ABRAHAM LINCOLN 'S OPINION

In an address at Springfield, Illinois on January 27, 1837, Lincoln then a member of the legislature, said in the course of a discussion of the dangers "to free institutions :

"At what point shall we expect the approach of danger?
By what means shall we fortify against it? Shall we expect some trans-Atlantic military giant to step across the ocean and crush us at a blow?

"Never! All the armies of Europe, Asia and Africa, combined with all the treasure of the earth (our own excepted) in their military chest, with a Bonaparte for a commander, could not, by force, take a drink from the Ohio or make a track on the Blue Ridge, in a trial of a thousand years.

"At what point, then, is the approach of danger to be expected? I answer, if it ever reaches us, it must spring up among us. It cannot come from abroad. If destruction be our lot, we must ourselves be its author and finisher. As a nation of freemen, we must live thru all time, or die by suicide".

Though in favor of giving aid to England as our ability provides, it is deplorable that those who represent the folks back home seem so willing to give up to the President the powers which are granted in the Constitution of the United States,

Article I, Section 8. The Congress shall have Power to lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defense and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States;

To borrow Money on the credit of the United States;

To establish a uniform Rule of Naturalization, and uniform Laws on the subject of Bankruptcies throughout the United States;

To regulate Commerce with foreign nations and among the several States, and with the Indian Tribes;

To coin Money, regulate the Value thereof, and of foreign Coin, and fix the Standard of Weights and Measures;

To provide for the Punishment of counterfeiting the Securities and current Coin of the United States;

(next page)

To establish Post Offices and post roads;

To promote the Progress of Science and useful Arts, by securing for limited times to Authors and Inventors the exclusive Right to their respective writings and discoveries;

To constitute Tribunals inferior to the Supreme Court;

To define and punish Piracies and Felonies committed on the high seas, and Offences against the Law of Nations;

To declare War, grant Letters of Marque and Reprisal, and make Rules concerning Captures on Land and Water;

To raise and support armies, but no appropriation of Money to that Use shall be for a longer term than two years;

To provide and maintain a Navy;

To make Rules for the Government and Regulation of the land and naval Forces;

To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel invasions;

To provide for organizing, arming, and disciplining, the Militia, and for governing such part of them as may be employed in the Service of the United States, reserving to the States respectively the Appointment of the Officers, and the Authority of training the militia according to the discipline prescribed by Congress;

To exercise Legislation in all Cases whatsoever, over such District, not exceeding ten Miles Square as may, by Cession of particular, States, and the Acceptance of Congress, become the Seat of the Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State which Same shall be, for the Erection of Forts, Magazines, Arsenals, dock-yards and other needful Buildings: and

To make all laws which shall be necessary and proper for carrying into Execution the foregoing powers, and all other powers vested by the Constitution in the Government of the United States, or in any Department or Officer thereof. "

Little by little their powers have been given over to bureaus which have become self-perpetuating, and during the last administration the granting of unprecedented powers to the Chief Executive.

Very soon little will be left for Congress except voting appropriations which are asked by the President- even being afraid to make legislation for raising such money, for fear of the voters back home. It has been much easier to borrow and let future generations pay the bill.

We need big men, men unafraid, to represent us these trying days. We seem well represented in our particular district and State. Let us keep fighting on as freemen for our rights by sending men to Congress who will shoulder the burdens laid down in the Constitution instead of shifting them to bureaus and the Chief Executive.

MRS. EDWIN B. FROST AND MRS. STORRS B. BARRETT active in forming a permanent organization of Wellesley College graduates representing students from 1885 to 1936 at Saint Petersburg, Florida. Their pictures were together on a page devoted to a story of the organization in the St. Petersburg Times of February 2nd. The group will hold meetings twice a month and have chosen to work for Bundles for Britain. In telling what they majored in both stated that they had majored in husbands.

Mrs. Storrs B. Barrett has sent to ye editor a copy of the book "Helen Barrett Montgomery" by herself and friends, to be placed in the Williams Bay Library. Ye editor is reading it and will in the near future tell more about it. Mrs. Montgomery was a sister of the late Storrs B. Barrett and frequently visited Williams Bay.

It is quite reliably reported that the Edward E. Ayer estate on the South Shore has been purchased by Dr. James E. Congdon and a group of friends. Dr. Congdon is head of Camp Aurora. The group interested in the new venture are Presbyterians. It will eventually be quite a large enterprise, with many attractive cottages built by those interested in what the Camp stands for in Presbyterian circles.

This property adjoins the land recently purchased by Dr. Horace Lyons, Pihl and Pihl and Dr. Will F. Lyon.

The purchase of the Wittbold property by Oscar G. Mayer of Chicago in The Gardens has been confirmed.

IN A LETTER FROM ENGLAND.

David A. Van Epps, son of Mr. and Mrs. F.M. Van Epps, in a letter dated January 23rd writes " Last Friday (17th) I went up to Manchester by train to collect an airplane and fly it back, a distance of 250 miles. Got up there on Saturday morning and found the weather too bad to take off. The weather continued like that for four days, so I was billeted with a very nice English family, who were extremely kind to me. They took me to their social club and entertained me as well as conditions would permit. In return I took the wife to a matinee of a Pantomime called "Cinderella". A Pantomime here is the same as a musical revue. I also saw Charlie Chaplin in the "Great Dictator". I finally left Manchester on Wednesday morning or rather afternoon at 1:30 and got here at 2:50. The conditions weren't very good, ran into two showers and a few low clouds.

