6th.

ANNIVERSARY

SIX YEARS OF EFFORT

With the observance of the 6th anniversary of our publication we note that time does not stand still (as depicted by the hour glass on the cover.

During the passage of this time however, the CUE has captured and recorded many things and facts and passed them on to the patients and staff of the hospital. In carrying out this task of entertaining and informing the readers the past editorial staff has put forth quite a cumulative effort, which can be shown by citing some of the statistics, accomplishments and duties of the past six years.

The CUE is published very two weeks, or 156 times in six years and has never missed nor been late for a publishing date. Those responsible for bringing all these issues to come to you come from the ranks of the patients. A conservative figure would find that about 100 patients per year are involved in the production. The staff averages about eight members at a time, but has been as low as only two people, to produce an issue of CUE. Projected into man-hours of work this comes out to about 160 hours per issue or 24,960 hours in six years.

For sheer bulk the paper averages about 10 pages per issue with some issues as many as 22 pages. There are 410 copies of each issue and in six years this comes out to about 640,000 printed sheets. That's quite a pile of paper.

During the course of 6 years about 13,400 patients have been exposed to the CUE. This along with about 825 members of the staff in any given year makes for quite a sizeable audience.

Most of the work carried on by the CUE staff is interesting, some is tedious, but it is all worth while if it can help entertain the patients and improve conditions in the hospital. Some of the jobs carried on by the CUE staff are:

Research	Proofreading
Interviewing	Mimeograph
Writing & Editing	Assembling
Typing	Distribution
Art Reproduction	

The CUE is the brain-child of Chuck Lemieux and during the course of six years has been under his direct supervision. He has nursed the paper along through thick and thin and deserves a hearty thanks for his tireless effort.

Jerry

EDITORIAL

ANONIMITY

A person who is unrecognized is a bit of that which does not exist. To remain anonymous takes away the flavor of recognition while to give of oneself shows pride and confidence. Remaining unknown indicates being ashamed of ones own opinions and indicates a lack of boldness or forwardness.

We need to take a stand in life where we know how we feel, and are bold enough to express it-enough of a person to stand by our own opinions.

How is it with you? Are you a little wishy washy in expressing your opinion, or are you bold and proud of what you think? To remain anonymous reminds one of a small child, hiding in a corner. Let's be big enough to be recognized!

ISSUES AND ANSWERS

WHY IS IT MANY PEOPLE WISH TO REMAIN ANONYMOUS WHEN COMMENTING ON ISSUES FOR THE CUE?

Because they don't want repercussions if people know how they feel.

(Anonymous)

If you remain anonymous you remain as one with the greatest authors of our time.

(Anonymous)

I don't know the reasons for most people, but perhaps it is a degree of shyness. We all have opinions, but hesitate to express them for fear...of being ridiculed or are reluctant to say something which might hurt another's feelings. Then too, we might have a personal gripe and could get it "off our chest," by hiding behind an anonymous.

(Anonymous)

I think they feel embarrassed about what they may have said and prefer not to be connected to what they say by their names. Also, people can be freer when they remain anonymous.

(Ron)

Possibly most people prefer to remain anonymous for fear of exposing themselves too openly to others. It is often easier to express an opinion when no criticism will be forthcoming.

(Anonymous)

I think possibly people feel freer to express themselves when they are free from criticism. A lot of people just don't want to get involved at all--"The Silent Majority." Many people are just afraid to commit themselves.

(A Student)

It gives them a free expression or opinion without fear of being embarrassed. It gives them an opportunity to get it out of their system.

(Anonymous)

Because they don't want the staff to know who they are.

(Anonymous)

I feel people who prefer the word anonymous instead of their real name do such a thing to avoid the passing of the word among people in order to avoid criticism. Many people are shy of other people and do not want to express their innermost feelings to the public because they see people they are writing to as one big glob of people that will criticize them.

(Dave)

They are insecure with their own opinions, and don't want all people to know them.

(Debbie)

I don't think of being anonymous because I like to express myself as being known.

(Pat)

I wouldn't want my name to be anonymous, because I have nothing to hide. I am proud of it.

(Clarence)

Perhaps the statement made would be more important than the name associated with it.

(Anonymous)

They may be thinking they are being insulting to others and possibly to themselves.

(Rick)

I believe most people prefer to remain anonymous when commenting because they are either afraid their comment is wrong or they are afraid of being criticized by others for what they said.

(Susan)

That's a pretty tough question. I imagine each person has their own reasons.

