ATHLETIC RECORDS

REVISED UP-TO-DATE LIST OF TRACK AND FIELD.

Many Records Broken Last Year—
Mile Run, Broad Jump and Half-Mile Among Them.

The past year has witnessed the lowering of several of the University records on track and field. Despite the fact that we were unable to obtain the western championship last year, the individual work of several of the members of the team was of such high grade that several of the former records were broken. The mile record of 4 min. 35 sec. formerly held by N. S. Hopkins was lowered to 4 min., 32 1-5 sec last spring by J. F. Hahn. Captain Bredsteen dropped several seconds from his own mark in the mile walk, making the distance in 7 minutes flat. In the half mile run W. Burdick lowered E. B. Copelands record, making the trip in 2 minutes 3 1-5 seconds. F. Schule is the new holder of the broad jump record which was formerly held by H. J. France, his best jump being 22 feet 2 inches. A. K. Wheeler lowered the former record for the pole vault by clearing 10 feet 10 inches. The former mark was held by J. A. Jackson. Besides these several of the old records were tied and with the benefit from an extra year off coaching the coming spring is sure to see several more broken.

The University records up to date are as follows:

100 yards 10 sec. E. T. Fox May 20, '99.
220 yards 21 3-5 sec. E. T. Fox May 20, '99.
50 yards 5 1/2 sec. L. D. Sumner May 27, '96.
120 yards hurdle 15 4-5 sec. J. R. Richards May 9 '96.
220 yards hurdle 25.3 sec. A. C. Kraenzlein June 5, '97.
High jump 5 ft. 11 in. E. C. Waller May 9, '97.
Broad jump 22 ft. 2 in. F. Schule May 26, '00.
Hammer throw 115 ft. 6 in. C. G. Stangel June 5, '97.
Shot put 41 ft. 5 in. H. C. Cochems June 5, '97.
1 mile bicycle 2 min. 30 4-5 sec. J. C. Taylor May 8, '97.
2 mile bicycle 7 min. 41 sec. May 8, '97.
Discus throw C. G. Stangel June 4, '98, 117 ft. 4 in.
Pole vault 10 ft. 10 in. A. K. Wheeler May 26, '00.
Base ball throw 382 ft. 3 in. O. D. Brandenburg, 1884.
Mile walk J. Bredsteen June 2, '00. 7 min.
Mile run J. F. Hahn May 26, '00. 4 min. 32 1-5 sec.
1/2 mile run W. Burdick May 26, '00. 2 min. 3 1-5 sec.
Hop, skip and jump A. E. Dimment June 15, 1887. 43 ft. 1 in.
1/4 mile E. T. Fox May 8, '97. 51 3-5 sec.

Splendid Work in Elocution.

Miss Jennie Butt and Walter Pyre, instructors in elocution at the University of Wisconsin, gave a highly entertaining dramatic and elocutionary recital at the Hanover Street Congregational church last night. Several selections were read by each, and vocal numbers were rendered by Miss Houston. Both Miss Butt and Mr. Pyre showed unusual ability, their programme including all classes of

elocutionary work, from the humorous to the pathetic and from the dramatic to the conversational, and their success was pronounced in all. Miss Butt read three selections, "A Society Play," "Football as a Girl Sees It," and "The French Tenor." Mr. Pyre appeared with Miss Butt in "The Philosopher," and "Aftermath." Mr. Pyre won his greatest applause from the manner in which he rendered "The Sunday Horse Trade," from David Harum. His work in this was exceptionally fine. He also read "A Set of Turquoises."

After the recital an informal reception was given at the home of the Rev. and Mrs. H. H. Jacobs.—Milwaukee Sentinel.

About Professor Knowlton.

Cardinal readers will be interested to know of Prof. Knowlton. Word was received from him this morning. At present he is in Minneapolis, but he expects to start for California the 17th of this month, where he will spend the winter with a brother whom he has not seen for over thirty years. Mrs. Knowlton thought he would return home for a few days before going to California. He has spent the summer in the Battle Creek Sanitarium, and later in the summer he went to Calumet, on Lake Superior.

The Cardinal is doubly pleased to report that Professor Knowlton's health is considerably improved, and hope that his winter in California will be a great factor in speedily restoring his health.

Lose Their New Gym.

Pat O'Dea and his brawny team from Notre Dame, the entire party numbering 26, arrived in the city last evening quartered at the Capital house. They were in a somewhat downcast mood, for they learned that shortly after their departure for Madison their fine gymnasium which was completed only a year or two ago had been totally destroyed by fire. The loss was \$20,000. The information was depressing to the famous badger ex-captain who had looked forward only with pleasant anticipation to the reunion with his old friends.

The building will be immediately rebuilt.

