— MATERIALS

MANUFACTURED BY

THE HAMILTON —
MANUFACTURING
COMPANY.

MAIN OFFICE AND FACTORIES, TWO RIVERS, WIS.

CHICAGO HOUSE, 327-329 DEARBORN ST.

NEW YORK HOUSE, 16-18 CHAMBERS ST.

WE are delayed longer than we expected in issuing our large New Price List of Printers' Materials. We are, therefore, compelled to issue a small edition of this pamphlet. Our new Catalogue will be ready inside of sixty days, and will be the finest and most complete price list of its kind ever issued.

We have had a large number of new cuts made for this Catalogue, which will be faithful reproductions of our new line of goods.

August 1st, 1892.

Border Case, $\frac{2}{3}$ size. X

This image shows a blank, aged, cream-colored page, likely a ledger or account book page. The page features a dark border and a faint grid pattern, suggesting it was designed for recording financial transactions or data. The grid consists of vertical and horizontal lines forming a series of rectangular cells. The paper has a slightly textured appearance and some minor discoloration, characteristic of old documents.

THE "BOSTON" JOB STAND.

(Same as cut on bottom of preceding page, but without side and back panels.)

Single Job Stand for 18 Cases,
\$8.50; with Cases.....\$26.50
Double Job Stand, for 36 Cases,
\$15.00; with Cases..... 51.00

"BOSTON" NEWS STANDS.

The points made in favor of the "Boston" Cabinets apply with equal force to the News Stands; indeed, with greater force when the special requirements of newspaper compositors are considered, and saving space becomes a great object. The employer will save floor room and the employees will save time.

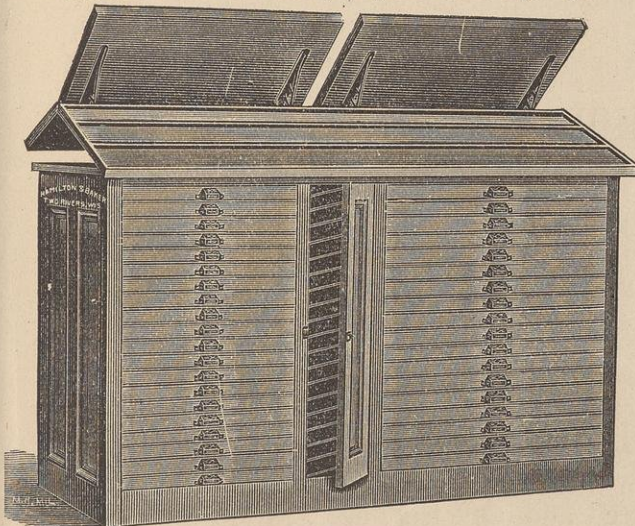

N.B.—These stands are made without panels in ends. Panels are put in for 75c each panel. Cherry or Walnut finish 10 per cent. additional.

Single Stand, with Racks for 12 full-sized Cases.....\$ 6.00
Double Stand, with Racks for 12 full-sized Cases 9.00
Double Stand, with Racks for 12 full and 12 two-third Cases..... 10.50

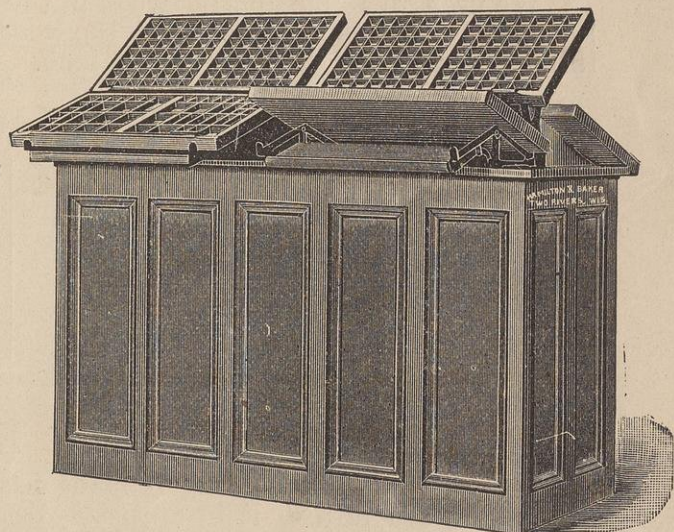

THE "POLHEMUS" STANDS AND CABINETS

The Best and Most Convenient Yet Produced.

The "Polhemus" Cabinets have all the conveniences of the Boston Cabinet, viz: Sliding case rest and galley rest combined, and in addition to this have the following *important* points in their favor. The *back* of the Cabinet is paneled, and compositor stands at *back* when setting from the top cases; the Cabinet cases pull out from the *front* and compositor is never disturbed by others using them, a common occurrence with other Cabinets. There is a galley rest back of the case rest, extending the whole length of the Cabinet, giving the same amount of room as a *galley top cabinet*; also galley shelves between the rows of cases in the double Cabinet, with room for twenty single or double galleys.

FRONT VIEW.

BACK VIEW.

DOUBLE "POLHEMUS" CABINET.

The Double Cabinet has 18 full-sized Italic Cases, 20 $\frac{2}{3}$ Job Cases, and 2 pair News Cases on top; Cherry finish, \$75. Solid Cherry, \$85.00. Boxing, \$2 50. Solid Walnut, \$90.00.

WE MAKE THE FOLLOWING CLAIMS FOR THE "POLHEMUS."

- 1st. When the compositor empties his stick, the lower case is slid forward out of the way, exposing the galley, which saves time.
- 2d. When correcting, the galley is not laid on the case, covering half the boxes, but every box is convenient of access—this also *saves time*.

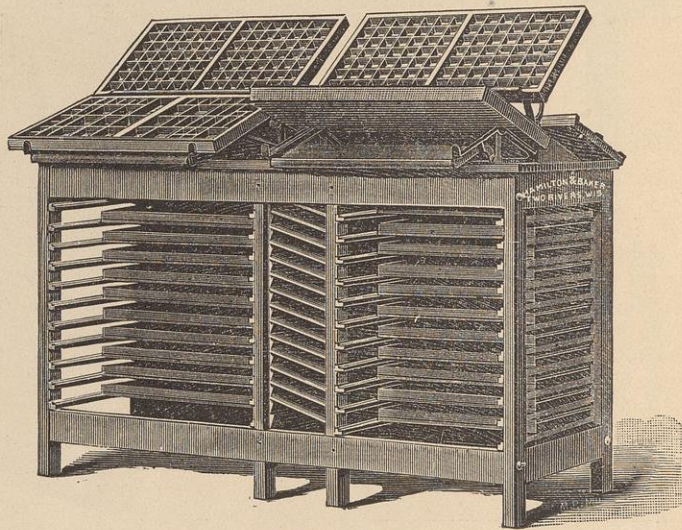

- 3d. The lower case may be shaken up without lifting it from the stand—saves *more* time.
- 4th. The lower case extends six inches beyond the stand, so that the compositor may work easily without rubbing his knees against the stand, and may be seated if necessary.
- 5th. The compositor standing at one side of the Cabinet and the cases being drawn out on the *opposite* side, he is never disturbed by others using the cases in the Cabinet—saves *lots* of time.
- 6th. The galley rest on top, in addition to case rests, affords as much room as *two* ordinary cabinets.
- 7th. The Galley Cabinet between the rows of cases affords as much room as regular Galley Cabinet costing not less than \$8.00.

FRONT VIEW.

SINGLE "POLHEMUS" CABINET.

The Single Cabinet has 18 full-size Italic Cases and one pair News Cases on top; Cherry finish, \$35.00.
 Solid Cherry, \$40.00. Solid Walnut, \$42.00. Boxing, \$1.50.
 Double Stand with Racks for 12 full and 12 $\frac{2}{3}$ Cases, \$15.00. *- 2.000*
 Single Stand with Racks for 12 full-size Cases, \$6.50. *950*

BACK VIEW.

DOUBLE "POLHEMUS" STAND.

