals the end of a dream for Ronald and Eileen Arndt. The new 18-151 freeway will take half of their three acres of land situated between Barneveld and Ridgeway.

Ron and Eileen will lose their and apple orchard that just to bear last year. Their much-needed garden will have to be moved to a tiny portion of land surrounding the house.

"But worst of all, Ron will have to give up his horses. That was our main reason for moving to a place like this," said Eileen.

Several people have stopped to photograph the small, story-book horse barn that Ron built two years ago. The Arndt children, Vivienne, 13; Vonee, 12; and Ronee, 9, enjoy the lovely acreage. There is lots of room for riding horses and for playing volleyball. Near the garden is a two-story, ramshackle hide-out the children built from scrap lumber. Even that will fall to the bulldozer.

Vivienne, Vonee and Ronee are concerned about their family's

The Arndt Homestead: A Freeway runs through the middle of the dream?

future. One said, "I wish we had a million dollars so we could buy a farm for Dad."

Ron and Eileen worked hard to buy their country home. Besides being a mother and housekeeper, Eileen is a bookkeeper at the Barneveld school. Ron worked for several years as a herdsman and is now a farm implement mechanic.

The Arndts planned to expand their two-bedroom home this year but decided against it because of the freeway. They purchased their home in 1969, one month before the first freeway hearing was held. "We had no idea a freeway was being built," said Eileen. "Even when we attended the hearings we didn't realize how badly it would cut our land."

The present highway 18-151 runs just south of Arndt's house. Their garden and horse pasture are bordered on the north by a strip of field and the C & NW railroad. Now a third transportation corridor, the freeway, will devour the land parallel to the railroad leaving the house squeezed between two highways.

Both roads will be in use. The old road will handle the local traffic that does not have access to the freeway. The freeway will attract high-speed, long-distance vehicles.

high-speed, long-distance vehicles. The Arndts are not looking forward to the constant noise of heavy trucks just outside their bedroom windows. They don't want more carbon monoxide in the air they breathe.

"Salt run-off from freeways has damaged agricultural land in the southeast part of the state. We hope it won't ruin what little soil we have left," said Eileen.

The Arndts do not plan to relocate. "We have no choice but to stay here. We aren't in a position to sell. Even if we could, no one would want to buy such undesireable property."

A double blow will be dealt the Arndts if their taxes increase as a result of the freeway. Local property owners will have to help maintain the old highway when it becomes a county trunk. They will also have to compensate for the dropped from the Iowa and Dane County tax rolls when it is used for the freeway.

Both Ron and Eileen are active in a citizens' group that favors a four-lane expressway built on the present route. "Our place would still be hurt by an expressway," said Eileen, "but people wouldn't lose so much good agricultural land."

She feels the highway department has had little concern for the people along the corridor. "They want to build the ultimate road. They're in the business of building roads."

Ron and Eileen now await the offer of a price for their land. They expect it to be low.

"There is no way the highway department could pay us enough for our land. It is priceless. This was to be our home for life."

CARD OF THANKS

We wish to sincerely thank the Barneveld Fire Department and all those who helped in any way at our house fire. Thank you again!—Esther and Clarence Lenherr. 1c

Nancy Roberts was among 200 students who attended the 'ri-State Cooperative Educational Institute at the University of Visconsin--Platteville recently. She was sponsored by Quad County 'ooperative, Barneveld. 1973

Myers-Hanson Wedding

Donna Lea Myers, daughter of the Thane Myers, Barneveld, and Michael Allan Hanson, son of the Paul Hansons of Jefferson were united in marriage October 27 at 1 p.m. at St. Bridgets Church in Ridgeway. Rev. Laurence R. Heitke performed the double ring

ceremony. Donna was attended by Mrs. Jeanne Smith of St. Louis, Missouri, sister of the bride. Bridesmaids were Mrs. Kathy Hock, Miss Connie Van Schoyck, Miss Sue Rindahl, Mrs. Linda Quarne, friend of the bride, and Miss Hanson, sister of the Diane groom.

The groom was attended by William Ensgberg, friend of the groom, Jim Myers, brother of bride, Larry Quarm, Gary John-son, Allen Holzopfel, friends of the groom, and Brad Smith, bro-ther-in-law of the bride.

Kevin Myers, cousin of bride, served as ring bearer. Lisa Myers and Anita Myers were the flower girls. Both are cousins of the bride.

Ushers were Larry Myers, uncle of the bride, Dave Gilbert-son, cousin of the bride, and Vernon Duchert and Phillip Geiger, friends of the groom.

The bride is presently employed as a Physical Education teacher in the J.F. Luther Jr. High School, Fort Atkinson, Wis. The groom is employed with

Andersons Construction, Lake Mills.

The newlyweds will establish a home in Fort Atkinson.

Mrs. Harvey Theobald

Mrs. Harvey Theobald, 92, formerly of rural Barneveld died Tuesday (Apr. 24, 1973) in a Verona nursing home after a long illness.

The former Margaret Strang was a long-time rural Barneveld resident. Her husband died several years ago.

She was a member of the Middlebury Church, Barneveld, and the Royal Neighbors.

Surviving areason, Max, Barneveld, a daughter, Mrs. Leslie Schwoegler, Madison, a sister, Mrs. Mildred Peterson, Lodi, three grandchildren; and seven great-grandchildren.

The funeral was held at 2 p.m. Saturday in the church. The Ayers Funeral Home, Ridgeway, was in charge of service.

Karen Arneson, daughter of Mr. and Mrs. Carl Arneson, has been named Valedictorian of Barneveld High School, 1973. Miss Arneson was co-editor of the Annual and has been involved in band, girl's athletics, forensics, the Junior and Senior class plays, and the National Honor Society.

She is the accompanist for the high school chorus and the organist at the Barneveld Lutheran Church. Miss Arneson will be attending St. Olaf College in Minnesota in the fall.

Kathy Arneson

Kathy Arneson, the saluta-torian, is the daughter of Mr. and Mrs. William Arneson. She will attend the University of Wisconsin at Madison in the fall.

She is president of the Student Council, many extra-curricular activites, annual staff and the National Honor Society.

Amaranth to Install

All members of Masonic and affiliated bodies, their families, and friends are invited to the installation ceremony of Madison Court, Order of Amaranth, Saturday at 7 p.m. at the Masonic Temple.

Mrs. Aleta Watkins will be installed as royal matron, and Norman Gabriel, as royal patron. A reception will be held in the banquet room. Oct 73

S. Campbell, 73, died Saturday (May 12, 1973) in a hospital after a brief illness.

Violet Stenseth, a lifelong Barneveld area resident, was married to Archibald G. Campbell, who died in 1963.

She was a member of United Church of Christ, the Women's Fellowship, Rebekah Lodge, American Legion Auxiliary, and the Royal Neighbors.

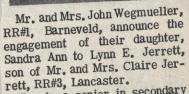

The funeral will be at 11 a.m. Tuesday in the church. Friends may call from 6 to 9 tonight at the Ayers Funeral Home, R i d g e w a y. The family suggested that memorials be made to the American Cancer Society.

Surviving in the Madison area is a sister, Mrs. Marie Wenzlaff, 5718 Elder Pl.; and a brother, Quinten, Verona.

Also surviving are two sons, George A., Santa Barbara, Calif.; and James S., Palos Verde, Calif.; a sister, Mrs. Marguerite Paulson, Campbell, Calif.; 12 grandchildren; and five great-grandchildren.

Announce Engagement

She is a senior in secondary education majoring in English and Speech and minoring in Library Science. He is a graduating senior majoring in agricultural mechinization and minoring in agricultural technology. Both attend Platteville.

There are no wedding plans at this time.

BARNEVELD - Mr. and Mrs. Robert Jabs announce the engagement of their daughter, Barbara Elizabeth, to Douglas James Malliet, son of Mr. and Mrs. James Malliet, Verona.

A graduate of Madison Area Technical College, she is a data entry operator for Management Data Systems. He studies land surveying at the college, and is employed at Coyle, Inc., Madison.

The wedding will be June 1 at St. Bernard's Catholic Church. Middleton.

GRADUATION DAY - Friday will be a proud day for the Harold Zander family, shown here, when Mrs. Zander receives a bachelor of science

degree at UW-Platteville. Sharing her joy are (from left) June, 15; Jeff, 12; Joel, 10; Justin, 8; Jerry, 13; Jean, 16; and Jonathan, 9, (kneeling).

Seated on the tractor are Jan, 7, Harold Zander, at the wheel, and Jim, 17. -State Journal Photo by Mark Perlstein

Goes to College Mother o

By ROGER A. GRIBBLE Of The State Journal Staff

BARNEVELD - Eighteen years ago Mrs. Harold Zander dropped out of high school while still a junior, got married, and settled down to raise a family.

She figured her formal schooling had ended. Even a high school diploma seemed out of reach.

BUT NOW, nine children and a lot of hard work later, Mrs. Zander has completed a four-vear course at UW-Platteville. What's more, she did it in three years by going to summer school.

For her, commencement exercises Friday when she will receive a bachelor of science degree in elementary education will be "one of those dream things."

Just for good measure, Mrs. Zander taught vocational school sewing and knitting course while going to college, sewed dresses for many weddings, and most of the clothes worn by her husband, seven sons, and two daughters.

HER TWO daughters, Jean, 16, and June, 15, helped out with much of the housework in the 20-room farm home, and everybody pitched in to help with haying and chores around the 200-acre dairy farm, her husband recalled.

Mrs. Zander's decision to resume her education four years ago came almost by accident. She remembered that she went to sign up for a vocational school sewing course when the woman in line next to her asked if she'd be teaching it.

"I answered that I don't even have a high school diploma," she said. "The Barneveld high school principal then asked me if I'd like to teach the course. He asked

me if I was qualified for a diploma. I said I didn't know. He said, 'I think you are.' "

MRS. ZANDER said she told the principal she could not return to finish high school for at least another year because she still had a child who was a pre-schooler. He suggested she take the high school equivalency test to qualify for a diploma.

She took the test, passed it, and soon also took a college entrance test and passed it. 'I had always wanted to be a teacher," she noted, "especially after the year of teaching the sewing course at night."

Going to UW-Platteville meant driving 50 miles each way every day, a trip sometimes made impossible by snow-packed roads, she recalled.

STUDYING AT home was

almost impossible, she said, so she did much of it between classes. "Many nights the kids had supper on the table when I got home," she added.

"There are many things they learned how to do that they wouldn't have had I not been in school," she observed. "But I don't think there's another mother in Barneveld who chaperoned as many high school events as I did.

She made close friends with several fellow students at Platteville, she said, adding The kids were really great. They went out of their way to help you when you had a problem. I could sit at the union and talk with them at any time.

"I DON'T really think there's a generation gap, although maybe the kids here at home would say it differ-ently," she said. At home she also got help with some of herstudying from her eldest son,

Jim, who will be a freshman this fall at Platteville.

Jean confessed "I'm glad mother's finishing up. She'll be around more now. Now I won't have to do that much."

Her husband admits that he had some reservations at first about his wife going to college "but she got me talked out of them." Now, he says he's used to the changed family routine since his wife went off to school.

MRS. ZANDER hopes to find a teaching job this fall, but noted that such jobs are hard to find for summer graduates. She figures that after the first year on the job it should take less time than being a student.

The family borrowed some money to finance her education, she said, "but I feel it will pay off. That education is something no one can ever take away."

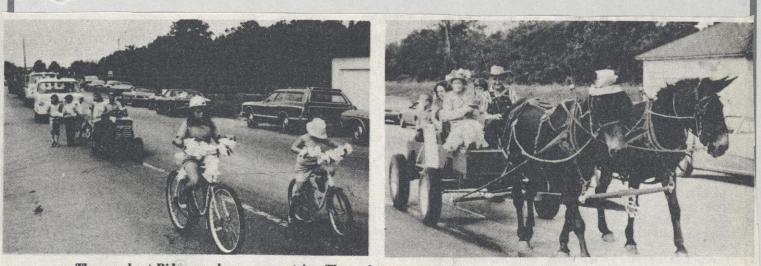

Labor Day Sept. 3, 1973

No celebration is complete at Ridgeway unless the Ridgeway Ghost is present. Here, he, she, or it moves along the purade route, as if it was the guest of honor.

Pony rides proved popular at Ridgeway Sunday at its Homecoming Festival.

The parade at Ridgeway drew many entries. These photos were snapped as the parade went along its route.

This tractor pull took place before a large crowd at Ridgeway as the community held its Labor Day and Homecoming Festival Sunday.

This Volkswagen belongs to Tom Osborn, Barneveld, and was involved in a 2-car collision last week. Osborn was injured in the accident.

Three people were injured in this car last week. The car was involved in a collision with a Volkswagen driven by Tom Osborn, Barneveld.

An October 13 accident at 9:55 a.m. on US 18-151 near Barneveld saw four persons injured in a two-car crash. A car driven by Thomas R. Osborn, 18, 304 N. Grove St. Barneveld, pulled from a group of mail boxes, and crossed the highway directly in

front of a car driven by John B. Johnson, 77, Waterloo, Iowa. Osborn was charged with failure to yield while making a left turn.

Injured in the crash were Myrtle Louie, 63, Charles Louie, 61, and Alice Benzine, 72, who were passengers in the Johnson car. They were treated at a Dodgeville hospital for abrasions.

Osborn was also treated for head injuries at a Dodgeville hospital. A fence on the Harold Thomas farm was damaged in the wreck.

County Squad Car Involved In City Accident Last Week

Fuel Shortage Won't Affect Vacations Taken Locally

Thinking of taking a vacation, but worry about the "gas shortage"? Perhaps this is the year to vacation at home. What is there in Iowa County for visitors from home or far away to see and do?

Recently, members of the Iowa County Recreation Assn. conducted a tour to answer this question. (more information can be obtained from members) The group assembled at the Governor Dodge Gift Shop on Highway 23. Here they found gifts, souvenirs, a variety of Indian items and a snack counter are offered. Owned by the same family is the Doby Stables, where one can "travel the trails" for a half hour around their 180 acre farm or for two hours through Governor Dodge State Park, with a guide.

Heading down 23 with sidetrips along the way one will find Boulder View, a camping area where one can be "real rustic" leaving your car below and heading into the hills and woods. They also offer swimming in a man-made pond and more convenient camping grounds.

The Woodshed features an-tiques. The owner said that he buys most of his items local, and has been in business for 17 years.

Spring Valley Trails offers "al-most everything" in the line of camping, recreation and groups needing overnight space. It offers both winter and summertime activities--swimming, camping, a recreation building with a fireplace and "lots of warm southern hospitality".

The House on the Rock--a beautiful situation on a tree covered hill, that is so fantastic that one has to see it to believe it. The workmanship in construction must truly be "out of this world".

The Outhouse -- so named be-

bathroom accessories, but now has many interesting items.

Apple Hill--where imports are numerous, but also many local crafts are sold here as an outlet for local craftsman. They also have a restaurant, in the hayloft. (Apple Hill was once a barn.) The Wild Daisy Gift Studioexquisite gifts in a unique set-

ting is found here. The Winsted Shop (entering Spring Green) its strongest point being books. By Wisconsin authors and about its people. Wisconsin Turning off Highway 14 onto county trunk H a stop was made

cause at first it featured only at the Ski-Timberline which features skiing and snowmobiling in winter.

Turning onto HH the group headed toward Barneveld. The rolling hills and wooded areas added natural beauty. Stopping at Barneveld to see the "tulips from Holland" and to hear the

story of their arrival in the town was another place of interest.

The Hidden Valley sports area (off highway 18-151) offers trails of scenic hills, valleys and wildlife. A snack bar and a warming area for wintertime activities as well are seen here. Camping is available and for those wanting to see a "farmer in action" this is the spot. Canyon Park, the oldest camp-

ing area in Iowa County is a setting of beautiful canyons, hills, rocks, plant and wildlife. It also has a huge shelter suitable for family reunions, etc.

Hideaway Acres, where ex-cellent meals are served by reservation. Camping and trail rid-ing or lessons in riding are featured. Also, a stage where many activities are seen throughout the year. (Owners invite 4-H groups to perform - singing or skits here).

On to Mineral Point and the Cornish restoration of many of the buildings in the town. The history learned in this area is fascinating, as many local people tell of the days of the Cornish miners. Pendarvis is nationally famous and still growing.

Bennett Trailer Camp--geared for trailers or for campers with equipment where dumping facilities, etc. are needed. The owner of this place said that his place is for those who want to be in the mainstream. . . ready for action and places to go.

This concluded the group tour, but such places as Governor Dodge State Park, Tower Hill State Park, Blue Mounds State Park, Frank Lloyd Wright's grave, Birch Lake, Little Norway and many, many others are in and around Iowa County.

Everett Olson, Iowa County re-source agent said that the tourist information booths are well stocked with brochures which can be obtained by everyone . . . to see Iowa County, Blackhawk country and surrounding areas.

Dan Evans, spokesman for the group, said that the trip was "one of enjoyment and very informative".

From the Chamber president ... by Lee Vogel

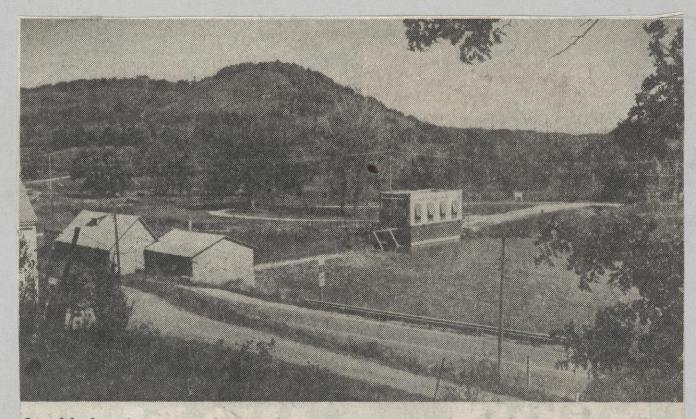

Thurs May 17, 1973.

Barneveld gives you a nice feeling when you pass along the thousands of Dutch tulips welcoming each visitor.

Plant 'Sprouts' a New Park

An old electric power plant makes a new park for the residents of Gays Mills.

-State Journal Photo By L. Roger Turner

By RICHARD W. JAEGER Of The State Journal Staff GAYS MILLS — The folks in this small Crawford County

Arms fullo whether house.

When the Wisconsin Power and Light Co. took over the old power plant here from Interstate Power Co. in 1954, and was about to remove it and blow up the nearby dam, residents of Gays Mills turned out to save the place.

THE PLANT, dam, several storage buildings, and seven acres of land at the plant site were then sold to the village for \$1 by the power company.

While the old dam has been a favorite fishing spot for area anglers for many years, that wasn't the main reason for wanting to save the site.

"Gays Mills would not be the same without a dam," said Mrs. Leita Slayton, one of the prime movers in saving the dam and generating plant building.

MRS. SLAYTON, a longtime village resident, quickly pointed out how the village got its name because of a dam on that particular site along the winding Kickapoo River.

In 1884 Thomas Gay, along with John, Samuel, and James Robb, operated a flour mill on the river across from the present power plant site, thus resulting in the name, "Gays Mills."

An early account described the mill as a 30-by 40-foot frame structure with two stone runs with a six-foot fall. The building was later expanded to three stories.

THE MILL was torn down and the power plant was built in 1925 to provide electricity to the growing village.

While the village may have been named after the Gays, the Robb family is now being recognized in the name of the new park — Robb Park.

Many groups and government units have been involved in the development of the park, but the Wednesday Literary Club, a local women's group, can take much of the credit for moving it along.

"WE HAD the grass mowed, fences removed, and the area opened to the public the first year after it was bought by the village," Mrs. Slayton, a member of the Literary Club, said.

Mrs. Luke Sherwood, who was president of the club during the park's early development, noted how the club used \$300 it had won to "begin real planning of the park."

Steve Picus, an architect who worked on the design of the new park, pointed out that to make full use of the site, it was decided to use the old plant building.

THE FLOOR of the plant was filled in where generators once sat, and a redwood deck was added to the outside along with wooden awnings.

Roads were built throughout the park, toilets and fresh water were added, and camper dumping stations were installed.

Wayne McCullick, village board member, said that the land, plant, and dam were turned over to the county to obtain federal and state funds for development. Some \$14,000 is expected to be spent on the park.

SUCH ADDITIONS as a canoe ramp and trees yet to be completed. "We also hope to provide electrical outlets for campers, and maybe a fireplace in the shelter," Mrs. Slayton added.

While the park has had as many as 35 campers in one weekend, it is still a favorite fishing spot for local anglers, all who have replaced the humming generators in the old power plant with thehum of human activity.

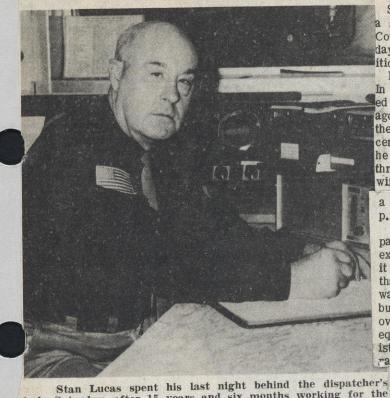

Members of the R. T. Stonestreet family of Dodgeville were one of several who canvassed the neighborhood in Dodgeville to get donations for the Cerebral Palsy telethon. Pictured are Bobby, Cathy, Joe, and Jim.

Iowa County sheriff Bill Whitford made several remarks concerning Stan Lucas' years of service at a retirement party for Lucas last weekend. Stan and his wife, Shirley, are seated at Whitford's right. Lucas served the county sheriff's department as a dispatch operator for many years.

Dispatcher Stan Lucas Retires, "Hangs up Pencil"

Stan Lucas, 15, and a half years a sheriff's dispatcher for Iowa County, "hung up his pencil" Sunday morning, and retired his position.

Maybe now he'll get some sleep. In all those years, he has worked the "graveyard shift." Years ago, it was 9 p.m. to 5 a.m. then 10 to 6 a.m. and most recently, 11 to 7 a.m. In addition, he has held a daytime job throughout the years. Said his wife, Shirley, "he usually catches

a little sleep between 6 and 10:30 p.m."

His dispatch job started as a part-time endeavor, for a little extra money and hobby work but it soon developed into more than that. The sheriff's department was changed from the courthouse building to the north end, and over the years, the dispatch equipment became more sophisticated. Now, there is high band radio equipment.

"The toughest part of his job,

THURSDAY, APRIL 5, 1973

which also includes the task of jailer, is taking care of unruly drunks," Stan said. But, I can remember difficulties when the telephone line was red hot many times back in the time when we had only one phone and one radio. Like the time when there was a hayride down by the Spring Green bridge, and a fellow ran into the back end of the wagon. Three were killed and several injured. The phone never stopped ringing."

Another time he recalled, was in May of 1958, when an airplane crashed. "It wasn't found until August in a woods north of Ridgeway. They were out of state people going home down to Iowa." Stan remembered.

He ended his job appropriately by sending a teletype to the Dane County Sheriff's Patrol, State Communications and the State Patrol. It stated..... To all desk personnel and cars this area. Friends.....Be advised that 4/1/73

I will retire from this desk as dispatcher. After 15 years and 6 months I am going to hang up my pencil. It has been a pleasure to work with you folks over the past years. I sure will miss all of you folks when that day comes. Well, good-bye and farewell.....Your friend in the west end....Stan Lucas, Iowa County Sheriff's department, Dodgeville.

He received the following reply... "Big Dick", one of the midnite dispatchers with the Wisconsin State Patrol.... "Stan sorry to see you hang up your pencil. I will miss your cheerful and happy voice on the points. Enjoy your retirement Stan I will look you up and have a cup of coffee with you."

John Gardner, Mineral Point, who has worked part-time as a dispatcher, will now take over full time in the ll to 7 a.m. shift.

Also joining the force as a patrolman is Nick Basting, Mineral Point, who is taking the place of Charles Sleeter, who has accepted a position with the Wood County Sheriff's Department.

Hugo Nye

desk, Saturday, after 15 years and six months working for the Towa County Sheriff's department. Iowa Co. Sheriff's Assoc. 1973 Presented Boys Ranch Plaque

Sheriff William Whitford, left, and Deputy Stonestreet, hold the plaque presented to the Iowa County Sheriff's and Deputy Sheriff's Association by the Rawhide Boys Ranch director, John Gillespie, for contributions to the ranch.

Rawhide Boys Ranch Director John Gillespie presented Iowa County Sheriff, Bill Whitford, with a wall plaque at the Wisconsin Sheriff's and Deputy Sheriff's Association summer conference held at Telemark Lodge in Cable

July 17-19. The WSDSA, of which Sheriff Whitford is a member, is a prime supporter of Rawhide Boys Ranch, New London. The ranch is a rehabilitation and leadership training facility for disadvantaged boys.

Early in 1973, the WSDSA presented a check for \$8,000 to the Ranch and pledged another \$8,000 support for 1974. The money is being used to build a toilet and bath house. The Association also sponsors disadvantaged boys to the Rawhide Ranch, eleven this year.

The inscription on the plaque reads: "Presented to the men

of the Iowa County Sheriffs' and Deputy Sheriffs' Association with grateful appreciation for your interest in youth through support of Rawhide Boys Ranch, 1973. The authentic Rawhide brand

The authentic Rawhide brand decorates the handsome driftwood background on which the plaque is mounted. The 72 plaques (one was presented to each county sheriff's department) were made by boys committed to the Ranch by the courts.

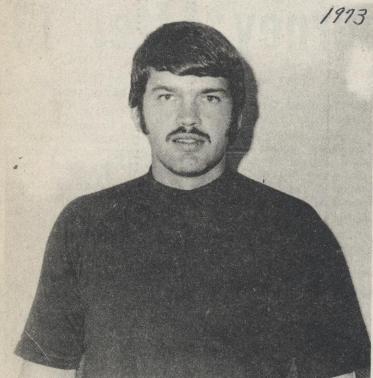

Hugo Nye, 56, Route 1, Dodge-ville, died Saturday, Sept. 29, 1973 in a Dodgeville hospital after a brief illness. Mr. Nye was born in Dodgeville on Sept. 30, 1916. He was married in 1950 to the former Lillian Maso and was the owner of the Dodgeville Electric Service. Not only an electrician but he served Iowa County as a Deputy for over 30 years. He was a member of the Dodgeville United Methodist Church; National Sheriff & Deputy Association; Wisconsin Sheriff and Deputy Association and served as the Secretary and Treasurer of the Iowa County Law Enforcements Association for many years.

He is survived by his wife, Lillian; 1 son, Charles at home; a stepson, Leland Maso, Dodgeville and 1 granddaughter, Brenda Maso.

Funeral services were held Tuesday, Oct. 2, 1973 at 1:30 p.m. in the Dodgeville United Methodist Church. Rev. Billy Bross officiated and burial was in East Side Cemetery, Dodgeville. A visitation was held on Monday afternoon and evening at the Lulloff-Peterson Funeral Home.

Bud Johnson is New Barneveld Grid Coach

by Jim Massey

Barneveld's football fortunes will be controlled by a new face at Barneveld in the past seven this fall, 26 year old Bud Johnson.

Johnson, a graduate of the Uni-versity of Wisconsin - LaCrosse, comes to Barneveld from Almond, Wis., where he served for a year as head track and football coach. His football team compiled a record of 2-6 during the 1972 season.

Along with his coaching duties at Barneveld, Johnson will also be a teacher in the physical education department.

Johnson is married and has two children.

The assistant again this season will be Carl Mook, who held that post last season besides being head wrestling coach.

Johnson cites that his goal for his first year at Barneveld is to "build good basic offensive and defensive squads, and to teach them to execute properly."

When the problem of player size on his new team was mentioned, Johnson quipped, "That doesn't bother me. I'd rather work with a quick and agile 150-165 pounder than a slow 200 pounder."

Practice will begin August 13, and prospects are asked to get physical examinations on their own before that time.

Johnson will be the fifth coach years.

Mr. and Mrs. Stan Lucas, 313 West Merrimac, Dodgeville, will be celebrating their 35th wedding anniversary with open house at The Thym's from 2:00 to 5:00 on October 7.

Stan Lucas and the former Shirley Schoenmann of Spring Green were married on October 3, 1938 at St. Joseph's Catholic Church by Father Homer McGuire. The Lucas' have two sons, John at home, and James, who lives in Superior, Arizona with his wife Yolande.

No formal invitations are being sent. Friends and relatives are welcome.

John will also be celebrating his birthday on October 3 and Jim's will be October 22.

Tom Klusendorf, owner of Klusendorf Chevrolet-Buick Co., of Dodgeville, is guest of County Resource Agent Everett Olsen at 4:30 next Monday Afternoon, July 2 over WDMP. In addition to discussing the new and used car business, Tom will talk about the 1974 models and what the public can expect in future car models.

Barneveld Cage Coach Takes Marshall Post

BARNEVELD--Bob Seyffer, former head basketball and track coach at Barneveld High School, announced this week he has accepted the head basketball and track positions at Marshall High School,

Seyffer also was summer recreation at Barneveld and coached the little league baseball team to three undefeated years in Iowa County Little League play. He also managed the Barneveld Home Talent baseball team the past two years after helping reactivate the franchise and get it financially solvent.

Besides his coaching duties at Marshall, Seyffer will be halftime elementary teacher and halftime elementary principal inkindergarten through eighth grade. In basketball, he will be assisted by Owen Raisbeck, a former student of his at Barneveld.

Seyffer is a native of Pepin, Wisconsin. He taught for two years at Princeton and spent the last eight years at Barneveld.

Seyffer and his wife Sandra and son Robert Harold, 1 1/2, will be moving to Marshall in the near future. School starts there August 23.

The Mount Vernon Team lost its crown to Barneveld and finished just ahead of the Mount Vernon Junior team. Maybe the "sires" had too much October Fest music or something Saturday night.

Sunday I attended my first and last greased pig contest. The sight of a bewildered, frightened animal terrorized and brutalized by a mob is more barbarism than I care to witness. I spoke to one person who didn't attend the Mount Vernon festivities Sunday because she didn't want her kids exposed to the replusive Sunday because she didn't want her kids exposed to the replusive spectacle. She is a tug-o-war fan and was sorry to have missed the grand show the tuggers put on. We know the Mount Vernon Community to be an enthusiastic and imaginative crew and hope that future October Fests will substitute something a bit more

substitute something a bit more wholesome.

This cowboy-booted little rustler bulldogged his quary during the great Mount Vernon Chicken Roundup that capped October Fest Sunday.

As the court of honor looks on, Barneveld Fair Day king crowns queen Peggy Ryan. The coronation was one of the high points of the annual celebration.

School Fail

Stanley Otto, Sr., head of the tractor pull at Barneveld's Fair Day, bestowed the first place award on Charles Humphrey's Oliver 88 as it won the 5500 lb. class. Humphrey then added more weight and took second in the 7500 lb. class.

DODGEVILLE CHRONICLE THURSDAY, OCT. 11, 1973

The tractor pulling contest results from the Barneveld Fair Day event are as follows:

Garden tractors: 1. Charles Aeschliman, Barneveld, Case; 2. Greg Burreson, Barneveld, Case; 3. Harold Anderson, Barneveld, Case.

5500 lb. class: 1. Charles Humphrey, Jr., Barneveld, Oli-ver 88; 2. Dennis Presbrotten, Hollandale, Wards; 3. Tom Arneson, Barneveld, Massey Harris 44.

44. 7500 lb. class: 1. Kenny Kub-ley, Monroe, Farmall 560, 2. Charles Humphrey, Jr., Barne-veld, Oliver 88; 3. Charles Phil-lips, Ridgeway, John Deere 4010. 10500 lb. class: 1. Mark Flogel, Barneveld, John Deere 4020; 2. Randy Leonard, Hollandale, Case 770; 3. Steve Robinson, Belmont, Farmall 806.

Farmall 806.

"101" Dalmatians" was the theme of the Barneveld 4th grade class float. It took first in the Fair Day parade. Mrs. Kuscheur is the teacher for the class.

Hearing On Rezoning For "Meditation Academy" Is Adjourned

The rezoning hearing held Monday, August 6, at the Brigham Town Hall to consider the application of Robert Rickey for a conditional use in an agricultural district for an academy, was adjourned to Monday, August 13, due to a lack of information availabe to make a decision.

The meeting which opened at 8:00 p.m. had to be moved to the Barneveld High School due to the crowd of 60 in attendance.

Should the rezoning be approved by the Iowa County zoning committee and Brigham Town Boards, a "Meditation Academy" or Maharashi International Academy" with buildings valued at about \$600,000 would be constructed in an area of the 175 acre north of Barneveld in question. 150 students would be served by the academy, which would have an administration - classroom building and five dorms with eating and sleeping facilities.

The academy would teach the transcendental meditation as taught by Maharishi Mahes Yogi, and would be the first such academy in the state. Sid Levi, Milwaukee, is the proposed builder.

The 60 citizens who were in attendance at the rezoning hearing expressed concern about the need to build roads because of the proposed academy, police services, fire protection, and other services that might be requested, including solid waste disposal.

Persons directly concerned with the proposed purchase of this land for the academy, were not in attendance at the hearing, but were represented by Attorney John Barsness, who asked that another meeting be held so that further information could be provided to concerned citizens. Several local residents spoke against the proposal, and others asked for the opportunity to express further opinions after additional information is available.

By unanimous agreement, the meeting was adjourned to Monday, August 13, 8:00 p.m., at Barneveld High School, at which time the Meditation Society is to have additional members present to provide details.

Transcendentalists Drop Plan For School Situation Here

BARNEVELD - - Plans for a \$600,000 school to be run by a transcendentalist group in Iowa County's Town of Brigham were withdrawn last Wednesday because of a zoning controversy. Atty. John Barsness, Madison,

who represented the rapidly-growing society that springs from the Maharishi Mahesh Yogi, an Indian guru, said that the group found that the possiblity of a zoning fight was inconsistent with their peaceful ways and abandoned the project.

The group was planning to have its main school in Madison. The 175-acre Robert Rickey farm in the hills in the northern part of the Town of Brigham would have been used for a retreat where

- THURSDAY, OCTOBER 11, 1973

students would be taught the technique.

A hearing last Monday before the Brigham Town Board was recessed until next Monday, but Barsness said that since the plan has been abandoned, that hearing would be canceled.

now is up to the Town of Brigham. The school plans, plus the \$400,000 annual budget, would can solve practical problems. have provided some job benefits In the Barneveldarea, however, to the area and the 150 students there at one time would have brought something to the area," Barsness said.

"This was to be an academy for a regular academic course built around the science of creative intelligence," Barsness said.

The Madison group is known as the Student International Meditation Society and they are connected with a group in Santa Barbara, Calif.

The Maharishi gained international prominence when the Beatles became his students. He "I think now that any move claims to have found the way of attaining a superior state of relaxation, a kind of meditation that

In the Barneveld area, however, there was opposition to the academy proposal because it would have achieved tax-free status and the township would have been responsible for police and fire protection.

The group said that the Rickey farm would have had 10 acres set aside for a dining hall, a lecture hall, offices, and five or six living units.

DODGEVILLE - - An 80 year old Ridgeway woman was taken for \$3,254.50 in an apparent forgery - fraud case last Thursday (Oct. 4), involving three men who said they represented a lightning rod company.

Mrs. Luke Boylen, mother of Wayne Boylen, Ridgeway, wrote her name on a check that she had dated wrong and laid it on a table in the house, planning to throw it away later. She then signed another check and gave it to a man who said he was a representative of the United Lightning Protection Company. The man said he could provide lightning protection for the farm at \$1,365.00.

Later two of the men told Boylan they had to go to town to get some material. When they returned Boylan asked for some identification. One of the men got mad, gave the check for \$1365 back, and left with the other two men Boylan later noticed two checks were missing so he went to Barneveld to check with the banker who reported he cashed a check for \$3254.50 for a Jim West. The check carried Boylan's mother's signature.

The three subjects arrived at the farm in a late model Lincoln, Cadillac, or Mercury with the plates possibly issued by the State of Kansas. The check was apparently forged by a Jim West who gave his address as either Madison or Minneapolis, Minnesota.

One of the men was described as short, thin, in his 30's, dark complexion, dark hair and spoke with broken language.

A second subject was described as tall, young, about 25, reddish hair, 5'10", slim and he said he was from Minnesota.

The third subject was not identified.

The ca they drove was brown with a brown vinyl top. It had radial tires.

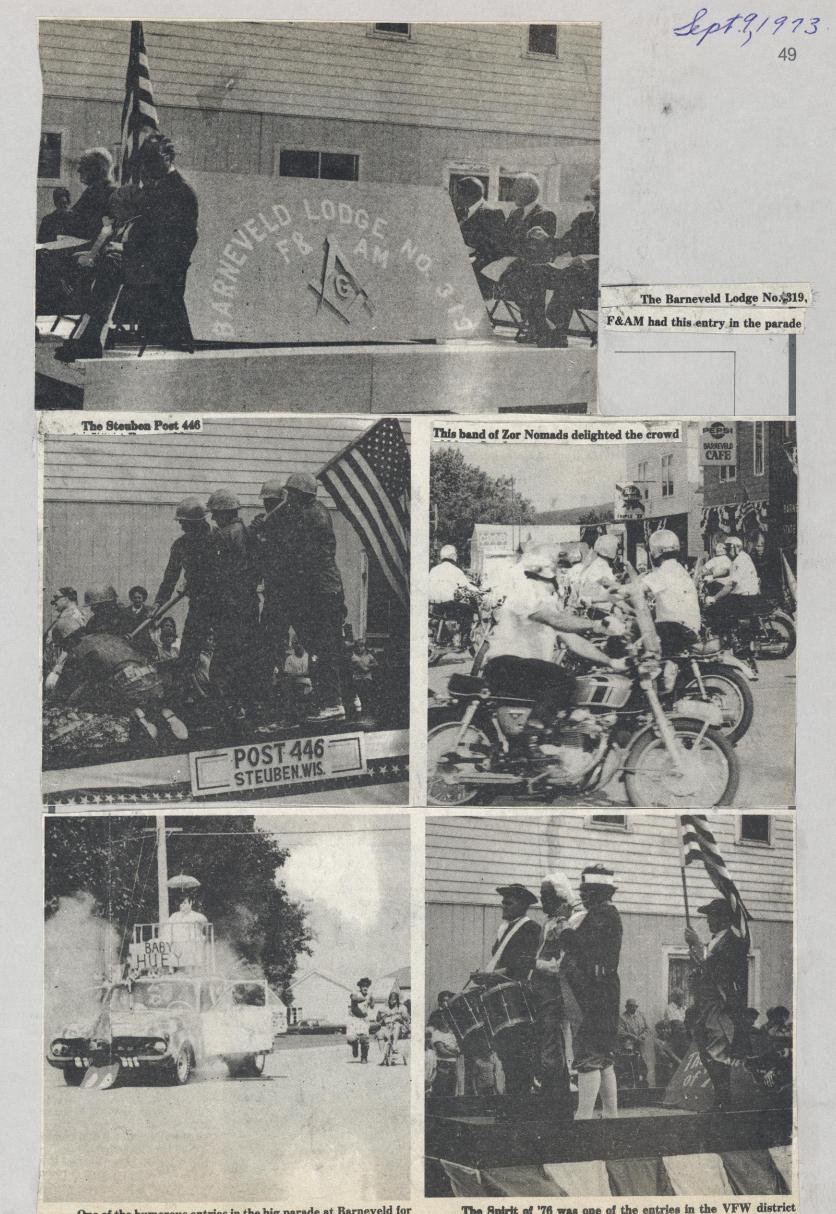

The apparent forgers told the Boylans they had installed lightning rods and cables at the Ed Parker home, 317 West Street, Lancaster, for \$581.40. A later check found no such person or street in Lancaster.

