WISCONSIN ALUMNUS

BRUARY

1938

Bread, Butter, and Jam for 13,000,000 People

DOES the income which supports you come from making or selling automobiles, radios, electric refrigerators, or movie films? If so, you are one of these 13,000,000 people. You are one if that income comes from any of the industries which have grown up in a single generation.

Automobiles, radios, gasoline, aluminum—these and many other products exist today because industry sought new products, found ways to build them better, means to

sell them at lower prices. Today, these industries not only employ millions but—through demands for steel, coal, cotton, transportation—they help support millions more.

Some of the greatest advances in this work have been made through the use of electricity. Through it new products have been developed, and the efficiency of all industries has been increased. In most of these modern electrical developments, General Electric research and engineering have pioneered.

G-E research has saved the public from ten to one hundred dollars for every dollar it has earned for General Electric

Our Authors

Once again we present an interesting account of some of the novel, fascinating and outstanding work of our alumnae, written by Henrietta Wood Kessenich, '16, our alumnae editor. Mrs. Kessenich's articles are a regular feature of the ALUMNUS.

Nieman Hoveland, '35, author of "Just a Farm Problem", is a member of the administrative staff of the College of Agriculture. During his under-graduate days he was editor in chief of the Country Magazine and active in the affairs of the College. He is a member of Alpha Zeta, honorary agricultural fraternity.

Correction

The November issue of the ALUMNUS carried a news story stating that Alice A. Mattison, '30, was a former superintendent of public instruction in the state of Montana. The statement is wrong. Miss Mattison was state supervisor in the office of the state superintendent in Montana. Her's was an appointive whereas the latter was an elective position.

Hear Ye! Hear Ye!

During the months of December and January, the Association office was literally besieged with requests from members for copies of the December and January ALUMNUS. Apparently, too few of the members realized that the ALUMNUS had been changed from a monthly to a quarterly publication.

This change was made to bring you a better magazine with more class and University news than we have ever published in a single issue before. In the November issue, for instance, there were 1787 alumni mentioned in the class and alumni news sections, and practically every college and department in the University was discussed in the University news.

For your information, the remaining two issues of the ALUMNUS will be published on or about April 1 and July 1. There will be two issues of the University Bulletin, the 8 page newspaper, supplementing these issues to keep you informed of the University and Alumni activities until your ALUMNUS arrives.

Subscription to The Wisconsin Alumnus is \$1.00 per year. This is included in the regular memberships of The Wisconsin Alumni Association which are \$4.00, \$2.00, and \$1.00 annually. Family rate membership, \$5.00 annually. Life memberships, \$50.00 payable within the period of five years. The Association earnestly invites all former students, graduate and non-graduates to membership. Others may subscribe at the regular subscription price of \$1.00.

Application for entry as second class matter in the post office at Madison, Wis., pending.

Change of Address must be reported ten days before date of issue. Otherwise the Association will not be responsible for delivery.

Discontinuance—if any subscriber wishes his magazine discontinued at the expiration of his subscription, notice to that effect should be sent with the subscription, or at its expiration. Otherwise it is understood that a continuation is desired.

Issued quarterly. Member of Alumni Magazines, Associated. National Advertising Representative: The Graduate Group, Inc., New York, Chicago, Detroit, San Francisco, Los Angeles and Boston.

The President's Letter

Fellow Alumni:

At the half-way mark there are many reasons to look forward with confidence to a successful 1937-1938 year in Association activities. The year started with a program of definite objectives, primarily based on service to the University. You are familiar with the Association platform which appeared in the last issue of the WISCONSIN ALUMNUS. Following the pace-making membership drive during the years 1936 and 1937 the officers and directors were of one mind as to the importance of consolidating our position, taking advantage of the experience and ground gained to push forward in cooperation with all University agencies.

We are all cognizant of the necessity of campaigning aggressively for an "increasingly virile and effective Association." It is a pleasure to report that progress has been made. The membership trend has continued upward which has enabled us to balance the receipts and expenditures to date. But lean months of income are ahead and invaluable assistance can be given the executive offices of the Association at Madison through cooperation in making prompt remittances of dues, avoiding the expense of follow-up notices. Careful investigation has borne out the fact that the delinquency, in almost every instance, is the result of oversight.

"Bill" Kies of New York struck the keynote at the Alumni Banquet in June when he urged support to the Association "Not for what you can get out of it, but for what you can put into it." President Dykstra speaking to 700 Chicago Alumni at the annual football banquet this fall said, "What a tower of strength it would be if the 70,000 alumni were banded together for constructive aid to the University?"

As to services to the University, our most important objective this year is that of working with the University agencies to assist graduates in becoming adjusted to the business and professional world immediately upon completion of their University courses. Some fifty leaders among the alumni in the United States have accepted appointments to the placement committee and are working out the mechanics with the faculty committee of Vocational Guidance appointed by President Dykstra. The responses from alumni committee members have been enthusiastic and encouraging. Hon. John J. Esch of Washington, D. C., writes, "I am in hearty sympathy with this movement as it is another illustration of the leadership of the University among educational institutions. I express my appreciation of the appointment as a member of the Placement Committee which committee is given the initial task to start the movement."

We welcome the suggestions and assistance of every alumnus in a position to cooperate with the Placement Committee in this pioneering endeavor.

Sincerely yours,

HIP:D

Howard I. Potter

Beauties, Bargains and Books

They're a versatile lot, these former co-eds; here are three to prove it

by *Henrietta Wood Kessenich, '16*

THE Ruth Boyle who wrote general articles for Good Housekeeping Magazine, covering women's clubs, writing on building, on insurance and investments, was long ago recognizable to many of us as Ruth Boyle, '16. Mrs. Robert Wiseman, wife of a New York architect and artist, is also Ruth Boyle, '16. And so is Ruth Murrin, director of the Beauty Clinic of Good Housekeeping.

She is a far cry from that group of soap-and-water girls who received diplomas back in the days when commencement exercises were held in the stock pavilion. She knows how to write, knows cosmetics, and knows her fashions.

And she hasn't known a dull day since President Van Hise handed her her gaily be-ribboned roll of sheepskin. For a year she was Woman's Editor of Farm and Fireside. Came the War, and she served over-seas as canteen worker with the Y. M. C. A. Back in New York a year-and-a-half later, she was given a job with the New York *Daily News*, a tabloid newly born. Reporting for that paper and free-lancing for the magazines, she worked up to the editorial staff of McCall's where she did a little of everything — writing, makeup, editing, choosing fiction and articles. In 1923 she went to Hearst's International, and when that magazine combined with *Cosmopolitan*, she found a haven with Good Housekeeping and there she has been ever since.

The Wisemans live in and near New York, for six months of the year in the country in a brick stable at Ossining which they have remodeled enough to make it livable, the other six months in the city, to avoid winter commuting, and to see new plays, hear concerts, and to visit art galleries.

Ruth Boyle's first work with Good Housekeeping was the business of writing on anything that required a good reporter. Then one day a beauty article was needed and she wrote it up under the name of Ruth Murrin. She knew nothing about creams or make-ups, but she talked to some of the authorities and did what she considered a modest little piece. Letters in response to it came in surprising numbers, and the first thing she knew she was doing a monthly beauty article. The Beauty Clinic grew and grew until she was absorbed by it, and now she gives her time to little else on the magazine.

Ruth Murrin's articles, in addition to being clear and forceful, have a certain charm. With guile she entices readers into an old story, and makes them think it is something they have just discovered; and she has the knack of making a woman leap up from reading the magazine to begin creaming her face or nip over to a store to buy the new shampoo she has just read about.

For Miss Boyle, the practical trade course, *The Chemistry of Cosmetics*, given in the School of Pharmacy at Columbia, took much of the mystery out of the pretty jars and bottles she played with every day. She brushed up on her knowledge of physiology, too, so that doctors wouldn't burst out laughing when she mentioned pores, capillaries, tissues, and hair follicles. To maintain an alert sense of fashion, she studies *Vogue* and *Harper's Bazaar* as regularly as we pay our telephone bills. And by diligent study,

Ruth Boyle, '16

Knows her cosmetics and fashions

observation, and experiment she has learned to know what makes a product a poor, mediocre, or a good one of its kind.

On Good Housekeeping a cosmetic is first analyzed in their chemical laboratory, and the claims made for it are passed on from a chemist's point of view. Then the product is used according to the directions on the label by a group of 250 women under Miss Boyle's supervision, and the claims are checked by the results they obtain in actual use. If necessary, the opinion of a bacteriologist or a doctor is obtained.

"Learn not to shudder," says Miss Boyle to would-be beauty editors, "but to treat with scientific detachment the hanks of hair that fall out of letters on your desk. Learn to harden your heart and tell a manufacturer what you really think about his product, his package, or his copy. Women are becoming more exacting, more critical, and more realistic about cosmetics every day, and you must widen your knowledge and sharpen your observation to keep ahead of them!"

Elanora Pfeffer
Never a dull minute

ELANORA PFEFFER is not doing so badly for a young woman out of college not quite five years. Keeping sixty specialty shops happy by creating new promotions, advertising everything from sterling to saddle soap, throwing in a little carpentering, sign painting, photographing, and personal shopping service means her job, assistant to the director of the promotion Department for the Shops in the Palmer House, Chicago.

It is to Susan B. Davis, formerly Assistant Dean of Women at Wisconsin, that Miss Pfeffer feels she is infinitely indebted for whatever success she enjoys. Much of her training for her present work was acquired during her senior year, and without Miss Davis' advice and interest, she would have dropped out of school before her senior year began.

Finances were bothering her that fall, and she felt that any further thought of education had best be cast aside. The responsibility of serving as women's chairman of Orientation

Week was on her shoulders, however, and she had either to enter school or notify someone that a new chairman should be appointed in her place. She talked to the Dean of Women, and the result was that she not only completed her senior year, but had a grand time. Dean of women Louise Troxell gently tugged a few strings for a scholarship and a student loan, and Assistant Dean Davis promoted a position as hostess of Langdon Hall and performed innumerable kindnesses throughout the year.

Out of the sky, too, Miss Pfeffer received an offer to create the College Shop at Hill's Department store in Madison.

As hostess in the dormitory and as Orientation Chairman, she learned much about young women; at Hills', she learned about merchandising, interior decorating, buying, personnel and writing advertising copy. Most of all she learned the value of decision and planning.

For three years following graduation she kept busy in a newspaper office. Then, one Leap Year Day, adventuring on a "hunch", she resigned. From Marshall Field's and Sears Roebuck's retail advertising departments she wound up, five weeks later, at the Palmer House where she amazed the department head with the story of what she could do.

The Palmer House, located in the center of Chicago's business district, has on its first three floors sixty specialty shops, each one separately owned. Because some can be entered from the street as well as from the hotel, their appeal is not only to the hotel guest but to the downtown shopper, and not only to the five-dollar-a-day visitor but to the bargain hunter.

IN BRIEF, Elanora Pfeffer's work in the promotion department is to create advertising copy for direct mail, newspapers and radio; issue a yearly directory and monthly booklets for each hotel room; mail elaborate catalogues seven times a year to the Shops' combined customers in and out of Chicago; decorate display cases; sponsor style shows, teas, and

travel expeditions; and maintain a huge booth at society's annual Flower Show on Navy Pier. The department has to bring in business, build prestige, advise on merchandising—all in the same breath—with publicity ever the cry.

There's a feeling of glamour, too, about the Palmer House itself for Miss Pfeffer. She sees a face she recognizes behind twenty suitcases—it's Ann Harding. She hears a young woman criticising a scene from the Katherine Hepburn play,—it's Katherine Hepburn. She steps "back-stage" and learns how two thousand pear salads are served in split seconds, and how difficult it is to find one unscratched coffee spoon in the kitchen's supply so she can photograph a demi-tasse setting for the Bride's issue of the catalogue. She's not sure which she likes more—what she does or what she sees.

And feeling the need of leisure time activities, she attends meetings of the Women's Federated Advertising Club and of Theta Sigma Phi journalistic sorority alumnae meeting, and serves as vice-president of the Chicago alumnae of Delta Zeta.

• •

HAVE you read "The Langworthy Family", Elizabeth Corbett's new novel? Well, don't dodge it just because it's appearing on all the best seller lists throughout the county. The critic on the Philadelphia *Inquirer* considers it a practically perfect portrayal of the better order of American small town life. Arthur Maurice of the New York *Sun* says that if she has slipped up on even a minor detail in picturing the whole scheme and fabric of American life in the Mid-West as it was some forty years ago, he has been unable to detect it. He, and every critic we've read, feel that Elizabeth Corbett's new book is destined to go far.

But about the author herself. She's a Wisconsin alumna, you know.

She lives with her mother in downtown New York in a very pleasant skylight apartment there, she says, "my mother collects early-American furniture and glass, runs the apartment and runs me." She lived in Wisconsin until she moved to New York ten years ago, and is probably the only author who was ever brought up in a Soldier's Home. Her father was an officer in the National Soldiers' Home near Milwaukee, her companions were 2,000 or more veterans of the Civil War, and in her small world of four hundred acres, she paddled in the artificial ponds, fed the ducks and swans, listened to band concerts, thrilled at the daily bugle calls, attended performances in the little theater and acquired an amazing vocabulary of swear words.

DURING her entire childhood she tore around outdoors or had her nose in a book and went to school under protest. The University of Wisconsin, however, was a different story. She loved it. Here she decided on her life work—writing, a career Professor Lucy Gay especially encouraged her to follow, and here it was Professor Neil Dodge, her guide through English Composition, helped her form her style, and strive for his ideal, "good straightaway literary English." From the

University also, she got material for two of her later books: "The Graper Girls Go to College" and "Growing Up with the Grapers".

Elizabeth Corbett graduated from Wisconsin in 1910 and is only one member of a thoroughly Wisconsin family. Her brother, Richard Adkins Corbett, graduated there in 1913, her sister, Gertrude Corbett (Park) in 1915, her sister-in-law, Rose Legler (Corbett) in 1913, her brother-in-law, Stephen Alan Park, received his M. A. there in 1912. Her niece, Jean Elizabeth Park, is a sophomore this year, the 1938 Prom Queen.

Miss Corbett left the University with firm determination to become a writer of novels. For a long time she lived on her doting parents

Elizabeth Corbett, '10
Produces another best seller

and on rejections. But her tireless industry and faith were finally rewarded by the publication of three of her novels, two biographies, and many magazine essays, articles, and short stories.

One evening at a party, an editor in a publishing firm asked her to write a novel for him. And she did. "The Young Mrs. Meigs"—published in 1931—leaped easily into the best selling class, and Elizabeth Corbett suddenly found herself a personage, a somebody in the literary world. Now in 1938, "The Young Mrs. Meigs" is still widely read, still talked about and quoted, the library copies are dog-eared and worn. In 1933, Mrs. Meigs appeared a second time in "A Nice Long Evening" and readers found that she—and incidentally, Miss Corbett—had not let them down. Two years ago she appeared again, "Mrs. Meigs and Mr. Cunningham," and critics in the Saturday Review of Literature were delighted to report that "the inimitable Mrs. Meigs is with us again"

The author of this now famous character is a small, slight figure, five feet one in height,

reddish hair and arresting blue eyes, with a distinctive something about her that attracts and holds attention. She never has time for club or committee work, has no hobbies—unless reading, fondness for the theater, and people can be termed "hobbies." She doesn't like large parties but would consider a week a total loss if during it she didn't entertain a few of her friends in her own home. She finds it a great satisfaction to read the letters from her public, and she receives many of them. Like her vivid book character, the little old lady, Mrs. Meigs, she is friendly, sympathetic and witty. She loves people and she finds life worth living. She has an unusual insight into human nature and emotions, a way of lifting the events of everyday life far above the commonplace, and she writes with an extremely delicate touch.

Practically all of her books have appeared in England, and several of them have been translated into Dutch and Scandinavian. Elizabeth Corbett has become a widely read, popular author.

When the Panther and the Badger Lunched Together

Arch W. Nance, '10, in chef's uniform, carving a huge Wisconsin cheese at the get-together of the Pittsburgh and Wisconsin alumni preceding the game this fall. Arch really didn't carve the cartwheel, but it makes a good picture.

Just a Farm Problem?

MANY Wisconsin alumni remember there was an Agricultural College campus around somewhere, sprawled along west of Bascom. Yes, and grads of the past decade who happened to stay at the Tripp or Adams dormitories recall distinctly they passed it every day going to and from the Hill

Strangely enough, the College of Agriculture and Experiment Station are not very well known to most alumni, except to those who studied on the hill west of Bascom. The agricultural folks—faculty and students alike—for the most part are a hard-working, serious lot, sometimes mildly criticized for failing to take a more active part in all-University affairs.

Every little while, of course, the newspapers carry a brief story about some new discovery made at the Experiment Station. Something about a vitamin, perhaps. Maybe some plant or animal disease brought under better control. Quite likely a new and better crop variety.

BUT for the most part the workaday achievements of the Experiment Station are hardly spectacular enough to make the headlines. They find their way into technical journals, to be perused by research men and form the foundation for later discoveries of science the world around. They are made known to Wisconsin farmers through the Agricultural Extension service, and help them produce and market their commodities more efficiently.

Yes, farmers agree the Experiment Station has performed a great service to agriculture.

To agriculture? That's too narrow. Consider these incidents:

In the ivy-covered agricultural chemistry building out on University avenue, E. B. Hart once cast about for a way to keep little pigs from

Well, hardly when you consider these benefits to all humanity

by Niemen Hoveland, '35

dying with anemia. Just a farm problem, you see Hart discovered that a bit of iron and a little copper were exactly what the little fellows needed to keep them frisky and strong.

But was it just a farm problem? Medical research men immediately pounced on Hart's discovery, and found it applied to human beings as well as to farm animals. Now it is standard practice for physicians to prescribe iron and copper to prevent and cure certain types of human anemia.

ANOTHER example Farther out on University avenue, in the basement of the poultry building, J. G. Halpin nearly two decades ago tried to grow baby chicks indoors during late winter. Farmers wanted to raise early-hatched chicks so as to get their pullets to mature in time for fall and winter egg production. Egg prices you know were highest then. But no one knew how to grow chicks successfully indoors, as early chicks would have to be. They developed "leg weakness," became crippled, and died.

Now why could it be that chicks were thrifty outdoors, but sickened and died in the poultry house? Was it green grass they needed? Halpin and his associates tried growing green stuff in the laboratory and feeding it to the chicks. Unaccommodatingly they persisted in dying just the same.

Did chicks get something out of the soil that they couldn't get from wood or concrete floors? Angleworms, maybe? Or did they get some needed substance from the soil itself? Many poultrymen were convinced of this, and even a few scientists wrote learned treatises on the "earth salts" theory

Chemist E. B. Hart
"A bit of iron and copper"

of nutrition. But the Wisconsin investigators carried both angleworms and soil to their indoor chicks, and still they were so ungrateful as to die.

Finally someone thought to open a window—and immediately the indoor chicks began to perk up surprisingly. Sunlight! That was what they needed. So was another farm problem solved, and again science got a clue that had vast importance in terms of human well-being. Down through the ages since the ancient Persian sun-worshippers, many men had harbored the hunch that sunlight for some reason is beneficial; but it was not until science could prove it that mankind began to take full advantage of those health-giving rays.

EXAMPLE Number 3: In the vine-clad “ag” chemistry building Harry Steenbock experimented and pondered in his laboratory, seeking how he could best harness the new knowledge of sunshine and vitamin D to the uses of man. Natural sunlight is good, but a bit inconvenient; it will not perform at all times, nor is it handy to bring indoors.

Steenbock turned the rays of a quartz mercury vapor lamp onto milk, and then fed the milk to experimental animals. Thus was discovered the principle of irradiation. Not only has the finding served to expand the farmer's market for milk, but the bottled sunshine which it made possible has made unnecessary the bowing of infant's legs by rickets—even though they live in dark city tenements where the sun seldom shines.

Now for example Number 4—but why go on? Many are the instances in which agricultural research at the Wisconsin Station has benefited countless thousands besides Wisconsin farmers, and the cases are coming up right along.

Just a few months ago C. A.

Elvehjem and R. J. Madden discovered that a tiny speck of nicotinic acid will cure black tongue disease in dogs. It is a bit early to predict accurately what this finding means, but unless scientists are all wrong in their opinion that black tongue is the canine counterpart of human pellagra, it probably indicates this: nicotinic acid is the pure form of the anti-pellagra vitamin, and it will furnish a very cheap and effective means of preventing pellagra, the “hard times disease” which attacks thousands of the poorer residents of the South when they live mostly on a diet of pork, corn bread, and molasses.

These are some examples of cases in which application of agricultural research findings to the problems of mankind at large have been prompt and direct. But in a larger sense every contribution which helps the farmer gain better control over the forces of Nature is reflected in a more abundant, varied and healthful diet for consumers.

NEITHER the Wisconsin Station nor any other yet has all the answers. It would be a rash prophet who ventured to predict what agricultural science has in store for the future, but here is one development

Husbandryman J. G. Halpin
“Somebody opened a window”

that looms on the ever broadening horizon.

Not long ago this Station learned that winter milk can be improved as to vitamin A content and growth-promoting quality. What is the most practical way of bringing about the improvement? That is still debatable. But it may be done by feeding dairy cows alfalfa silage "canned" with mineral acid, molasses, or even wood sugar liquor—so much has been demonstrated at this Station.

Making alfalfa into silage has so many

practical advantages that a goodly number of dairymen already have seized upon the idea, even though methods are not yet as well worked out as might be desired.

Will alfalfa silage become as popular as corn silage is today? Will the next generation attain greater physical stature as the result of drinking more potent winter milk produced by cows on alfalfa silage rations? These questions may be answered a quarter century hence by some future writer in the *Alumnus*.

Association Starts Alumni Placement Service

FULLY cognizant of its duty as a service organization, both to the University and the alumni, the Alumni Association has established a nation-wide placement committee for the benefit of old and young alumni alike. John S. Lord, '04, of Chicago is general chairman of the new enterprise.

Stretching from coast to coast, this committee is composed of outstanding alumni who are influential figures in the business and industrial worlds. Theirs will be the job of helping alumni make the proper contacts with the concerns in a position to offer employment. They will not necessarily be an employment group whose sole task would be to hunt up jobs. Instead, they will keep posted with the possible employment channels and be in a position to steer unemployed alumni to the proper authorities.

Contrary to the fears expressed in some quarters, this committee will in no way usurp the powers of nor obstruct the work of the regular University committees set up to assist seniors in obtaining employment. Rather they will, as they have during the past month, work hand in hand with this faculty group.

To aid the graduating seniors in their search for attractive career employment, the Association has published a 28-page monograph by Glenn Gardiner, '18, entitled "The College Senior Seeks a Job". This booklet, which will be distributed gratis to all members of the senior class, describes in detail the ten steps which every person seeking employment must take.

Gardiner, who is assistant to the president of the Forstman Woolen Mills in New Jersey, is the author of "How You Can Get a Job", a volume published several years ago and a revised edition of which has just recently come off the press. Plans are now under way to

bring Mr. Gardiner to the Campus to address a student meeting sometime during February.

Since it is obviously impossible for the Alumni Association to establish a regular employment office because of the lack of necessary funds and personnel, the Placement Committee requests that all interested alumni, either those seeking employment or those who are in a position to assist in placing alumni, notify the Association offices of their desires. Every effort will be made to assist both potential employes and employers as rapidly as the facilities of the office permit. Further notices of possible placement will be contained in future issues of the *Alumnus*.

A second forward-looking step taken by the directors of the Association during the past few months is the establishment of a revised athletic committee. Under the new plan, the state of Wisconsin has been divided into ten districts and the Chicagoland area made into the eleventh. Each district will have a chairman who will serve under the leadership of the general chairman, Arthur E. Timm, '25, of Milwaukee.

This step was taken in the belief that better results could be obtained by members of the faculty and coaching staff meeting with smaller groups scattered about the state than could be gained from trying to bring the larger group to Madison for one or two big meetings a year.

Each vice-chairman or district director will have under his charge the public and parochial schools in his area. He will call district meetings from time to time and in general supervise the activities of his assistants. These vice-chairmen will comprise the general Athletic Committee of the Association and will be responsible to the Board of Directors of the Association.

*One of the
twelve portraits
included in
the calendar*

Wisconsin in Portrait

An Extraordinarily Beautiful Calendar for 1938

IF "one picture is worth a thousand words," twelve pictures should be worth twelve thousand words. Or more - - much more - - for the pictures we refer to are beautiful photographic portraits of the University taken by professional photographers and presenting the Campus from unusual and striking angles - - presenting a fresh view of old familiar scenes - - capturing the charm and flavor of Wisconsin more effectively than twice twelve thousand words could hope to do.

IN "WISCONSIN IN PORTRAIT" we have compiled a really outstanding col-

lection of photographic studies of the University buildings and campus. You would be happy to pay a dollar for these studies alone - - in addition we have incorporated a listing of important college events and a convenient calendar, enameled Wire-O bound for either wall or desk use.

UPON receipt of one dollar plus ten cents for mailing costs, we will send "Wisconsin in Portrait", suitably boxed to any United States or foreign address.

**Albert Tomlinson
P. O. Box 2045**

order from . . . Madison, Wisconsin

U N I V E R S I T Y

IF YOU look at it in one way, the University of Wisconsin was one hundred years old last month.

For it was on a bleak, cold day in the middle of January, 1838, just a century ago, that three members of the council of the Territory of Wisconsin reported for passage by the council Bill number 99. Without debate, the council resolved itself into a committee of the whole for immediate consideration of the bill, approved slight amendments in two sections, and then gave it unanimous passage. A few days later, the Territorial house of representatives concurred in Bill number 99, and Henry Dodge, first governor of the Territory, signed it into law.

Thus was born on January 19, 1838, the University of Wisconsin. Bill number 99, as passed by the Territorial council, was an act to establish the University of the Territory of Wisconsin near Madison, the capital city of the territory. In a way, creation of this Territorial university really marked the birth of the present University of Wisconsin.

In 1839, the national Congress granted to the Territory two townships of public land for the use and support of its university, and in 1848, when Wisconsin was admitted to statehood, this land became the financial support of the University which was provided for in the state constitution. Wisconsin became a state on May 29, 1848, and two months later, by act of the state legislature, the University was incorporated, its government being vested in a board of regents.

