MINUTES OF THE REGULAR MEETING  
of the  
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall  
Friday, October 7, 1977  
9:00 A.M.

President Hales presiding

PRESENT: Regents Barkla, Beckwith, DeBardleben, Erdman, Fitzgerald, Gerrard, Grover, Hales, Johnson, Lavine, Lawton, McNamara, Neshek, Thompson, and Walter

ABSENT: Regent Fish

Upon motion made by Regent DeBardleben and duly seconded, it was VOTED, That the minutes of the Regular Meeting of the Board of Regents of the University of Wisconsin System held on September 9, 1977, be approved as sent out to the Regents.

REPORT OF THE PRESIDENT OF THE BOARD

President Hales reviewed the hearing with the Joint Audit Committee held on October 5, 1977 (attached as EXHIBIT A). In addition to the names of persons making statements in behalf of the University System, Vice Chancellor Jerry Anderson also made a presentation at the hearing. Regent DeBardleben noted there are two references in the report to the importance of consultation with prior review by the Regents of the particulars of any proposed management audits, "prior to decision to proceed". He said that he assumed we are reserving our right to resist such a decision. Regent Neshek stated that it was made quite clear that that is the way it would be.

Regent Neshek moved adoption of the proposed amendments to By-Laws revising the duties of the Business and Finance Committee and the duties of the Physical Planning and Development Committee (attached as EXHIBIT B), the motion was seconded by Regent Gerrard, and it was voted.

President Hales referred to the letter sent to all members of the Board by President Young on September 23, 1977, relative to a potential change in Chapter V of the By-Laws. Senior Vice President Smith stated that when the By-Laws were re-examined, it was clear that the Chapter V as originally written had reflected an effort to clarify the structure of the University System at the time of merger, and the revisions therein, which have served well enough, seem out of place if you project the fact that through time administrations may change, that titles may change, and that the question of whether you have three, four, or five vice presidents and how these offices are titled because of the division of duties may also change. He said that the more usual procedure would be for the By-Laws

to set up the general conception of structure and permit changes to be made administratively through the action of the President with the approval of the Board, and not have to amend the By-Laws everytime something of this sort is done. With respect to the section relating to staff services for the Board of Regents, he noted that emphasis has been given to the committee structure and the proposed By-Law change is set up to clarify what has become practice in the System, but again do it in a permissive way, which allows adaptations and adjustments by the President with the approval of the Board.

Regent DeBardleben noted the By-Laws as presently constituted say that the parliamentary rules applicable to the proceedings of the Board shall be Robert's Rules of Order. He noted Robert's Rules of Order had been written in 1893, superseded in 1915 by Robert's Rules of Order Revised, and superseded in 1970 by Robert's Rules of Order Newly Revised, and suggested that the reference to Robert's Rules of Order be to the "current edition". He further suggested for consideration an amendment to the By-Laws as to the method whereby we could avoid the unnecessarily awkward and cumbersome method of having this Board sit as a Committee. He noted we have been following the practice of having meetings of the Business and Finance Committee with all Regents invited to attend, or meetings of the Education Committee with all Regents invited to attend, and although it has been the practice of the Chairman of the two committees to allow all Regents to participate as though they were members of the committee, in fact they are not. He inquired whether it would be practical to provide in the By-Laws language that would recognize the need from time to time for a Committee of the Whole, which would be a newly constituted committee when it is called on an ad hoc basis, comprised of all members of the Board. There would then be no technical nor legal question as to the membership of every member of the Board on that committee. He stated that the amendment could be drafted in such a way as to make it discretionary with the President of the Board calling for a meeting of the Committee of the Whole at any given time to designate who the chairman would be at that time. He observed that we are not necessarily circumscribed by Robert's Rules of Order and can make rules on such matters, and indicate that except as otherwise provided, Robert's Rules would apply. It was agreed that Central Administration would present the proposed amendments at the next meeting of the Board.

President Hales reported that he and Regent Lavine had attended the Association of Governing Boards meeting held in Denver, Colorado, on October 2, 3, and 4, 1977. He noted that the four broad general areas dealt with were the financing of higher education, the price of collective bargaining, the medical education cost amendment, and the impact of financial aids on educational costs. President Hales called upon Regent Lavine to report on the details of the meeting.

Regent Lavine reported that the keynote speaker for the meeting was Caryl M. Kline, Pennsylvania State Secretary for Education, and a former member of the Pennsylvania State Board of Regents. He reported that Dr. Kline is a graduate of the University of Wisconsin-Madison, and based the thrust of what she had to say about national education on her Wisconsin ties and experience. He said the speech covered more in less time than was heard from most speakers, and a copy will be made available to the members of the Board. He stated the portion of the meeting dealing with the financial aid area was most productive, and that an abstract prepared by Central Administration of the highlighted points that relate to the Wisconsin System will be forwarded to the Regents next week. He stated the material contains a breakdown of how all federal monies for financial aid are spent and where they come from. He noted there are many, many millions of dollars in the state and across the country that come to students through various grants

and loans for veterans and there will be a fairly dramatic falloff in those monies as those programs wind down and the numbers of veterans eligible decrease. The impact on every institution in the UW System will be quite substantial. He also noted that Central Administration is to abstract the first major study on the impact of collective bargaining on faculty salaries. He stated the study indicates that on unionized campuses it would appear that full professors and associate professors had benefited most from unionization, and instructors and assistant professors actually had a negative benefit--a result that one would not expect. Regent Lavine stated that the AGB organization has pinpointed materials that are meaningful to people who have the responsibility we do, and suggested that other members of the Board think seriously of attending one of their future meetings.

-

President Hales reported that the Secretary of the Board had been in contact with his counterpart on the Minnesota Board and it appears there is not sufficient interest on both sides to warrant a joint meeting this year.

-

President Hales noted that the December meeting of the Board would be held in Milwaukee, as has been customary.

-

Regent Erdman requested that Central Administration look into the necessity of having a January 1978 meeting. Senior Vice President Smith assured her that the matter would be pursued with great zeal.

- - -

#### REPORT OF THE PRESIDENT OF THE SYSTEM

Regent Lavine moved adoption of the following resolution, the motion was duly seconded, and it was voted:

Resolution 1534: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified, and confirmed. (EXHIBIT C, on file)

-

President Young requested Joseph Wiley, Assistant to the President, to introduce the participants in the Central Administration Internship Program. Mr. Wiley noted that the Central Administration Internship Program each year selects a number of people either from the classified service or the unclassified service or from the graduate programs to work in Central Administration for approximately nine months to gain administrative experience, the idea being to enhance the pool of minorities and women who have administrative exposure and who possibly can make a greater contribution to the University in that area. He reported the program had 62 applicants this year and from that number three were selected. He introduced the following participants in 1977-78:

Roberta L. Derlin, UW-Milwaukee, who will be working in the Central Administration Auxiliary Operations Analysis Office

Norene Smith, Professor and Associate Dean of Student Affairs at UW-La Crosse, who will be working with Associate Vice President Dallas Peterson on a number of projects including analysis of the UW Health Sciences activities and some campus level projects

Thomas Coley, doctoral student on the Madison Campus, who will be working in the Office of Budget Planning and will be working on a number of projects in analysis services and statewide communications

President Young reported that he and Mrs. Young had been carrying out a program of visiting the various institutions. He stated they had been to LaCrosse, Eau Claire, Oshkosh, Fond du Lac, and Richland Center, which leaves only twenty-one or twenty-two institutions still to be visited. He noted the statutes suggest that we develop an autonomy and diversity in the University institutions and assured the members of the Board there is a good deal of diversity because at each different place visited there is a different emphasis and different interests, but there are some threads which run through all the visits--one is the tremendous interaction between the institutions and the communities in which they are located. He said he was particularly impressed at Richland Center, where it is difficult to tell where the community leaves off and the Center begins. He stated Dean Marjorie Wallace is a tremendously energetic and enthusiastic person. During a casual lunch with staff people, among others who wandered through the room in addition to the students were the County Board Chairman, the Vice Chairman, the Mayor, and the owner of the radio station. All emphasized that this was their Center and they would do anything to keep it. President Young stated that at the Centers the faculty is concerned with whether or not the Regents have plans to close the Centers and feel they have been left in a sort of limbo. President Young stated his response was that the Administration and the Regents could only recommend, and it would be a legislative matter. At the universities a common thread that goes through all of the discussions with faculty and administrators is how to cope with the possibility of a reduced number of students in the future--how do we make adjustments in staff without traumatic surprises. He noted that Central Administration is very conscious of this problem and is looking to see where we are at and if there is anything that needs to be changed in our By-Laws or legislation or practices.

