AN INVINCIBLE TRIUMVERATE

By MELBOURNE BERGERMAN, '22

HERE are two ends toward which all University efforts bend. The first is to make Wisconsin an even better and finer institution than it now is—an institution better fitted to raise the mental, physical, and moral standards in the State and Nation. The second is to make Wisconsin's actual position known throughout the State and Nation—to counteract insidious reports that defame the University's name; to show just how the University is playing a noble role in the State's progress; to let people know just what the true condition of the University really is.

In the attainment of these ends, there are three forces, each of which is indispensable to success—the students, the faculty and the alumni. It is needless to strive to determine which of the three is the most important. The question as to the importance of each may be answered by Carnegie's classic question, Which is the most important leg of a three legged stool? The utmost co-operation between the students, the faculty, and the alumni is needed if Wisconsin is to develop into a greater institution, and if Wisconsin's true position is to be known beyond the campus.

The students and the faculty must unite in the prevention of acts which run counter to the best interests of the University. Similarly, they must co-operate in elevating Wisconsin's standards and Wisconsin's traditions to a higher plane. Again, the faculty and the students must guard against giving rise to reports which may be exaggerated or overdrawn in such a way as to cast reflection on the University. Upon the students and the faculty devolves in no small measure the task of seeing that there is no ground for criticism of the University and of bettering University life in general.

But even with the best efforts of the faculty and the students, even when their utmost co-operation has brought results in the University, there will always be someone who will distort the facts to the University's discredit. There will always be room for efforts to make Wisconsin's name better known beyond the campus. *This is the role of the alumni.*

For the alumni to properly take their part in a constructive Wisconsin program, active alumni organizations are needed. An organized alumni active in all parts of the State, and even beyond the borders of the State, would prove the most efficacious agency in making Wisconsin's true position known and respected and in effectively counteracting pernicious slanders against the University's name.

The students, the faculty, and the alumni are inseparable in a truly effective program for a greater Wisconsin. In the successful achievement of such a program, these bodies are an invincible triumverate. Success must follow such cooperation. Students, faculty, and alumni united in the attainment of a common end would be an invaluable asset to the University.—*Cardinal.*

Number 9

Many thousand copies of the new alumni directory have been mailed to members. Naturally the work of mailing between five and six tons of directories was a slow, laborious job which took many days. This new directory is composed of three parts, one of which is devoted to the Board of Regents. Part two consists of names and addresses of graduates under alphabetical, geographical, and chronological arrangements, while part three contains the names of members of the faculty to June 1919. The eight pages of copy for part one were prepared for the University Editor by the office of the Secretary of the Regents. The sixty eight pages of copy for part three, together with three pages of statistics, were prepared under supervision of the Secretary of the Faculty. The remaining 590 pages were prepared under the direction of the Alumni Recorder. Complete copy for this major portion of the publication was carefully typewritten and painstakingly copy-read by competent assistants of the Alumni Recorder so that as accurate copy as could be prepared was turned over in its entirety to the University Editor on February 1, 1920. Naturally the names from the last class included and the last degrees included are those of 1919. More than a year elapsed between the date the alumni section of the copy was submitted and the delivery of any copies for mailing. However, when the Alumni Headquarters learned that the printing was moving so slowly a request was filed and subsequently granted permitting the Alumni Association to check the alphabetical list with address changes of members of our Association up to within six months of publication. The geographical list could not be crosschecked with these corrections, so in case the alphabetical list and the geographical lists are at variance, use the address found in the alphabetical list. While many addresses of graduates who are not members of the Association have naturally changed during the lapse of an entire year, still first class mail will probably reach most of these graduates. Members of the Alumni Association can help the University Department of Alumni Records by reporting not only personal changes of address but by sending to the Alumni Recorder up-to-date addresses of graduates or former students who are not members of the Association and whose addresses are either not in the alumni record files at all or whose present addresses are out of date.

Names of all graduates are supposed to be included in this new directory. The names of married women usually occur twice in the alphabetical list, once under the maiden name without address, and once under the married name with address. For example, you will find the name of Elizabeth Abaly under the "A's," together with her married name, Mrs. Adolph R. Mayer, in parenthesis, but to find her address you must turn to the "M" section. In cases where the name a woman has acquired by marriage has no address, and also in the cases of men whose names occur without address, the Alumni Recorder has no address on record or at least first class mail has been returned from the last address filed. Your

aid and assistance in furnishing information for these cases of address missing is much needed.

The fact that over thirteen thousand addresses are so nearly complete and accurate is more surprising than the fact that some few graduates have neglected to furnish up-to-date information or some few errors have crept in.

We offer no alibi, explanation or criticism, of the fact that the printing took so long. The delay is a deep and hidden mystery to us. We know

of bigger books that have been printed in fourteen days. Fourteen weeks would seem to us a long time even taking into consideration the fact that the publication was dependent upon copy that came from three separate and distinct offices, and that the State Printer as well as the University Editor had to pass on certain phases of the work and the plant holding the State printing contract had to do the work. Naturally fourteen months seems about as slow as bell boy service was at some hotels during the war. However, after ten years with no directory any directory is now very welcome.

A supplement is under way which will contain the names of former students who are members of the General Alumni Association. Copy for this department was furnished along with the other copy on February 1, 1920. We are not much concerned with why this was omitted. We are very glad that the University authorities have readily consented to print the supplement. Prior to the passage of the Volstead Act an ordinarily very dignified elderly acquaintance of ours fell into an open pit and broke his leg. The first man who found him there began with the idle inquiry as to how he got in, to which he replied with more truth than courtesy that how he fell in was of very little consequence, that the matter that needed immediate attention was how to get him out. We, of course, regret that the names of non-graduates, who are really entitled to marked distinction and credit for showing their loyalty to the University by maintaining membership in the General Alumni Association, were unfortunately omitted from the directory, but in as much as the University authorities have shown immediate readiness and willingness to do everything possible to remedy that unfortunate omission we have no intention of constituting ourselves a secret service department to make inquiry as to how or why the omission occurred.

This department of former students needs encouragement at Wisconsin. That loyalty is not measurable in terms of a degree is a truth which the Alumni Association has been urging persistently but patiently for years, suggesting again and again that adequate provision be made so that the Department of Alumni Records might build up much needed information as to addresses of former students. The benefits and possibilities for helpfulness to as well as from the University are immeasurable with this great body of people who have at one time or another spent some period in residence at the University. Even from no other view point than that of good business it would pay the University. Properly keeping non-graduate as well as graduate records is an undertaking in which no great modern institution of learning can afford to be penny wise and pound foolish. With no desire to find petty fault with any individuals at Wisconsin the fact remains that no great university is today succeeding in keeping complete records at any such low per capita cost as is being attempted at Wisconsin. Merely from the standpoint of business, up-to-date and accurate records pay. This has been demonstrated at Michigan which is now spending about one dollar

for alumni records every time the University of Wisconsin spends thirty cents.

Membership in the General Alumni Association keeps the former student and the University in touch with each other at a minimum expense to both. You, fellow member, can help a good cause

Longevity by securing at least one new member for your General Alumni Association. When you get the directory look up the names of your neighbors, friends, fraternity brothers or sorority sisters, fellow sinners or fellow saints, 'phone 'em or write 'em or tell 'em—but get them to join. If you do not find a small "a" after the name of a graduate in the geographical list for the United States or after the address of a graduate in the alphabetical list you can rather safely conclude that they are not members of the Association, at least they were not members on February 1, 1920. Of course, all members live longer than non-members, and Life Members live far beyond the allotted time of three score years and ten. The annual dues are nominal—only two dollars, while the Life Membership fee of fifty dollars is the cheapest insurance policy for longevity yet known.

