## HARESFOOT MOVES PRODUCTION DATE UP FOUR MONTHS

Production to Be Presented  
During Christmas Vacation  
Instead of April

Haresfoot's annual production will be moved ahead four months and be presented during the Christmas vacation instead of in April, officers of the club announced last night after a conference with the student life and interests committee.

A meeting of all club members and prospective candidates for production and play staffs has been called for 2:30 o'clock tomorrow afternoon in Lathrop hall. Intensive work will begin immediately, Sidney R. Thorson '25, manager, stated.

Classes Begin Tuesday

Only about 11 weeks remain before the holiday vacation and the entire production must be built from the ground up in that time. Dancing classes for men will begin Tuesday afternoon in Lathrop concert room and will continue until the choruses are picked. Rehearsals will be held regularly until the production is ready to leave on the tour.

"We will be able to rush work on the book through in a hurry," Thomas Morony '25, president of the club, said. "A number of scenarios have been submitted and we will combine efforts to turn out a book in the shortest time possible."

Faculty Committee Approves

The extended vacation period at Christmas time was a determining factor in the decision to move the time for the show ahead, Thorson declared. The student life and interests committee members approved of the plan because it will not be necessary for the members of the company to miss any university work.

A longer road tour will be possible also, the officers of the club stated. The usual cities in Wisconsin will be on the itinerary and an extended eastern tour is planned. The club will leave December 19 and play its opening engagement at Fond du Lac.

Extension of Itinerary

Last year two new cities were added to the itinerary, Peoria and Indianapolis. These will be retained probably and several others

## LAWYERS REVIVE TRADITION TODAY

Meet at Law School to March  
to Game Wearing  
Canes

The revival of an old tradition of the campus will take place this afternoon when all the seniors of the law school will meet at the law building and march together to the football field, carrying on their arms the old emblem of the lawyers, brown canes with silver heads.

The origin of this custom is somewhat obscure, but is supposed to have originated in Oxford university of England sometime back in the middle ages, according to date on file at the Phi Delta Phi law fraternity house.

The distinguished appearing cane is intended to impart an air of dignity and intellectuality to the lawyers, just as the green cap imparts an appearance of inexperience to the freshman. This contention is somewhat supported by the fact that the law course is from six to seven years long, which long record of academic training the lawyers flaunt at the pitiful four years of the engineers.

The custom of carrying canes has been somewhat dormant for the last few years, but is almost exclusively a feature of Wisconsin traditions.

## Opitz Heads Cadet Officers; Plan Hop and Fall Banquet

Officers for the coming year were elected at an organization meeting of the Cadet Officers' association, at the Scabbard and Blade room at the armory yesterday afternoon. The following officers were elected: Cadet Major Herbert Opitz, president; Cadet Major Charles Dawson, vice president; and Cadet Captain W. H. MacDonald, secretary-treasurer.

The plans being considered for the year include a cadet officers' banquet, affording an opportunity for the cadet officers to become better acquainted and to meet the new members of the regular army staff, and a cadet hop to be held during November. Definite action on these plans will be taken at a meeting of the Officers' association within a few days.

## SENATE CREATES ELECTION BOARD

Seven Members Have Charge  
of Regular Fall  
Balloting

An elections board consisting of seven members will be chosen to carry on the work of the student senate committee on elections in the regular fall balloting which will take place in a few weeks. This decision was announced after a meeting of the remaining members of the senate last night.

Darwin Pitz '26, secretary, called the meeting. Wes W. Dunlap '25 and Lorraine Murray '26 are the only members of the senate chosen in open election. The representatives of the five boards, athletic, Badger, Cardial, forensic, and Union, are ex officio members.

Lewelly Cole Jr. and Harold Cranfield, seniors, who were elected from the junior class last year are not enrolled in the university. Cole was president of the senate. Pitz is acting head of the body at present.

Friday, October 31, has been set as a tentative date for the elections. That week-end is the only one during the fall that is an open date on the football schedule and it was picked by the senators so that there would not be any necessity for proxy voting. Definite announcement of the date will be made next week.

The regulations passed by the senate last year will be enforced in the coming election.

A complete list of the existing regulations and such supplementary rules as are necessary for the fall election will be published in the Daily Cardinal within the next two weeks. There are approximately 70 offices to be filled in classes and various boards. Dates for the filing of petitions and publicity will be announced as soon as the date for balloting is definitely fixed.

## ALL LABORATORY FEES MUST BE PAID TODAY

All laboratory fees must be paid by four o'clock today, ten days after the opening of school. The refunding of laboratory fees is based on material used, and on breakage. The fifteen dollars incidental fee required of all students, resident or non-resident, will be refunded in full to any one dropping out of school who has not attended classes. Only 80 per cent is refunded if one or more classes are attended during the first two weeks. This is decreased proportionately until none is returned after eight weeks of school.

## KAHLENBERG AND SON ATTEND DETROIT MEET

Prof. Louis Kahlenberg and his son, Herman, grad, left for Detroit, Mich., last Wednesday, where they are attending the meeting of the American Electrochemical society. They jointly presented a paper on new methods of preparing metallic tungsten and some of its alloys. The paper represents the results of a long series of experimental researches.

### PLEDGES SUPPORT

Editor, Daily Cardinal:

It was a happy surprise to learn the fathers of university students are to have a celebration here at Madison in their honor. I am 100 per cent in favor of it. I feel sure that fathers, whether college men or not, will respond by making Fathers' Day a real success, and it is my hope that it will prove a stepping stone to larger occasions in the future. We Dads can show our appreciation of this invitation by meeting it more than half way. We can help boost the team for clean sportsmanship, and give the boys a taste of the Wisconsin spirit of days gone by.

Thank you and the university for the invitation. We will be among those present, and will hope that Fathers' Day will be made an annual affair.

E. J. Frautschi

## Committee Speeds Work in Re- lays For Fathers' Day Weekend

"How're you going to get 7,500 invitations printed, addressed, stamped and mailed, in time so fathers can get football tickets by October 9?" asked everybody. "Can't be done," said all the knowing ones.

And Wednesday night, just before midnight, an antiquated flivver chugged up to the postoffice, with the last of the 7,500 invitations, more or less—and it was done!

Which means that, after President Birge had written his invitation to the fathers of all students in school for the Fathers' Day week-end October 18, arrangements had to be made for the printing. That week's job was done in just one half day—Saturday afternoon.

Then the envelopes and paper were ordered by telegraph and, immediately upon their arrival Monday afternoon, put on the presses, and delivered to President Birge's office Tuesday morning.

There still remained the stuffing of 7,500 envelopes, stamping, and sealing, and again the knowing ones, seeing the great stacks pile up on the table, predicted that the last invitation would get out about the day of the game.