An investigation is continuing.

Andrew Skinrood buried at Argyle

Funeral rites were held at 2 p.m. Friday in the Methodist Church, Argyle, for Andrew E. Skinrood, 59, Barneveld, who passed away Tuesday (Nov. 13, 1973) in a Dodgeville hospital after a brief illness. Interment was in Woodlawn cemetery, Argyle.

Mr. Skinrood was a mathematics teacher and principal at the Junior High School, Barneveld.

He was a former resident of Lamont (near Darlington) and was married Feb. 3, 1940 at Shullsburg to Eva E. Trebilcock. They farmed for 26 years; then in 1962 he taught school at Argyle, and then started teaching in the Barneveld School system in 1966.

Surviving besides his wife, are: three daughters, Mrs. Robert Doeringsfeld, Madison; Mrs. David Miller, Wiota; and Mrs. Donald Vinger, Platteville; two brothers, Alfred, Wiota; and Norman, Arlington, Va.; and three grandsons. Mr. Skinrood was a member of the United Methodist

car, received only scratches. Ron Helms, owner of the house in the background, said cars often fail to stop when approaching the stop sign at the intersection of S and 78. He estimated it happened about six times in the past year.

Church, Lamont; a plural member of the F & AM of the Argyle Lodge No. 178 and Barneveld Lodge No. 319. He was a past Master of both lodges. He was also a member of the Dodgeville Chapter of Arch Masons R.A.M. and the Platteville Commandery; member of the Zor Shrine of Madison; the White Shrine No. 6 of Madison; member of the Alpha Chapter of the O.E.S. No. 114 of Argyle; and a charter member of the Phi Delta Kappa of Platteville.

Masonic rites were conducted at

8 p.m. Thursday evening in the Erickson Funeral Home, Argyle.

No Arrests Yet in \$7,000 St. Joseph Hospital Theft

DODGEVILLE--About \$2,000 in cash and \$5,000 in checks were discovered missing from St. Joseph's Hospital Sunday morning in a theft that apparently occurred Saturday night. The theft, still under investigation by the Iowa County Sheriff's Department and City Police took place between 5 and

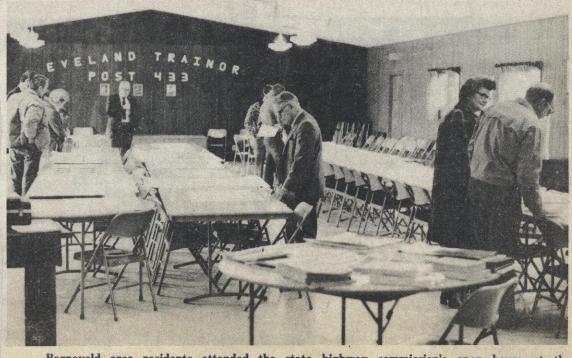

The theft, still under investigation by the Iowa County Sheriff's Department and City Police, took place between 5 and 10 p.m. Saturday. The theft was discovered at 8:45 a.m. Sunday when the cash box containing the money and checks was discovered missing.

money and checks was discovered missing. The safe is located in one of the back business offices at the hospital. A St. Joseph's spokesman said two men who were unfamiliar to the employees walked through the hospital about 8:30 p.m. They apparently located the safe and one occupied the hospital personnel on duty in the area while the other entered the safe and removed the cash box.

The safe had been left unlocked because more items were to be put into it before it was finally locked for the evening at 10 p.m. The door to the office where the safe is located was closed.

The emergency room had been busy that evening and visiting hours were in effect so it did not seem uncommon there would be strangers in the waiting room area.

Similar incidents have taken place recently in the Watertown Hospital and Monroe St. Claire's Hospital.

Barneveld area residents attended the state highway commission's open house at the Eveland-Trainor Post 433

What Has 40 Feet and Yells Like Heck?

By GEORGE HESSELBERG Of The State Journal Staff

MT. VERNON — Among the assortment of sounds circulating around the fields and festival site here Sunday was, "Aaarrrgghh!"

Sound familiar? It's the sound of ten husky men hanging onto a rope trying to pull another 10 husky men—also hanging onto the rope — 10 feet.

THE BLANCHARDVILLE Bums tug-o'-war team did it well enough and often enough at the Mt. Vernon Oktoberfest Sunday to come out on the long end of the rope above 11 other teams.

'It's king sport here, tug-o'-war, and big men compete with a passion. It's a sport for big-featured men only — big feet that can dig into the turf, or big hands to hang on, or big arms to pull, or a big stomach for support.

Red faces also seem to be standard equipment. **IT'S NOT** just pulling the rope either. The men dig in with big heeled boots, grab the rope tightly, then bob in rhythm, if the team plans on winning.

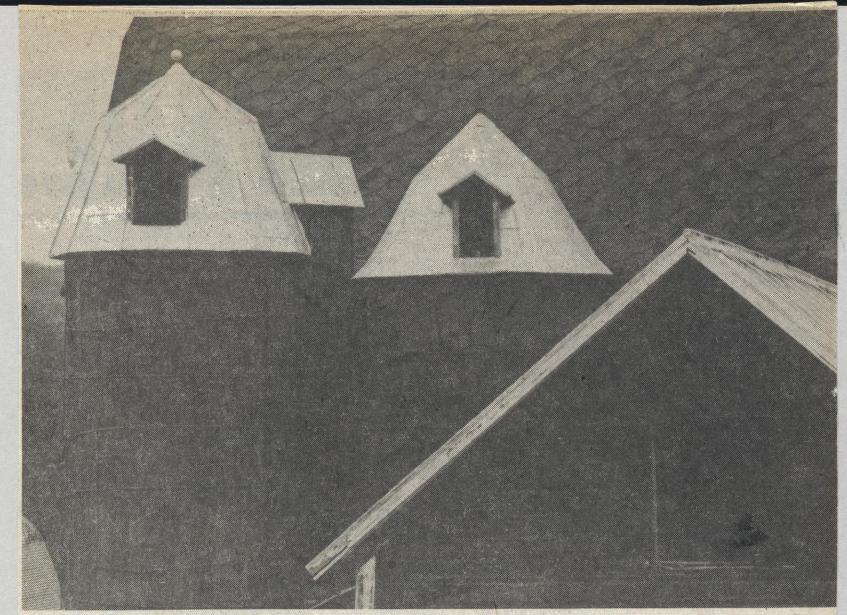

"Bobbing" is pulling in unison — everyone moving up on the rope at once, and pulling back at once. However, the teams are doing this in opposite directions, so they may be bobbing up and back all right, but not getting any rope or going anywhere.

FARM MEN, most of them, or farmers' sons, they have hands the size of catchers' mitts and arms with melons stuck under the skin. There were a couple young teams from Iowa "across the river down there" and "up around Green Bay there," but they were little match for the likes of Barneveld, or Mt. Horeb, or Verona.

By the time <u>Barneveld</u> grunted, strained, and groaned to the championship, the turf along the path of that 180-foot-long, an inch and a quarterthick rope was ground into the dirt under the heels of the teams.

A COUPLE-three hundred fans stretched out around the snow fence "arena" to watch the twohour event Sunday afternoon. After the "Burns," the Seven Hearts Supper club from Lewiston placed second, and Blanchardville, third."

The tug-o'-war contest was part of the threeday Oktoberfest celebration in Mt. Vernon that also featured a greased-pig contest, roast chicken, and teen and old-time dances.

These weather-beaten old farm buildings over a variety of angles and designs to the alert observer. The lines go from the straight lines of siding, to the bright silo roof metal, to squares, rectangle and to the shingle shapes. The buildings are on the Vernon Frame farm on Highway 12 near Baraboo. (Staff photo by Bruce Fritz) 10

This flock of doves winged their way over two silos along Highway 18, near Dodgeville on a wintry, but sunny, Wisconsin day.

When Climate Changes, So Can World Hunger

By LINDA BALISLE

"We were wrong. We thought that the problem was how to feed seven billion people in the year 2000. Instead, the problem is how to feed half that many this year."

Dr. Reid Bryson, director of the Center for Climatic Research at the University of Wisconsin, paused and leaned forward. "But what few people have taken into account is that the climate is changing.

The climate is a cause of hunger? Environmentalists usually cite overpopulation and poor agricultural methods as reasons, but the climate has not been one of their major concerns.

According to Dr. Bryson, it should be.

Reid Bryson

He explains that the changing climate has made hunger and overpopulation a more severe problem, sooner.

"If we had the climate stable, then maybe we could progress with the basic job of improving the agricultural practices of the world and controlling the population.'

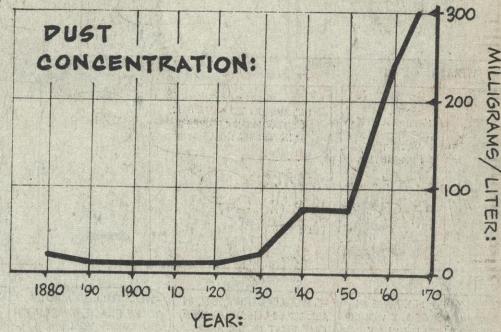

In less than 20 years, the world mean temperature has dropped three-fourths of one degree Centigrade. That certainly does not seem like much, but Bryson emphasizes that a drop of only one degree Centigrade would destroy 27 per cent of the world's crops. It only takes a drop of five degrees Centigrade for another ice age to occur.

More importantly for Wisconsin, because of the "slight" drop, we are now experiencing the same climate as that of the 1800s - known as a "Little Ice Age" by climatologists.

It seems strange to Wisconsinites who enjoyed this year's mild winter, but as Bryson notes, the winters of 1877-78 were equally mild.

"One of the things we found by studying past colder climates is that they are also highly variable periods.'

In the climate we are now experiencing, there are noticeable changes in precipitation patterns. These patterns, evident in the dry spring and the wet fall of 1972, the above-average rainfall

The dramatic increase of dust particles in the air since the 1930s is attributed to increased volcanic activity and industrialization. The dust particles block out some of the sun's rays and lower the temperature in certain areas, causing the world mean temperature to drop.

this year and the unexpected last thousand years, when the the next presidential term of of-April snowstorm, were also apparent in the 1800s.

But what caused the climatic change? Increased volcanic activity and industrialization has 🖄 the earth's atmosphere. The dust particles block out some of the sun's radiation causing a drastic reduction of temperature in certain areas.

trend is to decrease the level of to "turn off" the volcanoes. Since neither is likely, Bryson and other scientists do not foresee a reversal in the present trend for at least two decades.

"One thing you can be fairly sure of," Bryson says, "is that temperature has dropped just as rapidly as in the last few years, in no case did it reverse itself in less than 40 years."

Because the effects of the trend tripled the dust concentration in are gradual, it is more difficult to do anything about it, especially on the governmental level.

'In a sense, what is happening," Bryson suggests, "is that the symptoms are being treated. The only way to reverse the Producing more food and trying to ship it to where there is a industrialization or to find a way shortage right now relieves the symptom of hunger, but it does not cure the basic problem trying to make a balance between population and food supply.

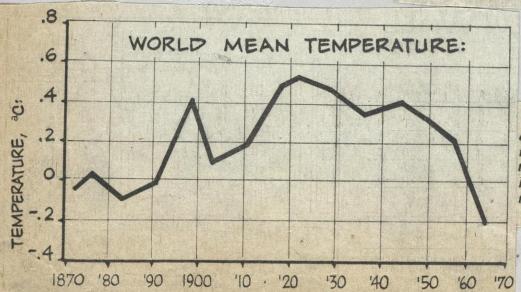

Government agencies will not plan on such a long-range basis, Bryson says, not only because of when we look back at times in the their reluctance to work beyond fice, but because of the risk involved of not knowing exactly what the climate will be.

"We just don't have a predictive capability to make a positive statement of what exactly is going to happen between 1980 and

But if we continue to only remove the immediate symptoms, we are not going to remedy the situation, he adds.

"Until we start tackling the very basic issue of adjusting human activities to the capacity of the earth, there really isn't a solution.

"If you just try to keep putting on bandaids and patching up the symptoms, then the victim is going to die.

YEAR:

The world mean temperature is based on an average of great changes in some parts of the world and no changes in other parts. For the mean temperature to drop, it takes a tremendous lowering of temperature in certain areas. These have occurred primarily in the high latitudes and polar regions. The graph shows the downward trend since 1945 and how we are now at the lowest 19th Century level.

Area Students Take Part in La Crosse Marching Chiefs

Joette Christianson, Linda Schroeder, Jill Koehler, Leila Fitzsimons, Mary Beth Mitchell, Anna Stein, Brenda Campbell, and Terry Edwards are among the 250 University of Wisconsin LaCrosse students performing in the Marching Chiefs, the university's marching and show band, which has been invited to appear in the 1974 Orange Bowl

parade in Miami. During the seven-day trip to Florida, the band will also appear in the Junior Orange Parade in Coral Gables and at Disneyworld. Each band member is responsible for raising his own share of the expenses and also is expected to participate in group fund-raising activities. This fall the Marching Chiefs are presenting half-time shows at a Green Bay Packer game and Minnesota Vikings game in addition to performances at all UW-L home football games. Joette is a freshman majoring in pre-pharmacy and is a mem-

ber of the color guard with the band.

Linda is a freshman clarinet player that is majoring in music. Jill, of Mineral Point, is a sophomore majoring in Nuclear Medical Technology. She plays drums with the Chiefs. Leila, of Mineral Point, is a

freshman tenor drum player majoring in Physical Therapy. Mary, a sophomore from Mineral Point, plays trumpet and is majoring in Recreation.

Brenda, from Barneveld, is a sophomore majoring in Physical Education and plays flute with the band.

Terry, a Mass Communications major is a sophomore and plays cornet.

Halloween was celebrated by the residents of St. Joseph's Nursing Home, Dodgeville, with the masquerade of several residents. Those in costume were Elizabeth Weier, Deli Clerkin, Ida Slimpin, William Brennan, Joseph Haffey, Edward Bolan and Earl Holman.

Barneveld Girl On Dean's List At UW-Madison

Kathryn K. Wegmueller, daughter of Mr. and Mrs. W. John Wegmueller, Barneveld is presently on the Dean's List at the University of Wisconsin, Madison with a grade point average of 3.7 at the end of the first semester.

She also received the following letter and invitation from Sigma Epsilon Sigma:

"Congratulations!"

Sigma Epsilon Sigma is proud to compliment you on your superior academic achievement in your first semester at the University of Wisconsin. The enclosed invitation to our Spring Brunch is our way of recognizing your fine effort. Sigma Epsilon Sigma is the freshman women's honorary sorority at the University of Wisconsin.

You may wonder what Sigma Epsilon Sigma is all about and why you are one of the few chosen. The answer is that each year we invite girls who attain a 3.25 grade point average or better on at least 12 and not more than 24 credits in their first semester to come to our Brunch to meet other outstanding women and see what Sigma Epsilon Sigma is all about. If you like it, and if you achieve a 3.5 cumulative grade point average at the end of your freshman year, you will be invited to join us next fall.

We look forward to meeting you! Colleen Beaman

Sec. Sigma Epsilon Sigma Kathy is presently enrolled in the school of nursing. SUNDAY, JULY 8, 1973

Jeweler Orrin Bergey started it: his four sons are following in his footsteps.

Five Fit Like Clockwork Into Jewel of a Family Business

By STEVEN T. LOVEJOY Of The State Journal Staff

MT. HOREB — If the next generation is anything like the current one, you may not be able to get a watch fixed in southern Wisconsin without crossing the threshold of a Bergey jewelry store.

A hometown, been-in-thefamily-for-years business isn't unusual for Wisconsin towns, but one that already stretches more than a quarter of the way across the south half of the state — from Mt. Horeb to Oregon to Whitewater — isn't exactly run-of-the-mill.

THE FOUNDER of the mini-empire is Orrin Bergey, Mt. Horeb, who has owned and operated the Bergey Jewelry and Gift Shop for the past 22 years.

All four of his sons have taken up their father's profession. Two of them, Tom, 25, and Jeff, 21, are licensed, while Mark, 23, has just finished his apprenticeship and has his papers in, and David, 19, is currently going through his year of apprenticeship in his father's store.

All four took up the trade through studies at Milwaukee Area Technical College.

TOM GRADUATD in 1968, apprenticed under his father and went to work at the Had-

inger Jewelry Store in Whitewater in 1970. In December of the same year he purchased the store.

Jeff went to the University of Wisconsin to study mechanical engineering, but gave it up and entered the business. He graduated from technical school in 1972, finished his apprenticeship under his father and recently passed the state exam. He is manager of the Oregon store, where he has a partnership.

"They did it strictly on their own," Orrin said. "I didn't pressure them into it."

HE ADMITTED t h o u g h, that he was able to help them by offering apprenticehips.

"It's pretty near impossible to pick up an apprenticeship these days," he said, "They're beggingjewelers and watchmakers to take apprentices."

"It's quite an expense (to have an apprentice) and quite an a mount of time," he added.

GENERALLY, an apprentice goes to a watchmaker for one year after completing two years of technical s c h o o l. Without an apprenticeship it takes four years of technical school.[#]

When the y o u n g e s t son, David, finishes his apprenticeship next year, it will mark the end of several years of in-family apprentices.

David said he took up the b u s i n e s s, "because it just looked inviting. It seemed like a good thing to go into; I had to do something."

IF YOU wander into one of three present Bergey shops, don't expect to see a stereot y p e d little-old watchmaker plying the family trade. Bergey and all his sons are strapping big men who look like they would be more at home in a pro football stadium than in a jewelry store.

Mark, "the little one," is 6 feet, 1, inch, tall and two of the boys tower at 6 feet seven. Bergey is 6 feet, 6 inches, and David — well, David is only 19, he's still growing.

The surprising thing about the all-in-the-family jewelers is that there is no long background in the trade.

Orrin got into the profession through his interestas a youngster. "I was laid up in high school," he said, "And I had always played with clocks."

"A guy that ran a shop in Pardeeville boarded with my parents and I started to putts around and got interested in jewelry."

Orrin went to Elgin Watch

College in Elgin, Ill. and got his license in 1948. In 1951 he p u r c h a s e d the Mt. Horeb store and has been there ever since.

Orrin said he would like to see one more Bergey store in the area in the near future.

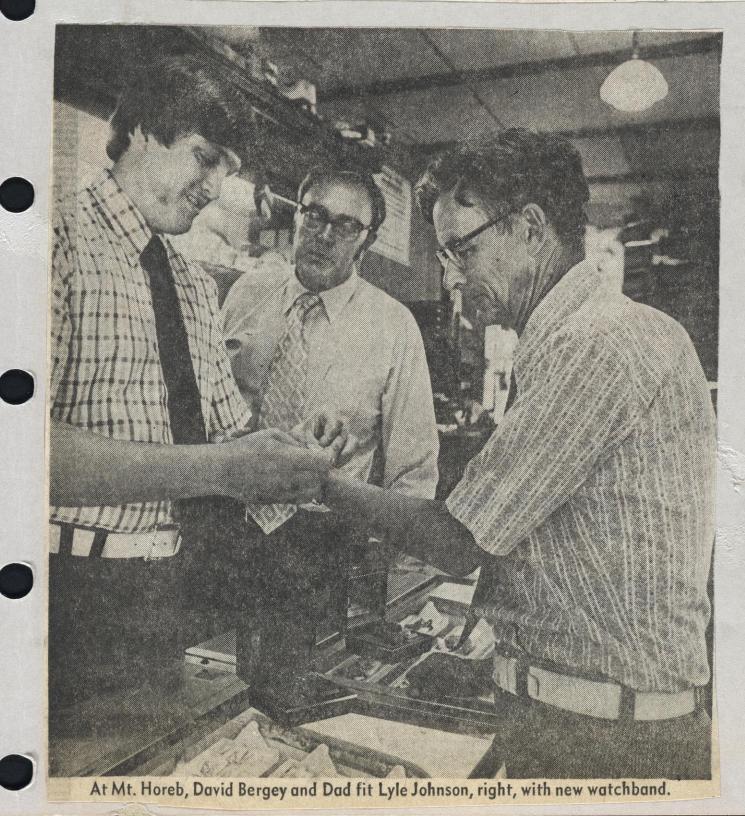

Tom bought the White on his own, and Orrin supplied the backing for the partnership in the Oregon store.

"With four boys, we try to keep things on an even keel as pretty much as possible," he said.

"Eventually," he added, "I'd like to be the fifth man in four stores. That's what I'd call an ideal retirement setup."

Mark Bergey, left, and brother Tom at work in the Whitewater store. —State Journal Photos by A. Craig Benson

Barneveld Girl Wins Honors In Office Skill

Miss Delores Valstad, a senior at Barneveld High School, was the winner of the typewriting

skills contest at Southwest Wisconsin Vocational - Technical Institute at Fennimore on April 23. She received a beautiful plaque and certificates for her accomplishments. Delores also placed eighth in the business spelling contest.

Her business education teacher, Mrs. Donna Erickson, also entered Delores in the Madison Business College interschool competition. As Delores won first place in the advanced electric competition, she received a special "First" typing pin and a certificate.

From the Gregg Tests and Awards Program featured in "Today's Secretary" magazine, Delores will receive a 70 worda-minute typing charm and certificate.

Andrew Gladem

Andrew Gladem, 85, of Barneveld, died Sunday, December 2, in a Madison hospital after a long illness. He was born Nov. 4, 1888 in Valders, Norway, and came to the United States in 1892. He married the former Ethel Lester, who died in 1955. He was a veteran of World War I and farmed in Arena Township until 1956. Mr. Gladem was a member of the Barneveld Lutheran Church and the Arena American Legion.

He is survived by two daughters, Mrs. Harlan Nordvy and Mrs. Joseph Schulenberg, both of Barneveld; a stepson, Howard Gray, Middleton; and six grandchildren.

Funeral services were held at 1:30 p.m. on Tuesday, Dec. 4 at the Barneveld Lutheran Church. The Ellestad Funeral Home, Mt. Horeb, was in charge.

PUMPKINS DOT THE LANDSCAPE Pumpkin pie is all-American. Some say more so than apple pie. Historical records indicate it was the first and, for a time, the only pastry made in America. When Thanksgiving Day originated, the prolific pumpkin provided not only the pie filling, but was also dried and ground to "flour" for the crust. Pumpkins are a golden memorial to the resourcefulness of Pilgrim women. The cover photo was taken near Spring Green, Wis., by David Lee, of Edmund.

Iowa County Homemakers Plan Holiday Fair Sat.

Mrs. Lois Clifton, Chairman of the Iowa County Homemaker Holiday Fair, and Mrs. Esther Bawden, Public Information Holiday Fair, and Mrs. Esther Bawden, Public Information Chairman, practice modeling the garments they will be wearing in the Heritage Style Show, "A Walk Through Yesteryear" to be held at the Homemaker Holiday Fair, Saturday, December 1 at the Dodgeville Middle School from 10:30 - 3:00. Lois' dress is a graduation dress worn almost 25 years ago. Esther's black sequined dress the dress worn almost 25 years ago. Esther's black sequined dress dates back to the turn of the century.

The children of Dr. and Mrs. B. M. Zibolsky will be hosts to their parents 50th wedding anniversary with open house at Thyms, November 11th, 1:30 to 4:30. Dr. Zibolsky and the former Hilda Enburg were married November 8th, 1923 in Iowa. They have 3 children, Dorothy Mog of Chanute, Kansas; Carl at Milwaukee; and S/Sgt. Warren J. now stationed in the Phillipines. They have 13 grandchildren and 3 great granddaughters. —Obma photo

Dugway Cheese Factory Transforms into Body Shop

RIDGEWAY - On Oct. 9, 1969 The Dodgeville Chronicle carried a rather unique "obituary" . . that of the Dugway Cheese Factory Rt. 1, Ridgeway.

The story, written by Jeannie Lewis, ended with a hope that the factory's death would not be in vain, and that one day the lights would again shine as the building performed another use. Said Mrs. Lewis, "The ultimate otherwise would be the decay of a building that served mankind so faithfully for many years." The cheese factory operated for 73 years prior to closing. The Fred Gaberell family were the last operators.

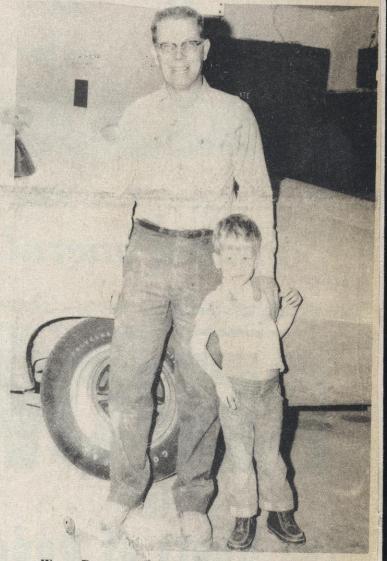

About a year ago Mrs. Lewis and others who held the cheese factory dear to their hearts got their wish. Wayne Dyreson, who has spent much of his life becoming an accomplished auto body repair specialist, purchased the building and turned it into Dugway Auto Body. Now, he is swamped with business doing body work on both customer and dealer used cars along with restoring old ones.

Dyreson and his wife, the form-er Bey Tallman, and four children fixed the upstairs into a modern living quarters. They started by gutting the old living quarters and started remodeling. Now, the fruits of their labor are being enjoyed by the Dyreson family which includes Cindy, 14, Shelly, 12, Jeff, 9, and Todd, 4.

The former cheese factory has been turned into a modern body shop with fresh paint and a new door. Dyreson also put in an office and furnace room in the old building.

When he's not working on cars, Wayne is enjoying his hobbies of camping and restoring old cars. He's restored a 1927 Dodge for a Sun Prairie owner and a 1930 Model A for a Madison man. "The Model A was quite a machine," Wayne said. "We rebuilt the body and interior from front to back and the owner rebuilt the engine.

70

Wayne Dyreson and son Todd, 4, stand in front of a car he is refinishing. Wayne says Todd is his helper.

When we got done, it looked like it just came from the factory."

Future projects call for rebuilding Lloyd Henderson's (Barneveld) 1952 Packard and Don Forseth's (Mt. Vernon) 1942 Chevrolet. He also plans to repaint the body shop and install more lights.

Dyreson is no stranger to the auto body business. He started

New Glarus and then went to Barneveld Motors in 1959, Hebecame a body specialist with Hallada Motors in 1965 and worked their until he opened his own shop. He and his family lived in Barneveld until he purchased the factory.

Dugway Auto Body is open Monday through Friday from 8 a.m. until Wayne decides to close in in 1952 at Kubly and Rickard in the evening, usually after 6 p.m.

Law Enforcement Group **Presents Check for \$900**

DODGEVILLE--A check for \$900 was given to the widow of Joseph Wilkinson at the annual Iowa County Law Enforcement Association Christmas party December 8 at the Don Q Inn. Sheriff Bill Whitford pre-sented Shirley Wilkinson and her sister-in-law Margaret Wilkinson the check, Mr. Wilkinson was severely burned in a furnace accident and later died from the accident and later died from the burns.

The money was raised by the association, with some help from the Black Earth law enforcement the Black Parth law enforcement group, through ticket sales for a dance held at White's Ball Room, Arena, Nov. 24. The idea for the fund raising dance was brought to the association's attention by deputy Dave Meudt. The association frequently

conducts fund raising projects

for worthy causes and this is the largest amount raised to date and given at one time. Over the past seven years the association has donated over \$4000 for community betterment and for community betterment and for purchase of equipment for the association.

About 30 deputies and wives were present along with several guest at the annual party.

Milton A. Leix

Lyndon Station Man Drowns

MAUSTON - The body of LaVerne Rickey, 67, Lyndon Station, was found four miles north of here in the Lemonweir River at 10:45 p.m. Monday.

Juneau County Coroner Clarence Sorenson ruled the death accidental.

The body was found by police searchers after Rickey's son reported that his father had gone fishing and had not returned home.

The Iowa County Law Enforcement Association and Black Earth Fire Department presented Mrs. Shirley Wilkinson's [Arena] with a check for \$900 at the Association's Christmas Party Saturday night. Mrs. Wilkinson's husband, Joe, had been severely burned and later died because of a furnace accident. Sheriff Bill Whitford, left, made the presentation while Dave Meudt, Lee Maso, and Mrs. Margaret Wilkinson, a sister-in-law, watched.

Milton A. Leix, 65, Cobb, Wisconsin, died Tuesday, Dec. 18, 1973 at a Dodgeville hospital after suffering an apparent heart attack at home. Mr. Leix was born in Eden Twp on January 22, 1908 He graduated from these 1908. He graduated from the Montfort High School in 1924. He married the former Fern Ever-son of Fennimore on November 12, 1930. They farmed in the Cobb-Montfort area and later he became an agent for Rural Insurance Company. He was a member of the Cobb United Methodist Church and served as Chairman of the Church Building Committee. He was a former member of the Cobb High School Board. He was a member of the Southwestern Wisconsin Life Underwriters Association, a member of the Advisory Board for Clerical Division of the Voc. School at Fennimore, the Cobb Village Board, and of the Cobb Lions Club.

Lions Club. He is survived by his wife, Fern; three daughters, Mrs. LaVerne Clifton, Montfort; Mrs. Roger Fingerson and Mrs. Donald Ritchie, both of Cobb; one brother, Clifton Leix of Montfort; and one sister, Mrs. Harry Kramer of Montfort and 10 grandchildren. Funeral services will be held

10 grandchildren. Funeral services will be held on Friday, Dec. 21, 1973 at 11 a.m. in the Cobb United Methodist Church. Rev. James Hagen will officiate and burial will be in the Calvary Cemetery, Cobb. Friends may call after 2 p.m. on Thursday at the Lulloff-Peterson Funeral Home, Dodgeville. Memorials may be made 'to the Cobb United Methodist Church.

Thomas H. Thousand, 20, Barneveld, found his 1967 Chevrolet van in an unusual spot Wednesday morning. Thousand reported that he had left his vehicle along CTH "T" near Birch Lake December 23 when it would not start, and someone had apparently pushed it onto the lake when the ice was still hard. The unseasonably warm weather softened the ice, however, and the van began to sink sometime thereafter. Dec 26

Looking for a Cat-Scratcher? Try Ridgeway's New Business

Have you been looking for a cat scratcher for your favorite cat? Come to Haga's Hodge Podge in Ridgeway, and your searching will be over.

Haga's Hodge Podge, next to Dietzman's Texaco on Main St. in Ridgeway, was opened for business November 1 by Lorraine Haga of Ridgeway. The former Lorraine Lease moved back into her old home town area a year and a half ago with her family offer living overseas with her husband Bill, who served 31 years in the Air Force.

Mrs. Haga has always wanted to open a shop such as the thrift and gift shop which she recently began. "I first got the idea when my husband was in the service. Every base we were at had one of these thrift shops, and I was always fascinated by them."

So when her husband retired and the family moved back to the U.S.A. and settled down in Ridgevay, Mrs. Haga thought she would give it a try. "I didn't think I could make ends meet selling either used clothing or gifts, so I thought I would sell both. Now that I'm started I have a little of everything."

Lorraine did most of the work in getting her shop readyherself, cleaning, arranging, decorating, and marking items, which took about a month. "The marking of items has taken up most of my time. I picked up 4000 tickets to mark items when I started, and that kept me busy day and night."

Her husband Bill and 20-yearold daughter Ginny also helped out getting the shop started, as well as friends Jan Nobel and Mary Lou Chapman. Her husband still comes in to help occasionally.

Most of the items sold at the shop don't belong to the Hagas. There have already been 228 consigners that have brought items into the shop. "The items I sell come in from all over. They bring in the items they want sold and take 75% of the profit that is made when sold. Some of the customers set their own prices and some leave it up to me. When I do set the prices I try to please both the customer and the owner. If it sits in the store it doesn't make a penny for anyone."

Thus far the biggest problem has been keeping all the items marked and accounted for. "Every consigner has a number, as has every item that they bring in. It has been quite a job to see that each item sold is credited to the appropriate person."

"Hodge-Podge" is a truly fitting name for the shop, because it really has a little of everything. The specialty is lovely gift items, such as hand - made afghans, quilts, candles, dolls, barbie clothes, ceramics, hand paintings, jewelry, doilies, used toys, etc. There is also a wide selection of used clothing, and other miscellaneous items such as shovels, typewriters, electrical appliances, dishes, pillows, antiques, and 101 odd items that

Haga's Hodge-Podge opened for business November 1 and is located next to Dietzman's Texaco in Ridgeway. you won't find in many stores. and providing a service." She says "The only thing we're short of that many items in stores are

DGE PODGE

THRIFT

is snowmobile suits and boots. We can't keep those in stock." The Hagas live on the west edge of Ridgeway, and have eight children: Bill, 29; Mary, 27; Larry, 23; Ginny, 20; Pat, 18; Mike, 17;

Jackie, 15; and Anne Marie, 8. Most of all, Lorraine expressed her appreciation to all the consigners who have brought items in so freely. "We sure don't have a problem getting items in. They have brought in so many items that my shop is about full. But I am very thankful that they have, because if it wasn't for them, wouldn't have a shop to run." She said that the first month

and a half have been busy for her, but yet she enjoys the work. "I really enjoy meeting people

and providing a service." She says that many items in stores are getting so expensive that a great deal of people are buying second hand materials. This is the type of people that find Haga's Hodge

Podge ideal. "I also know that a lot of Ridgeway children have taken the opportunity to come in and buy a little Christmas gift for someone that they wouldn't have been able to buy at a new price. If I have made them happy, then I am happy."

Haga's Hodge Podge is open 10:00 - 5:00 Wednesday - Saturday, and 2:00 p.m. - 5:00 Sunday.

THURSDAY, SEPTEMBER 27, 1973

Injured in **Cycle Crash**

James R. Messinger, Barne-veld, was taken to a Madison hospital with a severely fractured leg and arm following a motorcycle - car crash at 9:50 p.m. on CTH "K" north of Barneveld Tuesday night.

Messinger, who was driving a 1967 Kawasaki cycle crashed with a car driven by Thomas E. Blaser, Mt. Horeb. Accord-ing to the traffic report on file at the Iowa County Sheriff's of-fice Blaser drove to the ditch to avoid the accident and the motorcycle made contact in Blaser's lane of traffic.

Messinger was northbound at the time of the accident while Balser was traveling south.

Messinger was conveyed to the hospital by the Iowa County ambulance.

E

Robert McCutchin

Robert McCutchin, age 79, of Spring Green, formerly of rural Arena, passed away in a Prairie du Sac hospital after a long illness. He married the former Gertrude Michels in 1920. He was a graduate of the University of Wisconsin; State Assemblyman from Iowa County; Iowa County board member; treasurer of the Hyde Cheese Co.; vice-president of the Mazomanie Mutual Insurance Co.; treasurer of the Arena, Ridge-way Telephone Co.; on the State Conservation Commission; member of the Spring Green Masonic Lodge, Madison Scottish Rite, and Zor Shrine.

He is survived by his wife, one one son, Robert H. of Middleson, Robert H. of Middleton; one daughter, Nancy A. Burns, of Madison; a brother, Thomas, of Arena; three grandchildren.

Services were held in Richardson Funeral Home, Spring Green, on Monday, December 10 at 1:30 p.m. The Richardson Funeral Home was in charge. Burial was in Hyde Cemetery.

Darlene's Beauty Salon offers full service

Care, imagination go into **Ingleside Bazaar items**

The residents of Ingleside are busily preparing for their annual Christmas Bazaar to be held Saturday, December 1 at the nursing home. The residents are making for sale imaginative

stuffed animals and bean bags, Christmas decorations, knit items and many other hand crafts. The sale will begin at 10:00 a.m. December 1 with a bake table filled with holiday goodies.

Debbie Gerber is the new addition to Mount Horeb's continuing beautification efforts. She began work last week at Darlene's Beauty Salon on Main Street. With her is Darlene Diehm, proprietor of the new business. Debbie formerly worked as a beautician in Monroe and Darlene has furnished beauty care here for several years. The completely remodeled salon boasts six stations and six dryers and provides full service for men and women. Darlene also offers a full line of skin care supplies. Hours at the new salon are from nine to nine Tuesday through Saturday.

Dec. 73

Andrew E. Skinrood 13

Andrew E. Skinrood, 59, of Barneveld, a former Lamont resident, died Tuesday, November 13, in a Dodgeville hospital. He was married February 5, 1940, at Shullsburg, Wis. to Eva E. Trebilcock. He farmed for 26 years; then in 1962 he taught school in Argyle. He then started teaching in Barneveld High School in 1966, and he was the Junior High principal.

Survivors are his wife, Eva, at home; 3 daughters, Mrs. Robert Doeringsfeld of Madison; Mrs. David Miller of Wiota; and Mrs. Donald Vinger of Platteville; two brothers, Alfred of Wiota and Norman of Arlington, Virginia; and three grandsons. He was a member of the United Methodist Church of Lamont, a plural member of the F&AM of the Argyle Lodge No. 178 and Barneveld Lodge 319. He was a past Master of both lodges. Also the Dodgeville Chapter of Arch Masons R.A.M. and the Platteville Commandery. Member of the Zor Shrine of Madison. The Shrine No.6 of Madison, member of the Alpha Chapter of the O.E.S. No. 114 of Argyle. He was a charter member of the Phi Delta Kappa of Platteville. Funeral was held at 2 p.m. in the United Metho-dist Church, Lamont. Burial was Woodlawn Cemetery. The in Erickson Funeral Home of Argyle was in charge of arrangements.

Helping to organize the Barneveld-Ridgeway Senior Citizens and provide programs are these officers of the group. From left to right are Otto Oimoen, Irene Smith, Alma Junius, Julia Schaller, Clara Koenig, and John Koenig.

Barneveld-Ridgeway Senior Full Force Citizens Now

On May 29, our next meeting was held and we doubled our attendance to 26.

Plans were made for a bus trip to New Glarus on June 23. We left by bus and two cars at about 9 o'clock with a group from Dodgeville and Mineral Point. After a tour of the lace factory we had our sack lunch at the New Glarus park. Then to the high school for the play "The Life of Heidi". We re-

enjoyable day.

At our next meeting which was at Barneveld on June 26, we decided to alternate from Barneveld Legion Hall to Grace Methodist and St. Bridgets at Ridgeway. Motion was also made to hold our meeting on Monday after the month of July.

