*President's
Message*

**LEGISLATION
for
WISCONSIN DAIRYMEN**

The position of Wisconsin as the leading dairy state in the nation is in no small measure due to the vision of seven wise men who met at Watertown in February, 1872, and organized the Wisconsin Dairymen's Association. Out of this modest beginning grew our great dairy industry. Few people realize that Wisconsin in the year 1872 was a wheat producing state which was exhausting our soil fertility. The infant dairy industry was unorganized and without adequate markets. The Wisconsin Dairymen's Association pioneered in opening up the world's markets to Wisconsin cheese and other dairy products. It also drafted legislation for many laws protecting dairying. It organized the first cow testing association in Wisconsin and the second such association in the United States. From 1906 until 1936 its major program was to organize and supervise cow testing work in the state. Since 1936 when this activity was turned over entirely to the College of Agriculture our program has been a general one along educational lines.

Wisconsin again faces a critical period in its dairy industry, and there is a need as never before for unified action on the part of all dairymen.

We find that to our knowledge there is no state-wide group responsible for legislation affecting dairy farmers. We propose to be that voice in all legislative matters concerning dairymen. True there are segments of the industry that have legislative programs but a united Wisconsin Dairymen's organization will carry more weight and make legislators listen to what the grass roots dairymen want in the way of better legislation for the dairy industry. As one Assemblyman has said, when confronted with our program, "It is a good strong program and I also feel that we as legislators would profit a great deal by having such a group to go to for advice and information."

P. N. STEFFANUS,

President, Wisconsin Dairymen's Ass'n.

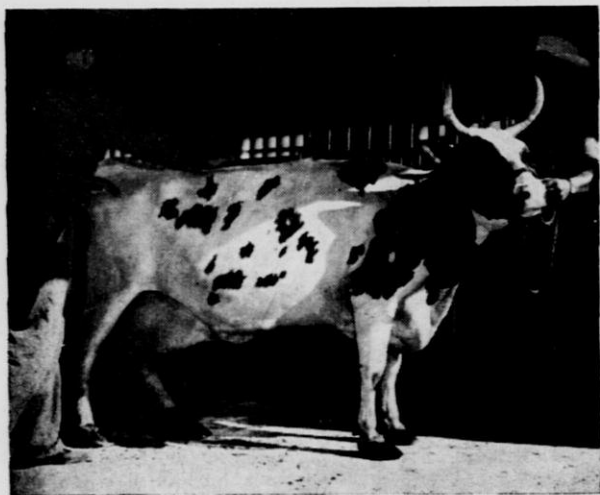

SECRETARY'S REPORT

Wisconsin Dairymen's Association Grand Old Matron Exhibit

The Wisconsin Dairymen's Association featured the grand old matrons of each of our dairy breeds at their new demonstration barn at the 1950 Wisconsin State Fair. These cows were the leading life-time producers in the state.

The average age of these six matrons was 15 years. This is 9 years more than the average life of dairy cows in Wisconsin.

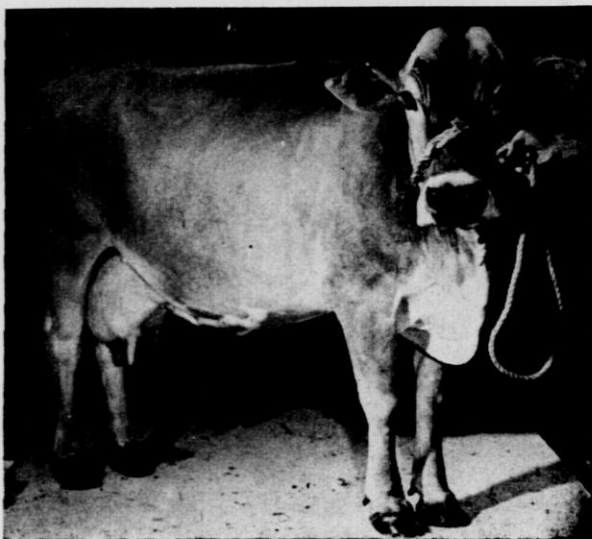

The average life-time production of these grand old cows is 5,378 pounds of butter fat. Truly an impressive amount. Each cow is a good example of a brood cow, having many daughters and sons that have inherited her long life and high production qualities. The cows and their impressive records are shown below.

AYRSHIRE

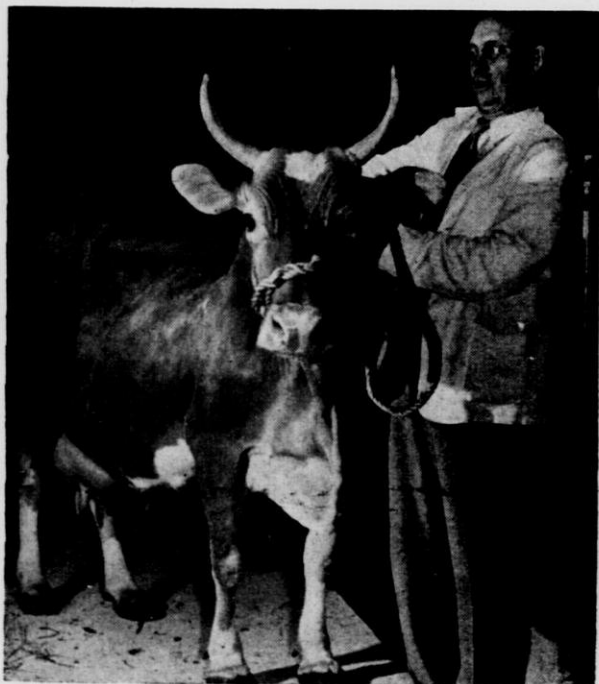

Lone Chesnut's Lad's Pearl 203276 owned by Hacker Brothers, Brillion, is 12 years old and has produced 91,660 pounds of milk and 4,170 pounds of butter fat in 2,937 days. She is an approved dam classifying Good Plus.

SECRETARY'S REPORT (Continued)

BROWN SWISS

Vronicka's Susanna 49855, owned by Jake Voegeli, Monticello, Wisconsin, is 17 years old and has 150,922 pounds of milk and 6,575 pounds of butter fat in 4,547 days.

GUERNSEY

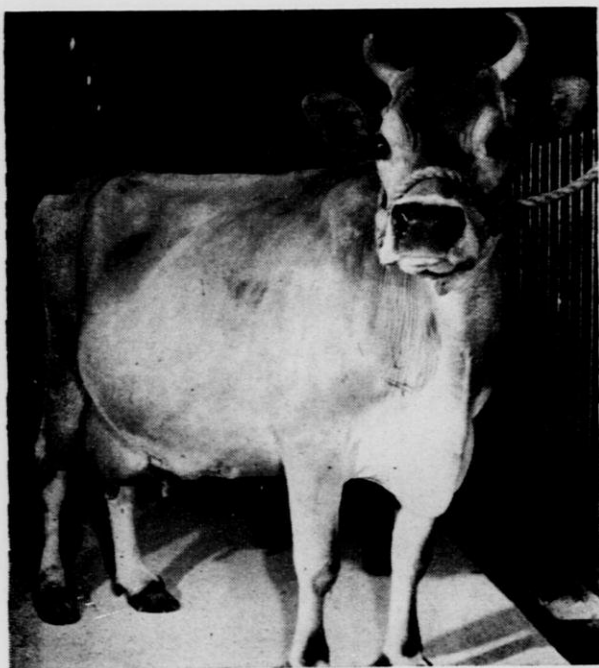

Guernsey Grove Mirth 368328, owned by William H. Basse, Waukesha, Wisconsin, was 19 years of age and had 129,660 pounds of milk and 6,788 pounds of butterfat to her credit in 13 lactations. She was due to freshen again at fair time. She leads all breeds in age and life time production. She was classified Very Good. She died in December 1950.

SECRETARY'S REPORT (Continued)

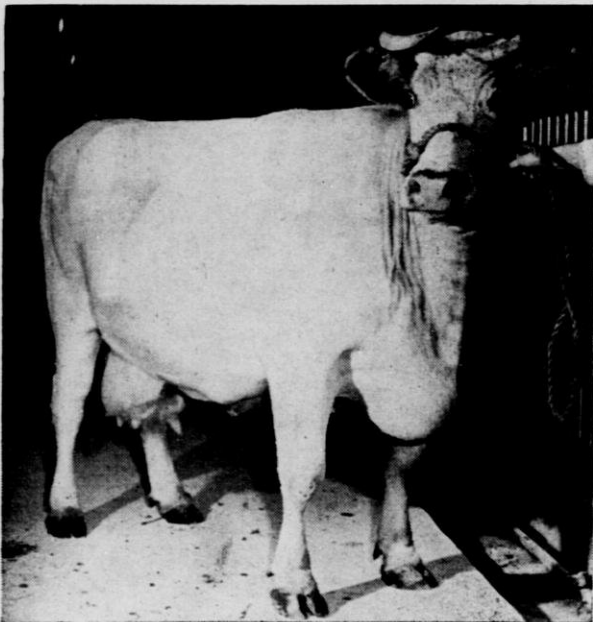

HOLSTEIN-FRIESIAN

May Valentine Ormsby Countess 1920604, owned by I. H. Lichtenwalner, Barron, Wisconsin, is 15 years of age and has produced 172,653 pounds of milk and 6283.3 pounds of butter fat in 3,895 days. She is classified Very Good.

JERSEY

Torono Golden Joan 1199465, owned by the University of Wisconsin, is a 13 year old cow having 114,465 pounds of milk and 5,004 pounds of butter fat for her record. She is classified Very Good.

MILKING SHORTHORN

Lily Silverton 2nd M1997746, owned by Marquart Brothers, Milton Junction, Wisconsin, is 11 years old and has a life time credit of 83,443 pounds of milk and 3,430 pounds of butter fat in 2,208 days. She is classified "Excellent."

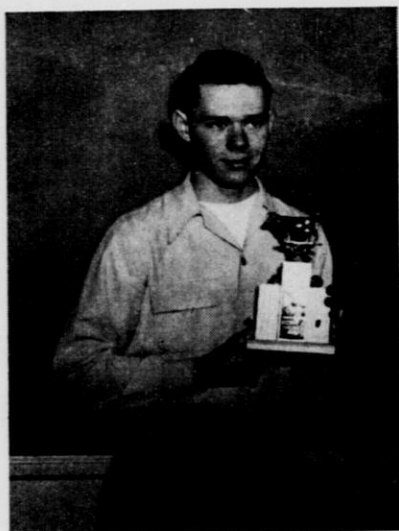

Owners of these cows were awarded plaques in an impressive ceremony at the barn during the fair and were guests of honor at the noon luncheon of the Dairymen's Association at the 79th Annual Convention in Madison on February 1st.

Jr. State Dairyman

Victor Hansen, Berlin, Wisconsin, was declared "The Wisconsin Junior DAIRYMAN of 1951" at the 4th annual meeting of the Wisconsin Junior Dairymen's Association held in Madison recently. Victor is 17 years of age and a member of the Berlin Junior Dairy Herd Improvement Association which is under the capable leadership of L. A. Blackburn, Instructor in Agriculture, Berlin High School.

A gold engraved trophy was presented to Victor at the noon luncheon program. This is a new type of award presented for the first time this year. Applications for the award were sent in from each of the five districts in the state. A committee went over the applicants from each district and picked

one who was then asked to come to the convention with his herd record and be interviewed by the committee. The members of the committee stated that they had a hard time to pick the winner as each boy was outstanding.

VICTOR HANSEN

Victor's brief story as submitted follows:

"I started testing our herd my Freshman year and have become very interested in it. I have been elected Secretary of our local Junior D.H.I.A. for the last two years. I plan to keep working on our home farm for the next year or two and to continue with herd improvement. If all goes well I may get a fair sized farm and dairy herd of my own.

"From these records I have figured out a balanced ration for our herd and have been feeding according to the production of each cow. We have culled out seven poor cows since I started testing and have discovered eight brood cows. We have been using an artificial breeding program on most of our herd for the last year and have found it very satisfactory. We are going to sell our bull and go completely on that program this year. My herd records are up to date and I have figured out the yearly herd analysis and also have figured out some dam-daughter comparisons. I am keeping breeding records and I have started to keep feeding records this year. Through testing and the help of these records I can find out which cows are making us money and also hope to build up our herd average as each year goes by."

From this story you can readily see that Victor has actually put his herd records to work in building a profitable dairy herd on his home farm. He has also been elected a director from District II and will serve as Vice-President of the Wisconsin Junior Dairymen's Association for the coming year. With the leadership of young dairymen like Victor, the future of America's Dairyland will be secure.

**SECRETARY'S REPORT (Continued)
BOARD OF DIRECTORS INCREASED**

Your board of directors now includes a representative of each of the six State Dairy Breed Associations. All of your directors are able men and are giving a great deal of time and effort in your interest as a dairyman. They welcome your suggestions on ways and means of bettering the program of the Wisconsin Dairymen's Association.

LEGISLATION

Your secretary has had a very busy year due to the Legislature being in session. He represented you on the 28 man Brucellosis Committee and was instrumental in helping to get the new state-wide Brucellosis program enacted into law.

He also appeared at many hearings on matters pertaining to the dairy industry.

We were successful in getting a slight increase in our state aid for the next two years.

NOW REPRESENTED IN ADA OF WISCONSIN

The Wisconsin Dairymen's Association was offered a seat on the board of directors of the American Dairy Association of Wisconsin, and the directors of the Dairymen's Association appointed your secretary to serve on this board.

MEMBERSHIP

Membership in the Wisconsin Dairymen's Association and the Wisconsin Junior Dairymen's Association has continued to grow the past year. We now have over 5,000 senior members and 2,000 junior members.

We welcome all junior and senior dairymen to join us in promoting a better living for dairy farmers in Wisconsin.

B. R. Dugdale

Secretary and Treasurer

Johnson & Johnson FIELD SERVICE
 BOOSTS QUALITY MILK PRODUCTION
 ON THE FARM—IN THE PLANT

J & J men are trained to work with producers, fieldmen, haulers and plant operators. It's the business of this big field force to show farmers how to use the Rapid-Flo Farm Sediment Check-Up to determine causes of sediment in milk for purposes of eliminating them; to introduce the J & J Filter-Strainer Analyzer to fieldmen and haulers; to help weed out unsanitary equipment and provide the proper tools for clean milk production. J & J Quality Milk Programs in the plant cut costs by improving quality. You'll find these men boosting quality milk production, a basic reason why Rapid-Flo FIBRE-BONDED Filter Disks lead the industry in sales and performance.

MINRALTONE HELPS BUILD CHAMPIONS

Douglaston Lady Augusta. Only cow of breed to be classified as Excellent and have four Excellent daughters. One granddaughter sold for \$13,500 — a record price for a Guernsey bred heifer. Another brought \$14,500 — highest auction price for a Guernsey in 1949. A great-granddaughter sold for \$11,500, a record auction price for open heifers; and a half interest in a grandson netted \$15,000.

Famous McDonald Farms Herd Protected Against

HIDDEN HUNGER*

The 1,500 acre McDonald Farms, Cortland, N.Y. has a wide reputation for the all-around excellence of its herd of pure-bred Guernseys, led by the great Guernsey champion, Douglaston Lady Augusta.

Mr. K. C. Sly, manager for J. M. McDonald, owner, has fed Hidden Hunger* fighting MinRaltone regularly since 1943. Mr. Sly says: "As a safeguard for the health of the herd, we have fed Near's MinRaltone for the last seven years. We use a combination of all three recommended feeding methods — free access, premixing and hand feeding."

Now is the time to help safeguard your profits and the health and continued productivity of your stock. Follow the lead of successful dairymen — feed MinRaltone to your herd. MinRaltone protects against Hidden Hunger* because it contains 11 essential mineral elements with Vitamin D. Write for free MinRaltone feeding booklet.

JOHN DEERE No. 30 Hydraulic Manure Loader

Speeds Loading...
Saves Time and Work
for JOHN DEERE
MODEL "M"
TRACTOR OWNERS

This new John Deere No. 30 Hydraulic Manure Loader for the John Deere Model "M" Tractor takes all of the hard work out of manure handling. It gives you a new speed, economy and ease of loading in either sheds or feed lots.

The No. 30 is a double-cylinder hydraulic loader. There are no chains, pulleys or cables used in raising or lowering the bucket. The finger-tip control raises or lowers the bucket—stops it at any point in its 9½-foot loading range. Big-capacity bucket with tapered spring steel teeth penetrates quickly in any condition.

The No. 30 is simple, streamlined—has plenty of clearance for shed work. Rugged, lasting strength insures years of service.

See your John Deere dealer for complete information on this time-and-work-saving loader.

MANURE HAULING

Easier

from Start to Finish

Quick Hitching

No need to lift the front end of the Case tractor spreader, nor to prop it up. The self-hoisting hitch rests right on the ground while hooking up; lifts front of the box when tractor starts ahead. Sliding clevis makes hitching quicker, easier, safer. It's so handy that daily spreading is really practical, whether you have big herds or only a few head.

Easy Loading

Low wheels and low box make loading easier, faster, whether by hand or by mechanical loader. Self-hoisting hitch lets front of box down for still lower loading. This Case spreader backs into barns, pulls close to piles like a two-wheel cart. Sturdy steel frame, long-lived bearings and good lubrication give ENDURANCE—long life with low upkeep.

