## DRIVE FOR NEW STUDENT FUNDS ENDS ON FRIDAY

### All Workers Asked to Report on Union Campaign

The Memorial Union drive for new students will close at 12 o'clock Friday noon, according to Morton Frost '23, general chairman of the new student drive.

"Every Memorial Union worker must turn into the Memorial Union office a complete report of each man assigned him," Frost said yesterday. "On the card he must designate one of three things: the new student has pledged; he has not pledged or he hasn't been seen."

"Each card must be turned back to the Memorial Union office in order to complete the file and for this reason it is important that every man report on every card given him," L. S. Baker, secretary of the Memorial Union, said.

Reports from the returns each night show that a large percentage of the subscribers who have pledged generously are among the graduate students and the transfers. The freshmen have been found more difficult to approach by many of the personnel.

The campaign has been under way 10 days. The two division leaders of the women have turned in about 75 per cent of the subscriptions since the massmeeting.

"The women not only are turning in pledges, but they are canvassing all people assigned to them and reporting their difficulties to headquarters," Frost declared.

The percentage of men to girls among the new students is 5 to 3. Last night \$850 came from the girls and \$150 from the men. Saturday night \$500 came from the girls and \$150 from the men.

"We hope that the men have seen their people, but are failing to report to headquarters each night," Baker said, "the returns from the men's teams have been surprisingly low thus far."

## STUDENTS ATTEND FUNERAL OF LILLY

The funeral of George B. Lilly, former university student who met death near Stockton, Minn., when, it is believed, he fell under a train on which he was riding, was held yesterday afternoon at the home of his parents in La Crescent, Minn.

Lilly was a member of Zeta Psi fraternity. Members of the fraternity attended the funeral together with a number of other student friends of Lilly's.

Those who went to La Crescent are:

Allen Park, Law 2, William A. Stolte '25, Edwin Riggert '23, Frank Hyer '23, Donald Marvin '23, Nelson Fairbanks '24 and Maurice Hardgrove '25, all members of Zeta Psi fraternity.

Herbert Stolte '21, Warren Taylor '22, Ezra Crane '23 and R. T. Johnstone '25, also attended.

## Display Pictures of Homecoming Chairmen

Individual pictures of the chairmen of all of the 1922 Homecoming committees are being displayed by the Badger studio. The pictures are exhibited both at the Photoart house and in the studio frame on State street.

## No Drill For Cadets Friday and Saturday

The troops of the R. O. T. C. will not drill on Friday or Saturday of this week because of the vacation on Armistice day, next Saturday.

### WEATHER: FAIR

Fair weather is predicted for Madison and vicinity today with little variation in temperature. No change is expected tomorrow.

## Hungry Flames Seek Union Building Finish

Much excitement, much water, much smoke, but very little fire broke out at the Union building, 752 Langdon street, yesterday afternoon. Crowds of students watched the smoking building.

The fire broke out in the business office of The Cardinal at 4:30. The Madison central fire department was called to extinguish the flame. Firemen attributed the cause of the flames to hot ashes in the basement of the building, igniting the soot clogged in the chimney.

Working from the fireplace in the business office, the firemen applied the chemical extinguishers to the smoking region of the chimney. The smoke subsided and the Union building stands intact.

## CHINESE HAVE GOOD FUTURE

### —CHILDS Youth in Orient Instill Progress, Speaker Tells Professors

The political and industrial conditions in China were discussed by Jack Childs, Wisconsin's representative to China, last night at a meeting of 20 professors at the home of Dean F. E. Turneaure. Although the present outlook in the Orient is dark, there is hope for a reversal toward progress according to Childs.

"Americans cannot understand the problems China has to face in the making of a republic. When one half of the population goes to bed each evening with nothing to eat, and when often only one person in a village of 17,000 can read and write, it is easy to see that government is a mighty task," Childs declared.

The present Chinese government does not actively function as such outside the precincts of Peking, the capital city, Childs asserted.

In industrial matters the East is being invaded rapidly by western enterprises. In one month alone, according to Child's report, 60 new western firms registered in the capital city. The fact that there are no labor or industrial laws and that raw material is abundant is the basis for the influx.

Childs told of one western corporation in China which issued a statement that due to cheap labor, raw material and non infringement of governmental laws, it was able to make a profit of at least three times its capitalization.

Some of the hopeful signs in Modern China which Childs men-

(Continued on page 8)

## Banquet Speakers Laud Interest in Forensics

The speakers at the all-university forensic banquet, held last evening, were unanimous in the opinion that student interest in forensics was very evidently on the increase at Wisconsin, as indicated by the large crowd of men and women attending the banquet and by the number who have signified their intention to participate in the approaching Intercollegiate debate tryouts.

One speaker stated that interest in debating and oratory had never declined but that present day interest was even greater than 20 years ago.

Prof. J. M. O'Neill disproved the statement recently made in a periodical, that very few of the leaders in college activities were interested in forensics by presenting facts showing that in Wisconsin a good proportion of the campus leaders in the last 12 years have engaged in such activities.

Carroll Heft '23, representing the student veteran debaters, emphasized the increasing need and advantages of student support of forensic activities; Prof. A. F. Weaver stated that many more students could be accommodated in the debate tryouts; Pearl Anderburg, '23, predicted that university women would take a greater interest in debating and that several would compete November 16.

## LATHROP SPREE TO CLOSE WEEK OF HOMECOMING

### Saturday Dance to Draw All Students and Alumni

"The Homecoming dance Saturday night, in Lathrop hall will be the grand wind-up for the entire week end," Gerald Kock '23, chairman of the dance committee, declared last night.

The dance will be held in Lathrop gymnasium and concert room. The entire hall, however, will be open that night to the dancers. For those who wish entertainment other than dancing, accommodations will be made for card parties in the parlors. Dancing is to begin at 9 o'clock, rather than at 8 o'clock, as has been announced on the posters.

Under the direction of Pauline Ambrose '23, a novel plan for decorating has been devised. Autumn colors, mingled with the cardinal and white, will be carried out entirely through the use of unusual lighting effects.

Thompson's best 10-piece orchestra will furnish special music, and if present plans materialize, a surprise act will be staged during intermission by several campus vocal celebrities.

"We hope that every Wisconsin student will turn out for the dance and make Homecoming dance a decided success from every angle. We want it to be the place for every one to go to meet all his friends," Worth Shoults '23, general chairman of the Homecoming, said last night.

## LA FOLLETTE AND BLAINE RECEIVE LANDSIDE VOTE

### Ex-Governor Smith of New York Wins Over Governor Miller

Midnight returns from the election indicated that Blaine and LaFollette had been elected by a majority of approximately 250,000 votes, carrying their whole tickets by overwhelming landslides, with one or two exceptions.

In only one case was the congressional race in the state close outside of the Milwaukee candidates, the contest between George J. Snyder, Appleton, and Judge Henry Graess, Sturgeon Bay. It is thought that Snyder has been elected.

Alfred E. Smith, democrat and former New York governor, won over Gov. Nathan L. Miller in the gubernatorial contest in New York. Smith polled a landslide vote in New York city, but late returns from 870 up-state precincts showed him in the lead there by 174,995 to 154,973.

Dane county returned an overwhelming Republican majority.

Early returns indicate that Joe Daggett, independent candidate for sheriff against Julius J. Krug, is polling a large vote, the vote running nearly even in a number of precincts.

Approximately 1,500 students voted yesterday for the lieutenant-governor, secretary-of-state, treasurer, attorney general, senator and the 11 congressmen in one of the three university precincts.

## ETA KAPPA NU ELECTS

Eta Kappa Nu, honorary electrical engineering fraternity, announces the election of the following to membership: Frederick D. Blanch '24, Hendrick J. Gregg '24, Floyd D. Johnson '24, Peter J. Burelbach '23, Robert A. Clark '23, William A. Gluesing '23, Robert W. Groot '23, George A. Hill '23, William M. Knott '23, John A. Potts '23, Lawrence P. Richmond '23, and Arnold S. Rufsvold '23.

## Band to Michigan if Drive is Successful

A band of 100 men will represent Wisconsin at the Michigan game if plans now under way are successful. The men will leave Madison on Friday evening before the game.

Between \$1,500 and \$2,000 will be needed to send the band, and the money is to be raised Saturday, Homecoming day, by tag selling.

A crew of 75 town girls will canvass the crowds throughout the day, since university women are barred from tagging activities by the ruling of the dean of women.

No special sorority and fraternity soliciting will be done as in the campaign for sending the band to Minnesota, according to Gus Tuckerman '23, who has charge of the campaign for raising funds.

## WAR ON BOOZE AT HOMECOMING

### Goodnight, Police Chief, and Student Committee Take Stand

Suppression of booze during the Homecoming weekend will be brought about this year by the cooperation of the university authorities and the police department of Madison, according to a statement made by Scott H. Goodnight, dean of men, last night.

All organizations have been notified to discourage all liquor parties which may take place next Saturday. Federal and state agents will be here during the Homecoming in order to enforce the prohibition law.

"The fraternities can be relied upon to cooperate with us in this matter," Dean Goodnight said. "I have asked the mayor to help us in suppressing all liquor traffic on Saturday."

"We are going to arrest all drunkards on the streets next Saturday," Chief of Police Thomas Shaughnessy asserted last night, upholding Dean Goodnight's stand.

