MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, December 14, 1979
9:00 A.M.

President Grover Presiding

PRESENT: Regents Barkla, Beckwith, DeBardeleben, Elliott, Erdman, Fitzgerald,
Fox, Gerrard, Grover, Lawton, McNamara, O'Harrow, Thompson, Veneman,
Walter

ABSENT: Regent Majerus

Upon motion of Regent Fox, seconded by Regent Fitzgerald, it was voted
that the minutes of the regular meeting of the Board of Regents of the
University of Wisconsin System, held on November 9, 1979, be approved as mailed
to the members of the Board.

REPORT OF THE PRESIDENT OF THE BOARD

The following resolution was moved by Regent DeBardeleben, seconded by
Regent Beckwith, and was adopted unanimously on a roll call vote:

✓ Resolution 2034: That Robert M. O'Neil be appointed President of the
President
✓ O'Neil, Robert M. University of Wisconsin System, to take office February 1,
1980, or as soon thereafter as possible, at an annual salary
fixed at this time at \$65,800. The position shall carry the
benefits usual to the office of the President of the
University of Wisconsin System including the use of a
furnished home.

The following resolution was moved by Regent Fox, seconded by Regent
DeBardeleben, and voted:

✓ Resolution 2035: That, with the appointment of a new President for the
President
Regent
Committees University of Wisconsin System, the Board of Regents
discharges the Presidential Search Committee and expresses
its gratitude to the members for their time, effort and
dedication.

The following resolution was moved by Regent Lawton, seconded by Regent McNamara, and voted:

Resolution 2036: The Board of Regents has been fortunate, as it has been involved in the search for a new President of the System, to have as the Executive Secretary of the Presidential Search Committee Professor Joseph F. Kauffman, UW-Madison, the nation's recognized authority on the process of selection of a university president.

✓ President

✓ Regent Committee

✓ Kauffman, Joseph

With the naming of a new President and discharge of the Presidential Search Committee, the Board wishes to extend its deep gratitude and appreciation to Professor Kauffman for the countless hours spent in this effort, for the time taken from his teaching responsibilities in the Department of Educational Administration, and for his unselfish dedication in guiding the selection process to a most successful conclusion.

President Grover announced that Robert O'Neil would appear at a news conference at 11:00 A.M., Wednesday, December 19, in the Clarke Smith Room, Van Hise Hall, and urged that as many members of the Board as possible attend.

At 9:10 A.M., Regent Grover declared a ten-minute recess.

The meeting was reconvened at 9:20 A.M., with the next item on the agenda consideration of the 1980-81 Regent meeting calendar. To initiate the discussion, it was MOVED by Regent Erdman and SECONDED by Regent Fitzgerald that the schedule identified as Alternate No. 1 be adopted as the calendar for 1980-81.

After establishing that the "weeks between meetings" related to the interval between proposed meeting dates in Alternate 1 and 2 in relation to intervals between meeting dates established in accordance with the Regent bylaws, it was MOVED by Regent DeBardeleben and SECONDED that the motion be amended so that the July 1980 meeting be held in accordance with the bylaws on July 11, 1980 instead of July 18, 1980. Later in the discussion, he AMENDED his motion to encompass the December 1980 meeting (December 5 instead of December 12) and the June 1981 meeting (June 5 instead of June 12). To simplify setting of personal calendars and in view of the fact that there would be a new System President and Senior Vice President, it was MOVED by Regent Lawton, SECONDED by Regent Walter, and VOTED, that the 1980-81 meeting dates for the Board of Regents be established as follows, in conformance with the bylaws, but eliminating meetings in August 1980 and January 1981:

✓ Regent Meetings schedule

- July 11, 1980
- September 5, 1980
- October 10, 1980
- November 7, 1980
- December 5, 1980

- February 6, 1981
- March 6, 1981
- April 10, 1981
- May 8, 1981
- June 5, 1981

*✓ Doc, Edn
st. Bd*

In the absence of any comments or corrections, the Report of the VTAE Board meeting, held on November 13, 1979, was ordered filed with the papers of this meeting (EXHIBIT A).

*✓ UW -
Extension
Legislature*

Regent Grover advised the Board that, instead of appointing a special committee to complete the studies of UW-Extension, in response to Sections 2054(2) and 2054(3) of Chapter 34, Laws of 1979, he was assigning them to the Business and Finance Committee.

President Grover indicated that he was seeking Regent approval to appoint a committee to review the Greg Olson non-renewal case at UW-River Falls and to advise whether or not a hearing panel should be appointed. It was moved by Regent McNamara, seconded by Regent Elliott, and voted, with Regent Barkla abstaining, that the following resolution be adopted:

*✓ UW-RF
Faculty
Appeals to
BOR*

Resolution 2037: That the President of the Board of Regents appoint a committee to review the record in the matter of Gregory Olson's non-renewal to determine whether there was proper interpretation and application of UW System rules and procedures at UW-River Falls and to advise the President whether a Regent Hearing Panel should be appointed.

*Regent Committee
Olson, Gregory*

Regent President Grover appointed Regents DeBardleben, Erdman, Fox, and O'Harrow as members, with Regent DeBardleben to serve as Chairman.

REPORT OF THE PRESIDENT OF THE SYSTEM

The following resolution was moved by Regent McNamara, seconded by Regent Walter, and voted:

Resolution 2038: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified and confirmed (EXHIBIT B).

President Young shared with the Board portions of a book review of the autobiography of Howard Mumford Jones which contained very fine tributes to the University of Wisconsin.

A letter to System Senior Vice President Smith from Senator Paul Offner, which indicated his view that the System report on dealing with enrollment declines was a "serious, good-faith response to the Legislative mandate in the 1979-81 budget bill," was read to the Board.

It was then moved by Regent Lawton, seconded by Regent Fitzgerald, and voted that the following resolution be approved:

✓ Enrollment decline
 ✓ Legislative Policy
 Resolution 2039: That the Board of Regents approves and adopts "Preparing for a Decade of Enrollment Decline: A Report from the Board of Regents of the University of Wisconsin System to State Government and the People of Wisconsin" and its appendices, dated November 30, 1979, as reviewed at this meeting, as its formal submission to the Governor and the Legislature in response to Section 2054(4) of Chapter 34, Laws of 1979, and directs the President of the Board to transmit it accordingly.

Several months ago System staff had been requested to provide the State Building Commission with a report on the UW System policy on prorating costs of central heating and chilling plants for Program Revenue supported facilities. At its November 28 meeting, the Commission took action to recommend that this item be referred to the United Council for review and recommendation to the Board.

Upon motion of Regent Barkla, seconded by Regent Fitzgerald, the following resolution was adopted:

✓ Bldg Comm
 ✓ United Council
 ✓ Segregated Fees
 Resolution 2040: That, upon the request of the State Building Commission, the UW System Policy on Prorating of Construction Costs for Program Revenue Supported Heating and Chilling Plants be referred to the United Council of Student Governments for review and recommendation to the Board.

REPORT OF THE ASSISTANT SECRETARY

Assistant Secretary Winter introduced Beverly Zimmerman, the new secretary who had been hired by Joe Holt for the Regent's office.

Mr. Winter also noted that the unexpected death of Joe Holt had left the Regent office totally unstaffed since one of the secretaries had retired on September 28 and the other on November 2.

Regent DeBardleben raised a question about where the discussion of the position announcement for the Secretary of the Board would take place. While it is a personnel question, he felt that any consideration of the scope of the duties must be conducted in open session.

President Grover said that, after talking about whether this was a proper subject for closed meeting, the consensus of staff, in consultation with System Counsel, was that any discussion of the position description could be anticipated to involve reference to the performance of predecessors in the position. For this reason it was felt proper to schedule this topic for closed session.

In response to Regent DeBardleben's question, System Counsel Stathas stated that, because it was anticipated that there might be consideration of whether the trust officer's duties would remain with that position and, because of a potential change in duties, he felt this represented an adequate basis for discussion of the matter in closed session. Regent DeBardleben did not accept that view, stating that the document does not call for discussion of individuals. "I don't think that's correct. We're not talking about personnel-- we're talking about a position. We're talking about the scope of duties in a position. As I see it, any member of this Board who participates in a closed discussion of something that should be handled in an open meeting is guilty of a criminal offense. Notwithstanding the opinion of some that it is not very important, it is important to me, and I think it's important to other members of the Board. I think the matter transcends consideration of the Board's intent here, for I don't think we can legally take action. This isn't a matter for closed session any more than our discussion of what the duties of the President of the System were a few weeks ago. When we get to talking about who should fill a position, then it's a matter for closed session."

✓
Regent
officer
Discussion
of position
description
of Secretary

The following resolution was moved by Regent DeBardleben and seconded by Regent Fitzgerald:

Resolution 2041: That the position description for the Secretary of the Board of Regents be discussed in open session, under "Unfinished and Miscellaneous Business."

Regent Veneman said he felt that if it is a gray area, it should be discussed in open session. Regent Erdman felt she understood the point being raised by Regent DeBardleben; however, since her only experience with the position of Secretary of the Board of Regents had been with the one Secretary who had served since she became a Regent, she felt that when talking about the position, she would think of it in terms of that past service and, specifically, of that position and how it was filled.

President Grover said that as the Board considered future roles of the Secretary of the Board, he felt the members might want to engage in a discussion of how the role was performed by past secretaries of the Board which could involve personalities. Therefore, the question might rightfully be the subject of closed meetings. If the question were to be discussed in the abstract, totally related to the verbiage in the job description, then it would most probably be a matter for open meeting.

Regent DeBardleben then MOVED that the discussion be deferred to the next meeting and that an Attorney General's opinion be requested on the question of whether the topic is a proper matter for discussion in closed session. This was SECONDED by Regent Walter.

