<http://rightsstatements.org/vocab/InC/1.0/>

The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

**RECOVERY IS  
FASTER, SAFER,  
CLEARER-HEADED**

with **'BRIETAL SODIUM'**\*  
METHOHEXITONE SODIUM

The exceptional properties of 'BRIETAL SODIUM'—a new improved intravenous barbiturate anaesthetic—make it the induction agent of choice and the preferred anaesthetic for brief procedures: Quick smooth induction . . . greater potency than previous agents . . . adaptable . . . predictable . . . minimal side-effects . . . faster safer patient-recovery. Clinically established in over 50,000 cases—more than 15,000 in Britain alone.

**"...the closest approach to the ideal..."<sup>1</sup>**

1. Oral Surg., 13:1330

Rubber-stoppered ampoules of 0.5 G. (50 ml.) No. 660 and  
2.5 G. (250 ml.) No. 664
