The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Stair-Climbing Presents Serious Hazards

Stair-climbing is painful, fatiguing, dangerous, to those who suffer from cardiac ailments, arthritis, and asthmatic conditions. The discomforts of such physical handicaps are greatly lessened by the *INCLIN-ATOR* and the "Elevette." Your patients may have unrestricted freedom of the entire house.

INCLIN-ATOR Trademark Registered

INCLIN-ATOR
Ascending Stairs

Easily and quickly installed on existing stairways, provides a simple and safe method of ascent and descent, thus making the entire house available to the patient. Electrically controlled; operated from car, or from top or bottom of stairs. Equipped with effective safety devices.

"Elevette" Trademark Registered

For homes where stairs are not adapted to the *INCLIN-ATOR*, this new and unique form of home elevator can be installed in stairways or other small space. Car constructed to fit available space, and when desired made sufficiently large to carry medium-size wheel chair. Controlled electrically.

"ELEVETTE"
in Stairwell
