# HOW TO MAKE OUT-OF-TOWN CALLS

Out-of-Town calls can be completed almost as quickly as local calls, providing you give the telephone number when calling.

Keeping a record of Out-of-Town num-

bers frequently called will save time on future calls. If you wish to have the telephone numbers of a list of out-of-town subscribers, our Business Office will be glad to furnish them.

## OUT-OF-TOWN CALLS ARE OF TWO GENERAL CLASSES:

### Station-to-Station Service

A Station-to-Station call is one on which you call a distant telephone without specifying a particular person, department or extension telephone.

Station-to-Station service is cheaper than Person-to-Person service and should be used when you are willing to talk to ANYONE answering the called telephone or when you are sure the person with whom you wish to talk will be there.

To place a Station-to-Station call ask for "Long Distance"; place your calls as in the following examples:

IF THE TELEPHONE NUMBER IS KNOWN say: "I want to talk to Smithville, Adams 3020." Give your number when the operator requests it.

IF YOU DO NOT KNOW THE TELEPHONE NUMBER, say: "I want to talk to Brownville, ANYONE at Mr. John Jones' residence, 521 Main St." Give your number when the operator requests it.

Report charges are not applicable to Station-to-Station calls, except on collect calls where the charges are not accepted at the called station, and the calling party is unwilling to pay the charges for completing the call.

### Person-to-Person Service

A Person-to-Person call is one on which you specify a particular person, department or private branch exchange extension number, to be reached at the called telephone.

The rates for Person-to-Person calls are somewhat higher than for Station-to-Station service due to the greater amount of operating effort and use of circuits required to complete such calls. This class of service should be used when it is necessary for you to talk to a particular person or department.

To place a Person-to-Person call, ask for "Long Distance," then if you know the telephone number, say for example; "I want to talk to Grayville, Main 8124, Mr. John Brown." Give your number when the operator requests it.

Appointment and messenger calls take Person-to-Person rates, plus the cost of any messenger service performed. Messenger charges incurred are to be paid whether or not conversation is held.

Person-to-Person calls are subject to report charges as explained on the following page.

## Day, Night and Sunday Rates

DAY RATES apply to Station-to-Station and Person-to-Person calls between 4:30 A. M. and 7:00 P. M. on all days except Sunday.

NIGHT and SUNDAY RATES. Reduced rates apply daily between 7:00 P. M. and 4:30 A. M. and all day Sunday if the initial period rate exceeds 35 cents for a Station-to-Station call or 50 cents for a Person-to-Person call.

The time of day, at the originating point, when conversation starts, determines whether DAY or NIGHT AND SUNDAY rates apply.

## Collect Calls and Report Charges

A COLLECT CALL is a Station-to-Station or Person-to-Person call, for which you wish to have the subscriber at the distant point pay the charges. The regular Day, Night and Sunday rates for Person-to-Person and Station-to-Station calls apply except that:

On collect Station-to-Station calls where the initial period rate is less than twenty cents the regular Person-to-Person rate applies.

### And

where the initial period rate is twenty cents the collect rate is twenty-five cents for an initial period of five minutes.

A request to make a call collect should be given to the operator when the call is placed, so that she can endeavor to obtain acceptance of the charges before the connection is established.

If the called party refuses to accept the charge, a report charge will be made unless the call is completed as a paid message.

If you desire to know the charges for a call which is "collect" to you, it is important that you so inform the operator at the time you accept the call.

A REPORT CHARGE is made on Person-to-Person calls if within one hour the operator secures a connection to the called telephone but is unable to complete the call because the particular person desired is not in; will not talk; or if the calling party is absent or refuses to talk when the called party is reached; or if the called party is unknown at the called telephone.

Report charges are made on collect Station-to-Station calls where the charges are not accepted at the called station and the calling party is unwilling to pay the charges for completing the call.

In any case where a report charge applies, the minimum charge is ten cents.

Report charges are to compensate for the operating work performed and the use of toll circuits.

## Requests for Rates and Charges

On request, the operator will quote the rate to any out-of-town point. If you wish to be told the charges on a particular call,

make the request when you place the call or when you accept a "collect" call. The operator will call you back and quote charges.

## *The* **BELL SYSTEM** *Sign*

...and you're just a few minutes  
from home!

Wherever your road may lead, - - to the quiet of Northern climes, or to busy vacation resorts, you'll see the Bell Sign. And this Blue Bell of the telephone system tells you there is only a few minutes between you - - and home. It is the sign of the telephone and every telephone is a **LONG DISTANCE STATION**.

It is a genuine satisfaction to know that no matter where you go, Long Distance, swift and inexpensive, is there, ready to connect you with home, office, or perhaps points farther ahead.

The Bell Sign, - - remember it, watch for it. Give your family at home the pleasure of a telephone visit, - - call your office, or, to be sure of good accommodations, telephone ahead for reservations.

# It's Easy to Use The Classified Telephone Directory

---

**THIS DIRECTORY IS A CATALOG** of telephone subscribers classified according to businesses, commodities and services and is designed to furnish a convenient means for finding telephone numbers and for locating sources of supply.

**TO FIND THE TELEPHONE NUMBER OF A BUSINESS CONCERN** you have in mind, look among the listings under the heading descriptive of the business.

**FOR LOCATING SOURCES OF SUPPLY,** look for the classification by the name of the commodity or, if that is not indexed, by the name of the business which ordinarily distributes it.

**MANY TRADE MARKED PRODUCTS** are now shown in this directory and they may be found indexed by their Trade Mark name either as heading classifications or as a group of listings similarly indexed under the heading descriptive of the business which supplies them.

This service is readily recognized by the Trade Mark symbol or cut which always appears in connection with the Trade Mark name.

**THE DISPLAY ADVERTISEMENTS** appearing on or near the page containing the heading classification in which you are interested will provide more complete buying information.

*It Saves Hours of Time and Miles of Steps*

PROVISION should be made to carry the wires necessary to furnish telephone service before building apartment houses, hotels, office buildings and large residences.

If some arrangement is not included in the original building plans, it may be necessary to make extensive and costly alterations, after the completion of the building in order to conceal the wires placed in the halls and rooms.

We will be glad to give architects, owners or builders the benefit of our experience in such matters and assist in planning the best system of wires for each case.

# ELECTRICAL CONTRACTORS

**P**ROVISION should be made to carry the wires necessary to furnish telephone service before building apartment houses, hotels, office buildings and large residences.

If some arrangement is not included in the original building plans, it may be necessary to make extensive and costly alterations, after the completion of the building in order to conceal the wires placed in the halls and rooms.

We will be glad to give architects, owners or builders the benefit of our experience in such matters and assist in planning the best system of wires for each case.
