MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM
Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, July 11, 1980
9:00 a.m.

President Grover Presiding

PRESENT: Regents Barkla, DeBardleben, Elliott, Erdman, Fitzgerald, Fox, Gerrard, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman, and Walter

ABSENT: Regents Beckwith and Majerus

President Grover announced that he had directed the Secretary to make the following non-substantive change in Resolution 2201, adopted at the June 6, 1980 meeting, to more accurately reflect the intent of the Board:

Resolution 2201: That the revised draft letter to the State Claims Board, in support of the claim of John C. Weaver for \$153,710 ~~from based on~~ the deferred compensation plan denied him as President, be approved.

Upon motion of Regent Fitzgerald, seconded by Regent Veneman, it was VOTED that the minutes of the annual meeting of the Board of Regents of the University of Wisconsin System, held on June 6, 1980, be approved as mailed to the members of the Board, with the change noted above.

REPORT OF THE PRESIDENT OF THE BOARD

✓ Regent meetings - 3-81 meetings scheduled for UW-Milw; R. 2202, p. 1.

It was moved by Regent DeBardleben, seconded by Regent Fox, and carried, that the following resolution be adopted:

Resolution 2202: That, at the invitation of UW-Milwaukee Chancellor Horton, the March 6, 1981 meeting of the Board of Regents be held at UW-Milwaukee.

-

President Grover reported that, in view of Regent Beckwith's suggestion at the last meeting of the Board that further study of UW-Extension be conducted, he had appointed Regents Beckwith, O'Harrow, and Walter to a committee to undertake that study, with another member to be named when the new Regent appointees take office. Regent O'Harrow will serve as Chairman.

REPORT OF THE PRESIDENT OF THE SYSTEM

Upon motion of Regent Fox, seconded by Regent McNamara, and carried, the following resolution was adopted (EXHIBIT A):

Resolution 2203: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified and confirmed.

It was moved by Regent DeBardleben, seconded by Regent McNamara, and carried, that the following resolution be adopted (EXHIBIT B):

Resolution 2204: That the Secretary of the Board of Regents be directed to file a notice of hearing with the Revisor of Statutes for inclusion in the next Wisconsin Administrative Register, the purpose of the hearing being to consider the adoption of amendments to Chapter UWS 8, Wisconsin Administrative Code, covering Faculty/Academic Staff Code of Ethics adopted pursuant to Sec. 36.23, Wis. Stats., said hearing to be held in Room 1820, Van Hise Hall, 1220 Linden Drive, in the City of Madison, Wisconsin, on the 5th day of September, 1980, at 1:00 p.m.

Admin Code - Hearing scheduled for proposed amendment to Ch. UWS 8. 09-5-80; R. 2204, p. 2.

Education Advisory Council - report that first mtg focused on basic skills; P2

President O'Neil reported that the first meeting of the Education Advisory Council, serving as the state 1202 Commission, had been held, with the major agenda items relating to basic skills and the planning of a Governor's conference on that topic. A staff person for the Council was being recruited by a committee consisting of Regent Thompson, WBVTAE Director Dr. Robert Sorensen, and President O'Neil.

Basic Skills - Report that first mtg of Education Advisory Co. focused on basic skills.

President O'Neil announced that he had communicated with Chancellors regarding each institution's creation of a Faculty Governance Study Group which will report in October, 1980. At a later date, he will convene a System group to collate the results of the institutional studies and bring to the Board a comprehensive report on the state of faculty governance throughout the System.

Governance - Institutional studies to be undertaken

✓ Budget - Report on difficulties created by 4.4% budget reduction for 1980-81; need for surcharge, p. 3
(x-ref surcharge)

Regular Board 7-11-80

President O'Neil commented on the unprecedented fiscal difficulty faced by the UW System as a result of the 4.4% budgetary reduction for this fiscal year, noting that testimony on that issue would be given to the Assembly Education Committee on July 16, 1980. He stated that the special fee recommendation presented to the Business and Finance Committee on July 10 was made only after reviewing a painful set of options for adapting to the crisis, and he thanked the United Council of Student Governments for its support.

✓ Smith, Donald K. - appreciation for service as Sr VP expressed by Pres O'Neil (x-ref Vice Pres); p. 3.

President O'Neil expressed his appreciation to Senior Vice President Donald K. Smith for assisting him as he assumed his role as President of the System. Dr. Smith is leaving the position of Senior Vice President to join the UW-Madison faculty.

REPORT OF THE EDUCATION COMMITTEE

Chairman Lawton reported for the Education Committee.

Regent Lawton explained that the effect of Resolution 2205 is to delete section g. of Academic Planning Statement #4 (ACPS-4) and recreate it in a form which terminates faculty overload reporting by universities but continues the overload payment report by UW-Extension to the universities for information purposes. He stated that Senior Vice President Smith informed the Education Committee that System staff had monitored the overload reports from the institutions for four years and concluded that their practices are consonant with the spirit of ACPS-4. Regent Lawton said that UW-Extension will continue to report because its dealings with the campuses account for almost all of the overload payments.

It was moved by Regent Lawton, seconded by Regent Fitzgerald and voted, that the following resolution be adopted:

Resolution 2205: That, upon recommendation of the President of the University of Wisconsin System and the Chancellors, Section g. of the ACPS-4 document dated November 29, 1977 be deleted and recreated to read:

✓ Overload reporting
~~the~~ faculty overload reporting by institutions terminated but continued for UW-Extension.
(x-ref Faculty Workload)
(x-ref UW-Ext. - staff)
R. 2205, p. 3.

g. Reporting of overload payments by UW-Extension

UW-Extension shall report to each UW System institution on September 1 of each year, copy to the System Administration, on overload payments it makes to faculty/academic staff of those institutions, indicating the name of the person and the amount of each overload payment where the cumulative annual total for the individual is \$1,000 or more.

This provision shall be in effect upon approval by the Board of Regents.

Program Evaluation - report on Institutional Academic
Regular Board 7-11-80 Program Evaluation Protocols & Outcomes
P. 4. CX-Reg. Academic Program.

Regent Lawton stated that an Information Report on UW System Institutional Academic Program Evaluation Protocols and Outcomes (copy on file with papers of this meeting) was presented to the Education Committee. The report, covering the years 1977-80, includes a statement of each institution's evaluation protocols and processes, along with the resultant recommendations. In the Education Committee meeting, Regent Lawton said that the report demonstrates that carefully designed processes, which vary from institution to institution, are in place and are effective in achieving their goal. He commended the chancellors on the excellent documentation which they provided.

Senior Vice President Smith told the Education Committee that the primary purpose of institutional academic program evaluation is the protection and improvement of quality in academic offerings. In commenting on the savings related to the phaseout of unproductive programs, Dr. Smith and several chancellors noted that such savings usually must be applied to other academic areas, since program phaseouts seldom result in reductions in overall institutional enrollments.

UW-Eau Claire Degrees & Progs. - withdrawal of entitlement to plan
Masters degree in Human Development, p. 4, p. 9.
UW-Stout - same

In his report to the Education Committee, Senior Vice President Smith announced System Administration approval of a joint recommendation on behalf of UW-Eau Claire and UW-Stout to withdraw an existing entitlement to plan a master's degree program in Human Development. Citing this action as evidence that planning procedures are working well, he noted that the decision is related to present and predicted fiscal stringencies.

Student Recruitment - Report of system study group on Student Recruitment & Public Information; p. 4.

Senior Vice President Smith also spoke to the Education Committee about a Report of the System Study Group on Student Recruitment and Public Information (copy on file with the papers of this meeting), noting that it had been reviewed by the System Vice Chancellors whose suggested changes are incorporated in the final document. Responding to questions during the Education Committee meeting, Myron Van de Ven, UW-Green Bay Director of Admissions and Financial Aids, who is chairman of the study group, and System Administration Senior Academic Planner Karen Merritt expressed their belief that the report provides a stronger basis for interinstitutional relations regarding student recruitment, an area which will become increasingly important in a future of predicted enrollment declines. Dr. Smith informed the committee that all Vice Chancellors had indicated that the "Joint Statement of Principles of Good Practice in College Admissions and Recruitment" contained in the report had been either established as institutional policy or recommended to the appropriate governance bodies for their consideration. Regent Lawton commended Mr. Van de Ven and the study group, indicating that the report's usefulness could be further enhanced by the inclusion of a glossary explaining the acronyms found throughout the report.

Maybe we need a card for recruitment saying see Student Recruitment.

Concluding his remarks to the Education Committee, Dr. Smith observed that this was his final Senior Vice President's report and expressed his enjoyment in working with the committee. Committee members responded with their thanks to Dr. Smith, stating that they had learned much from him and expected that he would be quoted often in future sessions.