The University usually celebrates its Founders' Day on the anniversary of the opening of its first class on February 5, 1850, under the supervision of the University's first professor, John W. Sterling. The first class consisted of 20 students, and its meeting place was a rented, red brick building erected in 1847 for the Madison "Female Academy."

Today, the University's 10,800 students go to their classes in an institution of several colleges and many departments, housed in nearly 100 buildings, and do their studies under the supervision of a comprehensive faculty body whose fame has placed the University of

Wisconsin in the front rank of American colleges and universities.

Library Gripes

Improvements in the University of Wisconsin's library facilities and service are asked by students returning 580 out of 600 questionnaires, recently distributed to find out what, if anything, the students thought was the matter with their library system.

Some complained that there wasn't enough room in Bascom reading room and protested against having to study on the steps outside. Others deplored a scarcity of books in the main library, commented on the advisability of library service on Sunday, asked for a revival of checking service for cloaks, suggested that the library open at 7:45 or 7:50 A. M. every morning instead of 8 A. M.

Four students complained about gabfests disturbing those desiring to study in the libraries.

Other stray requests were for plush seats because "the hardwood ones are uncomfortable", and for a "decent pencil sharpener."

Government Coalition

A loose coalition of men's and women's governing bodies was voted recently by the Women's self-Government executive council. Under the new setup, the executive groups of the men's union and Women's Self-Government association will meet to discuss Campus problems affecting both men and women, and will take joint action. Each will retain its identity as a factor in student government.

Leaders in both organizations said they felt such a coalition would lend force to actions in which both are interested and would provide a new meeting-ground for existing special actions in which both are interested and would provide a new meeting-ground for existing special action bodies which have both men and women students as members.

Cheydleur Honored

At the annual meeting of the American Association of Teachers of French held in Chicago Dec. 29 and 30, Prof. Frederic D. Cheydleur of the French department was

A C T I V I T I E S

elected president to fill the unexpired term of Prof. A. G. H. Spiers of Columbia university, who died Dec. 16. As one of the vice presidents of the association, Cheydleur has been active in founding new chapters of the organization in the middlewest states.

Women Better Students

Women students at the University continue to hold a slight scholastic edge over men students, according to averages released recently.

The scholastic average for all undergraduate students last semester was 1.545 grade points per credit hour of studies taken, which is the equivalent of half-way between "fair" and "good" grades. Men students earned a grade point average of 1.507 for the semester, while women students earned an average of 1.619.

The figures showed that nonfraternity men led fraternity men by an average of 1.535 to 1.44, while sorority women led nonsorority women with an average of 1.631 to 1.613. The scholastic average for men's dormitory students was 1.630, while for the women's dormitories the average was 1.781.

Davies Gift

Fourteen extremely rare icons are on their way to the University with U. S. Ambassador Joseph Davies, who bought them recently in Moscow for presentation to his alma mater. The icons were described by official experts of the Tretyakov Picture gallery as "constituting perhaps the most valuable collection of icons now in private hands." The ambassador to soviet Russia presented a collection of contemporary Russian paintings to the University in May, 1937.

Curry Honored

John Steuart Curry, the University of Wisconsin's artist-in-residence, was one of four famed American artists awarded \$2,000 "fellowships" recently to finance their illustration of American literary classics for the Limited Editions club. Other artists selected were

Thomas Benton, Reginald Marsh, and Henry Varnum Poor.

Atom Smasher Praised

High praise for the superior advantages of high voltage atom smashing equipment developed in the physics laboratory at the University by Dr. R. G. Herb and his associates was given at a recent meeting of the American Association for the Advancement of Science.

Prof. Gregory Breit of the University of Wisconsin declared in a review of recent progress in the understanding of atomic nuclei that the apparatus built up at Wisconsin scores several points over the larger and more elaborate cyclotron outfits used for breaking up nuclei at other institutions throughout the country.

There is no longer any novelty to physicists in breaking down atomic nuclei and thereby changing one element into another, Breit pointed out. The why and how of the changes that go on while the phenomena is taking place is of interest now. The Wisconsin experiments are made by means of an electrostatic generator in air enclosed under pressure in a steel tank. Though electrostatic generators have been in use for nuclear research for some time, none, Prof. Breit pointed out, have been so reliable in operation and control as the University's machine.

The closest rival is the electrostatic generator of the Carnegie Institution of Washington, constructed by Drs. M. A. Tuve, L. R. Hafstad, and O. Dahl.

Waiters' Pay

Terms of a student labor code, providing for three meals a day for a maximum of two and one-half hours' work, have been presented to Madison restaurant operators by the wage committee of the University League for Liberal Action. The league claims to have found "deplorable" student working conditions.

Other provisions of the code include a maximum 10 hour day with additional pay for overtime, minimum pay of 35c an hour in cash or 40c an hour in meals, and a five day discharge notice. Restaurants observing the code will be given placards to display. University

The atom buster at work
High praise given for near perfection

students will be urged to patronize only those places.

Harold M. Groves, professor of economics, and James Flint, Congregational student pastor, have agreed to serve on an arbitration committee to settle disputes.

Students on Discipline Group

Two student members will be added to the University committee on discipline as a result of action taken by the faculty at its regular monthly meeting in the Law school auditorium in December.

Approving a recommendation of the University committee, the faculty voted to add two student members to the discipline committee for a trial period of one year. In the past the committee has consisted of four faculty members. The student members are to be nominated to the president of the University by the appropriate committee of the house presidents council and by the executive council of the WSGA

The faculty also approved a recommendation of the College of Letters and Science faculty to establish a new course leading to the degree of bachelor of science in medical technology, and voted approval of a recom-

mendation of the joint committees on student conduct and on discipline, that both committees be continued as at present and not merged into one larger committee.

Offer Crime Course

A new course in the use of scientific methods of criminal identification will be offered the second semester by the Department of Sociology and Anthropology. Dr. J. H. Mathews, director of the course in chemistry, who has had wide experience in criminal investigation, will give the course of lectures.

Included in the two-credit lecture course will be illustrations by lantern slides and demonstrations of technique and apparatus used. Actual cases will be described to illustrate those techniques better.

During the last 15 years, Dr. Mathews has been instrumental in solving a number of criminal cases which otherwise would not have been solved, and his testimony based on application of scientific methods has made him an outstanding authority in scientific criminal identification.

Several of the techniques used in modern identification methods originated in his laboratory. He is a popular lecturer on the new methods against crime and has talked hundreds of times to groups of law enforcement officers, civic groups, and scientific organizations, from coast to coast.

Urges Fact Finding Survey

Wisconsin industry was urged recently by Martin Gillen, '96, New York and Wisconsin attorney, to appropriate \$45,000 for an economic "fact finding" program to be conducted at the University.

He recommended that such a program be developed under the direction of President C. A. Dykstra and Dean Chris. L. Christensen of the College of Agriculture. Research should bring out the true distribution of wealth and income in America, he said, claiming that Prof. Wilfred King of Wisconsin incorrectly determined in 1913 that one per cent of the population owned 70 per cent of the wealth.

Deans' Salary

In approval of a recommendation by President C. A. Dykstra, the board of regents recently adopted a virtually uniform salary scale of \$8,000 for all deans. This adjustment amounted in two cases—Dean George C. Sell-

ery of the college of letters and science and Dean E. B. Fred of the graduate school—to increases of \$1,475 a year. Deans William S. Middleton and Frank O. Holt of medicine and the extension division, respectively, were granted raises of \$450 each to comply with the new scale. The salary of C. J. Anderson, dean of the school of education, was set at \$6,700 for 10 months.

During the discussion it was revealed that both Deans Middleton and Lloyd K. Garrison of the law school were guaranteed \$10,000 a year when they came to the University. Garrison now receives \$8,400 yearly.

Regent Daniel A. Grady, Portage, opposed the uniform salary scale because he said it would “imply that the deans are on an even basis as far as value to the school is concerned.”

“Poor Housekeeping”

Supervised housekeeping for University of Wisconsin fraternity houses was recommended in the annual inspection report forwarded by Dean S. H. Goodnight to Pres. C. A. Dykstra recently.

The dean’s report singled out fraternity houses for criticism on the count of “poor housekeeping,” and noted room for improvement in elimination of fire hazards in student rooming centers, although it notes betterment over last year’s conditions.

Recommending employment of house mothers by fraternities to assure protection of investments in furniture and buildings, the report declares, on authority of the assistant in charge of housing, that “the best-kept fraternity house is not up to the poorest-kept sorority house in the matter of housekeeping.”

No sorority house is rated below B plus, while 44 per cent of the fraternities are rated below that mark, while only 46 per cent attained A minus rating in comparison with 83 per cent of the sororities.

The report says women’s houses, dormitories and cooperatives and other special interest houses show a “most gratifying status.”

Vanishing Resources

The sixth publication of the University of Wisconsin’s Science Inquiry, entitled: “The University and the Con-

servation of Wisconsin Minerals,” has reached print.

In a foreword to the Bulletin, Pres. C. A. Dykstra explains: “The work of the inquiry has resulted in a considerable number of new cooperative efforts among the many departments of the University.”

The bulletin consists of the report of the inquiry’s committee on mineral conservation, members of which are E. F. Bean, state geologist at the University, and Dr. C. K. Leith, professor of geology.

The bulletin warns that “we are literally digging ourselves into our natural environment on a scale which has no precedent in history. In terms of years of measured reserves of present commercial grades, the United States has supplies of oil, zinc, and lead for from 15 to 20 years.”

The bulletin recalls that Dr. Charles R. Van Hise, former president of the University, did pioneer work in educating the public to the need for rational conservation. Wisconsin does not rank high as a mineral producer, yet its minerals have had an important part in the state’s development, according to the bulletin.

“Career” Students Named

The plan to select outstanding senior students at the University and give them an opportunity to train themselves for “career” jobs in the state public service by lending

Moving day on Langdon Street
Nearly 1000 moves made between semesters

them funds to complete their school work was inaugurated last month with the selection of the first three students to be trained under the plan. Other outstanding students are to be chosen from time to time.

The plan was presented to the legislature last winter by Gov. Philip La Follette. The salaries paid to the "career apprentices" are to come from funds of the state departments in which the work is done, and will be the usual starting civil service salaries.

Senior students so far selected for the career jobs are: Merrill V. Gregory, commerce student from Colfax, apprenticed as an income tax accountant to the state tax commission; Arthur C. Larson, school of education student from Racine, apprenticed to the adult education division of the department of vocational education; and Hallie Lou Whitefield, political science major from Madison, apprenticed to the bureau of personnel.

These three students will receive immediately loans not to exceed \$400, for the year, which will be repaid to the state in small installments after graduation next June when they take their state jobs. In accepting the loans, the students agree to work at their state jobs for a period not to exceed two years, although any student's contract may be terminated at any time upon payment in full of the loan and interest.

If the student desires to remain in the public service after serving his apprenticeship, he

must take the usual state civil service examination.

Accept \$3,000 Fund

In memory of the late Harriett Sauthoff Kroncke, Madison, who died in August, 1936, a scholarship fund amounting to \$3,000 was recently presented to the University and accepted by the board of regents.

The fund is to be used by the University to establish "The Harriet Sauthoff Kroncke Scholarship." Income from this scholarship fund will be used to assist worthy students interested in the advanced study of German.

Students are to be nominated for the award each semester by the University Committee on Loans and Undergraduate Scholarships, in cooperation with the Committee of the German department. In approving the fund, the regents also granted authority to accept additional contributions to the fund as they may be presented in the future.

Mrs. Kroncke was the wife of Judge George Kroncke of Madison, and the sister of Congressman Harry Sauthoff, also of Madison.

Commerce

WITH no immediate prospect of securing additional space to care for the greatly increased enrollment, it will be necessary to limit next fall's registration in the School of Commerce. The exact plan or method of limitation has not yet been selected, but announcement will be made by April 1.

"Business Ethics"

Professors "Phil" Fox and Frank Sharp have just published *Business Ethics*. (Appleton-Century). Professor Fox attended the meetings of the American Statistical Association and the American Economics Association at Atlantic City, where he met

As the first snowfall blanketed the Hill
Up past the Law building toward Bascom

many other Commerce graduates teaching in various universities of the country.

Aurner Travels

Professor "Bob" Aurner has made five addresses the past three months—in Detroit, Chicago, Appleton and Milwaukee. He, too, met many Commerce Alumni on his trips. Professors Aurner and Elwell attended the annual meeting of the National Commercial Teachers' Federation held in Chicago on December 27-30. A series of articles by "Bob" Aurner published in *Sales Management* is attracting attention throughout the country, several of our alumni writing in about them.

Jobs

A new high in placement records was set by the School of Commerce in December when four of the largest accounting firms in the country—Arthur Andersen and Company, Ernst and Ernst, Haskins and Sells, and Price Waterhouse and Company—had representatives on the Campus interviewing accounting majors who will graduate next June. At the time of this writing, approximately fifteen seniors have already accepted offers from these firms.

Professor H. R. Trumbower has already held two of three scheduled meetings for seniors on the "Problem of the Job." The one held January 10 was on "The Interview" and was attended by practically every senior. The School of Commerce will be pleased to cooperate in every way with the Alumni Association Committee on Placement, and asks alumni everywhere to remember that graduates of the School of Commerce are in demand all over the country and that they can do everyone a favor by remembering their Alma Mater when a vacancy occurs in their business.

Professor Chester Lloyd Jones is sched-

uled to give two talks in Minneapolis early in February on trade problems in Central and South America.

Accounting Lab

Due to lack of adequate laboratory facilities, a method of having but two-hour laboratory sections in Elementary Accounting will be tried out this next semester. Accounting instructors will be available in the laboratory on Saturday mornings to render such assistance as students may desire.

Music

THE University Symphony Orchestra conducted by Prof. Orien Dalley presented its first concert of the school year Sunday afternoon, Dec. 5. The auditorium of Music Hall again proved inadequate to accommodate the great crowd of students and Madisonians wishing to hear the concert, and several hundred were turned away. President and Mrs. Dykstra were among the fortunate ones who found seats.

Featured on the program was the premier performance of "A Christmas Fantasy", the composition of a Green Bay musician, Ludolph Arens. In presenting the first portion of that work the orchestra was joined by vocalists from The University Singers. The en-

Langdon Street resembled a fairyland
The Union's beauty set off by a heavy snow

tire program received well-merited and enthusiastic applause from the audience.

Xmas Festival

The annual University Christmas Festival at Music Hall on Dec. 14 again found faculty and organizations of the Music School participating. The Women's Chorus, appearing for their first public performance under the direction of Miss Florence Bergendahl, sang a group of appropriate Christmas numbers. The Men's Chorus provided incidental music in the production of the dance-drama "The Juggler of Notre-Dame". Elizabeth Schadauer, '39, was the organ soloist and accompanist for carol singing by the entire audience, which was directed by Miss Katherine Gregg.

On the Air

The Wisconsin Broadcast on the National Farm and Home Hour, Dec. 15, "aired" Badger music and musicians from coast to coast. Led off by the Concert Band, Ray Dvorak conducting, came numerous presentations by the Men's Chorus, directed by Paul G. Jones, the Wisconsin Musik Stunde String Ensemble, directed by William Schempff '39 (which found Prof. and Mrs. Dalley assisting with violin and cello), and illustrating the unique educational use of the radio facilities of WHA, a fragment of "Journeys in Music Land" was presented by Prof. E. B. Gordon and his assistants.

National Meetings

Professors Cecil Burleigh and Leland Coon attended meetings of the Music Teachers Na-

tional Association in Pittsburg during the Christmas recess. Prof. Burleigh served as chairman of the violin sectional meetings. Prof. Coon also attended sessions of the American Musicological Society.

Meetings of the National Research Council in Music Education in Pittsburgh during the holiday recess were attended by Prof. E. B. Gordon.

Professors Charles O'Neil and Raymond Dvorak attended meetings of the National School Band Association at Urbana, Illinois Jan. 7 and 8. Prof. O'Neil read a paper on Score Reading and Prof. Dvorak, with the assistance of John Heise, '41, gave a demonstration of flag throwing, the Badger innovation in gridiron entertainment which attracted attention throughout the football world last fall.

Attending a meeting of the Fox River Valley Music Association on Dec. 4 at Green Bay, Prof. Dalley read a paper on Conducting, and Mr. Leopold Liegl conducted a clinic on problems in clarinet performance

Education

THE department of education has resumed the "Teachers' Roundtable of the Air," a series of weekly radio discussions originating in the studios of state station WHA. This radio adventure was originated during the 1934-35 school year and enjoyed widespread popularity among school people of the state. Its resumption is meeting an equally enthusiastic welcome. This program is heard every Tuesday afternoon from four to four-thirty o'clock and is under the direction of Professors A. S. Barr and M. H. Willing. Each week three members of the department discuss together current trends and problems in the contemporary educational scene. Administrators and teachers listen either individually or in groups, and often use the broadcasts as the basis for discussions in their own faculty meetings. The present series of discussions will continue through the remainder of the present academic year. They will be re-

King Winter Reigns Supreme
Skiing and tobogganing are
definitely in vogue

sumed next fall and will continue throughout the school year, 1938-9. Arrangements are being made to supply mimeographed copies of the discussions at a nominal cost to the listener.

Lee at Michigan

J. Murray Lee appeared on the program of the meetings of the Michigan Secondary School Principals Association held at Lansing on November 9-10. Lee also spoke at the December meeting of the Tri-County Schoolmen's Association held at Fond du Lac, December 1.

Fowlkes Studies Finances

At the Baltimore meeting of the National Association of Public School Officials, John Guy Fowlkes was made chairman of a committee to study the financial support and business administration of extra curricular activities. Fowlkes also appeared on the program of these meetings. During the months of October and November, Fowlkes spoke at the meetings of state educational associations in Nebraska, Arkansas and Texas.

At Teachers' Meetings

J. Kenneth Little spoke at the dinner meeting of the mathematics section of the Southern Wisconsin Education Association held in Madison, February 11-12.

Paul L. Trump and Clyde Knapp, both of Wisconsin High School, were chairmen of the mathematics and physical education sections of the Southern Wisconsin Education Association meetings held in Madison, February 11-12.

Oliver Floyd presided as chairman of a panel discussion held before the Milwaukee High School Teachers' Association at a dinner meeting on January 12.

Women's Physical Education

MISS Blanche Trilling, director, is on leave of absence for part of the second semester, vacationing in Florida for the winter.

Miss Ruth Glassow has just completed her new textbook on Tests and Measurements, which is being published by W. B. Saunders and Company and will be off the press in another month. Miss Glassow will be on leave of absence the second semester, leaving February 1 with Dr. Lee Vincent of the Merrill Palmer School of Detroit for eight months of motor touring in Europe.

Miss Katherine Cronin is acting director of the department in Miss Trilling's absence, and Miss Glassow's position will be filled by Miss Germaine Guiot, former Director of Women's Physical Education at Southern California.

Europe Looks to Us

Miss Margaret H'Doubler has just returned from a week's teaching at the University of

On the women's intra-mural field
Field hockey remains one of the most popular sports

Oklahoma. Miss H'Loubler has been invited to be on the staff at the Mary Wigman School in Dresden, Germany, for the summer session. However, she has declined, in order to be at the University of Wisconsin for the 1938 Summer Session. The program of courses in dance for the summer session is unusually rich. Miss H'Doubler will be assisted by Miss Berta Ochsner (1919), who is now a well known Chicago dance artist; Miss Beatrice Hellebrandt (1928), Miss Grace Felker.

Miss Helen Driver, who taught tennis to the Swedish teachers at the Swedish American School of Physical Education at Sigtuna, Sweden, last summer has been asked to continue the course at Sigtuna this coming summer, and is acting as American representative for Mrs. Ingrid Holm of Gothenburg, Sweden, the director of the school. Thirty American teachers will accompany Miss Driver to the school, where they will study modern systems of Swedish gymnastics, folk dancing, swimming, and tennis.

We Look to Europe

The department welcomes a new faculty member for the month of February, Miss Margit Davidsson, who comes to us all the way from Orebro, Sweden. Miss Davidsson will give courses in skiing and Swedish gymnastics to the major students. She has studied skiing from Hannas Schneider, the world famous ski expert, and has been a teacher in the Swedish Government School of Skiing for several years. Miss Davidsson is also Supervisor of Physical Education for elementary schools in Orebro, Sweden. After finishing her courses at the University, Miss Davidsson will tour the country studying physical education systems in the U. S. as an official representative of the Swedish Education Board. This is our first venture of this type.

The former Director Helen I. Denne
Resigns position for marriage

Fun for Grown-ups

The Faculty Recreation program, which includes classes in bowling, swimming, conditioning, tap dancing for women during week day nights, and recreational activities of bowling, badminton, ping pong and swimming open to faculty men on Friday evenings, as well as women, has increased in popularity this year, with over 200 men and women taking part. As many as 70 bowlers engage in that sport each Friday night, and 40 to 50 badminton players.

Fun for Kids

The children's dance classes held on Saturday morning are under the direction of Miss Beatrice Hellebrandt, who teaches different age groups throughout the morning.

It is expected that the Children's Play Hour on Saturday afternoon offered during the second semester will attract the usual large number. Last year there were well over 100 children enrolled. In addition to this, a Children's Ski Course is being organized. The five major students who were awarded Silver Skis for excellence in Mrs. Holm's ski course last year will instruct the group. They are Jane Bond (1936), Joan Harris (1939), Eleanor Shipps (1939), Marjorie Dewey (1940), and Helen Case (1938). Miss Helen Driver is the faculty member in charge of the project. The profits from these classes go to the Elizabeth Waters Loan Fund.

Loan Fund

This loan fund now amounts to about \$2,000 and provides help to needy undergraduate students in the Department of Physical Education for Women. In addition to loans, without interest, a \$50.00 scholarship is awarded each year to an outstanding junior woman majoring in physical education. Other projects

which add to this fund are the sale of song books, the Physical Education Club auction, the Christmas play, the sale of fruit, and the sale of old newspapers. Any suggestions from alumni as to methods of adding to the fund would be greatly appreciated by the committee in charge of this fund.

W. A. A.

The W. A. A. Board is planning Wiskits, the big variety show wherein the Intramural groups and women students from all parts of the campus exhibit their talents for dancing, singing, and present clever skits. This is to be held in the Great Hall of the Union on March 4. Miss Marijane Jex (1938), President of W. A. A., is in charge of the program.

Medical School

A TWO day meeting of the Preceptors held during the month of October was exceptionally well attended. The program for the meeting was:

Friday, October 15, 1937: Anterior Poliomyelitis, Drs. Clark, Masten, Gonce; Diarrhoea and Dysentery in Children, Dr. Gonce; Peripheral Vascular Disease, Dr. Middleton; Toxemias of Pregnancy, Early and Late, Dr. Harris; The Fourth Lead, Dr. Kurtz; Sulphanilamide, The Barbiturates, Dr. Tatum; Value of Morphine, Pitressin and Nitrites Post Operatively, Drs. SeEVERS and Lemmer; Water Balance, Dr. Meyer; Present Status of Pituitary and Ovarian Therapy, Dr. Sevringhaus; Nomenclature of Pituitary and Ovarian Products, Dr. Sevringhaus; Present Status of Protamine Insulin, Dr. Sevringhaus. Joint Meeting with the University of Wisconsin Medical Society: Subject—Polyneuritis of Pregnancy — Dr. Everett D. Plass, Professor of Obstetrics and Gynecology University

Dean Frank O. Holt

His Extension covers entire state

of Iowa College of Medicine—Guest Speaker.

Saturday, October 16: Impressions of Gastric Siphonage, Dr. Schmidt; Conservative Treatment of Appendicitis, Dr. Schmidt; Laboratory Methods in the Differentiation of Anemias, Dr. Stovall.

Denne Resigns

Helen I. Denne, Director of the School of Nursing, resigned on November 1, 1937. Miss Christina C. Murray of the Royal Jubilee Hospital, Victoria, British Columbia, has been appointed Director of the School of Nursing and Professor of Nursing, and Miss Lila B. Fletcher, who has been Assistant Superintendent of Nurses at the Wisconsin General Hospital, was appointed Superintendent of Nurses.

"ORTHODIASCOPY" by Dr. C. M. Kurtz came from the press during the month of October.

Dr. K. E. Lemmer and Dr. H. W. Wirka were admitted to Fellowship in the American College of Surgeons.

Dr. W. S. Miller has revised the manuscript for the second edition of "THE LUNG".

Dr. R. M. Waters and his department were hosts to a group of over one hundred anesthesiologists from this country and abroad during October.

Dr. P. F. Clark, Professor of Bacteriology, attended the Society of American Bacteriologists' meeting in Washington at which time he was elected President for the coming year.

Dr. A. L. Tatum was elected President of The American Society for Pharmacology and Experimental Therapeutics.

Beginning this fall the Division of Student Health has opened a Neuropsychiatric Consultant Service under Dr. A. C. Washburne.

Law

DEAN Lloyd K. Garrison, in addition to his ap-

The Wisconsin Salon Judges

Dr. Walter Gropius, Alexander Archipenko, John Stewart Curry

pointment as an editor of the American Bar Association Journal, is a member of the Association's Committee on Labor, Employment and Social Security, and chairman of the Committee on the Economic Condition of the Bar. He completed his year as President of the Association of American Law Schools by presiding over the annual Association convention held in Chicago December 29-31. Not the least important event was an astonishing legal charade, a child of Dean Garrison's fertile brain, in which most of the Wisconsin Law Faculty participated with a collective gusto exceeded only by its astounding dramatic finesse. The word was "hadarunga". Try that on your vocabulary.

Labor Counsels

Professors William Gorham Rice, Jr., and Nathan P. Feinsinger acted as special counsel for the Wisconsin Labor Relations Board during the past summer. Professor Feinsinger is still acting in that capacity in addition to carrying on his duties in the Law School. Professor Rice is the author of an article on the State Labor Board which will appear soon in the Wisconsin Law Review. Professors Rice and Feinsinger are also preparing an article on the National Labor Relations Act, which will be published soon in a symposium in "Law and Contemporary Problems", Duke University publication. They are both also members of the Committee on Civil Liberties of the Lawyers Guild

Legal Writings

Professor Oliver S. Rundell recently spent several days in Washington, D. C., in connection with his position as advisor to the American Law Institute on the subject of Future Interests for the Restatement of Property and on the subject of National Rights and Nuisances for the Restatement of Torts.

