Lightning *SPEED* On Out-of-Town Calls

For fastest Long Distance Telephone Service,
give your call to the long distance operator in
this order —

1. The CITY you want —
2. The NAME or telephone NUMBER of
the party you are calling —
3. YOUR OWN telephone number when
the operator requests it.

The low cost of telephone service gives every-
one an opportunity for frequent voice-to-
voice visits with out-of-town friends.

Wisconsin Telephone Company

Long Distance Rates

Rates are quoted below for different classes of telephone service to a number of out-of-town points. Rates to other points not listed below may be obtained on request by calling "Long Distance."

International telephone service is available from your telephone to any point in Austria, Belgium, Czechoslovakia, England, France, Germany, Holland, Scotland, Spain, Switzerland and Wales, to most cities in Italy and to many important cities of other European countries. Telephone service is given to any point in Canada and Cuba and to the important cities of Australia, Java, Mexico and South America. Telephone service also is available to certain steamships while the vessels are at sea and within calling range. Calls may be placed to these points or rates and other information secured by merely calling "Long Distance."

*This rate is for an initial period of 5 minutes. The rate per minute for overtime will be proportionate.

For collect station-to-station calls, the regular station-to-station rate applies with these exceptions: If the station-to-station day rate is 20 cents, the collect station-to-station rate of 25 cents applies; if the station-to-station day rate is less than 20 cents, the person-to-person rate applies.

For additional information, ask for "Long Distance."
 "Station-to-Station Toll Service is faster and costs less."

Helpful Suggestions and Information for Bell Telephone Patrons

The Use of the Company's Lines is limited to communications between parties both of whom are present at the telephone, and employees of the Company are prohibited from accepting written or verbal messages for transmission or delivery.

Local Exchange Calls originating at public pay stations or telephones where it is necessary to deposit a nickel for each conversation are limited to five minutes duration and a charge of five cents will be made for each period of five minutes.

Subscribers to Party Lines are limited to five minutes use of the line at one time.

The Information Operator will Furnish on request the telephone numbers of subscribers not listed in this directory.

It is Impractical for Operators to give attention to reports of service difficulties, therefore subscribers are requested to report any irregularities in their service promptly to the Chief Operator.

If Your Telephone is Out of Order please notify us by calling "Repair Service" as soon as possible.

Ten Days' Notice for Changing location of telephones should be given. Subscribers are requested to report fully by letter any change in firm name or business for correction in the following issue of Directory.

Service Charges are due and payable at the Company's office within the discount period shown on each bill. Accounts unpaid after the expiration of the discount period are overdue and service is subject to suspension.

Schedules of Rates Effective at each exchange are on file at the Manager's office and can be examined by applying there.

A Copy of this Directory is delivered free to every subscriber for use until the next issue, but the book remains the property of the Company. It is imperative that the current issue be always used to obtain correct call numbers.

This Company Assumes no Liability for damages arising from names left out of this Directory or from errors occurring in its compilation or printing.

Telephone Directories of the Principal Cities throughout the Country may be obtained by any of our Subscribers desiring them, on payment of the charges made by the issuing company.

Prices and other information may be secured by calling the Manager's Office.

The Fire Department and the Police Department are always available by telephone. Tell your story briefly, calmly and distinctly, giving your street address, and answer promptly any questions asked by the Department called.

Patrons are Cautioned against the possible entry into their premises of Fraudulent Persons posing as Repairmen, Inspectors or Collectors. Employees of the Company, duly authorized to install, repair or remove telephones, or collect for service, are provided with credentials. Please guard yourself against any misrepresentation by asking to see these credentials.

Use of Foreign Equipment. The Company is responsible for satisfactory telephone service. It cannot permit the use of any equipment or other apparatus in connection with that furnished by it. Subscribers are cautioned not to purchase or use any equipment not furnished by this Company.

This Company Connects with the American Telephone & Telegraph Company, furnishing service to all of the important cities in the country.

Telegrams May Be Sent over the wires of this Company, to or from Telegraph offices. The Telephone Company does not assume responsibility for the correct transmission of the messages.

Supervision by Private Branch Exchange Operators—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

Requests for Charges—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

The Company Cordially Invites all users of the telephone to call at any Exchange for an inspection of the operating room and other interesting details of the business. The unique features of a Telephone Exchange are but little understood by the public at large, and observations by the subscribers often lead to suggestions, tending to the best results in the service.

Missed it!

But you can *see* him by Telephone

When your train pulls out without you and your plans for that important interview collapse like a house of cards . . . turn to the telephone.

Let Long Distance help you transact your business as if you were talking across your client's desk.

Long Distance Service plays a big part in Today's business. It eliminates space and it saves time. When the personal visit is delayed or is impossible, Long Distance does the work.

Long Distance Service is swift, . . . most connections can be made while you remain at the telephone. And it is economical to a surprising degree.

Wisconsin Telephone Company

Keep Out-of-Town Friendships Alive

by telephone

There's no uncertainty when you telephone! No "ifs" or "buts." You talk directly to the person you want to reach and get an immediate answer.

Your telephone takes you to anyone, anywhere, at any time. To friends in other cities — to folks "back home," to children away at school or college.

Telephoning out-of-town costs little. To most places 25 miles away, the Station-to-Station day rate is about 25 cents; 40 miles away, 35 cents; 75 miles, 50 cents; 125 miles, 75 cents; 150 miles, 80 cents. Where the Station-to-Station day rate is more than 35 cents, the rates are even lower during the evening (7:00 p.m. to 8:30 p.m.) and night (8:30 p.m. to 4:30 a.m.) periods.

