The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The Fish's..Name...Is....HALIBUT

On account of long experience in the cod liver oil field, Mead Johnson & Company happily is able to offer without delay — now — to the medical profession, a superior grade of *undiluted* halibut liver oil containing viosterol, distinguished by the following exclusive features:

(1) Golden yellow color, not dark brown; (2) lowest acidity — 0.7%; (3) highest potency — 100,000 U. S. P. vitamin A units and 3,333 Steenbock vitamin D units; (4) undiluted — no vegetable oil or other diluent; (5) one-fifth of the vitamin D in this product is supplied by the *undiluted* halibut liver oil.

MEAD'S VIOSTEROL IN HALIBUT LIVER OIL 250 D is for sale at drug stores in 5 c.c. and 50 c.c. brown bottles in light-proof cartons to prevent the vitamin-deteriorating action of light. The unique combination dropper-and-stopper prevents waste and minimizes contamination in use. No dosage directions accompany the package. Samples to physicians on request.

DOSAGE TO PHYSICIANS: *This is the same as with Mead's Viosterol in Oil 250 D: Infants, 10 drops daily; prematures and rapidly-growing children, 15 drops; older children, 10 to 20 drops; adults, especially pregnant and nursing mothers, 25 drops or more. Special cases may require larger dosage.*