At our July 24 meeting at Barneveld after a short business meeting we all enjoyed the slides and talks about Switzerland by Karen Bogenschneider.

At our August 20 meeting, we changed officers by electing Otto Oimoen as Secretary and James Ryan, Treasurer. August 17 was Senior Citizens Day at the State Fair. Seventeen members of our

group went by bus for a very enjoyable day. October 15 the Barneveld group

put on a delicious turkey dinner followed by a much enjoyed film and talks by Rev. Burkham of Mount Horeb. Films were of Japan, Hong Kong, Formosa, China, and Hawaii. It was decided to have a birthday party every month for all members who have a birth-

day that month. We started with the October birthdays. We had six for the month. They were Russell Theobald, Ann Schlimgen, Frieda Watrud, Berniece White, and James and Helen Ryan. At this meeting we again changed officers. The new elected officers were: Otto Oimoen, president, Irene Smith, vice-president, Lillian Meyer, secretary, and Mabel O'Neilltreasurer.

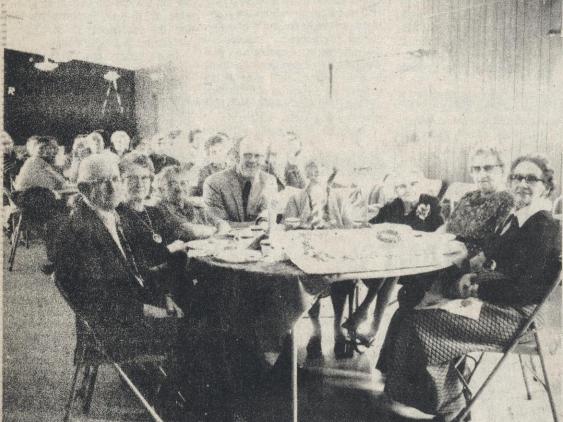

We always have a business meeting and then some entertainment followed by a lunch. By now we have an attendance of 40 50 50 with 60 for a high.

On September 22 a bus load of our group had a most enjoyable trip to "Heritage Day" at Prairie du Chein. We visited Villa Loui and other places of interest.

Thank you so much for the Medding gift. It was something that die always wanted to get but never sid. Waveld you behave it's aheady in Use. I love nats. Thanks again my aunt Thinks the officer in Barneveld is quite the guy. So Does Obfb. Donna & Mike

Ridgeway-Barneveld Senior Citizens Honor Birthdays

Bill Brennan, 80, enjoyed a dance at the St. Joseph Nursing Home

Christmas party

December birthdays and the holidays were celebrated by the Barneveld-Ridgeway senior citizens earlier this month. Pictured from left to right are the birthday celebrants: Clair Campbell, Esther Deitzman, Ellen Blotz, Pastor Twiton, Nomia Arneson, Esther Oimoen, Ruth Cushman, and Sophia Kvernan. The Barneveld Brass School band under the direction of Phillip Beavers played for the event.

Barneveld and Ridgeway Senior Citizens met at the Barneveld Legion Hall December 10 for a noon luncheon, a December birthday party and a Christmas program.

Over 60 seniors were present. Those having birthdays in De-cember were Clair Campbell, Esther Deitzman, Ellen Blotz, Pastor Bob Twiton, Naomi Arneson, Esther Cimoen, Ruth Cushman and Sophia Kvernan. After singing happy birthday, a short business meeting was held where it was decided to have the next meeting at Ridgeway's St. Bridget Church in the Fellow-ship Hall with January birthday party on January 7, 1974.

A program followed with Mrs. Gladys Arneson wearing a dress that was worn by Mrs. Lila Thousand's grandmother over 100 years and's grandmonter over looyears ago. Leading the group in Christ-mas singing was the Barneveld Brass School Band conducted by Phillip Beavers. They rendered slabuy au

a number of Xmas melodies which was very much appreciated. Rev. Paul Fotsch of the United Church of Christ gave a message to the Seniors. Pastor Bob Twiton from the Barneveld Lutheran Church read the Christmas story and a Christmas message. A Christ-mas party followed with each one of the Seniors exchanging gifts. A very enjoyable day was had by all.

Longevity is a prominent trait of the children of Mr. and Mrs. Hans Rue who gathered recently to give birthday greetings to 97 year-old brother Halvor, left. To the right of Halvor are his sister, Mrs. Ingeborg Ullsvik, Madison, 87; brother John Rue, Madison, 85; brother Ole Rue, Madison, 89. Another sister, Mrs. Alice Lunde, Madison, 93 was unable to attend but sent congratulations.

The family, whose cumulative age is 451 years, emigrated to America from Norway after the death of their father in 1900. The first to arrive in the town of Blue Mounds in 1900 were Halvor, then 24, and his sister Alice and brother John. Their mother, Ingeborg and Ole arrived the following year. A married sister, Berget, remained in Norway.

In 1972 Halvor Rue's four daughters, Mrs. Alice Carden, Barneveld, Mrs. Wallace Knudson, Blue Mounds, Mrs. Alton Knudson, Madison, Mrs. Lawrence Uren and daughter, Greet, Mount Horeb, visited the birthplace of their father in Norway and found the house where they were all born. The stables and the stauber still are well preserved.

Other honored guests were the Senior Citizens of the Barneveld Lutheran Church. Communion was served by Pastor Twiton.

A son, Harland Rue related incidents of years gone by together with Dr. Bjarne Ullsvik, Chancellor of University of Wisconsin-Platteville and Albert Bakken, Black Earth, nephews of Halvor Rue.

Mr. and Mrs. Philip Skalet entertained the group singing Christmas carols and Norwegian songs.

Marvin Rue and family also were present as well as old neighbors and friends that had touched his life along the way. His wife, Mrs. Halvor Rue

His wife, Mrs. Halvor Rue passed away in 1969. A son, Henry Rue was killed in action in World War II in the South Pacific.

The Ruth Circle served a birthday luncheon and a most delightful time was had by all.

Iowa County Homemakers presented a style show at the recent Dairy Expo. Above, Mrs. Esther Bawden, Arena, models a dress.

Mrs. Karen Bogenschneider, Dodgeville, the Iowa County Extension Home Agent, was also a model at the Dairy Expo Fashion Show.

"A CANDLE and a ROSE"

Former Barneveld Couple **Involved** in Volunteer Work

Bill and Marcene Thousand

A Barneveld couple is doing volunteer work in Jamaica. They are Mr. and Mrs. Bill Thousand, both who are 46. Thousand formerly owned Barnveld Motors in Barneveld and later owned part of West Towne Chrysler Plymouth before selling out a

little over a year ago. At that time, Bill and his wife, Marcene took part in their first volunteer work when they did flood relief work in Wilkes Barre, Pennsylvania last November and December. After a brief stay in Barne-

veld, the Thousands began their second volunteer assignment in February at Knox College, a Presbyterian - supported school in Spalding, Jamaica. The school was originated by the Rev. Lewis Davidson, and is attended by approximately 600 students. The Thousands stayed with Rev. Davidson for a time upon their arrival.

Bill's part in the program is giving on-the-job training in his skills as a mechanic and builder, and Marcene is helping in the school as a bookkeeper.

In a recent return to Barne-veld, the Thousands told friends of the situation there. Bill told of how the water for the college is supplied by runoff, and how

the water is chlorinated by hand. When Bill expressed the need for an automatic chlorinator, several men of the Barneveld Lutheran Church began a drive to purchase the chlorinator and help out the school. The Barnyeld Advancement Association agreed to contribute to the cause, and any donations by area individuals would be greatly appreciated. For further information contact Ralph Thoni, Carl Arneson, or Pastor Robert Twiton in Barneveld.

with me "A Candle and A Rose". The Candle is for Eternal life that will never die, and always

When I die I would like to take

shine upon earth to show people the way to happiness and love forever.

The Rose is for forgiveness for any sins that may still lie within my soul.

The Rose is nature and nature ingives.

The Candle is hope, love and peace, it's also eternal life with which God tod us we will have if we deserve it.

So my gift to you Mother is "A CANDLE and a ROSE"! Kathy Leary

What-Cha-Ma-Call-It Shop Is Opened in Barneveld

Kathy Leary, Barneveld, has opened her "Whatcha-ma-callit" shop on the business district there.

What-Cha-Ma-Call-It . . . a good name for a place where almost anything can be found. If not today, maybe tomorrow, as in this shop items come and go. Kathy Leary, Barneveld opened her place with the idea of having only "arts and crafts". (she has many items on hand . . . ready for giving any time). But, then she decided to have used clothing as well. (clothing in excellent condition is wanted) Now, she is thinking of having a bulletin board where people would be able to advertise bigger items . . . like furniture.

Kathy's What-Cha-Ma-Call-It is located near the library in Barneveld. She is open every day, but Sunday from 10-5. She said, "The coffee pot is always on. If people don't find a specific item they are looking for they can just come and visit."

She is physically handicapped, but she said, "I learned to live with it. It is just something that is." She had six operations during her elementary grade years. After high school she went to college. Then, "not liking that very much" she attended the vo-cational school at Madison. Not finding a job . . . "just sitting around wasn't for me" . . . she

decided to open the shop. She said, "Having this place of my own is more like a hobby, than work. I love meeting people.

She has been writing since being a junior in high school, where her teacher encouraged her to take a writing course. She did in her spare-time and completed the course in two years. She said, "I found out that I prefer to write adult or teenage material, rather than for children. She has had one article published. She said, "I

send something out, and get it back. But I keep trying."

She thinks everyone should "try many things." By doing so you find out "Just what you do want from life." In Kathy's case she has found the shop "a place I can call my own, and a place to work." You can bet she'll do her best to find "whatever is wanted" or "needed". She said, "I would like to get to know everyone that I can."

Christmas 1973

MERRY CHRISTMAS

A cool Yule to one and all $(\pm 68^{\circ})$ but with warm hearts and heartful thanks for the year past and the one to come! It won't hurt us to tighten the power belt--it might cut down on gas!

'73 and each heir one step closer to independence. Diane was graduated, is working in a large clinic (kidney and bladder) as a receptionist, and is knee-deep in wedding plans: she and her Victor III will be married on January 5th. The new comet Kohoutek will provide the "fireworks."

Alison went from theory to practicality. She took up histotechnology at the end of her junior year at UW and is employed by the pathology department at St. Mary's Hospital. Her habit (horses) is demanding and gratifying her many needs and efforts. Jumping and dressage have captivated her and her new mount is as willing as she is!

Bennett finished his first year at Western State College. He spent the summer collecting and saving the where-with-all for this winter's fling at ski racing in Steamboat Springs, Colorado. Anything you want to know about pitching tents---large, small, county fair, carnival, circus ???

Brian, a high school junior, is the last to get his driver's license. There are some plums to be had as the only-in-residence. We three spent a fun week in Alta, Utah in February skiing the famed powder. Very exhilarating, but the heated pool is becoming the best of the day for the athletic elders! Conservation camp took six weeks of the summer and he enjoyed it. Brian and his brush axe became fast friends as callouses and bugbites were exchanged for improving trout streams and public parks.

At Eastertime we collected nephew David Johnson for a sojourn down Mexico way, Akumal in Yucatan. That place is terrific for scuba and fishing if the on-shore wind doesn't get you. It got us. So we opted for local adventures into Mayan ruins and other short in-land expeditions.

Summertime means farm (Zucchini, anyone?) and cabin plus a few days camping and boating in the Apostle Islands with friends. In August, nephew David Healy brought his bride into the clan. This event brought brother George and family to the midwest so we all reuned in northern Wisconsin for a few days in the woods.

Since July 1 Obstetrics has been a thing of the past. Gynecology sets a more casual pace and we have enjoyed it. For a "graduation present" a short but splendid fishing trip to Labrador brought back tales of five-pound brook trout rising to a dry #6. It was a long way to go but memories were made of the experiences.

So, fall and winter, rationing and chillblanes, fireplace fires, and woolies-we'll have them all. We are well, happy, busy and anxiously awaiting '74, whatever it may bring. A toast to one and all, good friends, and keep in <u>close</u> touch----it's warmer that way!

You and Thanks from alle the Healy

Card.Nymber LD-3111

Imprinted price inc

Mr. and Mrs. John A. Amacher, Route 1, Mt. Horeb, will observe their silver wedding anniversary Sunday, November 18, with open house from 2 to 4 p.m. in the Mt. Horeb Evangelical Lutheran Church.

Mr. Amacher and the former Carol Anderson were married

November 17, 1948, in Dubuque, Iowa.

They have two daughters, Heidi and Krista, and a foster son, Craig Negus, all at home.

Relatives and friends are invited to join them at the open house. No formal invitations will be sent 1973

Lenten presentations dramatize Christian living at churches

Members of the Barneveld-West Blue Mounds Lutheran Parish will present "Through the Veil", a realistic drama which deals with the problems of death and grief

and the Christian's assurance of resurrection. Members of the cast, from left are Karleen Thoni, Ralph Thoni, Beth Twiton and Margaret Twiton.

The Barneveld United Church of Christ will present a drama depicting ways the Christian way

of life appears in everyday life. The cast, from left are Russ Stenseth, Fritz Aeschilman, Lois

Knight, Eileen Arndt and Sam Fotsch.

Karleen Thoni, daughter of Ralph and Sylvia Thoni, Barne-veld, has been selected as the Good Citizen of Barneveld High School for the current school

School for the current school year, according to Tom Stumpf, principal. The award, presented annu-ally by the National Society of the Daughters of the American Revolution, recognized Kar-leen's consistent demonstration of "the qualities of dependability, leadership, service and patriotism". "We congratulate Karleen for this honor and of course her family, for fostering these qualities," Stumpf com-mented last week.

A Story of Good Deeds -Sunday, November 4, 1973 **Rufus Wells to Leave Madison**

By JOHN NEWHOUSE Of The State Journal Staff

Rufus Wells, who's been on the Madison scene so long he's virtually achieved landmark status. and his wife are leaving the city. It's the long, cold winters.

He's building a house on the Florida coast, with a place for a boat in the side yard, and he's going to do a lot of fishing.

Camel Herd

He takes with him a record of doing things for othrs which few can curpass and of which few know the full story.

In the 1930s, Wells and his late first wife dreamed up the idea of a camel herd for the Zor Shrine temple. A Shriner coming back to Madison from the South saw three camels in a Kentucky pasture. Wells raised \$1,800 to buy the animals.

"They'd been used to give kids camel rides at the World's Fair," Wells said, "so it was a natural to give free camel rides here.

The free rides at Vilas Zoo on Sunday mornings are going into their 38th year

In 1955, Wells was president of the Easter Seal Society in Wisconsin and Camp Wawbeek for retarded children, needed a swimming pool.

Hailed by Roundy

Wells headed the effort to raise \$200,000

One day, walking down W. Main St. in front of the old Service Grocery, Joseph (Roundy) Coughlin, Wisconsin State Journal columnist, hailed Wells. No use raising money for Christmas baskets, now that the Depression was over, Roundy said. What could he do, particularly for children?

Wells and his wife thought it over. They came up with Roundy's Fun Fund for fun presents which taxes or welfare couldn't supply.

"It raises about \$20,000 a year," Wells said.

Over the years, it's probably raised more than \$500,000.

Told Dream

A Shriner since 1933, he became interested in the work of the Shrine with children, and one of his first Madison projects was a trip to Monroe that he promot-

ed. "We were going through Monroe, and it occurred to us how wonderful it would be if we could bring some of the children down here," he said. "Art Behnke, the Monroe, clothing man, agreed to help. I stood up in front of the Shrine and told them my dream.

Mr. and Mrs. Rufus Wells leave Madison and years of service.

"Each Shriner would contribute a car, drive it, and pay the costs of the children. They hung bells on the Swiss cows along the road. We went through a cheese factory, the Swiss lace factory, had dinner at Turner hall, with yodeling and Swiss wrestling for entertainment.

And the Madison Shrine Club Crippled Children's committee he organized is still going.

Get Part of It When the Vilas Park Zoological society was in the doldrums, he was one of several who revitalized the group. Using a gift from the late Oscar Rennebohm, he headed a a committee to plan a better zoo.

"You're always disappointed that you don't get the whole ball of wax at first," he said, "but you get a part of it. And then, as time goes along, you get more."

FRIENDS

And it was the same way at the Oakwood Lutheran Home, and that again involved a gift from the late Gov. Rennebohm.

"He left \$25,000, to be spent in five years for construction, and there was only a year and a half left," Wells recalled.

Raised Children

The result was a big addition, about trebling the number of beds, and today another part of his "dream" is coming true in a retirement home there.

Wells never-has had children of his own, so he helped out others. He took one boy from a Milwaukee children's home and raised him. The same with two girls. He kept an apartment in his basement for youngsters who needed help, and dozens have used it. He's just finishing putting a youngster through school in California OF KLUSENDORF'S -State Journal Photo

Wells came to Madison in 1914, at the age of 10, when his family moved here from Sparta, starting up in the printing business, which he has continued.

Wells continues his connection with the Wells Printing Co., Inc., at 121 W. Main St., as chairman of the board and will return to Madison for annual meetings.

A Millionaire

"They were working on the last wing of the Capitol when I came," he said. "Our home on West Lawn Ave. was at the end of the city.

"When you look back on what Rufus has done for others," Mrs. Wells said, "you get the idea that he could have been a millionaire. In dollars.

And I guess he is a millionaire at that, in terms of what he's done for others.

Rickli, Fred A.

Rickli, Fred A.

Gladem, Andrew

Gladem, Andrew Aged 85, of Barneveld, died Sun-day, December 2, in a Madison hospital after a long illness. He was born Nov. 4, 1888, in Valders, Nor-way, and came to the United States in 1892. He married the former Ethel Lester, who died in 1955. He was a veteran of World War 1 and farmed in Arena Township until 1956. Mr. Gladem was a member of the Barneveld Lutheran Church and the Arena American Legion. He is survived by two daughters, Mrs. Harlan Nordvy and Mrs. Joseph Schulenberg, both of Bar-neveld; a stepson, Howard Gray, Middleton; and six grandchildren. Michele Drew's Yarn Barn is located approximately four miles south of Barneveld on CTH "K". The house pictured is of stone, and is 97-years old.

Yarn Barn Could Help Spur Your Interest in Knitting

Ladies, are you tired of sitting around the house all day with nothing special to do? Why not take up an interesting and profitable hobby, knitting.

If you're looking for a place to get started, travel four miles south of Barneveld on CTH "K" to Michele Drew's Yarn Barn. Mrs. Drew has all the essentials to get you on your way.

The main ingredient for quick and efficient knitting is a knitting machine. Although the price of the Japanese made machines often scare people away (they cost between \$250 and \$350) Mrs. Drew says that poeople spend their money on other iuxuries such as snowmobiles that cost much more and think nothing of it. But the knitting machine does something other luxuries don't, and that is provide essentials in clothing.

Mrs. Drew bought her first knitting machine six years ago, and fell so much in love with knitting that she couldn't keep herself away from the machine. "I enjoy knitting very much. One of the reasons I love it so much is that fact that I am always working on something different. If I were doing the same thing day in and day out, Pm sure I would get sick of it. But when I'm doing something different all the time, it really keeps me interested."

Mrs. Drew, a native of France, met her husband in Spain when they both were studying at the University of Barcelona. Her husband Frank, who is five years older than Michele at 34, is presently Coordinator at the Wisconsin Hospital Association. They married in 1966, and moved to their present location four years ago. Since then they have been busy remodeling their 97-yearold stone house. "We just love this house. It was really a mess when we moved in. We spent a lot of time on it, but we have it pretty well squared away now."

With her husband gone away to work each day, Mrs. Drew told him that she had to have something to do besides tending to their two children Margot, 4, and Marah, 2. So 14 months ago Mrs. Drew went into the commercial knitting business. "I started out on the machine that I had had for five years. Those machines are guaranteed for a lifetime, and believe me, they last that long, too."

As she sold a few of her demonstrators, she added another machine to her "barn" to alternate use. Her machines she has on hand are both for sale at demonstrator prices, and new machines can also be ordered through her. All machines have the lifetime guarantee.

Most of the work Mrs. Drew does is on special orders. "There is a shop in Milwaukee that keeps me busy with orders constantly. When my clothes are modeled in that store, people then make special orders to the shop and she sends them to me. Word has traveled by mouth, and several shops in Milwaukee and Madison have been sending me orders lately. It keeps me busy." Mrs. Drew said that when she makes items for display in her shop, they go faster than she can make them. "I haven't really had that much time to make display items, because I've always got standing orders waiting for me."

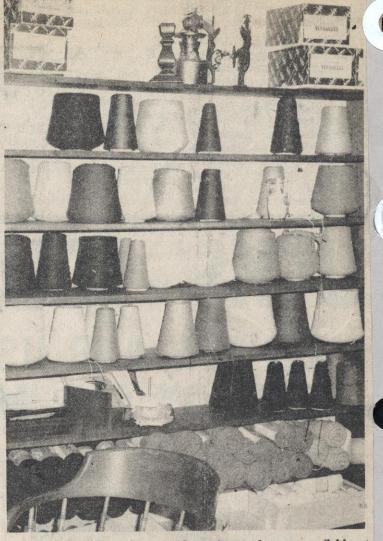

When she sells one of her kni ting machines, she does som thing that not too many peor do. "I give free lessons on t machine until the person who bu it is proficient at running When you consider the time spend teaching the buyer, I tually don't make any profiselling the machine, but it me good to see someone someinthing worthwhile will spare time."

Besides selling the mac which are also equipped s weaving can be done on them Drew sells various kinds of "I have yarns in a wide va of prices. I have varns tha price a sweater at anypla \$15 to \$100."

Besides working four hours in her "barn" Mrs. Drew also spends ti doors with the various that they have acquir moving to the country. job to feed the horses chickens and steers ev I love working outdoor as much as I love my

Most of all, Mrs. D that she likes her job she is able to "do her c I really like doing thin own, under my own con and in my own time." i said that she enjoys mee people that come in and her shop each day.

Mrs. Drew can be fo her "barn" almost every but to be sure, call ahead at 924-4747. You'll be knitting in no time.

The Yarn Barn has a wide variance of yarns available at several prices and in many colors. JAN. 10, 1974

Tuesday, February 12, 1974

An impressive, though sparsely attended, turning over ceremony took place Friday afternoon and will definitely go down in the history of Iowa County.

At a 1:00 p.m. ceremony at the Iowa County courthouse the final purchase of the two Dodgeville hospitals, St. Joseph's and General, took place. The purchase was followed with the turnover of the facilities to the Memorial Hospital of Iowa County Board. The board also received capital for its early stages of operation.

The new venture provides both acute and long-term care facilities for the county. Those who spoke at the ceremony predicted strong participation from county residents to assure the success of the new arrangement.

Last week we urged the people of the county to get behind the new arrangement to assure its Success. We believe they will, and we had our faith reaffirmed when Russell Stenseth of the Iowa County Board's finance committee said at the ceremony, "People of Iowa County are well known for their ability to pull together when there is something that needs doing. This is one of those times. The hospital is an Iowa County hospital and we have a fine medical staff here. There's no need to look elsewhere for quality health care.'

Now is also the time to say a hearty "Thank You" to the two facilities who gave much to Iowa County for a combined 107 years. Dodgeville General operated for 47 years while St. Joseph's operated for 60 years.

They deserve our praise for a job well done and deserve our salute for assisting greatly in working out details of the merger.

As we said last week, the rest is up to

Monday services held

for Lucy Moyer

Lucy M. Moyer, 84, Barneveld, passed away Friday (Jan. 4, 1974) in a Dodgeville hospital.

The former Lucy Kelly was born October 20, 1889 in Iowa. She married David Moyer and they farmed in the Barneveld area all their married life. He passed away in 1963

Mrs. Moyer was a member of the Barneveld Lutheran Church. Surviving are three sons, John and

George, Barneveld; and Harold, Blue Mounds; a daughter, Mrs. Glen Garfoot, Lone Rock; a brother, Louis Kelly, Mt. Horeb; 27 grandchildren, 57 great-grandchildren and six great-greatgrandchildren.

Mrs. Moyer was preceded in death by her parents, Mr. and Mrs. Anton Kelly, and four sons, Glen, James, Milo and Leslie. Funeral services were held

Monday, Jan. 7, in the Barneveld Lutheran Church with the Rev. Robert Twiton officiating. Interment was in the Blue Mounds Methodist cemetery.

Burial in Ridgeway Village Ceme-tery, Friends may call after 4 p.m. on Saturday, Nov. 23, at the funeral home.

Maahs will observe 65th anniversary

cemetery near Ridgeway. (Staff Photo by Bruce

At Peace with the World

Fritz)

Mr. and Mrs. Fred Maahs, Barneveld, will observe their 65th wedding anniversary at their home Sunday, February 17. Mr. Maahs and the former Agnes Frame were married in Madison in 1906, and since that time have been residents of Barneveld.

They have two daughters, Ethel (Mrs. Bertyn Davis), Dodgeville; and Garnetta, (Mrs. Elmore Berry), Mt. Horeb. A daughter, Lillian Maahs, passed away in January. A grandson, David Davis and great-grandson live in Fredonia.

All is at peace here. The winter sun on the

grave markers casts long shadows in the snowy

stillness. The picture was made in a country

Russell Stenseth dies at Barneveld

Russell G. Stenseth, 68, passed away Sunday, May 5, 1974, at his home in Barneveld.

Mr. Stenseth was born June 17, 1905, in Perry Township. His parents were the late Mr. and Mrs. Knute K. Stenseth.

On February 3, 1943, he was married to the former Ruth Jor-dan. He founded the Barneveld

> He had returned home from the hospital Saturday where he had j been convalescing from a heart attack suffered in early April.

Implement Company which he operated for 25 years; was vice chairman for the Iowa County Board of Supervisors since 1958; and was the former Village President of Barneveld for many years. He was a member of the Congregational United Church of Christ, Barneveld.

Surviving besides his wife are three daughters, Miss Evelyn Stenseth, Chicago; Miss Lola Stenseth, Madison; and Mrs. Hassan Abozeid, Van Nuys, Calif.;

Stenseth was on the new Iowa County Memorial Hospital Board and the Southwest Wisconsin Library Board. He was the state Grandfather of

the Year in 1969.

grandchildren; a brother, Lloyd, Madison; two sisters, Mrs. Henry Gerke, Mt. Horeb; and Mrs. Joseph Lauber, Brownsville.

Mr. Stenseth was preceded in death by three sisters, Marcella, Mrs. Bernadine Brown, and Mrs. Walter Brickson.

Funeral services were held at 2 p.m. Wednesday in the Congregational United Church of Christ, Barneveld, with the Rev. Paul Fotsch and the Rev. Brad Enerson officiating.

Services held for **Ray Marklein**

Raymond D. Merklein, 57, passed away at his home in Blue Mounds Thursday, March 7, 1974.

Mr. Merklein was born March 21. Mr. Merklein was born March 21, 1916 in Brokow, Wis. On November 15, 1942, he was married to Margaret Handel at St. James Catholic Church, Vermont, and they have lived in Blue Mounds the past 22 years.

He was a rural mail carrier for the Blue Mounds Post Office before his illness, a veteran of World War II, and a member of St. Ignatius Catholic Church, Mt. Horeb; a member of the Mt. Horeb Veterans of Foreign Wars, and a member of the Barneveld American Legion Post.

Surviving are his wife; his mother, Mrs. Emma Merklein, Madison; four daughter, Mrs. Stan Haack, Middleton; Mrs. John Prochaska, Mt. Horeb; Jane and Susan, at home; two sons, Michael, Appleton; and Steven, Mt. Horeb; a brother, Robert, Houston, Texas; a sister, Mrs. Ed Stanek, Madison; and four grandchildren.

Funeral services were held at 10:30 a.m. Saturday, March 9, in St. Ignatius Catholic Church with the Rev. Fr. R. J. Brophy officiating. Interment was in St. James Catholic Cemetery, Vermont.

Mrs. Margaret Erickson passed away Wednesday (April 25, 1974) in a Madison Nursing Home after a long illness. She was 85 years of age.

Services held for Margaret Erickson

The former Margaret Smith was born April 18, 1889, in the township of Blue Mounds. Her parents were the late William and Anna (Bilsie) Smith.

On June 25, 1930, she was married to Andrew Erickson, who passed away July 16, 1965.

Surviving are a son, Charles, Madison; step-daughter, Mrs. Orval Truttman, Mt. Horeb; three brothers, William Smith, Mt. Horeb; Henry Smith, Burlington; and Albert Smith, Madison; two grandchildren; and several nieces and nephews. She was preceded in death by three brothers, Dave, Jim

and Jake Smith; and two sisters, Mrs. Albert Weineke and Mrs. Jane Tibbits.

Patricia Kelly

Funeral services were held at 1:30 p.m. Saturday in the Immanuel Lutheran Church, of which she was a member. The Rev. Gary Burkum officiated. Interment was in the German Valley cemetery.

Auto dealer treats 20-year customers during anniversary celebration

Klusendorf Chevrolet, Mt. Horeb, celebrated its twentieth anniversary Saturday by honoring its customers who purchased Chevrolets in 1954 during the firm's

first year in business. A buffet breakfast was served at the Karakahl Inn after the guests were shown memorabilia collected from 1954. Pictures of some of the guests' 1954 cars were displayed, as was a 1954 Bel-Air in excellent condition. This car had originally been presented by Mr. Klusendorf's father to Irv Williams of Barneveld in appreciation of twenty-five years employment as a mechanic in the senior Klusendorf's Chevrolet' Agency in Barmarino Eric neveld.

Fredric Klusendorf, president of the dealership, said that he felt the main reason for his twenty successful years in Mt. Horeb was that he had been able to satisfy the needs of the community, and that the people of Mt. Horeb and the surrounding area had consistently made it a pleasure to do business.

"Some of the peop have bought cars and wives us every time they have purchased one, and most have consistently brought any service problems they have had to us. It's that kind of continuously close relationship that makes this business rewar-ding," Klusendorf told the group.

Among those honored were Mr. and Mrs. Carl Boley, Fred Schneider, Mr. and Mrs. Harold Monum, Ben Eggum, Mr. and Mrs. Lawrence Anderson, Mr. and Oscar Swenson, Mr. and Martin Keller, Mr. and M Skinrud, Mr. and Mrs. Adolf Schlub, Mr. and Mrs. Ed Wittwer, Part Pfictor and Mr. and Mrs. Bert Pfister, and Mr. and Mrs. Rollyn Rijahl. All of these persons purchased automobiles in 1954 from Klusendorf Chevrolet of Mt. Horeb

While in training, Debra will be taking courses in hair styling, coloring, permanent waving, skin care and other skills to qualify for her Registered Cosmetologist Operators License.

Doescher-Reisen Rites

Sharon L. Doescher and James D. Reisen were united in marriage Saturday, September 14 in a double ring ceremony at St. Malachy Church, Clyde. The Rev. Frederick Jones and Pastor Mike Ideran officiated. Parents of the couple are Mr. and Mrs. Leo Doescher and Mr. and Mrs. Donald Reisen, all of Clyde. The bride was given in marriage her father.

The matron of honor was Mrs. Raymond Hatfield, Lone Rock, friend of the bride. Bridesmaids were Mrs. Wm. Doescher, Hol-landale, and Ann Schultze, Madison

The Best Man was Dean Miller, GAA, and was on the Annua Gary, Indiana, friend of the groom. Groomsmen were Jim Kane, Janesville, and Jack Lind, Sauk City. Miniature bride and groom were Brenda Winkers, Spring Green, and Randy Reisen, Clyde. Brenda is a niece of the Degree and Wisconsin Beauty bride, and Randy is a brother of the groom. Ushers were Wm. Doescher,

Hollandale, brother of the bride, and Larry Reisen, Clyde, brother of the groom.

A reception was held at the Don Q Inn, following the ceremony, and a dance at the Lone Rock Community Hall that evening.

Friends and relatives were entertained at the home of the groom's parents, prior to the dance.

After a short wedding trip the couple are at home in Oregon, Wisconsin. The groom is em-ployed at General Motors, Janesville, and the bride at the Univer-sity Hospital, Madison. Both are graduates of River Valley High School, Spring Green.

The charred remains of what was once a home remain as do the burned and dried out waves at the (More photos on Section 1, Page 6) Void residence in Arena where five people were killed.

Five Die in Tragic Fire In Small County Village aug 25 1974

ARENA--Funeral services for the five victims of the tragic fire that swept a prefabricated metal home here early Monday morning will be held today at 11:30 a.m. at Lodi's Hamre Funeral Home.

The fire, called one of the worst in Iowa County's history, claimed the lives of the Richard Vold family. Dead are Mr. Vold, 37, his wife, Sandra, 20 and their three children, Jeremy, 4, Katrina, 3, and Deana, 10 months.

The blaze was discovered at 4:20 p.m. by Mr. and Mrs. Charles Spears who heard screams and poundings in the neighboring trailer-turned permanent residence. They awakened their son-in-law, Richard Johnson, who raced to the scene but could not get close enough to help because of the flames and intense heat.

The Arena Fire Department rushed to the scene and had the fire almost out when they entered the house and discovered the five bodies. Mrs. Vold was discovered badly burned and face down on badly burned and face down on the living room floor. In a back bedroom Mr. Vold was found with the three children, all dead. Officials said they through Vold rounded up the children and then

tried to break out a window in the bedroom to get them out. But, he was overcome by smoke before his efforts could be successful. He was found with a pillow wrapped around his hands, apparently being used as a shield to try to bust out the window.

The home was equipped with a back door near the bedrooms, away from the fire in the living room, officials reported, but it was locked and had a small washing macine in front of it, a device used by Mrs. Vold to guard against prowlers when her husband was working his truck husband was working his truckdriver job with Anding Transfer.

The windows were the kind that open out and to the middle. They could not be opened by Vold before the smoke took its toll.

Tuesday, state fire officials ruled the fire accidental but no cause could be determined. A spokesman for Fire Marshall Frank Roberts said that while possible careless smoking and a discarded cigaret had been mentioned by investigators as a possible cause, "We could not say for sure they were the cause any more than we could totally rule that out.

The Vold family had lived at the home behind the Oasis Drive-In

for the past three years. Neighbors termed them "good neighbors with well-behaved children."

The street beside the charred remains of the home was a buzz of activity throughout the day onlookers viewed the site of the tragedy.

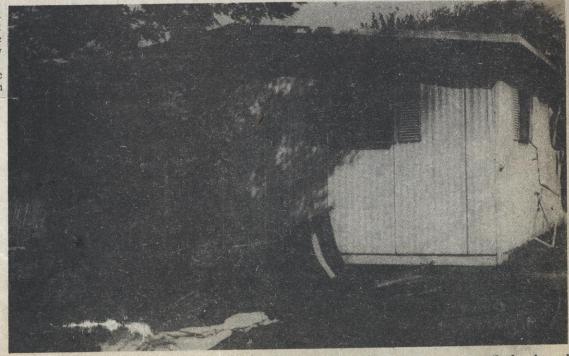

Fire Chief LaVerne Sneadth said the blaze took 4000 gallons of water before it was extinguished. It was the second fire at the same location in the past 10 years. The time before the family living in the dwelling were on vacation.

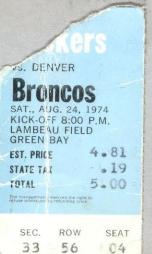

Burned items from the Richard Vold home were taken out of the charred remains. C/m

Leary, Raymond C.

Leary, Raymond C. MADISON—Raymond C. Leary, age 76, of 1049 E. Johnson, died on Friday, June 7, 1974, at a local nursing home, after a long illness. Born January 14, 1898, in Arena, Wisconsin, he was married in 1940 to the former Gladys M. Hammer. He was a self-employed palnter for many years. He retired in 1965 from Klein-Dickert Co. He had been a Madison resident for over 50 years. Mr. Leary was a member of St. Patrick's Catholic Church Painter's Local No. 802. Survivors include his wife, Gladys; a dughter, Mrs. Eugene (Doris) Ludwig, 1810 Windom Way; a step-son, Kenneth Hammer, Riverside, Calif.; three sisters, Mrs. Oscar Williams, Barneveld, Wis., Mrs. Regina Burns of 1818 Atorg Ave. and Mrs. Loraine Richgles of 534 W. Washington, and three grandchildren. Funeral services will be held at ST. PA-TRICK'S CATHOLIC CHURCH, at 9:30 a.m. on Monday, June 10. Monsignor Francis E. Doherty of-ficiating. Buriol in St. Bridget's Cemetery in Ridgeway. Friends my call from 4-9 p.m. on Sunday, June 9, at the RYAN FUNERAL HOME, 2114 N. Sherman Ave., where a Rosary will be recited at s:30 p.m.

The windows at right were the ones Richard Vold, 37, tried to remove but to no avail when he and his wife and three children died in a tragic fire Monday morning.

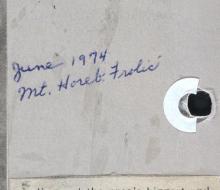

CTH K, south of Barneveld was the scene of a one-car mishap July 18. Randy Peterson, 18, Barneveld, said he met an oncoming auto, braked, and pulled to the left to avoid it. He reported his left brake did not release properly, causing him to leave the road, going into the

east ditch. He hit a mailbox, then reentered the road and left on the west side. The car then overturned and rested upside down. Peterson suffered a head bump and bruises and was taken to Memorial Hospital.

Randy Peterson, 18, Barneveld, amazingly escaped injury July 18 when his car left the road approximately 5 miles south of Barneveld and overturned in the ditch. He said he met a car and attempted to avoid it by braking, but when his left brake did not release properly, he left the road, hit a mailbox, reentered the road and went off the bank on the opposite side.

Steven L. Penault, 21, and his father, Tracy, 44, both of Ogden. Utah, ran aground in their plans to keep their truck on the road Tuesday morning one-half mile west of Barneveld on Hwy. 18-151. The accident, which occurred at 4:10 a.m., sent both passengers to Memorial Hospital of Iowa County, where they are listed in good condition with multiple abrasions. The truck was hauling several kinds of fruit, and lucky passers-by collected handouts when the refrigeration mechanics failed later in the day.

On Sunday afternoon, December 2, friends, neighbors and relatives of John Koenig, met at the Barneveld American Legion Hall to honor him on his 75th (Nov. 30) birthday with a

program and reception. Russell Stenseth, friend of John's, acted as Master of Ceremonies.

Mrs. Amalie Watson gave a short summary of John's life with the following: "When I was asked to give some of the events in John's life, I was very happy. I have known John as a neighbor and friend for over 20 years. They say, no one is indispensible, but I don't know what we would do without John and Clara in the community, Church and school. John This is a Man!" is so unassuming, so humble, but does so many wonderful things. a lunch with Birthday Cake and When I think of John's characteristics, Ithink of honesty, loyality, sincerity, dedication, hard working. You could name many others.

John reminds me of the poem: Let me live in the house by the side of the road

Where the race of men go by . The men who are good and the men who are bad,

As good and bad as I.