UNDERGRADUATE SCHOLARSHIPS

By SUSAN ADELAIDE STERLING

(As a member of the faculty committee on undergraduate scholarships and loans I wish to arouse the interest of graduates and former students of the University.)

TVERY probably the facts in regard to undergraduate scholarships at the University are not generally known. The Board of Regents offers 50 scholarships of \$100 each to first year students resident in Wisconsin. These are known as the Wisconsin scholarships. Besides these there are over a hundred Wisconsin legislative scholarships awarded each year to students not resident in the state; that is, the non-resident fee of \$124 for tuition is remitted to such students. The number of these scholarships awarded is proportional to the number of non-resident students in attendance at the University during the year preceding. It must not exceed eight per cent of the number registered. This past year there were 169 scholarships awarded. In both of the cases above the scholarships are granted upon the basis of merit and need.

Through the generosity of individuals and associations the University is also able to offer nine scholarships each year to young women. They vary in amounts from \$50 to \$275 approximately. They are as follows: two Amelia E. H. Doyon scholarships, amounting each to about \$140 a year, the interest on a fund of \$5000 left to the University as a Student Aid Fund; two Fannie P. Lewis scholarships amounting to about \$275 each, interest on a trust fund of \$10,000; the Mortar Board Scholarship of \$100. Mortar Board,

a society composed of senior women, maintains this as an annual scholarship. The Gamma Phi Beta scholarship of \$100 has been offered since 1911. The Christian R. Stein scholarship amounts to about \$50 annually, interest on a trust fund of \$1000. The Kappa Kappa Gamma scholarship of \$150 has been offered for about ten years. The American Association of University Women offers a scholarship of \$100. The Madison branch of this Association formerly the A. C. A., has made this scholarship available since 1917. These scholarships are also given upon the basis of superior scholarship and financial need. Every year there are many more applicants than scholarships available. This year there were just three times as many, 27 having applied. The young women who received the scholarship are without exception entirely or partially self-supporting. They do all kinds of work to help themselves, filling in their spare hours, Saturdays, and holidays with manual or mental labor. They usually work also during the summer vacation and frequently are obliged to stay out a year to earn additional money. One of the young women who received a scholarship this last year is also aiding in the support of a blind and deaf mother. Another stayed out of school six years to care for an invalid mother and a younger brother. All are filled with a desire to be of real benefit to their communities. Their pluck, industry, and courage are truly phenomenal. Eighteen of these splendid girls received no scholarship for the coming year, consequently they may not be able to return until they have earned sufficient money.

One young woman had the following experience. She wanted to prepare herself to teach, because she realized the opportunities for real service in that field. Accordingly she returned to the University in her sophomore year with just \$30 in her pocket (her father had had reverses and was unable to help her). She secured a room and was prepared to spend her leisure time scrubbing and cleaning. Her sense of humor when she saw the absurdity of her expectation saved her from despair. Later she went into a private home and worked for her board and room. With the help of a University loan of about fifty dollars, and another small loan, this girl has earned her whole expenses for the year. Next year she will also be dependent on her own resources, but health demands that more time be given to rest and recreation. This young woman was not given a scholarship because some other applicant stood a trifle higher and was just as needy.

Another of this year's applicants help her aunt run a farm in summer. During the school year she works at Barnard Hall for her board, helps in the Library during spare hours, takes 17 hours of school work and belongs to a literary society and to the Girls' Glee Club. She plans to learn typewriting during the summer so as to obtain steady employment while attending the University, notwithstanding the fact that she is doing farm work all summer! If not able to learn typewriting she thinks her chances are slim for returning. This young woman is spoken of by one of her instructors as "an excellent scholar, a young lady of fine character, refined, modest, and in every way deserving of special recognition." All of the young women who apply are of this type. The experience of one of this year's freshmen reads almost like fiction. Left an orphan at the age of four, she was brought up by her grandmother, but at thirteen years of age had to aid in her own support by working summer vacations and part of the time in winter. In the summer she worked in a laundry and also as guide for week-end tourists on excursion trips through the mountains (in Colorado). Three successive summers she worked in a book-bindery. The next year she was forced to leave high school and went to work as a stenographer and assistant bookkeeper. A few weeks later her grandmother died. Having now no family ties, she made up her mind to go to Berkeley, where she hoped to finish her high school course and attend the University of California. Not having money enough to get there, she stopped off at various places and worked. Finally she managed to make her way to Berkeley. By working for her room and board and doing some stenographic work, she graduated from Berkeley High School in June, 1919, at seventeen years of age. By this time she had decided to make a specialty of physical

education and prepare herself to teach. As she heard that Wisconsin had one of the best physical education courses in the country, she started for Madison. In South Dakota she stopped off and did office and X-ray work. She arrived in Madison late in September, 1919, only to find that the non-resident tuition fee of \$124 made it impossible for her to enter the University, so she settled down to establish a residence here, in order to be able to enter the next year. She acted as cashier in a restaurant and later as a dictaphone operator. Having established her residence in Wisconsin, she entered the University in the fall of 1920, working for her room and board by taking care of children. This brave girl had been carrying too heavy a burden. She is not over-robust and is now recovering from an operation for appendicitis and is filled with anxiety for fear she will not be able to undertake the work she had planned for the summer, by which she would have earned \$300. She received a scholarship of \$100, but she needs more.

The Committee on Undergraduate Scholarships and Loans handling the scholarships mentioned consists of the following members: Professors L. W. Dowling, E. B. Fred, S. H. Goodnight, ex officio, Jean Krueger, A. V. Millar, J. E. Olson, chairman, Susan A. Sterling, and Mrs. C. B. Flett. It is always with a great tug at their heart-strings that they set themselves to the task of awarding these scholarships. They sift and weigh, discuss and—groan! Out of twenty-seven applicants, all worthy, only nine could be granted scholarships.

NEW HOUSES FOR WOMEN

F. Annie Harding

SEPTEMBER, 1921, will see opened a second co-operative house which will accommodate 14 women students and a chaperon. This will be at 426 N. Charter street, near Tabard Inn, the present co-operative house, where 22 women live.

Some of the furnishings for the new house are at hand. This furniture belonged to the three small co-operative houses in which the plan was originally tried out. The furnishings for those houses were contributed by students, alumnae at Chicago, and local groups of A. C. A. at Madison and Superior. The furniture has been stored since September, 1919, when the three original co-operative cottages had to be given up because of the new hospital and infirmary. Tabard Inn was then the only building available for a co-operative group. The Self Government Association has undertaken to complete the furnishings of the house.

Another house accommodating 18, semi-co-operative in plan, is being established

at 428 Charter street. A group of junior and senior women have undertaken to secure furnishings for this house. After the debts which they may be obliged to incur in opening the house are paid, this house too will be managed on a co-operative, cost-price plan; but at present the girls will pay the usual rates. However, self-supporting students will find the house a help to them. One student will earn all her living expenses by the services she renders. Two will receive board. Others may do work by the hour at usual student rates.

The demand for such home-like and economical living is great. Immediately upon the announcement that these houses would be undertaken, numerous applications were made. Both houses are filled for next year, each has a waiting list, and applications continue to come in daily.

