GARDNER RESIGNS AS MANAGER OF MEMORIAL FUND

Ill Health Leads to Professor's Action; No Success is Appointed

The resignation of Prof. E. H. Gardner of the Course in Commerce from his position as campaign manager for the Memorial Union fund was accepted by the executive committee of the Memorial building at a meeting at the Milwaukee athletic club April 9. Ill health caused Professor Gardner to take this action. No successor has been appointed.

T. H. Clausen, president of the committee, read the letter of resignation which was respectfully accepted. The action of the committee as taken from the minutes of its meeting follows:

May Continue as Member

"The resignation was regretfully accepted by the committee and the secretary instructed to spread upon these minutes the appreciation of the committee for the excellent services of Professor Gardner in the past, its hope that he would be able to remain on the committee as a member, and further that a letter be sent him recording this action.

"It was decided by the committee that no campaign manager should be appointed for the present to succeed Professor Gardner, but that the present organization should carry on."

Raised Majority of Fund

Professor Gardner has been campaign manager for the fund for more than three years and has expended great effort and attention to bringing the Memorial Union building to construction. He made personal tours over the entire country to meet alumni and explain the cause of the Union to them. Under his directorship more than half of the entire budget needed for the construction of the building has been received.

John Dollard '22, secretary of the executive committee, will act as director of the campaign fund until a successor to Professor Gardner has been selected.

TURNER SPEAKS ON U. S. SECTIONALISM

Harvard Professor Says Amer- ica is Federation of Sec- tions, Not States

That the United States is a complex of sections, a federation of sections and not states was explained by Prof. F. J. Turner, Harvard university, and formerly a member of the faculty of this institution, in his lecture, "Sectionalism in American History" yesterday afternoon.

Prof. Turner showed his audience some of the many phases of sectionalism in American history. He explained that in general there were between 15 and 20 large sections in the United States which may all be classified under the possible following kinds of sections:

Division because of a sense of justice causing bitter feelings; somewhat less antagonistic division creating mere parties; minor sectional dissemblance because of political parties; sectional insurgency short of secession; concealed sectionalism in legislative construction; sectionalism in material interests; and sectionalism in culture, literature, and speech.

"No man keeps on a comin'" is a typical example of southern speech," said Prof. Turner, "and the expressions, as 'this state produces the most perfect cow ever raised on sea and land,' and 'we don't have to pray for rain out here' need no explanation," he said.

Mayor Kittleson Extends Welcome to Expo Visitors

Mayor I. Milo Kittleson yesterday extended to citizens of the state attending the university exposition a cordial welcome.

Gyro, Kiwanis, Lions, and Rotary clubs have put at the disposal of the exposition a number of cars. These will be used to conduct tours about the city and university campus. Tours will leave the library at half hour intervals every morning during the exposition.

The Association of Commerce recently urged the business interests of the city to back the Expo to the limit. The Yellow Cab company has reduced its fare from all stations in the city to the scene of the exposition to a standard rate of 25 cents.

Mayor Kittleson's welcome follows:

This week the capital city of the state is to be at the disposal of thousands of visitors to the University of Wisconsin Exposition. As Mayor of Madison I extend a cordial welcome and an assurance that all who come will be most eagerly and enthusiastically received.

I. MILO KITTLESON.
Mayor.

SINGERS ARRIVE AT MASON CITY

Full Houses and Enthusiastic Audiences Greet Men's Glee Club

MASON CITY, Ia., April 14—The Men's Glee club arrived here from Winona today in best condition for the eighth concert of its tour. The club has been singing to full houses and enthusiastic audiences all the way.

Alumni and friends of the university have given the club splendid treatment along the trip, according to R. C. Nethercut '25, president, and the tour, in addition to being the longest yet taken is developing as the most successful ever put on by the club.

The special Easter Sunday concert at La Crosse at the Congregational church was well received by an audience that jammed the building. Enough people were turned away to have made an overflow concert possible if another auditorium could have been secured. More than 1,000 turned out at Winona for the club's first concert in Minnesota.

The appearance at Stevens Point and Wausau were applauded for encore and encore until Professor Swinney was forced to end the concert with "On Wisconsin." J. Francis Mantell '26, violinist, and Eugene Leonardson '26, soloist, have had very enthusiastic applause for their work.

The concert tonight at the First Methodist church will be featured by several organ solos by Nethercut. The club sings at Iowa Falls tomorrow, Waterloo Thursday, Cedar Rapids Friday, and at Davenport Saturday.

Nine Days' Construction Work Ends With Official Opening

The opening of the doors of the university exposition this afternoon will mark the climax of nine days of intensive construction work that has been taking place in the gymnasium and in the annex.

Soon after the exodus caused by spring vacation active construction work was started under the direction of Alfred Huehnenbruch '25, in charge of the construction department. The work was carried on in cooperation with other members of the exposition planning committees and with members of the service department of the university.

Some idea of the magnitude of the undertaking of the work of this de-

GOVERNOR BLAINE, PRESIDENT BIRGE TO ATTEND CEREMONIES

All 1:30 Classes Are Dismissed; Band Playing and Salute of Guns to Mark Opening of Great University Display

By ALICE COLONY

Immediately following the governor's salute of 17 guns, which will be sounded by the university battery corps, the 1925 university exposition will be officially opened at 1:15 o'clock this afternoon by Gov. John J. Blaine, who will give a short address of welcome in front of the men's gym preceding the formal opening of the doors, at which time President Birge will preside.

The Expo will run from 1:30 o'clock to 12 o'clock today, 9:30 o'clock in the morning to midnight tomorrow, and 9 o'clock Saturday morning until midnight Saturday night. The admission will be 75 cents.

Band to Play

The university band will play before the big doors swing open on "The cross section of the university," and then the masses will pour into the gym to view the six months' cooperative work of students, alumni, faculty, and Wisconsin citizens. At 12 o'clock tonight the doors will again close.

All 1:30 classes will be dismissed today because of the opening of the university exposition. Other classes will be held as usual during the remainder of the afternoon.

The fourth university exposition represents the efforts of an army of more than 1,000 workers as compared with 750 workers in 1921 and has grown in every respect so that the million dollar exposition which opens today is the largest that has ever been held here. The estimated attendance is 50,000 as compared with 15,000 in 1921.

Railroads Offer Rates

Special rates are being given during the three days of the Expo by railroads and bus lines and high school students will be pouring into Madison from all over the state on Saturday which will be the big and last day of the exposition. Hundreds of reservations have already been made at the local hotels and it is expected that the crowd will increase every day until the final closing of the doors at midnight Saturday.