A TAA - Appearance by Prof. ^{Anatole} Beck, representing Wis. Fed. of Teachers regarding withholding of pay from for actions during TAA strike (X-ref Wis. Fed. of Teachers x Beck, Anatole)
Regular Board 7-11-80; P. #5

Regent Lawton reported that UW-Madison Professor Anatole Beck had appeared before the Education Committee on behalf of the Wisconsin Federation of Teachers, stating that an action would be filed in federal court to obtain an injunction against the withholding of pay from certain professors for actions during the recent Teaching Assistants Association strike at UW-Madison. The Regents and UW-Madison Chancellor Irving Shain would be named as defendants. Professor Beck suggested that the Regents consider the possibility of a conflict of interest in their roles as employers of the Chancellor, on one hand, and as protectors of academic freedom, on the other.

In the brief discussion following these comments to the committee, Regent Lawton inquired as to whether this grievance had been pursued through the entire university process, to which Professor Beck responded that it had not. Regent DeBardeleben observed that the Board of Regents owes protection to everyone in the university community and urged the pursuit of established procedures.

Regent Lawton presented Resolutions 2206 through 2209, approved during the Education Committee's closed session.

Upon motion by Regent Lawton, seconded by Regent DeBardeleben, and carried, the following resolutions were adopted:
Engineering, College of - Auth. to recruit for Dean; R. 2206, p. 5.

Resolution 2206: That, upon the recommendation of the Chancellor of UW-Madison, the request for Authorization to Recruit for a Dean, College of Engineering, UW-Madison, be approved.

UW-RF-staff Auth. to recruit for Dean, College of Ag.; R. 2207, p. 5

Resolution 2207: That, upon the recommendation of the Chancellor of UW-River Falls, the request for Authorization to Recruit for a Dean, College of Agriculture, UW-River Falls, be approved.

UW-Milw-staff - Auth. to recruit for Vice Chancellor; R. 2208, p. 5.

Resolution 2208: That, upon the recommendation of the Chancellor of UW-Milwaukee, the request for Authorization to Recruit for a Vice Chancellor, UW-Milwaukee, be approved.

It was moved by Regent Lawton, seconded by Regent DeBardeleben and voted, that the following resolution be adopted:

Resolution 2209: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Andrew A. McBeath, Professor of Surgery, Medical School, UW-Madison, be changed to Frederick J. Gaenslen Professor of Orthopedic Surgery, Medical School, UW-Madison, effective immediately, salary as determined in the 1980-81 budget. (\$12,000 in salary will be provided from Professorship funds.)

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Fox reported for the Business and Finance Committee.

Regent Fox reported that President O'Neil had noted during the committee meeting that many aspects of the 1980-81 Annual Budget had received previous Regent approval: enrollment funding reallocations, general academic fee increases, various salary and personnel actions, and the budgets and user fees for Auxiliaries and University Hospitals. Emphasizing that inflation continues to be the most serious problem for the institutions of the System, he pointed out that, even though the dollar budget is significantly larger than in 1979-80, the actual GPR fee program capacity funding will be \$2 - \$3 million less because of inflation. The net program increase of only \$1.7 million includes funding for specific new and changed services of \$694,600 for Veterinary Medicine, \$389,600 for Extended Degree Programs and \$101,400 for Sea Grant Research, while the projected 1980-81 enrollment will reach an historic high of more than 151,000 students. Regent Fox indicated that there was considerable, spirited discussion during the committee meeting concerning the viability of the budget in view of the tremendous inroads of inflation and its effect on the quality of instruction.

The following resolution was moved by Regent Fox and seconded by Regent Lawton:

✓ Budget 1980-81 / 1980-81
Adoption of 1980-81
operating budget;
discussion of effects
of inflation & 4.40%
reduction; A 2210;
(Cx-ref inflation) P6x7

Resolution 2210: That, upon recommendation of the President of the System and the Chancellors, the University of Wisconsin System operating budget for the fiscal year July 1, 1980 through June 30, 1981, in an estimated amount of \$1,051,494,965, be approved and that System Administration be authorized to make necessary final accounting changes, including reflecting the distribution of classified salary adjustments.

Regent DeBardeleben said that he had voted against the resolution the previous day, believing that its defeat would effectively register the Board's objection to state government's arbitrary and capricious treatment of the budget. He pointed out that, after all the work done by Regents, faculty and administrators to determine the needs of the UW System, uniform guidelines were established by state government which disregarded those needs, requiring that a budget be submitted which does not represent the Regents' best judgment. He stated that the additional 4.4% reduction made a farce of their efforts and that he had opposed the budget on that basis. Because President O'Neil and Senior Vice President Smith had later persuaded him that this approach would not be effective, he decided that he would not vote against the resolution at this meeting; but he wished to register a strong protest against state government's treatment of the budget.

There being no further discussion, Resolution 2210 was adopted.

Surcharge - \$30 surcharge approved for first semester 1980-81; R.2211,
p. 7-10 CX-ref - Fees & Budget 1980-81

In connection with the 1980-81 Annual Budget, Regent Fox reviewed President O'Neil's comments to the committee on the fiscal emergency faced by the System as a result of the projected state budget deficit. The State Department of Administration notified the University, as well as others receiving state general purpose revenue funding, that 1980-81 appropriated tax funds will be reduced 4.4%, or \$18.5 million for the System. System Administration, along with the respective chancellors, is attempting to achieve this cut with a minimum impact on the quality of instruction. However, President O'Neil stated that it would not be possible to absorb the reduction without seriously affecting the instructional process unless a portion of it is covered by additional revenue. In committee, UW-Milwaukee Chancellor Frank Horton and UW-Platteville Chancellor Warren Carrier spoke to the issue, indicating that the unfunded inflationary costs of the 1970s had so greatly reduced campus flexibility that any further cuts must affect educational access or quality. Carry-over balances, energy conservation savings, deferral of capital equipment purchases, selective employment freezes and any other cost-deferred or cost-saving opportunities will be analyzed to meet this crisis.

Regent Fox recalled that, in the previous month, it was recommended to the Board that no special fee be assessed to meet the unfunded inflationary costs. However, due to the new, unanticipated budget reduction of \$18.5 million, which is greater than the biennial productivity cuts of 1973-75, a \$30 emergency funding fee for the first semester is being recommended at this time. He said that further plans for coping with the fiscal emergency, including recommendations for the second semester, will be brought to the Board in November.

Mark Hazelbaker, Legislative Affairs Director for the United Council of Student Governments, appeared before the committee to support the resolution, indicating that students would rather pay an additional \$30 than see further erosion in the quality of instruction.

The following resolution was moved by Regent Walter and seconded by Regent DeBardeleben:

Resolution 2211: That upon recommendation of the President, UW System, the Regents direct and approve the following steps by the UW System and the Institutions as initial efforts to cope with the projected withdrawal of \$18.5 million from the GPR allotments of the System for the fiscal year already started:

1. That an Emergency Surcharge Fee of \$30 be assessed each full time student enrolling in the first semester, 1980-81, with an appropriate conversion for academic quarters and an analogous per credit emergency surcharge fee for all part-time students.

2. That the System in cooperation with the Institutions move immediately to plan the maximum level of additional cost savings possible from energy conservation, to relieve the pressure on programs, and that the System move to establish, by November, 1980, firm projections of these and other savings.
3. That the Chancellors move immediately to plan all available steps by which selected expenditures scheduled for the 1980-81 budget can be deferred to 1981-82, and to implement other steps to reduce spending in ways that minimize the adverse effects on the quality and availability of educational opportunity for students and on the System's research and public service resources.
4. That the System and Chancellors are further directed to return to the Regents in November, 1980, with a plan for coping with the continuing fiscal emergency, as it may then be defined by state government, through the second semester, of the 1980-81 academic year.

Regent Elliott spoke against the resolution, suggesting that the System develop other alternatives before a decision is made. He commented that student fees, increased on a one-time or emergency basis, too often remain at those higher levels. He did not think that the economy is improving and did not believe that students should continue to absorb the costs of the System, since their costs already are prohibitively high.

Regent Thompson also expressed opposition to the resolution, stating that it would be unacceptable for any student to be denied access to the University because of this increase.

Regent Barkla asked Regent Thompson if lay-offs of faculty and reductions in programs would not also have the effect of denying students access to education. Regent Thompson replied that, because either argument could be made, the one-time budget cut should be carefully examined, since the economic situation might continue to deteriorate. She noted that students have been unable to obtain employment this summer.

Regent Fox asked Regent Thompson how local school districts would be able to offset their 4.4% cut in aid. Regent Thompson responded that local school districts will undoubtedly have to defer some plans for the next school year, such as the repair and purchase of books and materials. Although she felt that, while laying off of staff would be almost impossible, changing bus routes, sharing services among school districts and delaying summer school in 1982 might be considered. In reply to Regent Fox's question as to whether school districts also will seek to raise local taxes, Regent Thompson indicated that it would be an option in some districts.

With reference to Regent Elliott's earlier suggestion, Regent Lawton pointed out that President O'Neil had outlined alternatives for coping with the fiscal crisis on the previous day and that all of them were painful. "Those of us who voted for it did so reluctantly. But, hearing from some of the Chancellors, as well as from President O'Neil, I don't think we have a choice if we're going to protect quality and access."

Regent DeBardleben viewed the arguments made against President O'Neil's recommendation as political and economic in nature. During 40 years of observation, he could not recall another time when a budget had been reduced at the beginning of a fiscal year, reversing a decision made just a few months earlier. He said that, in past years, when it had appeared that there might be revenue short-falls, Governors and Departments of Administration had waited for the new Legislature to be seated, so that hearings could be held before changes were made. He considered the fiscal crisis state-imposed, not believing that the economic situation at the end of the fiscal year can be predicted accurately at this time. "If we are going to make this kind of a cut, something is going to give. Either we are going to give counterfeit education or we're going to turn people away. We are going to accelerate the decline of one of the nation's great Universities." Although he did not view the \$30 surcharge as a panacea, he felt that it must be approved and urged that consideration be given to the quality of the University and to student support for the additional fee.

Regent Veneman stated that he would vote reluctantly for the emergency surcharge, primarily because of the urgency of the problem and the lack of any other viable options for resolving it without jeopardizing the quality of education.

Regent Erdman said that the System's budgetary troubles have been seriously compounded by the legislative mandate to build a School of Veterinary Medicine. Citing a total capital cost of \$30 million and operating costs of \$6.9 million, she termed the mandate irresponsible in light of current fiscal difficulties. She agreed that it was necessary to support the \$30 surcharge at this time.

Regent Fox noted that he had opposed the surcharge during the committee meeting because he believed that the decision to make the 4.4% across-the-board cut was arbitrary and that the Legislature should have been involved in setting priorities if a reduction had to be made. After listening to student reaction, however, he had decided to vote for the surcharge, on the basis of student support for it and because of his belief that they have a right to a quality education.

Regent Grover indicated he also had voted against the emergency fee on the previous day, but that he would support it at this meeting. Noting that local school districts can cope with the 4.4% reduction by raising property taxes, he pointed out that the University System has no comparable authority, except in the area of student fees and that, like local school districts, the University is in the position of having the faculty hired, the program established, and the fixed costs bearing the burden of inflation. "Although my heart rests on the other side of the question, pragmatically speaking, the University must be allowed to function" during this period of time. He felt, however, that the economic downturn is not temporary and that situation, coupled with enrollment declines in the coming years, will cause continuing fiscal difficulties for the System.

Regent McNamara agreed completely with the sentiments expressed by Regents Elliott and DeBardleben and added that he also was outraged by what he considered the cavalier and cynical attitude of the state administration toward the University budget. He pointed out that the surcharge is inconsistent with

his beliefs that tuition should be much lower or, ideally, nonexistent, and that quality education is a right of every individual in our society. He stated, however, that he would reluctantly vote for the resolution because there are no other viable alternatives and because of his great confidence in the University System Administration. He also expressed admiration for the willingness of students to assume this additional burden during a period of inflation and unemployment.

Noting that great efforts already had been made in the area of energy conservation, Regent Barkla asked how additional savings could be realized. President O'Neil replied that the amount that could be generated by increased or accelerated energy savings is not known at this time. Among the available options, he considered increased energy savings more attractive than deferring capital equipment purchases, reducing supplies and equipment budgets or reducing personnel.

Put to a roll call vote, Resolution 2211 was adopted, with Regents Barkla, DeBardeleben, Erdman, Fitzgerald, Fox, Grover, Lawton, McNamara, O'Harrow, Veneman, and Walter voting "Aye" (11), Regents Elliott, Gerrard, and Thompson voting "No" (3), and Regents Beckwith and Majerus absent.

✓ Budget-1981-83 - Biennial budget policy paper #1 on priorities & timetable approved, R. 2212, p. 10.

Regent Fox continued his report of the Business and Finance Committee meeting, commenting on the System priorities and timetable for 1981-83 budget planning, presented to the committee by System Administration Associate Vice President Gene Arnn. Regent Fox pointed out that the Governor had indicated that he would not be able to recommend a 1981-83 UW System budget that exceeds 100% of the 1980-81 appropriation level, which represents at best a 96% resource base by 1982-83 after considering the effects of inflation. The System is proceeding to develop a budget request that will be within state administration's suggested ceiling of 104%, which reflects the Governor's judgment of the upper limit of the state's capacity to consider requests for program support. These percentages are exclusive of any compensation adjustments which will be handled separately. Regents having indicated last month that the Board has a responsibility to present the special needs of the System even if they exceed the executive target level, he said that System administration will bring to the Board requests that could well exceed the 104% ceiling to determine the Board's wishes concerning such items. The 1981-83 Biennial Operating Budget Policy Paper #1 (copy on file with the papers of this meeting) indicates the proposed working list of budget request categories, such as unavoidable cost-to-continue and workload adjustments, workload adjustments based on approved formula and legislative mandates, other educational goals affecting access and quality, prior state commitments for School of Veterinary Medicine and Dairy Forage Research Center, and institution-specific requests. It also includes a timetable, proposing final Board action on the 1981-83 request at the November meeting of the Board, with a first reading in October.

It was moved by Regent Fox, seconded by Regent Walter, and voted, that the following resolution be adopted:

Resolution 2212: That, upon recommendation of the President of the UW System, the 1981-83 Biennial Operating Budget Policy Paper #1 on System priorities and timetable for budget planning be approved.

Regent Fox referred to Vice President Lorenz' report to the Business and Finance Committee that, in the listing of this month's gifts, grants and U.S. Government contracts, 53 research grants from the National Institute of Health totaled \$4 million and went to six colleges and schools and 27 different departments at UW-Madison. Similarly, the 48 grants from the National Science Foundation totaled \$4.7 million and went to 28 different departments; and 48 different departments received a grant from either NIH or NSF. Although monthly totals are approximately \$1 million ahead of last year, since this is the first report of this fiscal year, any comparison with prior years is not necessarily indicative of 1980-81 total activity.

Upon motion by Regent Fox, seconded by Regent Veneman, and carried, the following resolution was adopted:

Resolution 2213: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent Fox moved and Regent Walter seconded the following resolution, which was adopted:

Resolution 2214: That the bequest of the late Arletta La Von Jones, of Madison, Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

Arletta La Von Jones received BA and MA degrees from the UW-Madison campus.)

Adoption of the following resolution was moved by Regent Fox, seconded by Regent Walter, and carried:

Resolution 2215: That the bequest of the late Gertrude K. Schmahl of West Bend, Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

Regent Fox presented proposed changes in the enrollment funding formula, noting that there had been a first reading of this proposal at the June meeting. It was moved by Regent Fox and seconded by Regent Fitzgerald that the following resolution be adopted: (The report is on file with papers of this meeting.)

Resolution 2216: That, upon recommendation of the President of the University of Wisconsin System, the following changes are supported for introduction into the State of Wisconsin's enrollment funding formula for the University of Wisconsin System, and the UW System Administration is authorized to develop and refine these proposals in discussions with state government:

p. 12 & 13.

--Adjust the definitions of fixed and variable costs currently used in the formula to reflect the full extent to which classroom-related instructional costs do not vary with enrollments, as well as the results of UW System research on the extent to which academic support and student support costs do not vary with enrollments.

--Address the special costs associated with serving part-time and extended-day timetable students by: 1) using headcount rather than full time equivalent enrollments in computing the funding of student service activities; 2) excluding the extended-day sections identified in UW System research as fixed cost sections from formula calculations; 3) reflecting instructional cost differentials between daytime and evening course offerings in formula calculations.

--Modify the formula to more accurately reflect the costs of shifts in the program enrollment mix of students, by projecting program enrollment shifts differentially in funding calculations.

--Establish criteria for the phasing of enrollment funding and formula-related position adjustments, to be used only in the event of large, unanticipated shifts in workload.

Regent DeBardleben expressed concern about implementation of the resolution, inquiring about whether further detail would be provided with regard to the adjustments mentioned in the report. President O'Neil replied that the purpose of the resolution is to approve a statement of policy which would be presented on July 17 to the special legislative committee which has been studying the enrollment funding formula. Further actions would depend on the committee's response, which is expected later this summer.

Regent DeBardleben said that his reservation about the resolution is that he believes it passes the initiative for specific changes to the committee. He felt that specific adjustments and modifications in the formula should be presented to the committee. President O'Neil believed that such specific information had been provided to the committee at previous meetings.

Senior Vice President Smith indicated that the papers distributed to the Legislative Council address these concerns. The effects of applying the proposals are simulated and attention is called to the effects of failing to make the changes proposed. Noting that, as enrollments decline in the 1980s, the System would return funds at a faster rate than it received funds when enrollments had increased, he said that the papers show that changes in the formula would need to be made to establish equity between these rates.