Professor Ray A. Brown is the author of an article entitled "The Excise Tax as a Regulatory Device", which appeared in a recent issue of the Cornell Law Quarterly. Professor Brown was recently honored by being elected national

president of the Order of the Coif, honorary legal society.

Gausewitz on Crime

Professor A. L. Gausewitz represented Wisconsin on the Interstate Commission on Crime last summer. He is also chairman of the Wisconsin Bar Association Committee on Criminal Law, as well as chairman of the Wisconsin Crime Control Conference Committee, which held a regional conference at Milwaukee in November. At the Association of American Law Schools meeting in Chicago, held in December, he delivered an address on the subject of "The Proper Role of Legalism in the Administration of Criminal Justice." Recently he has taken his first steps toward admission into law-abiding circles by being appointed to the Dane County Board of Tax Review and also as special examiner for the State Labor Board to hear testimony and report his findings in a labor dispute in Racine. He has also been appointed to the American Bar Association Committee to Suggest Improvements in the Law of Evidence.

Outside the Classroom

Frank T. Boesel has been serving for the past several months as special master in extensive federal court proceedings involving certain railroad reorganizations.

W. Wade Boardman is chairman of the Committee on Legal Ethics of the Lawyers Guild.

Current officers of the Board of Editors of the Wisconsin Law Review are: Clark M. Byse, Oshkosh, Editor-in-Chief; William T. Little, Madison, Comment Editor; James J. Burke, Necedah, Legislation Editor; Radcliffe Park, West Allis, Business Manager. Professor William Gorham Rice, Jr., is Faculty Adviser, and Robert B. L. Murphy, Madison, is Alumni Editor.

Clark M. Byse, Oshkosh, student editor-in-chief of the Law Review, has been awarded a fellowship by Columbia University and will spend next year at that institution doing graduate work in Law.

Home Economics

THE departments in the Division of Home Economics are all working over time because of the increase in the student body without a corresponding increase in the teaching force. The number of divisions in the various laboratories has increased so that the freshman and sophomore classes are being repeated each semester to meet the increasing demands. The result is that classes are scheduled from eight in the morning until five-thirty at night. The need for lecture rooms, quiz rooms, and laboratory space is imperative.

Home Ec Extension

In addition to carrying the main work of the Homemakers Hour and helping in the College of the Air broadcasts wherever it is possible, members of the home economics faculty give aid to the Milwaukee Extension Division by offering advanced courses in teacher training and in consumer buying. Groups of mothers and daughters in various strategic centers of the State have called for lectures from the faculty which are freely given. The students and some of the faculty are cooperating with the Neighborhood House in Madison. In the Textile Department the advanced class in textile testing is giving free service to the consumers of the State which include individuals, factories, the State Bureau of Purchases, and the Federal Trade Commission as well as the Better Business Bureau and insurance companies.

In the Clothing and Textile Department the students working with the local groups have given style shows in the Memorial Union and in the College of Agriculture Auditorium on Station Day.

The increasing demand for consumer buying has developed a graduate seminar course dealing with recent studies and research in clothing and textiles and has developed the organization of source material from a professional standpoint.

Placement Good

The increasing demand for teachers in general high school, in vocational schools, in home economics extension work in the counties and in the Farm Security Administration has created a very insistant demand for people trained in the educational field. The number of home agents in the counties has been increased to twenty-four in the last year

In the June graduating class every student

A full house boxing show

The 1938 season opens soon

with a teacher's certificate has been placed. All of the graduates who prepared for hospital dietitian work are serving their year of interne training in the best hospitals in the country from the Atlantic to the Pacific. In some cases they are working also towards their Master's degree in connection with their hospital interne work. The demand from colleges for instructors, professors and heads of departments is large with very few graduates free to accept without breaking their present contracts. Those stu-

dents who are preparing to enter the commercial field in applied home economics are finding the opportunities increasingly attractive.

The Chicago group of Home Economics Women in Business in November conducted a two-day field program to which home economics students and faculty from middle western states were invited. The department sent down one faculty member and three students majoring in institutional management. The object of the gathering was to bring students in contact with the commercial fields, to meet the workers in the field and to enlist the help of the alumnae. At this meeting former U. W. home economics graduates—Virginia Porter, Ruth Chambers, Inez Willson, Bernice Dodge and Leone Heuer—were members of the Chicago group.

New Food Studies

In the research work of the department graduate students are carrying on interesting studies on the utilization of the newer foods, such as the soybean and its products, in the hope of extending the availability of foods that are being increasingly grown in this State. Studies in the preservation of vitamin C in tomatoes during canning and in cabbage during the manufacture of sauerkraut have been carried on in the last few months as well as a study on the amount of vitamin C in

A shapely (?) Haresfoot quartet
"All our girls are men"—and how

newer varieties of seedling apples grown in Wisconsin. These are in addition to the regular research work that is being carried forward as rapidly as possible, the reports on which are issued by the Director of the Agricultural Experiment Station. The department has carried on for several years, and will continue, on studies in connection with the utilization of Wisconsin potatoes as cultivated under varying conditions on our experimental farms.

Consumption

Extensive studies on the consumption of both food and clothing among the rural families have been carried on by faculty and assistants to learn not only the value of the average diet but to determine the trends in consumer consumption among nearly fifty per cent of the people of Wisconsin. This information is seriously needed as a background for setting up minimum clothing budgets and adequate nutrition standards to be used as a basis for educational and extension programs as well as a means for improving the individual family management of its budget.

With the Faculty

The members of the departments are frequently called upon for work on national and international committees. They have taken every opportunity to do advanced study in their particular field. In the Related Art Department Mrs. Ruth Randolph was a student of art last summer in the University of Mexico. Miss Helen Allen of the Related Art Department, on leave of absence for the second semester last year, took a trip through western South America and brought back with her interesting textiles to add to her already extremely large and valuable collection. Miss Marlatt was the representative of the American Home Economics Association at the Pan Pacific Woman's Conference held in Van-

cover in July. Mrs. Nellie Kedzie Jones, emeritus professor, was honored in November for her services to the nation's agriculture on the 75th anniversary of the founding of the agricultural colleges and universities held in Washington, D. C.

Last but not least, the Division of Home Economics is happy to answer the increasing number of letters that come in asking for advice on every subject that can possibly be allied to the home economics field—from the choice of an adequate diet for the normal family to passing judgment on planned diets in our State institutions.

Extension

THE University's outreach to the vast non-campus population through the medium of the extension movement is attaining record proportions this year, with the facilities and staff of the Extension Division tested to the utmost to keep pace with the recurring and increasing needs. Foremost among these demands is instruction, in credit and non-credit subjects, given in extension classes and through correspondence courses.

Other functions that test the extension resources continued to supply to our communities the benefit of information services, dramatic leadership, lecture and entertainment offerings, educational films and slides, and other facilities for carrying out projects for individual and community betterment.

Introduce Counseling

Counseling and guidance for extension students in Wisconsin cities became a new policy, set in operation this year by Dean F. O. Holt, with Assistant Dean J. L. Bergstresser acting as the counseling officer. This program makes available to extension class students in off-campus centers the same type of counseling that students at Madison have enjoyed for many years. As aids to successful college effort, the Extension Division prepared two handbooks, outlining University work and approved methods of study, for the use of all class students in the fresh-

man-sophomore centers throughout the state.

Teach Teachers

Ten Wisconsin cities were centers during the first semester for graduate instruction in education for teachers-in-service. The courses, accredited toward the master's degree in education, were offered at Delavan, Fond du Lac, Green Bay, Janesville, Kenosha, Milwaukee, Racine, Two Rivers, Wausau, and Wisconsin Rapids. By arrangement with the School of Education, several authorities in education, including Professors Oliver R. Floyd, J. Murray Lee, and L. E. Drake, were added to the extension faculty for advanced instruction to these off-campus groups. This project, directed by Professor J. K. Little, is being continued in the second semester, and is contributing new insights for teachers in such fields as curriculum construction, tests and measurements, and educational psychology.

"Liberal Education"

In addition to the full freshman-credit program of studies, conducted each semester in 16 cities, the Extension Division has in recent months made a notable educational contribution in selected cities through non-credit, "liberal education" courses, designed to extend new knowledge, inspiration, and visions in a wide variety of practical and cultural subjects. Among these are commercial art, photography, business, income tax procedures,

The Union cafeteria rush
2000 served here daily

languages, English, economics, sociology, air conditioning, Diesel engines, business psychology, the Spanish revolution, music, and the fine arts.

Forums

A forum series on current trends in government and economics was offered, with large enrollments, at Lancaster, Prairie du Chien, Monroe, Mayville, and Waukesha, conducted by Professors R. J. Colbert and John L. Miller.

The present school year saw the inauguration at Milwaukee of a Civic Forum under the sponsorship of the Milwaukee Extension Center and the Milwaukee Forum. The meetings have been featured by able speakers who have discussed such topics as the Sino-Japanese dispute, the problems of government (by President Dykstra), American neutrality, and the Wisconsin labor relations act and its application. The forum program has been directed by Assistant Dean J. L. Bergstresser.

Forensics

High school speech work on a competitive basis, long promoted by the Extension department of debating and public discussion and the University department of speech, is engaging some 400 high schools this winter, with the unicameral legislature the common question for argument. The final contest for the state title will take place at the University in March. The department conducted four speech institutes for high school students and teachers of speech, at Shawano, Madison, Spooner, and Sparta, with total attendance of nearly 1,500. It also promoted the annual high school dramatic contest, which culminated at Madison on December 15 in the state title production. Oconto Falls play-

ers were awarded the highest state honors.

Help Dramatists

The bureau of dramatic activities in the Extension Division sponsored a conference at Milwaukee in November for community drama leaders. During February it will assist in observing the tenth year of the Wisconsin Dramatic Guild through week-end programs and the all-guild dramatic festival, when community plays and new original plays will be presented and judged at the University for awards.

Battling Crime

The Extension Division actively assisted in promoting a regional conference at Milwaukee on problems of delinquency, with speakers representing the University, the judiciary and enforcement arms of government, social workers, clergy, and other cooperating agencies. This was an outgrowth of the first Wisconsin Conference on Crime Control, which the Extension Division, the Law School, and other agencies conducted successfully last February, at the University, as a contribution to state and local efforts in the control of crime and delinquency.

Dr. Boyd experiments on Sudan grass poisoning

Journalism

EIGHT members of the School of Journalism teaching staff attended the meetings of the American Association of Teachers of Journalism and the American Association of Schools and Departments of Journalism at Ohio State University, Columbus, Dec. 28-30, 1937. Prof. Grant M. Hyde, Director of the School of Journalism, gave a paper on "The Status of the American Press Society," and Prof. Frank Thayer conducted a round-table on "Journalism Business Courses." Other members of the journalism teaching staff in

attendance included: Prof. Helen Patterson, Prof. W. A. Sumner, Henry Ladd Smith, Dowling Leatherwood, William M. Moore, and Warren Price. Professor Hyde is past president of both the A. A. T. J. and the A. A. S. D. J. He is now chairman of the national joint committee on the relations of schools of journalism and national newspaper groups.

Thayer's Book

Prof. Frank Thayer's new book *Newspaper Management*, is scheduled to come from the D. Appleton-Century Company press early in February. This is a revised edition of a book of the same title which was originally published in 1926.

Smith on Photos

Henry Ladd Smith, lecturer in the School of Journalism, had an article in the November FORUM magazine entitled, "The News Camera On Trial", which dealt with the abuse of private right by the newspaper photographer and suggested means for correcting the trouble. The article was reprinted in the December READER'S DIGEST.

High School Conference

Three hundred and ninety editors and faculty advisors representing 59 high schools of 44 Wisconsin cities attended the 18th annual Wisconsin High School Editors' Conference

held by the University of Wisconsin School of Journalism Nov. 26-27.

Prof. Kenneth E. Olson, director of the Medill School of Journalism of Northwestern university addressed the conference banquet on "Looking Forward to a Career in Journalism" in the Great hall of the Union. Prof. Grant M. Hyde, director of the School of Journalism at Wisconsin, spoke on "Testing Yourself for Journalism" at a general assembly.

A series of 30 round table discussion groups were held all day Friday and Saturday morning. Members of the University faculty led the groups. Among those who advised the students are:

Prof. Donald R. Fellows, of the School of Commerce; Guy W. Tanner, manager of the Cardinal Publishing company; Prof. William H. Varnum, of the department of art education; Ray L. Hilsenhoff, financial advisor of student activities; and A. Lubersky, vice president of the David J. Malloy cover plant of Chicago.

Virtually the entire staff of the University School of Journalism conducted round tables. Among these were Robert H. Foss, editor of the University press bureau; Prof. Frank Thayer, Prof. Helen M. Patterson, Prof. Robert M. Neal, Dowling Leatherwood, William H. Moore, Warren C. Price, and Henry L. Smith.

Committees from Theta Sigma Phi, Coranto, and Sigma Delta Chi, campus journalism organizations, conducted the delegates on tours of the Campus Saturday morning.

The 1937 Farm and Home Week crowded the Ag Campus
Several thousand were on hand for the 1938 sessions

"Legal Rights"

"Legal Rights for News" is the title of the article by Prof. Frank Thayer in the January issue of the Journal of the American Bar Association.

Radio

THOUGH the University operates the oldest broadcasting station in the United States it did not until December 6, 1937, have a Radio Committee officially representing the faculty. On that date, upon recommendation of President Dykstra, such a committee was set up.

Since 1929 a committee appointed by the President has supervised the radio station. It consisted of Prof. H. L. Ewbank, chairman, Prof. E. E. Bennett, technical adviser, and Prof. A. W. Hopkins, agricultural adviser. The new committee consists of these three, in addition to Dean F. O. Holt, Dean C. J. Anderson, Dr. R. C. Buerki, and Prof. R. L. Reynolds.

The Committee functions include:

- (1) The formulation and recommendation of the broadcasting policies of the University.
- (2) The development of a University broadcasting service consistent with the University's responsibility to the students and to the state.
- (3) The consideration of proposals for participation by the University or University organizations in broadcasts, including proposals which may operate to place limitations on the University's function of serving its student body and the state.
- (4) Cooperation with other divisions and departments of the state in the development of the best possible type of broadcasting service.

Hour Dramas

EACH week one of the most unusual broadcasts from the University campus is the "Hour of Drama" presented by the WHA Players under the direction of Gerald Bartell. Unlike the conventional American radio drama which is at most a half hour in length, these productions run for a full hour and are pointing the way to possible greater pleasures for radio listeners.

In Europe radio dramas frequently run for two hours or more. In this country shows longer than a half hour do not lend themselves well to the system of sponsored programs so they have been generally avoided.

In the State-Station schedule the "Hour of Drama" is a major feature at 3 o'clock on Saturday afternoons.

Adaptations of many well known literary works are featured. Heard on this series have been "School for Scandal", "Ruy Blas", and "The Importance of Being Earnest".

The casts are composed entirely of students from the WHA Players group. The broadcasts are staged in Radio Hall, on the campus.

State-wide Reception

A survey of mail received in response to WHA programs during the latter half of 1937 indicated that broadcasts from the Campus are now being heard in every one of Wisconsin's seventy-one counties. Thousands of letters from 553 different post-offices were received.

WHA, on the campus, serves southern Wisconsin and WLBL, at Stevens Point, reaches out into the northern areas. The stations are linked by wire and broadcast certain features simultaneously. Listeners in Minnesota, Michigan, Illinois and Iowa also report hearing the programs.

New English Series

"English As You Like It", is the new series of programs offered this semester for high school listening by the Wisconsin School of the Air. It is designed to supplement the work of English classes and to stimulate interest in forensics of poetry, drama, and reading.

Planning programs in this series are Dr. R. C. Pooley, Miss Almere Scott, Miss Marjorie Hoard and Miss Gladys Cavanaugh. They are written by Mr. B. P. Brodinsky, script editor for the Research Project in School Broadcasting at the University. The broadcasts are heard at 2:00 o'clock each Thursday afternoon over WHA, the University station in Madison, and WLBL, at Stevens Point.

Dykstra Voices Needs

President C. A. Dykstra was the principal speaker at the final session of the National Conference on Educational Broadcasting held in Chicago last month (December 1937). He made some pertinent recommendations to the question "What Shall We Do With Radio?"

In speaking of the present radio system in the United States he said, "Under our pres-

ent set-up, the demonstration by educators of their ability to present highly interesting programs, is no guarantee of a place on the air. Someone must give consideration to the principles of social welfare, to policies of power, control, and distribution of facilities." He called attention to the help which the radio is giving extending the university to the people.

Intramurals

THE 1937-38 Intramural sport program began with the Soft-Ball tournament for Freshmen, held during Orientation week in September. Fifteen teams competed in this tournament which was won by the School of Education.

Football

Touch Football, the major sport in the fall Intramural program, attracted a large number of teams as usual. Seventy-one teams competed in the three separate leagues, the Fraternity, the Independent, and the Dormitory. The SAE's won the Fraternity trophy, the Presbyterian House the Independent medals, and Fallows House the Dormitory championship and medals.

Competition for the All-University Touch Football title was not completed due to the inclement weather. Fallows House of the Dormitory League defeated the SAE's of the Fraternity league in the first game, but the championship game between Fallows and the Presbyterian House resulted in a scoreless tie and was not replayed because of cold weather with accompanying ice and snow.

It might interest you to know that grading work will soon begin, which will make available another touch-football field which is sorely needed at the present time. With another field at our disposal, it will enable us to finish the football season without the annual worry about the coming of inclement weather. This area will also be used for baseball in the spring.

Volleyball

Volleyball, the next sport on the program, brought out an increased number of teams this year. The competition was more evenly matched due to the better brand of Volleyball played by the teams this year. Theta Xi fraternity returned to the list of winners after an absence of several years, by winning the Fraternity title. Gregory of the Dormitory league won the title after an uphill battle, and "The

Champs" of the Independent league won the Independent championship.

Winter Sports

Competition in Basketball has been in progress since December 1st, with 121 teams, a record entry, competing for the coveted titles. The Independent league with 71 teams comprises the largest division. It will be interesting to note that there will be 346 Basketball games played before the champions in each of the three leagues are determined.

There are 32 bowling teams in competition at the present time. Competition began in November and will continue until March.

Ice Hockey is in full swing at the present time, with 34 teams playing on the rink erected on Lower Campus.

New Shells

The Division is looking forward with great interest to a large participation in the spring intramural activities, particularly Softball, Hard Ball, and Crew. It might be of interest to the alumni to know that a year ago the Division of Intramural Athletics purchased four four-oared shells, at an expense of more than \$2,200, for Intramural Crew. More than 30 Fraternity crews participated in the races last spring, and in addition to the Fraternity crews, we anticipate that the Dormitories and the Independent groups will take a place in this program this spring.

More Facilities

We are very much pleased over the fact that last year more than 2400 men, exclusive of duplication, participated in Intramural activities. The greatest handicap to the Intramural program is the lack of facilities, but we are happy to advise that the Board of Regents has recently approved of an appropriation of \$15,000 to grade a new Intramural field, and to concrete eight of our tennis courts so that they may be available in all types of weather, and to put in a concrete base and back wall for tennis stroking and for handball courts. With this increase in facilities, and with the anticipation of more facilities in the near future, we are looking happily forward to the time when the Intramural program may be extended to every man in the University.

Theatre

WITH the close of the first semester, University theater finds itself happily embarked on what promises to be one of the

most successful of recent campus dramatic seasons.

The year's curtain-raiser, "Excursion," provided a double thrill to Campus theatergoers—the return to Wisconsin of Victor Wolfson, who wrote the play and who is now ranked as one of the leading young playwrights of the day, and the inspiring performance turned in by the cast. A hit on Broadway for many months, "Excursion" brought to University theater one of the outstanding productions ever seen on the Bascom boards.

After winning his laurels in campus dramas as actor, playwright and producer, Wolfson graduated in 1931 to work with the Theater Union in New York, and finally emerge in 1937 with "Excursion" for which Hollywood paid \$75,000. At present Wisconsin's latest addition to the Ameche-March-Fitz-Flynn roster is working on a play to be produced on Broadway by Norman Bel Geddes.

"Babes"

While director J. Russell Lane struggled with the production of Victor Herbert's "Babes in Toyland," the theater presented "Carnival in Flanders" and "The Lower Depths," two of the most outstanding film importations of the past year.

The week before Christmas recess found the theater's elaborate production of the charming Herbert operetta ready for opening night. Once again Director Lane pulled a surprise out of his pocket—this time in the form of ice-skating on the Bascom stage with none other than speed-champion "Bobbie" McLean to inaugurate the special number with an exhibition opening night. But the third time that ice-skating has come to a Madison stage, the exhibition of the graceful art was nightly acclaimed as the sensation of the show.

Large dancing and singing choruses, decked out in colorful costumes made "Babes in Toyland" one of the most picturesque musical productions ever staged on the campus. Sets by Frederick A. Buerki made extraordinary use of the limited facilities of Bascom theater.

Triple Feature

Immediately after the resumption of classes in January, the theater presented a novel triple-feature studio production. The Wisconsin Players, The Apprentice Players, and an unaffiliated group of campus dramatists presented three one-act plays under the single banner, "Curtain Up."

The three plays were "When the Clock Strikes," a murder mystery burlesque; "Release," a prison drama; and "One Egg," a farcical comedy. Acting, direction and staging were all done by students, as the faculty members of the theater staff receded into the background.

Haresfoot

AS THE Haresfoot club swings into its fifth decade of college dramatic presentation, alumni and friends from all over the world have sent in letters of best wishes and congratulations on the 1938 show "Let's Talk Turkey."

Begun back in 1898 as an entree in an amateur acting groups contest, Haresfoot has since earned a name for itself as one of the five great college dramatic clubs in the country. And just as famous have become some of the men who in the last 39 years have donned wig and make-up to carry on that tradition. In this year's Haresfoot files letters from some of those "greats" are now being put in order.

Two of the present day stars are Fredric March and Don Ameche, both of Hollywood, and both former Haresfoot "girls." On the stage Frank Prinz, '30, known in the theater as Fred Lawrence, and Howard "Pinky" Marsh, star of "Blossom Time" and "Show Boat," have sent in their best wishes for a successful anniversary show.

From far off Moscow, Russia, comes word from former Haresfooter Joseph E. Davies, at present ambassador to Belgium, who sends his greetings along with a fine note on Ernest Kronshage, original founder of Haresfoot.

"Only this summer the widow of Mr. Ernest Kronshage was in Moscow. It recalled to my mind very vividly the brilliant personality, fine intellect, and great quality of the first President of the Haresfoot organization. The club found the original impetus for its creation in the brain of that very fine and exceptionally able man—the late Mr. Kronshage. Some of the most pleasant memories of my under-graduate days are associated with the Haresfoot organization and the fine men who were then identified with it."

Two other Haresfoot luminaries, the Rev. Henry Scott Rubel, the Hal Raynor of the Joe Penner script writers, and Asa M. Royce, president of the Platteville State Teacher's college, have also been heard from.

Carroll O. Bickelhaupt, vice president of the American Telephone and Telegraph company,

in addition to a long letter sent in a picture of himself winning first prize for trap shooting on the deck of the Normandie.

Recalling some of his experiences with the Haresfoot shows, he writes:

"I learned the life of a stage manager was by no means a bed of roses and had my first introduction to labor troubles when we ran into a strike of stage hands and electricians in the old Pabst theater in Milwaukee while we were setting up the stage for our first matinee of 'The Manicure Shop' there."

Athletics

INTERCOLLEGIATE athletic activities of the University of Wisconsin are conducted along sound lines, as an integral part of the educational program of the University. Midway in the second year of Harry Stuhldreher's administration as director of athletics and head football coach, Badger athletics are prospering and healthy.

The 1937 football season was Wisconsin's best in a number of years, both from the standpoint of games won and lost and in point of popular interest and support. The record of the 1937 team, now ancient history, was four games won, three lost and one tied. In the Big Ten, the Badgers defeated Chicago and Iowa, lost to Minnesota and Northwestern

and tied Purdue—which was more than most informed supporters considered possible when the season started. Attendance was up 25 per cent over 1936—a gratifying showing and important because Wisconsin's entire intercollegiate athletic program must be paid for solely from gate receipts.

Cagers Look Good

Midway in the basketball season, Coach Harold (Bud) Foster's Wisconsin cagers, now idle until Feb. 5 because of mid-year examinations, are tied for fourth place with a .600 record, on victories over Minnesota, Chicago and Michigan and defeats by Northwestern and Purdue, a very satisfactory showing for a team which was consigned to a low berth in the second division in practically all pre-season predictions.

After a poor start against Northwestern, the Wisconsin team played magnificent basketball in subsequent games—perhaps their best in a losing game, when they held Purdue to a 40-34 score at La Fayette, defeat coming only in the last two or three minutes. Much of the time, the Badgers were in front. The lead alternated 13 times during the game. Wisconsin was the first team to defeat Michigan, winning handily from the Wolverines, 39-30, by masterful play, with the outcome never in doubt.

The Little International Stock Show in the Stock Pavilion
Annually an important feature of Farm and Home Week

Other winter sports teams have most of their competition in the second semester. Coach George Martin's Badger wrestlers lost to Iowa State, Big Six champions, in their first match, but surprised everyone by defeating the University of Iowa, for the first time in many years, in their second engagement.

Boxing on Deck

Boxing, which has become one of Wisconsin's most popular sports, does not enter the competitive stage until the second semester but Coach Johnny Walsh has had a fine group of ambitious boxers in training since Dec. 1. The 1938 team will be picked in the annual All-University tournament, Feb. 9 and 11. The Badger boxers will engage in intercollegiate matches with St. Norbert College, North Dakota, Tulane, Penn State, West Virginia and Washington State at home and will meet Louisiana State at Baton Rouge. Wisconsin has lost but three matches in its five years of intercollegiate boxing competition.

Still to Come

Coach Ralph Hunn has three varsity and three freshmen crews in training and interest is again keen in rowing at Wisconsin. The varsity crew will once more climax its season by competition in the intercollegiate regatta at Poughkeepsie in June and will have several other races.

Baseball training will start after the mid-year tests are completed. The team will again be coached by Lowell (Fuzzy) Douglas, Baylor university graduate and former major league pitcher, who did so well with the 1937 Wisconsin nine.