The Homecoming committee has asked all the returning alumni to aid the university authorities in discouraging all liquor parties. A postscript has been added on all of the 17,000 letters sent alumni reading as follows:

"We are asking your fullest cooperation in helping dissociate Homecoming and booze. Every drink taken at that time is a blow to the Wisconsin ideals; leave it at home."

## Special Cardinal to Be Sold Saturday Morning

A special 24-page Homecoming edition of The Cardinal will be on sale Saturday morning. The issue will be replete with Homecoming news, including histories of football at Wisconsin, Homecoming games and games with Illinois.

A full page illustration of a football player drop-kicking has been drawn by Charles I. Mueller '25, for the special pink cover-sheet. A five-column picture of the football squad will be embodied in the drawing.

Pictures of the coaches and captains of the opposing teams, officials in charge of Homecoming activities and an action photograph of Gus Tuckerman '23, Varsity cheer leader, will be included in the issue. A diagram showing what entrances each ticket holder should use in going to Camp Randall also will be printed in the Homecoming Cardinal.

## Mayor Will Help Judge Homecoming Decorations

Judging of fraternity, sorority and rooming house decorations will take place at 5 o'clock Friday afternoon. The judges will be Mayor I. Milo Kittleson, Dean F. Louise Nardin and Major John Wood. The awards will be made on the exterior decorations only.

Railway surveying was added this summer to the field work carried on by engineering students at the Devil's Lake camp.

## WISCONSIN WILL ACCEPT BIG TEN RULE ON MURRY

### Council Not to Protest Eligibility Decision, Says Jones

That Wisconsin intended to abide by the Conference eligibility committee ruling which classed Donald "Jab" Murry, Varsity tackle, as a professional and that the athletic council would not protest the decision were declarations made by Athletic Director Thomas E. Jones yesterday afternoon.

"Wisconsin regrets the excessive newspaper publicity arising from Illinois' protest of Murry, but there is nothing that can be done about it. We will accept the decision which forbade Murry to continue his football playing with the Varsity eleven."

### Did Not Protest Murry

Although the Athletic council wired Professor Moran, temporary chairman of the Big Ten executive body, the communication was not a protest of the committee's action, but rather a request for the direct evidence which led to Murry's excommunication from amateur football circles.

No answer has been received from the Conference committee and Wisconsin authorities have learned of no further evidence than that which they possessed when they decided Murry could not be classed as a "pro." The Badger officials are in doubt about the rule which it is alleged the Wisconsin gridiron player violated.

It is believed that those higher up in Wisconsin athletic councils still think that Murry should have a clean bill of health and that he is not guilty of violating Big Ten eligibility rules.

### Suggested Illini Quiz

Coach Jones said that Wisconsin had not protested five Illinois players but had merely suggested that Illinois look into the records of these players. One, Allison Augur, a tackle, confessed that he was a "pro" and was dropped immediately from the team.

Green was not played in the Northwestern contest last Saturday, but it is maintained that he was injured and will be in condition for the Wisconsin game this week. The other three men still are on the squad.

## RICHARDS CLEARS UP FULLERTON INTERVIEW

A new angle was put on the Wisconsin-Illinois case when Hugh Fullerton last week quoted Coach John R. Richards as accusing seven Conference teams of harboring professionals.

In an interview yesterday, Coach Richards said he did not agree with a rumor that Fullerton had sized upon a friendly chat with him and had injected some reverse English into it because Fullerton was an Ohio State graduate and was "sore" at Richards.

The Badger coach said that he was chatting with Fullerton at Minneapolis and did say that he personally believed Chicago, Purdue and Wisconsin were the most conscientious of Conference institutions in enforcing rules and developing the best standards of sport.

Richards made no charges against any Big Ten school. He remarked that Fullerton's statement that he meant Michigan "without mentioning any names" at one point in the talk was simply Fullerton's infallible dope system going wrong again.

## ALPHA PI EPSILON ELECTS

Alpha Pi Epsilon, honorary sociology sorority announces the election of Mildred Replinger '23, Frances Harvey '23, Louise Moore '23, Virginia Bachman graduate and Helen Whitwer graduate.

## DYKEMA GOES TO CONVENTION

### To Take Prominent Part With Gordon in Music Meet

The annual convention of the Wisconsin Music Teachers' association will be held in Milwaukee on Thursday, Friday, and Saturday of this week. Prof. P. W. Dykema of the School of Music and Prof. E. B. Gordon of the Extension division will take prominent parts in the program for the convention.

Professor Gordon will lead a choir of music teachers and other members of the association on Thursday and on Friday he will lead discussions on courses of study and instruction to teachers.

Professor Dykema is the present chairman of the association. Besides presiding at all of the sessions he will lead community singing on each of the three days.

A concert by Johanna Galski, a famous metropolitan soprano, and Paul Kochanski, noted violinist, will be one of the high spots of the convention.

A music memory contest between teams of sixth grade children from various cities of the state will be held.

## MICHIGAN LAKE TRAFFIC TO BE THESIS SUBJECT

### Geology Grads Plan Theses on Minerals and Commerce of State

Miss Emma Schulz, Portage, a graduate student and assistant in the department of geology and geography, will make under the direction of Prof. R. H. Whitbeck, a detailed study of the commerce of Lake Michigan for thesis material. She plans to trace the growth of water traffic and to determine its future from deductions based on its present and past history.

Miss Ella Wood, Berlin, a graduate student in the same department will write a thesis on "Building Stones of Wisconsin," which will deal with the building stone industry as a state resource. The growth of this important industry will be traced, and the study will be chiefly historical in character.

"Iron and Steel of Wisconsin from Mining Aspect and Manufacturing Aspect," will be the subject of a thesis written by William Smith Appleton, also a student in the department. The treatment of the subject will be historical.

### Grinnell Co-eds to Have But One Mid-week Date

Freshman girls are to be allowed but one date during the week, exclusive of Friday and Saturday night, according to a new ruling made by the women's league board at Grinnell college, which leaves enforcement of the rule in the hands of the cottage chairmen. Each freshman girl must get permission for any date during the week from her cottage chairman. She will be able to choose the night when she wishes to go out, and on weeks when there is a special entertainment of some kind she may be able to get special permission for more than one date.

### Trout is New Worker For Veteran Students' Bureau

The introduction of Mr. C. E. Trout, the new co-ordinator of the Veteran Students' bureau to federal students was the primary object of a meeting held by the organization in the Engineering auditorium Tuesday noon. Mr. Trout, who has had two years experience in the work, asked for the cooperation and backing of the men in order that the work might progress rapidly. He asked that all federal board students report to office 3, Union Memorial building, sometime between 8:30 and 5 o'clock.

A short course for weekly newspaper editors will be given by the Course in Journalism in February in cooperation with the Wisconsin Press association.

### DE MOLAY

De Molay will hold a business meeting at 7:30 tonight at the Masonic temple. All De Molays and master Masons are welcome.

### Lizzie Scores High in Minnesota Trip Woe

Hard luck tales of car trouble are being swapped by scores of students who drove to Minneapolis to witness the Wisconsin-Minnesota football game on Saturday.

Stories of breakdowns, tip overs, punctures and stuck-in-the-mud adventures vie for popularity. But the vicissitudes of one little Ford entitled it to the tough luck championship.

Lizzie's ditty of woe included two nasty punctures, a broken spark plug, burned out lights, a radiator that sprung a leak and had to be filled every 10 miles, slipping off the road into the mud, and ended with a tip over that smashed the top, crushed the fenders, broke the wind shield and cracked a lens.

The car was badly smashed, but the motor ran better than ever after the accident. The Ford was driven to the nearest town where the occupants boarded a train for Minneapolis via the safe and secure way.

All the participants in the various and sundry highway adventures escaped without injury and take a very nonchalant attitude toward their troubles.

"It was a wonderful game," they all declared.

### Ad Club to Hear Sharpe of Burroughs Co. Tonight

G. B. Sharpe, advertising manager for the Burroughs Adding Machine company, will speak to all students interested in advertising problems today at 4:20 o'clock in 401 Sterling hall.

Mr. Sharpe also will speak at a dinner sponsored by the Madison Advertising club at the Monona hotel. Members of the University Advertising club are invited to attend the dinner and arrangements may be made by calling Irving Maier at B-2200.

At the meeting of the Advertising club Monday three new members were elected. They are Arthur Benson '23, Elizabeth Clark '24, and Jerome Bjerke '25.

### Lit Out Friday, Gives Story of Homecoming

A clever story of Homecoming will be the feature of the November issue of the Wisconsin Literary Magazine which is to be on sale Friday. "Swinburne and Lucky Strikes," by Louise Smith, depicts the returning grad in his reactions to the ultra-modern co-ed. Miss Smith is the daughter of Prof. H. A. Smith of the department of Romance languages.

In a delicate satirical sketch entitled "Salt of the Earth," a foreigner's impressions of university society are given.

Literary criticism will be represented by an article on May Sinclair, the famous English novelist, by Margaret Emmerling '24.

### Minstrels Have Novel Ad For Ohio Stadium

The new stadium at Ohio State university is being brought to the attention of people all over the United States in a novel way. The manager of Al. G. Field's minstrels has had a picture of it painted on the large drop curtain used in his show.

The first Daily Cardinal made its appearance in 1892.

### INDIANA WOMAN RUNS MAIL ORDER PACKAGE LIBRARY

Miss Mary P. Pratt.