Put to the vote, Resolution 2216 was adopted.

Regent Fox reported that the committee received an information paper about extended-day/part-time student cost issues not addressed through the proposed improvements in enrollment funding formula. He stated that System Administration Senior Budget Planner Lou Zellner elaborated on the contents of this document which indicates that System Administration will request, as a part of the 1981-83 Biennial Budget, a base budget adjustment reflecting the higher instructional costs associated with the extended-day operations. Student services and physical plant costs related to the extended day also will be studied and, if appropriate, a request for these items will be incorporated in the 1981-83 biennial budget request as well.

✓ United Council - Fee of \$1 per student per year
Approved; R. 2217, A. 14-17. (x-ref Regent Policies)

Regent Fox presented the request of the United Council of Student Governments for a mandatory fee. The committee was informed that, at a meeting on July 1, representatives of student personnel administrators and United Council had decided to give further consideration to five issues. United Council President Kim Kachelmyer indicated to the committee that these matters could be resolved while the fee was being implemented. She noted that further delays in Board action would preclude any fee collections this fall, and that a stable funding base is critical to the success of United Council's efforts. Student representatives from UW-Milwaukee and UW-La Crosse supported her request during the committee meeting.

The following resolution was moved by Regent Fox and seconded by Regent Veneman:

Resolution 2217: That the present system of voluntary membership fees for the United Council of UW Student Governments may be replaced by an incidental fee of one dollar per student per academic year if a campus referendum supports the initiative of such fees. Provisions must be made for refund of such a fee if individual students request such refunds from the United Council of UW Student Governments. Referenda supporting such fees must be held at least every two years.

Regent DeBardleben moved, and Regent Barkla seconded, an amendment to the resolution as follows:

To delete the penultimate sentence of the resolution and to substitute:

"Provisions must be made for exemption from such a fee for each individual student requesting such exemption."

Regent DeBardleben stated that the rights of students who do not support United Council's objectives are at issue. He thought it unreasonably burdensome to extract the money from persons who do not wish to contribute to United Council and then require them to request a refund, believing that it should not be taken from them in the first place. At Regent Fox's request, United Council President Kachelmyer responded that, in principle, she agreed entirely with Regent DeBardleben and that United Council would be willing to explore the feasibility of such a system. United Council's Legislative Affairs Director Mark Hazelbaker agreed with Ms. Kachelmyer, adding that they had planned a convenient procedure whereby the refund would be provided right after the tuition was paid.

In response to a question by Regent Erdman, Regent Fox indicated that, due to some confusion as to whether or not this proposal was going to be considered at the previous day's committee meeting, none of the chief student personnel officers were present. UW-Madison Dean of Students Paul Ginsberg told the Board that student personnel officers are convinced of the need for some kind of funding proposal. He expressed concern, however, that the Board was considering that matter at this time, since many issues had not yet been resolved. He suggested that, after agreement had been reached, a cooperative proposal could be brought to the Board in October. Replying to Regent DeBardleben's inquiry, Regent Fox stated that these points were not made during the committee meeting, but that the committee was aware that further meetings were scheduled to discuss implementation of the proposal.

Regent Veneman remarked that he supports the resolution for a number of reasons including, but not confined to, the fact that United Council has made an industrious and sincere effort to formally organize their activities through the referenda process. He felt that they had been fair with the students, completely open in their communications and quite patient with the Board's deliberations. Since delaying action any longer would mean that no funding would be available to them until at least January, he saw no reason that the process described by Dean Ginsberg could not go forward, with or without the resolution being adopted.

Regent Fox said that the proposal had been before the Business and Finance Committee since the March meeting and that, in May, Regent Erdman had asked United Council representatives to consult with campus administrative officers. Noting that it had been the committee's intention to resolve the matter before the commencement of the coming academic year, he emphasized that this meeting would be the Board's last opportunity to act before that time.

Regent Walter observed that the five issues remaining to be discussed seemed primarily matters of student responsibility.

Regent McNamara understood the resolution as a statement of policy only and felt that details could not be worked out in the absence of an expression of policy from the Board.

Regent Fox asked Dean Ginsberg to comment on the implementation of Regent DeBardeleben's proposed amendment. Noting that he knew of no student organization that had sustained itself successfully on voluntary payments, Dean Ginsberg felt that to require collection of fees on that basis would considerably reduce the resources available to United Council and would not produce a stable funding base. Ms. Kachelmyer remarked that, although no program similar to their proposal exists in Wisconsin, it was modeled after a program in Pennsylvania that has been in operation for about two years.

In response to Regent Fox's inquiry about the actual collection process, Dean Ginsberg replied that, if the proposed amendment is interpreted to mean that a student would first pay the fee and then seek a refund, it would approximate United Council's proposal; but that, if it would mean that a student would have a choice as to whether or not to pay the dollar initially, United Council's revenues would be substantially reduced. Regent Fox then asked whether or not a system could be set up to implement the resolution, along with Regent DeBardeleben's amendment, to which Dean Ginsberg replied it could be done, with difficulty.

UW-Whitewater Assistant Chancellor for Student Affairs David Markee felt that the central issue related to the long-range relationships of United Council with the institutions and the System, stating that agreement had been reached with former United Council President Fleming that various models of relationships and funding would be explored. The reason for requesting that action be deferred, he said, is that this process has not yet been completed.

Regent Lawton spoke in opposition to the proposed amendment on the basis that it would seriously impair United Council's ability to obtain adequate funding. Believing that the planned mechanism for refunds would properly protect students' rights, he urged approval of the original resolution.

Regent Fox spoke in support of the amendment, agreeing with Regent DeBardleben that a fee should not be collected from those who do not support the organization. He added that the amendment would seem to reduce the costs of administering the program.

Mr. Hazelbaker pointed out that the provision for a voluntary check-off in the Federal Elections Campaign Act has produced less revenue than projected. He added that United Council intends to provide immediate refunds to those wishing them, with tables for this purpose located just outside the registration centers on the various campuses. Comparing the resolution before the Board to legislation, he considered the continuing discussions between United Council and student personnel officers to be analogous to the development of administrative rules for its implementation; and he urged the Board to act at this meeting.

Based on his experience at another University, Senior Vice President Smith stated his belief that a collection and refund process would be less expensive and less cumbersome to administer than one requiring prior authorization by the students. He also thought that the establishment of convenient, well-publicized procedures for obtaining immediate refunds would insure that students did not feel forced to participate. While he felt that it would be difficult to collect money from students if they were simply confronted with the question of whether or not to pay another dollar, his experience had shown that those requesting refunds usually are willing to listen to explanations of the organization's purpose before making a final decision.

UW-River Falls Chancellor George Field thought that refunds would have to be made by the University business offices, a procedure which would be costly. He requested further clarification of the process which was envisioned. System Administration Vice President Lorenz replied that, while the University collected the fees, refunds would be made by United Council. The University would then make a separate, lump-sum settlement with the organization.

Dean Ginsberg stated that adoption of the resolution would limit the flexibility of student personnel officers and United Council representatives as they further discussed the issues involved.

Regent DeBardleben then moved that the question be tabled, but the motion was not seconded.

Regent Barkla felt that students who are not familiar with United Council might assume that it is an official body and that the \$1 fee is a required payment. Believing adherence to the principle expressed by Regent DeBardleben to be of greater importance than concern about a potential loss of revenue, she urged adoption of the amendment.

The proposed amendment to Resolution 2217 was defeated on a roll call vote, with Regents Barkla, DeBardleben, Erdman, Fox, and Gerrard voting "Aye" (5), Regents Elliott, Fitzgerald, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman, and Walter voting "No" (9), and Regents Beckwith and Majerus absent.

With reference to Dean Ginsberg's statement that adoption of the resolution would limit the flexibility of the committees discussing the United Council proposal, Regent Lawton asked if elimination of the language requiring that referenda be held would make the resolution more acceptable to the student personnel officers. Dean Ginsberg responding in the affirmative, it was moved by Regent Lawton and seconded by Regent Grover that the resolution be amended to strike out the last sentence.

Mr. Hazelbaker stated that Attorney General Bronson LaFollette had informed United Council that, under their proposal, referenda should be held in order to satisfy legal requirements. It was pointed out by Regent Lawton that elimination from the resolution of language requiring referenda would not prevent them from being conducted after further discussion. He felt that the Board's purpose should be to approve the funding proposal, leaving the design of mechanisms for implementation to others.

On a roll call vote, the amendment failed, with Regents Grover, Lawton, O'Harrow, and Thompson voting "Aye" (4), Regents Barkla, DeBardeleben, Elliott, Erdman, Fitzgerald, Fox, Gerrard, McNamara, Veneman, and Walter voting "No" (10), and Regents Beckwith and Majerus absent.

