The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# Strictly spinal

Spinal appliances are our only product. Which makes us unique among national orthopedic-device companies. And gives us both the motive and the skill to make every one of our braces and collars the best of its kind. Like our Jewett Hyperextension Brace, which provides fixation of the vertebral column with maximum patient comfort. Most ethical dispensing orthotists can supply and fit the brace to your prescription in hours. For literature on the J-35, write P. O. Box 1299, Winter Park, Florida 32789.
