Instructions in Theory and Practice of Teaching, including object lessons, oral instruction, etc., will be given by lectures and from reference books in the Normal Library throughout the course,—and during the last year the pupils will be thoroughly reviewed in Educational History.

General exercises in Reading, Orthography, Writing, Declamation and Recitation will continue, as found necessary, throughout.

The study of Latin is earnestly recommended to those who can find time to devote to it from their other studies, and Latin or French will be accepted in graduating for German.

Select Course.

Persons desirous of pursuing selected studies are admitted to any of the recitations and other exercises of the regular classes for which they may be prepared; and, so far as it can be done, such additional classes will be formed for their accommodation as may be needed. Such students are entitled to a certificate of the time of membership, of the subjects studied and of their standing in the same.

Preparatory Course.

FIRST YEAR.

ENGLISH STUDIES.—Quackenbos' First Lessons in Eng. Composition, Ray's Intellectual Arithmetic, Robinson's Higher Arithmetic commenced, Geography, Wells' Science, Parker & Watson's National Reader.

LATIN.—Andrews & Stoddard's Grammar and Reader.

SECOND YEAR.

English Studies.—Arithmetic completed, Ray's Algebra, First Part, Physical Geography.

Latin.—Three Books of Cæsar, (Frieze's Virgil,) commenced.

Greek.—Grammar and Lessons.

THIRD YEAR.

English Studies.—Plane Geometry and General Review of Arithmetic, Grammar and Geography.

Latin.—Virgil continued, Johnson's Cicero.

Greek.—Xenophon's Anabasis.

Exercises in Elocution, in Reading and Spelling daily—in Declamation, Composition and Disputation weekly, throughout the course.

The above course will be faithfully adhered to ; and only in special cases will students be admitted to the Freshman Class until they have completed the work of preparation as prescribed, or its equivalent.

Terms of Admission.

No one can be admitted to the Preparatory School under the age of twelve years, nor to the Freshman Class till he has completed his fourteenth year.

Candidates for admission to the Freshman Class must pass a satisfactory examination in all the studies of the Preparatory Course, or their equivalents.

The requirement for admission to the first year of the Scientific Course is the same, omitting the Ancient Languages, as for the Classical Course.

Candidates for admission to the Normal Course must pass a satisfactory examination in the Outlines of Geography, Elements of English Grammar and Arithmetic to Proportion.

Candidates for admission to an advanced standing in any of the regular classes must pass examination in all the studies to which the class they propose to enter have attended, or in others equivalent.

The stated time for the examination of candidates for admission, is the first day of each term. Persons may be examined, however, at any time during the term.

Applicants for admission from any other College must present certificates of honorable dismissal from such institution.

Students are admitted to the University from other States.

Normal Department.

In pursuance of a resolution of the Board of Regents, the Chair of Normal Instruction was filled by the election of Chas. H. Allen, and this department opened March 16th, 1863, since which time it has been in successful operation. Its results have abundantly established the practicability and usefulness of this department, and also that the advantages offered will be duly appreciated by those seeking to become Teachers or thorough Scholars.

The department will be continued as a regular department in the University. A Graduating Course has been arranged, and it is believed such opportunities can be offered as will secure a full and permanent patronage. While the great aim of the department will be to fit teachers for their arduous labors, the doors will not be closed to any who desire, by close application, to secure thorough scholarship.

The Lectures in the University Course, upon Chemistry, Geology, Botany, Natural Philosophy and English Literature, will be free to all.

A Gymnasium will be fitted up in the South Dormitory Building, where ladies will be trained in Lewis' new system of gymnastics.

The entire South Dormitory Building, excepting rooms for the Dean of the Faculty, has been set apart for a Boarding House, dormitories and other rooms necessary for the department, and will be under the special charge of the Professor of the department, aided by the Preceptress.

Ladies desiring board will be received into the family of the Professor, and it will be the aim to make both the privileges and restraints as home-like as possible.

A few rooms will be rented in the building to ladies desiring to board themselves; they will, however, be under the same regulations as members of the family.

Gentlemen can procure table board in the Dining Hall, and rooms in the North Dormitory Building, or they can obtain board and rooms at reasonable rates, in families not far distant.

Preparatory School.

The primary object of this school is to prepare young men for the College Classes in the University. Pupils from other departments, however, are admitted to its classes under such conditions as the Faculty may prescribe.

Boys in preparatory studies, who reside in town, or who are too young to be permitted to occupy rooms in the Dormitory Building, are required to study under the eye of the Principal during the six school-hours, subject to the discipline of our best Academies. Pupils, connected with this school are carefully instructed not only in Latin and Greek, but in the Elements of English, the Principal being assisted, as occasion requires, by other members of the Faculty.

The Preparatory School is now in charge of Orson V. Tousley, A. M., a gentleman of eminent qualifications for the place, and who has had a long and successful experience as teacher and disciplinarian.

Commercial School.

This School was for two years in successful operation in the city of Madison, under the denomination of "Bacon's Commercial College."

It is now a part of the University. At present, rooms are occupied in Porter's Block.

It is the purpose of the Board of Regents, in the establishment of this department, to afford the student the opportunity to qualify himself for prosecuting the Mercantile Profession in any department and to any extent.