The Single Cabinet has 18 full-size Italic Cases and one pair News Cases on top; Cherry finish, \$35.00.
 Solid Cherry, \$40.00. Solid Walnut, \$42.00. Boxing, \$1.50.
 Double Stand with Racks for 12 full and 12 $\frac{2}{3}$ Cases, \$15.00. *- 2.000*
 Single Stand with Racks for 12 full-size Cases, \$6.50. *950*

We prepare Maple and Boxwood in the best manner for Engravers. Rock Maple, 1 cent to 1½ cent per square inch; Boxwood from 2 cents to 5 cents per square inch; Holly Wood Face, 1 cent per square inch. Apple Wood 1½ cent per square inch.

1 line wide.....	10c	per running foot.	10 line wide.....	48c	per running foot.

Larger pieces squared up, any size desired, at 1c per square inch.

Our Electrotype Blocking is made from selected, well seasoned stock, and kiln dried. We can furnish it in any sizes desired and any thickness. Unless size and thickness is given, we dress $\frac{1}{2}$ thick and cut in pieces 2 feet long, assorted widths. It is dressed perfectly flat and smooth on both sides.

Birch, per square foot in lots of 100 feet.....	15c per foot.
Cherry, “ “ “ “ “ “	12c “
25 per cent. extra in smaller lots.	

THE "BOSTON" CABINETS, JOB AND NEWS STANDS.

Having secured the right to manufacture the "Boston" Stands, Cabinets and Window Cabinets, we take pleasure in offering them to our patrons. The "Boston" Patent Cabinets differ from other Cabinets in having our new combined Sliding Case Rest and Galley Rest, which enables the compositor to set his galley full without leaving the stand; or, if preferred, the Galley Rest may be used to hold "pick-ups," leads, dashes, quad-lines, etc. The compositor has free access to every box in the case when correcting, and the galley is out of the way until needed.

SIX REASONS WHY THESE CABINETS ARE THE BEST:

First—When the compositor empties his stick, the lower case is easily slid forward out of the way, exposing the galley.

Second—When correcting, the galley is not laid on the lower case, delaying the compositor, owing to half the boxes being covered, but every box in both cases is convenient of access, as is more clearly shown in cut of Window Cabinet, giving side view of the combined Sliding Case and Galley Rest.

Third—The lower case may be easily shaken up without lifting it from the stand.

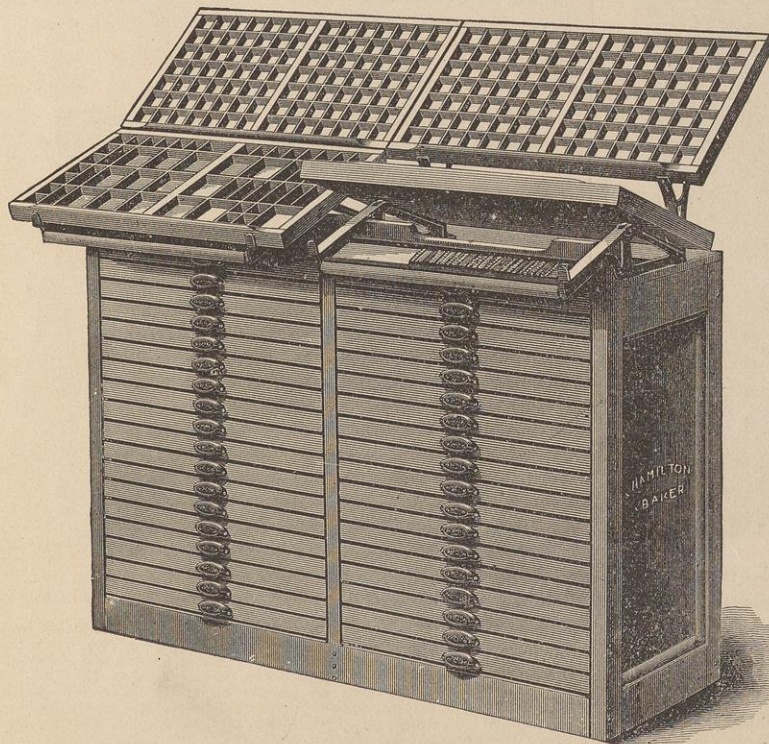

Fourth—The shelf over the cases is unobstructed, and can be made useful to place live or dead matter on.

Fifth—The top cases project six inches beyond the front of the cases in the stand, so that the compositor may work easily without rubbing his knees against the cases, and may be seated, if necessary.

Sixth—The projecting case brackets save on a double stand three square feet of floor space, and when two cabinets are placed back to back the saving is six square feet.

THE "BOSTON" WINDOW CABINET.

THE "BOSTON" CABINET.

THE "BOSTON" WINDOW CABINET

Combines the advantages of our "Boston" Cabinet here shown, with this additional special merit: Two compositors may work steadily on solid matter and never be disturbed by those using the job cases in the Cabinet, a common and most annoying occurrence with other cabinets.

It is specially adapted for placing between two windows.

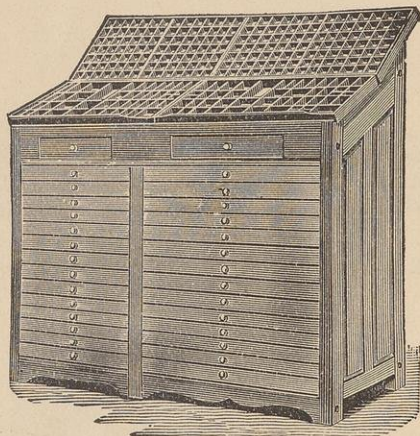

The "Boston" Patent Window Cabinet, 18	
Italic and 2 pairs News Cases.	
Hardwood Stained.....	\$36.00
Cherry.....	40.00
Walnut.....	45.00

BRACKET CABINET.

	Walnut or Cherry.	Hardwood Stained.
Price for 18 Two-thirds.....	\$33.00	\$30.00
" " 18 Three-quarters.....	36.00	33.00
" " 18 Full Size.....	40.00	36.00

Boxing, \$1.50.

The prices given include the Brackets, but not the cases on top. This cabinet is made to contain eighteen cases, two-third size either italic or in pairs; or it may be made to contain eighteen three-quarter cases, either italic or in pairs. To suit the different ideas of purchasers, they are made of either cherry or black walnut; if of the latter at a slight extra cost. The small drawers on top are convenient receptacles for copy, or may be used for any other desired purpose.

COMBINATION CABINETS.

COMBINATION CABINET, No. 1.

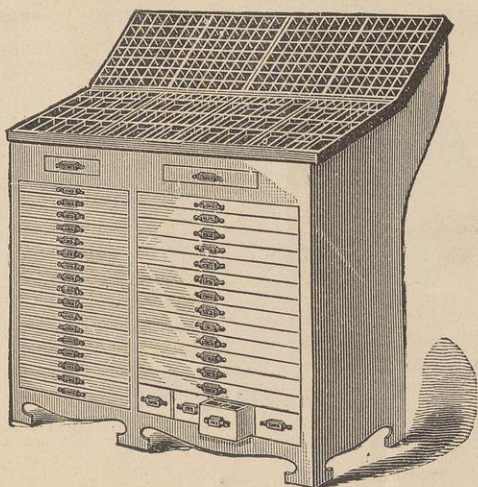

Black Walnut.....	\$85.00
Cherry.....	80.00
Hardwood Stained.....	75.00

Boxing, \$2.50.

Contains eighteen Italic Cases (or other cases, as may be desired), eighteen two-thirds Italic Cases, two pairs cases on top (forty cases in all), two drawers for copy and ten drawers for sorts.

COMBINATION CABINET, No. 2.

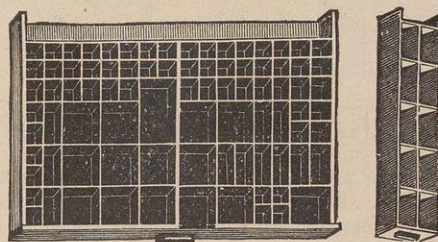

Black Walnut.....	\$65.00
Cherry	62.00
Hardwood Stained	60.00

Boxing, \$2.50.

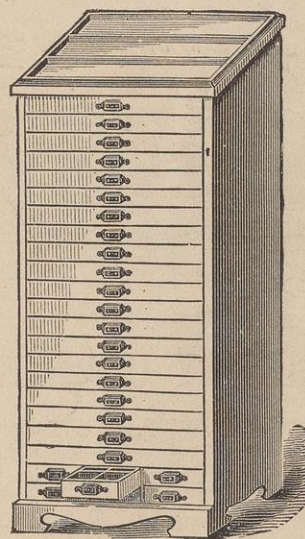

Contains thirteen Italic or Triple Cases, as may be desired, seventeen two-third Italic, and two pairs cases on top; also two copy and four sort drawers.

This Cabinet is equal in material and workmanship to our regular Combination Cabinet, being merely a modification of the same, having fewer cases and sort drawers, but otherwise embracing all the valuable and pleasing features of its predecessor. For keeping "laid" fonts clean, and for convenience in getting at the same they are unequaled.

COMBINATION CABINET ITALIC CASE AND SORT DRAWER.

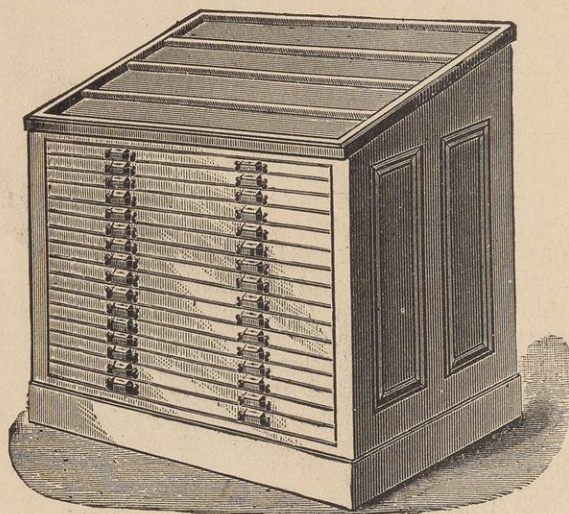

COMBINATION CABINET, No. 3.

Black Walnut.....	\$40.00
Cherry.....	36.00
Hardwood Stained.....	32.00

Boxing, \$1.50.

This Cabinet contains nineteen three-quarter cases, and one blank case on top, and six sort drawers.

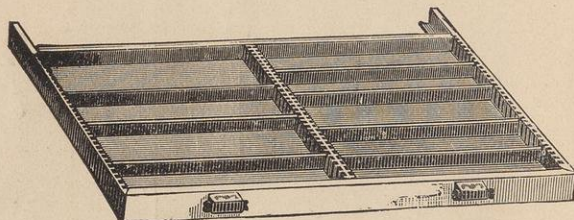

MAMMOTH CABINET.

WOOD TYPE CABINETS.

These are made in two sizes. Prices of both are given below. In both the cases are slotted to picas, and movable strips are furnished to make partitions for any size of type. They are finished in cherry.

This beautiful Cabinet is one of the handsomest and most popular ever placed upon the market. Being made entirely of Oak or Ash, finished in antique, it presents a striking appearance, and the finish will outwear that of any other style. Being made of hardwood they are very strong and durable, and for an all-around cabinet are the best on the market. The sides are paneled, and these Cabinets are made with or without galley top. Unless otherwise stated these Cabinets are fitted with Italic cases. We can, however, fill them with Cabinet cases in pairs if parties so desire.

$\frac{3}{4}$ ITALIC CASE.

STAINED CABINETS.

The Stained Cabinet of our manufacture is not a "cheap affair" made to sell, but is ornamental as well as useful in any office. Unlike all other manufacturers, we make these Cabinets of *hard wood throughout*, sides are paneled and moulded, and we guarantee them to be first-class throughout. Prices as follows:

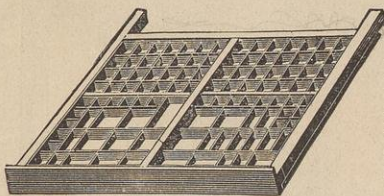

Stained Cabinets.

MAIL LIST CABINETS.

This Cabinet is made to hold the entire mail list outfit of most newspapers.

The first space is a cupboard to hold mailing machine, roller, etc. The middle space will hold 30 galleys of either the Rukenbrod or Mustang pattern, or 15 regular wide brass mailing galleys. The third space contains 7 sort drawers. Iron brackets can be attached to this Cabinet to hold a pair of cases.

Price \$27.00
Iron Brackets, per pair 2.00
Boxing, \$1.25.

Other sizes to order.

BOOKBINDERS' CABINET.

These Cabinets are made of the best seasoned Cherry, highly finished, and the Cases are ornamented with bronze handles. They are made of different sizes to suit the wants of purchasers. The price is low enough to be within the means of every bookbinder, and at the same time be consistent with good workmanship and the best material. They are compact in form, and the sizes such as will readily admit of their being placed on a table or stand, out of the way, and yet convenient for use.

Bookbinders' Machinery and Material furnished at manufacturers' prices.

Galley, in three tiers...\$36.00
To hold 40 Single or Double
Galley, in two tiers..... 25.00
To hold 20 Single or Double
Galley, in one tier..... 14.00

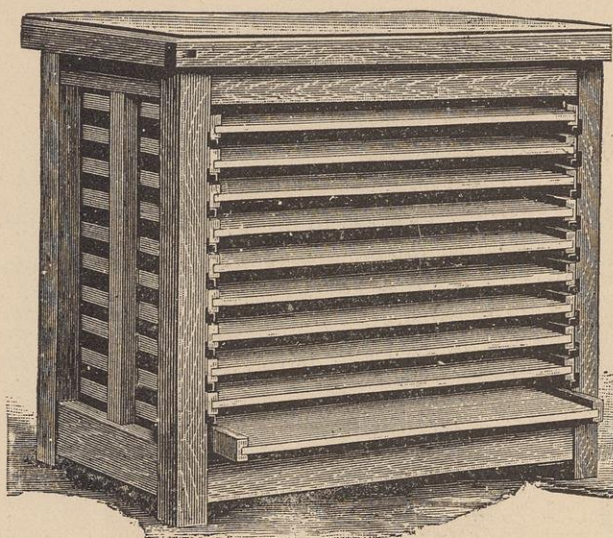

Plain Galley Cabinets with flat top, as here shown, are made in sizes and prices as follows:

20 galley		\$ 8.00
30 "		11.50
40 "		15.00
50 "		18.50

Boxing from \$1.00 to \$1.50.

These Galley Cabinets represent one of the most useful pieces of furniture ever designed for a printing office. Printers save room by storing standing matter in them when not in use, and they prevent type from being pried by long standing on the stones. It also prevents dust from settling on the forms and damaging the type. They are strong and accurately made to accommodate the great weight of type which is sometimes placed in them.

Letter Board Table.

We make these Letter Board Tables any size desired. The one here shown has ten letter boards, but they can be made with twenty boards in two tiers, or thirty boards in three tiers, if desired. The boards have a rabbet in the front edge to receive the galley when emptying. Both the frame and boards are made of hard wood, and very strongly and substantially made. We furnish them with either wood, stone or iron tops.

Size of Top.	Size of Boards.	Wood Top.	Stone Top.	Iron Top.
No. 1—20x25	17x19	\$20.00	\$25.00	\$31.00

INK CABINETS.

Thousands of dollars are annually lost to job printers, generally, in the single item of Ink wasted through lack of a proper place to keep the cans or jars containing the same. More particularly is this so in regard to colored or high-priced Inks not continually in use, for when placed on shelves or left lying around anywhere (if only out of the way), an estrangement often occurs between can and cover, and the Ink receives a quantity of dirt, or skins over

from exposure to the air; in either case a loss of Ink is the result. With the Ink Cabinet a place may be had for every can or jar of Ink, and with every can or jar in its place the loss of Ink from such sources would cease.

