THE YEAR'S WORK

IN THE NEW DEPARTMENT OF
PHYSICAL CULTURE.

DR. ELSOM MAKES A REPORT OF
HIS WORK.

Majority of Students Use the Gym—
Gain in Size, Strength and Health.

Prof. Elsom has just had printed a neat sixteen-page pamphlet, concerning the department of physical education of the university. It is frontispiced with a fine half-tone engraving of the gymnasium, and contains a general review of the work which the new department has been doing during the year.

According to the report, seventy-five per cent. of the students have used the privileges of the gymnasium with great regularity. The effect of this has been brought out in the second physical examinations, when each student was requested to answer the following questions:

1. About how many hours per week have you worked in the Gymnasium?
2. Has your exercise improved your health? If so, in what respect?
3. Is your appetite better?
4. State any effect your exercise may have had on your capacity for study?

In answer to the first question, it was found that the lowest average number of hours spent in the Gymnasium was two per week; the greatest, twelve.

In answer to the second question, regarding improvement in health, seventy-five cards were selected at random, and the following answers given: Five men answered "No;" twelve made the statement that they had observed no change; while fifty-eight men testified as to an improved state of health and strength as a result of the season's work.

In answer to question 3, "Is your appetite better," 13 answered "no," and 62 "yes."

As to the effect of exercise on study, 11 answered that no appreciable change had been noted, while 64 stated that the capacity for study had been increased after the exercise.

The report also gives the measurements of twelve students, selected at random, at both the first and second examinations. In almost every case is there evidence of improvement.

Out of 622 men examined, 366 are above the college average.

—The last meeting of Nora Samlag will be held next Saturday at 2:30 p. m. in Prof. Olson's room. A good program has been arranged.

FACULTY MEETING.

Consideration of Special Honors and Honorary Fellowships.

The faculty held their regular weekly meeting in Science hall Monday afternoon. It being so near the end of the term and of the college year several matters of considerable importance, especially to the graduating classes, were discussed.

There have been a considerable number of applications for special honors filed this year, and the faculty after discussion decided to refer the theses of all such applicants to a committee for special examination. The successful applicants will be named in the near future.

The names of applicants for honorary fellowships were also considered, but time did not remain after the transaction of other business to decide this matter, so that their election was postponed until the next meeting.

—Prof. Haskins is to give his mediaeval history class a special lecture on Saturday at 11 a. m. in the economic rooms on the third floor of the law building.

THE LUBIN PRIZES.

Mr. David Lubin, of Sacramento, Cal., offers to the students of the Leland Stanford Jr. University two prizes of \$100 and \$50 respectively for the best and the second best essays on the following subject: "Granting that protection to manufactures is to be for some time the controlling policy of the United States, is it just and expedient that the agricultural interests be compensated by an export bounty on stable agricultural products?"

—It is said that cuspadores are in considerable demand in the senior law lecture room.

WITH THE NAVY.

New Arrangement of the 'Varsity
Crews.

In order that all the men who have been in training for crews may have a chance to get some racing experience this spring, the 'Varsity crew has been cut down to the following men, who will take part in the Delaware race on June 14:

FIRST:

Bow, Alexander, A. F.

2. Alexander, W.

3. Day.

4. Austin.

5. Webber.

6. McConville.

7. Rohn.

8. Seymour.

SECOND:

Bow, Fuller.

2. Kinnaird.

3. Smith.

4. Daniells.

5. Deitrich.

6. Wilson.

7. Ohnstad.

8. De Lay.

The rest have been assigned to their respective class crews in order that they may get a few days' practice together in the gigs before the race. By this arrangement every man who has been in training will have a chance to enter at least one race.

MORE TENNIS GAMES.

Sanborn Beats Wadsworth—Manson
Won from Jones.

Several good tennis matches were played yesterday, and the tournament for the championship was well started.

The first match was between Sanborn and Wadsworth, who met in the tournament last week. Wadsworth played a much better game, especially during the second set, which he won, 6-2. The first and last sets went to Sanborn at 6-1, and 6-4.

Manson won without much difficulty from Jones. The score was 6-0, 6-2.

Fertier played Noyes a close match, but lost, 4-6, 6-1, 6-4. He played in rather poor form but by persistent work managed to make many returns. Steensland won from Brewer by default.

In the doubles the decisive match probably came in the first round when Manson and Hughitt played Noyes and Sanborn. The former team won the first set, 7-5. Noyes and Sanborn then won the next set by a score of 6-3 and obtained a good lead in the third set but Manson and Hughitt braced up and won the set 6-4. Both teams showed lack of team work while doing good individual work.

AMERICAN SCHOOL AT ROME.

