The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

UW-Parkside, Wisconsin
Held in Room 363 Wyllie Library-Learning Center
Friday, May 5, 1978
9:06 A.M.

President Hales presiding

PRESENT: Regents Barkla, Beckwith, DeBardleben, Erdman, Fish, Fitzgerald,
Gerrard, Grover, Hales, Johnson, Lavine, Lawton, McNamara,
Neshek, Walter

ABSENT: Regent Thompson

Upon motion by Regent McNamara, seconded by Regent Lavine, it was
VOTED, That the minutes of the regular meeting of the Board of Regents
of the University of Wisconsin System held on April 7, 1978, be approved as
sent out to the Regents.

- - -

REPORT OF THE PRESIDENT OF THE BOARD

Regent Walter moved adoption of the following resolution, the motion
was properly seconded, and it was voted:

Resolution 1645:

Whereas, at his request, this Board has accepted the resignation
of Chancellor Robert Birnbaum of the University of Wisconsin-
Oshkosh, effective September 1, 1978, and he will preside over
his last spring commencement at Oshkosh this month, and

Whereas, under his leadership since 1974 the institution he
designated as the "University of Alternatives" has introduced
and implemented major new concepts to meet new educational
needs while continuing the strong campus tradition of teaching,
research and public service, and

Whereas, notable achievements during Chancellor Birnbaum's
administration have included adoption of a unique and widely
recognized new academic year calendar, a comprehensive campus
planning process, greater fiscal stability, a marked increase in
federal and private funding and approval of many new learning
opportunities on and off campus,

Be It Resolved, that the members of this Board commend Robert
Birnbaum for his outstanding sense of mission and for his
creativity and vision as Chancellor of the University of Wisconsin-
Oshkosh and wish him well in his future endeavors.

Regent Lavine moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1646:

Whereas, next month a unique employee of the University of Wisconsin System will retire. The employee is Mrs. Veda Stone, and

Whereas, by all accounts Mrs. Stone has done more to conceptualize, establish, and see continued traditional and non-traditional programs for American Indians on UW campuses than has any person in the University of Wisconsin's history, and

Whereas, Veda Stone earned both her bachelor and master degrees at institutions of this System, and

Whereas, Mrs. Stone has had direct involvement with the Indian programs at UW-River Falls, UW-Eau Claire, and statewide UW-Extension. Along with this she has given extensive assistance to virtually every American Indian program in the UW System, and

Whereas, Veda Stone has also worked tirelessly not only for the UW System and American Indians, but also for the citizens of the State of Wisconsin in providing a bridge of communications and understanding among all the state's people, and

Whereas, Veda Stone has rendered unique, sensitive, and vital service to the University of Wisconsin System, and, particularly, to the American Indians of Wisconsin and the nation,

Be It Resolved, that for this service the Board of Regents extends to Veda Stone the UW System's deep gratitude and wishes her the very best in the years to come.

At the request of President Hales, Chancellor Werner Baum, UW-Milwaukee, introduced Mr. Gilbert Lee, Jr., the new Assistant Chancellor for Administrative Affairs at the University of Wisconsin-Milwaukee.

At the request of President Hales, Regent DeBardleben presented the report of the ad hoc disciplinary committee. Regent DeBardleben reported that the committee heard the appeal of Mr. Raymond Milton at the campus of the University of Wisconsin-Oshkosh on April 7, 1978, commencing at approximately 3:30 P.M. The appeal, in accordance with the Wisconsin Administrative Code, was upon the record. The committee considered the record and heard the arguments and contentions of Raymond Milton. There also appeared before the committee the Assistant Attorney General representing the UW-Oshkosh. Upon the basis of the record and its consideration of the contentions made, the committee concluded with respect to the two charges that there was not evidence to support the finding that Mr. Milton had knowingly committed assault and battery upon an official of the University, that official not having adequately identified

himself, but that the findings of the examiner were supported by the evidence as to both of the acts of assault and battery alleged against the student. Upon the basis of that consideration the committee adopted and approved the findings of fact and conclusions of law of the examiner except the conclusion of law that the respondent had violated Section 17.06(1)(c)(4) of the Code. He reported that the committee adopted and approved the conclusion of law for both counts that the respondent had violated Section 17.06(1)(b). As disciplinary sanction the committee approved and adopted the sanction imposed by the examiner, but stayed the operation of it and placed the respondent on probation as defined in Section 17.02(4) and Section 17.02(5). Regent DeBardleben reported the committee provided that if the probation is violated, the stay would thereby be automatically terminated and the disciplinary sanction as imposed by the examiner and approved by the committee would thereupon take effect forthwith. The committee thereupon closed the record. President Hales noted that since there were no questions, he assumed the report was approved as presented.

President Hales reported that Regents Barkla, Beckwith, Lavine, President Young and he had attended the Association of Governing Boards of Universities and Colleges' meeting in San Francisco on April 16, 17 and 18.

At the request of President Hales, Senior Vice President Donald Smith reported that he and Regents Lavine, Neshek, and Grover, and Associate Vice President Lemon had met with Representative Metz and Senator McKenna and members of the Legislative Audit Bureau staff pursuant to the plan for the LAB audit of the System Administration. He said he thought it was a useful meeting and confirmed with absolute clarity the proposed intention of the audit is not to cross any boundary with respect to teaching and learning or those areas of decision making which are under the aegis of the faculty. He reported the so-called pre-audit survey is now underway and is moving into its second week at the present time. At the end of the pre-audit survey the LAB group will identify those areas which they expect to audit in some detail. If the protocol for those audits departs from the original outline of what were the auditable areas in anyway, there will be time for discussion with the Regents, and, if necessary, joint discussion between the Regents, the representatives of the Regents, and the Joint Audit Committee, prior to the initiation of the actual audit. He said in any event there will be information on the protocol of the actual audit which will be reviewable by the Regents prior to the time that it is initiated. If the proposals stay closely within the boundaries indicated in the discussion and prior hypotheses about the direction that is likely to be taken, we would want to be able to respond rather quickly that this is within the spirit of the agreements and understandings which were reached, but that checkpoint is there, and that was confirmed. He stated he felt there was a marked change in the level of understanding and communication from that which existed a year or eighteen months ago.

REPORT OF THE PRESIDENT OF THE SYSTEM

Regent Neshek moved adoption of the following resolution, the motion was seconded by Regent McNamara, and it was voted:

Resolution 1647: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified, and confirmed. (EXHIBIT A, attached)

At the request of President Young, UW-Parkside Chancellor Alan Guskin commented on the activities at the University of Wisconsin-Parkside. He reported that in 1975-76, with the faculty providing the leadership along with the administrators, a great deal of planning was done to try to set the direction for the next five to ten years. Included in the implementation of those changes after the faculty senate passed the programs was the rebuilding of the Business Program. He noted that the modern industrial society mission is very important to the campus and the Business Program is a key part of that. A difficult determination was made to take the largest major on the campus, one-third to one-fourth of the students are involved in it, and it was totally rebuilt -- the faculty and curriculum, looking forward to the granting of accreditation by the Northcentral Association at the graduate level, which was accomplished in April of this year. He reported that as of September, 1978, two-thirds of the faculty for the program will be new, and as of September, 1979, three-quarters will be new, and approximately ten new positions have been added to field the program. The standards of the program have been sharply increased and a student has to have a 2.5 average to get into the program, rather than just automatically being accepted.

Chancellor Guskin reported the second key area in which the University has made major strides and also with the commitment of a tremendous amount of funds is the Collegiate Skills Program. He said a very comprehensive program has been installed with five major skill areas--which requires that a student should not enter his third year without passing those competency examinations. The program will start in September 1978, the testing is fully underway and about 75% of our students are passing the math competency tests. He stated one of the important parts of the program is that it is not an obstacle to the student's education--we are trying to tell the students that you have to get competent in these skills, and once you have the competence, you shouldn't worry about your skills. He said we have had to provide a large number of remedial courses and this is a very difficult job for the faculty.

He stated another area in which a great deal of work has been done is the outreach effort. He said we have set up community outreach centers and UW-Extension has been working very closely in this effort and he was hopeful that over the next few years relationship will grow closer and closer between Extension and Parkside. He noted there had been established a unit of the student services area called Community Student Services which deals with adult needs. He noted that one-third of the students are over the age of twenty-five, and more than half of the students are part time. They require different kinds of counseling, recruitment efforts, and work advising than eighteen-year-olds do.

He said we have sharply upgraded our relations with the community, and that many of the business leaders who were present at the gala event on the previous evening are members of the two major advisory groups in this area. He also noted a great deal has been done in the area of cultural activity as has been evidenced by the musicians the previous evening, who also play for people with a great deal of knowledge about music and also for elementary schools and for children of people who work in factories. He said the response has been overwhelming and he felt it is an important role of the University to give that kind of a return. He said the University has opened its doors more and more to receive the community and the community has responded.

He referred to one of the jewels of the campus, the library, which is developing into a major educational teaching tool. He said one doesn't think of libraries as aggressive teaching-oriented activities, but in fact it is, it is not just a repository for books, but helps people in the educational process seek out the library resources. He noted a lot of this obviously cannot be accomplished without dealing with the organizational structure. He said we have completely organized the entire administrative structure to accomplish this goal. We have created a Dean of Faculty structure, and Vice Chancellor Larry Rattner, Dean of Faculty, is doing an exceptional job in dealing with the structure, and all the Chairmen report directly to the Dean of Faculty without going through intermediaries. He noted that Parkside is a small University compared to Madison or Milwaukee, and has a different feel to it. He said what we try to do at Parkside is create an administrative structure with a faculty that reflects that smallness rather than trying to have a big University structure for a small University. He said we have also integrated all of our educational services, all the fiscal administrative services into one unit. He said we have done this for a number of reasons. One, because we wanted to get people in a structure with implemented priorities and also to save a lot of money. You cannot rebuild the business program and add as many positions as we have and upgrade it as high as we have without it costing something like a quarter of a million dollars at a time we did not receive any more money from the System. The administrative structure, built for a much larger institution, was rethought, reconceptualized and rebuilt for a smaller institution, thereby saving a great deal of money. He said it caused a great deal of pain and it did not happen entirely with love and kindness. He said the good feeling that comes with the faculty growing, excited about its work, a Dean of Faculty to stimulate the faculty as a respected faculty, has created the kind of stability which is very different from what existed a year and a half ago. He said we made the changes, at some cost to the institution and administrative personnel, out of the administrative areas into the instruction area. He stated it is always nice to say those things and believe them, but it is even nicer to have an outsider say the same thing. The Northcentral Accrediting Association basically said that and they were pleasantly surprised by the changes that occurred and they strongly supported the institution. He said the faculty at this institution, like all institutions, put in an enormous amount of effort into this kind of planning. People sometimes joke about what is the faculty teaching level. He stated that it was his opinion that 90% of what he referred to has been done by the faculty with no extra money and no release of time. He said there is a growing sense of ownership provided by the faculty in their institution and once you capture that spirit an institution not only becomes more vital, but you can do many, many more things. Administrators don't teach and administrators don't plan curriculum. He noted that 40% of the tenure track faculty as of September 1978, have been hired since September 1975. Twenty percent of the new faculty were hired at the Associate Professor level and 75% have at least two or three years of experience.