You certainly suffer from the cold in the English homes. Only 1 in 10 have central heating plants. The rest have fireplaces and gas heaters. Result is they are freezing cold in the morning and no room is warm except near the fireplace. Bathrooms are always cold unless a heater is placed in them. The plumbing is old-fashioned and a shower is frowned upon. The kitchens are very peculiar and far from labor saving. But the people are kind, generous and determined to win the war. It was a lovely interlude for me at Manchester.

Arthur Bonnett, son of Mr. and Mrs. A.P. Bonnett of Cedar Point Park is in the Canadian Air Force, being stationed at North Sydney, Nova Scotia.

Alfred Johnson (Bud) who enlisted has been sent to Fort Scott, near St. Louis where he will take up radio work.

The quarantine for measles has been lifted from the Camp at Rantoul and Elborn Rasmussen was able to get home last Sunday morning. His brother a student at the University

of Wisconsin was home also for mid-semester vacation so Mr. and Mrs. L.A. Rasmussen were happy in having both sons home.

Bob Singer and Carl Osman, Jr. are now located in service in Hawaii.

Edward Soplanda and Al Spatz are in the Navy in Pearl Harbor, Hawaii.

Chas. Horvath is in the East with the Navy and Edward Horvath has been called to service in the National Guards.

Williams Bay is quite well represented in the service.

CELEBRATED 53RD WEDDING ANNIVERSARY.

Mr. and Mrs. J. Klein who are spending the winter in Chicago had a very pleasant time with relatives and friends in the celebration of their 53rd wedding anniversary recently. Mrs. Klein has not been well and cannot get out, but fortunately under the supervision of her daughter, Hazel, who is a nurse, is gaining in health. Both are anxious to get back home and will be back by April 1st. Meantime they are keeping in touch with the Bay by reading "Bay Leaves" each week.

Mr. and Mrs. Edward Zabler had a surprise visit from their son, Russell and wife and their daughter Mrs. Al (Maybelle) Stoddard last Sunday.

Frank Maidens who has purchased the Standard Station formerly Clayton's, had expected to open this week, but has postponed until later as he expects to move here soon from Lake Geneva. Meantime he is getting everything in readiness.

The Fire Department sprinkled the ice at the lake skating pond Wednesday afternoon.

NEWS ITEMS.

Miss Alice Farnsworth, formerly of the Yerkes staff, and now with Mt. Holyoke has returned from an interesting trip of five months in South America. She went down the East Coast taking in Brazil, Argentine, et al countries and then flew across the Andes to the West Coast and came home by way of the Panama Canal. She is on her sabbatical year.

Last Sunday Rose Lane Hotel had over 200 for dinner. One mixed group of a hundred came on the morning train. These young people were employees of Western Electric Company, Chicago. Quite a good sized group from a Methodist Church Evanston stayed at College Camp over night Saturday and had meals at Rose Lane. Others were guests of the Hotel.

It was a grand day for Winter Sports and the Ski Hill and Toboggan Slide were crowded all day.

THE VILLAGE WINTER SPORTS PARTY ON FRIDAY NIGHT WELL ATTENDED.

As they were coming and going all evening, even after the Basket Ball Game at the High School it is hard to estimate the number there, some hundred or more. It was planned a Moonlight party but a little snow was in the air and it was quite windy. Some went down a dozen times or more. There were lots of red cheeks. Coffee and doughnuts were furnished by the restaurants and business men who also served and washed the dishes. Mrs. Zabler sent up a large pan of coffee cake which was very welcome.

Many were watching Anderson Brothers and their staff pour the concrete foundation and basement of Hermanson's new bakery on Wednesday. It was a good day for the work and it had to be poured all at one time.

LAKE GENEVA CITY HAD LARGEST WINTER CROWD IN HISTORY.

Cars were parked by the thousand all along the lake from the ice house to Mrs. W.H. Macdonald's house on the East shore, on Main and Broad Streets and for blocks on other streets.

The quarter mile horse races on the ice was the chief attraction, together with the hockey games and glider exhibitions.

Up at the Hillmoor Golf Club in the morning many prizes were given for speed and distance.

The Chamber of Commerce, Lions Club and City Council were very pleased with the success of the venture.

ONLY WAITING FOR GOOD ICE FOR ICE BOATING RACES.

We understand that Ice Boaters are in Detroit this week end for races. Fox Lake races were doubtful on account of ice conditions.

So far the Skeeter Club has not been able to keep any of its schedule.

LAKE GENEVA TO HAVE INLAND LAKES REGATTA NEXT AUGUST.

In Chicago last week at a meeting of the Inland Lakes Yachting Association it was voted to accept the invitation of the Lake Geneva Yacht Club to have the Regatta here. That means a busy week for the members of the Yacht Club during the 3rd week in August.

Last year the regatta was held at Madison.

At the present writing, Wednesday night it is melting and the snow going rather fast. Watch papers or listen in to the radio for weather reports. We want you up here but do not wish to have you disappointed.
