# EDITORIAL

Many new patients entering the hospital are disturbed by the fact that they have so little **personal** contact with their doctors and social workers.

Because of the large number of patients each doctor and social worker has, it is impossible for them to meet with every patient as often as they would like to. This is why the hospital care is based on a Treatment Team program.

Every nurse, aide, chaplain, activity therapist, supervisors in Industrial therapy and counselors in Vocational rehabilitation are involved in helping you with your problems. Each one has a part in helping to keep the doctors up to date on your progress.

Each patient will find one or several of these staff members that they will be able to talk with more freely than with some others. If a good rapport between a patient and the staff members can be established the patient will find himself on the road to recovery much faster.

Group therapy is also a major part of the Treatment Team program. This is an excellent opportunity for patients to discuss their own problems, listen to others and to learn to help others thro their own experiences.

Many patients will be given Psychological and Neuro-psychological tests. The results of these also, will help your doctor to make his diagnosis and determine your capabilities. The information that is then recorded for your doctor will help him determine the best possible individual treatment tailored to your needs.

The most important part of your care is your responsibility. Establish a good rapport between yourself and all the staff members who are involved in the Treatment Team. The complete success of your recovery depends largely upon you as a patient. Your efforts to help yourself and your cooperation in all the phases of treatment will be the final determining factor as to when your doctor and social worker feel you are ready to be released.

## Easter

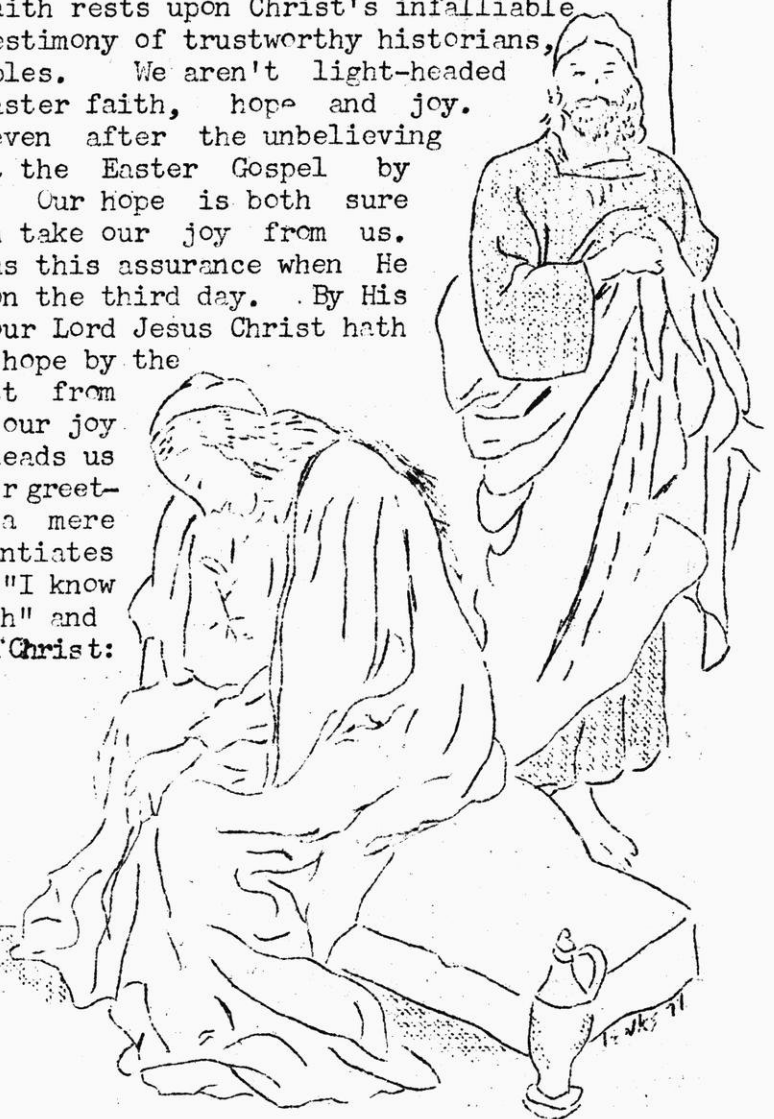

"A HAPPY EASTER!"