The policy on seeking or accepting political office by limited employees of the UW System, as finally approved is attached as EXHIBIT B; prior to its adoption Senior Vice President Smith requested that the original document be amended by deleting the phrase at the end of the fifth line on page 2 reading "or to an academic staff appointment designated by the Board." Vice President Smith stated we have tried to develop a policy which is minimal in the sense that it draws very heavily upon the previous policy of the Board and upon the three major categories of appointments that we have had in our personnel system coming out of the State law, the differentiation between faculty, academic staff, and limited appointees. He noted we also have a classified personnel, and it is true that the limited appointees are a distinctive group, but by the nature of the steps we have taken on concurrent appointments, we believe it possible to rather simply bridge the gap in the event of an interest in or a candidacy for political office which would enable the transfer from the limited appointment situation into the concurrent appointment situation, and then follow the appropriate arrangements under Resolution 800.

Regent Erdman moved adoption of Resolution 1648 relating to policy on seeking or accepting political office by limited employees of the UW System, (attached as EXHIBIT B), and the motion was seconded by Regent DeBardeleben.

Regent Grover moved that the words at the end of the first paragraph on page 2, "or failing to disavow candidacy when asked.", be deleted, and the motion was properly seconded.

Regent Grover stated that he did not think we ought to place a potential candidate from the University in the position of having to go around constantly disavowing candidacy, and on the other hand actually seeking out some potential basis of support and some potential indication whether or not the venture would be worth the risk, and therefore felt that this stringency is not in the public interest.

Regent DeBardeleben stated that he felt the language is appropriate. He said he believed the language follows the statute relating to the elections board as to when people are deemed to be candidates quite closely. He stated you might have a person who hasn't circulated nomination papers, who hasn't solicited campaign funds, who hasn't organized a campaign committee, but who is definitely a candidate, and he felt that this policy, which he regarded as being very permissive as far as limited term appointments are concerned, is a reasonable provision.

Regent Fish stated that he did not believe that the election board language includes language such as "failing to disavow candidacy when asked". He said he felt there is another problem that has not been addressed and that is the problem of the proper time for a potential candidate to announce as related to other strategic interests that he may have and are just as important as the filing regulations for candidacy. He said many times filing dates regulate when he is going to announce. This is particularly true and he wondered how this would apply, to an individual who is on leave and has been elected. He or she then is in a very difficult position because if they are asked to disavow whether they are going to run again or not, and they say they are going to run again, it means they immediately must start filing election financial reports with the State Election Board. He recalled that Policy Document 800 was introduced at our request several years ago immediately following an election, which he considered to be the appropriate time to do it. He stated no matter how we word this policy statement, it will have no

effect on the election of 1978, but that is not how it is going to be read and interpreted. He said he would be a lot more comfortable if the Board would adopt the resolution at the December 1978 meeting rather than at the present time and for that reason, not in opposition to the context of the resolution, he moved to table the resolution.

The motion to table was seconded by Regent Grover. On a point of order, Regent DeBardeleben stated that tabling is a non-debatable motion but Regent Fish has debated it, and now is making a motion to shut off debate. With the consent of the seconder, the motion was withdrawn with the understanding that the maker of the motion would later be recognized in order to be able to make a motion to table at that time.

Regent DeBardeleben stated that he did not draft the resolution, but had made comments on it as had other Regents. He said he did not agree that this is not an appropriate time for this resolution. If consideration of the resolution is delayed until December 1978, there will be facts bearing upon our consideration of it which do not directly address themselves to the merits--that is if we assume one hypothesis as to what may happen in November, it would be unthinkable to even adopt such a resolution. If a limited term appointee runs for a high public office and is elected, it would be absurd to think of such a resolution; if on the other hand a limited term appointee runs for public office and is defeated, it would seem unkind to adopt such a resolution. It completely exempts the year 1978 from its application--it does not go into effect until January 1, 1979. It is being proposed at a time before anyone knows what the endorsements are going to be, and if we vote on it now, it will be adopted in an atmosphere which is as antiseptic as you are going to be able to get.

Regent Erdman stated that obviously legislation by a legislative body is in response to various problems that come up. This is the direct result of the fact that one of our Chancellors has run for the Governor's Office in Wisconsin, but this in no way hurts Chancellor Dreyfus--in no way puts any reflection on him, it is simply a reaction to the fact that the Board of Regents was unprepared for this type of candidacy, and that she could not see that timing would in anyway reflect upon him or upon our good judgment.

Regent Lavine noted that he had expressed here and elsewhere the fact that it is vitally important that people be encouraged to run for public office. He said he had occasion to watch one of the debates this past week and it reinforced that view. He said that he was in favor of adopting the resolution now because there is a backdrop against which to operate and to hopefully encourage people who are interested in any kind of public office to look at it, and inquired of Regent Fish why doing it later would be preferable. Regent Fish stated that he was not trying to hurt or help anyone and it did not reflect his view on candidacy as such of Mr. Lee Dreyfus. He said he believed following the election is the more antiseptic time to do it, specifically because you then have no candidate for office that is operating under any guidelines that are adopted, even though they do not apply until January 1, 1979. He said he believed this is going to be interpreted by many as a response to one individual's candidacy and we are trying to help or trying to hurt someone. He said he was certain no Regent was attempting to help or hurt, we are interested in establishing guidelines under which limited appointments can be guided in the future, and he felt the time to do that is when we do not have any limited appointment as a candidate for public office.

Regent Grover stated this is not the antiseptic season and all you have to do is go to the Republican caucuses right now to understand these situations. He said that any action taken today on this policy is going to be interpreted in some way and there is a great calm that comes after an election--all the hatches are dropped and the waves disappear. He said he did not believe we are talking about top administrative servants in the state--we have not had that problem. The reason we are discussing it today is in direct relationship to the Dreyfus candidacy and he did not believe this Board ought to get in the middle of the campaign at this time, and that by enacting this policy today somebody is going to say that we have. They will not do that in December and this is not going to make any difference whether we do it now or in December in terms of its long range impact based on the status quo at this time. Regent Walter stated that whether or not we act on this, somebody is going to interpret it one way or the other and she personally felt this is the time to act on it.

Regent Lawton inquired of President Young if he feels it is important to have this policy in the next seven months. President Young stated this is one of the things that did not excite him very much because we have managed over a long period of time. He said he was persuaded that for the long pull we do need a policy, but that he could not believe the Board doing it one way or the other is going to make a lot of difference. He said he felt it is a matter of individual judgment whether we do it now or later, and that he did not feel it makes very much difference.

Regent Fish moved that the Resolution be tabled, and the motion was seconded by Regent Grover. The motion to table failed on a Roll Call vote with Regents Fish, Gerrard and Grover voting "Aye" (3), with Regents Barkla, Beckwith, DeBardeleben, Erdman, Fitzgerald, Hales, Johnson, Lavine, Lawton, McNamara, Neshek and Walter voting "No" (12), and with Regent Thompson absent.

Regent DeBardeleben referred to Section 11.01(1) of the Wisconsin Statutes which defines a candidate as meaning "every person for whom it is contemplated or desired that votes be cast during election held within this state, whether or not such person is elected or nominated, other than a candidate for national office, and who either tacitly or expressly consents to be so considered." Regent McNamara stated he was going to support the amendment because the resolution not only deals with candidates for public office, it also deals with individuals who might be appointed to a position in government, and therefore that phrase that he objects to is not a proper one in view of the breadth of this resolution. Regent Beckwith inquired whether the definition of announcement of candidacy is sufficiently tight to avoid having to make difficult judgments each and every time this issue arises. Regent Fish stated that when you are able to determine at which stage a potential candidate becomes a candidate, you will resolve one of life's great mysteries. He noted we have individuals holding office at this time who are obviously candidates for office, but we don't know which one. We know individuals who will be candidates, but for a variety of good and logical and honest reasons, do not find it proper to announce it at this time. He also noted that the state statutes excluded candidates for federal office and queried whether we have to come up with a separate proposal for federal office. He said he believed that the announcement of candidacy as drafted, accepting the Grover amendment, is about as definitive a way of identifying when an individual is a candidate as you can get, namely the formation of a campaign committee, solicitation of campaign funds, and the circulation of nomination papers. If any of those events occur, you can assume that a person may be a candidate, although under the law a campaign committee can be formed and funds may be solicited without the potential candidate announcing that he is a candidate. At that time the Board is going to have to make a determination as to whether or not that individual is a candidate or not.

Regent DeBardeleben agreed that Regent Fish is correct in stating that it is going to be a matter for the Board to determine, but that this definition could be one that could assist us in making that determination, and assure that we will not act capriciously or arbitrarily or that some successive Board will not do so. He stated that this definition, as it would exist if Regent Grover's amendment is adopted, would result in our having people who, if they were administrators in our System now, who everybody in the state recognizes as being a candidate for office, would not then meet the definition. He said we are not addressing this thing to the population as a whole. We are addressing it to limited term appointees and the definition ought to be one that fits that situation. He said it would not be good for the University of Wisconsin System to have Senior Vice President Smith, President Young, or one of our Chancellors going around the state making speeches promoting his candidacy for United States Senator while still occupying a high administrative position.

The question was put on the amendment, and it was approved on a voice vote.

Regent DeBardeleben moved that the first paragraph at the top of page 2 be amended by deleting the words in the second line, "announcement of", and by deletion of the last sentence as amended reading "'Announcement of candidacy" is implicit in, but not limited to, such activity as the formation of a campaign committee, solicitation of campaign funds, or circulation of nomination papers.', and the motion was seconded by Regent Lawton.