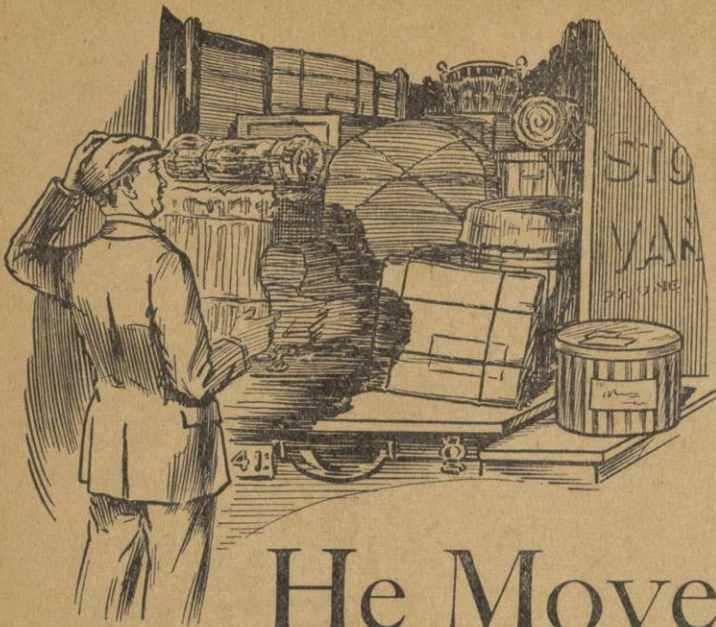

Call those distant friends now!

"... and Mildred, we want you and Jim to spend the week-end with us. Can you? ... Good! ... We'll expect you Saturday afternoon."

Wisconsin Telephone Company

He Moved — *but he forgot his telephone*

Mr. Jones was moving. The van, laden with household furnishings, was ready to go to his new home. Suddenly Mr. Jones realized he had neglected to have his telephone service changed. Hastily, he went to the telephone Business Office and said, "I want my telephone moved today."

Through special effort it was possible to comply with Mr. Jones' request. Telephone folks are ready, whenever possible, to apply such special effort in meeting a customer's requirements.

However, considerable work is always required to establish telephone service, even when a telephone is already in the home. It is not physically possible, usually, to move a telephone unless advance arrangements have been made.

For this reason, it is important that we be notified at least ten days in advance of moving.

Our friend, Mr. Jones, saw the point and the next time he moves, he is going to tell us at least ten days in advance.

Wisconsin Telephone Company

BELOIT

Classified Telephone Directory

1932-1933

"WHERE TO BUY IT"

Copyright 1932, Wisconsin Telephone Company

It's Easy to Use The Classified Telephone Directory

THIS DIRECTORY IS A CATALOG of telephone subscribers classified according to businesses, commodities and services and is designed to furnish a convenient means for finding telephone numbers and for locating sources of supply.

TO FIND THE TELEPHONE NUMBER OF A BUSINESS CONCERN you have in mind, look among the listings under the heading descriptive of the business.

FOR LOCATING SOURCES OF SUPPLY, look for the classification by the name of the commodity or, if that is not indexed, by the name of the business which ordinarily distributes it.

MANY TRADE MARKED PRODUCTS are now shown in this directory and they may be found indexed by their Trade Mark name either as heading classifications or as a group of listings similarly indexed under the heading descriptive of the business which supplies them.

This service is readily recognized by the Trade Mark symbol or cut which always appears in connection with the Trade Mark name.

THE DISPLAY ADVERTISEMENTS appearing on or near the page containing the heading classification in which you are interested will provide more complete buying information.

It Saves Hours of Time and Miles of Steps

ARCHITECTS

*Remember
the Telephone
in Planning Home
or Office Comfort and
Convenience*

Provision should be made for wires necessary to furnish adequate telephone service when planning apartment houses, hotels, office buildings and residences.

We shall be glad to give architects, owners, contractors and builders the benefit of our experience in these matters and assist them in planning the best system of telephone facilities in each instance.

CONTRACTORS

PROVISION should be made to carry the wires necessary to furnish telephone service before building apartment houses, hotels, office buildings and large residences.

If some arrangement is not included in the original building plans, it may be necessary to make extensive and costly alterations, after the completion of the building, in order to conceal the wires placed in the halls and rooms.

We will be glad to give architects, owners or builders the benefit of our experience in such matters and assist in planning the best system of wires for each case.

Telephone Equipment TO FIT YOUR PARTICULAR NEEDS

If you have a communication problem, either in your home or office, you will find its solution in one of our many types of telephone services. A partial list of the many time saving and convenient facilities offered for your consideration follows:

TELEPHONE SYSTEMS for communication between different parts of the home, office or plant.

EXTENSION TELEPHONES in another part of the office or home.

TELEPHONE TYPEWRITER SERVICE for instantaneous communication of typewritten messages between offices in the same building, in the same city or in different parts of the country.

LOUD RINGING BELLS for locations where noise makes it difficult to hear the ordinary telephone bell.

EQUIPMENT for the reception of telephone orders with speed and efficiency.

Manual and dial private branch exchange systems, hand type telephones and additional services and equipment to meet your special requirements are available.

A telephone call to our Business Office will bring a representative who will gladly discuss your particular communication problems.

Telephone Typewriter Service

Telephone typewriters are important factors in the progress of modern business. Sending the typewritten message instantaneously from one office to another, from one building to another, or from one city to a distant one, the telephone typewriter is a real servant to business.

It can be made to fit in with your particular business and make your inter-office or inter-branch office communication fast, convenient and expeditious.

A Suggestion

IT may not have occurred to families living in two-story houses that many extra steps resulting from frequent trips up or down stairs to answer the telephone may be saved by the installation of an extension telephone.

This service at the very moderate cost of a few cents per day will do much to increase the convenience of the telephone in the home.