Wisconsin's first track competition will be in a dual meet with Marquette, Feb. 12. T. E. Jones, veteran track coach, lost practically a whole track team by graduation last June, but it is safe to say he will turn out another representative team, though his only outstanding star left is Captain Charles (Chuck) Fenske, one of the fastest milers in any college today.

Union Activities

THE Men's Union Concert Committee does not believe that a "recession" is with us. Last fall while publicizing their series composed of Fritz Kreisler, Ezio Pinza, the Kolisch Quartet, Albert Hirsh, and Marian Anderson, they found to their surprise that

student, faculty, and towns people had bought up all of the season tickets to the capacity of the Union's Great Hall.

With Kreisler and Pinza playing in the Stock Pavilion and University Gym respectively, they had an opportunity to sell thousands of additional individual seats. Now that the Kolisch Quartet and Albert Hirsh, pianist, will play in Great Hall the Concert Committee finds itself very busy refusing requests for standing room. Marian Anderson on May 3 in the Stock Pavilion is the only remaining concert where individual tickets will be on sale.

Ski Champs

The Bietila brothers of the Union Hoofers Club are still soaring to skiing fame. At the annual international meet held on January 2 near Gary, Illinois, Paul Bietila won third place and his brother, Walter, fifth in the field that included some of the best riders in the world.

First place in the meet went to Burger Ruud of Norway, Olympic champion in 1932 and 1936. Paul holds the unofficial hill record jump of 201 feet.

Book Mart

Students don't like the high cost of books and so for the second year between semesters, the Men's Union Board is sponsoring a Book Mart to aid students with small budgets. Last year the Mart received 940 books, sold 635, and made sales totaling \$856.00. About a thousand people visited the Mart and there was a greater demand than could be satisfied by the books turned in.

This year the Mart will be held in the basement of the Co-op. Books are sold at the price placed on them by the student committee and on the strictly cash basis. The Mart is run without overhead costs, since the Co-op is giving the basement rent free and the students are working without pay, according to Robert Ela, chairman.

Better Rooms

Nation, State, and University are taking the housing matter seriously and from January 6 to January 20, a typical men's double room and women's single room were on display in the Council Room of the Wisconsin Union. The project was sponsored by student members of the Lodging House Board, of the House Presidents Board, the Men's Union

Board, and the Women's Self-government Association. Representatives in the offices of the Dean of Women, Dean of Men, the Wisconsin Union, and a committee from the housemothers association acted in an advisory capacity.

The objective of this exhibit was to renew the interest of both the housemother and the student renters in solving the problems they face and to offer some practical suggestions. The rooms were not intended to serve as models, but it was anticipated that visitors would carry away one or two useable ideas in regard to proper lighting, furnishings, and room arrangements. High point in the two weeks exhibition period was the gathering of over 200 housemothers and 200 students and faculty members in conjunction with the Union's regular Friday afternoon coffee hour. Good enthusiasm and cooperative spirit was displayed and the Typical Rooms Committee felt that the time and money expended will yield practical results.

mehitabel

The Wisconsin Union Library is becoming "browsing session minded". Last year this type of informal reading and discussion hour was tried for the first time and proved very successful.

On January 14 of this year the library held its first in a planned series of these browsing sessions with Gilbert H. Doane, Director of the University Library, the "browsing leader". At this session students listened to the adventures of Archie the philosopher-cockroach and his indomitable companion, mehitabel. Along with this classic of Don Marquis, Mr. Doane read selections from Samuel Hoffenstein, Edna St. Vincent Millay, and Dorothy Parker.

Ice Carnival

The fourth annual Winter Carnival sponsored jointly by Union Board, Daily Cardinal, and the Hoofers Club, is competing with Junior Prom for the attention of the student body these days. This sports weekend will be held February 11, 12, and 13th. From its introduction with Plaid Shirt week shortly after Prom to its climax at the ski meet Sunday, the program will consist of fifty events according to present plans.

"And if it rains or the temperature shoots down to twenty below, we've got plenty of indoor events planned to keep 'em busy," Snow

Man Hal Roberts, Chairman of the weekend announced.

Included on the program besides the annual Wisconsin ski meet which draws experts from all over the country, will be two or three informal dances, skiing, skating both for experts and amateurs, snow sculptoring, ski movies, sleigh rides, house parties, hockey meets and tournaments, fancy skating exhibitions, ice boat races, sail skating races, style show, curling, a flapjack supper, and "other events to produce swell fun," according to the Snow Man.

Mayor Law and the city of Madison are cooperating and will clear a massive rink in the back of the Memorial Union for expert skating and bleachers will be erected so that students can comfortably see the races.

Full House

The total group function attendance at the Union for the first four months of the academic year 1937-38 shows an increase of approximately 41 per cent over the attendance for the same period 1936-37, figures released from the office of House Director Porter Butts revealed this month.

To the delight of the mathematician and the amazement of the student body this evolves into the surprisingly large total of 89,660 persons through December of this year as compared to a total of 63,646 persons for 1936-37.

Most popular, in order of attendance this season, have been group meetings; dances and parties; luncheons and dinners; teas and receptions; and group lectures, concerts, and convocations.

The best month for attendance of Union functions was November with September, October, and December following in respective order.

Art Salon

The fourth and undoubtedly the most outstanding Wisconsin Salon of Art, sponsored by the Memorial Union Gallery committee, was a feature of Union activities in November. The salon is a state-wide competition, and is unique among state art exhibitions in that it is planned and executed in every detail by University students. This particular exhibition, which is one of many during the year at the Union, offers students interested in art and gallery management a practical laboratory

where they may work out definite plans and problems in the field they are entering.

A very distinguished jury was selected by the student committee to judge the 440 entries in oil painting, water color painting, sculpture, graphic art, and designs for murals and architectural sculpture. They included John Steuart Curry, Wisconsin's own artist-in-residence; Dr. Walter Gropius, founder of the renowned Bauhaus School of Arts and Architecture in Dessau, Germany, and now associated with Harvard University; and Alexander Archipenko, sculptor, of Chicago.

First award in Oil Painting went to L. W. Bentley, Two Rivers, for his "Georgia Cracker;" first award in water color was given to Ann Krasnan, Milwaukee, for her "Milkweed and Pears;" the sculpture prize to Rudolf Jegart, student from Milwaukee, for "Martha Elizabeth;" Dick Wiken of Milwaukee received first award in Designs for Murals and Architectural sculpture for "Plaster Panel;" and first in graphics went to Harold Wurl, Milwaukee, for "Stake Drivers."

Engineering

AT THE annual meeting of the Advisory Committee on Mine Safety, Prof. E. R. Shorey acted as chairman of the industrial committee, a post which he has held since the organization was started 15 years ago. Representatives are made up of members of the Federal Bureau of Mines, mine operators, and organized labor, who meet to revise the mine safety requirements in Wisconsin.

Mr. Shorey was also a member of the program committee of the American Mining Congress which met in Salt Lake City in September. At the present time he is working on the Advisory Committee of Mining Exhibits Incorporated of San Francisco. It is a non-profit organization for the planning and staging of the mineral industrial exhibits at the Golden Gate International Exhibit in 1939.

Concrete Lectures

Some very interesting lectures and discussions on the design and application of architectural concrete were held in the auditorium of the Engineering Building on the evenings of January 4, 5, and 6. They were jointly sponsored by the University and the Portland Cement Association. The subjects under discussion included such timely topics as: the design of forms; the use of reinforcing; cur-

ing and protection; and specifications. The classes were attended by both students and business men from in and around Madison.

Phi Kappa Phi

The engineering school was again well represented when twelve of the fifty-seven initiates to Phi Kappa Phi were engineers. The initiation was held in the Memorial Union on January 19 with Prof. Farrington Daniels of the chemistry department as the guest speaker.

Election to Phi Kappa Phi is based upon high scholarship combined with participation in worth-while campus activities and is open to seniors of all departments of the university.

Author

John A. Oakey, c '29, M. S. '34, has recently had an article published in the Engineering News-Record. It is entitled "A New Stadia Technique," and appeared in the December 23 issue.

Air Distribution

Prof. D. W. Nelson, of the mechanical engineering department, recently attended the conventions of the American Society of Heating and Ventilating Engineers and the American Society of Refrigerating Engineers in New York. He presented a paper, prepared by himself and D. J. Stewart, '21, on "Air Distribution from Side Wall Outlets." He also attended the 5th International Heating, Ventilating, and Air Conditioning exposition held in New York.

Agriculture

THE needle and the plow held equal importance when state farmers and their wives gathered on the College of Agriculture campus for the annual farm and home week during the last week of January and the first of February. More than 5000 rural folk braved the slippery roads to attend.

The discussions included all phases of rural life from dressmaking to improved methods of raising potatoes. There were exhibits of textiles, foods, home lighting, and parent education for the women. Farm exhibits included fur raising and the operation of a home sawmill.

Fifteen special farm groups held their an-

nual meetings in conjunction with the five-day program.

Highlight of the week was the annual "little international" stock show in the University stock pavilion. The state's finest stock was on parade for a crowd of several thousand. An all-University horse show and several feature stunts completed the program.

On the final night, drama groups, representing various state areas entertained the visitors in the annual rural drama festival. These groups were all coached by the University Extension division and represent the best in amateur talent in their home communities.

Halpin

James Halpin, head of the department of poultry husbandry, has been appointed chairman of the program committee of the World's Poultry Congress, which will be held in Cleveland, Ohio, July 28 to August 7, 1939. J. B. Hayes, poultry extension specialist of the College, is serving as a member of the popular program committee.

Duffee

Prof. Floyd W. Duffee has taken his new post as head of the department of agricultural engineering. It was with the unanimous vote of his associates and with the recommendation of Dean Chris L. Christensen that Pres. Clarence A. Dykstra announced the new chairmanship.

Professor Duffee has been in charge of resident teaching and research in farm machinery and power farming.

To New Zealand

Prof. J. H. Kolb, head of the department of rural sociology, recently announced his acceptance of a temporary position as advisor to the New Zealand government. His work will be assisting in the development of a bureau of sociological research for the government at the invitation of the New Zealand minister of scientific research.

Professor Kolb has been granted a leave of absence for the second semester of this school year, and intends to resume his University work next fall.

McCoy Back

Elizabeth McCoy, who has been on leave of absence from the staff of the College since last July, returned last month to resume her duties in bacteriological research.

During the past six months, she has been carrying on research on food problems at the Hooper institute, San Francisco, a section of the University of California. She has been specializing particularly in the investigation of bacteria which are able to live in the absence of free oxygen. Many such bacteria cause canned food to spoil.

Best Essay

Predicting that only a beginning has been made in a more scientific utilization of the products and by-products of the livestock packing industry, Wilson Wright, '39, won first place in the national Swift College essay contest. The award was made at the annual meeting of the American Society of Animal Production.

Wright, a Waukesha county farm boy, was pitted in this contest against essayists from a number of counties in Wisconsin and other states.

Milk Sales

Milk, 8,740,000 pounds of it, was sold by the department of dairy industry during the past year. University organizations are the best customers of the department with the Memorial Union, Wisconsin General Hospital and dormitories buying the bulk of the dairy products produced, according to Prof. L. C. Thomas of the College.

Cream, ice-cream, and cheese are also produced for public sale. During 1936, 870,000 pounds of cream, 37,000 cups and 16,000 gallons of ice-cream were sold.

Prices charged for the products are uniform with those established by other Madison dairies. Rates are set by the state department of agriculture and markets. The plant buys raw milk from 120 farmers in the Madison area, paying additional premiums for low bacterial count milk. Employees in the dairy are mostly graduates of university courses in agriculture.

In the Alumni World

eighteen seventy-two

Senator George F. MERRILL, veteran member of the legal profession in Ashland, and one-time head of the University board of regents, was honored by the Masonic order of Ashland last November. Senator Merrill passed his 90th birthday early this year.

eighteen eighty

Mrs. Nettie Meigs Hitchcock, wife of Rev. A. N. HITCHCOCK, D. D., formerly, for 37 years, District Secretary of the American Board, Chicago, passed away at her home in Oak Park on May 29 at the age of 80 years. In March, the Hitchcocks had celebrated their sixtieth wedding anniversary.

eighteen eighty-one

Charles M. SCANLAN is the oldest practicing attorney in Milwaukee, having been in continuous practice there for over fifty years. . . . William H. GOODALL has been appointed Associated Adjuster of the Continental Claim service for Jacksonville and North Florida. Emil BAENSCH, writing us about Goodall, says: "W. H. Goodall, Jacksonville, Fla., had good standing in his English class, even taught it later in public schools. But his long residence in the Southland has naturally softened his vocabulary. Thus, in his letters to friends these days, he speaks of Florida as the 'land of ocean breezes.' He refers to the tornadoes and floods recently in the head lines." . . . Emeritus Professor and Mrs. Howard L. SMITH are spending the winter in Cuba.

eighteen eighty-two

John J. ESCH delivered an address at a session of the Semi-Centennial of the Interstate Commerce Commission last September. His subject was "The Interstate Commerce Act since 1920."

eighteen eighty-four

Emeritus Professor Julius E. OLSON observed his 79th birthday November 9. For 50 years, until his retirement in 1935, Professor Olson taught Scandinavian languages at the University. For his contributions to Scandinavian culture, he was awarded the Norwegian Order of St. Olaf.

eighteen eighty-five

Charles I. EARLL is at his home in York, Pennsylvania, recuperating from an auto acci-

dent which he had recently while returning from a visit in Wisconsin.

eighteen eighty-seven

In September, Charles H. SCHWEIZER completed half a century of law practice in La Crosse, Wis. He is now president of the Social Service society and also of the La Crosse Community Chest.

eighteen eighty-nine

Frank Lloyd WRIGHT was featured in an article in the December issue of *Coronet*, telling of his trials, tribulations, and accomplishments, and of his famed Taliesin.

eighteen ninety

Leonard S. SMITH of Redondo Beach, California, was a visitor in the Alumni office during September. Mr. and Mrs. Smith had left California some time before and were making a "circle tour" which included stops in Madison, Houston, Texas, the home of their daughter, and Chattanooga, Tenn., where their son, Maxwell, '17, is dean at the University of Chattanooga.

eighteen ninety-one

George E. MORTON, who has practiced law in Milwaukee ever since his graduation, is President of the Board of the Wisconsin Home and Farm school, near Dousman. . . . Frederick W. PRAEL retired last February after 38 years as superintendent of the United factory of the American Can company in San Francisco. . . . Adrian C. CONWAY is living at 420 S. Hobart Blv'd, Los Angeles, Calif.

eighteen ninety-three

Lawrence WHITTET, Edgerton, Wis., former trade practice commissioner of Wisconsin, has been appointed chairman of the advisory code board of the new Wisconsin fair trades code practices act.

eighteen ninety-four

Carl STROVER, who studied economics at the University of Berlin after his graduation from the Wisconsin Law school, is the author of a new book, *Monetary Progress*, which demonstrates the practicability of ending all business depressions. His book has found the approval of former U. S. Senator Robert L. Owen, for 12 years Chairman of the Banking and Cur-

rency Committee of the Senate. . . . The Rev. Jesse SARLES has retired from the active pastorate, and he and his wife (Frances BOWEN, '93) will make Whitewater their future home. . . . Frederick Deforest HEALD, head of the department of plant pathology, State College of Washington, is on a year's leave of absence, and expects to visit the East later in the year. He is the author of several books, the most recent of which, *Introduction to Plant Pathology*, has just been published. . . . Andrew R. WHITSON, soils department of University of Wisconsin, was one of ten members of the State College of Agriculture honored at a Pioneer program in Washington on the 75th anniversary of the Act under which the U. S. Department of Agriculture was established. Others honored were Harry L. RUSSELL '88, former Dean and Director; Benjamin H. HIBBARD, Ph. D. '02, department of agricultural economics; Edwin G. HASTINGS, M. S. '99, and William D. FROST, Ph. D. '03, department of agricultural bacteriology.

eighteen ninety-five

George P. HAMBRECHT, director of the Wisconsin State Board of Vocational Education, gave the principal address at the National Encampment of the Grand Army of the Republic held in Madison in September. He acted as toastmaster at the GAR banquet. . . . Dean Guy S. FORD of the University of Minnesota Graduate school is this year acting as president of the University, a position he earlier filled in 1931-32 during the absence of President Lotus D. Coffman. He was also elected president of the American Historical association at a meeting held in Providence, R. I. . . . Aloys WARTNER, practices law at Harvey, N. D., was recently elected vice-president of the North Dakota State Bar association. His son, Aloys, Jr., was elected State's Attorney last election. . . . Charles HEBBARD, who has had an active political career in Spokane, Wash., since 1897, is a candidate for the position of Republican national committeeman. . . . Circuit Judge Charles L. AARONS, Milwaukee, is listed in a biographical directory, "Who's Who in Law," just published. . . . The names Judge Evan A. EVANS '97, George I. HAIGHT '99, and August C. Backus '00, University of

Wisconsin regent from Milwaukee, also appear. . . . Delbert E. BINGHAM, cherry and apple grower, Sturgeon Bay, Door county, since 1891, was honored as an outstanding orchardist by the Wisconsin State Horticultural society in November. He was one of the organizers of the first cooperative sales organizations for fruits, and is nationally recognized as an outstanding fruit expert.

eighteen ninety-six

Edward A. IVERSON, Chicago, is a frequent visitor to Madison, regularly attending football games and the annual commencement exercises. . . . Herbert B. COPELAND is living at 933 11th street, Santa Monica, Calif.

eighteen ninety-seven

Fred H. CLAUSEN, Horicon, Wis., vice-president of the Chamber of Commerce of the United States, addressed the recent Congress of Wisconsin Business in Milwaukee on the need of better understanding of business and business organization. . . . Frank WILKINSON lives at 464 Dundee avenue, Elgin, Ill.

eighteen ninety-eight

Christine WRIGHT, Baraboo, Maud van WOY, Washington, D. C., and Mrs. William Daniells (Maude PARKINSON) went on a motor trip to Mexico last July. . . . Ira B. KIRKLAND is an attorney at 111 W. Washington street, Chicago. . . . A. C. KINGSFORD, Baraboo, deceased curator of the Wisconsin State Historical society, was eulogized in a speech given by Mrs. H. E. Cole at the annual meeting of the society held in Madison in October. "His services to the Wisconsin University as a member of the board of visitors and to this society as a thoughtful member and curator are examples of his loyalty to the people and institutions of the state," Mrs. Cole said. . . . Mary BARKER resides at 308 St. Lawrence avenue, Janesville, Wis.

eighteen ninety-nine

Lulu B. FISKE, for 36 years high school teacher in Beaumont, Calif. resigned in June, 1937. Her address is still Beaumont. . . . Bertha Estelle CHAPMAN is a proofreader on the Seattle

John J. Esch, '82
I. C. C. speaker

Times. . . . After an active career in the West, Frank Joseph LAUBE has returned to Brodhead, Wis., where he is practicing law and serving on the city council. He had formerly spent 12 years on the faculty of the University of Washington, teaching public finance and municipal government, and had been a member of the Washington State legislature and president of the Seattle City council.

nineteen hundred

Hon. Glenn H. WILLIAMS, is judge of the Probate and Juvenile court, Ladysmith, Wis. . . . Mr. and Mrs. John Clyde FRUIT (Winfred SMITH) of Nutley, N. J., have just returned home following a cruise to Havana, Cuba, and California by way of the Panama Canal. . . . Carl E. MAGNUSON, Ph. D. '00, is chairman of the Power committee of the Washington State Planning Board and Professor of Electrical Engineering in the University of Washington. . . . D. Hayes MURPHY has been elected president of the National Electrical Manufacturers' association. After graduating, he was associated with the American Conduit Manufacturing company of Pittsburgh, and in 1919 organized the Wiremold company of Hartford. He is at present director of a Hartford bank, a hospital, and the local "Y", on the advisory board of an insurance company, president of the West Hartford Country club, and vice-president of the West Hartford town council. . . . S. A. OSCAR is a director and grand secretary of the Beavers Insurance organization of Madison, director of the Central Trust company, and head of the Madison Chamber of Commerce. . . . Last June, Maybelle E. MOORE sailed on a Mediterranean cruise as hostess on the ship "Roma." She expected to meet Mrs. William A. Warren (Louise BIRD '98) in Italy in the autumn and spend part of the winter there. Her permanent address is 415 Washington avenue, Brooklyn N. Y. Philip C. Magnusson, 20-year-old son of Dean C. Edward MAGNUSON, Ph. D. '00 and Mrs. Magnusson (Elva COOPER '04), who recently was graduated in electrical engineering by the University of Washington, was awarded the President's Medal for the highest scholarship record in his class.

nineteen one

E. John WEHMHOFF has a law practice in Burlington, Wis. . . . Walter HIRSCHBERG is now associated with the Federal Engineering company, architectural engineers, Milwaukee. . . . Arnold B. SMILEY lives at 860 18th street, Manhattan Beach, Calif. . . . Thomas M. GANNON, a San Francisco lawyer, is Assistant Building and Loan Commissioner of the State of California. He has formerly served on the State Prison board and Railroad commission. . . . Hubert D. BUCHANAN, a past member of the House of Representatives in the Washington legislature, is practicing law in Seattle.

nineteen two

William BEYE, member of the law firm of Knapp, Beye, Allen & Cushing, division counsel of the United States Steel corporation, has been made vice-president in charge of industrial relations of that company. Beye has always been interested in the broad aspects of industrial relations, and is credited with authorship of the Illinois workmen's compensation act. . . . Warren D. SMITH has been requested by the Philippine Commonwealth to consider a one-, two-, or three-year contract to take charge of geological survey work in the Islands. He may accept for one year, on leave of absence from University of Oregon. He was formerly chief of the Philippine Division of Mines, 1907-14, and 1920-22. . . . A. D. S. GILLETT has been appointed to the University of Wisconsin Board of Visitors. He is now living at Eveleth, Minn., where he is superintendent of schools. . . . Like many people who live in Nebraska, Kansas, and Oklahoma, Mrs. John E. Kirshman (Margaret STANTON) and her husband own a summer home in Colorado. When the heat of the summer invades the plains of the Middle West, the Kirshmans move to the higher altitudes of Grand Lake, Colo. Before her marriage Mrs. Kirshman was a teacher at Colorado State Preparatory school, Des Moines, Ia., high school, and the University of Wisconsin. She is active in art circles, and interested in all phases of art. The Kirshman home is located at 2409 Sewell street, Lincoln, Nebraska.

Frank Lloyd Wright, '89
Coronet praises his work

nineteen three

William J. ROWE is assistant to the chief engineer of the Corn Products Refining company, Chicago. . . . Leslie B. WOODRUFF, who lives in South Orange, N. J., is construction engineer for Public Service Coordinated Transport, Newark, N. J. . . . S. J. McMAHON, former Antigo attorney, is opening a law office in Milwaukee, specializing in taxation law. He last year resigned from the United States board of tax appeals, to which he was appointed by President Hoover in 1929. Living in Milwaukee, McMahon will spend his time between Milwaukee and Washington, where he will also maintain an office. . . . J. F. Dougherty is practicing law in Wisconsin Dells, Wis., in partnership with his son, Robert DOUGHERTY '31, and writes that they are both enjoying their neighbors, their homes, and their business. He recalls the day that Bill HAIGHT, John SPRECHER '05, Glen R. SNIDER '06, and he took the entrance examinations together. Glen, he says, is a very successful practicing lawyer at 56 Cedar street, New York, N. Y. "A few years ago," Dougherty writes, "I was called upon to act as pallbearer for Dr. Edward THUERER who is buried in Walnut cemetery at Baraboo. He was the leading surgeon in Billings, Montana, for years. You will recall that he was the president of our class and was one of our best friends. Another leader of our class was Eben R. MINAHAN of Green Bay. He also passed away several years ago after living a very full and active life in his own town. Our engineering friends will recall Leonard SMITH, '90, of Madison very vividly. I spent a few very pleasant hours with him in Los Angeles a few years ago." Dougherty frequently sees Dr. Arthur CURTIS '02, Chicago, in Wisconsin Dells. . . . The three children of Mr. and Mrs. Adolph PFUND (Charlotte Epstein '04), Adolph Jr., Betty, and Eleanor, are enrolled in the University of Wisconsin. The Pfunds make their home in Oak Park, Ill. . . . Mrs. A. H. Miller (Minna WEBBER) lives in Cumberland, Wis., where her husband is in the insurance business. She has two children.

nineteen four

Mare J. MUSSER is district manager for the Public Service company of Northern Illinois. He lives at 201 W. Park Front, Joliet, Ill. . . . Margaret ASHMUN spent summer in Denmark and Sweden, and has returned to Copenhagen for the winter, where her address is care of the American Express company. She has recently presented to the Wisconsin Historical society some notes on the life of the early settlers in the rural sections of Waupaca county, her original home. . . . William JUNEAU, coach of the 1912 conference championship football team of

the University of Wisconsin, was in Madison last fall, to take part in the Homecoming celebration, the slogan of which was "Remember 1912."

nineteen five

Mrs. Harry B. Forbes (Selma VOGNILD, Ph. B. '05), whose husband is a Chicago jeweler and optometrist, studied speech while in school, and is now conducting a private studio of expression. . . . Eleanor L. BURNETT is director of the girls' work department, Northwestern University Settlement, Chicago. . . . William E. BROWN is hydro-electric designer for the Electric Bond and Share company of New York. . . . Scott H. GOODNIGHT, dean of men, the University of Wisconsin, and Mrs. Goodnight made a tour of Upper Wisconsin and Canada last summer. . . . Robert C. ZUPPKE, University of Illinois football coach, was finally awarded a varsity "W" almost 30 years after he was graduated. Kept off the Badger eleven in his undergraduate days by his small stature, Zuppke was awarded a Wisconsin monogram by the Wisconsin coach and athletic director, Harry Stuhldreher, at a dinner in Chicago celebrating Zuppke's silver jubilee of coaching. The Illinois coach, who has been dubbed "the old Rembrandt of Champaign" because of his artistic talents, in November displayed in a New York gallery 25 landscapes painted during vacations. His favorite subjects are forests, deserts, fountains, and the open sea. . . . Horatio B. HAWKINS has spent a lifetime in the Orient as Commissioner of Customs under the Chinese Government, and earlier as professor in the National University at Nanking. During various uprisings in widely scattered parts of China, he has been sent to evacuate menaced nationals, to relieve remote garrisons, and on other dangerous missions. Two or three times he has been despatched with groups of Chinese students to Europe or to Eastern universities. His present whereabouts are unknown.

