The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

A POTENT, ECONOMICAL SOURCE OF VITAMINS A AND D

MANY PATIENTS—particularly growing children—need some supplementary source of Vitamins A and D. Navitol—a blend of specially selected, refined fish liver oils—is a potent source of these vitamins. Its small dosage volume makes it ideal for children—parents appreciate its economy.

Navitol supplies, per gram, 55,000 units of *natural* Vitamin A and 10,000 units of *natural* Vitamin D (U. S. P. XI). Richer in Vitamins A and D than

halibut liver oil with viosterol, it costs 40% less. Purchased in the 50-cc. dropper bottle, the average daily prophylactic dose of 10 drops costs less than a cent a day.

Ten drops (or one 3-minim capsule) supply 9400 units of Vitamin A and 1700 units of Vitamin D (U.S.P. XI)—in *natural* form exclusively. Navitol is available in 5-cc. and 50-cc. dropper bottles and in boxes of 25, 100, and 250 soluble gelatin capsules.

ALSO AVAILABLE:

NAVITOL MALT COMPOUND

An economical dietary supplement which presents in a palatable syrup an abundance of Vitamins A, B, D, and G in natural form; also calcium, phosphorus and liver extract in therapeutically beneficial quantities. Distributed in 1-lb. and 2-lb. wide-mouth jars.