But a riot call sent to Alice Corl '25 was sounded in "the Alley," and relays of Alpha Phi and Theta, with reinforcements recruited by John Bergstresser '25, chairman of the student committee, made a sustained attack from noon to midnight.

And on Thursday, just six days after the printing of the invitation was authorized, the first reply enclosing reservation for the father-faculty banquet was received, from Prof. R. S. McCaffery, of the College of Engineering.

## Many Committees Appointed at First Castalia Meeting

The first meeting of Castalia literary society in Lathrop hall last night was marked by the appointment of many committees. The presentation of a tentative program for the year and the election of Ada Toms '26, as vice president were made.

The society voted to support the forensics board dance next Friday in Lathrop gymnasium.

Preceding tryouts for Castalia to be held October 24 there will be two open meetings on October 10 and 17.

## CARDINAL SHIRT SHOP BOWS AND PAYS \$25

The Cardinal Shirt Shop made its bow to the public yesterday, after 400 students, 25 of whom were girls, had cudged their brains for a name for the shop. The store had been nameless for two weeks previous to the time that students showed their interest in the \$25 which was offered to the winner. Four university boys hit upon the name which suited the owners. Ben Pill, S. Horwitz, Harry Halpein, and John E. Davis share in the promised reward.

## FORMER STUDENT NOW IN CONSULAR SERVICE

Alfred Klieforth, Mayville, Wisconsin, a former student in the University of Wisconsin, has recently been appointed to the consular service at Berlin, Germany. Mr. Klieforth was a member of the Ford Peace Ship commission, and later entered the consular service filed as a member of the American staff at Petrograd.

## SORORITY WILL MOVE TO NEW HOME SOON

Members of the Phi Omega Pi sorority, who are at the present time living in temporary quarters, expect to move into their new house at 619 Francis street by November 15. Their former torn down last summer, and the new house is being erected on the same location.

## PRE-RUSH QUIET PRECEDES CLASH THIS AFTERNOON

Secret Frosh Meeting, Police  
Guard Are Night Events;  
Starts at 12:45

### BULLETIN

Groups of freshmen and sophomores clashed at State and Lake streets shortly before midnight, according to reports received at the Daily Cardinal office.

Pre-rush excitement, that usually manifests itself, was not in evidence last night. Except for a secret meeting of freshmen, nothing occurred to indicate any abnormality. "The rush will start at 12:45 o'clock sharp, this afternoon on the lower campus," said Erwin C. Gerber, '25, chief of police. "I will give the signal from the stand near the bags. The football game will begin shortly after the rush, and we do not want to delay any of the spectators from reaching the field."

Gerber said that the sophomores would be given the traditional 10 yard advantage to offset the greater numbers of the freshmen.

### Meet at Noon

Sophomores will meet in front of the library at noon to paint their faces red. Freshmen will meet in the gymnasium to form their organization, at 12:15 o'clock. Ineligible freshmen are to meet in the gymnasium annex at noon.

Student policemen will meet in the gymnasium at 12:20 o'clock for final instruction. They are expected to be on the campus this morning to prevent any disturbance.

To establish a new precedent in one of Wisconsin's oldest traditions will be the task of the sophomores in their attempt to win the annual class rush. At no time in the history of the rush has either class managed to win four consecutive clashes, although the sophomores have captured the greater number of bags for the last three years.

## YEAR'S DIRECTORY WILL BE CHECKED

Arrangements Made to Include  
Several Phone Numbers  
After Names

Copy for the directory of officers and students for the current year is being given its final check this week, and will be sent to the printer early next week, it was announced yesterday by W. H. Hiestand, registrar.

"We are anxious to show any changes in address or other information in the directories, in order that they may be as complete and up-to-date as possible in their final form," said Mr. Hiestand. "But in order to avoid delay this information should be handed in at once, so that it can be included in the copy that goes to the printer next week."

In order to reduce telephone congestion at houses having more than one telephone number, the registrar has made arrangements to include two or more numbers with students' names. In order to have copies available as soon as possible, the Daily Cardinal has made arrangements to secure advance proofs of the directory. These proofs will be kept on file at the Cardinal office, and will be open to the inspection of students at all times during the day.

The large amount of checking, and the necessity of looking up each students' record to make sure his classification is correct, make it impossible to predict the date of appearance of the directory.

COLLEGIATE WORLD40 MEN ANSWER  
FORST CALL FOR  
TENNIS PLAYERSCoach Masely Discloses Plan  
For Three Tourneys  
This Year

Forty men responded to Coach Masely's call for tennis players by reporting at the gym Friday afternoon. This group was composed of both varsity and freshmen squad candidates. The freshmen had nearly 25 men out for their squad.

A plan of three tournaments was disclosed, through which the coach hopes to get a line on the players' ability. The season will start with an all-university tournament, which opens next Wednesday. Names must be handed in at the gym by the end of this week, for drawings are to be made Monday. The frosh will have a tournament by themselves and the varsity likewise. All of the tournament games will be played this fall. The coach urged that all matches be played within two days after they are posted and that failures to appear is as a forfeit of the match.

In addition to the tournaments, both varsity and freshmen squads will start regular practice this fall so that material for spring will be in trim for conference meets. Due to poor weather conditions, under which Wisconsin tennis players usually labor, they are at a great disadvantage in their competition with other schools. Rain drives the men from practice nearly every spring and for this reason the season must start early.

The coach feels that with a little hard practice and with real fight in the team, he can give other Big Ten colleges a hard push for victory. With Jack Manierre back from last year's varsity and with Wright, Durand, Riddle, Jendkins, and Miller of last year's freshman squad, the '25 varsity team ought to gain honors.

Every big team in the conference swings into action this afternoon, and tonight the scores will tell more about what the various teams have to offer for the season. The Eastern teams, too, engage in the usual preliminaries.

The first conference battle is the Ohio-Purdue clash this afternoon. There is not much choice between the teams, judging from early season dope from both camps. Last year Ohio swamped Purdue 32 to 0 but the Buckeyes have lost some valuable material including the famous Hoge Workman. Last Saturday Purdue won from Wabash, 21 to 7, but critics give Wilce's men a slight edge over the Boilermakers.

Illinois will without a doubt come out on top in their tussle with the Nebraska cornhuskers. The other Big Ten teams, too, should emerge victorious. Chicago may have a little trouble with the Missouri eleven as several of the Windy City men are out on injuries. Minnesota plays North Dakota, the opposition of the Badgers in last Saturday's fracas, and this should furnish some idea of how the two teams will stack up October 18.

Way down east all the favorite teams should come through with a victory. Yale will be playing North Carolina University, the team coached by Gus Tebel, former Badger ace, and this game will be of interest to Wisconsin fans as we all wish Gus the best of success in his new field.

In the middle and far west the game that probably will attract the most attention is the Notre Dame-Lombard contest. This will give football fans a chance to judge the strength of the Notre Dame gridgers. Coach Knute Rockne will have a veteran squad to send into the fray, and unless some mishap occurs the Notre Dame team should go through the season with very

Sixty-four of them! She could wear a bathing suit of medals and stand hidden behind her cups. This Wisconsin mermaid, who has held state and national records and has caused hums of excitement in our college world during interclass swimming meets and the traditional exhibitions, is Lois Barry '25, ex-president of Dolphin club last year.

"I have always loved the water, ever since I first learned to swim when I was eight years old, encircled by a life preserver at Long Beach, Cal.," said Miss Barry. "I splashed about as most any other girl and for years did not dream of ever doing much more. Entitled to the pool of the Milwaukee Athletic club through the membership of my father, however, I had the distinct advantage of being watched and at length being given a certain amount of coaching."

In the first M. A. C. meet that she entered, she won a cup in the back stroke which she had learned but two weeks before. A month later she won the Central A. A. U. championship in the 100-yard back stroke, 136 seconds, missing the world's record by only two seconds.

Her startling career as a swimmer, however, began in 1921 in California where she lived for 14

years and still spends most of her summers. In that year she won the 500-yard junior national championship at Venice and came in second in the mile national at Capitola, besides winning two cups and minor trophies in surf-races. That year and in the spring of 1922, in the national 100-yard back stroke, she twice came in behind Sybil Bauer, I. A. C., the winner. In the third meet of its kind, she outsplashed Alleen Rigen, W. S. A., who placed third.

Under the auspices of the M. A. C. in 1922 she also won the 220-yard Central A. A. U. championship and the 100-yard Wisconsin state championship. That summer she placed first in the first annual Venician surf-race in California.

Last summer while again in California, she took third place in both the 110-yard back stroke and the 220-yard free style at Coronado in the Pacific Coast championships.

Miss Barry has been active in promoting swimming as a sport at the university as a team of her class and as a member and officer of Dolphin club. Last year at the exhibition she set a new inter-collegiate record in plunging 60 feet, the entire length of the pool, in 52 seconds.

## SO IT SEEMS

By Ken and Ken

With a dry field both teams ought to open up a real aerial attack this afternoon at Randall field. Roberts of Ames is known widely for his passing ability, and the Iowa team realizes that their one big chance will be by the air rouse.

Ryan, too, is anxious to test out the Badger strength on forward passing and will undoubtedly instruct frequent use of the aerial pass this afternoon. Burrus, Solbraa, Blackman, and Polaski have all shown up well in catching passes in practice. This forebodes some pretty heaves against Ames.

Wet and uncertain as it was last week for passes, Ryan's men tried four and completed two, for a gain of something like 45 yards. Not so bad.

A hundred or more frosh gridgers, stars in high school and recipients of many glories, were yesterday put through the paces by Coach Ryan, who sent his varsity men to the showers at 4:30 o'clock so that Ames could see the stadium for secret practice.

First Ryan had them take the crouching position, and then on signal get up and run for 25 yards or so. That gang of onrushing frosh certainly looked like an artist's dream of a herd of charging buffaloes. Then Ryan had them strip to the waist and wrestle each other.

There certainly was a mob treking into the ticket office yesterday. If you didn't get in there yesterday you are out of luck as far as the Minnesota game and student tickets go. Applications postmarked today will be honored, according to Hunter.

Football fans the country over keep a weather eye on Wisconsin. This week a football fan from Waco, Texas, writes to a Big Ten sport weekly and complains that he can't understand how Rollie Williams plays so many years of football at Wisconsin. The fan said this seems like Rollie's fifth year here.

Of course the paper lost no time in explaining that he has Rollie Williams and Ed. Williams confused. "Rollie, who is now freshman coach at

RYAN HITS 'ER UP  
IN NEW GAS BUGGY;  
BOYS'LL BE BOYS

"Wonders will never cease!" This, at least, is the opinion of the student body coincident with the rumor that Coach Jack Ryan is now burning up the arterials in a brand new spick and span Studebaker car. Up to a late hour last night, the name Ryan had not appeared in the police blotter for stepping on the gas, but then, as the old saying goes, "boys will be boys."

Hope was expressed by various campus athletes that the coach would not totally abandon his custom of taking a morning constitutional by the sole route, but, on the other hand, where is the superman who is going to amble on his feet, when a powerful "gas chariot" reposes in the garage ready for use?

Men in charge of keeping up the turf at Camp Randall stadium are also hoping that Ryan will not insist on driving up and down the sidelines directing the game. While this would be unusually helpful, the coach should always remember the old football rule, "Don't kill a man unless you have to."

Installation of officers took place at the first regular meeting of Dolphin club last night. Beatrice Marks '26 succeeded Lois Barry '25 as president. Elna Mygdal '26 succeeded Dorothy Rapien '25 as vice president. Rhoda Koch '25 gave the secretary's book to Beatrice Richardson '26 and Harriet Graham '26 took the duties of treasurership which were held by Elna Mygdal '26 last year.

Tryouts for admission to the club were set for 7:15 o'clock October 9 and 16 in Lathrop pool. Those girls who try out for Dolphin at these times and fail to pass because of insufficient practice will be invited to the regular practices of the club on the first and third Thursday nights in each month. Dolphin members will give them special coaching so that they may enter the tryouts again next semester.

The speed requirements were entirely eliminated last spring. Candidates for membership must be able to swim 12 lengths of the pool in any stroke or any number of strokes, swim two lengths of the pool in one stroke in perfect form, and do three standard dives with an average of 90.

For the five football seasons since the war, Wisconsin rates fifth among other Big Ten conference teams in a grand five year percentage average. Iowa has the highest average, Chicago second, followed by Michigan and Illinois. The average is figured on a game won and lost basis.

ATHLETICS IN THE  
COLLEGIATE WORLDBADGERS, WITH ROUGH  
EDGES WORKED OFF,  
BATTLE AMES TODAYIowa State Carries on Secret  
Practice in Stadium Yes-  
terday Afternoon

The Badger eleven plays its most important game so far when it meets Ames this afternoon at Camp Randall—important because it will provide an opportunity for the coaching staff to get a line on the team's offensive and defensive abilities, as well as on the individual men, because it will give Coach Ryan's green team the experience that it sorely needs, and because it will furnish opposition of a more serious nature than the tilt last week afforded.

The team has shown marked improvement this last week, but just how good it is remains to be seen.

The game this afternoon will be called at 2 o'clock sharp, according to officials, in spite of the fact that the rush may continue until then. Tickets will be on sale at public rate at the field, and until 12 noon at the regular ticket office at student rates.

The coach has drilled largely on fundamentals for the past ten days, and has left the offensive plays to take care of themselves, while the defense has come in for a lot of attention.