I would not sit in the scorner's seat,

Or hurl the cynic's ban -

Let me live in the house by the side of the road

And be a friend to man.

John was born in Kappelen by Aarberg, Canton Bern, Switzerland. He came to America in 1920 to Ohio. In March 1921, he came to Barneveld. John married Clara Urben in 1924, and they farmed in Jones Valley. They moved to Barneveld in 1951.

John served on the township and village boards; and in 1966 was elected village president.

John is a member of the Barneveld United Church of Christ. He served as trustee on the church board, and has been its treasurer since 1954.

John is a member and twice Past Master of Masonic Lodge No. 319, Madison Consistory, Zor Shrine of Madison, The Dodgeville Chapter No. 82 Royal Arch Masons, Mounds View Shrine Club and Summit Chapter No. 72 of the Eastern Star.

John, we sincerely wish you a very happy birthday - and may you have many more happy birthdays.

This is an Irish saying, not Swiss, but may it apply to you: May the road rise up to meet you, And the wind be always at your back.

May the sun shine full upon your face,

And the rain fall softly on your fields

And may God hold you in the hollow of His hand."

Words of commendation and respect were given by his Pastor, Rev. Fotsch, Rev. Love of

Madison, Ted Arneson of the Barneveld Village Board, Harland Rue of the Town of Brigham Board and Gale Manteufel, Commander of the Barneveld American Legion. Mr. Stenseth read a letter, noting John's qualities, received from J. Leslie Leonard of Richland Center, former Pastor of the Barneveld United Church of Christ.

The program ended with a tribute to John by Aletha Myers as she quoted from Wm. Shakespear's Julius Ceasar -

"His life is gentle,

And the elements so mixed in him That nature might stand up and say to all the World -

The program was followed by

A recognition day for John Koenig, Barneveld, was hel December 2 at Barneveld's new legion hall. Koenig, 75, has been leader in the Iowa County community for many years. He is picture above greeting a friend.

Earl Clauer in action at an auction on Pleasant Ridge on a cold winter day [-15 below]. That's Jim Gordon clerking on the left.

Auctioneer Earl Clauer has Clear Idea of Farm Problem

Ask an auctioneer if you want the low down on farm conditions today

"We've never had so many sales," they'll say. "I'm booked through the sum-

mer," says one. "I'm booked way into the fall of 1975," says another. "It doesn't look good for the economy," says a third. Earl "the Colonel" Clauer has gone through 26 sales in one month, including Sundays, when started calling him at 987-3222. You get a recording with word as to when he might be home so it was some time before

"We finally got an appointment. "What's going on?" we asked. "It's not good," he said. "Times are tough and many of these 'quit farming' sales are not by choice but due to circumstances.

Earl Clauer at Auction College [1936].

Earl Clauer was born and raised on a farm and despite 38 years as an auctioneer still has a clear idea of the farmers' problems. Perhaps that's why he's sometimes referred to as the "sympathetic auctioneer".

"Things are changing mighty fast," he'll tell you. "It's sure a bad time to be too far in debt."

'Perhaps 75-85% of what the farmers put on the market these days is sold at auctions. An

Grandfather George Clauer's auction bill [1912].

sell at the top market price and a place where the purchaser can always buy at his own price."

Earl Clauer worked for his father at \$200 a year and was still able to save money. He bought a new Ford from Engels at Mineral Point in 1935 for \$500 and the following year decided to enter the American Auction College at Austin, Minnesota. He returned with his diploma and held his first auction on the John Talor farm at Ridgeway on November 21, 1936.

Things were different then. The finance companies didn't move into the picture until 1940 and everything was cash unless you could make some arrange-

auction is still the best place to ment with your banker on the spot. The clerk and cashier were usually one man and it was Troop

at my first auction Strong "Besides there was always a free lunch which made things more sociable even though there were lots of free-loaders until the

lunch wagons appeared and started charging for the food. Since the finance companies took over, however, it's 25% down and finance the rest," he added.

Earl's father, Frank Clauer, tried to talk him out of becoming an auctioneer because of all the old time auctioneers still around.

Gard Nymber LF-3 Sold our personal momenty ever) at an auction EARL F. CLAUED Auctioneer & Real Estate Broker

Earl Clauer in front of his home and office south of Mineral Point.

But I figured that if I waited until they were all gone there'd be nobody to take their place," recalls Earl.

There was P.A. Bishop at Platteville who boasted of conducting three auctions at the

courthouse in one day during the depth of the depression. There was Tom Flood at Darlington, Gallagher at Cuba City, Finnigan of Fennimore, John Vesterman of Lancaster, and Carl Fredrickson at Spring Green.

Earl Clauer was able to build a beautiful new home in 1966 on land he retained when the family farm was sold. He has his office here both as a licensed auctioneer and real estate broker. He says the real estate business is still good but money is awlfully tight.

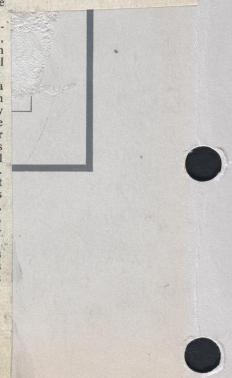

His son, Raymond, lives at Evansville, a daughter Mary is Mrs. Frank Quartuccio, Madison, and Marcia is Mrs. Dave Baltes, Middleton. There are nine grandchildren.

Earl has auctioneering in his blood. He remembers going to his first auction as a child when his father bought the two highestpriced beef cows for \$12.50 each. He's proud of the bill for Grandfather George Clauer's auction in 1912 framed on his office wall.

Meet Colonel Clauer on the street and you'll recognize an auctioneer from head to foot even to walking and dressing like one.

"How did you get the nick-name 'Colonel'?" we asked. "They say that goes way back to the Civil War when it was the

Colonels who auctioned off the army surplus at the war's end, he replied.

March 5, 1970 EDITORIAL -

In this day of artificial almost everything, - plastic this and plastic that, its a rare treat to drive through a town that has a well groomed strip of green down its whole middle spotted with beautiful beds of petunias and shrubs, and a beautiful REAL spruce tree with not a plastic limb on it at Christmas. Somebody ought to know that such a v ry unusual things these days is very much appreciated by some of us who by our own roughened soiled hands, know what work there is in making the "Real" kind of flowers grow.

The newly-formed Commission on Aging met recently to draw up a proposal for bus service for senior citizens in Iowa County. Members of the Commission include [front row, left to right]: Lucille Lauper, vice chairman; Otto Oimoen, chairman; and Mrs. Helen Clark, area delegate. In the back row are Cyrilla Mullen, secretary; Mrs. Irene Smith, John Hogan, Mrs. Marion Pustina, and Mrs. Greg Bock. Not pictured are Rev. Dennis Siebert, and Audrey Halverson. Advisors to the group are Jeanne Patenaude, Ermadine Martin, Jean Puskala, and Karen Revention of the Schlau.

Letters to the Editor

Dear Sirs:

We hope the voters of the Town of Brigham and the Village of Barneveld will re-elect Russell G. Stenseth to the Iowa County Board of Supervisors. He deserves another term.

For the past seven years Mr. Stenseth has served with distinction as Vice-Chairman of the Board and as Chairman of the powerful Finance Committee. He played a major role in the hospital merger and in the establishment of an efficient inter-loan library system in Southwest Wisconsin (he is currently vice-chairman of the Joint Library Board, which is comprised of members representing Iowa, Richland, Crawford, Lafayette, and Grant counties.) (The library service commenced in 1959 as a pilot project, financed by a federal grant. In 1973 the service was given provisional certification by the State as a library system under the new 1971 library law and made eligible for aid monies from the state. Through this system, we, personally, have obtained free-loan books from Fennimore, Madison, and La-Crosse. We understand the free-loan library in Milwaukee is also cooperating with the SW Wisc. library system). Mr. Stenseth is sensitive to

Mr. Stenseth is sensitive to the needs of the people. We have found he will do everything within his power to resolve equitably problems brought to his attention. Mr. Stenseth, we have found, makes the effort to acquaint himself with all aspects of an issue and tells you where he stands on it.

Mr. Stenseth has demonstrated to us that he is not a dual individual - a term that describes far too many public officials today. Paraphrasing Homer, Emerson and Cervantes, Mr. Stenseth does not hide one thing in his heart and utter another; his faith is not traversed by his habits; his will, buttressed by reason, is not warped by his sense; he does not row with one hand and back water with the other; his word is his bond. The next two years will be critical years for Southwest Wisconsin. During this time issues gretly affecting the socioeconomic climate of the area for many years to come will be acted upon by the County Board.

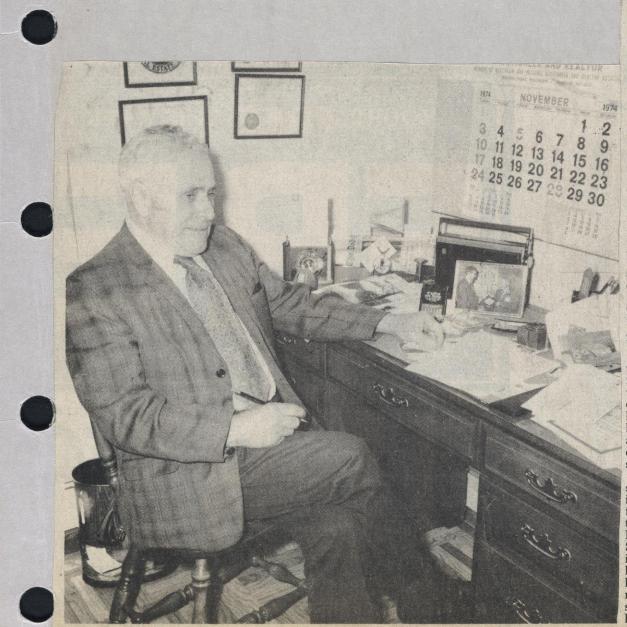

acted upon by the County Board. Mr. Stenseth will continue in his efforts to promote orderly economic growth. For many years he has taken an active interest in the conservation of our natural resources. He wants new industry and expansion of present industry, but he does not want to decimate the environment and cause great social upheaval. He doesn't want the area blotched with jungles of concrete and steel. Mr. Stenseth believes the

Mr. Stenseth believes the railroad will contribute greatly to the economic growth of Southwest Wisconsin and he will fight to preserve it. Perhaps state and federal funding can be obtained.

We suppose it would be difficult to find two people who agree on every issue brought before the County Board, and we do not agree with Mr. Stenseth on every issue and the freeway issue is one of them. We support him for the reasons indicated.

We do not know Mr. Stenseth's opponent, but we must say that he is to be commended for his interest in the welfare of the people. Mr. Stenseth wholeheartedly agrees every candidate for public office should have an opponent. Give the people the opportunity to discuss the issues, a choice of candidates, and democratic government will prevail.

Signed, Walter Thomas D.D. Thomas Farm Town of Brigham

Dave Fotsch views ROTC at UW

The Reverend Paul Fotsch and sons Dave (left) Sam (center), and Lee (foreground) of Barneveld visited the University of Wisconsin-Madison on Friday, April 12. While there they took the opportunity to tour the Department of Military Science and talked to Captain Bob Schoville about the ROTC Four-Year Army's Scholarship Program. Dave, junior in high school, learned about a new feature of the program which will award 300 of the scholarships (worth up to \$16,000 over four years) next October. The Professor of Military Science,

Engagement Announced

Mr. and Mrs. Paul Jones of Barneveld announce the engagement and approaching marriage of their daughter Pauline Kay to David Dean, son of Wayne Flack, Postville, Iowa. An August 10 wedding is being planned.

Major Charles Smith, also talked to the group during the visit and extended an invitation to all interested in learning more about Army ROTC or in touring the facilities to contact the Department of Military Science at UW-Madison.

Healy-Ashbaugh

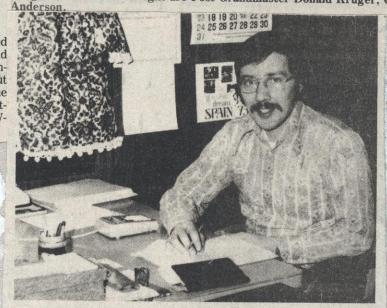

Announcement is made by Dr. and Mrs. John Russell Healy, 5510 Dorsett Dr., of the engagement of their daughter, Alison, 1621 Monroe St., to M. Bryan Ashbaugh, Evanston, Ill., son of Mr. and Mrs. Varian L. Ashbaugh, Littleton, Colo. She attended the University of

Wisconsin-Madison and is a certified histotechnologist. She is employed at Thistle Down Stables, Verona.

He is a graduate of Northwestern University, Evanston, Ill., where he was a Phi Delta Theta and captain of the basketball team. He plans graduate work in law or business.

The wedding will be Aug. 3 in the Springdale Lutheran Church, Mt. Horeb.

Orren Davies, Dodgeville, the only living charter member of Barneveld Lodge No. 319, was honored at the 50-year member night held Tuesday evening, May 14. He is now a member of Dodgeville Lodge No. 119. Left to right are Post Grandmaster Donald Kruger, Orren Davies, Grandmaster A. D.

The American National Insurance Company has a new agent in Dodgeville.

Lon Olson, 114 W. Chapel, is working out of the Madison office and has set up his office at his home residence.

Clson, a December graduate in Mathematics from UW - Platteville, has been in training since October and started the new position in a full time capacity Feb. 11. He will be participating in a train-

ing program for another year. Olson is at the present American National's only agent in the Southwestern Wisconsin area. The company is well established in the southern part of the United States near its home office of Galveston, Texas, and last year took second in the nation in overall performance out of 1800 companies.

American National is relatively new in the Wisconsin area, and Olson feels this is to his benefit. "As the company grows, I hope to grow with it."

The general agent in Madison tabbed Olson in an interview in college, and made him, for the present, the only agent the company has. But Olson said the company hopes to add 10 more agents

in the next year in Wisconsin. At present, American National offers protection for life, health, dsability, accidents, annuities, pension benefits, and several other plans such as family and college plans. Olson, said the company plans to be all casualty before the end of the year.

New Iowa County Game Warden Discusses Job

LE CHRONICL APR. 25, 19

With the January departure of Larry Keith, Jerry Wagner has moved in to take the position of Iowa County game warden.

Wagner was assigned to fill the position by the state Department of Natural Resources. He has been working for the DNR since 1968, when he began on a part-time basis while attending Stout State University. A native of Menominee, Wisconsin, Wagner served for five years in the Air Force before attending Stout, where he earned a degree in Psychology. After working on a parttime basis until Cctober of 1972, he then began working full time and was on special assignments all over Wisconsin until his assignment to the Iowa County position in January.

work at his new post, Wagner has become impressed with the area. "I really enjoy working down here. The area is really beautiful, and more than anything, the people are really friendly and willing to cooperate. I'm just happy about the whole situation."

Cne of the main problems Wagner foresees confronting is, according to Wagner, "the same problem that wardens face throughout the state, namely the increased deer herd. As the deer population increases, so does deer poaching. This is going to require a lot of time and effort in the future."

Another problem that Wagner says must be tackled is "chang-In his first three months of ing public opinion as far as pollution in streams and creeks goes. People are going to have to realize that cattle can't be trampling in and out of the creeks, and that they can't be dumping their garbage in the stream on their farm." He says his main ambition in his new job is to "clean up the county".

> The 30-year-old bachelor, who now resides in Dodgeville, said that more than anything, he is here to serve the people of Iowa County, and if any problems arise, local residents should feel free to contact him and "we'll see what we can work out".

Emily Baylis

Emily Baylis, age 89, of Barn-. eveld, died on Saturday, May 18, 1974 at a Mt. Horeb Nursing Home. Born in the Barneveld area Cct. 13, 1884, she was a member of the Congregational United Church of Christ, of Barneveld and the Mt. Horeb Order of Eastern Star. She was a bookkeeper for the State Bank of Barneveld until her retirement 15 years ago.

Survivors include three nephews Robert Spawn, California, James and Charles Utter of Middleton; a niece, Mrs. Ruth Close of Middleton.

Funeral services were held at Congregational United Church of Christ, in Barneveld at 2 p.m. on Tuesday, May 21. The Ellestad Funeral Home, Mt. Horeb, was in charge.

Raymond C. Learv

Raymond C. Leary, age 76, Madison, died on Friday, June 7, 1974 at a local nursing home, after a long illness. Born January 14, 1898, in Arena, he was married in 1940 to the former Gladys M. Hammer. He was a self-employed painter for many years. He retired in 1965 from Klein - Dickert Co. He had been a Madison resident for over 50 years. Mr. Leary was a member of St. Patrick's Catholic Church and a Charter member of the Painter's Local No. 802.

Survivors include his wife, Gladys; a daughter, Mrs. Eugene (Doris) Ludwig, Madison; a step-son, Kenneth Hammer, Riverside, Calif.; three sisters, Mrs. Os-car Williams, Barneveld, Mrs. Regina Burns and Mrs. Loraine Richgels of Madison; and three grandchildren.

Funeral services were held at St. Patrick's Catholic Church at 9:30 a.m. on Monday, June 10. Monsignor Francis E. Doherty officiated, Burial was in St. Bridget's Cemetery in Ridgeway.

Barneveld teacher retires

Mrs. Abner (Hazel) Helgeson, friend of many in Mount Horeb and a longtime teacher of grades three and four in the Barneveld School district, retired May 31 from her duties after 15 years of service in the Barneveld area.

Mrs. Helgeson was a 1926 graduate of Hollandale High School and received her higher education from St. Olaf College and Platteville Normal, where she earned her degree in Elementary Education.

She was married to Abner Helgeson in 1936 and their children are Paul of Mount Horeb, James on the Helgeson farm in Barneveld, and Janet Kiel of Argyle. Mrs. Helgeson has nine grandchildren.

Mrs. Helgeson started her teaching career in Benton, where she taught for five years, and started in this area 15 years ago when she taught in the Middlebury Rural Schools. 12-1/2 years ago, she started her career with the Barneveld School. She has served on the school boards of Clay Hill Rural and the Barneveld School.

1974

Mrs. Helgeson has been feted with various parties for her retirement, including a "this is you life'' party at Hideaway Acres near Dodgeville, at which ad-ministration, faculty, school board members, friends and employees of the school were in attendance. She was also honored by her room mothers and pupils who have shown their appreciation for 18 years of professional service without one day of sick leave.

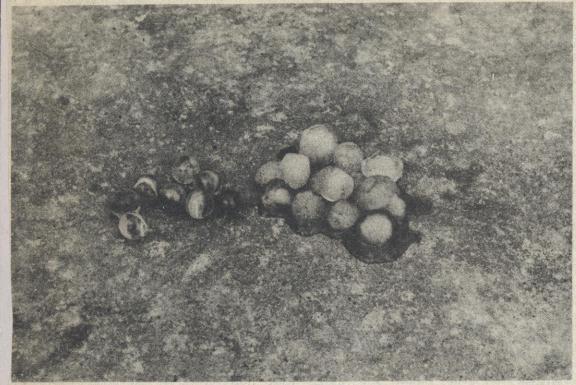

Dave Manteufel, Barneveld, will graduate from high school Thursday, May 30.

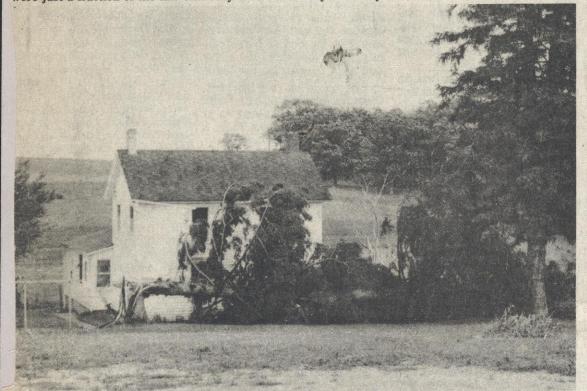

Following his graduation he will be employed at Zwald's Water Softening Service, Inc., Mt. Horeb.

Hazel Helgeson

Rain, Wind, Hail Rips County

These hail stones were found nearly 24 hours after the violent storm which ripped through the area on the Allan Massey farm near Barneveld. The marbles to the left show the size of the hail stones, which were just a fraction of the size that they were when they fell a day earlier.

John Ceely, Barneveld, saw two of his three pine trees surrounding his house hit the ground Friday night during the hail and wind storm.

Last year it happened June 16, and this year it came two days earlier on June 14.

A violent storm hit several areas in Iowa County last year in mid - June and caused severe wind damage to trees and build- 39 ings in various locations. This year, accompanying the wind was damaging hail which pummeled crops into the ground.

The storm followed a relatively straight line from Richland Center through the Iowa County area and back out again and into Dalevville. The most severe damage was suffered in a two mile wide area along that line.

Iowa County areas hit the hardest were parts of Highland, Spring Green, Ridgeway and Barneveld. Winds were clocked at 60 miles per hour and rains were estimated at from four to six inches, wherever rain gauges remained to measure. Several tornadoes were sighted as the 30 minute storm ripped through the area.

Golf ball to baseball sized hail was reported in several spots along the trail of destruction. Telephone and electrical ser-vices were out in several locations throughout the night and to make their crop certification into the early hours of the morn- on ASCS Form 580 and then ing. Telephone company officials reported that service was out in the Barneveld - Ridgeway area inspect the damaged fields, and the longest, with approximately will begin on approximately June 25 lines being affected. YOU'RE NEXT! A herd of cows were still waiting at mid-morning to be milked Friday at the Elmo Bilse farm south of Barneveld. A Thursday night windstorm wiped out the barn of neighbor Ed Duffey, and Duffey was forced to milk his cows on the Bilse farm a mile down the road. Over 140 cows were milked in the Bilse barn both Thursday night and Friday morning at unusual hours because of power outages.

Iowa County Still Feeling Effects of Storm Crop Damage

Bill Hughes, Barneveld, is one of many farmers who have been replanting corn during the past week to 10 days. Hughes was forced to plant over 70 acres.

The devastating storm which ripped through Iowa County June 14 is still taking heavy tolls on area farmers.

What had to be done was done, last week for the most part. The battered corn crop was dug up and planted over on several farms in the Ridgeway-Barneveld area, as the corn that was damaged did not come back as had been expected.

LaVern Draves, Iowa County Agricultural Agent, said that the corn did not come out of it like he thought it would. "The plants began to rot and die. The hail knocked it down and then a second beating rain a week later put it out. The leaves were batted in-est I have heard of is a 78 day to the ground, and they couldn't keep on growing."

One thing that Draves said was harmful to the whole situation was the fact that insurance appraisers did not begin to come out for a week to 10 days. "Those were a very critical 10 days. We lost 10 days of growing conditions in that time.

One of the things suspected of killing the corn plants was the herbicides used. Draves said that "herbicides will cause damage under undue stress, and that was about as undue as you can get."

Draves stressed the farmers' chance to collect government aid through the Iowa County ASCS office. He said they would be ineligible for any payment if they didn't report their participation by form 580 before July 15. In order for this to take affect, appraisers will have to inspect the damaged fields, and the farm-

ers who plant their corn over before the appraisers arrive will be eligible for any payments. But according to Draves, it would be almost definitely too late"to plant the corn over now.

"The middle of June is usually the latest to plant corn. The chances of getting a good corn crop any later than that are pretty grim."

Draves suggests instead of planting the late corn crop, to look to forage crops such as sorghum and sudan grass. He said with that at least the farmer will have something to fill his silos.

Draves said that the corn that has been planted in the past week or two has been of the shortcorn. If we have real good luck and mainly weather, we may get something out of the corn that was matter if there are dents or planted, soon after the storm. I just hope we don't get an early frost. The average for this area is late September. It will have to be later this year if we are to be lucky."

Draves said that of the fields he inspected in the damaged area, the best he could find after the storm was a crop with 8-10,000 plants per acre, which is far below the normal. He said he saw others as bad as having two growing plants out of every 15 foot stretch, which is about 2000 plants per acre.

Draves predicted that approximately 50% of the farmers hit by the storm were insured. Of those insured, most waited for the adjusters to come around to their

farms, but didn't waste much time in replanting after the appraisers had left. Many farmers replanted their whole crop, while others replanted just the worst fields.

One Barneveld farmer devised a plan to replant but yet leave what he thought might come back of his present crop. Jerry Ihm went over the hard-packed land with his four-row cultivator and cultivated the old crop, and pulled a four-row corn-planter behind. The cultivator worked up the land enough so Ihm could plant the new corn right next to the old rows without taking them out. Although corn prices are predicted to go up, Draves suggested that farmers wait to buy corn. "We are not in a cash-grain crop area around here. The quality of the corn is not that high, so the farmers can not expect to sell it for an exhorbitant price. Actually, the quality of the corn is not that essential, so a farmer curves in the ear or not. A farmer should watch the moisture, however."

Draves said that all indications show that there will be a shortage of corn in the fall which may boost the price some, but he doesn't think a farmer should tie up a large amount of money now in buying it. "A farmer should be able to buy some corn at a fairly reasonable price. A seller will be able to get more selling it to area farmers than selling it on the market. The market takes out deductions for every

Robert Cullen and his father, Elmer Cullen, Ridgeway, inspect the damaged corn and oats from Friday evening's hail storm. The corn had been planted May 2 and was 10-12 inches high at the time of the storm. Upon close examination of the corn plants, Iowa County Extension Agricultural Agent LaVerne Draves found the growing point about 1½ inch above the ground which was below the damaged portion of the plant. Draves stated later planted corn could still have the growing point below ground and thus with such severe damage the corn could still recover. Even though the corn may be set back, farmers could suffer a greater loss of profits by replanting the corn. "At least we now have the corn rooted in moist soil wating for warm weather", Draves stated. Farmers still have an ace in the hole vet through the ASCS office. Completing report form 580

Farmers still have an ace in the hole yet through the ASCS office. Completing report form 580 which farmers received from the ASCS office will help them keep their corn base, give them some yield protection and a price guarantee. Form 574 which they use to file a damage claim can give them some protection in case of certain yield losses as a result of the storm. Draves urges farmers not to push the panic button and destroy the crop yet. A few good growing days will indicate the recovery ability of their crop crop

Draves feels that some of the hay crop may have received the most damage. Prompt harvesting the first crop as green feed, low moisture silage or baled hay will help the second crop. Legumes will not grow out of the damage as grasses do. Farmers expect the first crop of hay to fill $\frac{2}{3}$ of their season's hay needs. Some fields have suffered more than $\frac{2}{3}$ in yield through leaf loss and lodged hay.

As if the corn wasn't having enough trouble growing this summer, a tree on the Ted Theobald farm south of Barneveld sprawled out on the field during the June 20 windstorms.

Duffeys Receive Insurance Payment for Windstorm Loss

Bill Roberts, Associated Milk Producers Incorporated [AMPI] Fieldman, presents insurance checks to Mr. and Mrs. Ed Duffey, Barneveld, as Harland Rue, Corporate Board Director of AMPI, looks on. The payment to the Duffeys from AMPI comes after their 100-foot barn was destroyed in a June 20 windstorm. AMPI paid \$2276.00 to the Duffey's.

A violet windstorm swept through sections of Iowa County June 20 of this year, leaving a trail of destruction.

Among the hardest hit was the Ed Duffey farm, on CTH "T" southwest of Barneveld. Duffey's 100-foot barn was completely leveled by the high winds that whipped through the area.

Duffey was forced to milk his 40 cows in a neighbors barn for several days after the loss, and only recently has a replacement barn been started. In the meantime, Duffey has been milking in the basement of his old barn, where a temporary lean-to was recently built to protect the basement from the weather. He

hopes the new barn will be completed by late September.

Duffey had insurance on the barn for \$22,000.00, but because of higher costs in materials, he speculates that the new barn will cost approximately \$42,000.00.

To help offset some of the setback, Associated Milk Pro-ducers Incorporated (AMPI) paid the Duffeys \$2276.00 for the

windstorm damage done to the barn.

In the month of June, the In the month of June, the Mid-States Region of AMPI cov-ered losses of \$11,127.00 for windstorm. \$2176.00 was also paid out to victims of fires, and \$6240.00 went to those who suffered as a result of power failure, Lightening victims re-ceived \$650.00, and AMPI paid \$420.00 for cows treated for \$420.00 for cows treated for hardware.

Merle Olson presents a wheelchair and crutches to other members of the service unit, Iowa County 40 et 8, voiter 1455. The equipment is to be used by needy in the area. Money for the equipment was raised by selling magazine subscriptions. Pictured left to right are: Syl Heeler, Dodgeville; Marian Raess; Merle Olson, and Joe Murphy, Ridgeway.

Four-Foot Rattlesnake Victim for

neveld, simply shot it.

At approximately 1:00 p.m. June 26, Mark Schaller, 9 year-old son of Mr. and Mrs. Bob Schaller, Barneveld, was walking through the woods near the Carden home. All of a sudden he said he heard a rattle, and when he THE DODGEVILLE CHRON looked he saw a coiled rattler

Barneveld What would you do if you were confronted with a four-foot rat-tlesnake? Mrs. Bill Carden, Rt, #1, Bar-neveld simply shot it

approximately 6 feet away.

Mark calmly proceeded to his aunt's house, and reported that he had just seen a rattlesnake. Mrs. Carden at first found his story hard to believe, but after some persuasion, she went to check it out (with her .22 pistol for protection, just in case). When she got to where he said he had seen it, sure enough, it was still there, rattling to it's little heart's content. So Mrs. Carden raised the .22 pistol and fired, striking the snake in the body. When it contin-ued to rattle, she fired again, and a third shot killed the rattler with a bullet between the eves.

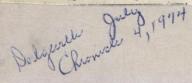

Barneveld Girl Plans Stay Brazil This Summer

"I wanted to go to Columbia," said Lois Knight, 17, daughter of Mr. and Mrs. Arnold Knight, Barneveld.

Lois left July 2 for Brazil in-stead. She'll stay there two months, arriving back on August friend. From here Lois will stay 29.

South America began about three years ago when a South American student stayed a few months. In all, three students from Sao Paulo and one from Mexico have stayed at the Knight home. In between, friends of the students have stayed also.

Knights became good The friends with Carlos Carbaho from Brazil when he stayed. He teased Lois about Columbia, saying she should visit Brazil because "it was heaven". They fought about it over a year, verbally and through letters. Finally with everyone's encouraging, Lois made arrangements to go.

She joined the Brazilian-American Society which gives members about half off on air fare.

She will stay in Rio de Janeiro for 4 days at the home of Evelyn Freier, a South American mostly in Sao Paulo with the Her interest in traveling to families of Edgard Carbaho, Celso Leme and Arthur Gomez. She will visit the mountains and the Atlantic Ocean. Lois was excited about visiting with the mountain people and learning about them.

She was apprehensive about being isolated because everything will be in Portuguese. But she looked forward to meeting the families she had heard so much about, and the statue of Jesus high on a mountain overlooking Rio de Janeiro.

To earn money to go, Lois worked for her grandmother on the farm. When asked what she was taking along, Lois said applesauce cake and chocolate chips. Her South American friends have neither at home, and loved the delicacies while in the United States.

She admits she was not all that nonchalant in her actions. "I was shaking like a leaf when I fired at that thing. I figured I had to kill it though, because I sure wouldn't feel secure knowing there was a rattlesnake that close around here."

Having killed the one snake, she still doesn't feel as secure as she'd like to. "I've heard that where there's one, there's two. That sure gives me something to think about.

Woody Roberts, the local "expert" on rattlesnakes, confirmed her suspicion that more rattlers probably lurk in the area. "Yes, rattlesnakes tend to trail one another. There could be more in the area."

He also projected that rattle-snakes will be getting thicker in the near future. "There are so many woods with no cattle in them, and that's often where you will find them."

He also said that the rattlers are just starting to move out now, due to the warm weather.

Mrs. Carden said it didn't take her husband Bill, who is a painting contractor in Madison, long to teach her how to use a shot gun. "He showed me how to use it that same night. I don't want to have to get as close as I did last time if the occasion ever arises again." She shot the snake from approximately 10 feet away.

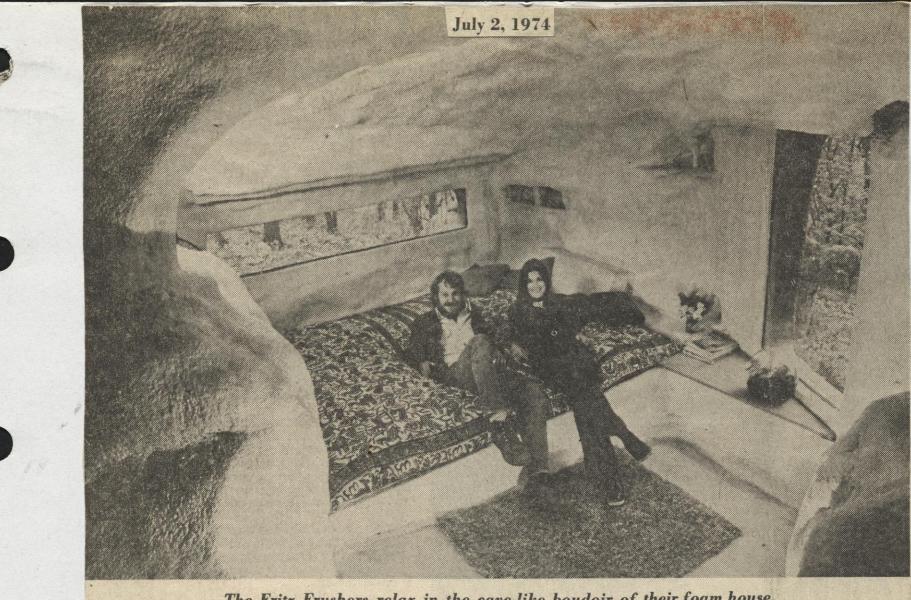

Mom drew her trusty .22 pistol and shot this 3' 9" rattle snake near her rural Barneveld home last Wednesday afternoon. The William Carden boys, Brian, Jason

and Bradley, left to right, proudly display their mother's trophy of the hunt. The Cardens live about two miles east of Barneveld.

Mom bags rattler

Mrs. Bill Carden, Barneveld, displays the rattlesnake she killed near her home with a .22 pistol.

The Fritz Frushers relax in the cave-like boudoir of their foam house.

Foam houses are billowing forth here and there throughout the United States, one of them in the hills near Blue Mounds.

Capital Times photographer Bruce Fritz and Reporter Adam Solomon drove out to take a look. What they found is pictured and told here. Read on:

The windows and contours of the foam house make fascinating light patterns on the walls.

They built their house of foam

By ADAM SOLOMON

Fritz and Dona Frusher were so excited by the artistic possibilities of a house with no square corners that they built one of the few foam houses in the United States in the lovely hills of Blue Mounds.

They are so pleased with the results of their cave-like foam mansion — which has a foam bath, foam furniture, and a foam birdhouse — they intend to make a professional career out of building foam houses and furniture for other people.

Fritz is such a passionate believer in foam houses — which he describes as "a habitable sculpture" — that he dropped out of a UW-Madison landscape course some three years ago, and traveled across the country, with Dona, looking for someone who could teach him how to handle foam.

Foam — for the uninitiated — originally comes in a liquid form, but when sprayed from a gun it expands to 30 times its original volume within five seconds and almost completely hardens within a minute.

Difficult as it is to imagine, Fritz made his house by spraying foam onto plastic sheets, 100 feet by 40 feet.

After having anchored one end of the sheets to the ground with rocks, he used a high prwered fan to billow the sheets out. Then he sprayed foam, at least two inches thick, onto the sheets.

The solidified foam would be like a breaking wave, frozen before it had a chance to crash down.

And then up would go the next piece of plastic and the foam, and the breaking wave would either be extended or closed off.

The reason Fritz and Dona are so excited by this new art form, is they feel "the possibilities with foam are limited only by your imagination."

In their living room they have a fabulous chair — in which Fritz sleeps all the time — made out of a weather balloon, and another, not-so-fabulous, chair — it's uncomfortable — made out of a carpet.

The balloon was sprayed with foam and then hung from the ceiling by a basket made of ropes. Luckily Dona is an interior designer.

An opening was cut into the balloon, so one can lean back into its enveloping interior. It is so delicately balanced that the slightest motion sends it rocking.

Foam is the best insulation known to man, and not suprisingly is used primarily for industrial purposes.

But it has certain advantages in the home; a low heating bill in the winter and low air-conditioning bill in the summer.

Unfortunately, one disadvantage for anyone who would like to mass produce foam houses is the cost.

The Frushers' home cost about \$20,000 to \$25,000, but it would have cost double if they had done it through a contractor.

But to build a house without a contractor is no easy thing.

Fritz estimates it takes a good solid year to learn how to apply foam properly.

Such noxious fumes are emitted while spraying you must use a respirator.

With something that hardens so quickly, you can't afford to make too many mistakes. And you have to cover up completely; otherwise the foam will harden on your skin immediately.

And if the foam forms a beard on your face, you have to wait until the beard grows out to cut it off your face.

Ironically Fritz found his first foam job here in Madison with Clark Techtonic, after he had traipsed out to Colorado and California looking for a job. They were just beginning business when he returned from his travels.

When Fritz and Dona first moved out to Blue Mounds, all they had was a trailer for a home.

That fall in 1972, they built the first portion of the house — the bedroom.

That winter Fritz spent most of his spare time using an air hommer to cut out the stone steps that lead down to their bedroom.

The rest of the house — the passage way, the dressing room, the bathroom, the dining room, τ and the kitchen — have slowly gone up over the year.

But Fritz estimates that knowing what he knows now, and working with a crew of three men, he could put up a similiar house in a month.

The Frushers eventually will have a grey coloring on the outside of the house, which will blend in with the rocks on which it is built.

Once the ground cover and ivy grows over the house, people may have trouble distinguishing it from a natural stone cave.

But the kitchen and aquarium, which is next to the bathtub, might make a visitor suspicious.

The walls of the kitchen are actually made out of old bed sheets the Frushers borrowed from friends. They just strung them up, and covered them with foam.

According to Dona studies have found that foam furniture and surroundings tend to make introverted kids more relaxed and extroverted.

Speculation is that the body heat thrown back by the foam gives the children a sense of security.

At the same time Dona complained that adult friends pound their foam furniture to see if it will break. (Actually it is almost indestructible unless it is subjected to an 800 degree fire or one particular chemical which dissolves it.)

"Since this is different they are curious to see what the breaking point is", she commented.

That may well be, but then of course, maybe it's because their guests feel less inhibited than they normally do.

Nancy Roberts, right, receives congratulations from Dr. Bjarne R. Ullsvik, chancellor of the UW-latteville. Nancy, daughter of Mr. and Mrs. Clinton Roberts, Barneveld, won a scholarship from the association for Excellence at the university. She is majoring in Medical Technology at the university.

