MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

La Crosse, Wisconsin

Held in the Hall of Presidents
UW-La Crosse Cartwright Center
Friday, September 10, 1982
9:05 a.m.

- President Beckwith presiding -

PRESENT: Regents Beckwith, Finlayson, Fish, Fitzgerald, Fox, Gerrard, Grover, Heckrodt, Jesinski, Knowles, Lawton, O'Harrow, Podlesny, Schilling, Veneman and Zirbel

ABSENT: None

Upon motion by Regent Jesinski, seconded by Regent Fitzgerald, it was voted that the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on July 16, 1982, be approved as mailed to the members of the Board.

- - -

✓ Zirbel, Marilyn - attendance at first regent mtg, succeeding R. Hendrickson, p. 1.
REPORT OF THE PRESIDENT OF THE BOARD

President Beckwith welcomed Regent Zirbel, who was attending her first Board of Regents meeting as President of the State Board of Vocational, Technical and Adult Education. With her family, Regent Zirbel owns and operates a farm near Bristol. She is a homemaker and part-time bookkeeper.

✓ Inter-System Coord. - Report on VTAE/DPI division of federal dollars, p. 1.
(X-ref. VTAE + DPI)

Reporting on recent activities of the VTAE Board, Regent Zirbel stated that there was continuing cooperation with the Department of Public Instruction concerning the division of federal funds.

✓ HEAB - Report of July 23 + Aug. 27, 1982 meetings, p. 1

President Beckwith called attention to a written report on Higher Educational Aids Board and Wisconsin Higher Education Corporation meetings of July 23 and August 27, 1982. He commented that in his view considerable study should be given to some recent proposals by the Executive Secretary of HEAB.

-

Board of Regents meeting 9/10/82 held at UW-La Crosse.

NW-La Crosse - Appreciation to Chancellor for hospitality, p. 2

Regents Gerrard and Beckwith expressed appreciation to Chancellor Richards for the gracious hospitality extended to the regents and others who had come to La Crosse for the meetings.

Hendrickson, Philip J. - Resolution of commendation & designation of Regent Emeritus status, p. 2

The following resolution was presented by Regent Gerrard. The motion for adoption was seconded by Regents Grover, Finlayson and Fox and was carried unanimously.

Resolution 2669: Whereas, Philip J. Hendrickson has served as a member of the Board of Regents for the past two years in his capacity as President of the Wisconsin Board of Vocational, Technical and Adult Education; and

Whereas, as a member of the Physical Planning and Development Committee he enriched Regent deliberations with valuable insights based on his experience in business management, as well as his knowledge of the public sector; and

Whereas, the time and effort he devoted to Regent business in addition to his numerous other responsibilities as State VTAE Board President is evidence of his extraordinary commitment to public service; and

Whereas, he has been a strong and persevering advocate of cooperation by the UW System, the VTAE System and the Department of Public Instruction and has effectively promoted efforts toward increased coordination in order to maximize the efficient use of all educational resources; and

Whereas, his wise counsel and sound judgment have been of great benefit to the University of Wisconsin System;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby expresses deep appreciation to Philip J. Hendrickson for the outstanding service he has rendered and confers upon him the title and status of Regent Emeritus.

Evans, Jean C. - Resolution of commendation & designation of Chancellor Emeritus, - pp. 2 & 3 (ref. UW-Cat.)

Regent O'Harrow presented Resolution 2670 and moved its adoption. The motion was seconded by Regent Fitzgerald and unanimously voted.

Resolution 2670: Whereas, Jean C. Evans guided University of Wisconsin Extension for more than seven years as Chancellor; and

Whereas, in that period his leadership effectively advanced the mission of UW-Extension to bring education to people and places far beyond the traditional classroom and campus; and

Whereas, his devotion to the cause of extended learning is wholly compatible with the Wisconsin Idea describing the boundaries of the university as the boundaries of the state; and

Whereas, his long and dedicated national service to extended learning gained him the esteem and respect of his colleagues and led to his election as president of the National University Continuing Education Association;

Now, therefore, be it resolved that the Board of Regents commends and thanks Jean C. Evans for his important contributions to UW Extension and to the University of Wisconsin System and grants him the status of Chancellor Emeritus.

- - -

REPORT OF THE PRESIDENT OF THE SYSTEM

It was moved by Regent Knowles, seconded by Regent Veneman and carried unanimously, that the following resolution be adopted:

Resolution 2671: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

✓ Enrollment - University - Comments by Pres. O'Neil on fall enrollment figures, p. 3

President O'Neil spoke about preliminary figures on fall enrollments, which indicated that actual enrollments would be very close to the projections developed many months previously. Despite uncertainties created by changes in federal financial aid policies, by the new \$10 undergraduate application fee and by the general condition of the economy, he observed, student interest in pursuing higher education at UW institutions remained high. It was expected that a more detailed report could be made at the October meeting.

Board of Regents Meeting, 9/10/82

✓ Instructional Funding - Comments by Pres. O'Neil regarding Enrollment Funding (X-ref. Enrollment Funding) p. 4

With regard to the Instructional Funding Report which had been presented at the July meeting, the President remarked that editorial comment since that time had been both extensive and positive. Stating that each of the five major party candidates for governor had spoken supportively about the needs and the potential of public higher education in Wisconsin, he hoped to provide after the primary election additional material which might be helpful to the two major party nominees, as well as to have opportunities for briefing any candidates for other offices who might be interested in such information.

✓ Craven, Eugene C. - Establishment of the Eugene C. Craven Memorial Award, p. 4

President O'Neil then made the following statement: "I must report with sadness a different sort of postscript on the Instructional Funding Report. The principal architect of its methodology, Assistant Vice President Eugene C. Craven, died last Friday evening after a long and extremely painful illness. Despite the agony of his final months and the certainty of death, Gene Craven continued to devote as many hours as his health would permit to completing his part of the Instructional Funding Report, even into early July. Whenever additional analyses were sought or program refinements suggested, Gene Craven was always the one to volunteer with a measure of patience and perseverance that would be deemed almost infinite even of a colleague in perfect health. The exemplary quality of the study and the methodology, recognized as it was by experts outside as well as within the state, is in one sense a striking memorial to Gene Craven's devotion and his painstaking precision. It seemed to us in the System Administration that we ought to remember Gene in another way. Accordingly, I have created the Eugene C. Craven Memorial Award which will be presented each year on the recommendation of the vice presidents to that member of the System Administration professional or academic staff who best exemplifies the commitment, the vitality and the energy which characterized the whole of Gene's career over many years in Wisconsin higher education, first in the University of Wisconsin Central Administration and for the last decade, of course, in the UW System Administration. If we recall with a special poignancy his final months, we ought not to overlook those years of good health and ineffable energy, years which I think will be well recalled through this memorial award."

✓ UW-Milwaukee - Staff - Introduction to Board of Dr. Norma Rees, Vice Chanc. (X-ref. Rees, Dr. Norma) p. 4

Recently appointed administrative officers were introduced, with President O'Neil first welcoming Dr. Norma Rees, Vice Chancellor of UW-Milwaukee.

✓ UW-Eau Claire - Staff - Introduction to Board of Dr. Patricia Ostmo, Dean, School of Nursing, p. 4 (X-ref. Ostmo, Dr. Patricia)

Chancellor Hannah then presented Dr. Patricia Ostmo, the new Dean of the UW-Eau Claire School of Nursing. A graduate of the College of St. Catherine in St. Paul, Minnesota, Dr. Ostmo received her Master of Science in Nursing from the University of California, San Francisco Medical Center, and her Ph.D. from the University of Iowa. She served for 18 years at the University of Iowa, 8 of them as Assistant Dean.

✓ UW-Stout - Staff - Introduction to Board of Dr. David Sabatino, Dean, School of Edn. & Human Services, p. 4

Dr. David Sabatino, Dean of the School of Education and Human Services at UW-Stout, was introduced by Chancellor Swanson, who indicated that Dr. Sabatino came to Wisconsin from Southern Illinois University. (X-ref. Sabatino, Dr. David)

Board of Regents meeting 9/10/82

✓ UW-Stevens Point - Staff - Introduction to Board of Dr. Paul Palumbo, Dean College of Fine Arts, p. 5 (X ref. Palumbo, Dr. Paul)

Chancellor Marshall presented Dr. Paul Palumbo, who had been appointed Dean of the College of Fine Arts at UW-Stevens Point. Noting that Dr. Palumbo is well-recognized as an outstanding composer, the Chancellor added that the new Dean came to Stevens Point from the University of Washington, where he had been head of the School of Music.

✓ UW-La Crosse - Chancellor's presentation to Board of accomplishments p. 5 EX. A

Chancellor Richards then presented to the Board an overview of recent accomplishments at UW-La Crosse. (The text of his remarks is attached as EXHIBIT A.)

Calling attention to the Chancellor's catalytic role in many of the developments he described, President O'Neil thanked him for the encouraging report and for the hospitality extended by UW-La Crosse.