Maro, Monday Evening.

Maro, the Prince of Magic, will appear in the City Lecture Course at the Methodist church Monday evening. As a magician Maro stands in a class by himself. Press comments on his clever work are very flattering. The Boston Journal says, "His feats were truly marvelous and showed the hand of a great artist."

Students will enjoy just such an entertainment.

Board of Visitors Here.

A special committee of the Board of Visitors was present at gym drill yesterday afternoon. Their function is to report on military and gymnasium affairs. After drill they were conducted about the building by the officials in charge of the gym. They expressed themselves as delighted at the work done and the methods in use throughout, but were astonished at the over-crowded condition of the building. They will doubtless recommend to the Board of Regents that more space be granted. The need of both is certainly urgent and rapidly becoming more so as has been pointed out before in these columns.

—Today's game (not ended) 'Varsity 48; Notre Dame 0.

METEORIC SHOWERS

MAY BE SEEN IN EASTERN SKY,
NOV. 14, 15, AND 16.

Professor Comstock Writes Concerning the Phenomena—Should be Seen Every Thirty-three Years.

The great meteoric shower which was expected to take place November, '99 and 1900 proved to be a failure. It is uncertain whether a great shower of brilliancy will appear this year, although a few meteoric brilliancies are expected. For more than a thousand years the great showers of meteors have been observed in the months of October and November, always coming from the same part of the sky, and being beyond all question repetitions of the same thing. Speaking generally, these showers come at intervals of 33 years, although there are numerous gaps in the record, showing that in past time showers have failed to appear when they were expected. In 1799, 1833, and 1866-67 very brilliant showers were observed, that of '33 being the finest on record.

The cause of the showers is an enormous swarm of meteors, which move around the sun in a very long and narrow order, which intersect the orbit of the earth at a point through which the earth passes about November 14 or 15. The meteors require 32 or 33 years to make the circuit of their orbit, and therefore only once in 33 years can the earth encounter these at the point where its path crosses theirs. But the swarm of meteors is so large and long as to require more than a year to move past the earth's orbit, and therefore the meteor shower may be seen in two consecutive years. Although very long, the swarm of meteors is a comparatively thin column, which, if it were displaced sidewise by only a few thousand miles, would fail to encounter the earth, passing by on one side, and giving no sign of its presence. This is what seems to have happened last year, for the computation of the mathematical astronomers show that since their appearance in 1867, the motion of these meteors has been disturbed by the attraction of the planets, Jupiter, Saturn, and Uranus, which have thrown them to one side of the path in which they formerly moved.

At the present time it does not seem probable in view of this disturbance that the earth will encounter any considerable number of these meteors this year, but there is still some chance of it, and in the early morning hours of Nov. 14, 15 and 16, a careful watch of the eastern sky will be kept, particularly in the region of the constellation Leo, from which the meteors will come if any are seen.

—G. C. Comstock.

—The Economic Geography class has just been supplied with a new text-book entitled, "Man and His Markets," compiled and written by L. W. Lyde. Dr. Jones had them procured from a firm in England, getting a book that meets the needs of the class as nearly as possible. The book is profusely illustrated and the subject matter written in a short and concise form.

Literary Societies.

The literary societies are experiencing one of the most brilliant and enthusiastic periods in their history. Their work shows many stages of improvement over that of preceding years. Each society entered into its year's work with an unsurpassed degree of earnestness.

James H. Sheridan, '82, of Milwaukee, and Michael Barry of Phillips, members of the visiting committee of the Board of Regents, visited the societies last night for the purpose of inspecting and reporting the class of work done by them. They each expressed their highest admiration and approbation of the work and will report their visits very favorably.

Athenae.

Athenae began her meeting last night under the new administration. Pres. Buchholz in his inaugural address dwelt upon "Athenae's Alumni," who have been lately honored and who are at present occupying high positions of trust. Among the many were John Esch, who was re-elected congressman, E. Ray Stevens, who is the member of assembly from the city of Madison; Bishop Fallows, at present at the head of the clergy of Chicago; Judge Silverthorn of Wausau; Judge Siebecker, circuit judge of our own district; and lastly, perhaps no alumnus has won greater distinction and honor than R. M. La Follette.

Messrs. Lever, Woolledge and Lord were initiated.

The two debates were well supported. Among the volunteers appearing were Knoff, Barney, Rounds, and Davis.

The jury in the first debate decided that the McKinley administration has been wise, statesmanlike and American.

The second debate was exceptionally good; in fact, some of the debates were of the best ever presented in Athenae. The jury thought that the teachings of Robert G. Ingersoll had been productive of more evil than good.

Philomathia.

