## THE 1937 BADGER

## THE UNIVERSITY OF WISCONSIN

## THE 1937 B <br> Copyright 1937

William O. Beers,<br>Editor<br>Ralph L. Ritter<br>Donovan M . Olson,<br>Business Managers

As the center of those pleasant activities which make college an experience the Union is a fittins memorial.

$\begin{array}{llllllll}\text { T } & \mathbf{H} & \mathbf{E} & \mathrm{Y} & \mathrm{E} & \text { A } & \mathbf{R} & \mathbf{O}\end{array}$

ThE ANNUAL PUBLICATION OF THE SENIOR CLASS OF
$17 / 2$ $\qquad$ of Wisconsin

2
N THE publication of this 1937 BADGER we are not trying to carry on some dim tradition conceived in the past; we have not busied ourselves with the preparation of a theme or motif,... instead we have tried to picture Wisconsin to ourselves and you as we have known it. We hope that in the days to come it will serve as a reminder of the mad rush up the hill to an eight o'clock on a January morning, the thrills of last minute conquests at Camp Randall, the picnics and walks alons the lake when spring has chased the ice out, and the beautiful sunsets over Picnic Point.
" » During our four years we have all faced our problems: ...s some financial, some scholastic, others of a purely personal nature. We have been forced to swallow our pride as we faced a stack of dirty dishes to which there seemed no end, or have tried to read "Hamlet" while rocking a two-year-old to sleep. We have had that yearning for knowledge which had to be satisfied regardless of personal deprivation or sacrifice. But we have also learned that there are other people in the world, and that we have to consider them as much as ourselves... in spite of background, financiai status, or personality. We have all been given equal rights in this institution, and as a result, we may have LIVED to LEARN, but also, and far more important we have LEARNED to LIVE.

(3)
The townsmen's capital afar
The town below, the trees that face

In solid line the much tramped hill

Appear through fluted col
umns space.

The 'tween class crowd has sone

The steps serene
Unchanged, themselves, and unperturbed
Reflect the changing scene.

Ten thousand spirits move with one

Accord their purpose single
Wheels them around this hub of thought
Where hopes and fears comingle.

Shadows lengthen
O'er silent tree arched walks; Day's hand has loosed its grip
And silently night stalks.

Graceful, sweeping arches stand
To those who died in world dispute.
In warmth - a monument to youth,

In dignity - a last tribute.

- 

The light gleams upward from the snow

That lies along the rolling hill
The trees stand waiting emtpy armed
Obeying winter's fickle will.

Ringing bells sing out across the hill

And swell through nature's bower.
A warm sun sheds its golden rays
To gild the looming tower.

A life whose web is partly spun Gropes shakily across new threads
So busy watching faltering feet The world ahead is meaningless.

#  

WISCONSIN has a world-wide reputation for constructive social and economic leadership. This has come because our people have understood the times in which they lived and have had the enlightened courage to deal with the problems which faced them. In all that Wisconsin has, or will achieve, education has been a determining factor.

- Our system of free education brought the gift of knowledge and training to our people. But in Wisconsin it has likewise taught continuously the obligation of all to make return for these opportunities in enlightened and responsible citizenship. Our ability to master the complicated problems of this age, giving us order and progress without surrender of liberty, will depend in large measure upon the accurate knowledge and sense of social responsibility coming forth from our system of education.
- No institution of higher learning has played a greater part in or rendered greater service to the State that created it than the University of Wisconsin. Through its faculty and students it has repaid the State constantly in the highest forms of public service. Wisconsin is confident that the great record of the university will be maintained and advanced in the years ahead.

PHILIP F. LA FOLLETTE

## CLARENCE A. DYKSTRA

THE University of Wisconsin has been sending students and graduates into the world since the time of our great grandfathers. This is a long and honorable record. It is more-it is a distinguished record. During many of these years a "Badger" has been published to conserve for succeeding generations and for our memories the pictures and the happenings of the years as they pass.

- The 1937 Badger will recall to many of you during the years to come some of the incidents of the year now closing. It will bring back to you recollections of old friends, teachers, and students. Because these things are so and because associations and contacts outside the classroom are of real importance in university life, I commend this enterprise as a worthwhile expression of student interest and activity.
- I am glad for this opportunity to greet the students of the University of Wisconsin in this volume dedicated to a portrayal of their activities.

> C. A. DYKSTRA

## DEAN OF MEN Scott Holland Goodnight

versity at Leipzig, Germany. The duties of German School Director were taken over by him in 1911, those of Associate Professor of German in 1912, those of Dean of Men in 1916, which duties forced his resignation from active teaching several years ago.

Beyond the official life of the University, Dean Goodnight delights in shouldering a gun and chasing cottontails through Wisconsin woods; enjoys smoking a corncob pipe while fishing near his lodge on Black Oak Lake in Michigan; scratches his head many times to remember the many people who greet him and honor him in every part of the country; chuckles at the suggestion that he is known in Deans' meetings as a dangerous adversary; is very proud of his dog, "Mickey," his title, "Faculty Billiard Champion," his activity in undergraduate days in football, basketball, and baseball.

As a speaker before student groups in high schools and colleges, before Alumni groups, and before other gatherings of every nature, Dean Goodnight has made clear the aims and activities of this University to citizens of this and other states.

# DEAN OF WOMEN 

Louise Troxell Greeley

Always very active in women's organizations, during the past year Dean Greeley was chairman of the University section of the National Association of Deans of Women.

Mrs. Greeley has much faith in the present generation and is especially interested in a program of personnel work to include the education for and development of mental hygiene. In addition to her very strenuous activity in preserving the dignity of the University's Women, she also finds time to dine with her husband and to address various women's organizations throughout the state.

Although an ardent hiker, golfer, swimmer and baseball enthusiast as well as an accomplished contract bridge player, Mrs. Greeley's chief hobby is gardening. Her flowers have never failed to place in a flower show, and she expresses the hope that some day she may be able to own her own farm"and really garden as I do so love to do"-she briefly puts it.

## ADMINISTRATIVE

DEAN FREDERICK E. TURNEAURE
Dean of the College of Engineering

THE intense popularity that Lloyd K. Garrison enjoys among his law students has been won by a dynamic personality and intellectual ability known and respected the country over. A direct descendant of the great Abolitionist, William Lloyd Garrison, the Law Dean, a liberal himself who came to Wisconsin in 1932, served as chairman of the New Deal Labor Relations Board, has mediated recently in state labor difficulties. Under his energetic influence, Wisconsin's Law School has earned a rising reputation as a training school for able prospective barristers.

TiHE directorship of the College of Engineering, involving not only administration of the Civil, Mechanical, Electrical, Chemical, and Mining and Metallurgical branches, but also the supervision of the Engineering Experiment Station, was taken over by Dean Turneaure in 1903 to succeed Dean J. B. Jchnson. Cornell University graduated an able civil engineer in 1889, who is known for his book on public water supply, and whose efforts have long been concentrated on the proposed building of a new and fireproof Hall of Engineering. The chief delight of Dean Turneaure is in outdoor life, and friends who have climbed mountains with him tell of the Dean's practice of suggesting bridges and arches which might be projected over mountain canyons seen as he walked along.

DEAN LLOYD K. GARRISON
Dean of the Law School

THE elevation of E. A. Birge to the Presidency of this University in 1919 saw George Sellery, authority on Medieval History, Phi Beta Kappa man, MacKenzie Scholar at the University of Toronto, take over the duties of Dean of the College of Letters and Science. Though born a citizen of Canada, Dean Sellery became a citizen of the United States after coming here thirty years ago, rose to prominence in the field of history, was appointed acting President here in January of this year. The conservatism of his nature is reflected in the fact that he has never owned an automobile. He is known among students for his stiff upper lip and love of rigid discipline, is admired by students for his excellent taste in clothes.

[^0]
## FACULTY

W HEN asked what hobby Chris Christensen is devoted to, a colleague quickly said, "The Twins." And the twins are certainly well known to those who live at the dorms or who enjoy the annual Ag-Home Ec Walk-Around and wind up at the Dean's home. Graduated from the University of Nebraska in 1920, he went to Denmark and studied the co-operative methods of farm marketing in that country. His return to the United States marked his entry into the Department of Agriculture, in which he served as Secretary of the Federal Farm Board. The appointment of Dean Christensen in 1931 was only the third in the entire history of the University.

In this capacity, the Dean directs the Agricultural Experiment Station, resident instruction, research, and extension work.
...

DEAN WILLIAM S. MIDDLETON Dean of the Medical School

ACANADIAN by birth, Miss Denne spent her undergraduate days at Queen's University, from which she earned a degree in 1911, and served in 1915 at the Presbyterian Hospital- of Chicago. The organization, thirteen years ago, of the School of Nursing, to be operated in co-operation with the General Hospital and Medical School, made it possible for Wisconsin women to earn a B.S. degree in Hygiene as well as the title of Graduate Nurse, and offered courses to those interested in medical subjects allied with physical education.

DEAN CHRIS L. CHRISTENSEN Dean of the College of Agriculture

AS OVERSEER of the student clinic and the health of the student body, as director of the activities of the medical students, and their relations to the Wisconsin General Hospital, presides William S. Middleton.

To his students and colleagues he stands out as a man with a radiant personality-one whose cheerful way, air of ease, immaculate dress, dignity of bearing inspire confidence in patient and student. In the field of medicine, doctors know him as an authority on the medicine and surgery of the thorax, respect the fact that no problem can perplex him. In the classroom students admire his decisive actions, his complete control of difficult situations; and fear the difficult and sudden questions he may ask anyone at any moment during demonstrations.

HELEN I. DENNE
Director of the School of Nursing

## ADMINISTRATIVE FACULTY

DEAN CHARLES J. ANDERSON
Dean of the School of Education

DEAN EDWIN B. FRED
Dean of the Graduate School

DEAN FRANK O. HOLT
Dean of the Extension Division

W/HEN by order of the Board of Regents a School of Education was formed at Wisconsin in 1930, Dean Anderson, a former Wisconsinite, answered the call to lead. He left his active work as Assistant State Superintendent of Schools, under John Callahan, to head a department whose courses prepare teachers for secondary education, whose curriculum includes actual initiation into the problems of the "school ma'am" at the Wisconsin High School. Of Swedish descent, the Dean served earlier as Principal of Schools at Stoughton.

IT HAS been said that Dean Fred opens the University in the morning, and, the last to leave, closes it at night. Certainly he has built up a reputation for his tireless energy and loved work, as well as his logical, scientific mind, and ability to reduce every problem to a graphical representation by "flow charts." Bachelor's and Master's Degrees were earned in 1907-8 at the Virginia Polytechnic Institute, and later a Doctor's degree at the University of Goettingen in Germany. The student body knows Dean Fred for his willingness to help in the solving of every problem; the scientific world respects him for his research in the field of bacteriology.

PERHAPS no faculty member is better known in Wisconsin than Frank Holt, who as registrar made innumerable speeches in high schools in every part of the state; who as present Dean of Extension Division continues to address gatherings in and about Madison. Dean Holt came to Wisconsin from Janesville, graduated with a Bachelor's degree in 1907 and became a high school principal.

As Dean Holt, his work includes the executive directorship of the Bureau of Guidance and Records as well as supervision of the many activities of the Extension Department: correspondence courses, short courses and lectures, local classes, the offering of cultural, professional, and technical studies in the home community.

## AROUND <br> THE

CAMPUS

## INTERESTING

TAKE a glance at some of these shots that I took while in Mexico," exclaimed Hollis Peter, amateur photographer at Wisconsin. That's Hollis. No matter if you're addressed as a comparative stranger, his interests are suddenly yours. After attending two European universities Hollis decided to come to Wisconsin where he has become well known for his activities and his genial nature. His latest hobby has been doing colored film work-which hobby has netted him many fine reels. He, like many other students who have attended foreign schools, feels that the two systems are difficult to compare directly.

$F^{R}$ROM sickbed to college esteem. That's the record set by LaVergne Cooke, campus leader. Undaunted by years spent in illness immediately following high school, LaVergne embarked on her college career at a time when her friends were flaunting their sheepskins. As a speaker, thinker, and organizer she took root in her new surroundings and emerges as one of the outstanding leaders of her class. Laughs in her quick, nervous way and figuratively thumbs her nose at the doctors who considered college too great a strain for a person in her physical condition.

STURDY Orville Wyss grapples with his text books and intercollegiate wrestling opponents with equal ease. Known among his brother grapplers for his reticence and purposefulness, this child prodigy is highly respected for his rare acumen. Shown here weighing in preparatory to a bout, he is the example for refutation to the remark that athletics are too great a tax to allow students to do justice to their work. In spite of outside activities and work, he is receiving high honors in Dean Christiansen's Agricultural college. Holds one objective-to go after what he wants to the limit.

TRAVELER Carl Hess just wouldn't be happy unless he could draw on his pipe and speculate as to Madison's classification among scenic spots of the world. After two globe circling tours his feet are still itchy for the trail which he plans to hit once again this summer. His activities with House President's Council have made him known to many, but few there are who know of his exploits in other lands. A quiet chuckle and twinkling eyes usually over-ride any argument for this junior in the liberal arts college. He sums it up with the statement, "I like to see places and people."

## STUDENTS

" ${ }^{\prime}$ 'M DEAD TIRED," whimpered Mary Agnes Brim when caught applying her make-up and primping her hairand who wouldn't be with Hell Week and the lead in a play to go through with at the same time? Miss Brim believes in getting a diversified education, having spent her second year at a school where no marks are given and rating is based wholly on individual contact with the instructor, and her first in the middle of the Pacific at the University of Hawaii. "My life has been a wild mix-up and orgy," concludes Miss Brim in one mimicing heavy theatrical tones.

RIDING through college on a Na poleonic coach which took 1,700 hours to build has merited the title of "painstaking" for Franz lbisch who won a $\$ 5,000$ scholarship from Fisher Body with his prize winning model shown here. Ever skillful with his hands, Franz has built an ice-boat which draws "Ahs" and "Ohs" from everyone for its beauty and grace. Smiling, clean-cut, somewhat shy in manner, this crewman reveals that the coach was his second attempt and that he wouldn't part with it for any price. Naturally enough, he is an engineer graduating with honors.

cHAMPLIN W. GROSS was the name given to this handsome young man whose home is in Brussels, Belgium, and ever since then he has been known to his friends as "Champ." Interested in journalism, he has combined this leaning with his agricultural work by acting as editor-inchief of one of the campus' most successful publications, the Wisconsin Country Magazine. The flawless English spoken by this dapper young Belgian is accounted for by his many years in this country. Wisconsin's well known Agricultural college was the main factor in his choice of university.

"CALL FOR PHILLIP MORRIS" is the inspired call of numerous passers as they spy 50 inch tall, 65 pound Meinhardt Raabe in his bellhop uniform. "I'm used to having people stare at me," counters this most diminutive member of the student body who has been trouping with the World Fair midget group, "but, I do feel like a wallflower when all the social activities are in full swing." Meinhardt enjoys the embarrassment suffered by others who gape in wonderment at the words and philosophy which spout from this seeming child of 22 summers. Has but one fear-that his abilities as an accountant won't be recognized when he graduates from the Commerce school this June.

## INTERESTING

FIRST year mechanical engineer is the rating given to internationally known Felix Waitkus whose cross Atlantic hop to Lithuania was marred only by loss of bearing over Europe. Feted and lauded, he received honors second only to the king in Lithuania. Numerous photographs taken at various points on his trip and mementos including a special issue of postage stamps run off in his honor serve only as an incentive now to this young man who wants to know more about the engineering side before going on with aeronautics. Married and happy he looks forward to the day when the schooling for which he turned back is at a close.

WOE be to the man, or woman, that leaves the Knox out of Mary Knox Wilson. As particular as she is about the Knox is Mary Knox about everything. Indeed, she must be to be a chem major, with medical chemistry or medical bacteriology as her goal. With two years of Vassar as a background, she holds her own in any group from the crowd of men that constantly haunt her to the Ag School men. Interesting is Mary Knox Wilson because she combines beauty with charm with intelligence with a sense of the practical.

$\square$REATLY to be desired is the courtesy and amenable spirit of Shu-hsiang Tsui, graduate student in Agriculture from Peiping, China. Miss Tsui, although a bit reluctant to venture into interview before knowing what it is all about, explains her love for Chinese dress by example. In spite of being new in the country, and strange to the tongue, she continues on to say that "Peiping is not so far different from cities in America," and consequently she did not have too much difficulty getting adjusted. When homesickness does accost her, she brings out her trinkets from China.

BE HAPPY and gay," says Paul Christianson caught in one of his natural positions as he sings his way through school. As fiddle fumbler, crooner, and "leader man of the band,' Paul's only regret was that his social activities were limited. "Playing jobs and going to classes keeps one too busy for a lot of the outside activities which are a part of college life." Nevertheless, this debonair, smiling young lad has managed to sneak in such positions as assistant general chairmanship of prom. This life is nothing new for the blue-eyed Dane. Even in high school he wended his way with the musical wand.

| NTERESTING as all of us are interesting, different in himself, yet representative of a large group, those of us that represent Wisconsin at Wisconsin. Not traveled, "reared" in a rural Wisconsin community, unsophisticated, and willing to learn, academically, and socially. He enters unknowing and unknown, he leaves wiser, perhaps still unknown, yet with a wealth of friends and aspirations condensed from a thousand air castles. No constant hell-raiser he, yet willing and able to have a good time, he blunders and struggles and plays through his four years to be part of the twenty per cent of us that finish the college life we start.

## STUDENTS

CHAVALA SUKUMALAN. ANDANA is not oniy a long name, but it's also a very difficult name to get across to the professors and fellow students when the English tongue is also getting its first practical try-out, concludes this student from Siam. Although Chavala's home is now at the Siamese Legation at Washington, his trip to America took place but last summer. Surrounded by numerous heavy volumes to aid him in his translation, Chavala finds relief in the pages of his home country papers. A photo enthusiast, he snaps anything in sight and has quite a collection to show for it.

## FACULTY

而RASER thrower, athlete, psychologist, class joker, Assistant Professor Richard W. "Dick" Husband carves his name in the hall of fame by pitching himself to the level of his classes and catching their spirit and feeling in his lectures. Married but is not a father. He is tall, has the jaw of a pugilist, the look of a top sergeant, cold blue eyes, and a pug nose. In his prime he was able to swim the 100 yard dash in :58 (world record :51.1), but today contents himself with golf, skiing, tennis, and hockey. Refuses cigarettes, preferring pipe or cigar; despises !iver, cucumbers, and coconuts; drinks milk or beer and never touches coffee. Although it takes 15 minutes for him to drop off to sleep, he must have $71 / 2$ hours nightly. A member of Sigma Phi Epsilon, he takes great interest in student activities.

BECAUSE he works with milk, for milk, on milk, but doesn't drink milk, Kenneth George Weckle, B.S., M.S., Ph.D., proves himself to be one of the interesting men on the campus. Working from ten to twelve hours a day in his laboratory. Weckle is chiefly interested in irradiation of milk and the utilization of the by-products which may be derived from it. In his private life, Weckle is a bachelor who enjoys fishing, bowling, and golf. Since smoking interferes with his judging sense of dairy products he is an abstainer. He likes to and has traveled all over the United States. He is "keen" on railroad information, refuses coffee, and makes up the lack of milk drinking by eating ice cream.

POSING as a big-time producer, he crashed backstage of a Scala in Milan and was treated like a king, he was arrested as a spy in Paris, he is a Mormon who does not believe in polygamy. Dr. C(harles) Lowell Lees was born in Salt Lake City, Utah, in 1904. At the age of six he wrote a play, "The Hero and His Death," directed it, and produced it in a cellar with the door of a box car serving as the stage boards. In 1934 he came to Wisconsin on a teaching fellowship, took his Ph.D., and remained to teach speech and direct productions. Having proposed under the wall of a European castle during a rainstorm, he married, and now has two children. He loves French food, reads biographies, and looks and talks like Noel Coward.

## PERSONALITIES

DHILO BUCK has made a cosmopolitan of himself. Speaking
the languages of India, several European tongues, he has
travelled constantly, learning to live with other people. At least
once every four or five years he spends six or eight weeks going
through the Himalayas, visiting sacred shrines, into which he
gains special permission to enter, then visits Indian Princes or
Rajahs whom he has known for many years, and returns to
Wisconsin to give comparative literature courses. He has never
hunted a tiger, was shot at during a Kyber Pass frontier war,
served as a captain, 34th division U. S. A., Intelligence Depart-
ment, and General Staff during the War. He is married, and
has two children. His hair is grey, his face is tanned and
leathery. His accent is definitely English. In its 1933 edition,
"Who's Who" gave him 30 lines.

BORN N. P. Feinsinger on September 20, 1902, in Buffalo, New York, he is now a professor in the Law School. When in the University of Michigan held the Big Ten half mile and mile relay record in 1925 and in 1926 was a member of the championship team. Today, he is an adherent to squash. He is not married, has a big chin, small feet $(51 / 2)$, weighs 155, hates fancy foods, and goes in for art because his friends are critics of it. The author of several research articles, and editor of the fourth edition of a volume on suretyship, he holds an A.B., J.D. degrees, seniors honors, and Druids. The Law School legend is that no person sleeps in Feinsinger's classes; he talks too loud! His chief ambition is to find a pipe that will not break when dropped, and that will return itself when lost.

HENRY LADD SMITH is interesting because he was an able bodied seaman on South American banana freighters, a police reporter on the Cleveland Plain Dealer, a winner of the Henry P. Wright Memorial Prize for writing (Yale), a mess boy to steers on a transatlantic cattle boat, and an inmate of a Paris vagrancy station after having a summer touring Europe on $\$ 80$. After several years of newspaper work he came to Wisconsin, where he gives a course in newspaper photography. He has bicycled his way through Europe and Cuba, picking up his favorite drink, Mojito, in the latter country. "Cyrano" is his literary ideal. He has read it three times and has seen it staged as many. He loves to sleep, is a bachelor, wears glasses, and learned to drink beer while travelling through Mexico when his stomach refused to digest the poorly prepared food and beer was the only other thing obtainable.

## ALUMNI

## SAMUEL BECKER, '22

PHI BETA KAPPA and member of Haresfoot while at Wisconsin. . . . Was executive counsel to Governor La Follette in 1931-32 . . . later counsel for P. W. A. in Washington, and special counsel for Federal Communications Commission in 1935. ... Now practicing law in Milwaukee . . . contributes to legal periodicals.

## FAYETTE ELWELL, '08

DROF. ELWELL . . . graduated from the School of Commerce of which he is now Director in '08. . . . Was professor of Accounting at Marquette University in 1910-11. . . Since 1911 has been with the University of Wisconsin . . . has written several popular accounting texts . . . is a senior partner in the firm of Elwell, Kiekhofer and Co., C. P. A.'s . . . is also a Director of the Wisconsin Chamber of Commerce. . . .

LUCY ROGERS HAWKINS, 'I8
FORMER assistant editor, University of Wisconsin Press Bureau. . . . Now writes personality sketches for Hollister publications in Chicago, and is editor of The Matrix. . . . Charter member of Detroit U. W. Alumnae Club . . . contributes to several periodicals in Chicago.

## ESTHER HAVEN FONSECA, '22

$G^{R}$RADUATED from the School of Journalism in 1922 . . . was a member of Mortar Board while at school traveled through middle west after graduation . . . was married in 1928 to David Fonseca, civil engineer . . . her first published book . . . "Death Below the Dam," a Crime Club Book in 1936 . . . a second book out in March, 1937, entitled The Thirteenth Bed in the Ballroom. . . .

## ASSOCIATION

WARREN WEAVER, 'IT

PROFESSOR and Chairman of the Department of Mathematics at the University from 1927 to 1932 . . . then appointed director for the Natural Sciences of the Rockefeller Foundation in New York. . . . Since he has assumed this position, he travels extensively throughout Europe, visiting outstanding scientists, aided by the Foundation. . . . Served in the Air Service during the War. . .

## JOSEPH E. DAVIES, 'OI

ECONOMIC adviser to President Wilson at Versailles Conference. . . . Made Phi Beta Kappa while at Wisconsin. . . . Was Commissioner of Corporations of the United States and Chairman of the Federal Trade Commission under President Wilson. . . . Graduated from the University Law School in 1901. At present is United States Ambassador to Russia.

ALICE KEITH, '16

ANATIVE of Galesville, Wisconsin. Wrote articles for the Wisconsin Magazine while in school. . . . Was first Broadcasting Director of the American School of the Air . . . and has written hundreds of radio scripts on the subject of educational broadcasting. . . . At the present time she is living in Washington, D. C., directing the Na tional Academy of Broadcasting. . . .

## FLORENCE BASCOM, '8।

FIRST woman member and officer in the Geology Society of America. . . . Phi Bete at University of Wisconsin . . . professor emeritus at Bryn Mawr . . . delegate to International Geologic Congress in Russia . . . engaged in scientific investigation and writing for the United States Geologic Survey. . .

## ALUMNI

## GEORGE I. HAIGHT

NE of the outstanding barristers in the country . . . with degrees from Wisconsin and Northwestern. . . . President of the Wisconsin Alumni Research Foundation . . . railroad trustee . . . clubman . . . and author . . . having written a book of essays . . . entitled America and Americans.
## DR. RALPH DORN HETZEL, 'O6

PRESIDENT of Pennsylvania State College . . .holds LL.D. degree from four universities. . . . While at Wisconsin was Daily Cardinal editor, president of junior class, captain of the freshman crew . . . also commencement orator. . . . Mentioned as a candidate for the presidency of the University. . . .

## ZONA GALE, '95

IS THE eighth generation of the family in America . . . born in Portage . . . was graduated from Wisconsin in 1895, taking a masters degree in 1900. . . Her essays have appeared in the Atlantic Monthly, Yale Review, and Saturday Review. . . . She has also published a volume of poems, "The Secret Way." Is married to William Llewellyn Breese and lives in Portage. . . .

MARY DUPUY BICKEL, 'I7

WINNER of 1934 Liberty magazine prize novel contest . . . name of novel, Brassbound . . . also has written Houseguest . . . is working on another to be called Hear a Pin Drop. . . . Is also writing a scenario for Twentieth Century Fox . . . lives in South Orange, New Jersey. . . .

## ASSOCIATION

HARRY A. GRINDE, 'I5
" ${ }^{\text {ICK" }}$ is another of the Hollywoodites . . . who got his start at Wisconsin . . . where he was a Sigma Nu . . . Haresfoot man . . . and a Cardinal columnist . . . has worked his way up . . . at Hollywood . . . so that he is now one of Warner's leading directors . . . has written since he left school . . . having written for Saturday Evening Post . . . and other publications . . . and more for the Cardinal. . . .

## CHAUNCEY GUY SUITS

DECEIVED his Bachelor's here in '27 . . . his Doctorate at the Technische Hochschule in Zurich in '29 . . . has done extensive studying in physics and mathematics . . . member Sigma $\mathrm{Xi}_{\mathrm{i}}$, Phi Beta Kappa, Sigma Pi, Phi Mu Alpha, Phi Sigma Phi . . . now in the research laboratories of General Electric in Schenectady....

Herman 䏣. Alllsperger
Regent

BADGER features have sung the praises of great Wisconsin alumni; extolled the virtues of noted professors; introduced men and women of "behind the scene" importance; pictured campus beauty; glorified the school of the past; immortalized student celebrities. Waiting introduction and exposisition are the unusual scenes pictured. These merit attention as representative highlights of University activity in the field of experiment and research.

The quick and sensitive plate of the Badger camera has caught the essence of the spirit that has called Wisconsin scholars and professors to a study of the astronomic, the chemical and physic, the dietetic, and the metallurgic in science; to experimentation with the amusing, the instructive, the entertaining in radio. The slender telescope, the striking shadow of the elaborate scientific camera, the tiers of rat cages, the glow of white-hot, molten metal, the ultra-modernistic radio studio, are visible

evidences and physical components of great experiments done, great discoveries sought for, great contributions made to the welfare of a society which the efforts of this University seek to better.

More widely known for the view of the surrounding countryside - to be seen day or night-Observatory Hill is the seat of the Washburn Observatory whose large refracting telescope, set in equatorial mountings, adjustable to the movement of the earth, is of a type patterned after the famous instrument at the Yerkes Observatory near Lake Geneva. Beyond the mere aesthetic appeal of Venus, Mars, and Saturn, lies the realm of astronomical research dealing, among other things, with celestial mechanics, with solar and stellar astrophysics, which study treats of the physical and chemical constitution of the universe. In the latter fie!d, through the aid of spectroscope, photometer, bolometer and other attachments to the telescope used to study other heavenly bodies, vast information as to the chemical structure of elements present on the earth has been compiled; through the efforts of Professor Joel Stebbings, important contributions to the scientific world have been made at Wisconsin.

Research of ever increasing importance to the industrial world is con-

stantly moving forward in the chemistry department. With the aid of a sensitive photographic plate and auxiliary camera attachment, permanent records can be made and microscopic phenomena observed which the human eye cannot see even with the most powerful lenses. These studies are made through the use of special cameras used with the micrograph and similar instruments designed to measure minute movements and microscopic composition by producing a greatly magnified record.

Through careful observation of the effects on white rats of diets varying in their content of calcium, vitamins, proteins, carbohydrates and other constituents, research workers in the agricultural chemistry department have been able to make great contributions to the understanding of the relation of foods to human wellbeing. Allied with this experimentation was the discovery of irradiation by Dr. Harry Steenbock in 1925 which made possible the enrichment of certain foods with vitamin D, essentia! to the preservation of health and normal growth in children.

The work of the metallurgist presents to the layman a spectacular side as molten iron, at white
heat, is poured from the electric arc furnace to ladle, and from there into prepared molds of sand. At the shops and mining laboratory, experiments in the science of separating, chemically and physicaily, various metals from ore, of strengthening through alloys, of analyzing for impurities, goes on. To industry, the laboratory experiments attempting to better methods of smelting, refining, amalgamation, are of great importance.

Of a different nature is the work carried on through co-operation of the Music Department and University and the experimental State Radio Station, W. H. A. Students desirina practical knowledge of radio co-operate with the studio technicians; programs of fine music, of informational value to farmer, housewife, and manufacturer, of educational and intellectual nature, are prepared by the combined efforts of students, professors, and the professional radio men in a station whose programs are free from advertising.

The scenes pictured on this page but hint at the wide range of activity that Wisconsin carries on in the field of experimentation and research.

## PROMOTING RESEARCH

TO PROMOTE, encourage and aid scientific investigation and research at the University of Wis-consin---that has been the objective of the Wisconsin Alumni Research Foundation since 1925.
When organized, the Foundation had, aside from the modest initial funds of a few interested alumni, only one asset---Dr. Harry Steenbock's discovery of the Irradiation Process for enriching milks, foods and pharmaceuticals with the bone and tooth-building Vitamin D which ordinary foods and average diets do not adequately supply.
Dr. Steenbock's discovery was patented in order to protect the public from exploitation. Licensing arrangements for the use of this patent were made with various companies. Royalties received through these arrangements have been the

principal source of the Foundation's income.

Already more than a "Decade of Service" has passed. Since 1925 , sums of money totaling approximately $\$ 825$,ooo have been allocated to the Board of Regents of the University of Wisconsin for the furtherance of research. The most recent Foundation grant to the University totals \$163,000.
The first ten years of the Foundation's service to the University are recorded in the report, "A Decade of Service" by H. L. Russell, Director of the Foundation, in which the purposes, operation and grants of the Foundation are fully explained and described. As a student or alumnus of the University of Wisconsin you will find this report on the Foundation of special interest. A copy will be sent at your request.

 S A NEW president enters the University it is apropos that we think what Wisconsin has and will mean to the class of 1937 in the future as it goes ever forward in search of that ever-
Our debt to the men who have lent their great minds to the building of this institution is large, for it was their foresight and ability which has added to this structure to make it loom large as
There were small beginnings, but the University with seventeen students for an enrollment was founded the same year that Wisconsin became a state-1848, and the growth of each has
John B. Lathrop came into office as chancellor and with his inauguration detailed plans were made for the expanding of the
North Hall was built in 1851, and South Hall followed in 1855, at which time the catalogue, without foresight, declared: "The faculty is now full." There were six professors and a tutor. Medicine, agriculture, engineering, physics and astronomy were added
Lathrop resigned in 1859 and was succeeded by Barnard, who entered the same year as old Main Hall was completed and the
While the Civil War was raging and "Tenting Tonight" was the song of the hour, the campus was decimated by the war, and
In 1963 there were only 63 students in the school, but the Merrill Act of that year, which gave each state 30,000 acres for each member of Congress for education in agriculture and mechanical arts, was signed by Lincoln and gave promise of better days
Paul Chadbourne, a professor of botany, chemistry, and natural history, was elected president in 1867. He led a fight against coeducation and for his troubles Chadbourne Hall (Female College)
President J. H. Twombley followed Chadbourne in 1871 and during this period the last of the barriers against the hoop-skirted
John Bascom, the great teacher, became president in 1874. He has been described as "heroic in physical, mental, and moral

$A^{s}$lasting wisdom which must eternally be sought. a factor in the lives of all of us. complemented the other. University, which was financed by the sale of lands. to the rapidly expanding curriculum. South was threatening secession. Barnard resigned. ahead. Wisconsin got 240,000 acres. was named after him in 1872. women of the period were removed. proportions."

Budgetary needs existed then, as now, and the $\$ 60,000$ budget was increased 75 per cent. Science Hall was built and Library Hall and Assembly Hall followed in 1879. Tragedy followed when Science Hall was burned down. The University was expanding.

In the meantime the State was growing, too. There was a population of one million, and a manufactured output of $\$ 125,000,000$. The Nation, too, was expanding with the passing of the Red Man.

Socially the "Interfrat," the forerunner of Prom, began in 1881, with Phi Kappa Psi, Chi Psi, Phi Delta Theta, and Sigma Chi as the fraternities of the campus. Football was introduced the same year.

Thomas Chamberlain took over the reins of the presidency in 1881. An outstanding scientist, and a wise administrator, he clearly saw the university of the future and built to those ends.

The Babcock Test, the Wisconsin Experimental Station, the suppression of hazing, and the Dairy School, with two pupils, were all inaugurated.

The Legislature organized the Colleges of Letters and Science, Agriculture and Law.

In the meanwhile, railroads were being built, the logging industry grew with its wanton waste, and the cowboy became a drugstore figure.