✓ United Council of UW Student Governments - Comments to Board regarding federal grants & financial aid, administrative rule making & introduction to Board of Minority Affairs & Legislative Affairs directors, pp. 5 & 6

Mr. Scott Bentley, President of the United Council of UW Student Governments, commented first with regard to Resolution 2677, which was concerned with funding for the Wisconsin Higher Education Grant Program (see page 13). To utilize general purpose revenues for these grants, he stated, would assure recipients of a stability in funding which could not be provided by the special allowance used by the Higher Educational Aids Board in preparing previous biennial budget requests. While students would like to see the WHEG program funded beyond the level of 1977-78, he said that, taking into account the nature of the funding and uncertainties of the legislative process, United Council could not object to the System's recommendations. He then outlined a number of concerns about the program, the first relating to methods for determination of student needs, which was an area United Council felt merited careful review. In that regard, they suggested that administration of the program be scrutinized and that any necessary procedural changes be made in order to expedite dispersal of aid to needy students. He also expressed concern with the methodology of general purpose funding as it related to financial aid. Urging the Board to support the proposed improvements in the WHEG program as a viable alternative to reliance on the federal special allowance, he asked that the concerns he had outlined also be taken in to consideration.

~~WHEG Program~~ Higher Education Grant Program - Comments by United Council of UW Student Governments regarding p. 5

Turning to the subject of administrative rule making in the UW System, Mr. Bentley noted that United Council in June had endorsed the findings contained in a staff report of the Legislature's Joint Committee for Review of Administrative Rules. As he interpreted that action, its basis was a perceived need to reexamine the entire area of shared governance, with the rule making process seeming to many delegates an appropriate vehicle for such a review. Since that vote was taken, however, United Council had formed a study committee to investigate the issue further and had asked member student governments to specify their expectations about what would be accomplished by rule making. In that regard, they were to submit reports concerning the implementation on individual campuses of Regent policies dealing with classroom tape recording, use of university facilities, university fee policy, and merger implementation policy. The committee would then pinpoint any areas in which problems were identified and make specific recommendations. If there were no changes to suggest or if there was substantial agreement by the Board to any recommendations, he

(X-ref. Financial Aid) (HEAB)

✓ Administrative Rules - Comments by United Council of UW Student Governments, pp. 5 & 6

thought, United Council might well rescind its endorsement of the report. United Council wished to work cooperatively with the Board in making the educational experience for UW students as enriching as possible, he emphasized, adding that they were well aware that many potential pitfalls existed in the rule-making process. If rule making did become necessary, he suggested that the Board form an advisory committee as provided in s. 227.017, Wis. Stats., and noted that United Council would be pleased to see student representation on such a committee.

Concluding his report, he introduced two newly-appointed United Council staff members: Minority Affairs Director Bert Simpson, and Legislative Affairs Director Curt Pawlish.

Ch. B*

REPORT OF THE EXECUTIVE COMMITTEE

It was moved by Regent Fish, seconded by Regent Veneman and voted that the minutes of the August 12, 1982, meeting of the Executive Committee be accepted (EXHIBIT B).

Resolution 2672 was unanimously adopted, upon motion by Regent Jesinski, seconded by Regent Gerrard.

Resolution 2672: That the actions of the Executive Committee on August 12, 1982, be ratified and confirmed.

REPORT OF THE EDUCATION COMMITTEE

Chairman Schilling reported for the Committee.

The Committee first heard presentations about two UW-La Crosse programs.

The River Studies Program was described by Professor Thomas Claflin, Director of the Center for River Studies which was created in 1971. Noting that the Center has three main laboratories, the analytical laboratory, the chronic toxicology laboratory, and laboratory facilities on a boat, the RV John Muir, he said the Center complements the University's curricula in a number of disciplines, especially biology and chemistry. In its relationships with state and federal agencies, the Center had attracted over \$800,000 in grants and contracts in its ten years of existence. Stipends for graduate students and faculty positions are provided by the Center, which concentrates its activities upon river research and river-related resources.

✓ UW-La Crosse - degrees & programs - Presentation to Board of the River Studies Program & Exercise Program, pp 6 & 7

A presentation regarding the La Crosse Exercise Program was made by Professor Philip Wilson, whose comments included descriptions of the adult fitness unit, cardiac rehabilitation, industrial services, a research unit and a workshop unit, which together served more than 2,000 persons per year. The program furnished educational components for undergraduate degree programs in health, physical education and physical therapy, as well as for the M.S. Degree in Adult Fitness/Cardiac Rehabilitation.

The Committee complimented Professors Claflin and Wilson on their excellent presentations and thanked them for participating in the meeting.

Interinstitutional Agreements - *Guidelines for, and review of existing agreements between*

A report on interinstitutional agreements with non-UW institutions was reviewed by the Committee. Referring to her September 1, 1982, memorandum in which she had responded to a request for information on this subject, Vice President Lyall noted that it summarized provisions of existing agreements between UW-La Crosse and Viterbo College, UW-Superior and University of Minnesota-Duluth/College of St. Scholastica, and UW-Eau Claire and Immanuel Lutheran College. While none of the agreements involved the exchange of funds, they did entail administrative arrangements to facilitate the exchange of students on a space-available basis.

*pp. 748
R. 2673*

X-ref each institution

The principal focus of the Committee's discussion was on the requirement that the flow of students between cooperating institutions be balanced, and there was considerable comment regarding the possibility that an imbalance could signify an implicit state subsidy to the private college involved, or that a rigid insistence on a balanced flow would effectively reduce the number of students who could benefit from the agreement. There appeared to be consensus that the principle of balance in the flow of students between cooperating institutions should be observed, with any minor imbalances which might occur in one semester or term being remedied in the enrollment of students during the immediately ensuing terms.

Regent Schilling moved adoption of the following resolution, noting that all existing agreements met the guidelines which it set forth. The motion was seconded by Regent Podlesny and unanimously voted.

Resolution 2673: That the following be regarded as guidelines for interinstitutional cooperative agreements between UW institutions and private colleges:

*Policy?
yes.*

1. That there be no exchange of tuition, fees, or other financial payments between institutions.
2. That such agreements not work to restrict access to UW courses for registered UW students.
3. That arrangements pertaining to acceptance and transfer of credit conform to the normal academic standards of the participating UW institution and be approved by the appropriate faculty representatives at that institution.

- 4. That all such agreements be periodically evaluated and reviewed by the regents.

~~Kauffman, Joseph R. - Report on mtg. of State Higher Education Executive Officers, p. 8~~
 (X-ref. State Higher Ed. Exec. Officers - Exec. VP Kauffman's report on August 10-13 mtg., p. 8)

The next order of business before the Committee was a report from Executive Vice President Kauffman regarding his participation in a State Higher Education Executive Officers' (SHEEO) meeting on August 10-13. He indicated that there is a resurgence of interest throughout the country in improving relations between secondary and postsecondary institutions, including the areas of high school graduation requirements, understandings as to competencies expected to be attained in secondary schools, and general issues of remediation and quality. SHEEO had established a task force on improvement of quality on which Dr. Kauffman was serving as a representative of the National Association of State Universities and Land-Grant Colleges, and the task force, at his suggestion, was conducting a survey of the 50 states to identify the various initiatives underway. A task force on new approaches for financing higher education also had been created. Concluding his remarks, Professor Kauffman stated that people continued to look to Wisconsin as a model for organizing and conducting higher education.

Competencies - Discussion regarding ^{student} expected competencies/admission standards, R. 2674, pp. 8-11
 & Res. on developing list of competencies

Regent Schilling reported that the Committee then considered the subject of expected competencies. Referring to his August 27 letter to Vice President Lyall, he focused attention on making a clear distinction between admission standards, which a student must meet in order to attend a System institution, and competency expectations, which a student should meet in order to succeed. The questions enumerated in his letter covered a wide range of subjects about which the Committee would be receiving additional reports in the coming months.

(X-ref. Admission Standards - Discussion regarding ^{student} expected competencies/admission standards, R. 2674, pp. 8-11)

In Committee discussion, Regent Fox stated his belief that a committee consisting of representatives of university faculty, high school groups, and the Department of Public Instruction should be formed to achieve consensus on the subject of competency expectations. Expressing the view that the first objective should be development of a statement regarding course offerings students should take in order to prepare for the university experience, Regent Grover referred to such statements which had been developed in California, Oregon, Idaho and other states. President O'Neil agreed with the comments which had been made, adding that the need for joint secondary and postsecondary action on the issue had become more clearly recognized and that the time had come to establish a procedure for bringing forth a declaration of competency expectations for the guidance of students, counselors, parents, boards of education and others. Emphasizing the importance of differentiating competencies from admission standards, Regent Schilling stated that, while he supported the notion of a Systemwide list of expected competencies, he would oppose System-mandated uniform admissions standards. Regent Fox, Regent Grover and President O'Neil concurred with the view that the question of admission standards must be segregated from a declaration of expected competencies, and Regent Grover also drew a distinction between competencies expected and content of courses which students should take to prepare for success at the university level.

Wisconsin
State Dept. of Public Instruction - *Sept. 4 UW Sys. President*
Board of Regents meeting 9/10/82 *to consult regarding list of student*
expected competencies, R. 2674, pp. 8-11

The Committee received packets containing current booklets on preparation for college, published by UW-Madison, UW-Milwaukee and UW-Parkside for distribution to schools and prospective students. Representatives of UW-Oshkosh, Dr. Thomas Herzing, Assistant to the Chancellor, and Mr. Thomas Snider, Director of the New Students Division/Admissions, then presented a narrated slide transparency program entitled "How to Prepare for College," recently developed at UW-Oshkosh and tested with area secondary school administrators and students.