Regent Erdman stated that, although she strongly supported the purpose of the resolution, she would not vote for it at this time since campus administrators had indicated that the matter is not yet ready for Board action.

Regent Walter moved the previous question and requested a roll call vote. Upon being seconded by Regent Barkla, the motion was carried by a two-thirds vote, with Regent Fox voting "No."

Resolution 2217 then was adopted on a roll call vote with Regents Elliott, Fitzgerald, Fox, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman, and Walter voting "Aye" (10), Regents Barkla, DeBardeleben, Erdman, and Gerrard voting "No" (4), and Regents Beckwith and Majerus absent.

Regent Fox continued his report of the Business and Finance Committee, presenting a recommendation to designate the DeForest-Morrisonville Bank in DeForest, Wisconsin as a public depository. He stated that funds generated from patient visits to the University Hospital satellite clinic in DeForest will be deposited on a daily basis in this bank and will be withdrawn weekly for deposit in the State Treasury.

It was moved by Regent Fox, seconded by Regent DeBardeleben, and carried, that the following resolution be adopted:

✓
DeForest-Morrisonville
Bank, DeForest
Designated a
public depository;
R 2218, P 17 & 18.

Resolution 2218: That, upon recommendation of the Chancellor of UW-Madison and the Vice President and Trust Officer, the DeForest-Morrisonville Bank, DeForest, Wisconsin, qualified as a public depository under Chapter 34 of the Wisconsin Statutes, shall be and is hereby designated, effective July 11, 1980 until further action, a public depository for certain moneys coming into the hands of employees of the Board of Regents of the University of Wisconsin System for deposit to the appropriate account, and

That withdrawal or disbursement from said depository shall be only by check, as provided in Section 66.042(6) of the Wisconsin Statutes, and that all checks be signed by one of the persons certified by the Secretary of the Board of Regents of the University of Wisconsin System as having been authorized by the Vice President and Trust Officer to make deposits to or sign checks drawn on the University of Wisconsin-Madison accounts held by the above bank.

Regent Fox stated that during the committee meeting System Vice President Reuben Lorenz reported that the projected year-end balance is approximately \$2.6 million and that a portion of this reserve will be committed for use in easing the impact of the 4.4% cut.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman Gerrard presented the report of the Physical Planning and Development Committee.

He stated that Resolution 2219 concerns approval of concept and budget reports and authority to plan, bid and construct major projects at UW-Eau Claire and UW-Parkside. The UW-Eau Claire project, which provides for the construction of instructional, research, and clinical facilities for the Allied Health Center, was approved by the Regents in December, 1978 and appropriated in the 1979-81 biennial capital budget. The UW-Parkside project involves a revised concept and budget report for energy conservation modifications in four buildings, with a payback time of 5.8 years.

Upon motion by Regent Gerrard, seconded by Regent O'Harrow, and voted, the following resolution was adopted:

Resolution 2219: That, upon the recommendation of the UW-Eau Claire and UW-Parkside Chancellors and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved and authority be granted to plan, bid and construct at the cost and from the funding source indicated:

- ✓ C+B report approved for UW-Eau Claire - Bldgs

<u>Allied Health Center</u>	\$4,149,000 - General Obligation Bonding-GPR
-----------------------------	---

- ✓ C+B report approved for - UW-Parkside - Bldgs

<u>Four Building Energy Conservation Modifications (Physical Plant Building/Greenquist Hall/Wyllie Library-Learning Center/Physical Education Building</u>	\$1,708,000 - General Obligation Bonding-GPR
--	---

R. 2219, p. 18.

Regent Gerrard stated that the committee next considered a request to approve purchases of land for UW-La Crosse and UW-Whitewater, the UW-La Crosse parcel being in the area approved for acquisition for the development of outdoor instructional and recreational space, and the UW-Whitewater parcel being located within the academic core portion of the main campus. He noted that the parcels are being purchased within limits of the two appraisals obtained for each parcel.

It was moved by Regent Gerrard, seconded by Regent Barkla, and carried, that the following resolution be adopted:

Resolution 2220: That, upon the recommendation of the UW-La Crosse and UW-Whitewater Chancellors and the President of the University of Wisconsin System, authorization be granted to purchase the following parcels of land, at the costs and from the funding sources indicated:

→ ✓ UW-La Crosse
Auth. to purchase
A 0.12 acre ~~parcel located at~~ 611 East Avenue North, La Crosse at a cost of \$26,300 from Land Acquisition Funds (GPR)

→ ✓ UW-Whitewater
Auth. to purchase
A 0.81 acre parcel located at 133 North Case Street, Whitewater at a cost of \$83,000 from Land Acquisition Funds (GPR)

R 2220, p. 19.

Regent Gerrard presented requests for approval of six minor projects: three of them concerning preventive or special maintenance; two of them relating to energy conservation; and one of them providing for improvements and repairs to three parking areas. Pointing out that the committee gave special attention to the eleven-university power factor correction project for \$78,000 and the three-Centers energy conservation modifications at the Baraboo/Sauk County, Barron County, and Richland Centers, he added that authority of the Board to approve the Center System projects was clarified in the Attorney General's opinion which the committee had received.

The following resolution was adopted upon motion by Regent Gerrard, seconded by Regent Barkla (Regent DeBardeleben voting "No"):

Resolution 2221: That, upon the recommendation of the appropriate Chancellors and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct the following minor projects, at the cost and from the funding source indicated:

✓ UW-La Crosse Bldgs.

Approval of Primary Voltage Electrical Switchgear Preventive Maintenance Project, \$40,000 - SBTF-Special Maint. Funds-GPR

✓ UW-Parkside

Regent Gerrard reported that Resolution 2222 would adopt the UW System Policy Statement Relating to Parking Facilities and Transportation Planning (EXHIBIT C) which was previously distributed to the Regents at the June Board meeting. At that time it was requested that any comments or suggestions be directed to President O'Neil, who indicated that none had been received. The policy statement, which is primarily based on statutory provisions adopted by the Legislature in 1980, requires that each University develop transportation plans to be implemented by January, 1982, including incentives for the use of mass transit and high-occupancy vehicles.

~~Parking Policy~~

Regent Gerrard moved and Regent Barkla seconded the following resolution which was carried (Regents DeBardeleben and Fitzgerald voting "No"):

Resolution 2222: That, upon the recommendation of the President of the University of Wisconsin System and with the concurrence of the individual university Chancellors, the attached policy statement be adopted by the System as the basis for future parking facilities and transportation planning.

✓ Parking Policy - Adoption of policy statement relating to Parking Facilities & Transportation Planning, R. 2222, p. 20

✓ Ex-Ref. Transportation Policy (Ex-Ref. Regent Policies)

Regent Gerrard then presented a request to increase the Mechanical/Electrical Monitoring System project budget at UW-Eau Claire by \$54,000 as a result of bids received in June, 1980, noting that, with this increase in cost, the payback time is still less than four years.

Upon motion by Regent Gerrard, seconded by Regent Barkla and carried, the following resolution was adopted:

✓ UW-EC-Bldgs.
Budget increase approved
for mechanical/electrical
monitoring project;
R. 2223, p. 21.

Resolution 2223: That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, authority be granted to increase the budget for the 1977-79 Mechanical/Electrical Monitoring System project by \$54,000 for a revised total project cost of \$312,000.

Regent Gerrard indicated that System Vice President Robert Winter had reviewed for the Physical Planning and Development Committee recent actions of the State Building Commission, and that the committee was very pleased with the support given to the UW System requests. It was also reported to the committee that bids for the School of Veterinary Medicine facilities were scheduled to be opened on July 22.

Regent Gerrard reported that the committee had considered a request to lease space at UW-Parkside to St. Catherine's Hospital of Kenosha to enable the hospital to operate a Family Practice Residency Training Program in cooperation with the Medical College of Wisconsin. UW-Parkside Chancellor Alan Guskin had informed the committee that the request is strongly supported by community leaders and public officials on the basis that the program will attract more family practitioners to the Racine and Kenosha County area. The lease provides for the lessor to pay all of the costs of modifying the facilities to accommodate the Family Practice Clinic needs.