As increased wealth made higher education feasible, the Federal Government began lending its aid, and $\$ 15,000$ a year was given the University.

The first Badger year book, the beginning of the fight between the "frats" and the "barbs," and the Gamma Phi sorority house, the first sorority house, occupied the student interest while the University grew under others' guidance.

The Gay Ninetieism with Charles Kendall Adams as president followed. While Bryan was giving his "Cross of Gold" speech, and the "panic of '93" was running its course, the University grew. "What's the matter with Prexy?" was the cheer of the day.

Technical departments, especially, grew, as did the Graduate School. The question and answer type of classes were eliminated as the University entered on the growing task of providing for great numbers.

A School of Commerce, chairs in mechanics design, and hydraulics, were added, and the theme system in English was inaugurated.

Athletics became important and men like

Karel, O'Dea, Richards, and King led our teams. Haresfoot, Red Domino, the Sphinx, the Aegis, the Alumni Magazine, and the Cardinal were all started and Camp Randall was purchased.

In the meanwhile the Spanish War raged.
C. R. Van Hise, a geologist, became president in 1903. The faculty grew from 184 when he entered to 751 when he left in 1918. The number of students doubled.

Almost \$3,000,000 worth of permanent property in buildings and equipment was added.

An athletic investigation in this period resulted in the temporary banning of Big Ten competition.
"On Wisconsin" was written in 1909.
With the motto of "Service to the commonwealth," Van Hise led in establishing service branches to the University. The Agricultural Extension Service, the University Extension, and the County Agents provided under the Smith-Lever Act for extension teaching in agriculture.

The World War period came on with the sinking of the Lusitania, the U-boats, and the propaganda.

The boys wore uniforms and trained in oversized clothes "that only a war would justify."

The silk shirt era after the war saw E. A. Birge as president.

Forestry research was organized, class rooms grew, the Alumni Research Foundation all followed as steps were taken towards the front.
W. H. A., the first educational station, received its call letters in 1922.

Glenn Frank entered as president as economic conditions stimulated by war needs had aroused an optimism and a gala period of prosperity and high prices.

The Experimental College was started with Professor Meiklejohn at its head. Tripp and Adams Halls were constructed.

Then came the crash of '29. Prosperity became a thing that was somewhere around some corner. Vast national planning proceeded.

A short period in which G. C. Sellery was made acting president followed, and then came the appointment of C. A. Dykstra to the presidency as expansion seems again to shine ahead for the State and the Nation.

Ever in tune, each to the other's needs, the State, the Nation, and the University have expanded and given rise to complementary benefits to which we have fallen heir.

May they ever so do!

## WOMEN'S COMMERCE CLUB

THE WOMEN'S COMMERCE CLUB was founded at the University in 1917 with a comparatively small membership. Increased interest among the women students in the University toward commercial positions has resulted in such growth, that this year the number of members is the largest in the history of the club.

Several social events have been sponsored by the group during the past year, including a formal dance at the Loraine Hotel. The club also aided in the giving of the Commerce School Spring Banquet held in April. The Freshman Scholarship Cup was awarded to Irene DeNoyer and Gladys Dite, both having received a threepoint average, and Helen Esser was awarded the Phi Chi Theta key for outstanding scholastic achievement.

1937: Helen Esser, Helen Gehrke, Margaret Green, Jean Lippels, Margaret Hanson, Helen Schultz, Janet Taylor, Marguerite Warnke.

1938: Virginia Baker, Ann Cunningham, Marion Davidson, Natalie Doepke, Loraine Doyle, Helen Fudzinski, Gladys Fehlau, Elsie Griffiths, Mary Joyce, Mary Ellen Kuehne, Virginia Lewis, Vera Pomarnke, Margery Swenson, Margaret Theisen, Iris Uebersetzig, Jeannette Monum.

## Y. W. C. A.

THROUGH the success of its aim to offer every girl on the campus the opportunity for self-expression and development of leadership through committee work and interest groups, the Y. W. C. A. has gained an enviable position among the University organizations.

During the fall the group held a series of teas and suppers to which all of the university freshmen women were invited. The purpose of these informal gatherings was to explain the aims of the " $Y$ " to the incoming students, and to impress upon them the advantages of affiliating with it.

Every year the Y. W. C. A. and Y. M. C. A. jointly sponsor the Significant Living lecture series, bringing nationally known speakers to the university campus. This tends to create among the student body, as well as among the members of these organizations, an awareness of economic, social, political, and religious problems.

The officers and cabinet members who headed the Y. W. C. A. during the past year were: Ruth E. Buss, president; Lucille Ransom, vice-president; Barbara Taylor, secretary; Lorraine Hubbard, treasurer; Eleanor Dahl, general secretary; Frances Schmidt, membership; Alice Sylvester, "X" committee; Ruth Iler, social service; Ruth Bachhuber, international relations; Eleanor Amundsen, conference; Betty Even, monthly meetings; Pauline Coles, publicity; Bette Teckemeyer, student-faculty; Severa Krug, finance; Kathryn Kuechenmeister, freshman program; Margaret Rehmer, social; Louise Emery, member-at-large; Betty Ransom, public affairs; Mildred Marshall, Christmas festival.

## WOMEN'S

## ATHLETIC ASSOCIATION

Skiing and tobogganing down hills on the campus and other places around Madison makes up part of the winter sports program sponsored by Outing Club of the Women's Athletic Association.

MISS BLANCHE M. TRILLING, chairman of the course in physical education for women, celebrates this year the silver anniversary of her connection with the University of $W$ isconsin.
Coming here in 1912 as director of physical education for women, Miss Trilling has developed this department from a small course without a degree to a major course in professional training, awarding both the bachelor of science and the master of science degrees, whose graduates teach all over the United States and in some foreign countries.
The University of Wisconsin became the first university or college to offer a major in dance under Miss Trilling's supervision. A certificate in physical therapy is now also available to physical education majors. In general physical education modern ideas have been evolved and adopted and expansion of curriculum has followed so that almost the whole of Lathrop Hall, as well as

#### Abstract

early in the fall the girls of the W. A. A. move out to Camp Randall where they have their games of field hockey and this scene is a common one

 on almost any afternoon.part of Camp Randall and campus tennis courts, has been appropriated to make room for activities.

Besides her work at the University of Wisconsin, Miss Trilling is active on many national committees and has been influential in the development of physical education organizations and work all over the country.

Promoting intramural sports, awarding scholarships, and the W. A. A. placque, conducting "Wiskits," a talent contest open to all university women, and having weekly teas were the activities the Women's Athletic Association successfully concluded this year.

Winners of "Wiskits" for 1937 were Ann Emery Hall, Alpha Xi Delta, independents Jane Pierce and Florence Young, and Delores Goldman of Colonial Lodge.

Highlighting activities of the Hockey Club, which had Marijane Jex for president, was the entertainment of the All-Australian hockey team last fall. Basketball Club, under

Kay Marting's leadership, had exciting interclass competition, while in intramural tilts Chadbourne Hall and Alpha Xi Delta were winners. Volleyball found a long list of teams from all campus groups participating in both girls' and mixed group competition.

Dolphin Club with Rozell Rork as president culminated this year's program with "Radio Waves," a water pageant of which Karla Stanek was chairman. Adele Davidoff was president of Bowling Club whose championship team conquered Vassar, Ohio Wesleyan, and Milwaukee-Downer in telegraphic meets.

Sponsored by Outing Club, of which Doris Cuban was chairman, cottage parties at the renovated W. A. A. cottage and the Memorial Day four-lakes canoe trip took place. Winners of individual championships for 1936 were Alice Higgett, tennis; Corinne Quandt, golf; and Frances Quantius, pingpong for 1936-37. Randall Green Festival and Dance Drama, features of Parents' Weekend, were other W. A. A. activities.

First Row: Zoerb, Margetis, Hubbard, Sylvester, M. Muth, Biggar, Scott, Frost. Second Row: Steinmesch, Howland, Smith, Williams, Meek, Page, Wing, Wallace, Haack. Third Row: Kuhlman, DeLonge, Gulisserian, Eierman, Woods, D. Miller, Gesley, Lord. Fourth Row: Muth, Krug, White, Hanford, E. Miller, Ramage, Strand.

THE CASTALIA LITERARY SOCIETY was founded at the University of Wisconsin in 1864, to create interest in literature, music, art, and forensics among the university women. The members of the society are selected through tryouts which are open to all women students except first-semester freshmen.
At the meetings held every other Thursday evening in the Memorial Union, the members hear lectures on appreciation of music, art, and other cultural subjects. Prof. Helen C. White of the English Department was one of the most prominent speakers who addressed the group during the year.
The faculty members of Castalia are: Florence E. Allen, Ruth Wallerstein, and Prof. Helen C. White.

[^1]

First Row: Zimmer, Cooke, Whitefield, Wagner, Schmidt, Pelton. Second Row: Teckemeyer, Greer, Jones, Biwer, Schueler. Third Row: Bradley, Howell, Lambert, Mullin.

THE WOMEN'S SELF GOVERNMENT ASSOCIATION has for its membership all the undergraduate women of the University. It is governed by the Executive Council, made up of the officers, the class representatives, the women's representatives-at-large on Union Council, and women who are chairmen of committees which work with the women of the campus. Legislative matters which concern women students are handled by the Legislative Board of the W.S. G. A., whose members are the house presidents of the women's organized living houses. There were 83 members on this board for the year 1936-37.
W.S. G. A. is concerned not only with the rules governing women's houses, but also with any question which involves its membership. Housing, Orientation, Homecoming, and Parents' Weekend are among the projects to which it lends a hand. Through its membership must go all questions upon which women students are to vote, and from its membership come suggestions upon which either the Executive Council or the Legislative Board act in the interests of the women of the University.

[^2]

First Row: Stanek, Harris, Pipenhagen, Thompson, Jex. Second Row: Dodge, Westcott, Marting, Twitchell, Wolffe.

# WOMEN'S PHYSICAL EDUCATION CLUB 

Officers of Women's Physical Education club: President, Ruth Pipenhagen; VicePresident, Elizabeth Thompson, Treasurer, Marijane Jex; Secretary, Joan Harris.

N THE WOMEN'S PHYSICAL EDUCATION CLUB an attempt is made to secure a unified organization of general physical education and dance majors of the University. At meetings held the second Wednesday of every month, speakers drawn both from the faculty of the department and from outside the University come to discuss topics of interest in the sports world, subjects related to health, or anything the members of the club, advised by Miss Marguerite Schwarz, may decide upon.

The Physical Education Club entered into a number of activities during the year to raise money for the Elizabeth Waters scholarship and loan fund, a revolving fund from which physical education majors may borrow with the understanding that they will pay the sum back within a year after they graduate, and from which two scholarships of fifty dollars were awarded this year. An auction, supervised by Karla Stanek, chairman of the loan fund, was held in April. Every day fruit was placed on a table in Lathrop Hall, which might be had by anybody for a nickel; proceeds from these sales were for the Elizabeth Waters fund.

"... let's see, if we run this contest now it should boost the sales by about $25 \%$."

THE UNDERTAKING of publishing a creditable and representative yearbook is one which takes considerable planning and forethought. To so distribute the financial burden so that the BADGER is within the reach of all students requires the services of a business staff of faithful and diligent workers. They start their duties the first day of school and finish the last with the distribution of the finished product. The business staff has the responsibility of working out a financial policy and plan and then putting it into operation. The business staff of this year's BADGER has been a highly efficient group and has provided the necessary financial backing which has given this book to you. The staff workers have spent many of their afternoons working in the office, selling advertising, signing contracts and wracking their brains for new means and methods of increasing the circulation. As salesmen they have been outstanding and for efficient office management they are unexcelled.

To this small group of not more than 10 workers, the student body, and the business men who have advertised in the book, we, the Class of 1937, owe the credit for this BADGER, and we hope that it is as nearly representative as it is possible to make a yearbook.

RALPH L. RITTER Business Manager

## BUSINESS STAFF

DONOVAN M. OLSON
Business Manager

SINCE the publication of the first BADGER in 1885 its history has been a long and eventful one. Its pages, though changed by new innovations in printing and engraving. have recorded and portrayed many memorable events in the histories of the various

of presenting the time-honored traditional events, but in addition it must search out those places, those people, and those scholars who most truly represent Wisconsin and its ideals to the State. It must endeavor to present them in such a manner that the majority will take a few minutes out of their hurried lives in years to come, to remember the temples of thought, the haunts of the irresponsible, the beautiful setting, and remember their carefree days while an undergraduate.

JEAN R. O'CONNOR
Personnel Director
From time to time the BADGER has been criticized and attacked by politically minded individuals, but its value as a history of the happiest days of our lives has never been questioned, and it is the sincere hope of this staff that this end will have been successfully attained with the publication of this book.

"... I wonder just exactly what is going to happen next on this campus to give me a headache."

## THEDAILY

[ORTY-FIVE years ago, April 4, 1892, The Daily Cardinal was founded on the Wisconsin campus by two young Monroe students, Willard Saucerman and Will T. Young, who served as the first business manager and executive editor. It has been the center of controversy and the crossroad of faculty and student opinion ever since.

It was a source of tremendous satisfaction to the editors of the Cardinal during the past year to be able to carry on the tradition of a free college press and to fulfill the function of presenting diverse student views, aiding worthwhile campus ventures, and of presenting adequate news coverage free from censorship or restrainment.

I believe that there are three functions which any newspaper should fulfill and which the Cardinal found no difficulty in delivering. They are: (1) to present a living picture of what the campus is doing; (2) to back and publicize worthy student enterprises of

WALLACE T. DREW
Executive Editor
every type; (3) to comment freely upon both the news and the enterprises editorially.

It is difficult for any paper to present all the news, but the Cardinal has one thing to be proud of in its news coverage that is not possessed by many papers, that there was no suppression of news during the past year.

Stimulating club, church group, political, and social activities of every sort has been one of the prime objectives; and every attempt was made to bolster up worthwhile

student activities which tend to be lost in the turmoil of a great university.

Finally, Daily Cardinal editorial opinion during the past year has been along the lines of what its editors considered to be journalistically, perhaps not politically correct. I would like to present the case of President Glenn Frank as an example.

The editors of the Cardinal were assured by campus leaders that (1) the student body and the faculty were solidly behind President

if I could only find about 1,000 more subscribers and more advertisers the Cardinal would be fine."

## CARDINAL

Frank, and that (2) the student body and the faculty were solidly against President Frank. By sampling the student opinion on both sides, we discovered that opinion was fairly well divided. By looking into the background of the case we came to the conclusion that President Frank was better fitted for other lines than the presidency of the University of Wisconsin.

We presented the written material available on both sides, however, and in our editorial handling of the affair pointed out that while we felt President Frank should be released, that the farcical investigation of his record was a blot on the name of the University.

To the staff of the Daily Cardinal of 193738 I leave my hope that it may enjoy as interesting a year as has its predecessor.

WALLACE T. DREW<br>Executive Editor.

First Row: Major Nelson, Major Orsinger, Major Lewis. Second Row: Captain Trower, Major Yancey, Lieutenant Kunesh, Lieutenant Naylor.

ToTHE Wisconsin Department of Military Science in the fall of 1936 came several new officers to replace men who, last spring, returned to active duty. Major Herbert $H$. Lewis, Infantry, who arrived here from duty as Executive Officer, Los Angeles C. C. C. district, took over the instruction of freshmen; Major William B. Yancey, Infantry, coming here from active duty at Fort Benning, Georgia, the teaching of Infantry sophomores and coaching of the advanced Drill Team; Captain Wendell P. Trower, a former instructor of the South Dakota National Guard, the duties of Adjutant to the Commandant and instructorship of the Engineer juniors. Other members of the present instructional staff include Major Norman M. Nelson, Infantry, instructor of Infantry seniors; First Lieutenant R. H. Naylor, instructor of Engineer sophomores and coach of the Rifle Team; and First Lieutenant Fred. W. Kunesh, instructor of Signal Corps and coach of the Pistol Team. Master Sergeant John Cenic and Sergeants Henry J. McGrath and Wallace V. Eslinger serve the department as assistants.

Major Remington Orsinger, present Commandant, under whose directorship the corps has maintained its excellent rating: was ordered to other duty by the War Department at the completion of the present academic year; 1937 completed for him a sixyear tour of duty at Wisconsin. Earning a B.S. degree at the University of Minnesota in 1915, he served throughout the World

## R. O. T. C.

MAJOR REMINGTON ORSINGER
Commandant

CADET COLONEL RUSSELL H. NEWBURY Regimental Commander

War and is now a graduate of the Army Signal School at Fort Monmouth, New Jersey, as well as of the Infantry School, Fort Benning, Georgia. When detailed to position of Instructor at this school, in 1931, he took over the teaching of the Infantry seniors until 1934, and became Professor of Military Science and Tactics, 1934-1937.

The present corps, whose enrollment has doubled since 1932, is composed of three divisions. The Infantry unit, largest and oldest, having been established in 1862, offers instruction in military leadership and tactics; the Signal Corps, begun in 1919, limits is membership to students taking electrical engineering and specializes in wire and radio communication; the Engineer unit, established last fall, limited to engineers, instructs the men in field engineering.

Graduates of this year's class received, in spring, commissions in the Reserve Officers Corps and some ten or fifteen volunteered for a year's active duty with the Regular Army at posts located near their homes. Thirteen of last year's class received this training. Juniors, who are required to serve a six-weeks' training period at the summer camp at Camp Custer, Michigan, are looking forward to this practical instruction. The formation and parade at which company competition in drill precision was judged was held on Thursday afternoon, May 13. The Corps Area annual inspection was held May 21.

First Row: Newbury, Ruhoff. Second Row: Vaughan, Hawkins, McDonnell, Richards.

First Row: Mead, Thompson, Nelson, Berg, Brown, Mann, Ross, Brooks, McGuire, Topping. Second Row: Sterlinske, Flemming, Mcllhattan, Christl, Richards, Jones, Neighbours, Faust, Vea, Miller, lunghuhn. Third Row: Torgerson, Walters, Stekelberg, Hawkins, Smith, Tice, Yancey, Dawson, Davy, Trainor, Storey.

REPRESENTATIVE of the University's cadet corps in each annual spring competition against many of the best drill teams of this corps area, the advanced corps drill team maintained its position in 1937 as one of the top-ranking drill units of the state.

With keen competition, throughout the winter drill periods, for each of the nineteen team positions, the team ultimately selected was made up of prospective reserve officers, picked for enthusiastic hard work, snappy drilling, and leadership qualities, from more than 35 advance corps candidates.

Beyond building a crack, competitive drill unit the team has served the purpose of giving valuable additional military training to the leaders in the cadet regiment.

Major W. B. Yancey of the instructional staff directed the training activities of the team. The unit was captained by Cadet-Captain E. W. Jones.

Organized in May, 1936, the Wisconsin Chapter of Pershing Rifles, honorary basic corps military fraternity is a fast growing group devoted to the advancement of military training among the basic corps students in drill proficiency. At present the membership includes 110 men who are carrying on the work begun by 83 charter members who last spring set up the by-laws for the Wisconsin chapter, Company C of the Second Regiment. Officers of Pershing Rifles are: Owen T. McDonnell, Captain; Frank A. Ross, First Lieutenant; Melvin M. Mueller and Raymond J. Miller, Second Lieutenants.

## PISTOL TEAM

First Row: Brannon, Wright, Baird, Walter, Vaughan. Second Row: Wandel, Glassow, Lingard, Schuppener, Czeskleba, Blodgett. Third Row: Doyle, Dittman, Lt. Kunesh, Keebaugh, Otto.

DEVOTING long hours to careful practice, the University of Wisconsin Pistol Team strives to develop crack shots, to uphold the fine record which representatives of the Reserve Officers Training Corps have set in the past. Recruits are taken from promising men of the basic signal corps unit during their basic instruction course in the use of the pistol. The varsity team also includes infantrymen and military engineers of the corps who may have volunteered for instruction and developed the requisite proficiency.

Guided by First Lieutenant Fred. W. Kunesh, staff member of the Department of Military Science, and his assistant, Sergeant Wallace V. Eslinger, team members, after less likely candidates have been eliminated by competition during the first semester, begin earnest practice at the Camp Randall Barracks after the Christmas Recess. Early in March the chosen experts shoot several correspondence matches with teams at universities in every part of the country. Such competition continues up to the Spring Recess. A feature of the last season was a trip made to the University of Illinois on April 3rd of this year to shoot out a competitive match.

Some scores this season were as follows:
Wisconsin ..... 1293
Virginia Military Institute ..... 1286
Wisconsin ..... 1287
Harvard ..... 1206
Yale ..... 1091
Wisconsin ..... 1316
lowa State ..... 1357
Colorado State ..... 1357
Wisconsin ..... 1357
Missouri ..... 1343
Texas $A$. and M ..... 1244

THE BADGER TEAM, crippled by the graduation of three-quarters of last year's varsity shooters, had only a moderately successful season, their best showing being made in the Corps Area Intercollegiate Matches, in which they placed fourth in competition with all the college R. O. T. C. teams in

Wisconsin, Illinois, and Michigan. Under the guidance of First Lieutenant Robert Naylor, several freshmen, ineligible for varsity competition this year, bid fair to be valuable reenforcements for next year's team.

First Row: Cass, Vik, Vallier, Moores, Buske, Stemper, Lease. Second Row: Eiring, Stephan, Sorbello, Hunt, Ackerman, Hopp. Third Row: Ross, Newbury (Captain), Eissfeldt, Storey, Cutting, Bates, Marshall.

## RIFLE TEAM

RAYMOND F. DVORAK Director

SINCE their founding in 1885 the University of Wisconsin Bands have grown in membership from fifteen to the present enrollment, which numbers over two hundred. For facility in handling and to allow the players to work with the grade of music best suited for them, three distinct organizations are maintained: the Concert Band, which performs the highest types of symphonic literature, and which is made up of the more proficient and experienced players; the First Regimental Band, and the Second Regimental Band. The Regimental Bands suffice as training schools and provide the experience necessary for membership in the Concert Band.

The combined organizations provide music for football and basketball games, pep-meetings, and boxing matches. During the past season the bands accompanied the football team to Notre Dame and Northwestern. Each of the Regimental Bands gives a concert performance in the second semester of the year and assists the R.O.T. C. unit in military drill.

## UNIVERSITY

 BANDSThe Concert Band performs four regularly-scheduled concerts and assists in University convocations and Commencement exercises. Important activities of the Concert Band during the year's course have been its appearance on the broadcast of the University Founders' Day Program and its own series of twenty-four weekly broadcasts over Station WIBA of Madison. Eleven of these were carried also by Stations WHA the State and University station, and WLBL, Stevens Point.

An outstanding achievement of the year was the Concert Band's appearance in Milwaukee on March 5 th. The Band was sent by the Board of Regents to play in concert before the annual convention of the American Bandmasters' Association, of which Prof. Dvorak is a member. Here the Band was privileged to play under the direction of such famous musicians as Dr. Edwin Franko Goldman, Dr. Frank Simon, Austin A. Harding, Herbert Clark, and others.

## TODAY

N MODERN studios experimentation in the public service uses of radio goes on. Unfettered, non-commercial, the station carries on to serve the people. Workers seek new adaptations. State benefits are extended. Wisconsin strives for a more rational use of radio. It strives to develop a social awareness. WHA carries on!

- Students watching broadcast in Radio Hall. Compare this transmitter with that shown on opposite page. . . . Putting the program "Moods and Melodies" on the air. . . . WHA players giving Shakespearean play on "An Hour of Drama" feature.

Charles F. Tully, Jr., President; Henry Kennedy Leonard, Manager; Howard Miles Teichmann, Public Relations Director.

1938: Charles W. Winkler.

N THE spring of 1898, a small group of University students, led by J. F. A. "Sunny" Pyre, decided to form a dramatic group on the campus. The next year Haresfoot produced its first show, an original adaptation of Dumas' "Edmund Kean," the cast of which included several women, for it was not until some years later that the club's famous slogan, "All our girls are men-yet every one's a lady" came into being.

Perhaps the most famous of Haresfoot shows were a group scored by the now famous Henry Stothart which were produced from 1909 until 1915. These lovely operettas broadened the growing fame of the club.

The next period was one of sparkling musical comedy that more than bordered on fantasy. In 1925 Haresfoot's beloved W. H. "Bill" Purnell began his ten years as a director of the Haresfoot shows. The first half of the group of shows under Bill Purnell were musical comedies, the second half reviews. This period brought the Haresfoot reputation to a new high.

In the spring of 1936, though Bill Purnell had left them, a group of three Haresfoot men met and decided that the tradition of Haresfoot must not die.

Thus, with a reversion in many ways to the traditional Haresfoot shows, student management, original book, specially written music from University composers, and re-establishment of the motto, which has lapsed for several years, Haresfoot carries on its glorious history to a promising future.

- I didn't think I needed a slip with this dress . . . say, don't wink at that gal in the third row I have a date with her . . . oh, you dare me to take it off, do you

## ALIAS THE AMBASSADOR

WITH "'Alias the Ambassador," Haresfoot revived one of the oldest campus traditions, a smash hit musical comedy that swept audiences in two states off their feet, music that was played by leading national orchestras, and female impersonation that caused the rafters to rock from belly laughs. The three act production directed by Charles Phipps, written by Howard Teichmann, with dances staged by Leo Kehl opened in Wau-
sau on Monday evening of spring recess, dazed its audience with five spectacular settings, dazzled them with two hundred flashing costumes, thrilled them with light comedy, sparkling music, clever dances. The plot, dealing with revolution in a South American banana republic, dropped the revue technique used during the last few years.

Chorus: John Bode, Marvin Alberts, Warren Alberts, Ralph Hartman, Max Hermann, Max Goisman, Kent Lundgren, Sherman Sinaiko, Harry Mason, James Pfiffner, Brooks Robinson, Saul Ginsberg, Jerome Kumin, Michael Ashdown, Robert Doyle, Donald Fricker, George Jordan, Robert Sharp, Daniel Lewis, John Tompkins, Charles Winkler, Richard Jessen, Herschel Feldman, John Canepa.

Orchestra: Director, Leonard Haug; Raphael Flanagan, Glenn Wood, Anthony Bacich, Bernard Schlanger, Bernard Stepner, William Schempf, Forrest Zantow, James Watson, Meyer Victor, Robert Olson, Arthur Sweeney, Paul Kundert, John Zimdars, Glenn Scherer, Ted Kaap, Eldred Hartke.

Production: H. K. Leonard, H. M. Teichmann, Joseph Bubul, M. T. Nelson, Oscar Vetter, Ray Felt, Elmer Wigdahl, Willard Lauck, Mrs. O. Vetter, Jean P. Thorel, Robert Geisel, Alan Skowlund, Julius Dieman, Ray L. Hilsenhoff, Carl Dahnke, Henry Herman, Robert Halpin.

SAMUEL MINTZ

JAMES DOYLE

## FORENSICS AWARDS

## FRANKENBURGER CONTEST

STAGING an upset in the biggest oratorical event of the year, Samuel Mintz, a senior and newcomer in the forensics ranks during 1937, won the annual one-hundred dollar Frankenburger Oratorical Award. This year the cash prize was again presented by the Wisconsin Alumni Association.

A record breaking entry of nineteen orators appeared in the preliminary trials of the Frankenburger Contest. Mintz, giving an oration entitled "The Creative Democracy," led Fred Reel, William Bowman, John Frank, and Abe Irwin into the finals.

In the finals Mintz was given the decision by five critic judges who placed Bowman in second place and Reel in third. In the final contest Mintz's oration was renamed "An Editorial." Bowman gave "Twentieth Century Liberalism," while Reel presented "The Divine Right of Judges."

The Frankenburger Contest was established by the late Regent M. B. Olbrich and two distinguished members of the University of Wisconsin Alumni Association, William Kies of New York, and Joseph E. Davies of Washington, D. C., in memory of Professor David B. Frankenburger, chairman of the Department of Rhetoric and Oratory at this university from 1869 to 1906.

## STATE PEACE CONTEST

$\int$ AMES DOYLE, senior class president, climaxed four years of forensic achievement on the Wisconsin campus in narrowly triumphing over Samuel Mintz, also a senior, in the University Peace Oratorical Contest and then went on to win first place and a fifty dollar cash award in the State Peace Oratorical Contest.

Capturing the contest this year marked the third major oratorical event that Doyle has won. Previous oratorical crowns earned were the freshman oratory and the annual one hundred dollar Frankenburger Oratorical Contest, which he won in his junior year.

Doyle's prize-winning peace oration was entitled "The Clash of Symbols." To earn the right to represent Wisconsin in the State Contest, he was forced to appear in an additional trial after the judges had created a four-way deadlock in the University Peace Finals between Doyle, Mintz, Horace Wilkie, and Archie Stockwell.

In the "Clash of Symbols" Doyle charged that the munition makers have become the whipping boys for miraculous quantities of world's ills.

He stated that the "Pollyanna" attitude of American pacificism is betrayed by the false simplicities of the panaceas that are so glibly offered to our people, and that professional pacifists have not been slow to echo the warmakers in the manufacture of elusive and provoking symbols.

ANOTHER big year in forensics was added to the record book during the 193637 term as the first annual extemporaneous speaking contest was added to the already well-rounded forensic calendar which includes debating in the annual Delta Sigma Rho and Western Conference tournaments, intercollegiate debates, the Frankenburger and University Peace Oratorical Contests, and a public discussion event.
In addition a program of forensics for freshmen only includes individual contests in extemporaneous speaking, declamatory, oratory, and debating.

Two men's varsity debating teams swept through their first Western Conference Competition undefeated, while the two co-ed squads gained one victory and lost one match. Debating the public utilities question, John Dietrich, Cyril Hager, and Ewin Wilkie triumphed over Illinois, while Robert Gunderson, Byron Johnson, and Jack Eisendrath defeated Ohio State.

On the NYA question Marie Muth, Lillian Miegel, and Margaret Baker defeated Minnesota, while Ruth Thompson, Helen Scott, and Betty Botz lost to the University of lowa.

Eight men were chosen for the second semester debate competition which included debating in the Western Conference Tourney at the University of Chicago and the Delta Sigma Rho Tourney here. These argumentors were Fred Reel, Andrew Beath, Robert Breakstone, Quentin Barnes, Gordon Dupee, Robert Gunderson, Byron Johnson, and Chester Krohn.

In the Delta Sigma Rho Tournament Fred Reel, a first year student in the Law School, tied for first place in the special public discussion contest.

John Dietrich won the first annual extemporaneous contest and a prize of twenty-five dollars donated by the Forensic Board with his speech on "Fascist Tendencies in the United States."

## WISCONSIN

vs. CHICAGO

HOMECOMING enthusiasm undimmed by a none too successful football team ruled the 1936 celebration of the annual event. From one end of Langdon to the other "old grads" were welcomed back and the houses turned over to the celebration of the week-end.

Behind the program was the usual active staff of students, directed and guided by Gordon Fuller, varsity basketball player. The work which he directed got under way early last fall and much of the success of the Homecoming celebration was due to careful preparations.

THE annual Lawyer's Ball, which was first given in 1933, swung out again this year on November 20. The ball is given by the Law Association and the Order of the Coif, and has been held successively in the Great Hall, then at the Loraine Hotel, and again in the Union this year. One of the claims of the Lawyers concerning their annual dance is that no one gets a complimentary ticket; not even the committee chairmen.

The ball this year was led by Richard Surplice, who escorted Ruth Solie, Delta Delta Delta. Surplice was aided by Ed Crowley in taking charge of the dance. Several of the legal fraternities held dinners before the ball, to which were also invited several prominent barristers and judges from various parts of the state. Larry O'Brien's orchestra furnished music for the dance at the Union.

The lawyers also held a spring party this year, on May I at the Union.

REVIVING once more their time-honored custom of marching down Randall at the Homecoming football game, and throwing their canes over the goal posts, the senior lawyers turned out in full force for the occasion between halves of the Chicago game, October 31. The main difference between this parade and previous ones was that a woman marched with the men from the little red building up on Bascom Hill, and threw her cane over the post with the rest of the boys. She is Linda Rosenheimer, who, besides having received her degree from Law School this spring, has also distinguished herself in the Wisconsin Players' production of the "Desert Song."

The custom of carrying canes is believed to have been started in 1905, as a retort to the custom of Harvard law students of carrying their books in large green bags. Senior lawyers at the University of Alabama proclaim their superiority in the field of academic endeavor by wearing frock coats.

A rumor about the campus just before Homecoming weekend hinted that the lawyers were not going to follow their usual custom, but Charles Orth, president of the Law School Association, in quashing this false statement, said, 'The spirit is back! And who has more spirits, bottled or otherwise, than the senior lawyers?" So the lawyers did march, and they did throw their canes, "symbols of dignity and aristocracy appropriate to the Law School, " over the goal posts; thus maintaining the honor of the lega! profession.

- Undaunted by the downpour and the threats of the engineers, the senior law students get organized for their traditional march to Camp Randall on Homecoming.

## PANHELLENIC

 BALLSINCE 1929, when the first Panhellenic Ball was staged, this affair has come to be one of the biggest social events of the year. This year's ball was no exception. Only sorority girls and their escorts attend 'PanHell," and the theme of the evening differs from that prevailing at other University dances during the year in that the girls make the dates, plan the program-and pay the expenses.

The Panhellenic Ball this year, with the Great Hall of Memorial Union as its setting, was led by Genevieve Whitney, Delta Gamma, who escorted John Whitney, Delta Upsilon. Larry O'Brien and his orchestra furnished music for the occasion.

As has been the custom in the past, all profits derived from the dance are turned into a fund, from which a few Panhellenic scholarships are awarded each year.

1937

CLOTHED in its traditiona! impressiveness, the annual Military Ball, headed this year by Cadet Captain Allen S. Jorgensen and Honorary Cadet Colonel Lillian Schroeder, proved to be one of the outstanding social events of the year. Following the custom instituted at earlier dances this year, two "name bands," Ted Weems and Frankie Masters, provided syncopation for the dancers.

The decoration motif of guns, field pieces and signal flags lent an austere touch of dignity to the Great Hall and the Council Room; and coupled with the contrast of beautiful formal gowns and smart military uniforms made the event impressive in its beauty.

The glamour of the Ball was heightened by the innovation of a Court of Honor of five beautiful co-eds: Audrey Beatty, Jean Henkel, Virginia Tuttle, Jean Ryan, and Virginia Lambert, who were selected to be attendants to the Queen.

