INTRODUCTION

In this directory we have endeavored to give the people of Fort Atkinson a complete and reliable city directory with other information that will make it valuable as a reference book. Be sure to see the general index for a complete list of all information contained in this issue.

There are five sections to this directory. The miscellaneous department, containing general information concerning Fort Atkinson. The Buyers Guide, containing the advertisements of leading manufacturing, business and professional interests of the city. The alphabetical list of names of residents, business firms, and corporations, the street guide with the names of the residents opposite their respective street numbers, and the classified business directory which lists according to the nature of its business every business in the city under its proper classification.

The information for this directory has been gathered by a personal call on every firm and resident in the city. A few mistakes are bound to occur in a directory that involves so large an amount of work, but we have spared no effort or expense to make the information complete and accurate and believe that the mistakes are very few. We present our first edition of the Fort Atkinson City directory confident that it will meet with the approval of every user.

STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS 1938

In the following list the streets are arranged in alphabetical order, with the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practical. In all streets both sides of the street are included in one list. The profession, business, etc., of individuals and firms are only given at their respective places of business. To find the occupation of a householder, refer to the alphabetical list of names.

ADAMS STREET