The following resolution was moved by Regent Gerrard and seconded by Regent Barkla:

✓ UW-Parkside-Bldgs.
Auth. to lease
space to St. Catherine's
Hosp for MCW
Family Practice Prog;
R. 2224, p. 21 & 22

Resolution 2224: That, upon the recommendation of the UW-Parkside Chancellor and the President of the University of Wisconsin System, authorization be granted to lease 9,250 assignable square feet of space and an additional 1,525 net square feet of shared use space at UW-Parkside to the St. Catherine's Hospital of Dominican Sisters of Kenosha, Wisconsin, Inc., to enable the hospital to operate a Family Practice Residency Training Program in cooperation with the Medical College of Wisconsin. The lease agreement covers the period from the date of commencement in 1980-81 to June 30, 1981 and annually thereafter to June 30, 1985, with the following schedule of payments:

1. \$30,000 for the period from the date of commencement to June 30, 1981. This amount shall apply regardless of the commencement date.
2. \$50,000 for the period July 1, 1981 to June 30, 1982
3. \$55,000 for the period July 1, 1982 to June 30, 1983
4. \$60,000 for the period July 1, 1983 to June 30, 1984
5. \$65,000 for the period July 1, 1984 to June 30, 1985

Regent DeBardleben inquired as to whether the indicated lease payments actually represent fair rental value or whether concessions were made because of the purpose for which the facility would be used. Chancellor Guskin replied that minor concessions were made, noting that UW-Parkside does not need the space for another use at this time and that it would be in the University's interest to have the Family Practice Clinic located on the campus.

Speaking in support of the resolution, Regent Lawton said that the advantages offered by this health service to the community and to the campus could not be ignored. He added that the University's own family practice program could not utilize this building because the State Medical Education Review Committee had designated that area for use by the Medical College of Wisconsin.

Regent DeBardleben expressed concern that the rentals, which seemed to him quite low, might constitute a subsidy to the Dominican Sisters. He said that would be improper and he would be inclined to vote against it. Chancellor Guskin responded that the Medical College of Wisconsin would be the accrediting agency for the program and that the Legislature's Joint Finance Committee had already allocated money for it, pending approval by the Board. Regent Lawton did not think that the lease arrangement could be interpreted as granting a subsidy to the Dominican Sisters. He pointed out that the Medical College of Wisconsin is partially state supported and that any benefits to the Sisters would seem to be minimal.

In response to an inquiry by Regent Barkla, Chancellor Guskin stated that UW-Parkside has a Student Health Service, that students go to St. Patrick's *Catherine's* Hospital for emergencies, and that a local physician also is retained by the University. He added that the family practice program would replace that physician and provide immediate emergency care on the campus.

Put to the vote, resolution 2224 was adopted, with Regent DeBardleben voting "No."

Report of
University of Wisconsin System
Committee to Review Chapter UWS 8
Faculty/Academic Staff Code of Ethics
Wisconsin Administrative Code

I. Background

In 1973, the legislature enacted a code of ethics for state public officials in Subchapter III of Chapter 19, Wisconsin Statutes. Section 19.45(11)(a) required the adoption of rules to implement a code of ethics consistent with the new law by the director of the division of personnel in the department of employment relations for state classified and unclassified employes not covered by Chapter 19, but not including unclassified personnel of the University of Wisconsin. Section 19.45(11)(b) required the Board of Regents to establish a code of ethics for unclassified personnel not subject to Chapter 19. As a result of sections 19.45(11)(a) and (b) the bureau of personnel enacted Wis. Adm. Code Chapter Pers 24; the Board of Regents enacted Wis. Adm. Code UWS 8. In developing UWS 8, the Board of Regents and the drafting committee closely followed the provisions of 19.45(1) through (8), Wis. Stat. (1973). Chapter UWS 8 was adopted by publication in the Wisconsin Administrative Register of January, 1975; it has not been amended since that time.

Pursuant to the concern of State Representative William Broyderick following a university inquiry into possible violations of UWS 8 Code of Ethics on the Milwaukee campus, the legislative Joint Committee for Review of Administrative Rules recommended certain changes in the content of UWS 8 in a letter to System President Edwin Young, dated September 17, 1979. The joint committee stated that sections UWS 8.03(1)(a), (c), (e) and (f), 8.04, and 8.06 should be revised and made specific suggestions as to preferred language for these sections. In response to the requests of the joint committee, and the expressed concern of other legislators, President Young established an advisory committee of faculty and academic staff from throughout the system to review UWS 8 in its entirety. Chaired by Vice President Reuben H. Lorenz of System Administration, committee members included Professor Paul S. Donhauser, UW-Oshkosh; Professor Dennis L. Dresang, UW-Madison; Dean Marvin E. Ebel, UW-Madison; Dean William F. Halloran, UW-Milwaukee; Professor Justus F. Paul, UW-Stevens Point; and Professor Nadine St. Louis, UW-Eau Claire.

II. Scope of Committee Work

Committee members were furnished with various background materials to aid in their review of UWS 8. Copies of Wis. Adm. Code Chapter Pers 24, the code of ethics for state classified and unclassified employes, and Wis. Stat. s.19.45(11), standards of conduct for state public officials, were provided for comparison purposes. In order that practices of other institutions might be examined, the ethics codes of several other universities, both public and private, were distributed. Several articles dealing with ethics regulations at educational institutions were distributed. The committee requested and was furnished copies of Wis. Adm. Code Chapters 7 and 14, dealing with outside activities, and with the regulations of each University of Wisconsin institution implementing these chapters.

The first meeting of the committee was held on October 18, 1979, at 9:30 a.m. Introductory remarks on the development of UWS 8, and the current legislative interest in its revision, were made by the committee chairman, and system legal

counsel, Charles Stathas. After a general review of UWS 8, committee members agreed that certain sections of the ethics code did contain possibly troublesome language and would warrant further study. Procedures for review were agreed upon: each section of UWS 8 would be discussed in great detail by the committee as a whole. A draft report would then be prepared by the committee as a whole which would contain its proposed revisions of UWS 8, and which would address the concerns of the legislative Joint Committee for Review of Administrative Rules. This draft report would be circulated to faculty and academic staff at all system institutions and to all chancellors for their review and responses. A final draft would then be prepared and sent to system administration and the Board of Regents for final action. Any changes to UWS 8 would then go through appropriate procedures for promulgation as administrative rules.

The committee's second meeting was held November 15, 1979, at 9:30 a.m. During this meeting, members discussed in depth those sections of UWS 8 which had earlier been identified by the committee as possibly in need of revision. Each suggested revision made by the Joint Committee for Review of Administrative Rules was discussed, but discussion was not limited to those sections which troubled the legislative joint committee. Committee members also reviewed UWS Chapters 7 and 14 concerning conflicts of interest, although the committee had not been directed to review these chapters. Committee members reached a consensus on several proposed revisions of the university code of ethics and directed that a draft report of their decisions be prepared and distributed to them for review.

The committee was guided in its deliberations by the dual goals of guaranteeing the rights which faculty and staff possess as private citizens, as well as maintaining the continued confidence of the people of the State of Wisconsin in the activities of the University of Wisconsin and its personnel. The committee also recognized that substantial interaction of UW faculty and staff with the private sector not only should be permitted, but should be considered important in the university's fulfilling its mission of service to the state.

Frequently, the committee was faced with the choice between creating new, more specific language, and retaining the general provisions of the current code. In these cases the committee believed that a stronger code results from the more general language, since a listing of specific prohibited activities implies that an activity not included is permitted. This philosophy is reflected in the committee recommendations.

III. Committee Recommendations

The committee agreed to review in detail each paragraph of UWS 8 and each revision suggested by the Joint Committee for Review of Administrative Rules.

A copy of UWS 8 is attached for reference to assist in understanding the deliberations and recommendations of the committee, which follow:

UWS 8.01 Declaration of policy (1)

Recommendation: No Change.

8.01(1)(a)

Recommendation: No Change. However, "business" will be included under UWS 8.02 Definitions.

8.01(1)(a)1.

Recommendation: No Change.

8.01(1)(a)2.

Recommendation: No Change.

8.01(1)(b)1. through 4.

Recommendation: No Change.

UWS 8.02 Definitions. (1)(a) through (j)

Recommendation: No Change. However, the following from Wis. Adm. Code Section Pers 24.02(4) should be added:

"(k) 'Business' means any corporation, partnership, proprietorship, firm, enterprise, franchise, association, organization, self-employed individual or any other legal entity which engages either in nonprofit or profit-making activities."

UWS 8.03 Conflicts of interest. (1)(a)

The Joint Committee for Review of Administrative Rules comment:

"We feel this section to be too vague to be of any use to persons affected by its provisions. Definitions of the 'interests of the university of Wisconsin system', 'official conduct' and the 'association' of an individual with a business seem to be necessary to insure proper interpretation and compliance with this section."

The committee considered in detail each of the suggested changes and felt that "interests of the university of Wisconsin system" and "official conduct" were indeed explicit enough and that changing the terminology to become more explicit would, through listing specifics, actually narrow the meaning of the paragraph. This appeared to be contrary to the intent of both the original drafters of UWS 8 and the joint committee. The committee felt the inclusion of a specific definition of "business" under UWS 8.02 would adequately clarify "association".

Recommendation: No Change.

8.03(1)(b)

Recommendation: No Change.

8.03(1)(c)

The Joint Committee for Review of Administrative Rules comment:

"After the word 'disclose', insert the words 'orally or in writing to any other person'."