The Course is as extensive and thorough as that of the best Commercial Colleges in the country. Special attention is given to Single and Double Entry Book Keeping, embracing every department of Business Accounts, to Commercial Calculations, Practical Penmanship, etc., etc.

COURSE OF INSTRUCTION.—The plan adopted in teaching combines practice with theory; instead of Text Books the pupils are exercised in making original entries of every day business transactions—Journalizing, Posting, Balancing Accounts, Opening and Closings a

great variety of different sets of Books, both for partnership and individual business—where the business has been prosperous, and adverse, and thus qualifying the student for entering upon the *practical* duties of the Accountant in any kind of business.

PREPARATORY QUALIFICATIONS.—Nothing more than a common school education is necessary; if the student is found deficient in mathematics, he will be taught free of charge.

EVENING SESSIONS will be held from October to April, giving sufficient opportunity for gentlemen engaged in business through the day, to acquire the course during the winter evenings.

REVIEW, ETC.—Persons having paid their tuition may attend the school as long as they please—having the privilege of completing the course at their option. They can also review, at any time, without additional charge.

The School is Open for Ladies, for whom a Separate Room is provided.

Students are instructed individually, and can enter at any time. The usual time required to complete a full course is from 8 to 12 weeks.

TERMS.—For a full course, (time unlimited), in advance for gentlemen, ...\$30

Examinations.

At the close of the first and second terms all the the classes of the University are examined before the Faculty in the studies of the term.

During the week preceeding Commencement, the several classes are examined in presence of a Board of Visitors, on all the studies of the year. Promotion from class to class is made to depend on such examinations.

Degrees.

The degree of BACHELOR OF ARTS is conferred on those students of the University who have completed the Classical Course, and the degree of BACHELOR OF PHILOSOPHY on those who have completed the Scientific Course. It is a rule of the Board of Regents, however, to confer these degrees only upon such as have been recommended by the Faculty as having pursued all the studies prescribed and passed satisfactory examinations on the same.

Those who have received from the University the degree of Bachelor of Arts may, after three years standing, on recommendation of the Faculty, receive the degree of MASTER OF ARTS.

Those students of the University who have satisfactorily completed the Normal Course are entitled to a diploma of graduation, under seal of the University.

Library, Cabinets, &c.

The University Library comprises about three thousand volumes.

The institution is provided with valuable Geological and Mineralogical Cabinets and Collections in Natural History ; also with well selected Philosophical and Chemical Apparatus.

Literary Societies.

The two Literary Societies—Athenæan and Hesperian—are sustained with great interest, and furnish valuable aid in the intellectual training of the student. Each has a library of several hundred volumes. Spacious and commodious rooms, in University Hall, have been provided and furnished, at the expense of the institution, for the use of these societies.

Religious Exercises.

The students and Faculty are assembled for prayers daily in the University Chapel, fifteen minutes before the morning hour for commencing recitations.

It is also a rule of the institution that all students attend church at least once on Sabbath, unless specially excused.

Rooms.

Private rooms in the North Dormitory Building, under certain restrictions, can be secured by gentlemen on application to the locating officer, at the opening of each term.

No student will be allowed to occupy a room until his bills for the term are settled.

Students in the regular University classes, in previous occupancy, will be allowed to retain their rooms, if on the ground at the opening of the term.

Students from abroad, admitted to the University classes, are allowed the choice of rooms.

Rooms are furnished at the expense of the students, who should bring their own bedding, towels, etc.; other furniture can be obtained here second-hand, or new, at moderate prices.

Occupants of rooms are held responsible for all damages to the same.

Students not accommodated in the University, and not residing with their parents in Madison, will lodge and board in town, under such regulations as the Faculty may prescribe.

Students of suitable age, in the Preparatory and Commercial Departments, are allowed to occupy private rooms in the Dormitory Building.

Terms and Vacations.

The COMMENCEMENT ANNIVERSARY is on the *last Wednesday of June*, and is followed by a vacation of *nine weeks*.

There are three terms of thirteen weeks each in the year; and three vacations, one of nine and the other of two weeks each.

The *first term*, therefore, opens on Wednesday, nine weeks from Commencement; and each of the other terms on Wednesday, two weeks from the close of the preceeding term.

Expenses.

University charge (for tuition, room and heat) per term,.....	\$10 50
Tuition, without private room, per term,.....	6 00
Tuition, for less than a whole term, per week,.....	60
Room-rent and fuel, for less than a term, per week,.....	50

Payment of the above charges is required strictly *in advance*.

Students will be charged for not less than half a term, and no deduction will be made for absence during the last two weeks of the term, except in case of sickness.

Table board in the family of one of the professors residing in South Dormitory Building, will, until further notice, be furnished to regular boarders at cost, \$25 being required in advance, and the balance at the middle of the term.

There are no extra charges except for actual damages done by students.

It is the object of the University to afford to the youth of the State, the best education, both Scientific and Practical, and at the lowest rates.

At no similar institution in the land are the expenses of education less than in the University of Wisconsin.

The location of the Institution, it is well known, is among the most beautiful and healthful any where to be found.