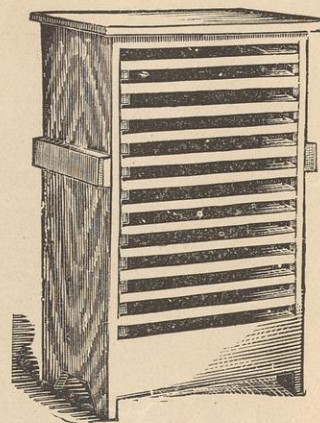

The price is low enough to bring it within the means of every job office.

Contains four compartments suitable for Ink, etc., with Marble Slab,

18x24 inches, on top for mixing Inks. Price..... \$13

Wood top..... \$10

Boxing, \$1.00.

HANDY LETTER BOARD CABINET.

This has movable hard wood letter boards, 12x15 inches, with rims on three sides and a groove on the front edge to receive the galley.

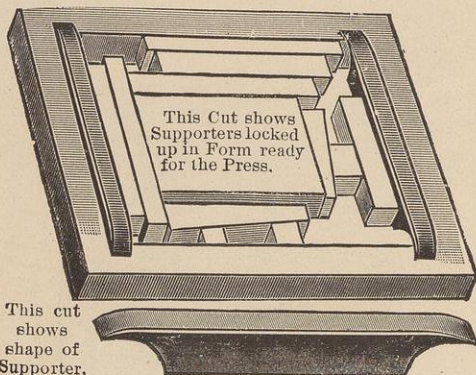

Boards.	Without Doors.	With Doors.	Boxing.

16	15.00	16.50	1.25

Other sizes furnished as desired.

Prices given upon application.

ROLLER SUPPORTERS.

These bearers for job presses are locked up with the form in the chase. They take the undue weight of the rollers off the form, prevent over-inking, cause a more even distribution, equalize the im-

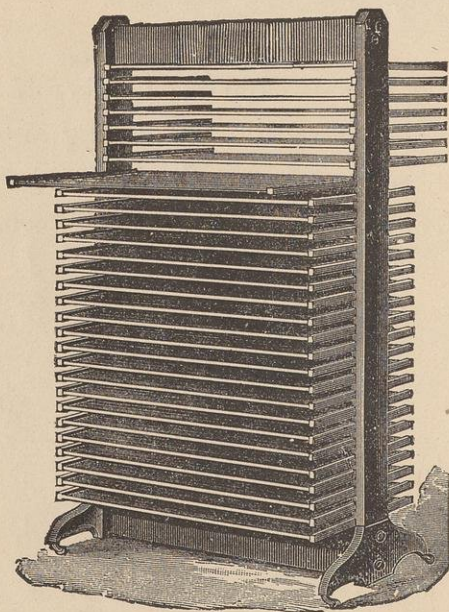

pression, and prevent the cutting of the rollers by rule or leaders. In other words, they will save the rollers and improve the press-work.

PRICE PER PAIR.

For 5x9 Chase.....	\$.35
For 7x11 ".....	.40
For 8x12 ".....	.45
For 10x15 ".....	.50
For 11x17 ".....	.60
For 13x19 ".....	.75

When ordered by mail add to the price of the first size, 6c; to the second, 10c; to the third, 12c; to the fourth, 15c; to the fifth, 19c; to the sixth, 25c.

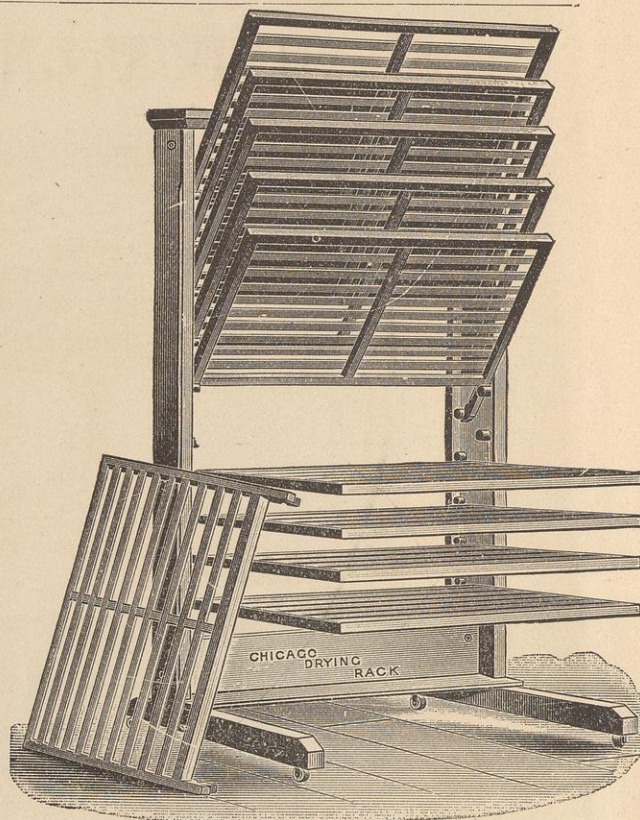

MOVABLE DRYING RACKS.

This rack is a very economical arrangement for holding paper direct from the press, and we would call the attention of printers to its saving of money, time and stock.

It is mounted on castors, so that it can easily be placed in the most desirable position for receiving the work from the press, or it can be rolled up to the stove or window for drying quickly. They are made in two sizes, to take paper 24x36 or 28x42. They may be used independent of the frame if desired, being so constructed that when piled one on another there is considerable open space between them.

No. Dryers.	Size.	Price.	No. Dryers.	Size.	Price.
1	20 24x36	\$14 00	3	20 28x42	\$20 00
2	30 24x36	20 00	4	30 28x42	28 00
24x36 Dryers, per dozen...		\$4 80	28x42 Dryers, per dozen...		\$6 00

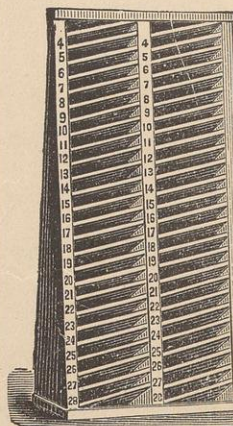

CHICAGO DRYING RACK.

To hold 12 shelves, 2 ft. wide x 2 ft. long	\$14.00
" 10 " 2 " x 3 "	18.00
" 10 " 2½ " x 4 "	23.00

Above prices include shelves.

This rack combines the qualities of strength and compactness, and at the same time is easily moved to any given point on castors. It is constructed of ash, polished and oiled, and makes an ornamental piece of furniture. The shelves are independent of each other and are easily taken from the frame, and when not in use these shelves can be put out of the way, as shown in the cut, occupying only the room required for the feet of the frame.

LABOR-SAVING LEAD AND SLUG RACK.

This Rack is made in a neat, strong and durable manner, having series of graduated spaces into which the different sizes of leads and slugs can be readily placed. Figures indicating the different sizes of leads and slugs are fixed upon the front edges of the upright pieces, to aid the operator in using them. The first apartment is intended to be used for 4- or 6-to-pica leads, and the second for Nonpareil slugs.

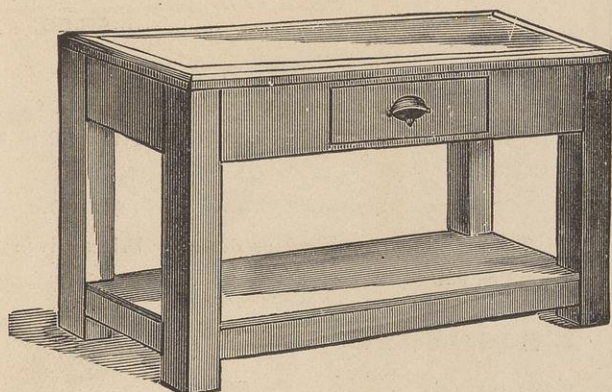

This Rack will hold 180 lbs. of leads and slugs cut from 4 to 28 ems long, enough to do the job work of any ordinary office.