Regent Lawton questioned whether the Board should delay on the process in this manner, "I'm inclined to agree with both sides on the issue. I don't know the legal aspects of it, but I think that it's vital that we get on with the selection, and the description is very necessary. This is going to last a month and I would prefer it be resolved today, in whatever session."

At the request of President Grover, Regent DeBardleben agreed to withdraw his second motion (with concurrence of the seconder) and remain with his original motion to schedule the job description for discussion as a part of the December open meeting.

The question was put and the resolution carried with two members voting "no."

REPORT OF THE EDUCATION COMMITTEE

The report of the Education Committee was presented by Regent Lawton.

Senior Vice President Don Smith was reported to be recovering nicely from heart surgery on December 3 and had returned to his home in Madison.

-

A summary statement of the 1978-79 Scientific Areas Preservation Council activities was presented. The principal work of the Council is to evaluate natural areas and work for the preservation of those determined to be of state significance. The eleven-member Council is made up of individuals from the UW System, DNR, Wisconsin Academy of Arts and Sciences, Milwaukee Public Museum, and the Department of Public Instruction.

It was moved by Regent McNamara, seconded by Regent Fitzgerald, and voted, that the following resolution be adopted:

Resolution 2042: That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents, acting pursuant to legislative direction, appoints Henry Kolka, Emeritus Professor of Geography, UW-Eau Claire, to a one-year term, January 1-December 31, 1980, on the Scientific Areas Preservation Council.

✓ Sci Areas Pres Cd
APPC of Henry Kolka

✓ Chairman Lawton stated that a December 12, 1979 memo to all Regents entitled "1980-81 Undergraduate Teaching Improvement Grants" had been distributed by Associate Vice President Dallas Peterson, with summary statements of each funded proposal attached. (1980-81 Grants announced)

✓ Academic Planner Karen Merritt briefly explained the review process leading to the selection of proposals to be funded and commented upon the improvement in the quality of the proposals received over those of previous years. Twenty-two of the 51 proposals submitted to the review committee were funded in whole or in part. Awards ranged from \$2,758 to \$12,250 for single-institution proposals and from \$15,170 to \$18,073 for multi-institution proposals.

✓ (There is also a card under "Teaching Improvement Grants" on that just type, see "Undergraduate Teaching Improvement Grants")

Chairman Lawton said that Acting Senior Vice President Warren Carrier commented that the quality of the proposals for sabbatical leaves was impressive and amply demonstrated the merit of the program. The chairman joined Dr. Carrier in expressing regret at the limited number of sabbatical awards available.

The names of the fifty faculty members selected to receive sabbatical leaves during 1980-81 and short summaries of how each recipient plans to use his or her sabbatical leave had been distributed in the Regent materials. The sabbatical leaves are provided under provisions of Section 36.11(17) of the Wis. Stats.

The report of the 1978-79 Faculty Retraining and Renewal Program was presented by Acting Senior Vice President Carrier. The program was described as an unqualified success worthy of continued, if not increased, support.

Lon Sherman, Assistant Director of Admissions, UW-Whitewater, presented a report and materials describing the scope and nature of the Wisconsin Post-Secondary Planning Programs. In these programs, representatives of UW System institutions have joined with those from the VTAE System, the independent colleges, the Department of Public Instruction, and the secondary schools of the state to coordinate the provision of information regarding all post-secondary educational opportunities for all citizens of the state. In the interest of holding down travel costs and in minimizing the number of duplicative visits to high school "career days," the institutions have been concentrating their efforts on fewer, major events at centrally located sites.

The committee members had briefly discussed efforts which might be useful in curtailing hucksterism among institutions and measures for insuring compliance with appropriate ethical practices among the institutions and individuals involved--a topic which a UW System study group is currently considering.

Regent Lawton said that the committee had been provided with recommendations of the Education Professions Advisory Council (EPAC). Professor Everett Fulton, Dean of the College of Letters and Sciences, UW-Whitewater, who served as chairman of the Education Professions Advisory Council, described the composition of the Council and the general procedures followed in the development of the Council's recommendations. The study took two years to complete.

Assistant Vice President Allen Slagle, System representative on the Council, informed the committee that five of the 35 Council recommendations were not endorsed by System Administration at this time. Of the five recommendations not supported, one would establish a permanent Advisory Council on education programming, two deal with the funding of in-service education of pre-college teachers, and two would establish limitations on Education Specialist degree programs.

report on
Post secondary Planning Program (UW, VTAE)
- DPI, private colleges re high school visits

In commenting on the Advisory Council's recommendation that all Educational Administration programs be reviewed to determine which, if any, should be continued, restructured, or phased out, Assistant Vice President Slagle stated that System Administration intended to proceed with such a review making use of external (out-of-state) consultants.

President Grover addressed two of the Council's recommendations;

- (1) "That the University of Wisconsin System should not increase or decrease the number of students enrolled in them solely on the basis of supply/demand factors. Access for qualified students to programs in education should be maintained.
- (2) "Pending further study, degree and certification programming for educational administration should be restricted to those six campuses presently offering degrees or programs in educational administration and/or supervision (UW-Madison, UW-Milwaukee, UW-Oshkosh, UW-River Falls, UW-Superior, and UW-Whitewater). A careful review of the existing programs should be made to determine which, if any, should be continued, restructured, or phased out." (This was the recommendation of the Council.)

Regarding the first recommendation (that access for qualified students to professional education programs should be maintained), President Grover referred to a subsequent statement in the Report that "there is not a clearly defined criterion or set of criteria which accurately predict success. Thus, at least at this time, the notion of higher entrance standards is not very useful for policy determination." Regent Grover stated the view that the latter statement and the first recommendation are contradictory. He also quoted statements from the press indicating that students in education tend to perform less well than most on such tests as the Graduate Record Examination and implied that standards for admission to teacher education should be higher.

In discussion, other Regents indicated the view that standards for completing programs were of more crucial consequence than standards for admission.

After considerable discussion of the second recommendation (that the existing programs in educational administration should be reviewed to determine which should be continued, restructured, or phased out), the following resolution was moved by Regent McNamara, seconded by Regent DeBardeleben and passed unanimously:

card headed *notation - Report accepted*

Resolution 2043: That the report of the Education Professions Advisory Council and the System Administration Analysis of the recommendations (Attachment B, as mailed) be accepted, with the stipulation that the footnote on page 1, Attachment B, be deleted and that Recommendation I be amended to specify that a careful review of the educational administration programs of the six institutions be conducted by System Administration by October 1, 1980, to determine which, if any, should be continued, restructured, or phased out.

✓ card headed - system coordination - Report on Radio I / Radio II programming (joint project UW-extension - ECB)
 ✓ card headed - Broadcasting - Notation Report on Radio I (Radio II programming by WHA & WERN)
 ✓ card headed - Radio - Same notation
 ✓ card headed - UW-Extension - Misc - same notation - (in "U" drawer)

Regent Lawton advised the Board that the committee next heard a report on Pilot-Year Radio I/Radio II programming by WHA and WERN, as presented by UW-Extension Dean Luke Lamb. This is a joint project with the Educational Communications Board to provide a dual radio service to southern Wisconsin. Dean Lamb spoke of the support given by Community Advisory Board, the Radio Advisory Board, and the Wisconsin Public Radio Association to the dual service concept now beginning its second year. He also mentioned various research studies and their findings and concluded by stating that "the experiment has accomplished its objectives of separation of programming between WHA and WERN-FM with each station developing a distinct personality, providing two services instead of one--thereby recognizing a long-standing FCC mandate for AM-FM diversification and, at the same time, extending the resources of the university and the state."

Regent DeBardeleben read to the Board a statement prepared by Mrs. Roy Vogelmann, the widow of the distinguished Roy Vogelmann who, just prior to his death, was holding the position of producer of WHA radio. He felt that it expressed a viewpoint which the Joint Study Committee ought to have in mind.

"It is my opinion that the quality of broadcasting has deteriorated greatly in the last several years. The fragmenting of the programs, presenting them in segments, jumping from one topic to another, with a consequent lack of depth, has become the format. The 'all things considered' syndrome has taken over. Self-promotion has become a way of life for the educational broadcasting network, both radio and TV. Split broadcasting goes against the real reason for the FM network. FM stations were built to carry WHA programs to parts of the state where people couldn't get good reception. The AM reception is so poor in Evansville High School where I teach that I can't record programs such as the National Press Club carried on AM now. Children's programs are especially poor, if you recall Ranger Mack, Professor Gordon, Let's Read, Let's Draw--I grew up with these and so did my children. One son, who was listening to music while working one day, said the school program which came on the air was so condescending and clever that he had to turn it off. He recalled that it was a canned program from somewhere else. I especially regret the way in which the stations have turned their backs on the University. I'd just love to hear a University Round Table discussion about the problems in Iran--an hour-long discussion with some depth."

Regent Erdman said she had expressed similar views a year ago, about WHA and about WERN, and asked about the constituency of the committee which was established to monitor these two radio efforts. She was particularly interested in it since she had proposed various members but was informed at that time that appointments had already been made.

Dean Luke Lamb said that a number of groups had reviewed the year's pilot study:

- (1) the Wisconsin Public Radio Association, a service support group selected from the general listening area of WHA radio;
- (2) the WHA Community Advisory Board (the group referred to by Regent Erdman), mandated by 1978 revisions in the public broadcasting act and consisting of 15 members, selected to be representative of the people within the coverage area of WHA, and

- (3) a faculty advisory group for WHA radio, composed of four faculty members of the University of Wisconsin-Madison and the University of Wisconsin-Extension, the primary coverage area of WHA and WERN.

