✓ Upon recommendation of President Frank, it was voted that Chapter IV of the By-Laws relative to fees in the graduate school be amended to read as follows:

"In general, graduate students are required during the regular year to pay the same fees as are undergraduates, with the following exceptions: (a) regular graduate fellows and scholars are exempt from the non-resident tuition fee only; (b) honorary fellows and scholars are exempt from both the non-resident tuition fee and the general or incidental fee; (c) instructors and graduate assistants are exempt from the non-resident tuition fee and from laboratory fees in courses taken in the departments in which they hold appointments.

"The following classes of graduate students who are candidates for higher degrees shall be entitled to exemption from the non-resident tuition fee but shall pay such other fees as may be required of graduate students who hold no official appointment: members of the teaching, and research staffs of the University, graduate fellows, graduate scholars, members of the State Geological and Natural History Survey, members of the technical staff of the Forest Products Laboratory, staff members of the United States Department of Agriculture stationed at the University and engaged in research, technical experts employed in any department of the state government, and officers of the United States Army detailed as students by proper authority. However, when any such person shall have paid to the University as a graduate student seven semester or summer session fees, he shall be exempt from further payment of general fees or summer session fees. In the administration of this rule, one, but only one, nine-week summer session fee or its equivalent may be counted as two of the seven fees above mentioned; also, the full amount of any prescribed fee shall be charged.

"Graduate students who are not residents of the state and who are not members of the University staff of instruction or research and who in any semester pursue studies in amount less than half the normal amount, may have their fees prorated in proportion to the amount of such study upon securing the recommendation of the Dean of the Graduate School to the Registrar that the case comes under this rule and that he regards it as one of more than common merit. However, the prorated fee shall not be less in amount than the general fee for the semester."

The following appreciation of Mary Clark Brittingham who died on Wednesday, June 19, 1929, was presented by Regent Olbrich and unanimously adopted by the Regents. The Secretary was instructed to include it in the records of this meeting and to forward a copy to the relatives.

✓ The Regents of the University of Wisconsin testify to their conviction that this institution had no more cherished daughter, no more loyal and devoted official, no more outstanding friend and benefactress than Mary Clark Brittingham. She personified the conviction that ability carries with it a proportionate social responsibility. She had a sense of trusteeship toward the wealth, material and spiritual, with which she had been endowed; and her social accounting was not a niggardly dedication of a minimum of what she had. Her benefactions were not the mere surrender of superfluous possessions that had ceased to have a savor, which sometimes passes for philanthropy. Her giving possessed that divine quality of giving herself. She achieved the spiritual paradox of doubling her own happiness by dividing it. She did much for this University, and did it with a sunny radiance of gracious generosity that multiplied the mere material value of her gifts a hundredfold. Her abounding goodness thus bestowed evokes a sense of gratitude deep-seated and abiding. So, with a sense of pride in the thought that she was one of Wisconsin's own, so great that it almost surmounts the sadness of farewell, we place of record this, our tribute to her worth and womanhood.

The meeting adjourned at 12:25 P. M.

M. E. McCaffrey,

Secretary.
