For information on re-use see:

<http://digital.library.wisc.edu/1711.dl/Copyright>

The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

STAND RECORD

FORESTS

Stand No. 3591

Name:

County: Taylor

Date: 7-12-53

Size of Stand:

Forest Type:

Topography: Flat, lowland

Locality:

T: 33N

R: 1E

Sec: 8

NE 1/4 NE 1/4

Observers: Christensen

Size of Area Sampled: 20 quads

Soil Type: 30 points

Slope:

Directions

Condition of Stand:

A small area that could be sampled. Much open and young aspen land in the vicinity. No cutting in area sampled, but some old rotten stumps that have fire scars. This yard was hard hit in the past but moderately used now. The maples ^{oaks} show most browsing. Some summer leaf-browsing on the rare *acer spicatum*. Deer tracks observed.

Open Grown Trees:
