The Classical Organist,

A Selection of Celebrated Compositions

from the works of

Handel, Mozart, Beethoven, Mendelssohn, Meyerbeer, &c.

Arranged from the Orchestral Scores for the

ORGAN,

with Pedal Obbligato,

by

J. T. STONE.

In Six Vols., oblong folio, 15s. each: or in Thirty-six Nos., 3s. each.

Messrs. D'Almaine & Co. in announcing to the professors and accomplished amateurs of the Organ the publication of the above important Work, beg to state that they have been induced to publish the same in order to supply the requirements of the Modern School of Organ-playing.

The CC scale being now universally recognised as the only true and legitimate compass for the Manuals and Pedal-clavier of an Organ, it is evident that most of the former arrangements of classical compositions for the GG instrument—with its incomplete and defective Pedal-board—are inadequate to the capabilities of the CC organ. For instance, in previous arrangements for the GG scale, not only the position of the different instruments, but also the vocal parts, have often been reversed, in order to facilitate the execution of certain passages; thereby violating established theoretical rules, and producing a totally different effect to that intended by the composer.

The Editor, having arranged the celebrated compositions contained in the present work from the full scores, has endeavoured to represent, as far as practicable, the orchestral effects capable of being produced upon the grandest and most majestic of all musical instruments.