Regent Grover stated that he felt this amendment really does great harm--we are going to get involved in an open witch hunt on this Board to try to interpret where we are going and what is prior to announcing candidacy--is that one day prior to announcing candidacy or engaging in activity constituting intention of announcing candidacy; now we have to determine intent. He said he liked the language as it exists right now because we do have some samples that we can make reference to and there are definite points that the Board can use in judging whether or not there is intention and whether or not in fact announcement has taken place prior to announcement.

Regent Barkla noted that the statute quoted is for campaign financing and defines candidacy for the purpose of a criminal penalty for the violation of Chapter 12 and she did not see why we have to have a policy that is that restrictive--we should have a policy that defines what we are trying to do in terms of our employees. Regent Lavine stated that we ought to consider the problem in the lack of benchmarks. He noted that there could be an unusual situation where someone goes out and raises money who may or may not become a candidate.

The question was put on the proposed amendment, and it failed on a voice vote.

The question was put on Resolution 1648 as amended, and it was voted on a roll call vote, with Regents Barkla, Beckwith, DeBardeleben, Erdman, Fish, Fitzgerald, Gerrard, Grover, Hales, Johnson, Lavine, Lawton, McNamara, Neshek and Walter voting "Aye" (15), and with Regent Thompson absent.

President Young called upon President Jim Eagon of the United Council of Student Governments for his report. Mr. Eagon reported the United Council had been involved in setting up various debates between two of the gubernatorial candidates--David Carley and Lee Dreyfus, and had received good cooperation from the various campuses. He stated the annual President of the UW System award to the outstanding student government was awarded to the Superior Student Association. He stated incoming President Paul Rusk has formulated programs for the campuses to get involved in the issue at the student government level and at the University level with respect to the rise in tuition costs. Mr. Eagon expressed appreciation for the time the Board had given him during the past year and stated the System administration had been most helpful to the United Council staff.

REPORT OF THE EDUCATION COMMITTEE

The report of the Education Committee was presented by Regent Lavine.

Regent Lavine stated that the committee received the report of three Universities on the Residence Halls Report implementation. He reported UW-Eau Claire Chancellor Leonard Haas, discussed the actions taken at this institution in response to questions raised by the review panel. His report covered the implementation of Regent Resolution 3673 (the parietal rule), the understanding and participation on the part of students in residence hall government through the Eau Claire Inter-Residence Hall Council, changes made to reduce energy consumption, carpeting of corridors to reduce noise, and the housing office philosophy of providing services such as linens, telephone, cable TV, pianos, television sets, washer-dryers, vending, cooking utensils, sewing machines, and popcorn poppers at no or minimum additional cost. He also noted the University's provision of educational aids such as projectors, computer terminals, dictionaries and other education resource materials available in residence halls. Eau Claire dormitories have been operating at better than 100% capacity for over 10 years and on January 31, 1978, were completely reserved for the 1978-79 academic year.

Regent Lavine reported UW-Oshkosh Chancellor Robert Birnbaum stated that dormitories on that campus were operating substantially under capacity. The situation has been exacerbated by an increasing proportion of commuter students and a tendency on the part of some students to select off-campus housing, sometimes as an economy measure. He predicted that the dormitory residence costs will rise by 1981, making the dormitories even less competitive. He noted that Oshkosh presently has no reserves or capital to use to make the dormitories more attractive and that to increase charges for this purpose would likely result in lower student occupancy rates. Regent Lavine reported Chancellor Birnbaum referred to the formation of a special study group to consider such things as the concept of educational aids in residence halls, increasing career counseling facilities, involvement of faculty in the residence halls as tutors and in offering classes, and awarding of academic credit to students involved in residence halls governmental responsibilities.

Regent Lavine stated that Acting Vice Chancellor Bryant Kearn reported for UW-Madison, noting they had not been involved in the study. He briefly discussed the Madison policies and practices regarding such matters as

linen service, telephones, room furnishings, educational aids, the sound problem, and career counseling. Two intensive study houses and one upper classman house have been designated. Cultural programming involving 200-400 speakers per year has been arranged and efforts are underway to encourage community students to make greater use of the residence halls.

Regent Lavine reported that there had been a presentation by Joseph Boisse, Carla Stoffle, and Nicholas Burckel on the UW-Parkside's Teaching Library.

Regent Lavine reported that in discussing the Center System Calendar revision for 1978-79, Senior Vice President Donald Smith took the occasion to reiterate the System's response to the persistent concern that students having summer employment extending through Labor Day not be penalized for not being able to attend early fall registration or class sessions. He stated Dr. Smith stressed the importance of students assuming responsibility for making inquiry of campus admissions staff and of the institutions continuing to publicize the options available. The effect of the proposed Center System calendar changes is to provide for beginning the fall term after Labor Day at six of the Centers.

Regent Lavine moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1649: That, upon recommendation of the President of the UW System and the Chancellor, UW Center System, the revised 1978-79 UW Center System academic year calendars, as shown in EXHIBIT C, attached, be approved.

Regent Lavine moved adoption of Resolution 1650 relating to the Gift by the Trustees of the William F. Vilas Trust Estate for Encouragement of Merit and Talent or to Promote Appreciation and Taste for Music, attached as EXHIBIT D, the motion was properly seconded, and it was voted.

Regent Lavine moved adoption of Resolution 1651 re Acceptance of Proffer by Trustees of the William F. Vilas Trust Estate for Support of Scholarships, Fellowships, and Professorships, attached as EXHIBIT E, the motion was properly seconded, and it was voted.

Regent Lavine reported the Committee received the Information Report on Broadcasting activities in the UW System.

Regent Lavine reported the Committee considered the first reading on Long Range Planning Paper 3.3: Outreach Planning, 1979-83. He stated basically it represents a bringing together and updating of statements of policy existing elsewhere in previous policy statements. The matter will be returned for final action at the June meeting.

Regent Lavine reported the Committee considered the first reading on a New Program Proposal: (Extended Degree Program) UW-Green Bay, Bachelor of Arts: General Studies. Regent Lavine reported a previous market survey has elicited some expressions of interest in the proposed program and, after approval, additional discreet publicity will be accomplished through the print media and radio spot announcements. This matter will also be returned to the Board for final action at the June meeting.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The report of the Business and Finance Committee was presented by Regent Grover.

Regent Grover noted that all Regents had been invited to attend the Business and Finance Committee meeting on the previous day for the discussion of the Auxiliary/Segregated Fees 1978-79 Budget. He reported that the proposed funding level for UW-Milwaukee's athletic program was considered separate from the 1978-79 Auxiliary/Segregated Fees budget since the question involved the 1980-81 fiscal year and would have no impact during 1978-79. There was discussion of a UW-Madison proposal to initiate an emergency dental service for students. Approval of this request was deferred pending completion of a System administration study relating to establishing a minimum student health care module at each University.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Beckwith, and it was voted, with Regent DeBardeleben voting "No":

Resolution 1652: That, upon the recommendation of the respective Chancellors and the President of the System, the University of Wisconsin System's operating budget for the fiscal year July 1, 1978, through June 30, 1979, for Auxiliary Enterprises and Segregated Fee Operations, including user charges and other items reflected in Book B, 1978-79 Annual Budget Documentation, May 1978, as presented to the Board and on file with the records of this meeting be approved. Any new programs to be funded by the segregated fee or user charge are subject to review and prior approval by System Administration; and that System Administration, together with the campuses, be authorized to revise and approve budgets in accordance with actual enrollment experience for the first semester 1978-79, or other significant economic factors which necessitate a budget change.

-

Regent Grover reported that the Business and Finance Committee on the previous day heard presentations relating to the proposed segregated student fee allocation for the athletic program at UW-Milwaukee. The student allocation committee had recommended funding at a level of \$1.75 per student per semester, and the Chancellor had proposed a \$6 level of support for 1979-80 and added a 6% inflation adjustment. He reported that the newly-elected student administration proposed a funding level of \$5.40 per student per semester, a level which the Chancellor indicated would allow retention of a stable program and staffing pattern in the athletic department. Regent Grover reported that the following resolution had been approved on a vote of six to one, with Regent DeBardeleben voting "No".

Regent Grover moved adoption of the following resolution, and the motion was seconded by Regent Beckwith:

Resolution 1653: That, upon recommendation of the Chancellor of University of Wisconsin-Milwaukee, the proposed allocation from segregated fees for the athletic program at UWM for 1980-81, subject to annual review, shall be \$5.40 per semester.

Regent Barkla reported the President of the Student Senate at River Falls had called her and asked that she convey to the Committee the support of that Student Government for the original resolution, which provided support at the level of \$1.75 for the third year of the cycle. Regent Lawton requested that he be informed how a change might be made if the students wished to abandon basketball or abandon football--was it done by budgetary means or did the Administration do it? Chancellor Baum, UW-Milwaukee, responded the Athletic Board examined the total fiscal situation and the scope of the programs and recommended that football be dropped. Regent Lawton stated he was not in favor of all the segregated fee decisions, but it looks like they are becoming a little bit meaningless if we are just going to run over this recommendation of the elected student body. Regent Lavine inquired if any campus wanted to remove, on a permanent basis, student support from intercollegiate athletics, how is that accomplished?

Senior Vice President Smith stated it would be with great difficulty because of the nature of intercollegiate athletics; when you begin talking about a movement of this magnitude, you alert a very, very large constituency. He noted that the protection of the employment rights of the staff, continuity of employment, had been satisfactorily addressed by the new student government. He noted that budget follows program and if it is indeed the intention and the desire of the student body to force a significant reformulation of the intercollegiate athletic program, the budgetary implications should be considered; we should not simply cut the budget to allow subsequent people to decide whether they do or do not want to change the program, and if so, how? He said Chancellor Baum is confronted with a budget recommendation which had no decision in regard to a particular program. Regent DeBardleben observed that the process can be reversed if the money is not provided--the program would follow the budget. It may not be the way that the administration would recommend. Senior Vice President Smith stated it is not the way we recommend and we argue repeatedly that if you want to cut a University's budget, you don't say that you are reducing a budget by 7% and you figure out how to do it. He said the administration says that the programmatic consequences of that need to be spelled out in detail and this needs to be an intentional programmatic decision, not simply a fiscal decision which forces planning and then nobody may like the consequences of the planning and the effects that are felt. He said he considered this a bad way to plan and we put much emphasis in our own planning on trying to close the gap between academic and fiscal planning. He said the administration feels very strongly about this and we are trying to say the same thing in relationship to these segregated fee budgets where they impact on continuing sorts of program operations.

Regent Grover stated that one of the things upon which some consensus was reached yesterday was that there should be greater student involvement on the Athletic Board. He said one problem the Committee faced is that there seems to be a diversity in the student opinion--the past officer speaking to one fee level, and the newly elected officers campaigned and were elected on a higher level fee recommendation.

