# Cooperation

of the

## Producer Milk Hauler Plant Operator

has built Wisconsin's  
enviable reputation for

### DAIRY QUALITY

The new minimum dairy quality standards are another forward step in the evolution of our state-wide quality program.

They merely "spell out" the things which every producer, milk hauler and dairy plant operator must do to keep the quality of our product up to the high standard which our customers want.

### COOPERATION DOES IT!

Your continued cooperation will insure the success of this important program.

## Wisconsin's Dairy Future

The Wisconsin Dairymen's Association is proud of the part it has played throughout the years in building the largest industry in the state—dairying. With the same vigorous leadership, it is continuing to work with and urge dairymen to keep better cows, to give them better care, to produce a better product, to test for production, to protect our market from fraudulent competition, to improve their marketing methods and trade outlets, all to the end of producing more profits, a sounder industry, and a building of better farm life.

With the same vision and foresight that inspired the seven wise men who founded the Wisconsin Dairymen's Association in 1872, members of the organization in cooperation with the Rural Division of the State Board of Adult and Vocational Education and the instructors in agriculture, organized the Wisconsin Junior Dairymen's Ass'n. This is composed of Junior Dairymen who are carrying on the herd improvement program in our high school departments of Vocational Agriculture.

We believe that members of the Wisconsin Dairymen's Association have a responsibility to the Junior members. That responsibility is to see that we lend encouragement to them in their program of building better herds and to furnish them with the foundation stock to do the job. If we will do this, we will be adding stability to Wisconsin's Dairying.

GEORGE T. MILLER

President, Wisconsin Dairymen's Ass'n.

A  
*Proclamation*

Nearly a century of constructive leadership has built the Wisconsin dairy industry from struggling beginnings to its present position as the cornerstone of our agricultural economy.

For seventy-eight years the Wisconsin Dairymen's Association has been one of the forces which have coordinated the work of our dairy leaders.

Realizing that the future of the state's dairy industry is dependent upon the leadership which the youth of today will be able to provide tomorrow, the Wisconsin Dairymen's Association three years ago organized the Wisconsin Junior Dairymen's Association. This group provides opportunity for training youth in the fundamentals of dairy leadership. Today this association has a membership of 5,000 dynamic young dairymen who are carrying on a herd improvement program in which 100,000 cows are being tested each month.

The 78th annual convention of the Wisconsin Dairymen's Association and the 3rd annual convention of the Junior Association will be held at Green Bay, Monday, March 13. These meetings offer an opportunity for a careful consideration of the problems of the Wisconsin dairy industry.

Therefore, I, Oscar Rennebohm, Governor of Wisconsin, do hereby designate and proclaim Monday, March 13, 1950, as DAIRY DAY and urge that the occasion be observed in recognition of the contributions made by the Wisconsin Dairymen's Association to Wisconsin agriculture.

In testimony whereof, I have hereunto set my hand and caused the great seal of the State of Wisconsin to be affixed. Done at the Capitol in the City of Madison this 21st day of February in the year of our Lord, one thousand nine hundred and fifty.

A large, elegant cursive signature of Oscar Rennebohm. The signature is written in dark ink and is positioned above a horizontal line.

Governor of Wisconsin

Dr. Wm. A. Albrecht, Chairman Dept. of Soils, College of Agriculture, Columbia, Missouri

4:00 P.M.—Directors Meetings

A sincere

# 'Thank You'

*to all whose cooperative efforts have made possible the 78th annual convention and the 3rd annual Wisconsin Junior Dairymen's Association convention. Especially the committees for their splendid cooperation.*

To folks who live in the other 47 states of the Union, Wisconsin means Dairy Cows and Dairy Products. To the dairy farmers of Wisconsin, the Wisconsin Dairymen's Association is a symbol of progress and enlightenment . . . A guiding hand toward better ways of dairy farming and farm life. For 35 years your association has played a most worthy part in helping to put Wisconsin at the top as a dairy state.

Jamesway was only ten years old when your association was founded. We have been privileged to watch its lusty growth. We have intimately known the men who have been responsible for that growth . . . And that takes in just about your entire roster of members. We can truthfully say that a finer group of businessmen would be hard to find in ANY industry.

Here's our wish for a still bigger and better WDA in the years ahead!

# MANURE HAULING

## *Easier*

from Start to Finish

### Quick Hitching

No need to lift the front end of the Case tractor spreader, nor to prop it up. The self-hoisting hitch rests right on the ground while hooking up; lifts front of the box when tractor starts ahead. Sliding clevis makes hitching quicker, easier, safer. It's so handy that daily spreading is really practical, whether you have big herds or only a few head.