The residents are searching for attic treasures, and are prepared to eke out a small dowry with great ingenuity and resourcefulness.

MADAME CURIE WELCOME

By MRS. H. H. SCOTT, '02

Wisconsin alumnae were represented in the gathering of American college women in New York City at Carnegie Hall, May 18 to welcome and do honor to the distinguished radium discoverer, Mme. Marie Curie. The meeting, held under the auspices of the American Association of University Women and said to be the largest assemblage of college women ever gathered in this country, was presided over by Dean Ada Comstock of Smith College, and was addressed by such prominent college women as Dr. Florence Sabin of Johns Hopkins University, Dr. Alice Hamilton of Harvard, and President M. Carey Thomas of Bryn Mawr College. Madame Curie's response was brief but effective.

In one of the boxes, which were assigned to the various universities and colleges belonging to the Association, were the following Wisconsin graduates: Henrietta Brown, Bernice Stewart Campbell, '16, Hermine Haller, ex'15, Marion Hartley Joys, '13, Harriet O'Shea, '16, Florence Bemis Reed, '06, Mary Swain Routzahn, '02, Alice Van Hise, '19, and Agnes Merrill Scott, '02.

Madame Curie Contribution

By RUTH E. WADMOND, '23

The contribution of the University toward the \$100,000 fund raised by the women of America to purchase a gram of radium for Madame Curie, was \$147.50. Of this amount, the Self Government Association contributed \$25, the women students interested in science \$20, and the

faculty \$102.50. The Wisconsin committee for the raising of this money consisted of: Miss Abby Marlatt, chairman, Mrs. M. B. Rosenberry, and the Misses F. M. Bachman, '12, Margaret H'Doubler, '10, S. I. Morris, F. L. Nardin, A. Smith, '12, and H. J. Wakeman. The radium was presented to Madame Curie by President Harding in Washington two days after the meeting, and will be used by her in research work in medicine.

Since the death in 1906 of her husband, with whom she shares the honor for the discovery of radium, Madame Curie has been a teacher in the Paris Sarbonne and has had no means to purchase the radium necessary to further research. In the bestowal of this gift, the women of America have gratified a long cherished wish of Madame Curie, and have honored her in a way which is peculiarly fitting, and which will be a further aid to science.

After a brief tour of America, Madame Curie will sail for France on June 25.

ALUMNI SECRETARIES' CONFERENCE

Each spring the executive secretaries of the various universities and colleges and the editors of the Alumni Magazines Associated have a joint conference. This year the meeting was held May 19, 20 and 21 at Cornell University, Ithaca, N. Y. The program covered the following subjects:

1. Alumni Magazines:
 - a—Ideal Office Organization. b—Buying Paper in Bulk. c—Circulation. d—Editorial Boards. e—Advertising: 1—Standardization and Make-up. 2—Inserts. 3—Group Rates. f—Printing Contracts.
2. Central Alumni Representative Bodies:
 - a—Class Units. b—Geographical Units. c—School and Departmental Units. d—Women's Colleges. e—General.
3. Alumni Representation on College Administrative Boards:
 - a—State Colleges. b—Endowed Colleges. c—Women's Colleges.
4. Some Results of Alumni Giving:
 - a—Purposes. b—Methods. c—Results.
5. Conferences:
 - a—State Universities. b—Smaller Endowed Institutions. c—Women's Colleges.

On Thursday night Cornell University entertained at dinner. On Friday there was an inspection of the Cornell campus, the Alumni office and the surrounding country. Except for short meetings in the morning and evening Saturday was devoted to seeing and enjoying the various events of Cornell's famous "Spring Day."

WISCONSIN ALUMNI CLUBS

"Sit together, listen together, sing together, eat together, and you'll work together."

"The surest means of making a vigorous centralized Alumni Association is through the organization of local associations that help to crystallize alumni opinion, keep alive alumni loyalty by occasional social gatherings and celebrations, and that can function in a business or executive way on short notice."

BERKELEY

By DAVID WEISS, '19

TWO of the most delightful outings, in the form of a picnic and dance, ever held in the bay cities by the Wisconsin Alumni Association, were enjoyed by over thirty-five loyal Badgers and their families in John Hinkel Park on **April 30** and **May 28**, respectively. A big open hearth fire roasted the "hot dogs" which growled and hissed as they were pushed into the fire, while a huge, community kettle was used as the coffee pot. Singing of old Badger songs and dancing followed the lunch. Such an enjoyable time was had, that it was voted unanimously to hold a picnic monthly after next August when the fall term opens at the university.

CHICAGO

By C. L. BYRON, '08

Former U. S. Senator James Hamilton Lewis, known in all nations among other things for his famous oratory, spoke to us at our meeting on **May 20** on "Our Duties to Our Alma Mater and Our Government." He emphasized the fact that we should serve our state and our Nation at all times to maintain a permanent government and that we, who have had educational advantages, should pass on the "Light" by spreading learning, and teaching peace, prosperity and liberty. The eighty men and women at this joint meeting enjoyed and appreciated an exceptional treat.

L. H. Anderson, '99, at one time insurance actuary for the State of Wisconsin and now making his headquarters at Des Moines, Ia., on Friday, **June 3**, gave a very interesting talk on "Life Expectancy Tables and their Fallacies." He convinced all present that nobody could predict the probable life of anyone.

At our meeting on **May 13** we were happy to welcome J. E. Kaulfuss, '08, who enjoyed our weekly gathering on his way to his home in Bismark, N. D., from a convention in Buffalo, N. Y. I am certain Julius will call on us every time he comes through Chicago. You will do so too if you will come once and give us an opportunity to welcome you.

Bishop Samuel Fallows, '59, was re-elected president of the Reformed Episcopal Church at the second day's session of

its twenty-third general council held in Philadelphia in May.

On Thursday, **June 2**, thirty-one Wisconsin men, in attendance at the 44th Convention of the National Electric Light Assoc., took luncheon together at the Hotel Drake, Chicago, and renewed old acquaintances. Those in attendance were as follows: H. H. Ross, '96, *Massillon, Ohio*, P. A. Bertrand, '95, *Aberdeen, Wash.*, F. W. Boldenweck, '02, *Chicago*, B. H. Peck, '06, *St. Louis*, J. C. Gapen, '03, *Evanston, Ill.*, C. C. Douglas, '03, *Chicago*, J. N. Colby, *Madison*, H. L. Geisse, '05, and Mrs. Geisse (Winifred Merrill, '08) *Janesville*, H. K. Weld, '05, *Chicago*, N. J. Conrad, '05, *Chicago*, C. A. Keller, '99, *Chicago*, A. J. Goedjen, '07, *Milwaukee*, H. A. Smith, '98, *Madison*, W. B. Voth, ex'97, *Eau Claire*, R. F. Schuchardt, '97, *Chicago*, Llewelyn Owen, '97, *Peoria, Ill.*, F. A. De Lay, '02, *Chicago*, H. A. Lardner, '93, *New York City*, S. D. Beebe, ex'93, *Sparta*, G. H. Jones, '97, *Chicago*, R. G. Krumery, '03, *Beloit*, F. J. Bachelder, '15, *Chicago*, H. L. Stevens, '03, *Chicago*, C. B. Hayden, '96, *Madison*, L. L. Tessier, '93, *De Pere*, E. R. Jacobs, '05, *Chicago*, M. D. Cooper, '08, *Cleveland, Ohio*, G. E. Wagner, '07, *Madison*, Ray Palmer, '01, *New York City*, J. D. Noyes, '04, *Detroit, Mich.*

The table was decorated with a large Wisconsin banner, giving a real Wisconsin atmosphere. The singing of "On Wisconsin", accompanied by the orchestra, added still further to the spirit of the occasion, and the good old Wisconsin yell gave the final setting for a genuine Wisconsin gathering.