"Order your library by mail," is Miss Pratt's advice. As head of the bureau of public discussion of the extension division of the University of Indiana, Miss Pratt runs a mail order library service at the

### ALLEMAN TELLS HOW HE FOOLED FRIENDS, POLICE

#### Press Club Members Hear "Masquerader" Describe Experiences

H. Eugene Alleman '24, the "Masquerader," who mystified Madisonians with his actions all of last week, told Press club members of his experience at the regular meeting of that organization last night in Lathrop parlors.

Going into places where he would be expected least and talking to people about town whom he thought would be the most likely to challenge him were the most interesting of his experiences, Alleman stated. Many people asked him if he was the "Masquerader," but the question was not stated in the prescribed manner.

The most daring stunt that Alleman attempted during the week was to go to the police station and inquire for a friend by the name of G. B. Post. The initials "G. B.," standing for "Guy Bates," the first and middle names of the actor who is playing the leading role in the

### WANTED

Three or four tickets for homecoming game, preferably together.

Call B. 5917 between 12 and 1 or after 10 p. m.

### New Fad in Study of Character—Notebooks

And by their notebooks ye shall know them!

Beware of the notebook with leaves attached, worship the notebook 12 by 9, get a date with the carrier of a pocket notebook, and ask assistance from the owner of the leather notebook 8 by 6. Such is advice to one who would tell character by notebooks.

The Phi Beta supports a miniature newspaper file; not a day has been missed; each lecture has been recorded in painful completeness and even superfluous departments such as new words and recommended readings are disclosed within the volume.

The use of the pocket notebook guarantees perfect ease in greeting friends, no interference with strolling after class and a good bluff at taking notes.

Medium-sized leather notebooks signify humanness. In compiling a complete set of notes borrow three or four of these for the other varieties are useless.

### Milward Demonstrates Bird Training to Club

Mr. H. W. Milward, a local poultry fancier and exhibitor, gave a talk and demonstration at a meeting of the Poultry club held yesterday evening in the Poultry building on the subject of preparing and training birds for exhibition and show purposes. Refreshments were served after the meeting.

Strand picture, gave the police no clue and Alleman got away.

Press club will meet next Tuesday night to vote on the applications for membership which were received this week.

### Students Will Compete In Harris Essay Contest

Several students here are preparing to compete for the Harris political science prizes. Two prizes, \$150 and \$100 respectively, will be awarded the writers of the best 10,000 word essays. There are 16 subjects from which to choose, and the contest is open to undergraduates of all universities and colleges in Illinois, Indiana, Iowa, Michigan, Minnesota and Wisconsin.

### Whitbeck and Elsom to Attend Teachers' Meet

Prof. R. H. Whitbeck of the department of geology and geography and Dr. J. C. Elsom of the department of physical education will leave Friday morning for the annual meeting of the Wisconsin Teachers' association to be held in Milwaukee this week end. Professor Whitbeck and Dr. Elsom are chairmen of the geography and physical education sections, respectively, and attend the meeting of the association each year.

## HARRIERS HOPE FOR VICTORY IN MIDWAY RACES

### Coach Puts Cross Country Team Through Light Practice

With the third cross country meet of the season but four days away, Coach Mead Burke is working his squad of harriers regularly every night in an effort to keep the men in the same excellent condition that they were in last Saturday when they almost scored a shut-out in the meet with the Gopher runners.

While Burke is not greatly afraid of the Chicago Harriers who will be here for the meet Saturday, he is taking no chances on his men not being in the best of condition. The men are taking light workouts every day and should be able to win easily against Chicago.

Burke has cross country material this year which seems to be better than any for some years. In spite of the fact that George Finkle, star runner who was injured last year, is not able to be in competition this year, a squad of old and new men has been rounded together which can uphold Wisconsin's standards.

With a great many good men reporting for the squad, Burke's greatest difficulty seems to be in choosing the best from a number of fast men. In choosing the men who represented Wisconsin at Minneapolis, he seems to have made a good choice, for the men almost swept the field.

Rossmel, a man who had been showing up fairly well, was left at home when the men made the trip. He entered the intercollegiate race on the local 2.9 mile course and established a new Wisconsin record. Even the best time made by Finkle last year was several seconds slower than the time made by Rossmel Saturday. By his excellent showing in this meet, Rossmel probably will have a chance to run against Chicago Saturday.

Burke is trying to make plans enabling eight men to run for each team Saturday. If this is agreeable with the Maroon team, there will be 16 men entered in the meet.

Wisconsin again will have the advantage of running on its own course Saturday. The Badger harriers found the 5-mile course at Minneapolis rather difficult to run on because of the fact that the entire course ran through the city streets.

The Wisconsin course is only 3 1-2 miles long and runs through the country. It is not level as are many courses, having in its length much uneven ground. Running over a course with which they are thoroughly familiar, the Badgers will have a distinct advantage over their opponents.

The race will be held in the morning, probably at 11 o'clock. The runners start at the University gym and finish at the same place.

## CONTINENT SHOWS EVIDENCES OF WAR

"Traces of the war are still evident in Europe," Evelyn McFarland '22, who has just returned from a tour of the continent, said in an interview yesterday. She says it is not so much the appearance of the country as it is the feeling of bitterness that still prevails in the hearts of the people. The French are very antagonistic towards the Germans, and their feeling of hatred is heartily returned. In fact some of the people look forward to the time when they will be able to wage another war.

Miss McFarland found that most of the devastated areas had been reconstructed, with the exception of "No Man's Land," which has been kept in the same desolate state as it was during the war.

The people of Germany are exceedingly bitter toward the Kaiser. Miss McFarland was in a railroad station at Potsdam when the news of the Kaiser's engagement was published. Upon hearing this announcement the people hissed and jeered. They had absolutely no respect for their former ruler.

Miss McFarland graduated from the university last year. She is visiting at the Tri Delt house at the present time.

## ANNUAL SOCCER TOURNAMENT BEGINS PLAY THIS WEEK

### Gym Classes Start Schedule of Games on Lower Campus

The fall interclass soccer tournament, which is an annual affair among the general gym classes of the university, has swung into play this week. As yet, little progress has been made toward determining the victor.

In each class, two teams are chosen which scrimmage against each other during the dry weather of the fall. Three elimination games are played after the teams have gotten into fair shape. The winner of two of these three games is picked to represent the class in the tournament.

Games between class champions are being played every afternoon on the lower campus at 4:30 o'clock.

The annual soccer tournament has proved a great success in the past, and if weather continues good for outdoor play this fall, some good exhibitions are expected.

The winner of the tournament is decided by an elimination schedule. The progress of the tournament may be watched through the chart which is placed on the bulletin board in the gymnasium.

## Deutscher Verein Gives Varied Musical Program

The musical program for the meeting of the Deutscher Verein this evening in the parlor of Lathrop hall includes the following numbers:

"Mendelssohn's Overture to the Midsummer Night's Dream" by Mendelssohn, played as a piano duet by Messrs. Dresden and Morgan; three songs by Miss Siegmeyer, Taubert's "Wiegenlied;" and "Es hat die Rose" and "Maedchen mit dem roten Muedchen" by Franz; two songs by Miss Eunice Neckerman, "Japanisches Regenlied" by Joseph Marx, and "Mariae Wiegenlied" by Max Reger.

The program also includes two movements from the F major violin Sonata of Beethoven, played by Victor Guillemin and Professor Sommerfeld, Carl Schurz, Professor at the University this semester; Walther's Prize Song from Wagner's "Mastersingers of Nuremberg," played as a violin solo by Otto Toenhart, accompanied by Miss Siegmeyer; and two recitations by Fred Schnell, "Deutscher Rat by Reinick," and "Der sechste November 1832" by Fontane.

The Mendelssohn overture is one of the numbers in this year's music memory contest. The meeting is open to the public, and visitors are welcome.

## New and Old Students To Hear Birge Tonight

President Birge will give a welcoming talk at the Student senate meeting to be held tonight at 7 o'clock in room 7, Law building. Every student is invited. Old senate members as well as new will be present to hear President Birge outline the work of the coming year. Elections of officers for this year will take place following the talk.

## Bridges of Europe is Kinne's A. S. C. E. Topic

"Artistic Bridges of Europe" will be the subject of Prof. W. S. Kinne's lecture to be given before the American Society of Civil Engineers at 7:30 o'clock this evening in 229 Engineering building. Professor Kinne will use slides to illustrate his lecture. The public is invited.

### COLLECT \$1,179

A total of \$1,179.91 was collected Saturday through the "Forget-Me-Not" tag sale, for the aid of disabled war veterans. The sale was directed by E. O. Pagenkopf, general chairman and member of the local branch of the veterans' organization. About 100 women and girls aided in the sale.

KENOSHA — Police here have notified physicians to be on the outlook for dope addicts who are reported in several sections of the county robbing physicians' offices for hypodermic equipment. The warning followed an attempt of burglars to enter the office of Dr.

## EASTERN TEAMS OUTCLASS WEST IN LAST GAMES

### Nebraska Bows to Syracuse Although Doped to Win

Once again, within the short space of a week the eastern teams have shown their prowess over western gridiron tactics in Syracuse, handing Nebraska a 9-6 defeat at the Archibald stadium last Saturday.