Easter does not mean the same thing to all people. To some it may mean anything and everything from a pink easter bunny, gaily decorated eggs, the display of a new spring wardrobe, the enjoyment of balmy spring weather after a long, hard winter, to a splitting head-ache after an Easter ball. To such people Easter means everything but what God intends Easter to be.

To the Christian, however, Easter should mean what the angel proclaimed to the sorrowing women at the empty tomb: "Jesus is risen!" - and what Jesus said to his disciples in the Upper Room: "Because I live, ye shall live also."

But isn't it presumption to believe this? Aren't we deceiving ourselves if we cling to words such as these? Indeed not! Our faith rests upon Christ's infallible word and upon the testimony of trustworthy historians, - Christ's own disciples. We aren't light-headed when we express our Easter faith, hope and joy. Our conviction stands even after the unbelieving world tries to discredit the Easter Gospel by classifying it as a myth. Our hope is both sure and steadfast. No man can take our joy from us. Our crucified Savior gave us this assurance when He came forth from the grave on the third day. By His great mercy the Father of our Lord Jesus Christ hath begotten us to this lively hope by the resurrection of Jesus Christ from the dead. No man can take our joy from us. The Easter fact leads us into a new life. Our Easter greeting "A Happy Easter!" isn't a mere pious wish. It substantiates the confession of Job: "I know that my redeemer liveth" and clings to the words of Christ:

(Continued on Page 5)

# Easter

## TRADITIONS

Easter was the first Christian high holiday which came into existence very early in the history of Christianity. At this time the death and resurrection of Christ was more important than his birth. In the beginning, Easter was a season rather than a day, but early in the sixth Century a definite time was set for the festival. It is now a movable feast held on the first Sunday after the first full moon that occurs on or after March 21 and before April 25.

To all Christians, Easter is the greatest day in the calendar of the church. It is a festival that has deep roots within the human heart. This is probably the reason why most people attend church services on this Sunday. Christmas can not even match Easter for service attendance.

The Christian Resurrection festival is made up of many ancient rites. In early spring the pagans welcomed the sun's rising and the death of winter. Christians rejoice in the rise of the Son of Righteousness and His triumph over death. There is an old saying that the sun on Easter morning dances in the horizon for joy. People used to rise at dawn and walk out into the fields to see this miracle. This custom is still used by many Americans who attend outdoor sunrise services.

The Easter egg is another ancient symbol. It was a sign for fertility and new life. It was interpreted in Christian times as a symbol of the rock at the tomb from which Christ gloriously emerged at His Resurrection. Many people now enjoy painting and dyeing eggs. And of course candy eggs have now found a place in every traditional Easter basket.

The white rabbit of Easter has come hopping down to us from ancient times when the sun and the moon were gods to men. The pure white bunny was said to play in the full Easter moon and then bring gifts of bright colored eggs to the children who were good. Now the young people have Easter egg hunts and receive baskets of candy bunnies, eggs

and chickens. On the Monday after Easter, the President of the United States welcomes thousands of children to the White House lawn for an egg-rolling contest.

Flowers have also become a sign of the season. Lilies of white and palms of green indicate that it is Easter time. Some people believe that palms mean peace and that the lily means goodness and beauty.

Another interesting tradition regards Easter foods. The Paschal lamb perhaps inspired the use of lamb meat as a popular food at Easter time. Often, the figure of lambs made out of pastry are used for desserts and centerpieces.

Hot Cross buns have a pagan origin. The Anglo-Saxons ate cakes as a part of their welcome to spring celebration and the early missionaries tried to break them of this habit. They got around the problem by blessing the cake and putting a cross upon them. Now the buns appear each Easter season.

Pretzels also have an old history. Christians in the Roman Empire made up a special dough of flour, water and salt. They shaped this into the form of two arms crossed in prayer. This was to remind them that this was the season for penance and devotion. In many parts of Europe pretzels have remained as an Easter food.

Many weather predictions and folk sayings center around Easter. A good deal of rain on Easter Day, Gives us a crop of good grass, but little good hay. Easter sunshine on the otherhand predicts good planting season weather.

And we can't forget the part that weather plays in the Easter Parade. This is also a tradition which lasted a long time. A new garment worn on Easter is said to bring good luck for the year. It also reflects the old idea that Easter is the time of newness and for a fresh start.