Price.....\$2.00

HALF CASE.

Labor-Saving Lead and Reglet Rack.

For the printer who desires to have "a place for everything and everything in its place," these racks are indispensable.

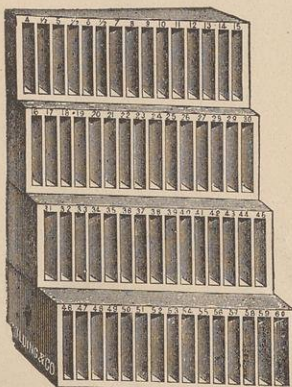

They are made in four sections with varying sizes, from 4 to 60 ems pica, as shown in accompanying cut, with the length of the leads or reglets plainly stamped on the top of each compartment.

Each rack is 16 inches long and 6 $\frac{3}{4}$ inches high.

No. 1, holding 4 to 15 ems in length.....	\$.90
" 2, " 16 to 30 " ".....	1.20
" 3, " 31 to 45 " ".....	1.50
" 4, " 46 to 60 " ".....	1.80

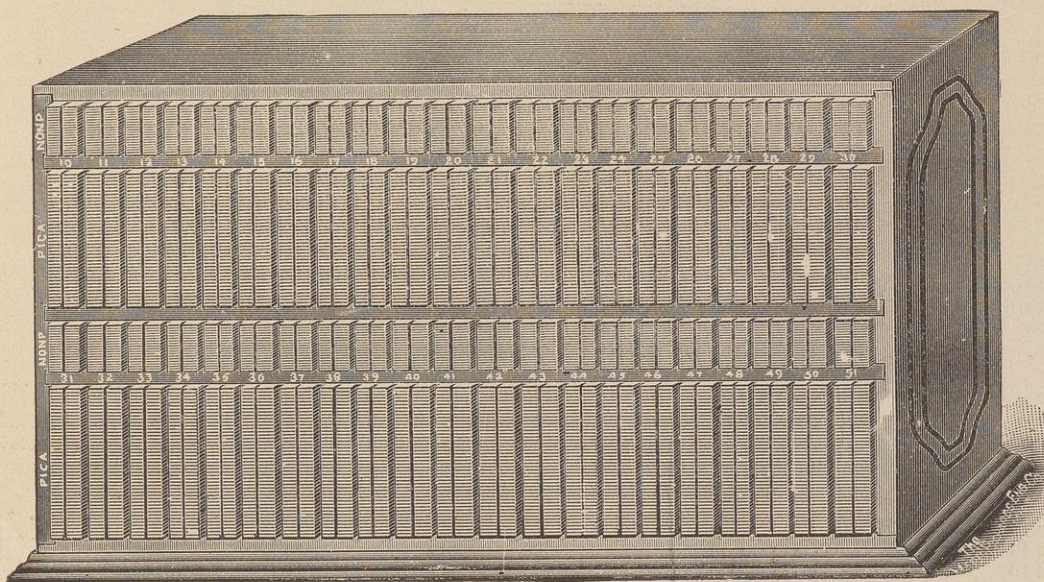

Labor-saving waterproof cherry reglet, nonpareil or pica, graduated by one em pica, 25 pieces of each size:

Font No. 1, 4 to 15 ems long.....	\$.80
" " 2, 16 to 30 " ".....	1.30
" " 3, 31 to 45 " ".....	1.80
" " 4, 46 to 60 " ".....	2.30
Labor-saving leads, 4 to 30 ems long, in fonts of 25 lbs., per lb.....	.25

This cut shows how each section may be set on end and used conveniently in that position.

REGLET CASE No. 3.

Reglet Case No. 3 contains 4,200 pieces of reglet (550 yards) half pica and half nonpareil. The pieces run from 10 to 51 ems long, 100 pieces of each length, varying *one pica only*. This is a very convenient case for the compositor, as he has within reach any length desired, without cutting and wasting reglet for each job.

Price.....\$15.00

No. 4—Same as No. 3, with 50 pieces of each length instead of 100.

Price.....\$8.00

No. 5—Same as No. 3, to which are added lengths from 55 to 150 ems, varying in length by 5 picas. This case contains 1,500 yards of reglet cut into 6,300 pieces, and is the most convenient reglet case ever offered to printers.

Price.....\$38.00

No. 6—Same as No. 5, half size. Price.....\$20.00

HAMILTON'S NEWSPAPER FILE.

FASTENING.

These Files are made of cherry, nicely finished in oil. The fastenings are brass, with steel thumb-screw, having polished heads. The manner of opening and closing the file to insert a sheet is quite novel and simple. The clasp end of the file has a flat headed thumb-screw which is passed through a slot, and by giving the screw one-quarter of a turn the file is securely locked.

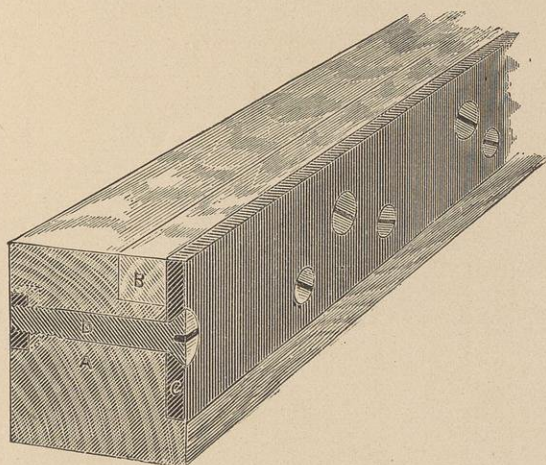

Price Each, \$1.25.

They are made in the following regular sizes; other sizes furnished if desired:

To hold sheet 20 in. wide.	To hold sheet 28 in. wide.

HAMILTON'S CUTTING STICK FOR PAPER CUTTERS.

DESCRIPTION.—Our Cutting Stick consists of Main Body Piece A, which has a groove or recess cut the entire length of same to receive a small strip (B) $\frac{1}{4}$ of an inch square. This removable strip is the cutting surface, and is held in place by a steel clamp C, which is drawn up by the bolts D. This removable strip being square, can be used on four sides, thus giving the same amount of cutting surface as a large sized stick.

WE CLAIM: 1st. That the steel strip running the entire length of Main Body Piece and screwed thereto absolutely prevents warping or springing.

2d. That there is a saving of 75 per cent. in cost of cutting sticks after the first cost of Main Body Piece, and by buying one Main Body Piece and four dozen small strips, the first cost is less than that of four dozen ordinary sticks.

3d. That the strips can be shipped by express in bundles of 100 or more at trifling cost, where one dozen of the ordinary sticks are so bulky that they must be boxed and shipped by freight.

4th. That we make the slot in all body pieces of a standard size, so that strips can be ordered at any time with an absolute certainty of their fitting.

DIRECTIONS FOR ORDERING.—In ordering a Body Piece for your cutter: First, give size square the stick is to be. Be particular on this point and see that the slot in the machine is measured accurately. Second, give length of stick. Third, how far from the front edge of stick does the knife strike? Fourth, is the shear of knife from right to left or from left to right in making cut. In ordering the small strips, it is only necessary to give length of stick, as we cut them all to a standard gauge and have but one size.

Price of Main Body Piece, any length up to 38 in.,	\$5.00
“ “ “ “ from 38 to 54 in.	6.00

THE FLEXIBLE GAUGE PIN.

PRICE, 75 CENTS PER DOZEN.

No. 4, Side-Gauge. No. 1, Low Bottom Gauge. No. 3, High Bottom-Gauge.

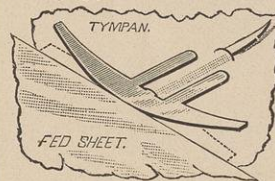

THE MOST STRIKING

and important feature of this new gauge pin is its wonderful adaptation as a

SIDE-GAUGE.

as it can be used directly under the gripper without injuring either, and the elasticity of the spring-arms is guaranteed to last as long as the pin itself. You have seen the time when you would gladly have paid a large sum for a thing that would have enabled you to use both grippers, and now you have it and a great deal more for the small sum of 75c per dozen. We will assort the three sizes so that you can get the full benefit of the invention in a single purchase, if desired.

