MADISON CITY DIRECTORY

STREET DIRECTORY

EXPLANATION

The names of the streets are in alphabetical order, showing as near as possible the direction in which they extend and naming streets which cross or abut the same (at certain numbers) in the order in which they occur. The Philadelphia system of house numbering is used, the initial points are the four avenues radiating from the center of the Capitol park, and Regent, for the 5th, 9th and 10th wards. From the starting point the first number on the first block is one (1), and the opposite side of the street is two (2); the first number on the second block is 101, opposite 102 and so on. Every 22 lineal foot frontage within the original plat and every 30 foot outside, is entitled to a separate number, the odd numbers being on the east and south side of the streets. The word street is omitted.

The figures 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10 and the initial letters, [(B. B.)–Back Bay; (H. A.)–Hildreth's addition; (L. A.)–Lakeside addition; (L. P.)–Lakewood Park; (Mon. A.)–Monona addition; (Mat. A.)–Maticwaup addition; (O. L.)–Orchard Lawn; (Pleas. V.)–Pleasant View; (S. M.)–South Madison] on the right of the name of each street, avenue, place, court or drive, indicate the wards and additions in which the same are located. The ward boundaries extend to the middle of the street.

ANGELL'S NUMERICAL DIRECTORY

A complete index of all house numbers found on the various streets and avenues in the city. The streets and avenues are alphabetically arranged; under each, the house numbers follow in numerical order as they appear on the various blocks and residences, commencing at the lowest number and continuing to the highest with the name of the main occupant in an abbreviated form.

The four avenues which extend from the Capitol square and Regent street in the western part of the city are the starting points for numbering; the Philadelphia system is used, i. e., the first number in the first block therefrom is number 1; the first number in the second block 101; and so on, the odd numbers appearing on the east and south side of streets.