Philomathia held an exceedingly interesting and well attended meeting last night. The first debate was on Mr. La Follette's primary election system, the opponents of the system winning the debate. In the second debate the justification of South Carolina in restricting negro suffrage was discussed. The decision was for the negro. An interesting feature of the debate was the defense of his race by Mr. Poage. Silverthorn and Wetzler delivered excellent orations which has come to be one of the best features of the society's work.

Hesperia.

Hesperia held the usual enthusiastic and well conducted meeting last night. The new officers were inaugurated, and President Carthew gave an interesting talk on the purpose of the society and the duties of members. One new member, Mr. Hyland, was initiated.

The first debate was on the question of the election of United States senators. The subject was handled ably by both sides, Mr. Stone being leader for the negative, and Mr. Eggerson for the affirmative. The latter side won out.

Mr. Schoenseigel and Mr. Horsfall, who were on for orations, acquitted themselves with credit, the former speaking on the "Negro Problem" and

Continued on Third Page.

Telephone over the lines of the Wisconsin Telephone Co., to all Points.

Up To Date.

The collection of the up-to-date athletic records of the University and the publishing of them in this issue should help to clear up some difficulties. For some time the data on this point have been scattered and inaccessible and no little confusion has resulted therefrom. Most erroneous notions of what the records themselves are and who their holders are, have been prevalent among students and it has been no uncommon experience to hear men either express absolute ignorance as to these records or else get them hopelessly mixed. It is hoped that those interested in athletics will take note of them as published and not have to trust hereafter to the vagueness of their memories on the subject.

College Dailies.

Some weeks ago the Notre Dame Scholastic published an article criticizing the representative college dailies such as the Cardinal, the U. of M. Daily and others for devoting so much space to athletic news. The U. of M. Daily answered this objection in an able manner stating that the papers in question were designed to be newspapers and not literary magazines. The mission of a newspaper is to furnish the news of the day and to furnish the kind of news desired by its readers. It goes on to state that four-fifths of the readers of these papers are interested in following the various teams during the season and buy the paper largely for that purpose. The Cardinal takes pains always to adequately cover all scholastic news but concurs with the other college dailies in regarding it as imperative to devote all the attention demanded by students to football and other athletic news. The development of the college daily from its old sociolitero-chronological form into its present shape is one of the marks of the advance of the modern university.

Local and Personal.

—C. C. Hatleberg, '02, is visiting in Windsor.
 —Pi Beta Phi gave an informal card party last evening.
 —Mrs. Richard T. Ely is ill at her home at University Heights.
 —Robert K. Coe, '02, has left to spend Sunday with friends in Michigan.
 —M. W. Odland, '98, who is teaching in De Forest is visiting friends in the city.
 —Mary P. Richardson, '93, of Milwaukee is in the city and visited the University.
 —Mr. Will Mauer, '02, has returned to his home at Plymouth on account of sickness.
 —Psi Upsilon gave a pleasant informal dancing party at its house last evening. Mr. and Mrs. Bertrand H. Doyon chaperoned the event.
 —The elementary laboratory is being wired for electric lights, which will permit the students to work after four o'clock in the laboratory. This is much appreciated by the students.
 —Prof. and Mrs. Harper left for South Pines, N. C. yesterday. It is hoped that the change will be beneficial to Mrs. Harper's health. Prof. Harper will return in about a week or ten days.
 —Prof. Van Hise and Dr. Buckley are at present enjoying a canoe trip on the northwest shore of Lake Superior.

Professor Van Hise is obtaining the details of his trip which he made in that region last summer in the interest of Geological Survey. He is expected to return very soon.

—MARVIN HEALD, '04, met with a painful accident this morning in the chemical laboratory. While at work an explosion took place, which threw broken glass into his face and eyes, cutting them badly. However, he is getting along nicely and will soon recover.

—Professors Carlyle and R. A. Moore, in company with Professor Curtis of the Iowa college, Dr. Alexander and Mr. Goodwin of the Breeders' Gazette, and Mr. Kellam of the Wisconsin Central railroad, are at Mr. Carlyle's farm in Stanley, Eau Claire county, enjoying a deer hunting expedition.

Farm Notes.

Prof. A. G. Hopkins has the past season edited a veterinary manual for use in the short course. This edition is at present in press and is a great improvement as previously the classes have had to depend wholly upon notes which is found to be very cumbersome.

The dairy school opens Tuesday the 13th. Prof. Farrington and his assistant are busily engaged in cleaning and repairing the machinery in readiness for the new students. One hundred and thirty are expected and this number may even be swelled. Carpenters are engaged in adding a large cheese curing room to Hiram Smith Hall.

Professor Carlyle and Hopkins are planning a reunion of the 2nd year short course students in order to attend in body the Fat Stock Show held in Chicago the first week in December. Already one hundred of a party has been secured. Prof. Carlyle has been chosen judge of horses at this exhibit.