Approximately 18,000 people watched with many a thrill the defeat of Fred Dawson's highly touted eleven. It is the first of a series of two games between the schools. Next year the Orange men of Syracuse are scheduled to appear in the Nebraska stadium.

Early in the period the Nebraskans fumbled, and by a 12-yard pass the Syracuse warriors had the ball on the Cardinal's 10-yard line. There the Nebraskans held for downs, but when they punted out, the ball was found in the Orange men's possession on the 35-yard line. Mc Bride then proceeded to shoot a goal kick for the first score of the game.

Thomson Makes Touchdown In the second quarter Tommy Thomson of Nebraska intercepted a pass on the Syracuse 40-yard line, and with two men running interference, raced 60 yards for a touchdown. In the third quarter of the game, Syracuse got the ball by covering a fumble on Nebraska's 40-yard line.

By straight football they carried the pigskin to the Cardinal's 10-yard line. Here the Nebraskans were penalized 5 yards and on the next play Anderson bored through for a touchdown. Mc Bride kicked goal but a foul was detected and the point was not counted.

The aerial attacks were futile except for one pass by Syracuse early in the game. It was a grim battle. No trick plays were used by either team, and the Syracuse rooters left the stadium well satisfied and confident of the prowess of their team.

Penn's Record Upset Penn's football dreams had a rude awakening when Alabama tumbled them with a 9-7 defeat. After a running streak of five straight wins, the defeat came as a severe blow to the Heismann-coached team.

A goal in the second period by Wesley and a smash by McCartee on the 1-foot line after a run of 34 yards account for Alabama's scores. Penn's touchdown came as the result of a spectacular 36-yard run. The game was one of the biggest surprises of Saturday's conflicts.

Yale defeated Brown 20-0 before a crowd of 27,000 spectators in the Yale bowl last Saturday. Neidling featured in the game, making all the touchdowns. The first was by running 35 yards after catching a forward pass, the second was by a run of 65 yards for a goal after catching Adams' kick. The third was executed by a 60-yard run after another completed pass from Wright.

Yale outplayed her opponents, whose greatest chance to score came in the last minute of play when Adams ran 45 yards on a completed pass, but was called back for a foul.

Dartmouth Beats Boston Dartmouth trounced Boston 10-7 at Hanover. The Green team had several chances to score, but lacked the final punch to put the ball across at the decisive moment.

Boston university scored early in the first quarter when coach Canah had several substitutes in the Dartmouth line-up. He immediately hauled them out and put in the regulars, and the Bostonians were halted. Lee made a touchdown for Dartmouth in the second period and Calden kicked goal. In the third quarter "Pudge" Neidlinger made a pretty drop kick from the 42-yard line for the final score.

For next Saturday the schedule follows:

Cornell vs Dartmouth at Polo grounds.  
Brown vs Bates at Providence.  
Penn State vs Carnegie Tech at State College.  
Harvard vs Princeton at Cambridge.  
Holy Cross vs Springfield at Worcester.

## WOLVERINES TO REST TILL GAME WITH WISCONSIN

### Michigan Coach Ranks Badgers a Powerful Team

(Special to The Cardinal) ANN ARBOR, Mich., Nov. 7 — After Michigan's decisive victory over their time honored rivals, the Michigan Aggies, all eyes are turned toward the Wisconsin game on November 18, which is the next battle on the Wolverine schedule.

Coach Yost and assistant coach Sturzenegger returned from Minneapolis where they saw the Badgers down the Gophers and they are frank to proclaim that Richards has one of the most powerful eleven that the Conference has seen in years. In Rollie Williams they say the Cardinal has a team all by itself. His work is described as sensational.

With full knowledge of Wisconsin's power, the Wolverines begin their final drill of two weeks in which they will put on the finishing touches for the big game. Next week is an open date but Yost may have an open scrimmage with the freshman eleven on that date.

Pressman, until today, have been allowed to see the Yostmen practice, but from now on the word has been given that Ferry Field is barred to all and what the Wolverines are doing behind closed gates will be made known only on November 18.

Against M. A. C. the Wolverines ran wild piling up the huge score of 63 to 0. The major part of that score, however, can be attributed to the weakness of the opposition which was utterly unable to stop Kipke, Steger, Keefer and Cappon.

In all the Wolverines made 30 first downs while the enemy were credited with but six, two of which were the result of penalties. During the first half when the regulars played, the Aggies were unable to penetrate the Yost defense for a single first down.

With five of their seven games over, the Wolverines have not been scored upon; but in Wisconsin and Minnesota they will meet the acid test.

The contest with the Badgers is attracting wide attention and brings to notice the inadequacy of the present stadium. All of the 43,500 seats are sold out and almost an equal number could be filled if they were available.

## Sophomore Women Trim Frosh in Hockey Game

Staging a rapid come back in the last half the sophomores were able to win over the freshmen, 2-1, in the second game of the women's class hockey tournament at Camp Randall yesterday afternoon.

The freshmen succeeded in getting the first goal and then held the sophomores by close and good team work for the remainder of the half. The freshmen defense kept the sophomores away from their goal during most of the playing, the freshmen goal keeper Sheila Hutchinson showing remarkable ability in shielding her cage.

The sophomores, while playing a fairly consistent game, did not come up to the team work which they showed in defeating the seniors, 4-3, last Saturday. Jorris and McClune playing freshman wing and half back on the left side of the field succeeded in keeping the ball between them a great deal of the time.

The junior squad ran over the freshman squad, 4-0, in a game unmarked by any spectacular playing.

## Iowa Football Team May Not Meet Yale in 1923

Yale university probably will not know until late next month whether she has a football game with Iowa at New Haven in 1923. The Hawkeye officials Wednesday decided to wait until December, when the Big Ten faculty committee meets, and find out what the conference think of the proposed game.

## Children Freed For Teachers' Convention

Madison schools will recess on Thursday to permit teachers to attend the convention of the Wisconsin Teachers' association at Milwaukee.

## ILLINOIS PLAYS BAFFLE VARSITY AND GAIN YARDS

### Lowman's Scouting Helps Scrubs to Slice of Success

Using Illinois plays, Coach Guy S. Lowman's omelettes were able to make great headway against the regular Varsity eleven in the scrimmage at Camp Randall yesterday afternoon.

Coach Lowman scouted games in which Illinois has played and imparted its method of attack to the All-Americans with the result that Varsity had its hands full in a skirmish which lasted until long after dusk.

The regular Varsity team was able to work against the misfits. Capt. Rollie Williams is in shape after the Minnesota contest and Gibson is also drilling regularly. With the exception of usual after-effects of any game, the Badgers emerged from their contest with the northmen in the best of condition.

Illini Find Quarter

That Coach Richards is expecting no easy time with the "fighting Illini" was indicated by his remarks to Varsity during yesterday's workout. Illinois has previously been handicapped by lack of a good quarterback, but the right man seems to have appeared in the person of Coutchie. Coutchie is a good field general and, besides, has a habit of making successful drop-kicks.

His two attempts against Northwestern were good and counted enough points to win. One of the kicks was from the 50-yard line and although Northwestern players protested that the ball had not sailed between the posts, the officials maintained that it was a successful attempt.

Coach Richards will spend much time with his line in the three days of practice which remain before the big Homecoming battle. The changed right side worked effectively against Minnesota, with Smith and Bieberstein, who has never before started in a Big Ten contest, smearing the Gopher forwards at all times.

New Men Play Well

Nichols and Pearce, centers, consistently outfought and outplayed the highly-touted Capt. Ollie Aas, and Sykes, who relieved Bieberstein in the second half, also did his share of the line-work.

Merrill Taft, Varsity fullback, came in for much favorable comment on his work in the backfield. Taft's ripping plunges in the second half were responsible for Minnesota's failure to hold the Badger ground attack. His punting in the first two periods undeniably kept the Gophers out of the danger zone and probably saved a score. Taft's punts were well-placed and Martineau was kept guessing.

Indians To Fight

Coach Zupke's Indians are steadily improving and they will reach the peak of their season here on Saturday. If there is any Conference team that Zupke wants to beat, it is Wisconsin. He will use every play in the football category in an effort to put the skids under Richards' flying Badger eleven.

On the defense, Illinois will have a better chance to stop the Wisconsin open game that Minnesota had. The Gophers, under the tutelage of Coach Spaulding, who was unfamiliar with Wisconsin's open play, were rattled by Barr's forward passes. Irish and Tebell were out in the clear time after time and if weather conditions had been more favorable, Wisconsin would have completed more than 8 out of its 17 passes.

Camp Randall is already taking on a Homecoming appearance. Wooden additions are being built onto the stands and the end bleachers are erected.

## CONSTRUCTIVE IDEA

MEMBERS of the Student senate at times criticize The Cardinal for not presenting constructive suggestions when it mentions that important instrument of student self-government.

It therefore pleases us at this time to reiterate the suggestion made on October 12 with reference to the Co-Op. This editorial, referring to the prevalent practice of cussing the Co-op and the general feeling that the Co-op is overcharging students, suggested that the senate conduct an investigation of Co-Op prices.

The Co-Op is no predatory monster. It is an organization for serving students. Undoubtedly it would welcome an investigation that would bring out the facts and clear up the atmosphere.

To date we have heard of no action on this matter.

Perhaps we should apologize for suggesting it at a time when the senate is comparatively inactive. During the first months of the year retiring members are naturally becoming interested in other activities. Others are busy supervising election machinery. Still others are busy with another phase of elections.