Exposition visitors who are not students will register at the booth in the gym which is being conducted by the Alumni association and will receive application blanks for next year's football tickets. Souvenir programs will be on sale for ten cents, which includes a schedule of daily events, descriptions of the exhibits, announcement of the army of Expo workers, and the official welcome of Governor Blaine, President Birge, and Eugene Tuhtar '25, general chairman.

All Madison is ablaze with card-

HARESFOOT CLUB RETURNS TODAY FROM ROAD TOUR

Capacity Houses Greet Show; Performances Here Nearly Sold Out

The Haresfoot club will arrive at 9:50 o'clock this morning from Milwaukee where the last performance of the 1925 road tour was presented last night at the Pabst theater. The company will have one day's rest and then give three performances this week-end at the Parkway. Three more performances are scheduled for next week end.

The club gave 16 performances in 12 cities, leaving Madison April 1 and closing the road engagement yesterday with matinee and night shows in Milwaukee. Special Pullmans and a baggage car were used by the club on the trip which covered more than 2,500 miles in seven different states.

Chicago Enthusiastic

Capacity audiences received "Ivan Hol" in all but two cities. Every performance was generously applauded by patrons. The Chicago audience in particular gave the club the best reception that it has ever received in that city.

Practically all of the seats for this week end are sold, the Parkway management announced last night. Only single seats in the balcony are available for tomorrow night and scattered single seats for Saturday night's show. One hundred fifty seats for the Saturday matinee are left. Students who sent in mail orders before vacation may get their tickets today or tomorrow at the box office of the theater.

Entertained by Alumni

Alumni organizations and civic clubs entertained the company at various cities on the tour. In Racine the club was entertained at dinner by A. J. Horlick, former regent. Yesterday the Kiwanis club of Milwaukee entertained the company at luncheon, and last night the club members were guests at a dance at the Milwaukee Athletic club. Indianapolis and Cleveland alumni also gave dances after the show for the club.

Critics in various cities were cor-

WILL HOLD CON EXAMS SATURDAY

Students Not Making Proper Application Will Be Barred

Examinations for the removal of conditions will be held Saturday afternoon. Students who have failed to make proper application will not be admitted.

The time and place of the examination are:

Botany, 1, 301 Biology; Chemistry, 1, 102 Chemistry; Course 26, 3:30, 360 Bascom; Economics, 1, 401 Sterling; English, 1a, 1b, 30b, 145, 90, 3:30, 360 Bascom; all others, 1, 165 Bascom.

French, 3:30, 220 Bascom; Geology and Geography, 1, 217 Science; German, 1a, 1, 212 Bascom; 2a, 3:30, 360 Bascom.

History, 3:30, 212 Bascom; Journalism, 1, 212 Bascom; Latin, 1, 264 Bascom; Mathematics, LS, 1, 112 Bascom; Engineering, 1, 101 North; Music, 1, 212 Bascom; Philosophy and Psychology, 3:30, 112 Bascom; Physical Education, 1, 212 Bascom.

Physics, 1, 111 Sterling; Political Science, 1, 212 Bascom; Scandinavian Languages, 3:30, 360 Bascom; Spanish, 3:30, 220 Bascom; Speech, 1, 212 Bascom.

College of Agriculture, 1, 116 Horticulture; Medical School, 1, 119 Science; College of Engineering (see schedules in Engineering building).

Today's Expo Program

- 1:15—Salute to the Governor.
- 1:30—Gov. John J. Blaine officially opens the 1925 exposition. Address by President Birge.
- 1:45—University band.
- 3—Style show, Women's Physical Education department; gymnastic, wrestling and boxing exhibitions on third floor of armory, Men's Physical Education department; "Old Faithful" geyser erupts, throwing water and steam to the roof of the gymnasium; Library and Art schools exhibit open for inspection.
- 4:30—Slide and film showing in Music hall—English department.
- 5—"Old Faithful" geyser erupts.
- 6:40—Slide lecture on Romance languages—Music hall.
- 7—"Old Faithful" geyser erupts. Style show in Women's Physical Education.
- 7:20—Semetics slide lecture—Music hall.
- 8-9—Ten piece orchestra (mixed).
- 8:20—German slide lecture—North hall.
- 9—"Old Faithful" geyser erupts. Style show by Women's Physical Education department.
- 10—Art and Library inspection trip.
- 11—"Old Faithful" geyser erupts.
- 12—Taps.

ZONA GALE TO TALK HERE NEXT TUESDAY

Zona Gale, prominent alumna, and the University of Wisconsin, and at present member of the board of regents, will lecture under the auspices of the Arden club, next Tuesday evening in Music hall. Her lecture, which she has given in eastern cities, is entitled "Scholarship and the Spirit."

Two Papers Daily to Be Printed For Exposition Events

A regular miniature printing office with a 10 by 15 Chandler-Price printing press set up in the northwest corner of the armory will be one of the features of the university exposition which begins today. This press which was loaned by the Democrat Printing company will print the greater part of the Exposition News.

The Exposition News, a small four-page folder, will be issued twice daily during the exposition in an afternoon and evening edition. The evening edition will be printed on pink paper. Students of the Course in Journalism have been grouped in seven forces of ten reporters each to work on the editions.

Various displays of work in the journalism exhibit have been arranged. Work in the type laboratory and advertising sets will be on display. Copies of newspapers set up by the students will also be on exhibition.

Badger Baseball Nine Wins First Big Ten Tilt; Southern Trip Helps

Stace and Shrenk Pitch Badgers to Victory in Season's Opener

Opening its Big Ten baseball season after a disastrous southern trip from the view of victories, the Wisconsin baseball nine won its first contest of the conference season by defeating Northwestern 8 to 5 Tuesday afternoon.

Throughout the game against the Purple, the Badger players showed great improvement since they left home on April 3. The team made 11 safe hits to 5 garnered by the Northwestern diamond men.

STOLL AND SHENK PITCH

Stoll started the game for the Badgers, and hurled well until the sixth inning. In this frame, the Purple hitters got at him. Shrenk was called to relieve him, but four runs had been scored. Shrenk twirled well the remainder of the game, except for a brief moment in the ninth inning, but the Evanson team was able to get only one run across the plate at the time.

The box score:

WISCONSIN

	AB	R	H
Tangen, 3b	5	2	3
Ellingson, 2b	5	1	1
Janssen, lf	4	0	0
Larson, cf	4	0	1
Feuchtwanger, rf	4	1	0
*Edwards	1	0	0
Steen, 1b	4	1	0
Lambole, c	5	1	1
Wieland, ss	4	1	2
Stoll, p	3	1	2
Shrenk, p	1	0	1

Total 40 8 11

*Edwards batted for Feuchtwanger in ninth.

NORTHWESTERN

	AB	R	H

Greek Baseball to Open Season With Games Tomorrow

Interfraternity Baseball league competition will open tomorrow afternoon. The Chi Psi squad will meet Sigma Chi on the lower campus at 5 o'clock, Kappa Psi will meet Theta Xi on the west varsity diamond at 6 o'clock, Sigma Pi will play Sigma Alpha Epsilon on the freshman diamond at 6 o'clock, and Alpha Gamma Rho will engage Phi Kappa Sigma on the second freshman field, which is close to the spring football field, at 6 o'clock.

The first three of the above games are division 1 matches, while the last is a game of division 2. The 42 fraternities which form the Interfraternity league have been divided into eight divisions. Letters have been mailed to the competing chapters informing them of the schedule of play and of arrangement of divisions.

No games will be scheduled for Monday nights, neither will any be scheduled for the women's field at Camp Randall. Interfraternity teams are asked to keep off the women's fields at all times, and intramural players are not to interfere with the varsity and freshman squads. While the latter are at work, the interfraternity men are not to be on the fields.

FIRST GRID PRACTICE SINCE RECESS, TODAY

Coach Little has announced that the regular varsity spring football practice will be held this afternoon at 4 o'clock at Camp Randall.

APPLETON, Wis.—Coach Mark Catlin's Lawrence college football squad held its first workout yesterday afternoon. Twenty men were on the field. Only four letter men were included. The turnout was rather disappointing, but, due to some misunderstanding, the date for the first practice was announced as Friday of this week instead of Monday.

Team Improves Much During Trip South; Wins Only One Game

Although losing seven of the eight games played on the southern training trip, the Wisconsin baseball team has returned to Madison a team more potent and experienced than two weeks ago when it left. To top the training trip, the Cardinals won their first conference tilt with Northwestern.

The most outstanding feature of the team in the South was its excellent team play. Reports say that wherever the Badgers played, their work was better than the opposition. However, the batteries of the Wisconsin team were still in the development stage, and were not able to compete against the southern teams which were in midseason form.

The next game on the Badger schedule is one with the Michigan Agricultural college of Lansing. The game will be played here Saturday afternoon.

The results of the Southern trip are:

- Wisconsin 8, St. Louis University 9.
- Wisconsin 2, University of Mississippi 4.
- Wisconsin 0, University of Mississippi 4.
- Wisconsin 4, Mississippi college 7.
- Wisconsin 1, Mississippi 14.
- Wisconsin 4, Mississippi A. and M. 7.
- Wisconsin 1, Mississippi A. and M. 4.
- Wisconsin 8, Union university 3.

JAMES J. CORBETT TO TALK HERE WEDNESDAY

James J. Corbett, world famous as heavyweight boxing champion and the man who knocked out John L. Sullivan, but today more widely known as a most delightful entertainer, will lecture in the Madison Central high school auditorium next Wednesday night. His subject will be "Memories of an Active Life and How to Keep Young."

Great Britain has issued more than 1,200,000 wireless receiving licenses.

Uteritz Calls For Some More Frosh Pitchers, Catchers

A lack of freshman pitchers and infield men is handicapping the work of the freshman baseball squad, and Coach Uteritz is especially desirous that more men try-out for the different positions.

Practice is held daily at Camp Randall and the men reporting will be given an opportunity to play in their favorite position.

All candidates for the squad are asked by Coach Uteritz to report to him for 3 o'clock today at Camp Randall.

CREWS HELD DAILY

WORKOUTS LAST WEEK

While the population of Madison appreciably dwindled last week during spring vacation, the Badger crews, both freshmen and varsity, worked out twice daily on Lake Mendota. Only the first string men, however, were retained for this practice by Coach Dad Vail. The men are rapidly rounding into better shape, and are daily developing more speed.

Indiana Wins Game

From Depauw By 6 to 3
BLOOMINGTON, Ind.—Indiana defeated Depauw 6 to 3 in the season lid lifter here Tuesday.

FOUR CHANGES MADE AT ANNUAL SWIM MEETING

Plunge is Abolished as is the 4:40; Medley Relay Substituted

No longer will spectators hold their breath as they watch heavy men submarine the tank in swimming meets; no longer will the 220 yard free style be among the events of conference meets. Many recent changes have been made at the annual conference of coaches which was held at Chicago last week.

For the 220 will be substituted the 440, a wind killing distance which stumps many college swimming teams. In lieu of the time honored plunge will be the medley relay, which will doubtless prove decidedly more exciting. The medley relay consists of three men, each swimming 100 yards, the first back stroke, the second breast stroke, and the third crawl.

Water Polo New
Water polo is substituted for water basketball, and the flash system is to be used in judging the dives. The old order of events has been dynamited.

CARDINAL SPORTS Athletics in the Collegiate World

Ill Fates Combine To Keep Trackmen From Western Title

McAndrews is High Point
Man; McGinnis Handi-
capped

A combine of ill fates united to prevent the Badger cinder squad, one of the best in the middle west, from emerging victorious over the crack team from California, last Saturday.

The night before the meet, the heavens opened, and a deluge of rain made the clay track in the California oval anything but suitable for fast time. The effects were especially noticed in the Wisconsin distance men. In all the races, from the half to the two mile, slower times were made than those turned in by Badgers earlier in the season yet the Cardinal tracksters did not garner a first place in any of these races.

Followers of "Chuck" McGinnis were disappointed not to see their star come through with a first place in the high jump, but very few know that McGinnis was competing with a sprained ankle and gave one of the best exhibitions of gameness that sport followers are permitted to witness. The second place that he won under such a handicap is more worthy of comment than had he won under ordinary circumstances.

McAndrews Stars

McAndrews was the outstanding star of the day garnering 11 points for the Badgers with a first in the century, and a second in the furlong and broad jump. His feat of heading Barber, premier dash man on the Pacific coast, in the 100 in the fast time of 9.9-10 on a rain soaked field was a surprise to even his strongest backers.

