The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Wescodyne

FIRST WIDE-RANGE "TAMED" IODINE GERMICIDE

**kills pathogens
with three or four times
the germicidal capacity of
other germicides***

NONSELECTIVE KILL

Exceptionally wide range effectiveness against: bacteria, viruses, fungi, yeasts and other pathogens.

SIGNALS WHEN IT STOPS KILLING

Amber color disappears as germicidal power is exhausted. No other disinfectant contains its own color indicator.

POWERFUL DETERGENT

Provides amazing cleaning action as it disinfects. Does both in a single operation. A time and labor saver.

NONSTAINING, NONIRRITATING, NONTOXIC

No skin irritation. No staining of hands, equipment, or surfaces. Absolutely safe when used as directed.

COSTS LESS

It's inexpensive because so little does so much. The usual recommended dilution of 3 oz. to 5 gallons of water (75 ppm available iodine) costs less than 2¢ per gallon.

WESCODYNE is recommended for almost any disinfecting procedure or hospital housekeeping. Unaffected by hard or cold water. Leaves no "hospital smell." Write for full report containing toxicological and microbiological data.

*As tested on successive kills of seven common organisms