(Anonymous)

It gives people the opportunity to voice their opinions openly without fear of personal ridicule.

(Anonymous)

Because most patients don't want to hear backtalk from the staff and other patients.

(Roger)

ISSUES AND ANSWERS

(Continued from Page 4)

I suppose people have a tendency to not believe in themselves or any extension of themselves - like opinions or criticism. No guts.

(Tim)

For their own protection. The patient may feel paranoid about putting his or her name down for fear of reprisals.

(Anonymous)

It is possible that the reason why some people choose to sign anonymous is because of not wanting to put themselves forward.

(Nelson)

People are afraid of what others will think of them. We ought to feel proud of our opinions and accept the opinions of others, even if they are different than ours.

(Linda)

Because they don't want anyone to know that they wrote it.

(Jim Adams)

Most people like to remain anonymous because they're afraid that other people will talk about what they have said. They're afraid of people talking behind their backs and afraid of criticism.

(Anonymous)

I always prefer to sign my name so I can't answer this question.

(Jeff)

Since wisdom is like pulling Hen's teeth, it is easier to remain anonymous. Then if an answer is unique the anonymity gives the writer a great feeling of pleasure since only he knows who did the writing.

(Anonymous)

They may be ashamed of what they say or afraid to own up to it.

(John)

From past experience with newspapers I've found myself frequently being misquoted. When I include my name and this happens, I become angry. When I remain anonymous I could care less.

(Anonymous)

They're smart that's why.

(Anonymous)

The less they say, the better off they are.

(Harry)

They feel that people will think they're different or a little bit crazy.

(Jeffrey)

Some people are shy and bashful.

(Bill Fletch)

Quite often, they don't want to become involved.

(Harold Ramaker)

It makes people feel better, but they don't want to take responsibilities for their statements.

(Frank)

Their comments might be derogatory to the staff or patients.

(Rita)

A lot of people have bad things to say about the hospital, so they wish to remain anonymous. The patients that have good things to say, put their names down.

(Don)

Often times, they don't want to defend themselves.

(Mrs. Corp)

People wish to remain anonymous for fear of reprisal by the staff.

(The opinions of a number of people on the ATU.)

Some people don't want to see their name in print. They are afraid someone might react personally to what they say.

(Anonymous)

Some people don't want other people to know that they're in the hospital.

(Anonymous)

If it's about child raising I wouldn't mind to sign my name; but if it's about sex education I would want to remain anonymous!

(Anonymous)

POEMMY

WELCOME HOME

Welcome home
to those I know
Welcome too
to those I do not know

You are all welcome here
the hungry
the lost
the unwanted
as well as the wanted

Welcome home
for I love you
Welcome home

COME HOME

My place is a castle
But only to the unwanted
the confused
the homeless
the strayed apart

They'll come to me
because I love them
because they know it

Because they need
more than food
more than a bed
to sleep on.

Most of all
they need love
and to be touched.

Come home and
I'll touch you.

BELIEVE

They do not believe me
They do not understand
How it all could have been done
By just
One man

I try to tell them
I try to show it
But they can not understand
Therefore they can not know it.

I talk with words
But their ears can not see
I show them things
But their eyes can not hear

What can I say
What can I do, How can I show
How can I tell, So they'll believe?

Jim J.

He grabbed me by my slender neck.
I could not beg or scream.
He took me to his dingy room,
Where we could not be seen.

He tore from me my flimsy wrap.
And gazed upon my form.
I was so very cold and damp,
He was so rough and warm.

His feverish lips he presses to mine
He drained me of every drop.
He drained me of my very soul,
I could not make him stop.

He made me what I am today.
That's why you see me here,
An empty bottle thrown away,
That once was full of BEER!

Pat S.

SATAN'S TREAT

Gather' round you cats while mama's
away,
And listen to what old Satan's got
to say.

"I dig dope, it's a blast for me,
marijuana, speed and LSD.
What say we spark up a joint or two!
For a real gone gas we can sniff
some glue.

Got no pep? You're kind of a drag!
Pop some pills, maybe that's your
bag.

They'll pick you up and knock you
down, turn you an even spin you
around.

Did you dig me when I did my thing at
the big rock festival? Satan's
stoned souls--yeh! MAN--it was
beautiful. (the living end-like
Deadswille!)

How 'bout taking a trip with me? Whirl
around world of fantasy.

Light your fire--Go on rebel--my pad
is yours-- I call it HELL!