Schwarze came through with one of the best heaves of his career in the shot when Gerkin forced him to toss the shot out 48 feet 7 1/2 inches to win. In the discus Schwarze was an easy second until the judges called one of his heaves illegal and he was forced into third place.

Turning in a time of 3:27.8-10, the Cardinal mile quartet ran one of the fastest mile relays that the Californians have seen this season. Kennedy, running in anchor position, ran a beautiful race as did all his teammates, but the work of Kennedy was especially noteworthy as he had already won a fast 440 from Johnson, Golden Bear flash.

Team Goes to Kansas

After this disheartening defeat Coach Jones and his squad of 20 are determined to make a strong show at the Kansas Relays on their return trip this Saturday. The Badgers are entered in the half mile, two and four mile relays as well as the medley relay. The mile and four mile quartets look the strongest.

Summaries of the California meet are:

Mile run—Carter (All Stars) first; Schutt, (Wis.) second, Ross (Calif.) third. Time, 4:32.1-10.

High jump—Hampton (Calif.) first, McGinnis (Wis.) second, Roberts (Wis.) and Bradshaw (All Stars) tied for third. Height, 5 feet 2 1/2 inches.

120-yard high hurdles—Maxwell (All Stars) first, Becker (Calif.) second, Turner (All Stars) third. Time, 15.6-10.

Discus throw—Francis (Calif.) first, Gerkin (Calif.) second, Schwarze (Wis.) third. Distance 131 feet 1 1/2 inches.

Two mile run—Schwoboda (Calif.) first, Piper (Wis.) second, Perry (Wis.) third. Time, 9.54.

Pole vault—Hill (Calif.) first, Garner (Calif.) and Graham (All Stars) tied for second. Height, 11 feet 11 inches.

220-yard run—Barger (Calif.) first, McAndrews (Wis.) second, Francis (Wis.) third. Time, :22.

880-yard run—Boyden (Calif.) first, Chase (Calif.) second, Bergstresser (Wis.) third. Time, 2:02.

220-yard low hurdles—Alderette (Calif.) first, Maxwell (All Stars) second, Becker (Calif.) third. Time, :24.9-10.

Javelin throw—Easton (All Stars) first, Dodson (Calif.) second, Anderson (All Stars) third. Distance, 182 feet.

Broad jump—Bondshu (Calif.) first, McAndrews (Wis.) second, Frisbie (All Stars) third. Distance, 22 feet, 9 1/2 inches.

One-mile relay—Wis. (Flueck, Hill, Belberts and Kennedy) first, All Stars second. California finished second but was disqualified. Time, 3:27.8-10.

Shot put—Schwarze (Wis.) first, Gerkin (Calif.) second, Clark (All Stars) third. Distance, 48 feet 7 1/2 inches.

100 yard run—McAndrews (Wis.) first, Barber (Calif.) second, Kinney (All Stars) third. Time, 9.9-10.

FIRST OUTDOOR TENNIS PRACTICE HELD YESTERDAY

Nearly Score of Men Report;
Court Prospects Are
Excellent

Nearly a score of men turned out for the first regular outdoor tennis practice yesterday afternoon. Indoor practices were held before the Easter vacation, but no regular workouts had been held before yesterday.

Prospects are favorable for a more successful season this year than last in the opinion of Coach A. L. Masley. "The team is better balanced this year," he said. Four men will have regular places on the team, and they give promise of first class performance.

Most of the matches will be played at Madison, Coach Masley announced. Ordinarily only one match is played with each team against which Wisconsin competes, the place of the match being alternated each year.

One Veteran Back

Only one man of last year's team is back this season. New material uncovered through last year's freshman activities and through tournaments in the fall is promising, however. Sam Durand is the regular from last season around whom Coach Masley will build his team. Those who have shown good form include Godfrey Miller, Warren Koehler, John Mannierie, Frank Foster, Enoch Judkins, E. W. Riddle, and E. C. Giessel.

Good Weather

Practices will be held every afternoon, weather permitting, and the early spring offers the team an opportunity to get into good condition before the first match. Wisconsin was handicapped because of cold rainy weather extending al-

ATHLETIC DEPARTMENT PLANS LARGE EXHIBIT FOR THE EXPOSITION

Doctor Ekom Heads Athletic
Exhibition; All Branches
to Be Shown

By G. R. D.

Under the leadership of Dr. E. C. Elsom, veteran promoter of athletics for all at Wisconsin, the athletic department will exhibit its work for the next three days at the university exposition.

Although handicapped somewhat by the lack of space, the exhibit will portray rather accurately the varied activities of the students in physical education.

In a booth in the trophy room of the gymnasium all of the records of Cardinal teams in the past will be on display; all of the championships won on gridiron and basketball court; all of the cups won on the cinderpath; and all of the awards won on the diamond, by the crew, and by all of the other teams that have fought for Wisconsin.

Intramurals Develop

Charts will be shown with the advance that has been made in intramural athletics and the pursuit of most throughout the season last year.

The schedule of the team follows:

April 25—Marquette university at Madison.

May 2—Minnesota at Madison.

May 9—Iowa at Madison.

May 15—Chicago at Madison.

May 22 and 23—Conference matches at Chicago.

May 29—Marquette at Milwaukee.

May 30—Michigan at Ann Arbor.

the policy of "Athletics for all." The winter sports program will be completely outlined and plans for the future laid out.

Demonstrations of the work that has been done in women's work in regard to corrective gymnastics will be given. It is just recently that any attention has been paid to posture correction in women's athletics.

Each evening the gymnastic team will give a demonstration on the third floor of the gymnasium and boxing bouts and wrestling matches are also planned for the entertainment of sport fans.

In Music hall along with the other moving pictures that depict the university life will be shown pictures of Badger football, baseball, basketball, and track teams in action.

Each afternoon those interested are cordially invited to watch the football team go through its spring practice sessions at Camp Randall; to watch the baseball nine in its workouts; to watch the frosh and varsity reserve track teams in action; and to watch the varsity tennis team practice for the coming season.

Crews on Lake

Each afternoon the varsity and freshmen crews will go through their paces on lake Mendota, and the thousands of visitors will be given an opportunity to see the Cardinal shell that will represent Wisconsin on the Hudson at Poughkeepsie this June in training.

The athletic department is doing everything possible to give visitors a chance to see the athletic teams in action.

Do these questions interest you?