President Young called upon Chancellor Robert Swanson for the report of the Chancellor of the University of Wisconsin-Stout. Chancellor Swanson introduced Nelva Runnalls, Dean of the Graduate College at Stout for the past five years, who is at present serving as an intern sponsored by the American Council of Education. Chancellor Swanson explained in detail the interpreting of Stout as a special mission institution. The outline of his remarks is attached as EXHIBIT C-1.

President Young introduced the new Chancellor of the Madison Campus, Irving Shain.

## REPORT OF THE EDUCATION COMMITTEE

The report of the Education Committee was presented by Regent Lavine.

Regent Lavine reported that all Regents had been invited to attend the committee meeting on the previous day for discussion of issues regarding collective bargaining. He reported presentations had been made by the following:

Max Kurz, Professor of Social Welfare, UW-Milwaukee, and chairperson of the Task Force on Collective Bargaining of the University Committee, who said he brought no specific recommendations made by the faculty or senate, but indicated there was general agreement that three items need to be preserved in a permissive collective bargaining bill: Campus autonomy; separation of academic staff from faculty; and protection of faculty governance. He also discussed the 1976 survey made of UW-Milwaukee faculty regarding the two bills then before the Legislature.

Professor Anatole Beck, representing United Faculty, who argued that Regent Lavine, representing the Board, had not in fact spoken for SB335 (task force bill), but had only said that the Board would prefer it to the others (SB289 and SB263). He stressed that the pending bills would not give faculty the right to collective bargaining, but would give them the right to decide whether they wanted it. He indicated that of all the employees of the state, university faculties are virtually the only ones not allowed to vote on collective bargaining. Regent Lavine reported that during the response to Professor Beck's remarks, Regent McNamara stated his views concerning collective bargaining and said that he favored: the broad scope of bargaining most closely as found in the WEAC bill, bargaining units on each campus, and that the unit should be related to function rather than to name or designation, the right of the faculty to strike and/or the state to lock out as the terminal points of collective bargaining, the fact that there should be negotiations on such items as closed shop, checkoff, faculty governance, and tenure. Regent Lavine reported that Regent DeBardleben asked if there were not some topics too important to the state, society, and the universities, to be left to the vicissitudes of year-to-year bargaining. He mentioned such things as the value of protecting faculty governance and tenure.

Robert Baruch, President of TAUWF, discussed the proposed legislation in the context of several issues, including TAUWF's position on their bill on bargaining units, the scope of bargaining, and faculty governance. He stated that collective bargaining and faculty governance can continue in his view side-by-side, and that where governance has been strong, it will likely continue to be strong even though the institutions and faculty may be engaged in collective bargaining. Regent Lavine reported that in response to a question, Professor Baruch stated that under SB 289 (the TAUWF bill) tenure would not be a bargainable issue. Regent Lavine reported Regent Beckwith spoke to the obligation of the Regents to protect the institutions, indicating that the Board must decide as to whether the process of collective bargaining will be good or bad for the universities. He expressed concern that the process of collective bargaining might further depreciate the freedom from legislative intervention that the universities presently enjoy. Regent Lavine reported that, noting that Professor Baruch had mentioned collective bargaining experience on other campuses, Regent Neshek inquired about the feasibility of a systematic study of the results of experience at other universities for use in local decision-making. He suggested that the Collective Bargaining Task Force with staff support might undertake such a survey. Regent

Lavine reported that at the conclusion of his presentation, Dr. Baruch distributed copies of the 1976-77 TAUWF Collective Bargaining Opinion Survey containing returns from all campuses showing positive and negative responses on the question of support for legislation enabling collective bargaining.

Rob Stevens, United Council Legislative Affairs Director, stressed the recognition of the right of the faculty to organize in any manner they determine; that enabling legislation should include direct, though limited, student participation in the collective bargaining issues, proposing participation as independent observers, with the right to see documents and speak on specified occasions; and that enabling legislation should include prohibited practice clauses that would make nonbargainable matters relating to allocations and operations of segregated fee-funded activities, and policies and procedures relating to other auxiliary services primarily used by or intended for students.

Maurice (Barney) Webb, Chairman, University Committee, UW-Madison, suggested four questions the Board may wish to address as it reviews its position on collective bargaining as a whole: 1. Is it realistic to suppose that academic matters can be separated from bargaining on economic issues? 2. Is it possible to bargain on some issues and at the same time not impair the collegial relations upon which shared governance on other issues depends? 3. How would the System operate if some of the faculties choose to bargain and others do not? Is it realistic that nonbargaining institutions can be insulated from the results of bargaining elsewhere? 4. How would the role of the Board and other state agencies change in the administration of the University System under collective bargaining?

Larry Duetsch, UW-Parkside Faculty Representative, distributed copies of the results of a questionnaire to faculty on collective bargaining and noted that of the 50% of faculty who completed the questionnaire, a small percentage favored wide-scope bargaining on all issues and a significant number favored the more limited version of SB 335.

John W. Coe, Wisconsin Education Association Council (WEAC), emphasized (a) governance issues are issues properly in the collective bargaining arena; (b) collective bargaining legislation is written to meet the needs of those who desire collective bargaining. It is not written to satisfy those who do not; (c) it is clear that the legislature intends to intrude into university matters and the notion that collective bargaining legislation will invite intrusion is nonsense. (d) WEAC favors "last best offer" final arbitration method for those who wish to use it when they bargain collectively. He also spoke of the opposition of WEAC to the limited scope bargaining of the Regents' bill.

Werner Baum, Chancellor, UW-Milwaukee, said that although he previously had favored limited collective bargaining, he now felt no bargaining at all would be wiser and recommended that no faculty collective bargaining legislation be passed in the near future. He stated that bargaining among university faculties is too new to know what the long-term results will be. He expressed nervousness over the increasing evidence of adverse consequences of collective bargaining.

Gene Starkey, UW-Extension Faculty Representative, said that the Extension faculty of over 700 had discussed collective bargaining extensively and their Senate had voted 23-3 to oppose engaging in any form of collective bargaining. He said the Senate is also on record (19-7) in opposition to the passage of enabling legislation.

Regent Lavine reported that in the Committee meeting on the previous day Senior Vice President Smith made reports on the following matters:

- (1) Appointment of UW System Undergraduate Teaching Improvement Council to assist in the development of ways to make materials and methodologies by UW System faculty known and readily accessible throughout the System
- (2) Status Report: Special Education Task Force

It was noted that the interim report was received by the Board in February, 1977, and the Task Force will transmit its final report to the Board in November, at which time it will be recommended that the Regents "receive" the report and refer it to the Education Professions Advisory Council for review and analysis.

- (3) Coordinator for Television Production and Mediated Materials

It was noted that a two-phased national search and screen process has been conducted and that announcement of a coordinator to begin service January 1, 1978, is expected to be made shortly.

Regent Lavine stated that the list of new academic program proposals is the same as that presented for first reading in September except that the UW-LaCrosse MS in Adult Fitness-Cardiac Rehabilitation has been deleted. At the System Administration's request, that program was reviewed by the Health Sciences Advisory Council, which made suggestions that led to a joint decision by UW-LaCrosse and the System Administration to take the comments under study and to bring the program back to the Board at a later date, probably in November.

