PREFACE

In presenting our 10th volume of the Madison City Directory we offer a 680 page work containing names and addresses of the population of Madison and suburbs, besides a vast amount of other information concerning societies and industries, so arranged, we believe, in a manner most convenient for continual and instant consultation.

Angell's patent numerical directory index, one of the strong features which appeals to Madison's business men appears as usual in the back pages of this book. We also give a complete directory of the seven rural routes radiating from Madison. Within the book there is also a complete and classified business directory covering 350 titles, which should be of indispensable value to our patrons.

Madison was incorporated as a city in the spring of 1856 and has enjoyed a canstant and decidedly substantial growth since that date.

Last year (1906) was the semi-centennial year for Madison to be celebrated by a home coming this year (1907) and we are glad to be able to issue a book considerable larger than any heretofore, and one showing that our beautiful city has enjoyed an increase in population. Not only has Madison increased in population, but many new and fine residences and public buildings have been constructed during the past year at a cost of over $1,000,000. Work on the new State Capitol is well under way and Madison will soon have one of the most beautiful and costly state buildings in America.

We estimate the present population at 25,690, an increase over the census of 1905 of 5⅔ %.

Respectfully yours,

G. R. ANGELL & Co.

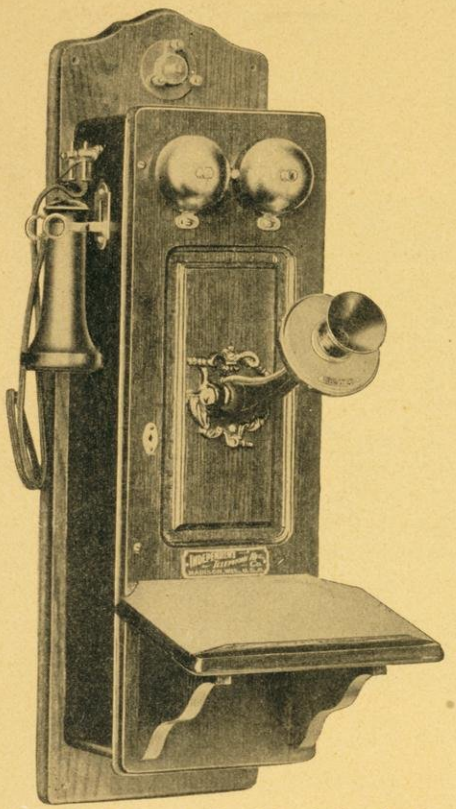
THE OLD CASTLE

THE DANE COUNTY TELEPHONE CO.



IS A HOME INSTITUTION owned and managed by citizens of Madison. The Madison Exchange has 2600 subscribers and is the largest in the state outside of Milwaukee. Its TOLL LINES afford long distance service to over 300 cities and villages in the central and southern part of the state and northern Illinois, reaching 65 stations in Dane County. Some of the more important toll stations are Aurora, Baraboo, Beloit, Belvidere, Brodhead, Columbus, Deerfield, Delavan, Dodgeville, Edgerton, Elkhorn, Evansville, Fort Atkinson, Harvard, Janesville, Jefferson, Kilbourn, Lake Mills, Lodi, Mazomanie, Monroe, Mt. Horeb, Oregon, Portage, Poynette, Prairie du Sac, Reedsburg, Rockford, Sauk, Stoughton, Sun Prairie, Sycamore and Waunakee. The Toll Lines are being constantly extended and connections with other Independent Companies being made. The rural lines and connections give service to 2000 FARMERS in Dane County. **Its RATES are LEGITIMATE and as low as can be reasonably made for the service rendered.**

Ohio laws prohibit investments in stocks or corporation bonds.

The Union Central's mortgage loans on farm lands are the safest and most productive investments held by any company.

The premiums are low. It has the highest interest earnings of any company and pays the largest annual dividends to policy holders of any American Company, thereby making the net cost to the policy holder the lowest of any company.

It is the most economically and skillfully managed company in the United States.

Desirable contracts and good territory open to live agents.

ADVISERS

Graduate School

Graduate Students—Professor Comstock, room 157, U. H.

College of Letters and Science

Senior and Junior Classes:

At the beginning of the junior year each student is assigned an adviser from the department in which he chooses his major. Such adviser serves during the junior and senior years.

Sophomore and Freshman Classes:

Upon entrance to the University each student is assigned to a member of the faculty who acts as his adviser during the freshman and sophomore years.

Course in Commerce

Senior Class and Specials—Professor Scott, room 55, N. H.
Junior Class—Professor H. C. Taylor, room 51, N. H.
Sophomore Class—Dr. Lorenz, room 77, N. H.
Freshman Class—Professor Burchell, room 81, N. H.

Course in Pharmacy

Professor Kremers, rooom 303, C. B.

College of Engineering

Senior Class:

Civil and Sanitary Engineering Courses—Professor Pence, room 206.
Mechanical Engineering Course—Professor Bull, room 212.
Electrical Engineering Course—Professor Beebe, room 216.
Chemical and Electro-Chemical Engineering Course—Professor Burgess, C. E. B. room 103.
General Engineering Course—Professor Maurer, room 202.

Junior Class:

Civil and Sanitary Engineering Courses, Professor Mead, room 210.
Mechanical Engineering Course—Professor Richter, room 27.
Electrical Engineering Course—Mr. Watson, room 219.
Chemical and Electro-Chemical Engineering Course—Professor Burgess, C. E. B. room 103.
General Engineering Course—Professor Maurer, room 202.

Sophomore Class:

Civil and Sanitary Engineering Courses—Professor Smith, room 208.
Mechanical Engineering Course—Professor Thorkelson, room 200.
Electrical Engineering Course—Professor Shuster, Electrical Laboratory.
Chemical and Electro-Chemical Engineering Course—Professor Burgess, C. E. B., room 103.
General Engineering Course—Professor Maurer, room 202.

Freshman Class:

Names from A to E—Professor Phillips, room 305.
Names from F to K—Professor Millar, room 303.
Names from L to R—Professor Moore, room 21.
Names from S to Z—Professor Burnside, room 202.

Special students will report to the class officer of the course and year in which their work principally lies.

College of Agriculture

Professor Otis, Agricultural Hall.

ANGELL'S NUMERICAL DIRECTORY INDEX

[*Patented December 31, 1895*]

A complete index of all house numbers found on the various streets and avenues in the city. The streets and avenues are alphabetically arranged; under each, the house numbers (large figures) follow in numerical order as they appear on the various blocks and residences, commencing at the lowest number and continuing to the highest. After each house number will be found numbers, shown by exponents or small figures; these cite the page or pages in the general directory on which the names of the occupants of a building are to be found, and they follow in this order: Main occupant and his or her roomers and servants.

The four avenues which extend from the Capitol square and Washington street in the western part of the city are the starting points for numbering; the Philadelphia system is used, i. e., the first number on the first block there-from is number 1; the first number on the second block 101; and so on, the odd numbers appearing on the east and south side of streets.

Abbreviations.—b, c, d, second, third and fourth floors; o, over, r, to the rear of; u, basement; z, co-occupant; v, vacant.