Joan Lango

# PASSOVER

Passover is a Holy Day according to the Jewish ritual. It occurs on the full moon of the first month of spring, toward the end of March or the beginning of April. It is a great festival of the rebirth of nature and joyously recalls the Jew's deliverance from Egypt and the great Exodus which led them to Mount Sinai. But it also reminds them of other times of bondage and exile.

The name is derived from the last of the ten plagues, in which God smote the eldest son of each household of the Egyptians. He "passed over" the homes of the Israelites, which were marked with the blood of a lamb. Since they had to leave their homes in Egypt without even letting their bread rise, only unleavened bread or matzot, is eaten at this time.

Special Passover dishes are used for the ceremonial meal called Seder. Food and prayer requirements for this meal are taken from one of the Books of Scripture. The dishes served have a special meaning. For example, matzot stands for the "bread of affliction". Harosel, a paste of apples and nuts stands for the mortar used by the Jews as they labored for the Pharaohs.

The last matzal is usually hidden in the house and merrily searched for by the children. Since some Jews believe that Elijah will announce the coming of the Messiah on a Passover, they put out a glass of wine for the prophet and leave the door open for him.

\*\*\*\*\*  
Continued from page 3.

"All who see the Son and believe in Him should have eternal life; and I will raise them to life on the last day."

This is what constitutes a truly happy Easter; and God wants us to have faith, hope, and joy even in a day when so-called high-churchmen deny the resurrection and declare that "God is dead"! Through the words: "Christ is risen!" God would strengthen our Easter faith, hope, and joy so that we may answer each Easter greeting with the exclamation: "He is risen indeed! Hallelujah!"

Chaplain Louis A. Winter

## SOME FREE EASTER THOUGHTS OF NEW LIFE

The life in us is like the water in the river. It may rise this year higher than man has ever known it, and flood the parched uplands; even this may be the eventful year, which will drown out all our muskrats. It was not always dry land where we dwell. I see far inland the banks which the stream anciently washed, before science began to record its freshets. Everyone has heard the story which has gone the rounds of New England, of a strong and beautiful bug which came out of the dry leaf of an old table of apple-tree wood, which had stood in a farmer's kitchen for sixty years, first in Connecticut, and afterward in Massachusetts,--from an egg deposited in the living tree many years earlier still, as appeared by counting the annual layers beyond it; which was heard gnawing out for several weeks, hatched perchance by the heat of an urn. Who does not feel his faith in a resurrection and immortality strengthened by hearing of this? Who knows what beautiful and winged life, whose egg has been buried for ages under many concentric layers of woodenness in the dead dry life of society, deposited at first in the alburnum of the green and living tree, which has been gradually converted into the semblance of its well-seasoned tomb,--heard perchance gnawing out now for years by the astonished family of man, as they sat round the festive board,--may unexpectedly come forth from amidst society's most trivial and hand-selled furniture, to enjoy its perfect summer life at last!

I do not say that John or Jonathan will realize all this; but such is the character of that morrow which mere lapse of time can never make to dawn. The light which puts out our eyes is darkness to us. Only that day dawns to which we are awake. There is more day to dawn. The sun is but a morning star

From Henry David Thoreau's Walden

Father Pierce

# A DREAM

## COME TRUE

After six long years of planning, Kempster Hall has a sparkling new Kitchen for patient use. The lack of State funds was the reason for the long delay. Again this year the kitchen had to be cut out of the hospital budget. The Activity Therapy Department at this point felt there must be another way to raise the \$1500.00 needed for the purchase of the utilities and cabinets. A concentrated effort was carried out by the Activity Therapy department, the Business Office, Nursing Service, Medical staff and the Volunteer Coordinator with the end result of using monies from the hospital trust fund for the installation of the kitchen.

Donations by individuals outside of the hospital, plus donations from the staff members are put into the hospital trust fund. These funds are designated to be used for making improvements within the hospital for the patients use, not for purchasing equipment for the hospital in general.

The hospital Maintenance department, under the direction of John Cook and Ray Vander Geeten, have coordinated all of the installation of the equipment. Special praise should go to Frank Schroeder, the electrician; Bob Wischewski, who did the plumbing; John Tetzlaff, the masonry work; Marvin Fietzer, for the installation of the cabinets and carpentry work; Roland Woodland and Neil Rasmussen for the painting.