1. How do college men like the bond business?
2. What type of man is most successful?
3. What income can a man expect in the bond business?
4. What are some of the difficulties of the business?
5. How is a clientele built up?
6. Is the bond business expanding? What of its future?
7. What different kinds of ability does the bond business provide room for?
8. Does the bond business develop character and business judgment?

THESE and many other questions pertinent to college men who are considering the bond business as a life work are answered in our booklet, "The Bond Business as an Occupation for College Men." We shall be glad to send you a copy, upon request.

TO PROFESSOR GARDNER

The campus will read with regret of the resignation of Prof. Edward Hall Gardner as campaign manager of the Memorial Union project, more especially because of the state of his health which has forced him to resign. Professor Gardner has made through his work on the Union a permanent and significant contribution to the present and future of the university. It has been in no small part due to his vision and his enthusiasm that the Memorial Union project has been brought to its present position, and he has earned the deep appreciation of students and faculty by his work. It is to be hoped that his health will permit him to act as a member of the Executive Committee according to the unanimous invitation of that committee, and that he will see the rapid completion of the project into which so much of his time and energy has gone. Good luck, Ned, and thanks!

THE ARMY ARRIVES

Right front into line!

For months the grand army of the exposition has been steadily advancing and today at 1:15 o'clock the battle begins.

The Armory has been transformed into the university in miniature, showing a cross section of the aims and accomplishments of each school and college. For three days the university will literally be turned inside out for the inspection of some 50,000 visitors from all parts of the country. It will afford an opportunity, not only for visitors, but for students as well to become familiar with their university, to visualize its importance, place, and contribution to the life of the community.

It may also serve to show what the university might accomplish under more advantageous circumstances. In view of its great achievements in the past along the lines of scientific research, mechanical inventions, and in other fields as well, each of which contributions the exhibits display, the university has proved itself an active and indispensable workshop.

Today is "Madison Day" at the exposition. Classes are to be dismissed for the 1:30 period this afternoon to make it possible for every student and faculty member to be present at the opening of the Exposition.

Once in every student's college life comes the opportunity really to learn about his university. Today is the day.

WELCOME BACK

The "W" Welcome Back signs which greeted returning students on the windows of the stores of Madison yesterday morning are the best expression we know of our feelings to the students who have already returned to Madison, to the Haresfoot and the Glee clubs who are returning from successful concert tours and to the track team which fought a noble fight under the adverse conditions of a foreign climate.

We are entering on the last lap of the university year and if we have been loafing on the course up to the present time it is well now to go into the final straightaway with all the pep and punch that we have in us. It is rather cruel to mention after a delightful vacation the fact of approaching examination time, but now is as good a time as any to realize the fact and start getting ready for them so that we shall not find ourselves at that time so far behind the leaders that we will have no chance in the world to catch up.

To the Glee club and to the Haresfoot club who have everywhere met with the most cordial reception, a special greeting may be extended, for they have carried forward in a praiseworthy manner the banner of this institution when such things are of the greatest importance. But at the same time it must be remembered that tours and concerts are not the prime purpose of a college course and that in the end the faculty will judge us not by our various extra-curricular activities but by those marks on our friends, the blue books, which we soon encounter again.

And to the track team who demonstrated Wisconsin spirit in the far West as other teams have so often demonstrated that spirit in other places special welcome should be given. Victory is not everything. A courageous fight counts for much.

The university appropriation measure will soon be before the legislature. Do your parents and friends know how important this bill is for Wisconsin? Write home about it.

Other Editors Say

VARIATION OF AN OLD THEME

Now that science has given us an abundance of leisure, what are we going to do with it, asks George W. Alger in the Atlantic Monthly for April. The writer indicates that the problem is very intimately related with criminology, culture, and the continuance of our present economic structure, lamenting the fact that to the great majority of people their amusements are receptive, rather than expressive.

"A main defect—from a cultural point of view—of the movies," writes Mr. Alger, "is that the people who see them contribute nothing to them. They are simply receptive of what the miracle-workers of Hollywood produce for their diversion. We are slow to realize that one of the effects of the specialization or mechanization of our life in our zeal for enlarged productions is this closing-in of the fields of self-expression for the individual, the mechanization of what were formerly processes of self-expression. The mechanical piano, the phonograph, and the radio make the long toil of learning music as a personal accomplishment seem less worth while."

"Why do we not see that what is returning to us is slavery in a new form? The vital defect of slavery was not only what it did to the slaves but also what it did to their masters. History tells us of the softening and disintegrating influence upon civilizations having their work done, not by applied energy of their freemen, but by slaves who obeyed the masters' bidding, leaving the masters to vice and the luxuries of a degenerating idleness."

"The great problem before us today is to create a civilization that does not degenerate under leisure. This can be done only by setting in operation forces making for a culture that recognizes, as no civilization since the fall of Rome has been required to do, that leisure is and must be a means and not an end; that its true value is measured by what we do with it—by whether it lifts us or lowers us in the great world of intangibles, the world not of material but of spiritual values."

Having stated a serious problem with considerable force, Mr. Alger merely hints at the correct solution. This culture which is so essential to the beneficial use of leisure can come from but one source—education, and that largely through the medium of the liberal college. It is not the education which teaches one how to manufacture things, how to procure the wealth with which to procure things, how to become a mighty buyer and user of things. It is the education which makes for creation of ideas, of art, of music, of all the higher forms of enjoyment which exist independently and above the realm of things. In effect, Mr. Alger has merely restated in a different form the old plea for a classical education.—Cornell Daily Sun.

Bosco and yours truly were about the only elite who populated this burg during the holidays. We both scared up enough sleep to last us through the next exam period.

IT'S A LIE—METH

Seeing a lawyer battling a couple of gawf balls around the lower campus reminds us that the gawf number of Octy will soon be out. Yep it dark, but Octy editor never handled any club other than the one that turns up in stud poker.

EXPOSING THE EXPO

Having the first crack at it, we hereby patent the wise thought that the Expo is "fair."

They tell us that 50,000 guests will be in the city. That crowd ought to give us a pretty fair idea of what future Proms in the gym will be like.

We took geology once, and we can dimly appreciate the placard which hangs in the stone-mongers exhibit: "Let us help you pick out your tombstone." If they'd help us pay for it, I'd order diamond, just for revenge.

It is estimated that Joe Steinauer will spend more time in the swimming pool room during the next few days than he has hitherto.

Of all the exposition workers, the fish in the tank will probably get the most fun out of the big show. It must amuse them immensely to size up the folks who are giving them the once over.