So let's go man, SATAN'S TREATIN'
today -- 'cause to-morrow there'll
be the DEVIL to pay!

Oly

VACATION LAND

Wisconsin is one of the best places in the nation to spend your vacation. My opinion, of course, is that of a Wisconsinite and I'm prejudiced.

We have many lakes, rivers, and streams where you can go fishing, boating and swimming. There are many green forests for camping and picnicing, also, hunting.

There is one place that should be just Jim Dandy fishing and is Fox Lake. It's in the Northwestern corner of Dodge County. It is straight West of Horicon Marsh and almost straight North of Beaver Dam. It covers 2,120 acres and is 15 feet deep. It was treated in 1966 to kill all the fish in the lake and then it was replanted with pan fish; bass, walleyes, Northern pike and brown trout. So "See You" at Fox Lake one of these nice summer days.

Sailing is another spot to be enjoyed in Wisconsin. Sail boats are called scows, sometimes, South Western Wisconsin is the nation's inland scow hot bed.

Then there is water-skiing. That is a great sport. Also, we have many nice golf courses where you can enjoy a game of golf.

We have many scenic spots such as the Wisconsin Dell's, Whispering Pines and in Menominee County there are many interesting places to be seen. There are scenic spots, such as parks and wayside-spots to be visited.

So let's see Wisconsin on our vacation this year.

Lucy

TO THE VOLUNTEER SERVICES:

We wish to thank you for donating your time so generously to make our stay in the hospital more enjoyable.

FROM GORDON HALL SOUTH

We've noticed that John has a big family of birds and squirrels. The reason for that is he is feeding them. Recently we counted twelve squirrels all feeding at the same time. John was asked how much it cost to feed the family during the winter. He said that he didn't know because he didn't keep track of the cost. John wondered if the cost was going in on the budget.

Last fall, John picked two bushel of walnuts on the hospital grounds, hammered the shuck off, and washed and dried them. Now during the winter he cracks the nuts for the squirrels and feeds them.

John said some of the squirrels are getting too fat and might have to have an elevator to get up to the top of the tree. He thinks he is going to have to see the dietitian and see if he can get an order to put six of the squirrels on a diet. The other six are O.K. for they didn't get much feed. The fat ones chase the rest of them away. Even the birds have to watch for a chance to sneak in on the feed.

FREE GYM TIME ON SATURDAY MORNINGS

In response to the request made by representatives of the Cue, for free gym time on weekends for liberty patients, a pilot program was set up for Saturday mornings and publicized in the Cue and on the paging system. Now upon evaluation of patient response after a month, we find that attendance averaged less than three people. Because of this limited response we have discontinued the program. The gym can still be scheduled by wards on weekends by ward personnel.

Dr. Kelley
Clinical Director

* * * * *

If you are not true to your teeth, someday they will be false to you.

What You Should Know

WHY SHOULD ONE BE SHY AT DANCES?

Here at Winnebago State Hospital an effort is made to socialize at various functions. One of these is dancing.

One should try to ask a bystander for a dance. Both patients should agree that this is a good opportunity to ~~forget themselves~~, let their hair down and "swing it!"

One might object that he is not a good dancer. If everyone thought this he would never learn how to dance and socialize. Even experienced swingers "goof" once in a while and step on their partners feet. But the idea here is to apologize and try to relax more while continuing the dance.

So to the "shy bird" at a dance, the best advice I can give is to think others are shy to either a lesser or greater degree than you. Tell your partner about it and get going with the start of a fine evening. You should be having a delightful time at every dance. Take every opportunity to learn.

Dancing opportunities are at the monthly hospital dance and at the sing and swing held every Thursday night at the Canteen.

By Paul

IN MEMORIAM, B. H. NO. 399 (A Novel Obituary)

Mr. Bell Howell, Projector No. 399, was dead on arrival at the district repair room on November 25, 1971.

Mr. Projector was born the son of Mr. Projector No. 385 and the former Miss Belle Howell No. 179, in 1953. He served many years as the main projector in the Marshall Jr. High auditorium. He was a member of many classroom groups. At the time of his death he was on stand-by duty.

Mr. Projector is survived by three children and eight grandchildren. He is carried in the memory of thousands of Marshall students who learned from the brilliance of his 750 watt DEJ bulb.

At the request of relatives the body will be donated to science for transplant operations. Friends are asked to omit flowers. Contributions may be made to the A-V fund in memory of Mr. Projector No. 399.