## Iowa Shows Speed

The crowd that edged into the stadium yesterday afternoon expecting to see a scrimmage between the varsity and the all-Americans was sorely disappointed, as the Ames eleven took over the field at 4:30 o'clock and excluded everyone from the field while it ran through a light workout and signal drill.

That Coach Ryan expects a tough fight today is shown by the work he has spent on defensive work during the past week. The Iowa backfield, with Roberts, the Behm brothers, and Hill is one of the flashiest in the middle west. Roberts in particular will provide a lot of worry to the Badgers, for he is a triple threat man of the first water, throws passes 50 yards accurately—completed one in the game last week for just that yardage—punts with the best in the conference, and is a dashing off tackle runner.

## Passing to Feature

If the field is dry when the game starts spectators will probably see one of the strongest passing attacks waged by both teams that has been seen at Wisconsin for some years. The Badgers have been drilling extensively on the aerial attack this fall, and will rely on Eddie Williams, Doyle Harmon, and Captain Harris to do most of the heaving, with Burrus, Polaski, and the fullback on the receiving end.

The Wisconsin lineup is not at all certain, as there are at least two good men battling for every position. Said Coach Ryan last night:

"The game tomorrow will give me a chance to determine the team's offensive and defensive strength, as well as to get a line on the individual men. I am not sure as to which men will start, and I will probably use a good share of the squad, depending, of course, on the trend of the game."

## Probable Lineup

Following is the probable lineup of the two teams tomorrow:

Left end—Wisconsin: Polaski, Blackman. Ames: Bond, Symonds, Weimer, Grimes, Walling.

Left tackle—Wisconsin: Leiti, McMasters, Nelson, Sauger. Ames: Galbraith.

Left guard—Wisconsin: Bieberstein, Slaughter. Ames: Schmidt, Larson.

Center—Wisconsin: Teckmeyer. Ames: Longstreet, Pawek.

Right guard—Wisconsin: Miller, Stipek. Ames: Thornburg, Rasmess, Thomas.

Right tackle—Wisconsin: Stannard, Straubel. Ames: Mayer, Brockmeyer, Tawzer.

Right end—Wisconsin: Burrus,

GOPHER SEAT SALE  
LOWER THIS YEAR

The Minnesota game this year will be attended by 1,000 fewer students than the Gopher game last year, according to final figures issued by the ticket office last night. The total number sold was 6,062, as compared with 7,079 sold last year. Of these 4,584 are in the general student section, 1,304 in the cheering section, and 174 in the fathers' section. Yesterday the sales for the Ames game numbered 2,115, which represents only about 20 per cent of the student enrollment. Many tickets will undoubtedly be purchased this morning, as sales close at noon.

AMES COACH NOT  
CERTAIN OF MEN  
TO START GAMEBill Anderson, Stellar Iowa  
Tackle, Declared Ineligible;  
Can't Play Today

(Special to the Daily Cardinal)  
AMES, Iowa, Oct. 3.—Development of the end and fullback positions have taken up the efforts of Coach William during the past week, but if the men who are being taken to the Wisconsin game can be looked upon as a criterion, the coach isn't overly certain as to just who he will start Saturday.

"Big Bill" Anderson, left tackle and letterman of last year's squad who was in shape for the opening game a week ago, made the trip, but Anderson has not regained his old time gait as yet.

The Iowa State team suffered a severe blow when it became known yesterday that William Anderson, stellar tackle on the Ames eleven, had been declared ineligible and will not play in today's game. Anderson, in spite of his 200 pounds, is a fast, aggressive tackle, and one of the mainstays in the Iowa offense.

Zeke Roberts, sensational halfback who played such a whale of a game against Nebraska Wesleyan, is starting kicking where he left off last year and undoubtedly is one of the best in the "old muddy" valley. He kicked four goals in last Saturday's contest, the fourth disallowed because of holding in the line.

The varsity was not given a comparative workout in their scrimmage with the freshman Wednesday. Coach Sam William had the varsity place-kicking at every opportunity because of the prep's weakness in carrying out their plays.

The following men made the trip to Madison:

Ends, Knave, Shawhan, Vifquain, E. J. Anderson, Bond; tackles, Mayer, Brockmeyer, W. Anderson, Galbraith; guards, Thornburg, Rasmess, Thomas, Schmidt, Larson; center, Lonstreet; quarterbacks, J. Behm, Ed. Hill; halfbacks, Roberts, Coe, Sage, N. Behm, Fisher; fullbacks, Palm, C. Hill.

Ralph E. "Skip" Orton, eight-letter man in three years at the Platteville normal school, has entered the University of Wisconsin. Orton excelled in football, baseball, and basketball. He will not be eligible for play this year as it is his first year here, but will be available next fall.

## Watch Him Today

## GUY ROBERTS

Guy Roberts, star Ames halfback, is causing a new crop of gray hairs to flourish on the heads of Missouri valley coaches. He is a triple threat man, passing, punting, and carrying the ball equally well. Roberts threw a 50 yard pass in the game last Saturday which was largely responsible for one of Iowa State's touchdowns. He is the man toward whom Coach Ryan has been pointing his defense in today's game.

ATHLETIC REWARD,  
PLAN OF STRANDLocal Theater to Issue Passes  
to Badger Grid and  
Cage Stars

A novel system of recognition for athletics prowess will be inaugurated by the Strand theater. About 15 double, non-transferable passes for the regular season of 1924-25 will be presented to different members of the Varsity football and basketball teams.

A pass will be given to the man making the first touchdown in each conference football game, provided he has not received a pass previously, in which case the pass will be given to the man making the next touchdown. The man scoring the highest total of points in each conference basketball game played in Madison will also receive a pass, subject to the same provision as above.

INITIAL MEETING  
OF RIFLE MEN IS  
HELD AT ARMORYCoach Shire Presages Win-  
ning Team; Maj. Lampert  
Addresses Gathering

"There is absolutely no reason why we cannot make this year's team a winning one," was the emphatic statement of Coach Shire at the first meeting of candidates for the varsity rifle team held Thursday evening in the Scabard and Blade room of the armory. More than 30 students responded to the first call, and it is expected that as many more will turn out.

All those interested in the rifle team will be given a thorough course in instruction before any actual firing is done. This is a new plan, based on the instruction course this summer at the national matches at Camp Perry. A bulletin of hours when classes will be held will be printed soon. In them, all the rudiments of rifle shooting and care of the arm will be mastered, so that when the time comes for actual firing, the shooter will have mastered the principles of good marksmanship.

## Much Training Necessary

Major L. L. Lampert gave a short talk to the men present, stressing the point that it takes as much training and practice to make the varsity rifle team as it does for football, basketball, or any other sport. "Competition is getting keener; scores are getting better. Counts that would have won matches a few years ago will not even rate a tenth place now. Universities all over the country are recognizing rifle shooting as a minor, and in some cases a major, sport," asserted Major Lampert.