Thomas Massey

Tom W. Massey, 18, Rt. 1, Hollandale, died Tuesday, December 11 in a Monroe hospital from injuries sustained in a car accident on Friday, December 6. He was a student at the SW Tech, Fennimore. He graduated from Pecatonica High School. He was a member of Hollandale

Lutheran Church. Survivors are his parents, Mr. and Mrs. Neal Massey, Hollan-dale; one sister, Elizabeth, Platteville State University; one brother Vernon, Stevens Point University; paternal grandparents, Mr. and Mrs. Wendall Massey, Hollandale; maternal grandmother Howard Thompson.

Woodman - When there is mud on Mary Sowders' floor, it means that business is good, and

Mary Showders is owner and operator of Mary' Bar in this for Advance Transformer in small Grant County village locat-

ed on Highway 133 some 5 miles, southwest of Boscobel. THE SUN shone brightly was the Kelly Hardware store,

through a front window, casting was slow. streaking rays through the cloud of dust raised as Mary vigorously swept up clods of hardened mud from her tavern floor. A beer cheaper" than in Boscobel and deliveryman banged the side screen door as he carried in cases and stacked them along the wall.

This commotion broke the silence of a warm, spring-like afternoon, and stirred life into the community which sits peacefully beneath a high, treelined bluff that forms a ridge for the nearby Wisconsin River Valley.

It is almost as if an alarm had sounded. No sooner had Mary put down her broom and moved behind the bar to wipe up the settling dust, and customers began to arrive.

EMIL BENDER, a grizzled ternoon. looking farmer with several days' growth of beard, settled onto a bar stool and ordered a glass of orange juice with a shot of something.

Bender has lived all 64 years of booming community and center for shipping cattle and lumber.

"There used to be a huge lumber yard and stock yard here. They also had a couple of hotels and barber shops along with a hardware store and a number of for Woodman, also had a quiet other businesses." Bender said as he sipped on his orange drink.

BENDER WAS happy that day because the break in weather had given him a chance to do some cleanup work around his farm before anymore snow or rain should fall.

However, the oldtimer had a gripe or two which he sounded off to Mary, who was busy waiting on a couple of other customers who had come into the tavern.

"It's crazy. Gas prices are going up, and hogs are going down. A farmer can't hardly afford to operate," Bender grumbled.

"YEAH, I don't see how they figure they will get food prices down if they keep raising other prices to the farmer," Mary piped back as she moved from behind the bar toward the wood stove near the tavern side door.

Even though Mary has her own opinion about the energy crisis, politics, the economy, and other things, the heavy-set bar owner is happy with her business in Woodman. "I lived and worked in Milwaukee and come from Kenosha County. You can't beat a place like this with plenty of fishing and a steady farm trade.'

band, Donald, was transferred from Schaumburg, Ill., to work Boscobel.

Business at the general-purpose grocery, which at one time

THE KUNSTMANS settled in Woodman "because the taxes are because the store presented a business opportunity, Mrs. Kunstman said.

"If the gas situation were a lot better, we would have people from Iowa and Illinois up here fishing on the river or at Woodman Lake," Mrs. Kunstman said. She plans to expand the store business to sell beer and worms this summer in hopes that the tourist trade of last summer will return

KATHRYN TETRICK had only one customer at the Woodman Station of the Boscobel State Bank that warm and peaceful af-

"We are usually busy on Mondays." Mrs. Tetrick said as she leaned on the huge, old, oak counter that runs the length of the bank building.

A bare light bulb hung from a his life in the Woodman area. He long cord and dangled down in recalls when the village was a front of the bank's safe in a corner of the huge open room. The old, wood-frame building

always has been a bank, Mrs. Tetrick said.

LaVON STRAND, postmaster afternoon. Her only customer was little Dan Kunstman who dropped off a letter at the combination postoffice and Strand home, located north of the railroad tracks and business section.

Mrs. Strand, a native of the area, is sort of the Woodman historian "I started to write down some history facts about the village a couple of years ago but never finished it.

According to her notes, the village was founded by and named after Cyrus Woodman, who settled in the river valley in 1864

The village at one time had a population of more than 500, Mrs. Strand said, noting that that was before her time.

"OUR POPULATION is now 113. While most of the residents here are retired people, we have had a number of younger families move in during the last couple of vears." Mrs. Strand said.

The only new building in town is a home built on the east end of the Main St., and that went up about five years ago.

The only other businesses in town, a service station garage, a pool table manufacturing business, and a used lumber Business is good at Mary's, shop, were closed that warm afternoon

Barneveld native Funeral services were held Ladies and the Mount Horeb

Funeral services were held Saturday for Matilda A. Minix, 87, of Barneveld at Barneveld Lutheran Church. She died Sept. 11 at Oakwood Lutheran Home of

Madison after a long illness Rev. Robert Twiton officiated, with burial in West Blue Mounds Lutheran Cemetery. Ellestad Funeral Home of Mount Horeb

handled the arrangements. She was the third of seven children of Teman and Ingar Arneson and the last to survive her pioneer Norwegian parents. Born in Barneveld May 8, 1887, she was educated locally, graduating from Mount Horeb High School and attended Whitewater Normal and St. Olaf Colleges. She graduated from the University of Wisconsin-Madison in 1914 and taught rural elementary school in the Barneveld area, at Mount Horeb High School and ended her teaching career as a history teacher at Madison Central High School in the early 1930's.

Married to John Minix in 1933, she helped him develop Blue Mound Park. Her husband preceded her in death in 1946 in a road construction accident at the park, after which she and her brother, Edgar, continued the park operation until 1959 when they sold it to the State of Wisconsin.

Mrs. Minix participated in many community activities. She was a member of the Madison Civics Club, served as clerk of the Barneveld Union Free High School for several terms in the 1950's, was a charter member of the Barneveld Woman's Club and was instrumental in organizing the Barneveld Public Library. She served on the Library Board of Trustees until recently when ill health terminated her service.

Mrs. Minix was a lifetime member of Barneveld Lutheran Church, served as president of the

Circuit Women's Missionary Federation in the ELC and was a member of the Barneveld Ruth Circle, ALCW.

Surviving are three nieces, Mrs. Archie (Esther) Shea of Ft. Lauderdale, Fla., Mrs. F. P. (Rebecca) Nause of Sheboygan and Barbara Arneson of Barneveld; and four nephews, Philip Arneson of LaCrosse, Anton S. Arneson Jr., of Madison, Theodore I. Arneson and Carl F. Arneson, both of Barneveld.

Matilda Arneson Minix

Matilda Arneson Minix was born in Barneveld on May 8, 1887, and died Wednesday, Sep-tember 11, 1974 at Oakwood Lutheran Home, Madison, Wis-consin at the ane of 87 years 4 consin at the age of 87 years, 4 months and 4 days. She was the third of seven children of Teman and lngar Arneson and the last to survive her pioneer Norwegian narents.

As a civic minded person, Matilda took part in a variety of activities. She was a member of the Madison Civics Club for many years. She served as Clerk of the Barneveld Union Free High School for several terms in the School for several terms in the 1950's. She was a Charter Mem-ber of the Barneveld Woman's Club, serving as its President in 1954 and 1955 and was instru-mental at that time in organizing and developing the Barneveld Public Library. She served on the Library Board of Trustees until recently when ill health termin-ated her service. ated her service.

Matilda was raised in the Lutheran faith and as a practicing Christian, was a strong believer and active, lifetime member of Barneveld Lutheran Church. She served as President of the Ladies Aid and the Mt. Horeb Circuit Women's Missionary Federation in the ELC and was a member of Barneveld's Ruth Circle, ALCW.

Rickey-Anderson vows spoken

Janet Lee Rickey, daughter of Mr. and Mrs. Robert Rickey, Barneveld, became the bride of Steven Charles Anderson, son of Mr. and Mrs. Otto Anderson, Route 1, Mineral Point, in an afternoon service in the Mount Horeb Methodist Church Saturday, Sept. The Rev. Merlyn Trombower officiated before an altar decorated with mixed flowers. Mrs. Lynn Cullen was the organist.

Fr. R. Dutchoff, pastor at St. atrick's Catholic Church, Patrick's Hollandale, assisted in the wedding ceremony

Soloists were Sue Sunby, Mount Horeb, who sang "We've Only Just Begun" and "The Lord's Prayer," and Jeff Hermann, who sang and accompanied on the guitar in the singing of the first song.

The bride wore a chiffon over taffeta gown and a mantilla lace veil and lace train. She carried a

Watkins, Barry

Watkins, Barry MADISON — Barry Watkins, age 42, died on Wednesday, September 18, 1974, at a Madison Hospital after a brief illness. He was born August 4, 1932 at Barneveld Wis-consin. Pustina, Garfield Thomas, Bernard Sersch, James Toay, Glenn L. Thronson, Frank E. Ryan, O. L. Miller, Max A. Demuth, Ray Marr, I. Dalven Julian, George Branger, Ernie Jacka, Brad Bishop, Boyd Brown.
Sup. Eichorst moved adoption of the resolution.
Sup. Hogan seconded the motion. Carried.

DODGEVILLE CHRONICLE THURSDAY, OCT. 3, 1974

The Barneveld class of 1949 held their 25th High School Class Reunion recently at the Thym's. Those in attendance were front row, left to right: Roth Watson, Gilbert Norby, Jim Roberts, Joe Thuli; 2nd row, left to right: Jo Anne Helmenstine [Mrs. Elwood Lutz], Carol Williams [Mrs. Glenn Kelly], Gladys Anderegg [Mrs. Arnold Thuli], Florence Erickson [Mrs. Charles Binger], Norma White [Mrs. John Lynch]; third row, left to right: Tom Klusendorf, Bob Arneson, Dick Powers, Dick Means, Dean Eveland, Allen Theobald.

Dedication services are Sunday at Barneveld Lutheran Church

Barneveld Lutheran Church will dedicate its new sanctuary Sun-day, Oct. 6. The day's activities include Sunday School at 10 a.m., Communion service at 11 and cornerstone laying at noon with a potluck dinner following.

Dedicatory service will begin at 2:30 p.m. with the dedicatory sermon by Rev. Erling Hanson, assistant to the Bishop of the Southern Wisconsin District of the American Lutheran Church from Janesville

Other pastors participating will be Rev. Gerald Check of Hollandale, Rev. Bill Redman of Mount Horeb, Rev. Gary Burkum of Mount Horeb, and Rev. Ted Borgen Jr. of Black Earth. Also, former pastor of the Parish, Rev. Raymond Mehl, who now is serving as Development of Director of Waldorf College, Forest City, Iowa, will participate.

A reception and open church will follow the dedication.

The congregation made the decision to proceed with building plans in 1967, but by the time necessary funds were obtained to proceed, inflation forced a decision to either wait until more funds could be obtained or proceed with the most needed construction. The decision was made to go ahead with everything except the sanctuary

The education unit, completed in large 1971, contains seven classrooms, a large fellowship hall and kitchen, a conference room, library and offices. The cost of the square-foot unit with furnishings was about \$175,000.

The church site on the east side of Barneveld covers about five acres and was donated by Mr. and Mrs. Ralph Thoni.

The congregation voted in 1971 to close its old church and move its worship center to the fellowship hall at the new facility. In 1973 the decision was made to proceed with the building plans for the sanctuary. About a year ago, on Sept. 23, groundbreaking ceremonies

were held for the new sanctuary. The new sanctuary has a seating capacity of 258 people. Cost of the 3,200 square-foot building was about \$110,000. The stained glass windows in the back of the church were taken from the old church. The congregation reports a total indebtedness on the entire facility of about \$120,000. General contractor for the project was Meudt Construction Company of Construction Dodgeville.

Barneveld Lutheran Church was started in 1914 when members of West Blue Mounds the Congregation accepted the offer of Jerome J. Jones to donate what was known as the Baptist Church in Barneveld to the congregation. On Oct. 16, 1914, the offer was accepted. The church was dedicated on May 9, 1915 with Rev. Gunderson of Mount Horeb dedicating the building. Rev. Otto Mostrom became pastor and in addition, served Mount Horeb Evangelical Lutheran and West Blue Mounds Lutheran Church.

The church board minutes were written in Norwegian until Dec. 3, 1917, when it was resolved to write them in English thereafter. In 1917, Rev. Mostrom resigned and Rev. E. R. Anderson of Fargo, N.D.,

accepted the three-parish call. Rev. Anderson served the Barneveld congregation until his resignation on Jan. 1, 1957.

Although on Jan. 1, 1954, Barneveld Lutheran Church became a legal entity through incorporation, it wasn't until Rev. Raymond Mehl accepted a call on March 1, 1957, that the "fulltime" ministry at the church began.

Following the resignation of Pastor Mehl, Rev. S. Erving Severtson accepted the call in August, 1960. Rev. Robert E. Twiton accepted the call after Rev. Severtson resigned in 1962 and the serve continues to congregation.

As of Jan. 1 of this year, the congregation has 583 baptized members with 400 confirmed. Present members of the church council are Leonard Swedlund,

Swedlund and Raymond Vollen.

Mr. and Mrs. Ernest Aschliman Sr. of 412 West Clarence heard and the evidence received. Street, Dodgeville, Wisconsin, will observe their 50th wedding a hearing examiner concluded anniversary, Sunday, October 13th with a reception from 2:00 to 5:00 that the Quad County Co-op did p.m. at the Don Q Inn, Dodgeville. No formal invitations are being unlawfully discriminate against sent. All friends and relatives are welcome sent. All friends and relatives are welcome. Ernest Aschliman and the former Frieda Huber were married violation of the Wisconsin Fair

October 9, 1924, at Madison, Wisconsin. They have seven children, Mrs. Henry [Margaret] James, of Darlington; Ernie Jr., of Barneveld; Paul, of Ridgeway; Mrs. Vernon [Rose Marie] Ley, of Jonesdale, Fritz, of Barneveld; Mrs. Tom [Helen] Klein, of Stoughton; and Mrs. Lee [Mary Lou] Oxnem, of Dodgeville.

There are 20 grandchildren and 1 great grandchild. They request that gifts be omitted.

Barneveld Man Told Length **Of Hair Cannot Cost Him Job**

A complaint filed by James R. Ihm, Barneveld, against the Quad County Co-op, Barneveld, has finally been resolved by the State Department of Industry, Labor, and Human Relations Equal **Rights Division.**

Ihm filed a complaint on Febru-ary 26, 1973 alleging discrimina-tion based on sex by virture of Quad County Co-op's refusal to employ him unless he would cut his hair.

The matter was investigated by the state department and on June 6, 1973, an initial determination was issued finding probable cause to believe that the Quad County Coop had discriminated against Ihm because of his sex.

Subseqently, an attempt was made to eliminate the alleged discriminatory practice by conference, conciliation and persuasion. The attempt was unsuccessful and the matter was certified for hearing on August 22, 1973. A hearing was held in October,

and based upon the testimony Ihm on the basis of his sex in

several women who were not restricted in regard to their hair length. It was also determined that although the manager said that he refused to hire Ihm because of alleged customer preferences, customer preferences are not an acceptable basis for showing a business necessity for getting a hair cut.

The hearing examiner declined to recommend that back pay be awarded because lhm had a history of being a transient, short term employee, and was inclined towards extensive travel. He was not avilable for the Department's conciliation efforts and appar-ently was out of state during much of the time between February 1973 and the hearing.

Furthermore, the Quad County Co-op altered its policy in July of 1973 in cooperation with Department employees. In this way, the co-op has demonstrated a willingness to resolve the problem.

In conclusion, the examiner recommended that the Quad County Co-op cease and desist from discriminating against male employees or applicants for employment because of the length of their hair. They also recom-mended that the next available position for which he is qualified and at a salary rate normally paid by the Co-op for the position.

Barneveld Foster Children Missing, Found Tuesday

Three foster children from Barneveld conveniently slipped away from their foster parents Monday night and were found the next morning just west of the village.

Nov.

005.4

County authorities Iowa reported that Eugene Isbell, 12, Steven Isbell, 10, and Fred Long, eluded a number of area residents throughout the night of November 4 and were finally found accidentally the following

morning. The boys' foster parents, Mr. and Mrs. Thomas Edds, Barne-veld, called the Sheriff's Department at 6:15 p.m. to report the runaways. Phil Reese, of the Sheriff's Department, went to Barneveld to help in the search

for the three boys. Also leading the search was Barneveld Policeman Albert Miller. The two authorities learned from Barneveld residents

that the boys were last seen in Barneveld at 7:00 p.m., so a crew of children and other citizens

began a search. Reese said that the children began by looking in churches, the school, and cars. Other citizens drove around the area in cars and trucks to see if they could catch sight of the three youths. The search expanded to vacant farmhouses and barns, rock quarries, and other would-be hideouts in the area.

The search ended about 10:00

morning, the three boys were found just west of Barneveld, camping along the railroad track. They said they had been there throughout the night, and when they were found, they had just one blanket between them. Temperatures dipped down into the twenties and thirties that evening.

Thousand named to LaCrosse little league all-star squad

Danny Thousand, 14, a Barneveld High School sophomore, has received a plaque showing he was named to LaCrosse Chamber of Commerce's "Stars of Tomorrow" All Tournament baseball team.

Danny pitched a one-hitter against the Milton All-Stars, as Barneveld won the game 4-0.

Over 200 teams were entered in the tournament and one all-star team was selected.

Danny is the son of Mrs. Gar-netta Thousand of Barneveld.

Together in Death

New Glarus outdoorsman Arthur Brand found this pair of deer in a gully in the New Glarus woods area Monday. The deer had locked horns several days ago and had died together in that same position. Neither had any other apparent wounds. (Tschudy photo)

All friends and relatives are invited. Mr. Clerkin and the former Mary Trainor were married October 22, 1934. They have 6 children, Leo, Barneveld, Thomas, William, Dorothy and Mrs. Richard Smith [Donna], Madison, Robert, LaCrosse, and 16 grandchildren.

The Russell R. Moyer family, Rt. 1, Barneveld, was recently named the "Iowa County Farmers Home Administration Farm Family of the Year." They were honored at the FHA office last week. From left to right seated are: Kevin, 6, Lonny, 5, and Randy, 10. Standing, left to right are: Lavain Harms, county chairman, Russell and Jody, 2, Donna, Mrs. Gerald Stenerson of the advisory committee and Bernard Dregne, county supervisor.

The High School Industrial Arts Dept. has added a new area of instruction this year. Building Trades is offered to seniors and is designed to help assist students in choosing vocations in the building trades. Conventional methods of home construction and work in concrete, carpentry, electrical, and plumbing will be included. This fall in the conc. unit, the boys poured several cement slabs around the H.S. gym and at present are working on some sidewalks by the new relocatable classroom at

the Elementary building.

The picture shows the students working on a large playhouse that involves all phases of building except for heating. Standing, left to right, are Randy Sponem, Jeff Kelly, Vern Martin, Jim Zeasman, instructor; kneeling - Gary Brown and Greg McKenny.

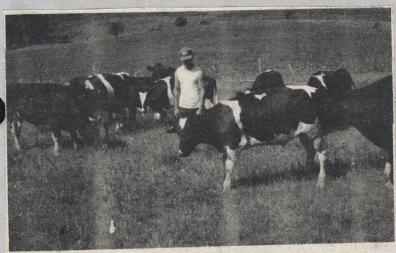

The second semester the boys it is like to be on the job in the areas of work they prefer.

The young men in the Senior Vocational Agriculture class enjoy working on tractors. For the past five weeks the boys have been in the class room studying the proper will each spend time on the job maintenance procedures with two different local contractors necessary to get the most to develop skills and find out what productive use from tractors. With it is like to be on the job in the areas the high costs of maintenance. repair parts, more attention on maintenance is preventive required.

After the classroom work, the senior boys brought in tractors

from home for practical experience. Most of the tractor work must be done outside as there is no room in the shop due to crowded conditions. As soon as the weather turns bad, this work will have to stop. Twenty-three seniors are enrolled in Vocational Agriculture

Pictured are, left to right, Bob Sherven, Bob Miller, Jeff Kelly, Jeff Sutter, Frank Haack, Mark Haglund, Dale Jelle and Dennis Fredrick.

Jeff Kelly is pictured with a group of dairy beef steers of his own. In addition Jeff assists his tather on a dairy farm consisting of over 280 acres

Building trades students at Mount Horeb High School were working this week on block and brick laying.

The students experienced the problems of laying brick and have also tried their hands at concrete work. The bricks were donated by the Wisconsin Brick Company of Madison.

Instructing the class is Tom Danzinger, left. Participating are, left to right, Greg McKinsey, Jeff Kelly, Keith Martin, Randy Sponem and Gary Brown.

LeRoy Johnsons to mark 25 years Nov. 5

Mr. and Mrs. LeRoy Johnson of Mount Horeb will observe their 25th wedding anniversary Friday, Nov. 1, with a dance at Club 18, Mount Horeb. Dancing will be from 9 p.m. until 1 a.m.

No invitations will be sent, with all relatives and friends cordially invited to attend.

Mr. Johnson and the former Carol Rickey were married Nov. 5, 1949, in the Mount Horeb Evangelical Lutheran Church by the Rev. E. R. Anderson.

They have four sons, James, Mineral Point; Steve, Mount Horeb; Bob and Bill, and a daughter, Patty, at home.

Leif Erickson, Ridgeway, re-ported that someone used a high powered rifle to shoot through a bedroom window on the south side of the High Point Supper Club. Erickson said the shot went through a storm window, through the inside window, through a double wall between the bedroom and living room, and finally hit the inside door going into the kitchen of the supper club. Erickson said the incident occurred between 2:30 and 3:30 p.m. November 29.

Chris Amacher

Chris Amacher 42, city of Portage passed away Monday, Dec. 2, 1974 at St. Mary's Hospital, Madison.

From front left, are Mike Laddusire, Blue Mounds; Peggy Oimoen, Bar-neveld; Lori Moen, Barneveld; Rick Watkins, Barneveld, Tony Kirch, Barneveld, (second row left to right) Teresa Trainor, Bar-neveld; Heidi Garfoot, Blue Mounds; Diane Lease, Barneveld; Vicki Myers, Barneveld; (back left to right) John Twiton, Barneveld; Rick Powers, Barneveld; and Sam Fotsch, Barneveld. Approximately 350 grade school through high school students from eastern Iowa, attended the Pioneer Band Camp school students from eastern Iowa, northern Illinois and Wisconsin attended the event.

Barneveld area students June Zander and Deanna Messinger Zander and Deanna Messinger recently attended the Pioneer Band Camp at the University of Wisconsin-Platteville. Ap-proximately 350 grade school through high school students from eastern Iowa, northern Illinois and Wisconsin attended the event.

1975 (Obma Photo) Barneveld Lutheran Church in Barneveld was the setting for the May 31, 1:30 p.m. wedding uniting Becky Mueller, daughter of Mr. and Mrs. Roger Mueller, and Bill Dimpfl, son of Mr. and Mrs. Robert Dimpfl, all of Barne-veld. veld.

Janice Moen, friend of the bride served as maid of honor, bride served as maid of honor, and Tom Myer, friend of the groom, served as best man. Carla Sell, aunt of the bride, Debbie Theobald, friend of the bride, Leann Paull, cousin of the bride, Patty Dimpfl, sister of the groom, and Beth Mueller, sister of the bride, served as bridesmaids.

The groomsmen were Roger Sell, uncle of the bride, Curt DeSmet, Lee Collins, Rod Muel-ler, brother of the bride, and Ricky Mueller, brother of the bride. Penny Doescher and Ted-

der Tilley served as miniature bride and groom. Tim Caruso, uncle of the bride, Dick Gilbertson and Dave Manteufel ushered.

The couple are residing in Mt. Horeb.

January birthdays at St. Joseph's were celebrated by the above. Seated left to right are Mayta Arndt, 77, Hollandale; Clarence Peterson, 85, Dodgeville; Maggie Jaggi, 80, Ridgeway; and standing is William Brennan, 80, Barneveld. The Hospital Auxiliary helped with games and refreshments. Visitors were Mrs. Myrtle Brennan, Mrs. Lowell Terrill, Mrs. Joe Esch, William Arndt, and Mrs. David Keister and Tina Keister.

57 Years in a Band Has Led Ike James Down Many Roads

For all but the first eight years of his life, Ithyl (Ike) James, Route 2, Mineral Point, has played professionally in bands all over Southern Wisconsin.

At 65 and looking 47, as one of his friends put it, James probably didn't play professionally those first eight years because he wasn't big enough to hold the instruments up.

But music was in his blood. Born in Hollandale, his mother died when he was 5, leaving him in the care of aunts and uncles. Both sides of the family were musical, said James.

James played the violin for years, along with "everything with strings". While attending Dodgeville High School he mastered the trombone in the band, • and now fervantly plays the bass, a stringed instrument.

"I like that (the bass) because you can get a feeling for it," said James. He currently plays with the Dukes of Dairyland, among other dance bands.

Though 57 years of playing have passed, James remembers how it all began. "The Jonesdale Hotel was the first dance job 1 got paid for. I was 8 years old and my brother was 11."

Music was in his blood, he said. From the Jonesdale Hotel he played in "a different band every night". Admitting he wasn't too good at dates, he said around 1940 he started his own band, the Rythmaires.

He was originally playing with another band on Thursday and Saturday nights at Hi-Point, a local dining spot. This was during the period of gas rationing for the war. When some of the leaders of the group couldn't travel to play at Hi-Point, James took over the band, making it his own:

band, making it his own: After the Rythmaires he joined the Hal Mack Band. He played with Mack for 10 years. Mack still plays in Madison.

Then it was the Mary Kay Trio. They got together about six years ago when James was playing in Mineral Point. Ed and Mary Kay Wehinger, South Wayne, the other two-thirds of the trio, played sax and clarinet.

After a few years with the Trio, James embarked on another leg of his career with the Dukes of Dairyland. He has played with them for eight years, with dance dates almost every Friday or Saturday in that time.

In between he's worked with the bands of Bob Burns, and Johnny Marshall, who had a 10 piece band. Belonging to the American Federation of Musicians for 42 years, James was not limited to certain bands.

"With my name in their book, if someone was short a man, they would call me up. Other musicians just listen to you play, and it's word-of-mouth. I've played with many bands," James said. "Some were Norwegian, some were Swiss. I enjoy different bands every night."

It has been a busy 57 years with wide and varied experiences. The farthest he traveled to play was to Eagle River. Other stints included Highland, where he played for a barn dance.

"There used to be hundreds of barn dances years ago. I didn't like them. They were always dusty and dirty. The last one at Highland was one or two years ago. The barn didn't even have rafters yet and yhou could see the stars. It clouded up that night and started pouring down rain."

started pouring down rain." James played off hay racks, trucks, and for street dances in every town, he said. He's lent music to donation affairs, and played at the Iowa County Home on Father's Day. He's been part of the Wilhelm Tell Pageant band; and played in Monroe for years.

"I've met good people all over. I met some real nice people in Monroe, and in Madison, but Madison has its own crowd."

James has played all the "nice spots". Included in his list of music jobs are the Norseman's, Don Q Inn, Lake Windsor Country Club, and almost the Governors Mansion.

"We were suppose to play at the Ggovernor's Mansion once, but something happened we didn't make it. Half the time I just go and don't know what they're about."

Although James has never missed a dance date in 57 years, other dates escape him easily. He told of one night at the Lake Windsor Country club.

"We played requests for people. People would hand us cards for anniversaries or birthdays. A card was handed me at Lake Windsor. It was a request for the wedding anniversary of the Ike James'". It was from his wife.

windsor. It was a request for the wedding anniversary of the Ike James' ''. It was from his wife. His wife, Helen, went along for years. She was his business manager for 25 years. She now runs the James Store in Jonesdale where her husband was around since he was five-years old. Married for 43 years, they also farmed for seventeen and have three children and seven grandchildren.

The Dukes of Dairyland broadcasted for awhile from the Don Q Inn, and James said they have had the chance to appear on television. "But it's a lot of work on television. You don't goof off on TV."

Some kids came for advice, James said, "But I never thought I was good enough to teach lessons." Regardless of his comment, James never uses music to play, except if the piece is new and he needs a reference. And if need be, he can cover on most any instrument for a missing band member. Over the years there were

Over the years there were problems, and tight moments as he watched the changes occurring in Wisconsin. James said he wouldn't like to relive some of the times band members barely made it to play.

And traveling to Madison has changed. "We thought nothing of running around all night when it was small. Now the traffic and growth are terrible."

He said he dreaded the road becaue of the accidents he came upon. He once had to help a boy into a rescue car. The boy later died. But some of his timidity is from growing older, surmised James.

Too young for the first, War, and too old for the second, James said, "I think I missed somethng." But he contended with a hectic schedule divided between family, farm and music.

"Sometimes I'd get disgusted and say I'd quit, and my wife would tell me not to. I'd play for two or three days strtaight and get sick of playing. But after three or four days I'd miss it."

James spends most of his free time at his private lake he built n 1953. Called Birch View Lake, the small mirror Lake is spring fed, and willows reach the water's surface. He fishes, plays golf, and likes skindiving. Used to retrieving motors from Yellowstone Lake, James said, ''I would still skindive, but someone stole my

Ike James has played professionally in dance bands for 57 years. The Jonesdale resident thinks he might be setting a record in Wisconsin, and finds the prospect delightful after the many varied years.

Ike James built his lake in 1953, in between some of his bands' music stints. After 57 years of playing almost every instrument, there's nothing like a little bass fishing to bring a change of pace. [This big bass was caught in his lake, but by a friend.]

Barneveld Varsity Cagers Ready For New Season of Play

Above are members of the Barneveld varsity basketball team. The squad includes Tim Meyer, Chuck Calvert, Jim Myers, Dennis Carmody, Jeff Segebrecht, Gregg Clerkin, Mike Clerkin, Bill Theobald, Gregg McSherry, Dennis Murphy.

New Coach Will Guide Eagle Basketball Fortunes

BARNEVELD-Dave Laulainen may be new at the helm of the Barneveld cage program but he is no stranger to the basketball coaching profession.

Laulainen spent two seasons as an assistant cage coach for Bethany Junior College, Mankato, Minnesota and also served as assistant coach at Jefferson High School, Bloomington, Minnesota. He also had some head coaching experience with a military division team in Ansbach, Germany.

Quickness and depth should be strong points for Laulainen's Golden Eagles this year and forward should be a strong position with three returning lettermen. Experienced returnees include 5-11 Denny Carmody, 6-0 Tim Meyer, and 6-0 Jim Myers.

Promising newcomers to the squad include Mike Clerkin, a 6-2 sophomore center, and sopho-more guards Bill Theobald [5-7] and McSherry [5-3]. Other squad members are senior Chuck Calvert, juniors Jeff Segebrecht and Gregg Clerkin, and sophomomore Dennis Murphy.

Graduation hit the Eagles hard. Gone are center Bill Trainor, forwards Dan Reeson, Larry Monson, and Gary Gagner, along with guards Jerry Hodgson and Randy Hendrickson. Best bets to form this year's nucleus are Carmody, Meyer and Mike Clerkin

Laulainen picks Monticello and Brodhead to challenge for the State Line League crown and looks for a fifth or sixth place finish for his squad. The Eagles opened league play November 22 when they hosted Argyle.

Golden Eagle Mat Team

The 1974-75 wrestling squad is as follows: Front row, left to right—Mike Brennan, Joe Hughes, Pat Lease, Bill Schlimgen, Sam Fotsch, Mike Myers, Bill Aschliman, Neil Gagner, and Greg Burreson. Back row, left to right—Assistant coach Dave Ladd, Jim Lease, David Brindley, Pat Brennan, Rick Powers, Randy Hauck, and head coach Eric Larsen.

BHS Wrestlers Have Experience

Eight Lettermen Return To Eagle Mats

With eight lettermen returning from last year's squad, Barneveld's wrestling team should be able to look forward to a good season.

Only middle-weight wrestler Dave Mantuefel will be severely missed from last years squad that finished 6-10 on the season. Manteufel was Barneveld's only sectional qualifier last year.

Leading the charge this year. Leading the charge this year will be heavyweight Randy "Sugarbear" Hauck. Hauck finished last season with a 19-3 mark, and lost out in Regional tourney competition to River Valley's Randy Eberle. Hauck didn't compete in the conference meet because of illness.

Another top competitor this season will be Bill Schlimgen at 105 lbs. Schlimgen finished third in the conference tournament last season, and had a better than .500 record on the season. Both Hauck and Schlimgen are seniors this year.

Other returning lettermen include Juniors Mike Myers, 112 lbs.; Jim Lease, 145 lbs.; Neil Gagner, 126 lbs.; and Bill Aeschliman, who will be wrestling somewhere in the middle weights. Sophomores who lettered last year are Mace Newman, 138 lbs. and Pat Brennan, a 185 pounder.

Others returning from last year's team are sophomore Rick Powers, heavyweight; Greg Burreson, a 132 lb. junior, and Pat Lease, a 98 lb. sophomore. Lease will be battling for the 98 lb. spot with two freshmen, Mike Brennan and Joe Hughes. Other freshmen on the roster include 167 lb. Dave Brindley and 155 pounder Dan Czerwonka.

Two new faces to Barneveld wrestling will be heading up the program this season. Eric Larsen, who coached the football team, will be head coach, and he will be helped out by Charles Ladd, a grade school teacher in the school system.

Larsen is looking ahead to a tough schedule for a school with 130 students. On that schedule are the State Line League schools, of course, plus opponents at three tournaments which Larsen feels should help prepare his boys for the season ending WIAA tournaments. The Eagle grapplers will be competing in the Boscobel Invitational December 7and will also be at a triple dual at Lancaster a week later. At that meet, Cassville and North Crawford will be in attendance as well as host school Lancaster. A third tourney will find the Eagles travelling to Albany for the Belleville and Brodhead to be among the top teams scrapping for the crown.

Larsen says his squad should be toughest in the lower weights, and of course Hauck should bolster the top spot. He does feel, however, that his squad will be weak in the middle weights.

He says his top prospects to, "bring home the points" this season are Hauck, Schlimgen, Newman and Gagner.

BHS Roster:

The complete Barneveld roster for the 1974-75 season is as follows: Seniors: Randy Hauck, heavyweight; Bill Schlimgen, 105 lbs. Juniors: Jim Lease, 145 lbs.; Bill Aeschliman, middle weights; Neil Gagner, 126 lbs.; Greg Burreson, 132 lbs. Sophomores:

Rick Powers, heavyweight; Mace Newman, 138 lbs.; Pat Lease, 98 lbs.; Pat Brennan, 185 lbs. Freshmen: Mike Brennan, 98 lbs.; Joe Hughes, 98 lbs.; Dan Czerwonka, 155 lbs.; Dave Brindley, 167 lbs.

Midnight Fire Destroys Erickson's Hi-Point, Ridgeway

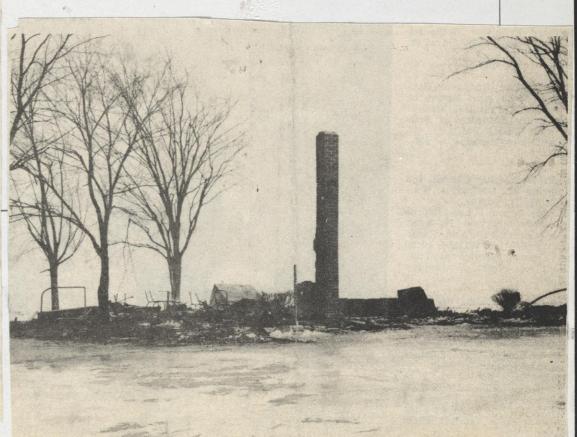

The Ridgeway, Barneveld and Dodgeville Fire Departments responded to the call to try to save Hi-Point. However, there wasn't much that could be done as the structure was a total loss.

The fire was first reported at approximately 12:30 a.m. Feb. 7 when a passing motorist saw the first smoke and flames. By the time firemen arrived, the flames had engulfed the entire building.

Klinton McCutchin, owner-operator of McCutchin Crane Service will be guest on the "In Iowa County" program next Tuesday, May 20 over Radio Station WDMP at 4:30 and 9:05 p.m. McCutchin got into the crane business in February of 1973 when he brought his 15 ton crane to Dodgeville. He reasoned this area needed crane service. He shortly went into the salvage service to take up the slack time between service calls. He soon learned that trucking equiment was compatible with the grape service and has trucking equipment was compatible with the crane service and has since acquired some semi's and other trucks and equipment. His crane salvage and trucking business is located on the north edge of Dodgeville just behind the Marketing Association of America. A son, Kim, works closely in the business with Klinton.

The next day, the only thing left standing was the chimney.

Bill Biefer, Parts Manager - Anna DeSmet, Bookkeeper

Final work is being done on a new shelter near Barneveld's Birch Lake. The 30' x 60' shelter is scheduled to be completed in time for the Firemen's Chicken Barbeque this Sunday, June 29. June 1975

Barneveld firemen manned the chicken barbeque pit Sunday at the Barneveld Firemen's Festival at Birch Lake.

Mike Carmody, Mechanic

APRIL 8, 1975

Barneveld's American Legion Post 433 will hold a Legal Bingo Party Saturday, April 5 with \$50.00 of the proceeds donated to the ''Article'' the "Artrain". Post 433 challenges any other

Legion Post in surrounding areas to also make a donation to such a

vorthwhile project. The Artrain will be in Dodge-ville April 30 through May 4.

............................ Letters to the Editor

To the Residents of Barneveld and Brigham Township: As a kid growing up in Barne-veld, I, like most kids, didn't pay

weld, I, like most kids, didn't pay much attention to things that happened "before my time". Now that I'm older (not necessar-ily wiser), I find it a pleasure to go back and look at the "good old deur". days"

So. . ., I now am in the process of collecting information to write a detailed history of the Barne-veld area. I plan to do the opposite of the usual history writer and have people be the main theme of this book and have

events be secondary. Even though I'm a teacher of U.S. History, there are a lot of things I don't know, particularly about Barneveld. I need all the help I can get to do a good job on this.

Do any of you have old books or newspaper articles that mention Barneveld or its citizens, copies of the Barneveld Banner or Register Friend which were newspapers printed in Barneveld around 1890 to 1903, Iowa County Histories, Iowa County Atlases, Iowa Iowa County Atlases, Iowa County Plat Books, photographs before 1960, postcards showing Barneveld or Jenniton or Adams-ville or Middlebury scenes, per-sonal letters prior to 1930, adver-tisements for Barneveld busi-nesses, report cards prior to 1960, any old records or writings of any old records or writings of Barneveld or Brigham people or stories to tell???

If you do have any of the above, could I please borrow them for a could I please borrow them for a short time? I'll pledge my softball glove and bowling ball as collat-eral so you know you'll get them back. If I may borrow these items, could you leave them at the Barneveld State Bank with Carl Arneson? He'll turn them over to my mother, Mrs. Myrl Helmen-stine of Mount Horeb. She'll give me a call and I'll make a quick evening trip to get them. I'll try my darndest to get them back to

my darndest to get them back to you within ten days. If you don't wish to let these things out of your hands or you have stories or remembrances you'd like to share, would you please leave a note at the Bank with Cord American Ull act in with Carl Arneson and I'll get in touch with you.