TYPES OF COMMITMENTS

Voluntary Admission

This is the procedure of the patient signing himself in. The patient or his guardian must sign the application if he is under 21. The patient must be evaluated by a community physician or psychiatrist who also signs the application. The patient may sign out upon a five day notice to the superintendant of the hospital. If the patient seems to be in a state where he could hurt himself or others, he may be committed.

Commitment

This is the situation where the patient is unable or unwilling to come to the hospital. Three adults who know the patient, one of whom is a close relative may make written application to the county court. The court appoints two physicians to examine the patient and make recommendation to the court. A hearing is then arranged.

Inebriates and Drug Addicts

This involves persons that are alcoholics or persons that are addicted to a narcotic or barbituate. The person may be committed by the court or voluntary application may be made to the court by the patient himself.

Emergency Procedures

Any police officer may detain a person in emergency procedures. Three persons may make arrangement for temporary detention of a person. One must be a physician. The judge may order police to detain a person.

Evaluation of Children

This is a study for symptoms. A social worker can make arrangements for this. A parent, guardian or custodian of a child may sign the application requesting the evaluation.

The Waterwood Rebel's Girls Team played the women's staff of Hughes Hall B, on Wednesday February 23. The game was very close. The score was, Staff 21 and Girls 20.

Scorer's for the staff were Mary Ellen , Ivy with 6, and Linda with 4. Helping the forwards out were Judy and Donna . The guards for the staff team were Joyce Kleinke, Anne MacFarlane, Geri Ramsfield; Mary Geiser, Joyce Brown, Doris Voorhees and Faye Waupoehck.

Scorer's for the Girls were Nancy with 14 and Jeanine with 6. The other forwards for the girls were Jane , Tina , Penni and Jane . The guards were Laurie , Jan , Linda , Alice , Eunice and Judy . Coaching the girls team was Ken and for the staff was Dr. .

Cheerleaders were Bob , Mike , Rich , Ed and Heather .

The game was very exciting, especially during the 4th quarter. The Girls came up from behind and almost got a tying score. Both teams played very well.

A Re-match is being scheduled in 3-4 weeks. Everyone is welcome.

IN JEST

Mechanic: "Madam, I've found out what is wrong with your car. You have a short circuit in your wiring."

Lady Motorist: "Well, very good, then. Go ahead and lengthen it."

Wife: "The couple next door seem to be very devoted. He kisses her every time they meet. Why don't you ever do that?"

Husband: "For one thing, I don't know her well enough."

Hotel clerk: "Outstanding sights? Yes, ma'am, we have the only helium plant in the world."

Lady Tourist: "Is it in bloom today?"

WHAT WE'VE SPOKE

WHAT IS LOVE?

Love is a subject many people are not completely familiar with. It is interesting to note that love has many expressions and these are manifested on various occasions. Let us consider some of these to clarify our faulty notions.

There is the sublime hero worship type of love. When one admires someone else and strives to get acquainted, this is a form of love.

Then there is the love between husband and wife. Also, there is the mutual love between parents and children.

Next, we can consider love between friends and our mutual "appetite" to get better acquainted.

But most important is the faithful love of God for man. But this is fickle when man professes to love his Maker.

What is love? It is the sacrifice of giving and taking both the good and the bad in strides. It is asking forgiveness and pardoning injury.

Lastly in the broad sense of the word, God is Love. He tells us to love and obey his Commandments in order to be face to face with Him throughout eternity.

By Paul

WHAT IS HATE?

Hate is the opposite emotion to love. People, and especially children, find they can love and hate the same person many times. We call this ambivalence. This, of course, is not genuine love.

The serpent hated and envied Adam and Eve in the Garden of Eden. He wished to harm them and succeeded by having them cursed by God. They were punished and expelled from the Garden of Eden.

Other people have hated throughout the centuries. Hating one's enemy does not bring security in return. There have been wars and family problems arising from it.

Some people hate out of sheer prejudice. They should attempt to get to know people before they jump to a conclusion of hating.

While love goes about socializing, hate does not. It remains conniving in the brain of the man whose heart loses warmth and becomes like it.

Christ told us to love one another as He loves us.

By Paul

THE WEEK AHEAD

HOSPITAL ACTIVITIES FOR THE WEEK OF MARCH 13 - MARCH 19, 1972

March 13 Monday	9:00 am - 4:15 pm	CANTEEN OPEN*
	1:15 pm SH 5-6	Menasha Red Cross
2:30 -	4:00 pm HH Music Rm.	RECORD LISTENING