Regent Beckwith stated he voted for the recommendation yesterday and will vote for it again today for a number of reasons. One, simply to second what Vice President Smith said about responsible program planning. The students have to be a part of responsible program planning, and he considered it irresponsible to submit a budget without a program and that is what we were confronted with. The second reason is that underlying all of this is the concept put forth on the previous day that the Regents must accede to any action of the students with respect to segregated fees because it is illegal to do otherwise. He said his view of Chapter 36 is that that is not the way the law is structured--by all means students should have substantial significant input into these matters of segregated fees as they certainly affect their lives and the conditions of their campus very greatly, but on the other hand he did not feel that we as Regents can simply accept any irresponsible act of students which may come and go as student governments are not permanent sorts of things. He said he felt it is important that we make it clear that while we want very substantial student input, he would say 95 to 96% of the time we would support the students' actions on the segregated fees, but we are not giving up our responsibilities to review those actions.

Regent DeBardleben stated that he felt that it is somewhat unfair to Miss McGown to say that she said yesterday from a legal standpoint the students will prevail over the Regents. He said he did not interpret what she said that way. He noted she acknowledged yesterday that the final review on this thing was the Board of Regents' and that he did not think that she said what has been attributed to her. He said he did not vote "No" yesterday because he thought the students had more power than the Board of Regents, but had voted "No" because he felt that the students themselves had indicated by their attendance at basketball games that they do not support the basketball program at Milwaukee, and when you get one out of every twenty-five students attending it and you are compelling the other twenty-four to support the program, that did not seem to be sound. He stated that responsibility does not have to be equated with rigidity because the three year planning program has been adopted and it does not mean that it cannot be changed. He said he did not think it fair to say that the attitude of the students toward basketball was what dictated the outcome of the recent student election. We do not know what the issues were that were involved in the campaign and there has been a reference made that that was one of the issues. He said we are assuming too much when we say that the election gave rise to any of the conclusions that are being drawn here. So far as the membership on the Athletic Board is concerned, he would ask that President Young advise all the members of the Board, as he advised the members of the Business and Finance Committee yesterday, of the difficulties which would be attendant upon changing the composition of the Athletic Board.

President Young reported that the conferences to which most of our schools belong have a rule to which he subscribes that there should be faculty control of intercollegiate athletics--not Regent control, not President control, not Chancellor control, and so it is an issue of whether the students run the Athletic Board or the faculty do.

Regent Barkla inquired what the \$1.75 would support in the way of programs and whether or not this would be for staff only. Chancellor Baum stated this is a situation in which students can and do have control over the scope of the programs. The fee per semester in 1973 was \$7.00 and it has since dropped to the current \$6.60 per semester and will drop to a planned \$6.00 and then to a planned \$5.40 per semester, and the Athletic Department has had to absorb all of the inflationary increases in addition to taking an actual dollar cut, and therefore the program has been in essentially a continuous retrenchment situation. He noted the basic program level this fiscal year is approximately \$440,000 for athletics and intramurals and recreation, and if the fee were to drop to \$1.75, that would cut the income to the program by approximately \$200,000. The dropping of basketball alone would save an estimated \$80,000; therefore if there is a reduction of \$200,000 a number of other major adjustments would have to be made, but it would be the responsibility of the Athletic Board to then address itself to the issue of how to restructure the program. They would have to make a number of other major adjustments in men's and women's intercollegiate athletics or intramural recreation.

In response to Regent DeBardeleben's question, Chancellor Baum said the current year's budget provides \$80,000 for intramural recreation, \$91,000 for intercollegiate athletics for women, \$200,000 for intercollegiate athletics for men, and \$113,000 for the administration of those three programs.

President Hales called upon Ms. Sue McGown, President of the Student Government at the University of Wisconsin-Milwaukee. Ms. McGown stated that she had written to Assistant Chancellor Spaight advising him that she was aware of the correspondence between Chancellor Baum and Assistant Vice President Osterheld with regard to the Chancellor's recommended allocation of \$6.46 for Intercollegiate Athletics and stating the alternatives available do not include accepting the Chancellor's recommendation. She said the level of \$1.75 which was passed by the Student Association must be voted down by the Board and a request made that a higher level be submitted. She said the Student Association had requested information from the Director of Athletics which was not made available. She stated the funding at the level of \$5.40 per semester had never been mentioned during the election campaign. She mentioned that there are many high priority items to be considered in the student fee funding, among them being such things as the Day Care Center. She said the \$1.75 level for Intercollegiate Athletics had been approved because the Student Government had no idea what kind of growth will be necessary by some of the other programs which receive funding from the student segregated fees.

Regent Barkla inquired as to Ms. McGown's assessment of what kind of athletic program the student government would support and wishes to have. Ms. McGown noted that since 1972 the support of the intercollegiate athletic program has been declining. There was a study done in the Spring of 1977 by Equal Opportunity Office at UWM which indicated that most students would support an increased emphasis on intramural recreation because that is a program in which they can participate, no matter what their abilities are and no matter what kind of credit load they are taking. She noted the athletic program at present has a funding level of \$6.50 per semester, regardless of how many credits you are taking. She said that if people are taking three or four credits, they are not full-time students and cannot participate in intercollegiate athletics because of conference rules; so a vast number of students are putting dollars into an intercollegiate athletic program which they cannot be a participant in and most of the time most part-time students do not have time to be spectators.

Regent Beckwith asked if it is the position of the Student Senate that the Board of Regents cannot adopt another figure besides \$1.75 per semester, and that our only option is to refer it back to the student government if we do not agree with it. Ms. McGown stated that she believed it is the Regents' alternative to either confirm or not confirm the \$1.75 figure. Regent DeBardleben inquired if she was saying the Regents do not have the power to do it, or was she saying they should not do it. Ms. McGown responded that basically the Regents have the power to determine the level of the segregated fee support to the athletic program in that you don't have to accept anything that the Board does not like.

President Hales recognized Enis Raglan, President-Elect of the Student Association at the University of Wisconsin-Milwaukee. He stated that he wanted to make it clear that the issue was not whether they wanted basketball to survive or fail--the issue is the accountability of the Athletic Department to students. He said that it was felt that this accountability could be gotten with the \$5.40 fee and it should be obtained through reorganization of the Athletic Board. He said he was the person who initiated the \$1.75 per semester fee on the Senate floor as an alternative proposal to a zero allocation which Students for Positive Change felt was irresponsible by the Student Senate. He said since that time there have been communications with various Board members and department administrators and it was found that they have real concern over maintaining the level of people they have in the department and it was felt that we should start out next year and work with departments on a clean slate and eliminate everything that happened in the past--start out with what would be a 10% decrease from the second year, which was \$6.40. He said it was felt that would maintain the accountability to the students and that we would work from there on the other things we asked for in our platform, such as an Associate Director for Women's Athletics and the recomposition of the Athletic Board. In response to Regent DeBardleben's question, he stated that the \$5.40 per semester fee was not an issue in the campaign; the issue was \$1.75 per semester.

The question was put on Resolution 1653 and it was voted with Regent DeBardleben voting "No".

Regent Grover reported the next item considered by the Committee was the 1978-79 budget for University Hospitals. He stated Superintendent Gordon Derzon indicated that during the past three years increases of 8%, 6%, and 11% had been requested in contrast to this year's request of 16%. This higher than normal increase rate is directly attributable to costs which are related to the move into the new Health Sciences complex during the coming fiscal year. He reported two divergent views were expressed in the Committee discussion: (1) that the fee increases are in excess of the current inflation rate and may represent excessive charges to patients and (2) that the projected year-end surplus may not be adequate to cover unanticipated costs relating to the move to the new facility which could necessitate returning to the Board in mid-year for an additional increase. Regent Grover noted that one of the constraints which prevails in developing the hospital budget is the fact that the Wisconsin Rate Review Board must approve the proposed increases after Board of Regents' action.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Barkla, and it was voted:

Resolution 1654: That, upon recommendation of the UW-Madison Chancellor and the President of the System, the University Hospitals Operating Budget for the fiscal year July 1, 1978 to June 30, 1979, not to exceed an estimated amount of \$49,857,000 be approved, and that the rate changes be effective July 1, 1978; that the University Administration be authorized to make the necessary final accounting adjustments; and that the University Administration be authorized to request approval from the Joint Finance Committee to assess charges for State patients in University Hospitals on the basis of the following schedule also effective July 1, 1978:

| <u>Daily Care Rates</u> | <u>1977-78</u> <u>Rate</u> | <u>Per Day</u> <u>Change</u> | <u>1978-79</u> <u>Rate</u> |
|-------------------------|-------------------------------|---------------------------------|-------------------------------|
| Minimal Care Unit | \$ 62.00 | \$ 10.00 | \$ 72.00 |
| 8 Bed Ward | 88.00 | 15.00 | 103.00 |
| 6 Bed Ward | 89.00 | 15.00 | 104.00 |
| 4 Bed Ward | 93.00 | 15.00 | 108.00 |
| 3 Bed Ward | 95.00 | 16.00 | 111.00 |
| 2 Bed - No Bath | 97.00 | 15.00 | 112.00 |
| - Adjacent Bath | 99.00 | 15.00 | 114.00 |
| - Private Bath | 102.00 | 16.00 | 118.00 |
| 1 Bed - No Bath | 102.00 | 16.00 | 118.00 |
| - Adjacent Bath | 104.00 | 16.00 | 120.00 |
| - Private Bath | 107.00 | 17.00 | 124.00 |
| Psychiatry | 103.00 | 21.00 | 124.00 |
| Rehabilitation | 106.50 | 17.50 | 124.00 |

Regent Grover reported the Committee next considered the 1978-79 Fee and Tuition Schedule, with President Young making the presentation. Regent Grover stated President Young noted he disliked bringing forward a budget necessitating such substantial increases on students who already are finding it difficult to meet the costs associated with obtaining an education, but in view of the inability to secure executive and legislative support for a request to utilize GPR funding to offset a portion of this increase, there appeared to be no alternative at this time. Regent Grover reported there was considerable discussion about the adverse effect of the various funding formulas used in developing the funding levels for the System--formulas which are extremely effective during periods of rapidly increasing enrollment, but have a detrimental effect when enrollments have stabilized or are increasing at less rapid rates. He stated it was agreed that the Board would not be asked at this time to adopt any resolution which would outline proposals that could result in substantial cost savings, i.e., closing of high-cost facilities, reduction in program quality, etc. System administration staff will develop a comprehensive document which would contain a number of alternatives for future consideration by the Committee. Regent Grover reported James Eagon, outgoing President of the United Council of Student Governments, read a statement to the Committee urging the seeking of alternative funding sources to reduce the level of increase to be passed on to the students.