In presenting Resolution 2674, Regent Schilling emphasized that it was the Education Committee's intent to continue discussion of the broad and complex area of college readiness, of which developing a list of expected competencies was only a small part. There was consensus that the group to be named would be given a specific task to accomplish in a relatively short time frame, he said, adding that the need was recognized for close cooperation with elementary and secondary educators as well as the VTAE System in addressing the overall problem.

It was moved by Regent Schilling and seconded by Regent Gerrard that the following resolution be adopted:

Resolution 2674: That the Board of Regents urges the UW System President to consult with the Superintendent of the Department of Public Instruction on the idea of establishing a process for the development of a systemwide list of expected competencies of students for succeeding in college.

Regent Fox asked when it was anticipated that a report could be made to the Board on composition of the committee to develop a list of expected competencies and the timetable for its work.

Indicating that he hoped to discuss the matter with Regent Grover the following week, President O'Neil said that within a few days afterward it should be possible to have the makeup of the committee determined and a charge issued. Regent Grover expressed agreement with that plan.

Regent Lawton stated his concern about such an important issue being brought to the Board for action without the opportunity for all regents to be exposed to the discussion which had taken place in committee. Noting that he intended to vote for Resolution 2674, he expressed the view that in planning future agendas, time should be reserved for all regents to fully participate in committee discussion of significant and complex issues of the type in question.

Regent O'Harrow indicated that he shared Regent Lawton's view.

With recognition that Resolution 2674 related only to the matter of expected competencies, Regent Finlayson said she also had concerns about the broader issues involved.

Stating that the points which had been made were well taken, Regent Beckwith observed that the resolution would only establish a process. The group's report, he said, should be brought to the Education Committee at a time when all regents could be involved in discussion of the policy implications. Inviting advice as to how regent participation in these basic matters could be facilitated, he remarked that there were a number of items on the previous day's committee agendas for which it might have been useful to have broader regent involvement but that it was nonetheless necessary to utilize the committee structure due to the press of business.

Regent Fish expressed concern about a broader implication, noting that the Board had not considered the net effect of competency programs in enrollment or dollar terms or what would occur if funding were decreased--"whether this university would opt for exclusivity by academic standards or, in essence, by financial standards, by raising tuition. I don't see how you can divorce those subjects, plus minority participation in the University System, from a total discussion on what Regent Grover is suggesting."

Referring to the letter written by Regent Schilling, Regent Grover said it raised a series of such questions for continued discussion, while Resolution 2674 separated from those issues "a very narrowly focused attempt to depict a commonality of interest between secondary education and postsecondary academic education, as we talk about what the things are that kids ought to involve themselves in if they are going to be adequately prepared for the postsecondary experience." He noted that other states had taken similar steps to address the question.

In Regent Fish's judgment, the matter was extraordinarily complicated because it involved assessing which route the University would take if it had to choose among options, and he did not think that could be accomplished by a fragmented approach. "I believe in competency, but I do not subscribe to the belief that we can resolve that as easily as we are implying here. I think it is a much more complex thing, involving a lot of aspects."

Regent Beckwith stated that he supported the resolution, but only because it had a relatively limited and narrow scope--devising a means by which to make known to parents, counselors, high school students, and others what courses, levels of attainment and course content are appropriate for high school education on a preuniversity track. Where competency intersects with admission standards, he pointed out, the issues become more complicated, involving fiscal questions, minority enrollment questions, and an enormous number of policy issues. "It is inevitable that at least in the financial arena at some point there will be some level of intersection between those two, because we will be saying to the world, 'This is what we expect of our students who come to matriculate at our institutions.' And, if they do not come so prepared, then how are we going to respond to that? Are we going to respond by providing some level of basic skills education for those not prepared? Are we going to respond by suggesting they go elsewhere for additional preparation? Are we going to respond in different ways?" Indicating that he accepted President O'Neil's

view that the way various universities respond to students who have not completed the recommended courses is an area in which diversity is expected and desired, he emphasized that Systemwide policy in that regard was not being suggested.

While he intended to vote for the resolution, Regent Fish said his point was that the Board had not even begun to come to grips with the total problem.

A more encompassing definition of the problem, Regent Beckwith observed, is whether or not the state is prepared to run a university system large as this one, serving as many publics as the UW System serves, and if so, whether the state can afford it and is willing to make a commitment to that financial burden.

Regent Schilling gave assurance that the Education Committee recognized the complexity and broad scope of the issue, and that the objective of a competency list was acknowledged to be only a small part of it. Stating that these matters would be discussed further in the coming months, he emphasized that the issues involved were not being delegated away from the Committee or the Board. "This gets to the very nature of what our University System is all about. We don't think we've fixed anything. We have only taken a first step in a very complex problem."

While he, too, intended to vote for the resolution, Regent Veneman said he shared Regent Fish's concern that related matters are at least as significant as the competency list issue.

Expressing agreement with those who called attention to the importance of other aspects of the problem, Regent Fox stated that, as author of the resolution, "it was not my intention that this kind of device be used to limit access; quite the contrary--just to make sure those who have access are better prepared."

Regent Podlesny commented on the need for establishing relationships with the state's elementary and secondary school systems, noting that the University could not deal with the problems on its own. "We will make it known to these people what we expect. We have to decide our own philosophies and how much we are going to do for the people who come to us that aren't ready. But I think we have to be careful not to take on every issue."

The question was put on Resolution 2674, and it was unanimously adopted.

Concluding his report, Regent Schilling presented Resolutions 2675 and 2676, which had been approved by the Education Committee in closed session.

Adoption of the following resolution was moved by Regent Schilling and seconded by Regent Lawton:

Board of Regents meeting 9/10/82

✓ Professorships - Anthony R. Curreri - Folkert O. Belzer gives status R. 2675, p. 12 -12

Resolution 2675: That upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Folkert O. Belzer be changed from Professor of Surgery, Medical School, to Anthony R. Curreri Professor of Surgery, Medical School, UW-Madison, effective immediately with no change in salary.

(X ref ✓ Belzer, Folkert O.)

Regent Lawton stated that Dr. Curreri had been for many years one of the most distinguished oncology surgeons in the country and that Dr. Belzer, in his own right, is a nationally renowned transplant surgeon who well deserved the honor of this professorship.

Regent Beckwith added that Dr. Curreri also had been extremely effective in establishing good relationships with the Legislature.

Put to the vote, Resolution 2675 was adopted unanimously.

Upon motion by Regent Schilling, seconded by Regent Fitzgerald, the following resolution was unanimously adopted:

✓ Law School - Dean - Authorization to recruit, R. 2676, p. 12

Resolution 2676: That upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the request for Authorization to Recruit for a Dean, Law School, University of Wisconsin-Madison, be approved.

Regent Fox requested regent involvement in filling that position.

(See page 23 for appointment of Regent Selection Committee.)

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Vice Chairman Fish presented the Committee's report.

✓ Financial Aid Policy Study Group - Interim report regarding reduction in Wisconsin grant support & funding source, R 2677, pp. 12-13

The Committee first heard the interim report of the Financial Aid Policy Study Group, with President O'Neil identifying two independent circumstances that had caused concern, the first being a reduction in the Wisconsin grant-support level of nearly 30 percent over a 3-5 year period. While some of those reductions were temporary and one was the result of a technical error, others were more substantive. The second circumstance had to do with the source of funding. Over the past three years, there had been a conscious policy to replace what was more than \$10 million of state general purpose revenue with federal special allowance revenue--an uncertain and unstable source for long-term support.

✓ Financial Aids - Recommendations of System President & Board regarding Wisconsin Higher Educational Aids Program, R 2677, pp. 12-13

(X ref. ✓ Wisconsin Higher Educational Aids Grants) ✓ HEAB

It was moved by Regent Fish, seconded by Regent Podlesny and carried unanimously, that the following resolution be adopted:

Resolution 2677: That, at the request of the President of the University of Wisconsin System, the Board of Regents endorses the following recommendations and urges the State of Wisconsin Higher Educational Aids Board to consider including them as part of its 1983-85 Biennial Budget request:

1. The WHEG program should be supported solely by General Purpose Revenue (GPR) to provide a more permanent, stable funding base.
2. Funding for the WHEG program should be increased in an amount sufficient to return the purchasing power of the average grant to the 1977-78 level.
3. The WHEG program should be restructured so that a greater share of the funds available is awarded to students with the greatest need.

Regent Fish expressed appreciation for participation by other regents in the portion of the Committee meeting at which the above item was discussed.

*✓ Veterinary Medicine, School of - Discussion regarding status and tuition levels
pp 13-14*

A status report on contractual arrangements for the School of Veterinary Medicine was presented to the Committee. Recalling that one provision of the authorizing legislation for the school was that each class would have 60 Wisconsin residents and 20 full-cost contract nonresidents, President O'Neil advised the Committee that a recent survey of other states had not produced any expressions of interest in such contractual placements, with the possible exception of North Dakota, Vermont and Nebraska. In response to an inquiry about whether that situation might change when the school is open and established, he indicated that another survey probably should be conducted in two or three years, at which time the school would be offering concretely what at the moment was offered only abstractly.