The committee felt that the proposed insertion of "orally or in writing to any other person" would not add to the present language in that the word "disclose", according to Webster, means "to make known or public". The suggested addition would be redundant. The committee also felt that use of the word "person" would be too restrictive.

Recommendation: No Change.

8.03(1)(d)

Recommendation: No Change.

8.03(1)(e)

The Joint Committee for Review of Administrative Rules comment:

"After the word 'control', delete the words 'at least 5%', replacing them with the word 'any'; after the words 'outstanding stock, or', delete the words, 'at least 5%', replacing them with the word 'any'; delete all words after the phrase 'contract with the University'."

There was considerable discussion on this paragraph relating to the joint committee's suggestions, alternatives to "5%" and attendant administrative problems associated with any change. The committee, noting that Pers 24, which covers other state employes, uses "10%" rather than "5%", could see no reason that the university faculty and staff should have more restrictive language than it already has. It was also obvious to the committee that the replacement of "5%" with "any" would be completely unworkable. A literal interpretation of this paragraph would then mean that no company in which a single share of stock or a single bond was owned by a single member of the faculty or academic staff, or a member of their immediate families, could enter into any commercial contract with the university. On that basis, if any share of AT&T, General Telephone, or IBM were owned by a member of the university community, there could be no telephones, IBM typewriters or IBM computers in the system.

Alternatives of "1%", "5%", "10%", etc. were discussed, and the committee felt that "5%" was a good level that would meet the intent of the paragraph. The tight procurement regulations of the state, with their specific bidding requirements, would preclude any material, unjust enrichment of any individual.

Recommendation: No Change.

8.03(1)(f)

The Joint Committee for Review of Administrative Rules comment:

"After the words 'academic staff has', delete the words 'a 5%' and replace them with the word 'any'; after the words 'Wisconsin system', delete the words 'unless the member of the faculty/academic staff is not in position to approve or influence the university's decision to enter the lease'."

The committee felt that for reasons similar to those expressed under UWS 8.03(1)(e) the use of "5%" was appropriate and should be retained. Where leases are concerned they are, under present regulations, approved by specific action of the State Building Commission as well as the Board of Regents; this procedure already assures compliance with the intent of this paragraph.

Recommendation: No Change.

8.03(1)(g)

This paragraph, as it stands, precludes any president, chancellor, vice chancellor or controller-type appointee from serving on the board of directors of a local bank with which the university maintains an account, without specific advance approval of the Board of Regents. At the same time, the committee felt that the intent of this paragraph was clear enough that it would allow a member of the faculty or academic staff to serve as a member of the board of directors of a professional association without specific board approval.

Recommendation: No Change.

8.03(1)(h)

Recommendation: No Change.

UWS 8.04 Action upon conflict.

The Joint Committee for Review of Administrative Rules comment:

"This paragraph should properly reflect the fact that the 'dean, director, or other appropriate administrator' should apply the criteria set forth in UWS 8.03 in his/her decision of whether a particular action constitutes a conflict of interest. Furthermore, the rule should reflect that such 'dean, director or other appropriate administrator' will be directly responsible for his/her decision of whether a certain action constitutes a conflict of interest if such decision is later reversed by a higher authority."

The committee felt that this paragraph should be made more explicit in two aspects: first, that the "dean, director or other appropriate administrator" should apply the criteria set

forth in UWS 8.01 and UWS 8.03 in making the determination; and, secondly, that the paragraph should spell out the potential determination that the activity in question is not permissible and, therefore, should not proceed. The committee's suggested revisions are intended as clarifications and do not constitute substantive changes. The recommended revised paragraph reads:

"If any member of the faculty or academic staff believes that the discharge of his/her university duties may result in a conflict of interest, such person shall advise his/her dean, director, or other appropriate administrator of the potential for a conflict of interest. The dean, director, or other appropriate administrator shall apply the criteria set forth in UWS 8.01 and 8.03 and either, a) determine that the activity in question is permissible because it is within the scope of proper professional conduct and serves the interests of the university, or b) determine that the activity in question is not permissible and should not proceed, or c) assign the matter to another member of the faculty or academic staff who does not have a possible conflict of interest."

UWS 8.05

Recommendation: No Change

UWS 8.06

The Joint Committee for Review of Administrative Rules comment:

"In the last sentence, after the word 'shall', delete the word 'not'; insert a period after the words 'public record', deleting the words 'unless disclosure is ordered by the board'."

Currently, the members of the Board of Regents, and those identified under section 20.923, Wis. Stat. must file statements of economic interest with the state. These statements are considered matters of public record. The forms of economic interest currently filed with the Secretary of the Board of Regents to comply with UWS 8.06 are the same forms that are filed with the state to comply with section 20.923 Wis. Stat. The forms on file with the Secretary of the Board in compliance with UWS 8.06 are not a matter of public record, unless so ordered by the board. Some contracting personnel who are so identified by the president and each chancellor are not required to file statements of economic interest with the state. The reports they file annually with the Secretary of the Board of Regents are not part of the public record. The committee concluded that there is no justification for excluding these reports from being considered matters of public record when the reports of other administrators are so considered.

During the course of the committee's deliberations, a statutory change occurred which eliminated the positions known as "provost" and "vice provost". In amending UWS 8.06, those two positions should be deleted from the language.

The committee, therefore, recommends the following revised paragraph:

"UWS 8.06 Reports. The president, vice president, chancellor and all contracting personnel shall annually, on or before April 30, file a statement of economic interest with the secretary. Such statements shall be filed on a form provided by the secretary and they shall be considered matters of public record."

The committee individually, and as a group, reviewed over a hundred other codes of ethics or portions thereof from other educational institutions. It is the opinion of the committee that UWS 8, as revised, incorporates all essential aspects of an appropriate code of ethics for an institution of higher education; is reasonable in the restrictions it places upon the faculty, academic staff and members of their immediate families; and is a document that can be interpreted and administered in the best interests of the State of Wisconsin.

FACULTY/ACADEMIC STAFF CODE OF ETHICS

UWS 8.01 Declaration of policy
 UWS 8.02 Definitions
 UWS 8.03 Conflicts of interest

UWS 8.04 Action upon conflict
 UWS 8.05 Sanctions
 UWS 8.06 Reports

UWS 8.01 Declaration of policy. (1) In view of the special relationship of the university of Wisconsin system to the state and to affirm as public policy within the system certain common standards to prevent conflicts of interest, the board hereby adopts the following code of ethics for faculty and academic staff pursuant to section 19.45(11) (b), Wis. Stats.

(a) Every member of the faculty and academic staff at the time of appointment makes a personal commitment to professional honesty and integrity that meets the demanding standards of the state and national academic communities. It is a violation of those standards for faculty or academic staff to disregard the interests of the university of Wisconsin system in order, through use of their positions or through official conduct, to seek financial gain for themselves, their immediate families or businesses with which they are associated.

1. This code of ethics is designed to aid faculty and academic staff in avoiding conflicts of interest in the performance of their duties and to insure continued confidence of the people of this state in the university of Wisconsin system and its personnel.

2. Nothing in this code of ethics shall deny the rights of a member of the faculty or academic staff under the state and federal constitutions and the Wisconsin Statutes or any other laws of this state.

(b) The board of regents recognizes that:

1. Members of the faculty and academic staff have personal and economic interests in the decisions and policies of national, state and local government.

2. Members of the faculty and academic staff retain their rights as citizens to interests of a personal or economic nature.

3. The code of ethics must distinguish between those minor and inconsequential conflicts which are unavoidable in a free society and those conflicts which are substantial and material.

4. Members of the faculty and academic staff may engage in appropriate remunerative outside activity other than university duties, and/or may maintain investments, but no member of the faculty or academic staff shall engage in any activity and/or maintain any investment if such activity and/or investment conflicts with the specific provisions of this code of ethics.

UWS 8.02 Definitions. (1) When used in this code, the following terms, unless otherwise specified, mean:

Register, June, 1975, No. 234

(a) "Board" means the board of regents of the university of Wisconsin system.

(b) "Secretary" means the secretary of the board.

(c) "President" means the president of the university of Wisconsin system.

(d) "Vice President" means central administration officials with the title "Vice President" or other administrative officer with similar duties (e.g. provost).

(e) "Chancellor" means the chief executive officer of a four-year institution, the center system and university extension, or an equivalent title.

(f) "Dean" means the executive head of a college or division and center system campus deans, and includes persons titled "Dean" or their administrative equivalent in non-academic divisions. (Normally such persons would have the title "director" or some equivalent.)

(g) "Faculty" means all persons with the rank of professor, associate professor, assistant professor and instructor. For the purpose of this code it also includes members of the administration who are on leave from faculty positions.

(h) "Academic Staff" means professional and administrative personnel other than faculty with duties, and subject to types of appointments, that are primarily associated with higher education institutions or their administration.