The use of the kitchen will be available to all patients in Kempster Hall, through supervised activities arranged on the wards and through the Activity Therapy department for the purpose of aiding patients in being better able to care for themselves after their release.

The basic food commodities will be supplied by the Food Service department. Other food purchases will be made from the individual ward budgets.

Because of the tremendous effort put forth by so many people on the staff it is their hope that the patients will make good use of the kitchen -- not only in helping in their rehabilitation, but also for some enjoyable experiences in working and

planning new and different activities together.

Although many patients and staff have seen the kitchen in the process of construction, the Activity Therapy department hopes to be able to hold an "Open House" soon, so that the Kempster patients will be able to share their delight in this beautiful new facility.

## BINGO PARTY

On Friday, March 26, was, I believe, the biggest gathering of patients at one time and one place. The number is estimated somewhere around 200 people. Bingo was scheduled to begin at 6:45 p.m. but did not get going until around 7:00 because of the great inflow of people. Tables and chairs from the juke box room had to be brought in to accommodate everyone and still some remained standing. The bingo games were varied, one after another. Played was straight, vertical row, horizontal row, diagonal row, four corners, the "t", and full card as the final and big prize winner; there were two winners for the big prize. The grand prizes were a 35¢ certificate good for exchange for merchandise at the canteen, and a jar of shampoo donated by the canteen. Prizes for the other bingo games were 15¢ certificates good for exchange at the canteen for merchandise. The bingo party was put on as a project of the Social Chairmen Committee, a self-governing patient group of the hospital. They are all well pleased with its success and are looking forward to having another bingo party next month. A special thanks is due the staff on the units for encouraging participation in it. Let's see if the next bingo party can be bigger and better than the last one.

There aren't any unmentionables you can't mention anymore, are there?

\* \* \*

# What You Should Know

Many patients have some questions about dental care while in the hospital. Therefore, Dr. Frey has answered questions garnered from patient interviews.

Question. Does a patient get called automatically, after initial examination of teeth and gums, for needed dental work?

Answer. Generally, no, with the following exceptions. (A) If there is evidence of infection or pain. (B) If patient's stay at the hospital will exceed six months.

Question. Can anything be done to correct teeth malformation?

Answer. Preventive orthodontics is done for adolescent patients. If adults need similar service, it can be done privately.

Question. My dentures are loose. How can I get them to fit better?

Answer. If possible, return to the dentist who constructed the dentures. He has the important records, and can outline a satisfactory procedure. If patients are here for a long time, they may be evaluated for this service which is dependent on the type of commitment and length of stay at the hospital. Important: do not use relining material purchased in drug stores. Improper use harms the ridges, and future proper fit can not be assured.

Question. I need dentures, but do not have money to pay for them. Does the state pay for the dentures?

Answer. Need for dentures are evaluated and provided dependent on length of stay and type of commitment.

Question. Are X-rays taken before teeth are extracted? Are X-rays ever taken before teeth are filled?

Answer. Yes, to both questions.

Question. What do I do if I get a toothache during the night?

Answer. The situation should be reported to the nurse who will contact

the physician on duty. If the ache can not be controlled by aspirin or antibiotics, the dentist is called.

Question. Do you cap teeth and is this method expensive?

Answer. Yes, teeth are recapped, if the situation warrants. The procedure is seldom more expensive than any other major dental procedure.

Question. If a bridge is necessary, how long does it take to make and fit one?

Answer. Two weeks.

Question. Does the time a patient spends at the hospital make any difference if dental work has to be done?

Answer. Yes. The type of commitment and length of stay are determining factors.

Question. If I make a dental appointment on my ward, how long will it take to be called? At present, it has been two weeks since I asked at the nurses' station.

Answer. If pain is present, prompt treatment is available. A consultation slip is necessary for a routine evaluation, and these are processed almost immediately. If there has been a delay, check to make certain a consultation slip has been submitted to the dentist.

Question. Do you pull a tooth that is abscessed?

Answer. Yes, in combination with antibiotic therapy.

Question. If I suffer a toothache, will I be called the same day for treatment?

Answer. Yes.

Question. If I lose a filling, how long will it be before I am called to the dental clinic?

Answer. This depends upon the amount of discomfort; nevertheless, it will be within two days.