Regent Grover moved adoption of the following resolution, and the motion was seconded by Regent Walter:

Resolution 1655: That the fee/tuition schedules presented in Annual Budget Policy Paper #78-79/1.0 for the 1978-79 Academic Year and the 1979 Summer Session be approved. (EXHIBIT F, attached)

Regent McNamara stated that as he understood the law this is one of those things on which we have no alternative but to accept it and he wanted to make it clear that he was strongly opposed to these budget increases and that he felt it unconscionable for the Legislature to put the University System in this position. He said he had received numerous inquiries from people about this, pointing out that it makes it almost impossible for them to send their sons and daughters to the University. He said it hits hardest at working people and professional people in the lower income levels. He said two groups are not affected as much--the very poor or the very wealthy. He said whether we like it or not, the very poor generally are not motivated in the direction of college, and the very wealthy have no problem, but everybody who falls in between does have problems. He noted the Department of Labor modest budget for a family of four, which is a little above the subsistence budget, is now up to approximately \$17,000 and there is no provision in that budget for any kind of higher education, and yet on the amount of that income the amount of support they can receive from loans or grants is minimal. He said we boast that there is either a two-year or a four-year institution within commuting distance of every potential student in the state, but by our action we are foreclosing the opportunities for many of these people to attend the University. He said he felt at the very least, the present tuition and fee schedules should be held at their present levels, that the State could well afford to do that and by so doing would be doing something positive in one of the most fundamental activities of the state. He said he had no recourse but to vote for the fees, but that he wished to protest very vigorously.

Regent DeBardleben stated that he was in general agreement with Regent McNamara but did not agree that the poor are not motivated to go on to higher education. He said another reason why this impacts in a particularly great way on the middle class economically is that there are grants available that do help people that are very badly deprived and noted this had been discussed extensively in the Committee meeting on the previous day. He said the Committee questioned President Young very closely as to whether there were any areas which could be eliminated in the University's operation even if it meant giving money back to the state, so as to cut down the amount of the student contribution. He said President Young assured us that there are not, that anything we would do would impact on the quality and on the programs. He stated he agreed with Regent McNamara that we not only are violating the tradition of the state of free public higher education, but we are defeating the purpose for which this institution was founded by the citizens of the state. He recalled Regent Grover said yesterday maybe we ought to consider closing down campuses. This would be a terrible thing to do but we ought to consider it, because when you make a study, you are considering it. He said he felt these are alternatives which we are going to have to discuss because this Board has the responsibility to take these

actions, which are intolerable. Regent Beckwith stated that he endorsed what had been said by Regents McNamara and DeBardleben, and emphasized that he knew the Board has been involved in discussions with the Legislature in the past and that the issues facing us in this coming year and in the next biennial budget are accessibility and the maintenance of quality. He said we are presently developing a University budget based upon fundamentally two concepts--enrollment funding, and a fixed and unwisely high percentage of instructional costs based upon numbers of students. He said it appeared to him that rather than say to the Legislature, this is intolerable, this we cannot live with, this will price people out of the market, it is the responsibility of Central Administration and this Board to come to the Legislature with another way of doing it--a more sensible way of setting up a University budget, because not only are we faced with the prospect that families will not be able to afford to send their children to the University, we are likewise faced with the prospect that the quality of education will be depreciated by the fact that as enrollments decline, funding will decline at a more rapid rate, with the result that we will wind up with less funds per student. He urged that the Board of Regents be presented by System Administration with the best ideas that can be assembled as to how else we might draw a budget that would get us out of this box and what we could recommend as a clear and acceptable alternative to the Legislature. He stated it has to be clear to the people of the state we have a primary responsibility to maintain accessibility and quality and if that means that we have to close campuses because that is the only way we can maintain the quality for those that remain and the only way we can have a budget for those that remain that will permit people to get into them at a reasonable cost, then that is something the Legislature has to know. He urged that this be given the highest priority.

Regent Gerrard stated he assumed this resolution will pass, but he was going to vote against it. He said he felt we have to stand up and be counted and we have to go to the Legislature and say "This has to change." He stated we have a \$500 million surplus and that we as individuals and as Regents and anyone else involved in education have to do a selling job in getting the formula changed. Regent Lavine inquired what would be the effect of not passing this this month, but acting next month. President Young responded that if we do not pass it now, we can't tell people what it is going to cost to come to school and we cannot process the Financial Aids Programs and go ahead with planning. He said we would have to come back to you next month with very similar figures. Regent Lavine noted that graduates, despite the job market and everything else, pay more than we ever put into paying for their education. If we are to maintain quality, this Board must stand behind the fact that they have that quality. He said he would not join Regent Gerrard in voting against the resolution today, but that he felt he is right, and when we start the biennial cycle, he will join him next time. He said he felt this is the time when the Board and the 148,000 students and their families should lobby for a change and that we should be prepared next time to tell the Legislature what is at stake and lay out alternatives, and maybe then they will understand what Wisconsin stands to lose.

President Hales stated that he agreed generally with what had been said but did not think it is quite proper to characterize the very poor with the very rich. He said he knew a lot of poor people who would change places with those people in the middle class who are having difficult times

and it is misleading to say that because this increase is going to impact on the very poor as much as on the middleclass, and he did not want to give the impression that the very poor people are getting a free ride.

Regent Johnson stated that he felt we have programs that are directed for the very poor, but they are very poor programs. They do not give access as a result of it, and he found it very difficult to believe that that is a good answer for anybody in any classification that you come up with that they have to utilize that to get in.

Regent Barkla inquired if it was true that the Governor had made a proposal to fund Intercollegiate Athletics with GPR money. Chancellor Shain responded that during the past couple of weeks there had been considerable discussion about the future of Intercollegiate Athletics and some of the discussions involved the possibility of requesting funds as part of the biennial budget process for Intercollegiate Athletics. He said that during that period the Governor had a press conference and he was asked if he would favor giving supporting funds for Intercollegiate Athletics, and the headline on the newspaper report was misleading. He said he had been told that the Governor said he would think about it or he would look into it or something like that. What came out in the headlines was much more positive and he did not think we should ascribe these things to the Governor that are not appropriate.

Regent Grover stated that the Board ought to be aware of where we are in terms of potential student population. Half the elementary and secondary schools in the State of Wisconsin are experiencing declining enrollments and we are going through that phase right now and administrators are losing their heads right and left as they close neighborhood schools and lay off faculty. He said he noticed that both the Vocational System and the University of Wisconsin System have laid great emphasis on how they are going to start recycling the adult population and that this will somehow limit the impact we have had in terms of enrollment projections. He continued that ultimately the institution has to make the critical and tough decisions that are presently being made in elementary and secondary schools. He said this trend is not going to cease but will increase, and involved in all of that is programmatic review on all the campuses. He said he did not know how many programs have been eliminated--he knew we have traded some, but he could not remember that we have eliminated very many and that is one focus that has to be generated. He said that if the organized labor in the state got behind the University like it got behind the Vocational System, it would be beneficial to organized labor because it is in the middle class in this state, and they are the ones that are being hit by our higher educational aids formula, and their children are being deprived of post-secondary higher academic education. He said that from his limited perspective, the support that labor has given post-secondary education in the state has been largely toward the Vocational System and has not been loud enough for post-secondary higher academic education, and that if this somehow could be carried to the proper circles, they would ultimately realize that their lack of effort has really impinged upon their own children's ability to achieve a professional status in society.

Senior Vice President Smith stated that one should not equate in any straight line the functions of post-secondary education with those of elementary and secondary education. He said we have always held there are three missions

the University performs--instruction, research, and public service, which includes continuing education. He said we will be bringing to the Board next month the first reading of the demographic context. He said one of its implications is the fact that the state population will continue to grow and that we are facing the largest generation of people above the 18 - 24 year-olds we have ever had. There are two demographic anomalies we are going to face in the middle of the time when there are fewest 18 - 24 year-olds and also facing a severe depression in the number of the 50 to 60 year-olds. He said we will furnish both the consequences of the role of the 18 - 24 year-olds and also the consequences of the role of these others within the demographic implications for University planning. He said these aberrations in the profile population will continue on into the 1990s, and at least under the current demographic projections, the trough of 18 - 24 year-olds is a phenomenon of almost exactly one decade, which is a very short period of time in the history of the University. He continued it is often said that you can pull apart a University in five years, but it takes fifty years to build it. He said the state has a serious question if it is going to pull apart its university because of a ten-year slump in one-year demographic projections, coupled by the large problems in the other parts of the higher education structure, when it is also facing a resurgence of all that population only a decade later.

Regent Walter stated there may be another angle in addition to the possible decline problem--whether or not it will last--and that is whether a University education is regarded as important as it used to be and whether we have reached a leveling off in that respect. She noted that up to the present time, people that went to grade school sent their children to high school and people who went to high school sent their children to college, etc. She stated the Legislature probably pays more attention to public opinion than it does to the members of the Board of Regents.

The question was put on Resolution 1655, and it was voted, with Regent Gerrard voting "No".

Regent Grover moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1656: That, upon recommendation of the President of the System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent Grover reported that the late Jeannette S. Fairbrother, of Madison, Wisconsin, bequeathed \$25,000 plus two-thirds of the residue of her estate to be used to establish the Roy Fairbrother Memorial Scholarship Fund for the financial assistance of worthy students showing promise in the field of distributive education as the Regents may determine at the University of Wisconsin-Madison, and one-third of the residue to be used to establish the Jeannette Shand Fairbrother Memorial Scholarship Fund for the financial assistance of worthy students showing promise in the field of elementary education as the Regents may determine at the University of Wisconsin-Superior.

Regent Grover moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1657: That the bequests of the late Jeannette S. Fairbrother, Madison, Wisconsin, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Jeannette S. Fairbrother, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for these bequests, and to do all things necessary to effect the transfer of these bequests to the University of Wisconsin-Madison and the University of Wisconsin-Superior.

Regent Grover reported that the committee deferred action on the matter of developing a policy on voting proxies.

Regent Grover reported the Committee received an informational report relating to efforts concerning reciprocity agreements with Iowa and Illinois and the effect on border universities (Whitewater and Platteville) of the change to require out-of-state students to assume 100% of their cost of instruction. He noted out-of-state enrollment at UW-Whitewater has decreased from 1630 to 701 and at UW-Platteville from 1237 to 433.