Speaking to the Committee about other aspects of the planning and development of the school, Chancellor Shain reported that the River Falls building had been completed, the Madison campus facility was ahead of its construction schedule, and the Charmany Farms building was nearly complete. With the realization that 20 nonresident contract students could not be expected, he said the matter of an admissions policy had been reviewed very carefully, and the decision was to operate under the planning assumption of a mix of 70 residents and 10 nonresidents. In establishing fees for the School of Veterinary Medicine, the same percentage rates as those applied to the Medical School would be utilized; that is, 26 percent of full costs for residents and 38 percent of full costs for nonresidents. It was estimated that for 1983-84 the full cost of education would be \$19,800 per student and that, therefore, resident fees would be about \$5,150, and nonresident fees would be approximately \$7,500.

The Chancellor advised the Committee that 30 faculty members had arrived at the school, with the remaining faculty for the first year to be on campus by the end of the semester. A referral practice had been established, and a small clinic with an examining room was operating in temporary facilities. The faculty had been meeting with veterinarians throughout the state to become familiar with the practice of veterinary medicine in Wisconsin. There also was a research program underway, consisting primarily of joint projects with other UW-Madison units.

In discussion at the Board meeting, Regent O'Harrow suggested that a tour of the School of Veterinary Medicine be scheduled in conjunction with the October meetings, in order to provide additional insights with regard to the school's offerings.

Emphasizing that there was no question about the interest and availability of highly qualified nonresident applicants, President O'Neil noted that the purpose of the report to the Business and Finance Committee had been only to address the prospect of full-cost contracts with other states. There was every expectation, he added, that the volume of nonresident applications would exceed by far the number that could be admitted.

Regent Heckrodt inquired about the rationale for charging out-of-state students only 38 percent of cost in the School of Veterinary Medicine and the Medical School

✓ Medical School - Discussion of tuition levels, p. 14

President O'Neil replied that the only tuition or student fees set specifically by statute were the percentage rates which had been established for the Medical School, while nonresident graduate students in other fields were charged 70 or 72 percent of cost. In considering veterinary medicine tuition, he explained, the closest analogy seemed to be the statutory formula for the Medical School, inasmuch as a nonresident rate of 70 percent would produce a fee so high as to be out of spirit with the legislative intent reflected in the Medical School formula. Noting that there was no legislation with respect to veterinary medicine fees, he said the assumption in the authorizing legislation had been that all nonresident students would be paid for by their states at full cost, with the students being charged resident tuition and the contracting state paying the remainder.

In response to a question by Regent Beckwith, President O'Neil said he did not think the 26/38 formula had been brought to the Board for approval, but rather had gone through the Legislature's Joint Committee on Finance.

Inasmuch as the original intent was to have 60 resident and 20 nonresident contractual students, Regent Fish pointed out that, if the University succeeded in the future in negotiating contractual arrangements with other states, the 70/10 ratio could be changed back to 60/20 and the resulting increase in fee income would accrue to Wisconsin's benefit.

✓ Tuition - Discussion regarding school of Veterinary Medicine & Medical School tuition formulas, pp. 13-14

Continuing the report of the Business and Finance Committee, Regent Fish stated that the Committee approved a two-month listing of gifts, grants and U.S. government contracts, which included the following: 87 research grants from the National Institutes of Health totaling almost \$10 million; a grant from USAID of \$3,407,025 for an instrumentation technology and equipment management program in Egypt; continuation of Sea Grant Program funding at \$1,900,000 annually, while Sea Grant funding in many other states was being reduced; 13 grants from WARF for a total of almost \$6 million; and two grants from Shell Oil Company and Cetus Corporation totaling \$2 million for research, training and clinical application relating to interferon biology. It was noted that year-to-date totals for 1982-83, excluding student aid, were almost identical to the preceding year and that student aid funding, which had been delayed by late congressional action, could ultimately be less than in previous years.

Adoption of Resolution 2678 was moved by Regent Fish, seconded by Regent Fitzgerald and unanimously voted.

Resolution 2678: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

A report on delegated salary adjustments for 1982-83 was presented to the Committee by Vice President Lorenz, who noted that these determinations pertained to unclassified salaries below the level approved by the Board in July 1982. Substantive provisions of the pay plan, approved by the Joint Committee on Employment Relations as part of the 1981-83 biennial budget, remained intact for nonrepresented employees, with the exception that effective dates of increases were delayed, corresponding to withdrawal of 25 percent of 1982-83 appropriations. Therefore, actual salary increases for 1982-83 averaged 6 percent. The state authorization left some discretion to the UW System for distribution of salary funds, and a plan consisting of two components had been put into effect. The first was a 6 percent general economic adjustment, with a minimum of 2 percent and a maximum of 4 percent available for merit adjustments, the balance being distributed across the board. The second component--a 2 percent equity adjustment for declines in real income and competitive positions--had a broad purpose and could be distributed selectively or generally. Agenda materials which listed the policies adopted within the guidelines of the various institutions showed that, of the unclassified staff of 12,339, 34 percent received base-rate adjustments in a one percent range surrounding the 8 percent average.

✓ Salaries - Report of 1982-83 delegated salary adjustments, p. 15

In his report to the Committee, Vice President Lorenz stated that the 1981-82 year-end Systemwide unencumbered balance was approximately \$28,000. State general purpose revenue funds had been utilized, with only minor residual balances lapsing to the state general fund.

The Vice President's report also included an update on fire and flood damages at UW-Oshkosh. The Committee was informed that, even with the damage occurring late in the summer, the textbook service and food service were functioning in time for the beginning of the fall semester. Regent Fish stated that the Chancellor and staff of UW-Oshkosh were to be commended for coping successfully under very trying circumstances and getting those services back in operation in time to meet the needs of returning students.

✓ UW-Oshkosh - Buildings + Lands - Report on fire + flood damage of late summer, p. 16

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The Committee's report was presented by Chairman O'Harrow.

The first agenda item was a request for approval of the concept and budget report for the UW-Madison Swine Teaching and Research facility, at a cost of \$1.5 million from general fund-supported borrowing. The project was briefly reviewed by Professor Neal First, Chairman of the Department of Meat and Animal Science, who explained that construction of the facility at the Arlington Experimental Farms would replace existing swine production facilities and consolidate the programs into a single, modern production and research unit. The 28,900 gross square foot facility would be used for the production of 312 disease-free litters per year--the number needed to fulfill teaching, research and extension functions. The facility was recommended in a 1977 study of the College of Agricultural and Life Sciences, which strongly emphasized the inefficiency of using funds and manpower in the operation of decentralized swine facilities.

Upon motion by Regent O'Harrow, seconded by Regent Fitzgerald, the following resolution was adopted, with Regent Fish voting "No."

Resolution 2679: That, upon the recommendation of the UW-Madison Chancellor, the Dean of the College of Agricultural and Life Sciences, and the President of the University of Wisconsin System, the concept and budget report for the Swine Teaching and Research Facility be approved at an estimated total cost of \$1,500,000 from GPR-General Fund supported borrowing and authority granted to plan, bid and construct.

) Approval of concept + budget report, R 2679, p. 16

Regent Fish, who had been serving as a member of the State Building Commission when it considered this facility, recalled that the Commission was strongly opposed to the project and had voted against it, but that the Commission's action was overridden by the Legislature. Therefore, for the purpose of consistency, he asked to be recorded as voting "No."

Regent O'Harrow reported that the Committee approved five land transactions, two involving UW-Madison and one each for UW-Stout, UW-Oshkosh and UW-La Crosse. The first UW-Madison request concerned the sale of an unimproved lot in the Town of Madison Arboretum area to the Lake Forest Water Cooperative. The Arboretum Committee had voted to recommend that the offer of \$100--the nominal value assigned by two appraisers--be accepted, since this noncontiguous parcel was not used by the Arboretum for any purpose, although it did require maintenance. The second item for UW-Madison involved sale of a 4.38-acre parcel of undeveloped land near Lake Mills, Jefferson County, for \$12,000. A noncontiguous portion of the Emmons Blaine Experimental Farm, the property was appraised in February and March 1981 for \$12,000 and \$22,000--an average of \$17,000. The second request for bids was made in December 1981, with the restriction that the property could not be subdivided for fifteen years. Of the two bids received, a \$9,000 bid was rejected, and a \$12,000 bid was recommended for acceptance.

At UW-Stout, the transaction concerned conveyance of one remote-from-campus 5.14-acre parcel of improved property (the Lange Cannery) and \$49,000 (plus relocation, appraisal and closing costs of \$59,000) in exchange for one parcel of 15,114 square feet of improved land (the Greenhouse property) located within the approved Campus Development Plan boundary and adjacent to the UW-Stout General Services Building. Acquisition of the parcel would allow consolidation of the physical plant, stores and general services activities in one campus location. Exchange of the Lange property, located 1.3 miles from the campus, also would be consistent with the Campus Development Plan, which stated that the property should "be considered as having potential for sale or trade for needed on-campus land in the future." The Greenhouse property was appraised in July and August 1982 for \$150,000 and \$160,000. The option was for \$49,000 cash and exchange of the Lange property, which had a 1981 appraisal range of \$90,000 to \$125,000. Under terms of the agreement, the owner of the Greenhouse and UW-Stout would retain the option of possession on their respective properties for two years after closing, and possession might be retained by either party for an additional two years at a rental of \$15,000 per year.