Chancellor Evans would be making new appointments to the WHA Community Advisory Board in spring 1980, replacing individuals completing their term. Consideration would be given at that time to the nominees submitted by Regent Erdman.

Asked by President Grover whether concerns expressed by former Regent Lavine relating to AM-FM coverage and whether the out-state areas would have access to comprehensive news broadcasts were being addressed, Dean Luke Lamb said that these and numerous other questions raised by the Regents in October 1978, were separate and apart from this pilot project for Radio I and Radio II and are currently being considered by a joint committee appointed by the Educational Communications Board and by President Young. This group is in the process of identifying problems that need to be addressed by both systems in depth. For the information of the Board members who do live out-state, Dean Lamb said the present state radio network carries a composite of the two programs which are presented in divided format in the Madison area. The Educational Communications Board program manager selects some of the programs from WHA and some from WERN, so the state network out-state is simply a composite of the two. The question raised by Regent Lavine was why this dual programming cannot be available in the rest of the state. He felt the present Task Force is addressing that problem and will be coming to the Board with recommendations for approval in 1980 because it was a specific request from the Educational Communications Board to President Young that he appoint a group to work with the ECB.

Regent Beckwith said he was not able to speak to the WHA programming that Mrs. Vogelman is critical of because he can't get it--to his regret. However, he was concerned that there seemed to be a sort of consumer-oriented or popularity aspect to this issue. He felt that, for an educational radio network, attempting to prove the success of a program by the number of listeners may not be the appropriate test. "I share the view that we have an educational responsibility and, even though the discharge of that responsibility may result in fewer listeners overall than if we broadcast the best of classical music, that responsibility, nonetheless, must be carried out. I am of the impression, as a listener of the FM network, that there has been a substantial decrease in the amount of educational and informational programming in the FM network over time. Maybe it's the composite you're talking about, but that really is kind of distressing. I get more out of my state radio listening driving back and forth to Regents' meetings than I do through my own listening at home, and I hope that this next report will address that. If it is possible mechanically to have the two types of programming state-wide, that would be fine. However, if it is not, it seems to me we have to opt more for the educational side and less the classical music side."

Dean Lamb agreed but noted that UW-Extension does not exercise the option of making those judgments because all of the stations out-state--other than WHA and those operated by the University--are licensed by the Educational Communications Board which, in effect, exercises the judgments that go into making that decision. He felt that most in Extension would share Regent

Beckwith's views and would like to see the opportunity for dual service extended state-wide and, while he respected the comments made by Mrs. Vogelmann, he felt some of the comments might not be factually correct. Where it is indicated that the resources of UW-Madison are not being used to the extent they formerly were, "That, in fact, is not true. We've used more faculty members from this institution in the last year than we've ever had, and statistics could be cited to document this. A lot of this is personal feeling and opinions about the type of programming. I think in the long run, however, it's the aim of the Educational Communications Board (on which I served for ten years as a representative of President Young who is the statutory appointee for that Board), the long-range goal is to optimize for all citizens of the state the opportunity to obtain the best kind of programming possible." He said that in Madison, through the experimentation, it was found that where two out of three of the people listening to both of those stations were the same in the past, through this experimentation this was reduced to one out of three, but a number of new listeners were attracted who did not listen before, a situation which it had been hoped would have happened in the past. He did note, however, that to optimize the use of these facilities and expand state-wide will require some negotiation between the System and the Educational Communications Board because both are licensees of various stations throughout the state.

Regent Lawton advised that the next item was an Informational Report on UW System Policies and Practices Related to Political Broadcasts. Pursuant to concerns expressed by the Education Committee at its June 7, 1979 meeting, System Administration presented the committee with a paper stating pertinent federal regulations governing political broadcasts by licensees, and attempting to relate how, in meeting those obligations, UW System stations "go the extra mile" in efforts to provide fair and non-partisan treatment of political matters for the information and enlightenment of their audiences.

Questions about the report were directed to Dr. Kenneth Warren, System Media Coordinator, who had prepared the report after meetings with counsel retained by the Attorney General's office and with station directors.

Regent Fitzgerald asked about procedures in handling of complaints to individual stations. Regent Thompson asked about the feasibility of establishing advisory panels for handling problem issues on a day-to-day basis.

Regent DeBardleben stated that he was not satisfied that the information in the paper provided sufficient assurance of access to all viewpoints in the use of public broadcast facilities and that if some political candidates are heard, all may be heard. In response to Regent DeBardleben's suggestion that a Regent subgroup look into the problem with a view to formulating a suitable policy, Acting Senior Vice President Carrier said that he regarded the suggestion as a reasonable one and stated that the possibility of doing this would be investigated, with a recommendation being brought back for further consideration.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Heading: Segregated Fees Notation: Report by student on WSA allocation

also ✓ Fox. Heading: Wis Student Assn. Notation: Report by student on WSA segregated fee allocation

A presentation was made by Richard Holloway, President of the College of Agriculture and Life Sciences Student Council, who discussed the Ag Student Council request for funding from the Wisconsin Student Association, the WSA allocation of segregated fees, and the role of student clubs and interaction with WSA. Comments were made by Paul Ginsberg, Dean of Students at the Madison campus that, even though there may be disagreements with the performance of the elected student officials, changes should be accomplished through the election process and that it was inappropriate for campus officials and, in his opinion, undesirable for Regents to have involvement in specific student government actions.

The report on the UW System's Nonresident Tuition Policy, written in response to the 1979-81 Budget Act, was summarized by Budget Planner Lou Zellner. It recommended that: (1) additional GPR funding should not be requested in the 1980 Annual Review for the nonresident tuition policy or experiment; (2) the discussions should be continued between the System and state officials during the 1980 Annual Review in search of a mutually acceptable approach to changing the nonresident tuition policy during the 1981-83 biennial session; and (3) the criteria for evaluating alternative nonresident tuition policies be modified before use in the 1981-83 biennial budget process.

The lengthy report, which had been distributed to each Regent, built on the material previously discussed by the committee and stressed the fact that: (1) the nonresident tuition is excessive when compared with comparable public institutions in other states; (2) nonresidents who are non-commuting students spend over \$4,000 in Wisconsin each year which produces over \$8,000 in increased economic activity in the state per student, thus generating significant amounts of income and sales tax revenue for the state; and (3) stabilizing the current nonresident enrollment level would assist in keeping the costs to Wisconsin residents at a level lower than would otherwise be possible and would also assure access and quality of program consistent with the current levels.

The report also spelled out that any program of reducing the nonresident tuition would result in lost revenue which must be replaced either through GPR or student fee sources.

Regent DeBardleben raised a question relating to that section of the report which stated that there would be no request for GPR funds to support the experiment at this time. He felt the System should make the request which seems justified by conditions that exist. If DOA wishes to turn down the request, that was a different matter but it should not be the basis upon which a decision is made to not submit a request. "I think we have the responsibility to point out to the Department of Administration and the Legislature what our needs are and what we think is best for public higher education in the University of Wisconsin System."

Chairman Fox pointed out that the language in the budget act does not permit the System to use the report as an opportunity to ask for GPR funds. System Administration staff have concluded that if, in addition to submitting the report, the System would seek GPR funding, the request would go nowhere. DOA Secretary Lindner has stated that a request of this nature would not be included in their budget. System Administration staff had also checked out that construction with the authors of the budget act and confirmed that that was what was meant. Any request for GPR funding to carry out this experiment would have to be secured by a separate act, not through the vehicle of this report. However, efforts will continue to seek a means of funding an experiment--this is a part of the recommendations--and/or attempt to persuade the Legislature and Department of Administration that the experiment should be carried out. More preparation and study are needed before submitting such a request.

The following resolution was moved by Regent Fox, seconded by Regent Walter and carried unanimously:

Resolution 2044: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents approve in principle the draft document "A Report on Nonresident Tuition Policy," written in response to Section 2054(6) of the 1979-81 Budget Act; and further, the Board authorizes System Administration staff to make necessary editorial changes in that document to assure the finalization of a joint Board of Regents - Department of Administration report which can be forwarded to the Joint Committee on Finance on January 1, 1980.

Gifts, grants and U.S. Government contracts were summarized for the committee by Vice President Lorenz, and it was noted that the current year's total is \$18,000,000 ahead of the comparable period last year.

The following resolution, moved by Regent Fox and seconded by Regent Walter, was voted:

Resolution 2045: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

✓ Headings: Scholarship - Daniel & Amy Starch Scholarship fund
Notation: Bequest of \$50,000 from Amy Hopson Starch. Regular Board 12-14-79 -14

Regent Fox said the committee considered two bequests, the first being from the late Amy Hopson Starch of Scarsdale, New York who bequeathed \$50,000 to be held in an endowment fund designated the "Daniel and Amy Starch Scholarship Fund" with the income therefrom to be used for scholarships for worthy students.

The following resolution was moved by Regent Fox, seconded by Regent Veneman, and voted:

Resolution 2046: That the bequest of the late Amy Hopson Starch, Scarsdale, New York, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Amy Hopson Starch, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

The second bequest was from the late Elizabeth C. Ronan of Flint, Michigan who bequeathed \$1,000. The proceeds of this bequest will be added to the Library School Alumni Scholarship Fund of the University of Wisconsin-Madison campus.

It was moved by Regent Fox, seconded by Regent Veneman, and voted, that the following resolution be adopted:

Resolution 2047: That the bequest of the late Elizabeth C. Ronan, Flint, Michigan, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Elizabeth C. Ronan, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.
✓ Headings: Ronan, Elizabeth C.

Notation: Bequest of \$1,000 by Elizabeth C. Ronan.

Chairman Fox said that an informational report on UW System Auxiliary Operations Policies and the 1978-79 results were reviewed for the committee by Associate Vice President Douglas Osterheld.