### Easy Loading

Low wheels and low box make loading easier, faster, whether by hand or by mechanical loader. Self-hoisting hitch lets front of box down for still lower loading. This Case spreader backs into barns, pulls close to piles like a two-wheel cart. Sturdy steel frame, long-lived bearings and good lubrication give **ENDURANCE**—long life with low upkeep.

### Sure Spreading

Spreader wheels are placed so weight of load aids their "ground-grip" until fully loaded; full load adds weight to tractor wheels, aids their traction. Sharp beater teeth shred manure thoroughly; steadier apron travel assures even spreading. Geared for rubber-tired speed, this spreader makes practical the extra gains of thinner spreading on greater acreage.

See this Handy Sturdy Spreader. Let your Case dealer show you this stronger, more durable, more convenient spreader. Send for new booklet that tells how to make manure go farther, produce up to twice as big a boost in crop yields.

J. I. Case Company, Racine, Wisconsin

# SAVE Time - Work - Money

## with **JOHN DEERE** **Manure Handling Equipment**

Here's the fast, easy, low-cost way to get manure out of your sheds and feed lots and onto the field where it is worth real money in increased crop yields. With the John Deere No. 25 Push-Type Manure Loader and the John Deere Model "H" Tractor Spreader, you, alone, can handle up to 35 loads per day.

The No. 25 Loader, with exclusive flywheel drive and parallel arm construction insures faster loading and less work for the operator. Simple . . . rugged . . . easy to attach or detach, you'll find the No. 25 offers extra value for your money.

The sturdy, sure-footed, all-steel Model "H" Tractor-Drawn Spreader and the light-running Model "K" Horse-Drawn Spreader are ideal working mates for the No. 25 Loader. The strong, well-braced frame and box stand up under heavy work. Feed ratchet is enclosed and runs in oil. Chain and drives are completely shielded. Heavy-duty, roller-bearing beaters completely shred the manure and spread it evenly for biggest returns.

The next time you're in town see your John Deere dealer for complete information on this outstanding time-, work-, and money-saving manure handling equipment. Write today for free folders.

#### **MINRALTONE HELPS BUILD CHAMPIONS**

Douglaston Lady Augusta. Only cow of breed to be classified as Excellent and have four Excellent daughters. One granddaughter sold for \$13,500 — a record price for a Guernsey bred heifer. Another brought \$14,500 — highest auction price for a Guernsey in 1949. A great-granddaughter sold for \$11,500, a record auction price for open heifers; and a half interest in a grandson netted \$15,000.

#### **Famous McDonald Farms Herd Protected Against**

### **HIDDEN HUNGER\***

The 1,500 acre McDonald Farms, Cortland, N.Y. has a wide reputation for the all-around excellence of its herd of pure-bred Guernseys, led by the great Guernsey champion, Douglaston Lady Augusta.

Mr. K. C. Sly, manager for J. M. McDonald, owner, has fed Hidden Hunger\* fighting MinRaltone regularly since 1943. Mr. Sly says: "As a safeguard for the health of the herd, we have fed Near's MinRaltone for the last seven years. We use a combination of all three recommended feeding methods — free access, premixing and hand feeding."

Now is the time to help safeguard your profits and the health and continued productivity of your stock. Follow the lead of successful dairymen — feed MinRaltone to your herd. MinRaltone protects against Hidden Hunger\* because it contains 11 essential mineral elements with Vitamin D. Write for free MinRaltone feeding booklet.

**NEAR'S FOOD CO., INC. • BINGHAMTON, N.Y.**

\***HIDDEN HUNGER** — Lack of essential mineral elements needed by livestock for sturdy health, rapid growth, peak production and reproduction.

# SECRETARY'S REPORT

January 1, 1949 to January 1, 1950

## Membership

Membership in the Wisconsin Dairyman's Association has continued to grow. Four new counties have enrolled their members in the past year. These counties are Brown, Calumet, Dodge and Grant. Over 1,000 new members were gained by this membership.

Several new veteran-on-the-farm training groups have also enrolled. They are Antigo, Colfax, Highland and Kewanee. These are enrolled as adult members. Membership in the Wisconsin Junior Dairymen's Association has continued to grow too.

## Hoof-Trimming Demonstrations

Many more hoof-trimming demonstrations were conducted this year and have resulted in keeping many more of our herd sires in good breeding conditions. These demonstrations were conducted for our members, veteran groups and the Junior DHIA.

## Record-Using Clinics

More record using clinics were held last year than ever before. These small group meetings held in our member counties have been enthusiastically received by our D. H. I. A. members wherever they

were held. The meetings are usually held in farm homes among neighbors who talk over the use they can make of their records and all other dairy herd management problems. The county agent, D.H.I.A. fieldman, and the dairymen's secretary make up the personnel for these clinics.