What you should know, (Continued)

Question. If my teeth need cleaning, do I make my request at the ward?

Answer. Yes, but not every one admitted can have their teeth cleaned.

Question. Should I use a fluoride dentifrice? I am 30 years old; how often should I brush my teeth?

Answer. Fluoride toothpaste can be used at any time. Teeth should be cleaned after each meal and before retiring for the night.

Question. Can a person damage his gums by brushing up and down?

Answer. Yes, if too stiff a brush is used.

Question. Should I use a paste or powdered dentifrice?

Answer. Brushing one's teeth is most important procedure. Whether paste or powder is used, is immaterial, however, fluoride toothpaste is indicated for young people.

Question. Can I brush my teeth with ordinary baking soda, and is there any harm by doing this?

Answer. Prolonged use of baking soda is not recommended.

Question. Should a person rinse his mouth after eating?

Answer. If teeth can't be brushed after a meal, rinsing is good.

Question. Does the regular use of dental floss harm the gums?

Answer. Proper use of dental floss is advocated, but patients should have instructions in its proper use by a dentist.

Question. Does an acid condition result in the mouth when a person has both gold and silver fillings? I was told that I had galvanism resulting from such fillings. How can this condition be corrected?

Answer. Either all gold or all amalgam would correct the condition.

Question. What are the more common types of diseases of the mouth, and do you treat these at the dental clinic?

Answer. The most common type of disease is dental caries; the other is gingivitis. These conditions are treated at the dental clinic.

Question. Can an abscessed tooth cause arthritis?

Answer. An abscessed tooth can be a contributing factor.

Question. What makes an abscess?

Answer. Dental caries---decayed teeth.

If you would like to have Dr. Frey talk to your ward group, ask him to do so. He will be pleased to give you instruction on the proper care of teeth and preventive measures to maintain healthy teeth.

Clifford A. Frey, D.D.S.

STEAK NIGHT

A very enjoyable evening was spent at the Ponderosa Steak House in Oshkosh by 35 patients and staff from Kempster 2W and 2E on March 30th.

Tuesday evenings the restaurant offers a special steak dinner for \$.99. This includes your steak, potatoes, roll and tossed salad. Many extra delightful treats are also available.

Even tho the restaurant was crowded Mr. Wood, the manager, greeted the large unexpected group very graciously and made sure everyone felt welcome.

This is an activity that should be made available to more patients, as it is a real treat and always enjoyed by all who are able to attend.

We would all like to let the staff know we appreciate their efforts in planning the special event and extend a special thank you to Mr. Skrubby for chauffeuring the hospital "square--wheeled" bus.

\* \* \* \* \*

FOR ALL THAT'S NEW - READ THE CUE

# LIBRARY ADDS MUSIC

In February, The Social Chairmen discussed the problem of securing records which could be used on the new juke box in the Canteen. We had received donations from two of the local radio stations, WOSH and WAGO, but knew that it would be necessary to obtain more in order to be able to make current changes. We, at this time, decided to send out inquiries to ten of the larger recording companies and ask them for help. A request was made for 45's as well as long playing albums. The assumption was that any donation could be put to good use, if not in the Canteen then somewhere else in the hospital.

As of this writing, Columbia Records is the first company to have sent a contribution. They surprised us with 29 long play albums, the titles and authors of which are listed below. The excitement of the Social Chairmen was readily transmitted and arrangements were made with Mrs. Marsh, librarian at the Patients Library, to begin a record library section.

The new records are now cataloged and can be checked out the same way books are handled. Another new feature has been added. There is also a record player and listening area being made available in the Library. So now patients can enjoy the records there. They may also check the records out and take them to the wards for a two week period. With this plan, we hope that the music may be enjoyed by more of the patients. It is also sincerely hoped that many patients will take advantage of this new opportunity.

## Current list of available records:

1. More Trini Lopez At PJ's.....  
Trini Lopez
2. It's A Great Life.....Trini Lopez
3. Welcome Trini Country..Trini Lopez
4. Trini Lopez - Now.....Trini Lopez
5. The Madwoman of Chaillot.....  
Michael Lewis
6. The Alfred Apaka Song Book.....  
The Aliis
7. The Candlestickmaker.....  
Ron Elliot
8. Dean Martin French Style.....  
Dean Martin
9. The Dean Martin TV Show.....  
Dean Martin
10. "Dr. Dolittle"....Sammy Davis, Jr.