✓ Headings: Auxiliary Operations
Notation: 1978-79 report presented.

An informational report from the Vice President and Controller indicated that the projected year-end balance for general program operations is anticipated to be approximately \$1,300,000.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The report of the Physical Planning and Development Committee was presented by Regent Gerrard.

The first item requested approval of three concept and budget reports and authority to design, bid and construct the projects within the funds previously authorized by the Regents and the State Building Commission. At UW-Madison, a reduction in the scope of the Plant Sciences Remodeling and Addition project was recommended in order to stay within the authorized funding level. The other projects were to provide handicapped access for two buildings at UW-Oshkosh and UW-Stout.

The following resolution was moved by Regent Gerrard, seconded by Regent O'Harrow, and carried unanimously:

Resolution 2048: That, upon the recommendation of the UW-Madison, Oshkosh and Stout Chancellors and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved, and authority be granted to plan, bid and construct at the cost indicated, from General Obligation Bonding (GPR and Gift/Grant Funds).
Headings - Plant Sciences Bldg. Notation: Concept & budget report for remodeling & addition project approved.

Headings: UW-Stout - Buildings

Notation: Communications Center Handicapped Accessibility, ~~\$343,100~~ Project - C & B report approved.

Regent Gerrard stated that the next item requested authority to accept a gift of two parcels of land in a block bounded by University and Randall Avenues and Johnson Street from the University of Wisconsin Foundation (made possible through a gift from the Oscar Rennebohm Foundation). This property is valued at \$242,000. It was indicated that having this property available for use by the University would help alleviate some severe space needs being experienced by a number of the UW-Madison programs. In addition, ownership of the properties by the Board of Regents would be important in long-range planning for this area of the campus. A detailed presentation had been made to the committee by Chancellor Shain.

Regent Gerrard moved and Regent O'Harrow seconded the following resolution, which was passed unanimously:

Resolution 2049: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to accept the following property as a gift from the University of Wisconsin Foundation (made possible through a gift from the Oscar Rennebohm Foundation):

Headings: ~~1345 University Avenue vacant lot (Parcel No. 709-221-0308-4)~~
Notation: Gift of land at 1345 Union Ave & 317 N. Randall Ave to UW-Madison accepted.

~~317 North Randall Avenue former Post Office site (Parcel No. 0790-221-0312-5)~~

Chairman Gerrard presented the next item which was a request for budget increases for two approved major projects at UW-Madison. The first was a \$55,000 budget increase for the Bacteriology Addition/Electrical Substation project at UW-Madison to reinstate two cold rooms programmed as part of the research laboratory complex now under construction, using non-GPR research funds. The cold rooms are considered essential for the safety and efficiency of the operation of the scientific programs conducted by the Department of Bacteriology.

The second item relates to the need to correct leakage in a masonry exhaust shaft lining, causing serious operating problems and energy waste in the McArdle Laboratory Building. The estimated cost is \$35,000 of GPR supported funds.

It was moved by Regent Gerrard, seconded by Regent O'Harrow, and voted, that the following resolution be adopted:

Resolution 2050: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to increase the budgets for the following major projects and to complete construction:

Headings: Bacteriology Bldg.
Notation: Budget increase approved for

~~1977-79 Bacteriology Addition/Electrical Substation project, an increase of \$55,000 for a revised total budget of \$2,450,200 (Graduate School Research Funds - Non-GPR)~~

Headings: McArdle Laboratory
Notation: Budget increase approved for

~~1975-77 McArdle Laboratory Remodeling project, an increase of \$35,000 for a revised total budget of \$541,700 (SBTF Capital Improvement Funds - Energy Conservation Funds - GPR)~~

The next item presented by the Chairman involved a series of minor projects, including five energy conservation projects, involving a \$72,800 twelve-building temperature controls modification and a \$24,600 Maintenance/Stores Building insulation project at UW-Eau Claire; two insulation projects at UW-Madison involving 16 buildings for \$155,700; a \$68,700 chilled water interconnect project at UW-Stout to allow either of two chiller units to serve two buildings; and a request for an additional \$200,000 increase to the UW System's allocation from the State Building Commission for small energy conservation projects. At UW-Superior, program-revenue funded roof repair projects involve an increase in the

scope and the budget of the Student Center roof repairs project to \$201,000 and repairs to the Crownhart Residence Hall roof totaling \$50,000. Background documentation for each of these projects was reviewed by the committee.

Regent Gerrard moved the following resolution, which was seconded by Regent O'Harrow, and voted unanimously:

Resolution 2051: That, upon the recommendation of the UW-Eau Claire, Madison, Stout and Superior Chancellors and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct:

<i>Headings - UW-Eau Claire - Bldgs.</i>	<i>Notation - minor project approved</i>	<u>Twelve Building Temperature Controls Modifications, UW-Eau Claire, Program Revenues - Non-GPR</u>	<i>project approved</i> \$ 72,800

<i>Headings: Energy Conservation</i>	<i>Notation</i>	<u>Systemwide 1979-81 Small Energy Conservation Projects, GPR/SBTF</u>	<i>approved</i> 200,000
			<hr/> \$772,800

Regent Gerrard next presented a request to lease 3,417 square feet of office space to accommodate the School of Veterinary Medicine staff planned growth in 1980. It was moved by Regent Gerrard, seconded by Regent O'Harrow and voted, that the following resolution be adopted:

Resolution 2052: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to lease the following space, at the cost indicated, from General Purpose Revenues:

Headings - Randall Ave - 333 N. Randall
Not: least of space from UW Foundation approved.
Headings: UW Foundation - Notation: lease of space owned by Foundation at 333 N. Randall Ave approved.

The University of Wisconsin Foundation, Lessor
 337 Wisconsin Center
 702 Langdon Street
 Madison, Wisconsin

The term of the lease will be January 1, 1980 through December 31, 1982 at an annual lease cost of \$26,459:

1,699 square feet of basement space at \$2.50/square foot (\$4,248 annually)

3,417 square feet of third floor office space at \$6.50/square foot (\$22,211 annually)

-

The 1980 Annual Capital Budget Review requests were then presented by Regent Gerrard who indicated the listing includes three projects for which increases in the project budget are needed and two new projects, funded from program revenue or gift funds. The Board was also informed that a project to purchase the Bay Apartments at Green Bay had been identified but could not yet be presented for consideration since negotiations for purchase had not been completed. Each of the projects requested had been reviewed and thoroughly discussed by the committee.

It was moved by Regent Gerrard, seconded by Regent O'Harrow, and voted unanimously that the following resolution be adopted:

Resolution 2053: That, upon the recommendation of the respective Chancellor and the President of the University of Wisconsin System, the following list of major capital projects be approved and submitted for consideration in the 1980 Annual Capital Budget Review Session:

<u>Projects</u>	<u>1980 Annual Budget Review Request</u>	<u>Prior Funding Authority</u>	<u>Total Project Request</u>
UW-Stevens Point:			
University Center Kitchen & Dining Room Renovation	\$ 478,100 SA	\$ 519,400 SA	\$ 997,500

Nutritional Sciences (Conv./Remodeling of Children's Hospital)	1,414,000 GOB	1,286,000 GOB	2,700,000
Stadium Office Remodeling & Ext. of Enclosed Space	830,000 GF	--	830,000
Northeast Family Practice Clinic	<u>790,000 SA</u>	--	790,000
TOTAL	\$3,606,400		

GOB - General Obligation Bonding SA - Self-Amortizing Funds
GF - Gift Funds

Regent Gerrard stated the committee had next considered approval of the 1979 Campus Development Plan and Land Holdings for UW-Parkside. Chancellor Alan Guskin briefly reviewed the campus map for the Board. Upon the motion of Regent Gerrard, seconded by Regent O'Harrow, the following resolution was adopted on a unanimous vote:

*Heading
UW Parkside - Bldgs.
NOTATION - 1979 Campus
Development Plan
Approved.*

Resolution 2054: That, upon the recommendation of the UW-Parkside Chancellor and the President of the University of Wisconsin System, the 1979 Campus Development Plan, as updated, be approved to document physical facilities and campus boundaries for UW-Parkside.

Regent Gerrard advised that the committee considered a request to name the Science and Technology Building at UW-Stout after John A. Jarvis, former Dean of the School of Industrial Technology, Dean of Instruction, and Vice President for Academic Affairs at UW-Stout. The following resolution was moved by Regent Gerrard and seconded by Regent O'Harrow:

*(Heading UW-Stout - Bldgs -
Name approved)*

Resolution 2055: That, upon the recommendation of the UW-Stout Memorials Designation Committee, the Chancellor and the President of the University of Wisconsin System, authorization be granted to name the Science and Technology Building the John A. Jarvis Science and Technology Building.

Being advised that Dr. Jarvis is still living, Regent DeBardeleben said he continued to feel that it is not appropriate to name buildings or facilities after people who are not deceased. There are frequent examples nationally and on state levels of distinguished people whose conduct changes to the extent that they disappoint those who admired them, and while not saying this about Dr. Jarvis, it seemed an unsound policy and he said he would vote against this as he had done when such requests had been submitted on other occasions.

Regent McNamara said it was his understanding that it was Regent policy that the person had to be deceased or near death and that he supported Regent DeBardeleben's view.

Regent Beckwith said his personal opinion was that, as a matter of principle, educational buildings should not be named after people. "I think that once you move into the area of naming buildings for particular individuals, you have an impossible situation."

Regent Walter felt that if the Board had a policy, it should be followed or there was no need to have one.

Regent Veneman said he would vote in favor of the request in light of the present circumstances, but suggested that there be more strict observance of the policy in the future.