Sure Spreading

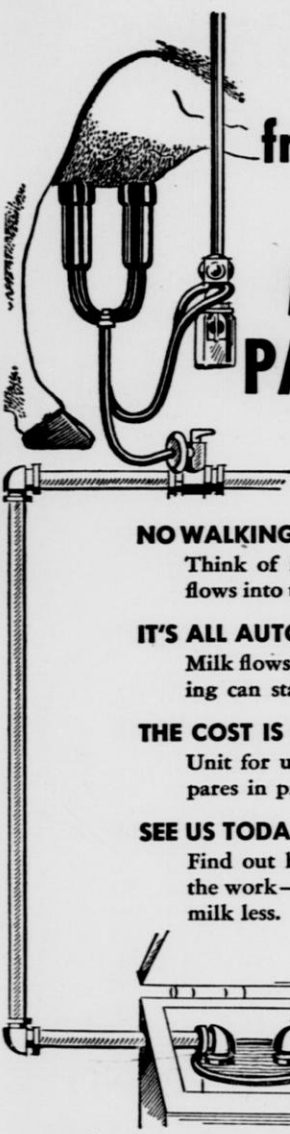

Spreader wheels are placed so weight of load aids their "ground-grip" until fully loaded; full load adds weight to tractor wheels, aids their traction. Sharp beater teeth shred manure thoroughly; steadier apron travel assures even spreading. Geared for rubber-tired speed, this spreader makes practical the extra gains of thinner spreading on greater acreage.

See this Handy Sturdy Spreader. Let your Case dealer show you this stronger, more durable, more convenient spreader. Send for new booklet that tells how to make manure go farther, produce up to twice as big a boost in crop yields.

J. I. Case Company, Racine, Wisconsin

CASE

Pipe milk
from Cow to Cooler
with a
MCCORMICK
PARLOR MILKER

NO WALKING . . . NO CARRYING . . . NO DELAY

Think of it. You attach the teat cups and milk flows into the cooler. Sounds wonderful, and it is.

SELL HER MILK!

Her calf doesn't need it
...with **KAFF-A**

The safe replacement for milk!

Raise healthy calves on vitamin-high Kaff-A! A million healthy heifers have already been raised on Kaff-A. It's the *safe* replacement for milk . . . the one you can be sure will produce healthy calves! So don't take a chance on an inferior imitation of Kaff-A. A nickel saved on feed may cost you many dollars if your cows turn out to be poor milkers. Be safe! Feed Kaff-A! Its vitamin content is known! Kaff-A has a nutritious dried buttermilk base. It also contains other dairy by-products, some cereal products, plus Vitamin A and D Feeding Oil!

Every box gives you up to 500 extra pounds of milk to sell! Just 1 lb. of Kaff-A replaces 10 lbs. of milk in calf feeding! That means every 50 lb. box of Kaff-A fed with low-cost hay and grain can release as much as 500 lbs. of milk you can sell! And you'll find that adds up to a handsome profit!

Easy to feed! Just mix one part Kaff-A to 9 parts of warm water, and begin to feed on the 4th day! By the 10th day your calves will be weaned! So feed Kaff-A and sell your cow's milk! Kaff-A is the safe replacement for milk!

ALL DAIRY FARMERS

Must Become Aware of the Greater
Need for Promotion

ADVERTISING Sells Milk and Dairy Foods.

The MORE WE SELL the greater the demand and the MORE SECURE our position as dairymen.

We must do our part in selling. The ADA program is your program to help you build better markets for your milk.

The set-aside is small per farmer, but by all farmers working together much can be accomplished.

See to it that your dairy plant cooperates in making the set-aside of 1c per lb. B.F. for June and July each year.

American Dairy Association of Wisconsin
3228 University Avenue Madison, Wis.

PROGRAM HIGHLIGHTS for 1951

STATE SALE

The third annual Wisconsin State Sale will be held at Baraboo Fairgrounds on Saturday, June 2. The offering will consist of approximately 60 head all consigned by breeders of the state. All animals will be carefully selected by the sale committee. A banquet on Friday night will be held at the Warren hotel and all are cordially invited to attend.

CANTON SHOWS

One day Canton Shows for each of the 10 organized Cantons are being planned for the latter part of June and through July 20.

CANTON MEETINGS

Afternoon meetings in each Canton were held in April. Breeders came away more enthusiastic than ever about Brown Swiss.