11. Have Organ, Will Swing.....  
Buddy Cole
12. Constant Companion.....  
Ruthann Friedman
13. Secret Life of Harpers Bizarre....  
Harpers Bizarre
14. Classical Current.....  
Laurindo Almeida
15. Jesus Is A Soul Man.....  
Lawrence Reynolds
16. Man On The Moon.....  
Walter Cronkite
17. Greatest Motion Picture Piano  
Concertos.....  
George Greeley & Warner Br. Orch.
18. Love Can Make You Happy.....  
Mercy
19. All You Need Is Love.....  
Anita Kerr Singers
20. Sounds.....Anita Kerr Singers
21. Songs For Sunday.....Jimmy Durante
22. Strolling Mandolins.....  
Racul Meynard & Orch.
23. Together! With the Buffalo Bills.  
The Buffalo Bills
24. Sweet Moments With Blue Velvet....  
Band.....Blue Velvet Band
25. Holiday In Athens.....  
Marcello Minerbi
26. One Of Those Songs.....  
Jimmy Durante
27. Cast Your Fate To The Wind.....  
Shelby Flint
28. Music From Pictures and Plays.....  
Frank Sinatra
29. Best of Popular Piano Concertos...  
George Greeley & Warner Br. Orch.
30. Edgar Allan Poe.....  
Basil Rathbone
31. The People, Yes.....  
Carl Sandburg

The last two records were donated to the collection by Mrs. Marsh.

## ISSUES AND ANSWERS

The subject for "Issues and Answers" for this issue was "How could the CUE be improved in order to serve you better?" All we got were praises and glory for last weeks issue. It hardly seemed appropriate, or even interesting, to run a page of bouquets, so we condensed your comments to these few remarks, and thank you for your interest, support and all these nice compliments.

The CUE Staff

# A LAUGH OF A WOLF

Two motorists were traveling down South and decided to have a cup of coffee in a truck stop. When the waiter came over, one ordered coffee with a little cream and heavy on the sugar. The other took a look around and said, "I'll have mine black, but make sure it's in a clean cup." Shortly the waiter returned. "Which one," he asked, "gets the clean cup?"

\*\*\*\*\*

Teen-ager to Mother: "Gee whiz, Mom, wanting to make the world a better place to live in and cleaning up one's room are two different things."

\*\*\*\*\*

Woman driver to companion: "Ever since I started wearing my glasses to drive, I've noticed a tremendous increase in traffic."

\*\*\*\*\*

"What do you take for insomnia?"  
"I always take a few shots of whiskey."  
"Does that make you sleep?"  
"No, but it makes me feel so good that I want to stay awake."

\*\*\*\*\*

Religion, through a kid's eye, is not always seen the same as grownups see or hear- it. Some examples: "Harold be thy name;" "Give us this day our jolly bread;" "Lead us not into Penn Station;" "Deliver us from people;" and "As shop-herds washed their socks by night."

\*\*\*\*\*

Highway warning: Beware of the rolling stoned.

Sam Jones was a fisherman and when he died he found himself at the golden portals of Heaven where Saint Peter sat scowling as he went over Sam's record. "Sam, my son," said the gatekeeper, "you've told far too many lies during your stay on Earth. I'm afraid you'll have to be sent to Hell."

"Aw, come on now, Saint Peter," said Sam, "have a heart. After all, weren't you once a fisherman yourself?"

\*\*\*\*\*

Teen-age boy: "Stop cleaning up my room Mom! You're disturbing the ecology of my total environment."

\*\*\*\*\*

## EASTER SURPRISE!

We are sure all you bowling enthusiasts will be happy to hear the Bowling Products Group of AMF incorporated has donated four sets of Tournament Grade bowling pins and four bowling balls in the 8 lb. to 10lb. weight to the hospital.

Every one who has had a chance to bowl knows how badly new equipment was needed and wishes to extend their thanks to Miss Nancy Norgard for contacting AMF to inform them of this need.

As patients, we would like to also extend a very sincere thank you to AMF incorporated for their very generous contribution and assure them the bowling equipment will be put to good use and enjoyed by all.