Regent Lavine moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1535: That, upon recommendation of the President of the UW System and the Chancellors and Faculties of the institutions involved, the following new academic programs be approved with an effective implementation date of Spring, 1978:

UW-Eau Claire	B.A., Comparative Studies in Religion
	B.S., Computer Science
UW-La Crosse	M.S., Recreation
UW-Milwaukee	Ph.D., Management Science
UW-Whitewater	B.B.A./B.S., Management Computer Systems

Regent Lavine reported that Professor Anatole Beck, Madison Campus, spoke briefly of his dissatisfaction with Unclassified Personnel Guideline #8, indicating that it constitutes a way of denying faculty the opportunity to take courses free of tuition. It was noted that this was a campus-University decision and not properly appealable to the Board and that Professor Beck was not appealing the decision, he simply wanted to call to the Board's attention the fact that the policy did not provide reimbursement in every instance.

Regent Lavine reported the Committee considered an amendment of Resolution 1326 of October 15, 1976, relating to use of recorders in classrooms by handicapped students. The suggested amendment would provide an exception to our policy whereby individual instructors may determine who may use recording devices in their classrooms. The effect of the exception would be to permit handicapped students to use taperecorders and would bring System policy into alignment with federal (HEW) rules affecting handicapped students.

Regent Lavine reported that Erv Portman, United Council Education Committee Chairman, presented a United Council resolution supporting the proposed amendment and encouraging the Board at the same time to extend the right to use tape recorders in classrooms to all students. He stated Professor Anatole Beck spoke in opposition to the proposed amendment, asserting that it raised academic freedom and First Amendment issues. He also questioned the amendment's constitutionality and spoke of the potential chilling effect of the presence of recording devices on professors and other class participants. He said there was substantial agreement among Committee members that Professor Beck's concerns were well-founded and led to a consensus that the amendment proposed should be laid over until the next meeting. In the meantime, System Administration will be asked to develop language enabling System policy to comply with federal regulations but, at the same time, avoiding unnecessary academic freedom infringement, or to see if it is possible to leave the present language and not amend it.

-

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1536: That, upon recommendation of the President of the UW System and the Acting Chancellor of UW-Madison, authorization to recruit for a Vice Chancellor for Academic Affairs, UW-Madison, is approved.

-

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1537: That, upon recommendation of the President of the UW System and the Acting Chancellor of UW-Madison, authorization to recruit for a Dean of the Medical School, Center for Health Sciences, UW-Madison, is approved.

There was request for Regent involvement in both cases.

- - -

#### REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The report of the Business and Finance Committee was presented by Regent Grover.

Regent Grover reported the discussion of investment policies in the Committee meeting on the previous day was led by Regent Beckwith, who read a proposed policy statement which includes principles relating to investments in companies doing significant business in countries which discriminate against their citizens because of race, and which is intended to provide guidelines in which the System investment counsel could manage our investment portfolio. The provisions of this policy statement will also allow prudent divestiture of holdings in those companies which do not meet the criteria set forth. Regent Grover reported it was the feeling of Regent DeBardleben, supported by Regent Neshek, that the document should be amended by providing for the removal of paragraphs 7,8,9, and 10, and renumbering paragraph 11, making it paragraph 7. He reported it was their feeling that these four paragraphs were totally contrary to the principles stated in the first six paragraphs, and therefore should be removed. Their major concern was that, as written, investment counsel would be required to divest holdings in possibly four companies, because they do not meet the criteria presented. They viewed this as a political reaction, not a prudent divestiture. Regent Grover reported this proposal failed on a five to two vote. Supporters of the proposed policy statement felt that adopting it and transmitting it to the President of each firm which has not accepted the highly respected Sullivan Statement and its obligations to better the working conditions of the black and nonwhite citizens of these countries would be beneficial. It would be a visible means of impressing upon these individuals and their Boards of Directors that the University of Wisconsin System feels a great responsibility to work for the elimination of the last vestiges of discrimination wherever this may occur.

Regent DeBardleben's suggestion that the phrase "provided that prior to such divestiture each corporation involved shall be given a reasonable opportunity to meet the requirements of paragraph 8 of this policy statement" be added as an additional phrase to line 7, paragraph 10 of the statement, was accepted by the Committee. In this manner companies not meeting the criteria would be provided the opportunity to adopt the Sullivan Statement and meet all criteria contained in the guidelines. Committee members were also reminded there would be no divestiture until the stock to be sold could be replaced with others of at least equal standing. Regent Grover noted that investment counsel was present during the discussion and felt it would not be difficult to manage the System's investments under the proposal being considered. Investment counsel stated that questions of this nature and procedures for handling investments in other countries would be certain to come up in the future. Regent Grover said Regent DeBardleben stated that it might be advisable to not have such considerations involve any policy document and moved deletion of paragraph 9 of the statement, but it failed for lack of a second. He reported the Committee voted the resolution unanimously.

Regent Grover moved adoption of the following resolution, and the motion was seconded by Regent Erdman:

Resolution 1538: Resolved that the Policy Statement Concerning Interpretation and Application of Section 36.29(1) Wisconsin Statutes Relating to Investment of Funds Received by the System from Gifts, Grants, Bequests and Devises, dated October 6, 1977, be approved, and the System administration and investment counsel be directed to begin immediately to implement the policies contained therein. (EXHIBIT D, attached)

Regent Lavine noted that the Attorney General had issued an opinion on this matter and that we had also received an opinion from Professor Gordon Baldwin, and inquired what would have to be done if we are told that the Baldwin opinion is absolutely right or it comes out the other way. Regent Erdman stated it was the thought of the Committee that we were doing a kindness to the Attorney General to, in effect, give him an out. She said the Committee tried to work out a compromise that would incorporate the principles in which the Board of Regents believe, and at the same time, follow the Baldwin document. Regent Beckwith stated we do not know whether or when with any certainty the Attorney General will respond and the Attorney General's opinion to us is not binding, in a sense that we are obligated to change our action based upon that opinion. He said there is no guarantee that we may not have to look at this issue again, but that he would not like to have to look at it every month.

Regent McNamara noted that there was a Chair named after Dr. Sullivan at the University of Wisconsin-Milwaukee and pointed out that his views are held by the responsible leadership in most democratic countries. He stated the Common Market foreign ministers recently approved an anti-apartheid code of conduct they hope will be adopted by European countries with subsidiaries in South Africa. The code calls for equal pay and rights for black and white workers, recognition of black trade unions, free collective bargaining, complete desegregation of all company facilities, and more training of blacks to step into senior jobs held by whites. The code says that the companies have a responsibility to improve the living conditions of black employees, and it calls on companies to pay blacks at least 50% more than the minimum considered necessary for family survival as well as to grant pensions and insurance benefits. Other countries, including the U.S., are being asked to subscribe to the code. He said it was his judgment that the approach taken by this resolution and by the foreign ministers of the Common Market countries is the type of approach which consists of using economic strength where it counts most, and applying industrial pressures from within is the most effective use of our monetary resources. He said it will certainly be of more help to South Africa's black workers and all South Africa blacks than for the University to sell its limited shares of stock in a few large companies who will not even be financially aware of the sale.

The question was put on Resolution 1538, and it was voted.

President Hales commended the members of the Business and Finance Committee for the fine job they had done in arriving at a reasonable solution to a difficult problem.