4-H ENCOURAGEMENT

The outstanding 4-H club member in each Canton received a beautiful, scale model of the true type Brown Swiss cow. To the outstanding 4-H club members in the state will get a valuable pen and pencil set. 4-H club members ask your County Agent how you can be eligible. Prizes, too, for the best showman and county groups at the 1951 State Fair.

America Needs Meat!

Today, the civilian population is increasing faster than livestock population. This, in addition to the ever increasing need of our Armed Forces, means more meat is required than ever before. The need is for lean meat rather than meat with excessive finish.

You farmers, good animal husbandmen, have a real **challenge** to produce the amounts and kind of meat needed. You have **responsibility** to utilize feed in balanced rations in order to get maximum production. You have an **opportunity** to obtain excellent returns from good livestock and good livestock practices.

We wish you every success.

For last minute livestock reports listen to—

Wisconsin Farmers Praise Leach Silo Unloader

"I have used my Leach Silo Unloader for three winters, and it has never given me any trouble. It operates satisfactorily even at 40 degrees below zero. Has proven itself this winter more than ever, because it has removed silage from my silo when some of the neighbors had to stop feeding silage because it was too hard to remove."

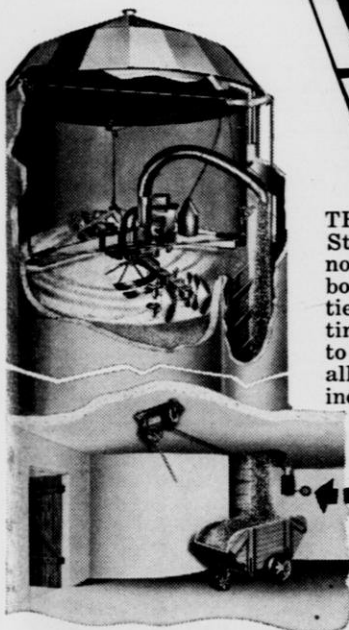

DONALD HUNT,
Avalon, Wis.

"For the past two years I have experienced the best of results with a Leach Silo Unloader. I feed 36 cows and find that the throw-down time during the winter months when silage is frozen averages 12 minutes. I have also had good results with grass silage put up properly."

ALBERT FRANDA,
Sturgeon Bay, Wis.

"I made one of the best investments on my farm by installing a Leach Barn Cleaner. Now I only need hired help for three months a year, thereby saving in actual cash., \$1,800 I have 30 milk cows and it takes about 10 minutes to clean the whole barn. This is the third winter I have had the barn cleaner and have not broken the chain once. I highly recommend this machine to any farmer who wants to make a good investment, save a lot of hard work and add several years to his life."

ALBERT PFAFFENROTH,
Picketts, Wis.

LEACH

Barn Cleaner & Silo Unloader

THE NEW, IMPROVED Standard Silo Unloader now includes double booms, double agitators, tie-rods between centering timbers and anchor chain to eliminate side-sway—all of which have greatly increased performance.

WISCONSIN HOLSTEINS

Over 2,100 breeders are members of the state Holstein association.

Membership entitles them to subscriptions to the national breed publication, *The Holstein-Friesian World*, and to the state paper, *The Wisconsin Holstein News*. As a member of the state, as well as the national association, they receive a special 50c reduction in transfer fees.

The state Holstein association sponsors the County Contest, a breed improvement recognition program, youth activities and awards, and handles cattle inquiries for grade or purebred cattle. Many other projects and activities are part of the association's program.

We invite you to join the state Holstein association, if you are not a member.

For more information, write:

KYLAND

A Holstein breeding establishment.

Devoted to the breeding of better Holstein seed stock.

Testing on H.I.R.

A record on every cow every year.

A few on A.R. 3x.

Visitors are always welcome

Bang's Certified — T.B. Accredited
Calfhood Vac.

KYLAND

Oconomowoc, Wisconsin

W. D. Kyle, Jr., Owner Frank Case, Mgr.

BARRON COUNTY, WIS.

Our breeders, with the assistance of our association and the able promotion of the Extension Office, are building our herds on . . .

HEALTH

First T. B. accredited county in the U. S.
Bangs control and calfhood vaccination.
Control of other diseases.

PRODUCTION

12 Standard D.H.I.A. Associations.
27 Herds in H.I.R.
8 Progressive Breeders in the county.
7 Herds over 500 fat the past year.