The meeting recessed for lunch at 12:40 P.M. and resumed at 1:15 P.M., with Regents Barkla, Thompson and Walter absent.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The report of the Physical Planning and Development Committee was presented by Regent Gerrard.

Regent Gerrard stated the Modern Industry Project at UW-Parkside was requested by the Regents in the 1975-77 biennium and provided for the construction of approximately 15,000 assignable square feet of specialized engineering technology laboratory space. The Lakewater System Conversion Project at UW-Madison represents culmination of the effort to convert from use of lake water to city water on the campus. The project was originally approved in the 1977-79 Building Program at a cost of \$414,000. Savings of \$106,000 resulted from the Madison Physical Plant staff performing a portion of the work originally programmed.

Regent Gerrard moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1658: That, upon the recommendation of the UW-Parkside and Madison Chancellors and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved and that authority be granted to plan, bid and construct the projects at the costs indicated, to be funded through General Obligation Bonding:

UW-Parkside

| | |
|--------------------------|-------------|
| Modern Industry Building | \$1,213,000 |
|--------------------------|-------------|

UW-Madison

| | |
|-----------------------------|------------|
| Lakewater Conversion System | \$ 308,000 |
|-----------------------------|------------|

Regent Gerrard reported the next resolution granting authority to accept a deed transfer for a parcel of land from the UW-Stevens Point Foundation is the culmination of activities which were started in 1975-76 and is related to one of the minor projects to be considered in resolution 1661 for the development of the Schmeckle Reserve at UW-Stevens Point. The parcel of land represents the in-kind contribution of the UW-Stevens Point Foundation which made the minor project eligible for Heritage Conservation and Recreation Service funding assistance in the amount of \$248,000.

Regent Gerrard moved adoption of the following resolution, the motion was seconded by Regent Lavine, and it was voted:

Resolution 1659: That, upon the recommendation of the Acting Chancellor, UW-Stevens Point and the President of the University of Wisconsin System, a deed transferring 49.54 acres of land owned by the University of Wisconsin-Stevens Point Foundation to the Board of Regents be accepted. The parcel involved in this transfer is further identified by the following legal description in the City of Stevens Point, Portage County, Wisconsin:

The Southeast quarter (SE $\frac{1}{4}$) of the Northwest quarter (NW $\frac{1}{4}$) and the West 9.25 acres of the Southwest quarter (SW $\frac{1}{4}$) of the Northeast quarter (NE $\frac{1}{4}$) of Section Twenty-eight (28) in Township Twenty-four (24) North, Range Eight (8) East.

Regent Gerrard reported the first lease in the next resolution represents renewal of a lease of a parcel of land to provide parking spaces to accommodate the need for parking of patients and visitors to University Hospitals. The second lease is to continue to provide space for UW-Extension Soil Testing Laboratory and the UW-Madison's Agricultural Engineering Department to conduct research and testing in a variety of engineering sanitary projects. The third lease is to provide space for UW-Madison Physical Plant operations and for UW-Extension bulk mailing and Extension Duplicating Service.

Regent Gerrard moved adoption of the following resolution, the motion was properly seconded, and it was voted:

Resolution 1660:

That, upon the recommendation of the UW-Madison and Extension Chancellors and the President of the University of Wisconsin System, authorization be granted to enter into leases for the following space, for the term and at the cost indicated:

UW-Madison

- (1) 5,356 square feet of space located at 1345-47 University Avenue, Madison, Wisconsin for the period July 1, 1978 through June 30, 1979. The annual lease cost is \$3,500.

Rennebohm Drug Stores, Inc., Lessor
2300 Badger Lane
Madison, Wisconsin 53713

UW-Extension

- (2) 5,650 square feet of space located at 802-808 South Park Street, Madison, Wisconsin for the period July 1, 1978 through June 30, 1981. The annual lease cost is \$18,000.

A. C. Andersen, Lessor
521 South Owen Drive
Madison, Wisconsin 53711

- (3) 8,550 square feet of space located at 9 North Brooks Street, Madison, Wisconsin for the period July 1, 1978 through June 30, 1979, with a one-year renewal option. The annual lease cost is \$1.14 per square foot.

Alfred G. Jacobs, Lessor
2701 Marshall Court
Madison, Wisconsin 53705

Regent Gerrard moved adoption of the following resolution, the motion was seconded by Regent Fish, and it was voted:

Resolution 1661: That, upon the recommendation of the Acting Chancellor, UW-Stevens Point and the Chancellor, UW-Stout and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct the following minor projects, at the cost and from the funding source indicated:

UW-Stevens Point

Schmeeckle Reserve Development - \$248,000 (Heritage Conservation and Recreation Service Funds)

(Continued)

UW-Stout

Residence Halls Temperature Control Modifications - \$70,800
(Program Revenues - Interest Earnings)

-

Regent Gerrard moved adoption of the following resolution, the motion was seconded by Regent Johnson, and it was voted:

Resolution 1662: That, upon the recommendation of the UW-Platteville, Green Bay and Superior Chancellors and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct the following minor projects, at the cost and from the funding sources indicated:

UW-Platteville

Rountree House Masonry Repairs, \$23,000 - State Building Trust Funds - 1977-79 Minor Project Funds

UW-Green Bay

Heating Plant Energy Conservation Project, \$68,000 - State Building Trust Funds - Energy Conservation Funds

UW-Superior

Main/Erlanson Heating/Ventilating System Improvements, \$127,000 - State Building Trust Funds - Energy Conservation Funds

-

Regent Gerrard reported the next resolution requests approval of a minor project to cover the cost of remodeling space for the relocation of the Testing Center and Counseling Center from temporary housing to permanent locations in the Polk Library and Dempsey Hall. The project also covers the cost of demolishing three houses with gross square feet of approximately 15,000.

Regent Gerrard moved adoption of the following resolution, the motion was seconded by Regent Fish, and it was voted:

Resolution 1663: That, upon the recommendation of the UW-Oshkosh Chancellor and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct the following project, at the cost and from the funding source indicated:

UW-Oshkosh

Testing Center/Counseling Center Relocation/Remodeling, \$89,400 - State Building Trust Funds Prior Funding Balances

-

Regent Gerrard moved adoption of the following resolution, the motion was seconded by Regent Johnson, and it was voted:

Resolution 1664: That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, authorization be granted to plan, bid and construct a Three Building Energy Conservation Project at UW-Eau Claire, at a total project cost of \$640,612, to be funded from State Building Trust Funds-Energy Conservation Allocation.

- - -

MISCELLANEOUS RESOLUTIONS

Regent Fish moved adoption of the following resolution, the motion was seconded by Regent Erdman, and it was voted:

Resolution 1665: The University of Wisconsin-Parkside's attractive facilities and competent personnel enabled the Regents of the University of Wisconsin System to conduct an enjoyable and productive meeting.

The Regents extend to the Parkside faculty, staff, students, Judy Guskin and especially to Chancellor Alan Guskin their grateful appreciation for the many courtesies extended to the Regents, Central Administration staff, and other visitors.

Regent Neshek moved adoption of the following resolution, the motion was properly seconded, and it was voted, with Regents Beckwith, DeBardleben, Erdman, Fish, Fitzgerald, Gerrard, Grover, Hales, Johnson, Lavine, Lawton, McNamara, Neshek voting "Aye":

Resolution 1666: That in accordance with Section 19.85(1)(c), WIS. STATS., a closed session be held to consider personnel matters.

The meeting recessed into closed session at 1:30 P.M.

The Board arose from closed session at 1:57 P.M. President Hales reported that the following resolutions were adopted in closed session:

Resolution 1667: That, upon recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Bryant Kearn be changed from Acting Vice Chancellor for Academic Affairs and Professor of Agricultural Journalism, to Vice Chancellor for Academic Affairs and Professor of Agricultural Journalism, UW-Madison, effective May 5, 1978, at an annual salary of \$51,700.

Resolution 1668: That upon the recommendation of the President of the UW System, the appointment of John B. Ellery as Acting Chancellor, UW-Stevens Point, effective April 17, 1978, and for a period co-terminous with the leave of absence of Chancellor Dreyfus, be approved. The annual salary base for the Acting Chancellor shall be \$42,931, effective April 17, 1978, with this base representing his current salary plus a supplement to continue only during his term as Acting Chancellor.

Resolution 1669: That, upon recommendation of the President of the System, the continuation of the appointment of Leonard Haas as Chancellor of University of Wisconsin-Eau Claire through the year 1979-80, be approved.

The meeting adjourned at 1:58 P.M.

5-25-78

|--|---|----------|

| UNIVERSITY | PROJECT | ACTION |
|--------------|--|--|
| 12. SPECIAL: | Requested authority to lease approximately 11,516 SF in the Park-Regent Medical Building in Madison for the UW-Extension Small Business Outreach Department, the Engineering Department, and the Wisconsin Energy Extension Service, for an annual cost of \$80,612. | DEFERRED for consideration at May meeting. |

- * The State Building Commission approved these four projects and directed that the work (i.e., rendering the exposed hazardous foam insulation non-hazardous and code-complying either through (1) the physical removal and replacement of the insulation and/or (2) the application/installation of non-hazardous and code-complying coverings), be accomplished by the least expensive method as is determined by a test project in the Scott Residence Hall at UW-Oshkosh.

REPORT OF THE PRESIDENT OF THE SYSTEM

Resolution 1648:

FOREWORD

Regent Resolution #800 establishes "Policy for Employees Engaging in Political Activity, Seeking Elective Office, and Serving as an Elected or Appointed Official." The policy addresses specifically the procedures by which the employee may seek leave of absence appropriate to the proposed commitment of time for the purposes identified. It is clear that this policy was intended to apply to members of the faculty and academic staff, and that it did not contemplate the circumstances which would arise if a limited appointee of the System wished to pursue or accept a major political office.

Persons holding limited appointments in the University of Wisconsin System and the institutions are those who serve at the pleasure of the appointing authority. Leave of absence from such position is usually undertaken only for reasons of health, or for short-term professional assignment.

However, under current System personnel guidelines, it is recommended that persons newly appointed to limited positions also have concurrent appointment as a member of the faculty or academic staff. Most persons appointed prior to these guidelines, whose positions have since been defined as "limited", have also now been provided with concurrent appointments. This arrangement makes it possible for the Board to establish policies and procedures for limited appointees who might at some future time wish to engage in political activity, seek political office, or serve as an elected or appointed governmental official.