*Headings Buildings
NOTATION: Policy for NAMING buildings discussed.*

University Bldgs. - Names

Regent DeBardeleben stated that he would be prepared to divert from his uniform opposition to such requests if the Board would pass a resolution stating that there would be no more exceptions. "If you say you're going to vote for this one, we're inviting another exception next month and we're going to get one. The policy is absolutely what was predicted: this Board felt many months ago that this policy would get to be absolutely meaningless, and that's what we're confronted with. We're told we can't vote against it because we're going to offend somebody."

Present policy provides that these requests must be taken up in Executive Session by the Physical Planning Committee at least 30 days prior to the meeting at which action would be desired. This allows every request for an exception to be discussed on its own merit and be denied, if it is deemed inappropriate. Requests approved at the committee level could then be discussed by the full Board in closed session.

Regent DeBardeleben felt that there would still be opportunities for information to leak out, placing the Board in an uncomfortable posture if a request should not be approved.

At the suggestion of President Grover, it was agreed that an agenda item for the Board's next meeting would be discussion of its current policy and any changes which might be desirable.

On a roll call vote, Resolution 2055 was adopted, with Regents Barkla, Beckwith, Elliott, Erdman, Fitzgerald, Fox, Gerrard, Grover, Lawton, O'Harrow, Thompson, and Veneman voting "Aye" (12) and Regents DeBardeleben and Walter voting "No" (2).

Regent Gerrard informed the Board that a summary report on energy use in the System revealed that nearly 9% less energy had been consumed in the first quarter of this year than in a comparable period last year. These savings are above the near 15% statewide savings for the 1978-79 fiscal year. A few examples cited were UW-Green Bay, 45%; UW-River Falls, 33%; UW-Eau Claire, 31%; UW-Whitewater, 30%.

*Headings - Energy Conservation
Notation: Report on 1978-79 Savings.*

Regent Gerrard indicated that one additional item considered by the committee was a request to lease 6,500 square feet of space from the UW Foundation in its building located at 905 University Avenue. This space would be used to house the staff in a special International Studies program. Approval of this lease would allow for consolidating the entire staff presently located in this building and allow the release of approximately 2,000 square feet of space that is presently occupied. The following resolution was moved by Regent Gerrard, seconded by Regent O'Harrow, and voted unanimously:

Resolution 2056: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to lease the following space:

Heading: University Ave - 905 Univ. Ave.
Notation - lease of space from UW Foundation approved ✓

6,500 square feet of space in a building located at 905 University Avenue, Madison, Wisconsin

The University of Wisconsin Foundation, Lessor
702 Langdon Street
Madison, Wisconsin

The term of the lease is from February 1, 1980 (or date of occupancy) through December 31, 1983, at an annual cost of \$45,500 (\$7.00 per square foot) from federal AID grant funds (Non-GPR)

Heading: UW Foundation
lease of space at 905 Univ. Ave to UW-Madison approved ✓

Regent Gerrard introduced Mrs. Noel Richards, noting that caring for her young family provides few opportunities for her to accompany Chancellor Richards to Madison, and that he was pleased she could be present.

Regent Barkla commented on the committee's meeting during lunch at Camp Randall Stadium with Athletic Director Elroy Hirsch and other members of the UW-Madison Athletics Department, which was followed by a tour. It was reported that more than \$800,000 has been raised to fund the proposed stadium remodeling project. Mr. Dan Tzakis, Madison, who has been instrumental in spearheading the fund drive was also present. "He ought to be commended for his fund-raising efforts."

COMMUNICATIONS, PETITIONS AND MEMORIALS

Regent Erdman presented the following memorial resolution, which was seconded by Regent Fox and carried unanimously:

Resolution 2057: WHEREAS, Joseph S. Holt served the University of Wisconsin and then the University of Wisconsin System in a number of positions continuously and with distinction over a period of thirty-three years, beginning in 1946 and ending with his untimely death in November, 1979; and

Heading: Regent Officers

Notation: Memorial Res. for Joseph S. Holt

WHEREAS, he made a unique contribution in the past four years to the well being of the UW System through his exceptionally conscientious performance of the many and varied tasks demanded of him in his dual roles of University System Trust Officer and Secretary of the Board of Regents; and

WHEREAS, many members of this Board and colleagues throughout the University community regarded him as a close friend;

✓ Joseph S. Holt (died 11/20/79)

(There also are "Secretary" cards - mark on last one - see Regent Officers.)

BE IT RESOLVED, on behalf of all in the University of Wisconsin System, that the dedicated and unselfish service of Joseph S. Holt be acknowledged formally. Further, by this action, the Board extends sincere condolences to his wife, Helen, and their sons and daughters.

Handing- United Council ---
UNFINISHED AND MISCELLANEOUS BUSINESS *NOTATION: Report on Student Regent bill*

Report by United Council of Student Governments - Tim Fleming, President

On behalf of United Council, Mr. Fleming expressed sincere appreciation to President Young for all his work on behalf of students and especially in the student fee area. "He's been aware, more than a lot of administrators and faculty that I've ever known, about the cost of education and what it takes for a university student to go to school. . . So, thank you for all your services to the students, and good luck in the future."

Mr. Fleming indicated that United Council would be having introduced within the next month a student Regent bill. He recognized that many people feel that students are a special interest group within the System and, therefore, should not be granted a voice on the Board. They do have good accessibility to the Board by being allowed time under the monthly Report of the President of the System and there is input in System Administration. However, he said it is difficult to listen to discussions without being able to be involved with some of the comments that are made. He stressed that this move was not being made out of disregard for the actions of the Regents but, rather, to achieve more active participation in the System, through speaking and involvement in the Board meetings.

Discussion of the position description for the Secretary of the Board and/or Trust Officer

Two separate suggested position descriptions had been distributed: one, essentially continuing the position as performed by Mr. Holt who functioned as Secretary of the Board and Trust Officer; and, a second, describing a more limited responsibility for position, namely, that of Secretary of the Board.

Regent DeBardeleben offered the following comments:

(1) Although the job descriptions have a statement at the bottom of each stating that the System is an affirmative action/equal opportunity employer, he felt that the Board of Regents should be approaching affirmative action in a most positive and meaningful way so far as this position is concerned and should be active in recruiting minority members and women for this job.

(2) He did not feel that the position of Secretary to the Board should be characterized or described in such a manner as to imply that there is an adversarial relationship or the potential for an adversarial relationship between the Secretary and System Administration--an implication which he felt was evident in the description under discussion.

Add this Handing: Regent Officers

(3) He felt that the duties of the position of Secretary should be limited to those as Secretary to the Board, seeing no philosophical nor other reason to combine the duties of Secretary of the Board with those of Trust Officer, particularly in view of the revised manner of handling trust funds. However, he disagreed with the reference in the job description limiting the position to duties of Secretary, which indicates it could involve reassignment of some of the activities currently being performed by the Vice Presidents. "I think that the Secretary of the Board should be just that. It should be a Secretary of the Board, nothing more. It should not take over any duties of the Vice Presidents. And I would think that the salary for the position would be a salary in the range of not \$25,000 to \$30,000, but in the range of \$15,000 to \$20,000."

In reacting to the suggested salary range, Regent Fox felt that to state that significant effort should be directed toward recruiting a woman or a minority, then take out all the duties and cut down the salary, seemed bad public policy. Regent DeBardeleben said he did not intend that kind of relationship between his comments.

Having observed the operation of the office for 2-1/2 years, Regent Beckwith said it seemed entirely appropriate to give the Trust Officer duties to the office of the Vice President and Controller who worked with Joe Holt in that relationship and does have a major financial responsibility on a day-to-day basis. It changes the basis upon which recruitment would be conducted since there are considerably different skills required if an individual is to be a Trust Officer combined with the Secretary. "I think they should be separated. I don't see a need to have another position of Trust Officer."

He expressed opposition to the suggestion that the responsibility for making legislative appearances and liaison in behalf of the Board of Regents be assigned to the Secretary of the Board. The System should speak with one voice and not with one legislative representative for the Board and another for the System.

Without the Trust Officer duties, he felt the position became simply one which would be largely administrative and clerical in nature. "It's not a job with a great deal of responsibility or requiring a great deal of intellectual ability." He offered no comment relating to the appropriateness of the salary range but, in his view, the Board should be looking for someone who would be an administrative secretary/office manager/personnel manager type, with considerable experience (preferably within the UW System). It should be someone who could handle the needs of the Board, all the administrative details, purchasing, etc., but not be called upon to make substantive decisions in the financial or trust office area.

President Grover stated that the reference to legislative liaison responsibilities was added as an option for the Board to consider as it looked at the position. "One of the alternatives to consider, taking this to its ultimate conclusion, it seems to me, is to give the Trust Office function to Reuben Lorenz' division, the Secretary functions to Robert Winter's division, and we can function with the staff under existing conditions."

Regent Erdman felt that what both Regents Beckwith and DeBardeleben had stated, about the type of job that they would like to see fulfilled, was reflected in the position description limiting the position to duties of the Secretary of the Board and moved the following:

That the position description, which limits the responsibilities to functioning as Secretary to the Board of Regents, be adopted as the basis for recruitment to fill the vacancy created by the untimely death of Joseph Holt.

Regent Beckwith indicated his view that the Board might find a fully-qualified, excellent person without a college degree, and it was suggested that such a qualification requirement should not be an absolute necessity as the Board was involved in recruiting. Regent DeBardeleben felt a qualification section was inappropriate in such a document and that the motion should be amended so that the section on qualifications was deleted.

Regent Veneman felt that, rather than eliminating the section, it be written to express the sense of the requirement, but Regent DeBardeleben felt it was reflected under "essential skills and knowledge."