## District Meetings

Four more district meetings were held for Junior and Senior members of the Wisconsin Dairymen's Association. The meetings were held this year at Beaver Dam, Reedsburg, Mosinee, and Osceola. A large number attended these meetings where panels on the use of records to build better dairy herds were held. Dairy cattle diseases were also discussed at these sessions.

## Wisconsin Junior Dairymen's Association

A new hand book for Junior D.H.I.A. is being printed for use by our junior members in their herd testing program and will be furnished free to the Junior membership. Sets of colored slides have been made up and are in the hands of the Junior Directors in each district. They are loaned to the agriculture departments. The slides cover

Jr. D.H.I.A. Testing, Proper Showing of Dairy Cattle and Bull Paddocks.

### New Barn Signs

New metal barn signs are available to members at cost, which is twenty-five cents each. These signs which read "KEEP OUT OF THIS BARN" will keep our herds healthier by aiding in controlling the spread of disease from farm to farm.

Many talks have been given to farm groups all over the state on dairy problems. Demands for this service have increased greatly. The secretary has continued to cooperate with the State Dairy Breed Association in their meetings and tours.

*B. R. Dugdale*

# "Cured Swollen Udders BETWEEN MILKINGS!"

says **J. DRECHSEL, Flemington, N. J. Dairyman**

"One teat of a cow was so swollen and hard I could not use the machine and was unable to get one drop of milk out by hand. I used Security Udder Ointment in the evening after milking. The next morning teat was nice and soft.

"Also the other day right side of another cow's udder was swollen badly—I think a neighboring cow stepped on it. I treated the udder at 9:00 a. m. By milking time at 5:00 p. m. the swelling was positively gone.

"I am not one to praise everything, but your Security Udder Ointment is so much different it's worth talking about.

Signed: J. R. Dreschel—Box No. 10.,  
Flemington, N. J.

## Order Your Supply of Security Udder Ointment Today

Leading dairymen everywhere depend on Security Special Udder Ointment to keep their cows free from swollen, sore, lumpy, chapped or caked udders and teats. It is a highly potent antiseptic healing ointment that relieves pain almost at once so nervous cows do not "hold up" the milk flow. Leo Hurt of Seiling, Okla., says: "Used it on two cows that would have lost one or two quarters of the udders. Our veterinarian wants you to send him a 5-lb can." Security Udder Ointment spreads evenly and is so heavy it will not rub off readily. Especially effective at calving time.

## You Take No Risk

Select amount depending on size of your herd. Use it for one week. If Security Special Udder Ointment does not check the trouble and is not better than anything you have ever used before, send unused portion back at our expense and your money will be refunded at once. Don't wait—mail your order NOW!

# A Star Performer

## In ANY Dairy Barn

Performance must be tops in the milker you buy. You must be assured of smooth-running efficiency that allows you to milk your herd quickly, quietly, and completely. Your cows must have gentle, massaging milking action to aid them in achieving maximum production. The milker itself must be easy to use, handle, and keep clean. ALL of these "musts" have been built into the McCormick Milker for your benefit!

See your local International Harvester dealer for complete information on McCormick Milkers, Parlor Milkers, and Milk Coolers. Let him show you how your dairy operation can be put on a more profitable basis!

Livestock  
Market

Madison, Wis.

## Program Highlights for '50

### STATE SALE

The second annual Wisconsin State Sale will be held at Baraboo Fairgrounds on Saturday, June 3. The offering will consist of approximately 60 head all consigned by breeders of the state. All animals will be carefully selected by the sale committee.

### CANTON SHOWS

One day canton shows for each of the 10 organized cantons are being planned for the latter part of June.

### CANTON MEETINGS

Afternoon meetings in each canton are being planned for the last week in March. All Brown Swiss breeders are cordially invited to attend these meetings or to show at their canton shows. Contact your canton or state secretary for date, time and location.

### 4-H ENCOURAGEMENT

The outstanding 4-H club member in each canton will receive a beautiful, scale model of the true type Brown Swiss cow. To the outstanding 4-H club members in the state will get a valuable pen and pencil set. 4-H Club members ask your County Agent how you can be eligible. Prizes, too, for the best showman and county groups at the 1950 State Fair.

## Wisconsin Brown Swiss Association

# GUERNSEY BREEDERS

Be a member of your County and  
State Association

## SERVICE:

To breeders — We offer our sales service for dispersal sales and for private sales. Also cooperate with our county association sales groups.

