The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Commitment

It's another way we inspire confidence

When you choose COLYTE[®], you can count on the full support of Reed & Carrick, an ethical pharmaceutical company committed to professional service. For example, our educational brochures, posters, and videos help show your patients what to do; this, in turn, saves you valuable time.