Regent Grover reported that in the Committee meeting on the previous day Vice President Lorenz summarized past activity relating to tax deferred annuities, noting that a resolution had been adopted at the June meeting. A recommended modification was discussed at the September meeting, with the Committee directing the Technical Advisory Committee and Central Administration to work with the groups not in agreement with the September proposal, and to return with an agreed upon recommendation at this meeting. He reported the proposal now before the Board has the support of the Madison Commission on faculty compensation, the University Committee of the University of Wisconsin-Milwaukee, TAUWF, and the Wisconsin Association of Life Underwriters. He reported Professor Robert Ozanne, UW-Extension, suggested changes relating to the procedures relating to life insurance companies. He

said Professor Ozanne also stated it would cause undue and unnecessary delay in the implementation of mutual fund offerings if the procedure did not revert to the position adopted by the Committee in June, that is, allowing the best three to five companies selected by the Technical Advisory Committee to offer their product. He reported Professor James Eagon, Chairman of the Technical Advisory group, said the primary reason for having to renounce this was the fact that the area of criteria had required bidders to offer a group plan, and since there is no industry-wide definition of "group", many companies did not bid. Regent Grover stated Regent Neshek reminded the Committee that in June the group had adopted a hastily drafted amended resolution which would be rescinded under the present proposal and what we are now considering represents a compromise by numerous parties as they were directed to do by the Committee in September.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Erdman, and it was voted, with Regent DeBardeleben voting "No":

Resolution 1539: That Resolution 1476, as approved by the Board of Regents on (Policy-Revised) June 10, 1977, be rescinded, and

That on recommendation of the System President, the Report of the Systemwide Tax Deferred Annuity Review Committee, dated September, 1977, serve as the basis for implementation of the authority granted under S. 36.11(15) Wis. Stats., to enter into or continue agreements to effect the purposes of Section 403(b), Federal Internal Revenue Code, relative to tax deferred annuities.

-

Regent Grover stated that Vice President Lorenz reported on the Gifts, Grants, and U.S. Government Contracts saying receipts were up approximately \$3 million over a comparable period last year, the major portion of the increase being in student financial aids.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Beckwith, and it was voted:

Resolution 1540: That, upon recommendation of the President of the System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

-

Regent Grover reported the following bequests had been unanimously recommended for adoption by the Committee on the previous day, as follows: Bequest made by the late Agnes C. Long, Madison, Wisconsin, of books, magazines and pamphlets dealing primarily with needlework to the Home Economics Department of the University of Wisconsin Library; gift under trust agreement executed by Arthur W. and Mae Schaefer providing for a distribution of approximately \$130,000 to the University of Wisconsin at Madison for its cancer research fund; bequest made by the late Helen Pfuderer Smith, Menlo Park, California, to found "The Helen Pfuderer Smith Scholarship in Physical Education" to be awarded to a woman undergraduate each year nominated by members of the Department of Physical Education at the

University of Wisconsin-Madison campus, the bequest estimated at \$150,000; a bequest made by the late Martha Clara Wolter, Pompano Beach, Florida, to establish a scholarship loan fund known as the Martha C. Wolter Memorial Loan Fund to be used for making loans to gifted and deserving needy students pursuing graduate or undergraduate work. The bequest is to be distributed in equal shares to the Madison and Milwaukee campuses and totals approximately \$16,500.

Regent Grover moved adoption of the following resolutions, the motion was seconded by Regent Beckwith, and they were voted:

- Resolution 1541: That the bequest of the late Agnes C. Long, Madison, Wisconsin, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Alice C. Long, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.
- Resolution 1542: That the gift under trust agreement dated March 5, 1957, executed by Arthur W. and Mae Schaefer, Milwaukee, Wisconsin, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the said trust agreement; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this gift, and to do all things necessary to effect the transfer of this trust to the University of Wisconsin-Madison.
- Resolution 1543: That the bequest of the late Helen Pfuderer Smith, of Menlo Park, California, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Helen Pfuderer Smith, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.
- Resolution 1544: That the bequest of the late Martha Clara Wolter, Pompano Beach, Florida, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Martha Clara Wolter, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison and the University of Wisconsin-Milwaukee in equal shares.

Regent Grover moved adoption of the following resolution, and the motion was seconded by Regent Beckwith:

Resolution 1545: That the Attorney General be requested to apply to the appropriate court for the release of restrictions imposed relating to religious classifications in the following bequests:

Esther A. Murphey - "Christians only"  
 Ida D. Altemus - "Gentile Protestants"  
 Mrs. George R. Frazer - "who have worked at St. Francis House Student Episcopal Center. Selection by the Rector"  
 Gladys Emerson Cook - "of Protestant Christian heritage"  
 Eunice C. Hoffman - "Christian"

(Sec. 112.10(7)(b), Wis. Stats., provides that if written consent of the donor cannot be obtained by reason of death, the governing board may apply in the name of the institution to the county or circuit court for release of a restriction imposed by the gift instrument on the use of an institutional fund. If the court finds that the restriction is obsolete, inappropriate or impracticable, it may by order release the restriction in whole or in part. The Board of Regents would be asking the Court to find that these restrictions are inappropriate and impracticable since the UW System does not obtain religious information from its students as Sec. 36.11(a), Wis. Stats., provides that tests based on religion shall not be allowed in the admission of students).

Regent DeBardeleben stated that he was going to vote against the resolution because he did not believe Sec. 112.10(7)(b) can be properly applied in this manner. He stated that if the administration of these bequests is actually impractical, it continued to be his view that they should have been rejected. Regent Barkla noted that at the last meeting she had inquired about a gift which was offered by Professor Anatole Beck, and at that time, President Young's response was that he was not going to bring the gift to the Business and Finance Committee and the Board of Regents. She inquired if the President of the System goes through the gifts and grants and decides which ones are going to be brought to the Board and which are not. President Young responded that we have a long tradition that when we get gifts and grants containing conditions which are by Board policy unacceptable, we try to work out changes with the donor. He stated eventually he would bring this gift to the Board and unless there are changes in the conditions, would recommend it not be accepted. He said he had asked Professor Beck to look at the way in which we administer unrestricted gifts, but had not yet received a response. Regent Johnson stated that at some point we will all be agreeing with Regent DeBardeleben, because people are going to stop making gifts to the University of Wisconsin, where there may be some question as to their terms.

The question was put on Resolution 1545, and it was voted, with Regent DeBardeleben voting "No".

Regent Grover reported that Vice President Lorenz had reported to the Committee that early revenue projections for 1977-78 enrollments were up 3000 from last year but approximately 1,000 below the projected level, and this could result in a shortfall in the academic fee income of approximately \$1 million plus.

The System has reserves of approximately \$1.5 million in anticipation of such a revenue shortfall; so there should be adequate funds at the end of the year to cover this. He noted that the System has been given a legislative mandate to develop a revised appropriation structure to be implemented for the 1979-81 biennium, and a System task force is working on this to meet the reported deadline of December 1. A detailed analysis will be available for the Committee's consideration at the next meeting.

#### REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The report of the Physical Planning and Development Committee was presented by Regent Gerrard.

Regent Gerrard reported that discussion of the UW System roof repairs/replacement needs had been deferred until the November meeting to allow the Bureau of Facilities Management to prepare a report requested by the State Building Commission that will respond to questions similar to those raised by the Regents.

-

Regent Gerrard moved adoption of the following resolution, and the motion was properly seconded:

Resolution 1546: That, upon the recommendation of the UW-LaCrosse and UW-Madison Chancellors and the President of the University of Wisconsin System, authority be granted to lease the following properties:

##### UW-La Crosse

A 35-car parking lot located on Pine Street, adjacent to the City of La Crosse Memorial Field, for the period October 15, 1977 to October 14, 1978

City of La Crosse, Lessor  
Parking Utility Board  
La Crosse, Wisconsin

The annual lease cost is \$125.00

##### UW-Madison

500 square feet of space located in the Bayfield County Courthouse, Washburn, Wisconsin for the period July 1, 1977 to June 30, 1978

Bayfield County, Lessor  
Courthouse  
Washburn, Wisconsin

The space will be used to house the UW-Madison Sea Grant Advisory Services northwest field agent offices. The annual rental rate is \$1,500 (\$3.00 per square foot). The agreement contains a one-year renewal option to June 30, 1979.