But now elections are over. A new senate is formed. We repeat a constructive suggestion. May we hope for action?

The Cardinal will be glad to make public the findings of such a senate investigation.

## SOCIETY AND SCHOOL

THE great variety and apparent intensiveness of social activities at the university may strike the older resident of the state as a sign of excessive society craze among the students.

More dances are held than ever before in the history of the university.

The society column of the college daily is filled each day with announcements of dances given by sororities, fraternities and clubs.

Though each of these organizations may give but one dance a month, yet there are so many of the clubs and Greek letter societies that the aggregate of dances given by all of them amounts to no small number.

The number of fraternities and sororities has been growing each

year. Professional houses have been formed.

Clubs and societies have been formed upon the campus for little or no reason. Anyone with a mania for organization may seize the over-worked idea to form a new club, a new society.

These facts seem like an indictment of the student life in the university. What is the reason for the development? Why are the social activities more noticeable than they were years ago?

Despite the fact that many clubs have been formed without sufficient reason for their existence, there do exist many that have a real purpose—a worthy aim.

The growth of fraternities and sororities, while apparently phenomenal, still has been but consistent with the growth of the university.

Outward appearances, based on quick decisions after reading society columns, fail to tell the story as it really is. He who neglects to take time for thought may believe the university has gone society crazy.

The university is not dance mad; the students are not all wasting their time in foolish pleasure, in worshipping at the throne of the great God Jazz.

The person who jumps to these conclusions is doing an injustice to those many students who are here to prepare for their career. Such a person has failed to keep up with the spirit of the times, with the progress and growth of the university.

Place 7,500 students, wide-awake Americans, into one community. A population like that is a fair-sized town in itself. If wholesome and clean entertainment is not provided youth will grow stale and become old age.

There must be the safety valve of recreation. Dancing is but one form of needed recreation.

The university is now the largest and greatest in its history. The enrollment is yearly reaching a new high point. What will suffice for a university of 500 students will not meet the needs of a university of 7,500.

That safety valve must be provided for all, even if at times it may seem as if too much steam were being wasted in this way. The spirit of progress, of growth, of development must be recognized and acknowledged.

## Werrenrath, Noted American Baritone In Recital Nov. 14

America's foremost baritone, Reinald Werrenrath, is to give a recital at the University armory on Wednesday evening, November 14, under the auspices of Union Board.

Werrenrath was born in Brooklyn, New York, and has received his instruction in America. He is a graduate of New York university of the class of 1905, and a member of Psi Upsilon fraternity.

In February, 1919, Reinald Werrenrath made his debut at the Metropolitan Opera House, New York. He was immediately applauded by critics as the greatest living American baritone, and has since been much in demand for concerts all over the country. During the season of 1920-1921 he filled over 100 engagements for recitals, festivals, oratorios, and orchestra engagements.

His London debut, in June of 1920, won him instant recognition from the London critics. This spring he gave two more recitals in London, and his singing was received with an enthusiasm that insured his future welcome in England. His recitals will be fixtures of the London musical season hereafter, according to the London critics.

Reinald Werrenrath has found much favor as a singer with orchestras throughout the country. He has sung with the Boston Symphony orchestra, the Philadelphia orchestra and with the Haenel and Haydn society of Boston. He has given recitals in Orchestra hall, Chicago, in Symphony and Jordan halls, Boston, and in the Academy of Music at Brooklyn.

## LOOKING BACK ON WISCONSIN

### IN THE CARDINAL FILES

#### 30 Years Ago Today

W. T. Saucerman, business manager of The Daily Cardinal, announces that the entire proceeds of the paper are to go toward paying for the \$5,000 boat house being built on the shore of Lake Mendota.

Grover Cleveland, Democratic candidate for president, carries the country by an overwhelming majority.

The question of changing the present system of marking in the university has come up for discussion and a committee has been appointed to look into the matter.

#### 10 Years Ago Today

The Varsity eleven today closes its practice in preparation for the Arkansas game to be played at Camp Randall tomorrow afternoon.

It is announced that the student and faculty directory of 100 pages will be out in a week.

"Equal suffrage is bound to come," asserts La Follette, in the latest issue of his magazine.

#### 5 Years Ago Today

President Wilson issues his 1917 Thanksgiving proclamation to a nation imperiled by a world war.

Bonar Law expresses great confidence in the victory of the allies.

"That the University of Wisconsin is a potent influence in the Orient and especially in Indemnity college at Peking," is the assertion made by Professor Dethmar of the sociology department of Indemnity college and a graduate of Wisconsin.

#### WORKS 11 HOURS NIGHTS

Ralph Warner, 18-year-old freshman engineer at the University of Michigan, is taking 16 hours a week in college and working in a factory 11 hours each night to pay his way through school.

#### A GOOD CAUSE

THE Capital Times is conducting a vigorous campaign to clean up the poison pits of Madison.

For years Dago Red has flowed freely and the moon has shone brightly in the Italian district with scant obstruction.

University students have imbibed their share of the vile product of unsanitary stills. They have suffered their share from the poison which bootleggers sell in place of liquor less vile.

No matter what one's opinion may be on the matter of old liquor and prohibition in general, one cannot but congratulate The Times and wish it success in its war on the vendors of murderous moonshine.

WELL IT seems that the 4th of July isn't the only day that is celebrated!!!

AND WHY should it be!!

NOW EVERYBODY is beginning to wonder

Just who the lucky girl will be!!

GEE WHIZ GOSH! they all will be running to the beauty shops every week now to get their hair wrinkled to look nice!

THE ONLY way to find the real beauty of the school

IS TO stand on the hill at about 7:30 in the A. M.

AND WATCH them come up to their eight o'clocks!!

IF THEY look good then, they will any time!!

BUT JUST TRY AND find one that looks good then!

JUST WAIT until this winter,—

THE PI THIS are going to be glad that they have their COATES!

It's never to late to be sorry: I'm sorry I've been given the air.

I wish they would lift from my shoulders

The grind I've been given to bear.

I can't mend the grades I've been given;

There's not a way clear I can see.

Though it's never to late to be sorry,

Nobody acts sorry for me!!

## COMMUNICATION

Dear Ed:  
With reference to the little Hubbard boy's flaxen locks, would explain. He spent the summer in the great outdoors where men are men. Lost his hat one night and the hot, scorching, withering, moonshine of northern Wisconsin distilled the pigment from his tresses.

I have never seen a peroxide bottle in his room, though I have tried to get him to bleach his eyebrows and chin.

## HIS ROOMY

I am no longer sophisticated.  
No longer can the phrase "An Innocent Little Girl"  
Find a sympathetic note  
In my heart.  
I am Eve  
After her apple party!  
Heaven holds no joys for me.  
Hell no terrors.

If I live to the ripe old age  
Of forty years,  
I shall never forget  
Last night; it haunts me  
Like an evil spirit  
I feel no sorrow,  
No joy; only satisfaction  
Fills my soul.  
Now I know  
What for years has been  
But a taunting question  
In my mind;  
Last night  
I smoked a cigarette!!

I. M.

## VERSE ONE

The evening was balmy and zephyry.  
The moon was as bright as could be.

She said, "Dear, how can I thank you  
For this diamond you've given me!"

She paused then for a moment  
And continued with a sigh,  
"No one in this wide, wide, world  
Could trust you more than I."

## VERSE TWO

He said, "You the wrong, my dear  
There is one who trusts me more  
And he's the guy who sold that ring—  
The guy in the jewelry store."

"Hey, pass the buck," cried the young fella who desired some more venison.

## BADGER AD STAFF

The Badger advertising staff will meet at 7:15 o'clock Thursday evening at the Badger office in the Union building. All members are expected to be present.

## Bulletin Board

### NEIGHBORHOOD HOUSE

The monthly meeting of the Neighborhood House workers has been postponed until Wednesday, November 8.

### SOPH FOOTBALL

Sophomore men interested in playing in the freshman-sophomore football game, November 17, are asked to report at Camp Randall at once for practice on the all-American squad.

### P. E. O. MEETING

P. E. O.s and sons and daughters of P. E. O. attending the university please telephone Mrs. H. N. Goddard. F. 2838.

### MICHIGAN INVITATION

Wisconsin Alumni and students attending the Michigan-Wisconsin game are invited to meet in the reading room of the Michigan Union after the game, when Ann Arbor alumni will be glad to conduct them about the building.

### MENORAH BANQUET

All students desiring to make reservations for the Homecoming banquet of Menorah society to be held at the Woman's building Nov. 11, call Sylvia Rosenberg at Fairchild 2546 before Thursday night.

### WOMEN'S COMMERCE CLUB

Members of Women's Commerce club are requested to meet at 12:30 Wednesday at De Longe's studio for a group picture.

### GUN AND BLADE

The Gun and Blade club will meet at 7:30 o'clock Thursday night in the Union building.

### HARESFOOT TRYOUTS

All sophomore and upperclass men who wish to tryout for acts in the Haresfoot follies may receive complete information on the tryouts set for November 17 by calling either Alfred H. Hiatt '24 at B. 171 or Porter F. Butts '24 at B. 186.

### CRUCIBLE PICTURE

Crucible members will meet at 12:30 o'clock Wednesday to have Badger picture taken.

### INTERCOLLEGIATE CLUB

The Intercollegiate club will have a cafeteria supper at 5:30 o'clock Wednesday in the S. G. A. room in Lathrop hall.