nineteen six

Mr. and Mrs. Walter DISTELHORST, Louisville, visited Madison, Sheboygan, and Chicago in September. . . . Jennie SCHRAGE was bereaved in October by the death of her mother, Mrs. Annie Schrage, an early resident of Sheboygan county, who had resided with her in Madison since 1930. . . . Edna J. INGALLS, English instructor in Fort Atkinson high school the past three years, became a teacher this fall at the Drew school for girls, Carmel, N. Y. . . . Arthur DIETZ, Wautoma, and B. B. BURLING, Milwaukee, comprised two-thirds of the membership of the committee on necrology for the annual convention of the Wisconsin Education association. . . . Charles C. BISHOP, superin-

tendent of schools, Oshkosh, Wis., addressed an August meeting of the Oshkosh Kiwanis club on a summer's trip in the West, with special reference to the story of Custer's massacre. He visited the old battleground on a trip which included Salt Lake City, Montana, Grand Canyon, Bryce Canyon, and California. . . . George W. BLANCHARD, Edgerton, Wis., was bereaved by the death of his mother, Mrs. H. J. Blanchard, at Minneapolis, in August. . . . Mrs. Henry J. Steeps (Alice EVANS) and her husband, Baraboo, Wis., attended the convention of the American Bankers' association at Boston in October, and also visited New York, Washington, and Williamsburg, Va. . . . Under the initiative of Ralph D. HETZEL, president, Pennsylvania State college, a building program involving \$6,500,000 has been started. President Hetzel is quoted as saying that under present conditions thousands of students have had to be turned away, but that with a more adequate physical plant the situation will be at least partially remedied. . . . Alexander C. ROBERTS has for the past ten years been president of San Francisco State college. He had earlier been a professor and dean in the University of Washington. . . . Mrs. Ralph C. Pickering (Nona MORSE) lives at 506 E. Sunset Canyon drive, Burbank, Calif. . . . John Earl BAKER has resided in the Far East since 1916, and is known for his co-ordination of Chinese railroads and for his administration of the huge Red Cross famine relief funds in China in 1928. During the past summer he has been up in Szechwan, one of the most remote provinces of China, organizing famine sufferers into a highway building organization. Seeing the Sino-Japanese war at close range, he writes in a November news letter that he is "sick at heart to see a people, the very finest material for a peaceable world, assassinated at the very time they are getting into condition where they could begin to make a useful contribution toward world stabilization," and he urges the United States to do anything possible to stop the slaughter. Baker, whose son, John E. Jr., is a sophomore in the University of Wisconsin, was a visitor to the University in 1936 and was given the doctor of laws degree by his alma mater. . . . Edgar A. LOEW is the dean of the College of Engineering of the University of Washington. . . . E. A. TROWBRIDGE, head of the animal husbandry department at the College of Agriculture of the University of Missouri, has recently been named chairman of a special committee to plan the celebration of the 50th anniversary of the Missouri Agricultural Experiment station. . . . "Alluring Wisconsin," a new book by Frederick L. HOLMES, has just been published. . . . In the May 28 and June 11, 1937, issues of "Engineering," published in London, there appeared an article by Prof. Jesse B. KOMMERS

of the University of Wisconsin faculty on "Overstressing and Understressing in Fatigue." This article reported some of the research results on repeated stress tests of steel. In June the American Society for Testing Materials allotted \$200 to Professor Kommers to help in defraying part of the expense on some repeated stress tests on gray cast iron. The Board of Regents accepted this grant. . . . Alexius BAAS, who received his M. A. degree in 1937, is now working toward a Ph. D. degree in English literature. . . . William T. EVJUE editor of Capital Times of Madison, revived memories of other days in a column feature in which he discoursed on early Junior Proms: "The gorgeous Junior Proms with steel girders of the roof hidden under a flaming canopy of highly colored bunting. Fraternity boxes around the sides of the dance floor filled with rugs and furniture brought down from the fraternity houses. The prom orchestra playing from a platform, above the dancers, suspended from a steel cable that came down from the ceiling. . . . The monthly military hops with those uncomfortable, high-collared military uniforms and those galloping two steps, waltzes and redowas to the strains of old Professor Nietzsche's band. . . . Those cursed military drills and how we would put it over old Cap Curtis by painting a fake sprained thumb with iodine in order to get an excuse from drill." . . . Elise F. DEXTER is the author of a new German textbook, a collection of modern German humorous stories. She's teaching German at Hunter college, New York. . . . Of interest to the class of 1906 will be the announcement of Mr. and Mrs. Ralph Emerson DAVIS (Euretta KIMBALL), Pittsburgh, Pa., of the engagement of their daughter, Euretta, to Robert McLaine Falconer, Shaker Heights, Cleveland, Ohio. The wedding will take place in spring. . . . In a November wedding in the West, Robert Platt Brush, son of Mr. and Mrs. J. Platt BRUSH (Bernice E. DOW '07), was married to Barbara C. Dailey, Seattle, Wash. Robert Brush visited Madison in the summer of 1937 when piloting a plane to Minneapolis for the U. S. army.

nineteen seven

Dr. Elmer V. EYMAN is chief of the Department for Mental and Nervous Diseases at the Pennsylvania hospital, Philadelphia. He is also assistant professor of psychiatry at the University of Pennsylvania Graduate School of Medicine, and consultant in psychiatry, U. S. Public Health service, assigned to the U. S. District court, Eastern Division of Pennsylvania. His home is 613 Ferne avenue, Drexel Hill, Pa. . . . Morton MacCARTNEY is chief engineer in charge of self-liquidating division of the Re-

construction Finance corporation, and lives in Washington, D. C. . . . Joseph W. VABORIL is teaching in Altadena, Calif. . . . Jerry DONOHUE is busy with engineering work in Sheboygan and his duties as a director of the Wisconsin Alumni association. . . . Wm. F. KACHEL is secretary and treasurer of the Seisel Construction company of Milwaukee. . . . Mrs. Henry G. BARKHAUSEN (Miriam NOYES) was named principal heir to the \$2,752,824 estate of her husband, shipbuilder and investment counselor, who died last fall. . . . During a 10-week program of adult education offered by the People's Institute of Attleboro, Mass., this fall, lectures in the field of astronomy were presented by Dr. Glenn A. SHOOK, head of the physics department and director of the observatory at Wheaton college, Norton. Widely travelled, lecturer and publisher of scientific treatises in leading journals in Germany, Italy, and the United States, Dr. Shook is a pioneer in mobile color, having first demonstrated his color organ in Attleboro in 1924, and is the first man to successfully synchronize color with music. . . . Edwin C. JONES, who in 1909 was appointed press representative by President Van Hise to accompany the U. W. baseball team to Japan, now heads his own firm as a publicity council, with offices at 343 S. Dearborn street in Chicago. Aside from his regular business, he is executive secretary of the Highland Park Community Chest, and executive secretary of the Chicago City Manager committee. . . . A. William FIELD is president of the Elite Laundry company, with plants in Baltimore, Washington, and Philadelphia. Married in 1910, he has three daughters, and lives at Northway and Underwood road, Baltimore. . . . Mr. and Mrs. Ira LORENZ (Louise WALKER '08), live at 2302 E. Newberry blv'd, Milwaukee.

nineteen eight

Sumner B. ROBERTS is associated with the British Langamo company, Ltd., Arterial road, Cambridge, Enfield, Middlesex, England. . . . Rudolph SOUKUP is in charge of the civics department, Queen Anne high school, Seattle. . . . Dr. and Mrs. Orren LLOYD-JONES (Lucina CARR) are living in Beverly Hills, Cal., where Dr. Lloyd-Jones is practicing medicine.

nineteen nine

Mrs. Edward McMAHON (Theresa SCHMIDT) Ph. D.

'09, retired in June after many years as professor of economics in the University of Washington. She has been appointed a member of the advisory council recently created by the U. S. Senate committee on finance and the Social Security board to consider changes in the Social Security act. Her husband, Professor Edward McMAHON, chairman of the history department of the University of Washington, also did graduate work at Wisconsin during 1907-08. . . . Also a member of the social security advisory council is Prof. Edwin E. WITTE, University of Wisconsin economist. . . . William R. MUEHL, manager of the Crescent Electric Supply company, Madison, recently combined a business trip to Cleveland with a reunion with his classmate, Lester M. MOSS, associated with General Electric company, Nela Park. . . . Mrs. Harry C. Daniels (Aleta ROBISON) lives in Seattle with her husband, an industrial engineer, and one daughter, a student at the University of Washington. . . . A bronze plaque has been sent to Mrs. Genkwan Shibata of Kobe, Japan, as a token of sympathy in the death of her husband formerly of the University of Wisconsin, who arranged a Japanese tour of the university's baseball team in 1909. Captain of the team was Douglas KNIGHT of Bayfield; Edwin C. JONES, '07, accompanied the team as press representative. Their names, and those of the other members of the team—Harlan ROGERS, Elmer BARLOW, Ralph MUCKLESTON, John MESMER, Charles M. NASH '10, Oswald LUPINSKI '10, Arthur PERGANDE '10, Judge J. Allan SIMPSON '10, David FLANAGAN '11, Arthur KLEINPELL '11, Michael TIMBERS '11, and Kenneth FELLOWS '10—are engraved on the plaque. The team plans another reunion for '39. . . . Mrs. Frederick Leighton ("Sally" THATCHER)

made a recent tour through Europe with a group of university girls. Her home is 505 S. Sixth St., Escanaba.

nineteen ten

Margaret H'DOUBLER, professor of physical education, University of Wisconsin, reports that the summer session at Strutgen, near Stockholm, for the exchange of ideas on the teaching of dancing by American and Swedish instructors, was a "really successful and stimulating experience." . . . Accompanied by her husband, Wayne CLAXTON '31, Miss H'Doubler headed a group

Dr. H. L. Russell, '88
Honored for agric work

of ten Wisconsin students and alumnae who attended the session. Later the party spent two weeks at the Mary Wigman school in Dresden, Germany, and then disbanded to travel separately in various parts of Europe. Professor and Mrs. Claxton went to Smogen, a tiny fishing village on the west of Sweden, for a brief vacation. . . . William Duncan RICHARDSON is now a member of the New York Times staff. He has had a varied experience as a publisher and newspaper man, once originating a publication, now in other hands, called *The Bermudian*, of which his wife, the former Genevieve DEMING '16, was editor. . . . Marie FITCH is the wife of James Gates, Seattle lawyer. . . . William O. VAN LOON is town chairman of Holmer, Wis. He maintains a private practice in surveying. . . . Wildon F. WHITNEY has left the Lumberman's Mutual Insurance company, Milwaukee, to take up residence in Madison. . . . During October, John STEVEN, director of the Los Angeles city schools, attended a convention of civil service commissions of the United States and Canada, held at Ottawa. . . . Sen. F. Ryan DUFFY and other members of the 1907 cross country team, met in Madison October 15 and presented Coach Tom Jones with a remembrance from the "Boys of 1907." In the 27 years since his graduation, Senator Duffy has kept an active interest in the University's athletic affairs, and has seldom missed a home football game. . . . Walter Dill Scott, President of Northwestern university, announced September 27 the election of Kenneth F. BURGESS, partner in the law firm of Sidley, McPherson, Austin, and Burgess, to the position of president of the Northwestern board of trustees. He has been a trustee of the university since 1933, and is general counsel for the Illinois Bell Telephone company, a director of the State Bank and Trust company at Evanston, a member of the American Bar association, the Chicago Bar association, the American Economic association, the Academy of Political Science, and Commercial club of Chicago. . . . Elizabeth CORBETT has just published a new novel, "The Langworthy Family," a dramatic study of a generation of Langworthys living in a small Illinois town at the beginning of the twentieth century. . . . Prof. Selig PERLMAN, University of Wisconsin labor economist, is one member of a committee appointed to watch the progress of a newly created school for workers in industry, which holds classes in more than a dozen Wisconsin cities. The new school, the first of its kind in the United States, is an outgrowth of the summer school for industrial workers, which has been in operation at Wisconsin since 1925. . . . Rankin COTTINGHAM, assistant to the vice-president in charge of refining, the Texas company, returned to New York from Madison November 17, when price-fixing charges brought by the government

against the Texas company among others, were dismissed by the federal court here. One of the up-and-coming executives of the Texas company, Cottingham is also vice-president of two Texas company subsidiaries in Montana, the International Refining company and the International Pipe Line company. He resides at 19 Elm road, Scarsdale, N. Y. . . . Mrs. Jacob W. Alt (Ruth RUGGLES) lives at 118 Calumet avenue, Calumet, Mich., where Mr. Alt is a safety and efficiency engineer with the Calumet & Heck Consolidated Copper company. Arch W. NANCE, president of the U. W. club of Pittsburgh, was one of the high-light speakers when some 1200 college grads were guests at a Pitt-Big Ten Smoker in the hotel Schenley Ballroom, Pittsburgh, Friday evening, Oct. 23rd, preceding the Pitt-Wisconsin football game. Arch, who has been active for years in keeping the club truly alive, ordered a 200-pound Swiss cheese from his home town of Monroe to augment his pep talk "Cheese and Wisconsin Spirit."

nineteen eleven

Francis A. TORKEKELSON, state inspector for WPA in Wisconsin, has returned to his home in Wauwatosa, Wis., after spending some time in the Virgin islands as chief engineer for federal public works projects. . . . Aimee ZILLMER, social hygiene lecturer for the state board of health, gave a series of lectures on "Friendship and Marriage" to large audiences of University women in December. . . . Charles R. SEXTON, who has been with the Tennessee Coal and Iron company of Birmingham, Ala., since 1913, was recently appointed secretary and treasurer of that company. . . . Stanley HORNBECK, Ph. D. '11, is a member of the American commission on Far Eastern affairs which has left for Europe to aid in the settlement of Sino-Japanese difficulties. . . . William CHAPMAN is living at 1216 Shebourne drive, Dillon, Montana. . . . Timothy BROWN, prominent Madison attorney who married within the past year, has recently completed building a new home. Tim is still an ardent yachtsman, and a moving spirit in the ranks of the Mendota Yacht club. . . . Oscar RENNEBOHM is owner of a string of 13 Madison drug stores. This fall he celebrated the 25th anniversary of the opening of his first store on University avenue.

nineteen twelve

Arthur J. WILMANNNS is secretary of Wilmanns Brothers company, 1255 North Sixth street, Milwaukee. . . . On January 1, F. F. FINNER completed his fifth year as city superintendent of schools of Sheboygan Falls, Wis. . . . Two members of Wisconsin school of journalism faculty contributed to the new volume,

"Survey of Journalism," published in August. Prof. Grant M. HYDE, M. A. '12, wrote the foreword for the book. Prof. Frank THAYER contributed two chapters: "The Law Limits Journalism," and "Making Journalism Pay Dividends." . . . Philip H. PORTER, transportation director of the state public service commission since October, 1933, was appointed chief counsel of that body in September. As such, he will head the commission's legal department and, with the consent of the attorney general, represent the commission in court cases involving its decisions. . . . As dean and vice-president of the Mississippi State College for Women, Nellie Sutton KEIRN, M. A. '12, is known as the only woman ever to head the college. . . . Dr. W. D. SANSUM of Santa Barbara, Calif., made a summer's tour of Europe with the Interstate Post-graduate Medical association of North America, a party of 45 doctors and their wives, from all over United States and Canada. . . . R. P. HOFMANN is manager of the Peter Miller Hotel, Miami Beach, Fla. . . . Miami is the home of Mrs. Walter T. Schutt (Gertrude LUTZ), whose husband is district manager for the Penn Mutual Life Insurance company. The Schutts have two sons, John, born in 1917; and Richard, 1921. John is now a midshipman at Annapolis. Mrs. Schutt is active in social and civic work in Miami, having served as president of the Junior League and the Miami Pan-Hellenic association among other things. . . . George D. BAILEY'S new address is 20 Vendome road, Grosse Pointe Farms, Michigan. Carl J. JACOBSEN, a "W" man in football, was one of the enthusiastic rooters at the Pitt-Wisconsin game at the University of Pittsburgh Stadium. Twenty-five years of work as Constructing and Consulting Engineer in Pittsburgh have not dampened his ardor or lessened his enthusiasm for a good football game.

nineteen thirteen

In recent years, Harold H. BARKER, printer and publisher in Elbow Lake, Minn., has gone into politics, and since 1931 has been a representative in the state legislature of Minnesota. During the past year he was speaker of the house. His term ends in 1938. . . . Thomas J. FARLEY is a steamship broker at 90 Broad street, New York. . . . Roman A. BRODESER is executive vice-president of Southern

Dairies, Inc., 60 M street N. E., Washington, D. C. . . . Dr. GLADYS BRANEGAN, chairman of the department of home economics, Montana State college, is on leave of absence, and her place is being taken by Bertha CLOW '24. . . . Thomas Regan, son of Dr. and Mrs. T. P. REGAN (Agnes DICKERSON) entered University of Montana last fall. Thomas is the eldest of five Regan children. . . . Eugene A. BARTH, formerly of Chicago, has been assistant to the president of the Wisconsin Power and Light company, Madison, the past year. . . . Mr. and Mrs. Norman WINESTINE (Belle FLIGELMAN) and their three children spent the summer circling Europe, visiting England, France, the Mediterranean region, Palestine, Russia, Finland, and Sweden. The Winestines make their home in Helena, Montana. Their two daughters attend Mills college, California, and their son is a sophomore in high school. . . . J. K. LIVINGSTON is vice-president and secretary of the American Express company. . . . Albert W. DRAVES is one of the best known Milwaukee stamp

George Hambrecht, '95
Direct state's vocational education

collectors and a nationally known authority on philately. He is at present honorary vice-president of the Milwaukee Stamp club, having in the past served as publicity manager, secretary, treasurer, librarian, president, and vice-president. . . . Dr. Edyth C. SWARTHOUT, child specialist of La Crosse, Wis., finds her favorite recreation in "bidding in at cattle sales and following the stock shows." She has stocked a 1,000-acre farm near West Salem with one of the finest Holstein herds in America, and completely manages the farm. She likes farm work and is anxious to try innovations. . . . H. A. LANGENHAN of the faculty of the University of Washington, Seattle, has joined the ranks of enthusiastic fishermen since catching a 20-pound salmon on a week-end fishing trip in September. . . . Harold WILKIE, president of the University of Wisconsin board of regents, and Oscar TOEBAAS '12, Madison attorney, are listed in the biographical volume, "Who's Who in Law," published recently. . . . Formerly supervisor of food in Baron's department store tea room, Madison, Mrs. M. Draper (Helen FARGO) now lives in Chicago at 8219 Maryland avenue. She and her husband, a physician, have two sons. . . . Don't forget that the class celebrates its twenty-fifth anniversary this June. You'll get letters with more information in a week or two, watch for them.

nineteen fourteen

Albert T. SANDS of 215 Graham avenue, Eau Claire, Wis., has opened up the Social Security district office for northwestern Wisconsin. . . . Dr. Harnell HART, M. A. '14, professor of sociology of Hartford seminary, gave the first of a series of lectures and discussions sponsored by the Council of Churches, Ridgewood, N. J., in October of last year. He went to Ridgewood after having completed a group of seminars in several Western colleges. Dr. Hart has lectured in leading cities in the United States on family problems, peace, and other social and religious subjects. . . . Mr. and Mrs. Walter Emil SCHMIDT (Edna FRAUTSCHI) write, "We are enjoying a closer contact with our alma mater through our daughter, Betty, who is a junior." They are living in Lewisburg, Tenn. . . . James L. DOHR was appointed co-receiver of the New York, Westchester, and Boston Railway in July of last year by Federal Judge John C. Knox. Mr. and Mrs. Dohr vacationed in Norway and Sweden. . . . Clarence E. CARY is living at 2726 N. Newhall street, Milwaukee. . . . As vice-president of the Buffalo Niagara and Eastern Power corporation, Merrill E. SKINNER is an important figure in public utilities circles today. In 1935 he was honored by the award to him of the James H. McGraw Medal and Award. He is chairman of the National Better Light-Better Sight bureau. With his wife, the former Viola DILLMAN '16, he lives at 69 Nottingham terrace, Buffalo. . . . Sherburne HENNING is living at 912 Judson street, Evanston, Ill. . . . Mr. and Mrs. George Heise (Margaret ARMSTRONG) of Rocky River, Ohio, with their children, Bud and Margie, spent their summer vacation at North Lake, Wis., in August. Their other daughter, Alice, was in attendance at the International Girl Scout conference at Camp Andree, N. Y., as a delegate from Arizona, where she attended the University of Arizona for the past two years.

nineteen fifteen

Dr. Victor C. JACOBSEN, Troy, N. Y., has been appointed associate professor of medicine in Albany Medical college, Union university, Albany, N. Y., and attending physician to Albany hospital. Dr. Jacobsen, who is also attending physician and pathologist to Samaritan hospital, Troy, was formerly professor of pathology in Albany Medical college, and taught previously at Harvard and University of Wis-

consin. . . . R. F. LEWIS, Marshfield, Wis., was chosen one of the 1937 Alumni association directors. . . . Genevieve HENDRICKS, interior designer of Washington, D. C., recently gave a series of lectures for the home economics and fine arts departments of the University of Iowa. Miss Hendricks has just completed the decorating and furnishing of the remodeled Pi Beta Phi house in Madison. . . . After having been reported lost, Nick GLENDE recently returned from China and is in Hollywood directing for one of the major studios. Carl H. SCHROEDER writes, "All credit is due to the committee responsible for showing the returning members of the championship '1912' football team a very excellent homecoming. I personally feel that I was well rewarded coming the long distance for this event."

. . . Charles H. KLOTZ is a mechanical engineer with the Milwaukee Sewerage commission, and has held the position of assistant plant superintendent for the past eight years. . . . H. Bunsen HEYN is district manager for Johns-Manville company, Los Angeles. . . . Seth H. SEELYE, who lives in Summit, N. J., is investment analyst for the City Bank Farmers Trust company of New York. . . . Mrs. Max Otto (Rhoda OWEN) was bereaved by the death of her father, George H. Owen, in November. . . . Karl E. WHINNERY, M. A. '15, tells us he is "still principal of high school, Sandusky, Ohio." . . . Bertha M. WEEKS, Director of Chicago Bureau of Filing and Indexing, and filing consultant to many large companies, is the author of a new book, "How to File and Index." . . . Dr. Carl F. EYRING, M. A. '15, newly appointed director of Mormon missionary activity in the New England states, spoke at several Mormon conferences held in Maine and Connecticut in the early fall. Dr. Eyring has spent most of his professional career as dean of the College of Arts and Sciences at Brigham Young university, Provo, Utah. He is known in eastern educational circles as some of his books have been adopted as texts by the department of physics in many of the institutions of higher learning.

nineteen sixteen

Stephen C. GRIBBLE is a professor in the department of education at Washington university, St. Louis. . . . Grant Illion BUTTERBAUGH is associate professor of business statistics at the University of Washington, Seattle. . . . Also a resident of Seattle is Alfred J. SCHWEPPE, a member of the law firm,

McMicken, Rupp, and Schweppe. He is executive secretary of the judicial council of the State of Washington, and was formerly executive secretary of the Washington State Bar association and of the Seattle Bar association. By appointment of the governor, he was a member of the 1933 Advisory Liquor Control commission which drafted the present Washington state liquor act. . . . Mrs. Arthur R. Oates (Katherine JONES) lives in Marshfield, Wis., where her husband is the Presbyterian minister. She is active in the Woman's club of Marshfield and in O. E. O. and church organizations. . . . Fremont A. CHANDLER, M. D., 2630 Lake View avenue, Chicago, is chairman of the Section on Orthopaedic Surgery of the American Medical association for 1937; secretary of the American Board of Orthopaedic Surgery from 1934 to date; and was elected to the International Society of Orthopaedic Surgery in 1936. . . . Harry W. RAWSON is vice-president of the Farmers State bank of Waupaca, Wis. He has been connected with the bank as cashier since August, 1919, shortly after his discharge from the army. . . . Evans-ton, Ill., is the home of Mrs. Verne King Tremblett (Irene ESCH). Her husband is in the publishing and advertising business with the Chicago Roto-Print company. They have two daughters. . . . George HAVERSTICK has an insurance business in Waukesha. . . . Dr. Ludvig HEKTOEN, head of the department of pathology at the University of Chicago, was one of the six leading scientists appointed in September by Dr. Thomas Parran, surgeon general of the United States, to the National Advisory Cancer council. This group will direct the national cancer institute, established by Congress at its recent session, to investigate the cause and cure of cancer. . . . Walter B. KRUECK, formerly on the faculty of Purdue university, is now in the service department of Allied Mills, Inc., and carries on educational extension work in agricultural subjects. . . . Solomon C. HOL-LISTER has been appointed dean of the College of Engineering, of Cornell university. He was formerly associate dean of the college and director of the school of civil engineering, and earlier had been professor of structural engineering at Purdue university. He served as consultant on penstocks, Boulder dam. . . . Wallace MEYER, chairman of the Alumni association's magazine committee and vice-president of Reincke, Ellis, Younggreen, and Finn Adver-

fatigue of metals*

tising agency, Chicago, recently turned "gentleman farmer" when he purchased a large tract of land near Baraboo, Wis., adjoining the property owned by Alumni Association President Howard I. POTTER. . . . On a six-weeks holiday trip in the Orient, Major and Mrs. G. T. Mackenzie (Nellie M. LARSEN) were members of the American colony in Peiping, China, when hostilities broke out there in late July. They had shortly before lost their eldest daughter, Marilyn, 13, who was stricken with encephalitis and died within three days. To add to their burden of tragedy, their next eldest daughter, Beverly, came down with scarlet fever, and her quarantine caused them to miss the July 15 transport for the United States. A radiogram in late August assured anxious relatives that the Mackenzies were out of the war zone and planning to sail for the United States. Major Mackenzie has been transferred to duty in Salt Lake City after two and one-half years in the Philippine Islands. . . . E. P. ARPIN, Jr., New York, N. Y., was with his father at Wattertown, N. Y., when the 73-year-old man died after taking ill while traveling in Canada. The senior Arpin, a pioneer resident of Wisconsin Rapids, Wis., attended the University of Wisconsin a short time in 1881.

