The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

*everything
you need is
ready in
this new tray
from
Hollister®*

**Plastibell circumcision method,
proven through 15 years' use,
provides clean,
fast-healing circumcisions in a
three-minute procedure.*

First we simplified circumcision itself*. Now we've simplified the preparation. The new single-use Hollister Circumcision Tray holds everything you need: Plastibell® circumcision device with ligature, drape, sponges and pads, and all instruments. Guaranteed sterile, all disposable. No need to autoclave instruments or linens. No chance of finding an instrument dulled by previous use.

We even customized instrumentation: Probe, tissue scissors and Circumstat hemostat are all specifically designed for the circumcision procedure.

The Hollister Circumcision Tray will save time and improve technique as well. To receive a free tray for your evaluation, clip and mail the coupon. Please attach it to your professional letterhead or mail it in an envelope bearing your office imprint.

Please have your representative bring me a
HOLLISTER CIRCUMCISION TRAY*
on her next visit.

*Contains regular 1.3 cm Plastibell circumcision device.