Let us know if you need help on your back registrations. We can help you.

We supervise the sale of Golden Guernsey milk in Wisconsin — The best market for a high quality milk.

Wisconsin Guernseys — Our state magazine to every member, your membership is needed — we will give you value received.

## OUR YOUTH PROGRAM:

20 special awards to 4-H and FFA members. Showmanship awards and other special awards given at County and State Fair.

Cooperating with county associations to give more help and awards to our junior breeders.

George D. Britts, Secretary  
Box 14 — Waukesha, Wisconsin

## FREE VALUABLE TIPS! GUERNSEY INFORMATION KIT

Packed with practical facts and figures and market data—this timely kit will prove useful to anyone interested in breeding, buying, selling or dairying.

# CARBOLA

DISINFECTING WHITE PAINT

Complete 3 in 1 Barn Spray

It's a Disinfectant, Insecticide and White Paint all in one. For Poultry Houses, too. Why spend money and labor on two separate troublesome expensive jobs when Carbola

Does **THREE** necessary jobs more completely, and with longer lasting effectiveness, in  
**One easy lower cost operation**

- (1) Kills Flies
- (2) Kills Disease Germs
- (3) Gives White Walls

Kills spiders, 90% less cobwebs for 8 to 10 mo.  
Better sanitation. Lower bacteria

**CARBOLA CHEMICAL CO., INC.**  
Natural Bridge, N. Y.

Carbola at Better Feed, Seed, Hardware and Farm Stores

## DOUBLE BENEFITS . .

*with*

## ARCHER CALF Starter

Archer Calf Starter actually works two ways. It builds healthy, sturdy calves, develops them into high producing cows. Vitamin fortified Archer Calf Starter also makes more milk available for market, more profits for you, because Archer Calf Starter contains even more nutrients necessary for rapid growth and good health than whole milk.

**ARCHER**  
**CALF STARTER**

# The Leach Barn Cleaner is Built To Do the Job RIGHT

- Everything is automatic — just flip the switch and go about doing other chores.
- Keeps your barn clean and fresh at all times.
- Strong, rugged construction — with reserve strength to handle heavy loads.
- Motor is 3 H.P. for average barns, 5 H.P. for large barns.
- Heavy bar-link gutter chain built NOT to break!

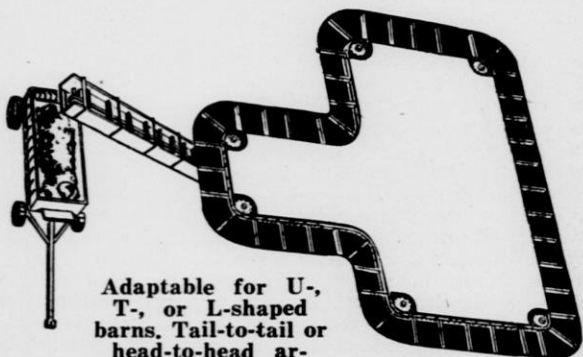

Drive unit furnished for overhead or pit installations

Sizes

**Oster**  
REG. U.S. PAT. OFF.

**Motor-Driven  
Clippers**

for faster, easier,  
clipping of cows,  
horses, mules.

### Heavy Duty for huge animals!

The clipper for dairy cattle and other large animals. Adjustable cutting tension and angular-designed cutting teeth afford improved hair-feeding and clipping action. Bakelite construction protect against shocking. Dynamically balanced armature, sealed ball bearings, precision-cut gears, air-cooled motor. Blades 3 inches wide.

### Instrument Size for small animals!

The all purpose clipper with the Detachable Cutter Head and all types of cutting blades . . . for general, plucking length and surgical shaving. A powerful motor that provides ease and sureness of clipping.

John Oster Manufacturing Co., Racine, Wis.

## GOOD HOLSTEINS FOR SALE

Cows . . . Heifers . . . Serviceable Bulls

For good Holsteins, either registered or grades — one or a carload — come to Jefferson County, Wisconsin. Let us quote you prices on quality cattle from healthy herds. Free Fieldman's service.

### Jefferson County Holstein Breeders' Association

Fort Atkinson

Wisconsin

## CONCRETE

### Dairy Improvements Aid Milk Production

A concrete milk house, cooling tank, or dairy barn will help you step up milk production. Concrete's sanitary features meet health board requirements; keep your cows healthier; make your work easier.

The Portland Cement Association has prepared suggested designs for these and other farm structures which will give many years of economical service. Concrete is low in first cost and upkeep. It's easy to build. Materials usually available locally.

Write for the Helpful Free Booklet . . .