THE UNION BOARD this year increased its sphere of activity even more over that of previous years. Its work has had to do with affairs all over the campus, and it has spread out to include alumni, parents of students, prospective students, and visiting people. During Summer School last year, the Summer Union Board conducted several dances, an open house, and Summer Prom along the social line. Culturally, the Summer Board conducted a forum series, and a series of terrace concerts.

## UNION

 BOARDDuring the past year the Union Board has added much to the social life of the campus. 770 Club has been conducted by the Board and has been a very successful enterprise again this year, both socially and financially. Dateless dances were also under the sponsorship of the Board.

The Winter Carnival was likewise directed by the Union Board. While the dance, the ski meet, and the ice boat races were quite successful, the weather was not favorable for a true winter sports week-end. Among the artists appearing on the Union Concert series were the Don Cossack Chorus, the English Singers, Poldi Mildner, Bronislaw Huberman, and Richard Crooks.

The Student Public Relations Committee, conducted by the Board, filled an important place in the affairs of the University, by entertaining visitors of the school, and by making contact with parents of students and prospective students.

First Row: Gunderson, Blum, Winkler, Tinkham, Wilkie. Second Row: Hickey, Clifford, Roberts, Griswold. Third Row: Ingersoll, Davis, Frazer.

THE ESSENTIAL purpose behind the Assisting Staff is to provide an opportunity for those students interested in student government and administration to actually get into that activity. It is for this reason that the Assisting Staff has been placed under the Union Board. Members of the staff work as apprentices or assistants to the various committee chairmen or committee members; then as they acquire more experience and show their capabilities, they are given more responsible positions, until some of them work into the position of committee chairman.

Work on the Assisting Staff is an essential requirement for a Union Board member. However, Union Board membership is not the only position of importance open to the ambitious and qualified Assisting Staff member. This year members of the Assisting Staff held responsible positions on the staff's of the following events: Parents' Weekend, Orientation Week, Homecoming Weekend, Winter Carnival, the Book Mart, and the Activities Service Bureau. For this reason,

## ASSISTING

STAFF
the Assisting Staff has been characterized as the Civil Service in campus politics. Its object is to furnish trained and competent men to aid in the administration of Student Government at Wisconsin.

The Assisting Staff thus performs a twofold function. First, it helps the activities by furnishing them with a competent personnel, and second, it aids the student by placing him in a position in which he is interested, and from which he will gain much valuable experience.

## Y. M. C. A.

F OR MORE than fifty years the Young Men's Christian Association has been active in campus life and affairs at the University of Wisconsin. The organization had its beginning in the days of President Bascom who met a group of students regularly on Sunday afternoons.

The program of the Association has varied from year to year. To meet the current needs of students has always been the guiding principle on which the Association's program has been developed. Naturally the needs of students have varied in the past five decades in which there have been so many changes in American life and thought. The postwar needs of a student group were different from pre-war needs, post-depression needs different from pre-depression needs.

With the coming of the campus churches the Association was released from its responsibility for providing religious services to the campus but not of its duty in sponsoring religious discussions and interest in a religious philosophy by which good living is achieved. In particular, the Association has a responsibility in interesting those students not church-minded.

With the building of the Union with its excellent equipment for group and mass activities the Association's opportunity to introduce individual students to the facilities for social and cultural advancement has steadily grown.

Furthermore, campus life with a thousand or two students is not merely so complicated as campus life with ten thousand students. It is in the latter that the Association now operates providing lectures, discussions, programs, counsellors and other
facilities by which the individual student can achieve a more satisfying and adequate preparation for life both in college and after commencement. Its program is designed to aid fellow students in deepening their social consciousness, in developing leadership ability and in relating academic work to possible solutions of present day moral, religious, social and economic problems.

-
informality and goodfellowship can be found within the walls of the " $Y$ " as can be seen from this informal group. There is time for work and time for play.

## Y. M. C. A.

ASSOCIATION HALL, the official title of the building which houses the University Y. M. C. A., was constructed several years ago, and is one of the oldest buildings on the university campus. The " $Y$ " building was the center of the activities of the Union in the years previous to the construction of the present Memorial Union Building.
The dormitory portion of the building has been in operation since the structure was built, and the Y. M. C. A. has also conducted a dining room in connection with the Hall.
Since the completion of the building over fifty years ago, hundreds of residents of the " $Y$ " have been graduated from the university. And many of the most influential alumni of Wisconsin have resided in the stately, old, grey-stone hall, during all of their school days, or at least for a part of this time.
Present residents of the " $Y$ " pass pleasant hours in the recreation rooms of Association Hall, playing billiards and cards, and also conduct tournaments of such games as ping-pong, bridge, and the like.
Each year at Homecoming time, the residents put up novel decorations on the front of the building, which help to light up the lower end of Langdon street. Also at Christmas time, the building is decorated around the time when the Y. M. C. A. and Y. W. C. A. collaborate to sponsor the Christmas Festival.

Students who live in the Hall enter into the University intramural sports program, and several of the residents have achieved fame in athletics in their own right, by making varsity teams. These men are given recognition in the recreation room by having their pictures put up on the walls.

Residents of the " $Y$ " hall comprise a part of the Y. M. C. A. cabinet, the group which formulates the policies of the University organization, and gives advice to both the men students of the University and to the Y. M. C. A. members, with regard to their school work and activities.

## LODGING HOUSE COUNCIL

HAILED as the most important change in student government during 1936-37 was the organization of the Lodging House Council, which is composed of all the presidents of the men's lodging houses. These presidents are also members of the House Presidents Council which represents all men on the campus.

Hyman Robock, who was elected as the lodging house representative on the HPC in the spring of 1936, automatically became the president of the Council until the expiration of his term. The members of the Lodging House Board, the administering group for the council, that were elected soon after the organization of the council were Gordon Anderson, University Y. M. C. A., Norman Schober, Seven-Up House, Bruno Zucollo, Delta Theta Sigma, Marlin Volz, Victoria House, Lew Zarem, Plavnick House, and Francis Kowalchyk, University Y. M. C. A.

The aim of providing a fuller social and campus life for men living in lodging houses was accomplished in part by the continuation of low cost dances that were begun last year under the direction of the HPC. Norman Schober, secretary of the L. H. Board, performed a meritorious job in charge of the dances. Sunday night gettogethers in the Rathskellar were very successful due to the efforts of Gordon Anderson who also served on the Rathskellar Committee. The most aggressive housing program in years was spurred on by an all-university housing committee headed by Hollis Peter of Beeken house who was greatly aided by a member of the board, Marlin Volz. A forensics program of inter-house discussions is being formulated for next year by Francis Kowalchyk. Lew Zarem was in charge of publicity and also worked in the promotion of intramural athletics. Plans for quicker organization of the houses in the fall have been prepared under the supervision of another member of the board, Bruno Zucollo.

There is no doubt about the value of the groundwork performed by this year's board and council and there is every reason to expect that much more in the line of providing social, cultural and athletic opportunities to men in lodging houses will be accomplished next year.

LODGING HOUSE BOARD.
Left to Right: Lew Zarem, Norman Schober, Gordon Anderson, Francis Kowalchyk, Marlin Volz, Hyman S. Robock, President. Missing: Bruno Zucollo.

. 195 .

## "MUCH ADO ABOUT NOTHING"-

MINUS the investigations which have long accompanied them, campus politics proceeded with the usual farcical fanfare of deceits, double crossings, ineligibilities, bargainings, and defaults.

The Junior class took the spotlight when sensational cries of Boycott! Betrayed! and No Big Six Queen! were raised to harrass William Pryor, Sigma Nu, Prom King.
A wide-open race was visioned early in the fall when four politicians, eyeing the coveted prom kingship, decided to campaign for the office. Starting with eight candidates, Paul Redeman, S. A. E., Paul Tuttrup, Beta, Carl Grossenbach, Phi Delt, Jim Dieman, Delta Chi, Harry DeMuth, Alpha Delt, Allen Jorgenson, Chi Phi, Hank Stark, Phi Gam, and William Pryor, Sigma Nu, the race soon narrowed down.

Redeman and Tuttrup had hung their pins and withdrew in favor of Stark. Jorgenson looked for favorable offers and dropped out with Dieman, who was declared ineligible. They backed DeMuth. Carl Grossenbach saw little chance and quit - throwing his best wishes to Pryor.
Three fraternity men, Pryor, Stark, and DeMuth, were left in the race. Dave Bogue,
an Independent, saw the split and enterd the fray at the last minute. Nor did a hasty visit about midnight before registration of candidates by Robock and Bowman succeed in scaring Bogue out of the race.

With fraternity and sorority ranks split by the three fraternity candidates, all went seeking Independent aid. The Independent group backing James Doyle for the senior presidency agreed to aid Pryor if he would grant them one-third of the chairmanships and pick a queen from outside the Big Six.
Pryor was lashed bitterly for bargaining in such a manner, and when he won, proposals to "Boycott Prom" were voiced. Official statements, caucuses, and mass meetings were held, while headlines flashed across the front pages of the Cardinal and city papers.

The large fraternities were finally placated with chairmanships, but the Independents felt themselves betrayed and added to the imbroglio with letters and veiled threats of "next year."
In the senior race it was Independents versus Fraternities, with the fraternities taking a spanking. Four entered the fray, but Charles Fleming and Lyman Houfek, Inde-

- Tumas meets and, over glasses of beer. decides informally not to back Pryor . . . Pryor has left alone and friendless he sips his coffee to buoy his falling spirits . . . as the campaign swings into action orations boom . . . below, Keeley orates in behalf of DeMuth promising.
pendents, both dropped out in favor of James Doyle. Richard Laird, Psi U, was the other candidate. Doyle easily won:- with much of Laird's backing apathetic.

Jack Heuser in the Sophomore class, backed by a strong Cardinal Key machine, and further abetted by the disinterest of the class as a whole, easily won the presidency.

## "BLACK AS THE PIT

## FROM POLL TO POLL"

THE SIG CHI house was the scene of the beginning of the political ball-rolling of our class. On St. Valentine's night, 1934, Don Heun, Phi Psi, was looking for support for the freshman class presidency. He found it with the aid of Griswold, Johnson, Penner, Stafford, Laird, and myself. After some backslapping, and the stimulating nomination speech of Jane Cross, the opposition was stymied, and Don swamped Wirth Koenig and one Vladmir Horidovitz by plenty.

Even though Marty Jackson, the lush marshmallow from the K. K. G. house was his queen, he still lost money on the Frosh Frolic. Only Don upped it about fifty bucks.
The sophomore elections were a frost. Our machine was too tough for the opposition. We had everything from Kappa Sigs down to Kappas in the outfit. George Cassidy folded, and I won by default. As tradition would have it, I, too, commandeered that beer-guzzling, rat-racing, wallpainting bunch of Greeks, known more honcrablv as the Cardinal Key. Because of the above I had the honor to lose some dough for our class, by leading the Sophomore Shuffle. It was then that the above mentioned marshmallow was to be known as "Twice-a-Queen-Jackson," because she was my baby for the evening.
The junior elections were hot stuff. After charges of alleged bribery, some sour-graped individual's ego revolting, and a lot more hulabaloo, "Jugears" Johnson finally made the grade for the Kappa Sigs, and found himself Prom King. He bicycled past Lyman Houfek by fifty votes.

If "Jug" would have had anyone else but Dotty Teeple, who is a very nice marshmallow too, as his Prom Queen, the Kappa Sigs would have deactivated him. Unexpectedly, the class made dough, \$1,400 to be exact, a larger piece of change than any other class in the history of the school has made.

Heun and I were crew men; Johnson was our pal; Ralph Hunn needed a shell, and $\$ 1,400$ would have bought one. But because one Bob Blum, who is an investigator from way back, found something in the Steven's plan, a very lousy plan, and the crew didn't get the $\$ 1,400$. A lot of dirty editorials were written about this time about Heun and myself. But I suppose that editors of college papers sometimes have to fall back on their supposed principles or else it would appear as if they weren't looking after the best interests of the school.

James Doyle, the independent oracle, with the liberal complex, was elected to the throne of the senior class. The throttling hold that the diabolical Heun, Johnson, and myself had maintained was broken. Our candidate, Dick Laird, was badly beaten. The browbeaten students were disgusted with graft and corruption and they finally saw the light; thus, the haloed Doyle was appointed to lead them out of the house of bondage.

That marks the end of the political history of the class of 1937. I don't believe it could have been any stormier, and at the same time I can't see how it could have been any more fun.

JOSEPH W. BROOKS.

## ORIENTATION WEEK

CONTINUAL changes have been made in the plan of Orientation Week since its inception in 1928. The plan of the program has always been to set aside a Freshman Week for the purpose of acquainting new students with life on the University campus.

In 1932 a modification of the original plan was adopted, in that chairmen were appointed for both the incoming men and women, instead of having a single chairman as has been the original custom.

The program of the week includes a group of conducted tours about the university campus for the incoming students; a series of orientation examinations in various subjects, for the purpose of determining the relative position of each individual
with reference to the class; several lectures to the students giving them information about campus activities; and a social program, including a number of Dateless Dances, a Freshman dinner, smokers for the men students, and several teas and informal gatherings sponsored by W. A. A., W. S. G. A., and Y. W. C. A. for the benefit of the freshmen women.

The idea has always been impressed upon the students throughout the course of the program, that they should strengthen the contacts they have made with these various organizations who have aided in putting on the program, in order that these same organizations may be of assistance to the individuals in solving problems that arise during the ensuing year.

MEN'S COMMITTEE-Robert Gunderson, General Chairman; Conrad Shearer, Gerald Rubin, Richard Tinkham, Odvar Haug, Ed Nestingen, Charles Treleven, William Bowman, Joseph Tussmann, James Doyle, Harold Roberts, Paul Tuttrup, Emerson Rose, Hugh Ingersoll.

WOMEN'S COMMITTEE - Marguerite Schuler, General Chairman; Lois Roehl, Elaine Zimmer, Martha Forster, Lorraine Hubbard, Mary Jane Howell, Jean Christopher, Mary Hill, Ruth Bachhuber, June Hosier, Margaret Heinecke.

## ANNO DOMIN MCMXXXVII

STABILIZE your character, discipline your mind; and a record enrollment of some 2,500 freshmen walked forth from the stock pavilion into their first year, stabilizing characters and discipliníng minds on Lohmaier's beer, Stuhldreher's football exhibitions, Foster's cage nights, Walsh's flying leather, Langdon Row's parties and women - also, perhaps, Finch's geography, Reynold's history, Kahlenberg's chemistry.

Resistance to high pressure lectures has grown with the years. So also has grown resistance to high pressure rushing. Said Daily Cardinal headlines significantly: September 23-"Rushing Figures Vary; Heun Sure of Increase"; September 30-"All Fraternity Pledging Shows Decrease; Heun Explains Drop."

When finally the wastepaper was swept away from Armory and Lathrop Hall floors, tables piled in the corners once more, Curtis Merriman's staff reported a peak enrollment of 10,193 for the first semester.

The ball began rolling when administrative ultimatum roared forth wrathful words of warning on smokers leaning against the 'No Smoking" signs. Janitors had hitherto winked at dainty debs who knocked their cigarette ashes
off on the broom handles, smiled cautiously through oxford glasses; janitors henceforth enforced the rule dusted off by conscientious insurance inspectors with vim and vigor. Result: Freshly painted 'No Smoking" signs, increased tobacco consumption in instructors' offices, hasty, secret tastes of forbidden fruit, reduced fire hazard and insurance rates.

Over a second bump rolled the ball when petty thievery at the dorms came to an abrupt end as residents volunteered fingerprints for the Federal Bureau of Identification to stop possible inside jobbers, welcomed new locks specially made to exclude outside intruders.

Came football time - pop bottles - beer bottles, in fact, bottles-, and alumni, and students looked with expectation to the fiery, active Harry Stuhldreher, Messiah, Fourth Horseman, and new football coach. Material results, victories, cautiously awaited the 1937 season to be forthcoming. Moral victories were an immediate result as pep meetings showed the old zip. ''The Spirit is Back," announced the A.O.Pi wall, Kiekhofer's wall, Carillon tower, Memorial Union, Langdon Hall, sidewalks and pavements in green paint. Official wrath descended on relatively blameless

heads this year as Cardinal Key members withstood charges of vandalism earned by inexcusable surrealist deccrations on Madison wall space. To a weak Chicago, the Badgers dropped a 7-6 battle.

While the newspapers carried articles naming Wisconsin as one of the universities of the Big Ten carrying a professional team, the Reynolds plan which proposed a mild form of subsidization for outstanding scholar-athletes was approved by the faculty "in principle only" but went down in defeat at the hands of ten moguls. Despite the honest effort of this plan to solve the question of athletic subsidy, the Wisconsin representative cast a lone ballot in favor of its provisions.

The fall elections saw political tycoons, fraternity and otherwise, drag the log from the closet and renew the rolling contest. Eighteen fraternities in representative body behind Dick Laird, Psi Upsilon, for presidency of the senior class. Hell-bent on a victory to assuage the smart received as the result of a brisk shellacking in the spring elections of last year the fraternities worked hard to win but lost to Jim Doyle, scholar in politics, orator, independent choice over Chuck Fleming, Octy Editor, and Lyman Houfek, unsuccessful prom king candidate of '35-'36.

Prom King William Pryor, alias Junior Class President, ran a rough race and came nigh unto a shin barking by temporarily refusing to roll the fraternity log. Rumors of boycott from the real into the nebulous into nothing. But his dishing out of gravy to the rank of fraternities who had opposed him left disgust and wrath in the hearts of small fraternity and independent backers who had coalesced to push him through an easy victory over Harry De Muth, old line fraternity candidate, Hank Stark, and David Bogue, unknown and unsung. The wholesale bribery of the 1935-36 King Race remained an event of history through investigations into hitherto unnoticed sections of Union Board by-laws directed the bony finger of accusation at Bowden Davis and Ed Frazer of Union Board. Similar charges of illegal political activity came, leveled by Doyle, against Robert Petri and Richard Johnson, of the Elections Board as an outgrowth of activity in the Laird caucus. "When is a candidate not a candidate?" sang the Union Board in an executive session and debated long and earnestly. Perhaps influenced by sealed countercharges held as reserve power by Frazer in the event of unfavorable action, the Union Board sages contented themselves with oral slaps on the wrist

all around. Elections Board sat on the fence, straddled, disqualified Johnson and Petri temporarily.

Sighs of relief soon turned to groans as Henry Stark leaders saw their chances smashed. On the eve of elections, damaging evidence resulting from the extra-legal activity of several Stark enthusiasts was successfully stifled only to be supplanted by a nose-for-news Cardinal reporter who discovered a pair of telltale post cards at a West Johnson Street rooming house and effectively filed charges on election day that split the Stark machine wide open, sent Stark supporters into rival camps. Uninteresting was the win of Jack Heuser, Beta Theta Pi, over Ben Houfek, independent, and George Simon, Sigma Phi Epsilon.

While reverent observers of custom faced east on November 11, Harry Williams, instructor for the University of Wisconsin Extension Division in Wausau, delivered an Armistic Day address, flavored with "indecent remarks!" Demanded the Wausau Record-Herald: "Ousting of Williams." Reason: his parenthetical labeling of the Gettysburg address as propaganda. To the rescue at this onslaught on academic freedom come the University history department. A careful investigation conducted by Frank O. Holt, Dean of the Extension Division, absolved Williams from any charges of misconduct and reinstated him in his former office.

It took the tragic death of Donald Ranney, ex-student, burned to death in a fire-trap bedroom that he shared with three students, to open all eyes to an appalling housing situation immediately concerning the campus. Investigation of the fire revealed the fact that every vital provision of the Madison building code had been violated-too late the owner, Walter Lipke, was fined $\$ 125$. Through the efforts of collaborators on a special housing edition published and distributed throughout the state by the Daily Cardinal as well as an active student housing committee, students and people the state over became acutely aware of an urgent need for low cost but safe and sanitary housing for students of the University of Wisconsin. The committee worked long and hard attempting to push rulings through the Madison Municipal Council prescribing strict regulations of rooming houses, outlined and drew up an elaborate and adequate dormitory building program, secured the approval of the regents, then bucked up against a stone wall in the legislature where it was announced that no funds would be immediately available for any kind of dormitories.

While student life went through one and another form of violent and lively activity, the

University welcomed into its family circle John Steuart Curry as artist in residence. Though he himself scoffs at the idea of regional painting, Curry together with Grant Wood and Thomas Hart Benton, the latter of Kansas, is recognized as an outstanding exponent of the American school of regional painters. Commissioned to paint the current agricultural scene in Wisconsin, Curry will make an extensive tour of the state this summer to acquaint himself with the state and its people, the essence and spirit of future murals.

While esthetes were meeting Currie and discussing the sublime, campus controversialists, still smarting from fall defeats, studiously and vigorously charged James Doyle, aforementioned senior class president, with packing his senior council with seventeen independent "yes men." Equally vigorous was Doyle's denial and concurrence in such by his backers. Several months' time allowed Pryor, Prom King, to produce a prize reply to the above denial when he appointed fourteen of his fraternity brothers in Sigma Nu to his junior class council of fifteen. Claimed Pryor in defense of his right to a council packed with friends just as he thought Jimmy Doyle had around his discussion table.

In the days following Christmas, when warning had been given Glenn Frank to prepare a defense of his position as President, the eyes and ears of a nation were focused once more on the University. As in the past an Extension Center upset, and an Athletic Board shakeup had drawn front-page headlines, so was Glenn Frank destined to make his demise midst fire and smoke. To readers of one newspaper the Frank trial was pure political revenge; to those of another, a long needed purging. Sentiment in one quarter declared emphatically that the students were all for Frank; that in another, all against; the students themselves didn't know. Then on a glorious Friday, a tremendous majority of some 500 loyalists, re-enforced by amused passersby, struck, cheered Frank, jeered La Follette, had a field day and skipped classes. Nervously facing regents, newshawks, shaking hands with students through windows, Glenn Frank fought long and loudly. When the Board of Regents failed to renew his contract, Dean George C. Sellery, long of the College of Letters and Science, took the post temporarily. Was delighted when the City Manager of Cincinnati, Ohio, accepted the challenge offered by Wisconsin Regents after several months of deliberation. Meantime, campus opinion and rumor had suggested everyone from Mickey Mouse to Franklin Delano Roosevelt as next resident of the University Heights' Presidential "Palace."

As result of the nationwide hullaballoo over politcal attack on democratic academic free-

## AN ERA ENDS

GEORGE MEAD, Pro-Frank Regent:
"It's the most preposterous thing that's ever been done." With this outburst Regent Mead summed up the attitude of the seven pro-Frank regents.

## EX-PRESIDENT GLENN FRANK:

'You must recognize a political firing squad when you see one." So stated Dr. Frank in answer to the charges hurled at him by Regent Wilkie.

HAROLD M. WILKIE, President of the Board of Regents:
'Dr. Frank is extravagant, incompetent, and has lost the confidence of those with whom he must deal."

And so Regent Wilkie touched off the keg of dynamite.

## IESIDENT CLARENCE A. DYKSTRA:

"The University of Wisconsin offers the eatest educational administrative opporinities in the United States.'

So stated President Dykstra on the eve $f$ his appointment to the hot seat in ascom Hall.

JOHN BERGE, Secretary of the Wisconsin Alumni Association:
"It's a happy choice."
And the alumni and the regents did break bread together.

WALTER DAVENPORT and Colliers Weekly, interested in the University:
". . . just about as maudlin as a diesel engine . . . and politically minded as the Gulf stream.'

And the nation did agree that it was a wise choice.

HAROLD M. WILKIE, President of the Board of Regents of the University:
"We are unanimously of the opinion that Clarence A. Dykstra of Cincinnati, Ohio, is the best qualified of all persons of whom we have any information for the presidency."

And the entire board did concur and smile upon one another.

## AN ERA BEGINS

dom; or worthwhile removal or what-have you: Life Magazine, new, unbelievably popular, sent in mid-January candid picture shark Alfred Eisenstaedt to photograph campus life of a great midwestern co-educational university. The surprise visit caught Wisconsin fans wideeyed and breathless. Life's Eisenstaedt caught King Pryor sans pants, Kiekhofer lecturees fast asleep in the balcony of Music Hall, sorority girls en negligee. Other student rendezvous caught by the photographer's plate: Lohmaier's and beer, 770 Club and the dance. Eager students waited long, breathlessly bought Life magazine hand over fist, avidly turned the pages to see the great expose of Wisconsin campus life. Came February, March, April, May; no pictures. Life's gain? Increased circulation. Publicity stunt? The days and years will reveal the truth. At press date, no pictures; and Life rolls merrily on.

Came final exams, came headaches, came flunks - came the Junior Prom, behind it a history of uncertainty-the rumored boycott to be sponsored by fraternities, irate at the slight offered by King Pryor's bid for independent support-the switching of Prom date -the muddle over the bands, (final choices were Earl "Father" Hines and Joe Sanders), which remained unannounced until but a week before the dance. The dark cloud turned inside out when campus approval smiled on Queen Jean Ryan, Alpha Chi Omega, first to be selected outside of the Big Six since 1928. The sun shone brightly when receipts were counted.

Behind the vigorous and noisy activity of campus politics and social life lies the very heart of Wisconsin's fame the country over as a great university. Her scholars devoting long hours to careful research in every field, endeavoring to bring to light new things and push barriers back and widen the scope of knowledge already revealed to mankind. To aid this work in the field of the natural sciences, the Wisconsin Alumni Research Foundation granted the University \$163,000 for research purposes. Through the efforts of this organization, the University has received a total of \$831,033 in the past nine years; a contribution which has enabled science to go far in making valuable discoveries.

A fruitful field for Life, Wisconsin activity also attracted the attention of Warner Brothers, impressarios. Their brainchild: an attempt to film a movie based on the Haresfoot-Club -scene: University of Wisconsin campus. The brainchild remained in swaddling clothes when the faculty committee headed by Dean ScottH. Goodnight frowned on the plan, said "Nix!" "Frivolous" was the principal charge leveled against this project.

Pioneering again in the field of clinical service, co-operating whole-heartedly with a nationwide drive for the eradication of dread syhpilis, a forward looking student infirmary under the direction of Llewellyn A. Cole offered a voluntary Wassermann test to University students. At press time several hundred students had availed themselves of the service. The plan had been sanctioned by both city and state health commissioners, as well as by members of the Medical School faculty, and both men and women student leaders.

Interesting side slants on student interest in practical politics showed forth as the Daily Cardinal announced the efforts of James Feeney, a present student of the Wisconsin Law School, to obtain the post in the aldermanic race in the I2th Ward, Madison. When returns were counted the Wisconsin Law School boasted of member Alderman James Feeney. Some years back the senior Feeney, father of the new alderman, won similar honors under similar conditions. Former member of the Law School, past varsity debater Paul Alfonsi, assemblyman from Pence, Wisconsin, also figured in state election news. Occasion: his accession to the speaker's chair in the state assembly.

University eyes again turned from the hill to the dome as, an aftermath of the Frank ouster, two bills introduced in the state senate proposed alterations in the makeup and selection of members of the University Board of Regents. The Shearer-Ashman Bill: Let all regent appointments be subject to confirmation by the senate. More drastic, the Callan Bill: Let a board of fifteen govern the University policies: five such members to be selected by the state at large, five by the organized alumni within the state, five supplied by gubernatorial appointment.

With bills still pending, Governor Phil La Follette named his three appointees to fill the six year terms that will expire in 1943. Qualifications for appointment: A correct attitude in the matter of the Frank trial. Holders of the correct attitude, recipients of regency chairs: Regent-President Harold M. Wilkie, renamed; Regent-Progressive Robert Baker, Jr.; removal for incorrect attitude at Frank trial, Dr. Gunnar Gunderson, who voted for the Glenn Frank retention. Arthur J. Glover, Fort Atkinson journalist and agriculturalist, succeeds Regent Gunderson.

The forensic enthusiasts watched their spring field days approach, saw James Doyle win the University Peace Oratorical Contest by a slim margin over Samuel Mintz; applauded when Doyle, a past Frankenburger orator, carried off the fifty dollar State Peace Prize as well. A close race and a final victory for Samuel Mintz characterized the Frankenburger con-

test. The Supreme Court, Modern Democracy, Unbalanced Social System, among other topics were subjects of gesticulation and fervent articulation as William Bowman, Abe Irwin, Fred Reel, and John Frank competed with Mintz for the one hundred dollar prize.

Such events at best gain the attention of a few-But the eyes of the many turned with delight toward the 1937 Spring Elections. Though only 1,500 students had the initiative to express their choice by ballot, several thousand more winked, smiled, frowned, wondered at "political" activity. New, powerful, dangerous to the fraternity steam roller of the past, voice of independents and small fraternities, the United Students Association (the U. S. A.) announced its stand as an independent political organization, succeeded in coalescing support which swept the polls and snapped up eleven of the seventeen posts in the election. Scared stiff, the fraternity boys in control feverishly prepared to barricade a last and powerful stronghold, the Union Board.

The apathy so characteristic of Wisconsin student elections shone forth despite the challenge of the U.S. A., as six positions, including that of freshman class president and junior member at large of the Union Board, went by default. Voting included selection of officers to administrative posts on Cardinal Board, Badger Board, Forensics Board, Union Board, and Co-op Board. Close was the victory of C. Carlton Brechler over Robert Saucerman, candidates for position of junior man of Cardinal Board, when three recounts pronounced Brechler boardman by three votes.

Much talked about event, exclusive, formal, a highlight in a year's activity, the Gridiron Banquet, sponsored by Sigma Delta Chi, honorary professional journalism fraternity, pre-
sented for the entertainment of its guests, the intellectual and social upper four-hundred of the campus and city. A reversion to its oldfashioned bull session roastfest. Skits burlesqued major events of the year. Regent "Max Nelson" Wilkie chuckled between his chins at a mock Frank trial, "Teichmann" La Follette defended his stand. When the roasting was well done and over, guests present voted the traditional red derby to Roastmaster Harry Stuhldreher.

Having refused the roastmastership of Gridiron Banquet on plea of urgent business detainment, President-Elect Clarence Dykstra several weeks later paid a flying visit to meet the faculty family in Madison. Papa Dykstra, towering six-feet-four above all but Dean Chris Christenson of the Ag School, stood in the receiving line with Mrs. Dykstra for several hours as members of the faculty and Board of Regents numbering more than 1,500 paid their respects, and agreed that President Dykstra is tall, engaging, a good man for his new post. Said Mrs. Dykstra aside to a faculty member's wife: 'I've never seen so many tall men in one place in my life."

Headed by tall, active, publicity-seeking, bemustached Cadet Captain Allen S. Jorgensen, Chi Phi, Military Ball secured excellent bands, carried on a smashing publicity campaign.

The pre-Military Ball scheduled by Scabbard and Blade was preceded by a flurry of kidnappings. Allen Jorgensen, tall and active, looked worriedly for two hours for his queen. Crawled precariously, bravely, worriedly, around a third floor ledge of the Old Union, rescued Queen Lillian Schroeder, one of the few freshmen ever to achieve the royal recognition afforded by this highlight of social activity at Wisconsin.

The following week, night of Military Ball,
another abduction was staged. Tall, active, now un-mustached, publicity shark Jorgensen was the victim. Changed into Sam Browne belt, puttees, breeches, medals, on Madison's outskirts after valiantly brandishing a crank handle at kidnappers, arrived on the social scene early for the ball, late for the supper. The campus put its tongue in its cheek, smiled knowingly, looked askance at tall, active, unbemustached, publicity seeking Chairman Jorgensen, and went to Military Ball.

Armed with eggs, ripened thoroughly behind engineering lab boilers for weeks in advance, engineers started down Langdon Street on the annual St. Pat's parade. For the first time in years the lawyers, co-operating to form an effective organization, delayed St. Pat Jack Barlow from vantage points along Langdon and State Streets with antedeluvian henfruit, powerful streams of water, and fresh mud. The bystanders were delighted, the Law building thoroughly plastered with refuse, and members of both sides satisfied that they had won. Shopkeepers followed the parade with brooms and hoses; Madison D. P. W. with a sprinkling machine.

Unstirred by such goings-on, the Board of Regents requested the faculty to raise the standard of requirements for entrance into the law and chemistry courses. Henceforth, decided the faculty, prospective lawyers will need a 1.3 average or bachelor's degree for admittance; chemistry and physics majors, a 1.5 average for their degrees.

Before the storm of board elections, Union Board reported a profit of \$2,200 in its dances for the 1936-37 fiscal year in spite of the flop of 770 Club. Came elections and fraternity men succeeded in protecting their strong-
hold by electing Jack Clifford, Alpha Chi Rho, to the presidency over Horace Wilkie, D. U., who was backed by the independent faction under Doyle. In a touching farewell, this year's president, William Winkler, scored those who strive for internal dissension, urged unity of purpose, begged for a bigger, better, stronger Union Board. Cardinal quotations in writeups read well for Winkler.

The climax of scholastic hopes was attained when the Wisconsin chapter of Phi Beta Kappa, highest national honorary scholastic fraternity, elected eleven juniors and thirty-nine seniors to membership.

Climax of hopes of the pacifists was reached when five hundred students struck for peace on April I3, and heard Prof. Robert M. Lovett of the University of Chicago praise their efforts, warn them to observe the Wisconsin tradition that had fought so hard to prevent the United States from entering into the World War.

As spring vacation came and rung up the curtain on the last acts of the school year, Coach Ralph Hunn's varsity crew, attended by a new specially-built 225 horsepower launch, practiced hard for their coming competition in the Poughkeepsie classic on the Hudson River. Meanwhile, Haresfooters toured the state celebrating a return of the glorious days, "When all its girls were men, yet every one a lady." The 1937 production, "Alias the Ambassador," written by Howard Teichmann, containing two song hits for which Betty Powell, Alpha $X_{i}$ Delta, was responsible. She is the first woman in the history of the club to write for the show. The show was assured when the Alumni Board of the club voted the necessary funds earlier in the year.

And so ends the year!

## TRaymumu Tivray (baturtte

Ray Gaudette died in an automobile accident on the night of December 12, 1936.
To most of his friends and many of his acquaintances, Gaudette typified the ideal Wisconsin athlete. Genuine athletic ability, scholastic attainments well above the average, and an aptness for making friends were outstanding attributes of the man.

