The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

How They Used to Measure the Months

January - the coldest

February - great drifts and the shortest

March - crust on the snow

April - fool

May - planting

June - cultivation

July - the bad month and putting up the pole (July 4th)

August - standing corn

September - change to fall

October - harvest

November - first snow and giving thanks

December - Christmas and holy days