Captain Bill Rorison told of plans to take several out-of-town trips, and issued an urgent call for more candidates. C. J. Randall, who participated in the matches at Camp Perry, emphasized the importance of "dry" shooting, that is, practicing without ammunition, and urged that the men take it seriously and with open minds. The rifle used in regular competitions is the model 52 Winchester .22.

Men back from last year's team are: Capt. W. A. Rorison, L. P. Drake, C. H. Ross, C. J. Neess, C. J. Randall, and P. F. Murphy.

Desormeaux said, "We want to give something of real value and benefit to the men who are working so hard to make Wisconsin the conference leader."

## FIGHTING THE GOOD FIGHT

The explosion which echoed yesterday from the Atlantic to the Pacific with the news that a new baseball scandal has been uncovered has placed college and university athletics on a plane still higher than they have ever been.

Another world series was about to have been "fixed."

This represents a condition that never has and never can happen in college athletics. College men, out for all manner of sports, are instilled with the principle of honor and inspired by clean playing. To men who come out each night and practice for several long, hard hours to make a team and to give a good account of themselves once they have made it, there is too much in the game to measure it in dollars and cents.

To them there is an intangible something for which they fight, a something which can never be taken away by disappointments or by the years that slip by all too fast. There is honor, glory, and the self-satisfaction of having done something extremely well that is behind the endeavor of college athletes.

To be "King of the Campus" means something.

And the public, too, is turning from the highly commercialized sport of baseball to the true college sports where they know no "fixing" will ever happen. Interest in professional sports is lagging with the public. Every year sees more and more interest in college athletics and amateur sports.

Colleges and universities find need for larger stadiums and field houses—because interest is growing. A 50-yard sensational run on the gridiron sends more persons into wild shouts of joy than does the farthest home run. A three-base hit by a big-leaguer has lost its zest as compared with a well-aimed long shot on the basketball floor that falls through the net with a swish that sends 5,000 or

more people to their feet and changes the tide of the game.

And there are reasons for all this. The public may be searchers for dollars in their business life, but sports are too sacred things to be connected with money and tainted bribes. Folks want sports to be true tests of physical superiority and fight.

More and more they are finding that in scholastic athletics alone this craving for clean competition can be found.

## WHA BROADCASTING

With the announcement that the university radio station, WHA, situated in Sterling hall, is to recommence operations for the ensuing academic year, new students are acquainted with another department of the university of which they probably have not heard hitherto, except they be radio fans themselves.

For if they are radio fans, they must have not only heard of WHA but also actually heard it itself. Regular programs are broadcasted from the university station in direct connection with the university. It is a big thing for Wisconsin.

The university has been something of a pioneer in the matter of radio and its improvement. As far back as 1914, before the World war, those who were on the campus, if they were lucky, had an opportunity to listen in on the experiments which were being carried on here, when it was considered quite wonderful if those listening on the campus heard the

## Dean Goodnight Gives Opinion on Fathers' Day

This Fathers' Day project is one of the biggest steps forward which the university has made in a long time. It originated in the Regent-Faculty-Alumni-Student committee on cooperation and is one of the most practical measures that could have been devised for the centering of parental interest in Wisconsin. The fathers who come here on that occasion, pal around with their sons for a day or two, see the conditions under which the latter live and work and play, meet their sons' instructors and professors in their offices during the afternoon, see Wisconsin do battle with Minnesota in the afternoon, and attend a big banquet as guests of honor in the evening, are going home with a different opinion of the institution than they ever had before.

The student, too, will take a supreme delight in initiating the best friend he ever had or ever will have into the various phases of his college life. And the members of the teaching staff will have an opportunity to discuss the minds of a group of fathers of the all-too-current conception—if, perchance, any of them should have been infected with it—that academic men are a set of cold-blooded highbrows with no vestige of human interest or sympathy in their makeup.

I sincerely hope that every person connected with the institution and every one of its friends will do his utmost to aid Wisconsin in proffering a genuine hospitality to a group of men which is strongly deserving of it.

## Notes From a Dean's Clinic

By G. C. SELLERY

## 5. SLEEP

The counsels of perfection tendered in this little series of articles have hitherto been concerned chiefly with the active employment of time for curricular purposes. There is no urgent need, at present, to argue the desirability of having a campus hobby to ride. Indeed, my clinical practice is largely, although by no means exclusively, confined to those suffering from too much "activity." But there is one disability which the "activities" share with their overly "high-brow" fellows, and that is lack of repose.

We Americans are a restless, aggressive, stirring folk, addicted to new inventions, organizations, subjects for discussion, diversions—new everything. And one needful phase of repose, peculiarly necessary for students—since intellectual activity is a dominant element in their life—is sleep. The day is so full of interests, engagements, appointments, topics, meetings, practices, rehearsals, and preparations for courses, that something must be curtailed, and too frequently it is sleep.

I do not here and now urge a reduction of the load. But I do believe that a more intelligent ordering of the academic and other engagements of the day and week, a closer correlation of play and work, through the elimination of mere dawdling, will make it possible, even now, to live a happy and successful college life and — get a full night's sleep. A student who cuts down on sleep cuts down efficiency. He has to work longer hours to achieve his tasks. "But I can't get up my work unless I cut down on sleep." Of course you can't, unless you sleep more. That may be paradox, but it is truth.

the "Education of Gifted Children"  
declared that two great needs in  
education are professional prepa-

rapid promotion of gifted children.  
The character, personality, bents  
and even vocational aptitudes of the  
child have become marked before he

## INELIGIBLE LIST ISSUED FOR RUSH

Those Who Are Ineligible Are  
Advised to Stay  
Out

A list of ineligible for today's rush was issued by the university clinic yesterday afternoon.

Dr. W. A. Mowry, commenting on the event, said, "The medical staff sincerely hopes no one marked ineligible will take part. It very often happens that men do not realize the seriousness of their condition. They don't know everything about themselves that we know."

Coach Tom Jones made it plain last night that the sophomore list of ineligible would include all men on, or trying for, varsity teams. The sophomore list follows:

W. L. Andersen, L. H. Andrews, William Antes, H. J. Arbuthnot.

H. M. Bacchub, Wendell Bennetts, Charles M. Bice, Walter Bissell, Robert Blair, Floyd Blasfield, Max Bradshaw, Russell Brookhout, Orrin Buchanan.

John A. Cory, Francis Coryn, Carl C. Culp.

### Former Student Wed to Kentucky Man on October 1

A pretty informal wedding took place Wednesday afternoon, October 1, 1924, at 3:30 when Ola Esther Johnston '21 and Hugh Raymond Creal were married at the home of Mr. and Mrs. C. R. Bloxton, Frankfort, Kentucky. Rev. W. P. Fryman of the Methodist Church of Frankfort was the officiating minister.

