Regent Kleczka read the following report of the Educational Committee on the adjustment in University Extension fees and non-resident fees for students attending the summer session:

"To the Board of Regents, University of Wisconsin

The undersigned members of the Educational Committee instructed by your Board on June 26, 1943, to consider and report on two matters assigned to them for consideration, the first being the question of "Adjustment of University Extension fees", and the other "Non-resident fees for summer session students", beg leave to report as follows:

In view of the action taken by the 1943 Legislature as to the first matter under consideration, all the members of your Committee met at Milwaukee on July 30, 1943, with President Dykstra and Dean Frank O. Holt of the Extension Division. At the conclusion of that conference your Committee was unanimously of the opinion that the requested relief of adjustment of University Extension fees could not now be granted in view of the present condition of the University budget. If we take the enrollment in normal years as a

criterion, for instance the year 1939-40, an additional State appropriation of approximately \$32,730.00 for State centers and approximately \$41,898.00 for the Milwaukee center, or a total of \$74,628.00 would necessarily be required, if Extension fees had been on Madison basis at that time. It is logical to suppose that lower fees would increase the enrollment. The enrollment might conceivably double, with need for proportional increase in State appropriations. At the close of the War, it is reasonable to suppose that there will be large increases in College enrollments and a corresponding increase of enrollment in the Extension centers throughout the State. All predictions point in that direction. A University Committee has predicted a possible enrollment of seventeen thousand on the Madison campus alone, following the War.

To adjust the Extension fees on the Madison basis, involves a considerable, yet highly uncertain amount of money and your Committee is of the opinion that such adjustment of fees cannot be made unless and until the Legislature of this State appropriates a sum sufficient to take care of the difference in cash receipts if Extension fees are placed on the Madison basis.

As to the "Non-resident fees for summer session students", your Committee recommends that no distinction be made for the following reasons;

1. Other States make no such distinction.
2. Fees paid by non-resident students attending the summer session merely add toward self-support of the School and enable a better and richer program of education to be given whenever more students attend the given courses. Increased enrollment of students reduces the cost of instruction. It must be borne in mind that normally the summer session school is self-supporting.
3. When superintendents or other students come from outside the State to attend the summer session, they make contact with students of this State giving thereby the resident students outside connections.

Dated August 30, 1943.

/s/ Leonard J. Kleczka, Chairman

/s/ John Callahan

/s/ Daniel H. Grady

/s/ W. J. Hodgkins"

Upon motion of Regent Grady, seconded by Regent Campbell, report approved.

Regent Cleary reported for the Finance Committee and stated that the Committee would have a final report on budget revisions at the next meeting.

Regent Holmes stated that there would be a meeting of the Regent-Faculty Conference Committee on Friday preceding the next meeting of the Board of Regents with reference to the School of Commerce matter and that a report would be made to the Board on the following day.

Meeting adjourned at 4:18 P.M.

M. E. McCaffrey,

Secretary.