We thought we'd collapse when a sweet young thing asked us what exhibit was behind that big canvas back of the swimming pool. We were going to say "anatomy department," but we didn't "dasst."

No fooling, Benny Snow's steam-roller is the big noise of the Expo. The loose belt on the job press in the journalism exhibit will have to hum some to beat it.

We are disappointed in the astronomy exhibit. We thought sure they'd have that up on the roof.

We often heard the expression that walls have ears, but at the Expo most of the walls have arms. If you don't believe me, look behind them.

JUST BECAUSE A ROLLING STONE GATHERETH NO MOSS IS NO SIGN THAT A ROLLING PIN GATHERETH NO DOUGH.

We had this in mind for days and days—didn't it make you laugh to see so many engineering going to see "Civilian Clothes?"

Forsooth, we lay no claim to this observation, but methinks that the real test of a girl is whether you can think of her when you are kissing some other one.

Bulletin Board

This column is for the use of all organizations and university staff members who wish to reach large groups readily. No charge is made for notices. Notices may be brought to the editorial office in the Union building, 752 Langdon street, or phoned to Badger 250 before 5 o'clock of the day preceding publication.

HESPERIA

Hesperia literary society will meet at 7:30 o'clock tomorrow night in 401 Bascom hall. Officers for the fourth quarter will be elected.

WALES CLUB

Members of the Prince of Wales club will meet at 4 o'clock today at the Blackhawk stables.

CLEF CLUB

There will be a meeting of the Clef club at 7 o'clock tonight in Jathrop parlors.

CHRISTIAN SCIENCE

Christian Science society of the university will meet at 7:30 o'clock this evening in 35 Music hall. All members of the faculty and student body are welcome to attend.

A DARK ONE

A date I like
..... Is Dottie Grace,
Because she lives
On Clymer Place.

SO ENGLISH HISTORY HAS FINALLY BEEN UP-ROOTED AT WISCONSIN!

CONSIDERATION DE LUX

Johnny—"Mama, did the man lose his hat?"
Ma—"Shhhhh! Johnny, that's a college student!"

We discovered a new disadvantage in bobbed hair when we found out that a certain popular actress with shorn tresses was denied the contract to play Eve in "Paradise Lost."

Pray tell, just because Dean Henry founded the College of Agriculture in South hall, does that cast any reflection upon the efforts of the journalism department?

OUR THOUGHT DEPARTMENT

Rum—"Just my measly luck!"
Dum—"Wassamatternowbo?"
Rum—"Here it's rained for two weeks straight, and I didn't take astronomy."

"I'M GOING TO LIE DOWN ON THE JOB," QUOTH THE WORKER AS HE FINISHED MAKING A MATTRESS.

THESE GIRLS MAKE HAT LAST 6 YEARS

We thought it sounded like grape fruit, but found out the "girls" in question were members of the Salvation Army. Oh, we opined, and put a nickel on the drum.

"The Cellarette closed its doors and sung its swan song"—says one of our papers. Say, ed, wouldn't "wan song" been about right?

TEAR GAS FOR LOCAL POLICE IS CONSIDERED

By Jove, Banquo, that should bring out a little sympathy, at that.

Talk about Deans falling down on the job, note what one of our sheets says: "Of the 12 deans, two are Presbyterian, four are Congregationalists, three are Unitarians, one is a Baptist, one is a Jew, and one is unknown."—Have you a spare dean about your home?

THE BUSINESS MAN'S HEAVEN IS A PLACE WHERE "POST NO BILLS" APPEARS ON EVERY MAIL BOX. ? ? ?

Well, as one gravedigger said to the other in Act V of Hamlet: "Dig up another fellow and we'll ankle over to the Expo; the army has moved!"

MACBETH

De Longe's Studio to Display "Hall of Fame" on Balcony

In a quiet balcony lounge room overlooking the aisles of the main floor of the exposition will be found the "Hall of Fame," a display by De Longe's studio which will consist of the portraits of the regents, prominent men of the university faculty, the members of the legislature grouped around a miniature capitol, and the members of Who's Who in America who are residents of Madison, and the members of the Wisconsin supreme court.

The collection will total about 100 pictures and has taken the De Longe's studio over three months to prepare. The balcony has been constructed to serve as a rest room and will be attractively decorated.

An indirect lighting method will be used to display to the best advantage the Wisconsin "Hall of Fame." The pictures are framed in dark frames and are labelled with the name and achievement of each individual.

FRESHMAN BASEBALL

All freshman baseball candidates are asked to report at 3 o'clock today at Camp Randall. More freshman managers are desired to report to senior manager Trumbo.

ENGINEER EXHIBIT TO BE IN ANNEX

Apparatus, Models, and Charts
Will Occupy Large Floor
Space

With its exhibit divided into 12 main sections, the College of Engineering will occupy a large proportion of the floor space in the gymnasium annex during the university exposition beginning today. Wenzel Fabera '25 is in general charge of the engineering exhibits.

Apparatus, models, and charts of every description will be on display in the booths. A number of demonstration experiments will be performed during the exposition. One of the most unique of these will consist of frying an egg on ice and will take place in the electrical department display.

The exhibits will be city planning and highways, topographical, structures, shops, electrical, mining, mechanics, chemical, steam and gas, hydraulic, machine design, and drawing.

Methods of planning a model city will be demonstrated by the city planning department. The topographical department will present a miniature of the Devil's lake camp, where topographical work is conducted. Charts and maps showing railway bridge construction will be displayed in the section devoted to structures.

Actual machine shop work will be illustrated in the shops department of the exhibit. The electrical display will include the smallest electric motor in the world. Examples of unique photography also will be shown in this booth. Working models of modern mines, including a \$10,000 model of the Annaconda copper mine will be placed on exhibition by the mining department.

Laboratory testing machines in operation, together with photographs, charts, and samples of material

ENGINEERS MAKE TOUR OF INDUSTRIAL PLANTS

Twenty-five students in the Chemical engineering school left on the annual inspection trip to manufacturing plants Sunday, April 5. The object of the trip was to acquaint the engineers with present-day industrial methods.

The Kohler company, in Sheboygan, was visited April 6, where manufacturing of enameled plumbing ware and lighting units were studied. The Hummel-Downing company was visited the next day in Milwaukee. Here the students saw the paper mill and the making of paper boxes. The Patten Paint company, and the Milwaukee Coke and Gas company concluded this year's inspection trip.