Regent DeBardeleben stated that he was concerned as to whether or not the lease of space at the Court House at Washburn would establish some sort of a precedent contrary to our past practice of receiving free space for county agent offices, and inquired what is the basis for paying rent to Bayfield County for an office for the Sea Grant Program. Senior Vice President Smith noted that the Sea Grant Advisory Services Office is financed under the Sea Grant Program which is a systemwide program separate from University Extension. They are not county extension offices, they are for regional field people maintained under the systemwide program which is federally funded with some state support; so it would not fall under the usual relationship between UW-Extension and the county boards, but would be a separate enterprise conducted statewide and systemwide. He noted there had been extensive discussions and very strong liaison between the Sea Grant field people and the Extension people and it was thought to be very desirable that the Sea Grant outreach program, which is an important aspect of this funding, be located in places where liaison with county extension people would be optimal.

Regent DeBardeleben stated that he felt what Vice President Smith had stated supported his view--this is an outreach program, it is particularly appropriate to that part of the state, and whether it is operated by University Extension or not it does not really alter the basic question. He said once we establish this precedent, why shouldn't the county board of Price County say, "Bayfield County is getting X number of dollars for the outreach program for the University, why shouldn't we be collecting money from the state for the space we are letting them use?" Vice President Smith stated that we have funding from the federal government for approximately four regional field agents for the Sea Grant Program and we are not going to establish county offices for the program--these are regional offices. Chancellor Evans, UW-Extension, stated that to his knowledge Extension was not paying for any county facility space in the state, but was renting some space for regional staff.

The question was put on Resolution 1546, and it was voted.

-

Regent Gerrard moved adoption of the following resolution, and the motion was seconded by Regent Barkla:

Resolution 1547: That, upon the recommendation of the UW-Green Bay and UW-Madison Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid, and construct the following minor projects, at the cost and from the funding sources indicated:

- (1) Library Learning Center Window Repairs, UW-Green Bay, at a cost of \$13,500 from State Building Trust Funds
- (2) 1977 Greenhouse Addition at the Peninsular Experimental Farm at Sturgeon Bay, UW-Madison, at a cost of \$25,000 from federal funds
- (3) Architectural Services for Programming Food Service Facility Environmental Improvement Projects at UW-Milwaukee, UW-Stevens Point, and one other campus at a cost not-to-exceed \$35,000 from Program Revenues

Regent Lawton questioned whether item (3) relating to improving the environment for eating is as important as other things we might be doing. Regent Barkla stated there was extensive discussion at the meeting relative to this matter and stated she was concerned about spending any money on this kind of survey, but apparently we have to go forward at this point at Milwaukee because they are at the stage where they are building their food service facility. She continued that during Chancellor Swanson's presentation it had occurred to her that before we spend any more money on this kind of project and hire an outside architect or pay for a survey, we ought to look at the resources at UW-Stout, because it was her understanding that they have done work in this field and it would be better to have it done there. She said she agreed that the matter did not have a high priority on the list of things in which she was interested in funding, but felt it was justified on the two campuses, but would like Central Administration work in cooperation with UW-Stout on the rest of the program. Regent Gerrard stated that what is involved is analyzing the food facilities on all of the campuses and determining where they should be updated, transferred, or changed, as many of these food facilities were created some years ago. He said they are about to do some construction and remodeling at Milwaukee and Stevens Point and the Committee decided to let them analyze those two schools, and then pick out another school, and instead of spending \$100,000 to spend \$35,000. Regent Beckwith inquired if there is a project in Milwaukee that has been approved and funded. Chancellor Baum stated this is a matter which is being done upon the initiative of Central Administration's Auxiliary Office. He stated it had advised that unless something is done about upgrading the nature of some of the food service facilities in the UWM Union, it was going to be losing money in terms of attractiveness of those facilities. He noted the business must be run such as to break even and that an investment is needed in order to be sure the feasibility of the business is sustained. Regent Walter noted the matter had come up in the Residence Halls Review Committee, and the feeling of that Committee was that there was need for improving the food services, the same as improving the Residence Halls environment, etc., and this would reduce the opposition to mandatory food service in the dormitories.

Vice President Lorenz pointed out that the funds for the project were included in the 1976-77 budget, and it is felt quite important that the living and dining environment for the students be maintained such that the students will want to stay on the campus and live in the dormitories, and thus make it possible to maintain a breakeven basis in the auxiliary operations. Regent McNamara stated he would join with Regent Barkla's suggestion that Stout be involved and if the Regents are told Stout will be involved, he will not make any motion to amend, but if not told that, then he would. Vice President Lorenz assured that Stout would be involved. Regent Walter inquired if the Library Learning Center window repairs represented a compromise with the contractor. Vice President Winter stated that negotiations have been going on for three or four years and there was some disagreement with the State Building Commission, which wanted to fund the project cost out of operating monies, and the University did not feel that appropriate.

The question was put on Resolution 1547, and it was voted.

-

Regent Gerrard reported that the Committee reviewed the bids for North Hall, UW-River Falls, on which the bids exceeded the authorized amount by \$250,000. He stated that it was the consensus of the Committee to rebid the project at a more favorable time along with attempting to obtain additional bidders prior to considering a request for additional funds.

- - -

## UNFINISHED AND MISCELLANEOUS BUSINESS

Regent DeBardleben moved adoption of the following resolution, and the motion was properly seconded:

Resolution 1548: That the Board recess into closed session to consider personnel matters as permitted by Section 19.85(1)(c) of the Wisconsin Statutes.

The resolution was voted on a roll call vote, with Regents Barkla, Beckwith, DeBardleben, Erdman, Fitzgerald, Grover, Hales, Johnson, Lavine, Lawton, McNamara, Neshek, Thompson and Walter voting "Aye" (14), and with Regents Fish and Gerrard absent. Regent Gerrard entered the meeting after the above vote.

The meeting recessed into closed session at 11:15 A.M.

---

The meeting resumed in open session at 12:04 P.M., and President Hales announced adoption of the following resolution:

Resolution 1549: Upon recommendation from the President, UW System, and in conformity with state policy, the Board of Regents approves the salaries of the Chancellors, the Vice Chancellor of UW-Milwaukee and the Provost for 1977-78 as shown in Table I attached. (See EXHIBIT E, attached)

The Board further approves the salaries of the Vice Presidents and the President, UW System, for 1977-78 as shown in Table II attached. (See EXHIBIT E, attached)

These salaries are effective upon publication of the bill containing the pay plan.

The meeting adjourned at 12:05 P.M.

J. S. Holt, Secretary

October 18, 1977

October 6, 1977

TO: BOARD OF REGENTS

FROM: Edward Hales, President

SUBJECT: Hearing with Joint Audit Committee, October 5, 1977

The hearing took place as scheduled, and extended from 1:30 p.m. to approximately 5:00. We were given full opportunity to present our concerns and views. Statements were made by Regents Hales, Lavine, and Neshek; President Edwin Young; Vice President Donald Smith; Chancellors Leonard Haas and Alan Guskin; Professors Fannie Hicklin, UW-Whitewater, and Michael Lactman, UW-Milwaukee; and Dean David Cronon, UW-Madison. Staff members from LAB also testified, as did Edward Muzik, representing TAUWF.

The major points made by University representatives were:

1. The costs, direct and indirect, of escalating requirements for reports, evaluations, studies, and audits.
2. The distinguishing characteristics of universities from other state agencies: the historical role of the Board of Regents and its responsibility under state law; the significance of "academic freedom" and the importance of its protection in the public interest; the scope and intensity of academic evaluations and audits constantly undertaken within the university communities. Extensive reference was made to the 50-page listing of audits, reviews, studies, and evaluations undertaken in the last two years.
3. The importance of prior review by the Regents of the particulars of any proposed "management audit" prior to decision to proceed.
4. The responsibility state government shared with the Regents to be certain that multiple demands for studies and reports were not seriously impairing the ability of the universities to carry out their teaching, research, and public service missions.