Vice President Winter related that phrasing similar to "A degree from an accredited college or university is preferred but not essential" could be included since, with the necessity to correctly codify all Regent actions and policies, it might be helpful for an individual to have a background in Library Science, a view he stated was shared by Senior Vice President Smith.

Regent Fox expressed the hope that the Board would not establish a position so limited that either no one would want it or whoever is hired is not able to do an effective job for the Regents. "I think if you make this a very limited position, cut down the visibility, cut down on the salary, etc., that anyone we get is going to be exactly what you want the description to be: not very much."

At the conclusion of the discussion, the following was moved by Regent DeBardeleben, seconded by Regent Beckwith and adopted on a unanimous vote:

*Headings: Regent Offices
Notation: Approval
of position description
for secretary*
Resolution 2058: That the position description, which limits the responsibilities to functioning as Secretary to the Board of Regents, be adopted as the basis for recruitment to fill the vacancy created by the untimely death of Joseph Holt, following redrafting of the "Qualifications" section to eliminate graduation from a four-year college or university as a specific requirement.

To appropriately conclude earlier discussion relating to future performance of the Trust Officer functions, the following was moved by Regent Beckwith, seconded by Regent Veneman and carried unanimously:

*Headings: Regent Offices
Notation: Transfer
of Trust Officer duties
to Vice Pres & Controller.*
Resolution 2059: That the position of Trust Officer of the University of Wisconsin System and the trust officer duties heretofore carried out by the Secretary of the Board be transferred in full to the office of the Vice President and Controller.

Regent DeBardeleben moved adoption of the following resolution, which was properly seconded, and it was voted, with Regents Barkla, DeBardeleben, Elliott, Erdman, Fitzgerald, Fox, Gerrard, Grover, Lawton, McNamara, and O'Harrow voting "Aye" (11) and Regents Beckwith, Majerus, Thompson, Veneman, and Walter not present (5):

Resolution 2060: That the meeting recess into closed session to consider personnel matters as permitted by s. 19.85 (1)(c) and (1)(f), Wis. Stats., to consider the sale and purchase of land, as permitted by s. 19.85 (1)(e), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85 (1)(g), Wis. Stats.

The meeting recessed into closed session at 11:35 A.M.

- - -

The Board arose from closed session at 1:10 P.M.

CLOSED SESSION ACTIONS

President Grover announced the following actions which had been taken in the closed session:

Handwritten notes:
UW GB-Bldgs.
Headings - Budget, Capital
Notation: Exec Comm authorized to approve capital budget request for purchase of Bay Apts. and adjacent lands.

Resolution 2061: That the Executive Committee of the Board be authorized to approve a request for consideration by the State Building Commission at its January 22, 1980 meeting the enumeration of a project in the 1980 Annual Budget Review Session to cover the cost of purchasing the renovated Bay Apartment complex for UW-Green Bay, and

That the Executive Committee of the Board be further delegated authorization to request State Building Commission consideration of approval to purchase the adjacent vacant lands owned by Inland Steel Development Corporation from the Advance Land Acquisition funds in the State Building Trust Fund, contingent upon legislative approval to enumerate a project to purchase the renovated Bay Apartment Complex.

Resolution 2062: That, upon the recommendation of the President of the Board of Regents, pending completion of recruitment for a Secretary of the Board, the following actions be taken:
Handwritten notes: Headings: Regent Officers; Notation:

~~That Robert W. Winter, Jr., be named Acting Secretary of the Board, and~~

~~That Marlene G. Alsmo be named Assistant Secretary of the Board.~~

Handwritten notes:
Headings: UW-Superior Bd. of Visitors.
Notation: Appt of Board of Visitors

Resolution 2063: That, upon the recommendation of the University of Wisconsin-Superior Chancellor and the President of the University of Wisconsin System, the following individuals be appointed to the UW-Superior Board of Visitors to fill the unexpired terms of Mr. Arthur Cirilli (1982) who is resigning due to health reasons and of Mrs. Marjorie Kinney (1980) who is resigning for personal reasons:

Mr. Robert Banks, Superior
Mr. Douglas Moodie, Superior

Resolution 2064: That authorization be granted to recruit for a Dean of the UW Center-Baraboo/Sauk County, due to the announced retirement of Dean Theodore Savides at the close of the 1980 academic year.

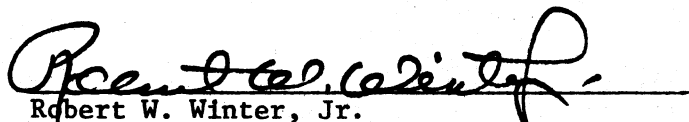

Handwritten notes:
Headings = UW Center-Baraboo/Sauk Co.
Notation: Recruitment of Dean authorized.

Resolution 2065: The Board of Regents of the University of Wisconsin System, without accepting the contention that President Young and/or Acting Chancellor Schur did not have authority to dismiss Dr. Alan Weston as Dean of the School of Allied Health Professions at UW-Milwaukee, and acting under authority of Section 36.17 (1), Wis. Stats., does hereby dismiss Dr. Alan Weston as Dean of the School of Allied Health Professions, UW-Milwaukee, such dismissal to take effect immediately.

UW-Milwaukee - staff.
Action: Dismissal
of

Weston, Alan

The meeting adjourned at 1:10 P.M.

Robert W. Winter, Jr.
Acting Secretary

TO: Board of Regents of the University of Wisconsin System

FROM: Regent Herbert Grover

SUBJECT: November 13, 1979 Meeting of the WBVTAE

The Wisconsin Board of Vocational, Technical and Adult Education met at their offices in Madison on November 13, 1979. This report summarizes agenda items which may be of interest to the Regents of the University of Wisconsin System.

Agenda of the WBVTAE

I have attached the agenda of the Board meeting for your information. If there are items of particular interest to you, additional information may be obtained from the Office of Academic Affairs of the UW System.

State Legislation

A bill, AB 868, has been introduced which would require institutions in the University of Wisconsin System and the Vocational, Technical and Adult Education Schools to begin the fall semester after the first Monday in September. The reaction to this bill from the VTAE districts is generally negative with some of the concerns being: The bill interferes with the collective bargaining process because the school calendar is a negotiable item; Current schedules allow completion of the semester before December break; and, Open entry programs would be stymied since many are offered on a 48-week basis.

The Board was cool to this bill unless certain changes and exceptions were made.

Federal Legislation

Major federal legislation was the signing into law by the President of the bill creating the new Department of Education. The new department consolidates current programs operated by the Office of Education, DHEW, and several other education programs. A total of 152 current programs with a budget of \$14 billion will be in the new department. A list of these programs is appended for your information.

On October 30, the President nominated Judge Shirley Hufstедler, 9th U.S. Circuit Court of Appeals, as the first Secretary of the department. The nomination came as a surprise to the education community since Judge Hufstедler has not had extensive experience in the education field even though she serves on the board of trustees of several higher education institutions. The judge is highly regarded in the legal community and her name has been often discussed as the probable first woman appointee to the U.S. Supreme Court.

EXHIBIT A

The new department is expected to be in operation by next April.

Evaluation of VTAE Offerings and Services

The VTAE System, like the University of Wisconsin System, is concerned about evaluation of its services and offerings for students and the public. An overview of their procedures for carrying out such evaluations will be of interest to you. A copy is attached for your information.

AGENDA

Meeting of the
Wisconsin Board of Vocational, Technical and Adult Education

November 13, 1979
9:00 a.m.

Wisconsin State Board Office - Madison

PROCEDURES FOR EVALUATION OF VTAE OFFERINGS AND SERVICES

In July, 1978, a task force was formed and charged with the following:

- To develop a plan which would include on-site reviews by exception.
- To identify district roles and state roles in evaluation.
- To coordinate present evaluation efforts.
- To meet federal and state mandates, as well as state and district VTAE needs.

The task force was chaired by Christine E. Nickel, WBVTAE, and Eugene Battist, North Central VTAE District. Other members were Roland Krogstad and Gerald Chlebowski, WBVTAE; Dan Wagner and Dick Roder, Wisconsin Indianhead VTAE District; Dean Wessels, VTAE District Four; and Robert Pruse, Western Wisconsin VTAE District.

The task force is presenting a plan which includes three phases of evaluation.

Phase I - Monitoring and Screening: This phase would be done at the district level, involves local collection and analysis of data to determine the viability, effectiveness and degree of accomplishment of objectives. District and state personnel will review the process and analyze results. This screening will serve as a basis for making decisions to continue educational offerings, to modify the offering or to request an on-site review.

Phase II - On-Site Reviews: The on-site review, a review by exception concept, may be requested by district or state staff when screening data or other information indicate the need for an indepth study. The rationale for using the review by exception concept is to make more efficient use of resources in overall program planning, implementation and evaluation. New and unique programs will continue to be evaluated within one year following the graduation of the first class.

Phase III - Impact Appraisal: Information gathered in Phases I and II will be analyzed and compiled in accordance with federal regulations and state needs. Reports, information for decision-making and future state planning will utilize this information. An annual and a comprehensive five-year Accountability Report must be prepared for the federal government.

All VTAE offerings will need to be evaluated. These offerings include:

- 1) Postsecondary Programs - Districts have developed evaluation procedures for assessing postsecondary programs and will continue to review such programs on a periodic basis.
- 2) Field/Community Services - A number of districts have evaluated their field/community services offerings using a model developed in conjunction with the University of Wisconsin-Stout. All districts will become involved.
- 3) Additional Services to Special Populations (Women, Members of Minority Groups, Handicapped Persons, Disadvantaged Persons, Persons of Limited English-Speaking Ability, and Others) - Our reports to the federal government must respond to services to these special populations.
- 4) Other Federally Funded Programs, Projects, Activities and Services - Many of the federally funded efforts will be reported in this category.