**dilute ONE TO NINE  
with water**

## **Feed As You Would Whole Milk**

Kaff-A is simple to feed. All you do is dilute it one to nine with water . . . feed as you would whole milk. Each pail of Kaff-A you feed helps you save up to 250 pounds of whole milk. With Kaff-A you can wean calves as early as the tenth day.

If you're feeding milk to any calf, replace it now with Kaff-A. Ask your feed dealer for a pail — today.

# **KAFF-A**

***for starting and growing calves***

**Consolidated Products Company  
Danville, Illinois**

# **JERSEYS**

## **Making and Breaking Records Everywhere**

IN OREGON—a Jersey was the first officially tested cow in the U. S. to give over 1,000 pounds butterfat in two consecutive lactations on twice-daily milking.

IN CALIFORNIA—A Jersey was the first cow of any breed in the U. S. to produce, on official test, more than 10,000 pounds butterfat.

IN VERMONT—a 100-cow Jersey herd averaged more than 512 pounds butterfat per cow for eight consecutive years—10,934 pounds milk with 588 pounds butterfat per cow in 1949.

IN NORTH CAROLINA—a Jersey bull has 139 tested daughters averaging 9,472 pounds milk, 515 pounds butterfat.

IN TEXAS—A Jersey gave 19,497 pounds of milk with 1,223 pounds of butterfat in 365 days—the national record for butterfat in a single year for Jerseys.

YOU can profit with Jerseys, too!

# MILKING SHORTHORN CATTLE

"The Cattle of the Century"

Milking Shorthorn cattle are the oldest of improved breeds, the first to become registered in the United States (1846) and TODAY the most modern of all cattle breeds in adaptation to general farm needs.

## *Visit Wisconsin Herds*

The Milking Shorthorn cow is popular with Wisconsin farmers. They appreciate her TWO-WAY bargaining power. On farm feeds and roughage she will produce more 4 percent milk and offer greater salvage value when through milking than other breeds.

## *Pounds Count*

You sell milk by the pound—Beef by the pound. With Milking Shorthorns you get more of both in one animal at the same time—**MORE PROFIT.**

## *Get the Facts*

Subscribe to Milking Shorthorn Journal, the official breed magazine—\$2.00 per year.

FREE list of breeders sent on request to

**American  
Milking Shorthorn Society**

4122 South Union Ave.

Chicago 9, Ill.

## Make Super Manure with FARMCO Superphosphate

Spread superphosphate during the winter months by adding it to the manure.

It pays off three ways:

1. One pound per cow per day will double the amount of that all important plant food—phosphate.
2. Superphosphate traps the 50 to 60 per cent nitrogen that is lost as ammonia in the ordinary handling of manure. It changes this free nitrogen into a plant food that can be used.
3. Superphosphate will help absorb some of the extra moisture in the gutter and keep down barn odors.

Purina Research Farm  
Records Prove:

100 lbs. of Condition on a  
Dry Cow Can Mean an  
**EXTRA TON OF MILK!**

Build up the condition of your dry cows—and you're stepping up milk production next lactation! That's what the records of the Purina Research Farm Herd have proved year after year. They show that 100 lbs. of extra condition on a dry Holstein cow (over the weight of the calf) can result in an extra ton of milk next lactation.

Feed Purina

Prompt treatment of  
**MASTITIS**  
with  
**AUREOMYCIN**  
**OINTMENT**

FOR UDDER INFUSION

*Lederle*

Brings quick results in  
production of salable milk

AUREOMYCIN has the broadest activity among antibiotics. It is effective against most of those organisms acted on by penicillin, as well as many other bacteria. A single infusion with AUREOMYCIN OINTMENT clears up staphylococcal as well as streptococcal mastitis in a high percentage of cases.

AUREOMYCIN OINTMENT has these advantages:

**MORE EFFECTIVE THAN PENICILLIN**

**ACTIVE FOR MORE THAN 48 HOURS**

**FREE-FLOWING AND SPREADS THROUGHOUT  
UDDER**

**COWS MAY BE MILKED REGULARLY**

**SAFE, WHEN PROPERLY USED**

**READY-TO-USE TUBE**

**SMALL, ROLLED-IN TIP INFUSION END**

**NO SYRINGE OR MILK TUBES**

**USUALLY ONLY ONE TREATMENT NEEDED**

(If necessary, repeat treatments at 48-hour intervals.)

This product should be used in accordance with instructions in the package literature. Maintain good management to prevent reinfection.

For maximum efficiency in the use of AUREOMYCIN OINTMENT, as well as for best management practices and disease-control procedures, consult your veterinarian.

A folder on AUREOMYCIN OINTMENT will be gladly sent on request.