### FOOTBALL USHERS

All men who have signed up to usher at the Homecoming game will meet at 7 o'clock Wednesday night in the office of the gymnasium. There are vacancies for about 50 men in addition to those already signed up.

### JUNIOR MATH CLUB

Junior Mathematics club will meet at 7 o'clock Thursday evening in Music hall. Prof. Arnold Dresden will speak on "Mathematics and Music." A short social meeting will follow the program.

### CLASS TREASURERS

All class treasurers report to 22 South hall any day except Tuesday to get bank books and regulation receipt and check books. Studnet financial adviser.

### WORLD AGRICULTURAL SOCIETY

A meeting of Wisconsin Chapter of World Agricultural society is called for 7 p. m., November 10, in 300 Ag. hall. All who are interested in World Agriculture are invited to attend.

### ARTUS

Student and faculty members of Artus are requested to meet at the Thomas Studio on Thursday, at 12:40 o'clock. Any member who

### A. W. A.

A. W. A. will meet at 7:00 o'clock Thursday night in Lathrop hall.

### BABCOCK DAIRY CLUB

Prof. W. H. Wright will speak on "Methods of Grading Milk" at the meeting of the Babcock Dairy club at 7:30 o'clock tonight at the Dairy building.

Square and Compass will hold its regular dinner at the Y. M. C. A. at 6 o'clock tonight. The meeting at 7 o'clock will follow. Tickets may be obtained now for the dance November 18.

### CLEF CLUB BANQUET

Clef Club will hold its annual banquet and initiation 5:15 o'clock Thursday evening at the Woman's building. Every one is requested to bring \$1 for the banquet.

## SPIRIT LINE IS FALSE, CLAIM

**Prof. Kahlenberg Says Division Line is Caused By Chemical Action**

No line can be drawn between what is matter and what is spirit, according to Prof. L. A. Kahlenberg, who spoke before the Wesley Forum Sunday evening on "Spirit and Matter."

Spirit is only the action of chemical forces while matter is only the revelation of spirit," Prof. Kahlenberg said. He used illustrations from chemistry to prove that we do not know the limit of the realm of life.

"Spiritualism," he said, "is a matter of faith. That is, we live on a basis of faith. Science is also in a large measure pure hypothesis which offers the best explanation for the facts as we see them."

In the discussion following his talk, Professor Kahlenberg answered questions raised by his presentation of the subject. The meeting was extended nearly a half hour over the time by vote of the audience in order to clear up all the questions raised.

Officers elected to head the forum are: president, L. O. Denyes Law 1; secretary, Mertis Shanks '24; treasurer, Mabel Batcheller, '24; publicity, Fred Kildow '23, Adrian Scolten '23, and Forrest Crawford '23.

This Sunday, Prof. M. F. Guyer of the Department of Biology will speak on "Basic Questions". According to Professor Guyer, these questions are the result of the overlapping of Science and religion.

### Scale Installation at No. 2 Station Begun

Installation of the new city scale at No. 2 fire station was started yesterday by the city engineering department. The scale will be placed on the Broom street side of the station. The cost of the scale when completed will be about \$845. It is of the Fairbanks-Morse Type P scales.

## 20,000 SPECIMENS IN EXHIBITS OF HISTORICAL LIBRARY

**Hold 50 Exhibitions Annually; Mendota Tours Taken in Summer**

In addition to the 50 special exhibitions made annually there are 20,000 specimens in the permanent collection of the Wisconsin Historical society on the fourth floor of the Library.

During the summer sessions, pilgrimages of 150 to 250 students on foot, or two or three boat loads are guided about the important places of interest on Lake Mendota. Outdoor folk lore meetings and illustrated lectures on Wisconsin history are also given, according to the recent report of Curator C. E. Brown.

Many visits are made to the museum from the high and other schools of the state. A number of loan exhibits are now circulating in these school communities. These exhibits are made up of articles of pioneer domestic arts, common utensils, and Indian stone arts and implements.

Costume picture collections with pictures mounted on cardboard sheets classified for the benefit of schools and communities engaged in organizing historical pageants, festivals and other dramatic performances are included in the collections.

A new collection of pictures, drawings, Indian decorative art, designs by American Indians, articles of dress and accessories has recently been prepared for distribution. The Wisconsin Historical society and the Wisconsin Archaeological society are cooperating in preserving Indian and other pioneer landmarks. Indian mounds are marked with tablets in 20 different localities around the three lakes of Madison.

### MEN WANTED

The decorations committee for Homecoming needs men to help decorate the field Saturday morning. Men who want to help are asked to call Roland Burt at F-200.

Approximately 310 disabled soldiers studied here last year under federal direction.

## Gary Named as Director of Large Tobacco Co.

George E. Gary, Madison, state manager of the P. Lorillard Co., one of the leading tobacco companies in the country, has been elected a member of the board of directors of the corporation, it was announced yesterday.

Mr. Gary will remain at his post here for the present, he said today.

"The election of Mr. Gary is a tribute to the tobacco industry in Wisconsin," C. A. Hoen, secretary of the Northern Wisconsin Tobacco pool said today. "In addition to choosing a well-qualified man to aid in directing the policies of the company, the importance of Wisconsin as a tobacco center is also recognized."

Mr. Gary was chosen at a meeting of the board of directors in New York last week.

## Dane County Board of Supervisors Meet Nov. 14

Tax problems and county highway questions will be the most important matters confronting the Dane county board of supervisors when they hold their session in the county court house Nov. 14. The Junior Superior court room will be used for the meeting.

A report on Dane county highways which was made out by the legislative committee of the Association of Wisconsin County Boards at the meeting in the capitol recently, will be submitted to the county board for endorsement, amendment, or veto.

It is expected that the board will be in session for ten days or more this year.

## Statuette of Williams Wins Homecoming Prize

A life size bust of Rollie Williams, captain of the football team, made by Kenneth Fagg '23, a student, was picked Monday night as the best of a group of statuettes depicting the spirit of homecoming.

Fagg's work was chosen because it is of Williams, well known over the United States and also in accordance with the Greek custom of immortalizing athletic heroes.

The bust has been placed in the Chocolate Shop window for exhibition. The Chocolate Shop won the trophy in a number drawing contest. Other business houses will receive their posters and statuettes soon. Judges were Prof. William Varnum, Prof. J. Colt, Architect Frank Riley and Arthur F. Worth.

### JUNIOR COUNCIL

An important meeting of the Junior council will be held at 12 o'clock today at the Y. M. C. A.

You Can't Help But Like

## Fraternities and Sororities

For nearly twenty years, we have been familiar with various fraternity and sorority properties. This experience has been of much assistance to those who have purchased through us. As evidence of this, we submit the following who have either purchased their houses or sites through our office:

Alpha Delta Pi	Phi Gamma Delta
Chi Psi	Phi Mu
Alpha Tau Omega	Psi Upsilon
Chi Omega	Sigma Alpha
Delta Chi	Epsilon
Delta Delta Delta	Sigma Nu
Farm House	Tau Kappa Epsilon
Fraternity	Theta Chi
Kappa Sigma	Theta Delta Chi

Lake shore and Langdon street properties are very scarce. Nearly all have been acquired, but there are still a few obtainable, especially some excellent lake shore properties—two or three very excellent homes that can be converted into very desirable fraternity or sorority houses.

The time to go into this matter is NOW. Homecoming is close by. When the "gang" is back you should know what properties are available. Get in touch with us now. Let us submit a prospectus with photos so that you may actually show the really good places that are now on the market.

## Stanley C. Hanks Co.

208 First Central Bldg.

Badger 6920

## SOCIAL NOTES

### Lambda Chi Alpha Moonlight Dance

Lambda Chi Alpha will entertain with a moonlight dancing party Friday evening at the chapter house, 148 West Gilman street. Besides the special lighting effects, autumn foliage will be used in decorating. Mr. and Mrs. John T. Blake have been invited to chaperon.

### Phi Kappa Party At Monona Hotel

Phi Kappa fraternity will entertain informally Friday evening at the Monona hotel. A color scheme of red and white will be used in the decorations and lattice work. Mr. and Mrs. James E. Manion will act as chaperons.

### Eta Kappa Nu Elections

Eta Kappa Nu, honorary engineering fraternity, announces the election of the following: Frederick D. Blanch '24, Hendrick J. Gregg '24, Floyd D. Johnson '24, Peter J. Burelbach '23, Robert A. Clark '23, William A. Gluesing '23, Robert W. Groot '23, George A. Hill '23, William M. Knott '23, John A. Potte '23, Lawrence P. Richmond '23, and Arnold S. Ruffvold '23.

### Phi Kappa Psi Informal Dance

Members of Phi Kappa Psi fraternity will give an informal dance Friday evening at the chapter house, 148 Langdon street, in compliment to their alumni who are coming back for Homecoming. Dr. and Mrs. W. E. Sullivan will chaperon.

### Delta Chi Informal

Members of Delta Chi will entertain with an informal dance Friday evening at the chapter house, 150 Langdon street. Baskets of chrysanthemums will be used in decorating. Mr. and Mrs. Wm. J. Morgan and Mr. and Mrs. George P. Hambrecht will chaperon.

### Alpha Omicron Pi Homecoming Party

Alpha Omicron Pi will entertain Friday evening with an informal dancing party in honor of their returning alumni. Miss Charlotte Wood will act as chaperon.