If there is any trouble the Irish want their share. A Dublin paper is printing crossword puzzles.

tested, such as concrete, iron, and steel, will be located in the mechanics section.

Chemists will demonstrate the manufacture of water gas and the distribution of heat, as well as other chemical problems and processes, in the chemistry division.

A cross-section of the chassis of a modern automobile, with every part visible, will be a prominent part of the steam and gas display, which will also include a modern high speed engine in action, a refrigerating machine, a ten-cylinder air plane motor, hot air engines, and other apparatus.

The hydraulic section will display a large-sized model of a power system, including the dam gates, turbine, power house, and transmission line equipment. A model of Madison's new sewage system also will be presented.

Methods of designing machinery and the layout of a mechanical plant will be shown in the machine design section. The designing and drawing of the mechanical parts of various pieces of machinery will be demonstrated in the department devoted to drawing.

Next Year—What?

GOING into business? If so, remember that the length of time it takes you to master certain business fundamentals is the amount of time you will have to serve in minor positions before you can occupy an executive role. In addition to your undergraduate work, which should serve as a solid foundation, it will be well to consider the advisability of special training which will help to cut off years of apprenticeship in the business world.

Babson Institute offers an intensive training course of one or two years—which teaches the fundamental principles of business and how to apply them in the daily conduct of commercial affairs.

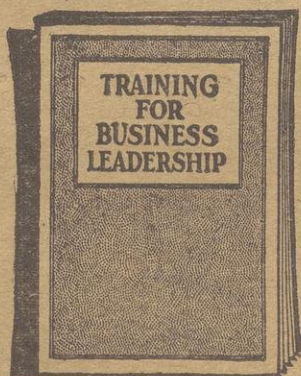

By laboratory methods the student is shown and taught the principles of Executive Management which have built many of America's leading concerns.

Babson Institute is conducted for the purpose of aiding young men, who are to occupy positions of responsibility and trust, to fill such positions ably and with credit to themselves.

Babson Institute

A scientific institution organized, not for profit, under the educational laws of Massachusetts.
338 Wellesley Ave., Babson Park, Mass.

Note
Courses at Babson Institute are so arranged that there are three times a year at which entrance may be made. Thus the student may choose a time most convenient to him.

Send for
this Booklet

It explains the unusual methods peculiar to this institution by which men are fitted at a minimum expenditure of time for executive positions. Fill in attached coupon.

WORLD of SOCIETY

Prof. Mendenhall to Be Present at Ohio State Memorial

Prof. and Mrs. C. E. Mendenhall, North Carroll street, left yesterday for Columbus, Ohio, to attend memorial exercises there on Thursday in honor of Dr. Thomas Corwin Mendenhall, father of Professor Mendenhall, who was president of the Ohio State university board of regents and member of its first faculty.

The exercises will be held Thursday in University hall of Ohio State university with addresses by Dr. Ira Nelson Hollis, president of Worcester Polytechnic Institute, of which the late Dr. Mendenhall also served as president, by Charles Frederick Marvin, chief of the United States Weather Bureau, of which Dr. Mendenhall was chief fifteen years, and by Dr. Elihu Thomson, director of the laboratories of the General Electric company.

Presentation will be made at the exercises of a bronze replica of the portrait medallion of Dr. Mendenhall which was presented to him by a group of the students of the first class of Ohio State university upon the fiftieth anniversary of its opening observed in September, 1923.

The memorial exercises will be followed by a dinner at which Prof. and Mrs. Mendenhall will be guests and which will be attended by regents and prominent faculty members of Ohio State university.

Charlotte Hanna Engaged to Marry George Woodward

Announcement was made last night at the Sigma Pi house of the engagement of Charlotte Hastings Hanna '25 of Geneva, Ill., to George Stedman Woodward, Jr., '25 of Cincinnati, Ohio. Both Miss Hanna and Mr. Woodward are in school now. Mr. Woodward is in the engineering school. No definite date has been set for the wedding.

A.A.U.W. Addressed By Miss Bosanquet at Tuesday Meeting

Activities of university women in other countries were interestingly related by Miss Theodora Bosanquet of London, England, at the dinner held Tuesday night by the Madison branch of the American Association of University Women at the College club.

Miss Bosanquet, as executive secretary of the International Federation of University Women, has had occasion to visit many countries in Europe in the interest of the federation. It was of her experiences with women of the old continent that she spoke at the dinner Tuesday night, giving her audience of 50 A. A. U. W. members an instructive insight into the lives of other university women.

Miss Bosanquet told of university women's federations in Belgium, Hungary, Austria, Czechoslovakia, Ireland, England, New Zealand, France and Italy, and also briefly mentioning others of the 20 countries represented in the International Federation of University Women.

If you value soft water for all purposes in your household, ask your Plumber — or write, or phone (F. 109), and our Engineer will explain how easily our city or any water can be softened with the NORTHERN SOFTENER without the use of salt or minerals. The simplicity and reliability and nominal operating expense will surprise you.

A WATER SOFTENER WITH A REAL GUARANTY

We have manufactured softeners in Madison for over 20 years.

Northern Water Softener Company
(Division of Madison Plow Co.)

Horse Show Riders—Reserve Mounts Now

Reservations of horses will be received, beginning 8 a. m. today, from fraternity, sorority, and individual riders, for the Spring Horse Show May 8 and 9.

Application must be made personally by the rider, and mounts will be reserved in the order of application.

Immediate application is advised, since competition for certain horses is keen.

Special coaching may be secured by applicants wishing to improve their riding in preparation for the show, by appointment.

For information, call Badger 6452

Blackhawk Riding Academy

INTERNATIONAL CLUB PLANS NOVEL DINNER

A dinner novelty will be held at the Unitarian parish house on Saturday, May 2, when the International club of the university will give an "International Dinner."

The event will be in the nature of a surprise banquet, for chefs from many foreign countries will contribute to the meal.

The banquet will be followed by a dance.

—————

We're glad to see you again! Color and life on the Hill—kisses and "Hullo, Bills" at station and house—makes up for the dullness when you're away!

What with the Exposition, and guests, these next few days will be hectic ones all around, no doubt.

But, as far as delectable food and pleasant service may help, we'll try our best not to disappoint you!

We've a few surprises, too, that we think you'll like!

State Street at Number 712

—————

French newspapers and silly Americans criticize President Coolidge for saying pleasant words about the socialist prime minister, Herriot. This nation used to send friendly greetings to the Russian

czars until Lenin finished them. Surely our government is closer to the French republic even with a socialist in charge, than it ever was to a Russian autocracy with a Romanoff in charge.