At UW-Oshkosh, the request was for authority to exchange one not-to-exceed 3.39-acre parcel of unimproved campus land for one 2.93-acre parcel of unimproved, contiguous-to-campus privately owned land. The latter parcel is adjacent to the Campbell Creek Athletic Facility lands and would be used to provide off-street parking for the Titan Stadium and other adjacent outdoor sport facilities. The campus land to be traded is an irregularly shaped parcel along Campbell Road acquired from the City of Oshkosh as part of the 34-acre Campbell Creek Athletic Facility site in February 1968. The UW-Oshkosh land was appraised at an average of \$30,000, while appraisals of the privately owned parcel averaged \$33,825.

The final transaction involved purchase of a 0.06-acre parcel of land located at 635 North 17th Street, La Crosse, at a cost of \$29,400 plus \$6,000 in appraisal, closing and relocation costs. It is included in the two-block area adjacent to La Crosse Street which had been approved by the Board of Regents and the State Building Commission for acquisition on the basis of availability. The property had an average appraised value of \$30,450, with an option to purchase secured at \$29,400.

It was moved by Regent O'Harrow, seconded by Regent Heckrodt and carried unanimously that the following resolution be adopted:

Resolution 2680: That, upon the recommendation of the UW-Madison, Oshkosh, Stout and LaCrosse Chancellors and the President of the University of Wisconsin System, authority be granted for the following land transactions:

✓ Land - sale of Arboretum area lot to Lake Forest Water Corp., R 2680, P. 17+18
UW-Madison (X ref. Arboretum)
(X Lake Forest Water Coop?)

Sale of one, unimproved lot in the Town of Madison Arboretum area to the Lake Forest Water Coop for \$100

✓ Emmons Blaine Experimental Farm - sale of 4.38 acre noncontiguous land, R 2680, P. 17+18
(X ref. Land)
Sale of a 4.38 acre parcel of undeveloped land, near Lake Mills, Jefferson County, Wisconsin for \$12,000

✓ UW-Stout - Bldgs + Land - Exchange of

Conveyance of one remote-from-campus 5.14 acre parcel of unimproved property (Lange Cannery) and \$49,000 (plus relocation, appraisal and closing costs of \$59,000) in exchange for one 15,114 square foot parcel of improved land located within the approved Campus Development Plan boundaries and adjacent to the UW-Stout General Services Building.

R 2680, P. 17+18

✓ UW-Oshkosh - Bldgs + Land -

Exchange of one not-to-exceed 3.39 acre parcel of unimproved campus land for one 2.93 acre parcel of unimproved, contiguous-to-campus privately owned land.

R. 2680, P. 17+18

✓ UW-LaCrosse - Bldgs + Land

Purchase of a 0.06 acre parcel of land located at 635 North 17th Street, City of LaCrosse, at a cost of \$29,400 plus \$6,000 in appraisal fees, closing and relocation costs, from GPR-supported Land Acquisition Funds.

R. 2680, P. 17+18

Regent O'Harrow reported that the Committee reviewed transportation plans for UW-River Falls and UW-Stout, with presentations made by Chancellors Field and Swanson. The plans were consistent with those previously approved by the Board for other System universities and were developed in cooperation with representatives of the local communities. A significant number of 1981 transportation accomplishments were identified in the plans, along with objectives to be pursued in the coming six years.

Board of Regents meeting 9/10/82

UW-River Falls - Adoption of Transportation Plan, R. 2681, pp 15+19

Adoption of Resolution 2681 was moved by Regent O'Harrow, seconded by Regent Fitzgerald and carried unanimously.

Resolution 2681: That, upon the recommendation of the UW-River Falls and UW-Stout Chancellors and the President of the University of Wisconsin System, the 1982 Campus Transportation Plans for the University of Wisconsin-River Falls and Stout, prepared in response to Resolution 2222 which directed each campus to base its transportation planning efforts upon Section 291 er. 36.11 (8m), Wisconsin Statutes, be adopted.

UW-Stout - Adoption of Transportation Plan, R. 2681, pp. 18+19

Requests for approval of nine minor projects were presented to the Committee, including two for UW-Madison which were to be funded from program revenues--a \$50,000 hay storage facility at the Arlington Experimental Farm and energy conservation and accessibility modifications to four Clinical Sciences Center entrances at a cost of \$140,000.

Projects at UW-Milwaukee involved fire protection improvements in the Chemistry Building at a cost of \$42,000, a chilled water system study for \$35,000, and a condenser water pump overhaul project for \$36,000. There were two maintenance projects, the first for roof repair/replacements on four buildings at a cost of \$132,500, and the second for masonry/caulking repairs on six buildings at a cost of \$87,000. The final project was for \$244,000 to correct leaking at the Fine Arts Building by providing for replacement of the exterior sculpture court surface with a new, more positively sloped, watertight surfacing and for installation of a drain tile system along the south wall of the music wing.

The UW-Oshkosh request was for replacement of water and sanitary sewer piping in Clemens Residence Hall at a cost of \$123,500 from program revenues. Finally, \$200,000 of state building trust funds was requested for continuation of the System's 1981-83 small energy conservation projects program.

Regent O'Harrow moved adoption of the following resolution, and the motion was seconded by Regent Heckrodt:

Resolution 2682: That, upon the approval of the UW-Madison, Milwaukee and Oshkosh Chancellors and the President of the University of Wisconsin System, the following minor projects be approved and authority granted to plan, bid and construct, at the cost and from the funding sources indicated:

Arlington Farm - UW-Madison - Approval of hay storage facility, R 2682, pp. 19-21

Clinical Science Center - Approval of entrance modifications, R. 2682, pp. 19-21
Clinical Science Center Entrance Modifications Project, Program Revenues, Non-GPR, \$140,000.

UW-Oshkosh - Bldgs & Land

✓ approval of

Clemens Hall Water and Sanitary Sewer Piping Replacement Project, Program Revenues, Non-GPR, R. 2682, pp. 19-21 \$123,500

✓ Energy Conservation - UW System

Approval of UW system small energy conservation projects program, R. 2682, pp. 19-21

Small Energy Conservation Projects Program, SBTF-Energy Conservation Allocation, GPR, \$200,000

In response to a question by Regent Fish about discrepancies in cost figures for the first and seventh items as they appeared on the agenda and in the resolution, it was indicated that the figures listed on the agenda were incorrect.

With respect to the small energy conservation projects program, Regent Fish noted that the previous funding request had been decreased by the Building Commission from \$200,000 to \$150,000 and asked if it was not expected that a similar adjustment would be made when this request was presented.

Noting that cash in the energy fund had been short when the previous request was reduced, Vice President Winter indicated that approximately \$6 million had since been transferred into that fund from the capital improvement fund.

Roof - Problems - Discussion regarding roof repair for Kenilworth Bldg at UW-Milwaukee pp 20-21

Regent Podlesny questioned the roof repair proposal for the Kenilworth Building at UW-Milwaukee, asking if in the future the building was to be sold or razed.

✓ (X ref - UW - Milwaukee Bldgs & Land)

Indicating that the project request resulted from a regular inspection process for all University buildings, Chancellor Horton thought it would be necessary to continue using the building to house University activities for a period of six to ten years.

Regent Fish pointed out that the property could not be sold if there was a reversion clause in the contract with the federal government. Chancellor Horton said that was correct, unless the federal government deeded it to the University.

Regent Podlesny did not think money should be spent on the building if it would not be saleable, adding that perhaps University activities could be moved from the facility sooner than currently anticipated.

It was noted by Regent O'Harrow that as custodian of the building the University was required to maintain the roof.

Regent Podlesny considered it unconscionable to spend approximately \$100,000 on repairing a building, if it was later to be torn down.

For a roof of that size, Regent Jesinski indicated, the cost involved was not extraordinary.

Regent O'Harrow added that Regent Zirbel had questioned using the word "minor" to describe such projects.

Explaining that the word was utilized because of a statutory definition, Regent Fish said it was required by law that any project in excess of \$250,000 must be enumerated, while all those under \$250,000 are defined as minor projects.

Put to the vote, Resolution 2682 was adopted, with Regent Podlesny voting "No."

Regent O'Harrow reported that the Committee then discussed informally with Regent Fish his observations on working relationships between the Board of Regents and the State Building Commission, which provided a unique opportunity to hear the views of a person who had served as a member of both the Commission and the Board.
✓ Buildings Comm - Disc. of relations with, p. 21.

The agenda item regarding policy on acquisition of telecommunication systems was deferred in order to give the Committee additional time to consider all ramifications of the issue.

✓ Telecommunications Systems - Policy on acquisition deferred, p. 21

✓ UW Center System - Report on city & county operating budget support, p. 22

A report on city and county operating budget support for the UW Center System in 1982 was presented by Acting Chancellor Polk, who emphasized the continuing commitment made by these municipalities in support of higher education.