Whatever help you folks can give me will be greatly appreci-ated as I'll need all the help I can get to cover the 100 plus years of the Barneveld area.

John Helmenstine 540 N. 59 Street Wauwatosa, Wisconsin 53213

Latest Contributors To Artrain Fund

The latest contributions to the Artrain bring the total to approxi-mately \$1500, or about the halfmatery \$1500, or about the nan-way point in the drive for funds. The latest contributors are Strongs Bank, \$100.00; Dodge-ville Jaycees \$50.00; Woody Erickson Insurance Agency, \$50.00; Janes Velley Homemet \$50.00; Jones Valley Homemak-ers, Barneveld, \$5.00; and Ridgeway Legion Auxiliary \$5.00.

Barneveld Woman Re-elected To Arthritis Board

Claudette Kotenberg, a Registered Physical Therapist from Barneveld, has been re-elected to the board of the Southern District Arthritis Foundation of Wisconsin.

The Southern District serves 11 southern Wisconsin counties --Dane, Dodge, Columbia, Green, Grant, Jefferson, Iowa, Lafayette, Richland, Rock and Sauk

The Wisconsin Chapter serves the over 400,000 arthritis vicitims in Wisconsin through a program of research, physician training, patient, public and professional education

MAR. 27, 1975 **Bicentennial Study Package Is Offered**

The University of Wisconsin Extension's Independent Study unit has developed a bicentennial study package - The Spirit of '76 -a one-credit correspondence study course.

The study guide for the course, officially known as History 199 -Independent Reading, was written by history professor Thomas Archdeacon of UW-Madison. In an introduction to the Madison. In an introduction to the study guide, UWEX history pro-fessor (Margaret Bogue) says, "The reading package is for those who would like to pause and reflect seriously upon the events of the late 18th century in America and to ponder what those events have meant for other emerging nations and for peoples who have championed them." The course guide begins with

The course guide begins with introductory essay, "1776 an introductory essay, "1776 Revisted", which sets the stage for other suggested readings. "Finally," says Prof. Bogue, "for those who find that this introduction to the literature of the American Revolution whets the appetite for more, there is a bibliography to guide you to further study." To earn one credit the student will read and report three required paperback on

on three required the books. Registration information can be obtained by writing UWEX Inde-pendent Study, UW-Extension, 432 N. Lake Street, Madison, Wisconsin 53706.

David E. Reeson, Jr., graduat-ed this spring from Purdue Univ-ersity School of Veterinary Medi-cine-West Lafayette, Ind., mem-ber of Phi Zeta honor society.

A former resident of Barne-veld, his parents are Mr. and

veld, his parents are Mr. and Mrs. Dave Reeson. He is employed at Medford Veterinary Clinic. He and his wife, Marlys (form-erly from Hollandale) are living at 314 National Ave., Medford.

With the nation's bicentennial and Iowa County's sesquicentennial [150th birthday] coming up, a contest was held recently to choose official county emblems for the celebrations. Children in Iowa County schools were invited to participate. Pictured are the top two place winners in both categories. Curt Behnke, left, a 7th grade student at Barneveld, will receive a \$15 prize for his second place emblem in the sesquicentennial contest. Bill Myers, to the right of Behnke, will receive a similar prize for his second place emblem in the bicentennial category. Myers is also a 7th grader at Barneveld. Tom Disrud, a 6th grade student at Hollandale, will receive \$25 for his first place sesquicentennial emblem, and Tina Pien, a a 7th grade student at Barneveld, won the first place prize of \$25 in the bicentennial class. Macu 1975

Former Ridgeway Man Enjoys Coaching Success

Head basketball coach Tom Davis has produced an astonishing 76-31 (71.0%) record in four seasons at Lafayette College (Easton, Pa.). Among his major accomplishments are two Conference Division titles, two twentywin seasons, two National Invitation Tournament appearances, and four straight years in the Middle Atlantic Conference (East Coast Conference as of the 1974-75 season) play-offs. He was named the ECC Coach of the Year in 1975.

His most recent team compiled a 22-6 record - the second highest win total in school history. The Leopards won the ECC Western Division title, was runner-up in the ECC play-offs hosted by Lafayette, and appeared in the 1975 NIT against St. Johns in New York's Madison Square Garden.

The 35 year old coach is a native of Ridgeway, Wisconsin,

and a 1960 graduate of the University of Wisconsin at Platte-ville.

During his undergraduate career, he lettered in basketball four times, was captain of the team, and led his squad to the NAIA Championship Tourney in Kansas City on two occasions.

After graduating from college, he coached one year at Milledgeville (Illinois) High School and then coached five years at Portage (Wisconsin) High School. During that period, he received a MS from the University of Wisconsin.

In 1966, he became an assistant coach at the University of Maryland and coached the Terrapin freshmen for two years while working towards a Ph.D. in Physical Education which he received from Maryland in 1970.

He then spent two years as an assistant basketball coach at American University in Washington, D.C. before coming to Lafayette in the fall of 1971.

He is married to the former Sharon Dell Shulka of Prairie du Chien, Wisconsin, and they have a three year old son, Keno.

Barneveld Cuts Out Principal Position, Fires Administrator

The Barneveld School Board voted last week to eliminate the position of principal at the high school and to fire Richard Neel as administrator.

Both decisions came on 3-2 vote by the board.

The first motion stated that Neel's contract should not be renewed when it expires June 30, 1975.

The second motion stated that the school should advertise for an administrator, and completely eliminate the position of principal.

The move came after there was a growing concern in the village that two highly paid positions in the school were not necessary. The high school has an enrollment of 132 students.

A. Thomas Stumpf, present principal at the high school, said he didn't agree with the decision. "I think in the long run it will be an injustice to the kids," Stumpf said. "There is simply no way one administrator can handle everything adequately. The task is just too much for one person," he added.

Stumpf said that even in the present set-up, in which he is the full-time principal and Neel is a part-time administrator, there is too much work for both of them to handle.

"There is so much paper work now-a-days, that it alone keeps one man busy most of the time. And there are many things I would like to do that I never have time to do," Stumpf said. "But still, it will be the students that will suffer in the long run."

Stumpf said he believed the decision was made in an allaround attempt to cut back on expenditures, possibly because the teachers will have to be paid more after a recent settlement.

At the present time, Neel is making \$10,000 while Stumpf is earning \$18,000.

When asked if he would take the job of administrator if offered the position, Stumpf said he would have to look very carefully at the offer before accepting. "I would have to look carefully at the job expectation, and also, of course, the salary. There are several factors that I would look at before accepting or declining the offer."

Stumpf said the decision made by the board is not necessarily irrevocable, because elections in early April could change the make-up of the board. Two of the board members who voted for both motions, Ralph Oimoen and Russell Moyer, are being challenged in the upcoming election by Harold Zander and Leo Clerkin, respectively, and Stumpf said it is possible a board composed of different members could have different thoughts on the subject.

In other business at the meeting, Russell Moyer made a motion that Miss Diane Hanson and David Laulainen not be offered contracts for the 1975-76, but the motion died for lack of a second. However, a unanimous vote did pass a motion asking Miss Hanson and Laulainen to attend the next board meeting, which was set for February 26, to discuss teaching, coaching and related subjects.

The board also made an agreement with Virchow - Krause, Dodgeville, to do the auditing for the past school year. Teacher evaluations were also

Teacher evaluations were also distributed at the meeting, and the school board inspected and returned the evaluations. Other business included reports by Pat Reisdorf, math, and Carol Schwichtenberg, commercial subjects, on their respective teaching experiences.

New Barneveld Post Office Construction To Begin Soon

ent.

Construction on a new post office in the village will begin soon, according to Barneveld Postmaster Bill Brennan.

Brennan said the building should begin in mid-February, with completion coming 120-180 days later.

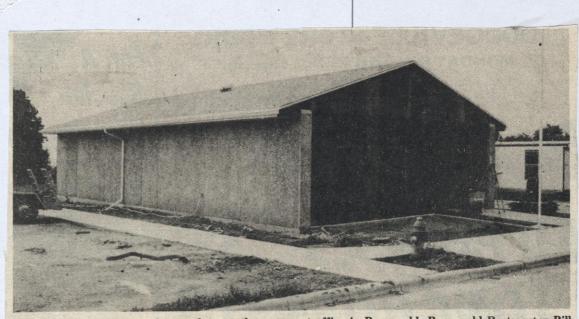

While the building is taking place, the Barneveld Post Office will be in a temporary structure near the site of the new facility. The new office will be located near the Barneveld Fire Department building.

The temporary home of the post office will be a mobile home. The 10x50 trailer will sit next to the pumping station in the village.

Brennan said the move from the present site will come February 25, when the whole operation will move into the mobile home. The trailer may have to be the home of Barneveld's post office for as long as four months, or how ever long it takes to finish the new building.

Brennan said the mobile home "will be a first for a post office as far as I know. All I know is that it

will be plenty cramped. Thane (the rural mail carrier) will be working in the bedroom, and I guess I'll be working in the living room. At least it will be differ-

Construction is nearly complete on the new post office in Barneveld. Barneveld Postmaster Bill Brennan said that the post office is tentatively scheduled to open July 1, but he figures that it will be at least the second week in July before it actually is open for business.

"Super-Brawl I" Set for Saturday Night in Barneveld

Wrestling fans will be in for a treat Saturday night when 'Super-Brawl I' will be held in and senior years. He also was

"Super-Brawl 1" will be held in the Barneveld High School gym. Local "strong men" will match their skills in four contests which will feature wrestlers and non-wrestlers from the Barneveld area

The event was originally scheduled to be held in the Barneveld Legion Hall, but due to the large number of tickets sold, it was changed to the high school

gym to give everyone a better view of the spectacle. Following the wrestling matches, the evening's festivities will be moved to the Legion Hall, where the Alpine Brass will be providing the dance music. A limited number of tickets are still available for both activities, and they can be purchased at Barneveld Feed and Grain or at the door. Tickets for both events are \$2.00 in advance or \$2.25 at the door. The wrestling will begin at 8:00 p.m.

8:00 p.m. The first match will pit "Ter-rible Ted Thompson" against "Gorgeous Greg Duffey". Thompson, 24, a 1968 graduate of Barneveld High School, is a farmer near Barneveld. In two years of high school wrestling he compiled a record of 30-10, wrestling at 180 lbs. and heavy-weight. He was also an all-confer-ence football player on Barneweight. He was also an all-confer-ence football player on Barne-veld's undefeated Kickapoo Valley championship team his senior year. Thompson is 6'0'' and weighs in at 205 lbs. His opponent, Duffey, is 6'1'' and weighs 200 lbs. He is a 1969 graduate of Barneveld High

graduate of Barneveld High School and attended the UW-Madison for three years. He is now employed at Miles Labora-tory in Madison. In four years of grappling in high school, he won over 70 matches. Duffey, like

Thompson, is 24. The next match will find "Terrocious Ray Lease" facing 'Disastrous David Oimoen' Lease, 23, is a 1970 graduate of Barneveld High School, and wrestled for three years during his high school days. He compiled a record of 50 wins and 15 losses, and was conference champion in both his junior and senior years. He wrestled at 112, 120 and 132 in high school, but now his 6'0'' frame has expanded to 170 lbs.

Lease is employed at Patrons Merchants in Black Earth. Dave Oimoen, a 1972 Barne-veld graduate is 5'8'' and weighs in at 165 lbs. Oimoen was a four-year wrestler at Barneveld and compiled a record of 45 wins and 12 losses. He competed at 115, 126 and 138 during his high school days, and was conference champion at 138 lbs. his senior year. Oimoen, 20, is presently employed at Barneveld Heating

What is slated as main event one will feature "Crusher Kirch" vs. "Moose Trainor". Art Kirch, 36, a local Barneveld farmer, is a 1956 graduate of Arena High

and senior years. He also was named to the all-Madison area team his senior year, and later played ball at the UW-Platteville. Kirch stands 5'11'' and weighs 255 lbs. He is married, and has five children.

Pete Trainor, 40, will be Kirch's opponent. He stands 6'0'' and weighs 230 lbs. He is a 1954 graduate of Barneveld High School, and presently owns a 300 acre farm near Barneveld. While in high school, Trainor starred in football and baseball, and will get his first taste of wrestling Saturday night. Trainor is married and has eight children.

Main event number two will feature "Ripper Reeson" and

"Sugar Bear Hauck". Hauck. who will graduate from Barneveld this spring, brought excitement to Eagle wrestling fans the past couple of years as he compiled a 65-25 record while a Barneveld wrestler. Hauck, 19, is 5'8'', and packs over 300 lbs. into his "stocky" frame. He was a conference champion this season at heavyweight, and was a recent participant in the sectional tournament at Stoughton.

Doug Reeson, 20, his oppon-ent, is new to the sport of wrestling. A 1973 graduate from Barneveld, Reeson participated in football and basketball during his career, but didn't make an appearance on the mats. He is 6'0" and weighs 190 lbs. Reeson is a local Barneveld farmer.

gram were Ms. Margaret Roberts, Assoc. Dean of Students and Prof. Eunice Boyer of the Sociology Department. Beth is the daughter of Rev. and Mrs. Robert E. Twiton, Barneveld.

Guests for <u>Garfield Thomas</u>, seated, at the June birthday party at Memorial Hospital of Iowa County recently were left to right, Mrs. David Jones, Mrs. Gary Tuescher, and Mrs. Harry Molhman. All are from Platteville. Volunteers for the birthday party were Jennie Richards, Gladys Abdoo, Pearl Phillips, and Mary Pauley.

A large crowd attended the Fly-In Breakfast at the Don Q Inn Sunday morning. The rainy weather kept the antique airplanes away, but the people came to eat nevertheless.

Blandare was the team to beat in the Tug-O-War. Above, their anchor man, Lee Eveland, makes sure that the rope stays tight.

Golden Eagle Girls Squad Hopes For Second League Crown

Barneveld's Girl's basketball team will be looking for another outstanding season this year. Here is the squad that will be trying to put it all together: Front row, left to right—Coach Dianne Hanson, Lory Wegmueller, Julie Rickey, Pam Henderson, June Zander, and Gail Mieden. Second row, left to right—Jean Zander, Barb Twiton, Peg Henderson, Sid Crook, Linda Jabs, and Laura DeSmet. Missing when the picture was taken was Rhonda Lee.

Eagle award winners for the 1974-75 wrestling season were announced Thursday night at the Barneveld wrestling banquet. Pat Lease, left, won the trophy for most takedowns; Randy Hauck, middle, had the most team points and most pins; and Bill Schlimgen, befor, was voted the most valuable wrestler.

10

Experience Could Return Girls Cage Title To Barneveld

BARNEVELD—While other schools are just getting their feet wet in the area of girl's basketball the program has been flourishing the past several seasons here.

Under the direction of Diane Hanson the Golden Eagles are setting their sights on repeating as State Line League champions again this season. The Eagles return with four letter winners and will be aiming at duplicating last year's 7-0 league record and 10-0 overall.

Returning to action are two guards and two forwards who won letters last year. The guards are Jean Zander, a senior, and Pam Henderson, a junior. Returning to the forward slots are a pair of seniors, Peg Henderson and Barb Twiton.

They will be trying to fill the shoes of five stalwarts lost by graduation. Gone are guards Becky Mueller, Mary Lease, and Jackie Oimoen, center Beth Twiton, and scoring leader Patti Mieden who played as a forward. Miss Hanson, who is in her fifth year as a coach at Barneveld, is optimistic about her team's chances and feels the squad has a good shot at finishing on top when the season is completed. She rates Brodhead as the chief threat standing between her team and the crown.

Miss Hanson says her team is small but quick. If it has a weak point she feels it would be the lack of height.

The veteran coach looks to a pair of juniors, Sid Crook and June Zander, as newcomers to the squad who should provide some help but their positions have not yet been determined.

The rest of the squad is made up of seniors Lory Wegmueller, Julie Rickey, and Gail Mieden along with juniors Rhonda Lee, Linda Jabs, and Laura DeSmet.

Junior varsity performers are Deb Schaeffer, Pam Bilse, Sue McVay, Teresa Trainor, Jean Carmody, Lisa Budd, Liz Budd, Kay Calvert, Diane Clerkin, Lori Moen, Mary Mieden, Peg Oimoen, Diane Lease, Diane Theobald, and Virginia Williams.

The Eagles open the 1974-75 season December 2 in a home tilt with Albany.

William J. Sweeney

William J. (Bill) Sweeney, age 79, died on Friday, January 10, 1975 at a Madison hospital after a heif filleren La men Erhart brief illness. He had formerly lived in the Marshfield area and for the last 27 years he lived in the Barneveld - Mt. Horeb area. Mr. Holmes was a member of St. Mary's Church, Barneveld, and the church council and the Barneveld - Ridgeway Senior Citizens Club. He married the former Margaret Schumacher in 1925.

Survivors include his wife; two sons, David of Dane and William of Mt. Horeb; four daughters, Mrs. Glenn (Carol) Sutter, Mrs. Raphael (Delores) Sutter, both of Mt. Horeb, Mrs. Norbert (Vir-ginia) Oldenburg, Madison, Mrs. Tom (Diane) Devine, Coral Springs, Florida; two brothers, Herbert and Oliver, both of Middleton; four sisters, Mrs. Ross (Mabel) Cutting, Cleave-land Georgia, Mrs. Wayne (Myrtle) Acherman, Massillon, Ohio, Mrs. Herbert (Helen) Ansorge, Miss Frances Holmes, both of of Manitowoc; 19 grand² children.

Funeral services were held at St. Bridget's Catholic Church, Ridgeway at 10:30 a.m. on Wed-nesday, January 8. The Rev. Robert Buholzer officiated. Burial in St. Bridget's Catholich Cemetery. The Ayers Funeral Home, Ridgeway, was in charge.

Mr. and Mrs. W. John Weg-mueller, Barneveld, and Mr. and Mrs. Franklin C. Schaub, Prairie

du Chien, would like to share the

engagement of their children

Kathryn K. and Gregory M. Kathry is a senior at UW-Madi-son School of Nursing and Greg is a senior in Agricultural Mechani-zation at UW-Platteville.

A June, 1976 wedding is

planned.

John A. McGraw, age 54, of rural Barneveld, died on Monday, December 30, 1974 at a Dodgeville hospital after a long illness. Born in Dodgeville, he farmed in the Mineral Point area. Since 1960 he farmed in the Barneveld area. Mr. McGraw was a member of St. Bridget's Catholic Church, Ridgeway. He was an Air Force veteran of World War II. He married the former Kathryn Brunker in 1943.

Survivors include his wife; five sons, Patrick, Michael, James, sons, Patrick, Michael, James, Thomas, Shawn, at home; six daughters, Mrs. Daniel Lawinger (Margaret) of Dodgeville, Mrs. James Murphy (Millie) Janes-ville, Dianne, Milissa, Victoria and Christine, at home; two brothers, Daniel of Madison, and Deayl of Dodgeville; five sisters brothers, Daniel of Madison, and Paul of Dodgeville; five sisters, Mrs. Will Laverty, Mineral Point, Mrs. William Weier, and Mrs. Ray Gevelinger, Dodgeville, Mrs. Laura Tuschen, Sun Prairie, Mrs. John Peckham, Webster Grove, Missouri; and five grandchildren. He was preceded in death by a son, Robert in 1964. Funeral services were held at

Funeral services were held at St. Bridget's Catholic Church, Ridgeway, at 10:30 a.m. on Thursday, January 2, the Rev. Robert Buholzer officiating. The Ayers Funeral Home, Ridgeway, was in charge.

Mr. and Mrs. Wayne Thousand announce the engagement of their daughter Diane Lynn to Dean K. Oimoen, son of Mr. and Mrs. Ralph Oimoen, son of Mr. and Diane is employed at the Rural Mutual Insurance Company of Madison. Dean is self-employed, farming in the Barneveld area farming in the Barneveld area. A May 24 wedding is planned.

Mr. and Mrs. W.J. Weg-Mr. and Mrs. W.J. Weg mueller of Barneveld wish to announce the engagement of their daughter Sandra Ann to James E. Earleywine, son of Mr. and Mrs. Gerald Earleywine of Badhead Brodhead.

Sandra is a graduating senior at the University of Wisconsin -Platteville, with a major in Speech and minors in Library Science and English. James is a December graduate of the University of Wisconsin - Platteville in engineering. He now works for Chicago Bridge and Iron in Karakee Illingis Kanakee, Illinois.

The wedding date has been set for October 18 at the Barneveld Lutheran Church, Barneveld.

Teacher from Switzerland Visits with Barneveld Family

When Marianne von Kanel left Switzerland on a Polish passenger ship in early April, she was anticipating beautiful weather when she arrived inthe United States.

Instead, Miss Von Kanel's first stay in the states was accompanied by dreary weather nearly every one of the 30 days she was a visitor at the John Wegmueller home in Barneveld.

Miss von Kanel, a 26-yearold school teacher from Bern, temporarily retired from the teaching profession and took the opportunity to do a little traveling. Despite the rainy weather, her first impression of the small Wisconsin community was not all bad. "The people are really friendly around here. I don't believe that people in Switzerland are this friendly to total strangers. Everyone here made me feel right at home."

Miss Von Kanel, who arrived at the Wegmueller's April 18, felt especially at home around Ruth Wegmueller, who is a na-tive of Switzerland herself. Mrs. Wegmueller and Miss Von Kanel's mother were best of friends as they grew up together, and they have still been keeping in touch through letters and visits back and forth. Miss Von Kanel said that "when Ruth comes to Switzerland, she stays with us. So when I decided to come over here, the arrangements were made to stay with the Wegmuellers."

During her stay in Barneveld, Miss Von Kanel made the rounds of the area to see the sights, including the House on the Rock, home. I can see how it could over here much better.* really be beautiful around here, What Miss Von Kanel plans to if it wasn't raining all the time." do now is to go back to college (She was later informed that it for two more years and to specactually doesn't rain quite all ialize in teaching deaf children the time.).

to the United States was to learn Cctober, the language better. She got a chance to practice speaking it similarities between the two five times when she was talked into speaking for five grade scape, she also noted a number school classes in Dodgeville. She of differences. "Switzerland is noticed a great difference in the basically a tourist nation, of school systems of the two coun-tries. "The teachers seem to be the fact that a number of difmuch more specialized over here than they are in Switzerland, After teaching for five years over there, you can teach any students between the ages of 7 and 17. I also noticed much more input and output between children and teachers over here. In Switzerland teachers ar considered lazy if they stop talking long enough to let the students say aything or show their work. Teachers have to give and give all day, while the children are expected to sit their seats very passively. in

Marianne von Kanel recently spent a month with the John Wegmueller family in Barneveld.

That's one of the reasons I left Wisconsin Dells, and Governor the profession to specialize in Dodge and Blue Mound State something else. That antiquited Parks. "Actually," she said, "the school system really takes a lot landscape isn't that much differ- out of a teacher in a short time. ent around here than it is back I like the give and take methods

What Miss Von Kanel plans to who 'cannot speak. She will begin One of her reasons for coming school back in Switzerland in

> Although she mentioned the countries when referring to landthe fact that a number of different languages are spoken within the country. There is no one language, as people speak French, German, Italian and romance languages in various sections of the country. You can travel 100 miles from home and find that people there speak a different language than you do."

Most people think of the United States as being one of the most hectic countries in the world, but believe it or not, Miss Von Kanel said that she thinks that people hurry around more in Switzerland than they do here. "One way of emphasizing that is the speed limits. The limit has just been lowered to 90 over there. I feel like I could fall asleep while driving over here."

Before going back to Europe, Miss Von Kanel will be staying with friends in Canada and later hopes to visit San Francisco before she has to be back to go to school October 22.

Hunters Sue for \$180,000

Four Madison and area deer hunters filed an \$180,000 lawsuit in Dane County Circuit Court Wednesday alleging that they were harrassed and illegally confined while hunting in the western part of the county in November, 1974.

The plaintiffs are Tom A. Landgraf, 3827 Monona Dr., Lance L. Beutel, 605 Falcon Circle, Monona, Larry M. Tobin, 2609 Granada Way, James R. Scott, Rt. 1, Marshall.

They assert that on the afternoon of Nov. 24, 1974, they were accosted by approximately 15-20 men, most of them armed, while they were hunting deer near Mount Horeb. They say they were threatened and forced to remain in a "close area" around their vehicle for approximately four hours

One of the men is alleged to have grabbed Tobin and slammed him against a truck

The plaintiffs assert that they were able to identify only eight of the 20 men who harrassed them. Named as defendants are: Martin Berge, Karsten Berge, both of Mazomanie; Don Frame, Steve Frame, both of Rt. 1 Blue Mounds; Charles Greenwood, Blue Mounds; Verne Lunde, Mount Horeb: Donald Wenger, Mazomanie; and Obert Berge, Town of Vermont.

Mt. Vernon: The Right Place to Be

By JOHN PATRICK HUNTER **Capital Times Associate Editor**

MT. VERNON - Even in the rain and mist, Mt. Vernon was the right place to be this weekend. There was a parade to open the Mt. Vernon Octoberfest Saturday and a championship tug-o-war contest Sunday to highlight the activities. And in between there was folk dancing, singing and beer drinking.

What made the weekend unique was an almost total absence of electioneering only three weeks from election day.

In Saturday afternoon's parade, which featured high school bands from Verona, Mt. Horeb, New Glarus and Belleville, only two aspiring campaigners showed up. They were Shirley Thompson, Mt. Horeb, the Republican candidate for the 46th Assembly seat, and Lyman Anderson, Oregon, the GOP candidate for the 47th District seat.

It is hard to figure out whether it was the rain or Watergate that dampened political activities. Nobody, it seemed, wanted to talk politics. Edward Bircher, the spark behind Octoberfest, said "people are simply not worked up" about the election.

Indeed, the election seemed far away. Inside the park pavilion, a roaring fire fought the chill. Members of the Song of Norway cast from nearby Mt. Horeb gave a spirited exhibition of Norwegian folk dances. They were followed by the Verona Squares, a square dance group.

The highlight of the weekend was Sunday's tug-o-war championships in the tree-lined village park. The affair, which got its start more than 40 years ago when a Mt. Vernon team incredibly captured the national championship at the Chicago "World" Fair and won a niche in the local hall of fame.

The contest attracted teams from as far away as Green Bay and Luxemburg in Kewaunee County.

The Blanchardville Sodbusters won first place, upsetting the favored Monroe Machine and Welding team. The Village Bar team of Barneveld placed third.

The rolling hills of southwestern Dane County gave Wisconsin its most famous son - Robert M. (Old Bob) LaFollette.

Saturday the fog curled around the historical marker at the site of his birth in Primrose township and blanketed the frost-bitten corn that stood uncut in nearby fields

They practice a close-fisted brand of political progressivism in the area, tempered undoubtedly by the proximity of

Theobald-DeSmet

Green County, a GOP stronghold less than 10 miles away. But the area voters have

had the satisfaction of rejecting Richard Nixon on the three occasions he asked them to send him to the White House.

Down the road toward New Glarus in the center of the Amish farming district, visitors pulled their cars into a farmyard driveway to buy warm loaves of white, whole wheat and rye bread as fast as a young Amish housewife could pull the loaves from the oven.

But some of the Amish are beginning to leave the area. Many of them are moving back to Iowa or to southern Indiana Sure would hate to see that bakery close down.

Miss Debra Ann Theobald, Barneveld, became the bride of Curtis Lee DeSmet, Hollandale, in a 3:00 p.m. ceremony June 21, 1975 at the Dodgeville United Methodist Church.

Parents of the couple are Mr. and Mrs. Harvey Theobald, Route 1, Barneveld, and Mr. and Mrs. Kenneth DeSmeth, Route 1, Barneveld.

The double ring ceremony was officiated by Rev. Billy F. Bross and Fr. Buholzer. Chris DeSmet, sister of the groom, was the soloist.

Miss Mary Lease, friend of the bride, was maid of honor. Bridesmaids were Diane Theobald, sister of the bride, Laura DeSmet, sister of the groom, Peg Ryan, Cindy Meister, Becky Dimpfl, all

Theobald, sister of the bride. Bill Garfoot, friend of the groom, was best man. Groomsmen were Tim DeSmet, brother of the groom, Bill Theobald, brother of the bride, Mike Carmody, Ron Meister, Bill Dimpfl, all friends of the groom, and Mark DeSmet, brother of the groom.

Ushers were Jim Myers and Wes Carruis, friends of the bride and groom. Flower girl and ring bearer were Kristen Theobald and Michael DeSmet, cousins of the bride and groom.

The reception was held immediately following the ceremony in the church fellow-ship hall. After a short trip the DeSmets are at home farming at Route 1, Hollandale.

Judicial Comm. Recommends Action Against Arneson The Wisconsin Judicial Com-

mission Friday recommended the State Supreme Court to take action against Municipal Justice Carl Arneson of the Village of

We would like to thank all those who remombored us with cards, foct and visits in our time of griof. A spocial thanks to Fr. Bubolzer for his prayors and kindnoss. Also Mr. Albort Millor for taking Warron to the hospital and the Altar Sodality for the food and wonderful dinner they propared for our friends and rolativos.

TTE FAMILY OF WARREN HOLMES

Alvin A. Hutter, age 69, of Dodgeville, died on Tuesday, August 5, 1975 at a Madison hospital.

Born in Plain on December 7, 1906, he was the son of John and Maggie Hutter. He was raised and educated in Plain and farmed in the Barneveld area with his father until 1969. He worked at the Boscobel Hotel from the Boscobel Hotel from 1972-1974. Since that time he had made his home in Dodgeville with is sister. Mr. Hutter was a member of St. Joseph Catholic Church in Dodgeville.

Survivors include two sisters, Mrs. Curtis (Evelyn) Olson of Dodgeville, and Mrs. Martin (Emma) Head of Eastman.

Funeral services will be held at St. Joseph Catholic Church, Dodgeville at 10 a.m. on Thurs-day, August 7. Burial in St. John Cemetery, Spring Green. The McGinley Funeral Home, Dodgeville, is in charge of arrangements.

Barneveld for failure to disclose his financial assets.

Arneson, a banker in Barneveld, has refused to comply with the State's judicial code of ethics which requires the disclosure. He told the commission in a letter that matters before his court were only local matters involving traffic cases

"Because of the local nature of hearings, I feel the disclosure of my personal finances would have no weight in affecting my decisions on matters brought before me. Arneson said.

He said he was not notified by the commission that they were taking action against him, and that all he knew about it was what "I read in the newspapers." Arneson became the second

judge to refuse disclosure. Jefferson County Judge Charles Kading has refused disclosure and the commission June 6 urged the court to "take appropriate action" and force disclosure of his finances

County Accidents Injure Two, Icy Roads to Blame

Albert Miller, Barneveld, was plowing snow on Short Cut Road, December 16 at 9:55 a.m. when he said he stopped to back up to clean snow near the intersection of CTH "K". He stopped the truck & got out to see how he was backing and saw he was too far over to the right. He turned the switch off and started to go for help, and as he looked back he

saw the load shift and the truck typed over going over the road bank

Sylan A. Johnson, 53, Mt. Horeb, was injured in this truck Friday when he left the road near Barneveld and overturned. Icy roads were blamed for the mishap.

Harland Rue, Barneveld, questions the legislators on the state budget and the shared tax formula at Saturday's WWA meeting.

Oimoen-Hodgson Act 23

The marriage of Miss Jacquelyn Jo Oimoen, daughter of Mr. and Mrs. Vernon Oimoen, Barneveld, to Gerald Kevin Hodgson, son of Mr. and Mrs. Tom Hodgson, Barneveld, took place this afternoon in Perry Lutheran Church, Daleyville.

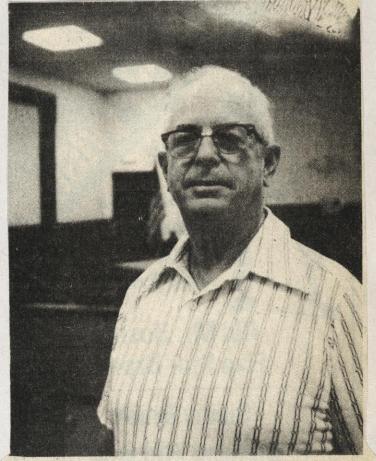

The bride is employed as a secretary at the Gordon Flesch Co. The bridegroom is self-employed in farming near Barneveld.

Barry Watkins, age 42, died on Wednesday, September 18, 1974 at a Madison hospital after a brief illness. He was born August 4, 1932 at Barneveld, Wisconsin. Mr. Watkins was a member of the Barneveld United Church of Christ, past Master of the Barneveld Masonic Lodge.

Survivors include three sons, Harold, Platteville, James and Richard Sawtry England; his mother Mrs. Aleta Watkins of Madison; a brother, Thomas of Chicago; and a sister, Mrs. Dan Danielson of Minneapolis, Minnesota.

Funeral services were held at the Frautschi Funeral Home, Madison, on Saturday, September 21. The Rev. Paul Fotsch officiated. Burial was in White Church Cemetery, Barneveld.

Tom McCutchin, Arena, will be next Tuesday's guest on Everett Olsen's "In Iowa County" radio program over WDMP at 4:30 and 9:05 p.m. McCutchin served on the Iowa County Board, is active in the Hyde Community Club, was voted State Watershed Man of the Year, and is the person responsible for reducing the annual floods along Mill Creek. Tom believes in soil and water conservation. He has a saying, "Keep the land and slopes green, then the water and air will stay clean". This indicates he was years ahead of the present crop of upsurging environmentalists.

Wedding Night in a Church? You Can Do It in Dodgeville

DODGEVILLE - All but a very few marriages in this country are held in church. But only a select few of the newly married couples around southwest Wisconsin have the opportunity to spend their wedding night in a church.

More specifically, it's a church steeple located at the Don Q Inn motel complex a mile north of Dodgeville (Iowa County).

How the steeple of the old Methodist Church of Dodgeville became a part of the motel is quite a story. And so is the renovation of the 105-year-old structure into a plush, four-level honeymoon and anniversary suite.

"I just simply hated to see it go," explains the Inn owner-operator Don Quinn.

The native of Sturgis, S.D., is a former Air Force, Philippine Airlines and United Airlines pilot who began to put roots down in the Dodgeville area when he bought a 250-acre spread of hill and valley farmland.

Quinn has always hated to see any link with the past destroyed. He began by renovating a huge dairy barn into one of the most talked-about dining places in the midwest. Then came the fabulous wagon wheel tree, a 67-foothigh lacework of welded steel wheels.

The 32-unit motel, constructed primarily of carefully preserved timbers and planking from landmark buildings in Wisconsin and neighboring states, was begun in 1972.

Also on the site is the old Dodgeville depot of the Chicago, Northwestern railroad of Pre World War I vintage. It now houses eight modern motel units.

But the white steeple towering 67 feet above its new concrete base, is the real attention-getter.

"I just had a vague idea of its future use when I hired a firm to move it to the Inn site," states Quinn. "I knew that the old frame church was being demolished and dreaded the thought of that beau-

Photos by J. W. Koelsch New bride Laurie Lawinger of Mineral Point thinks the steeple suite at Dodgeville is something special. She has booked a reservation for her first anniversary.

tiful steeple being smashed."

It was placed on its side, moved to the Inn, and eventually placed on its permanent new base early in 1975. Twenty five tons of concrete and brick facing from the old Dodgeville water tower went into the foundation and new basement.

Then the three levels of living space, plus the long winding stairway were installed.

Each floor has living space of 12 by 12 feet, complete with reminders of yesterday

For instance, the bathroom's focal point is a huge copper Swiss cheese kettle which makes a perfect oversized bathtub.

Now honeymoon, anniversary suite Church steeple given new life

When the steeple on the old Methodist Church in Dodgeville in southwestern Wisconsin was erected, the U.S. was still trying to heal the wounds of the Civil War. Part of the unity move included plans for the celebration of the U.S. centennial.

The steeple still stood as a Dodgeville landmark several years ago as the U.S. licked the wounds inflicted by the Vietnam War. Plans were being formulated to mark the U.S. bicentennial

Then came the announcement. The old frame church building had outlived its usefulness.

It would be demolished. The steeple, too. Don Quinn of Dodgeville, a former Air Force and commercial airline pilot turned restaurant and motel owner, decided to give the steeple additional life.

"I just had a vague idea on how it might be 20 sused," Quinn said of the steeple. "Nothing definite, however. I simply hated to see a link with our past destroyed.

Quinn had the steeple moved more than a year ago to the site of his restaurant-motel two miles north of Dodgeville on Highway 23 near the intersection of Highways 18-151. The

steeple now rests atop 25 tons of concrete and towers 67 feet.

Inside the steeple? A plush four-level honeymoon and anniversary suite. It features a winding stairway, stained glass windows and a huge copper Swiss cheese kettle which serves as a gigantic bathtub. The carpeted living area, offering a sweeping view of the countryside, comes complete with color TV and a stereo.

The steeple joins other unusual structures on Quinn's property. The restaurant is a renovated dairy barn, the old Dodgeville train depot of the Chicago-Northwestern Railroad houses eight motel units and 32 other units were partly made from preserved timbers and planking taken from old buildings in Wisconsin and neighboring states, and a lacework of steel wheels welded together composes what Quinn calls the wagon wheel tree. Like the steeple still scanning the historic countryside, the unique "tree" stands 67 feet high.

Change in Earth's Climate Air Pollution Bringing (

United Press Intern

Reid A. Bryson, a meteorologist at the University of Wisconsin, says the climate of the earth is changing. And, he says, it's changing in a direction that is not promising.

The earth has been getting colder," he said. He attributes this cooling trend primarily to dust in the atmosphere.

Since 1930, mechanized agriculture, population growth, and the burning of fossil fuels has greatly increased air pollution. This has made the atmosphere less transparent and, thus, has filtered out the warming rays of the sun.

A similar cooling period was experienced throughout the world in the 1800s, a time when the atmosphere was filled with the dust from numerous volcanic eruptions. One year of freak summer snows and cold temperatures - 1816 - was described as the "year without a summer.

It followed the eruption of the Indonesian volcano, Tamboro, which threw tons of ash high into the atmosphere where it remained for years.

Volcanoes are still contributing dust, but man-made dust is a new and potentially serious addition to the atmosphere," says Bryson.

The earth's climactic history has included some long and

severe cooling periods like the Ice Ages and other, milder fluctuations like those we are experiencing now.

But even these fluctuations - amounting to a change of only a couple of degrees - can disrupt agriculture and have serious effects on the world's food supply. Marginal agricultural regions are especially threatened.

Bryson points to Iceland as a good example. Iceland's economy is based largely on beef, mutton, wool and fish - and the growth of their cattle and sheep depends on good grass production.

If the mean annual temperature in Iceland drops one degree, says Bryson, the growing season for grass will be shortened by 27 per cent. If the yearly temperature drops 2.4 degrees, the season is almost cut in half.

In American regions where the fall may be turning cooler and wetter, farmers may have to switch to cooler weather crops. In the plains, where rainfall is expected to increase, bumper crops of wheat may be experienced.