The following cut shows the No. 4 pin set for feeding. The gripper, when it descends, will press the spring-arms flat, and thus, being unobstructed, will grasp the sheet. Do you imagine the gripper will bear off? The metal is very thin, and yields readily under a light pressure, but even this can be counteracted by cutting some paper out from the packing. Should

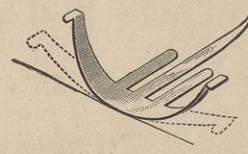

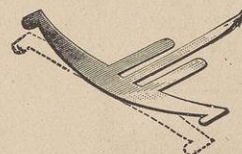

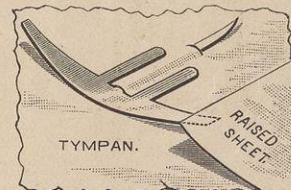

the sheet be very small and you desire a narrower gauge, the ends of the spring-arms may be clipped off a trifle. Where the metal is extra thin the attaching parts will be embossed to stiffen them. They are made with teeth as well as without teeth. Those with teeth are adjustable and prevent the sheets from feeding under the gauge. In all this we have a most excellent side-gauge.

NEVERTHELESS THE OTHER

features of this gauge pin will be hailed by many printers as of considerable importance, and we illustrate herewith the different sizes manufactured.

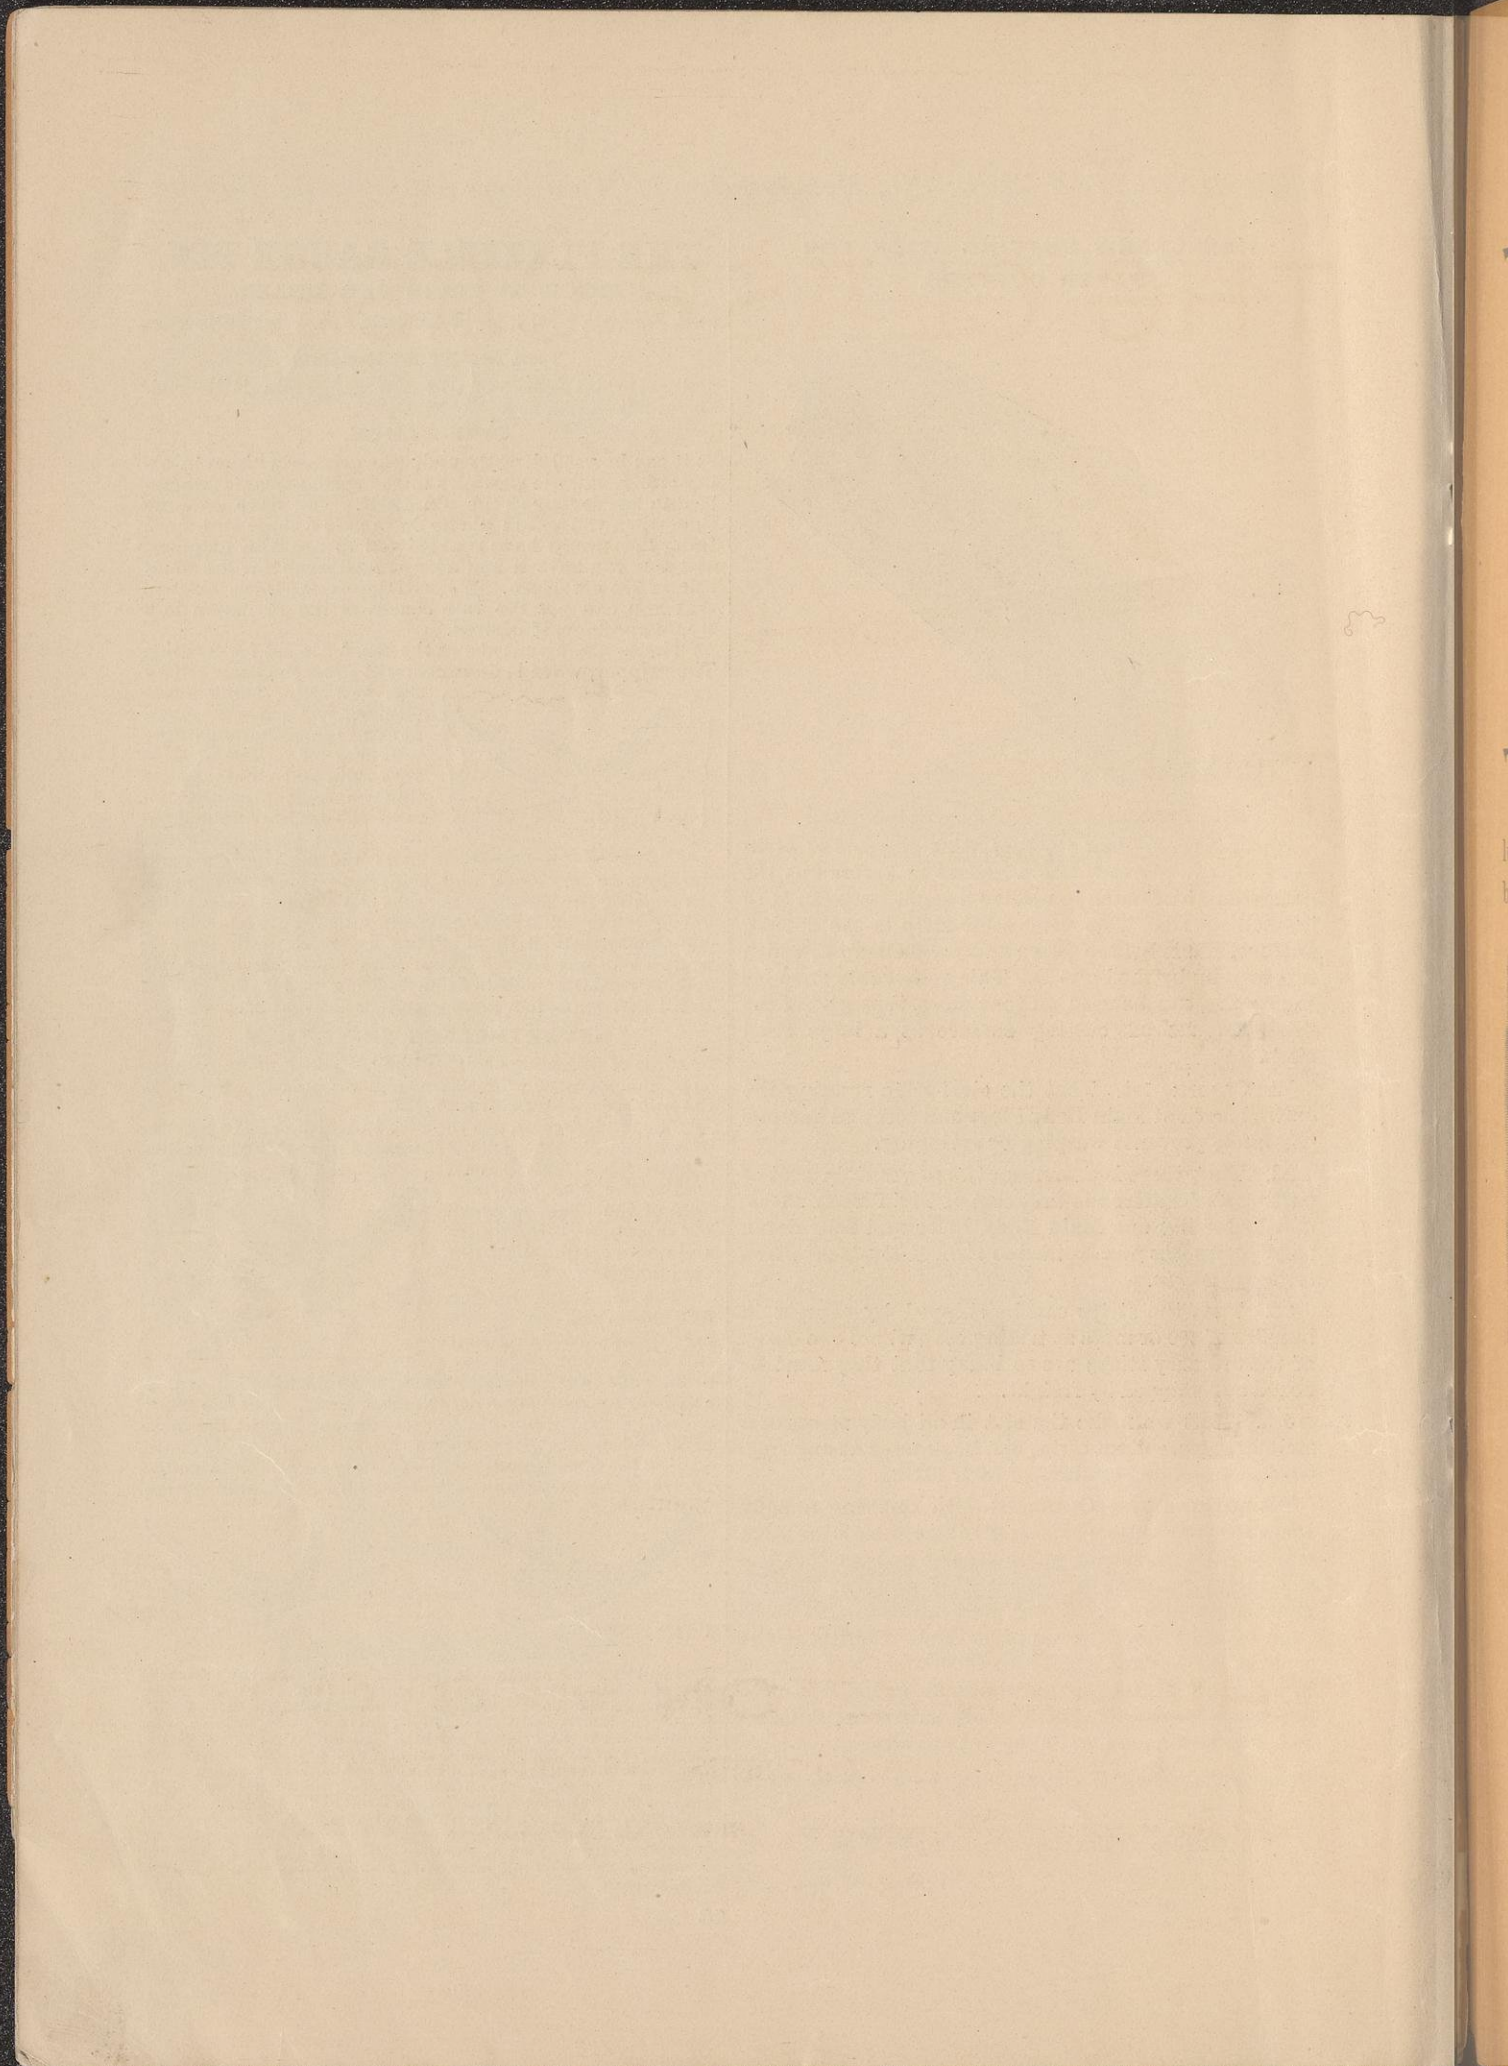

The cut above shows the No. 4 placed so as to register the sheet. Below we show the same pin acting as a sheet lifter. This feature will enable the feeder to take hold of the sheet between his thumb and forefinger and remove it quickly without smudging.