Since the Committee did not take any action, it would be difficult to interpret the significance of the questioning undertaken by Committee members. In general, however, there was no exception taken to the position of the Regents that any proposed management audit should be reviewed by the Regents, and their advice provided, prior to any decision to proceed. Prior agreements by the leadership of the Legislature and the Joint Audit Committee on this subject were acknowledged.

10/7/77

EXHIBIT A

There was an interesting emphasis by Representative Metz on the idea that the LAB was not proposing "performance audits," but rather "management audits." University speakers emphasized that the meaning of any particular audit could not be judged by an abstract definition, but would need to be examined in the presence of a particular proposal.

There was interest in Regent Neshek's proposal that members of the Committee meet "one on one" with Regents, or in extended sessions with the whole Board to seek resolution of issues.

There was interesting emphasis in the questioning on whether or not the Regents were challenging the legal authority of the Committee and LAB to conduct management audits. The Regents made clear that there was not challenge to the responsibilities of the LAB under the law, but judgment on whether or not there was a legal issue that could be made only in relation to the particular facts of a particular proposed audit.

There was an interesting claim in testimony from LAB staff that their procedures are legally protected from political interference, and questioning about the relationship of this claim to the University's contention that its enterprise should be protected from political interference.

Chairperson Metz announced that there may be an executive session of the Committee on Thursday, October 13.

That Chapter III, Committees of the Board, Section 3, Duties of the Business and Finance Committee, and Section 4, Duties of the Physical Planning and Development Committee, be revised as follows:

Duties of the Business and Finance Committee

Section 3. The Business and Finance Committee shall have charge of consideration of all matters related to operating budgets, finances, trust funds, business operations, ~~sale-and-purchase-of-real-estate,~~ and to non-academic personnel. Authority is delegated to the Business and Finance Committee to hire investment counsel, subject to Board approval, and to give discretionary authority to investment counsel in the purchase and sale of securities within guidelines determined by the Committee. The Chairman of the Business and Finance Committee may create one or more subcommittees to consider any matter properly before the Business and Finance Committee and shall appoint the subcommittee members and the chairman from among those members of the Board serving on the Business and Finance Committee.

Duties of the Physical Planning and Development Committee

Section 4. The Physical Planning and Development Committee shall have charge of consideration of all matters related to capital budget requests, planning, designing, and advertising for bids for new construction and improvements, awarding of contracts and approving of schedule of costs in connection with new construction and improvements, except as otherwise authorized by the Board, location of new buildings and improvements, ~~and~~ development of campus plans, and sale, purchase and lease of real estate. The Chairman of the Physical Planning and Development Committee may create one or more subcommittees to consider any matter properly before the Physical Planning and Development Committee and shall appoint the subcommittee members and the chairman from among those members of the Board serving on the Physical Planning and Development Committee.

Note: Deletions are lined out and additions are underlined.

IV. REPORT OF ACTIONS TAKEN BY THE STATE BUILDING COMMISSION ON 20 SEPTEMBER 1977 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-EAU CLAIRE	Requested authority to plan, bid, and construct a 1977 Athletic Fields Development project for an estimated total project cost of \$97,200.	APPROVED
	* * *	
	Requested allotment of \$100,430 of State Building Trust Funds to plan, bid, and construct a 1977-79 Schofield Hall Roof Replacement project.	APPROVED

UNIVERSITY	PROJECT	ACTION
2. UW-GREEN BAY	Requested allotment of \$72,040 of State Building Trust Funds to plan, bid, and construct a 1977-79 Three Building Roof Repairs project.	APPROVED
	* * *	
	Requested allotment of \$13,500 of State Building Trust Funds to construct a 1977-79 LLC Window Repairs project.	APPROVED project using Operat-Budget Maintenance Funds in lieu of SBTf allotment.
3. UW-MADISON	Requested approval of the Concept and Budget Report for a 1975-77 Memorial Library Remodeling project, release of an additional \$85,000 of Advance Planning Funds, and authority to prepare final plans, bid, and construct the project for a total project cost of \$1,420,100.	APPROVED
	* * *	
	Requested approval of the Concept and Budget Report for the \$24,600,000 1975-77/1977-79 Hospital Complex Remodeling (1300 University Avenue) project; release of an additional \$725,000 of Advance Planning Funds; authority to complete Preliminary Plans for the project; and, authority to prepare final plans, bid, and construct the \$20,764,000 Bid Package A portion of the project.	ACCEPTED C&BR as a Status Report and released an additional \$150,000 of Advance Planning Funds to complete the preparation of Preliminary Plans and a new C&BR on Bid Packages A & B.
	* * *	
	Requested authority to plan, bid, and construct a 1977 Parking Area 64 Reconstruction project for an estimated total project cost of \$30,000.	APPROVED
	* * *	
	Requested authority to plan, bid, and construct a 1977 Ogg Hall Roof Replacement project for an estimated total project cost of \$23,400.	APPROVED
	* * *	
	Requested allotment of \$19,200 of State Building Trust Funds to plan, bid, and construct a 1977-79 Food Research Institute Roof Repairs project.	APPROVED
	* * *	

UNIVERSITY	PROJECT	ACTION
3. UW-MADISON (Continued)	Requested allotment of an additional \$18,500 of State Building Trust Funds for the 1975-77 Expand Engineering Computer Lab project for a revised total project cost of \$58,500.	APPROVED
4. UW-RIVER FALLS	Requested allotment of \$33,654 of State Building Trust Funds to plan, bid, and construct a 1977-79 Davee Library Addition Roof Repair project.	APPROVED
5. UW-STEVENS POINT	Requested allotment of \$16,100 of State Building Trust Funds to plan, bid, and construct a 1977-79 Scene Shop and Stage Floors Repair project.	APPROVED
	* * *	
	Requested allotment of \$57,130 to plan, bid, and construct a 1977-79 Three Building Roof Repairs project.	APPROVED
6. UW-STOUT	Requested allotment of \$98,460 to plan, bid, and construct a 1977-79 Fryklund Hall and Pierce Library Roof Replacements project.	APPROVED
7. UW-SUPERIOR	Requested allotment of \$208,860 to plan, bid, and construct a 1977-79 Three Building Roof Replacements and Repairs project.	APPROVED
8. UW-WHITEWATER	Requested allotment of \$132,160 to plan, bid, and construct a 1977-79 Maintenance-Stores Building Roof Replacement project.	APPROVED
9. UW-SYSTEM	Requested authority to retain a specialized food service consultant firm for the purpose of preparing Programs for the future implementation of Food Service Facility Environmental Improvement Program projects, at various UW-System campuses, at a cost not-to-exceed \$100,000.	DEFERRED pending results of current UW-System studies.

---

UNIVERSITY	PROJECT	ACTION
10. UW-SYSTEM	Requested allotment of \$3,015,200 of State Building Trust Funds, as part of the UW-System's "1977-78 Annual Release" of 1977-79 Minor Projects, to plan, bid, and construct 35 projects on the campuses at UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Madison, UW-Milwaukee, UW-Oshkosh, UW-Parkside, UW-Platteville, UW-River Falls, UW-Stout, UW-Superior, and UW-Whitewater.	WITHDRAWN at the request of the DOA (BFM). To be resubmitted in October 1977.
SPECIAL	State Building Commission directed UW-System Central Administration to report back to the Commission, in 60 days (i.e., November 1977 meeting of the SBC), on the status of planning for library needs and progress being made in regard to analyzing future library systems for the next ten years.	