(i) "Immediate Family" means any individual related to a member of the faculty or academic staff as a husband, wife or legal dependent.

(j) "Contracting Personnel" means any individual who engages in negotiating, reviewing, approving and/or signing contracts for the purchase of goods and services on behalf of the university or board. Contracts with outside agencies for research or for service to be performed by the university and personnel contracts are not covered. A person shall be considered "Contracting Personnel" only if so designated by the chancellor of his/her institution and notified in writing of the designation.

(k) "Business" means any corporation, partnership, proprietorship, firm, enterprise, franchise, association, organization, self-employed individual or any other legal entity which engages either in nonprofit or profit-making activities.

History: Cr. Register, June, 1975, No. 234, eff. 7-1-75.

UWS 8.03 Conflicts of interest. (1) (a) No members of the faculty or academic staff may disregard the interests of the university of Wisconsin system in order, through use of their positions or through official conduct, to seek financial gain for themselves or their immediate families, or for any business with which they are associated.

(b) No members of the faculty or academic staff or members of their immediate families, may solicit or receive anything of value pursuant to an express or implied understanding that their official actions or judgment would be influenced thereby.

(c) No member of the faculty or academic staff or members of their immediate families may use or disclose, for direct or indirect personal financial gain, confidential university information which is defined as information relating to university financial operations or personnel

Register, June, 1975, No. 234

that is obtained from university records or in the course of official university business and is not available to the general public upon request.

(d) No members of the faculty or academic staff may use or attempt to use their public positions to influence or gain unlawful benefits, unlawful advantages or privileges for themselves or others.

(e) No members of the faculty or academic staff or members of their immediate families and no business in which they own or control at least 5% interest of the outstanding stock, or at least 5% interest in such business, or in which they are an officer or director may enter into any commercial contract with the university unless the contract has been awarded through a process of public notice and competitive bidding under section 16.75(1), Wis. Stats., or unless the member of the faculty academic staff is not in a position to approve or influence the university's decision to grant the contract.

(f) No members of the faculty or academic staff or members of their immediate families and no business in which a member of the faculty or academic staff has a 5% interest may enter into a lease of real property with the state or the university of Wisconsin system unless the member of the faculty/academic staff is not in a position to approve or influence the university's decision to enter the lease, except that the board, upon specific request, may waive this subsection where it is in the best interests of the university of Wisconsin system.

(g) Without specific advance written approval of the board, no member of the faculty or academic staff or members of their immediate families may serve as an officer of a corporation or a member of its board of directors where such corporation does business with the university and he/she is in a position to influence university decisions concerning such business.

(h) No member of the faculty or academic staff, or his/her immediate family, may, as an individual, do business or enter into a contract with the university if he/she is in a position to affect the university's decision to grant such business or contract.

History: Cr. Register, June, 1975, No. 234, eff. 7-1-75.

UWS 8.04 Action upon conflict. If any member of the faculty or academic staff believes that the discharge of his/her university duties may result in a conflict of interest, such person shall advise his/her dean, director, or other appropriate administrator of the potential for a conflict of interest. The dean, director, or other appropriate administrator shall apply the criteria set forth in UWS 8.01 and 8.03 and either, a) determine that the activity in question is permissible because it is within the scope of proper professional conduct and serves the interests of the university, or, b) determine that the activity in question is not permissible and should not proceed, or c) assign the matter to another member of the faculty or academic staff who does not have a possible conflict of interest.

History: Cr. Register, June, 1975, No. 234, eff. 7-1-75.

UWS 8.05 Sanctions. Charges of violations of these rules shall be in the form of a verified complaint which shall state the name of the member of the faculty or academic staff alleged to have committed a violation and which shall set forth the particulars thereof. Those verified complaints involving members of the faculty or academic staff

Register, June, 1975, No. 234

servicing within the central administration shall be referred to the president for investigation and disposition through appropriate institutional proceedings. Verified complaints involving faculty or academic staff serving at an institution of the UW System shall be submitted to the appropriate chancellor; where the complaint is against a faculty member, the chancellor shall proceed under the rules adopted by his institution pursuant to UWS faculty personnel rules, chapter UWS 4 or section UWS 6.01 Wis. Adm. Code, as appropriate; where the complaint is against a member of the academic staff, proceedings shall comply with the rules the institution has adopted pursuant to the UWS academic staff personnel rules. In addition to institutional discipline, section 19.50, Wis. Stats. of 1973, provides that criminal penalties may be imposed for violations of these rules.

UNIVERSITY OF WISCONSIN SYSTEM POLICY STATEMENT
RELATING TO PARKING FACILITIES AND TRANSPORTATION PLANNING

Preliminary Policy Statement

- (a) All future parking and transportation-related capital budget projects shall be in compliance with the provisions of ss. 36.11 (8e), 36.11 (8m) and 16.82 (5), recently created by Chapter 221, Laws of 1979, as follow:
- (1) SECTION 291 em. 36.11 (8e) of the statutes is created to read:
- 36.11 (8e) PARKING FEES. The board shall direct each institution and center within the system to charge a parking fee for the parking of motor vehicles by students, faculty, academic and classified staff and visitors at campus. The board shall require the fee to be sufficient to recover the costs of the construction and maintenance necessary for the parking facilities. Nothing in this paragraph shall be deemed to require the recovery of the costs of land for parking facilities. Nothing in this paragraph shall be deemed to require that all users of the parking facilities be charged a parking fee. Center campus facilities owned by a county are not required to charge a parking fee.
- (2) SECTION 291 er. 36.11 (8m) of the statutes is created to read:
- 36.11 (8m) TRANSPORTATION PLANNING. The board shall direct the administrative officers of each campus to work with the regional planning commissions and the local authorities of the community in which the campus is located to evaluate the transportation needs of the campus population. The board shall require each campus to develop a transportation plan for the campus to effect energy resource conservation and efficient use of transportation resources. The plan shall include pedestrian walkways, bikeways, bike routes, bicycle storage racks, car and van pools and, to the extent feasible, improved mass transit services. The transportation plans shall detail parking management strategies which provide incentives for the use of mass transit and high occupancy vehicles. The transportation plans shall be implemented by January 1, 1982.
- (3) SECTION 73 m. 16.82 (5) of the statutes is amended to read:
- 16.82 (5) Shall develop and implement a comprehensive ride-sharing program for state employes, in cooperation with the legislature, the courts and all constitutional offices, departments and independent agencies and shall promote and encourage participation in the state ride-sharing program. In addition, the department shall promote and encourage alternate means of transportation for state, municipal and federal employes and other persons in the private sector including but not limited to mass transit, bicycle commuting,

car pooling and van pooling; and may provide contract group transportation of state employes from designated pickup points to work sites and return in the absence of convenient and public scheduled transportation. Non-state employes may be permitted to participate in van pools as passengers when necessary in order to provide viable van pool service for state employees. Van pools are limited to a maximum of one-third non-state employes for each vehicle. The group transportation shall be provided for a fee which recovers the full cost of maintenance, operation, insurance, and depreciation. No person is deemed to be in the course of employment while utilizing the group transportation.

- (b) The 1981-83 biennial capital and operating budgets shall include the necessary funding requests to enable each university to implement the transportation plans as approved by the Board for each university in order to comply with the January 1, 1982 deadline established under s. 36.11 (8m).
- (c) The Transportation Plan shall include the following fiscal provisions:
 - (1) Management of parking utilities will remain decentralized within the System under individual university administrations.
 - (2) Financing of the parking operations and development of new spaces will continue to be based on fee-supported parking. Fees will be charged for parking privileges sufficient to recover the costs of construction, current and deferred maintenance, and operations.
 - (3) Long-term (beyond ten years) financing for surface parking facilities should be avoided whenever possible.
 - (4) Advance Land Acquisition Funds may be requested to purchase land and, in some cases, to relieve bonded indebtedness at a number of universities, thus enabling them to responsibly replace parking spaces lost to building projects and to provide for the reduction of university-related, on-city-street parking in order to conform with municipal zoning ordinances or regulations as required by s. 13.48 (13).
 - (5) Parking development should be phased incrementally to respond to changing conditions and to ensure against overbuilding.
- (d) The Transportation Plan shall include the following Physical Planning provisions:
 - (1) Current parking and transportation programs will be examined, including car and van pooling, bicycling, walking, and transit availability. Where appropriate, economic/energy feasibility studies will be made, including cost/benefit analyses, to evaluate alternative parking and transportation strategies, with special attention to their energy conservation impacts.

- (2) Community/area geographic and demographic characteristics, including employee and student housing locations, will be considered.
- (3) Current and projected transportation modes will be examined in relation to faculty and staff activities and to student academic and employment needs.
- (4) Cooperation with municipal, state, and regional transportation programs and planning efforts will be encouraged.
- (5) Impact on the physical environment will be considered.
