The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

THE AUSTRALIAN BEE BULLETIN

The Official Organ of the New South Wales
and Victorian Beekeepers.

CIRCULATING THROUGH ALL THE AUSTRALIAN COLONIES,
NEW ZEALAND AND CAPE OF GOOD HOPE.

SUBSCRIPTION—
5/- PER ANNUM IN ADVANCE; IF BOOKED, 6/6.

EDITED, PRINTED AND PUBLISHED BY
E. TIPPER, WEST MAITLAND, N. S. W.

PRESS NOTICES

MUSWELLBROOK CHRONICLE.—The BEE BULLETIN, which is printed and edited by Mr. E. Tipper, of West Maitland, is the best publication of the kind in Australia, and should be taken regularly by all persons engaged in apiculture.

NEWCASTLE HERALD.—To all who possess apiaries, or those desirous of entering into the honey industry, the BEE BULLETIN is of exceptional value, and it must also commend itself to farmers and orchardists generally.

The BEE BULLETIN is a specialist publication, interesting only to those who concern themselves about bee culture, and by those it must be highly valued for the variety of information it contains.—TUAPEKA TIMES, N. Z., Nov. 17, 1894

AUSTRALIAN AGRICULTURIST.—The day has passed for wishing success to the AUSTRALIAN BEE BULLETIN. It is a success, and becomes more useful and interesting with each issue. The November 23rd number is to hand, enlarged and improved and with New Zealand sections added. If you keep bees, take the BULLETIN. It will pay you.

Concerning this little monthly—the AUSTRALIAN BEE BULLETIN—when asked his opinion of it, our Bee Editor said:—I have read it carefully every month, and prefer it to any publication on beekeeping I have seen. It is adapted to beekeeping in Australia, and what is contained in the British and American bee journals which would be of use to beekeepers out here is inserted.—GARDEN AND FIELD, South Australia.

MAITLAND MERCURY.—The publication is amply fulfilling the purpose of its promoters in giving information about apiculture, and providing a means of exchanging opinions and records of experience in beekeeping. The circulation of the BULLETIN is extensive, as we find acknowledgment of its value from South Africa, San Francisco, Western and South Australia, Victoria and elsewhere beyond N. S. W.

Scale of Prices for Advertisements in A. Bee Bulletin :

HALF-PAGE—Per Annum, £5; Half-year, £3; Quarter, £1/15/-

QUARTER-PAGE—Per Annum, £3; Half-year, £1/15/-; Quarter, £1.

ONE-EIGHTH PAGE—Per Annum, £1/15/-; Half-year, £1; Quarter, 12/-

SINGLE INSERTION—First Inch, 5/6; succeeding, 2/6

(If Booked, 10 per cent. extra added to the above rates.)

E. TIPPER, West Maitland