### Alpha Chi Sigma Dancing Party

Alpha Chi Sigma will hold their Homecoming party in Lathrop concert room Friday evening. Prof. and Mrs. J. F. Oesterle will chaperon the dance.

### Sigma Phi Epsilon Honor Alumni

Members of Sigma Phi Epsilon will give an informal dancing party Friday evening in honor of their alumni. Mayor and Mrs. I. E. Kittleson and E. E. Parker have accepted the invitation to chaperon.

### Tau Kappa Epsilon House Dance

Tau Kappa Epsilon will give an informal dancing party Friday evening at the chapter house, 216 Langdon street. Those invited to chaperon are Mr. and Mrs. C. D. Rosa and Mr. and Mrs. Harry Mirick.

### Alpha Kappa Kappa To Give Dance

Members of Alpha Kappa Kappa fraternity will entertain informally Friday evening with a dancing

### SILK VELVET IS ARISTOCRAT OF FABRIC FAMILY

Silk velvet, the aristocrat of the fabric family, is always favored for dress wear. This formal afternoon gown is made of black silk velvet with embellishments of antique lace and ribbon. Note the colonial slippers of patent leather with their huge cut steel buckles.

party. The chapter house at 5 Langdon street will be decorated with red and white streamers and baskets of bittersweet.

Dr. and Mrs. S. J. Briggs and Mr. and Mrs. D. W. Heusinkveld have accepted the invitation to chaperon.

### Theta Chi Announces Initiation

Theta Chi fraternity announces the initiation of Frank R. Miller '25, Madison, and Arthur Timm '25, Milwaukee. Both are students in the college of Letters and Science.

### Delta Sigma Phi Homecoming Dance

Delta Sigma Phi fraternity will give a Homecoming dance for their alumni Saturday, at the chapter house. Mr. and Mrs. Lane Ward will act as chaperons. Decorations will be carried out in Illinois and Wisconsin colors.

### Acacia Entertains

Acacia fraternity entertained Mr. James Law of Madison and Mr. Charles Morgan, Chicago, at dinner last evening. The guests were for-

### Popular Orpheum Bill Plays Last Time Today

One of the brilliant spots on the Orpheum bill, playing for the last times today, is Henri Margo's "Tints and Tones." Much singing and dancing is introduced by this company of talented artists.

Carlton Emmy is popularizing himself with Madison audiences with his well delivered monologue and 18 little Scotch terrier assistants. "Broken Promises" is the title of the one act playlet given by Arthur De Voy and his cast of players.

"The Commander in chief of the Army of Fun" is Hughie Clark, who is sure to please. Stanley, Doyle, and Reno are excellent harmony singers as well as clever comedians, and the act as a whole is an enjoyable one. The feats of the Three Danose Sisters, carefully planned and accurately executed are good.

### BOARD MEETS

The quarterly meeting of the state board of vocational education, postponed from October, will be held Nov. 15 at Menominee. A successor to Dr. L. D. Harvey as president of Stout Institute will be named. One of the candidates for the position is John Callahan, state superintendent of public instruction, now a member of the board.

### STANFORD WEARS SOMBREROS

### Holy Cross Pilgrimage Will be Held Sunday

The pilgrimage of members of Holy Redeemer church to Holy Cross cemetery was scheduled for Sunday, but was postponed on account of the heavy rain, and will be held next Sunday afternoon, weather permitting.

Seventy-eight students registered yesterday in the Dairy course given by the College of Agriculture. Late registration is expected to swell the

number past the 100 mark, according to registration officials at the Dairy building.

The number registering are 40 students in butter-making and ice-cream manufacture, 32 students in cheese making, and 6 students in market milk courses.

Classes start this morning. General lectures are given at 8 o'clock in the morning and at 1:30 o'clock in the afternoon. Sectional meetings are held immediately after the lectures.

## SET BACK GIVEN LOCAL BUILDING

### Act of Legislature is Demanded By U. S. Government

Madison's long-heralded new federal building, which has been a "project" for the past five years, was given another temporary setback yesterday when Cong. John M. Nelson, who has fostered the movement in Congress, informed Herman Sachtjen, assemblyman for the first district, which includes Madison, that an act of the legislature must be passed before further steps toward the erection of the building can be taken.

The state must give complete control of the building site to the federal government by a special act, the treasury department has notified Congressman Nelson, he told Mr. Sachtjen in a letter received yesterday.

An act fulfilling the government requirements is now being drawn, Mr. Sachtjen announced, and will be pushed in the legislature when it convenes in January.

The new postoffice and federal building has practically become a reality, as an option on the block bounded by Pinckney and Doty sts. and Wilson and Monona aves. has been secured. The price of the site is approximately \$350,000.

### Protest New Apartment In Lieu of Zoning Law

A petition, protesting the erection of a proposed apartment building on Van Hise ave., near Roby road, signed by more than 50 residents in that neighborhood, will be presented to the city council Friday night, it was learned yesterday. The residents charge that the owner is rushing the work to prevent restriction by the proposed zoning law being considered by the council. They charge that it will be a nuisance through the use of soft coal for heating purposes, that it decreases the value of property adjacent, and that it is prohibited in that section by the proposed zoning law.

## City Briefs

### INSPECTS BUILDING.

Maj. Washington Haverstick, inspector of buildings of the treasury department, made his annual inspection of the federal building this morning. His report will be submitted to headquarters at Washington, D. C.

### \$8,000 HOUSE PLANNED.

An \$8,000 stucco residence is contemplated at 2114 Chamberlain ave. by R. N. Marling, according to a building permit issued today by G. H. Mason, building commissioner.

### BUYS \$12,500 HOME.

F. Edwin Schmitz, of the Hub Clothing Co., has purchased the new house which has just been completed at 2223 West Lawn ave. The sale was made by Harold Torgerson of the Stanley M. Hanks Co. The purchase price was \$12,500.

### SAVES FUNDS.

Efficiency systems which saved more than \$20,000 were inaugurated in the secretary of state's office by Elmer S. Hall during his term. Launcelot A. Gordon, assistant secretary of state, declared at a meeting of La Crosse County Community council last Saturday.

### S. G. A. COUNCIL

S. G. A. council will meet at 7:15 o'clock tonight in Lathrop concert room and all house representatives, if possible, will have supper at Lathrop cafeteria to hear Miss Ward.

## MADISON'S FOURTH COMMUNITY Music Memory Contest

Conducted under the auspices of the Madison Community Music Committee

A movement to increase the knowledge of good music through learning to recognize from hearing twenty-four of the best musical compositions. Four are assigned to each of six weeks. At the end of the period, a contest is held, in which parts of the compositions are played and the listeners attempt to write down the titles and composers. This year in evaluating the papers, no additional mark will be given for correct spelling.

### SELECTION NO. 15

Pomp and Circumstance March No. 1 by Edward Elgar (born near Worcester, England, 1857; still living).

### A Picture Realized

A march for the coronation of the king! The picture suggested by this statement is adequately exemplified in the brilliant and stately music of this regal march by the great English musician.

### England's Best

Sir Edward Elgar is the leading English composer. He has written almost every type of music from mystical interpretations of church doctrines to noble settings of ancient stories of warfare; from charming songs for solo voice or small group up to great, involved choral masterpieces; from violin concertos to massive symphonies.

### A Concert March

Although elaborately scored for use in the concert-hall, this splen-

### Wausau Raises Funds For Y. W. C. A. Program

The Y. W. C. A. supporters of Wausau are expected to dig deep into their pockets this week by canvassers who are scouring the city in order to raise enough money for the coming year's Y. W. C. A. program. Reports indicate that the campaign for more funds is meeting with success, thus insuring the local club of another successful year.

### Fugitive Pleads Not Guilty to Abandonment

Martin Nordness entered a plea of not guilty to charges of abandonment preferred against him in Superior court today by Pearl Olson. Nordness was brought back from Dubuque, Ia., yesterday by Undersheriff Lawrence Larson. Bail was set at \$1,000.

### Resident of Merrill for 40 Years Passes Away

MERRILL, Wis.—Fred Hesterman, Sr., resident of Merrill, for 40 years, and prominent business man, died at Wisconsin Rapids at the age of 64. Death occurred at the home of his son, Fred Jr., pneumonia overtaking him before he could return to his Merrill homestead. He was a director of the American State Bank, of the Cloverland Colonization company, served on the city council for several terms, built the Prairie River Stone bridge and the Lincoln county jail and sheriff's residence, assisted in the building of many other structures.

### JUNIOR MATH ACTIVE

All members of the Junior Mathematics club must report at 12:15 o'clock Friday at De Long's studio to have their picture taken for Badger.

### READ CARDINAL ADS

did composition is regular enough in its rhythm so that it has frequently been used for stately processions. This is the first of two marches bearing the same name. It was first performed in 1901, during the festivities incidental to the crowning of King Edward VII. It became instantly popular, both in England and abroad. Its trio—the name usually given to the second or contracting section of a march—is so song-like that it was soon adapted to words, which have practically made this into another British national anthem. The listener can easily fit them to the playing by the record. They are as follows:

"Land of hope and glory, mother of the free,  
How shall we extol thee, who are born of thee?

Wider still and wider shall thy bounds be set:

God who made thee mighty, make thee mightier yet!

God who made thee mighty, make thee mightier yet!"