But for the large areas in Africa and Asia suffering from drought, the picture is grim. The monsoon rains have been largely suppressed by the climate change.

- and this is the hungry part of the world population - a suppression of the monsoon rains has far-reaching effects," Bryson says.

It's possible that, as a result, millions more will die of starvation in the next 10 years than have in the last 10 years, Bryson says.

It now appears that the technological advances which kept our harvests even with population growth are being foiled by weather.

While the United States and Canada were previously able to or give away surplus food to nations in trouble, this is no longer .ne case.

The U.S. hasn't had a large grain surplus since 1968. And the world is now down to about a one-month reserve of grain.

Bryson and a team of scientists at UW's Institute for Environmental Studies are now attempting to accurately predict where and when climatic shifts will occur.

This study could form the framework for surplus food allocation programs.

Hopefully man will be able to adjust his technology and cultural patterns to take into account the presence of absence o Since half the world's population lives in these monsoon lands rain that precious basic ingredient of food production.

Dairy Farmers Fear Rising Costs

By HARRY JOHNSON

BARNEVELD — It's easy to turn consumer against producer these days when only 5 per cent of the population are farmers and just 300,000 operate dairy farms.

Dairy farmers and their organizations have been angered by the concerted attack of Senator Edward M. Kennedy Mass.) and others on their federal

arketing orders and the right of ratives to bargain for fair prices under the Capper-Volstead Act.

• At the program for Wisconsin's Outstanding Young Farmer at the UW-Platteville, Betty Thronson, Blue Mounds, a panel member, reminded Kennedy that support prices are minimum milk prices and work like the minimum wage.

She invited Kennedy to Wisconsin to learn what farmers and cooperatives are all about,

Henry Ochsner, Plain, dairy

representative of the NFO warned that if this attack continued the NFO, AMPI, Farm Bureau — all of us — will be on the same side because "**our livelihood is going to be at stake**."

Harland Rue, who milks 50 cows on his 200-acre family-farm near Barneveld, lives with the dairy problems. Rue represents 1000 milk producers in this area as regional director of the AMPI (Corporate Area 4) and is a member of the Mid-States and Corporate Boards.

"Sure, the price of milk was never higher," he says.

"But recent statistics showing that the dairy farmer never had it so good are based mostly on price with little attention to costs. Of course, if you've been farming for a long time and everything's paid for you can make a good living right now.

"What about the younger farmers who have to buy their farms, their cows, their machinery and perhaps pay 8-9 per cent interest on their debts plus \$15 an acre in taxes," he said. "They're in a real bind."

Rue said the average dairyman's age is 51 now and will go higher because lots of farm boys don't look forward to milking cows twice a day, seven days a week.

The hardest work is done on the farm before the milk leaves the barn but it sn't the dairyman who makes the most profit, Rue claims. Even at today's high price he only receives 77 cents a gallon or Class I milk, 67 cents for Class II and less for Class III. And not 50 per cent of his milk goes into the Class I pottle, he said. "I believe the average dairy farmer has a quarter-million dollar investment in land, machinery and cattle," says Rue. "The farm that went for \$40,000 five years ago now sells for \$130,000 to \$150,000. A four or five plow tractor that was \$12,000 now sells for \$17,000.

"The other day I priced a tractor like mine that I bought for \$2,850 and it's now \$9,000," he said. "And you know what's happened to the price of parts and repairs. And the cost of gas, seed, fertilizers, herbicides and pesticides have doubled and sometimes tripled."

Rue believes that stabilization of milk prices will benefit the consumers as well as the producers.

"A sharp fall will hurt us all," he says.

"Because of the price-cost squeeze, more than 1000 dairymen quit farming in 1974 and more will be calling the auctioneer unless they have future price assurances — like a dairy price support at 85 per cent of parity."

Area Dairy Farmer Feels Both Price, Cost Must be Looked At

It's easy to turn consumer against producer these days when just 5% of the population are farmers, and only 300,000 of these operate dairy farms.

But. Where would we be without the efficiency and hard work of the American farmer who manages to feed our growing population and people in many other lands?

people in many other lands? Therefore the dairy farmers and their organizations showed much righteious indignation when Senator Edward M. Kennedy (D-Mass.), and others blasted the dairy farmers as part of a concerted attack to change federal milk marketing orders and take away the right of their cooperatives to bargain for fair prices under the Capper-Volstead Act.

At the recent weekend program for Wisconsin Outstanding Young Farmer (OYF) at the UW-Platteville, Betsy Thronson, Blue Mounds, a panel member, reminded Kennedy that support prices are minimum milk prices and work like a minimum wage. She invited Kennedy to Wisconsin to learn what farmers and cooperatives are all about. Henry Ochsner, Plain, dairy representative of the Wisconsin National Farmers Organization (NFO) warned that if this attack continues the NFO, AMPI, Farm Bureau, "all of us will be on the same side because our livelihood is going to be at stake."

Serious consideration of the situation of the dairy farmer took us to Barneveld for a talk with Harland Rue, who's been milking 0 cows on his 200 acre familyrerm. Harland represents 1,000 a k producers in this area as of ional director of the AMPI

(Corporate Area 4), and is a member of both the Mid-States and Corporate Boards.

"Sure, the price of milk was never higher," he says. "But recent statistics showing that the dairy farmer never had it so good are based mostly on price with little attention to costs. Of course, if you've been farming for a long time and everything is paid for you can make a good living right now. But what about the younger farmers that have to buy their farms, their cows, their machinery and perhaps pay 8-9% interest on loans and at least \$15 an acre in taxes. They're in a real bind. And if you don't make it where's the milk coming from? The average dairyman's age is 51 now and it'll go higher because lots of farm boys don't look forward to milking cows twice-adow sowen days a-week "

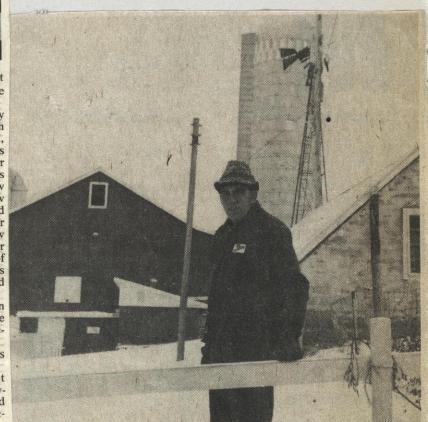

day, seven-days-a-week." The hardest work is done on the farm before the milk leaves the barn. But it isn't the dairy farmer who makes the most profit. Even at today's high price he only receives 77 cents a gallon for Class I milk, 67 cents for Class II and less for Class III. And not even 50% of his milk goes in the Class I bottle.

"I believe the average dairy farmer has a quarter of a million dollar investment in land, machinery and cattle," says Harland. "The farm that went for \$40,000 five years ago now sells for \$130-\$150,000. A 4-5 plow tractor that was \$12,000 is now \$17,000 and the other day I priced my tractor that I bought for \$2,850 and it's \$9,000. You know what's happened to the price for parts and repairs. And the cost of gas, seed, fertilizers, herbicides and pesticides have doubled and sometimes tripled." Rue believes that stabilization

of milk prices will benefit the consumers as well as the producers.

ers. "Any sharp fall will hurt us all," he said.

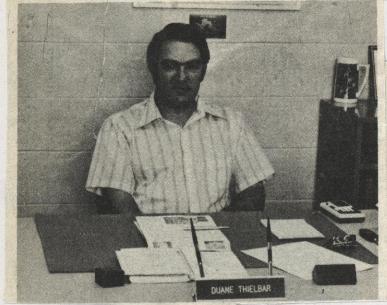

Because of the price-cost squeeze more than a 1,000 dairymen quit farming in 1974 and more will be calling the auctioneer unless they have future price assurances -- like a dairy price support at 85% of parity.

Harland Rue, rural Barneveld, has a grassroots look at today's farm problems. He milks 50 cows daily, and is a regional representative for AMPI. The price of milk is high, but farm costs are rising rapidly. He is fortunate in that his 200-acre farm is paid for.

Thielbar Readies for First Year at Barneveld Position

UAUYUAUYUAUYUAU

Duane Thielbar, the new administrator at Barneveld Public Schools, will begin meeting the real test at his new position later this month when the school year begins.

begins. Thielbar took over as adminis-trator July 1 and has been working at the school this summer to get things organized and set for the opening of school. He took over for Dick Neel and Thomas Stumpf, who held posi-tions at the school as administra-tor and principal, respectively. Neel was dismissed and Sumpf resigned when the school board resigned when the school board eliminated his job.

So this year, the board will be

asking Thielbar to do the job of both men, at a salary of \$22,000.00 a year. He was hired, however, with the understanding that he would assess the situation upon arrival, and then make recommendations to the board as to whether or not more administrative help would be necessary. Thielbar said it would take him some time to size up the person-nel and decide what to do and who possibly would be the best person to do it.

The biggest problem that he foresees is "finding the time to get the job done as effectively as it should be done." He said that teacher evaluation will be one of

-0.0 -11-0.0 -11-

26

the items that will take up a lot of his time. It is the one job that he will have to be sure and set time aside for, Thielbar said. Thielbar was born and raised

a farm in the Drummond, Wisconsin area, and graduated from Drummond High School in 1954. He then attended the University of Wisconsin Superior, where he earned a bachelor's degree in upper elementary education. He next received his masters degree in courseling and guidance after studying at the University of Missouri at Columbia. He has since completed his course work on his PhD in Educational Administration at the University of Wisconsin -Madison, and foresees getting his PhD in a couple of years.

Thielbar's first teaching job was at Mercer, Wisconsin, where he taught in the junior high for a year. He also taught for a year at South Shores Schools in Port Wing, Wisconsin, as well as at Ondossagon Junior High near Ashland. He then moved on to Madison, where he was a high school counselor for three years,

living." Murray has been driving oxen teams for more UTom and Jerry duo was his than 24 years and Tom and Jerry duo was his favorite. "Gentle, just like big pets," he says. Murray is now looking for young stock to start training for a

Former Barneveld Administrator Gets Unemployment Pay

Former Barneveld District Administrator Dick Neel is receiving unemployment pay from the Bar-neveld School District, it was learned recently by the Chronicle.

Neel, who was fired last year in the controversial move by school board, is receiving \$113.00 a week for a total of 34 weeks. The total unemployment drawn by Neel will add up to \$3842.00.

Neel was fired and former principal Tom Stumpf's job was eliminated last February in a move designed by the board to "save money." they then hired Duane Thielbar as administrator to take over the jobs previously held by the two men.

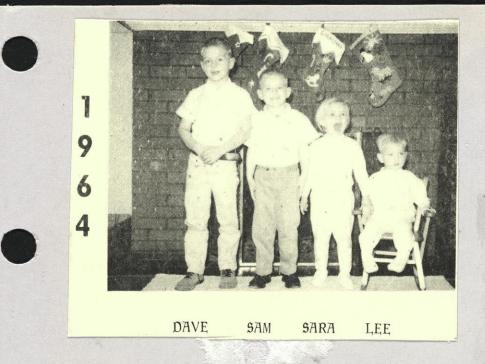

While the more than \$3800 is being paid to Neel, it will also mean that the Barneveld School District will now be required to maintain a certain percentage of the total payroll in a state fund from which teachers will be able to draw in the future. A new law is supposedly raising the percent-age required to maintain to six per cent, which would mean that initially, the school would be required to pay \$8287.18 to the

Ó

Ô

state. It wasn't necessary to maintain this fund until the first unemployment was drawn against the school.

Mr. & Mrs. L. Paul Fotsch, Barneveld, Wis. 53507

Dear Friends:

1974

We hope this season brings you the warmth of good friends and time to enjoy them. Then, "with a little bit of luck, you'll be all right." The year has blessed us with all of these.

In order to make this year seem longer, I decided to thoroughly enjoy each season in turn. I did, but still the year passed too quickly. During the doldrums of cabin fever season, we did the needful inside the house: repairing and replacing. You know the saying: "If you can't pick it up or move it, paint it." We did. Spring is the hopeful time. That's really the time to make New Year's Resolutions for everything seems possible, especially for gardens. With a gro-light and jiffy pots, a compost pile and love, our vegetables flourished even though most of our tomatoes had to ripen inside the house. Fall brought "passport, will travel" for both of us. (Reid had already traveled here and abroad.) We combined business and vacation in going to Mexico and Peru in September and to Japan in October. Each place was exciting because we saw them through the eyes of friends. Flying over ruins in Yucatan and then climbing them was a contrast to the enormous mountains and ruins of Peru and the old gardens and temples and ordered beauty of Japan. Something to remember always.

Our family is scattering somewhat. Anne, John and Jenny are in Greensboro, North Carolina where John is a Professor of Philosophy. Anne is studying with the goal of entering Medical School. Jenny, now 4 1/2, has discovered reading. Bill and Eileen are both here at the University. Tom will probably graduate in Cartography and Russian before Bill finishes his Ph.D. in Electrical Engineering. Bob and Jackie, now in Eugene, Oregon, hope to make the West a permanent home.

The effect of a changing climate on the world's food for burgeoning population is Reid's major source of concern. He can only have faith that each man's efforts help in some way. Still for us, we have so many blessings that all goes well. I pray that is true for you and yours. We send our love and best wishes. From the Reid

Jan 18/976 **Burial on Family Land Brings Charges**

Dear Ed:

By HOWARD COSGROVE Of The Capital Times Staff

DODGEVILLE - Iowa County has filed charges against a Madison man who chose to bury his sister on the family land, rather than in a cemetery.

District Attorney Dennis Scallon reported that a complaint was signed against John Osteraas, 2212 Kendall Ave., Madison, on Tuesday.

Iowa County Zoning Administrator Ken Palzkill said the family's decision to bury Jana Osteraas, 20, on the family land north of Barneveld apparently violates both state law and the county zoning ordinance. Jana Osteraas was killed last week in a car-train accident on Lakeside Street in Madison.

The zoning ordinance requires that cemeteries be at least five acres and be registered with a conditional use permit from the county zoning committee, Palzkill said. The Osteraas property does not quality on either ground, he said.

"History has shown us that the small cemeteries created years ago tend to be abandoned," Palzkill pointed out. Such cemeteries eventually become the expense of the town, he said.

In addition, he said, state law appears to say that a cemetery must be governed by a municipal, religious or benevolent organization that will take the responsibility for maintaining it over the years.

The zoning law is essentially a land use ordinance, he said. "It attempts to place similar uses together.

Cemeteries must comply with the law the same as subdivisions, Palzkill commented. To grant a permit, the zoning committee probably would hold a public hearing and consider whether the ground in question was appropriate for a cemetery.

Members of the Osteraas family were not available this morning to respond to the Iowa County charges. Violation carries a fine of \$10 to \$200 per day.

John Osteraas said earlier that the family picked the site, because it was one that Jana always liked and that meant something to the family.

Burial Violates Zoning Ordinance

A complaint has been filed by the Iowa County Zoning Administrator against a Madison man who violated zoning regulations when he allegedly buried his sister on his Barneveld property last week.

Ken Palzkill drafted the complaint which has been signed by Judge James Fiedler against John Osteraas, Madison. According to the criminal complaint, Osteraas buried his sister, Jana, on the property in the Town of Brigham contrary to the regula-tions according to Section 2.2 of the Iowa County Zoning Ordinance. The ordinance states that structure, land, or water 'no shall hereafter be used and no structure or part thereof shall hereafter be located, erected, moved, reconstructed, extended, converted or structurally altered without full compliance with the provisions of this Ordinance and all other applicable local, county and state regulations." The complaint goes on to state that the land owned by Osteraas was not approved for a cemetery.

According to another zoning ordinance, a cemetery is a "conditional use in an agricul-tural district," and "no applica-tion for a conditional use" was made by Osteraas for the site.

series of legal battles.

Failure to obtain the necessary land use approval is subject to a penalty of not less than \$10.00 nor more than \$200.00 for each day that the violation exists as provided for in Section 2.9 of the Iowa County Zoning Ordinance. According to Palzkill, Osteraas

sister, in her early 20's, was killed in a car-train accident in Madison last Tuesday (January 20). She was taken from the scene of the accident to the Schroeder Funeral Home in Madison, where her body remained for a day. Osteraas then claimed the body and took it to his Barneveld property, where he built a casket and buried his sister. He supposedly hired David Ranney, Barneveld, to dig the grave with a backhoe.

The criminal report explains that a burial permit was issued at the Madison City Health Department for Jana Osteraas for the 'Family Cemetery'' in Barneveld. According to regulations, however, Osteraas only owns 4.8 acres of land at the location, while five acres are required for a legal cemetery

Miss Osteraas was the daughter of Jack and Dorothy Osteraas, Madison. The father is director of Operation Fresh Start, an organization that attempts to rehabilitate juvenile offenders.

this matter is determined by a

state court.

At one point, according to an

zoned for agricultural use only.

An act "of love and beauty" turned into agony for a Madison family when Iowa County zoning officials charged them with an illegal burial, the mother of Jana Osteraas said in a Madison courtroom last week.

Federal District Judge James E. Doyle, at Madison, denied a temporary injunction restraining Iowa County officials from proceeding with a zoning viola-tion complaint against John Osteraas, on whose wooded acre-age near Barneveld his sister, Jana, 20, was buried January 23. In a two hour hearing before Doyle, attorneys for the Osteraas

family, of Madison, and its members themselves explained their side of the controversy. The attorneys said that "an

exercise of religious freedom and a right to privacy in a funda-mental human activity" were involved and should be respected. John Osteraas and his parents,

Jack and Dorothy, provided other reasons.

The tragic death of Jana in a full hearing. At the hearing, the Osteraas family offered to write "an ease-ment" into the title of the land as car-train accident January 20 was considerable shock to the a considerable shock to the family. They remembered the girl's happiness with the piece of ground her brother had acquired near Birch Lake and decided that she would have liked to be buried there.

There was considerable discussion about it and every effort was made to learn whether it could be done legally, they said.

Assured that it could, they proceeded without embalming the dead girl, and, in a pine box, burial.

"As part of her religious beliefs, she

buried her in "a simple, beauti-Scallon, with Zoning Adminis-trator Kenneth Palzkill by his side, argued against federal court But they had not considered the county zoning law, nor had any-

intervention. "This is strictly a state matter that can be solved quickly," he said. "The defendants have shown no irreperable loss."

A wide range of arguments was made by the Osteraas attorneys, Barbara Willard and Charles Dykman of Madison. "Death and burial is particu-

larly an area where religion is concerned," Dykman said. "At what point does society's interest take over?'

He called his arguments "an attack on the county zoning ordinance" and said, "I have been unable to find any other that so personally violates First

Amendment rights." Attorney Willard asserted, "The zoning ordinance is being applied for purposes of making John Osteraas dig up that body. John will be prosecuted at \$10 a day for the rest of his life and go to jail if he doesn't move the body.

She added, "It is possible his parents will be forced to exhume the body to keep their son out of jail. Damage is being done to the family on their emotional health, and pain and suffering created by their uncertainty. The threat is over them whether or not their dead is going to stay at rest.'

Scallon sought to assure the family the county had "no punitive intent" but agreed when Doyle said "On the face of it there has been a separate offense every day since it occurred and continues."

Over Burial RICHLAND CENTER - Iowa County officials were ordered Friday to refrain from taking either criminal or civil action against a Madison family who injunction against prosecution, but buried their 20-vear-old daughter on a

Federal Judge James Doyle denied the request, saying the question of whether or not the burial site constituted a cemetery had not been decided.

The family then filed suit in Circuit Court, asking an immediate temporary injunction

In granting that injunction, Orton said: "My purpose is to stop everything and maintain the status quo, until the issues and fact of law are resolved.'

He said he thought the family had a good chance to succeed in their effort to keep the body from being moved.

The injunction prevents Palzkill and Iowa County District Attorney Dennis Scallon from taking any further civil or criminal action.

The Osteraas family belongs to the Unitarian Universalist Church, and their suit before Orton said they believed burials should be natural

A document filed on behalf of Mrs. Osteraas said the victim's mother 'believes as a religious matter that milestones in family life are not for public or commercial intrusion and should be unornate, simple, of concern only to the family.

believed that cemeteries and funerals have become commercialized and that cemeteries are artificial, manicured and unnatural, and are designed and maintained in a way that is repugnant to her and alien to her beliefs concerning the proper way to recognize the death of a member of one's family." the suit said.

Federal Judge Sets Hearing On Iowa County Burial Issue

By IRVIN KREISMAN Of The Capital Times Staff

U.S. District Judge James E. Doyle has set a hearing for Feb. 11 at 9:30 a.m. on a petition for a preliminary injunction which would prevent Iowa County authorities from disturbing the grave of a recently-buried Madison girl.

The petition to enjoin enforcement of a local zoning ordinance was filed Monday by Jack and Dorothy Osteraas, parents of the girl, and John Osteraas, her brother.

Jana Osteraas, the victim in a traincar collision in Madison on Jan. 20, was

> family, of Madison, an members themselves exp their side of the controvers The attorneys said that exercise of religious freedo a right to privacy in a mental human activity" involved and should be resp

> John Osteraas and his pa Jack and Dorothy, provided reasons.

The tragic death of Jan car-train accident January 2 a considerable shock to family. They remembere girl's happiness with the pi ground her brother had ac near Birch Lake and decide she would have liked to be there.

There was considerable of sion about it and every effor made to learn whether it co done legally, they said.

Assured that it could, proceeded without emba...... the dead girl, and, in a pine box burial.

buried on a 4.9 acre site in the Town of Brigham north of Barneveld. The land owned by John Osteraas is zoned agriculture.

According to Zoning Administrator Kenneth Palzkill, a conditional permit for a cemetery would have been required to permit legal burial on the site.

In their federal suit the Osteraases ask a temporary injunction and permanent injunction against enforcement, and demand the court take steps to prevent a possible attempt to exhume the body.

The Osteraas family states that it is a member of the Prairie Unitarian Universalist Society, and that the simple burial is in accordance with the society's beliefs.

Jack Osteraas is director of Operation Freah Start in Madison.

Named as defendants in the federal suit are Iowa County, Palzkill and Dennis Scallon, who is district attorney.

Meanwhile Scallon stated that he would seek a Feb. 16 date for the appearance in Iowa County Court of John Osteraas who is charged in a zoning violation complaint with burying his sister on private farmland.

Scallon said that he had been informed by Dane County officers that they were having difficulty in locating Osteraas for the service of a subpena.

The charge carries a penatly upon conviction of a fine of \$10 to \$200 a day for each day the violation continues.

Barneveld Man Dac 3 **Injured In** Wednesday Crash

David R. Meyer, 24, Barne-veld, received head injuries and a passenger, Gary L. Oimoen, 22, Blue Mounds, received cuts and bruises also to the head in a two vehicle accident at 1:50 a.m. Wednesday.

According to the accident report Meyer was westbound on U.S. 18-151 and was entering the east limits of the Village of Barneveld when the 1972 Pontiac LeMans he was driving crossed the center line and struck a 1974

freight truck driven by Larry L. Haken, 27, Jasper, Minnesota. Haken gave the account of the accident. Meyer, who was taken Memorial Hospital of Iowa County and later transported to a Madison hospital, said he did not know what happened.

A bicycle repair shop sign was damaged in the Village of Barneveld. William P. Brennan, Barneveld, reported that some-time after 7:00 p.m. July 27 or early July 28, someone painted over the lettering on the sign and wrote "Fred" in big letters. Mrs. Brennan said it would cost about \$50.00 to repaint the sign.

David R. Meyer, 24, Barneveld was injured in this car-truck accident about 2:00 a.m. Wednesday at the east end of the village of Barneveld. He was later taken to a Madison hospital.

Jury Rules In Favor **Of General Motors** In \$2 Million Suit

By MIKE MILLER Of The Capital Times Staff

General Motors won a major product liability suit in Dane County Circuit Court Tuesday when a jury declined to award any money to a Mt. Horeb woman injured in an accident she' claimed was the fault of a defective motor mount.

Although the jury determined Bonnie L. Berg, 25, Mt. Horeb, suffered medical and personal damages totalling \$859,827, it also found that Berg was totally responsible for the accident, which left her paralyzed from the waist down.

The jury deliberated for more than eight hours before arriving at its ver-

dict at 12:15 a.m. today.

Under Wisconsin's comparative negligence law a plaintiff can only collect damages if less than 50 per cent negligent in the incident.

In this case, however, the jury found that Berg was 100 per cent negligent for the accident.

Berg was asking \$2,192,000 for her damages.

Her attorneys, Richard Cates and James Olson, claimed the motor mount of her 1969 Chevelle broke, causing the car's accelerator to be pushed to the floor.

The car careened off a road north of Barneveld. The accident occurred on May 17, 1970.

Judge William Sachtjen presided at the trial, which took two weeks to complete.

1975

Fortman Gets Year In Jail

stayed a four-year sentence to the Green Bay Reformatory Thursday, then placed Donald C. Fortman, 21, Rt. 1 Blue Mounds on probation for the same length of time. As a condition of probation Fortman is to serve a year in the Dane County jail.

If arrangements can be made, Bardwell said, he will permit Fortman to be turned over to Wisconsin Family, a therapeutic center at Milwaukee, for treatment of alcoholism.

Fortman had previously admitted the apprehended Fortman.

Circuit Judge Richard W. Bardwell strongarm robbery of the PDQ store on University Avenue in Shorewood Hills on May 22

Fortman had taken a loaf of bread without paying for it during the early morning hours. When an employe, Kenneth Rittenhouse, accosted him, Fortman turned on Rittenhouse, knocked him down and kicked him, then emptied the cash register.

Rittenhouse was able to get the license number of Fortman's car. Cross Plains police stopped the vehicle and

Two Officers Hurt in Assaults 1975

A Mazomanie police chief detaining a burglary suspect and an off-duty Milwaukee patrolmen fending off robbers were hospitalized with numerous injuries within an hour early Saturday.

Mazomanie Police Chief John Mueller was cut and bruised when dragged about 50 feet by an escaping car he had stopped in response to a burglary call about 12:30 a.m.

Dane County sheriff's deputies said Naman S. Harwood. 25, rural Arena, was being held in Sauk County Jail after being arrested by Spring Green police an hour and half after the incident north of Mazomanie.

Harwood has been charged by Sauk County authorities with eluding an officer, resisting arrest, and driving after license revocation. He also faces a charge of conduct regardless of life in Dane County, they said.

Mueller was released from Sauk-Prairie hospital after treatment Saturday.

Charles Henn, 30, Milwaukee, was treated for face cuts and bruises at University Hospitals after he was attacked by two men on the 500 block of State St. about I a.m., according to Madison police.

Henn told police the men kicked him in the head after pulling a six-pack of beer out of his arms and escaping on foot. Henn was released from University Hospitals Saturday morning.

Police said they are looking for two Indian men, one described as 5-foot-10 with shoulder length hair, and the other described as weighing 150 pounds. No weapons

were involved, they said. Several bystanders witnessed the attack police said but pone

the attack, police said, but none interfered. A patrolman on routine State St. duty was alerted by one of the bystanders, they said.

Barneveld Incident Results In Charges to Mazomanie Man

A Mazomanie man was arrested and charged with disorderly conduct and resisting arrest early May 22 following an incident in the Village of Barneveld.

Richard L. Strang, 24, was taken into custody following a series of incidents in Barneveld about 1:30 a.m. Thursday morning.

ing. It all began when Iowa County Deputy Ken Weidner received a call from Barneveld Policeman Albert Miller while Weidner was patrolling the Barneveld area. Miller said that three or four subjects were "pounding on a motorcycle, possibly stealing parts from the motorcycle, and also damaging a railing on an outside stairway of a building in the village." Miller asked Weidner to check for a white 1968 Chevrolet on CTH "K" north, and while Weidner was checking out the area, Miller called back, saying he was following the car back toward Barneveld.

When Weidner arrived on the scene, Miller told him that three subjects had gone into an upstairs apartment. When Weidner and Miller knocked on the door, Norman S. Hardwood, 25, Arena, came to the door. Another man also came to the door, but he wouldn't identify himself. Hardwood said it was his motorcycle and the apartment "wouldn't mind" the damage done to the stairway railing.

The other man at the door finally identified himself as Arch Parker, 26, also from Mazomanie. When Weidner and Miller asked the two men who the owner of the Chevrolet parked down below was they both said they didn't know. Weidner told the men that he was about to call a tow truck and have it towed away, and he would also ticket the car for being parked facing the wrong way into a driveway. Weidner and Miller then returned to the street, and Weidner called the tow truck.

Moments later, Gary R. Colden, 21, Arena, came down from the apartment, saying it was his car. Weidner informed him that he was getting two tickets, one for parking facing the wrong way into a driveway and the other for parking blocking a sidewalk. Weidner asked Colden if he would pay the \$8.00 fee for a "no-tow" if the tow truck could be stopped from coming, and he agreed to do so. However, the truck arrived and Colden paid the driver.

Then Strang entered the picture from the upstairs apartment. As Miller was getting back into the front seat of Weidner's car, Strang kicked the door shut before Miller was inside. Weidner jumped in to tell Strang that he was under arrest for disorderly conduct. Strang just stood where he was, saying "no way am I going to jail". Weidner and Miller took Strang by the arms and turned him around to put hand cuffs on him, but he resisted, and Weidner heard him say "watch it old man or I'll bust your face in".

say 'watch it old man or I it bust your face in''. At that, Weidner again grabbed Strang and turned him around, and Strang then took a swing at him, missing. Strang then grabbed Weidner's shirt, preparing to take another swing, but before he could, Weidner hit Strang over the head with a flashlight. Help soon arrived on the scene in the persons of Sgt. Ray Williams, Deputy Dick Powers and Dodgeville City Patrolman Rod Schroeder.

Strang was conveyed to Memorial Hospital of Iowa County, where he was treated for his injury. Bond is being set for Strang at

Bond is being set for Strang a \$409.00.

Stolen Object Urgently Needed

ELLSWORTH (AP) — The Wisconsin State Patrol teletype tapped out a message from the Pierce County sheriff reporting the "theft of a two-holer outhouse; white; in excellent condition with carvings of initials on the wall." The sheriff suggested that the structure might be intended for use in a high school homecoming parade, and asked authorities to keep on the lookout.

The message concluded: "Owner is in urgent need of this object."

C. J. [Smiler] Holman

C.J. (Smiler) Holman, age 74, Dodgeville, died on Monday, January 27, 1975 at the Memorial Hospital of Iowa County after a brief illness. Smiler was born in Highland Twp. on November 14, 1900. He was married to the former Loretta Grundy of Linden on December 15, 1927. He lived in the Linden area where he worked as a miner. Later, he moved to Dodgeville and served four years as sheriff of Iowa County. He became a partner in the Chevrolet Garage in Dodgeville until being elected sheriff again for another four years.

Smiler was a 50 year member of the Linden Masonic Lodge #206. He served as Undersheriff, Mayor, Alderman and as a County Board member of Iowa County. The last several years he was a co-owner in the Smith -Johanning Real Estate and Insurance business.

He is survived by his wife, Loretta, Dodgeville; two daughters. Mrs. Donald (Joy) Heidemann of Chicago, and Mrs. Reuben (Charmaine) Engen of Milwaukee; one son, James Holman of Madison; and seven grandchildren.

Funeral services were held on Wednesday, January 29, 1975 at 11:00 a.m. in the Lulloff -Peterson Funeral Home, Dodgeville. Rev. Billy Bross officiated. Burial was in East Side Cemetery, Dodgeville. A masonic service was held at the funeral home on Tuesday evening at 8 p.m. where friends called from 3 - 5 p.m. and 7 - 9 p.m.

Lillian M. Ellis, age 90, Dodgeville, died on Wednesday, July 23, 1975 at the Medical Care Facilities after a long illness.

The former Lillian Paull was born in Dodgeville on January 18, 1885. She was married to David Ellis on December 24, 1912. Mr. Ellis died on October 29, 1952. Mrs. Ellis served as Superintendent of Iowa County Schools for many years. She was a member of the Dodgeville United Methodist Church and of the Dodgeville Eastern Star.

She is survived by a foster daughter, Jane Ann, Mrs. William Lucas, Dodgeville; one nephew, Milo Paull of Dodgeville; and two nieces, Mrs. Verna Julson of Waukesha, and Mrs. Marie Leigh of Dodgeville.

Funeral services are pending at Lulloff - Peterson Funeral Home.

Garfield L. Thomas

Mrs. Nystrom, who enjoys country living and the outdoors, is interested in camping, hiking, and cross-country skiing. Spare time activities also includes sewing.

Three Albany Men Charged In Barneveld Basketball Incident

Three Albany men have been charged in regard to a fight with members of the Barneveld basketball team following a game January 13.

January 13. Jay Creighton, 18, and Fred Ringhand and Gary Keeper, both 20, have all been charged with disorderly conduct, and Creighton and Ringhand were also charged with battery to minors and carrying an open alcoholic container.

The incident occurred after a State Line League game between the two teams. According to a statement submitted by Barneveld Basketball Coach Dave Laulainen, the events leading up to the fight began immediately following the game.

Laulainen said that "The first encounter was as I walked to the locker room after the game. I saw there two individuals verbally threatening two of my players. I intervened and kept peace with only a couple of shoves being made between the two individuals and my players. In the locker room I reprimanded my players for involving themselves in any conflicts with those two."

Laulainen said that later as he and the assistant coach left the locker room, he noticed two individuals punching one of his players. He said he made his way to his player he came upon an "attempted fight" between another spectator and one of his junior varsity players. Laulainen said he physically restrained his player with the help of another person and they pulled the two apart. As he held his player, the individual was suddenly struck in the head from the blind side by the Albany spectator. The two were again broken up from further fighting.

Later Laulainen said one of his players was bleeding from the head, nose and lip as two individuals continued to beat on him. As the fight continued,

The Barneveld School Board voted not to report the fighting incident at Albany to the WIAA last Wednesday night at a meeting because of action taken in the Albany community.

The recent fight between three Albany men and members of the Barneveld basketball team was discussed by the board at the meeting, and the possibility of reporting the incident to the WIAA was discussed. Reporting of the incident would result in the Albany School being placed in a probationary position, or possibly being dropped from the WIAA. The majority of the board felt that since the guilty parties in Albany were not students, and since the Albany School Board and administrator as well as the village have taken definite steps to guard

against this happening again, the matter should be dropped. The proposed science project that was refused Title III funding was reviewed and discussed. It was noted that there is an appropriation of \$7,500 in this budget for the project, and the board determined that the money should be used. The board asked that science teachers appear at the next meeting to advise what they would want to use the \$7,500 for. The original project called for \$15,000, of which half was to be paid by federal funds through Title III. Laulainen said he went in and asked the Albany junior varsity coach for some help, but he said, he "couldn't do anything." He finally got a custodian to call the police.

After the Barneveld players finally made their way into the bus, the "original instigators" then tried to force entry into the bus and "threatened anybody in their way." Laulainen said that "several people tried to enter the bus from the rear door, which was immediately closed and locked." He said a Barneveld fan who ran to the bus for safety was then grabbed by the two who were still attempting to enter the bus from the front door. The Barneveld fan was hit several times while he was on the ground, and it was at this time that the authorities arrived and pulled the two off of the Barneveld fan.

A court appearance has been scheduled for the three individuals for February 4.

Wrestling Match On

A wrestling match between Barneveld and Albany scheduled for tonight [January 22] in Barneveld, originally was announced as being "closed to the public" by Barneveld Administrator Duane Thielbar. The closing of the match came after he had received word from a "reliable source" that a group of past Barneveld graduates had planned to "retaliate" for the incident nine days before. The match has since been reopened to the public after a group of 20 Barneveld Advancement Association members volunteered to be onhand at the match for police protection if necessary.

Barneveld Administrator Duane Thielbar reported that there is only one senior who is in danger of not graduating, and there are seven others who are on the border line. The board directed that letters be sent to the parents of all these seniors advising them of this situation.

1976

School Board member Mary Ann Myers and Thielbar reported on the highlights of the recent Wisconsin Associaton of School Boards (WASB) convention they had attended in Milwaukee.

lowa County Board member Glenn Thronson was present at the meeting to read a proposal from Assemblywoman Joanne Duren. The proposal is for a law change to allow for the payment of tuition to schools for children whose parents work for and live on state property. The bill would affect Barneveld in regard to students living in Blue Mounds State Park.

The board discussed the school policy of paying group health insurance for teachers. Board member Tom Hodgson advised that during the course of negotiation sessions, the teachers posed objection to the policy of paying full single coverage for those teachers electing single coverage but entitled to family coverage. They felt that if the teacher elected single coverage, they should only be allowed the amount paid for single teachers. Presently, married teachers receive \$35.00 and single teachers receive \$15.00 per month. Married teachers electing single coverage receive \$18.26 per month. The few teachers opting not to take any insurance receive nothing.

It was reported by Thielbar that Barneveld has been refused its request for another CETA position for the purpose of keeping Kathy Newberry employed at the school as a general aide beginning February 1, 1976 when the current program she is on expires. The board considered the possibility of keeping her on at district expense but determined that the school is presently not in the position to create any new positions. This means that when the current funding stops, the general aide position will cease.

The proposals in the Legislature to null the negative aids bill were discussed by the board. Thielbar read a report which showed that the Barneveld School District would lose about \$16,000 in aid if this happened. The board requested that Thielbar write to Legislators advising Barneveld's objection to the bills.

A request by Dennis Calvert, a senior, for more time to pursue his work study job was presented by Thielbar. The board denied the request because they felt it "would not further benefit Dennis or the work-study purpose."

Other reports by Thielbar at the meeting included information that the State Line League Negotiational informational meeting would be held February 4, 1976 at Monticello. He reported to the board on the possibilities of a pending CESA legal service to schools, and the board decided to stay with the legal counsel and service they now have. Thielbar also said that both LVEC Ralph Hunsinger and school psychologist Sue Dannemiller have indicated that they would be interested in serving Barneveld on a lesser time basis next year.

Barneveld School Board Drops Albany Basketball Fight Matter

No Charges Filed in Marcia Carden Death AUGUST 28. 1975

A 20-year-old woman was found dead in her rural Ridgeway home early Saturday morning after authorities received a call for an ambulance to come to her lowa County farmhouse.

Iowa County farmhouse. Marcia Kay Carden, a 1972 graduate of Barneveld High School, was found by authorities at the Wilbur Doescher residence about five miles north of Ridgeway on Brotherhood Lane about Saturday morning. 3:30 The ambulance responded to a call by Paul B. Starck, 25, who had been living with Miss Carden in the farmhouse. He called from the Ted Sawle residence, about four miles from the scene of the death, after his truck was involved in an accident. He, along with four others, were taken into custody by Iowa County officials in belief that the death was a murder, but no charges directly related to the death were filed.

It was believed that Miss Carden had received a severe blow to the head and authorities were readying to bring a firstdegree murder charge. Iowa County District Attorney Dennis Scallon said Monday that "the charge most likely will be firstdegree murder, although we're looking it over carefully now to make sure we have a good case."