TYPE

Regular herd classification and type schools.
Cooperative show herds.

REPRODUCTION

Transmitting cow families.
Proven sires.
Popular and proven blood lines.
Efficient culling.

Barron County Holstein Breeders Ass'n.

IRVIN LICHTENWALNER, President, Barron, Wis.
JOSEPH A. HANSON, Secretary, Chetek, Wis.

CONCRETE

Dairy Improvements Aid Milk Production

A concrete milk house, cooling tank, or dairy barn will help you step up milk production. Concrete's sanitary features meet health board requirements; keep your cows healthier; make your work easier.

The Portland Cement Association has prepared suggested designs for these and other farm structures which will give many years of economical service. Concrete is low in first cost and upkeep. It's easy to build. Materials usually available locally.

Write for the Helpful Free Booklet...

DUNN COUNTY BURKES

Have Used:

Pabst Burke Fobes Dell (Burke Son);
Pabst Burke Pride Ponderosa (Burke
Son).

Now Using:

Wisconsin Burke Concentrate (Son of Wis-
consin Ideal who is a grandson of Burke).
Wisconsin Eminent (Son of Wisconsin
Masterpiece who is a son of Wis. Ideal).

Sons and Grandsons for sale from these
sires out of our high proven St. Croixco
Belmont Ormsby Chief Daus., Chief raised
fat on his Daus. 231 over their dams.

Also some Chief sons out of Burke Daus.

DUNN COUNTY HOSPITAL

Route 2, Menomonie

Wisconsin

Wisconsin stands out as the brightest star in America's Milky Way. She holds that enviable position and brightness largely because of an organization—an organization founded nearly 80 years ago. True, there are millions of important stars that make up the firmament—the Ayrshires, the Brown Swiss, the Guernseys, the Jerseys, the Holsteins, and the Milking Shorthorns. But their combined brilliance has been made possible by an organization known far and wide as the WISCONSIN DAIRYMEN'S ASSOCIATION.

This is our way of congratulating you in the pages of this your 1951 Year Book.

JAMES MFG. CO.

Fort Atkinson, Wis.

CARBOLA

DISINFECTING WHITE PAINT

Complete 3 in 1 Barn Spray

It's a Disinfectant, Insecticide and White Paint all in one. For Poultry Houses, too.

Why spend money and labor on two separate troublesome expensive jobs when Carbola

Does THREE necessary jobs

more completely, and with longer lasting effectiveness, in

One easy lower cost operation

- (1) Kills Flies
- (2) Kills Disease Germs
- (3) Gives White Walls

Kills spiders, 90% less cobwebs for 8 to 10 mo.
Better sanitation. Lower bacteria.

CARBOLA CHEMICAL CO., INC.

Natural Bridge, N. Y.

Carbola at Better Feed, Seed, Hardware and Farm Stores

Clipping*

**2
SIZES**

Electric | **CLIPPERS**

HEAVY-DUTY | **INSTRUMENT SIZE**
for Large Animals | **for Small Animals**

The clipper for dairy cattle and other large animals. Adjustable cutting tension and angular-designed cutting teeth afford improved hair-feeding and clipping action. Bakelite construction protects against shocking. Dynamically balanced armature, sealed ball bearings, precision-cut gears, air-cooled motor. Blades 3" wide.

The all purpose clipper with the Detachable Cutter Head and all types of cutting blades . . . for general, plucking length and surgical shaving. A powerful motor that provides ease and sureness of clipping.

DOUBLE BENEFITS . . .

with

Archer Quality First Calf Starter

Archer Calf Starter actually works two ways. It builds healthy, sturdy calves, develops them into high producing cows. Vitamin fortified Archer Calf Starter also makes more milk available for market, more profits for you, because Archer Calf Starter contains even more nutrients necessary for rapid growth and good health than whole whole milk.

JERSEYS

Making and Breaking Records Everywhere

IN OREGON—a Jersey was the first officially tested cow in the U. S. to give over 1,000 pounds butterfat in two consecutive lactations on twice-daily milking.

IN CALIFORNIA—a Jersey was the first cow of any breed in the U. S. to produce, on official test, more than 10,000 pounds butterfat.

IN VERMONT—a 100-cow Jersey herd averaged more than 512 pounds butterfat per cow for eight consecutive years—10,934 pounds milk with 588 pounds butterfat per cow in 1949.

IN NORTH CAROLINA—a Jersey bull has 139 tested daughters averaging 9,472 pounds milk, 515 pounds butterfat.