nineteen seventeen

Firman E. BEAR, Ph. D. '17, well known to many farmers throughout Wisconsin, has been named associate editor of the Country Home, a magazine which circulates widely among the farmers of this country. . . . Maxwell SMITH is dean at the University of Chattanooga, Tenn. . . . Arthur F. TREBILCOCK, president of Kennedy-Mansfield Dairy company, Madison, has been elected president of the Madison and Wisconsin Foundation. . . . Harold LANGER has succeeded Mrs. C. F. STEKL (Marjorie Fisher '20) as president of the Baraboo, Wis., Alumni club. . . . Harold F. MIELENZ is an engineer with the Koehring company at Milwaukee. . . . James H. MARCH, formerly of John Carroll college and Western Reserve university, has joined the faculty of the business department of the University of Wisconsin Extension division, and will teach accounting courses at the Madison and Milwaukee centers. . . . Paul SPEICHER, M. A. '17, president and managing editor of the Insurance Research and Review Service, Indianapo-

lis, spoke at the September meeting of the Indianapolis Association of Life Underwriters on "How Life Insurance Stabilizes Economic Ups and Downs." Speicher was formerly an instructor in the Arsenal Technical high school. . . . Prof. Julius C. MARQUARDT was the first to receive a Travel Grant for foreign study, extended by Cornell university to members of the faculty. Professor Marquardt, who is engaged in research work at the N. Y. Agricultural Experiment station at Geneva (connected with Cornell) devoted most of his time while on the grant in 1936 to work at the Prussian Research institute at Kiel, Germany. . . . As County Agricultural agent of Dunn county (Wis) and, for the past twenty years, principal and superintendent of the Dunn county School of Agriculture and Domestic Economy, Daniel P. HUGHES spends all his time working with farm men and women and their children. . . . Edgar G. DOUDNA, secretary of the state board of normal school regents, Madison, and Prof. Philip G. FOX '21, of the University of Wisconsin business school, have been appointed members of the advisory code board of the new Wisconsin fair trades code practices act.

nineteen eighteen

Mary KOBETISCH has served the legislature of Washington as legislative reference librarian during each of the last three regular sessions. Between sessions she has charge of the school libraries of Tacoma and teaches in the Library school of the University of Washington. . . . Carl HAYDEN, Chicago, was in Madison for Homecoming last fall. . . . Charles WARNER, who has his own chemical laboratories in Cresson, Pa., writes: "Attended the Wisconsin-Pittsburgh football game. Very disappointing. The alumni there did want to see a touchdown against the ferocious "Panther." Harold B. ROHM has an office at 3-140 General Motors building, Detroit. . . . Marshall F. BROWNE, publisher of the East Side News, weekly newspaper in Madison, for the past 13 years, is the editor and publisher of Wisconsin's newest farm paper, the Capital Area Ruralist. . . . At Tiffin, Ohio, on October 23, Dr. Clarence E. JOSEPHSON was inaugurated as the seventh president of the 87-year-old Heidelberg college. He left the pastorate of the First Congregational church at Passaic, N. J., to accept the new position. . . . On November 4, Gov. Henry Horner of Illinois announced the appointment of Guy E. McGAUGHEY, former state's attorney of Lawrence county (Ill.) to be a member of the state Board of Pardons and Paroles. . . . Mrs. Alfred L. Davis (Helen D. CRAIG) represented the University of Wisconsin

at the service held October 31 to dedicate Ann Rutledge hall, new dormitory at MacMurray college for women, Jacksonville, Ill. She writes that she was thrilled and impressed by the beauty of the college campus and buildings, but that her heart is still with the University of Wisconsin, "since I have two sons, aged 11 and 13, who could never attend MacMurray anyway." . . . Harlow D. BURNSIDE is general superintendent of plant No. 1 of the Fisher Body corporation, Flint, Mich. Fairfax G. SAUNDERS is branch manager for the Pillsbury Flour Mills company, San Francisco. . . . Arthur C. SPRINKMANN is vice-president of Sprinkmann Sons corporation, Milwaukee. Advertising manager for the Goodrich Tire division of the B. F. Goodrich Rubber company in Akron, Ohio, is Frank T. TUCKER. He and his wife, the former Dorothy GOULD '17, and their children, Jean, born in 1925, and Robert, 1928, reside at 1031 Emma avenue, Akron. . . . In Washington, D. C., live Mr. and Mrs. Paul FARRELL (Agnes KELLEY). Mr. Farrell is Washington manager of stock sales for the Art Metal Construction company. They have two children. . . . Also living in Washington is Mrs. William E. Brice (Mary LERCH). Her husband is a former navy man, a graduate of the U. S. Naval academy. He is now an engineer with the Travelers Insurance and Indemnity company. They have one child, born in 1935. . . . Elmer KRAEMER, who did research work in Norway and Sweden following his graduation, has for several years been on the experimental staff of the DuPont company, Wilmington, Del. He also does much lecturing. . . . H. Robert WOODWARD is in the general insurance business with Roswell Bills & company, Peoria, Ill.

nineteen nineteen

Glenn WARREN recently obtained a patent from the U. S. government on a locomotive turbine drive. The patent was assigned to the General Electric company, Schenectady, by whom Warren is employed. . . . Gov. Philip F. LA FOLLETTE is listed in the biographical volume, "Who's Who in Law" published recently. After the legislature adjourned October 16, the Governor and Mrs. La Follette took an ocean cruise, which was interrupted when the Governor was stricken with influenza and had to be removed to the government hospital at Colon, Panama. On his return to the United States, Governor La Follette visited his brother, Sen. Robert M. LA FOLLETTE, Jr., in Washington, D. C. He has recently named 17 prominent educators, regents, and officials from the University of Wisconsin and the state normal schools to study the problems of higher education in the state, with a view to eliminating many overlapping functions of state-controlled

educational institutions. . . Lois V. BLACKBURN has been librarian of Covina Union high school in California since 1925. . . Berta OCHSNER, successful concert dancer, in private life is the wife of a psychiatrist at the University of Chicago, Dr. Douglas G. Campbell. . . Quite engrossed in writing stories for children has been Mrs. Harold H. SCHAPER (Berta CLARK) in recent years. She enjoys working up the historical background for these stories and for chalk talks. She has three children of her own—Patricia, born in 1925; Dorothy Jean, 1928; and James, 1930. Her husband, who was graduated in 1921, is a sales engineer with the Smith Engineering company of Milwaukee. . . William BALDERSTON is vice-president in charge of the Manufacturers Division of the Philco Radio company. With his wife, the former Susan B. RAMSAY, and their four children, he lives at 1006 Berkshire road, Grosse Pointe, Mich. . . James C. DAVIS is living at 102 Pleasant et., Framingham Center, Mass.

Arch W. Nance, '10

Vreeland of the sociology department of DePauw university, who is on a leave of absence to study social welfare in England and Germany. . . . Abandoning his job as announcer with the National Broadcasting company in New York, Frank KLODE, Jr., president of the 1935 class, became advertising manager of the Klode Furniture company, Milwaukee, of which his father is president. . . . Charles LeCLAIR, who was on the art faculty of the University of Alabama during 1935-36, has been named head of the department of art at that university. During the past year, LeClair studied six months in Europe and worked one semester on his doctor of philosophy degree at the University of Wisconsin. . . . Phyllis BARTLETT, Ph. D. '35, has accepted a position on the Rockford college faculty. . . . Walter BENEDITZ is teaching vocational agriculture in Hinckley, Minn. . . . Hugh GUNDERSON has been appointed band assistant at Iowa State university, and conducts the varsity band at that school. Previously, he supervised music in the public schools of Mowequa, Ill., and was director of the high school marching band of that city which won first place in the Illinois state contest last year. . . . Lloyd C. ELLINGSON has opened a law office in Menomine, Wis., and is keeping up his favorite sport—skiing. . . . Elizabeth LAMOREAUX, who has been merchandise manager for a Madison dress shop since her graduation, has accepted a graduate assistantship in the home economics school of the University of Wisconsin, and is working for her master's degree. She is continuing her association with the store. . . . William M. TRINKE has purchased a bank building in Lake Geneva and is remodeling it to use the banking room of the bank as his law office. . . . John K. RAUP is his law partner. . . . Walter G. RAPRAEGER is still working for the Sperry Flour company at Portland, Ore. . . . Leon FEINGOLD has opened a Janesville (Wis.) office for the general practice of law, and is associated with S. G. Dunning. . . . Ruth MILLER, head of the dramatics department of the Morningside college, Sioux City, Iowa, attended the University of Wisconsin summer session, and played the lead in the final play of the summer season. . . . El-

bert SMITH, professor of Spanish and French at Grinnell college, Grinnell, Iowa, is an organist of considerable talent and repute. He is organist at the Congregational church at Grinnell and also plays the organ in the college chapel. In Paris he studied under the famous French organist, Marcel Dupre, and while in England, had the privilege of playing on the organ in Westminster Abbey. . . . On the bridge of an American vessel, stuck in the mud of the Whangpoo river 500 feet from shore, George H. KEMMER on August 4 viewed at first hand a smashing engagement between Japanese and Chinese in their battle for the control of Shanghai. Enroute to the Philippines, where he is a research engineer, Kemmer was aboard the President McKinley, which was ordered to proceed to Shanghai to pick up American refugees. . . . Vardie LAWRENCE has joined the staff of the Madison Neighborhood house as boys' club worker. . . . Horace W. NORTON has accepted a position as assistant lecturer in eugenics at the University of London, England. . . . Gail MASTERS, instructor in dramatics at the A. D. Johnston high school and at the Washington school, Ironwood, Mich., spoke to the dramatic section of the speech department meeting of the Wisconsin State Teachers association at Milwaukee in November. . . . Gabriel A. MOULTON is in Guatemala City, Guatemala, Central America. . . . J. H. DEDRICK spent a year in the rubber industry, then went to Penn State college for graduate work. Last June he accepted a position with the Aluminum Company of America, and is now located at Edgewater, N. J., in a fabricating plant for aluminum alloy structural shapes. . . . Harry McCauley spent one year with the Kimberly Clark company, and then transferred to the Chemical Warfare service, with headquarters at Edgewood arsenal, where his work dealt with the manufacture of war gases and with problems involved in filling shells with explosives. Last fall, he returned to the University as Research Assistant to Professor Hougen. . . . H. W. SEITZ has the position of boiler setting foreman with the Plibrico Jointless Firebrick company, Chicago. . . . William S. AHRBECK is field man for the A. C. Nielsen company of Chicago, making market analyses. . . . Violet PFLUEGER, formerly with a Wisconsin Rapids newspaper, is now a member of the editorial staff of the Milwaukee Journal. . . . Rex GRIEP has been appointed to a physical education teaching position in Quincy, Ill. . . . Herbert MUELLER, who formerly taught physical education at Oxford, Ohio, has been transferred to Madison East high school.

nineteen thirty-six

Ray H. HANSEN is chemist for Kennedy-Mansfield Dairy company, Madison. . . . Evelyn

HECKENDORF is a new instructor in the business department of the University of Wisconsin Extension division. . . . Now a teaching assistant in the department of geography at the University of California, Berkeley, John C. WEAVER, M. A. '37, is working toward his Ph. D. degree. . . . Clarice ROWLANDS is assistant society editor of the Green Bay (Wis.) Press-Gazette. . . . Dr. Richard O. SUTHERLAND, Ph. D. '36, has resigned from the faculty of Northland college, Ashland, to join that of Carleton college, Northfield, Minn. Gerard A. ROHLICH, who was a research fellow in the department of hydraulic and sanitary engineering at Wisconsin last year, has received an instructorship in civil engineering at Carnegie Institute of Technology. . . . Keith H. BENNETT began work July 1 as surveyman with the Wisconsin Conservation commission. . . . Graydon R. BEECHAL is a mining engineer for the Mountain City Copper company, Rio Tinto, Nevada. . . . Howard HOLM, M. S. '37, works as a metallurgist for the American Rolling Mills company, Middletown, Ohio. . . . T. E. KERHAUSER is assistant to the production engineer, Shell Petroleum corporation, McPherson, Kansas. . . . Eli MULLIN is working as a metallurgist with U. S. Steel corporation, South Chicago, Ill. . . . Floyd NELSON is a geologist for the Shell Petroleum corporation, St. Louis, Mo. . . . Robert J. CADWELL, recently employed by the Winter-Front company of Chicago, is now taking graduate work in the mechanical engineering department of the University of Wisconsin. . . . James J. CADWELL has left the Bailey Blower company of Milwaukee for a position as design engineer with the Pines Winterfront company of Chicago. . . . John P. THOMAS, recently connected with the Elmendorf corporation of Chicago, is in St. Louis with the Shell Petroleum corporation as a lubricating engineer. . . . After a year in the heat-treating department of Gisholt Machine company, Madison, John CROSSETT has accepted a position as assistant metallurgist for the Chicago, Milwaukee, St. Paul & Pacific railroad, Milwaukee, analyzing failures in machine parts. . . . Alexander ROBERTSON has returned to the University from the Fairbanks-Morse company to continued graduate research in Diesel engineering. . . .

Eddie Jankowski, '37
His injury brought a senator and vice-president to his bedside

Last May, Arnold M. EL-SINGER began a training course with the Vilter Manufacturing company of Milwaukee. . . . Joachim E. LIEBMANN, M. S. '37, is with the Chicago Bridge and Iron company at Chicago. . . . Lee W. CRANDALL is instructor at the University of Colorado at Boulder. . . . Robert E. HAWLEY is an engineer with the Youngstown Sheet and Tube company of Youngstown, Ohio. . . . Curt. E. HOERIG is at Massachusetts Institute of Technology doing graduate work in refrigeration and air-conditioning. . . . Fred W. LINCOLN is with Allis-Chalmers company of Milwaukee, where he has completed one year of the student training course.

. . . Henry J. EVERETT is an engineer with Engstrom & Wynn at Wheeling, W. Va. . . . Harold BATZIE was seriously injured in an automobile accident in August. . . . William STAEBLING is assistant cashier of the National Bank of Waupun, Wis. . . . Dorothy WILSON is studying and teaching in the experimental school under a fellowship at the University of Iowa. . . . "The Broadway Beat" is the name of a gossip column written for a recent issue of the Magazine Billboard by Maurice ZOLOTOW. . . . Caryl MORSE this year is again filling the position of assistant hostess at Langdon hall, women's dormitory in Madison. . . . William RABINOVITZ, Sheboygan (Wis.) attorney, is instructing classes in parliamentary law opened in Two Rivers and Manitowoc under the newly-inaugurated program of the University of Wisconsin School for Workers in Industry. . . . College at Ames, Iowa

junior analytical chemist, and Leroy W. GRIFFITH, who was formerly with the Ex-Cell-O corporation at Detroit. . . . Joseph F. KERSCHER is with the flying squad of the Goodyear Tire and Rubber company, Akron, Ohio. . . . Chester D. RUDOLF is with the New Jersey Zinc company, Palmerton, Pa. . . . Norman G. SCHOBER is treasurer and assistant general manager of the Western Novelty company, Milwaukee. . . . Malcom T. VINGER is with the paper makers division of the Hercules Powder company, Kalamazoo, Mich. . . . John James WORNER is an aviation cadet with the U. S. Naval Reserve Aviation corps, Pensacola, Florida. . . . Several of the

civil engineers are now with the United States Engineers. Carl J. BACHMAN is in the Rock Island district, in the Lands Section. Howard R. JENSEN is also in the Rock Island district. John C. KUHTA is in the Milwaukee district as dredging inspector. . . . John E. BESSERT is assistant sanitary engineer with the Chicago Pump company. . . . Edwin J. DUSZYNSKI is a designer with the Hausman Steel company of Toledo. . . . John F. EPPLIER is in training with the Crane company of Chicago. . . . Karl W. FUGE is with the Ellsworth Pipe and Supply company, Milwaukee. . . . Robert P. GROSS is an engineer with a steel gang on the Rock Island railroad, working in Iowa and Missouri. Paul J. HUNT is with the Milwaukee Road at Milwaukee. . . . Theodore F. HOFFMAN is engineer for a contractor working near Milwaukee. . . . Lynn H. GUNDERSON is in training with the Portland Cement association at Chicago, and expects to be transferred to Milwaukee soon. . . . In the employ of the Wisconsin Highway commission are Ralph D. CULBERTSON and Leslie J. DENO, at Green Bay; John W. BAUM and Wayne W. JOHNSON, at Madison; Roland N. HIPPERT, at La Crosse; and Paul F. McKINNON, at Eau Claire. Arthur R. LUECKER spent the summer with the Wisconsin Highway commission at the Rhinelander office, working on Highway 77. At present he is research assistant and graduate student at the University of Iowa. . . . Many others of the engineering graduates are doing advanced work or holding instructorships. Harrison C. MAYLAND is a graduate student in the chemistry department, working under Prof. J. W. Williams. Eldon C. WAGNER is instructing in topographic engineering. Philip S. DAVY is doing graduate work in the hydraulic depart-

ment. Russell R. POYNOY is an instructor in agricultural engineering at Utah State Agricultural college, Logan, Utah. Martin B. WENDT is back at Wisconsin, while Francis C. WILSON has entered the two-year course in the Harvard Graduate School of Business Administration. James W. LAWRIE, Jr., has been awarded a scholarship at Yale university. Walter John FELBER and Thomas J. SANDERSON have enrolled in the six year engineering-law course at the University of Wisconsin. . . . Lawrence W. CARLSON is with the Layne-Bowler Well company on the construction of a well at Rhinelander, Wis. . . . The U. S. Gypsum company has employed Earl E. SARGENT in their Jersey City plant, and Edward G. CHRISTIANSON as assistant superintendent of their mines at Alabaster, Mich. . . . Donald P. PFEFFER is with the Norberg Manufacturing company, Milwaukee. . . . Also in Milwaukee, William S. RICHARDSON is with the Falk corporation, and Ellison L. WEFEL, with the Oil Gear company. . . . In Racine, Harold W. RIESCHL is working for the Massey Harris company, and Paul W. WAHLER, for the Twin Disc Clutch company. . . . Herbert W. WILSON is with the Ideal Commutator Dresser company, Sycamore, Ill. . . . Don H. KUTCHERA is an inspector on the Middle Loup Public Power and Irrigation district, Nebraska. . . . Richard R. LANGTEAU, an engineer with the Burch Construction company of Madison, is on a grading job at Clear Lake, Iowa. . . . Charles L. MILLER is with Cities Service Oil company at Denver. . . . Russell H. NEWBURY is sales engineer with the American Creosoting company, Chicago. . . . At Allis Chalmers, Milwaukee, are William E. LITTLETON, Edward J. ROSECKY, and Stanley M. AUSTIN. . . . Chester W. ADAMS is with the Joa company, Sheboygan, Wis. . . . Paul F. ANDREE, Jr., is with the Paper Institute, Appleton, Wis. . . . E. BOENING is at the Oshkosh (Wis.) Steam Plant of the Wisconsin Public Service corporation. . . . Out in Camden, New Jersey, John A. BIGGS is with the R. C. A. Manufacturing company, and lives at 546 Haddon avenue, Collingswood, N. J. . . . C. E. CLAUSEN is with the Snapp Electric company, Wausau, Wis. . . . Rex C. DIETERLE is with the Wisconsin Public Service corporation at Green Bay, Wis., doing meter testing and repairing and appliance installation. . . . With Fairbanks-Morse at Beloit are William A. WENMAN and Spaulding A. NORRIS, who is in the hydraulic engineering department. . . . Cornelius C. SIETTMANN is an assistant in the Milwaukee Public library. . . . General Electric company has employed the following men: Louis D. BERG, J. R. HAFSTROM, M. C. RIGGERT, Herbert L. BENNETT, William F. GOTHER, all at Schenectady, N. Y.; and L. L. BAIRD, at Bridgeport, Conn., Faustin PRINZ, at Erie, Pa., and Carl

B. SOHNS, at Bloomfield, N. J. . . . Harry GAFKE is a metallurgist with the Carnegie-Illinois Steel company, South Chicago, Ind.; Edwin J. VOSS is working for the same company at Chicago. . . . Wayne T. HUNZICKER and Clifford A. BROOKS are mining engineers with the Miami Copper company, Miami, Arizona. . . . Llewellyn A. RYDEN is with the Goodman Manufacturing company, Chicago. . . . Working for Cutler-Hammer company, Milwaukee, are Palmer T. SEVERSON and E. F. HEINRICHSMEYER. . . . S. TJEPKEMA is with the Beloit Iron works, Beloit, Wis. . . . The Rierson Steel company has employed William H. POLK at Chicago, and Kenneth J. QUALMAN at Milwaukee. . . . At the Harnischfeger corporation in Milwaukee, W. E. MURTO and A. SCHAEFER are doing sales work. Robert O. LOSSE and Ray F. VOELKER are employed by the same company. . . . Norwood B. MELCHER is a metallurgist in the blast furnace department of the Columbia Steel company, Provo, Utah. . . . Walter G. WEFEL is with the Automatic Electric company, Chicago. . . . Eugene MULLIN is a plant metallurgist with the American Smelting and Refining company, Perth Amboy, N. J. . . . Working for the Milwaukee Electric Railway and Light company are N. C. STORCK, and E. H. HARDAKER. . . . P. H. KERN is with the Western Electric company, Chicago. . . . In East Chicago, Ind., Anthony J. BURGERT is working for the Sinclair Refining company. . . . Edward J. BERRY is with the Yates American company, Beloit, Wis. . . . Gerald A. VATER is with the Westinghouse Electric and Manufacturing company, East Pittsburgh, Pa. . . . In Milwaukee, B. E. WRENSCH is working for the Sterns Magnetic Clutch company; W. G. SPLEES is with the Wisconsin Telephone company; George F. LANGLEY is with the Chain Belt company; Ralph J. LIPPERT, with the Nash company; Glen K. LOFGREN, with the Milwaukee Gas Specialty company; Harold L. MUNRO, with the Arewelded Steel Products company; and Dan MILUNOVICH and Eugene M. KIRTLAND, with the Perfex Radiator company. . . . John R. MEYERS is in Philadelphia, working for the United Construction company. . . . Frank J. BARLOW is employed by the Buffalo (N. Y.) Forge company. . . . In Boston, Russell H. BAUM works for the Linde Air Products company. . . . Charles A. BEHRENS is with the National Hardware company at Sterling, Ill. . . . Walter W. EDENS, M. S. 37, is a metallurgist for Ampco Metal, Inc., Milwaukee. . . . Thomas E. S. SPENCE is with the United Engineering Construction company, Philadelphia. . . . The Young Radiator company of Racine, Wis., has employed Edwin J. SWIFKA and Cedric C. MALTPRESS. . . . Lawrence E. SIMON is a metallurgist in the research department of General Motors Corp.

25 Years of Round=Robin

FIFTEEN University of Wisconsin graduates who, in 1902, scattered to various parts of the world have maintained frequent communication for thirty-five years. When eleven of the fifteen got together at Commencement there was none of the strangeness that so often chills class reunions. The friendships begun when the group lived in the old Y. M. C. A. House at 708 Langdon had ripened with the maturity of the men themselves. Even the presence of wives, children, and grandchildren at the breakfast on the lake porch of the new Y. M. C. A. building which has grown old in the meantime did not dilute the fellowship for year by year these accessions have been assimilated by the group. Fourteen of the fifteen men are all alive though distance kept three away and illness detained one.

In 1899, a General Secretary of the Young Men's Christian Association was employed in the person of G. Sidney Phelps, a Minnesota graduate. Mr. Phelps gathered around him a group of young men in the University. Among these the men in the picture lived together in a rented house. In the parlors the members and friends of the "Y" met and organized plans for an active campaign among the students of the University.

Almost immediately the "Y" launched into a campaign for a Y. M. C. A. Building. This was finished in 1905 and opened for a center for student activities and meetings, not only for those connected with the Y. M. C. A. and Y. W. C. A., but for many other groups of University student life.

This success drew the attention of the National and International Y. M. C. A. leaders and first Phelps, then C. V. Hibbard, F. O. Leiser, and C. H. Gaffin were invited to carry the Association ideals and methods to foreign lands. With the departure of Phelps and Hibbard for Japan in 1902, a new General Secretary for the "Y" was secured. Also, at this time a larger house was necessary and 514 N. Lake St. became "Association"

headquarters, and Mr. Leiser, upon graduation in 1902, continued the building campaign, a position left vacant by Mr. Phelps' departure for Japan.

Frequent letters had been coming from the men in Japan and with the graduation of the students in 1902, the idea was conceived that the men who had been working and living together must continue to keep in touch with each other. So the "Round Robin" was started. Phelps' and Hibbard's letters from Japan were received at the Y. M. C. A. and then folded in with a letter from General Secretary Smith and sent on to one of the group, who in turn added his letter and sent on to the next nearest member. In 1903, Mr. L. B. Smith resigned as General Secretary and C. H. Gaffin, '03, succeeded him and was asked to join the "Round Robin" group so men could have first hand news of the University Y. M. C. A.

Thus was added the 15th member of the "Round Robin." Sometimes the letter's round was completed in a few months, sometimes it was pigeon-holed in a member's desk and delayed for weeks at a time. Occasionally the letters were lost and no trace of them could be found. Gradually, with the return of Mr. Leiser to America and his location at the Madison City Y. M. C. A., he has taken on most of the responsibility for the continuance of the circle. Later when Mr. Hibbard became secretary of the University Y. M. C. A. and Swoboda returned to Madison a nucleus established there co-operated with Mr. Leiser and has become the "Round Robin Triumverate".

AT THE 1937 ROUND ROBIN REUNION
Years have not dimmed their close friendship

Have You Heard?