### Hunting for Treasures

As is always the case with a fine composition, careful study constantly reveals new beauties. The themes are striking in their contrast—the main one, bustling and hurried; the other, in the trio, broad and contained. The trumpets are particularly effective both when they play the melody and when they punctuate or adorn it with little flourishes.

Elgar has used very simple melodic material developing this march. The introductory passage contains four tones repeated, followed by the two tones above in the scale. The main sprightly theme is built upon four descending tones of the scale. The theme of the trio first appears in the lower register and is then transposed an octave higher with brilliant effect.

This march is recorded on Columbia, No. 6164 and Victor No. 35247.

## 3 Miles of Campus Tunnels Await Exploration by Some Jean Valjean

Do you know—  
That there is a network of more than 3 miles of tunnel under the campus?

That it is possible to go from the gymnasium to the crematory without coming out of the basement?

That the subway is from 6 to 8 feet square?

That the tunnel is well ventilated, heated, lighted, cleaned, and drained?

The modern improvements in underground passages which the University of Wisconsin has to offer should make Jean Valjean stir in his grave with ambition and envy.

Every building on the campus is heated by steam which leaves the heating plant at University avenue and Orchard street through a single 16 inch pipe. After leaving the plant the pipe-line divides, one section going east toward the upper campus and the other supplying, through its distributaries, the buildings on the west.

According to statistics furnished by Mr. John J. Novotny, chief engineer of the plant, the total length of these tunnels is 3 miles. In addition, there are 2 miles of cement conduits carrying the smaller pipes.

The total cubical content of the buildings heated is 32,013,233 cubic feet. To warm this vast amount of space requires 20,000 to 22,000 tons

of coal per year and the evaporation of 339,233,529 pounds of water.

Nine 350 horse power boilers are installed in the plant for this purpose, and in the coldest days of winter, they burn as much as 135 tons of coal per day.

The tunnels are lighted by sections, each section being equipped with 3-way switches which allows them to be turned on or off from either end. The tunnels are kept clean and pumps drain them of seepage water. Manholes, placed at intervals, make any part of the system easily accessible.

Besides the low pressure steam for heating purposes and a pipe to return the condensed steam to the plant, the tunnels carry a third pipe which furnishes high pressure steam to some of the buildings and a compressed air pipe. All are insulated with 3 inches of asbestos and are painted conspicuously to avoid all possibility of confusion. An electrically controlled gauge registers at the plant the pressure at the extremities of the service.

The heating plant probably is the best equipped of all similar plants in the United States.

Those interested are invited by Mr. Novotny to visit the station, and see for themselves just how this heating project of the entire university is conducted.

## MADISON GIRL IS MISSING AT SEA IN LOST YACHT

Mrs. A. Y. Gowan Passenger on "Speejacks" 5 Days Overdue

Mrs. Albert Y. Gowan, a former Madison resident, is a member of the party on board the yacht, Speejacks, reported lost at sea, according to word received here yesterday. The yacht was encircling the globe.

Mrs. Gowan, wife of the Chicago manager of the Lehigh Portland Cement Co., is a daughter of Mrs. L. M. Golden, former housekeeper at the Park hotel here, and now a resident of Pomona, Cal. Both Mrs. Golden and her daughter are well known in Madison.

Despite the fact that the yacht had on board a powerful radio outfit, nothing has been heard of it since Oct. 28. It is five days past due at LaPalma, Canary Islands, dispatches stated yesterday. Mr. Gowan, in his cable of Oct. 28 stated that the boat was taking the southern course. The storm which raged along the Atlantic about that time may have wrecked the craft.

The yacht left Gibraltar Oct. 28, and has been nine days on its way. The distance to the Canary Islands is 705 miles. The radio equipment has a range of 1,000 miles, according to Bernard F. Rogers, a guest part of the way, and at no time would it be out of touch with the wireless at Gibraltar.

It is pointed out, however, that the craft may have been driven toward the rock-bound coast of Morocco by storms and found a haven where the natives are anything but friendly to the whites.

## CHILDS FORESEES FUTURE FOR CHINA

(Continued from page 1)

tioned were the failures of attempts to overthrow the democracy four times in the last six years, the gradual emancipation of women, the rise of provincial autonomy and the movement for youth education and improvement.

"Young China is waging war with old customs," Childs said. "Schools are being constructed, the vernacular language superceding the obscure classical writing and western ideals are gaining in significance."

This evening Childs will meet another group of faculty members at the home of Prof. M. S. Slaughter. During the day he will held personal conferences with various members of the student body in the offices of the Y. M. C. A.

WISCONSIN RAPIDS — J. B. Purves, Port Arthur, Ont., has been named manager of the Biron mill of the Consolidated Water Power and Paper company, to fill the vacancy caused by the resignation of Fred Eberhardt.

### PLANS BUILDING

L. A. Chase was issued a permit today for a \$6,000 frame residence at 2240 Rowley ave.

## Who is Kemal Pasha? Asks Washington Frosh

(Special to The Cardinal)

UNIVERSITY OF WASHINGTON, SEATTLE, Wash., Nov. 6 (P. I. N. S.)—There is very little about modern or ancient personages, places or characters that Washington's freshmen do not know, as revealed by answers to a questionnaire recently given the English composition class by W. R. Gundlach, of the faculty.

"Who was William George?" "Why, he is Lloyd George's little brother," ran one of the answers. Equally startling is the fact that Mustapha Kemal Pasha is head of the Japanese navy. "Oliver Twist" is a kind of tobacco and Mozart a brand of cigars.

Other samples of freshman intelligence are: Iago, "Japanese rice"; Sir Roger De Coverly, "An old fashioned square dance"; Becky Sharp, "A music writer"; Heifitz, "Name of a cow"; Demosthenes, "Russian writer"; Dardenelles, "Name of a song"; and Ronald A-mundsen, "Painter."

SUPERIOR — F. J. Seguin was elected chairman of the Douglas county republican committee. W. J. Keaough was named secretary and Mrs. Tillie Holden treasurer.

WATERTOWN — The installation of new officers of Watertown council, No. 1478, Knights of Columbus, was held at St. Henry's hall. District Deputy L. F. O'Brien of Madison was in charge of the ceremonies. E. D. Stack is a grand knight of the local council.

## PIRENNE REFUTES BELIEF IN ORIGIN OF MIDDLE AGES

Noted Belgian Professor Sets Beginning of Period at Moslem Conquest

"The fall of the Roman Empire did not mark the beginning of the Middle Ages as is so commonly supposed," Prof. Henri Pirenne, of the University of Ghent, Belgium told his audience in his address yesterday afternoon in Bascom hall, when he spoke on the subject, "Mohammed and Charlemagne."

The subject of his address was not connected with recent movements in the Mohammedan world, but dealt with a much earlier period in order that Pirenne might present results of his own study of the importance of Mohammed for proper understanding of the work of Charlemagne.

The common theory, found in all the books concerning the Middle Ages, is that they began with the fall of the Roman Empire under the invasions of the Teutonic tribes.

"This is not exact," Professor Pirenne said. "The Roman Empire with was a Mediterranean empire or civilization with the Mediterranean as a center. The Germanic invasions caused great damage and left many ruins but made no fundamental change in economic conditions."

"The civilization remains essentially the same; only the political regime is changed. Commerce on the Mediterranean continued without interruption as is shown by the continued use of the gold coinage of the Romans, and the papyrus, which came from Egypt, for writing."

"About the year 750 there was a change. The gravity of Western civilization shifted due to the conquest of the Mediterranean basin by the followers of Mohammed, who took possession of all this territory. From this invasion one can date the Middle Ages."

## 1,673 Students Visit Infirmary and 37,406 Consult Docs, 1921-22

Of the entire student body registered at the university for the year 1921-22, 1,673 students spent part of their time at the university infirmary. Six hundred thirty-eight were women, and 1,035 were men.

Students seeking medical advice made 35,326 visits to the physicians at the medical clinic during the last academic year and summer session, and the doctors made 2,080 house visits to the students.

Office visits for preliminary examinations are included in the total number of office visits. A total of 37,406 consultations are recorded by the physicians for the entire year including required medical examinations.

A total of 5,387 different students received medical service from the university doctors during the regular year. This number represents

nearly 70 per cent of the entire student body of 7,756.

The 3,061 men who visited the physicians represent over 60 per cent of the men student enrolled.

The 2,326 women who sought medical service represent about 86 per cent of the women students.

Of the 4,724 students registered in the 1922 summer session, including 2,156 men and 2,568 women, a total of 304, or 6.4 per cent sought medical advice and attention.

In the fall of 1921 and in February 1922 a total of 2,979 students, including short course men and university high school students were given medical examinations by the university clinic. Of this number 1,049 were men and 1,030 were women.

All medical service has been free. There has been no financial obligations on the part of students toward the doctors. Every student enjoys the privilege of advice and attention from the staff. Each student, however, is required to pay a \$3 fee upon registration each semester for infirmary service.

## Borrowed Auto Used As Hearse For Hens

KAUKAUNA, Wis.—An auto was stolen out of Joseph Kuehns' garage Halloween night and used to transport dead chickens, also stolen.

BELOIT — A gasoline filling station will replace the landmark residence here that once was the home of Beloit's earliest settler. It was built by William Blodgett in 1869. He was the son of Caleb Blodgett, whose log cabin in 1836 was the first dwelling house in Beloit.
