No. 2899  
Upholstered Settee  
Antique Maple or Imitation Walnut, Flat on Birch

EVERY Sheboygan Early American design is a proved seller, and every piece has built into it that sturdiness which for more than three decades has characterized the "business-getting" qualities of Sheboygan chairs.

Our prices are not the lowest, but extremely moderate when, quality, comfort, durability and design, are taken into consideration.

Thousands of customers scattered over the nation look to the Sheboygan Chair Company as the source of extra, and extra profitable sales.

## DOUBLE-TOP REVOLVING TABLE

THE illustration on this page shows how the Double-Top Revolving Table operates.

In Position No. 1 the table is a compact kitchen work-bench with a top 22 by 34 inches, durably finished in hot and cold water proof Bakelite Varnish. Position No. 2 shows the double top being revolved into crosswise Position No. 3. Note the compartment formed by the table rails and a strong plywood bottom offering an ideal storage space for linens, kitchen utensils or the like. The drawer shown open in Position No. 1 is a convenient place for knives, forks and small kitchen implements. Position No. 4 shows the double top being opened into Position No. 5 picturing the kitchen work-bench now fully transformed into a charming breakfast table with a handsomely shaded and decorated top 34 by 44 inches.

At a nominal extra charge (see price list) Double-Top Revolving Tables Nos. 2929 and 2931 may be equipped with the drawer shown on illustration No. 1. Use the letter "D" to designate the drawer is wanted.

Kitchens in modern homes are not the spacious culinary halls they were in grandmother's day. The modern house-wife demands the step-saving efficiency of a small, compact kitchen. What then could be of greater appeal to her than a kitchen work-bench which in a jiffy may be transformed into a practical, daintily decorated breakfast table? Two tables for two distinct purposes that occupy the space of but one—A SHEBOYGAN CHAIR COMPANY DOUBLE TOP REVOLVING TABLE.

#### FINISHES

Sea Green, Shaded; Light Grey, Shaded;  
Shaded Maple; Rust, Shaded.

**"C" Table**

A non-adjustable wood table with a recess cut into it to accomodate a circular enamel pan. This table is furnished only on the three high chairs shown on page 65, and is always furnished complete with the removable enamel pan.

**"H" Table**

This table is deeply hollowed from a single piece of inch and a quarter lumber, and is durably finished in heat and water resisting Lacquer. This table cannot be furnished with removable food tray, because its finish and design make it possible to dispense with this equipment. See price list for styles of high-chairs which can be furnished with the "H" type table.

**Porcelain Tray****"N" Table**

This embodies all the features of the "C" table, and is adjustable besides. This patented table adjusts on swing-arms to four locked positions. The table cannot be removed entirely and can be adjusted to its several positions with the safety strap always in its proper place, thus making it, without question, the safest of all adjustable tables. The baby cannot possibly be left without the table in front of him, as is the case in most adjustable high chair tables. This "N" type table can be furnished only on high chairs so listed in the price list.

See No. 3104N on page 64 illustrating chair furnished with "N" table.

**"Z" Table**

This bent-rim wooden table, without dirt-catching corners, embodies all that is desireable in a good high chair table. It can be equipped with the "Z" removable food tray, which is a perfect piece of porcelain enamel without corners, projections, or sharp edges of any kind. It is manufactured especially for us by the Vollrath Co., whose enamel ware is known the world over for its elasticity and remarkable durability, and its neatly designed spring-wire fasteners keep the baby from removing the enamel tray. All high chairs which can be furnished with the "Z" type table are so designated in this catalog.

# CHAIRS FOR OFFICES

BANKS AND OTHER  
PUBLIC INSTITUTIONS

# *Introduction*

When the Crocker Chair Company ceased to operate, we purchased all the machinery and equipment necessary to perpetuate this line and now have in our employ the most skilled of their former craftsmen; the very men who built the product upon which the Crocker Chair Company gained their enviable reputation as outstanding manufacturers of Office Chairs. Thru their craftsmanship and the supervision and traditions of the Sheboygan Chair Company, we are offering the Trade a line of Office Chairs in which the business man will find the highest quality of workmanship as well as the finest of materials.

TYPICAL INSTALLATIONS

The increasing popularity of  
Moderne Influence in the archi-  
tecture of public buildings, has  
created a demand for conserva-  
tive Moderne chairs.

## Casters

No. C-1

No. C-1 steel wheel caster represents a combination of high quality and moderate price and is an excellent caster for general use.

No. C-2

No. C-2 Bassick Diamond Velvet Caster has earned a reputation of being absolutely "fool proof" and "trouble proof"—the finest all-purpose furniture caster ever manufactured.

No. C-3

The Diamond Arrow Caster represents the most remarkable development in ball bearing caster construction in many years. Utilizing an entirely new patented principle of ball bearing operation developed by Bassick engineers, it provides maximum efficiency in swiveling with strength and economical cost.

Typical Specimens of our Contract Department  
(Over)

In addition to the chairs shown in this catalog, we are ready to manufacture special chairs for almost any public usage. We maintain a Contract Department that specializes in chairs of individuality and sturdy construction.

When working on a contract job, do not hesitate to ask us to work with you. We will be pleased at all times to submit attractive sketches and lay-outs with interesting prices based fairly and squarely on quality and quantity wanted.