- 1907 Addah J. Leland, Detroit, to Alexander W. SEILER, Milwaukee, on November 26, at Chicago. At home in Milwaukee, where Mr. Seiler is president of the Cramer-Krasselt advertising firm.
- Faculty 1910 Helen I. DENNE, Madison, to Walter B. SCHULTE, Freeport, on November 10, at Chicago. At home at 1551 W. Logan St., Freeport, where Mr. Schulte is president of the Micro Switch Corporation. Mrs. Schulte was director of the University School of Nursing for many years.
- 1910 Grace BLANCHE, Fennimore, to Calvin A. Buehler, Knoxville, Tenn., on October 27, at Berea, Ky. At home at the Terry Apartments, Maplehurst Park, Knoxville, Tenn. Mr. Buehler is an instructor in the University of Tennessee.
- 1914 Mrs. Kate Crocker, to Dr. Albert BRANN, East Orange, N. J., on October 7, at East Orange. Dr. Brann has been associated with the engineering department of the Westinghouse Electric and Manufacturing Company at Bloomfield, N. J. At home at 39 Monroe Ave., East Orange.
- 1918 Nora HOVRUD, Omaha, Nebr., to Dr. Walter B. Noe, Madison, on September 5, at Gary, Ind. Dr. Noe is a dentist practicing in Madison. At home at 1112 Grant Street.
- 1922 Christie I. MacDonald, Edmore, N. D., to George N. SAMPSON, Superior, on September 11, at Superior.
- ex '22 Margaret McHUGH, Baraboo, to Thomas R. Radcliffe, San Francisco, on September 3, at Milwaukee. Mr. Radcliffe is affiliated with the Standard Oil Co. of San Francisco as chemist and is at present employed by that company in the East and Middle West states.
- ex '22 Hazel Inman, Albany, Ga., to Robert I. TOLERTON, Alliance, Ohio, on November 7, at Louisville, Ky. Mr. Tolerton is vice-president of the Tolerton Manufacturing and Lumber Co. in Alliance.
- ex '22 Ethel M. Melendy, Shawano, to Roy H. REZEK, Antigo, on October 11, at Oconto. Mr. Rezek is associated with the Shawano County Journal.
- 1922 Katharine S. Burr, Bozeman, Mont., to Wilson D. TRUEBLOOD, Chicago, on June 22. Mr. Trueblood is connected with Leeds & Northrup Co. of Chicago.
- 1924 Gertrule JOHNSON, Rockdale, to Martin Venaas, Cambridge, on September 4, at Cambridge. At home in that city.
- AS '24 Barbara Ann Olson, South Milwaukee, to David J. DANIEL, Cambria, on September 4, at South Milwaukee. Mr. Daniel is engaged in farming in Cambria.
- 1924 Ione Soutter, Washington, D. C., to Delbert J. QUAMMEN, Philadelphia, Pa., on September 17, at Elkton, Md. Mr. Quammen is manager of the Philadelphia branch of the Cutler-Hammer Co. of Milwaukee.
- 1924 Lenore Swanson, Madison, to Dr. Hugo G. SMITH, on September 21, in Maywood, Ill. At home at 1621 Monroe St., Madison. Dr. Smith is practicing dentistry in this city.
- ex '25 Martha Hood, Oconto, to Milton SCHMELLING, Suring, on October 30, at Oconto. Mr. Schmelling is district manager for the Fuller Brush Company. At home on South Shore Drive, Madison.
- 1925 Eleanor Goltz, Winona, Minn., to Harold CRANEFIELD, Madison, on August 30, at Chicago. Mr. Cranefield is an attorney for the National Labor Relations Board at Detroit.
- ex '25 Catharine M. FEENEY, Madison, to Dr. Lewis G. Jacobs, San Francisco, Calif., on October 30, at Madison. At home at 1530 University Avenue, Madison. Dr. Jacobs is a graduate of Leland Stanford University and is now associated with the Wisconsin State General Hospital in the radiology department.
- 1925 Sarah W. EYRE, Madison, to William S. Ph.D. PRESTON, Woonsocket, R. I., on September 25, at Cooperstown, N. Y. At home in Albany, N. Y., where Mr. Preston is on the staff of the New York State Board of Health.
- 1925 Mary O'MALLEY, to Gerard M. Jordan, both of Elkhart, Ind., on October 2, in Los Angeles. Mr. Jordan is the Western representative of the Grace A. Rush Corporation.
- 1926 Sylvia M. Brickson, to Ross G. KITCHEN, both of Stevens Point, on October 30, at Madison. At home in Stevens Point, where Mr. Kitchen is with the advertising department of the Hardware Mutual Casualty Co.
- 1926 Viola Robbins, to Joseph SCHRANK, both of Waukegan, on September 11, in that city. Mr. Schrank is associated with the Public Service Company.
- As '26 Irma Buettner, Richmond, to William WENDORFF, on November 25, in that city.
- 1926 Louise Gerdes, to Robert GUY. At home at 1 University Place, Greenwich Village, New York City.
- 1926 Vivian E. EDWARDS, Muskegon, Michigan, to Henry A. Blocker, Jr., Wood-

- side, L. I., N. Y., which took place September 11, in New York City. At home at 3761-50th St., Woodside, L. I. Mr. Blocker is field manager of the American Appraisal Company of New York.
- ex '26 Lisa BEHMER, Oak Park, to Vernon C. Runge, Evanston, on October 2, at Oak Park. At home at 1140 N. La Salle St., Chicago.
- ex '27 Ann McKEOUGH, Green Bay, to Ralph ex '27 MEAD, Merrill, on June 2, at Green Bay. At home at 423 S. Van Buren St., in that city.
- 1927 Ethel WILCOX, to Ernest Winter, both of Augusta, on August 14, in that city. At home at 334 Garfield Ave., Eau Claire. Mr. Winter is teaching at the Vocational School there.
- 1927 Viola HALE, Milwaukee, to Dr. Chauncey C. HALE, Omro, on September 1, at Milwaukee. Dr. Hale is research chemist with the Development Company of the Standard Oil of New Jersey. They will reside in Newark.
- 1927 Clara Schlutt, to Arthur E. GAIK, on October 19, at St. Joseph, Michigan. At home at 13621 Monica St., Detroit.
- ex '28 Freda Dexter, to Otto C. AUSTIN, both of Madison, on September 3, at Dubuque, Ia. At home at 604 Schiller Ct., Madison.
- 1928 Florence Lewis, Riverside, Conn., to Alanson REMLEY, Milwaukee, on August 14, at Riverside.
- 1928 Kathleen Burrows, Royal Oak, Mich., to John ZOLA, Detroit, on September 3, at Royal Oak. At home at 11832 Ohio St., Detroit. Mr. Zola is a research chemist for the Ditzler Color Co. in that city.
- ex '28 Adeline E. Jones, Cedar Rapids, Ia., to Marvin O. WINKLER, on October 23, at Nashua, Ia. At home in Chicago at 5424 Thomas St.
- 1928 Eleanor Bell Whitelaw, DeSoto, Kans., to Albert E. WHITFORD, Alfred, N. Y., on October 23, at Chicago. Mr. Whitford is a research associate in astronomy at Washburn Observatory at the University. At home at 431 N. Frances St., Madison.
- 1928 Florence Gasser, Prairie du Sac, to Cecil RAGATZ, also of that city, on October 2, at Madison. Mr. Ragatz is connected with the Sauk County News office.
- 1929 Lorraine S. ARNOLD, Eau Claire, to Stuart G. Tipton, Knightstown, Ind., on May 8, at Washington, D. C. At home at 3701 Massachusetts Ave., Washington, D. C. Mr. Tipton is in the Legal Division of the U. S. Treasury Department.
- ex '29 Marian Christensen, Elkhorn, to Leo ELLSWORTH, also of that city, on October 24, at Elkhorn. At home there,

where Mr. Ellsworth is associated with the Skelly Oil Station.

- 1929 Mary Bermingham, Akron, to Anthony E. O'BRIEN, Madison, on October 28, at Akron. At home at 405 N. Frances St., Madison. Mr. O'Brien is a member of

Golden Anniversary

THE Northwestern Military and Naval Academy was established at Highland Park in 1888 by Col. H. P. Davidson. Three years later, Royal P. Davidson, '94, his son, joined the staff "temporarily" as he says, after studying engineering at the Massachusetts State College, Amherst and Wisconsin.

Today, Col. R. P. Davidson can look back upon the fifty years of continued progress of his institution with a sense of great pride, for from its meager beginnings, Northwestern has grown to be one of the nation's leading military academies. Located now on the shores of lovely Lake Geneva, it has a sizeable enrollment, splendid building, and an exceptional *esprit d' corps*. Two paralyzing bank failures, three disastrous fires, and a damaging cyclone have been unable to daunt Col. Davidson and his band of co-workers. Today his faith in the institution and his untiring efforts for its betterment find an appropriate monument in the splendid campus and complete curriculum of the school.

- the law firm of Sauthoff, Hansen, O'Brien, and Kronecke.
- ex '30 Theresa M. McCORMICK, Madison, to Dr. John P. Schelble, Milwaukee, on November 27, at Madison. At home in Milwaukee, where Dr. Schelble is practicing medicine.

Minnesota President

GUY STANTON FORD, '95, has been appointed acting president of the University of Minnesota for the duration of the current year. Dr. Ford has assumed the office because of the illness of President Coffmann.

Following his graduation from the University, Ford traveled and studied in Europe. He returned to the United States and gained a doctor of philosophy degree from Columbia university. First serving at Yale as professor of history, he then transferred to the University of Illinois, acting in a similar capacity.

These two positions led to his appointment as professor of history at the University of Minnesota and subsequently to the office of the dean of the graduate school at the same university. While he held this post, Ford was proffered the presidency of the University of Texas but declined, preferring to remain at Minnesota.

Ford is also the author of several publications among which are, "Hanover and Prussia," "Life of Stein," "Science and Civilization," and he served as editor-in-chief of Compton's Pictured Encyclopedia and the Harper History series.

- ber 18, at Mineral Point. At home in Madison.
- 1930 Palma Ausman, Elk Mound, to Ray R. GILSON, La Crosse, on October 2, at Elk Mound. Mr. Gilson is auditor for the Wisconsin Tax Commission with headquarters at La Crosse.
- 1930 Marian CARDWELL, Billings, Mont., to Irving Berg, Ballantine, August 19, at Billings. At home in Ballantine, where Mr. Berg is assistant superintendent for the reclamation service on a project.
- 1930 Thelma O. Land, Indianapolis, Ind., to Russell L. MACHAEL, Clinton, Ia., on September 4, at Indianapolis. At home 5009 Guilford Ave., in that city.
- ex '30 Alice W. Green, Indianapolis, to Dr. Gerald Stone RUBIN, Terre Haute, on September 16.
- 1930 Grace J. KELLOCK, Madison, to Clarence SEBORG, on October 8, at Madison.
- '32 Mr. Seborg is a research chemist at the U. S. Forest Products Laboratory, Madison. At home in this city.

- 1931 Marian P. GIVENS, Tarentum, Pa., to Merle J. Graham, on April 2. At home at 1100 Market St., Tarentum.

Board Member Resigns

STEPHEN J. McMahon, '03, who was a member of the United States Board of Tax Appeals for more than seven years, has resigned from the board and opened offices in Milwaukee where he will practice law, specializing in taxation, federal, state and local.

During his term on the federal board he participated in all and wrote the decisions of many of the most important cases. His dissent in the case of Charles E. Mitchell, former president of the National City bank was sustained to a considerable extent by the U. S. Court of Appeals in New York and *certiorari* proceedings are now pending before the U. S. Supreme Court. He participated in the disposition of the preliminary issue of the case of the late Andrew J. Mellon.

He was actively engaged in the general practice of law in Wisconsin for 22 years before his appointment to the tax board by former president Hoover in 1929. His appointment at that time had the confirmation of both of the Wisconsin senators, La Follette and Blaine.

- 1932 Eleanor Talmadge, to Maurice L. McCLANATHAN, Decatur, on September 25, at Marion, Ind. At home at 1509 N. Main St., Decatur. Mr. McClanathan is with the Economy Auto Insurance Co.
- 1932 Mary-Virginia SMITH, to Dr. Hart E. Van Riper, both of Madison, on October 14, at Madison. At home at Kennedy Manor, 1 Langdon St., in that city. Dr. Van Riper is associated with the Dean Clinic as a pediatrician.

- 1935 Gwendolyn Moen HANSON, Edgerton, to Alfred H. Walter, Chicago, on August 29, at Edgerton. At home in Elgin, Ill.
- 1935 Patricia Weix, Antigo, to Jerome MOHR-HUSEN, Milwaukee, on August 21, at Antigo. Mr. Mohrhusen is cross country and track coach in the South Milwaukee

Heads N. U. Board

ALTHO a loyal Wisconsin alumnus, Kenneth F. Burgess, '10, was recently named to the presidency of the board of trustees of Northwestern University.

After serving as court commissioner in Lancaster, Wis. for three years, Burgess became attorney for the Chicago, Burlington and Quincy railroad in Chicago. He was made General Attorney in 1917 and during the war period was Regional Commerce Counsel for the U. S. Railroad Commission. He served as general solicitor for the C. B. & Q. from 1924 to 1931, when he became a partner in the law firm of Cutting, Moore & Sidley and also General Counsel for the Illinois Bell Telephone Co. At the present time he is acting as counsel for committees of life insurance companies and mutual savings banks in connection with the reorganization of the Northwestern and the Milwaukee roads.

He is the author of "Burgess—Commercial Law" (1915) and co-author of "Railroads—Rates Service and Management" (1923).

- High School. At home at 915 Minnesota Ave., in that city.

- 1935 Helen Schnase, Hendricks, Minn., to
Martin A. BAUM, New Richmond, on August 28, at Ames, Ia. At home in Wausau where Mr. Baum is an analytical chemist at the Marathon Paper Co.

Engineering Dean

W. H. CARSON, formerly director of the school of petroleum engineering of the University of Oklahoma, has been made dean of the college of engineering of that school.

Carson was graduated from the University with both BS and MS degrees. He has been with the University of Oklahoma College of Engineering for the past 12 years. One of the most active members of the faculty, he has been influential in securing gifts of equipment for his department. He is a member of A. P. I., A. I. M. E., A. S. M. E., and national chairman of the petroleum division of A. S. M. E.

During the past 12 years Carson has had supervision of a number of research projects by the A. S. M. E. The findings of his committee on steam power for rotary drilling have become the "Bible" of the petroleum industry. Other projects of which he is chief director is the fluid meters research which is now going on, which was started in 1929, and will run for two more years. This work is so important that the United States bureau of standards is daily getting these reports. He also directed the research on electric power for rotary drilling and assisted in many other worthwhile projects of importance to petroleum.

Under his supervision the college of engineering has put in complete drilling, production, and refining departments, where the students learn every phase of the business.

- 1935 Marion O. BORMAN, Rockford, to John
ex '34 C. HANCHETT, Jr., Janesville, on Octo-
ber 23, at Janesville. At home in Beloit,
where Mr. Hanchett is connected with
the Beloit Iron Works.
- 1935 Constance L. Jones, Richmond, Va., to
Frederick C. BILLS, Oshkosh, on No-
vember 13, at Oshkosh. At home at 313
Lake St., in that city.

1937 M. MURPHY, Janesville, on October 2,
at Antigo. At home in Madison, where
Mr. Murphy is connected with the attor-
ney general's department.
- 1936 Ione KOONZ, to Walter Ridlington, both

Steel Peacemaker

WILLIAM BEYE, '02, has been elected a vice president of the U. S. Steel corporation and will be in charge of industrial relations. Duties of Mr. Beye in industrial relations cover a large field according to the Chicago office of the corporation. They include relations of the vast industrial organization with its employees in all classifications. At present it has an apprentice system into which go each year a number of selected college graduates, who are prepared to learn the steel business from the rolling mill and laboratories on up to putting the material in position to serve mankind.

Mr. Beye will also have the duty of handling the new contractual relations between the corporation and the new industrial union, the leader of which is John L. Lewis of the C. I. O. Another matter will be that of pensions, their financing and all phases of welfare work.

- of Shawano, on October 25, at Shawano. At home at 121 S. Sawyer St., in this city.
- 1936 Lois Belle McKEE, Madison, to James T. LOWE, on October 7, at Madison. Mr. Lowe is associated with the Wisconsin Alumni Research Foundation. At home at 407 N. Henry St.
- 1936 Marjorie MARTIN, Berlin, to William AYERS, Milwaukee, on November 25, at Berlin. At home in St. Louis.
- 1936 Kathleen M. Corbierre, Marshfield, to Wendeline H. MIEDANER, St. Paul,

Thanks, Bill

NOT long ago, the Association office was informed by NBC that no coast-to-coast broadcast could be arranged for Wisconsin this year. We had had our share, they said, and other universities were complaining.

This sad news was forwarded to, among others, William S. Kies, '99, of New York. Kies took up a lone wolf battle and fairly lived in the New York offices of the broadcasting company for several days. If you know "Bill" Kies, you know his powers of persuasion. It suffices to say that we did get the broadcast, other universities to the contrary. And so when you think of the splendid program of February 11, just say to yourself, "Thanks, Bill, that was a swell job you did for Wisconsin."

- on September 6, at Marshfield. At home in St. Paul, where Mr. Miedaner is associated with Swift & Company.
- ex '36 Ann L. Bergen, to John ROSECKY, JR., both of Madison, on October 7, at Madison.

- ex '38 Dorothy I. Booth, Los Angeles, to Henry W. QUENTMEYER, Madison, on October 30, at Los Angeles. At home in that city, where Mr. Quentmeyer is connected

\$50,000,000 to Spend

DR. L. C. GRAY, Ph. D. '11, who learned economics and taught it at Wisconsin, will for the next three years, direct a \$50,000,000 federal program in land utilization and retirement of sub-marginal lands.

He has been working on this problem for the government since 1919, and of late has been assistant administrator of resettlement administration, now re-named farm security administration, in charge of the land utilization work. Secretary of Agriculture Henry A. Wallace has appointed him assistant chief of the bureau of agricultural economics in charge of the land utilization and land conservation work authorized by the Bankhead-Jones farm tenant act.

During the current fiscal year, about \$47,800 will probably be spent to retire 6,760 acres of sub-marginal land in Wisconsin, under his direction, out of the \$9,500,000 to be used throughout the country for this purpose. The appropriations during the next two fiscal years will probably be double the appropriations for the current fiscal year.

- with the Mullin Lumber Co.
- ex '38 Kathleen B. Angell, to Mark J. TIEDEMAN, both of Madison, on October 28, in that city. At home in Madison.

Named Borden Head

ONE of the youngest heads of a major American industry is Theodore G. Montague, ex-'21, who in November became head of the giant Borden company. Leaving school at the time of the World War, Montague saw service with the naval aviation service. Following his discharge in 1919, he entered the milk business. In 1927 he and his associates purchased the Kennedy Milk company of Madison, which became a unit of the Borden company in 1928. He continued as head of the Kennedy Dairy until 1934 when he went to New York as the general manager of the fluid milk division of Borden. In 1935 he was elected vice-president and received the added duties of supervising the company's ice cream operations. Last fall he was elected a director and shortly after elevated to the presidency. He was also elected chairman of the executive committee.

- ex '39 Ruth THIEL, Milwaukee, to Louie A. Lange, Fond du Lac, on October 2, at Fond du Lac. At home in that city at 294 Ledgeview Ave. Mr. Lange, a graduate of Notre Dame University, is associated with the Reporter Printing Co.

Fact Finder

PROMINENTLY mentioned for the U. S. Senate, the presidency of the University of Oregon, present dean of the Oregon Law School and one of the most able legal minds in the country is the record of Wayne L. Morse, '23.

Appointed assistant professor of law at Oregon in 1929, he was elevated to an associate professorship in 1930 and one year later was named dean of the law school. During his deanship the law school has greatly strengthened its position scholastically and has increased its prestige in both the state and nation.

Always active in extra-curricular affairs of the legal profession, Dean Morse has recently been occupied with the directorship of one of the most complete objective studies in American law. Under the guidance of the Attorney General's office and working with a field staff of 1,500, the project attempted to analyze prison and court records of all persons paroled from the various penal institutions from 1929 to 1936, inclusive; and to obtain facts as to persons pardoned, given suspended sentences or freed from penal institutions or court control through other forms of release procedure.

Funds stopped on last July 1, before the project was complete, but a compilation of such facts as were gathered is now being made with Morse appointed by the government in the capacity of editor-in-chief. Under his guidance the staff of experts will write a series of five volumes covering their findings during the coming year.

Deaths

MRS. WILLIAM E. HOWE (Mary I. CARRIER), '74, died at Waterloo, Iowa, on November 8, following an extended period of ill health. She was born on October 17, 1853, at Janesville, and was 84 years old at the time of her death.

She began her teaching career at the early age of 14 years and two years later entered the University to complete her education. After graduation from the University, she taught one year at Lancaster and then was married. She had been very active in social and civic affairs.

MRS. MARY M. BURNHAM (Mary McCoy), '74, died on November 4, at White Plains, New York, after a long illness. She was born near Attica, Green County, Wisconsin, on December 14, 1853. After her graduation from the University, she taught in the Evansville schools until her marriage. After her husband's death, she again taught in the eighth grade of the Evansville schools. From 1905 to 1909, she was chaperone at the Pi Phi House in Madison. She is survived by two daughters, and two brothers.

GEORGE MOAR BASCOM, '79, only son of the late Dr. John Bascom, famed Williams College professor and president of the University

of Wisconsin, who died in 1911, passed away on August 12, at Pasadena, California. He had been in poor health during the last year but his final illness was only of a few days' duration.

After his graduation from the University, he went West to engage in cattle raising. Later, he became interested in real estate, petroleum and mining companies. He was married in 1904 and lived most of his life in Pasadena. Surviving are two sisters, Jean Bascom of Williamstown, Mass., and Florence Bascom of Florida and Washington, D. C.

LEANDER MILLER HOSKINS, '83, died on September 8, at Palo Alto, California. He was born near Evansville, Wisconsin, and attended the University where he received degrees in science and engineering. He continued in graduate study and was awarded the degree of Master of Science in 1885 and the degree of Civil Engineer in 1887.

He was an assistant professor of mathematics and professor of mechanics at the University before his appointment at Stanford University, where he became professor of applied mathematics. He held this position for 32 years until his retirement to emeritus status in 1925. He was a member of the American Academy and the National Mathematics Society which elected him a counselor in 1913-16.

Surviving him is a sister, Mrs. Luna Hoskins of Palo Alto.

GRANT THOMAS, '86, classmate and life-long campaigner for the late Senator Robert M. LaFollette, Sr., died on November 23, at Portland, Oregon from the effects of a 10-year-old-bullet wound, inflicted by a gunman in an attempted holdup.

He was born at Fox Lake, Wisconsin, and while attending the University, was employed in the law office of the late John M. Olin, of Madison. After graduating from the University law school, Mr. Thomas was a court reporter in the Supreme Court. Later, he was associated with Charles Dow, present secretary of Gov. La Follette and the late M. E. "Mel" Clarke, in the real estate business in Madison.

CHARLES A. BOEHME, '87, died of a heart attack on August 29, at Hampton, Iowa. He was born in Alma, Wisconsin, on November 14, 1865. After his marriage in 1893, he moved to Stockton, California, where he operated a drug store. In 1904, he moved to Rock Island, Illinois, and became connected with the former Hartz & Bahnsen Wholesale Drug Company, and continued in the firm's service when it became the McKesson-Hartz division of McKesson & Robbins, Inc. He retired in 1936. He was a member of Rock Island Lodge No. 658, Masons; Rock Island Council, No. 20, Royal and Select Masters; Rock Island Chapter No.

18, Royal Arch Masons; and Rock Island Commandery No. 18, Knights Templar. He is survived by his widow, two sons, five sisters, and a brother.

FRED BEGLINGER, '88, Circuit Judge, died in an Oshkosh hospital on November 18 as the result of a fall down the basement steps of his home, fracturing his pelvis, and his weakened heart condition led to his death.

Judge Beglinger presented his resignation to Gov. La Follette last July 7, but the governor had taken no action on it. Since August 31, the date he asked to have the resignation effective, Judge Beglinger had been hearing only uncontested matters. He was born in Switzerland and was graduated from the University Law School. He served two years as Oshkosh city attorney before becoming Winnebago County Judge in 1911. He became judge of the third judicial circuit in 1922.

Surviving are his widow and two sons.

MRS. JESSIE BELLE WOODWARD, '89, died at her home in Tiffany, Wisconsin, on October 9, following an illness of three weeks' duration. She was born on July 26, 1867, in Buffalo, N. Y. She helped found the Wisconsin chapter of Gamma Phi Beta sorority. She is survived by one daughter.

BERNARD R. GOGGINS, '90, died on September 2, at Wisconsin Rapids, after an illness of five months.

He was born of Irish parentage on June 17, 1858, in New Holstein. He was one of the first high school principals of Grand Rapids, Wisconsin, and after graduation from the University Law School, opened a law office on the west side of the Wisconsin River, then the city of Centralia. He was elected district attorney of Wood County in November, 1892, and served one term. He served as special counsel for the cities of Grand Rapids and Centralia during their consolidation and became the first mayor of the consolidated cities. During the year from June, 1916, to June, 1917, he was president of the State Bar Association. He was appointed to serve as special assistant to the attorney general for the state of Wisconsin during the World War crisis in 1917-18. After the close of the war, he resigned his position and resumed private law practice with his law partner, T. W. Brazeau. He is survived by his wife, three sons, three brothers, and three sisters.

LOYAL RURAND, SR., '91, Milwaukee civic and business leader and recognized insurance executive, died at a Milwaukee hospital on October 3, after an illness of four weeks.

He was born in Milwaukee on March 31, 1868 and after graduation from the University Law School entered the law profession until 1897 when he followed his father's profession

by branching into the insurance field. He was general agent in Milwaukee for the Employers Liability Assurance Corp., Ltd.

For many years Mr. Durand was a member of the Milwaukee school board, serving as its president in 1920, 1924, 1925 and 1926. He was a member of the public library board of trustees and at one time its president. He had been a trustee of the Milwaukee Auditorium, a director of the University of Wisconsin Alumni Association and a member of the University board of visitors, of which he was president in 1924. He had been a director and president of both the Milwaukee Fire Underwriters and the Wisconsin Association of Insurance Agents.

Surviving are his wife, two daughters, Mrs. Donald M. Wright of Cambridge, Mass., and Mrs. William H. Crutcher, Jr., of Louisville, Ky.; and two sons, Loyal, Jr., of Madison, and Samuel Relf Durand of Milwaukee.

FRED JACKSON, '93, died at his home at Hettinger, North Dakota, in October. He was 71 years of age.

Mr. Jackson was born near Brodhead, Wisconsin, on June 2, 1866 where he attended high school. After graduating from the University, he came to Colby to become head of the school system and remained there as principal for eight years, resigning in 1901 to study law in the office of R. B. Salter. The following year, he entered the Illinois College of Law in Chicago and after completing its course of study was admitted to the practice of law in 1902. He practiced law in Colby for eight years and was elected to the Wisconsin legislature serving as assemblyman. In 1910, he moved to Hettinger, N. D., where he had made his home until his death. At one time, he was mayor of that city.