Miss Johnston wore a becoming charmeen with harmonizing accessories and a corsage of Ward roses.

The bride is a daughter of Mrs. F. S. Johnston of Paducah, and has lived in Frankfort the past two years while she was State Supervisor of Home Economics in Kentucky. She is a graduate of Western Kentucky Teachers College at Bowling Green, in which institution she was Instructor of Home Economics three years. She received her B. S. and M. E. with honors from the University of Wisconsin and was a member of Omicron Nu.

Mr. Creal is a son of Mr. and Mrs. R. W. Creal of Buffalo, Kentucky. He was recently promoted to the office of State Engineer of Kentucky after having been Assistant Engineer the past five years. He is a graduate of the University of Kentucky and is a member of Tau Beta Pi fraternity.

The young couple left immediately for Niagara, New York, Washington, Philadelphia and other points east. They will be at home in Frankfort after October 20.

### MU PHI EPSILON CALLS FIRST MEETING OF YEAR

At the first meeting of the year on Tuesday night Mu Phi Epsilon, musical sorority, elected Mrs. B. W. Lampert as temporary secretary. Mrs. Lampert will take the place of Mrs. Edward Law who is abroad. A dinner is being planned for the next meeting to be held October 14th, in the Indian room of the Monona hotel.

### LANGUAGE DEPARTMENT WELCOMES NEWCOMERS

The new members of the romance language departments were welcomed to the university faculty last evening at a reception given in Lathrop parlors from 8 to 10 o'clock by the old members of the department.

The 75 present were entertained by a program including music and talks. Prof. Joaquin Ortega spoke on Spain and Miss Henriette M. Treille on France.

Prof. C. D. Cool of the Spanish department had charge of the entertainment and the program.

pledging of: Harold Van Horn '28, Milwaukee, George Hockstein '28, Milwaukee, Rex Schuler '28, Kenosha, Robert Tratt '28, Lake Forest, William Tratt '28, Lake Forest, Edward Kohl '28, Sheboygan, Kerbert Earle '28, Gary Indiana, Howard Kuckhan '28, Milwaukee, Richard Mueller '28, Two Rivers, James Hatcher '27, Dayton, Fred Eggers '28, Two Rivers, William Rahr '27, Manitowoc, William Warnkey '28, Milwaukee, and the repledging of Leslie Neumeister '27, Chicago.

## DORMITORIES GET NEW DECORATIONS

**Chadbourne and Barnard Halls  
Improved; New Davenport,  
Subdued Lights Installed**

Extensive redecorating has recently been finished in the two womens' dormitories, Barnard and Chadbourne and several new pieces of machinery installed in the kitchens of Halls and Commons, according to D. L. Halverson, director.

A shiny, newly scraped and varnished floor adds a bright and new effect to the Chadbourne dining room which accommodates 125 girls living in the hall in addition to several outsiders.

The second floor corridor of this dormitory and the ground floor of Barnard hall have been entirely redecorated. Bright artistic drapes and a new davenport are among the changes that have been made in the Barnard parlors.

The Chadbourne lighting system has been greatly improved by the installation of several desk board sockets in place of the high ceiling lights.

Eating a barrel and half of flour at one gulp is the every day task of the white, clean looking bread mixer which is a new part of the kitchen, where food is prepared and cooked for the two dormitories and Lathrop cafeteria.

### PHOTOART, DELONGE'S RETAINED BY BADGER

The Photoart House will again be the photographers for the Badger, taking all photographs used in the yearbook with the exception of studio portraits, and the DeLonge studio has been retained as the photographer for the Badger staff, faculty members, and other special studio portraits that are used in the book. Otis Wiese, '26 editor-in-chief of the 1926 Badger, announced yesterday.

OAKLAND, Calif.—Osborne Johnson, 22, sub-outfielder of the Oakland, Pacific League baseball club, died from blood-poisoning.

## Universities Give Credit For Tour Through Europe

Many students who went abroad last summer under the direction of the Institute of International Education appreciably decreased the number of credits necessary for their graduation. This organization sponsors trips to Europe and through the Mediterranean, and as many universities have had travel courses placed into their curricula, these trips are of special interest to undergraduates.

The modern tendency toward visual education made these trips more than mere pleasure jaunts. Geography, sociology, literature, economics, music, and the languages all have been made travel courses by American institutions of learning within the last year or two.

There has been some discussion about the advisability of having travel course professors, and the American Council of Education has already taken steps, acting for the institutions of higher learning in the United States, to give the educational aspect of travel an orderly development, with insistence upon the highest educational ideals.

## Portrait of Dairy Head Presented at Milwaukee Banquet

A portrait of Prof. E. H. Farrington, who has been head of the dairy department for 30 years, has been presented to the gallery of the College of Agriculture by a group of his friends at a banquet held in his honor in Milwaukee Thursday night.

Professor Farrington has contributed three tests for dairy workers which have a world-wide use. These are the alkaline tablet test, the butter moisture test, and the milk sediment test.

Work at the Connecticut experiment station as chemist two years with the U. S. department of agriculture, and four years at the Illinois experiment station preceded his work here. In 1894 Professor Farrington became head of the dairy department here.

## HI-Y ELECTS CHAIRMAN OF FROSH COMMITTEE

The Madison Hi-Y Club met last Thursday at the Y. M. C. A. Edward Hoebel '23 was elected temporary chairman of the Freshman committee. The committee was appointed with the idea of obtaining more members for the club. There were fourteen mem-

bers present, and they decided to hold regular meetings every Thursday night at 6 o'clock in the Y. M. C. A. building.

## State Legion Officers Will Meet In Capitol

The state executive committee and officers of the American Legion will meet in the senate parlors

in the capitol Saturday and Sunday. The meetings are scheduled to open at 10 o'clock Saturday morning. A dinner, to which local Legionnaires will be invited, is being planned.

Under a new system, the committee will hold four meetings a year in different parts of the state. The meeting here will be the first of the series.

## C. I. P. A. GROWING, MEETS NOV. 28-29

### High School Editors From 45 States Prepare For Con- vention

With the astonishingly rapid growth of the Central Interscholastic Press association, now preparing for its fifth annual convention, Wisconsin is attracting much attention not only in this country but elsewhere in the world.

The purpose of the association, which was created at a meeting here of 126 editors and faculty advisers of school publications April 22, 1921, is to furnish a means of helpful relations between high school editors, to facilitate the exchange of ideas, and to promote and maintain high standards in journalism.

The organization was originally intended to serve only high schools of the middle West, but since the first convention hundreds of high schools from all sections of the country have applied and have been received into membership. From 63 schools in 1921 the number today has grown to 845.

Only four states were members in 1921, while the present quota is 45 in addition to Alaska, Canada, Hawaii, and British Honduras. Last year's delegates to the annual convention of the association numbered 761 as compared with 126 in 1921.