His chosen sport was crew. It might just as well have been any other, for he had an enviable record in high school football. The attributes which made him a success in rowing would have helped in football, basketball, track, or any other sport. His was the role of the safety-valve. Tense moments before important regattas were frequently relieved by his wit which burst out in the moments when humor was the one thing which could save the team spirit essential to crew.

In another sense, Ray could never have been anything but an oarsman. Rowing is a sport which demands intense devotion-devotion which subordinates every other interest to the development of the physique and timing which mean victories. But Ray preserved his own personality in a way which made him represent all the best in crew work.

Scholastically, Gaudette followed a highly technical major-landscaping. And, in a specialized field, he had no grades but A's in his major during four years at Wisconsin.

To Ray Gaudette, then, athlete, comrade, scholar, the 1937 Badger dedicates its sports section. As long as University athletics produce men like him, so far will they be their own justification.

## CAPTAIN

- 

Captain of the first team in the Stuhldreher regime, JOHN GOLEMGESKE, stalwart tackle, was outstanding among the Wisconsin linemen. Playing his third straight year of varsity ball, Golemgeske was noted for his defensive work, turning in a hard, bruising performance in every game.

## "MOST VALUABLE"

"Most valuable player" on the Wisconsin team for two years, Fullback EDDIE JANKOWSKI was the most consistent ground-gainer on the squad. Hampered some by injuries, Jankowski saw action in every game. Besides his stellar offensive play, he was valuable in backing up the line on defense.

## MESSIAH

His team failed to win a conference game. He finished the season with the best university and public support of any football coach in recent Wisconsin history.

That is the paradox of Messiah Harry Stuhldreher, whose divine mission to lead Wisconsin out of the football wilderness has been proclaimed far and wide. And Stuhldreher is supposed to be the latest candidate for burial in a coaches' graveyard.

Coming to Wisconsin close on the heels of the messiest athletic scandal the Big Ten has had in recent years, Stuhldreher announced that he had bought a one-way ticket. But frequent remarks showed that he was aware that many expected him to leave at the end of a few years. At the end of his first year as football coach and athletic director, he seems well set for many more.

Stuhldreher gets along with people. They like him and he likes them. He's an alert coach and a pleasing man. His experience as a member of the Four Horsemen is valued. There are even those who expect him to get Wisconsin its first Big Ten title since 1912 within the next five years.

But whether he does or not, he'll get along. Wisconsin likes Harry Stuhldreher.

Leonard Lovshin

## Wisconsin, 24 . South Dakota State, 7

Scoring four touchdowns in a driving rain, the 1936 football team opened its year's campaign and the Stuhldreher regime with a victory over South Dakota State.
Two touchdowns gave Bronko Malesevich, substitute sophomere halfback, the lead in scoring. Len Lovshin, senior end, and Tom Kurth, another sophomore, scored the other two Badger tallies,

South Dakota's Jackrabbits were far from the team which played in Madison last year, but so-apparently-were the Badgers. The 14,000 faithful fans who sat through the game were looking for a revival, and they thought they had found one. Not until a week or two later did they realize that they had seen one of Wisconsin's two wins of the year.

The one touchdown the visitors made came on the opening kick-off, when Captain Ed Lienhart took the ball on his own fifteen-yard line and ran through the entire Wisconsin team to score. But, after a slow start, Wisconsin recovered from its opening lethargy and dominated the game until the final gun.

- Jensen and Lovshin arrive just too late to block Lienhart's punt in the South Dakota game.
- Fine blocking sends Jankowski off on a long run around Marquette's right end.

Marquette, 12
Wisconsin, 7
Effective line play, coupled with attempted scoring thrusts which fell just short, gave Wisconsin its first "moral victory of the Age of Stuhldreher.

Marquette had all its points before the Wisconsin team was in gear, and only a green but aggressive line kept those twelve points from being more. Wisconsin linemen piled up power plays, stopped deceptive formations, and rushed the formidable Marquette passers.

Of course, Wisconsin played its share of offensive football. A last-minute pass from Marquette's fifteen-yard line was the final Badger threat to Marquette's supremacy in the state, but it was intercepted on the two-yard line as Wisconsin players stood in the end zone awaiting it.

Marquette was the team that was Going Someplace this year, the team which was to make a bid for national honors and a Rose Bowl invitation. Wisconsin came very near to upsetting that hope, but lack of experience, the Badger bugbear, prevented a victory.

Fred Benz

Stanley Haukedahl

Wisconsin's defense crumbles before slashing Notre Dame blockers.

Purdue, 35
Wisconsin, 14

While Homecoming-conscious playboys in Madison made plain that the "spirit" was back on Langdon Street walls, Purdue's football team, hosts at LaFayette to a Homecoming crowd of its own, rode roughshod over an inexperienced Wisconsin team.

Eddie Jankowski, Wisconsin's "most valuable," led the Badgers on both offense and defense, but Purdue was just too strong. Isbell and Drake, respected Wisconsin enemies of old, outplayed their rivals.

Not until late in the second quarter did the Wisconsin team find itself. Ineffective offense and ragged defense characterized the Badger play almost until half-time. Jankowski cracked the line for 27 yards late in the second period and Roy Bellin, a sophomore, stepped past Boilermaker defenses for a touchdown on the next play.

Trailing 22-7 at the half, Wisconsin again saw Jankowski pave the way to a touchdown. His gains put Wisconsin into a scoring position and Howie Weiss passed to Fred Benz for the second score. The kick was successful.

## Notre Dame, 27 . . . . Wisconsin, 0

Lack of reserves to combat fifty-nine Notre Dame players, coupled with temporary but crippling injuries, caused Wisconsin's third successive defeat at South Bend.

Harry Stuhldreher, Wisconsin coach, was sending his team against his alma mater and Elmer Layden, team-mate on the famous Four Horsemen, but sentiment could do little to make defeat easier to take.

Eddie Jankowski, Wisconsin bulwark on both offense and defense, was injured and had to be removed from the game. Erv Windward had been hurt in practice and had to be left in Madison. This, together with the rain and Layden's four dozen substitutes, spelled defeat for the Badgers. The importance of the reserve element is shown by the fact that Notre Dame scored only once in the first half but three times in the second.

## Chicaso, 7 <br> Wisconsin, 6

Wisconsin's "one sure win" and Homecoming celebration went glimmering together, when Chicago, aided by perverse weather and equally perverse fate, took a one-point decision. The "Spirit Is Back" Homecoming had one black cat too many, it seemed.

- Piled-up Wisconsin linemen form an effectual barrier to a Chicago ball-carrier.

William Davies

Vincent Gavre

John Loehrke

Badger fans, unwilling to blame coach or team, gathered into little knots and discussed the breaks which scuttled Wisconsin's chances for a single Big Ten win. Break Number One was the weather-the usual Saturday afternoon rain. Break Number Two was a penalty which called back a Wisconsin touchdown. Break Number Three was another injury to Eddie Jankowski. Break Number Four was an alleged offside violation by Chicago which Wisconsin fans saw but the officials missed.

That Chicago played the better game must be conceded, but the visitors were definitely outgained. The Badgers made 248 yards to the Maroons' 172, with most of the advantage coming in rushing rather than passing.

## Northwestern, 26..Wisconsin, 18

Wisconsin's play was ragged. Its offense was neither consistent nor polished. Its defense showed
the absence of experience. Its reserves were practically non-existent.

But the winless wonders, a team which had been ground-bound and helpless, flashed a pass offense of the first water and picked up other gains to give the champion Northwestern eleven a very thorough fright.
The figures of the game are the best testimony to the ferocity of the Wisconsin attack. These figures, remember, are for the tenth-place Badgers and the champion Wildcats; Wisconsin made 297 yards to Northwestern's 276; Wisconsin completed 23 out of 32 attempted forward passes for a total gain of 182 yards.

But some events of the game stood out more to the average spectator than the figures. One was Clarence Tommerson's touchdown, the first of nine in three years of varsity competition that hadn't been called back. Another was the play of Eddie Jankowski, who was limping from an old injury but

Northwestern tacklers spill Tommerson, playing the greatest game of his career.

- Bellin looks for an opening as his blockers mow down the Cincinnati defense.

turned in an outstanding game. In the line, Guard George Lanphear, Tackles John Golemgeske and Paul Jensen, and Ends Vern Peak and Len Lovshin played good football. Roy Bellin showed well in the backfield.

Dyche stadium, where the game was played, provided the second dry field Wisconsin had during the year and the Badgers' second moral win. Beliin, Tommerson, and Peak made the Badger touchdowns.

## Wisconsin, 27 . . . . Cincinnati, 6

In the Big Ten, Wisconsin wasn't big enough, fast enough, experienced enough, provided with enough man-power. But all these shortcomings dis-appeared-as they should-when the Badgers met their fourth non-conference foe and won their second and last game.

Wisconsin was no world-beating team, even in making the four touchdowns against Cincinnati.

They started slowly and used little more energy than was needed to gain a decisive decision.

Reversing the story of the Northwestern game a week before, the visitors utilized a pass attack to the utmost. When the Wisconsin forward line failed to give, II completed passes picked up 134 yards for the visitors. Wisconsin completed only four passes out of ten, but these gave a total gain of 90 yards for an average of 22 yards per completed pass.

Outstanding to Wisconsin followers was the fact that Wisconsin made three out of four points after touchdowns, more than had been made all season before. Although the game was frankly a breather before the final game of the season-with Minne-sota-this one factor was accepted as an indication that the Badgers had Something. Just what this Something was no one seemed to know.
Roy Bellin, Ed Jankowski, Vern Peak, and Clarence Tommerson scored the four Wisconsin touchdowns.

John O'Brien

Neil Pohl

Howard Weiss

- Minnesota blockers stop Wisconsin linemen as a back gets off his punt.

## Minnesota, 24 . . . Wisconsin, 0

Eleven Wisconsin seniors, men who had played two or three years of footbal! at Camp Randall, closed their college sports careers and one of Wisconsin's most disastrous-as far as winning goesseasons in years when they played Minnesota on November 22.

Wisconsin, one group will tell you, had a glorious year, a year when The Old Badger Spirit came back. Another group will say that Stuhldreher started out as a flop and will have to prove himself in spite of, rather than with, the benefits of this year. And both sides will point to the Minnesota game as an example.

The first group points to the scoreless second
half and the fine line play of Golemgeske, Cole, Lanphear, Jensen, and Lovshin. It produces a 10-8 advantage in first downs. It shows that Minnesota had only 243 gained yards to Wisconsin's 203.

The second group shows that the team that failed to score in the second half was largely reserves and that it neither needed nor desired to score. It points to Wisconsin's failure to pen Minnesota into a tight corner or make a really serious threat.

This is a debate which can never be solved. Wisconsin, to be sure, failed to win a conference game. It never threatened Minnesota, which is unofficial national champion to many in spite of any ties or defeats it may incur.

All that can be said definitely is this: Minnesota 24, Wisconsin 0.

Robert Bann

Ervin Windward

Donald Griswold

- Flying flags, growing crowds, stirring music . . . . these were the stage properties for the big show of the fall of 1936. Starring a cast of players and coaches, Director Harry Stuhldreher's college drama was an artistic success in spite of scoring difficulties. Another three-month run is predicted

Coach Jones, Fenske, Cooke, Bachhuber, Hilgendorf, Matchette, Cooper, Servais, Larson, Carroll, Towle, Pratt, Bigford (Mgr.).

# CROSS COUNTRY 

FIVE meets, five victories. This was the record of the 1936 cross country team, defending a reputation established over the past 20 years as one of the toughest hill-and-dale squads in the Middle West. Year in and year out, Tom Jones' teams have been outstanding, and the 1936 team carried on the tradition.

Although there has been no conference meet since 1932-there are no gate receipts in cross country-Wisconsin has been recognized as a leader in the sport throughout the intervening years. And Badger teams have come to regard the absence of a Big Ten meet as the chief obstacle between them and a Big Ten championship.

Charles Fenske, holder of an honor rare in Wisconsin athletic annals, a junior captaincy, led the team. He placed first or tied for first with a team-mate in every one of the five meets. Fenske, a star miler on the indoor and outdoor track teams, was the nominee of many for the mythical honors of outstanding athlete of the year.

Three men crossed the finish line together in a tie for first as Wisconsin won the opening meet from the Milwaukee Y. M. C. A., 15-40. Captain Fenske, Lloyd Cooke, and Thomas Carroll were tied for first. Bradford Towle followed them to take fourth place, and Philip Servais completed the Badger roster to cross the finish line before a single " $Y$ " runner scored. The meet was held in Madison.

Purdue went down to defeat at La Fayette, Ind., as Captain Fenske again showed his heels to the entire field. Cooke ran second, Towle was fourth, Servais was sixth, and Gregory Bachhuber was eighth. The final score was $21-36$ in favor of Wisconsin.

The only team to defeat the Badgers in 1935, Illinois provided a surprise this year by proving the easiest foe of the season. The first five places went to Wisconsin men, and the Badgers won by the landslide score of 15-48 over the Illinois home course. Fenske and Cooke tied for first, with Bachhuber, Towle, and Carroll following in that order.
lowa's team was the strongest opposition of the season, barely losing a $26-30$ meet in Madison. Fenske and Cooke took first and second; Bachhuber placed fifth, Towle seventh, and Carroll eleventh.

Marquette placed second to Wisconsin at the state Amateur Athletic Union meet. Fenske and Cooke ran first and second again, while further back were Bachhuber in fifth, Towle in seventh, and Carroll in eighth.

Fenske was re-elected captain to serve for the 1937 season.

B A SKETBALL

THE 1936-37 basketball season was the second trying one in a row for Coach Harold (Bud) Foster, who, after inheriting a pennant winner from "Doc" Meanwell three years ago, has known nothing but headaches ever since. The Badgers finished eighth in the conference, with a record of 3 wins and 9 losses. Their record for the season as a whole wasn't much better, 8 wins being set off against an even dozen defeats.

The material just wasn't there. The biggest disappointment of the season was the inability of Hod Powell, brilliant forward, to shake off an early season slump. Almost with his demise went that of the team as a whole, for his absence left Coach Foster with but two experienced forwards, senior Gordy Fuller and junior George Rooney. The latter played superbly all year, and capped his achievements by leading the way to a brilliant 46-43 win over Purdue, one of the biggest upsets in recent years. For his efforts, Rooney was mentioned on several all-conference teams. He scored 105 points.

The rise of Byron Bell at center, plus the late season spurt of Stan Haukedahl, gave Coach Foster two good pivot men, but they came too late to make the season a success. Like Powell, Lee Mitchell at guard had a poorer season than his last, although he never slumped pronouncedly. Manny Frey and Bob Weigandt, the latter a sophomore, divided the other guard position.

Sophomores Ernie Davis, Frank Dupee, and Frank De Mark showed occasional flashes of form, but with only Fuller graduating, next year's team will be made up principally of veterans, bolstered, it is rumored, by the return of Bump Jones at center and Bill Garrott at forward. Both men were out of school this year.

WISCONSIN ............................................. 38
BALL STATE TEACHERS COLLEGE ..... 33
Two teammates on the 1930 All-American cage five brought their teams together for
the first time in the season's opener in the field house. Branch McCracken and Bud Foster were the two offensive aces of that mythical outfit. Coach McCracken brought a pair of twins with him, Max and Rex Rudicel, who very nearly embarrassed Wisconsin in the first game until Hod Powell, George Rooney, and Lee Mitchell led a closing second half rally which placed the Cards in a lead the Teachers were unable to overcome.

WISCONSIN
42

NORTH DAKOTA U................................. 25
The Powell-Rooney scoring wheel turned the Nodaks upside down in this one, but the game showed one thing in particular, that Coach Foster needed a center and a couple of dependable reserves. Byron Bell looked like a good prospect, but neither he nor Gordy Fuller, regularly a forward, shaped up as all-around capable pivot-men. Frank De Mark, brother of Nick, who graduated last year, Ernie Davis, and Billy Coyne, the former two forwards and the last-named a guard, shaped up as able substitutes but seemed to lack experience to be heavily counted upon during the strenuous conference season.

WISCONSIN .................................... 29
MARQUETTE .............................................. 21
A rough and fierce 40 minutes of basketball marked this battle, with 30 personal fouls being counted on the two teams. Wis-

First Row: Davis, De Mark, Coyne, Powell, Rooney, Mitchell, Frey. Second Row:
Foster, Coach; Dupee, Bell, Marsh, Fuller, Christianson, Johnson, Mgr. Third Row: Kent, Weigandt, Harris, Graf, Bellile.
consin's attack was alternately smooth and wild, with both outfits below par in their shooting. A substantial early second-half lead, with Rooney paving the way, staved off a late Hillhopper rally.

WISCONSIN ............................................... 35
MARQUETTE ............................................ 29
A week later, at Milwaukee, these two ancient enemies met in the return contest. For almost the only time this season, Hod Powell fulfilled expectations when he led all scorers with 16 points. Four of Powell's scores came in the last seconds of the game after Marquette had pulled up to within a point of the Badgers. Wisconsin led throughout except for a brief period in the second half when the Hilltops were ahead, 21-18. Rooney and Powell immediately pulled Wisconsin up and the Cards led throughout the remainder of the game.

PITTSBURGH
41

WISCONSIN 30

Launched forth on their holiday tour, Fos-
ter's team stopped off first in the Smoky City to take a real drubbing. The score was $33-11$ at the half, so it's easy to see that a second half rally, led again by the irrepressible Rooney, only made things look partly respectable at the closing gun.
BUTLER ..... 43
WISCONSIN ..... 23

Wisconsin was completely outplayed in this game, but some excuse may be found in the fact that By Bell, vastly-improving center, was taken sick. Hod Powell went out on personals shortly after the start of the second half. The only encouraging sign was the play of sub center Stan Haukedahl.
DE PAUL ..... 33
WISCONSIN ..... 17

Coach Jim Kelly's Blue Demons were brilliant, exhibiting as smooth a passing attack as has been seen in the field house in many moons. A temporary shooting slump in the second period alone kept them from running

Byron Bell

David Dupee

George Weigandt
up the count. Credit enough went to Wisconsin for rallying from a 13-0 score to a |5-I| trailer at the half.
PURDUE ..... 43
WISCONSIN ..... 30

Conceded only a slim chance to beat the Boilermakers, the Badgers made the first Big Ten tilt a real ball game for the first twenty minutes, trailing 18-14 at the intermission. Rooney netted four at the start of the second half and the count was knotted before Piggy Lambert's huskies got wise and ran up a $35-26$ lead. Mitchell and Frey were lost on fouls and Wisconsin soon faded. Purdue's Jewell Young launched his recordbreaking season with a total of 27 points.
ILLINOIS ..... 31
WISCONSIN ..... 28

This was one of the best games of the year in the field house. From start to finish, it was as wild as they come, with Wisconsin going berserk in the first period and crawling up from behind to lead the Illini at the half after scoring 9 points in a row in the last five minutes of the opening session. But a visiting "cripple," Harry Combes, whose bad shoulder kept him on the bench in the first half, insisted upon playing, scoring II points in the second half. Thus once more, the Cards fell before the superior shooting ability of one man from among the opposition.

OHIO STATE ............................................. 28
WISCONSIN................................................ 22
A Badger rally, which narrowed a 9 point lead down to a 3 point margin against Ohio State, was unavailing as the unhappy Fostermen dropped their third successive confer-
ence tilt at Columbus. The game was poorly played throughout, with both teams missing shots repeatedly. Little "Tippy" Dye, diminutive Buckeye guard, played a sensational floor game and held the Card forwards in check.
MICHIGAN ..... 43
WISCONSIN ..... 31

The Wolverine "giants" led by Townsend, all-conference forward, inflicted Wisconsin's fourth defeat. The Wolves, supposedly slow in spite of their height advantage, proved to be a flawless group of ball-handlers who made up for their lack of speed with clever under-basket manipulation and smooth offensive formations. Rooney again led for Wisconsin.

WISCONSIN................................................ 29
IOWA .......................................................... 23
Coming from behind (they trailed 20-11 at the half). Wisconsin rallied to win its first Big Ten game. The Badgers held the Hawks to three free throws in the second period, and scored 18 points in a sensational comeback effort. Rooney, Mitchell, and Fuller led the way in the last game of the first semester.

WISCONSIN 22

MICHIGAN STATE 17

This second-semester warm-up proved a nightmare, even though the Badgers pulled it out of the fire. Play was ragged throughout, with Wisconsin slumping miserably until a sudden snap sent them off on a five point surge in the closing minutes ta assure what should have been a wider victory. Fuller and Rooney led the reincarnation, if it could be called that.

George RooneyWISCONSIN35
OHIO STATE ..... 33

This was another great one, an overtime contest which had the fans in the aisles and on the rafters before it was over. Wisconsin was so-so in the first half but went on a rampage early in the second period and took a commanding lead of six points with five minutes left. "Tippy" Dye and Bob Hull then sparked the Buckeyes and with the score 30-28, Hull purposely missed a free throw and took the ball off the basket to connect for a field goal and the tying points with 30 seconds left to play. Wisconsin's winning points in the overtime went to By Bell, who stole down the floor and connected on a "sleeper."

MINNESOTA ........................................... 37
WISCONSIN .............................................. 32
All field house attendance records were shattered when 10,500 customers saw the surprising Gophers remain unperturbed at Wisconsin's 17-16 lead at the half and then step out with an almost easy victory. Roley,

Howard Powell

Kundla, and Addington piled up 16 points for Minnesota in the second period to give the Vikings a 10 point lead as the game neared its end. The same five men played the whole contest for the visitors.

IOWA ........................................................ 43
WISCONSIN 37

The Hawks got revenge for an early season drubbing in this one, and on their own floor held off several belated Badger drives to remain in the lead throughout. Rooney, with 10 points, paved the way, with Manny Frey, having snapped out of a long slump, playing well at guard for the Badgers.
ILLINOIS ..... 48
WISCONSIN ..... 31

Wisconsin never got into this one. Losing 9-0, the count was 26-9 against them at the half, and the only encouraging note was the playing of sub forward Ernie Davis, who scored 3 rapid baskets late in the game after replacing Fuller. Rooney played hard
and fast and score 8 points, but to no avail. Towering Bob Riegel led Illinois.

MINNESOTA ............................................. 30
WISCONSIN................................................ 17
The Gophers smelled their title just around the corner in a return contest at Minneapolis and lost little time proving to the Badgers that they were in no mood to be trifled with. Three field goals each half was Wisconsin's allotment, while Marty Rolek and Johnny Kundla led the Vikings into an easy win. No Badger scored more than a single field goal.
WISCONSIN ..... 46
PURDUE ..... 43

This was a real classic, the one game all the boys knew Wisconsin had in 'em if they got off on the right foot. From start to finish, it ranked as one of the finest contests ever to be played here. It was also the first time a Wisconsin five beat Purdue since 1929.

Only once were the Cards behind. Even when the score was close, as it was on several occasions, Wisconsin looked the better team and took little time in proving it to the bewildered Boilermakers, still hoping for a share in the Big Ten title. Jewell Young, who scored 27 points in his first game against the Badgers this season, was held to 9 by Manny Frey, but he broke the conference scoring mark in this game regardless.
MICHIGAN ..... 41
WISCONSIN ..... 27

After their Purdue showing, this was just another ball game, and the last one at that. The Badgers once more were never in the running and fell miserably before the superior shooting strength of the Wolves, led again by Townsend at forward. Rooney counted 10 for Wisconsin, and Frey 8.

Stanley Haukedahl

William Coyne

Ernest Davis

## B OXING

ALTHOUGH Wisconsin boxers lost two matches-for the first time since the thudding game was placed on an intercollegiate basis-the 1937 team was generally recognized as one of the strongest university boxing teams in the country.
Victories at home over North Dakota, Duke, Louisiana State, Villanova, and West Virginia kept unsullied the Badgers' record of never having lost a match in the field house ring, a record which is outstanding in view of the fact that Coach Johnny Walsh's teams annually box the strongest teams in the United States, from coast to coast.

Opening the season against a formidable North Dakota team, the Badgers surprised everyone by their decisive $61 / 2-1 \frac{1}{2}$ victory. Jim Walsh, who had stepped into the vacant 125 pound job, was outstanding in holding Cully Eckstrom of North Dakota, who subsequently won the national collegiate individual championship, to a draw. The only Sioux victory was won by Joe Miltenberger-a 3 -round decision over Sid Hurwitz. Miltenberger came to the field house immediately after winning

Individual records of the varsity boxers were as follows:

Art Walsh

Jim Walsh

George Stupar
the Northwest amateur 145 pound title at Minneapolis. Gordon Harman and Vito Schiro scored technical knockouts and Verne Woodward won a notable victory over Martin Gainor, Sioux heavyweight.

A week later, Wisconsin-still not quite ready for such stiff competition-journeyed east to face Penn State, undefeated Eastern champions. It was the Lions' fifth match, they were at home and in top form. Under the conditions, the scorePenn State, $5 \frac{1}{2}$, Wisconsin, 2 $1 / 2$ —wàs entirely creditable. Art Walsh, 115, and Vito Schiro, 165, scored Wisconsin's wins, while Captain Stupar drew with Frankie Goodman, Eastern intercollegiate and National collegiate 135 pound champion.

Duke's outstanding boxers were next on the list and the match drew over 10,000 spectators to the field house, the largest crowd ever to attend an intercollegiate boxing match in America. Better team balance and their slashing attack gave the Badgers a 5-3 win in which Jim Walsh, Gordon Harman, and Verne Woodward earned decisions, Art Walsh won by forfeit and Captain Stupar and Schiro gained draws. Wisconsin had to forfeit the 145 pound bout when Sid Hurwitz quit the team, and Truman Torgerson lost a decision to Ray Matulewicz, National champion.
In succeeding matches, the Badgers defeated Louisiana State, 51/2-21/2, Villanova, $6-2$, and West Virginia, $51 / 2-21 / 2$. The final match of the year was with Washington State College, at Pullman. Wash. Contending against the odds of a three-day trip and the altitude of nearly 3,000 feet, Wisconsin lost, 5-3, in what might well have been a 4-4 tie. Every bout was close, the match was called the greatest ever fought in the West, and the home crowd booed for two minutes the judges' decision which gave Ed McKinnon, W. S. C.'s National collegiate champion, the verdict over Gordon Harman. A Washington State athletic official wrote, after the match, "We were sorry that the decision was given McKinnon in his bout with Harman. We felt that McKinnon got licked all right and that Harman should have had the decision, without question."

Art Walsh lost his first bout in two years and Stupar his first in 1937. Schiro, Jim Walsh, and Torgerson won; Dille, 145, and Woodward dropped close decisions. Woodward, Harman, and Stupar finished their competition in this match.

As noted, Captain Stupar, Harman, and Woodward have now ended their competition. The Walsh twins, Schiro, Torgerson, Dushek, Ponty, and probably Dille will be back next year. Others who will return include John Nelson, 115, Gerald Harris, 155, and Bill Marquardt, 165, reserves. Leading freshman boxers are Ken Schmidt, 125, Omar Crocker, 135, Ray Chisholm, 145, Henry Strand, 155, Bob Ganske, 165, Jim Heizler and Landon Lapham 175, and a number of promising heavyweights.

Truman Torgerson

Vernon Woodward

Eugene Dille

Gordon Harman

Vita Schiro

CONTINUING its unbroken string of victories in dual meets which began way back in 1933, immediately after the Badgers lost a meet to Marquette, the Wisconsin indoor track team bowled over all opposition of the year and listed itself as one of the best balanced squads ever turned out by the Big Ten's dean of track coaches, Tom Jones. The Badger trackmen also made a fine showing in the annual conference meet when they finished in a close third position behind Michigan and Indiana. They also copped the university division of the Armour Relays in Chicago and won the Wisconsin State A. A. U. meet with a total of 67 points.

The 1937 squad was led in number of points by Charles Fenske, one of the most successful distance men ever developed by Coach Jones, who has a fine habit of turning out at least one fine long distance runner a year. "Chuck" scored a total of 39 points in the dual meets and the other meets in which the Badgers competed. He repeated his victory of last year in the conference mile and journeyed East where he competed against Glenn Cunningham, Archie San Romani, and others of the country's outstanding distance men. Although he failed to win a race in the fast company, he performed very well and received the praise of the entire track world.

Second with 35 points placed Walter Mehl, sophomore runner from Wauwatosa, who competed in any event from the quarter mile to the mile. He is developing very fast and can be expected to do great things before he receives his diploma in '39. Another distance man, Lloyd Cooke, and Co-Captain Jack Kellner tied for third place in point totals with each garnering 31. Kellner is a hurdler and had to be satisfied with one event in each indoor meet except in the Armour Relays, where he won both the high and low hurdle races.

Ed Christianson picked 26 points to be fourth high man. He won first position in every dual meet with the exception of Minnesota and third in the conference competition. Co-Captain Al Haller, the other athlete on the Wisconsin squad with real national prominence, scored 25 points in his event, the pole vault. He successfully defended his conference championship and in the meets that he lost, his teammate, Milt Padway, another promising sophomore, came to his rescue.

The Badgers opened their season with the annual triangular meet with lowa and Northwestern at lowa City. Their 53 points were more
than enough to get them first place. Fenske forecasted his ability by scoring firsts in both the mile and the two mile. His times were not sensational, but they were low enough to break the lowa fieldhouse records. Al Haller came through with his usual first in the pole vault and Ed Christianson won the shot put. These were the only firsts picked up by the Wisconsin squad, but they came through with plenty of seconds and thirds to win.

A week later the Cardinal men faced their intrastate rivals, Marquette's Hilltoppers, and sent them back to Milwaukee smarting from a 56 to 32 defeat. Four field house records went by the wayside in the afternoon's competition; three of them were set by Badger men and the fourth by Marquette's Burke. Milt Padway surprised everyone by passing up Haller to go to 13 feet 5 inches in the pole vault. Fenske set his own pace and took two seconds off from his old field house record. Ed Christianson threw the shot 47 feet 7 inches to grab a record formerly held by Irv Rubow, former Badger weight thrower. The Badgers scored a slam in the two mile run when Fenske, Cooke, and Tommy Carroll all hit the tape at the same time. Kellner took the hurdle event with ease, and there were the usual high number of Badgers in second and third positions.

Wisconsin next entertained Minnesota and kept their record clean by defeating the Gophers $531 / 2$ to $321 / 2$. The Badgers scored slams in the pole vault with Haller, Padway, and Sharff finishing one, two, three. Haller and Padway broke the old meet record going to the height of 13 feet 3 inches. The Wisconsin entrants also took all the places in the mile run with Fenske again setting a new field house record and a new meet record. Towle and Larsen were the other members of the victorious trio. Lloyd Cooke lapped all but one man to set a new record in the two mile run and establish himself as another Wisconsin great distance runner. His time was four seconds under that of John Fallows, another Wisconsin runner, who made the headlines as a long distance star in the East after leaving Madison. Carroll and Pratt took the two remaining places. Kellner again won the hurdles and set a new meet record in doing so.

Wisconsin's showing in the annual Big Ten meet was remarkable due to the fact that few of the men who were able to pick up seconds and thirds in the dual meets were able to place in the conference meet. The Badgers came through, however, with

Vaulter Al Haller

27 points, which was one behind Indiana's total and eight less than those scored by Michigan. Haller and Fenske were the only Badgers strong enough to win conference blue ribbons. "Chuck" ran one of the greatest races of his career to defeat Indiana's great Don Lash by a scant step. Although he had won the event the year before, Fenske was hardly favored to repeat as at the time of the previous race Lash had a cold and he was considered far superior to the Badger star on the eve of the race. Haller repeated his victory in the pole vault and Padway and Scharff also placed in this event. Christianson picked up a third in the shot put and Jack Kellner took the same position in the hurdle event. Wiechmann picked up a point in the high jump and Cooke and Mehl placed third and fourth in their respective events.

Journeying to Chicago a week later the Badgers were the victors in the Armour Relays by virtue of their 46 points as compared with the 23 of Illinois, their closest competitor. Kellner was the star in this meet taking two first places in the hurdle events. Wally Mehl collected a gold medal for his victory in the half mile. Lloyd Cooke passed up Fenske in the stretch and won his victory in the mile run. Ed Christianson placed first in the shot. Al Haller lost his first place to other than a Wisconsin man for the first time in two years when Siebert, North Central vaulter, topped the Badger co-captain by two inches. Other Badger point winners were Fenske, Ed Hendricksmeyer, Bob Brandt, Weichmann, and Padway; and the Badger relay
teams took second in the two mile event and fourth in the sprint medley.

Closing their indoor season with the State A. A. U. meet, the Badgers humbled all other opposition by running up a total of 67 points which was three times better than the number won by the second place winners. Charles Fenske easily took the 1,500 meter event in record time with Towle and Larsen trailing him. Howard Rich came in for his first victory of the year by defeating the field in the 100 meter race. Jack Kellner won the 60 meter high hurdles, breaking his own record. Brandt placed third in the same event. Haller, Padway, and Scharff collected the first three places for the Badgers in the pole vault. Ed Christianson won the shot. In addition to the marks set by varsity men many of the Wisconsin freshmen competed unattached and performed in a fashion that forecasts good teams for the Badgers in years to come. The first year men have also won most of their telegraphic meets and the squad has several stars worthy of watching in the near future.

This year's indoor track team has been a typical Jones team. It has not been particularly spectacular, but has been steady and reliable. Its strength lies in the number of seconds and thirds that it wins, not the number of firsts. Many of its members never competed on the cinderpaths in prep school, but rather most of them have been developed by Coach Tom Jones, and much of the credit for the continued success of the Wisconsin track teams should go to him.

Vincent Grudzina

## SWIMMING

MXING Big Ten and non-conference swimming and entering the National Intercollegiates for the first time, the 1936-37 swimming team showed itself as good competition for whatever teams it met.

Coached by the veteran Joe Steinauer and captained by Vincent Grudzina and Gene Dille, the team swam seven dual meets and booked two others which were cancelled. Jack Thompson, swimming the 50 and 100 yard free style and holding down a post on the sprint team, was high point man for the team, clinching firsts in almost every meet. Howard Frank, backstroke specialist, was second, making his points in regular backstroke events and in the backstroke relays. Charles Beardsley picked up enough points in the longer crawl events to place third.

Wisconsin's tankmen swamped their first opponents, Carleton College, by a score of $331 / 2$ to $151 / 2$. Swimming in the home tank and having the advantage of a larger squad, Wisconsin was expected to come through in the event.

Chicago's pool and balance defeated the Badgers in the second meet. The first time away from home proved too much for the Wisconsin team, which took a 48-28 drubbing.