The National Electric Light Association is made up of representatives of practically all of the electric lighting and power companies of the United States, the combined capital of which is over \$5,000,000, 000, and is an industry that is vital to every citizen in the country.

University of Wisconsin men have been prominent in the work of the National Electric Light Association. M. R. Bump, '02, chief engineer for H. L. Doherty & Co., has just been elected president of the association. H. H. Scott, '96, of the same company, was president four or five years ago, and M. H. Aylesworth, ex'07, is executive secretary.

Wisconsin men also have been active in the work of the various committees of the association. R. F. Schuchardt, '97,

electrical engineer of the Commonwealth Edison Co., was chairman of the Apparatus Committee for three years, and is the present vice-chairman of the Technical Section.

G. H. Jones, '97, power engineer of the Commonwealth Edison Co., was one of the organizers of the Power Sales Bureau of the Commercial Section, and has been chairman of that bureau which has in charge the development of commercial power loads.

This particular gathering will long live in the hearts of all who were fortunate enough to be able to attend.

Do Wisconsin people enjoy getting together in the great out of doors? If you attended our picnic at Turnbull Woods, which forms a part of the "forest preserve" just west of Glencoe, Ill., on Saturday afternoon, **June 11**, you would know but one happy answer. Over fifty poured in from all points of the compass from distances ranging from three to thirty miles. A hotly fought baseball game was enjoyed for an hour when the baseball cover was knocked off by Wisconsin brawn. The women as well as the men took an active part in the athletic events including races of various descriptions and tug of war.

After a picnic lunch which could not be beat, Jessie Shepherd, '95, president of the Wisconsin Alumnae of Chicago, gave an exceptionally able exhibition of baseball catching and throwing and won a sprint against one of our athletic men, whereupon she was raised to a table and forced to make a speech.

An hour's sing of college and other songs put on a fitting close to a perfect picnic, ably planned and executed by our entertainment chairman, B. D. Burhoe, ex'13.

So great a success was this picnic that another will be given at Ravinia Park in July. Further notices will follow.

Visiting alumni are welcome at our Friday noon luncheons at the Palmer House.

ALL COLORADO ROUNDUP

A most enthusiastic gathering of Wisconsinites was held at the Metropole Hotel in Denver on **May 11**. The dinner was given in honor of Wisconsin co-eds "just to show the proper spirit of Denver Wisconsin men."

The toastmaster of the evening was C. W. Mills, '05, and speeches were given by E. M. Sabin, '93, on "U. of W. Trains Politicians," by J. H. Gabriel, '87, on "Steamrollers," by W. G. Krape, ex'05, on "Classics," and by W. S. Hopkins, '02, on "Dreams."

The most enjoyable feature of the evening was the moving picture of the 1916 Commencement at Wisconsin, loaned to us by the Extension Division of the University. There were a good many skyrockets and much cheering as familiar

figures appeared on the screen. There was music and dancing and a great many red balloons made a very gay party.

The committee in charge of the affair consisted of: C. A. Betts, '13, Lydia Horner, '12, George Watson, '10, and Katherine Watson.

The following were present: J. N. Rosholt, '08, Catherine Kline, '99, Lawrence Lynch, '16, G. L. Watson, '10, and Mrs. Watson, H. F. Miller, '16, J. W. Porter, ex'12, O. G. Ward, '12, Mrs. Ward, G. R. Foster, ex'13, and Mrs. Foster, L. J. Stark, ex'97, and Mrs. Stark, Mrs. Eliot Blackwelder, J. H. Gabriel, '87, and Mrs. Gabriel (Mina Stone, '85), C. A. Donnelly, '98, and Mrs. Donnelly (Caroline Brinkman, ex'06), W. G. Krape, ex'05, and Mrs. Krape, H. J. Wichman, '05, and Mrs. Wichman, C. W. Mills, '05, and Mrs. Mills (Maude Ketchpaw, '06), C. W. Horner, '12, and Mrs. Horner (Lydia Ely, '13), C. A. Betts, '13, and Mrs. Betts (Edna Cantril, '13), A. G. Canar, '16, Miss Chapman, A. E. Krippner, '04, and Mrs. Krippner, W. S. Hopkins, '02, P. H. McMaster, '16, Mary Hopkins, '10, and W. M. Sabin, '93, all of Denver; Lt. H. C. Fuller, ex'20, of Fort Logan, Lillian Wall, '17, of Colorado Springs, H. J. McMillan and Mrs. McMillan (Cornelia Mathews, '15) of Greeley, Prof. B. F. Coen, '00, and Mrs. Coen, of Fort Collins.

The Denver U. W. Club holds a luncheon every Tuesday at 12:30 P. M. at the Kenmark Hotel, 17th and Welton streets.

DETROIT ALUMNAE

By LUCY E. ROGERS, '18

The second monthly luncheon of the U. W. Alumnae Club of Detroit was held at the Empire Tea Room with an attendance of sixteen. An informal business meeting was held during the luncheon, which included the reading of the minutes of the previous meetings and a primary vote for officers of the club.

A letter was read from Mrs. J. S. Platt, 1225 Sixth street, Port Huron, Mich., who attended the University in '77 and '78, and who hopes to attend some future meeting. Mrs. A. G. Crocker (Harriet Hutson, '08) acting chairman, announced the arrival of Mary Putnam Whipple, daughter of Mr. and Mrs. F. R. Whipple (Rosa Krause), ex'15 and ex'17, on April 13, and of Mary Elizabeth Lange, daughter of Mr. and Mrs. Edward Lange (Margaret Godfrey) '09 and '14, on May 1.

Those present included: Mrs. A. G. Crocker (Harriet Hutson, '08), Mrs. S. G. Gulian (Alva Melaas, '08), Mrs. G. W. Winchester (Isabelle Gambel, '15), Florence Ackerman, '16, Mrs. W. E. Rauch (Edith Johnson, '06), Jean Patterson, '19, Mrs. F. R. Whipple (Rosa Krause, ex'17), Margaret Reinking, '20, Josephine Foote, '21, Hazel Hoag, '20, Mrs. M. J. Casey, '18, Nina Fjelstad, '15, Mrs. W. E.

Green (Eleanor Gaik, '20), Grace E. Munroe, Maxwell Monroe, and Lucy Rogers, '18.

In spite of a Pan-Hellenic luncheon in the city which attracted a number of the members, the U. W. Women's Club of Detroit had a most successful luncheon at the Fellowcraft Athletic Club on Saturday, **June 4**, with fifteen present.

Officers for the ensuing year were elected as follows: Mrs. Edward Lange, '14, *president*, Mrs. G. W. Winchester, '15, *vice-president*, Lucy E. Rogers, '18, *secretary*, and Mrs. A. G. Crocker, '08, *treasurer*.

New members at the June meeting numbered three: Mrs. George Bailey (Edna Gillen, '12), Eleanor M. Bogan, '20, and Mrs. Wallis Cady, ex'13.

The club decided to affiliate with the Federation of College Clubs in Detroit and will be represented by its president. The next meeting will be Saturday, July 2, at the Dixieland Inn.

DISTRICT OF COLUMBIA

By L. M. HAMMOND, '10

After a "vacation" of about a year the District of Columbia Club has finally come to life again. We say "again" advisedly because for more than two years during the war period we held weekly meetings; and we say "life" just as advisedly, for reasons which we hope will become apparent shortly.

There being no organization of any nature, no officers, and about ten dollars less than nothing in the "treasury," the commencing of activities this spring was a somewhat difficult task. After a few preliminaries, a more or less self appointed committee consisting of Mr. and Mrs. Arthur Luedke (Ruth Bauske), '10 and ex'18, Mr. and Mrs. Fred Esch (Harriet Fish), '17 and '13, Mr. and Mrs. L. M. Hammond, '10, and Miss Louise Evans, ex'09, finally got together and attempted to formulate a definite plan of action. After several committee meetings, which were as enjoyable to the participants as they were of benefit to the organization, things were started, and have been progressing most satisfactorily since. We had two entirely successful meetings to date, and have several more in contemplation for the future.

The first meeting was held on Friday evening, **May 6**, at the A. R. C. Club Rooms, with about 75 present. After a social hour, L. M. Hammond introduced as chairman of the evening Congressman Adolphus P. Nelson, a former member and president of the Board of Regents. He introduced in turn the following speakers:

A. L. Luedke, who spoke on the plans of the local organization.

Mr. Hart, president of the Ohio State Alumni Association, who brought greetings from that organization and who spoke of the plans, now well under way, for a

united college alumni Association in the District of Columbia.

Regent T. M. Hammond of Milwaukee, who has spent a great deal of time in the past two years in visiting Alumni Associations throughout the United States, and who spoke on those visits, and the work of the other alumni and who also brought the greetings of the President and the Regents.

Commissioner John J. Esch, '82, of the Interstate Commerce Commission, who "reminisced" in a most interesting manner concerning the days before the University had seven or eight thousand students.

After the speaking there was a short entertainment of recitations, light refreshments, "community singing" and then dancing. It was voted to send through Regent Hammond the greetings of the District of Columbia Alumni to the New England Alumni, whom he was to address at Boston a few days later.

The next meeting was a card party held on Friday evening, **June 3**, at the home of Mr. and Mrs. Arthur Luedke, Cleveland Park, D. C. Their new home was tastefully decorated for the occasion, and the sixty who came were easily accommodated, although it was necessary to "turn away" several who sought admission at a too late date. Three tables of bridge and ten tables of 500 were played. The number of tables of each was in accordance with the wishes of those who came, as expressed on the return postals. The proportion was somewhat of a surprise to the committee, and would seem to disprove a popular fallacy that "no one plays anything but bridge any more." Prizes were won by Elizabeth Kemp and Max Guerth at 500, and by Mrs. Laurence Radford (Lillian Bittinger, '07) and Mr. Watson at bridge. Following the card playing light refreshments were served and Wisconsin song-and yells until a late hour tended to depreciate slightly the value of the adjoining property.

At both of the parties "a very good time was reported as having been had by all," as the *State Journal* used to say. As a secondary result the organization has been vastly strengthened, the ancient vintage deficit has been eliminated, and accordingly the committee is very much heartened, and is going ahead with its program greatly encouraged.

The next meeting will be a moonlight excursion on the *Steamer St. Johns* from Washington to Indian Head and return, on Wednesday evening, **July 20**. The tickets, which must be secured beforehand, are now in the hands of Mr. L. M. Hammond, 1221 Michigan Ave., N. E., and may be obtained at the price of 75 cents for adults and 40 cents for children. Dancing, singing and other stunts are being planned by the committee, the weather man has guaranteed a full moon, and there is a very strong rumor that all will not be so quiet along the Potomac that night.

NEW ENGLAND

By S. B. GROOM, '13

The New England U. W. Club had its first real gathering at the Bellevue Hotel, Boston, on the evening of **May 10**. We had as our guests Regents Horlick and Hammond and all those present were much interested in their talks. The gathering was the largest that we have had and it looks as though the New England organization was to be permanent. The very sudden and tragic death of our president, Lt. Payton McGilvary, '16, the day before our dinner was a severe shock to all of us and, of course had its effect upon the enthusiasm of the gathering. By a rising vote the meeting directed the secretary to send a wire of sympathy to the family of Lieutenant McGilvary. Prof. J. G. Callan, who spent four years at the University and is at present in the Business Administration

School at Harvard, acted as toastmaster. About seventy were present.

SEATTLE

On the evening of **June 3**, a dinner was given at the College Club in honor of Coach John Richards, '96, who was in Seattle on a short visit. Mr. Richards gave us a very interesting talk on the condition of athletics at Wisconsin, and also told us of the marked changes which have taken place around the campus.

Among those present were: A. B. Moses, '94, A. J. Quigley, '03, F. W. Meisnest, '93, Rudolph Soukup, '08, Charles Hutson, '99, G. F. Hannan, '06, Zebulon Kinsey, '06, G. E. Maine, '07, J. P. Weter, '98, B. H. Petley, ex'97, Richard Arms, '94, M. J. Halliday, '08, H. A. Adams, '15, Raymond Frazier, ex'99, J. R. Richards, '96, and Professor Ayers of the University of Washington.

ATHLETICS

By T. E. JONES

In the Wake COLLEGE DEPARTMENT

Dear Harv.: A bit nettled at the continued references to the two "admitted" conference leaders, Illinois and Michigan, as compared to the Badgers, beg to call your attention to the relative standings of the present academic year, including the four major sports and giving each university one point for first place, two for second and so on down:

	Foot- ball.	Bskt.- ball.	Track.	Base- ball	Totals.
Wisconsin	2	1	3	3	9
Illinois	4	4	1	1	10
Michigan	6	1	2	2	11

Possibly there is some different arithmetical process for recording the results, but I doubt whether you can show a different conclusion.

Eddie the Wis.

Without wishing to become controversial, the only fault we find with the above compilation is that Illinois won two championships while Wisconsin tied for one.

Merely to show we are kindly disposed toward the Badgers, however, we might add that The Wake preferred the Wisconsin football team to that of champion Ohio State last fall, although the score of their combat was adverse.—

Chicago Tribune 6-16-21.

WE are about to add to the book of Wisconsin's athletic achievements the record of the year 1920-21, a record which we feel to be altogether worthy of a prominent place in the history of Wisconsin's glories.

While we can boast no championships of clear title, we can and do lay claim to a first place for general excellence in all branches of sport. While most schools are distinguished by their excellence in some certain sport, placing greater emphasis on it than any of their neighbors and thereby earning the title of the baseball school, the football school, etc., it is a notable fact that Wisconsin strives to maintain a general excellence in every sport and not one is robbed to advance another. Some enthusiastic student, spurred on by the continued newspaper reference to the two "admitted" Conference leaders, Michigan and Illinois, worked out a scoring system, giving one point for first place in each major sport, two for second and so on, whereby Wisconsin came easily in first place, Illinois second and Michigan third for the present academic year. However, a brief review of the year's work will do as well.

Beginning with football, Wisconsin's team was conceded by many to be the best in the Conference despite the thirty seconds which stood between them and the nominal championship. In basketball, the Cardinals entered into a triple tie for first place. While the track team boasted no stars, it was a well balanced team and acquitted itself creditably in all meets. In baseball, Wisconsin had the best team it has had since 1912, a strong aggregation, well coached, which proved a formidable rival

in all encounters. Interest in the sport ran high and Camp Randall entertained capacity crowds at every home game. In swimming, gymnastics and tennis, time and talent expended in coaching were rewarded by excellent performance in every instance.

Graduation will deprive us of the services of some of our best men. Davey, Knapp, Kayser, Nash, Stark, Scott, and Weston will be greatly missed, but they open an opportunity for good men to come up from the ranks of the freshmen.

In choosing the leaders of the major sports for the coming season, a representative man in each sport will captain the team.

G. M. Sundt, Captain of 1921 Football has had a remarkable athletic experience since he entered the University in the fall of 1918, when because of the ruling in residence being temporarily suspended during the S. A. T. C. he made fullback on the Varsity team in his freshman year. He has held this berth each succeeding year with increasing success and has also found time to pick up two "W's" in track and one in basketball. He will be an excellent leader for an excellent team.

F. PADDOCK

The baseball team showed excellent judgment when they chose Forrest Paddock as their 1922 leader. "Paddy" in his first year of competition for the Varsity, pitched good steady ball throughout the season, his work in the Illinois and Michigan games proving that his head was as good as his arm, which is saying a lot.

In Al Knollin, the track men have a captain who will set a good example in point winning for his mates to follow, if he keeps on in the same manner in which he has been going for the two seasons in which he has helped put the Cardinal to the front. He holds with Carl Johnson of Michigan the Conference record in the 60 yard hurdles, and in addition to his work in the hurdles is a creditable performer in the sprints.

G. M. SUNDT

We are closing the book of Wisconsin's Athletic History to open it again in the fall to inscribe still greater glories.

AL KNOLLIN

The American Association of University Women is offering to undergraduate women from Wisconsin who will go east during the summer vacation the guest privilege of having meals at the National Club House, 1607 H St., N. W., Washington, D. C. To secure this privilege undergraduates who expect to be in Washington should give their names, their classes, their home addresses, and the dates of their stay in Washington to Dean F. L. Nardin, Lathrop Hall, Madison.

DEATHS

MILLS TOURTELLOTTE, '75, died on May 10, 1921, at his home in La Crosse. Mr. Tourtellotte practiced law in La Crosse for forty years. Six years ago he suffered a stroke, and retired from business at that time. He was born in Holyoke, Mass., in 1853, but spent his boyhood in West Salem. After graduating from the Law School at

Wisconsin he located in La Crosse where he was very successful in the practice of law.

Mr. Tourtellotte is survived by his wife, four children, a sister, and a brother, J. F. Tourtellotte, '83, of Denver, Colo.

JOSEPH WATSON HINER, '76, former senior member of the law firm of Hiner, Bunch & Latimer, Chicago, died on July 1, 1920, at his home, having been ill for some time. Mr. Hiner was born in Fond du lac in 1854 and went to Chicago in 1893. He was a member of the Chicago Bar Association, the Sunset Club, the Municipal Voters' League, the Wisconsin Society, University, City and Law clubs.

Word has been received of the death of BRADFORD W. GILLET, '76, merchant of Avoca.

Word has just reached us, through his daughter, Mrs. Forsythe of Phoenix, Ariz., of the passing away of IRENAEUS T. CRISLER, '81.

Mr. Crisler was an enterprising and energetic employe of the firm of Ira J. Mix, of Chicago, for many years until failing health compelled him to seek a milder climate. For the last three years he lived at Elizabeth, Colo. He maintained a hopeful and cheerful disposition to the last, in spite of much ill health. Mr. Crisler was 62 years old and leaves a wife and one daughter.—F. S. White, '81.

Mrs. J. A. HAYS (Florence Baker), '91, of Tacoma, Wash., died at her home on May 15. She was ill only a few days with influenza followed by pneumonia. Mrs. Hays had been prominently identified in club work for a long time, having been president of the Tacoma Y. W. C. A. for the past three years, head of the Presidents' Council, member of the Collegiate Alumnae and Tacoma Club. At one time she was on the staff of the State Historical Library in Madison.

Mrs. Hays is survived by her husband, James A. Hays, ex '91, and two sisters, Mrs. Charles Barnes (Martha Baker, '93), of San Diego, Calif., and Mrs. Samuel Cady (Helen Baker, '95), of Green Bay.

The Alumni Headquarters has been informed that ERNEST J. BJORKMAN, LL.B., '96, of La Crosse, died in 1919.

GUSTAVE WOLLAEGER, JR., '97, president of the Concordia Fire Insurance Co. of Milwaukee, died recently.

ELMORE T. ELVER, '98, well known Madison lawyer, died on May 19, after being ill less than a week with pneumonia. Mr. Elver was at one time a member of the assembly and was also a member of the Dane County Bar Association. He is survived by his wife.

We have recently been informed of the death of GEORGE HUNTINGTON TILDEN, '00, of Seattle, Wash. Mr. Tilden was born in Ames, Ia., in 1876, attended Iowa State College and Wisconsin. He went to Seattle in 1905 and founded the bond house of George H. Tilden & Co., of which he was president at the time of his death. He is survived by his widow, Mrs. Freda A. Tilden.

MRS. C. F. TOENNIGES (Elizabeth May Patten, '04), died on May 23 at her home in De Kalb, Ill.

Word has been received of the death of Mrs. C. R. HOWARD (Rose A. Bowen), '07, on March 27, 1920.

Mail addressed to GLENN A. GRAY, '17, Oregon, has been returned to the Headquarters with the notation "Deceased."

MORRIS STRELZIN, '17, formerly of Milwaukee, was killed on May 2 while defending the homes of Jewish colonists from an attack by Arabs near Jaffa, Palestine. When the Arabs swooped down on the little colony, Mr. Strelzin, a member of the faculty of the Hebrew University at Jaffa, and former first lieutenant in the Jewish Legion, organized the colonists to resist. He was shot while leading his command and though fatally wounded insisted on issuing orders until carried off the field.

Mr. Strelzin, after graduating from Wisconsin, was commissioned in the Jewish Legion. He saw service in Palestine during the World War and after demobilization was appointed instructor in chemistry and English in the Hebrew University. Later he was appointed food controller of Mesopotamia.

MELVIN B. ENGLER, of New Glarus, sophomore in the Course in Commerce at the University, was drowned in Lake Mendota on May 28, after his canoe capsized. His companion, Talbot Rogers, Long Beach, Calif., also a sophomore,

was rescued. The two young men were paddling at a considerable distance from shore in spite of warnings because of high wind and waves. Rogers clung to the canoe until he was seen and rescued, but Engler attempted to swim ashore

CLASS NEWS

1859

Under the department "How to Keep Well" by Dr. W. A. Evans, the *Chicago Daily Tribune* of May 25, carried an article entitled *Bishop Fallows An Example*. To quote from the article: "To be a city preacher looming large in the public mind is no small job. There are the Sunday sermons, the funerals, marriages, and christenings and the well established parish visiting. On top of this comes a multitude of public functions which such a minister is called on to attend. Public addresses at the rate of several a week, public meetings to be opened with prayer, dedications, corner stone layings, and so on with a long list, all time consuming and energy demanding. Could a man 85 years old stand up under such a load? Bishop Samuel Fallows of Chicago is the answer. Although in his 86th year, discharging the manifold duties of a preacher greatly in the public mind, he doubles as a civil war veteran, an active Grand Army man, and the outstanding spokesman for all meetings of a patriotic, military character." Doctor Evans says that Bishop Fallows' living habits are largely responsible for his splendid condition.

THE AWAKENING OF SPRING

A BALLET

BY LINDA RIDER

The silver dew rests in the shallows; the keen air comes from the misty brim of the mines of morn; the gates of the day open; and the rose-hued Dawn comes about her blithe business unto the woodside, the goodly hills, the magic solitude of the earth brodered with sleeping flowers.

As her presence gladdens the hearts of the waking world, her Handmaidens gently open the soft-shut eyes of Spring. She to

her charges gayly bears the message of the Dawn. And soon the woodside fills with sprites we all hold dear—Trailing Arbutus, Daffodils, Windflowers and the rest.

In the golden wake of the sun comes the fair Spring Morning and her gala group of liquid Brook, sun-loving Butterflies and all that gladden mortal hearts and whisper in the ear of childhood precious thots. The while, from the far forest comes the Winds that pleasantly do tarry. 'Tis Spring and South-Wind tarries until Sundown comforts the spent day and the tide of twilight fills the shadowed silences of earth.

(This ballet furnished the basis for interpretative dancing by Mrs. Grace Clark.)

Belmont St., Warren, O.—ETHEL HOLT, English teacher at Mt. Horeb, has been re-engaged for that position for next year.—An interesting letter, recently received at the Alumni Headquarters from DAVID WEISS, 1932 Home St., Berkeley, Calif., reads: "It is with more than great pleasure that I enclose a check for \$2.00 for dues in the Alumni Association, an association that every graduate and former student of the University of Wisconsin should affiliate with. For this is only one way in which we can show our deep appreciation and gratitude to Good Old Wisconsin, a great, liberal educational institution respected and loved the world over. Although now living in Berkeley, Calif., inderscribably beautiful for its myriads of golden poppies and wild flowers, which cover roads, hills, and everywhere, I am always thrilled, or to use a Californiac, 'get the greatest kick,' when I get my copy of the WISCONSIN ALUMNI MAGAZINE, and read of the activities and progress of our Alma Mater. Many Badgers now living in California wish that we could, at least once a year, rub the Magi's lamp and be transported to the Four-lakes city, to be present at the Commencement exercises. But such a pleasure is not to be had for the wish, at least not until aeroplane transportation is perfected and rates are less than three cents a mile plus a war tax."—MRS. P. M. STAUFFER (Charlotte Glynn) recently

moved from Syracuse, N. Y. to Waukesha, where she may be addressed in care of the White Rock Mineral Springs Co.—The address of DEAN HOLE (ex) is 1632 Stevens Bldg., Chicago.—J. H. TOOLAGIAN's address is P. O. Box 14, Merced, Calif.

CAMPUS NOTES

A football, used in the 1897 annual football game between Wisconsin and Minnesota, has recently been presented to the Chairman of the Department of Physical Education. The now battered football, which is somewhat larger than those used at the present time, was stolen from a Wisconsin player in the confusion after the game by a young woman, a relative of R. H. Tuttle, an industrial engineer of Minneapolis, Minn. The ball was given to Mr. Tuttle who loaned it to a group of youngsters. After it was returned to Mr. Tuttle it was relegated to the attic where it lay until recently discovered and sent to Coach T. E. Jones. The Badger football team of 1897 won nine games and lost one. The team defeated Minnesota by an overwhelming score of 39-0 and during the season scored an aggregate of 210 points to its opponents' 14. The line-up of the eleven that played Minnesota was as follows: E. S. Anderson, '99, *right end*; H. G. Forrest, '98, *right tackle*; Nathan Comstock, '97, *right guard*; W. C. Hazzard, ex '98, *center*; J. P. Riordan, '98, *left guard*; Harvey Holmes, '00, *left tackle*; Joseph Dean, ex '01, *left end*; John Gregg, '99, *quarterback*; H. J. Peele, ex '99, *left half*; H. F. Cochems, '97, *right half*; P. J. O'Dea, '00, *full back*.

The Board of Regents of the University adopted the following resolution on the death of Dr. C. H. Vilas.

Dr. Charles H. Vilas, son of Wisconsin and friend, benefactor and servant of Wisconsin, has gone from us and his chair is vacant in our council. He was gentle, gracious, considerate, and yet firmly executive. His career as regent was an inspiration and our lives are the richer for intercourse with him.

We recall his very recent prophetic address, in which he expressed his deep and constant devotion to the University of Wisconsin, and his confidence in the fulfillment of her high ideals, and pledged the finest effort of his few remaining earthly days to her advancement. He kept the faith and he has passed beyond the veil.

We join with the City of Madison and the State of Wisconsin in expressing the University's lasting appreciation of his splendid benefactions to humane causes and his long and unselfish career of kindly service.

Prof. Michael Rostovtzeff, noted Russian scholar of ancient history now professor of history at the University, was recently appointed Norton lecturer by the Archeological Institute of America. Between semesters Professor Rostovtzeff was in the east lecturing in leading eastern universities.

Prof. R. A. Moore has been with our College of Agriculture for twenty-five years and during that time his tireless and increasing efforts in the producing and grow-

ing of pure bred grains have enriched the farmers in the entire United States, but more especially in Wisconsin, by many thousands of dollars.

Undergraduate government was considered by an intercollegiate conference held at Massachusetts Institute of Technology on April 15 and 16 under the direction of an executive committee composed of representatives of Princeton, Cornell, Pennsylvania, Dartmouth, and M. I. T. Forty-one institutions, including Wisconsin, were invited to send four delegates each. Subjects for discussion were The Student Governing Body, Athletic Organization, Publications, College Theatricals and Musical Clubs.

Honorary recognition, the highest and most significant honor paid by our College of Agriculture upon men who have rendered distinctive service to American agriculture, was awarded to R. J. Coe, *Jefferson County*, David Imrie, *St. Croix County*, Robert Hall, *Oconto County*, and E. D. Funk, *McLean County, Ill.*, early in February.

Robert Nethercut, of Wauwatosa, has won the honor of standing at the head of his class of 350 men in the College of Engineering during the first half-semester of his freshman year.

The 1921 summer session of the University will offer a total of 375 different studies.

Psychological tests of the ability for machine shop work evidenced by freshmen in the College of Engineering are being undertaken by the Department of Psychology. The results of the tests are being computed by students in vocational psychology as a part of their work in preparing to become employment managers.

Prof. T. S. Adams, formerly of the Economics Department at Wisconsin, is now acting as chief advisor for the U. S. Treasury Department on financial matters of tax legislation and administration.

Nineteen sophomores and fifty-seven freshmen were selected to be members of the newly formed President's Guard.

"I'm a dean, dean, dean of women—
I haven't got a friend.

'Tis a mean, mean profession

One's mournful life to spend,
I'd rather pitch hay for a dollar a day
Tell fortunes with cards in an old negleege,
Than hear the contempt with which all the
folks say,

"She's a dean, dean, dean of women!""—
I. A.

"A large man can hold his Americanism and his internationalism together without crowding either."—John Andrew Holmes.

Cost of Canning Wisconsin Peas, by Theodore Macklin, '17 (Bulletin 327 of the Agricultural Experiment Sta.), is a twenty-page booklet which tells us some interesting things about the pea canning industry. Wisconsin now leads the United States in pea canning and the author of the booklet seeks to help to maintain this leadership by informing the farmers and the canners concerning costs, profits, and other conditions throughout the industry.

The Student Senate, at a special meeting on Sunday afternoon, June 5, voted to abolish at the University the freshman green cap, the sophomore-freshman class rush in the fall, and the freshman cap night bonfire in the spring. The faculty approved of the action of the Senate.