The Regents have concluded that it is desirable that they provide a clear policy statement for the guidance of limited appointees who may wish to pursue the political or governmental purposes identified. This statement follows:

THE POLICY

The Regents affirm the following addendum to Resolution #800, dated 7/12/74, and establish the effective date of this new policy as January 1, 1979:

1. Seeking paid political office

If an administrator of the University of Wisconsin System holding a limited appointment wishes to seek nomination or election to a paid political office which would regularly require working during the normal hours which the administrator maintains for the UW System, and

If the administrator wishes to maintain his/her employment relationship with the University during such quest for office, then the administrator shall observe the following procedures:

Prior to announcing candidacy, or engaging in activity clearly constituting announcement of candidacy to an office of the type indicated above, the administrator must request from the Board reassignment from his/her limited appointment to any concurrent faculty or academic staff appointment held. "Announcement of candidacy" is implicit in, but not limited to, such activity as the formation of a campaign committee, solicitation of campaign funds, or circulation of nomination papers.

The Board shall require evidence that any such reassignment, not accompanied by an immediate leave without pay, requires the administrator to perform work useful to the University System, and appropriate to the compensation provided for the position. The Board shall grant reassignment only in the presence of such evidence.

If reassignment is made and not joined to a concurrent granting of leave without pay, the reassigned employee shall thereafter be guided by the policies and procedures stated in Resolution #800 as to requesting leave.

Reassignment pursuant to a proposed quest for paid elective office is an action taken without prejudice toward the eligibility of the employee, at the discretion of the Board, to return to his/her prior limited position, or to be appointed to an alternative limited position.

2. Serving in paid elective political office

If the reassigned limited appointee is successful in winning the political office sought, the policies and procedures stated in Resolution #800 shall apply to the granting of leave of absence.

3. Serving in an appointive office

The limited appointee wishing to accept an appointive political office may request reassignment by the Board to his/her concurrent faculty or academic staff position, joined to an immediate request for leave-without-pay. The policies and procedures stated in Resolution #800 shall apply to the granting of a leave of absence in such circumstances.

BOARD OF REGENTS OF THE
UNIVERSITY OF WISCONSIN SYSTEM

POLICY DOCUMENT 74-9

RESOLUTION # 800

DATE 7-12-74

SUBJECT: Policy for Employees Engaging in Political Activity,
Seeking Elective Office and Serving as an Elected
or Appointed Official

Resolution 800:
(Policy - New)

That the following policy for employees engaging in political activity, seeking elective office and serving as an elected or appointed official, be approved:

1. No political campaigning activities shall be engaged in during hours when an employee is expected to be performing his or her regularly scheduled University duties. Further, as provided in recent State legislation, no officer or employee may solicit or receive or be involved in soliciting or receiving any contribution or service for any political purpose from any officer or employee of this state while on state time or engaged in his official duties as an officer or employee.
2. If a staff member chooses to enter a primary campaign, he or she, in consultation with the department chairman and dean should determine whether or not this activity will impair or encroach on performance of University duties. If it is determined that it will, a reduced-time appointment should be arranged for the period of the primary campaign.
3. If a staff member is a candidate in a regular election, step 2 should be followed with the expectation that a reduced-time appointment would be in order.
4. If a staff member is elected, he or she may be granted a leave of absence for the initial term of office where the time demands of the office would not allow continuance of full or part-time performance of university duties. If the individual is elected to a second term, it would be the normal expectation that the individual would sever his or her relationship with the University. If a campus wishes to extend the leave of absence in this instance, justification should be advanced to the President of the System and the extension must receive the specific approval of the Board of Regents.
5. If a staff member accepts appointive, local, state or national office, political or educational in nature, he or she may be granted a leave of absence for the initial appointment term where the time demands of the office would not allow continuance of full or part-time performance of university duties. Extension of the leave beyond the initial term shall require justification and approval as outlined in 4. above.
6. Service as an elected or appointed official on off-hour demand activities (e.g. school boards, city councils, county boards or on local, state or national commissions) would not normally require a reduced appointment or leave of absence. Each case should be reviewed.

EXHIBIT C

Gift by the Trustees of the
William F. Vilas Trust Estate
for Encouragement of Merit
and Talent or to Promote
Appreciation and Taste for Music

EDUCATION COMMITTEE

Resolution 1650:

That the Board of Regents of the University of Wisconsin System gratefully accepts the gift by the Trustees of the William F. Vilas Trust Estate (copy dated April 25, 1978, on file), of \$16,500.00 for the academic year 1978-79, for the encouragement of merit and talent, or to promote appreciation of and taste for, the art of music, in connection with University instruction therein, to be used for the following purposes:

1. At the University of Wisconsin-Madison, School of Music, to develop a year-long seminar around the general theme of Contemporary Music in Music Education for Today
(\$9,500.00)

 2. At the University of Wisconsin-Milwaukee, Music Department, "Percussion East and West," an International Conference on Percussion Practice, Time in Music, and Rhythm
(\$7,000.00)
- Total \$16,500.00

EXHIBIT D

Acceptance of Proffer by Trustees
of the William F. Vilas Trust
Estate for Support of Scholarships,
Fellowships, and Professorships

EDUCATION COMMITTEE

Resolution 1651:

That the Board of Regents of the University of Wisconsin System gratefully accepts the proffer by the Trustees of the William F. Vilas Trust Estate (copy dated April 25, 1978, on file), of the sum of \$340,250.00 for the year 1978-79 for the maintenance of the scholarships, fellowships, and professorships (with their respective auxiliary allowances), to be expended in the following order:

| | | |
|--|-----------------|-------------|
| 1. Continuation of 10 Vilas Undergraduate Scholarships for the academic year 1977-78 at \$400.00 each | | \$ 4,000.00 |
| 2. Continuation of 10 Vilas Graduate Fellowships for the academic year 1977-78 - | | |
| (a) 5 resident Fellowships at \$600.00 each | \$3,000.00 | |
| (b) 5 traveling Fellowships at \$1500.00 each | <u>7,500.00</u> | 10,500.00 |
| 3. For continuation of the salaries and for the respective allowances as recommended by the Regents of 16 Vilas Research Professorships: | | |
| <u>Leonard Berkowitz</u> - Vilas Research Professor in Psychology, College of Letters and Science, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,000.00</u> | 15,000.00 |
| <u>R. Byron Bird</u> - Vilas Research Professor of Chemical Engineering, College of Engineering, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>6,000.00</u> | 16,000.00 |
| <u>Steven H. Chaffee</u> - Vilas Research Professor of Journalism and Mass Communication, College of Letters and Science, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,000.00</u> | 15,000.00 |
| <u>David Fellman</u> - Vilas Research Professor in Political Science, College of Letters and Science, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,000.00</u> | 15,000.00 |

(continued on following page)

| | | |
|--|-----------------|-------------|
| <u>Fred Harvey Harrington</u> - Vilas Research Professor in History, University of Wisconsin | | |
| Salary | \$10,000.00 | |
| Auxiliary Allowance | <u>6,000.00</u> | \$16,000.00 |
| | | |
| <u>Ihab Hassan</u> - Vilas Research Professor in English and Comparative Literature, College of Letters and Science, UW-Milwaukee | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,500.00</u> | 15,500.00 |
| | | |
| <u>Jost Hermand</u> - Vilas Research Professor in German, College of Letters and Science, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,400.00</u> | 15,400.00 |
| | | |
| <u>J. Willard Hurst</u> - Vilas Research Professor of Law, Law School, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,000.00</u> | 15,000.00 |
| | | |
| <u>Robert J. Lampman</u> - Vilas Research Professor of Economics, College of Letters and Science, UW-Madison | | |
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,000.00</u> | 15,000.00 |
| | | |

John E. Willard - Vilas Research Professor
in Chemistry, College of Letters and Science,
UW-Madison

| | | |
|---------------------|-----------------|-----------|
| Salary | 10,000.00 | |
| Auxiliary Allowance | <u>5,000.00</u> | 15,000.00 |

| | | |
|---|------------------|--------------|
| 4. Continuation of fifty (50) additional Vilas Scholarships at \$400.00 each | 20,000.00 | |
| 5. Continuation of fifty (50) additional Vilas Fellowships at \$600.00 each | <u>30,000.00</u> | 50,000.00 |
| 6. Continuation of eighty (80) additional Scholarships at \$400.00 each under the provisions of Paragraph (E), Article Fourth of the Deed of Gift and Conveyance | | 32,000.00 |
| | | <hr/> |
| | TOTAL | \$340,250.00 |

NOTE: As to the one hundred thirty (130) additional Vilas Scholarships and the fifty (50) additional Vilas Fellowships provided for above, the Regents will bear in mind the provisions of the Will requiring that the additional Fellowships shall be (a) awarded to graduates of the University of Wisconsin, and (b) the further provisions of the Will that "for at least one-fifth of these scholarships and fellowships the Regents shall prefer in appointment among worthy and qualified candidates those of Negro blood, if such present themselves. Otherwise than as aforesaid, they shall be governed by the Regents in like manner as those first above provided for."

ANNUAL BUDGET POLICY PAPER #78-79/1.0

SUBJECT: 1978-79 Academic Year and 1979 Summer Session Fee/Tuition* Schedules

A. Background

The significant academic fee/tuition increases for 1978-79 illustrate the reasons why holding down costs to students was the major goal in the President's and Regents' Annual Review submission to the Governor and Legislature. The UW System proposed expanded student employment and state sharing on a 50/50 basis with the students in the fee/tuition increase. At that time, it was estimated that the average rate increase would range from 9.2% to 9.6% unless the State relieved the students of part of the burden by providing supplemental GPR funding. Additional state support was not provided for the students. Final cost estimates indicate the weighted average increase in student academic fees/tuition will be 9.2% according to state budget policy. The increase for each Cluster will vary from this average on the basis of different trends in the cost of instruction per student, as explained below.

Several factors contribute to the fee/tuition increase that exceeds the average 7.5% salary adjustment for faculty and academic staff. The cost elements that will increase more rapidly than 7.5% are: energy costs increasing more rapidly than savings in consumption; the employer contribution to health insurance premium costs; increased employer social security contributions; negotiated wage settlements for classified employees paid at the lower ranges; modest shifts in student enrollment to higher cost programs, increasing costs-per-student; and various small budget increases authorized by the Governor and Legislature for some needs addressed in the Regents' biennial budget request. There are a few budget components that will increase less than 7.5%; the most important example is the supply and capital budget, for which only 55% of the impact of inflation was offset through supplemental appropriations. However, the net effect of all budget changes is a 9.2% average fee/tuition increase.