✓ Energy Conservation - Report on energy management for 1981-82 p. 22

Regent O'Harrow stated that the Committee then reviewed an impressive report on energy management for fiscal year 1981-82, which included statistics reflecting the System's accomplishment in providing for its energy needs, including a colder than normal heating season, while also meeting state-imposed budget reductions. The use of coal in campus heating plants increased from 56.4% in 1980-81 to 74.8% in 1981-82, a change more dramatically indicated by comparison to 1979-80, when coal use was 20.7%. The increased operating costs required to use coal for steam generation had been absorbed by the System. Although total gross energy consumption increased 2.7% during 1981-82 when compared to 1980-81, adjustment of figures for weather differences between the two years resulted in a 5.5% decrease in energy consumption during 1981-82. Each System institution continued to contribute to the overall conservation effort, with percentage reductions since 1972-73 in total BTU per gross square foot ranging from 42.8% to 10.1%. Regent Heckrodt observed that it would be helpful if publicity could be generated to make known the results of this fine effort.

✓ UW-Oshkosh - Bldgs & Lnds - Report on fire & water damage in River Commons & Kolf Phys. Edn. Center, p. 22

In his report to the Committee, Vice President Winter provided an update on events relating to the Blackhawk Commons fire and water damage in River Commons and the Kolf Physical Education Center at UW-Oshkosh. It was noted that campus recommendations relating to reconstruction of Blackhawk Commons should be ready for consideration at the October Board meeting and that insurance claims to date totaled over \$1.5 million, with the total claims estimated at \$3.5 million if Blackhawk Commons were reconstructed. The Committee commended campus staff and all the individuals who had been involved with the cleanup and preparation which allowed classes to open as scheduled on September 7.

✓ UW-Stevens Point - Bldgs & Lnds -

Concluding his report, Regent O'Harrow stated that the Committee approved a request for a \$47,200 Increase in the budget for the University Center kitchen/dining room renovation project at UW-Stevens Point, bringing the total cost to \$1,081,500. The additional funds would allow installation of a brick paver to replace deteriorated carpet, terrazzo and tile flooring near the construction area; replacement of deteriorated wood door frames and hollow-core doors; and completion of code-compliance work. The Committee agreed that it was most logical to do this additional construction work at the present time, while the area was closed to student traffic.

R 2683, PP. 22-23

Upon motion by Regent O'Harrow, seconded by Regent Jesinski, the following resolution was unanimously adopted:

Resolution 2683: That, upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, a \$47,200 increase in the budget for the University Center Kitchen/Dining Room Renovation Project be approved from Non-GPR Program Revenues for a revised total project cost of \$1,081,500.

✓ UW-Platteville - staff - Ch. Carrier to retire; Authorization to recruit Chancellor, R. 2684, p. 23

MISCELLANEOUS RESOLUTIONS

Regent Beckwith called on President O'Neil, who referred to Chancellor Carrier's recently announced intention to retire from the chancellorship of UW-Platteville effective October 1. "I think much has been said on occasions in the last two weeks about the contributions that Chancellor Carrier made during his seven years at Platteville. As we authorize a search for his successor, I think it is appropriate to take note of these contributions that he has made and the major gap that his departure creates for us."

✓ Carrier, w/ w/ - Retirement planned for 10/1/82, p. 23

Moving adoption of Resolution 2684, Regent Jesinski requested regent involvement in filling the position. The motion was seconded by Regent Knowles and carried unanimously.

Resolution 2684: That, upon the recommendation of the President of the University of Wisconsin System, authorization to recruit for a Chancellor of the University of Wisconsin-Platteville be approved.

✓ Regent Committee - Appointment to Regent Selection Committee for Chancellor, UW-Platteville, of Regents Fish, Fitzgerald and Heckrodt to
President Beckwith appointed Regents Fish, Fitzgerald and Heckrodt to a Regent Selection Committee for the position of Chancellor, UW-Platteville, with Regent Fitzgerald to serve as Chairman. *Fitzgerald (Chair) + Heckrodt, p. 23*

(X-ref - Regent Selection Committee for Chancellor, UW-Platteville)

Regents Fox, Jesinski and Schilling were named as members of a Regent Selection Committee for the position of Dean, UW-Madison Law School, with Regent Fox to serve as Chairman.

✓ Regent Committee - Appointment to Regent Selection Committee for Dean, UW-Madison Law School, of Regents Fox (Chair), Jesinski and Schilling, p. 23

(X-ref - Regent Selection Committee for Dean, UW-Madison Law School)

At 11:10 a.m., the following resolution, moved by Regent Fox and seconded by Regent Fitzgerald, carried on a unanimous roll call vote, with Regents Beckwith, Finlayson, Fitzgerald, Fox, Gerrard, Grover, Heckrodt, Jesinski, Knowles, Lawton, O'Harrow, Podlesny, Veneman and Zirbel voting "Aye" (14) and no regents voting "No."

Resolution 2685: That the Board of Regents convene in closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

- - -

CLOSED SESSION ACTIONS

The Board arose from closed session at 11:40 a.m., and adoption of the following resolutions was announced:

Resolution 2686: That, upon the recommendation of the University of Wisconsin-Superior Chancellor and the President of the University of Wisconsin System, the following reappointments to the UW-Superior Board of Visitors ~~be approved~~ for terms ending June 30, 1985:

UW-Superior - Visitors Bd. of
Appointments to Board

- ~~Mr.~~ John H. Eaton, Virginia, Minnesota
- ~~Mr.~~ John M. McFaul, Edina, Minnesota
- ~~Mr.~~ Douglas Moodie, Superior, Wisconsin
- ~~Mr.~~ Siinto Wessman, Superior, Wisconsin

and

~~That Mr. Robert H. Gee, of Superior, be appointed to the UW-Superior Board of Visitors for an initial term ending June 30, 1985.~~ , R. 2686, p. 24

Resolution 2687: That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, the following persons be appointed to the UW-Green Bay Board of Visitors for terms ending in June 1985:

UW-Green Bay - Visitors Bd. of - Appointments to Board for terms ending 6/85 of

- Mrs. Elizabeth B. Hendrickson, Green Bay
- Mr. Robert V. Rupp, Green Bay

and reappointments

~~That the following persons be reappointed for terms ending in June 1985 of~~

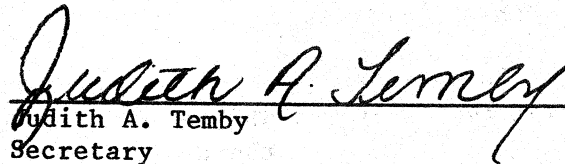

- Mrs. Sylvia Kaufman, De Pere
- Mr. Benjamin J. Teague, Green Bay
- Mrs. Eunice Garsow, De Pere

, R. 2687, p. 24

Board of Visitors - Appointment of

Resolution 2688: ~~That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, Mr. John R. Boberg, of Eau Claire, be appointed to the UW-Madison Board of Visitors for a term ending May 1, 1983,~~ R, 2688, p. 25

The meeting was adjourned at 11:40 a.m.

REMARKS BY CHANCELLOR RICHARDS, UW-LA CROSSE

La Crosse, Wisconsin
September 10, 1982

President Beckwith, President O'Neil, we are delighted to have the regents in La Crosse and grateful for this opportunity to describe some of the evolving characteristics of this campus. Historically, we have enjoyed a widespread reputation in physical education and we remain very proud of those programs in health, physical education and recreation. Yesterday, we had the opportunity to describe the La Crosse exercise program to the Education Committee. Both the adult fitness and cardiac rehabilitation segments of this program add to our research and service mission and tie us more closely to the excellent medical community in La Crosse. The nature of UW-L, however, has changed considerably and, although we remain very proud of our historic strengths in HPER, I do want to report to you that our most rapidly growing programs are in the College of Business, Computer Science and Physical Therapy.

I am happy to report to you that 1981-82 was a good year for this campus in many ways, despite the constant budget cuts which occupied so much of our time and energy. It was a good year for accreditation. Our College of Business, thanks to the efforts of the dean and the faculty of that college, gained the accreditation of our undergraduate program by the American Assembly Collegiate Schools of Business. We also received reaccreditation for our physical therapy and social work programs in very complimentary reports. So 1981-82 was a successful year from a qualitative standpoint as judged by national accrediting bodies.

This past academic year was also an outstanding one for faculty governance on this campus. There were at least a half dozen major accomplishments which can be attributed to our Faculty Senate and its committees. First of all, we had a Priorities Committee that put our programs and services in three basic categories of priorities. A Budget Committee, working within the parameters of the Priorities Committee, worked in order to respond to the budget cuts and do least damage to our academic programs. And, also thanks to the efforts of the Budget Committee, we did a considerable amount of reallocation within the University to move funds to growing academic programs such as business and computer science. Contrary to any impression in the media or any letters I may have received from state officials, I do want to the record to show that this university has been hurt in the last couple of years by the budget cuts. The 23 support positions cut last year reduce service to students and to the citizens in this region and diminish the overall quality of our campus.