The immediate cause of this action was a freshman-sophomore class fight attending the cap night bonfire on June 4, at which several students were hurt. On the following day the *Cardinal* in an editorial said in part: "Yesterday's outbreak on the lower campus presents one of the most disgraceful spectacles in the history of the University. The event brings home with telling force the need of drastic and unflinching action on the part of the student senate and the support of such action by the faculty. The *Cardinal* demands for the preservation of the good name of the University and for the prevention of future outrages the abolition of class fights (including the class rush) and the abolition of green caps. The ringleaders who were unquestionably responsible for the tragic occurrence on the lower campus should be weeded out and brought to a speedy justice."

On Saturday night, June 11, however, a protest meeting was held by students opposed to the action of the Senate, and petitions were drawn up asking the Senate to reconsider their decision.

At a later meeting the senate reaffirmed its position on the matter but voted to submit the question to popular referendum immediately after the opening of school in the fall. The question of distinctive caps for all classes will also be voted upon.

"The Weekly Bug, Official Organ of the Agric Bugs," published annually by the Department of Agricultural Bacteriology at Wisconsin, appeared on the campus in May. This is a multigraphed bulletin of about fifteen pages containing both campus and alumni notes.

Allan Davey, Sheboygan, for three years a regular member of the Varsity football and baseball teams, has been awarded the 1921 conference medal. This medal is awarded each year to the man graduating in the senior class of each conference university who, through a course of four scholastic years' residence in the University, has the highest degree of achievement in his athletic, as well as in his scholastic work.

Equal consideration is given to both lines of endeavor.

Edmund Vance Cooke, America's noted poet, gave a program of his own poems at Music Hall, on May 19.

Prof. A. R. Hohlfeld, of the Department of German, was elected president of the Modern Language Teachers' Association of the Central West and South at a recent convention held in Chicago.

Junior advisory plans for next year have been worked out on a systematic basis by the committee in charge. The plan is to include not only juniors, but also sophomores and seniors in the list of advisors, the junior class being responsible for the carrying out of the work.

The Library School of the University held graduation exercises on June 15, in the City Library building. The Commencement address was given by Justice B. W. Jones, '70, his subject being "Women in Public Life." The class numbered twenty-five, all of whom have received ap-

pointments for next year. Their positions are in libraries everywhere from Norway to China—eight in Indiana, five in Wisconsin, two each in Ohio, Minnesota, and Michigan, and one each in Oregon, New York, Norway and China.

A party of 27 Kentuckians, including Governor E. P. Morrow and President Frank McVey of the state university, visited Wisconsin in May on a tour of inspection.

Many prominent men have addressed classes at the University during the past month. Frank S. Peabody, president of the Peabody Coal company of Chicago, was the speaker at a vocational conference held under the auspices of the Commerce School, his talk being on the attitude of Chicago business men towards the college student, telling them just what is expected of them, and the qualities that will lead towards their success.

W. H. Finley, president of the Chicago and Northwestern Railway Company, addressed a student audience in Music Hall.

Prof. W. R. Newbold of the University of Pennsylvania gave an illustrated lecture on "The New Roger Bacon Manuscript and its Decipherment." He told of the discovery of this document, the problems of reading its cipher, and of its unusual importance.

Warren Garst, '15, a partner in the Garst Store at Coon Rapids, Ia., addressed commerce students on "How We Run a Retail Store."

G. P. Hambrecht, chairman of the Wisconsin Industrial Commission, spoke on the subject of industrial problems before Artus, national honorary economics fraternity.

G. R. Schaeffer, advertising manager for Marshall Field and Company, discussed the advertising plan and policy of his company before students in advertising.

The first honor system in the University has been officially organized in the Medical School by action of members of the present junior class of the school. For several years the system has been used by an informal agreement. An Honor Commission has now been established whose primary function will be to take active steps to further a spirit of honesty in the school and whose secondary function will be to act upon such cases of dishonesty as may be brought to its attention. The personnel will include the president of the senior class of the college, four seniors to be elected by the junior class at the close of the junior year, and two juniors to be chosen at the beginning of the year. Each student entering the Medical College will be required to sign a public declaration. Expulsion from the school for dishonesty is included in one of the provisions to which each student will commit himself upon signing.

A chapter of Delta Phi Delta, national honorary and professional art fraternity, was recently installed at Wisconsin. Fifteen members were initiated.

The annual Dance Drama was presented in the campus open air theater on June 3, by Miss Margaret H'Doubler's dancing pupils. One of the most picturesque and dramatic dances given was the interpretation of the classic "Orpheus and Eurydice."

Farm House, professional agricultural fraternity, was installed at the University in May. The fraternity has chapters at Nebraska, Missouri, Illinois, and Kansas.

"Exposing a University" is the title of an article in the June issue of the *Collegiate World* written by J. S. Hamilton, '22, giving a fascinating account of the University Exposition. Many interesting photographs illustrate the story.

The same number of the *Collegiate World* contains a story by T. E. Jones, Director of Athletics, on the National Intercollegiate Track and Field Meet.

A silver medal conferred by the City of Paris, France, upon the University of Wisconsin and its president on the occasion of the visit of the Milwaukee delegation to Strassburg and Paris, has been received by Pres. E. A. Birge. The medal was brought to this country by Marcel Knecht of the French High Commission to the United States.

A scholarship in the Metallurgic and Mining Institute of the University of Nancy, France, has recently been established for a University of Wisconsin student of engineering, according to information received by President Birge. The University of Nancy is situated near the famous mining regions of Lorraine and is one of the best French scientific universities. Unless a Wisconsin student qualifies the scholarship will go to some other American university. The donor is Mme. K. de Billy who established the scholarship in memory of her late husband, Edouard de Billy, a mining engineer and formerly French high commissioner to the United States. The scholarship is for 4,000 francs and is open to any student who has completed three years of engineering work and can pass the requirements for the University of Nancy.

Less than \$6,700,000, as the appropriation for the University, has been recommended for the biennium ending June 30, 1923, by the finance committee of the legislature. The operation budget will be about \$5,000,000 annually, but nearly one-third of this sum comes from other sources than the State—from sales, lectures, cafeteria, U. S. government, tuition fees, laboratory fees, etc. According to figures compiled by President Birge, Minnesota will receive \$7,780,000, Michigan \$8,000,000, Iowa \$8,585,000, and Illinois \$8,000,000 for the same period.

Legislatures of neighboring states have given more to their universities for lands and buildings during the 1921 sessions; for the biennium Illinois received \$2,500,000, Michigan \$5,790,000, Minnesota \$4,900,000, Iowa \$1,280,000, while our University received less than half a million.

Members of the Y. W. C. A. of the University who are going abroad this summer have been invited to attend the conference of the British Student Movement, at Swanwick, Derbyshire, July 8-14, and July 20-26.

"Unparalleled growth in membership and in the power and influence of the Association and in the scope of its work" is the comment made by the *Michigan Alumnus* on the period of four years during which **Mrs. Lois K. M. Rosenberry** has been president of the Association of Collegiate Alumnae, which organization, by the way, has now joined with the Southern Association of College Women under the new name of the American Association of University Women.

Theta Delta Chi fraternity has recently purchased the Brandenburg residence at 22 Langdon street, and Delta Chi has purchased the Theta Delta Chi house at 150 Langdon street.

Five European countries—Norway, France, England, Portugal, and Sweden—have sent 27 students to the University this year.