The next cut, on the left, shows the No. 1, the only difference being that this has a lip or projection at the ends of the spring-arms to keep the sheets down. It can be used most anywhere the No. 4 can. But the No. 3, shown on the right, owing to its extreme height of curvature, will not flatten except to rise only half way up again, and this is consequently suitable only as a bottom gauge, or, when the gripper does not strike it, as a side gauge.

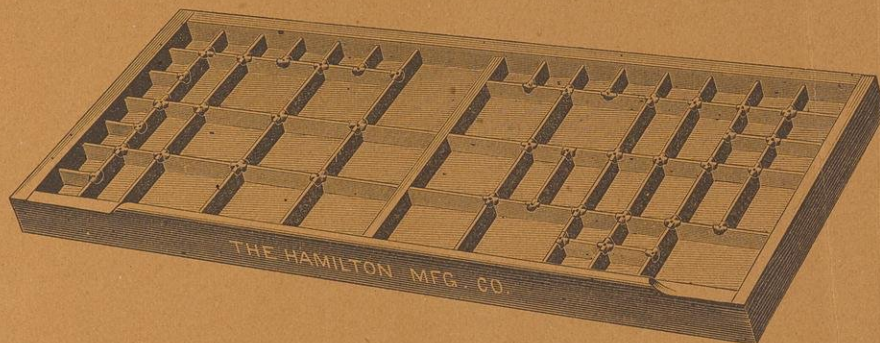

This will be found excellent in feeding sheets that curl and refuse to go down flat, especially where the margin of the sheet is narrow. The furniture, of course, will come in contact with No. 3, but being lower than the type will press it only part way down, in which case it will return to its original height. The dotted outline indicates the degree of descent. The ends of No. 3 are bent over to prevent rough contact, but should be used opposite an even surface in the form. The gauge pin is well balanced, both arms striking at once, so that its action does not strain it out of the tympan.

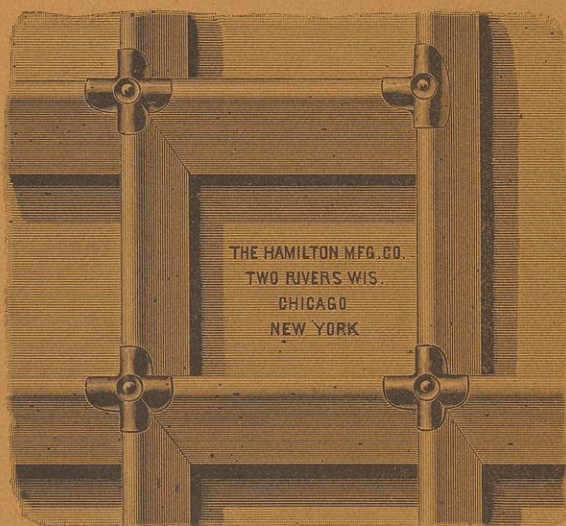

Again, while possessing all the advantages of a gauge pin in speedy and handy attachment, it may be fastened with paste by securing a square piece of paper over the flat parts and inserting one corner in a short slit made with a knife in the tympan in front of the gauge.

THE CLASP CASE.

THIS is by far the strongest and most durable Case on the market. Each intersection of the slats is capped by a strong brass clasp, which absolutely prevents the partitions from being broken out and the contents of one box running into another.

