Through the great success and continued popularity of the various Tablet Outfits we have advertised, all of which where originated by us, and as there is a constant demand for a first class

They will sell from 25 cents to 50 cents per box, according to locality and the class of trade catered to, netting from 150 to 500 per. cent profit. 28 tablets to a box will constitute a weeks treatment, and as the tablets are chocolate-coated and made from one of the best formulas, effecting a speedy remedy for the various ailments, purchasers will return for more. The tablets are made for us by a well known pharmaceutical house, and we will be glad to send any druggist samples and formula.

The "NEW ERA" CARTON.

The carton is entirely new and is without exception the very
Best Non-Sifting folding Box

ever offered to the drug trade. It is so constructed that it is
easy to fold and tuck and at the same time is absolutely non-
sifting. You are sure to be pleased with it.

Made of Good Quality Smooth Manila Board only, and sold plain as
well as printed. Many druggists prefer them unprinted, using
a label designating the contents. These packages have now be-
come a part of all well-regulated drug stores, the goods can be
put up at odd moments, and when busy with customers, handed
out quickly, enabling you to wait on many more customers in a
given time, than if necessary to wait to wrap up and weigh the
goods in paper as formerly, and you are giving the purchaser a
package that will be retained until the contents are all used,
thus advertising you constantly.

The cuts shown on this sample on this paper are our

STYLE D ENGRAVINGS,

designed expressly for use on our non-sifting cartons and will be
printed on all orders for The New Era Carton unless instructed
otherwise.

Effervescing · Solution

—OF—

CITRATE

—OF—

MAGNESIA

As a substitute for Salts, it is destitute of Bitterness, and by its pleasant acidity of taste, and its effervescing character, is rendered a very agreeable and refreshing drink.

DIRECTIONS.—As a cooling and laxative medicine, from a tablespoonful to a wineglassful every hour or two, until the desired effect is produced. As a cathartic, an adult may take the contents of one bottle, half of it at first, and the remainder in one or two hours. The bottle should be kept corked in the intervals of taking the medicine. A glass of cold water increases its activity as a purge.