Meets with Indiana and Purdue, scheduled for Madison, failed to materialize.

Minnesota, always a potent force in national swimming circles, showed advanced development for so early in the season when the Cardinal team played hosts at the armory in Madison. The Gophers captured the meet by a score of $551 / 2$ to $281 / 2$.

Michigan State College, at Lansing, was Wisconsin's second victim. In the closest meet of the season, the Badgers nosed out the State team by three points. The final score was 42 to 39.

The only non-collegiate opponents of the season were the swimmers from the Milwaukee Athletic Club, which Wisconsin teams have also faced in other sports, including rowing. The Athletic Club team, including a number of former college varsity men, put up stubborn resistance before it was defeated, 45 to 35 .

In the last dual meet of the year, Northwestern's fine squad invaded Madison and walked off with an easy victory. Wisconsin's team lacked the necessary power, and fell by the wayside at the short end of a $531 / 2$ to $301 / 2$ count.

Only five men were taken to the Big Ten meet at Bloomington, Ind., and eighth place was as high as Wisconsin could rank. Competing against such schools as Yale, University of Southern California, and other stars of the swimming world, Wisconsin men failed to qualify for the National Intercollegiate meet at Minneapolis.

## FENCING

WINNING a majority of its matches and placing men well up in the conference, the 1937 fencing team continued the revival that the dueling sport has been experiencing for the past two or three years.

Renewed interest in swordsmanship has been noticed all over the country, with many athletic clubs instituting classes. This, however, has not lessened the chief task of the Wisconsin fencing team-instruction of novices-by very much, since many of the team aspirants come without previous experience. Coach A. L. Masley's chief source of material is his fencing classes given for freshman gym credit.

The only match which Illinois lost all year was the one in which they met the Wisconsin team, composed entirely of sophomores and juniors, at Madison. With five victories under their belts and an undefeated season in view, the Illini were unprepared for the cautious, waiting game the Wisconsin swordsmen offered and were defeated 10 to 7 .

Overconfidence was the chief cause of the defeat of Wisconsin by Chicago in the second match. Leaving themselves open and abandoning their careful tactics, the Badgers lost by the widest margin of the year, 13 to 4.

Purdue fell before the Wisconsin blades by a 10 to 7 count, and Northwestern was nosed out when the Badgers produced nine wins to eight for the Evanston team.

In the final meet of the year, Notre Dame, long recognized as one of the best fencing schools of the Middle West, won over the Cardinals by a $101 / 2$ to $61 / 2$ score.

In the Big Ten meet, Fred Kaftan won the sabre title for the second consecutive year; his older brother, Art Kaftan, is a former titleholder in the same class. John Sylvester, Wisconsin foils man, placed third in his class, while Warren Alberts placed fourth in the duelling sword event.

Major letter winners were Kaftan and Edward Batterman.

Edward Batterman

Fred Kaftan

First Row: Piatkiewicz, Quincannon, Engle, Beecher, Lederman, Feinberg. Second Row: Andreae, Baker, Wyss, Austin, Anderson, Martin.

## WRESTLING

[IGHTING in the longest schedule that a Wisconsin wrestling squad has attacked in a number of years, the 1936-37 grapplers piled up a record of five victories against six losses. While this record is not very impressive, the boys under the tutelage of Coach George Martin, former national intercollegiate and national A. A. U. titleholder, have done much during the past season to bring wrestling back into the limelight as an intercollegiate sport on the Wisconsin campus. For some years the sport was conducted on an intramural basis with little or no interschool competition, but last year Coach Martin was hired, and in the past two seasons he has brought wrestling up to its rightful place in the Badger sports program.

The outstanding members of the squad were Francis Quincannon and Lawrence Lederman. The former won seven out of his eleven matches, but he also tied two of them. Lederman piled up eight wins against three losses. Anderson started in the middle of the season and won all five of his matches. The George Martin cup for the highest scoring man, based on five points for a fall and three points for a decision,
was finally won by Quincannon. Piatkiewicz also had a fine record, winning half of his matches. Major letters went to Quincannon, Lederman, Piatkiewicz, and Anderson. Captain Stan Austin was awarded a minor letter, but he wrestled half of the season with a broken rib.

The Badgers opened their season against DeKalb and gave them a sound 34-0 trouncing. Northwestern was the first conference opponent and the Purplemen gave the Cardinal a 21-11 drubbing. Wisconsin won its first Big Ten meet against Chicago by the score of 18 to 12. The Badgers defeated Wheaton College twice by the same score, 17-15. On a disastrous road trip into the heart of the collegiate wrestling territory of the country, Wisconsin dropped three matches in a row. One was lost to lowa State, 29-5, another to lowa by the score of $191 / 2$ to $71 / 2$, and the final to the lowa Teachers College 24-10. On the next road trip the Badgers turned toward Minnesota where they were victorious over Carleton, but lost to the University of Minnesota to the tune of $23-61 / 2$. The season's finale was a loss to Northwestern 23-9.

First Row: Coach Poser, Rondone, Pearson, O'Brien, Neubauer, Gerlach, Captain Heyer, Reinhart. Second Row: Spitzer (Mgr.), Baer, Church, Radke, Klink, Schroeder, Wegner, Rudolph (Mgr.). Third Row: Smith (Asst. Mgr.), W. Zuehls, G. Zuehls, DeMark, Krause, Palmiter, Ferris, Capicek, Berry (Asst. Mgr.).

## BASEBALL 1936

ARAGING spirit that never knew defeat sparked the 1936 University of Wisconsin baseball team to a successful season, despite a discouraging start. Coach Bob Poser's last Badger nine showed its fight by coming back to win the second game of four different series after dropping the first game to an apparently superior team.

Finishing seventh in the Big Ten race, Wisconsin played 27 games during the season, II conference tilts and 16 non-conference engagements. Of these, 15 were put on the record as Badger victories. In Big Ten competition the Cardinal nine won five of their eleven tilts despite the loss by graduation of John Tomek, who had pitched the 1934 team to every one of its victories.

In the last game of the season, the Michigan Wolverines trounced lowa, 8 to $b$, to walk off with the Western Conference baseball title, being the only team with one defeat. Illinois finished second ahead of lowa, Indiana, and Minnesota.

The first ten encounters of the season were on foreign diamonds, and in the early ones the Badgers showed the effects of the inclement training weather. The season's opener was lost to Illinois Normal, but Bradley was taken into camp the next day in a ragged tilt.

A week later the team again dropped in on Bradley and emerged this time with a double victory. An extensive trip during the spring recess brought only two victories in six games. The tour
was opened with a victory at Lake Forest, but Western State took both ends of a double bill. The squad managed to split even at Michigan State, but in the first conference tilt of the year at Ann Arbor succumbed to the Wolverines, eventual champions, 3 to 2.

Wisconsin celebrated its return to Camp Randall by taking two decisive victories from Illinois Normal and Platteville. The next weekend's journey to Minneapolis proved disastrous though, for the Cardinal nine dropped two straight to the then undefeated Gopher club in some frigid weather, $12-0$ and 6-5.

Back home, they defeated the strong Notre Dame team with a late rally, 4 to 2, as Neubauer pitched superbly. At Champaign, the Badgers handed the Illini their first defeat, 1 to 0 . Northwestern bowed to the Badgers in the first home conference game of the year, and then lowa came down to Madison with an undefeated record only to drop the second game of a two-game series to the rapidly improving home team.

Western State had a similar experience, trouncing Wisconsin soundly in the first game only to drop the next one on Pearson's fine twirling. Lake Forest, next in line, proved tougher competition than they had been in the earlier season game, but succumbed in the 10th inning, when Gerlach pounded out his fourth straight hit of the afternoon, a triple scoring Heyer with the winning run.

A rain storm cheated Wisconsin out of a chance for revenge against Michigan in a game scheduled for Parents' Weekend. On the last road trip of the year, Coach Poser's charges lost to Notre Dame, but defeated Northwestern for the second straight time on some fine relief pitching by O'Brien.

The last series of the year against Minnesota saw the Badgers again lose the opener, 3 to 0 , on some beautiful pitching by Grossman, and then come back to take the final, 7 to 5 .

Captain-elect "Henna" Gerlach was the outstanding hitter on the team, batting . 415 for the entire season. The scrappy little shortstop pounded out 49 hits in 118 times at bat. The spark-plug of the team, the brilliant sophomore was the outstanding man at his position in the conference.

Captain Chuck Heyer was the only other regular to top the .300 mark, getting 37 hits in 122 trips to the plate. Atter hitting well over .300 for most of the season, Joe Capicek, center fielder, and Don Pearson, pitcher who doubled in right field slumped during the last week of play and wound up with averages of .287 and .275 , respectively.

Topping the mound staff was Bob Neubauer, Milwaukee junior, who appeared in only six contests during the season, but received credit for five wins and one defeat. Neubauer allowed only 25 hits in 36 innings of twirling.

The Zuehls twins won three games while losing none for the Badgers, Wally taking two and George one, but none of these were against Big Ten nines. Pearson and O'Brien, the veterans of the staff, twirled 42 and 54 innings, respectively. Each finished the season with a record of three victories and four defeats.

The outstanding weakness of the team was its poor stick work. Prospects for the coming season were bright, despite the graduation of Heyer, Capicek, Reinhart, Pearson, De Mark, Wegner, and Klink.

## TRACK 1936

UNDEFEATED in a single dual or triangular meet, the 1936 outdoor squad showed itself as one of the outstanding competitors in the Big Ten this year. Work in the larger meets, where individual prowess is more important, attracted attention from national authorities on track and field events.

Balance was the chief feature of the team, which had potential point-scorers in almost every event in every meet. Tom Jones, for 25 years head man of the Badger track tribe, emphasized the importance of second and third places in the winning of meets.

Olympic years always bring a revival of cinder-path activities in the United States as amateur athletes point for places on the American team, and 1936 was no exception.

Every college team in the country had its candidates for Olympic honors, making every meet an informal testing-ground for aspiring athletes.

With all squad members consciously or unconsciously working toward a trip to Berlin, the Badgers swept through meets with Marquette, lowa, Northwestern, Ohio State, and Minnesota. In the larger meets, the Cardinals claimed fourth in the Big Ten championships, sixth in the National Collegiates, and second in the Central Intercollegiates.

Wisconsin's two outstanding individual performers gained the national trials in the Randall's Island stadium, New York City. Carrying Wisconsin's bid for a place in the

Olympics were Albert Haller, pole vaulter, and Charles Fenske, miler.

Thrilling moments were plentiful for followers of the Wisconsin team, with Haller and Fenske providing more than their share of the high spots. In the Big Ten mile run, loyal Badger hearts pounded as Chuck Fenske thundered down the stretch a scant half-stride behind Don Lash when the Indiana star sped to a new conference record of 4:I 0.8 . Haller hit his peak vaulting against Ohio State, when he soared 14 feet 4 inches for a new Camp Randall record which took rank with the greatest vaults of all times.

Marquette, a jealous rival in every sport, opened the season with a meet at Milwaukee in the middle of April. A topheavy score of 85-4 1 proved conclusively the Wisconsin superiority. Irv Rubow and Fenske took two first places apiece, while other events were won by Carleton Crowell, Haller, Clem Janicki, Jack Kellner, Herb Stuewe, and Melvin Schmidt.

The Drake relays, annually sponsored by Drake University, saw Wisconsin amass 37 points. Points were scored in the low hurdles, the pole vault, and two relay events.

The Cardinal tracksters monopolized exactly half of the points in a triangular meet with lowa and Northwestern held the first week in May in Camp Randall. The home team took $811 / 2$ points, lowa had 53, and Northwestern picked up $281 / 2$. First places again went to Fenske, who had two victories; Janicki, who also doubled; and Haller, Kellner, Rubow, and John Wiechmann.

Ohio State, led by Jesse Owens, Negro sprint star, came to Camp Randall for the most important dual meet of the year. Neither team had been defeated in dual competition, and the clash was the biggest crowd attraction of any track meet ever held in Camp Randall.

Owens won four events-two dashes, the 220 low hurdles, and the broad jump - to score 20 points, but the balance of the Jones team was too much, and the Badgers won, $662 / 3-591 / 3$. Aided by a strong wind, Owens broke the world's record in the 100-yard dash in 9.3 seconds and cracked the existing mark by running the 220 in 21.3. Although the marks were voided because of the wind, they counted as first places along with a 23.6 second 220 yard hurdles mark and 25 feet $77 / 8$ inches worth of broad

jump. Haller's 14 foot 4 inch pole vault rivalled all other performances in attraction to the crowd of 6,000 . First place winners were Fenske and Rubow, with two each, Haller, Bert Schlanger, and Steuwe.

Three teams finished ahead of the Badgers in the Big Ten meet at Columbus, O., on May 23. The $321 / 2$ points compiled by Wisconsin ranked them just below Indiana, Ohio State, and Michigan. Only one first place, that of Haller in the pole vault with a mark of 13 feet 8 inches, was chalked up by the Wisconsin team. Sampson Scharff, Charles Murdagh, and Ward Parker also placed in the vault, taking 11 out of 15 points in the event.

Injuries lessened the Cardinals' chances, eliminating Jack Kellner who had won the hurdles in 1935. Point winners who came through were Fenske, second in the mile; Ed Christianson, fourth in the shot put; Crowell, fifth in the quarter mile; Janicki, second in the 220 and fifth in the 100; Rubow, third in the shot put; and Clarence Tommerson, who took second in the javelin throw.

On May 29, Minnesota came to Madison to drop a meet to the Badgers by an overwhelming score, $901 / 2$ to $351 / 2$. Winners of first places were Crowell, Fenske, Haller,

Janicki (2), Capt. Karl Kleinschmidt, Rubow, Schlanger, Schmidt, Stuewe, and Wiechmann.

Then followed the Central Intercollegiates at Milwaukee June 6, where Wisconsin's $391 / 2$ points ranked second only to Indiana's 45. The only first place man was Crowell, with the other Badger stars being Fenske, Janicki, Kellner, and Rubow.

The state A. A. U. championship was captured by the Cards at Milwaukee June 13. First place winners included Kellner, Rubow, Ernest Bastian, Schmidt, Haller, and Exum.

The National Collegiate meet at Chicago June 20 found Wisconsin in sixth position with its 16 points. Fenske placed second in the 1,500 meters, Haller in a tie for third in the pole vault, Rubow in fourth in the shot, and Kellner in sixth in the high hurdles.

The windup of the season came at the Olympic trials at Randall's Island, New York, July 12, where Haller was eliminated in the qualifying trials, and Fenske ran fifth in the metric mile. Defeat was hard to take so close to their long-sought goal; but the two Wisconsinites grit their teeth and determined to make the 1936-37 season an even more glorious one for Tom Jones.

Kellner and Haller were elected co-captains for the 1936-37 season.

First Row: Kaeser (coach), Borcherdt. Second Row: Richardson, Stafford.

## TENNIS 1936

FOUR wins in six dual meets was the record of the 1936 varsity tennis team. Coached by Bill Kaeser, Madison architect and former varsity tennis star at the University of Illinois, the Wisconsin team engaged five other conference teams beside playing in the Big Ten meet in Chicago.

Opening the season with a trip to lowa City and Chicago, the Wisconsin netmen lost both engagements. lowa held the Badgers without a point, winning 6 to 0 . Chicago's victory was less complete, going to the Maroons by the score of 4 to 2 .

Minnesota's team, playing on their own courts on the Minneapolis campus, lost four out of the six matches, and Wisconsin won by that score.

Illinois, alma mater of the Wisconsin coach, proved too weak in all events to provide the Badgers with much trouble. Only one match was lost by Wisconsin, which came through to a 5 to I victory.

Administering Minnesota its second defeat, this time in Madison, Wisconsin definitely proved its superiority. The Gophers
came out on the short end of a score of 4 to 2.

Northwestern, playing hosts to Wisconsin the same week-end as that of the Illinois matches, gave the Cardinals their second whitewashing. Not a single Wisconsin man won his match, and both doubles teams were beaten. The totals were Northwestern 6 , Wisconsin 0 .

The only non-conference opponents which Kaeser's team faced were the representatives of Carleton College, of Minnesota. Five Badger victories to one defeat spelled a Wisconsin triumph.

In the conference meet held in Chicago May 21, 22, and 23, Wisconsin's team gained third place although no single member won a title.

Members of the team were Willard Stafford, Stephen Richardson, Robert Borcherdt, and Milo Kovac. Borcherdt and Stafford formed the first doubles team, with Richardson and Kovac playing as the second pair. Stafford, Richardson, and Kovac are all available for play during the 1937 season.

Front Row: D. Heun, H. Heun, Gaudette, Wiggins (Coxswain).
Second Row: Pacausky, Collins, Burroughs, Woodward, Benedict.

## CRE W

1936

RIDING the crest of the waves once again, the Wisconsin crew will attempt to continue its fine competitive record on the Hudson this June as it competes in the annual Poughkeepsie regatta after an absence of five years.

Wisconsin crews last participated in the famed Poughkeepsie race in 1931 and since that time have been forced to decline subsequent invitations as athletic revenues dropped to new low levels.

Since 1892, the year of the sport's inception here, the University of Wisconsin had been the only university in the Middle West boasting a crew, and while the Badgers have yet to capture a Poughkeepsie, their competitive record in those regattas is an admirable one, winning "place" and "show" honors repeatedly.

Under the direction of Coach Ralph Hunn,
who now at 25 ranks as the youngest crew mentor in the nation, the sport has been developed beyond pre-depression levels. Last year more than 30 crews participated in intramural racing, while better than 150 men received gym training. The interfraternity rowing crown was captured by Kappa Sigma.
A review of the 1936 racing season shows that the Badger oarsmen swept through the waters undefeated. In a regatta on Lake Mendota in May, the varsity stroked by Captain Howard Heun faced the powerful and experienced Detroit Boat Club and in a one and one-eighth mile race turned in a convincing three and one-half length victory. The trim new Olympic shell was used for the first time in this race.

In the slides behind Heun were Tom Woodward, Bob Heinze, Charles Burroughs, Ed Collins, Ray Gaudette, Fritz Benedict,
and Ray Pacausky. Don Wiggins was the coxswain.

Over a rain-swept course the Badger crew jumped to a commanding lead at the start of the race and widened their convincing margin in the last quarter mile. The time was 4:53.9, an excellent showing.

The "jayvees" took the measure of another Detroit Boat Club eight over the same course by a length and a half margin. The Badger lineup was composed of Hoffman, stroke, Tinkham, Burghardt, Bridge, Heun, Ibisch, Wolfe, Brooks, and Karberg, coxie.

The Badgers were off to a half-length lead at the start and held the same margin until the half-way mark, slowly shooting out at that point and opening water at the toboggan slide to finish up strongly.

Coming from behind to eke out a one length decision over a plucky St. John's crew, the yearlings furnished the closest race of the day. The Badger freshmen won in faster time than the jayvees, 5.02:6, and
gave promise of Wisconsin crew success for the future.

This crew was stroked by MacArthur, and Barber, Schultz, Ryan, Strutz, Fraser, Cochrane, and Hendy were pulling the sweeps behind him. George Virgil was the coxie.

Although not representing Wisconsin as an official crew, the Badger 150 -pounders rowed the Milwaukee boat club and dropped a length and a half decision. Paul Waterman was stroke, and the rest of the boat was made up of Ebert, Kaiser, Hannahs, Pfannstiehl, Rousseau, Haynie, Kirkland, and Le Grand, coxie.

Bringing their 1936 crew season to a climatic close, the Wisconsin varsity oarsmen won the coveted Col. Charles G. Dawes trophy by defeating Marietta in a sensational last minute spurt in the Mid-American Rowing regatta at Marietta, Ohio.

The junior varsity trounced another Marietta boat in another race of the regatta.

Front Row: Olbrich, Gulkin, Burghardt, Wolfe, Karberg (Coxswain).
Second Row: Ibisch, Bridge, Tinkham, Hoffman, Brooks.

Left to Right: Steinauer (Coach), Truax, Holt, Reierson, Davis, Connor.

## $G O L F 1936$

SPLITTING even in dual meets and placing exactly halfway down the list in the conference tournament, Joe Steinauer's golf team got a fifty-fifty break in the 1936 season.

The members of the team shot fairly consistent golf in their opening matches, but encountered difficulties in the tournament which left them in fifth place. Every match which the Badgers won was played over the sporty Nakoma course in Madison, but one of the home moci's was lost to a strong Notre Dame team.

Starting off their season's schedule in Evanston against Northwestern's powerful squad, the Badger golfers dropped a 10 to 17 decision. In this meet, as in almost every other one, Wisconsin led in the morning doubles events but lost out in man-to-man competition.
lowa's team, making a valiant attempt at regaining ground lost in the doubles matches, fell short when it played the Wisconsin shotmakers at Nakoma. The final score was 15 to 12 .

Coming even closer to triumph before they were finally turned back in the last
match of the day, Minnesota's golfers lost out by a single point when they played the Badgers in Madison. The Wisconsin triumph came as the result of a 14-13 score.

Notre Dame's team found the Nakoma course more to its liking, solving the traps and bunkers to give Steinauer's proteges the only setback they received at home and socking in a 12 to 9 win .

Playing a strange course at Urbana, Ill., the Wisconsin sextette found the Illinois team too strong and lost, 18 to 9.

In the last meet of the year, played with a four-man team, Wisconsin defeated Carleton College, I 5 to 3.

The Big Ten meet, bringing together forty of the strongest college golfers in the country, saw Wisconsin ranked as fifth in the field of ten. Three rounds over 80, far above the team average, placed Wisconsin in the position it ultimately occupied, although this was but one shot more than the Minnesota team average.

Bowden Davis led the Badgers with thirteenth place; Captain Tom Connor was sixteenth; Hod Powell was twenty-second; and John Jamieson landed in thirty-third place.

Fuller, Jamieson, Kellner, Fenske, Kaftan, Grudzina, Aspinwali, Stupar, Gerlach, Richardson, Austin, Heun.

## ATHLETIC BOARD

FOUNDED upon the principle of student representation in the control of all athletic activities, the student athletic board serves as a clearing house for ideas and opinions from all branches of sports endeavor.
The captains of twelve varsity teams sit on the board, voicing the opinions of their teammates on matters which come before the board. Among their other duties is the selection of the general chairman of Homecoming, who may be a member of the group if they so desire. For the 1936 Homecoming, Gordon Fuller, basketball captain, was selected to handle the celebration.

All athletic awards are passed on by the student group, although this is largely mechanical due to the standards set up for all sports and established by custom. One instance of the working of this power was shown in wrestling. Previously, five wins in the season of ten matches were required; this year twelve meets were scheduled, so
the requirement was raised to six victories.
The undergraduate council expresses the student position on matters in which it cannot take conclusive action by recommendation to the faculty athletic board, which also includes student members.

The following men are members of the student athletic boards:

| Football <br> Basketball <br> Baseball <br> Track | John Golemgeske |
| :--- | ---: |
| Cross Country | Gordon Fuller |
| Crew | John Gerlach |
| Boxing | John Kellner |
| Swimming | Charles Fenske |
| Wrestling | Georald Heun |
| Golf | Vincent Grudzar |
| Fencing | Stanley Austin |
| Tennis | John Jamieson |

## CONFERENCE MEDAL 1936

TO Hioward T. Heun was awarded the 1936 Conference Medal. This award, presented each spring since 1914 by the Western Conference Athletic Board, goes to the graduating senior in each college who has attained the greatest proficiency in athletics and scholarship.

Heun came to Wisconsin from Culver Military Academy, where for three years he was both a crew man and an active allaround student. In addition to his work as captain and stroke of the varsity crew, he was chairman of the student athletic board, and a member of both the Union and Interfraternity Boards.

The list of former winners of the Conference Medals follows:
1935-Rolf F. Poser (Basketball, Baseball)
1934 -Robert A. Schiller (Football)
1933-Nello Pacetti (Football, Baseball)
1932-Harvey H. Schneider (Football, Baseball)
1931—Louis Ernst Oberdeck (Crew)
1930—Donald W. Meiklejohn (Hockey, Tennis)

1929-Theodore Alexius Thelander (Baseball)
1928-Louis Behr (Basketball)
1927-Jefferson D. Burrus (Football, Crew)
1926-Steven H. Polaski (Football)
1925-Lloyd Vallely (Track and Cross Country)
1924-Harold J. Bentson (Crew, Football, Water Basketball)
1923-Gustav K. Tebell (Football, Basketball, Baseball)
1922-George C. Bunge (Football)
1921—Allan C. Davey (Football, Basketball, Baseball)
1920-Anthony G. Zulfer (Basketball, Baseball)
1919-Charles Carpenter (Football)
1918-Eber Simpson (Football, Basketball, Baseball)
1917-Mead Burke (Track and Cross Country)
1916-Dow W. Harvey (Track and Cross Country)
1915-Martin T. Kennedy (Crew, Football)

## I NTRAMURALS

CASTING out its invitation to all, whether big, small, tall, or short, the intramural department continued toward its aim of "athletics for all" as some 2,500 men engaged in all types of intramural sports this season. Under the able leadership of Guy S. Lowman, Art Thomsen, and Les Hendrickson, the intramural program is rapidly becoming one of the most popular on the campus as evidenced by the increasing number of participants and spectators as well.

Competition in 1935-36 was very keen in all three of the divisions, but reached its height in the fraternity group where the SAE's were able to win the Badger Bowl only after a terrific struggle in the spring season of the schedule. Noyes was the winner of the Dormitory Supremacy Cup after placing second in the 1934-35 season. A group of independents led by Frank Blau, long prominent in the history of Badger intramurals, were outstanding in all fields in the 1935-36 season. They competed under several different names, but usually under the banner of Blau's All-Stars.

King Football reigned during the fall season and the races in all three leagues were very tight with four teams of equal strength in each division. The Pi Lams were proclaimed the champs of the fraternity section after defeating the Phi Gams by the score of 7-6. This upsets a long hold on this title by the PiKA's who seemed to have a monopoly on this league up until last year. Richardson won fourteen straight contests to capture the dormitory prize and Fallows was two games behind in second place. Pres House, led by Frank Blau, cap-

Referees Bauer and Schroeder
tured the independent division and lost a close game to the Pi Lams in the final game to determine the all-university title team.

Close on the heels of football came volleyball which went to a team of independents that very modestly called themselves The Champs. Phi Kappa Psi took the fraternity cup in this sport for its second victory in two years. Richardson continued its string of victories in the dormitory league.

The Psi U's came from outside the forecasted favorites and romped away with the hockey title by defeating the Shamrocks, independent leaders, by the close score of 1-0. Led by Ed Collins, watchful goalie, the Psi $U$ boys went the entire double elimination tournament without a defeat and beat the Chi Phi's in the final contest.

SAE repeated its victory in the fraternity league by a hard fought battle with Delta Kappa Epsilon; but were unable to defend their all-university title which they lost to the Presbyterians, led by Frank Blau, Jay Burch, and Ossie Swinehart. Richardson repeated its fourteen straight victories of the football seasonto bag the dorm title, closely followed by Fallows House. A new record was established in the cage race when fifty teams entered in the independent competition.

Indoor track which was conducted in three separate meets was led by Noyes, Pres, and the Kappa Sigs. Pres House was the outstanding point garnerers, piling up $521 / 2$ points to Hillel's 23 markers. The two Swinehart brothers were the individual artists. Fred Benz, varsity end, led the Kappa Sigma house to its victory by

Pi Lambda Phi Touch Football Champions
scoring three firsts and a third. Noyes house piled up $281 / 2$ points, which was $51 / 2$ better than the total of Ochser house with Richardson coming in third.

Scoring heavily in the dives and the relays, Phi Gamma Delta took the swimming cup with the Kappa Sigs finishing in second place. Randolph's ten points paced Frankenberger in winning the dorm meet where their $491 / 2$ points more than doubled the total of Noyes, their closest competitor. The Non-Stars won the independent cup and medals by sweeping the meet with 51 . points. Y. M. C. A. and Badger Club waged
a hard fought battle for the place and show position with the Y. M. C. A. boys finishing on top. Fuchs, Fox, and Hantke paced the Non-Stars in their win.

Running through competition in a professional manner, the Sigma Chi's won their fourth straight water polo title, although they were severely tested by the Phi Gams in the final game. Their record was even more remarkable because of the fact that no team was able to score a point against them.

The Chi Psi's won their first cup of the

year by defeating Delta Chi, last year's champs and one of the favorites, in the bowling competition. The Kappa Sigs also had a fine group of timber topplers.

Rosenberg defeated Martin 21-13 and 21-18 to become the all-university champion in singles competition of the handball meet. Hendrickson and Lederman overcame Levitan and Kuppa to take the medals in the doubles.

The intramural department is one of the youngest and fastest growing divisions of the Wisconsin athletic department and does
not have skill or ability for its requisite, but rather it wishes to provide fun and exercise for the fellows who don't make varsity squads. It is accomplishing this end and as more and more students take advantage of its values, the intramural department will feel well repaid for its work. As years go by it annually enlarges its curriculum and is rapidly reaching a well rounded program. One of its newest and most popular addiitions are the new four oared shells which make Wisconsin one of the few schools in the country to carry its intramural program onto the water.

General Rushing Chairman.....................
Betty Schlimgen
Mechanics Rushing Chairman
Martha Forster

TWENTY social sororities on the campus compose the membership of this association. The Panhellenic Council regulates inter-sorority rushing and sponsors the Panhellenic Ball each year. The proceeds from this party are given to make up scholarships for needy students. Miss Helen Kayser is the faculty advisor.

THE MEMBERS of Alpha Gamma Delta are interested in many lines of work and no particular field receives a definite emphasis. Jeannette Werner is the Vice-President of Kappa Epsilon and a member of the Social and Professional Panhellenic Councils. Doris Kelley, Ruth Matters, and Marion Morse are members of the honorary journalistic organization, Theta Sigma Phi. Katherine James, Lois Neill, and Phillis Lord do outstanding work in Euthenics Club and Castalia Club. Ruth Artmann is the rushing chairman of Phi Beta, national speech sorority. Mary Ellen Kuehne is active in Phi Chi Theta and Commerce work, while Florence Bliss is a member of Coranto and Union Information Committee. A number of the girls, Alice Frazee, Marion Seymer, and Eleanor Strechewald, are members of the French Club. The local Alpha Gamma Delta Chapter keeps pace with the national altruistic plan of work by supporting summer camps for underprivileged children.

Faculty Member: Dr. Florence Allen.
Graduate Member: Jean Fisher.
1937: Alice Frazee, Alice Hayden, Katherine James, Doris Kelley, Lois Watson, Jeanette Werner.

1938: Jean Berg, Florence Bliss, Jean Duncan, Florence Hiniker, Mary Ellen Kuehne, Vallis Lietz, Phillis Lord, Marion Morse, Lucille Neesam, Lois Neill, Margaret Osborne, Mary Louise Southworth, Lucille Zilmer.
1939: Eileen Ansorge, Ruth Artmann, Ruth Bickett, Delores Hinkel, Ruth Matters, Marion Seymer, Eleanor Streckewald.
1940: Dorothy Bushnell, Mary Jane Coleman, Betty. Coppernoll, Betty Kirch, Virginia Parker, Ila Rainier, Doris Schauer.

## ALPHA GAMMA DELTA

First Row: Frazee, Lietz, Hayden, Werner, Kelly, Hinicker, Duncan, Southworth.
Second Row: Kirch, Berg, Watson, Streckewold, Zilmer, Hinkel, Matters.
Third Row: Lord, Norse, Neesam, Artmann, Osborne, Coleman.
Fourth Row: Bliss, Coppernoll, Hinkson, Rainer, Neill, Shaner, Bickett.
Fifth Row: Ansorge, Parker, Seymer, James, Bushnell, Kuehne.

# ALPHA EPSILON PHI 

First Row: Steifel, Marwil, Deutsch, Potlitzer, Gollberg, Lhevine, Meiger, Sternlicht.
Second Row: Barlow, Mayer, Prentis, Harris, Ohringer, Pomerance, Eisman.
Third Row: Rothschild, Kahn, Gilbert, Karen, Streng, Leipold.

[^4]

THE NATIONAL philanthropic work of the Alpha Epsilon Phi's varies from the ordinary projects of this type undertaken. They support a Free Library Service Bureau in Arkansas. On our campus Muriel Goldberg and Marie Dorothy Lhevine, who won sophomore honors, keep the house average up to par. Jane Deutsch and Zelma Schonwald worked on Orientation Committees for the last two years. Dolphin Club and Orchesis interest several of the girls. The entire chapter is interested in intramural athletics and enters a team in every basketball, volley ball, and baseball contest.

EVEN THOUGH one finds the Alpha Xi Delta house right on the lake shore and far at the end of Langdon Street, distance does not detract from their interest in University affairs. Among their numbers are found two Phi Beta Kappa's, Marjorie Anspach and Dorothy Ernst. Mariorie Anspach also received the Bryan award for scholarship. Lorraine Hubbard has been active on the Y. W. C. A. Cabinet, president of Sigma Epsilon Sigma, and on Forensic Board. The Alpha Xi's were the winners of Wis-kits through Betty Powell's playing. Frances Schmidt adds to the laurels by her W. S. G. A. and Y. W. C. A. work as well as the fact that she is a member of the Mortar Board. Catherine Ernst, a member of the Wisconsin Players, represents the Alpha $X_{i}$ Delta's in dramatics this season. Last year the girls won first place in the Inter-Sorority Song Fest.

Faculty Members: Alma Runge, Blair Hanson.
Graduate Members: Mariorie Anspach, Dorothy Ekern, Margaret Grier, Blair Hanson, Emily Johnson, Betty Krauskopf.
1937: Hilda Baldwin, Virginia Delaney, Catherine Ernst, Dorothy Ernst, Miriam Haddow, Alice Helstrom, Theodora Herfurth, Virginia Herfurth, Berna Johnson, Janet Lange, Marion Maynard, Norma Novotny, Rosemary Plummer, Betty Powell, Frances Schmidt, Frances Strong, Alice Sylvester. 1938: Jane Dalrymple, Phyllis Hanson, Mary Hill, Lorraine Hubbard, Marijane Jex, Edith Leicht, Ruth McMillen, Trudie Schutz, Winnifred Van Gelder.
1939: Helen Bessey, Jean Byrns, Jeanne Fleury, Katherine Kuechenmeister, Betty Maneval, Josephine Moore, Nancy Norton, Ruth Plenzke, Joan Reynolds, Janet Ripp, Mary Lu Sanborn, Jean Seidel, Edna Speth, Janet Speth, Edith Torkelson, Mary Ellen Wehrmann.
1940: Betty Gay, Janet Houston, Doris Michell, Marian Pollensky, Marjorie Pollock.