---

PRESENTATION TO BOARD OF REGENTS

October 7, 1977

"Interpreting Stout as a Special Mission Institution"

<u>Concept Slide No.</u>	<u>Content Notes</u>	<u>Picture Slide No.</u>
1 (blank)		
2	Strength and uniqueness of UW-System is its diversity. Historically true, reaffirmed in merged system when missions were set.	1 (blank)
3	Four types of units grouped the diversity.	
4	As a special mission university, a sub-group within the University cluster, Stout provides one aspect of that diversity.  Stout is located in the center of town, near Lake Menomin, the mill pond for the old saw mill.  Our oldest building is Bowman Hall, 1896.  Our newest is the Home Economics Building.	2      3 4
5	Stout's approach: offer career programs which draw their content from:  Industry Technology Home Economics Art	5 6 7 8
6	And prepare people to apply them in career activities which can be characterized as:  Technical/operational Managerial Educational Helping Professions	9 10 11 12
7	Programs are thus formed by content drawn from one or more of the four content areas with professional education based on the expected occupational use. This is a general, simplified model.	13 (blank)

8

This integration of content areas and professional activities leads to 20 bachelor's, 13 master's, and 2 Ed.S. programs. This is a rather small number of programs for a University our size. But the small number means that staff and enrollment in them is very large. For example,

13  
(Blank)

- (a) Our School of Home Economics is the largest in the U.S. Stout--2671; Iowa State--2557; U. of Tenn.--2025; Purdue-1876; Michigan State--1861.
- (b) Our School of Industry and Technology prepares more industrial arts teachers than any other university.
- (c) There are only two other Vocational Rehabilitation programs in the United States to prepare work evaluators.
- (d) Stout is the only program in Wisconsin, and one of few in the U. S., to prepare in the area of Vocational Education for the Handicapped.
- (e) Industrial Technology is currently our largest single program on campus with \_\_\_\_\_ students.

Let me illustrate this concept of the integration of content areas applied to professional activities with several programs.

- 9 The three levels of degrees we offer in industrial education are found by drawing content from industry and technology with professional preparation in education. Persons graduating with these degrees become teachers, supervisors, and administrators of industrial arts in secondary schools, handling work from general levels to pre-vocational courses at the upper levels. 14  
15  
16
- 10 Some of the graduates in industrial technology work at an operational level. The concentration in electronics is such an example. 17,  
18
- 11 Several of the areas of home economics, with a management component added, produce our Hotel and Restaurant Management program. The management of food service, as well as sales and demonstration work, are occupations graduates take. Our aim is not to prepare chefs, but our approach says a manager with experience behind the scenes is a better one. Hotel and resort management are common outcomes, too. 19,  
20,  
21

- 12 Application of a variety of electronic and photographic technology to education produces our M.S. in Media Technology. Students get work in television, audio, graphics, and ways of designing learning activities for maximum effectiveness. 22  
23  
24
- 13 Home economics and art are combined to produce the two programs noted. Graduates work as designers and producers in clothing and textiles and interiors. The housing lab enables students to build full-sized rooms with styrofoam "concrete" blocks in a matter of minutes. 25  
26  
27
- 14 Stout's use of the knowledges of home economics and the professional skills from the helping professions form our M.S. in Marriage & Family Counseling and our B.S. in Child Development and Family Life. Our Marriage and Family program is one of only about a dozen accredited by the American Association of Marriage and Family Counselors. 28  
29  
30
- 15 A program in our mission from the beginning of Stout is the degree work in Vocational Education. Persons in these programs must have trade and industrial experience and prepare for teaching and supervisory positions in VTAE schools. Many of the personnel in Wisconsin schools are Stout grads. 31  
32  
33
- 16 A long-standing strong area in home economics is food and food service. Our dietetics graduates take positions as hospital dietitians and community nutritionists. Research and demonstration work are other areas. 34  
35  
36
- 17 In 1966, Stout combined its expertise in industry with the professional skills of the rehabilitation field to develop a master's program in a special field of rehabilitation called work evaluation. Graduates take jobs in various kinds of rehabilitation centers as well as with private industry to provide this vital service. This is one of our fastest growing programs, with about \_\_\_\_\_ undergrads and 85 graduate students. The Vocational Development Center provides a practical client laboratory. 37  
38  
~~39~~

These are only illustrative of Stout's approach to programming.

40 39  
(Blank)

18

Stout uses special structures to accomplish its special mission. The separation/articulation of program and instruction is an illustration. Programs are not the province of departments; they are operated by a program director and a committee who attempt to determine the competencies needed of graduates. Departments offer instruction to develop those competencies. I believe this gives us a fine interweaving which produces qualified professionals.

We have about two dozen special centers to provide service and research and support the instructional emphasis of the University.

The Teleproduction Center produces commercial quality color programs for the state network. In combination with the centers at Green Bay and UW-Extension a broad service to the ECB is provided in addition to campus instructional media. 41

The Vocational Development Center provides work evaluation to over 700 clients a year and serves as a training lab for students. 42

The Materials Development Center is a federally funded international center in vocational rehabilitation to disseminate materials to the field. 43

CREI is a campus source for testing new educational ideas and supervises proposal preparation. 150 proposals to extramural sources were written by our faculty last year; 73 were funded in the amount of \$3.3 million. 44

A Board of Business and Industrial Advisors visits our campus twice each year and works on an individual basis in between. The Board has about 20 members from corporate managerial, labor, and professional groups. 45

A number of years ago, our library was converted to a learning center and all media, regardless of type, is shelved by subject. We are in the planning process for a new \$6.3 learning center. 46

The Annals of Tourism Research is the only international publication in the field. It is produced on our campus by the Department of Habitational Resources. 47

These are only illustrative of a variety of special approaches. 48 (Blank)

Our mission and the particular activities we get into encourages us to experiment with new educational strategies and instructional technology. The purpose is to enhance learning, of course.

Competency-based instruction has been a real push-- an attempt to say what a student should know and be able to do when he/she finishes a course. Summer, 1976, project. Curriculum committee approach. NOT just mechanical skills. Process as content.

49

Extended degree. (Show brochure). Stout's role in the System's plan for extended degrees is to put its existing B.S. degree in vocational education into the extended degree model for the state. Currently, there are 44 candidates pre-enrolled in this curriculum. All but four of these are now teachers in Wisconsin VTAE schools. The four are fully employed tradesmen. Average age is 35. By June, 1978, we expect the group to become "contract learners" in the program.

50

Our library/learning center has put the entire card catalog on Microfiche and placed them in residence halls and other places. A student may purchase the set for about \$3.00 (Show set). Computer assisted retrieval is available, also.

51

A telephone connection to groups or individuals is being used in some outreach courses. Dr. Zimmerman's experiment with mentors.

52

Physics class is set up with CAI. Self-paced approach.

53

Home Economics sets up a series of "mini-encounters." These are in-store observations and participation with specific executive personnel for two-day periods to gain insight into jobs.

54

Matching teaching and learning styles. (COG's project for faculty development). Special budget funding. Individualized instruction makes use of many items of electronic hardware. This video casset is coordinated with a workbook.

55

Last year, we offered the opportunity to students to "apprentice" themselves to individual instructors. This has been a popular idea.

56

- 20 Our mission calls for us to develop many inter-institutional arrangements. 57  
(Blank)
- We are a member of WCWC. A major cooperative project has been the Trempeleau County Communications project, partly funded by Kellogg (\$510,000 for four years). Cooperation with 8 local school districts and a group of business men (WWCC). 58
- Our Center for VTAE takes on many projects of a research, evaluation, and program development nature for VTAE. An advanced Vocational/Technical Center in cooperation with Gateway Technical Institute attempts to provide service in that area. Each summer we sponsor professional growth week with VTAE. 59
- We are aiding NTNU in developing a M.S. in Industrial Education. About ten of our staff have served there. Some initial work was done through a small grant from MUCIA. 60
- We have had several projects with Algeria--Training for the plastics industry, instructor training in electronics, and last a \$648,000 project to organize a new engineering library. This latter project is in concert with Case Western, U. of Houston, Steven Institute of Technical, General Telephone and Electronics, and Wantworth Institute. 61
- 21 Our students become involved in a variety of unusual projects. 62  
(Blank)
- The SCORE project is a national contest for energy producing devices. This device, student made, won third place in the wind division last summer. It was funded by several industries and our Foundation. It will be erected on campus to supply "free power" to owners of electric vehicles. The next contest is for electric cars. 63
- The "haute cuisine" dinner is a most popular activity with food editors and television people. But it is primarily a "culminating activity" and involves research, organization, and execution of the highest degree. (Thos. Jefferson dinner, example). 64
- Student government has designed a credit course in leadership. Course went through Curriculum Committee and is financed by students. 65

Interior design classes design campus facilities. 66  
 (Student Center room, applied arts building.)