The council of the Archaeological institute, at their annual meeting this week, will act upon the project of establishing an American school at Rome, in close affiliation with the similar schools established thirteen years ago at Athens. The committee appointed by the council a year ago to consider this question, consisted of Professors Goodwin of Harvard, Seymour of Yale, and Frothingham of Princeton. Despite financial difficulties, the school of classical studies at Rome will probably be opened on a modest scale next fall.

All students of the university should attend the illustrated lecture to be given by Prof. D'Ooge, of the University of Michigan, in Library hall, tomorrow evening at 8 o'clock. Prof. D'Ooge's subject is "Greece, Past and Present," and his collection of slides to illustrate his subject is said to be very fine. The lecture is free, and it would hardly be possible to spend an hour more pleasantly or profitably.

While a general kick concerning the results of our base ball games comes in from all quarters the kicker would do well to remember that our base ball team is exactly what the students make of it. To have a good strong team there must always be a large number of recruits on hand from which to draw in case of need and to stimulate faithful training. This fact has hitherto been recognized in the large number of class and club games between the various organizations. For some reason there has occurred a dearth of these games all the year. Perhaps this may be the main reason why the team has not won more games.

We hope there are no legislators of this state who are regretting the liberal appropriation they made two years ago for the equipment of the department of physical culture. But if there are any such, they might easily disabuse their minds of any such ideas by looking through the pamphlet which Dr. Elsom has just issued.

They would find that instead of being merely a place for a few students to gain the great strength requisite for a "show" contest with another university, it has actually been the means of affording systematic physical training to about 800 young men, a large majority of whom give evidence, by increased measurement and tests, of the value they have derived from it.

BATTALION INSPECTION.

The U. W. battalion underwent its annual inspection on the lower campus yesterday afternoon. Colonel Vroom, of the Inspector-General's department, U. S. Army, commenced the inspection at 3 o'clock. The first movements were battalion review and inspection, after which half an hour was devoted to battalion drill. The companies were then turned over to their captains and a few company movements were given. The battalion made a very good showing, considering the limited practice they have had in battalion drill. Preparation had been made for an exhibition of extended order drilling, and it was but a few weeks ago that notice was received that the usual inspection of battalion movements, in close order, would be made. All of the recruits, however, exerted themselves to do their best, and the result was much better than was anticipated.

SPEAKS WELL FOR US.

In commenting upon our game with Michigan the U. of M. Daily says: "Although the result was not in doubt after the second inning, the brilliant playing of the visitors lent much enthusiasm to the crowd of 600 people who frequently reward the visitor's best play with liberal applause. Both teams fielded well at critical points and the result was many difficult catches. * * * * * For Wisconsin, Kummel at short did the best work. He figured in two double plays, besides fielding his position with great ability. Gregg at center, also covered much territory. * * * * * Runkle, too, showed considerable ability with his slow delivery, the 'varsity having much difficulty in bunching hits."

LITERARY NOTE.

In his paper on "Terminology and the Sociological Conference," Professor H. H. Powers explains the results which were arrived at by the recent conference of sociologists held in New York city. One of the purposes of this conference was to obtain a general definition for the term "sociology," and to define its field. Students of this science will therefore be much interested in the paper by Professor Powers. It has been issued by the American Academy of Political and Social Science in their series of publications.

—The report is being passed about on Yale's campus that Frank Butterworth, full back on the Yale team, was maliciously and intentionally injured in the game with Harvard last fall. Yale's men claim to have found a letter written by Harvard's coach, saying that the only hope of the Harvard players was in disabling Butterworth at the beginning of the game.

—Michigan defeated Nebraska University in base ball yesterday, at Omaha. Score, 9 to 5.

—The Madison Cycling club at its meeting last evening decided to challenge the university club to a relay race around Lake Mendota on Memorial day.

—It is reported that the faculty nine is to play a nine composed of professional men of the city.

CLASS FIGHT AT DE PAUW.

A special from Greencastle, Ind., yesterday, says: The most exciting class fight ever held here by students of De Pauw University occurred last evening between the sophomores and seniors on one side and juniors and freshmen on the other. The first two classes gave a party and the last two quickly engaged the company of the girls of the invited classes. Then came war, the seniors and sophomores attempting to carry away by main force the other fellows or to so dis-figure them that they would not be presentable. The police force was powerless and a fire alarm was rung in. Over 300 hundred students partici-pated and shaved heads and crack-ed scalps are common today. The juniors and freshmen were victorious and captured the ladies.

—Prizes representing an income of \$6,000 have been offered to those who excel in the oratorical exercises of the senior class at Princeton.

—The college book store has a large stock of Law books, on which a dis-count of 20 per cent. will be made, during the next ten days.