## ALPHA XI DELTA

First Row: Delaney, Powell, Anspach, D. Ernst, Haddow, Helstrom, Baldwin, Schmidt, Sylvester.
Second Row: Lange, Plenzke, McMillen, Maynard, Plummer, Michell, Pollock, Seidel, Fleury.
Third Row: Schutz, Reynolds, Van Gelder, Grier, Gay, Leicht, Norton, Strong.
Fourth Row: Byrns, Bessey, J. Speth, Sanborn, E. Speth, Jex, Hubbard, Hill, Maneval.
Fifth Row: Herfuth, J. Moore, Hanson, Pollensky, Houston, Wehrman, Kuechenmeister, Torkelson, Johnson.

$A$ シ

## ALPHA OMICRON PI

First Row: Moodie, Feeley, Huwen, Heinecke, Hoppman, Weston, Chisholm. Second Row: Rothe, Petri, Haslanger, Bailey, Koopman, O'Dell.
Third Row: Schaller, Meek, Crowley, Starr, Cowgill, Hartwig, Gaspar.

[^5]THE A O Pi's hold sway in the house practically at the foot of Bascom hill. The huge wall that surrounds them and causes a great deal of trouble every fall doesn't keep the girls from getting out and about. Margaret Heinecke is a member of Phi Kappa Phi, honorary scholastic society. Margaret is also the Photographic Editor of the 1937 Badger. Lorena Cowgill and Romance Koopman are active members of Pythia. Lorena Cowgill does outstanding work in Forensics, while Elizabeth Gaspar contributes to Law Review. The entire chapter is interested in athletics, publications, debating, and Wisconsin Players.

THE IDEAL location of the Alpha Phi house overlooking the lake is the envy of the other sororities. In spite of distance, the girls accomplish a great deal in the way of activities. Marion Mullin, who is a member of Alpha Kappa Delta, is also the Junior representative on W. S. G. A. Interests are varied, ranging from athletics to work in the speech department. Jean Tack is active in Delta Phi Delta, an art fraternity. Upholding scholastic honors are the three members of Sigma Epsilon Sigma: Cynthia Winant, Marion Jane O'Connell, and Gladys Dite. Jean Howland, Phi Beta Kappa and Phi Kappa Phi member, leads the list. The entire chapter is interested in athletics and emerges victorious from a large number of its tournaments.

Graduate Members: Emily Dodge, Elaine Tottingham.
1937: Patricia Atcherson, Georgianna Davis, Mary Haggart, Jean Howland, June Johnson, Helen Keator, Katherine Kulas, Mary Elizabeth O'Brien, Alice Reid, Barbara Taylor, Jean Tack.
1938: Jewel! Bunnell, Jane Curtis, Josephine Dahm, Jessie Lou Fisher, Ann Guylee, Elizabeth Haggart, Maureen Hickey, Prue Kelley, Fritzi Kraut, Virginia Lederer, Patricia Ludden, Marion Mills, Marion Mullin, Marie Neumann, Marie Pullar, Albertine Reynolds, Elizabeth Rhodes.
1939: Marion Beardsley, Gladys Dite, Elizabeth Jones, Mary Jane Laundon, Audrey Maas, Elizabeth Manegold, Elizabeth Musser, Marion Jane O'Connell, Mary Reynolds, Cynthia Winant, Jean Wright.
1940: Elizabeth Bindley, Frances Clarke, Jean Douglas, Heseltine Fay, Marjorie Fennimore, Dorothy Furnner, Shirley Gneiss, Mary Helen Luebke, Barbara Sawtell, Jessie Lou Settle, Barbara Waters.

## ALPHA PHI

First Row: Waters, Fennimore, Keator, Fisher, Tack, Mullin, Howland, Reynolds. Second Row: Wright, Curtis, Dahm, Beardsley, Furnner, Kuhl, Pullar, Atcherson, Manegold.
Third Row: Douglas, Kulas, Reid, Guylee, Gneiss, Winant, Musser, Neumann. Fourth Row: Ludden, Launden, Fay, Lederer, Mills, Sawtell, Bindley, Hickey, Dite.
Fifth Row: Jones, Clark, O'Connell, Bunne!l, Kelley, Davis, Reynolds, Maas.

## ALPHA CHI OMEGA

Faculty Members: Margaret H'Doubler, Gertrude Johnson.
Graduate Member: Ruth Weinkauf.
1937: Ruth Anne Bailey, Mildred Cale, Eleanor Carlton, Ruth Anne Ellingson, Alta Ruth Fox, Helen Hazzard, Helen Mayer, Dorothy Meiners, Gerda Naber, Marion Pease, Marion Peters, Marion Sapp, Betty Schlimgen, Suzayne Stanz, June Warner, Ruth Zimmerman.

1938: Aleen Anderson, Harriet Andrews, Doris Bridgeman, Ruth Cruickshank, Gertrude Griffith, Kay Hammond, Dorothy Heck, Margaret Kreuger, Jean Ryan, Erma Jean Senty, Virginia Timm, Grace Woy, Winifred Prendergast.

1939: Dorothy Barlament, Mary Connaughton, Barbara Dratz, Beth Frye, Mary Gillette, Virginia Hare, Lenore Henoch, Betty Hibbard, Ottie Jane Kintzel, Margaret McLeod, Loraine Olman, Mary Liz Rundell, Ruth Schroeder, Joy Simons, Kathryn Tourtellot, Betty Wagner.
1940: Dorothy Allen, Dorothy Knauss, Patricia Liebner, Joanne Nelson, Grace Wick.

First Row: Ellingson, Woy, Mayer, Anderson, Griffith, Mieners, Fox, Schlimgen, Hazzard, Kehl.
Second Row: Andrews, Bridgeman, Prendergast, Naber, Peters, Bailey, Zimmerman, Warner, Sapp, Pease, Stanz.
Third Row: Knauss, Connaughton, Hare, Liebner, Hibbard, Carlton, Krueger, Hammond, Ryan, Cruikshank.
Fourth Row: Senty, Timm, Weinkauf, Henoch, Wagner, Heck, Schroeder, Simons, Barlament.
Fifth Row: Nelson, McLeod, Wick, Allen, Dratz, Frye, Kintzel, Rundell, Tourtellot, Olman.

THE ALPHA CHI OMEGA's walked off with the Volley Ball Championship in 1935 and 1936. Besides an active interest in athletics the chapter as a whole is outstanding for its work in speech, as the twelve speech majors prove. Zeta Phi Eta, National Speech Sorority, claims Kathryn Hammond, Marion Sapp, Ruth Cruickshank and Aleen Anderson as its members. The Cardinal Radio Staff, an innovation of the campus this year, is ably assisted by Helen Hazzard, Marion Sapp and Ruth Cruickshank. Many of the girls are on the WHA broadcasts. Jean Ryan is the Feature Editor of the Daily Cardinal, while Kathryn Hammond is a member of the Badger Board. Aleen Anderson and Kathryn Hammond are active in Y. W. C. A. work.

THE GAMMA PHI BETA's live in the massive house on the corner of Lake and Langdon Streets. The girls are proud of their penthouse sun porch where they gather on warm days to imbibe the sun. The Gamma Phi's take full part in activities on the campus. Jean O'Connor is the impressive president of Panhellenic Society as well as a member of Badger Staff. Winifred Loesch has distinguished herself for her work on WHA and with the Wisconsin Players. She is also an active member of Crucible and Orchesis. Apprentice Players claim Eleanor Beers and Marjorie Wiegand as part of their staff. Martha Foerster, a member of Crucible and W. S. G. A., has done outstanding work as the Mechanics Rushing Chairman for Panhellenic Society. The Art Editor of the Badger, Mary Snoddy, has also distinguished the Gamma Phi Betas.

Graduate Member: Bernice Emerson.
1937: Eleanor Beers, Betty Bryan, Betty Edwards, June Fisher, Catherine Foster, Helen Harris, Ruth Holekamp, Betty Kniffin, Winifred Loesch, Jean O'Connor, Marian Small, Alice Stauffacher, Virginia Van Brunt.
1938: Audrey Beatty, La Von Beck, Winifred Bowin, Jane Briggs, Jane Bee Critchfield, Jo Davison, Martha Forster, Ann Fred, Mariorie Frost, Marianne Grieves, Ruth Harrison, Ann Jeffries, Elizabeth Ann O'Malley, Margaret Painter, Mary Knox Wilson.
1939: Jessie Ann Baird, Betty Jane Cochran, Virginia Dean, Helen Louise Gaspar, Mary Gosin, Betty Gunther, Marion Hart, Mary Jean Jefferson, Marian Knapp, Katherine Pfeifer, Maxine Schultz, Mary Snoddy, Marjorie Wiegand, Stella Williams, Betty Young.
1940: Katherine Bidinger, Mary Edna Cruzen, Suzanne Farnum, Helen Gunther, Lois Hisaw, Bonnie Kate Owens, Marion Randolph, Mary Spohn, Ann Reiman, Marjorie Tafel, Alice Woodson.

## GAMMA PHI BETA

First Row: Loesch, Bryan, Olson, Stauf facher, Holekamp, Fisher, Tees, Foster, Beers.
Second Row: Beatty, Snoddy, Cruzen, Bodwin, Williams, Beck, Hisaw, Reiman, H. Gunther, Gaspar.

Third Row: Schultz, Hart, Harrison Randolph, Owens, Critchfield, O'Malley, Dean, Dannison.
Fourth Row: Jeffries, Knapp, Farnum, Frost, Fred, Spohn, Briggs, Baird, Wiegand, Tafel.
Fifth Row: Gosin Jefferson, Skogmo, Cochrane, Forester, Pfeifer, Grieves, Bidinger.

## DELTA GAMMA

1937: Jane Cross, Rosemary Dudley, Katherine Johnson, Muriel Koch, Elizabeth Peters, Margaret Sutch, Margaret Tormey, Genevieve Whitney.

1938: Dorothy Bergengren, Catherine Dahl, Elizabeth Fox, Jean Gorman, Jean Higbee, Betty Hill, Jane Jores, Carol Johnson, Mona Janes, Althea Lewis, Martha Jane Moore, Jean Paunack, Helen Piffard, Jane Priestley, Nancy Underwood, Mary Ann Wilson, Jane Caldwell, Helen Knell, Jane Hempstead.

1939: Charlotte Adams, Nancy Averill, Katherine Black, Margaret Dadmun, Julie Hallstrom, Mary Kimberly, Virginia Lambert, Betty Larson, Hester Reilly, Sally Simons, Virginia Schneider, Dorothy Ann Williams, Katherine Pohlman, Lucia Law, Nina Leopold.
1940: Frances Chapman, Ellen Ruth Conley, Charline Everett, Elizabeth Ferry, Charlotte Hollingsworth, Kathleen Kilgore, Sibley McCulloch, Jean Park, Dorothy Schaeffer, Elizabeth Sperry, Jane Wheeler.

First Row: Piffard, Peters, Johnson, Whitney, Cross, Underwood.
Second Row: Averill, Koch, Dadmun, Schneider, Bergengren, Janes, Higbee. Third Row: Dahl, Sutch, Jones, Hallstrom, Paunack, Symons.
Fourth Row: Adams, McClaren, Moore, Trane, Lambert, Williams.

TO DESCRIBE the Delta Gamma house adequately would be a hard task. It is situated at the end of Langdon Street and it is a low rambling colonial building. The Lewis School at which Delta Gamma was founded was formerly known as Oxford Female Institute. Athletics is one of the invariable interests of the Delta Gamma's. Every year they emerge victorious from some athletic event. This year they won the baseball and volley ball championships. Virginia Lambert is an outstanding member in W. S. G. A. Dorothy Ann Williams and Jean Paunack are members of Sigma Epsilon Sigma. Pythia claims the attention of Bett Hill, while Jean Paunack is active in Castalia. Genevieve Whitney reigned queen of Panhellenic Ball, the annual sorority party.

THE TRI-DELT's held high honors in scholarship this past year, being first nationally and second on the campus. Betty and Lucille Ransom are members of Phi Beta Kappa and Mortar Board. They are also active in Y. W. C. A. work. Bette Teckmeyer contributed her bit by winning Sophomore High Honors. Sigma Epsilon Sigma's president is Alberta Arnold, who is also on the Freshman Directorate. Scholarship is not the only interest of the TriDelt's, however, as Pauline Coles, Society Editor of the Daily Cardinal, can demonstrate. Ruth Solie was one of the chairmen of Panhellenic Ball. The Octopus Cup was presented to the Tri-Delt's and their Homecoming decorations were adjudged second place. The girls won the Mixed Volley Ball Championship this last year.

Faculty Member: Dr. Florence Allen.
Graduate Members: Virginia Kiesel, Mary MacKechnie, Catherine Moore.
1937: Edyth Baugh, Janet Benkert, Marion Carsen, Jean Christopher, La Verne Cooke, Marie Donohue, Lorraine Dumke, Virginia Fisher, Ethel Grau, Alice Grinde, Margaret Halbert, Gwendolyn Hummel, Isabel Nelson, Betty Ransom, Lucille Ransom, Kathryn Remeeus, Dorothy Remsen, Margaret Reynolds, Margaret Roberts, Ruth Solie, Dorothy Swafford, Frances Wochos.
1938: Betty Even, Marie Flanagan, Helen Gallaher, Muriel Hensler, Katherine Kettler, Betty Myers, Catherine Nagel, Ruth Raney, Dorothy Scott, Bette Teckemeyer, Helen Weissbrenner.
1939: Alberta Arnold, Betty Bascom, Eunice Biggar, Ernestine Burkhardt, Pauline Coles, Glendala Englert, Jane Erickson, Marie Garny, Jeanne Glaettli, Jane Graffenberger, Ann Regan, Betty Schmidt, Carleen Schmidt, Beth Sebastian, Beatrice Symmes, Betty Webber.
1940: Theodora Bush, Mary Hoven, May Kerner, Carlisle Knott, Dorothy Nohr, Susan Poston. Ruth Ryan.

## DELTA DELTA DELTA

First Row: Roberts, Halbert, Cooke, M. Nelson, I. Nelson, Arnold, Scott, Teckemeyer.
Second Row: Christopher, Dumke, B. Ransom, Raney, Erickson, Baugh, Hensler.
Third Row: B. Schmidt, Bascom, Hildebrandt, Myers, Glaettli, Flanagan, Donohoe, Remeeus.
Fourth Row: Garny, Coles, Grinde, Graffenburger, Nagel, Burkhardt, Moore.
Fifth Row: Doherty, Carson, Remsen, Kiesel, Solie, Wochos, Sebastian, Weissbrenner.

## DELTA ZETA

First Row: Boundy, Miner, Corcoran, Dobson, Quinn, Sanderhoff.
Second Row: Thompson, M. Boundy, King, Hazinski, Roberts.
Third Row: Hanson, Utter, Ryan, Riopelle.

Faculty Members: Harriette Hazinski, Katherine Snodgrass, Dr. Helen
Davis, Mrs. Lillian Pfeiffer.
Graduate Member: Enid Davis.
1937: Elaine Miner, Zaide Roberts.
1938: Katherine Boundy, Marian Corcoran, Roberta Thompson.
1939: Dorothy Dobson, Anna Mary King, Frances Ryan, Eunice Sanderhoff.
1940: Marian Boundy, Helen Hansen, Norma Quinn, Elaine Riopelle, Helen Utter.

DELTA ZETA has led in sorority scholarship on the campus for the past. three years. After holding first place for three years the Scholarship cup has been given to them for their permanent possession. The local sorority supports a national social service project at West Kentucky. Elaine Miner represents the Delta Zeta's in Y. W. C. A., as a member of the Cardinal staff, active in Castalia, Coronto, and Theta Sigma Phi. She has also received honors for high scholastic work. Katherine Boundy is interested in Y. W. C. A. Pythia and Castalia draw several of the girls to their ranks. Gail Patrick, an alumnus of Delta Zeta, is a well-known movie actress.

THETA PHI ALPHA is a national social sorority for Catholic women. To encourage individuals and chapters of the sorority, two awards are
 given - the President's cup is a travelling trophy awarded to the most deserving senior in the chapter each year. On the campus Katheryn Rupp has been outstanding for her work in journalism and as a member of the Daily Cardinal staff. The house as a whole is interested in dramatics, writing and social service.

Faculty Members: Mary Hames, Phyllis Nelson, Blanche Riising, Kathryn
Tormey.
Graduate Members: Gertrude Beyer, Eleanor Gundlach.
1937: Gertrude Morris, Kathryn Rupp, Mary Clare Stebens.
1938: Marjorie McGrath.
1940: Shirley Newell, Cathryn Rosenburg, Catherine Williams.

First Row: Rounburg, Stehens, Morris, Rupp.
Second Row: Williams, McGrath, Newell.

## KAPPA ALPHA THETA

Graduate Members: Mary Alice O'Leary, Dorothy West.
1937: Adele Clithero, Ann Fulcher, Jean Gardner, Phyllis Graham, Lorraine Leavitt, Marie Adele McKenzie, Kathryn Miner, Kathryn Spielmann.

1938: Violet Bagley, Yvonne Brictson, Janet Nelson, Frances O'Leary, Margaret Pelton, Mildred Sanders, Jane Tindall, Ruth Welton.
1939: Nancy Altemeier, Betty Anger, Ruth Bennett, Betty Ann Dentz, Mary Egen, Margaret Gray, Jeanne Henkel, Nancy Jane Hunter, Mary Jane Leahy, Mary Ellen Mclnerny, Ann Mortenson, Fritzie Reis, Mary Rowse, Frances Smith, Rebecca Taylor.
1940: Ellen Benson, Vera Bremner, Mary Nell Dunlap, Yvonne Ferguson, Shirley Haverstick, Patricia Holmes, Barbara Kopmeier, Jane Newcomb, Jean Ogden, Jacquelyn Peterson, Mary Prinz, Doris Shaper, Ruby Jo Swanstrom.

First Row: Haverstick, Henkel, Graham, McKenzie, Dentz, Prinz, Ferguson.
Second Row: Dunlap, Bagley, Anger Brictson, Peterson, MacInerny, Benson, Stielman.
Third Row: Tindall, Altemeier, Sanders, Rowse, Taylor, Bennett, Leavitt.
Fourth Row: Newcomb, Smith, Bremner, Kopmeier, Hunter, Clithero, Reed.

THE THETA's hold forth down in the middle of a group of fraternities on Lake Lawn Place, that narrow street on which cars have difficulty in passing. This Military Ball Queen business is getting to be a tradition. For the last three years a Theta has reigned queen of the Army Ball-Dorothy West, Agnes Ricks, then Kay Watts. "Jackie" Peterson was Queen of the Homecoming Ball, so all in all, the Theta's have their share of leading ladies. Fritzie Reis is active in the Speech Department. Margaret Pelton adds a number of feathers to the Theta cap by her outstanding work in W. S. G. A. for the past two years. Jeanne Henkel seems to be following in her footsteps. Jeanne is a member of Phi Upsilon Omicron, while Janet Nelson is a member of Sigma Epsilon Sigma.

SOCIAL SERVICE and philanthropic work is one of the activities of all Kappa Delta chapters. The founder of Kappa Delta was Julia Tyler, the grand daughter of President John Tyler. The house as a whole is interested in athletics, volleyball and basketball. There seems to be a definite literary trend among the Kappa Delta's. Kathleen Reilly, Eileen Freeman, Roberta Houston, Betty Karstead, Gertrude Wilkinson and Alice Gilchrist are members of Pythia Literary Society. Although the girls are no doubt tired of having Pearl Buck continually referred to as one of the most outstanding alumnae, they are still proud of the fact.

1937: Jane Geerlings, Alice Gilchrist, Jane Hettelsater, Kathryn Jahnke, Louise MacNaughtan, Marian Stolz.

1938: Betty Cameron, Eileen Freeman, Eva Hitch, Ruth Francis Kuter, Jane Morrison, Kathleen Reilly, Lorraine Pugh, Ruth Smith, Barbara Taylor, Gertrude Wilkinson.
1939: Gertrude Esch, Roberta Houston, Betty Karstead, Lorraine Kuhlman, Dorothy McNown, Mary Jane Parker, Lucille Schreiber.
1940: Nevelle Dickson, Florence Gruen, Patricia Kittell, Jane Lippold.

## KAPPA DELTA

First Row: McNown, MacNaughtan, Stolz, Jahnke, Houston, Geerlings.
Second Row: Freeman, Parker, Morrison, Smith, Kuhlman, Pugh, Green.
Third Row: Hitch, Wilkinson, Cameron, Karstaed, Hettelsater, Reilly.
Fourth Row: Gilchrist, Kuter, Dickson, Taylor, Schreiber, Esch.

## KAPPA KAPPA GAMMA

Faculty Members: Mrs. Hazel S. Alberson, Ann Pitman.
Graduate Member: Jean Fisher.
1937: Helen Clark, Phydele Gourley, Janet Harris, Barbara Hubbell, Martha Jackson, Margaret Jernegan, Frances St. Clair, Margaret Wiesender, Audrey Voet.
1938: Margaret Billings, Jane Conkey, Clara M. Eshelman, Victoria Evans, Elizabeth Keay, Margaret Marriott, Barbara Scott, Martha Sheridan Dorothy Short, Rachel Stare, Barbara Topping, Margaret Young.
1939: Mary Anderson, Mary Agnes Brim, Gail Brodhead, Evelyn Church, Audrey Jones, Nina Krueger, Beverly Lack, Jean North, Jean Randolph, Ann Stimson, Jane Thompson, Iona Zinc.
1940: Barbara Bickel, Dorothy Boettiger, Doris Burghardt, Dorothy Jean Clifton, Alice Davis, Dixie Davis, Gladys Dinghy, Marcelle Duff, Sue Eager, Ellen Gross, Douglas Hempstead, Geraldine Kuehmsted, Margaret Lynott, Eileen McGrath, Dorothy McKinnon, Mary McLennon, Alma Moore, Cecilia Moore, Jeanne Murphy, Mary North, Jean Steiner, Patricia Wiley.

First Row: Jernegan, Scott, Young, Jackson, Harris, Lynott, Weisendar, Anderson.
Second Row: Keay, Conkey, Voet, Zink, Randolph, North, Short.
Third Row: Hubbell, Sheridan, St. Clair, Brodhead, Thompson, Stare.

THE KAPPA's live within the thick walls of the big stone mansion on the corner of Henry and Langdon Streets. Many of the campus highlights issue from the Kappa domicile. Carol Wagner has been active in W. S. G. A. work for the past two years and is President this year. Carol is also a member of Theta Sigma Phi. Another president of a campus organization is Phydele Gourley, who presides over W. A. A. Mary Anderson has received a great deal of attention due to the fact that she is the only girl in the College of Chemical Engineers. Martha Jackson has her finger in all activities leading to the Speech Department. She is the Secretary of Wisconsin Players and a member of the Theater Board.

THE PI BETA PHI's are the oldest national fraternity according to Panhellenic rating. This year the Pi Phi's carried off first prize for their Homecoming decorations. Dorothy Teeple, the 1936 Prom Queen, has brought many honors to the local chapter. She is a member of Phi Beta Kappa, Phi Kappa Phi and Mortar Board, as well as being President of Crucible and Cardinal Board. Avis Zentner and Ada Mae Roe are outstanding in theater work. One of the Pi Phi pledges, Vivian Underhill, won the Ann Emery Scholarship Cup for proficiency in scholarship. The Queen of the Soph Shuffle, Ruth Tensfeldt, was chosen from the Pi Phi house. Another field of activity is evidenced by Helen Shearer, the President of Coronto.

1937: Patricia Baldwin, Dorothy Copps, Frances Harbit, Carolyn McKay, Mildred Morris, Joyce Palmer, Janet Shaw, Mary Short, Helen Shearer, Dorothy Teeple, Hildegarde Thadewald, Virginia Vedder.
1938: Dorothy Bradley, Rosemary Hulett, Barbara Bloomhall, Mary Jane Bucklin, Jean Mathews, Mary Rowlands, Virginia Torcom, Avis Zentner.
1939: Marion Brannon, Margaret Copeland, Barbara Dudley, Elizabeth Freeman, Jane Johnson, Betty Kiene, Betty Lawrence, Mary Lyon, Kathleen Potter, Portia Stone, Ellen Sexton, Ruth Tensfeldt.

1940: Eileen Collins, Lorraine Grant, Mary Groth, Shirley Garniss, June Houghton, Dorothy Jambor, Carol Kleymeyer, Lois Kinsella, Janet Peterson, Jane Rapp, Elizabeth Schatz, Nadine Strate, Jean Tyler, Vivian Underhill, Edith Wagner, Marian Welch, Joyce Wenstadt, Virginia Watts.

## PI BETA PHI

First Row: Morris, Melby, Baldwin, McKay, Brown, Shearer.
Second Row: Lawrence, Hinch, Bachelder, Tensfeldt, Bradley, Seefelt, Harbit.
Third Row: Potter, Copps, Van Aken, Johnson, Zentner, Mathews.
Fourth Row: Brannon, Dudley, Stone, Moeller, Hulett, Bucklin.

## SIGMA KAPPA

First Row: Coapman, Smith, Roehl, Follett, Voelschau.
Second Row: Spevachek, Jackson, Gausman, Thwaits, Brue, Howland.
Third Row: Bonzelet, Wandrey, Darrah, Greer, Anderson.

Faculty Members: Iva Rankin Mortimer, Gertrude L. Bonzelet, Rita Griep, Helen Gibson Cannon.

1937: Doris Bandlow, Frances Bonzelet, Mary Ella Brue, Katherine Fowler Jane Greer, Lois Roehl, Evelyn Smith, Gretchen Voelschau.

1938: Elaine Coapman, Jeanne Darrah, Annabel Follett, Gladys Spevachek, Mary Grace Wandry.

1940: Betty Howland, Mary Frances Jackson.

THE founders of Sigma Kappa were all Maine women, the original idea being to establish chapters in New England. Later on, Sigma Kappa spread west and, as a national philanthropy policy in honor of its founders, Sigma Kappa supported educational work for children in Maine. Jane Greer heads the list of activities in the local chapter. She is Student Member of the Faculty Discipline Committee and was elected to both Mortar Board and Phi Kappa Phi. Jane worked on the Parent's Weekend Committee and is on the Gallery Committee for the Art Salon. Doris Bandlow is the President of the French Club and Lois Roehl is active on the Women's Affairs Committee. Jean Thwaits and Lois Roehl have been active workers for Orientation Week for the last two years.

PII MU was an outgrowth of a local society called the Philomathean, which was organized at Wesleyan College. It is the second oldest secret organization for women. The name was not changed to Phi Mu until 1904. The house as a whole is interested in athletics and active participation by the entire group wins them honors. Rosella Schmelzer holds scholastic honors, being a member of Sigma Epsilon Sigma. Mary Louise Cockefair is also a Sigma Epsilon Sigma and serves on the W. A. A. Cabinet. The local chapter supports the Phi Mu Healthmobile, a child hygiene truck operating in the state of Georgia, and gives medical attention to nine thousand needy children.

Faculty Members: Miss N. Bilstad, Miss Elna Mygdal.
Graduate Member: Elizabeth MacKaye.
1937: Mary L. Cockefair, Kathleen Pfanku, Rosella Schmelzer, Edna Radtke.
1938: Louise Heskett, Ruth Merkle.
1939: Louise Dahms, Ethel Masanec, Edna Earl Wilson.
1940: Vina McCranner, Lucille Sprenger.

First Row: McCranner, Extrom, Merkle, Pfanku, Cockefair, Mazanec.
Second Row: Schmelzer, Radtke, Sprenger, Heskett.

. 283 .

First Row: Lerner, Steinau, Lappin, Schacter, Ganz, Bremer, Shafton.
Second Row: Paul, Sachs, Rattin, Friedman, Schwartz, Saxe, Webber, Blinder.
Third Row: Nakitin, Golden, Solomon, Copple, Feldman, Hymen.
Fourth Row: Goodman, Isaacs, Golden, Plavnick.

1937: Anna Plavnick, Marian Schacter.
1938: Isabelle Ganz, Ronah Webber.
1939: Mildred Blinder, Esther Bremer, Bernice Copple, Phyllis Feldman,
Reeva Golden, Ruth Lappin, Clariss Lerner, Jane Alice Machlis, Vivien Nakitin, Muriel Rubenfeld, Grace Saxe, Nancy Steinau.
1940: Elinor Brody, Ruth Friedman, Rita Golden, Florence Libman, Janice Oppenheim, Frances Paul, Ruth Rattin, Sylvia Sachs, Roda Schwartz, Grace Solomon.

THE ORIGINAL motive of Phi Sigma Sigma was philanthropic work and this idea is upheld by each individual chapter. The local branch of Phi Sigma Sigma does a great deal of charitable work in cooperation with National Headquarters. Marian Schacter, the Prexy, does a great deal to further the purpose of the sorority by her activity in social work in Madison. Jane Alice Machlis is doing excellent scholastic work and is active in Phi Eta Sigma. Ann Lavnick, the Editor of Hillel Review, does her share of activities in the field of journalism. She is also a member of Hillel Foundation. The house as a whole is active in speech and athletics.

HI OMEGA PI was organized in accordance with Masonic traditions but in 1922 the fraternity was reorganized as Phi Omega Pi. Several of the girls do outstanding work on the campus, assisting on the Daily Cardinal staff and as members of the literary societies. Rena McCordic is active in Phi Upsilon Omicron, the Professional Home Economics Sorority. Bonnie Beilfuss and Marion Jaegar worked on the Orientation Week Committees. The chapter as a whole is interested in Wisconsin Players and inter-sorority athletic events.

1937: Bonnie Beilfuss, Marion Jaeger, Ella McCordic, Delia Prescott.
1938: Ruth Iler, Rena McCordic, Duella Porath, Catherine Robbing, Rogna Ullsvik.

1939: Marie Larson, Edith Robinson, Gertrude Thomsen.
1940: Evelyn Lambrecht, Sylvia Larson, Karen Lauritsen, June Murley, Marian Niebuhr, Helen Peck.

## PHI OMEGA PI

First Row: Murley, Lambrecht, Jaeger, Niebuhr, Larson.
Second Row: McCordic, Iler, Philumalee, Robinson, Larson, Robbins.
Third Row: Peck, Ullsvick, Lauritsen, McCordic, Thomsen, Prescott.

## CHI OMEGA

Faculty Members: Margaret Cronin, Margaret Meyer.
Graduate Member: Carol Morse.
1937: Janet Falkenau, Jane Johnson, Margery Lowe, Jean Maclver, Eileen Mathison, Elaine Ohman, Ruth Pagenkoff, Linda Rosenheimer, Kathryn Schackte, Anne Stepanek, Patricia Smith, Eleanor Smith, Helen Whipple, Kay Whipple, Rachael Woodhouse.
1938: Eleanor Amundson, Edith Ballantine, Dorothy Biersach, Betty Carney, Ann Cunningham, Frances de Golier, Dorothy Denniston, Bette Edwards, Kathleen Fitzgerald, Charlotte Freng, Dolores Froemming, Betty Hill, Janet Kusel, Mary Alice Payne, Eleanor Robinson, Marie Tietgen, Edith Jane Walker, Eleanor Waskow.
1939: Madeline Biersach, Mary Louise Bryant, Ruth Borman, Elizabeth Bullwinkel, Nancy Lee Davidson, Eileen Ferguson, Barbara Janda, Betty Schwarting, Virginia Vergeront, Jean Willett, Margaret Winger, Margaret Wirka, Katherine Zabel.
1940: Alice Beecher, Nancy Cady, Renee de Long, Mary Jane du Bois, Jean Garrity, Marion Marshall, Margaret MacIntyre, Dorothy Weber, Adeline Jane West, Marcia Wright.

First Row: Vergeront, Ballentine, Du Bois, Borman, Waskow, Johnson, De Golier, Mclver, Smith, Pagenkoff, Fitzgerald.
Second Row: West, Stepanek, Falkenau, Smith, Woodhouse, Ohman, Carney, Rosenheimer, Wirka, Robinson.
Third Row: Lowe, Zabal, Kusel, H. Whipple, K. Whipple, Matheson, De Long, Willett, Janda, Amundson, Cady.
Fourth Row: Schwarting, Graven, Freng, Ferguson, Marshall, Edwards, M. Biersach, Bryant, Weber, Teitgen.
Fifth Row: Wright, Winger, McIntyre, D. Biersach, Bullwinkle, Davidson, Cunningham, Froemming, Schachte.

CHI OMEGA is distinguished by its national achievement award presented to an outstanding woman in the field of art, letters, professions, economics or politics. This award this year went to Dr. Alexander Hamilton for work in the field of medicine and was presented by Mrs. Franklin D. Roosevelt. Chi Omega also presents each year at Senior Swing Out a sociology prize to the outstanding woman in that field during the year. Some of the girls who are outstanding for their work in scholarship are Virginia Vergeront, Eleanor Robinson, and Nancy Lee Davidson. Ann Cunningham, member of Coranto, and Dorothy Biersach, President of Woman's Band, also uphold the chapter's laurels. Besides her duties as Chapter President, Jane Johnson is a member of Senior Council, was Chairman of Ticket Sales for Homecoming Ball, and on the committee for Homecoming. The Chi Omega's are gradually shifting their decided interest in speech to that of music, as the ten music majors indicate.
$\overline{\underline{\text { FRATERNITIES }}}$

- THE BADGER invites me to contribute a word to the fraternity section of the year-book, although both the Badger staff and the fraternity men on our campus are fully aware that I have often criticized the Greek letter societies. I cheerfully admit, however, that much of the distrust of fraternities in the public mind today is not well-founded. Those of us who work intimately with fraternities perceive their shortcomings, but, on the other hand, we are quite aware that the chapter houses are not the dens of iniquity that small-town sewing-circle gossip, stimulated by an occasional sensational press report or by verbal snowballs started by some garrulous ex-student, is prone to imagine.
The fraternities on this campus are all chapters of national organizations. There are no locals. Each chapter is based on a charter from its national and initiates its members by a ritual provided by the national. The ideals embodied in these rituals are all fine and high. Each and every fraternity man on our campus has given a solemn pledge to uphold them. Further, the National Interfraternity Conference has recently promulgated a set of "fraternity criteria" which establish an extraordinarily high standard of life and conduct for all fraternity men. "But," the reader is probably ready to reply, "they don't always live up to these high ideals and standards." Quite true; and the same is true of members of service clubs, lodges and churches. But we do not condemn the Rotary Club, the Masonic Lodge or the Methodist Church because some of their members fall far short of living up to the pledges they gave on entering them. The college fraternity is, however, a much publicised group; a dereliction on the part of a fraternity
man appears to be announced to the world with the implication that this sort of thing is characteristic of fraternity men. The fact that the majority of his group may be leading normal, wholesome student lives is quite lost sight of in the condemnation that follows the error of the individual.
The simple truth is that fraternity men are quite ordinary mortals, "even as you and I." Some of them are very high-grade chaps, a lot are average fellows, and there are some whose student records and social transgressions are such that they have to be weeded out and sent away. The same is true of dormitory and other groups of non-fraternity men. Life is like that. Fraternities are not all black, nor all white. Some chapters live up to their ideals better than others. It is hardly sporting to condemn an entire group because of the delinquencies of a few men, or an entire system because a few chapters prove weak and unstable.

Much effort is being devoted by national offices, by our own Interfraternity Board, by interested alumni and by this office to the ends of stimulating higher scholastic endeavor, higher social standards and better financial management on the part of Wisconsin fraternities, for we all recognize that there is much good inherent in the college fraternity system. If our chapters will render a reasonable compliance to the standards which a changing social and economic order is requiring of them and which their well-wishers are urging upon them, there is still a large field of usefulness and of purposeful living open to them. Our hope is that they occupy this field permanently.
S. H. GOODNIGHT.

FRATERNITIES

## DEAN

## AND A

PROFESSOR SEETHEM

- Coilege is usually thought of as a place where one receives intellectual training. The student's life centers, and rightly, around the classroom, library, and his study. But one has contact with the university administration in several other ways. Your life is regulated and guided in these spheres of activity:

Intellectual: chiefly classroom.
Social: largely prohibitory in nature rather than upbuilding.
Emotional: upsets and maladjustments. Opportunities for help much better for women than for men.
Physical: compulsory exercise, athletic teams and intramurals.
Whereas the university concerns itself with the intellectual development of every student, development of personality and social traits is left largely to chance.

Yet making a success of life is not purely an intellectual thing. Every occupation has some social demands, and many of them are predominantly social. Selling, business, catering, and amusement are outstanding examples of this.

It is the opinion of many psychologists that personality contributes more to life's success than does intelligence. So long as a person has intelligence enough to understand the duties and the goods with which he is dealing, that seems to be sufficient. Additional success will come because of possession of certain personality traits.

Thus it would seem to a critic that the university is failing to train its students in something which may be even more important than classroom learning.

This want is supplied in an informal way to less than half the
student body by means of fraternities and sororities. One is invited to join a group because it seems to the members that he will fit in with them in a congenial social way. One then lives on a basis of absolute equality with a group of thirty or forty people. This provides training and experience of a type not to be obtained otherwise. Previously most students have lived with their parents, and possibly brothers and sisters. Now one learns to get along with strangers of his or her own age. This is of especial importance to only children, many of whom have never before had intimate friends of their own age.
The system has a disadvantage, however. Those who could profit the most from constant informal and formal contacts are given the least opportunity. Some, it may be true, would not fit well into a group of several dozen people. Others are not asked, strangely enough, because they are too good. They may have developed some outstanding ability in a field with which many of the group are not in sympathy. Many of these people will be the leaders of their class ten, twenty, or thirty years after graduation.
The moral of this is that fraternities and sororities should not only look over those who already conform along lines approved by the majority, but should as well look for those who will do the house credit by their junior and senior years and later, and for those who, with experience and perhaps a little helpful guidance on the part of the older members, will blossom out and take their places with the best.

RICHARD WELLINGTON HUSBAND.

## INTERFRATERNITY BOARD

THE INTERFRATERNITY BOARD was organized to correlate and promote the inter-relations of the fraternity group. The Board devises rushing rules for all fraternities for the following year, governing the rushing procedure of all fraternities. The Board hears and acts upon all breaches of fraternity laws. In a more general sense, the Interfraternity Board assists the fraternities in financial and social problems and forms a policy for the solution of these problems.

During the past year, the Board has aided in the organization of the Inter-fraternity Council. The Council provides an actual medium through which the Board can deal with the fraternities. In addition, the Council elects new members to the Board, and has a voice in the policy making for all fraternities.

The Interfraternity Board has been working throughout the year on a legal test case to eliminate fraternities from paying taxes. The Board has received generous financial aid from all fraternities and from smaller colleges in Wisconsin to help put through this case.

During the second semester, the Board has given particular attention to the financial side of fraternities. The Board has encouraged membership by the fraternities in the Fraternity Buyers' Cooperative, and has encouraged their enrolling the assistance of the Student Financial Advisor in the handling of fraternity accounts. Advice has been given to the fraternities for the handling and collection of overdue accounts, as well as other small, but perplexing financial problems with which the fraternities meet.

If the Board has shown a profit from its activities at the end of the year, or if the single fraternities will be willing to underwrite the expense, the Board will compile and publish a fraternity magazine, which will be distributed to incoming freshman men in the fall.

During the year, the Interfraternity Board sponsored and directed the Interfraternity Ball. The Committee was fortunate in acquiring one of the most popular bands in the country, Red Norvo, so that the Ball was a great success, socially and financially.

## ACACIA

Graduate Members: James Femrite, Joachin Liebmann, Glenn Kenngott.
1937: John Baum, Arthur Christopherson, Wayne Davison, Jack Maxfield, Gordon Meyers, Leon Pallister, Carl Swazee, James Vaughan, Martin Wendt.

1938: Kenneth Brey, Clarence Eckman, Robert Freiberg, Henry Gardner, Ted Haufe, Fred Kraatz, Robert Putnam, Conrad Shearer.
1939: Charles Ambelang, Charles Booth, Kenyon Follett, William Georges, Floyd Guttormsen, Harold Koepsell, Robert Polan.
1940: Wilmer Behling. Eugene Grauer, William Gaterman, Thomas Harris William Marquart, Reid Murray, Arnold Niess, Austin Schlosser, Clarence Tommerson, Francis Whitcomb.

First Row: Ambelang, Myers, Shearer, Vaughan, Kraatz, Swazee, Maxfield, Eckmann.
Second Row: Davison, Pallister, Follett, Gaterman, Gardner, Schlosser, Behling, Harris, Baum.

Third Row: Whitcomb, Femrite, Guttormsen, Polan, Neiss, Booth, Kenngott, Georges.
Fourth Row: Murray, Brey, Haufe, Wendt, Freiberg, Liebmann, Koepsell, Grauer, Christopherson.

ONE OF THE younger fraternities, Acacia was founded in 1904 at the University of Michigan as a college fraternity for members of De Molay. The national organization now numbers 28 chapters.
The local chapter was founded in 1906, a time during which many fraternities were started at Wisconsin. Though the membership of the chapter is limited in a way, the house has found no difficulty in gathering together a group of excellent men.
The interests of the house as a whole follow principally athletic lines, as the house participates in most of the inter-fraternity sports.

Acacia men may be found in a variety of activities. They are interested and participate in politics, varsity athletics, and clubs and organizations of several kinds. LPHA GAMMA RHO Fraternity was founded at the University of Illinois and at Ohio State University in 1908 for college students in agriculture. At present there are 31 chapters in the national organization.
The chapter of Alpha Gamma Rho at Wisconsin was founded in 1916. Though the membership of the chapter is limited to men studying agriculture, the interests of the men in the house stray far from agriculture.

The house as a whole has taken an active interest in politics in the agricultural school and on the general campus, and it is known for its scholastic record, having placed first among fraternities scholastically several times.

Members of the chapter are active in many extra-curricular activities. They may be found on the staffs of publications, in athletics, and in social functions, on the entire campus.

Faculty Members: Prof. F. W. Duffee, Prof. G. C. Humphrey, Prof. V. E. Kivlin, Prof. W. A. Sumner, Prof. J. G. Moore, Prof. J. G. Halpin, Prof. J. B. Hayes, Prof. W. L. Walker, Prof. W. P. Mortenson, Prof. J. H. Kolb. Graduate Members: Edward Schantz, John Austin Baker, George Schafer, Morris Meshew, Harry Laidlow, John Callenbach, John Lilly.
1937: Allen Beckler, Wesley Christiansen, John Bixby, James Elliott, Waldo Freitag, David Hamilton, Jack Schinagl, Jack Tollefson, Arnold Wochos, Charles Herman.

1938: Elmer Dushek, Edwin Klassy, Randolph Briggs, Harris Babler, Wallace Kenyon, Eugene Lehrman, Robert Goodrich.
1939: Darrell Shultis, Edward Morris, Ronald Nelson, Richard Ames, Gordon Radke, Harold Imig, Lester Schade, Robert Schroeder, Truman Torgerson, Glenn Vergeront.
1940: Melford Clayton, Ernie Stricker, Robert Monk, Elton Imig, Robert Peacock, Harold Henneman, Robert Gehrhardt.

First Row: Christianson, Tollefson, Elliott, Schinagl, Shultis, Klassy.
Second Row: Morris, Wochos, Dushek, Beeckler, Hamilton.

## ALPHA GAMMA RHO

## ALPHA EPSILON PI

First Row: Fishbain, Barkas, Peckarsky, Ludwig, Waisman, Chaimson, Seiden.
Second Row: Manis, Cooper, Hurwitz, Gulkin, Fox, Berman, Lemberg, Nashbaum.
Third Row: Rolnick, Feldman, Karp, Siegel, Feldman, Rubin, Meisels.

Graduate Members: Sehmer Feld, Henry Fox, Nathan Manis.
1937: Herman Gulkin, Leonard Silgel, Edward Shapiro, Jules Karp, Victor Ludwig, William Rosenbaum.
1938: Martin Seiden, Milton Meisels, Morton Cooper, Sid Hurwitz, Samuel Chaimson.
1939: Mewton Peckarsky, Oscar Fishbain, Bernard Freudenfeld, Harry Waisman, Edward Nashban.
1940: Jerome Feldman, Meivin Schifter, Milton Padway, Mitchell Barker, Donald Bliman, Paul Rubin, Richard Zola, Raymond Lemberg, David Rolnick, Horace Feldman.

ALPHA EPSILON PI fraternity is a social traternity for Jewish college men. It was founded at the University of New York in 1913. The national organization now includes 20 chapters.

The chapter at Wisconsin was founded in. 1927, thus it is one of the youngest fraternities at Wisconsin. The chief interests of the present chapter are athletics and newspaper work.

The house inter-fraternity athletic team has been particularly successful in swimming and softball, having taken several championships lately.

Members of the chapter are actively interested in newspaper and journalistic work of many kinds. They may be found active on publication staffs. Other AEP's may be found on the varsity boxing and crew squads.

ALPHA DELTA PHI is one of the oldest fraternities, having been founded in 1832 at Hamilton College. The national organization has felt it better to follow a plan of restricted membership as far as chapters are concerned, so that at the present time, the national organization includes 26 chapters.

The local chapter was organized in 1902, and has become one of the old standbys of the campus. In any campus function of any importance, one is sure to find at least one Alpha Delt.

Alpha Delts may be found in a variety of activities. They may be found on Union Board, in politics, in Haresfoot, on publications staffs, and in many other functions, social and political.

The house has been an active entrant in the majority of the inter-fraternity sports, and has had a fair amount of success in them during the past year.

Graduate Members: R. Surplice, S. Brouwer, J. Burgess, J. O'Neill, S. White, J. Stoddard.

1937: C. Burghardt, D. Davis, E. Frazer, E. Johnson, W. Miller, D. Olson, C. Tully, W. Waterman, D. Graves, R. Billings.

1938: H. DeMuth, R. Grinde, C. Gross, R. Hood, G. Miller, C. Molter, J. Schueler, C. Ringle, D. Wilkie, C. Baer.

1939: E. Bullock, P. DeGuere, G. Frazer, W. Holt, G. Thompson, W. Upham.
1940: J. Collins, J. Daniels, H. Grinde, C. Ruhloff, R. Kirkland.

## ALPHA DELTA PHI

First Row: DeMuth, R. Grinde, Waterman, Burghardt, Tully, Olson, H. Grinde.
Second Row: Daniels, Bullock, Hood, Yost, Johnson, Schuler, Ringle.
Third Row: Surplice, Molter, Gross, G. Frazer, Ruloff, DeGuerre, Collins.
Fourth Row: D. Miller, W. Miller, E. Frazer, Young, Wilkie, Davis.

First Row: Johnson. Hagg, DeNoyer, Griswold, Wilson, Mau

## ALPHA KAPPA LAMBDA

Second Row: Axley, Upjohn, Kraus, Hill, Olson, Toepel, Miller, Oaks.
Third Row: Timmel, Cornwall, Baum, Nelson, Wells, J. Axley, Robinson.

Faculty Members: Prof. J. H. Mathews, Prof. J. G. Fowlkes, Prof. J. L. Gillin, D. L. Loughborough, Prof. E. L. Sevringhaus, Dr. Otto Toenhart, Prof. G. T. Trewartha, R. C. F. Bartels, Prof. R. B. Michell, Prof. R. H. Whitbeck.
Graduate Members: E. B. Mau, R. M. Spears.
1937: Herbert W. Wilson, John H. Axley, Russell H. Baum, Gus B. Timmel, Stanley G. Oaks, Donald B. DeNoyer, Donald W. Griswold, Merlin Graul, Kenneth Matson, Eugene Toepel.
1938: Harry L. Wells, Thomas T. Hill.
1939: Eldon M. Robinson, George S. Cornwall, Robert F. Draves, Richard W. Olson, Andy Johnson, Arthur C. Hagg, Albert W. Axley, F. Gay Upiohn, Donald Miller.
1940: Arnold Kraus, Roland M. Nelson.

ALPHA KAPPA LAMBDA is one of the younger national fraternities, having been organized in 1914. It is one of a few national fraternities that were founded on the west coast, having been organized at the University of California. The national organization now numbers ten chapters.

The chapter at Wisconsin was founded in 1923. The particular achievements of the chapter run in scholastics and music. The chapter has won the inter-fraternity scholastic cup ten out of its twenty-five semesters on the campus. It has lost the Inter-fraternity Sing trophy only once through 1936.

The men in the chapter have interests that follow closely the interests of the chapter as a whole. Each semester there are at least six Alpha Kappa Lambdas in the Men's Glee Club. The men are also interested in Y. M. C. A. work.

ALPHA SIGMA PHI Fraternity was founded at Yale University in 1845, The national organization at this time includes 33 chapters.

The chapter at Wisconsin was founded in 1909. The chapter house is located on the lake in the midst of the Greek section, and is one of the more differently designed of the fraternity houses.
The interests of the chapter are well spread through the field of extracurricular activities. Alpha Sigs may be found in a variety of activities.
The men in the house are particularly interested in politics. Men of the chapter may be found in varsity sports, and on committees for the various university functions of the year.

Graduate Members: John N. Kramer, Albert Avery, Donald Bonk, Leo Fox, Howard Hilgendorf, Edward Madler, James Sullivan, Thowal Toft, Robert Mangold.
1937: George Lightbourn, Burnell Eckhardt, Leo Fuss, Herbert Huennikens, Robert Herlihy, Donald Jones, Robert Kahlenburg, Sylvan Lee, Robert Maercklein, August Steinbrecher, Norbert Weisensel, Eugene Welch Elmer Steiger.
1938: Stuart Lathrop, Neale Clark, Walter Hagen, Edgar Wiberg.
1939: Dean Boettcher, Donald Booth, Carl Forsgren, Frank Henry, William Kuester, Robert Norton, Francis Strumreiter, Trifton Haritos.

1940: Robert Ackerman, Eugene Clifford, Charles Harper, Robert Jones, Charles Sieloff, Edward Weigandt, Phillip Raddatz.

## ALPHA SIGMA PHI

First Row: Strumreiter, Haritos, Boettcher, Booth, Steinbrecker, Lathrop, Eckhardt, Maercklein.
Second Row: Toft, Hilgendorf, Norton, Jones, Haller, Huennikens, Clifford.
Third Row: Lightbourn, Wiegandt, Sieloff, Bonk, Raddatz, Kramer, Mangold, Forsgren

## ALPHA TAU OMEGA

Faculty Members: Dean John Bergstresser, Philo Buck, Dr. J. Dollard, Porter Butts, Dean Charles Dollard, Dr. P. F. Clark, V. A. C. Henmon, Dr. Walter Meek, Dr. C. H. Sorum, Dr. R. H. Stiehn, Prof. C. D. Zdanowicz, Dean W. S. Middleton, Prof. J. S. Evans.
Graduate Members: Robert Dickerson, Sion Rogers, Cylon Meisner, George Schroeder, Charles O'Connell.
1937: Robert Christl, Karl Hilgendorf, George Johnston.
1938: Jack Maxwel Robinson, William Hofert, Sam Mead, Percy Rosemurgy, Marshall Morley, Kiel Gibbs, Melvin Walker.
1939: Kurt Kuehlthau, Robert Holcombe, William Kline, Lyle Schuman, John Fredricks, William Haebig, Howard Lynch, James McCormick, John Marshall, Walter Eisenack, Jack Anderson, Weston Levisee, Robert Macaulay.
1940: Louis Trubshaw. Harold Packard, Harry Martin, George Pellegrin, Edmond Zeisig, Arthur Eisenman, John Urschitz, Henry Allen, Robert Reed, Keith Johnson.

First Row: Fredricks, Hilgendorf, Pellegrin, Trubshaw, Martin, Fredricks, Hofert.
Second Row: Reed, Dickerson, Eisenack, Robinson, Kuehlthau, Rosemurgy.
Third Row: Marshall, Schuman, Morley, Holcombe, Christl, Kline, Lynch.
Fourth Row: McCormick, Mead, Eisenman, Johnson, Packard, Zeisig.

ONE OF THE old southern fraternities, Alpha Tau Omega, was founded at Virginia Military Institute in 1865. The present national organization now numbers 94 chapters.
The Wisconsin chapter was founded in 1907. The interests of the chapter are well diversified. ATO's may be found in many activities. They are principally active in politics, and in the organizations that have to do with the campus military organizations.

The house as a whole participates in interfraternity athletics of many kinds, and has been a strong contender in several of the fields.

ALPHA CHI RHO Fraternity was founded at Trinity College in 1895. It has followed a policy of limitation in its national membership, so that their national organization now includes 22 chapters.

The chapter at Wisconsin was founded in 1922. The chief aim of the house is to see that each man becomes interested in some extra-curricular activity in addition to maintaining a high scholastic standard. This aim has been well accomplished, and Alpha Chi Rho is known for its activity men.
Members of Alpha Chi Rho may be found prominent in politics, on Union Board and Union Assisting Staff, in publications staff, and in varsity sports.
The house as a whole undertakes to cooperate with the university in all university functions, and with the fraternities in measures to promote the welfare of fraternities.

Faculty Members: Sanford Atwood, Dr. Lew Cole, Dr. Kenneth Lemmer.
Graduate Members: Philip Koch, Charles Orth, Erwin Fredrich, Frederick Fuhrman, Walter Rowse.

1937: Wallace T. Drew, John Decker, Fred Sielaff, Ralph Frank, Robert Knight, Hugh Lucas, Frank Komar, Karl Boedecker.

1938: Thomas Hyland, Harry Klueter, William Packham, Ernest Lutze, Norman Baillies, Jack Clifford, William Heise, Robert Stevenson, Joseph Helz, Harold Liebich.
1939: Raymond Vallier, Howard Bell, Richard Vohl, Wallace Irwin, Fred Ramlow, Robert Vohlbrecht, Al Busse, George Kissel.
1940: Ralph Boldt, Russ Foss, Douglas Burnett, William Gleis, Victor Weiss, Robert Longwell, Carlos Hessler, Chuck Schulz, Ernest Hesse, Ralph Zabel, Robert Kaems, Russ Gahnz, Joe Grasser, Bruce Dalrymple, George Weber, Jack Savidusky.

## ALPHA CHI RHO

First Row: Drew, Bell, Clifford, Rowse Frank, Volbrecht, Komar, Seelaff.
Second Row: Baldt, Irwin, Koch, Kleuter, Hessler, Schulz, Wise
Third Row: Busse, Burnett, Neilsen, Fredricks, Decker, Helse.
Fourth Row: Longwell, Grasser, Kaemer, Weber, Vahl, Gleise, Vallier.
Fifth Row: Dalrymple, Savidusky, Hesse, Fuhrman, Lucas, Ramlaw.

## BETA THETA PI

Faculty Members: C. H. Buniing, G. Downer, J. A. E. Eyster, D. L. Halverson, W. E. Leonard, B. McCoy, C. P. Nettels, F. A. Ogg, B, Rowland, H. Schwenker, H. Smith, L. S. Smith.
1937: Paul Hibbard, Edmond Heinrichmeyer, Edwin Jones, Kennedy Leonard, Robert McLaughlin, Ben Reynolds, Robert Spanagel, David VanEpps.
1938: Donald Gooding, George Hays, Richard Hofmann, Edward McCullough, Bird Martineau, George Oetting, Gordon Smith, Paul Tuttrup, Fred Ullrich, John Morwitz.
1939: John Boyle, John Gilkie, John Heuser, Robert McGillivary, Richard Metter, Wilson Stewart, David lunghuhn, William Taylor, Hannon Titsworth, Frank Yordy, Robert Altman.
1940: Richard Jones, William Kelly, Edward Jones, George Sutton, Guy Dudley, James Dunwoodie, Joseph Murgen, Joseph Sharpe, Jack Gaumer, James Wall, Edward Morse.

First Row: Martineau, Hayes, Tuttrup McLaughlin, Leonard, Taylor, Heuser, Metter.
Second Row: Altman, Geisel, McCullough, Reynolds, Colburn, Dudley, Dobson.
Third Row: Ullrich, Stuart, Rogers, Gilkey, Pfeil, Oetting, lunghuhn, Beeby.
Fourth Row: Sharpe, Smith, Spanagel,
Gaumer, Jones, Smith, Boyle.
Fifth Row: Schulz, Jones, Hofmann, Jones, McGillivary.

ONE OF THE famed national fraternities founded at Miami University, Beta Theta Pi was organized at that place in 1839, well toward the beginning of fraternity history. Its national organization now numbers 87 chapters.
One of the older fraternities on the campus, the local chapter was established in 1873. The present chapter is one of the largest on the campus.

Betas are to be found in almost every activity on the campus. A Beta is Sophomore Class president, another is business manager of Haresfoot, another is on the Cardinal Board of Control.

In addition, Betas are active in many extra-curricular activities, such as politics, publications staffs, and athletics. The Beta house is an active participant in inter-fraternity sports, and the house is known for its popular social affairs.

FOUNDED AT Yale University in 1844, Delta Kappa Epsilon is one of the most strongly established fraternities in the country. The national fraternity now includes 47 chapters.
The chapter at Wisconsin came into being in 1906. The chapter house is located on Mendota, a short distance beyond the end of Langdon Street, and far enough away from the confusion of Greek Row to provide a pleasing atmosphere.

Dekes are prominent in many activities. They may be found in varsity football, on publications staffs, in Cardinal Key, and in many other activities.

The house has been especially fortunate in its inter-fraternity sports encounters, and the men in the chapter seem to find a particular interest in the military organizations of the university.

Faculty Member: George Rodman.
Graduate Members: Walter Roethke, Francis Beaudette, Owen Goodman, Roland Martens.

1937: John Steinman, Paul Jensen, Lawrence Simon, John Brubaker, Lawrence Fitzpatrick, Downing Edwards, Samuel Chaney, John Golemgeske: Frank Parrott.
1938: Howard Huenink, Robert Fish, Kent Lundgren, Stephen Gavin.
1939: Frederick Dohmen, George Cartwright, Walter Vollrath, Robert Pfeifer, Frederick Baxter, Douglas Terrell, Joseph Springer, Robert Rehfeld, William Smiles, Edward Walters.
1940: Jack Sorenson, Jack Hibbard, Andrew Groom, Earl Netzow, Robin Smith, Donald Lange, Charles Stooks, Jack Clark, Bud Griffiths.

## DELTA KAPPA EPSILON

First Row: Sorenson, Simon, Brubaker, Steinman, Smiles, Terrell, Springer, Martens.
Second Row: Cartwright, Smith, Fish, Edwards, Dohmen, Rehfeld, Wiedeman. Third Row: Parrott, Netzow, Huerrink, Chaney, Ryan, Roethke, Pfeifer, Lundgren.
Fourth Row: Baxter, Dreher, Jensen, Fitzpatrick, Gavin, Golemgeske, Vollrath, Walters.

## DELTA THETA SIGMA

Faculty Members: William Ogden, C. A. Elvehjem, Marvin A. Schaars, Robert J. Muchenhirn, G. William Longenecker, Henry L. Ahlgren.
Graduate Members: Lee Kline, Bernerd E. Kline, Forrest Quackenbush, Raymond C. Klussendorf, Milton Bliss, Raymond Christensen, Gilbert Ahlgren.
1937: William W. Goehring, Henry N. Haferbecker, Clifford Kindschi Stanley Olson, Alvin H. Rogers, Orville Wyss, Robert Berstrom, James Judd, Edward Preslik, George Lewis.
1938: George E. Gresch, Norman Johnson, Russell O'Harrow, Lawrence Plzak, Marcus W Schmidt, Alvin Vogt, Wayne M. Watkins, Arthur E. Weiner, Milton Wiesner, James Webe, Joseph Steingraber, Vernon Richter, Bruno Zucollo, Ray Fischer, Clement Schmeige, Ervin Holzheuter. John Porter Carl Backes.
1939: Arno H. Hafemeister, Ray Hesprick, Ward Fischer, Robert Hazelberg.

First Row: Hespric, Hoffmeister, Steingraber, Bergstrom, Schmiege, Gresch.
Second Row: Vogt, Richter, Bachus, Zucolle, Hazelberg, Wiebe, Fisher, Fisher. Third Row: Lewis, Judd, Olson, O'Harrow, Holseuter, Porter, Kindschi.
Fourth Row: Weiner, Haferbecker, Plzak, Goering, Schmidt, Wiesner.

DELTA THETA SIGMA is a social fraternity for college students in agriculture. It was founded at Ohio State University in 1905, and at the present time has chapters at Ohio State University, Pennsylvania State University, and the University of Wisconsin.

The local chapter was founded in 1927. At the beginning of the past year, the chapter established a house at Madison for the first time. It is located on West Johnson Street, near the Agricultural campus.

The chapter has maintained a high scholastic record, having ranked second among the fraternities during past years. It has also done well in interfraternity athletics.

Among the chapter may be found men that are well known for their Ag campus activities and their activities on the campus as a whole. Delta Theta Simgas may be found in varsity wrestling, in high positions on the National Ag Council, in Alpha Zeta, and in the National Dairy Cattle Judgings.

DELTA SIGMA PI is a national fraternity for students in commerce. It was founded at New York University in 1907. Though the organization is young, at the present time it includes 55 chapters.

The chapter at Wisconsin was founded in 1923. The chapter house is located in a restricted neighborhood that is close to the commerce school and near the stadium. It is a neighborhood in which no more fraternity or sorority houses may be built.
The chapter's main interest is commerce school functions, and its members may be found among the sponsors of many a commerce school affair. The chapter has set up a placement bureau so that its members may more readily find employment upon leaving school.
Though the principal interest of the house is in commerce, the chapter finds time to participate in inter-fraternity sports, in which it has had much success, having been especially good in bowling this year.

Faculty Members: J. Currie Gibson, Chester Lloyd Jones, Alfred W. Peterson, Harry M. Schuck.
Graduate Member: Paul L. Rockey.
1937: Miles T. Armstrong, Harold H. Berkholtz, Clarence H. Bleedorn, Eugene Morton Davis, Carl W. Gabbert, Howard E. Gearhart, Martin W. Helz, Roy O. Hilgert, Harold J. Kailing, Alex D. Penman, Stephen E. Rondone, George H. Schwenk, Karl W. Storck, Delbert Schmidt, Charles H. Heyer, Albert Hanson.

1938: John H. Gerlach, Albert Kersten, Stanley Phelps, O. Robert Sandeen, Alan H. Skowlund, Miles M. Smith, Woodrow Tupper, Raymond Swazick.
1939: James Burns, Walter Conway, George Merwin, Eugene Speltz, Allen Palmer.
1940: Arthur Horne.

## DELTA SIGMA PI

First Row: Rockey, Phelps, Bloedorn, Armstrong, Storck, Heyer, Horne.
Second Row: Hilgert, Kailing, Schuck, Sandeen, Tupper, Schmidt, Helz.
Third Row: Rondone, Gabbert, Skowlund, Kersten, Speltz, Wickus, Smith, Davis.
Fourth Row: Gearhart, Conway, Gerlach, Berkholtz, Schwenk, Hanson, Penman.

## DELTA TAU DELTA

First Row: Dahl, Kuelthau, Higley, Meythaler, Koether, Bernnard, Stewart, Shaw.
Second Row: Knaack, Riley, Chadwick, Reierson, Klumb, Lind, Karn.
Third Row: Manchester, Fisher, Ames, Higley, Reilly, La Breck.

Faculty Members: J. Homer Herriott, Gaines Post, Charles Birt, John Stedman, Robert M. Neal, Edward Manchester.
Graduate Members: Thomas Callaway, Hervey Dietrich, John Frost, Gregory P. Langenfield, Maynard Reierson, Robert W. Schneider, Norman Scott, H. Lougee Stedman.
1937: Robert M. Bernnard, Kenneth V. Dahl, Martin L. Koether, Richard V. Reierson, Edgar Riley, Ranous Stewart.

1938: Clarence Karn. Francis S. LaBreck, Ronald O. Lind, Richard Meythaler, John Riley.
1939: William Chadwick, Hugh Higley, Eugene Kuelthau, Edward Simon.
1940: Orville Fisher, Kenneth Higley, John Klumb, Joseph Knaak.

DELTA TAU DELTA was organized at Bethany College in 1859. The national organization now numbers 75 chapters.

The chapter at Wisconsin was established early in the days of fraternities at Wisconsin, in 1888, and has become one of the standbys at Wisconsin.

During the past year, the house has instituted new efforts along several lines. It has placed a primary emphasis on scholastics and has endeavored to place all of its men in extra-curricular activities. A further undertaking of the chapter has been to cooperate one hundred per cent in all university campaigns.

Members of the chapter are active in many fields. They participate in politics, publications, athletics, and other outside interests. They have established and attempted to further amicable relationships with other fraternities by combining with them in social activities.

DELTA UPSILON Fraternity was organized in 1834 at Williams College as a college fraternity opposed to secret college fraternities. According to the by-laws, the public may attend any meeting of their 57 chapters, since none of the ritual is secret.

The local chapter was established fifty years after the organization of the fraternity, in 1884. The particular interest of the chapter as a whole is in athletics, and the house has fared well in inter-fraternity athletics.

DU's may be found in many campus activities. They are active in politics, on Union Board, on publication staffs, and in varsity athletics.

Graduate Members: William Calvey, Raymond Nordman, C. Morse Puls Herbert Terwilliger, Edwin Wilkie, John Whitney.

1937: John Byrns, Robert Glassner, Harold Hoffan, Clarence Mueller James Neller, Arthur Pease, Robert Petri, John Ullrich, James Wilkie.

1938: Jay Ashbrook, Walter Bond, Charles Brady, Stanley Brown, Gerald Ferguson, Roland Kennedy, Arthur Meier, Horace Wilkie.

1939: Gordon Forester, Harvey Kutchera, Robert March, James McArdle, John McGhee, Jack Melcher, Brooks Robinson, George Sirotkin, Stanton Stavrom, Ivar Torkelson, Homer Trebilcox, Leonard Schlitz, John Zimdars,

1940: Donald Biehn, John Findorff, Stewart Edgerton, Robert Howard James McGlynn, Heber Ryan, Robert Stewart, William Twenhofel, Tom Wyseman, Jack Wilkie.

## DELTA UPSILON

First Row: Huffman, Mueller, Ullrich, J. Wilkie, Petri, Kennedy, Byrns, Pease, Hawkinson.
Second Row: Sirotkin, Ashbrook, McGhee, Melcher, Torkelson, J. Wilkie, H. Brown, H. Wilkie, McGlynn, Wyseman.
Third Row: Brady, S. Brown, Trebilcox, Stewart, Kutchera, Bond, Edgerton, Robinson, Krum.
Fourth Row: Helstrom, Wardle, Twenhofel, Biehn, Ferguson, McArdle, March, Howard.
Fifth Row: Stavrum, Findorff, Schlitz, Ryan, Meier, Forester, Zimdars.

## DELTA CHI

First Row: Drollinger, Ritter, Dieman Becker, Tollaksen, Liessmann
Second Row: Greenwood, Laabs, Wolf, Ickleberg, B. Becker, Thompson, Hahn Third Row: Garcia, Harrison, Bennett, Foelsch, Pickle, Ryan.
Fourth Row: Larson, Zimmermann, Wese loh, Voegel, Roessler, Nye, G. Wright.
Fifth Row: Robbins, Smith, Ricks, Timbers, Krostruë, Bartol, Lepeley.

F
OUNDED IN 1890 at Cornell University, Delta Chi Fraternity now includes 35 chapters in its national organization.

The chapter at Wisconsin was founded in 1921, thus it is one of the younger fraternities at Wisconsin.

Primary interests of the house are athletics and politics, though the men find interests in many other fields. Since the national fraternity has established advisory scholastic and financial systems, the chapter has had little difficulty in either line obtaining and holding high standards.

Delta Chi's may be found active in politics, university affairs, such as Homecoming and Orientation Week, as well as in honorary scholastic organizations.

ZETA BETA TAU Fraternity was established at the College of the City of New York in 1898 for Jewish university men. The national organization at the present time includes 35 chapters.

One of the younger chapters on the campus, the local chapter was organized in 1922. The interests of the men in the chapter are varied, and the chapter takes part as a whole in many university affairs. The house is known for its Homecoming decorations.

The men in the chapter may be found in various activities. They take part in varsity athletics, on committees for special occasions, in Haresfoot, on publications staffs, and other activities.
The chapter has been quite successful in inter-fraternity athletics.

1937: Howard M. Tiechmann, E. Adrian Silver, David Zenoff, Robert D. Polatsek.