Thirdly, the Faculty Senate reviewed the faculty workload policy, with special emphasis on release time, consistent with our programs, goals and budgetary restraints. Fourth, the Faculty Senate reviewed our tenure density policy which is a faculty policy on this campus. It reviewed the tenure density policy, to encourage more conversions from instructional academic staff positions to tenure-track positions. This campus has a large number of instructional academic staff positions--in my judgment, too many. They were established for very good reasons when they were created, but we are working on creating a better balance within the University. Fifth, the Faculty Senate passed a new six-year plan including new academic programs. And, finally, the Faculty Senate last year created a process of audit and review of support areas to accomplish in nonteaching areas what audits of academic programs accomplish. All of these accomplishments by the Faculty Senate were directed toward greater efficiency and better use of resources.

I look for another good year in 1982-83 as far as the Faculty Senate is concerned, hopefully, with fewer issues on the agenda. Although, I must mention the fact that already the Faculty Senate has five major reports to consider from the Minority Affairs Office and the Minority Affairs Committee, dealing with such basic issues as recruitment, retention and the ingredients for a truly multicultural campus. In the three years that I have spent at La Crosse, I remain greatly impressed with faculty governance on this campus. And also, while looking at my three years at La Crosse, I do want to indicate to you the joy I experienced in coming here to find an outstanding vice chancellor and an excellent administrative team, which have made the last three years very pleasant ones as far as I am concerned.

Another theme that I want to mention very briefly as far as this campus is concerned is space, or lack thereof. Because of the bluffs and because we are blessed with a lot of marsh land in this area, space is a major problem for the City of La Crosse and for this campus. I mentioned to some of you yesterday that when I first came to La Crosse, knowing of its reputation in physical education, I expected to find miles of tennis courts, athletic fields, etc. What I found was that the few fields, the well-used, well-worn fields that are used for approximately 2,000 students in the College of HPER for teaching stations, belong to the city, not to this campus. Thanks to your efforts, we did accomplish last year a major swap and compromise involving you, involving the City of La Crosse and involving the DNR. As a result of this swap and compromise, we traded some land with the city out by the airport that is valuable to the city, not so valuable to us, and in exchange we received these fields across from Mitchell Hall which we use for our teaching stations in physical education. It was an excellent trade, I think, for both. In the compromise between the Board of Regents and the DNR, we were permitted to fill approximately 8.3 acres of marsh land which will give us four additional athletic fields. It will relieve some of the pressure there. Part of this compromise was that we would sell the rest of our land out

Chancellor Richards, UW-La Crosse
September 10, 1982

-3

there to the DNR. It would be kept in its natural state, and also the removal of a road in that area allows a free flow of water which is beneficial environmentally. So it was one of those trades in which I think everyone was a winner, and as far as our goals are concerned, it greatly enhanced one of our major program areas.

In a broader context, I do want to mention that we are very proud of our cooperation with Viterbo College. I think the student exchange program which you have passed is beneficial for our students, for their students, and also beneficial for the entire community of La Crosse. And, while this is the major example of cooperation between the two institutions, there are many other examples where we have worked together.

Finally, I would like to indicate to you that UW-L places high value on our role in West Central Wisconsin Consortium. WCWC has had a long and successful record in the review of academic programs, including the deletion of programs, and cooperation in such areas as minority programs and cultural opportunities. New joint planning initiatives in WCWC include, among others, improvement of the international dimension of instruction and service, cooperative efforts to obtain external funds for research activities, and expanded sharing of professional services and equipment among WCWC institutions.

I will stop with these campus and regional themes with thanks for the opportunity to have you better understand this campus, our programs and our people.

- - -

MINUTES OF THE EXECUTIVE COMMITTEE MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Held by telephone conference
Originating from Room 1820 Van Hise Hall
1220 Linden Drive, Madison, Wisconsin

Thursday, August 12, 1982
9:40 a.m.

Regent Committee - General - Actions of Executive Committee meeting of 8/12/82 approving relocation of UW-Oshkosh Blackhawk Commons school (Menasha) for instructional use of Maplewood school.

- Chairman Beckwith Presiding - *Board*

Regent participants: *UW Center - Hop Valley agreement for regional increase in Regional Private Center, p. 64*

Regent Beckwith, at 777 E. Wisconsin Avenue, Milwaukee

Regent Fitzgerald, at 1500 Ridgeview Acres, Platteville

Regent Lawton, at the Marshfield Clinic, Marshfield

Regent O'Harrow, at Route 1, Oconto Falls

Regent Schilling, at 7020 N. Rockledge Avenue, Milwaukee

Regent Veneman, at Port Edwards

Ex. B (X-Reg-Exec. Comm?)

Other participants:

Assistant Chancellor Balliett, at the Chancellor's Office,
UW-Oshkosh

At 1820 Van Hise Hall: Vice President Winter;
Vice President Lorenz; Acting Chancellor Polk, UW Center
System; Mr. Joel Edson, UW-Oshkosh; Mr. James Edsall,
UW-Madison; Mr. Charles Stathas, System Senior Counsel

UW-Oshkosh - Buildings - Executive Committee + Board approval to relocate Blackhawk Commons due to fire damage, p. 64

> food service

It was moved and seconded that the following resolution be adopted:

EX. B

Resolution 2666: That the President of the University of Wisconsin System be granted authority to submit to the Governor and/or the State Building Commission requests for Program Revenue supported construction projects as may be needed to accommodate Program Revenue operations requiring relocation due to fire damage in Blackhawk Commons at the University of Wisconsin-Oshkosh.

Referring to the matter of insurance coverage, Regent O'Harrow stated that he would not wish to see the students pay for damages caused by the fire.

Assistant Chancellor Balliett and Mr. Edson indicated that the only item not covered by insurance would be the cost of relocating the food service, inasmuch as the University had not opted for such additional coverage when the property was originally insured. Vice President Winter added that this cost was expected to be minimal.

It was noted that preliminary damage estimates for the building amounted to two and a quarter million dollars.

Regent Schilling asked if the plan was simply to restore Blackhawk Commons to its original condition, to which Vice President Winter replied that a decision about that question had not yet been made. While insurance would pay the cost of rebuilding, he said, improvements above and beyond the actual loss would not be covered.

If the facility was to be improved, Regent Veneman pointed out, it would be necessary to obtain appropriate cost estimates. It was indicated by Vice President Winter that recommendations concerning that matter would be brought to the Board in September or October.

Regent Beckwith noted that the purpose of Resolution 2666 was only to provide for relocation of the textbook rental and food services, with the nature of reconstruction to come before the Regents at a later date.

Put to the vote, Resolution 2666 was unanimously adopted.

In response to an inquiry by Regent Schilling about salvage of the textbooks which had been damaged by the fire, Mr. Edson indicated that an Ohio firm which specializes in restoration of books had been brought in to make a bid on a salvage basis.

It was suggested by Regent Beckwith that a report be made to the Physical Planning and Development Committee regarding the flood damage at UW-Oshkosh which was caused by a recent rainstorm.

Regent O'Harrow noted that he had been in Oshkosh when the flood occurred, and that it was the heaviest rainfall he had ever seen.

In addition to River Commons, Vice President Winter said, there had also been flood damage to the Kolf Sports Center and other buildings.

VUW Center - Fox Valley - Executive Committee & Board approval for instructional use of Maplewood School (Menasha), p. 6 + EX. B

Adoption of the following resolution was moved by Regent O'Harrow and seconded by Regent Fitzgerald:

Resolution 2667: That, upon the recommendation of the UW Center System Chancellor and the President of the University of Wisconsin System, the agreement between the Winnebago and Outagamie County Boards with the Menasha Joint School District for the instructional use of Maplewood School, Menasha, by UW Center-Fox Valley, Menasha, be approved, with the term of the agreement being August 1, 1982 through December 31, 1982.

Acting Chancellor Polk reported that the draft agreement had been approved by the Winnebago County Board on a vote of 26-16 and by the Outagamie County Board on a vote of 36-4.

In response to an inquiry by Regent Beckwith about what was to be done after this year, Chancellor Polk explained that a committee of the Winnebago County Board had been studying use of space at the Fox Valley Center and that its preliminary report indicated a need for additional space, especially for library facilities. After the final report is accepted by the county boards, he said, there would be consideration of an eight-year lease.

Regent Veneman observed that the five-month agreement could be regarded as a commitment to a longer lease.

While there would be no legal obligation to continuing the lease after December, Chancellor Polk replied, the intent was to proceed to a longer-term arrangement.

Vice President Winter indicated that one concern about an eight-year lease was that the facilities would need to be modified.

Regent Beckwith asked if there had been discussion with the school district about buying the building, to which Vice President Winter replied in the affirmative, noting, however, that school district representatives felt the building might be needed by the district in future years.

Replying to a question by Regent Schilling, Chancellor Polk said the district wished to be able to terminate the lease with two-years' notice.

Regent Schilling wondered if that was a reasonable amount of time to allow the Center to make other arrangements, adding that the district must have data on the prospect for increased enrollments.

Regent Lawton asked if there would be adequate space to build if that became necessary, and Vice President Winter replied in the affirmative.

Referring to the proposed five-month agreement, Regent Beckwith remarked that the limits of coverage of the general liability and comprehensive insurance were too low, stating that in this day and age he would not insure at that level.