He is survived by his widow, a son and daughter, and three daughters by his first marriage.

WILLIAM F. COLLINS, '94, died on September 21, at Stevens Point, following an operation.

He was born in Stevens Point, on April 14, 1869, and completed his high school education in this city. He taught school for one year before entering the University where he graduated from the Law School.

He opened a law office in Stevens Point after his graduation and was one of the organizers and first cashier of the Wisconsin State Bank. After some years in that post, he went to Portland where he was in business for a time, returning here to enter the lumbering business. He returned to Portage county as cashier of the Arnott State Bank and in 1931 re-opened a law practice in Stevens Point. Two daughters and two sisters survive him.

DR. GEORGE P. BARTH, '95, head of the hygiene division of the Milwaukee Health Department and one of the earliest school hygiene workers in the United States, died on October 23, at Milwaukee of a heart attack.

He was born on December 28, 1872 at Milwaukee and was educated in the Milwaukee schools, later attending the University. After graduating from Wisconsin, he attended the University of Pennsylvania. From 1898 to 1907, Dr. Barth practiced medicine in Milwaukee. He became a school physician in 1907 and head of the department of school hygiene in 1920. He is survived by a brother.

JESSIE SHEPHERD, '95, died on October 14, at her home in Chicago, after an illness of 10 years of arthritis.

She had been president of the U. W. Alumnae Club of Chicago and even during her illness kept up an active interest in Wisconsin affairs.

DR. HERMAN SCHLUNDT, '94, died on December 29, at Columbia, Mo., where he had been professor of physical chemistry at the University of Missouri for 30 years.

He was born on July 16, 1869 at Two Rivers, and after his graduation from the University, became an instructor in the department of physical chemistry at Wisconsin. He was a member of the faculty from 1894 to 1907, during which time he received his M. S. in 1896 and his Ph. D. in 1901. His title, in the meantime, had been changed to that of assistant professor.

In 1907, he left the University, to join the faculty at Missouri. He was a member of the American Association for the Advancement of Science, American Chemical Society, American Electro-chemical Society, and the Wisconsin Academy of Sciences, Arts, and Letters.

Surviving are his two daughters.

GEORGE T. SHIMUNOK, '95, died on October 6, at Chicago. He was born in Milwaukee and a graduate of the Law School of the University. He spent thirty years in the postal service, retiring eight years ago. He traveled extensively, first making the Mediterranean cruise, then two trips around the world. He had spent the past five winters in St. Petersburg, Florida, where he was again arranging to go at the time of his death. His favorite diversion was addressing the younger children of the public schools on patriotic subjects. For many years, he was active in Masonic affairs.

Three sisters survive him.

EDWARD R. BOWLER, '96, Sheboygan attorney, died on November 10 in that city after a short illness.

He was born on September 25, 1869 at Sparta and after attending the county schools and graduating from the Sparta High school, he

spent four years teaching school in Monroe County and two years as a railway mail clerk for the purpose of raising money to further his education. He then attended Valparaiso Normal School for a year after which he spent two and one-half years in college courses at the University and two years in the law school.

Attorney Bowler started his practice of law immediately, after graduating from the University, in the office of Attorney David F. Jones at Sparta, who was then U. S. District Attorney for the western district of Wisconsin. After two years in Sparta, Mr. Bowler and his brother decided to open a law practice of their own in Sheboygan and on February 13, 1898, they started the law firm in that city.

He retired from active trial work about eight years ago. In connection with his legal interests, Attorney Bowler was a member of the American Bar Association, the Wisconsin State Bar Association and the Sheboygan County Bar Association. He was also active as a member of the Association of Commerce, being director for many years and president for three years.

He is survived by his widow, three daughters, six grandchildren, and one sister.

PEARCE TOMKINS, ex '96, died at his home in Ashland, on September 29. He was born on April 15, 1875 at Ashland and attended public schools there before entering the University and Columbia Law School at Washington, D. C. He was admitted to the practice of law by the state board in June, 1897.

He was elected to the state senate in 1912 on the Republican ticket. Surviving are his widow, a sister, three brothers, and four children.

CHARLES L. WOLF, '97, died on November 4, at Sharon following a nine weeks' illness. He was born in Sharon on March 14, 1873. His early education was received in the Sharon schools and later studied at Wittenberg College and the University of Michigan. He graduated from the Law School and was admitted to both the Wisconsin and Illinois bars and for some time was employed in the office of a Chicago law firm. He served as Sharon's postmaster during both the Coolidge and Hoover administrations for a period of nine years.

Surviving are his widow and a sister.

GRACE A. WRIGHT, '98, died on September 13, at Escondido, California, after being ill for several months. She was born in Janesville, on August 14, 1874 and following graduation from the local high school, completed a course in the University of Wisconsin. She taught for a number of years at Eau Claire and Duluth and then went to Sacramento, California, where she was a teacher in the junior college until 10 years ago when she was forced to retire because of a stroke.

JOHN A. HAGEMANN, '99, died on November 15, at Fort Atkinson of injuries which he received in an auto accident when his car crashed into a telephone pole and overturned. He was born at Mauston on March 21, 1870.

He was regarded as one of the most able educators in the state, and was superintendent of Fort Atkinson schools from 1900 when he came to this community, until 1913, when he resigned. He was manager of the Fort Atkinson Canning Company until 1927 during which time he served as secretary to the Wisconsin Can-

One of Ten

ONCE again, a former Wisconsin student was named in the list of the ten most outstanding young men in America by American Publications, Inc. Following in the footsteps of Col. Charles A. Lindbergh and U. S. Senator Robert M. La Follette, Lt. F. M. Kreml was named to the select list of 1937 award winners.

Lt. Kreml is a member of the traffic safety division of the Evanston Police department where his work has attracted nationwide attention following a similar "beat" at Columbus, Ohio. His work in the Ohio city won him the first annual (1936) grand award of \$5,000 by the C. I. T. Safety Foundation.

Kreml did not complete his work at Wisconsin, but moved to our neighbor institution, Northwestern, where he graduated in 1929. He was a member of the class of 1927 while here.

ners Association. At the time of his death, he was a salesman for Babson Brothers, Chicago. He is survived by his widow, four daughters, three sons, and a sister.

WARREN MILTON PERSONS, 99, statistician, author, and former professor of economics at Harvard University, died on October 11, at Cambridge, Mass. He was born in West De Pere, and graduated from the University. Before going to Harvard, he was an instructor at the University College of Engineering, a professor at the Tuck School of Business Administration and Finance at Dartmouth, and dean of the Department of Business Administration at Colorado College. He was also a guest lecturer at Yale for one year.

He was an independent consulting economist for such nationally known concerns as A. T. & T. Co., American Tobacco Company, and Phileo Radio. During the World War, he was a member of the U. S. Shipping Board. He wrote many books on economics, among them "Forecasting Business Cycles" and "Government Experimentation in Business". Surviving are his widow, and a daughter.

FRED N. BLAKELY, ex '00, died of a heart attack while hunting at Lake Koshkonong on October 24. He was born September 12, 1876 at Janesville, where he received his early education. He was a sports enthusiast and keenly interested in athletics. At the time of his death, he was connected with the Propp Oil and Supply Company of Milwaukee. He is survived by his wife, a son and daughter, and one brother.

ALBERT F. KINDT, ex '02, died in November, at Berkeley, California. He was 59 years of age and a native of Milwaukee. He had been president of the Satorius Co., fabricators of structural and ornamental steel of San Francisco.

He is survived by his widow, three daughters, a son, three sisters and two brothers.

DR. STANLEY C. WELSH, ex '02, died on October 9, at a Rochester, Minnesota hospital, after a long illness.

He was born in Arlington, Wisconsin, but had resided in Madison most of his life. He attended the University from 1898 to 1900 and later was graduated from the Northwestern University Dental School. While a student at the University of Wisconsin, he was a member of the famous "berry crate" crew which was leading in the 1898 Poughkeepsie Race until the shell was turned aside to miss a floating berry crate. As a result, the crew finished second.

He is survived by the widow, one son, and three sisters.

ISAK DALE, '04, owner of "Little Nor-

way", died on November 24, in a Chicago hospital, after a long illness.

He was born on February 1, 1883 at Mt. Vernon. Mr. Dahle was known as one of the largest insurance underwriters in the world. At the time of his death, he was president of the Chicago Adventurers Club, a member of the Geographical Society of Chicago and of the Norwegian-American Historical Society.

He developed "Little Norway" in the prosperous days of 1928, directing the work while living in Chicago. Mr. Dahle invested thousands of dollars in the project, spending much for antiques from Norway. He was awarded a major "W" at the University in 1904 as manager of the baseball team. He was a member of Delta Tau Delta fraternity and a former president of the Wisconsin Alumni Club of Chicago.

He is survived by his mother, one brother, and five sisters.

REUBEN S. PEOTTER, '05, was found dead on October 21 on Van Vliet Lake, Vilas County, Wisconsin, where he had gone to hunt ducks. He had apparently been the victim of a heart attack. . . . He was born in Black Creek, and attended school in Appleton. After his graduation from the engineering course of the University, he spent four years as a civil engineer in South America. In 1919 he left engineering to go into financial work but returned to his original work this year when he went to South America again for the Atlantic Gulf and Pacific Dredging Co. . . . He was former assistant vice-president of the First Wisconsin National Bank of Milwaukee. . . . His mother is his only survivor.

PROF. EDWARD R. JONES, '05, head of the University of Wisconsin Department of Agricultural Engineering, died on October 22, at his home in Madison. He suffered a heart attack. . . . He was born near Bangor, Wisconsin, and was graduated from the University College of Agriculture in 1905 and received his master's degree in 1908. From 1905 to 1918, Prof. Jones was associated with the University as a drainage expert, and since that time has been head of the department of agricultural engineering. He was the author of many bulletins and treatises on drainage problems, and was active in the American Society of Agricultural Engineers and Alpha Zeta, honorary agricultural fraternity. . . . Prof. Jones was known as one of the country's prominent drainage engineers. . . . Survivors are his widow and four children.

GERALD W. JAMIESON, '05, examiner for the state banking department, died suddenly of a heart attack on October 15, at Madison. He was born on June 20, 1884 in Shullsburg, and after attending the public schools there, entered the University. After graduation, he

taught school for two years in Illinois and then was graduated from the University of Chicago Law School in 1911 and was admitted to the Illinois bar. He was the author of a textbook on accounting. . . . He is survived by his widow, a son, and three sisters.

PROF. ROYAL B. WAY, Ph. D. '06, died on November 29, at Beloit, after a long illness. He was born on September 20, 1873 at Allegan, Michigan. He had been head of the political science department of Beloit College at the time of his death. He had taught at the college for 30 years and had traveled extensively. . . . A member of the American History Association, American Political Science Association, and the Wisconsin Historical Association, he was the author of "Diplomacy of the Spanish-American War". . . . He is survived by his wife.

ROSS B. NEWMAN, '06, superintendent of schools of Oskaloosa, Iowa, for 14 years, died on October 18, as the result of an automobile accident near Ottumwa. He was born on October 20, 1883 at Juda, Wisconsin. After graduating from the University, he took graduate studies at Minnesota and Iowa. He has held school positions at Ely, Minn., Sioux City, Ia., Watertown, S. D., and Oskaloosa. He had been president of the Oskaloosa Y. M. C. A., director of the Chamber of Commerce, and past-president and secretary of the Rotary Club. . . . He is survived by his widow, three children, four brothers and one sister.

ROBERT E. KENNEDY, '07, died on September 30, at Superior. He was born at Windsor, Ontario, Canada, on March 3, 1882 and came to Superior in 1887. After graduating from the University, he entered law practice and was elected to district and assistant district attorney offices, in addition to being Ninth Ward alderman. . . . Surviving him are his widow, two sons, two brothers, and one sister.

DR. OSCAR N. MORTENSEN, ex '08, died on October 24, at Wisconsin Rapids, after a short illness. He was born in Waupaca on September 8, 1886. He studied at the University of Wisconsin Engineering School before entering the medical school at the University of Illinois, from which he was graduated in 1909. He returned to Waupaca to practice medicine in 1911, but moved to Wisconsin Rapids in 1916 and had been practicing physician and surgeon in that city until his retirement in 1931. . . . His widow, one son, and two sisters survive him.

WILLIAM G. RUSSELL, '08, died in his sleep on November 26, at Peoria. Death was caused by heart disease. He had been principal of the Manual Training High School in Peoria

since 1921 and was one of the leading figures in Illinois educational circles. . . . He was born in Galesville, on December 23, 1876 and studied at the Milwaukee Normal School and graduated from the University. . . . He is survived by his widow.

CHARLES A. CHENEY, '09, was killed in an automobile accident near Mattoon, Illinois, on September 2. He was born at Madison and graduated from the University Engineering School. He was a geologist of wide reputation and became a nationally known authority on the Lake Superior iron area and the geology of western Kansas. He has lived in Tulsa, Oklahoma, since 1918 where he was associated with M. M. Valerius and Co. as a petroleum geologist, working in Oklahoma, Kansas, Texas, New Mexico, Louisiana, Montana, and Arkansas.

NELS A. ANDERSON, '09, formerly associated with the University extension division and for the last nine years a field representative for the University of Minnesota extension division, was found dead in his apartment in Minneapolis in November following a heart attack. He was born in Norway on July 21, 1878 and after graduating from the University, studied at Chicago University, where he received his master's degree.

AXEL T. SJOBLUM, '10, died on October 22, at Tucson, Ariz. He was enroute to Mexico on a business trip when he was stricken by a heart attack. A native of Sweden, Mr. Sjoblom came to this country at an early age and was graduated from the University Engineering School. From 1911 to 1916, he was in the electrical and mechanical department of the

Far East Expert

ONE of the most important members of the American delegation to the unsuccessful Brussels nine-power conference held in late October was Dr. Stanley K. Hornbeck, Ph. D. '11, expert on Far Eastern affairs in the Department of State.

Dr. Hornbeck entered academic work at Wisconsin in 1908 after receiving his degree from Oxford university. He served on the faculty for one year, returning in 1914 as a member of the political science department and serving until 1917.

His first diplomatic work came at the Versailles conference where he served as technical expert for the Far Eastern division of the American peace commission. He served as a captain in the army during 1918 and 1919 and was a member of the staff of Gen. James G. Harbord on the American military mission to Armenia in the fall of 1919.

Isthmian Canal Commission in Panama. In 1926, he was associated with the Public Utility Engineering & Service Corporation.

FRED C. WORTHINGTON, '11, died on November 4, at Milwaukee, after a long illness. He was a native of Milwaukee, and after graduating from the University, he returned to Milwaukee and taught chemistry at South Division High School. Later, he became principal of the Humboldt School in Bay View. He was 53 years old. Survivors are his widow, a daughter, and his father.

EZRA LEONIDUS MORGAN, M. A. '12, died on October 9, at St. Louis of a heart attack. He was born on August 22, 1879 at Albion, Illinois. He was head of the Rural Sociology Department of the University of Missouri at Columbia at the time of his death, joining the faculty in 1921. He was the author of numerous articles and had written seven books dealing with rural social welfare.

LEAH M. BRADLEY, M. A. '12, newspaper and publicity writer, died on September 18 at Brooklyn, N. Y. While at the University, she helped establish the University Press Bureau. She was once a reporter on the Grand Rapids Press.

MARGARET JOHNSON, '12, died on April 29, 1935 at Minto, N. D. Death was caused by malignant hyper-tension. She was formerly a bookkeeper at St. Augustin, Fla.

ALBERT JAMES WALKER, '14, died on September 2, 1936 at Petoskey, Michigan. He was born on July 13, 1892 at Markesan, Wis.

ELSIE NEWMAN, '14, was shot and killed on November 20, at Dallas, Texas, when she was a bystander during a quarrel in a drug store. She had been playground supervisor for Colonial Hills School at Dallas for the past 15 years. She had also been active in Girl Scout work there. She was born in Madison and finished her schooling here, going to Milwaukee to teach following her graduation from the University. From there, she went to Dallas and had made it her home. Survivors are two sisters and two brothers.

GRACE R. FINUCANE, '19, died on October 26, at Milwaukee, after a long illness. She was born in Antigo on September 7, 1896. For the past four years, she had been an instructor in the home economics department of the Sherman High School in Milwaukee. Prior to coming to Milwaukee, she was a member of the Antigo High School faculty, and had also taught at Oconto and Menominee, Michigan. For several years, she was a home demonstration agent for the state department of agriculture at Kalispell, Montana. A brother and four aunts survive her.

WINFIELD THOMPSON, ex '20, died at a Chicago hospital, September 9, following a major operation. He was born in Madison and attended school here. He was well known in Madison where he was a member of the Thompson Orchestra, a dance music organization popular a number of years ago. He is survived by his widow, two sons, his mother, two sisters, and one brother.

MARCUS SKOLAS, '24, was killed by a train on October 29, near Pittsburgh. He was born on April 27, 1895 at Deerfield and attended school in Madison.

EDWARD SYLVAN WRIGHT, '24, died on October 29, at a Fargo, North Dakota, hospital, following a short illness. He was born on April 27, 1901 at Ellendale, N. D. He had been an instructor in the Dallas Technical High School for eight years, coming to Moorhead, Minnesota, last July, where he was proprietor of the Service Novelty Printers. He was active in Boy Scout work and was a former scoutmaster at Dallas. He is survived by his widow, a son, a daughter, and his parents and a sister.

JOHN DANFORTH MAXCY, ex '24, died on November 28 at Albany, California, from the effects of a peculiar new chemical being used in building work in which he was engaged. He was born on February 22, 1902 at Washburn, where he attended the local schools, continuing his education at the universities of Wisconsin and Washington. His widow, two sons, and parents survive him.

DR. JOHN INGOLD CHORLOG, '25, died on October 18, at Madison, from injuries received when struck by an automobile on October 16. He was born in Galesville, on April 28, 1903 and attended school in Madison. After graduating from the Medical School of the University, he served his internship at the Chesapeake and Ohio Railroad Hospital at Clifton Forge, Va., and then did post-graduate work in Roanoke, Va. Returning to Madison in 1929, he went into practice with his father and has since operated the Chorlog Clinic at Madison.

NEAL W. EMERSON, '26, CCC foreman at Ladysmith, was electrocuted near Bruce, on October 11. With his crew he was raising a steel well casing on a project one mile west of Bruce. The casing struck the power line which carried 6,000 volts. He was born March 29, 1905 at Butternut and attended Ashland schools, Northland College and the University. He traveled extensively following his graduation making several trips to the Orient and the Philippines. In 1935, he became supervisor of FERA at Barron, and since had been transferred to Ladysmith.

HAROLD G. SILJAN, '28, died on November 20, at Milwaukee, after listening to a radio broadcast of the Wisconsin-Minnesota game. A graduate of the University, he had been interested in athletic affairs and had been chairman of the Milwaukee alumni engaged in arranging the annual gridiron banquet at Madison. He was a former president of the Milwaukee Real Estate Board and selected by the Junior Association of Commerce in 1935 as the city's most outstanding young man. Surviving are his wife, mother, and three sisters.

DR. RONALD HARWOOD KYLE, ex '30, died of infantile paralysis at a Rochester, Minn., hospital, on September 15, after having been ill a week. He was born on March 7, 1908 at Downsview. He attended Menomonie High School, Stout Institute, and the University before entering Kirksville College of Osteopathy and Surgery at Kirksville, Mo., from which he graduated in 1931. He interned at Howard Hospital, St. Louis, and then began practice in Menomonie. He is survived by his wife, one son, parents, a sister, and a brother.

EDWARD C. VAN HORNE, SS '30, committed suicide in a leap from a Detroit hotel on November 5. He was born June 14, 1902 and had been an assistant professor of English at Wayne University. He had enrolled in the University summer school during 1930, 1932, 1933, 1934, 1935, and 1936.

CLARENCE FOSTER NEWTON, ex '31, died on October 15, at Beloit of pneumonia. He was born in Beloit on October 22 and lived there all his life. He attended Beloit High School and the University. Surviving are his wife, two children, parents, and a sister.

MRS. GORDON KAMPS (Dorothy FORNEFELT), ex '32, died on October 8, at a Marshfield hospital after a long illness. She was born in Victoria, Texas, on October 8, 1910. She attended Carroll College and the University, making her home in Marshfield. Survivors are her husband, one daughter, her parents, one brother, and two sisters.

LYDIA I. GOEHRING, '33, was killed in a head-on collision near Mauston on November 28. Miss Goehring was a music supervisor in the Wonewoc High School. She was born on November 20, 1906 at Aurora, Ill.

WILLIAM JAMES PARRY, ex '33, died on November 23, at Dodgeville as the result of an injury received in a football game played 12 years ago. He was born at Dodgeville, on November 20, 1908.

CHARLES HAEN, ex '34, drowned September 10 in the harbor basin at Kewaunee. . . He was fireman on the U. S. lighthouse tender Hy-

acinth which arrived in Kewaunee Harbor on September 9. After a visit to his home nearby he returned to the boat and that night chose to sleep on top until called for duty. Just whether he fell overboard or how he fell into the water will probably never be known. He was born on March 30, 1913 in Luxemburg. He is survived by his parents, four sisters, and five brothers.

VIRGINIA SKIDMORE BRINSMADE, '35, died at her home in San Luis Potosi, Mexico, on November 19, of peritonitis which followed a severe attack of typhoid fever. She was born on September 1, 1911 at Madison. Her early education was received in Mexico, and later Texas University, graduating from the University of Wisconsin. She was a member of Delta Gamma Sorority. Her mother, four brothers, and one sister survive her.

ELMER L. HUTCHINSON, Grad '37, a graduate assistant in chemistry at the University, died on October 31, at Madison. He was born June 14, 1911 at Buxton, Maine. A graduate of

Helps Run G. E.

OFFICIALS of General Electric company recently announced the appointment of Philip D. Reed, '21, as assistant to G. E. president Gerard Swope. After receiving his engineering degree from Wisconsin, Reed continued his studies in law at Fordham. While still studying at the New York institution, he was named vice-president and patent counsel for the Van Heusen Products co. He entered G. E.'s employ in 1926 as a member of the legal staff. In 1928 he was transferred to the G. E. Incandescent Lamp Dept. His home is at Larchmont, N. Y.

Bowdoin College, Brunswick, Maine, he came to Wisconsin to do graduate work. He was recognized as a superior instructor and an exceptionally fine scholar and research student. His parents, and a brother and sister survive him.

CLIFFORD F. TALBOT, '39, died on November 15, at Merrill of uremic poisoning. He was born in Merrill on October 24, 1915. Receiving his high school education in that city, he then enrolled at the State Teachers College, and in his junior year, entered the law school of the University. He was an outstanding cornetist. He is survived by his parents, four brothers, and two sisters.

MIRIAM BLACK, '40, died on November 18, at Madison, after a two months illness. She was born December 1, 1918 at Deerfield. Before entering the University, she graduated from the agricultural school at Rochester. She was a member of the University honorary home economics sorority.

ALVIN C. BAVERY, '40, was killed in an automobile crash on October 20, near Paoli. His home was in Basco and he had been enrolled in

the agricultural engineering school of the University.

JOHN PHILLIP SILCOCK, '40, died September 14, at a Kenosha hospital of a blood ailment from which he had been suffering for about two months. He was born at Kenosha, on August 7, 1919. After graduating from Lake Geneva High School, he entered the University where he would have been a sophomore this year. His parents and four brothers survive him.

SGT. FREDERICK W. POST, a veteran of 65 years service in the U. S. Army, died on September 5, at a Madison hospital, after a short illness. He was born at Kingston, Green Lake County, and was 87 years old. Before his retirement last year, he was assistant to the commandant of the University R. O. T. C. Sgt. Post began his military career in 1871. He participated in a number of Indian campaigns, in the Puerto Rico fight of 1898 and in the Philippine Islands in 1899 to 1901. Before coming to Wisconsin in 1918, he served with units at Princeton, Texas A. & M., and the University of Illinois.

Touring the Circuit with the Alumni Clubs

SPACE does not permit a full recounting of the many interesting alumni club meetings which have taken place during the past few months, so let's take an imaginary tour of several of the more interesting meetings.

Probably one of the most outstanding of the meetings held recently was the football dinner staged by the Chicago alumni clubs. More than 700 people attended to pay homage to Coach Harry Stuhldreher and his boys. President Dykstra and other notables were at the speaker's table.

President Dykstra officially met the members of the Milwaukee alumni club at a huge gathering in the Athletic Club early in November. More than 450 filled the room to capacity to meet the new prexy. Milwaukee has also held several interesting forum discussions at which time Prof. Grayson L. Kirk, Dean Lloyd K. Garrison and Prof. D. D. Leseohier were the speakers.

New York, too, had an opportunity to say "hello" to the new president when on November 10, President Dykstra addressed a large group of alumni at the Roosevelt Hotel.

In Schenectady, Wisconsin alumni have quietly but effectively reorganized their faltering group into a sizeable and active club. Most of the members are associated in some way with the General Electric company and therefore have several interests in common.

Honolulu, the city of eternal summer, sends its greetings and a cordial invitation to all alumni to drop in during 1938. The club has about 100 members and they meet four times a year. In this cold weather we'd like to linger in Hawaii for a while, but we must be on our way.

Leaving Hawaii, we land in cold Minneapolis and St. Paul. The Gopherites have been meeting regularly and had a fine dinner preceding the now historic Minnesota game. St. Paul recently organized a club of its own under able Al Buser.

Knoxville entertained Prof. Emeritus John R. Commons late in October. Dr. A. R. Cahn, Chief of the Biological Readjustment Unit of the TVA spoke at the same meeting.

Pittsburghers had a rousing good time on the night before the Pittsburgh game. Joining hand with the Panther alumni a huge crowd gathered to hear a lot of good natured ribbing from all sides and to hear first hand that Pitt was going pure—next year.

Philadelphia was fortunate enough to entertain both Pres. Dykstra and Coach Stuhldreher during the fall months while Cincinnati boasts of a dinner for Frederic March and his lovely wife, Florence Eldridge, during November.

And so it goes. East and west, north and south alumni are still vitally interested in Wisconsin and their fellow alumni.