1938: Jerome Kumin, Ralph V. Guinzburg, David Blauschild.
1939: Seymour M. Anoff, Robert Nathan, Edward Freschel, Edward Heineman, Joseph Gollusch, Gerald Harris, Paul R. Bernstein.
1940: Robert Riegleman, Robert Luntz, William H. Meyers, Louis Porter, Jr., Hubert Silverberg, Roger Bender, Donald Michelstetter, Robert H. Minden, Gerald Glasspiegel, Alfred L. Kohn, Jr., Seymour Granatz, Leon Epstein.

## ZETA BETA TAU

First Row: Bernstein, Anoff, Kumin, Tiechmann, Polatsek, Silver.
Second Row: Rieglemann, Luntz, Nathan, Meyers, Porter, Guinzburg, Silverberg.
Third Row: Freschel, Bender, Michelstetter, Minden, Heineman, Zenoff.
Fourth Row: Blauschild, Gollusch, Glasspiegel, Kohn.

- 305 •

First Row: Elam, Halladay, Pinegar, Jankus, Porter.

## THETA DELTA CHI

Second Row: Schwanberg, Brandt, Clarke, Blodgett.

Faculty Members: Merritt Y. Hughes, H. B. Doke, Alexander Meiklejohn.
Graduate Members: Warren Pinegar, John Thompson, Paul Thiele, Arthur Sanborn.
1937: Edward Elam, Gerhardt Getzin, Fred Schwanberg, Herbert Wake. Earl Ellis.

1938: Franklin Halladay.
1939: Robert Brandt, Norman Porter, A. Allan Jankus, Don Blodgett.
1940: Walter Clarke.

THETA DELTA CHI is another of the national fraternities that came into being at Union College. The fraternity was established in 1847, early in fraternity history.
The chapter at Wisconsin was organized in 1895, thus the chapter is also one of the older ones on the campus.

Though the present chapter is not a large one, the men are active participants in university affairs. They take part in several extra-curricular activities, and in university athletics.

THETA XI Fraternity was founded at Renssalaer Polytechnic Institute in 1864 as an engineering fraternity. In 1926, the fraternity was changed to a social fraternity. At the present time, the national organization numbers 36 chapters.

The chapter at Wisconsin was organized in 1917. The principal interest of the present chapter is in athletics. The house is active in inter-fraternity athletics, having won the Badger Bowl for supremacy in inter-fraternity athletics for two consecutive years.

As evidence of the interest of Theta Xi's in athletics, four of the recent graduates of the chapter are in professional baseball at the present time.

Theta Xi's may be found in many activities. There are Theta Xi's in varsity crew, varsity basketball, and varsity football. The men are also interested in Wisconsin Players.

Faculty Members: Dean Turneaure, C. Davis, K. Stampp.
Graduate Members: W. Felber, E. Owens, W. Kastein, A. Zebro, K.
Chase, E. Wilke, G. Deanovich.
1937: Robert Ba!dwin.
1938: B. Kastein, D. Greenwald.
1939: B. Davis, R. Greenwald, W. Garrott, G. Moede, K. Gunderson, O. Wedekind.

1940: W. G. Craig, E. Koehl, K. Sargeant.

## THETA XI

First Row: Zerweis, F. Davis, Felber, B. Kastein, Baldwin, R. Greenwald, Gunderson.
Second Row: Skoblin, Koehl, Zebro, Wedekind, Craig, D. Greenwald.
Third Row: Hanson, W. Kastein, Deanovich, Garrott, B. Davis.

## TRIANGLE

First Row: Luecker, Dieterle, Watters, Deno, Adams, Maersch.
Second Row: W. Mitchell, M. Anderson, Schluter, Evans, Youngblutt, Sheerar, Wilson.
Third Row: Bauer, Tjepkema, Wilke, Roberts, Wood, Phillips, Ferber, A. Anderson.

Faculty Members: W. S. Kline, G. L. Larson, Richard S. McCaffery, D. W. Mead, John R. Price.

Graduate Members: William Z. Fluck, Richard S. Hartenberg, Joseph A. Liska, Harry H. Wilson, Harry R. Maytum.
1937: Stanley R. Adams, Leslie J. Deno, Rex C. Dieterle, Arthur R. Luecker, Robert E. Maersch, Sidney Tiepkema, George M. Watters.
1938: Arthur W. Anderson, Martin P. Anderson, August L. Ferber, Howell E. Roberts, Lewis L. Sheerar, John H. Wood, Sumner P. Youngblutt.
1939: Edward E. Bauer Ralph H. Evans, James E. Phillips.

ONE OF THE twentieth century fraternities, Triangle was founded at the University of Illinois in 1907. Triangle is a social fraternity, but its membership is limited to students in engineering. From its limitation in membership comes its name, Triangle. Since its organization in 1907, Triangle has grown so that now it includes 16 chapters.

The chapter at Wisconsin was founded in 1913. Since its founding here, it has been known for its high scholastic record. Because all of its members are engineering students, the interests of the house are closely knit. The fact that the members are divided between different branches of engineering makes for a variety to the interests within the group.

Five faculty members are members of Triangle, and the present chapter members may be found active in many engineering school activities.

ORIGINALLY a southern fraternity, Kappa Sigma was founded at the University of Virginia in 1869. The national organization at this time numbers 108 chapters.
The chapter at Wisconsin was established in 1898. The primary interest of the chapter in extra-curricular activity at this time seems to bo athletics.

Kappa Sigs may be found in several varsity sports, including varsity football and varsity basketball. The house participates actively in inter-fraternity athletics, and last year won the inter-fraternity baseball championship.

Among the Kappa Sigs may be found an ex-prom king, a freshman swimming coach, several politicians, and a collection of nicknames never before equalled in Wisconsin fraternity annals.

Faculty Members: S. Lee Ely, Victor S. Falk Harold E. Foster, Dr. Joseph Gale, Scott H. Goodnight, John C. Hickman, William H. Lighty, Dr. E. E. Neff, Major Remington Orsinger, John H. Reynolds, Guy M. Sundt. Graduate Members: Robert Barter, Bruce Beilfuss, Robert Lalk, David Leavitt, Leonard Raymaker.
1937: Carl Beck, Thomas Bourke, Allan Davidson, Robert Conohan, James F. Wright, Richard Johnson, Raymond Pleak.

1938: Leo Hammacher, John Budde, Roderick Smith, Robert Neubauer Manny Frey, William Coyne, John Woy, Carl Walter, William Marx, Ray Shambaugh, Wendall Turner, Fred Benz, Joseph Bookwalter.
1939: William Davies, Martin Bonesteel, Howard Weiss, Charles Tennant, Albert Sternkopf, Donald Roberts, Thomas Neubauer, John Murphy, Francis Hurdy, Howard Tollack, Carstens Slack, Lowell Schoengarth, Harold Logan, Walter Mass.
1940: Collins Ferris, Hamilton Hayne, Arthur Fredrickson, David Rowe James Lake, John Darling, Richard Scheffler, Howard Wiley, Emery Van Natta, George Ema, Robert Oeflein, Shelbourne Dunkle, Ralph Zabel, John Zimmerman, Richard Fenno.

## KAPPA SIGMA

First Row: Neubauer, Roberts, Wright, Johnson, Benz, Beck, Kranbeuhl.
Second Row: Tennant, Shoengarth, Fredrickson, Bonesteel, Marx, Maas, Sternkopf, Tollack.
Third Row: Smith, Weiss, Darling Turner, Murphy, Logan, Slack.
Fourth Row: Raymaker, Frey, Davidson Walter, Hardy, Woy, Shambaugh.

## PI KAPPA ALPHA

Graduate Member: Ralph Marts.
1937: Chester Coulson, Joseph Studholme, Allan Studholme, Paul Bast, William McCullough, Charles Gerlach.
1938: George Wepfer, John Pamperin, Loren Weld, Carlton Brechler, Bernard Green, Ray Welbourne, Carl Giglio, Richard Dahl, John Gerlach, Henry Winsauer.
1939: Clarence Gettleman, Robert Yirchott, William Egdahl, Frederick Huebner, John McVay, Robert Neprud, Duane Cutting, John Beule, Millard Duxbury.
1940: William Thessin, Edward Krause, George Hipskind, Troxel Salisbury, Robert Johnson, Everett Welbourne, John Randall, John Saxe, William Remington, Verne Knol!, Clyde Rhode.

First Row: Marts, Studholme, Beule, Bast, Neprud, McCullough, Cutting.
Second Row: Randall, Saxe, Gerlach, Winsauer, Remington, Knoll.
Third Row: Welbourne, Coulson, R. Welbourne, Huebner, Giglio, McVay, Dahl.
Fourth Row: Salisbury, Johnson, Weld, Gettleman, Yirchott, Brechler, Egdahl, Green.
Fifth Row: Thessin, Krause, Wepfer, Pamperin, Hipskind.

ONE OF THE southern fraternities, Pi Kappa Alpha was founded at the University of Virginia in 1868. At the present time the national organization includes 79 chapters.
The local chapter was established in 1920, thus it is one of the younger chapters on the campus. The tall white columns on the front of the house on the edge of Mendota may be seen from many places along the lake.
The men in the chapter are interested in a variety of extra-curricular activities. They may be found in varsity sports, on publications staffs, and in many other organizations.

The house participates actively in inter-fraternity athletics, and the chapter is well known for its popular social affairs.

DI LAMBDA PHI Fraternity was founded at Yale University in 1825 for Jewish College men. Since that time, the fraternity has grown nationally to include 18 chapters.

The local chapter was established in 1926. The chapter has placed an emphasis on scholastics, and has thus ranked among the first ten fraternities scholastically for the past several years.

Members of the present chapter may be found in a variety of activities. They may be found prominent in varsity athletics, publications staffs, and in politics.

Other members of the house are active participants in politics, forensics, athletics, and publications, and several are members of honorary organizations.

The house as a whole has been a strong contender in inter-fraternity athletics, and has added several trophies for this in the last two years.

Faculty Member: Morton Bloomfield.
Graduate Members: Jack Harold Levy, Irvin W. Unger.
1937: George H. Feinberg, Jules Gottlieb, Marshall M. Holleb, Richard E. Marcus, Derald Ruttenberg, Irving M. Silver.

SIGMA ALPHA EPSILON is one of the oldest and largest fraternities in the country. It was organized at the University of Alabama in 1856, and at this time includes 109 chapters.
The Wisconsin chapter was founded in 1902. While the present interests of the chapter seem to tend toward athletics, the majority of men in the chapter are not athletes. The chapter, in addition to having men in many varsity sports, has been high in inter-fraternity athletics. They have been winners of the Badger Bowl for two successive years, in 1935 and 1936, and have added to their string of trophies each year.

Individually, the chapter members are active. They may be found in politics, dramatics, and musical organizations, as well as in the major sports.
The chapter each semester gives cash awards to the five pledges having the highest grades. This is an added incentive to keep the house average up. Each year in March an initiation is held at the SAE Levere Memorial Temple in Evanston, Illinois. The temple is the envy of all other fraternities.

ONE OF THE older fraternities, Sigma Nu was founded at Virginia Military Institute in 1869. Since its founding, Sigma Nu has grown to include 96 chapters in all but two states of the country.
The chapter at Wisconsin was founded in 1902. The present chapter house was the first built as a fraternity house at Wisconsin.
The house has been active as a house in intramural sports. The last two years have seen the addition of a row of new cups from inter-fraternity competition.

Sigma Nu's may be found in all of the major sports, from football to fencing. Its members are active on the staffs of four university publications. Sigma Nu's may be found in politics, on Union Board, and in outside activities of many varieties.

Faculty Members: H. F. Wilson, Dr. DeBusk, Perry Wilson, Don D. Lescohier, Ray Owen.
Graduate Member: Connor Hansen.

Third Row: Bickley, Porterfield, Anderson, Douglass, Kissel.

THE OLDEST national fraternity, Sigma Phi, was founded in 1827 at Union College in Schenectady. New York. The fraternity has followed a policy of limitation, so that they have held the national organization to ten chapters.

The chapter at Wisconsin was founded in 1908. This chapter carries through the national policy of limitation by restricting its membership to 20 men. This policy allows the chapter to be very selective in its rushing, and as a result, the chapter is made up of excellent fraternity material.
The relatively small size of the chapter makes it easy for the men to keep in close touch with each other, and for the actives to maintain close contact with the pledges. For this reason, the house had the highest pledge average for fraternities in 1936.

The interests of the men in the chapter are widespread. Sigma Phi's may be found on Union Board, in Union committee work, in the University Theater, in the Band, Orchestra, and Glee Club, and in Varsity Tennis.

NE OF THE younger of national fraternities, Sigma Phi Epsilon has shown outstanding ability in its growth to 68 chapters since its founding at the University of Richmond in 1901.

The present chapter, founded in 1921, has shown a like ability to step in as a youngster and take its place with more firmly established fraternities.

The house has taken major and minor championships in inter-fraternity athletics for the past two years, and has been a close contender for the Badger Bowl.

Members of the chapter may be found in a variety of activities. Sig Ep's may be found on publications staffs, in varsity athletics, in musical organizations on the campus, and in several honorary organizations.

Faculty Members: R. W. Husband, H. W. Ruf, L. E. Pfankuchen, M. Kline, G. Martin, C. G. Watson, Dr. D. Brouse.

Graduate Members: Thomas Connor, Phillip Clark, Sidney Felts, Carro: Heffernan, John Pickle.

tianson, Pick, Millard, Krause, Fields,
Corisch.

ONE OF THE famous national fraternities founded at Miami University, Sigma Chi was established in 1865 . The national organization now includes 96 chapters.

The Sigma Chi chapter at Wisconsin was organized in 1884. The interests of the present chapter are somewhat varied, though they seem to run toward athletics.

The house has been an active participant in inter-fraternity athletics, and has been fairly successful in them in the past two years.

Sigma Chi's may be found in many extra-curricular fields. They may be found in varsity football, Union Board, Union Assisting Staff, and a variety of other activities.

HI GAMMA DELTA Fraternity was founded at Canonsburg, Pennsylvania, in 1848. The national organization now includes 73 chapters.
The local chapter was organized in 1893. The chapter as a whole has made it a policy to be actively engaged in campus affairs, as have its members.
Phi Gam's are active in athletics, politics, publications, Union Board, and a variety of other things. The house has ranked high in the fraternity struggle for the Badger Bowl during past years, as it has in the annual inter-fraternity sing held each spring.

In addition, the fraternity lays claim to being the instigators of the founding of Kappa Alpha Theta Sorority.

Faculty Members: Miles L. Hanley, Edward A. Ross, Dr. Jules Bieaux, George Bird, Dr. Mead Burke, Evan A. Evans, Jr., W. S. Kinne, O. L. Kowalke, Robert McCormack, Fred Merwin, Dr. William Merway, Dr. Gordon Ritchie, William Sarles, John Walsh, John Williams, A. N. Winchell, Harold Kubly, Robert Smith Heinze.
Graduate Members: Frederic R. Holt, Walter Nitcher, John Kirk Wood, Robert Smith Heinze, Joseph Harold Batzle, Jr., Ward Stevens Parker, John Joseph Walsh, William Carter Dill, Herbert Lee Blackstone, Frederick Erwin Foerster.

PHI DELTA THETA Fraternity was founded at Miami University in 1848, and has grown to include 106 chapters since that time.

The oldest fraternity at Wisconsin, the local chapter is one of varied interests. Members may be found in politics, Union Board, publications and dramatics. Other members of the chapter are known for their scholastic records. The house has been in the upper third group scholastically for the last three years.

During the past two years, the house has added considerably to its string of interfraternity athletic trophies, having won them in basketball, tennis and football.

PHI EPSILON PI Fraternity was founded at the City College of New York in 1904 as a fraternity for Jewish college men. At the present time, the national organization numbers 32 chapters.

The local chapter, which was founded in 1925, has declared its purpose to provide a general cultural background for its members. It has done, and is doing this by helping its members to enlarge their interests and enter into a variety of extra-curricular activities.

The house in which the chapter resides has been named by Banta's Greek Exchange as one of the most beautiful fraternity houses in the country.

With this house as a background, the chapter has gained fame in the past several years from its clever and original Homecoming and Winter Carnival decorations.

Graduate Members: Allan L. Cohen, David N. Goldstein, Norman W. Gordon, William E. Kaplan, Charles Rosenberg, Myron L. Silver, Milton R. Wexler.

1937: Jerome Kaufman, Wirth Koenig, Earl Nickoll.
1938: Jules Bernat, Robert Bernstein, Eugene Brooker, Warren Levy, Gerald Libman, Seymour Offenberg.

PHI KAPPA Fraternity was founded at Brown University in 1889 for Catholic college men. At the present time the national organization includes 24 chapters.
The chapter of Phi Kappa at Wisconsin was founded in 1922. Though the membership is selective as to religion, the chapter has found a large group from which to pick, and has thus assembled a chapter of fine fraternity men.

Members of the chapter may be found in a variety of outside activities. Phi Kappa's are active in Catholic student organizations, on Interfraternity Board, Scabbard and Blade, Pershing Rifles and Wisconsin Players in responsible positions.

In addition, the house is active as a whole and individually in politics, athletics, dramatics, and club work of several kinds.

HI KAPPA SIGMA is one of the older national fraternities, having been founded at the University of Pennsylvania in 1850.

The chapter at Wisconsin was founded in 1901, a period during which a great number of fraternities were organized here.

The chapter takes great interest in the scholastic activities of its members. During the year 1935-36, the house was second in scholarship among fraternities.

Members of the chapter may be found active on publications staffs; and in athletics. The house also has been active in inter-fraternity athletics.

Faculty Members. Major W. Yancey, W. Taylor, W. H. Woerner, James W. Watson, Donald R. Fellows, Lewis E. Reber, Harry Thoma.

Graduate Members: Emil Hokanson, Robert Kroncke, Stanley More,
1937: Frederick Fowle, William Gnann, Frank Hoffman, Arthur Roenber, Frank Stone.

1938: Robert Berg, Frederick Gunther, Richard Johnson, Arthur Krumhaus, Robert Kuemmerlein, Woodrow Meyers, Robert Rosenheimer, Howard Ruff, Henry Voigt, Richard Lohr, Frank Hamachek, Robert Oberwetter.
1939: Valbur Borger, Henry Greenseth, Richard Hamachek, William Kommers, Wade Mosby, Ralph Madson, James Reed, John Richardson, Robert Townsend.

1940: John Behrends, Francis Fenske, George Jacobson, Alex Prengle.

Third Row: Johnson, Laubenstein, Heun, Millin, Zehms, Pollack.
Fourth Row: Waddell, Curtin, Pullen, Stiles, De Groot.

ONE OF THE older fraternities, Phi Kappa Psi was founded in 1852 at William and Mary College in Canonsburg, Pennsylvania. The national organization now includes 52 chapters.
The local chapter was organized in 1875. Though the chapter does not own a house, the men are grouped together in the Kennedy Manor. In spite of the fact that they do not live together in a house of their own, they have preserved a fine fraternal spirit.
The chapter has made a fine scholastic record, having ranked among the top fraternities scholastically very consistently in past years.
In inter-fraternity athletics, the chapter has been a strong contender for the basketball championships, and won the volley ball championship last year.
The men individually have been very active and very well-known in campus affairs. They are active in fraternity organization work, particularly on the Inter-fraternity Board. Phi Psi's are also participants in varsity athletics of several kinds.

O
NE OF THE oldest of the so-called exclusive fraternities, Chi Phi Fraternity was founded at Princeton University in 1824. At the present time, the national organization includes 34 chapters.
The chapter at Wisconsin was founded in 1916, and since that time, the national fraternity has allowed expansion only in cases where it felt that a chapter would be a distinct asset to the fraternity.

The chapter as a whole has an enviable reputation for its scholastic record. It has taken part whole-heartedly in campus and university activities. In one of these projects, Homecoming, it won first place for decorations in 1936.

The interests of the men in the chapter are varied. Chi Phi's may be found in executive positions in R. O. T. C. organizations, in Military Ball, in publications, and in Wisconsin Hoofers.

Chi Phi's are active in fencing, crew, hockey, Haresfoot, publications, and in politics. In each of these the men are well known for their ability.

Faculty Memers: H. W. Ewbank, A. V. Millar, E. R. Schmidt, H. R. Trumbower, E. R. Muntz, R. J. Noer, F. C. Sharp, M. O. Withey, W. H. Kiekhofer, R. L. Reynolds, A. C. Taylor, H. W. Wirka.
Graduate Members: Robert Ashton, Webster Woodmansee, John Hurth, Thomas Ehrlinger, Frederic A. Benedict, John Weaver, Arthur Kaftan, Otto Hibma.
1937: Darrow Fox, Earl Zuehlke, Jack Eigel, Louis Gardner, Peter Bezanson, Alvin Gillett, Robert Metzger, Noah Saemann, Ralph Culbertson, James Wakefield, Donald Bryan, Robert Milligan.

Fifth Row: Walker, R. Winkler, Castle Allen, Reinsch, Miller, N. Heany.

ONE OF THE powerful national fraternities that was founded at Union College, Chi Psi Fraternity was organized there in 1841. There are now 25 chapters in the national organization.
The chapter at Wisconsin is one of the old stand-bys, having been established here in 1878. Known as the Lodge, the chapter house stands on a steep slope on the shore of Mendota, like a feudal castle guarding its lands.

The men of the chapter are particularly active in campus affairs. Chi Psi's are prominent in the political world on campus, in Haresfoot, on Union Board, and on the committees of campus social functions through the year.
The interests of the house follow general campus activity lines rather than particular fields. The chapter has been very successful in inter-fraternity sports, and in contrast, the social functions of the house are among the most popular on the campus.

COUNDED at a college that was the birthplace of several national fraternities, Union College, Psi Upsilon has been in existence since 1833. The organization has followed a policy of limited chapters, so that at this time there are 33 chapters.

The local chapter was established in 1896. The major interests of the chapter are in politics, athletics, and social affairs as far as the general campus is concerned.

The house has fared very well in inter-fraternity sports, and has consistently taken trophies in several of the sports.

The men in the chapter take part in a variety of activities, particularly those connected with campus social affairs.

1937: Richard S. Brazeau, William J. Spencer, Richard W. Bardwell,
Charles A. Garcia, Robert Musser, Richard Laird, Donne F. Gosin, A. Forsyth Johnston, Robert F. Hunt.

[^6]RETA GAMMA sIGMA, the national honor society of the school of Commerce, has had a chapter at Wisconsin since 1913. The local chapter was organized in 1907. There are now forty-two chapters of this fraternity. Members of the senior and junior classes are eligible for election. Membership in this society is recognized as a high academic honor. Scholarship and promise of unusual ability are basic factors governing election from those ranking in the first ten per cent of their class in the case of seniors and the first two per cent of their class in the case of the juniors.

HONORARY CIVIL ENGINEERING FRATERNITY

1940: Thomas Carrigan, Merlin Douglass, Joseph Biernat, Elwood Davis, Leon Epstein, Mitchell Ginkowski, Dale Randolph, Robert Rosholt, Edward Samp, Gordon Wightman.

HESPERIA in its eighty-third year continued its function as the leading University men's forensic society. According to time honored custom, the society meets each school week to hear such forensics as discussions on current topics, talks by specialists in various fields, and mock senate sessions, along with debates, orations, declamations, and other discussions.
Hesperia now having initiated more than 2,000 members, ranks ahead of any other society of its kind.

This year Hesperia met Marquette's Franklin Club, Beloit College, and Kent College of Law in the course of its debate schedule. Members proved themselves especially proficient in forensics, winning the University Discussion and Freshman Extemp contests as well as placing seven men on the University debate squads.

Byron Johnson served as president the fall semester while Andrew Booth presided the spring semester.

| August L. Ferber | city Agent |

THE MAIN purpose of Polygon is to co-ordinate the activities of the engineers in the University, and to act as a central committee in governing their activities. Each of the five branches of the Engineering College is represented by two men in Polygon. These men are elected by the engineering societies when they are sophomores, and they take office in their junior year.

Every engineering student is assessed a dollar each semester, for which Polygon gives him membership in his respective society, pays part of his dues to the national chapter, and gives two dances and two smokers during the year. Polygon also partly finances the Wisconsin Engineer magazine, and takes charge of the annual St. Pat's parade.

## AGRICULTURAL COUNCIL

First Row: Alice Grinde, Gene Runke, Margaret Laurant, Alvin Rogers, Dean F. L. Baldwin, George Gresch, Doris Clark, Lila Hammen. Second Row: Stanley Olson, John Voegli, Ruth Black, Clarissa Porta, Ruth Buss, Olive Clark, Glenn Pacey. Third Row: Ransom Shestock, Norman Rydberg, Wayne Watkins, Walda Freitag, Donald McDowell, Arthur Weiner, David Hamilton, Frederic Hoppert.

Alpha Zeta: Alvin Rogers, David Hamilton; Alpha Gamma Rho: Waldo Freitag, Jack Schinagl; Babcock House: Glenn Pacey, Frederic Hoppert; Blue Shield: George Gresch, Doris Clark; Country Magazine: Lila Hammen, Lew Reisner; Delta Theta Sigma: Stanley Olson, Arthur Weiner; Euthenics: Gene Runke, Clarissa Porter; Omicron Nu: Ruth Buss, Alice Grinde; Phi Upsilon Omicron: Ruth Black, Margaret Laurant; Saddle and Sirloin Club: Wayne Watkins, Ranson Shestock; Short Course: John Voegli, Norman Rydberg; 4-H Club: Donald McDowell, Olive Clark.

THE PURPOSE of the Agricultural Council is to integrate the activities of the eleven organizations which carry on work on the Agricultural College campus. The membership of the Council is composed of two representatives from each of the organizations.

The groups represented in the Council are: Euthenics Club, Saddle and Sirloin Club, Wisconsin Country Magazine, Blue Shield Country Life Club, University 4H Club, Short Course, Omicron Nu, Alpha Zeta, Phi Upsilon Omicron, Alpha Gamma Rho, and Delta Theta Sigma.

The Council's primary interest is to promote a closer relationship between the students and the faculty and to promote and stimulate all activities which tend to further the interest of the Agricultural College.

## BLUE SHIELD COUNTRY LIFE CLUB

OFFICERS

Doris Clark<br>$\qquad$ President George Gresch .............Vice-President Florence Nusbaum<br>$\qquad$ Secretary Arnold Wochos.......................-Treasurer Jane Maher<br>$\qquad$ Extension Director

$A$IMS and Purposes of Blue Shield: To attain a knowledge of the needs of town and country communities; to develop an appreciation of the opportunities and advantages offered by such communities; to develop a sense of responsibility for leadership; and to encourage the training of leadership.

THE BLUE SHIELD Country Life club claims the honor of being one of the oldest student organizations on the Agricultural campus. Originally the Triangle Club, it was founded to provide an opportunity for practical experience in leading varied community activities as well as a source of social activities for its student members.

Drama, readings, debate, music, games, and planned parties are all important phases of community recreational activities in which club members participate. Blue Shield aims to carry out the motto of "Training to serve."

During the year, the club puts into practice its leadership training by responding to requests of nearby rural communities to put on an evening's program of entertainment and recreation. It has met nine requests.

Each spring Blue Shield cooperates with other Agricultural campus organizations in sponsoring the Wisconsin Collegiate Country Life conference, which is attended by students from Wisconsin colleges interested in the promotion of rural leadership. The club is also represented at the American Country Life Conference held each year.

## EUTHENICS CLUB

First Row: Seward, Yahn, Lee, Porter, Runke, Dennhardt, Bliss. Second Row: Leicht, Sylvester, Wurster, Fleury, Bolotin, Murray, Nusbaum, Bowers. Third Row: D. # UNIVERSITY OF WISCONSIN 4-H CLUB 

OFFICERS
Donald McDowell.....................................................................-President
Lila Hammen ................................................................... Vice-President

Genevieve Bartel.....................................................................-. Secretary
George Gresch...........................................................................-Treasurer

ADVISORS
Geneva Amundson
Verne V. Varney

THE 4-H CLUBS in Wisconsin are a part of a national movement in which the county, state, and federal governments cooperate, permitting boys and girls in rural areas between the ages of 10 and 20 to organize into clubs wherein each member carries a project in agriculture or home economics.

The University of Wisconsin 4-H Club is a continuance of the organization. It is composed of former 4-H Club members and leaders from all over the state. One of our many objectives in this club is to promote a wider and better acquaintance between our former 4-H'ers who are in attendance here at the University.

## INTER-CHURCH COUNCIL

## OFFICERS

June Hosier
George Ryan
Marie Lhevine
Bert Johnson

First Row: Nelson, Ryan, Hosier, Lhevine, B. Johnson, Simandl. Second Row: Dixon, Curler, M. Johnson, Adamson, Taylor. Third Row: Nestigen, Merriman, Schuermann, Bowden, Reverend Hall, Reverend Flint.

Congo: Jane Simand, Thorpe Merriman, June Hosier. Hillel:
Marie Lhevine, Ben Stephansky. Luther Memorial: Milton Johnson,
Dorothy Nelson. Press House: Bert Johnson, Robert Bowden.
Unitarian: George Ryan, Elaine Ryan. Wayland: Alice Adamson,
Doris Curler. Wesley: Stanley Schuerman, Neal Olson. Y. M.
C. A.: Ed Nestigen. Y. W. C. A.: Barbara Taylor.

WITH its purpose to foster cooperation in enterprise, sympathy, and understanding among those groups on campus who are aiming at ideals that will last and make life worthwhile during and after our student life is over, the Inter-Church Council was organized in 1930.
Two members from each student church group are selected for the Council. One of these members is the president of the individual church group, the other is selected by the group. This year one representative
each from the Y. M. C. A. and Y. W. C. A. was added.

In addition, two student pastors are included in the Council. They serve in staggered two year terms so that each year there is one student pastor who can carry on the experience of the past year, and a new student pastor. This year Reverend Hall of Press House and Reverend James C. Flint of the Congregational Student House are serving on the Council.

## INTER-CHURCH COUNCIL

During its early period, the Council met only when it had problems to consider, thus little progressive work was undertaken, but in the last two years the Council has become more active, having regular meetings and instigating active projects rather than merely considering problems.

This year, the Council has taken part in many functions, both religious and social. In November, the Council cooperated in Religion Day on Campus, and several members of the Council took part in radio broadcasts telling about Religion Day.

Thanksgiving morning the Council united the student religious groups and conducted
a service in Music Hall. During the week before Christmas, the Council and its member student church groups presented a pageant in the Congregational Church. The pageant was directed by Miss Ethel Rockwell and Charles Goff.
The Council also cooperated in the Go To Church Sunday campaign. Other services in which the Council took an active part were the Easter Sunrise Service and the Peace Service.
Socially, the Council conducted the InterChurch Council Ball in April to make the Council's year as successful socially as it has been in religious activity.

Dormitory Council:
First Row: Werner, Polske, Belting, Bowman, Zekel, Moser. Second Row: Jones, Newman, Radewin, Andriesen, Wiberg. Third Row: Leviton, Avey, Goldstein, Gehrz, Bixby, Haas.

## GALLAND-HENNING MANUFACTURING COMPANY

Convert that idle closet, the nook in the hall, the under-stairway recess into a Kohler Lavette! A space $31 / 2^{\prime}$ x $41 / 2$ ', thus changed, will save time, save steps, aid health, please family and guests alike. The cost is surprisingly low!

Let your Master Plumber show you how easily you may have a Kohler Lavette. Ask him about the Kohler Integra-quiet, one-piece, siphon-jet toilet. Ask him also about the popular Gramercy shelf-back lavatory . . . and other distinguished Kohler fixtures. Ask, too, about the Kohler 3-year Payment Plan. Write today for free illustrated booklet, "Planned Plumbing and Heating". Kohler Co., Founded 1873, Kohler, Wisconsin.

What better describes your decision to make one of the University dormitories your college home? For at any one of them, you'll meet the hospitality and warm friendliness you've been hoping for and the companionship you're sure to enjoy.

And speaking of steps . . . . the University dorms are but a step from the campus and its constant activity - Chadbourne and Barnard, for women, at the foot of the Hill, and Tripp and Adams, for men, on the lake shore.

The next step is yours!

## THINGS YOU OUGHT TO KNOW If YOU EVER WRITE WITH A PEN

Things that make a difference of 30 years or more between Parker's revolutionary Vacumatic and other new pens that also have Visible Ink Supply but do NOT have the revolutionary new Diaphragm Filler

This tells you the difference between 1937 - style pens having 1907-style mechanisms and the revolutionary new Parker Vacumatic-a difference you ought to know about if you ever write with a pen, or send one as a gift-a difference in Performance and Perfection soon detected in use, but liable to elude you at the pen counter.

If a pen contains a rubber ink sac, or inner tube, you have to guess at the amount of ink within, until you are down to the last drop. Yet other makes of pens besides the Parker Vacumatic have no rubber ink sac-they are sacless, like this one. They also provide you visible ink supply, and extra large ink capacity.

But due to this revolutionary new Diaphragm Filler, the Parker Vacumatic abolishes the mechanical faults which crippled the earlier sacless pens. The Parker Vacumatic, unlike other sacless types, contains no squirt-gun piston or eye-dropper air-bulb.

Its working parts are sealed in the top where ink can never touch them, never
corrode or disable them. That's why this sacless marvel is GUARANTEED mechanically perfect. Its Diaphragm Filler is so utterly different and basically better that U.S. and foreign governments have granted Parker patents.

So remember this when you get in front of a pen counter. Remember, the difference between the Parker Vacumatic and any other pen is about like the difference between your 1937 motor car and a car with a present-day body style having a 1907 motor.

If you can afford to pay $\$ 5, \$ 7.50$, or $\$ 10$, the Parker Vacumatic is the pen you want - not some other new-style pen containing an old-style filler. You can tell the genuine Parker Vacumatic by the smart ARROW clip-a clip that holds this laminated beauty low and SAFE in the pocket, handbag, or sweater. Go and see it today. The Parker Pen Company, Janesville, W isconsin.

To make your pen a self-cleaner, write with Parker Quink, the new, pen-cleaning ink. 15 c , 25 c , and up, at any store selling ink.

In the confusion of new and often fadish ideas, a man must rely on some authority to interpret and recommend that which is faultlessly correct. Social judgments are merciless but he can meet them fearlessly - properly advised. We invite his confidence by reason of having successfully served a very distinguished clientele.