Districts will be requested to develop a comprehensive Evaluation Plan incorporating the three phases and all educational offerings in the district. State staff will consult with the districts in the developmental process as needed and will approve the plan. This plan will continue to build upon existing efforts at the district level. A more complete, coordinated evaluation effort on a statewide basis should result from these efforts.

It is anticipated that the evaluation plan will become effective by July 1, 1980.

IV. REPORT OF ACTIONS TAKEN BY THE STATE BUILDING COMMISSION ON 28 NOVEMBER 1979 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-EAU CLAIRE	Requested approval of the Concept and Budget Report; release of an additional \$15,000 of State Building Trust Funds (Planning); and authority to prepare final plans, bid, and construct the 1977-79 McPhee PE Center and Campus Laboratory School / Kjer Theatre / Brewer Hall Handicapped Accessibility project for an estimated total project cost of \$269,000.	APPROVED C&BR, release of \$15,000 SBTF (Planning), and authorized preparation of final plans, bidding, and construction of HA work at \$269,000 AND stipulated additional \$6,500 for construction of vestibule using other funds.
2. UW-LA CROSSE	Requested authority to plan, bid, and construct a 1979 Cartwright Center Handicapped Access project for an estimated total project cost of \$170,000.	APPROVED use of \$14,000 of Program Revenue Funds for the development of Preliminary Plans and a Concept & Budget Report.
3. UW-MADISON	Requested authority to use \$10,000 of Program Revenue Funds for the preparation of Preliminary Plans and a Concept & Budget Report for the 1979-81 Camp Randall Turf Replacement project for an estimated total project cost of \$550,000. * * *	APPROVED
	Requested allotment of \$224,000 of State Building Trust Funds to plan, bid, and construct a 1977-79 Service Building/ Chemistry Building/Russell Labs Ventilation Improvements project. * * *	APPROVED
	Requested allotment of \$21,000 of State Building Trust Funds (Planning) and authority to prepare a Concept and Budget Report for a Wausau Family Practice Clinic project at an estimated total project cost of \$920,800 of Self-Amortizing Bonding. * * *	APPROVED

UNIVERSITY	PROJECT	ACTION
3. UW-MADISON (cont.)	Requested approval to renew the lease of 20,000 sq. ft. of garage space and 14,000 sq. ft. of outdoor yard storage at 111 Gerry Court, Madison, for the UW-Madison Physical Plant Garage. The term of the lease is from 1-1-80 to 12-31-80, with an option to renew for one year. The rental rate is \$2.22 per sq. ft. (\$44,304 per year) for the first year and \$2.37 per sq. ft. (\$47,400 per year) for the renewal period. UW-Madison will pay for utilities and services, resulting in an equalized rate of \$2.72 per sq. ft. and \$2.87 per sq. ft. for the second year. The lease also contained a real estate tax escalator.	APPROVED
4. UW-MILWAUKEE	Requested allotment of \$128,100 of State Building Trust Funds to plan, bid, and construct a 1979-81 Six Building Insulation project.	APPROVED
5. UW-OSHKOSH	Requested authority to plan, bid, and construct a 1980 Parking Facilities project for an estimated total project cost of \$142,800.	APPROVED
6. UW-PARKSIDE	Requested allotment of an additional \$29,200 of State Building Trust Funds for the 1977-79 Machine Storage Shed-Grounds project for a revised total project cost of \$86,500.	WITHDRAWN
7. UW-PLATTEVILLE	Requested release of \$46,000 of Land Acquisition Funds to purchase one 0.09 acre parcel of land.	APPROVED
8. UW-RIVER FALLS	Requested approval of the Concept and Budget Report; release of an additional \$14,000 of State Building Trust Funds (Planning); and authority to plan, bid, and construct the 1977-79 Karges PE Center and Ames Teacher Education Center Handicapped Accessibility project for an estimated total project cost of \$221,900.	APPROVED

UNIVERSITY	PROJECT	ACTION
9. UW-STEVENS POINT	Requested allotment of \$42,000 of State Building Trust Funds to plan, bid, and construct a 1979-81 Four Building Masonry Repairs project.	APPROVED release of \$1,000 of State Building Trust Funds (Planning) for the preparation of final plans and specifications.
* * *		
NOTE:	During its deliberation of this request, the Commission extensively discussed the problem of bonding vs. cash funding related to the Preventive Maintenance Projects, Handicapped Access Improvements, and Energy Conservation Projects, etc., programs and its impact upon the Minor Projects' programs and reaffirmed its previously expressed desire for an integrated priority list of all projects from each Agency. Please refer to attached 26 November 1979 Brown to All State Agencies letter and referenced material (pink).	
10. UW-STOUT	Requested allotment of an additional \$5,900 of State Building Trust Funds for the 1977-79 Heating Plant Chimney Repairs project for a revised total project cost of \$22,900.	APPROVED
11. UW-SUPERIOR	Requested authority to plan, bid, and construct a 1979 South Campus Nature and Recreation Area Development project for an estimated total project cost of \$60,800.	WITHDRAWN
12. UW-WHITEWATER	Requested approval of the Concept and Budget Report, release of an additional \$15,000 of State Building Trust Funds (Planning), and authority to prepare final plans for the 1977-79 Plant Sciences Greenhouse project for an estimated total project cost of \$344,000.	APPROVED
* * *		
	Requested authority to plan, bid, and construct a 1979 Recreational Fields/Physical Fitness Course project for an estimated total project cost of \$152,000.	APPROVED

UNIVERSITY	PROJECT	ACTION
13. UW-SYSTEM	UW-System Policy for Prorating Construction Costs of Central Heating and Chilling Plants to Program Revenue Funded Facilities (copy attached, yellow) was reviewed and considered.	MOVED that the question be returned to the UW-System for referral to the United Council of Student Government for review and recommendation to the Board of Regents and, following adoption by the Board, return to the Commission.
14. STATEWIDE (All Agency)	The Secretary requested allotment of \$100,000 of State Building Trust Funds to hire consultants to survey existing facilities; test materials; analyze procedures; and provide necessary protection devices, material, and clothing; monitor environment for State facilities; and construct projects in accordance with current OSHA requirements and EPA guidelines.	APPROVED

The State of Wisconsin

STATE BUILDING COMMISSION

STATE OFFICE BUILDING

MADISON, 53702

DATE: November 26, 1979

TO: All State Agencies

FROM: Paul L. Brown, Secretary

SUBJ: Funding for Special Preventive Maintenance Program

At the October 30, 1979 Building Commission meeting, the special preventive maintenance program was again discussed. (Other Business #9, attached). As a result of the discussion, the Commission unanimously agreed to proceed with item #2 and #3 of the attached memorandum. Even though there was a reluctance to identify the funding source for these projects at this time, the Commission did want the projects to proceed and consequently, released planning funds so the projects could be initiated in design.

During the course of the Building Commission's discussion, it became evident that the Commission had reservations about bonding for preventive maintenance projects. However, there was also a reluctance to start spending Building Trust Funds for special preventive maintenance projects and thus perhaps forego needed minor projects. Consequently, by adoption of item #3 of the attached memorandum, the Commission requested all agencies to develop an integrated priority list of all their projects, be they preventive maintenance, energy conservation, minor projects, or whatever.

In order that these categories of projects can move along in a timely way, I am asking each agency to submit their integrated priority list to me no later than December 14. It is expected that your list of projects will have to seek funding from the "all agency" allocation. Therefore, your list should incorporate all of your needs, and not be limited to your Building Trust Fund minor project allocation. It is my intention to secure a resolution of this matter at the January 9 Building Commission meeting.

PLB:AEM:jcl

The State of Wisconsin
STATE BUILDING COMMISSION

STATE OFFICE BUILDING

MADISON, 53702

DATE: October 30, 1979
 TO: Members of the State Building Commission
 FROM: Paul L. Brown, Secretary *PLB*
 RE: Suggested Approach to Funding for Special
 Preventive Maintenance Projects

As part of the 1979-81 budget process the Department of Administration requested and the Commission approved the establishment of a Special Preventive Maintenance Program to begin to implement a systematic approach to protecting the State's \$3 billion investment in its facilities. A special fund to be managed by the Building Commission consisting of \$25 million in Building Trust Funds for all agencies to use was approved for this purpose. Of the \$25 million, the Building Commission had identified and recommended funding for a series of high priority repair, maintenance and code compliance projects which totalled \$7.5 million. The balance of the projects were to be identified during the biennium as the program became established.

The dollar amount provided for the program was reduced to \$14 million by the Joint Committee on Finance and, just prior to the passage of the 1979-81 budget bill, Building Trust Funds were deleted and general fund supported borrowing was substituted as the source of funding for the program.

Governor Dreyfus has taken a firm position that bond revenue should not be utilized for a repair and maintenance program. However, the Governor has also stated that he recognized that certain projects are critical to maintaining the structural integrity or healthy working environment in the buildings. Consequently, the Governor's item veto in the budget bill provides an approval of \$28 million for various categories of projects such as handicapped accessibility, energy conservation, preventive maintenance, land acquisition and advance planning. The Governor's item veto also provides \$28 million to fund these projects which is comprised of \$12 million of Building Trust Funds and \$16 million of bonding authority. However, the determination of the particular funding source for the various projects is left to the discretion of the Building Commission. Thus, the Commission has to determine how to fund the projects identified under the various categories. Action has been deferred on several projects which would normally be given very high priority.

I am conscious of the philosophical arguments surrounding the principle of borrowing for special preventive maintenance projects. However, I feel obligated to express my concern that we not delay remedial work that serves to protect our investment in our facilities. Thus, I suggest the following course of action for your consideration.