But the next afternoon, Scallon made a statement on the matter in his office in the county Courthouse, and no murder charges were brought.

"On August 22, Paul Bernard Starck, Marcia Kay Carden, John Henry Ford, Walter LeRoy Heart, and Jim Messinger were drinking together in a local bar," Scallon said. (Ford and Heart are rural Hollandale residents, while Messinger lives in Barneveld.) "During the early evening hours,

Marcia K. Carden, 20, a 1972 Barneveld High School graduate and a recent Ridgeway resident, was found dead in the house on this farm early Saturday morning. It was first believed that Miss Carden died as the result of foul play, but no charges were brought by Iowa County authorities.

probably close to dark, they left the bar and went to the Wilbur Doescher residence in the Town of Ridgeway, where Starck and Miss Carden had been living with Doescher. A large quantity of beer was consumed at a party there, and marijuana cigarettes were smoked by some if not all present."

present." "Arguments during the night were had between Ford, Heart and Starck. About 11:00 p.m., Messinger was driven back to his Barneveld home, and Doescher returned to the party. They continued drinking, and some time between midnight and 1:00 a.m., Doescher went to bed. Between 2:00 and 2:15 a.m., Ford and Heart left the scene."

and Heart left the scene." "At 3:10 a.m., the Sheriff's Office received a call from Paul Starck, who was calling from the Ted Sawle residence on Mill Road. He requested that an ambulance be sent to the Doescher residence for Miss Carden. The ambulance arrived at the scene at 3:38 a.m., and Iowa County Sheriff William Whitford arrived with County Coroner Ted Van Epps at 4:19 a.m. Van Epps pronounced Miss Carden dead, and the body was transported first to the Sheriff's Department, and then to University Hospital in Madison. An autopsy was performed by Dr. Robert Huntington, and although we have not received a written report, verbal reports have been given by Dr. Huntington."

Scallon said that the autopsy report was "inconclusive", and

Starck Released On Bond In Marijuana Case

Paul B. Starck, 25, Barneveld, was released Thursday on a recognizance bond after being held in the Iowa County Jail for 12 days on a charge of possession of marijuana.

Represented in court by his attorney, J. Paul Morrow, Starck pleaded not guilty to the marijuana charge "pending further investigation into the matter." Morrow asked that the court accept a reasonable bond for the misdemeanor charge.

Bond was set at \$250.00 and Starck was allowed to sign a recognizance bond, so he could be released.

The matter was then adjourned to Friday, September 12 at 1:00 p.m. when it will be determined whether or not a trial date is necessary and whether or not a jury is necessary. An Open Letter To The District Attorney of Iowa County:

I am writing as a concerned citizen who is not satisfied with the job you are doing in regard to the death of Marcia Carden. I realize that 80 signatures on a petition do not carry any weight with you, so my letter probably won't even get read, but I will take the time to express my feelings anyway.

You were either appointed or elected as District Attorney for Iowa County. Just what is the purpose of your job? Is it not to represent the people of this county in legal matters? Do you really feel that you are listening to the will of the people and acting in their behalf or is there someone or something else that is influencing your decision in this matter?

I can't believe that time and money are to be considered of more importance to you than the value of a human life. Who's time and who's money are you referring to? Something is drastically wrong when a young girl can lay dead and the only charges to be brought are that of possession of marijuana. I would think that with the bruised and battered condition of the body you could at least come up with

"did not show that a blow to her head was the cause of death." He said that "We cannot prove if the blow to her head was inflicted by someone else or if she inflicted it by falling. We are unable to find a murder weapon, so we don't know what she was struck with. We are unable to prove any intent. The doctor will continue to do research on the autopsy, hoping to discover more facts. If more facts are received, a complaint might be brought at a later date."

Starck, Ford, Heart, Messinger and Doescher were questioned by Scallon, Whitford and Chief Deputy Dick Meudt in regard to the incident. Messinger was released at 12:00 noon Saturday, Doescher was released at 4:00 Saturday, and Ford and Heart were released at 3:00 Monday. Starck remained in the Iowa County Jail, after he was charged with possession of two ounces of marijuana Bail was set at \$250 for Starck by Judge James Fiedler.

> assault and battery or a manslaughter charge. I would think also that the marijuana charge would be of secondary importance.

1

You kept stating in the news media that "for lack of evidence no charges could be brought." As a prosecuting attorney. I would think you would do all in your power to take what evidence was available and come up with some answers. You should have at least brought the people who were involved together for a hearing and made them testify in court as to what they knew about the socalled "accident." Then perhaps you would have a few more answers on the situation. As it stands, now a young girl is dead and no one is accountable.

There is something going on involving this case that tends to make the people in this area believe that some of the facts in this case are intentionally being kept quiet and that things are not on the up and up. This does not make our elected officials look very good.

I sincerely hope that you would help restore the peoples faith in our judicial process by a reinvestigation into all evidence in this case and to at least call for a preliminary hearing.

Sincerely, Diane L. Hanson

Starck, Hart Plead Guilty To Charges In County Court

Two men held last month for questioning about the mysterious death of a rural Ridgeway woman have pleaded guilty to unrelated offenses in Iowa County Court.

Paul Starck, 25, of rural Barneveld, pleaded guilty to a charge of possession of marijuana. He was given a oneyear probation, and he voluntarily committed himself to the mental health facility in Lancaster for treatments. Starck had lived with Marcia Carden in the farmhouse where she was found dead, and he had been held for six days after her death before he was charged with possession of marijuana.

LeRoy L. Hart, 23, of rural Hollandale, pleaded guilty to a charge of aggravated battery in the alleged beating of Marshall E. Meek of rural Hollandale. John Henry Ford, 45, also of Hollandale, pleaded innocent to the same charge. Ford was bound over for a jury trial, which will be announced at a later date. He is being held in the county jail under a work-release program.

a work-release program. Hart and Ford, who lived with Meek, were charged with attacking Meek while the three were driving between Dodgeville and Hollandale in July. Meek was hospitalized with a fractured skull and other injuries.

and other injuries. Iowa County Court Judge James P. Fiedler sentenced Hart to a one-year probation with the first five months to be spent in the Iowa County Jail.

Iowa County Sheriff William Whitford said the death of Miss Carden is still under investigation.

RIDGEWAY — The Iowa County Sheriff's Dept. was questioning three suspects late Saturday in the murder of

Marcia K. Carden, 20, of Rt. 1, Ridgeway. Her body was found about 3:30 a.m. Saturday after the Sheriff's Dept. received a telephone call requesting an ambulance be sent to a farm house on Brotherhood Lane, about 5 miles north

of here. Iowa County Sheriff Bill Whitford said Miss Carden died of a severe blow to the head, but it had not been determined what object, if any, was used.

Five suspects were questioned during the day, Whitford said, but two were released. No charges were filed late Saturday.

Whitford said that the time of death was about 2:30 a.m. and that Miss Carden died on the scene.

He said a party had taken place at the farm house earlier in the evening and that the request for the ambulance came from there. He did not identify the person who made the call.

When the ambulance attendants arrived at the house, they found Miss Carden lying on the floor, and they summoned the sheriff.

She was an employe of Stauffer and Sons, Inc., a Blue Mounds cheese firm. Her mother, Mrs. Viola Berge, lives in Blue Mounds. **Accident Or Murder**

A petition asking to reopen the Marcia Carden case has been circulated in the Barneveld area and sent to Iowa County District Attorney Dennis Scallon. The 20-year-old woman was

The 20-year-old woman was found dead in a farm house on Brotherhood Lane north of Ridgeway on August 23. At the time, authorities questioned five men in the belief that the death was a murder, and Scallon said two days after the body was found that the charge on one of the men would "most likely be first degree murder, although we're looking it over carefully now to make sure we have a good case."

It was evidently decided there wasn't a good enough case to bring a murder charge at the time, because the only charges brought were for possession of marijuana, and the five men were released. The autopsy report was reportedly the deciding factor at the time. Scallon had said that the autopsy report was ''inconclusive'', and ''did not show that a blow to her head was the cause of death.'' The wording on the original autopsy report had supposedly been ''abrasions or contusions, possible strangulation yet to be determined.'' Scallon had said that ''we cannot prove if the blow to her head was inflicted by someone else or if she inflicted it by falling. We are unable to find a murder weapon, so we don't know what she was struck with. We are unable to find a murder weapon, so we don't prove any intent. The doctor will continue to do research on the autopsy, hoping to discover more facts. If more facts are received, a complaint might be brought at a later date."

Although the latest autopsy report said "strangulation suspected", according to Iowa County Sheriff William Whitford, no charges have been brought. Whitford says he feels charges should be brought, so that "the people could decide the case." He added that "as far as I'm concerned, you can't strangle yourself."

The petition requests further legal action in the case, which would hopefully answer some of the questions left up in the air. The petition reads as follows: "In the matter of the death of Marcia Carden: We the undersigned do hereby express our faith and support of due process; abhor the alledged reason for non-prosecution as being the high cost to the Iowa County taxpayer; our disappointment of our elected officials not following through."

"This also serves as an expression of support for the family of Marcia and an understanding of their sorrow made more intense by all the questions left unanswered."

"We the undersigned do hereby petition the Iowa County Authorities to review their full responsibilities and duties in enforcing and upholding the law and then to again review the evidence and circumstances surrounding the death of Marcia Carden and proceed according to law so that Iowa County does not become a refuge for lawlessness and so justice is served according to due process."

to due process." Scallon said Wednesday morning that he has no intention of reopening the case, because there "simply isn't enough evidence in the case." Asked what weight the petition will carry, he said, "none as far as I'm concerned."

He added that the district attorney is hired to make the determination whether or not a case should be brought to court, and he said that in this case, it was his opinion that it would be a waste of "time and money." One of the petitioners said that

there were approximately 80

signatures on the petition, and that the signatures came from the first 80 people who were approached. "We would have had no problem getting another 500 signatures, but we felt time was important," she said. "It's been three months already, and if something is going to be done, it should be done soon."

She noted some of the main questions that are being asked by people concerned with the case. "Why did it take three months to get the final autopsy report, which came out saying 'strangulation suspected'?" She added that the big quiestion is "why has nothing been done?"

Dr. Robert Huntington, University Hospitals in Madison, who performed the autopsy on the Carden body, said that the reason the final autopsy didn't come out until nearly three months after the death was because the papers were "lost in the typing mill. My secretaries didn't put as high of a priority on it as they might have." he said.

He indicated it took some time for the slides to be read before the paperwork was completed on the matter.

Matter. He agreed that the report concluded that there was "strangulation suspected", and he said "I'm pretty convinced that she got knocked around, but of course I don't know by whom." He added that there was no way to prove that her getting knocked around killed her. He concluded that "anybody

He concluded that "anybody who couldn't shoot holes in the autopsy reported from a defense point (in court) would be incompetent."

Miss Carden's mother, Mrs. Violet Berge, said she could not comment' on the new developments in the case because all the information that she has came to her second hand. She said she had not seen any of the records in regard to her daughter's death.

Morgan Retires, Jones Named Iowa County Juvenile Officer

A new juvenile officer has been on the job in Iowa County since the first of the year.

Tom Jones, 45, Dodgeville, took over the job when Ambrose Morgan retired with the close of 1975. Morgan had held the position for about 14 years.

Jones has been working in Dodgeville for the past 20 years, first at the post office and then with the Surge Company. He was a city mail carrier for 16 years, before taking a position with his father in the Surge Dairy Distributorship. He was told of the juvenile

He was told of the juvenile officer opening toward the end of 1975, applied, and was appointed by Judge James Fiedler and approved by the county board. He attended St. Norberts College in DePere for a year before joining the Navy, and attended UW-Platteville following his four year service stint. While in the Navy, he travelled throughout the world, seeing the Far East, Korea, as well as the Mediterranean.

Jones' work includes serving as a probation officer, and presenting cases to the judge in juvenile court. He also serves as a counselor if juveniles find themselves in trouble. "I want young people to know that they can feel free to approach me on any problem," Jones said. His work also includes making a trip to the sheriff's office at all hours of the day or night. "When a juvenile is apprehended, I am called to the sheriff's office, and I get in touch with the parents and sit down and talk with them," he said.

In talking to the principals at the area schools, Jones has learned that juvenile drinking is probably the biggest problem at the present time.

Jones is a member of the VFW, and has been involved with Legion baseball for a number of years. He is also assistant fire chief of the Dodgeville Fire Department.

Jones and his wife Lois have five children, Michelle, 20; Mike, 18; Maria, 13; Marjorie, 12; and Kevin, 11.

Investigation Continuing Into Carden Case

An investigation into the violent death of 20-year-old Marcia Carden, Ridgeway, is continuing, according to Iowa County Sheriff William Whitford and the State Department of Justice.

76

In a letter to Sheriff Whitford, Frank Meyers of the Department of Criminal Investigation told Whitford special agents from the criminal investigation division would be coming out to Dodgeville soon from the state department.

Whitford said the group of investigators will probably start from the beginning to see what they can find out about the August death.

More Questions About Carden Case at Law Committee Meeting

More questions concerning the mysterious death of a Barneveld woman were brought up at a special meeting Monday night of the County Board's Iowa County Law Enforcement Committee in Dodgeville.

The meeting was requested by Glenn Thronson, Blue Mounds, one of the Iowa County Board members, who had been hearing questions about the death of Marcia Carden from his constituents. He asked that the case be reviewed with family members and others in attendance to help clear up the unanswered questions in regard to the death.

Miss Carden, 20, was found dead in a farm house near Ridgeway during the early morning hours of August 23. At the time, the death was first believed to be the result of a murder, but no charges were brought and the was quickly closed.

However, recent stories in a Milwaukee newspaper and The Chronicle as well as a petition circulated around the Barneveld area have again started people to wonder about the case. A final autopsy report was also received recently, which said that "strangulation" was "suspected

So to hopefully help bring "peace of mind" to the Carden family and friends, the meeting was called for Monday night, without notification to The Chronicle. However, details of the meeting were learned later through transcripts kept by the Sheriff's Department.

Questions were fired at Scallon for nearly an hour and a half by

family members and a reporter for a Dubuque newspaper, who had been notified of the meeting. Some of the questions and the answers given by Iowa County District Attorney Dennis Scallon follow

Question: What did the autopsy report show? D.A.'s Answer: "There was a

question of possible strangulation. Question: Is this not a crime?

D.A.'s Answer: "I would have

to prove it beyond a reasonable doubt." He added that there was not enough evidence to bring the case to court. He said that if he filed a complaint for a murder charge and was unsuccessful in prosecuting the case in court, he or the county could be sued for malicious prosecution.

Question: To prove this beyond reasonable doubt, what evidence would be needed?

D.A.'s Answer: "There were four people at the scene, and if any one of the four would testify that it was murder, that would do it. We cannot try all four people.'

Question: I have heard that this case is closed. How can it be closed when the words "sus-pected foul play" are used?

D.A.'s Answer: "This is a word game. If new evidence should come up, the case can be reopened, but I don't think this will happen. As far as I'm concerned,

I'm out of the investigation." Question: Can't a person be taken to court to find out if he's guilty or not?

D.A.'s Answer: "There is no way that four people could be taken to a preliminary hearing." However, he said that there could be a John Doe Hearing.

Question: What is a John Doe Hearing?

It was explained that witnesses and suspects are subpoenaed into court, and these witnesses and suspects go before the judge in his chambers, and then the judge makes the decision as to whether

or not there is a case. Usually, it is the district attorney who requests a John Doe Hearing.

Other statements followed by the district attorney and family members, some of which cannot be used because they would be incriminating if the case ever did get to the courts.

Scallon spoke on his position in regard to the case. "I do not have to explain any decisions that I make as a district attorney. I evaluate each complaint before l decide whether to sign that complaint. It is my duty as an elected official and an attorney to prosecute or dismiss. Until January of 1977 I will continue to make these decisions.

He told about his work on this case, "I was first contacted between 4:30 and 5:00 Saturday morning (August 23) of this death. I arrived at the Sheriff's office around 5:00 a.m., and worked with Sheriff Whitford and Chief Deputy Meudt until 4:30 that afternoon. At 9:00 Sunday morning I was back, and worked all day. Monday I sat and drafted the complaints charging murder, and at this time I had doubts in my mind. I felt the evidence was not enough to prove murder. I

checked with the Attorney General on the case, and together we reviewed it. He stated that there was not enough evidence, and that it could not be proven what the cause of death was." About that time, he decided not to bring charges.

At one point, one of the family members said that they were confident that everything that could be done was being done until an article appeared in the Milwaukee Journal. To that, Scallon said that the writer of the article had "no knowledge of the law or going to court.'

Another of the family members said that she would rather see the case tried and lost rather than

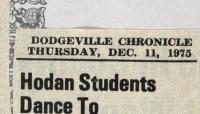

doing nothing at all. One family member said that she personally could not see how the case could be considered an accident, because "Marcia was obviously beaten, struck or strangled," according to the autopsy report. She said Marcia could not bruice berealf could not bruise herself.

Scallon said he did not look at the case as an accident, but he could not prove otherwise.

In a statement the following Marcia's mother, Mrs. day, Violet Berge, stressed that she and the family were not pointing a finger at anybody, because "we don't know who did it." But she said that "we are simply anxious to know more about it and find out what did happen. We feel a crime has been committed, and if there was, we would like to know.

She said the family had been keeping in close contact with law enforcement officials for the past three months, and added that they didn't do anything earlier because "we had confidence in our elected officials. We didn't feel it was our place to go over and solve it.

Whitford informed the group that if any new development were to arise in the case, he would refer them to Scallon. He said that at the present time, however, his "hands are tied.

Bobby Dean

The Hodan Center held a Thanksgiving party on November 25. Students and staff from the Grant County Personal Development Center and the Crawford County Development Center joined the festivities. All 120 people had a sack lunch at 11:30 a.m. before beginning the real excitement of Bobby Dean and

the Drifters. When Bobby Dean and the Drifters began playing their music, everyone started dancing. The people from all three centers

enjoyed the dance tremendously. Of course, special thanks goes to Bobby Dean and the Drifters, and thanks also goes to the Hodan Center volunteers for their assistance. Everyone is anxiously awaiting the next get together at the Hodan Center.

Thanks goes to Mrs. Viola Berge for giving a television and radio to the Hodan Center in

memory of her daughter, Marcia Carden. Marcia was a volunteer driver who transported students for the Hodan Center on a daily basis. Marcia also did full time,

five days a week, volunteer work at the Center in the homemaking class. at the Center in the homemaking

Everyone at the Hodan Center is very grateful to Mrs. Berge for the gifts. We will always be thankful for the wonderful work Marcia did for the Wonderful work Students.

-Dennis Ramberg Director of Hodan Center

Woman's D Carden, 20, has failed to indicate whether her head wound was caused by Scallon said the autopsy investigation a fall or by a blow from an unidentified He said there was beer drinking and

marijuana smoking "by some, if not all" of those in the party and there were arguments between Starck and two of the men.

Three of the men, Scallon said, had left the farm home by 2:15 a.m. and the fourth man was sleeping.

Starck's call for the ambulance was received by the sheriff's department at 3:10 a.m. and the ambulance was at the scene at 3:38 a.m.

"At this time we cannot prove that the blow to her head was inflicted by someone else or if she inflicted it by falling," Scallon said.

"We are unable to find a murder weapon," he continued. "So we don't know what she was struck with. Somehow she hit her head and she died.

"And we have been unable to prove any intent."

would_continue "and if we receive more facts, we will issue a complaint.' Starck, who has been declared in-

digent, is being held in the Iowa County jail on \$250 bail on the possession charge

Arraignment on the charge has been set for Tuesday in Iowa County Court.

Barneveld Student Will Spend Year In England

Sixteen Luther College students and one faculty member will spend the 1974-75 academic year in England as the third group at the Luther College center in Nottingham.

Fred Thoni, son of Mr. and Mrs. Ralph Thoni, Barneveld, will attend the tour as one of the 16 students.

Former Barneveld Man is **President of Education Group**

Dr. James Leary, a former Barneveld resident, has been elected President of the Michigan Association for Supervision and Curriculum Development.

Dr. Leary will assume his duties as head of the 2,000 member state organization at the September Board of Directors' meeting. He has formerly served as a curriculum specialist in Madrid, Spain, and an assistant superintendent of the Clarenceville and Plymouth, Michigan School Districts. His present position is associate superintendent of the Walled Lake Schools.

Dr. Leary currently represents the State of Michigan on the National Board of Directors. Having authored numerous articles on K-12 curriculum development, he also serves as a consultant and speaker for conventions and local school districts throughout the nation.

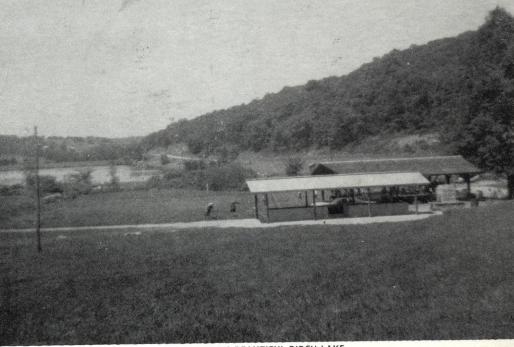

Fritz Aschliman, left, treasurer of the Barneveld Advancement Association, presents a check to Village President John Koenig. The Advancement Association has given over \$3000.00 this year toward a new shelter house and rest rooms at Birch Lake

Fritz Aschliman and Estelle Fotsch, seated, and Paul Fotsch, left and Ted Arneson are among those in Barneveld interested in starting a tennis club. At the annual meeting of the Barneveld School District it was voted to light the courts. Arneson and Fotsch represented the Barneveld Advancement Association, which pledged \$200.00 toward the lights.

Few Clues Are Found in Death Of Former Ridgeway Woman

Few clues have been found in the death of 20-year-old Debra J. Bennett, a former Ridgeway woman whose badly burned body was found July 21 in a country road ditch near Cross Plains.

It was first believed that Ms. Bennett died on July 8, but special investigators released Tuesday that she had been seen alive Saturday, July 10 at 7:15. According to the police official, she was seen walking in the 1400 block of Loftsgordon toward Aberg Avenue in Madison wearing blue jeans and carrying a blue jean jacket and a purse with a shoulder strap.

The body was identified through teeth and a fractured collarbone by Dodgeville dentist F.J. Jeske and Dr. Billy Baumann, a pathologist at St. Marys Hospital Medical Center.

Ms. Bennett was the daughter of Mr. and Mrs. William R. Bennett, Ridgeway. However, her father died Monday after a long illness, at the age of 58.

Authorities had believed that she was last seen alive at the Cardinal Hotel in Madison before the latest piece of information was learned. She had supposedly been living at the hotel since about July 1.

The incident apparently took place in a ditch off Old Sauk Pass Road, a half-mile east of Hwy. 14 and about four miles east of Cross Plains.

The body was found by two farm surveyors, but it was too badly burned to reveal how she died, according to the investigators. A homicide is suspected, but there are supposedly no suspected slayers or motives for the death.

There was no apparent drug Ground broken for Barneveld 20-apartment complex use or sales in connection with the death, but she had been arrested but not convicted last month by Madison police as a suspect in a Williamson Street apartment burglary.

The police ask that anyone knowing the whereabouts of Bennett or her companions in the past month call 266-4939, 266-4930, or the Madison police confidential tipster number of 266-4000.

A ground breaking ceremony was held last week in Barneveld for the 20-unit Summit Apartment, Inc. complex on the south side of the the highway in the village.

The ground breaking represented over a year's worth of work in arranging the project. Completion is expected within 180 days, for the one- and two-bedroom units. A cluster of three buildings will comprise the project being built with senior citizens receiving Financial priority. the arrangements on the estimated \$500,000 project were made through the Iowa County Farmers Home Administration office.

Participating in the ceremony, from the left, were the following: Rolf Killingstad, engineer; Bob Strenz of FmHA; Mrs. Mildred

Swedlund, Summit director; Mrs Aletha Myers, Summit secretary; Atty. Harry Cook, director; Ted Arneson, Summit president; David Summit director; Reeson. Summit Jones, Langdon Bernard Dregne, treasurer: FmHA; Tim Connery and Richard Connery, general contractors. Director John Koenig was missing from the picture.

Bert Pfister

Bert Pfister, age 71, died Monday, Nov. 17, 1975 at a Madison hospital following a long illness.

He was born May 18; 1904 in Dane County where he lived his whole life. He married the former Hermena Wegmiller on Oct. 23, 1923. He spent the first part of his life on the family farm in the Township of Vermont and spent the last 30 years living in Mt. Horeb. For the last 40 years he was an auctioneer and real estate broker and was the founder of the Pfister Farm Agency Inc., in Mt. Horeb. For the past 28 years he was on the Board of Directors at the State Bank of Mt. Horeb and was also an appraiser. Mr. Pfister was a member of the Immanuel

Lutheran Church, Mt. Horeb. Survivors include his wife; a daughter, Mrs. William (Jean) Whittwer, Mt. Horeb; a son, Alex of Mazomanie; three sisters, Mrs. of Mazomanie; three sisters, Mrs. A. F. (Tilly) Dosie of Milwaukee, Mrs. Louise Jabs of Verona, Mrs. Henry (Alice) Wille of Black Earth; a brother, William of Madison; nine grandchildren, He was preceded in death by a son was preceded in death by a son, Carl, a grandson, Allen, and two

Catherine Carol Wegmueller, daughter of W. John and Ruth Wegmueller, Route 1, Barneveld, will be one of 130 student nurses honored by the University of Wis-consin - Madison, School of Nursing at a pinning ceremony on May 29 in the Memorial Union Theatre. A luncheon reception in Great Hall will follow the ceremony.

Pinning marks the end of the students' academic training in the baccalaureate program and precedes the State Board examination in July, where students go through several days of testing to attain registered nurse status.

Participants at the ceremony will include: Sue A. Frazier and Margaret Brown, faculty speak-ers; Patrice Mikolajczak and Mary Beth Foglia, student speakers. Delores Schumann will be mistress of ceremony. Pinning will be done by Dean Valencia M. Prock and a "significant other"-someone with a special relationship to the student. is an a

Barneveld's DeSmet Realty opened for business at a new location as of the first of the year. The business is now located across from the Barneveld State Bank on Hwy. 18 and 151 in Barneveld. Ken and Anna DeSmet formerly operated from their 160-acre hog farm south of Barneveld.

Announce Engagement

A number of senior citizens from the Barneveld - Ridgeway area who are celebrating birthdays in December were among those meeting at a senior citizen meeting at St. Bridgets Church in Ridgeway recently. Pictured are, left to right, Gladys Nolen, Ruth Cushman, Claire Campbell, Esther Dietzman, and Ellen Blotz.

Mr. and Mrs. Rowland Hughes will obsorvo their 50th wolding Anniversary with open house from 2 to 4 Sunday, April 6 at the Amorican Legies Hall. 1975

Engagement Announced

Mr. and Mrs. Werner Ballweg Mr. and Mrs. Werner Ballweg of Route One, Mazomanie, announce the engagement of his daughter, Linda to Charles Roman Schlimgen, son of Mr. and Mrs. Roman Schlimgen of rural Barneveld.

She is a 1970 graduate of Sauk Prairie High School. Employed by Oscar Mayer and Company as a secretary, she is also chairman of the Wisconsin Porkettes. He is a The wedding will be held April invited to attend. 24 in St. Norberts Catholic Church, Roxbury. Mr. Dott at have three sons,

Celebrate 50th Wedding Anniversary

Mr. and Mrs. Elmer Dott, Dodgeville, will observe their 50th the Wisconsin Porkettes. He is a first and this, build bott, bott, build will, and observe then observe the observ

Mr. Dott and the former Gladys Rickey married Nov. 25, 1925, have three sons, Robert, Beaver Dam, and twins, James of Rio and Jerry of Sun Prairie. They have 10 grandchildren.

Barneveld Man Completes Naval Recruit Training

Navy Seaman Recruit Daniel J. Reeson, son of Mr. and Mrs. David E. Reeson of Barneveld, was graduated from recruit training at the Naval Training Center, Great Lakes, Illinois.

Classes include instruction in seamanship, military regulations, firefighting, close order drill, first aid and Navy history.

Barneveld Girl Will Teach At Cedar Falls

Pearl Raisbeck Horsch, daughter of Mr. and Mrs. C. Shelby Raisbeck, of Arneson Road in Barneveld has accepted a teach-ing position in Cedar Falls, Iowa for the 1976-77 school year. She will teach first grade at Southdale Elementary.

A recent graduate of the University of Wisconsin - Platteville. Horsch majored in Elementary Education.

Mr. and Mrs. Ed Roh, Route 1, Dodgeville, announce the engagement of their daughter Marlene Lorraine, to Douglas Allen Reeson, son of Mr. and Mrs. Dave Reeson, Route 1, Barneveld. An October 30th wedding is being planned.

Another Coach Leaves Barneveld

Eric Larsen, head football and High School, is the fourth coach to indicate that he will not be back at the school for the 1976-77 school year.

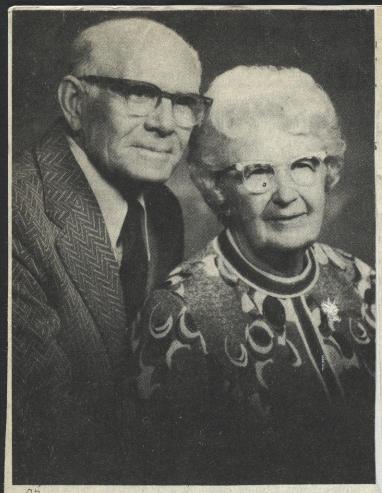

Larsen, who guided the football team to its first winning season in five years in 1975, did not meet he requirements of the 'conditional contract'' that he the had, so his contract was terminated. Larsen's contract said that he had to go back to college to pick up biology credits by fall, but he had dropped out midway through the summer. Larsen will be taking a coaching position in Iowa.

Hired to replace Larsen is Ken Miller, former head wrestling and assistant football coach at Cochrane - Fountain City.

Coaches previously resigning at Barneveld included Diane Hanson, coach of all the girls sports; and Dave Laulainen, assistant football and head basketball. Charles Ladd, assistant wrestling coach, was also dismissed.

Mr. and Mrs. Arnold Thuli, Dodgeville, celebrated their 25th wedding anniversary, Tuesday, August 12 with a family dinner with all members present. The Thuli's are parents of six sons and one daughter.

Mr. and Mrs. Leo Murphy, Arena, will observe their golden wedding anniversary October 19th with a Mass of thanksgiving at 10:00 A.M. at St. John the Baptist Church, Mill Creek, and an open house from 2:30 to 5:30 at the Don Q Inn, Dodgeville. No invitations will be sent. Mr. Murphy and the former Marie Lynch married October 24, 1925 in St. Bridget's Church, Ridgeway. They have four children, Vincent and Howard, Spring Green; [Kathleen] Mrs. Otis Beyer, Jefferson; and Jack, Madison; 13 grandchildren and one great-grandson. (Obma photo)

1975 -

CARD OF THANKS

A very sincere "Thank you" to all the wonderful relatives and friends and a special thanks to Triends and a special thanks to Dorothy and grandchildren who made our 64th wedding anniver-sary such a memorable day. The numerous gifts and cards are very much appreciated. God Bless you one and all.—Mr. and Mrs. Oscar Williams. 1c

Miss Campbell

Campbell-Schneeberger

BARNEVELD - Mr. and Mrs. Milford Campbell announce the engagement of their daughter, Nancy, to Delbert Schneeberger, son of Mr. and Mrs. Hans Schneeberger, Rt. 1, Evansville

An accounting graduate of UW-Whitewater, she is employed by J. Werner Deignan and Associates, Lake Geneva. He is a senior in elementary education at Whitewater and is employed by Janesville Frosted Foods.

The wedding will be May 22 in Barneveld Lutheran Church.

Mr. and Mrs. Sutter

Leo Sutters are wed 50 years

Mr. and Mrs. Leo Sutter, Mount Horeb, will observe their 50th wedding anniversary, Sunday, Dec. 7 at an open house given by their children in St. Ignatius Parish Hall, Mount Horeb, from 2:30 to 5 p.m.

Sutter and Esther Hefty were married in Holy Redeemer Catholic Church, Perry, Nov. 28, 1925.

They are the parents of Mrs. Virginia Thousand, Madison; Mrs. Bill (Doris) Kvernen, Mrs. Vernon (Mildred) Kelly, and Jerome, all of Mount Horeb. There are 18 grandchildren and two greatgrandchildren.

A dance will follow the open house in Club 18 from 8 p.m. to midnight.

Celebrate 50th Wedding Anniversary

Mr. and Mrs. Bradford Eveland will celebrate their Golden Mr. and Mrs. Bradford Eveland will celebrate their Golden Wedding Anniversary on Nov. 16, 1975 with open house from 2:00 -4:00 at the Barneveld Lutheran Church. No invitations are being sent but all friends and relatives are invited. Mr. and Mrs. Eveland [the former Eva Rongve] were married Nov. 14, 1925 by the Rev. E.R. Anderson. They have 6 children, Steve, Barneveld; Jim, Cuba City; Dean, 5021 Twin Oaks Dr., Madison; Mrs. Ralph Shannon [Carol], 5009 Spoonum Ave., Madison; Mrs. Dan Williams [Norita], Barneveld; Keith, Evansville; 25 grandchildren and 1 great-grand-child. Arneson Makes Plans to Rebui

Plans have been made to build a new barn on the Hilton Arneson farm, after a fire destroyed the barn and its contents last Monday night (July 5).

The new structure is expected to cost in the neighborhood of \$85,000. Insurance will cover only part of the expenses.

Countless neighbors turned out to help Arneson try to replenish his hay crop early this week. About 9,000 bales of hay were destroyed in the fire, which apparently was started by a heating unit in the milk house. Two silos and 35 head of young cattle were also destroyed in the blaze that leveled the 140 foot barn.

A neighbor in the Barneveld area, John Christian, has made his empty barn available for Arneson's use, and with the neighbor's help, about 1700 bales of hay were put in the barn Tuesday. Hay was bought from the Tom Harris farm west of Barneveld, and was baled and hauled to the Christian barn. About 50 neighbors from a 10

About 50 neighbors from a 10 mile radius were on hand to help with the haying. A neighbor on the next farm, Roger Mueller, made the phone calls and necessary arrangements for the "hay day" and the hay was cut Monday. With the dry weather, it was ready to be baled Tuesday.

was ready to be baled Tuesday. Tom Rue, Rita Zander, Bill Schlimgen, and Dave Lee operated the balers, keeping Irv Mieden, Jerry Schlimgen, Harold Zander and Joe and Leo Ryan busy hauling the h Christian farm. Neignumerous to mention h the unloading, and t helped prepare a m Christian farm.

Twine was donated t County Co-op, and International, Barneve Mt. Horeb Co-op. 7 were donated by the fa were operated by. Ser of hay have also been Arneson by area farme

Most of the neighbor were glad to be able t "He has been one o neighbors, and I'm sur do the same for neighbor said.

A fire destroyed the barn and its contents on the Hilton Arneson farm southeast of Barneveld Monday night. The barn was burned to the

The barn was burned to the ground after a booster heater in the washing system in the milk house apparently started the blaze about 8:00 p.m. Neighbors Jim Owens, Larry Phillips, Mike Vivian and Roger Mueller rushed to the scene when they saw the blaze, but by the time they arrived, nothing could be done. Lost in the fire were 35 calves,

as well as 9,000 bales of first crop hay. The milkhouse equipment was also destroyed. At the time of the fire, the milk

cows were in the pasture because the milking was done, so they were not hurt. Arneson was on another farm baling hay.

Late Monday night and early Tuesday morning, Arneson and stanchions in a machine shed, so the cows could be milked in the morning. Gerber Farm Service, Mt. Horeb, came early Tuesday morning to put in a pipeline milking system and a bulk cooler, and by 9:00, the morning's milking had begun.

Phillips, whose wife died two years ago, said he didn't know what was in the future for himself and his four boys and two girls. "These last couple of years have been really tough." he said.

He said the barn and its contents were insured as much as could be expected, but it would never be enough to rebuild. "And although the hay was insured, it would be awful hard to find this year's hay right now, with the weather the way it is," he said.

The Arneson farm is located off of Prairie Grove Rd. about six miles southeast of Barneveld.

_ay morning. The barn burned sated about six miles southeast of

Public invited to Arneson benefit

The AMPI Auxiliary will sponsor a benefit dance for the Hilton Arneson family, Blue Mounds, April 19.

The dance, according to Betsy Thronson of the Auxiliary, is a gesture of admiration and encouragement to Hilton and the six Arneson children aged one through ten, for their efforts on the newly acquired family farm since the death of Janet Arneson last October.

Tickets for the dance, with music by Al Dykstra at the Club 18, may be purchased in advance for \$1.25 or \$1.50 at the door. For further information call Betsy Thronson, 437-5472 or Betty Ryan 437-3413.

A great deal of work has been done on the new Summit Apartments in Barneveld since the ground-breaking ceremonies took place June 3. The new apartments are slated to be completed by Christmas, and will be rented for \$135 and \$165. The housing will be designed for people with low incomes and the elderly.

PTANEWS 1973 - 1974 PTA President, Lloyd Henderson has called an Executive Board & Committee. Meeting for Monday, 22 October at 8:00 pm in the school cafeteria. All Officers and committee members are expected to attend this very important organizational meeting.

Passersby seeing this mail box usually will give it a second glance. The Dean Morris family uses the lower half of a discarded store manikin as a base for its mailbox. It is locted on Washington County Trunk U near Highway 33. (Edgar G. Mueller photo)

Beauty or beast — Take your pick

There's no doubt about it. These roadside mailboxes in rural Wisconsin show a great amount of talent and imagination. A farm publication (photo No. 1) even gave an award to the owner of this hefty, elevated tractor turned letter-holder. But, maintains the AAA Safety Dept., don't run into one of these mailboxes when driving your car. Each is a lethal weapon, said Robert Matson, editor of the Traffic Safety Reporter, a publication of the office of State Safety Coordinator John Radcliffe. Thankfully, said Matson, who chanced across these aesthetic and nostalgic mailboxes, the novel, unusual mailbox fab has never really caught on in Wisconsin. This is not to say that the state doesn't have its share. It has, and one of them (No 2) is the dangerous, sharp-edged plow. And what do you think would occur, Matson asked, if a motor vehicle struck a hefty, fixed object such as the No. 3 or No. 4 mailboxes? No. 5 is a real slicer—bulky and razor-sharp with little, if any breakaway characteristics. The best type of roadside mailbox on a rura! or urban road, safety officials maintain, is one that will yield or breakaway immediately when hit by a motor vehicle. This is the life-saving trend in traffic safety today with engineers having produced light standards, highway signs and other objects that breakaway when struck. A bill before Congress would give states \$200 million to eliminate roadside obstacles, among other hazards. 265 sig. ~ n D. n. R. polition (Recel) 1977