The work of the association is supervised by a board of three directors of the school of journalism. The present members are Dr. W. G. Bleyer, director of the course in journalism, Prof. E. Marion Johnson, director of the C. I. P. A., and H. E. Birdsong, director of the course in journalism at Butler university. An experienced full time secretary is employed.

The official organ of the association is the "Scholastic Editor," which is the only national magazine de-

voted to scholastic journalism. It is issued monthly from its headquarters at South hall.

Among the services provided members are helpful individual criticism through the mail or columns of the "Scholastic Editor", all-American and monthly contests of different kinds, and the interchange of ideas through the convention method. The membership badge is an oval C. I. P. A. insignia which is provided to all members.

The plans for this year's convention on November 28 and 29, are being formulated by seven committees which have already been appointed. Registration of delegates this year will be carried on through the mail instead of waiting until the delegates arrive. One of the features of the meeting this year will be an exhibit of all publications holding C. I. P. A. membership and exhibits by various supply houses dealing in journalistic commodities.

### TWO MISPELLED WORD WINNERS ANNOUNCED

Winners of sums of five dollars offered to students reporting misspelled words in the first issue of the stop and shop blotters have been announced by the Cub Advertising company, publishers. James F. Lowe '25 reported the misspelling of "browse" and Harold E. Murphy, grad, was first to find the misspelling of "accommodations."

### OBERLIN PROF. TALKS TO REAL ESTATE MEN

Prof. Harley L. Lutz, head of the department of economics at Oberlin college, and nationally known authority on taxation, will speak at a meeting of the Madison Real Estate board on Friday. His talk will be on the principles underlying the apportionment of taxes, giving particular emphasis to their bearing upon the taxation of real estate.

MacKeown chief engineer of the industrial commission, attended a dinner-meeting of the "On Wisconsin" association in Louisville, Ky., Wednesday night.

The association meeting was held

in connection with the annual National Safety council held in that city. It is organized to cooperate with the national body to prevent accidents in Wisconsin.

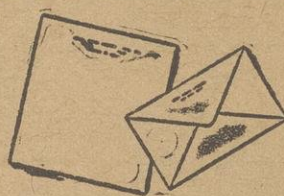

### Airplane to Bring 3 Instructors to Game

Three captains at St. John's Military academy at Delafield, Wis., will come to Madison by airplane Saturday to attend the Wisconsin-

Ames football game. Pilot Conlinson in charge of the plans which is doing commercial flying in Madison will make two trips to Delafield Saturday afternoon, a distance of about 60 miles, to bring the three men here.

Frank P. Cockeril was in Milwaukee Thursday attending a meeting of the state committee for the older boy's conference.

## STATE TO REMIT \$1,500,000 TAX

### Emergency Board Acts; Result of Big General Fund Balance

A remission of \$1,500,000 in state taxes will be made by the state emergency board within a week, it was learned today. The remission already has been authorized by Gov. Blaine and State Treasurer Levitan, it is said.

The remission will be made as result of a balance of more than ten million dollars in the general revenue fund. A similar remission of \$1,115,000 in taxes was made at this time last year.

The state emergency board, composed of the governor, secretary of state and state treasurer, is authorized to make such remissions. Whether Secretary of State Fred R. Zimmerman will approve the remission is not known. Last year he voted against the remission while Gov. Blaine and Treasurer Levitan approved it.

Final approval of the remission is expected immediately and certification made to the secretary of state.

### 10,000 Spanish War Vets Boost Waterway

NEW ORLEANS, La.—As a step toward boosting the Great Lakes-to-the-Gulf deep waterway a movement has been launched by Spanish-American war veterans to have at least 10,000 of their members in the Mississippi Valley where they journey next year to the annual encampment at St. Petersburg, Fla., make the trip down the Mississippi river to New Orleans and thence across the Gulf of Mexico to St. Petersburg.

### Curran Asks Charge Against Firpo Dropped

NEW YORK—Immigration Commissioner Curran has recommended to the department of labor the deportation proceedings against Luis Angel Firpo be dropped. Mr. Curran said the evidence given at the hearing on Ellis Island did not bear out the charges that the boxer had brought a woman into this country from Argentina for immoral purposes. A charge that Firpo committed perjury in statements to the immigration authorities is pending in the federal court.

## New Men Answer Request For More Frosh Basketball

Several new men have answered the last call for frosh basketball candidates, bringing the number of frosh basketball players to 100. Coach Levis sent his charges through light passing and basket shooting drills, evidently taking stock of the material with which he will have to work.

By refusing to allow new men to enter at any time, giving them only the rest of this week to report, Coach Levis hopes to be able to pick the select 40 that will compose his squad, earlier than last year, so that future effort will be spent upon developing the material which has been judged the best among the candidates.

Lighter and less rangy than the 1927 men, the yearling men possess some fast and clever material. Declining to declare the new men anything better than "average" frosh material, Coach Levis would not make any prediction as to how many of them might be developed into varsity material.

## La Follette Determined to Invade the West

WASHINGTON — Sen. La Follette, independent candidate for president was urged today by Gilbert E. Roe, his eastern campaign manager, to deliver a number of speeches in New England and Eastern states but after they had conferred it was announced that the senator still adhered to his plan of invading the northwest and Pacific coast states.

## Progressive Young Men Open Fall Activities

The first fall meeting of the Madison chapter of the Young Men's Progressive Association will convene in the office of Secretary of State Zimmerman, Tuesday night at 7:30. Any young man under 30, who is interested in discussions of political or economic problems is urged to be present at the meeting Tuesday night. There will be a speaker and plans for the ensuing year will be made.

## FOOTBALL OFFICIALS MEET TO TALK RULES

In order that all officials will work alike, have the same interpretations of rules, and assume a greater responsibility, arbiters who will officiate in western conference football games this fall met yesterday afternoon at Chicago on invitation of John L. Gionffith, athletic commissioner of the Big Ten. At press time last night no information had been received as to decisions reached, but it is understood the conclave was to take up such problems as the kinds of shoulder pads and shoe cleats to be used, the advisability of carrying a towel on rainy days to dry the ball, the starting of games on time, rough-

ing the forward passer, and other matters.