Emphasis is placed on the fact that this percentage is a weighted average because the fee/tuition increase in the Doctoral Cluster will exceed 9.2% in most categories and the increases in the University Cluster will be less. The reasons for the difference are:

- a. The Doctoral Cluster rate for undergraduate residents was below the percentage target for 1977-78, while the University Cluster rate was slightly above the target.
- b. Budgeted enrollments in the Doctoral Cluster will decline by about 600 students from 1977-78 to 1978-79, contributing to increases in cost-per-student, while budgeted enrollments in the University Cluster reflect a slight increase next year over this year.

*The fee is that portion of the cost charged to both resident and nonresident students; tuition is the additional charge to nonresidents only.

- c. There are numerous other small cost factors which, in the aggregate, result in a larger cost increase in the Doctoral Cluster than in the University Cluster. For example, a downward revision in the projected utility cost increase was less in the Doctoral Cluster than in the University Cluster; this unevenly distributed savings is associated with heavier reliance on less expensive fuels where possible.

The projected fee/tuition increases for the Center System approximate the average percentage for the University System. The earlier general explanation of the cost increases applies in the case of the Centers.

Looking ahead to biennial budget development for 1979-81, it is important to note that fee increases for the Doctoral Cluster in this biennium are a good illustration of how sensitive per-student costs and the related fee/tuition formula are to enrollment changes. Since a substantial portion of the budget is a fixed cost, enrollment declines or shortfalls escalate per-student costs and fees, just as enrollment increases moderated per-student cost and fee increases in the 1960's and early 1970's. The downward revision in budgeted 1977-79 enrollments in the Doctoral Cluster has been modest in percentage terms but this factor, combined with various unavoidable cost increases and student shifts to higher cost programs, served to escalate fee/tuition increases for both undergraduates and graduates. The current phenomenon of per-student cost and fee escalation in the Doctoral Cluster will be magnified and extended throughout the University System in the 1980's as full-time enrollments decline. Thus, experience in this biennium should serve to clarify the problem to be addressed in long range planning and biennial budgeting. Through the current fee policy, enrollment decline and the resulting per-student cost escalation in the 1980's could have the ironic effect of raising financial barriers to access and contributing to further decline.

Before turning to the details of the fee/tuition computations for 1978-79, it is important to note two additional elements in the annual policy document on fees. First, the 1979 summer session fee/tuition schedule is included to simplify the decision-making process at all levels. Per credit summer session fee/tuition rates are equivalent, except for rounding, to semester rates. Since a full-time summer session course load is defined to be one-half that for a semester, full-time summer session fees are one-half the semester rates. Given the relationship of the academic year and summer session schedules, separate Regent actions are unnecessary.

The second new element in the policy documentation on fees relates to the Extended Degree Program. The Annual Review authorizations for the Extended Degree Programs at UW-Superior, UW-Green Bay and UW-Platteville require fees for this outreach effort to be in effect in 1978-79, for the first time.

Decisions on proposed segregated fees reflected in this paper are to be made in the context of reviewing the 1978-79 auxiliary budgets, also scheduled for May.

B. Percentage Targets

The 1978-79 fee/tuition schedule applies the percentage targets established in legislative policy reviews:

| | | | | | | | | | |
|-----------------------|-------------|------|----|---------------|------------------|-------|---|----|---|
| <u>Undergraduate:</u> | RESIDENT | 25% | of | undergraduate | cost-per-student | | | | |
| | NONRESIDENT | 100% | " | " | " | " | " | " | " |
| <u>Graduate:</u> | RESIDENT | 21% | of | graduate | costs* | | | | |
| | NONRESIDENT | 70% | " | " | " | | | | |
| <u>Medical:</u> | RESIDENT | 16% | of | Medical | School | Costs | | | |
| | NONRESIDENT | 28% | " | " | " | " | " | ** | |

*The allowable target ranges from 20-22%.

**The allowable target ranges from 25-28%.

The targets are considered guidelines for the Board of Regents because judgment and adaptation are required in fiscal planning, which frequently involves phasing budget adjustments over several years. However, for 1978-79, revenue requirements make it necessary to set fees at the targets, as explained in the next section.

These target percentages are applied to instruction-related costs-per-student by undergraduate and graduate levels, by cluster, to determine target fees/tuition. Instruction-related costs include not only costs of instruction, student services, libraries and tuition remissions granted to teaching assistants, but a pro-rata share of general operations and services, physical plant operations, utilities and depreciation.

C. Fiscal Requirements and Policy Considerations

1. The adjusted biennial budget allocations for 1978-79 require an academic fee/tuition revenue level of \$109.3 million, a net increase of \$8.6 million over the 1977-78 budget. This increase consists of \$9.1 million to be raised through fee rate adjustments and a reduction of \$.5 million due to lower enrollments and other factors.
2. In accordance with accepted budgetary practice, the fee/tuition schedule should be designed to accommodate a modest revenue loss without requiring abrupt reductions in program levels approved by the Regents for the institutions. A revenue contingency factor designed to minimize disruptions in educational programming is necessary in any year given the possibilities of an enrollment shortfall, of changes in the rate of retention from first to second semester, and of shifts in student mix to categories of lower charges, e.g., from nonresident to resident or from graduate to undergraduate.

The 1978-79 fee/tuition schedule incorporates a 1% shortfall contingency factor above the legislative revenue projection. This System contingency allowance is the minimum acceptable in light of experience in the last two years.

3. Although, as noted in the preceding section, the percentage targets are guidelines that would allow the Board of Regents to phase fee increases by shifting revenue requirements between clusters, thereby moderating some of the larger adjustments, this alternative is not prudent for 1978-79. Last year's unsuccessful attempt to phase into a target by 1978-79, by setting the 1977-78 Doctoral Cluster undergraduate fee at 24% in anticipation of enrollment growth, illustrates how difficult it is to predict precisely the enrollment-related cost trends for each cluster. A misjudgment would compound the problem of raising fees the following year. Given the uncertainty and the fact that 1978-79 is the base for the 1979-81 biennial budget review by the Legislature, setting all fee and tuition rates at the percentage targets is the recommended approach.
4. As explained in the "Background" section, the 1979 Summer Session fee/tuition schedule can be adopted in tandem with the 1978-79 Academic Year rates. Per credit charges are identical between the semester and the summer session, except for rounding the rates, and a full summer course load and associated fee are one-half those for a semester.
5. The recommended charges for the Extended Degree Program conform as closely as possible to the fee policies for traditional degree credit instruction. The basic cluster academic fee rates for a semester would apply to the credits taken by Extended Degree Program students during a 12 month learning contract. This policy is appropriate because the number of credits taken annually would not exceed 18 per learning contract.

Since all three new programs are offered by University Cluster institutions, only the fee schedule of that cluster will apply in 1978-79. The basic charge per credit would be \$25.75 through 12 credits, beyond which the full-time semester rate of \$310 would apply up to the limit of 18 credits.

The unique features of the extended degree program require a couple of special fees in addition to the basic academic fee. A "prior learning assessment" fee would vary according to the number of credits awarded for prior learning. A \$50 fee is also proposed for the preparation of an annual study plan for each student. See Attachment 1 (blue) for specific guidelines and special fees.

D. Recommendation

Following consultation with the Chancellors and an informational briefing for student representatives, System Administration recommends Board approval of the attached fee/tuition schedules for 1978-79. See Table 1 comparing the current and proposed fee rates for the academic year and identifying percentages of cost and dollar increases by cluster. Table 2 shows a consolidated schedule of proposed academic year fee/tuition and segregated fees by campus and a comparison to last year's charges.

Undergraduate resident instructional fee increases would be \$81 (12.8%) in the Doctoral Cluster, \$39 (6.7%) in the University Cluster, and \$52 (9.3%) in the Center System. (Divide these dollar amounts by 2 for per-semester rate increases.)

Graduate resident instructional fee increases would be \$110 (11.8%) in the Doctoral Cluster, and \$23 (3.2%) in the University Cluster.

Fee/tuition increases for nonresident undergraduates and graduates would range from \$78 in the University Cluster to \$316 in the Doctoral Cluster, with varying percentage rates of increase identified in Table 1.

Medical school fees/tuition rates would increase by \$161 (7.4%) for residents and \$231 (6.1%) for nonresidents.

In Table 3, proposed 1979 full-time summer session fee rates are shown and compared to 1978. They are derived from the academic year rates in Table 1, but vary slightly due to rounding per credit rates.

| Resident Students | 138 | 150 | | |
| Nonresident Students | 558 | 612 | | |

*The rates shown represent the fees and tuition paid by a "full-time" summer session student. Full-time is defined as one-half the full-time semester load for the academic year. The per credit fee for summer session is equivalent to the semester per credit rate for the previous academic year except for rounding to the nearest dollar.

Segregated fee charges for summer session are established using one-half of the semester rate for the previous academic year as the guideline. The charge per credit and maximum fee are set by the individual campus with review by the Vice President and Controller.

Attachment 1

Special Fee Policies and Related
Administrative Guidelines For
EXTENDED DEGREE PROGRAMS

1. A person may become an enrolled extended degree student through the payment of an annual study plan fee of \$50. The annual study plan should be filed with the Registrar's Office.
2. Enrolled extended degree students are then eligible to register for an annual term (twelve month) learning contract of variable credit.
3. Students enrolling for an annual term learning contract will be charged on a per credit basis through 12 credits, after which a constant fee applies until the 18 credit limit per contract is reached.
4. September 1 will be the beginning date of the academic year for establishing fee levels.
5. A learning contract may be renegotiated within the first thirty days, only to add credits, with appropriate fee adjustments upward. After the 5th working day of the following month, however, it will not be possible to modify an annual learning contract.
6. Within the first thirty days a student may withdraw from an extended degree program or segments thereof and receive an 80% refund provided that no credit has been awarded.
7. For students wishing to have prior learning evaluated, there will be a charge for this service based on the number of credits granted: 1-9 credits, \$50; over 9 credits, \$100. Thereafter, all competency assessments will be based on learning contract enrollments.
8. Students who enroll in an extended degree learning contract will not pay segregated fees. However, if an extended degree student takes a regularly offered course as part of the annual contract, he/she will be required to meet institutional policies for instructional fees and segregated fees for that course.
9. If the institution permits a deferred payment plan for its regular students, the same plan should be available to extended degree students.