"Technology for Society" is a secondary school program, 67  
 sponsored by the Wisconsin Industrial Education Association.  
 Stout, and Platteville to raise student consciousness on  
 problems of society and solutions. Last year the theme  
 was "Alternate Forms of Energy."

Our Manufacturing Lab provides a realistic experience 68  
 for managers of manufacturing operations. Students  
 serve as managers and hire and supervise workers.

22

(Blank)

To this point, I have tried to explain how Stout provides a 69  
 particular aspect of System diversity. On a more personal (Blank)  
 note, several weeks ago, we sent our television crew out  
 on the campus and in the state to ask people, "What's so  
 special about Stout from your standpoint?" Let me show  
 you a five-minute video tape of what some of them said.

(SHOW VIDEO)

23

Stout's approach brings forth several unique problems for us.

- Faculty and program development.
- Relationships with Business/Industry.
- Equipment update.
- Enrollment limits - housing.
- Proposal writing.
- LRP.

These are problems we like to have.

Board of Regents  
University of Wisconsin System

POLICY STATEMENT

Concerning Interpretation and Application  
of Section 36.29(1) Wisconsin Statutes  
Relating to Investment of Funds Received  
by the System from Gifts, Grants, Bequests and Devises

October 6, 1977

This policy statement addresses the Board of Regents interpretation of the application of Section 36.29(1) of the Wisconsin Statutes relating to investment of funds received by the System from gifts, grants, bequests and devises, and particularly to that portion of the statute which provides:

"No such investment shall knowingly be made in any company, corporation, subsidiary or affiliate which practices or condones through its actions discrimination on the basis of race, religion, color, creed or sex"

Background:

1. On May 17, 1977, the Secretary of the Board of Regents requested guidance from the Attorney General of the State of Wisconsin respecting the application of Section 36.29(1) Wisconsin Statutes to investments in companies doing business in South Africa. On May 19, 1977, the Attorney General provided the Regents with what the Attorney General has characterized as an "informal response" to the three questions posed by Secretary Holt.

2. Upon further study of the application of Section 36.29(1) to the activities of companies doing business outside of the United States it became apparent to the Regents that there were many difficult and complex questions to be addressed and, accordingly, at its meeting on July 22, 1977, the Regents adopted a resolution directing Central Administration staff to obtain additional legal analysis and interpretation of Section 36.29(1) and Section 881.01 Wisconsin Statutes.

3. Thereafter, the Regents received an analysis of these statutes prepared by Professor Gordon B. Baldwin of the University of Wisconsin-Madison Law School. Professor Baldwin concluded that:

- (a) It was probable the statute would be declared unconstitutional if applied to exclude investment in American companies engaged in business in foreign countries whose laws require or sanction discrimination; and
- (b) It was probable the statute would be interpreted to apply only to "unlawful" discrimination.

Further, the Regents have been advised that the United States government has remained neutral concerning investments by American firms in South Africa and that organizations such as the National Association for the

EXHIBIT D

Advancement of Colored People have refused to condemn investments of American companies in South Africa and have concluded that affirmative action by American companies doing business in South Africa is more likely to benefit the black people of South Africa than is their withdrawal from that country.

General Statement of Policy:

4. The Regents reaffirm that the University of Wisconsin System abhors all policies and actions which discriminate against persons by reason of race, religion, color, creed or sex and supports programs and policies which eliminate the last vestiges of such discrimination from our society, and further supports programs and policies which are designed to ameliorate the effects of past discrimination and improve the economic and social conditions of all persons, and particularly those persons who have been the subjects of discrimination in the past. The Regents abhor discrimination against persons wherever it may occur in the world but recognize that there are severe limitations on their power to influence the actions of other nations that are discriminatory in nature.

Policy of the University of Wisconsin System in the Application of Sections 36.29(1) and 881.01 Wisconsin Statutes:

5. The Regents declare that Sections 36.29(1) and 881.01 shall be construed and applied as follows:

- (a) The primary investment responsibility of the Board of Regents is defined in Section 881.01 Wisconsin Statutes which sets forth the prudent person investment rule;
- (b) Section 36.29(1) applies to unlawful discrimination engaged in by corporations in their business activities in the United States. The securities issued by corporations who, by their conduct, demonstrate either that they do not systematically adhere to the laws of the United States and the various states outlawing discriminatory conduct of various kinds or affirmatively engage in programs which violate such laws are not proper investments for the University of Wisconsin System and, if owned, shall be divested and, in the future, not acquired by the University of Wisconsin System.
- (c) The non-discrimination provision of Section 36.29(1) does not apply to the conduct of United States corporations engaged in business in other countries, the Regents having concluded that to construe the statute to have it apply to the conduct of United States companies engaged in business in other countries would render the statute unconstitutional.

Declaration of Policy by the University of Wisconsin System Relating to Investment in Companies that Engage in Significant Business in Foreign Countries Whose Laws Require Discrimination Against Persons in a Manner Which Would be Illegal in This Country:

6. The Regents have concluded that to cause the University of Wisconsin System to sell its shares of companies engaged in significant business in

South Africa would have no detrimental impact upon the companies involved and no beneficial impact upon the black people of South Africa.

7. The Regents, nonetheless, wish to support and encourage those multinational United States companies which, by clear statements of policy and conduct are endeavoring to improve the civil rights and social and economic conditions of persons who are the objects of discrimination in the overseas countries.

8. Accordingly, the Regents declare it to be the policy of the University of Wisconsin System that securities of United States corporations engaged in significant business in South Africa who have adopted or declared their adherence to the "Statement of Principles of U.S. Firms with Affiliates in the Republic of South Africa" commonly known as the Sullivan statement (by reason of its attribution of General Motors Director, Reverend Leon Sullivan), or a comparable statement of principle and purpose, to be appropriate instruments for investment by the University of Wisconsin System. The Regents define the term "significant business" to mean companies engaged in manufacturing, assembly or extraction operations employing more than 250 people. Further, the Regents state that companies which have adopted the Sullivan statement, or a comparable statement of policy and purpose for their securities to continue to be suitable instruments of investment by the University, must demonstrate by their conduct that they continue to exercise reasonable efforts to implement such policies.

9. This statement of investment policy shall as well apply to companies engaged in business in foreign countries other than South Africa when it shall appear that such other foreign countries have adopted and enforce laws discriminating against persons by reason of race, religion, color, creed or sex in a manner generally incompatible with our concepts of civil rights.

Implementation of These Policies:

10. The Regents direct their investment counsel to prepare a list of companies engaged in significant business in South Africa and determine which of those companies meet the requirements that the Regents have established for suitable investments. The securities of any companies engaged in significant business in South Africa which do not conform with the policies stated in this resolution presently owned by the University shall, over time and in a prudent manner, be divested, provided that prior to such divestiture, each corporation involved shall be given a reasonable opportunity to meet the requirements of paragraph 8 of this policy statement. Further, all companies engaged in significant business in South Africa whose policies and practices are not consistent with the policies stated in this resolution shall not be suitable instruments for new investments by the University of Wisconsin System. The investment counsel of the University of Wisconsin System is directed to exercise its best efforts to monitor the continued application of the policies stated herein and annually report to the Regents the list of the companies whose securities are disqualified by reason of these policies.

11. This resolution supersedes Regent resolutions 1469 and 1496.