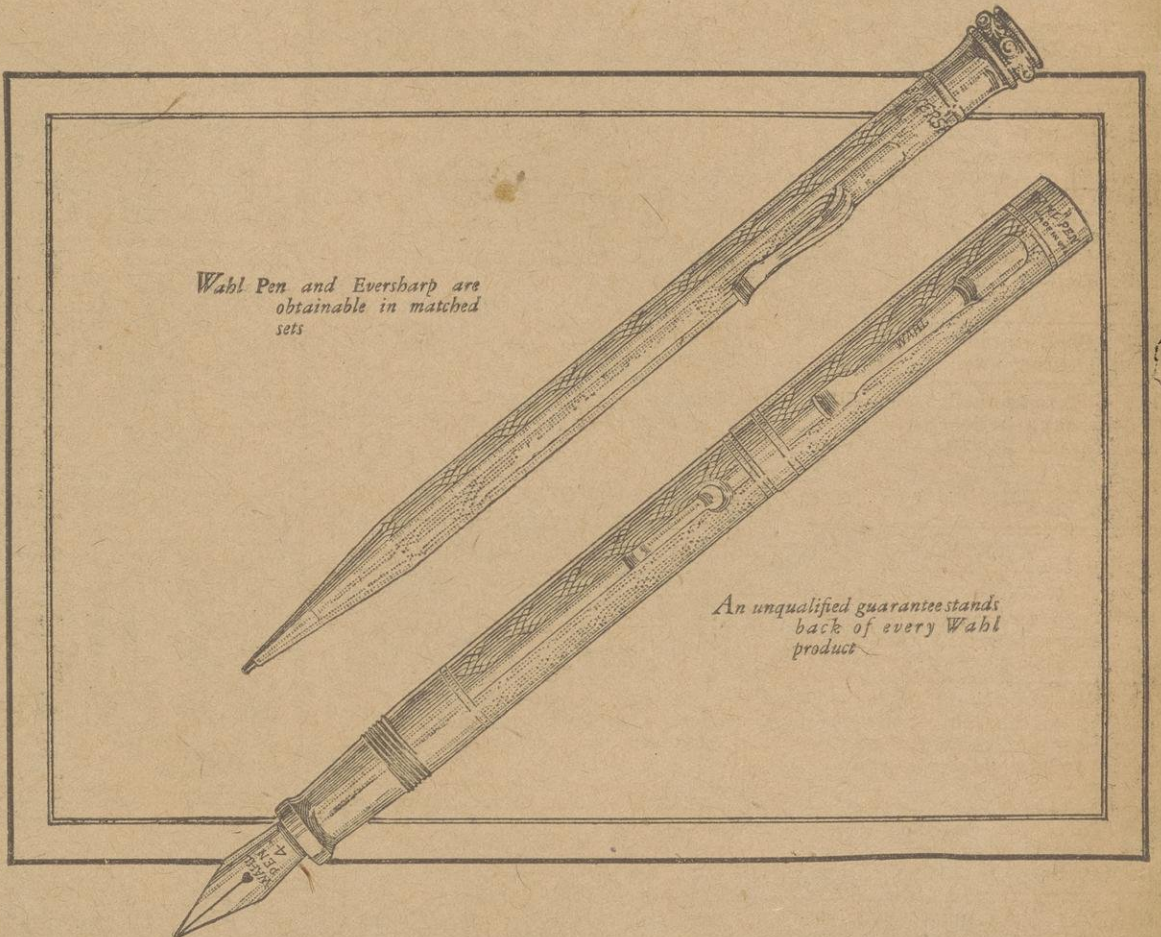

## BUCKEYE STADIUM IS JINX TO OHIO TEAMS

COLUMBUS, Ohio.—Ever since its completion two years ago the Ohio State stadium has been a jinx to Ohio State football teams. Not a single Western conference football game has been won by the Scarlet and Gray inside its huge walls. In 1912 the Buckeyes won only one conference contest, defeating Illinois at Urbana. The same held true in 1923 when the team had to play on a foreign field to win its only Big Ten game—that one at Lafayette, Ind., where Purdue succumbed.

## SCHLOTTER LINES UP SWORD AND GYM MEN

Twenty fencers and the same number of freshman gymnasts are now working under Coach Fred Schlatter on their respective teams. "There will be no cuts from the squads for several weeks, as all of the material looks good now", said Coach Schlatter yesterday. The men have begun training and are taking their daily workouts at 4:30 o'clock.

Gym classes were started at the Y. M. C. A. Thursday night for two of the older boys' clubs. The clubs starting work are the Winnebago club and the Truesdale Young Men's Bible class.

## A Beautiful Fraternity House For Sale

The lovely Theta house, located on Irving Place, is available for purchase

This is one of the best houses at Wisconsin, and will make an ideal home for any sorority or fraternity that wants a new chapter house equal to the best at Wisconsin.

This house was built for a fraternity house, and is not a made-over rooming house. It has large club rooms and dining rooms, and is ideally arranged for dancing. It is magnificently decorated and has as beautiful interiors as any house on the campus.

The sleeping quarters are splendid, the bath rooms are large, and the heating system is steam—just new.

This house is located close to the campus, and the neighboring chapter houses are among the oldest and best Greek letter societies at Wisconsin.

The policy of the Theta Sorority has always been to carry a very large chapter, and for this reason they are building a large new home. This is the only reason that they are leaving their present lovely home.

I own this house and will sell it to a fraternity or sorority for much less than the building alone would cost today. I will require only a small down payment, and the balance can be paid in ten monthly installments—just like rent. The room rent alone will more than pay for the house, for I will not require any larger payments than you would have to pay out in rent on a house not as good as this.

This is an opportunity for a fraternity or sorority to buy a magnificent house direct from the owner on easy terms. Write or call for additional information.

## HOLD DEATH CAR DRIVER FOR TRIAL

George Forbes Will Be Tried  
Here For Man-  
slaughter

George Forbes, Stoughton painter, was ordered held for trial on a charge of manslaughter after a preliminary hearing Friday before Judge A. C. Hoppmann.

Forbes was the driver of the car which wrecked on the Oregon-Madison road two weeks ago, killing Roger Abel Williams, 4-months-old son of Mr. and Mrs. Lloyd Williams Stoughton, a passenger in the machine.

Witnesses who testified were: A. S. Horn, Lloyd Williams, and Mrs. O. Johnson, all of Stoughton, Joseph Haight, road patrolman, and John Nittum were also subpoenaed but were not called to the stand.

THE CONQUESTS OF A SEA SHEIK

In a picture of glowing romance, stirring  
adventure and spectacular splendor, you  
will see—

Battles on land and sea, thousands of warriors,  
cannonading and in hand to hand fights on  
grappled galleons and galleases—Harem scenes,  
slave markets. Moorish castles—galley ships  
scouring the seas for booty, pirates scuttling  
treasure craft—tense moments and romantic  
nights in England, scenes of splendor and  
beauty in Algeria and the rolling seas under  
the full moon.

Four great galley ships and gal-  
leons specially constructed at a  
cost of \$275,000.

Costumes specially made a a cost  
of \$85,000.

An entire Moorish village of the  
type of the 16th century built.

Seven sea captains assisted in  
maneuvering the ships.

Seventy expert gunners in battle  
scenes.

Two thousand fighting corsairs and  
galley slaves.