Mr. Stathas indicated that the figures set forth in the agreement were from the counties' existing insurance policies and that the University is self-insured.

The question was put on Resolution 2667, and it was adopted unanimously.

Regent O'Harrow moved adoption of the following resolution and the motion was seconded by Regent Veneman:

✓ Primate Center - Executive Committee + Board approval for budget increase in Regional Primate Center Ventilation Improvements, p. 6 + EX 13

Resolution 2668: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the budget for the Regional Primate Center Ventilation Improvements Project be increased by \$87,500 and authority be granted to award contracts and construct, at a revised total project cost of \$628,500 from GPR-Supported Borrowing - Minimum Maintenance/Health and Safety Allocation.

Vice President Winter reviewed the items which were responsible for bids exceeding the concept and budget report estimates:

--Reclaiming existing chiller for reuse:	\$ 5,000
--Additional fourth floor work to eliminate low duct configuration in animal rooms, cleaning out old mechanical equipment rooms, and add access panels for coil cleaning:	25,000
--Additional painting:	11,500
--Rerunning electric supply from basement to bolster inadequate supply in selected areas:	20,000
--Redesigning ductwork and running larger ducts to accommodate hoods:	26,000
--Total	<u>\$87,500</u>

Indicating that it would be necessary to move the animals kept at the Center to the Veterinary Medicine facility at Charmany Farm while the project was under way, he noted that they could be kept there only until the end of March 1983, at which time the School of Veterinary Medicine would need to use that facility.

Regent Schilling asked if all bids were over the budgeted figure and if \$87,500 was the amount needed to assemble the lowest bidders. Vice President Winter responded in the affirmative.

Put to the vote, Resolution 2668 was unanimously adopted.

The meeting was adjourned at 10:05 a.m.

Judith A. Temby

Judith A. Temby,
Secretary

2. 1982 Eagle Heights Apartments Roof Modifications and Insulation (8203-07)

a. Change Order No. G-1:

ADD: \$ 33,324.00

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT):

- A. A lease, dated July 7, 1982, between Milwaukee County, through its Director of Parks, Recreation and Culture, and the Board of Regents of the University of Wisconsin System for the use of the McKinley Marina parking lot for the period September 7, 1982 to May 20, 1983, has been signed by the Assistant Chancellor, University of Wisconsin - Milwaukee. - *Bldgs & Lands - Lease with Milwaukee County for use of McKinley Marina Parking Lot, non-pers. item A* X
- B. An agreement between Extension Journal, Inc., and the Board of Regents of the University of Wisconsin System for UW-Extension regarding editing, publishing, and distributing the Journal of Extension, effective July 1, 1982, has been signed by the Vice President and Trust Officer, UW System. - *UW-Extension - Publications - Agreement, non-pers. item B* X
- C. A renewal agreement between Emil Ascher, Inc., and the University of Wisconsin System granting re-recording rights to any music contained in Emil Ascher, Inc. libraries for educational productions for the period October 11, 1982 - October 10, 1983, has been signed by the Vice President and Trust Officer, UW System. - *Ascher, Emil, Inc. - Agreement to re-record music, non-pers. item C* X
- D. A Waiver of Liability Agreement for the benefit of UW-Madison and with Edgewood College has been signed by the Director of Business Services for the University. This will allow use of a research boat and equipment of the Limnology Laboratory on Wednesday, June 30, 1982, by participants in an Aquatic Biology course conducted by the College. - *Edgewood College - Waiver of liability agreement for use of research boat & equipment of the Limnology Laboratory, non-pers. item D (X ref. Limnology Laboratory)* X
- E. Leases covering space in the Randall Towers for commercial use have been signed by the Vice Chancellor for Administration, UW-Madison, with the following individuals for the specified purposes: - *Randall Towers - Lease of space for* X

Mr. Mike Shelton	Bob's Copy Shop - \$397/month August 1, 1982 through July 31, 1983
Ms. Margarita McMorris	University Travel Shop - \$612/month August 1, 1982 through July 31, 1983
- F. Leases of space for parking purposes for UW-Stout students have been signed by the Vice President for General Services and represent continuation of existing leases: - *UW-Stout - Bldgs & Lands - Lease of space for parking from Donna Senn & Emil Gluck, non-pers. item F* X

Mrs. Donna Senn	105 16th Avenue West, Menomonie - \$1,100/year September 1, 1982 to August 31, 1983
Mr. Emil Gluck	817 South Broadway, Menomonie - \$1,500/year August 15, 1982 to August 14, 1983
- G. An easement has been granted to the Rhinelander Telephone Company to install telephone cable in a previously granted easement across a portion of the UW-Madison's Starks Farm property in the Town of Stella, Oneida County. A fee of \$1.00 has been received and deposited in Ag School Miscellaneous Receipts. - *Starks Farm - Easement to Rhinelander Telephone Co., non-pers. item G* X

Experimental Farms - Authorization to raze Arlington Farms corn crib/hog house + machine shed, non-pers. item H

Swine Teaching + Research Facility - Authorization to raze Arlington Farms corn crib/hog house + machine shed on site, non-pers. item H

H. At the request of the Dean of the College of Agricultural and Life Science and the Director of the Experimental Farms, the UW-Madison Chancellor has authorized the razing of the following:

- Dairy Barn Silo - Authorization to raze, non-pers. item H
- Building 889 Arlington Farms corn crib/hog house
- Building 890 Arlington Farms machine shed
- Building 105B Madison Campus dairy barn silo

Buildings 889 and 890 are located on the site of the proposed Swine Teaching and Research Facility and will not be removed until construction of that project is ready to proceed. The silo is located on the northwest corner of the old dairy barn, is not an integral part of the original barn, and is not of historical value. It presently serves as a reservoir for rodents and pigeons, and its elimination should help to control the problems in that area of the campus.

Arboretum - Agreement with City of Madison regarding flood control improvements on Arboretum property involving construction of desilting basins on Arboretum lands in the Monroe Street area has been signed by the Vice Chancellor for Administration. This agreement has been handled administratively in a manner similar to that used for an earlier agreement with the Town of Madison for construction of a berm and two desilting basins in another area of the Arboretum and as reported to the Board in December 1981.

Parking - Agreement w/ Wm. O'Brien
J. An agreement with Mr. William O'Brien for temporary use of UW-Madison's Parking Area 16, located adjacent to Mr. O'Brien's place of business, has been signed by the Vice Chancellor for Administration. This provides for use of the lot before and after the 1982 home Wisconsin football games and will have the effect of minimizing patrons of Mr. O'Brien's business from interfering with the free flow of pedestrian and vehicular traffic on Monroe Street.

Brittingham House - Rental of Carriage House by M/M Chris Sivertson, non-pers. item K
K. An agreement between Mr. and Mrs. Chris Sivertson and the Vice Chancellor for Administration for the Sivertson's rental of the Carriage House at the UW-Madison Brittingham Estate has been signed effective August 2, 1982 through August 1, 1983. The rental rate will be \$185 per month for which the Sivertsons will perform routine security inspections, respond to emergency situations, and perform assorted tasks as assigned.

Lakeshore Halls Beer - Sublease of space for barbershop by Anthony + Leonard Tranchita, non-pers. item L
L. An indenture of sublease between the Lakeshore Halls Association of UW-Madison and Anthony and Leonard Tranchita for operation of barbershop facilities and services has been signed and covers the period June 1, 1982 through June 1, 1983. The rental rate will be \$160 per month for the period June 1, 1982 through August 31, 1982, and \$215 per month for the period September 1, 1982 through June 1, 1983.

M. An indemnity agreement between UW-Madison and the Noranda Mining, Inc./United Park City Mines Company, both Delaware corporations relating to a project undertaken by the UW-Madison High Energy Physics group has been signed, permitting the University access to a mine and adjacent property in Utah. The effective date of the agreement was September 1, 1981 and is expected to be in effect for five years, at the end of which time the physics experiments to be conducted should be completed.

Noranda Mining, Inc., Delaware - Agreement w/ UW-Madison High Energy Physics group for access to a mine + adjacent property in Utah, non-pers. item M
United Park City Mines Co., Delaware

UW-Extension - Milwaukee - Bldgs - Agreement with Milwaukee Area Technical College to rent space in North Hall, 623 W. State Street, Civic Center Campus, non-prior. iter N
 (ref Milwaukee Area Technical College)

III - 3

BULL. 20

N. The agreement between the Milwaukee Area Technical College and University of Wisconsin-Extension, relative to rental of space in North Hall, 623 West State Street, Civic Center Campus, Milwaukee, has been signed by the Vice President for General Services and covers the period September 1, 1982 through June 30, 1983. A total of 10,035 square feet of space is involved, at a cost of 20¢ per net assignable square foot.

X

O. Physical Sciences Laboratory - Authorization to raze 2 bldgs. near Stoughton, non-prior. iter O
 Two structures at the UW-Madison Physical Sciences Laboratory near Stoughton, Wisconsin, have been authorized for razing since they are vacant, in very poor structural condition, and are considered a hazard and a liability for the University:

Building 1198
 Building 1199

Farm B pump house
 Farm B house