IN TEXAS—a Jersey gave 19,497 pounds of milk with 1,223 pounds of butterfat in 365 days—the national record for butterfat in a single year for Jerseys.

YOU can profit with Jerseys, too!

CALF WEEN!

CALF WEEN has always been
demand by dairymen be-
cause experience has taught
them what it will do for their
baby calves. Here's a calf food

that's liquid fed, easily digested
and economical to feed. One
pail will feed 2 calves for 6
weeks, (with the usual amount
of hay and grain).

RESULTS GUARANTEED

MILKING SHORTHORN CATTLE

"The Cattle of the Century"

Milking Shorthorn cattle are the oldest of improved breeds, the first to become registered in the United States (1846) and TODAY the most modern of all cattle breeds in adaptation to general farm needs.

Visit Wisconsin Herds

The Milking Shorthorn cow is popular with Wisconsin farmers. They appreciate her TWO-WAY bargaining power. On farm feeds and roughage she will produce more 4 per cent milk and offer greater salvage value when through milking than other breeds.

Pounds Count

You sell milk by the pound—Beef by the pound. With Milking Shorthorns you get more of both in one animal at the same time—MORE PROFIT.

Get the Facts

Subscribe to Milking Shorthorn Journal, the official breed magazine—\$2.00 per year.

Maintain Production Of Salable Milk
With The Drug Most Effective
Against MASTITIS
VETERINARY AUREOMYCIN
Crystalline OINTMENT

Lederle

Easy-To-Use • Economical

Thousands of dairymen have found that treatment with **VETERINARY AUREOMYCIN Crystalline OINTMENT** for Udder Infusion is the quickest, easiest and most effective way to check milk losses due to mastitis.

One infusion maintains concentrations of **AUREOMYCIN** in the udder active against *Streptococcus agalactiae*, *Staphylococcus aureus* and other mastitic organisms for 48 hours or longer without interference with milking schedules.

In cases of acute septic mastitis, in addition to udder infusion, the injectable form of **SULMET*** Sulfamethazine *Lederle*** should be used. Subsequent treatment may be conducted with **SULMET OBLETS***.

VETERINARY AUREOMYCIN Crystalline Intravenous** may be used in the treatment of acute septic mastitis as a highly effective agent against a broad range of bacteria.

VETERINARY AUREOMYCIN OINTMENT may also be used for the *prevention* of superficial udder and other mastitic infections. When injuries to the udder or teat occur, it is advisable to apply this ointment locally to the wound and at the same time infuse the quarter adjacent to the wound with one full tube of **VETERINARY AUREOMYCIN OINTMENT** as a preventive measure.

For maximum efficiency in the use of **VETERINARY AUREOMYCIN OINTMENT** for Udder Infusion and best management practices and disease-control procedures for avoidance of reinfection, consult your veterinarian.

Write for folder on **AUREOMYCIN OINTMENT**.

Whether you milk by HAND... or by MACHINE

... it might pay you well to switch to SURGE milkers.

Extra milk from faster milking does pay off in dollars and cents. Automatically SAFE SURGE milking pays off in healthier udders, less work and greater convenience. Easier cleaning pays off in quality milk.

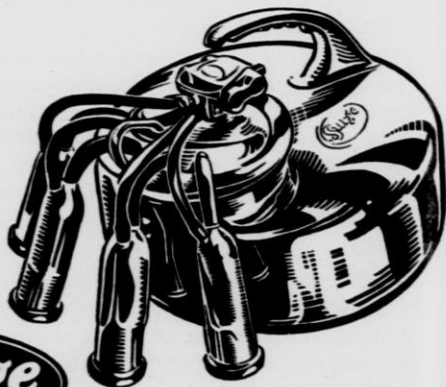

It will cost you some money to switch to Surge.

It may very easily cost you much more to do without one.

It costs nothing to have your Surge Service Dealer show you a new Surge.

Will We Be Caught **SHORT?**

From 1940 to 1950 U. S.
population increased 16%

In the same period milk pro-
duction increased only 10%

But . . .

From 1945 to 1950 milk
production *decreased*
nearly 1%

Our nation and the democratic
countries are again facing
momentous problems. To keep
our growing population strong
and vigorous—able to meet the
task facing us—we will need
MORE dairy products than
ever before.

**Efficient Dairy Production,
High Quality and a Sound
Selling Program will Keep
America Healthy.**