This cut illustrates the manner in which the Clasp is attached. Its practicability will be seen at a glance. We manufacture all styles of Cases with the Clasp, at a slight increase over the price of the ordinary case. Below we give prices of the Cases most used, fitted with Clasps:

	With Clasps.	Without Clasps.
News, per pair.....	\$1.75	\$1.60
News, Rooker size, per pair.....	1.75	1.60
Italic or Job, full size, each.....	1.00	.90
Italic or Job, $\frac{2}{3}$ size, each.....	.80	.75
Triple, each.....	1.00	.90

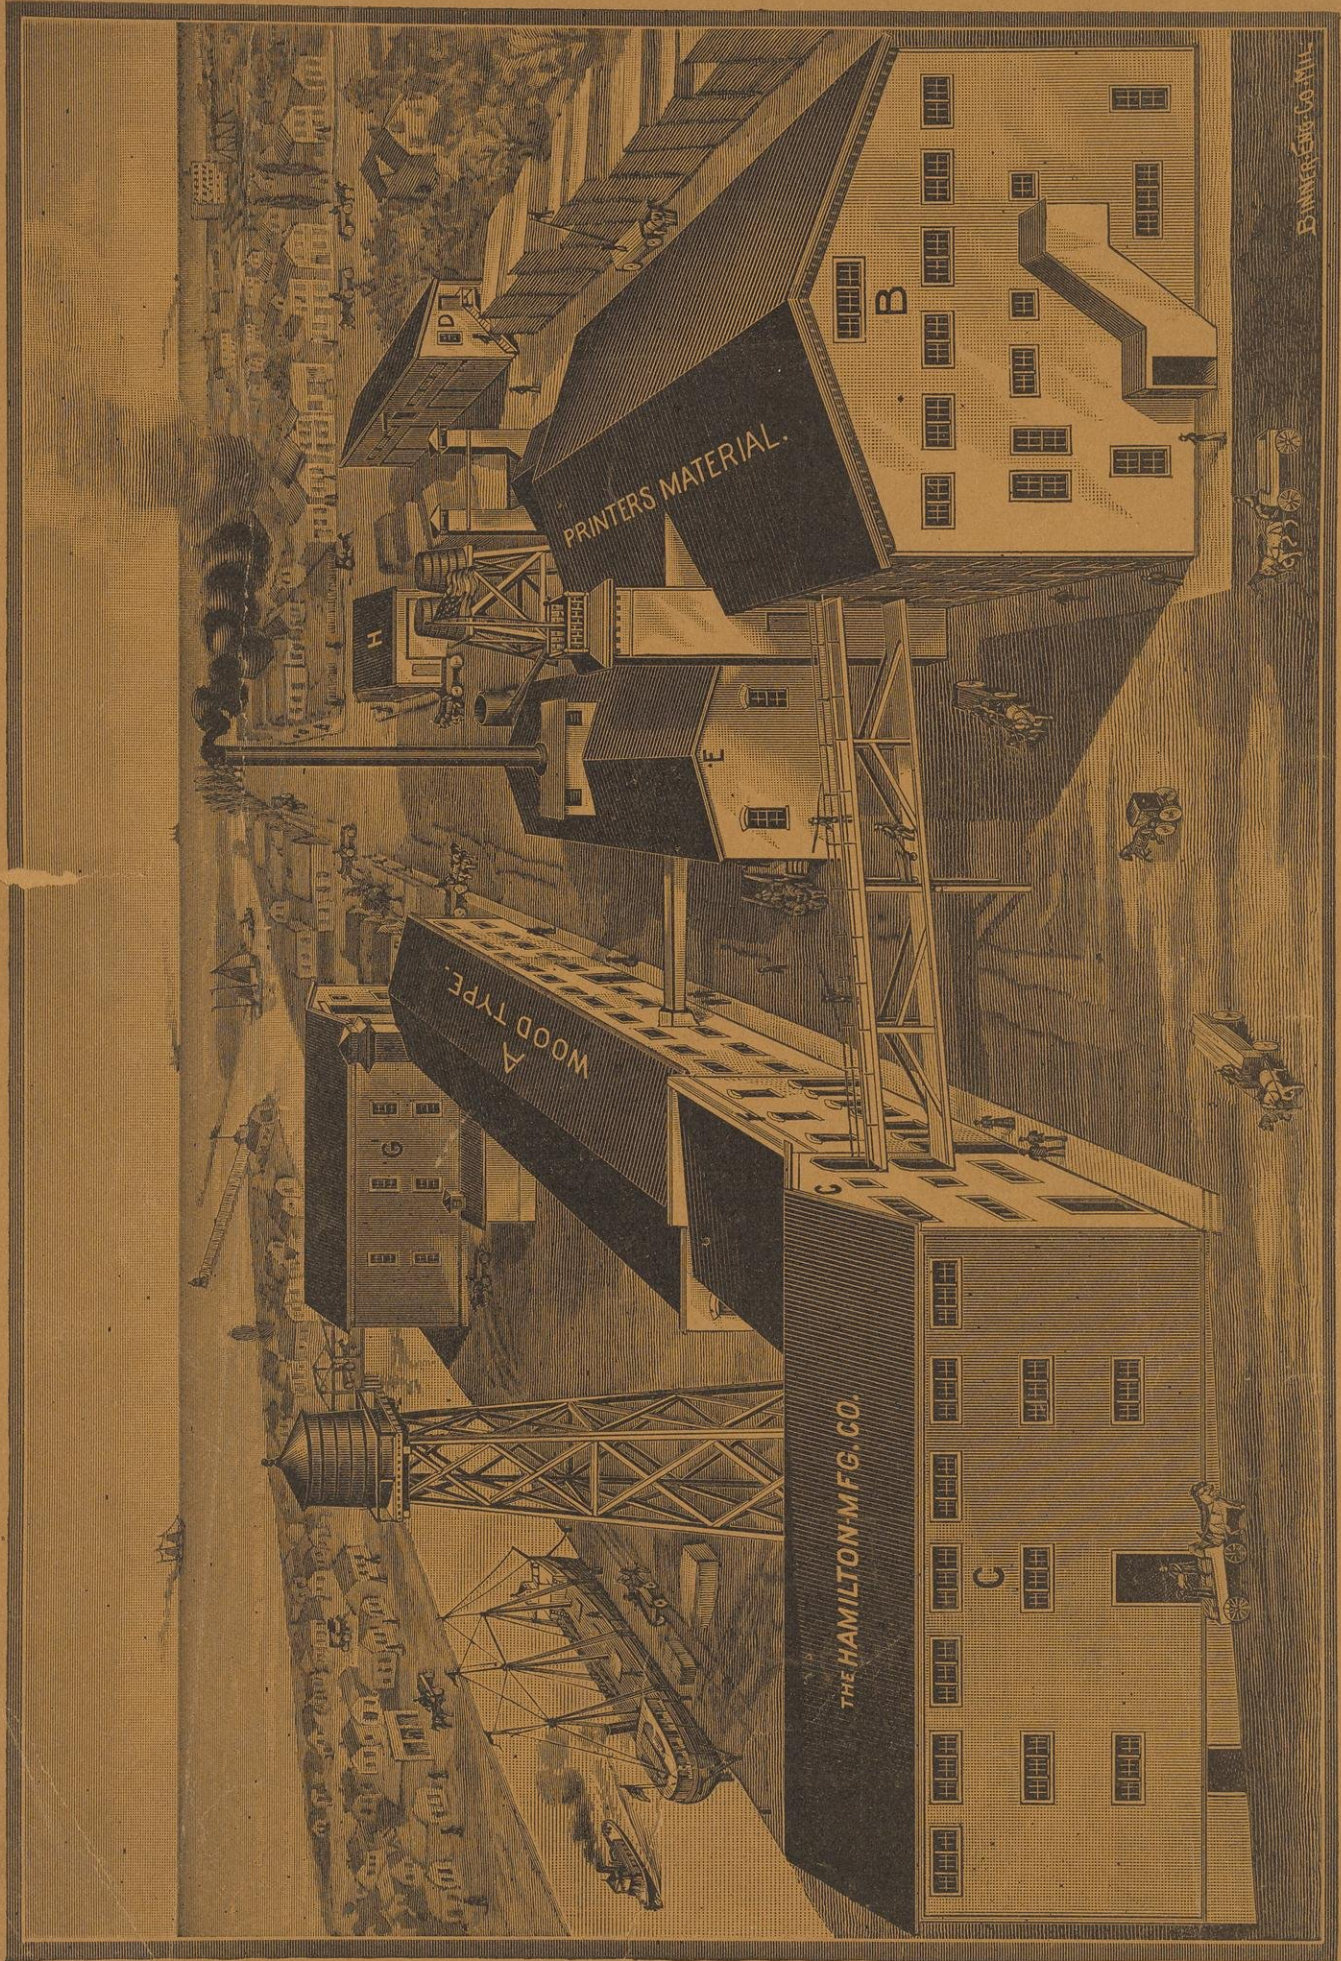

Above prices are subject to the usual discounts.