The farm faculty are contemplating on taking an exhibit of cattle, swine and sheep to Chicago at this time to put on exhibition.

Already 285 applications had been filed by Mr. Moore for admission into the short course. These men hail from various sections as Washington, New York, Manitoba and Ontario.

It is thought that some of the farm students will enter the stock judging competition held in Chicago at the same time as the fat stock show. This competition will be similar to that held in Omaha two years ago.

Prof. Frost is in Milwaukee to-day in the interest of his department.

EGYPTIAN DEITIES
"NO BETTER TURKISH CIGARETTES CAN BE MADE"

Continued from First Page. the latter on "Trusts and Young Men." The weekly orations are assuming much importance in the meetings, and are becoming one of the best features of the society.

The second debate, on the question, "Would the cause of good roads in Wisconsin be furthered by placing road construction in charge of a salaried commissioner?" was rather more interesting than the first, because it was to a large extent impromptu. The work of the volunteers who spoke last night is something of which the society may well boast. The debate was decided in favor of the affirmative. Messrs. Smythe and Gaffin were leaders.

Castalia.

Castalia held its regular meeting last evening, the program opening with an instrumental solo by Miss Reid. Miss Kuhns then gave a recitation in a very pleasing manner, and was followed by a paper on "The Result of the Election" by Miss Wilcox, which was thoughtfully and well prepared.

A debate was indulged in on the subject, "Resolved, that the expansion policy of the United States is justifiable." The affirmative was upheld by Miss Loeb and Miss Anderson, the negative by Miss White and Miss Acker. Miss Goddard gave a very interesting paper on current events. The meeting was closed by music by the society.

Columbia.

(1.) Resolved, That the constitutional amendments adopted by North Carolina resulting in the disfranchisement of the negro, are in violation of the Federal constitution. Affirmative, Beaun, Truesdell, McCarthy, Gugel, Negative, Boynton, Christenson, Harken, Fritz.

Jury, Kemp, McMillan and Lea. Decided in favor of the affirmative.

(2.) Resolved, That trusts as an institution, are more beneficial than detrimental to this country. Affirmative, Kelly, Husting, Kaptan, Lake, Negative, Gugel, McMillan, Kemp, Smith, E. W.

Jury, McCarthy, Reedal and Nelson. Decided in favor of the negative.

Several new members were initiated.

Engineers' Club.

The meeting of the Engineers' Club last evening was opened by a paper by Mr. Steiler, which showed careful preparation. Mr. J. A. Zimmerman gave an interesting "Review of Periodicals." Mr. Lathrop followed with a recitation which was well received by the society. Mr. Atkinson closed with a very able and interesting paper.

Student Notices.

Mandolin Club.

There will be an important meeting of the Mandolin Club at the Psi U. House Tuesday evening, Nov. 13, at 6:45 o'clock. A full attendance is desired.

Congregational—Rev. E. G. Updike will preach in the morning. "The Church as the Body of Christ." In the evening Mrs. Mabel Conklin, of New York, lecturer of the White Cross, will speak on Social Purity. Special topic, "That Boy of Yours." Sunday school at 12 m. Y. P. S. C. E. at 6:30 p. m.

THOMAS, PHOTOGRAPHER.

All the latest things in card mounts Groups a specialty. We finish for amateurs. 26 W. Mifflin street. (over) Menges Drug Store.

A great many students are finding that a typewriter is almost a necessity. When we remember that one can get through with from three to ten times as much work on a typewriter as with a pen it does not seem strange that they are coming into almost universal use.

The Madison Cycle Co. at 113 State street rents all makes at very reasonable rates and also carries a full line of typewriter supplies.

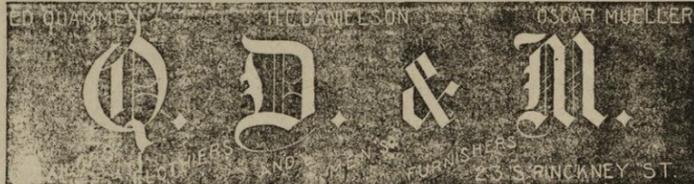

Chas. Nitschke, 404 W. Washington avenue instructor on violin and other instruments, in the University School of Music, furnishes first class music for parties and entertainments. Telephone 757.

Always welcome at the Cream City Candy Kitchen. A box of fruit Bon Bons, 40 cents a pound, is received with pleasure by any one who enjoys sweet things. Selling fine confectionery is maintained, and we offer at all times goods which are pure, rich and delicious. We are especially proud of our candy and fresh Bitter Sweets. Try some. Cost only 40 cts. per pound.