SPECIAL SCHOOLS HAVE 16 EXHIBITS

University Expo to Have Displays Showing Work of Many Departments

The special schools will have 16 exhibitions shown at the university exposition. The schools and departments included in the special schools exhibits are commerce, journalism, administration, service, extension, law, medicine and hospital unit, pharmacy, military, forest products, physical education, music, art, library and students activities.

The Course in Commerce will present a complete demonstration of business administration in their exhibit. This will include the latest advertising methods, banking and finance and transportation management.

The Course in Journalism exhibit will have for its main feature the publishing of a newspaper on the exposition floor. This will give the visitors an opportunity to see a daily newspaper at work. Exhibits of the earliest and latest newspapers including leading high school papers will be on display.

The administration department of the university will have a complete survey of the administration of the university shown by means of charts. The service department will show the university as a unique city by demonstrating the university supply of water, heat, building and grounds.

Charts showing the service of the extension division to the people of the state will be shown.

A model law office showing the workings of the office will be the exhibit of the Law school. The Law school will have different legal publications on display.

The medicine and hospital unit will have a display of the workings of a modern hospital. Anatomical exhibits, drugs, live exhibits, quack cures, various modern treatments, tubercular germs, and surgical operations will be shown. The pharmacy department will demonstrate the development of a drug, tracing it from the time it is cut until it is a finished product.

The military department will have on display radio and wireless for field work and big field guns will be stationed on the lower campus. Actual exhibits of boxing and wrestling on the third floor supplemented by charts of the various physical education activities will compose the exhibit of the men's physical education department.

The women's physical education department will have a dark room

HAREFOOT CLUB TO RETURN HERE TODAY

Continued from page 1.

dial in their expressions of approval at the 1925 offering of the club. The Davenport Democrat said, "Ivan Ho!" was devoid of the local aspects which ordinarily mark an amateur effort, brilliantly costumed, ambitiously staged, and produced in truly professional style." Theodore R. Marsters of the Peoria Journal wrote, "When the Haresfoot clubbers choose to come 'round again Peoria will be assembled en masse at the depot to give them the gladstone mitt."

Probably the most thorough and critical review that the club received was that of the theatrical writer of the Indianapolis News. He wrote that the production was "decoratively embellished with spruce and handsome sets, staged with expertness, gowned lavishly and in full feather." The Haresfoot recording orchestra came in for a generous share of praise from the critic.

The theatrical critic of the Detroit Times said that "Haresfoot certainly can boast of the most attractive 'girls,' for they need no glorifying. Their cavorting Friday night caused no end of merriment."

showing the method of developing pictures on postures. A style show showing the evolution of sport dress for women and a dancing exhibit will also be a feature of the women's physical education department exhibit.

The forest products laboratory will show unusual wood products, and various chemical processes carried on with wood.

Lloyd Gladfelter '26 is the chairman of the committee in charge of the special school exhibits.

Felix writes from—
Monte Carlo

Say, old dear, didja ever dream of bustin' the 1st Natl. Bank of Monte Carlo? Well, that's what your Uncle Felix just came near to doing. The trouble was that he didn't stop and played on in good old poker style to give the poor bank a chance, which was lucky for them. Why, at one time I held first and second mortgages on the Casino.

It was like being allowed to hold a gold brick for a second, though, and then have to give it back. Anyway, money is the root of all evil and I didn't wanta be a source of crime.

I was thinking of having the Casino fixed over for my Riviera residence and buying a couple of those slick yachts lying down in the bay in the moonlight, but gave up the idea to continue with the Purmews tomorrow to Switzerland.

Cheerio, ole cat—

EXPO SHOWS WORK OF AG COLLEGE

Department of Home Economics Has Combined in Display For Exposition

The College of Agriculture has 16 displays, including that of home economics, in the university exposition, each of which represent a department.

The dairy division has graphic displays of research in soils. Agricultural journalism and agricultural education have exhibits showing their development. Sand table displays, by the department of economics, show reforestation plans and rural life compared in 1900 and 1950.

The dairy division has the largest of the agricultural displays. The progress of dairying in Wisconsin, the amount of milk used in special commodities and cheese production in the United States are illustrated by charts and maps. The chief attraction is a Niagara Falls of milk. The making of ice cream, butter and cheese are demonstrated. Milk bottling in cities is explained by various preparations. The display of the division of bacteriology presents bacteria cultures in milk, commercial processes and new tests for milk bacteria.

The departments of horticulture and entomology illustrate the results and control of plant diseases and the destruction of plants by insects.

Genetics and agronomy display the results of breeding of animals and plants. Prenatal growth and tuberculosis in poultry, and rabbit inoculation methods are shown by the veterinary science department. The poultry division illustrates the brooder model, a laying hen and 83 cartons of eggs which she has laid.

The men in the agricultural engineering course have operating a four cylinder tractor engine, new agricultural mechanical processes, and up-to-date machinery in operation controlled by a master switch.

The home economic students have on display a tea room, a modern kitchen in operation, dietetics research, certain dyes and cloths, blocking and weaving, and dolls dressed in periods of various ages.

200 BADGERS WILL BE ON SALE AT EXPO

Approximately 200 copies of the 1926 Badger have been reserved for special sale during the exposition. These will be on sale in the Badger exhibit and in the Badger office at 752 Landon street. Part of the Badger editorial staff remained in Madison for the first half of the vacation and edited all the copy for the book. All the latest activities, the exposition, the journey to California of the track team, and the latest news from the Memorial Union, has been edited and turned over to the printers.

Anyhow it is the first duty of an American president to recognize facts, and fact is that socialism holds the balance of power in France, whether our ruling powers like it or not.

UNIVERSITY EXPO WILL OPEN AT 1:15 TODAY

Continued from page 1.

inal welcome signs, and black and yellow posters announcing the Expo, while the red "W" on the capitol blazes on one end of State street and the large red Expo sign on Bascom hall at the other end.

The gym has been uniformly decorated as well as the booths of the 80 exhibits. The Beardsley Chandler company of Chicago has given 135 flood lights which will blaze on the confused and excited mass which will pack the gym at night.

The university exposition is held every four years. The first one was in 1912 and was mostly the work of the faculty. The exposition of 1915 was an enlargement on the one of 1912. In 1921 the value

DEADLINE TOMORROW FOR SPEECH ENTRIES