1. Approve the allocation of \$4,441,200 of Building Trust Funds to fund the construction of the high priority projects listed below. These projects are unique in that if not implemented, possible injury or illness to building occupants or structural damage to the buildings could result. Also, some of these projects exceed \$250,000 and were not enumerated because the "category" itself was declared the enumeration. Finally, some of these projects were anticipated to be funded from the Special Preventive Maintenance Program, so the monies were deleted from the agency allocation for minor projects and the agencies don't have a funding source of their own.

Department of Administration

Central Services Bldg. Roof Repairs	\$ 177,000
Badger Bldg. Roof Repairs	131,200
Gef #1 Roof Repair	73,000

Department of Health & Social Services

Southern Center Steam Line Repairs	300,000
Central Center Fume Hoods Code Compliance	150,000
Central Center Masonry Repairs	60,000
Northern Colony Laundry Bldg. Roof Repairs	74,000

Department of Public Instruction

School for Visually Handicapped, Admin/Educ. Building Roof	146,000
School for Deaf, Voc. Rehab. Bldg. Walker- Cochrane Walkway Roofs	85,000

University of Wisconsin System

UW-Madison Chemistry Bldg. Fume Hoods Code Compliance	2,500,000
UW-Madison Fieldhouse Roof	495,000
UW-Madison Primate Lab Ventilation Code Compliance	250,000
	<hr/>
	\$4,441,200

2. Approve the release of \$200,000 of Planning Funds to prepare Concept and Budget Reports and working drawings for these high priority projects listed above. These projects will be returned to the Building Commission for approval of the Concept and Budget Reports.

Building Commission

October 30, 1979

Page 3.

3. Instruct agencies that no more funds will be allocated from these categories of projects until they have exhausted their individual allocations. Consequently, they should be instructed to review their remaining preventive maintenance and minor projects to determine their relative priority, and request funding for those highest priority projects from the balance of their allocation of funds.

The implication of this course of action is that some desired minor projects will not be able to proceed because of a lack of funding. However, we will be addressing our most critical needs. A further implication of this course of action is that it may become necessary to use borrowing authority for other categories of projects such as handicapped accessibility, land acquisition and energy conservation when our cash funds are exhausted. We will have to make a determination of future funding sources when we have a clearer picture of available financing options.

PLB:jcl

I. University of Wisconsin System Policy for Prorating Heating and Air Conditioning Costs for Program Revenue Funded Facilities Served by a Campus Heating/Chilling Plant

A. Campus Heating/Chilling Plants, Distribution Systems, and Extensions

- A.1. Project costs for the initial construction, subsequent additions, modification, repair and maintenance of campus central heating/chilling plants shall be requested to be funded from GPR supported funds.
- A.2. Project costs for the initial construction, subsequent additions, modification, repair and maintenance of campus heating/chilling distribution system service lines, including related tunnels, access pits, and/or conduits, shall be requested to be funded from GPR supported funds.
- A.3. Project costs for the initial construction of heating/chilling distribution system service line extensions, from the campus heating/chilling distribution system service lines to a building, shall be requested to be funded from the same source of funds used in the project cost for the construction of the building served.

B. Satellite Heating/Chilling Plants

- B.1. Project costs for the initial construction, subsequent additions, modification, repair and maintenance of satellite heating/chilling plants shall be requested to be funded from the same source of funds used in the project cost for the construction of the building(s) served.
- B.2. Project costs for the initial construction, subsequent additions, modification, repair and maintenance of campus heating/chilling distribution system service lines and extensions, including related tunnels, access pits, and/or conduits shall be requested to be funded from the same source of funds used in the project cost for the construction of the building(s) served.

C. Prorating Heating and Air Conditioning Operating Costs for Program Revenue Funded Facilities Served by Campus Heating/Chilling Plants

- C.1. The UW System is required to allocate operating costs of campus central heating/chilling plants in accordance with the provisions of s. 20.285(1)(c), Wis. Stats., which states as follows:

"Utilities and heating. A sum sufficient to pay for the use of electricity, water and sewer and to cover the cost of coal or other fuels used for heating or cooling, including freight charges and local hauling

charges, where applicable. Coal or fuel oil purchases under this paragraph shall be purchased pursuant to s. 16.71. Payment for coal purchased hereunder shall be made as provided in s. 16.91. This program expenditure shall be reimbursed from par. (h) for the cost of all charges, including transportation, properly allocable to auxiliary enterprises."

- C.2. Allocation of operating costs from satellite heating/chilling plants in Program Revenue funded facilities for services provided to GPR-funded facilities shall be reimbursed in the same manner as auxiliary enterprises, per s. 20.285(1)(c).

II. The State Building Commission Action Requesting Regent Policy

The State Building Commission, at its regular meeting on May 22, 1979, discussed a modification in the central heating/air conditioning system at UW-Green Bay and a University Center air conditioning project at UW-Whitewater. The following action was taken in deferring these two requests:

MOVED BY SENATOR THENO, SECONDED BY MR. FISH, TO DEFER THE REQUESTS AND HAVE THE UW DEVELOP A POLICY PROPOSAL FOR CONSIDERATION AND ACTION BY THE BOARD OF REGENTS WHICH ADDRESSES THE SUBJECT OF PRORATING HEATING AND AIR CONDITIONING COSTS FOR PROGRAM REVENUE FUNDED FACILITIES SERVED BY A CAMPUS CENTRAL HEATING/COOLING PLANT. MOTION CARRIED.

The motion resulted from a discussion initiated by Governor Dreyfus, noting that the cost for the capital investment in central chillers was charged to General Purpose Revenues while all of the funding for a satellite chiller, serving only a fee-supported student center came from Program Revenues. The varying impact that these two funding methods have on student charges resulted in the State Building Commission adopting the above resolution.

III. Review of and Rationale for University of Wisconsin System Policies (Pre- and Post-Merger) for Prorating Heating and Air Conditioning Costs for Program Revenue Funded Facilities Served by a Campus Central Heating/Chilling Plant

A. Past and Current Regent Policies Relating to Funding Source for Constructing Central Heating/Chilling Plants and Satellite Heating/Chilling Plants

A-1 Central Heating/Chilling Plants

The Regents of the pre-merger Chapter 36 and 37 institutions and the Regents of the merged System have consistently recommended funding all costs for constructing central heating/chilling plants from GPR-supported funds. This decision has been consistently endorsed in the form of budget approvals by the State Building Commission, the Legislature and the Governor.

Prior to merger, the two university Systems had separate policies relating to the concept of providing chilling capacity. The former Chapter 36 universities (UW-Green Bay, Madison, Milwaukee, and Parkside) were provided with central chillers funded from GPR sources.

It has only been within the last five years that Program Revenue funded air conditioned student centers were constructed at UW-Green Bay and Parkside and these represent only 3% and 10%, respectively, of the total campus GSF. The cost of extending this service to the student centers was funded by Program Revenues.

The UW-Madison Memorial Union was connected to the campus chilled water distribution system to eliminate three satellite chillers because of reduced costs of utilizing chilled water from the campus heating/chilling system. In this instance, a payment was made by the Memorial Union which covered a portion of the central chiller, as well as the service line extension.

The relatively limited amount of chilled space required for GPR facilities in the former Chapter 37 universities did not warrant the cost of campus chillers. Therefore, where chilled water was needed, satellite chillers were constructed.

A-1a Rationale: Central Heating/Chilling Plants

The GPR-funded central chillers were constructed for GPR-supported facilities with minimal demands for Program Revenue facilities. Student centers are the primary Program Revenue users of chilled water, yet represent only a small fraction of the total space being chilled on a university campus. The basic justification for campus chillers was that they represented the most economic means of providing this service. The connected load to Program Revenue facilities for chilling services has not required any increase in equipment capacity.

The Regents recognize that students have made a large capital investment for facilities that will be provided to the state debt free for use by future generations of students. It is also recognized that the state-supported programs benefit from the use of space beyond that provided for the students through GPR funds and for which the capital investment came from segregated fees and student charges.

It should also be noted that guidance was provided to the Regents, State Building Commission and Legislature by s. 20.285(1)(c), Wis. Stats. which limits the sharing of costs of central heating and chilling plant operations to fuel costs only (see C-1, page 2).

The major motivating factor for providing a central unit was that it represented the most cost effective means of providing heating and cooling to a contiguous grouping of state facilities.

A-2 Satellite Heating and Chilling Plants

It has been the consistent policy of the Regents, prior to and following merger, to fund construction of satellite heating and chilling plants serving only GPR or Program Revenue facilities. from the same funding sources as used to construct the facilities. For example, Program Revenue supported funds would be used to construct the heating and chilling plant as well as the building itself, i.e., food service center, student center or residence hall.

A-2a Rationale: Satellite Heating and Chilling Plants

Where separate chillers were provided, and were directly related to the building's function, costs were routinely included in the construction budget for the building.

A-3 Chillers Serving Multiple Buildings, Including GPR and Program Revenue Supported

The Regents of the former Chapter 37 universities and the Regents of the merged System have consistently followed these policies:

- (1) Satellite chillers built initially to serve both GPR and Program Revenue supported facilities were funded in direct proportion to the amount of space cooling being provided. Construction funding of this nature has occurred at UW-Eau Claire.
- (2) Satellite chillers initially constructed to serve Program Revenue facilities were not reimbursed for a proportionate share of the original cost when GPR buildings later were connected to the unit. However, operating costs were shared. This has occurred at UW-La Crosse and UW-Stevens Point.

A-3a Rationale: Shared Capital Costs

Capital costs were shared only where joint GPR/PR use was known at the time the units were constructed. When chillers installed by Auxiliary Enterprises were of sufficient size to allow extending the chiller capacity to GPR buildings, this was done and has resulted in reduced operating cost gained from operating the equipment at a more efficient level of capacity.
